Sub-total	**73684.63**	**78199.81**	**6314.50**	**5260.36**	**79999.13**	**83460.17**	-4.15%
Total	**659230.20**	**614164.67**	**96203.14**	**108841.94**	**755433.34**	**723006.61**	4.48%

Other non-current Liabilities

(a) Long term Provisions (Note 19)

Long Term Provisions of ₹1349.59 lakh as on 31st March, 2021 (previous year ₹6729.10 lakh) include Provisions for Employee Benefits (Medical benefit for retired employees ₹1070.55 and Other retirement benefits ₹279.04) which are expected to be settled beyond 12 months from the date of Balance Sheet.

(b) Deferred Tax liabilities/(Asset) (Note 7)

Deferred Tax Liabilities (Net) as on 31st March, 2021 amounts to **₹61814.64** lakh as compared to **₹59699.49** lakh as on 31st March, 2020. Increase in deferred Tax Liability is mainly due to capitalization of Kameng HEP.

Other Current Liabilities

(a) Trade Payables (Note 22)

Trade payables include the amounts payable on account of goods purchased or services received in the normal course of business. The trade payables as on 31st March, 2021 were ₹8583.31 lakh as compared to ₹9690.70 lakh as on 31st March, 2020. The aforesaid trade payables include amount payable to MSMEs amounting to ₹434.36 lakh as on 31.03.2021 (₹206.99 lakh as on 31.03.2020) and the same are not due for more than 45 (forty-five) days.

(b) Other Financial Liabilities (Note 23)

These include current maturity of long term debt, interest accrued but not due on outstanding loans & bonds and other liabilities like creditors for Capital expenditure, payable for employee's benefits, advance from beneficiary, advance from REC for DDUGJY SAUBHAGYA schemes, Lease liability and Other provisions, which are expected to be paid within 12 months from the date of Balance Sheet. Other Financial Liabilities as on 31st March, 2021 amounts to ₹119154.91 lakh as compared to ₹132288.68 lakh as on 31st March, 2020.

The decrease in other financial liabilities by 9.93% is primarily due to decrease in current maturity of long term debt & payable for employees benefits and increase in payable for capital expenditure.

(c) Other Current Liabilities (Note 24)

These include retention money from contractors & others, Direct & Indirect Taxes Payables and other statutory dues payable (such as, CPF, LIP etc.), which are to be paid within 12 months from the date of the Balance Sheet. Other current Liabilities as on 31st March, 2021 amounted to ₹12106.02 lakh as compared to₹13663.44 lakh as on 31st March, 2020.

The decrease in other current liabilities by 11.40 % is due to decrease in Other Statutory Dues & contractors retention money and increase in direct & indirect tax payable liability.

(d) Provisions (Note 25)

Provisions as on 31st March, 2021was ₹16742.44 lakh as compared to ₹15010.96 lakh in the previous FY. These include Provision for Employee Benefits on account of Gratuity ₹1529.85lakh (previous year ₹1306.11lakh), Medical benefit for retired employees ₹441.98 lakh (previous year ₹438.34 lakh), Leave Encashment ₹14761.47 lakh (previous year ₹13251.64 lakh), and other retiring benefit ₹9.14 lakh(previous year ₹14.87 lakh), which are expected to be settled within 12 months from the date of Balance Sheet. Increase in Short Term Provisions during FY 2020-21 by 11.53% is mainly due to Employees leave encashment and Gratuity benefits.

8. Deferred Revenue (Note-26)

Deferred revenue consists of two items detailed as under:

(₹ in Lakhs)

Deferred revenue on account of	As at March 31	
	2021	2020
Government grants	Current- 1610.72 Non-Current- 24393.51	1610.72 26004.23
Deferred foreign currency fluctuation liabilities	6059.27	5601.45
Total	**32063.50**	**33216.40**

Deferred revenue arising from Government Grant

As per the Investment Approval sanctioned vide the Ministry of Power's letter no.7/7/2009-H-I dated 14th January 2011, an amount of ₹30000.00 lakh has been sanctioned by the Ministry of Development of North Eastern Region (MDONER) as a part of the approved funding pattern for the Tuirial Hydro Electric Project, Mizoram. The total amount of ₹30000.00 lakh are included in Grant in Aid which is subjected to amortization during normative useful life of the project since its commissioning.

During the current year, Repairs & Maintenance has been debited and Stock of Spares has been credited by an amount of ₹26.72 lakhs (previous year ₹9.26 lakhs) for spares purchased out of Grant-in-aid received from the Central Government. In addition, amortization of Grant in Aid relating to Tuirial HEP during the year amounts to ₹1584.00 lakh. An equivalent amount has been recognized as income in the statement of Profit & Loss.

Further, "Deferred foreign currency fluctuation liability" has been recognized in books of the Company amounts to ₹6059.27 lakh as on 31.03.2021 (₹5601.45 lakh as on 31.03.2020) on accounts of FERV relating to foreign loan (ECB from SBI Singapore and KfW, Germany) drawn prior to 01.04.2016.

Result from Operations:

I. Total revenue (Note-27 & Note-28)

(₹ in lakh)

Sl.	Particulars	FY 2020-21	FY 2019-20	Change
1	Sale of energy	203936.44	207394.26	-1.67%
2	Sale of energy through trading	15776.03	2161.49	629.87%
3	Electricity duty	1564.69	1046.06	49.58%
4	Revenue from DSM	2819.97	2971.54	-5.10%
5	Revenue from RRAS	892.46	488.94	82.53%
6	CERC filling fee recovery	0	145.41	-100.00%

7	FERV (Net) from the beneficiaries	1547.99	32.55	4655.73%
8	NERLDC Fees & other charges from beneficiaries	319.56	738.24	-56.71%
9	Deferred revenue – Govt. grant	1610.72	1593.26	1.10%
10	Interest from the beneficiaries	341.56	4.53	7439.96%
	Revenue from operation	**228809.42**	**216576.28**	**5.65%**
11	Other income	26634.86	4031.07	560.74%
	Total Revenue	**255444.28**	**220607.35**	**15.79%**

Revenue from operation (Note 27)

NEEPCO sells electricity to bulk consumers comprising of the state-owned electricity utilities and power departments in the North Eastern Region (NER) (excluding Sikkim) as well as power departments outside NER (from Kameng HEP generation) under long term Power Purchase Agreements (PPAs) and as per the allocation made by the Ministry of Power for each of the beneficiary States. In addition, the Company resorted to Power trading through M/s NTPC Vidyut Vyapar Nigam Ltd (NVVN) and M/s PTC (I) Ltd for merchant power generated by Kameng HEP and Surplus power available to the Company on account of Un-requisitioned Energy (URS) & on regulation of power supply to the defaulting beneficiaries. Total revenue from operations during 2020-21is₹ 228809.42 lakh, which constitutes 89.57 % the total income for the year.

With total installed capacity of 2057 MW, the Company has achieved a generation of 6869.85 MU during the current year as compared to total generation of 6387.29 MU during the previous year from its total installed capacity of 1757 MW.

Other Income (Note 28)

'Other income' mainly comprises interest on bank deposits, delay payment surcharge, provision written back, and miscellaneous receipts.

Other Income is ₹26634.86 lakh during the FY 2020-21 as compared to ₹4031.07 lakh in FY 2019-20. The increase in other income is mainly due to increase in Delay payment surcharge and misc. receipts.

During the 2020-21, the Company has recognized an amount of ₹25093.79 lakh on account of "Delay payment surcharge" as against ₹3465.46 lakh recognized during 2019-20. Thus, increase in income on delay payment surcharge is ₹21628.33 lakhs and others (Net) ₹975.46 lakhs.

II. Expenditure (Note-29 to Note-33)

The total expenditure in FY 2020-21 increased by 22.84%as compared to the previous year, which is due to increase in Employee benefits expenses, Finance cost & Depreciation and decrease in fuel cost & other expenses.

(₹ in lakh)

Particulars	2020-21	2019-20	Increase/ (Decrease)	Change(%)
Fuel cost	49454.08	69001.25	(19547.17)	-28.33%
Employee benefit expense	42644.29	39225.27	3419.02	8.72%
Finance costs	50932.61	17309.98	33622.63	194.24%
Depreciation and amortization expense	65614.53	34302.60	31311.93	91.28%
Other expenses	38154.80	41069.27	(2914.47)	-7.10%
Total expenses	**246800.31**	**200908.37**	**45891.94**	**22.84%**

Fuel Cost

Price of fuel (Natural Gas) utilized in thermal generating stations of NEEPCO is governed by rate as decided and notified by the Ministry of Petroleum and Natural Gas (MoPNG), Government of India, except for Tripura Gas Based Power Plant (TGBPP) for which applicable price is governed by agreement drawn between NEEPCO and ONGC for supply of fuel. Total fuel cost consists of cost of gas and transportation expenses thereon. Decrease in fuel cost during the CY by ₹19547.17 lakh over the PY is due to decrease in MoPNG governed Domestic Gas Price to $2.39 and $1.79 per MMBTU for the period of April, 20 - September, 20 and October, 20 - March, 21 respectively in comparison to $3.69 and $3.23 per mmbtu for the comparative periods of the FY 2019-20. Further, during the FY 2020-21, net decrease in fuel (Gas) drawn by the thermal generating stations of NEEPCO in comparison to the PY (FY 2019-20) is 27.75 MMSCM, which has resulted in less fuel cost during the year in addition to its price reduction.

Expenditure on fuel (Gas) constituted 20.04% of the total expenditure during the current year (CY) as against 34.34% during the Previous Year (PY).

Employees' Remuneration and Benefits

Employees' remuneration and benefits includes salaries and wages, contribution to Provident Fund and other superannuation benefits, leave encashment etc. These expenses accounted for 17.28% of NEEPCO's total expenditure during the year as compared to 19.52% in the previous year. Increase in employee's expenses during the CY in comparison to the PY by ₹3419.02 lakh is mainly due to commissioning of Kameng HEP during the year resulting in charging off its employees benefit expenses to the Statement of Profit & Loss.

Finance Costs

NEEPCO's finance costs include interest expenses on borrowings as well as other finance charges such as commitment fees, trustee fees, guarantee fees, Exchange rate fluctuation etc. All borrowings including foreign currency borrowings are denominated in Indian Rupees for accounting purposes.

During the year, finance Cost (revenue account) increased by 194.24% to ₹50932.61 lakh from ₹17309.98 lakh in the previous year. Increase in Finance cost during the CY in comparison to the PY by ₹33622.63 lakh is mainly due to commissioning of Kameng HEP during the year resulting in charging off its borrowing costs to the Statement of Profit & Loss. Finance cost accounted for 20.64% of NEEPCO's total expenditure during the year as compared to 8.62% in the previous year.

Depreciation

Depreciation is charged on Straight Line Method following the rates & methodology as per the Central Electricity Regulatory Commission (Terms and conditions of Tariff) Regulations 2019 notified on 07th March, 2019 & amendments thereto, except few exceptions as included in approved Accounting Policy of the Company. During the FY2020-21, depreciation increased by 91.28% to ₹65614.53lakh during the current year as against ₹34302.60 lakh in FY 2019-20. Increase in depreciation during the CY in comparison to the PY by ₹31311.93 lakh is mainly due to commissioning of Kameng HEP during the year resulting in substantial assets capitalization and charging off depreciation on the said assets to the Statement of Profit & Loss.

Depreciation accounted for 26.59% of NEEPCO's total expenditure during the year as compared to 17.07% in the previous year.

Other Expenses

Other expenses (including generation and administration expenses) consists of repair and maintenance of plant assets, general establishment/ administrative expenses, Insurance charges, Trading expenses, NERLDC fees & charges, Corporate Social Responsibility expenses, Security expenses, transport expenses, electricity duties, write offs etc. These expenses represented approximately 15.46% of NEEPCO's total expenditure during the year as compared to 20.44% in FY 2019-20. In absolute terms, these expenses decreased by ₹2914.47 lakh (i.e. 7.10%) from the previous year mainly due to decrease in DSM payable by ₹1681.02 lakhs, Increase in Insurance expenses by ₹5157.51 lakhs, increase in Trading expenses by ₹1417.25 lakhs, decrease in provision for write off by ₹7649.87 lakhs and decrease in Other (net) by ₹158.34 lakhs.

Regulatory Income/ Expense

During the current financial year, the Corporation has recognised an amount of ₹4522.55 lakhs (previous year ₹10632.09 lakhs) as "Movement in Regulatory Deferral Accounts balances" (Net of tax ₹3501.77 lakhs and ₹8265.06 lakhs respectively) in the Statement of Profit & Loss. Regulatory income/(expenses) recognized in Books of the Company for the FY 2020-21 on account of the following factors:

(i) **Depreciation - Tuirial HEP**

CERC determined Annual Fixed Cost (AFC) of Tuirial Hydro Electric Project (TrHEP) of NEEPCO is in consideration of depreciation @2% in line with the decision of the Public Investment Board (PIB) of the Govt. of India for determining Revised Cost Estimate (RCE) of the project (TrHEP).

The rates and methodology as per the CERC Tariff Regulations based on which depreciation for TrHEP has been calculated and charged to the Statement of Profit & Loss of NEEPCO for the period under consideration vary from that allowed to recover through tariff as per the CERC order. Due to higher rate of depreciation as per the CERC Tariff Regulations, depreciation charged to the Statement of Profit & loss Account for the first 12 (twelve) years of operation the generating stations (TrHEP) since its "Date of Commercial Operation (COD)" will be more than that of the depreciation recoverable through tariff, which will be reversed in future during its remaining period of normative useful life of the plant. Accordingly, the lower depreciation

realized as "Revenue" for the generating station during the earlier period of its operation will be recovered/adjusted during its later useful period.

In view of above, the difference of depreciation to the extent recoverable/adjustable in future period has been recognized on an undiscounted basis as "Regulatory deferral account debit/credit balances" by credit/debit to the "Movement of Regulatory Deferral Account Balances". The difference of depreciation to the extent recoverable/adjustable in future period recognized during the CY on an undiscounted basis amounts to ₹4119.51 lakhs as "Regulatory Income".

(ii) Deferred Tax adjustment against deferred tax liabilities

Deferred tax accrued during the year on income generated from sale of electricity and further adjustable/reversal in future periods when the related deferred tax liability will form a part of current tax & recoverable from the beneficiaries amounting to ₹1177.30 lakhs has been accounted as "Deferred tax adjustment against deferred tax liability" during the CY (₹4119.14 lakhs during the PY), which has been recognized as "Regulatory income" and presented as a movement in "Regulatory Deferral Accounts Balance" in Books of the Company.

(iii) Deferred tax recoverable from beneficiaries

As per Regulation 67 of the CERC (Terms and Conditions of Tariff Regulations) 2019, Deferred tax liabilities for the period up to 31st March, 2009 whenever they materialize shall be recoverable directly by the generating companies or transmission licensees from the then beneficiaries or long term customers, as the case may be. Against the balance of ₹41254.63 lakh as on 01.04.2020 on accounts of "Deferred tax recoverable", an amount of ₹1319.85 has been recognised during the CY as Regulatory Expense.

(iv) Exchange differences on Foreign Currency Monetary items

Para 28 of the Ind AS 21- "The Effects of Changes in Foreign Exchange Rates" provides that exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognised in profit or loss in the period in which they arise. Further, para D13 AA of the Ind AS 101 – "First-time Adoption of Indian Accounting Standards" provides for a first-time adopter may continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP. Accordingly, for periods beginning on or after 01.04.2016, all exchange differences arising on translation/ settlement of monetary items other than exchange difference on borrowings to the extent treated as an adjustment to interest cost during construction period are to be charged to the Statement of Profit and Loss. Regulation 69 of the CERC (Terms and Conditions of Tariff) Regulations provides that every generating company and the transmission licensee shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises.

In view of the above, exchange differences arising from settlement/translation of monetary items denominated in foreign currency to the extent recoverable from or payable to the beneficiaries in subsequent period as per the relevant CERC Tariff regulations are recognized on an undiscounted basis as "Regulatory deferral accounts debit/credit balances" and adjusted from the year in which the same becomes recoverable from or payable to the beneficiaries. Accordingly, an amount of ₹545.59 lakhs (net) has been recognised as Regulatory Income during the year.

Profit before Tax

The profit of the Company before tax and exceptional items is tabulated below;

(₹ in lakhs)

Particulars	FY 2020-21	FY 2019-20

Financial review of Joint Venture Companies

As on 31st March 2021, NEEPCO has one Joint Venture Company as follows:

- KSK Dibbin Hydro Power Private Limited, 8-2-293/82/A/431/A, Road No.22, Jubilee Hills, Hyderabad – 500 033, India

The above Joint Venture (JV) Company are incorporated in India. Consolidated Financial Statements for the year ended 31.03.2021 has been prepared based on the un-audited accounts of the said JV Company using equity method of accounting.

A brief report of financial result on consolidation is given below:

(₹in lakh)

Particulars	For the year ended 31st March, 2021	For the year ended 31st March, 2020
Total revenue	255444.28	220607.35
Total expenses	246800.31	200908.37
Share of Profit of Joint Ventures	1.57	4.34
Profit before Rate regulated activities & Tax	4569.52	19703.32
Total Tax Expenses	3280.06	8337.23
Profit before Rate regulated activities	1289.46	11366.09
Movement in Rate Regulated Activities (net of Tax)	3501.77	8265.06
Profit / (Loss) for the year	4791.23	19631.15
Other Comprehensive Income	(818.45)	(315.08)
Total Comprehensive Income	3972.78	19316.07
Total equity	**645352.34**	**643879.56**

HUMAN RESOURCES AND HRD

As on 31.03.2021, the Corporation had 1760 numbers of regular employees including 3 Board Level Executives (excluding CVO). Out of which 779 are Executives, 244 are Supervisors and 734 are Workmen.

Analysis of Age Profile of regular employees and it findings are as under:

Age Group	Total	Percentage of employees
Upto 30 years	66	4%
31 - 40 years	210	12%
41-50 years	415	23%
51-60 years	1069	61%

Superannuation profile in the next 5(five) years:						
Cadre	2021-22	2022-23	2023-24	2024-25	2025-26	TOTAL
Executive	47	55	55	54	57	268
Supervisor	12	20	15	31	19	97
Workmen	42	41	37	48	34	202
TOTAL	**101**	**116**	**107**	**133**	**110**	**567**

The above findings indicate that 61% of manpower in the Corporation are in the age brackets of 51 years and above and about 567 numbers of employees will be superannuating by the year March, 2026. This figure suggests that the attrition rate in the Corporation is high and needs immediate attention.

During the year 2020-2021, a total number of 461 employees participated in training and total training man days achieved was 4030.

ANNEXURE – 5

Compliance Certificate on Corporate Governance

To
The Members
M/s. North Eastern Electric Power Corporation Limited
Brookland Compound, Lower New Colony
Dist. East Khasi Hills
Shillong - 793 003

We have examined the compliance of conditions of Corporate Governance by **M/s North Eastern Electric Power Corporation Limited (CIN: U40101ML1976GO1001658)** (a Non-Listed PSU) for the year ended **31st March, 2021** as stipulated in the Guidelines on Corporate Governance for Central Public Sector Enterprises issued by Department of Public Enterprises (DPE), Government of India, in May, 2010.

The compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination was limited to a review of the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and explanations given to us, we certify that the Company has complied with the requirements of Corporate Governance as stipulated in the Guidelines **except** for the non compliance of:

a. Clause 4.1.1 relating to the composition of Audit Committee which states that two-thirds of the members of the Audit Committee shall be Independent Directors

b. Clause 4.4 relating to quorum in Audit committee meeting which states that the quorum shall be either two members or one third of the members of the Audit Committee whichever is greater, but a minimum of two independent members must be present.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the Affairs of the Company.

ANNEXURE – 6A

Independent Auditors' Report

To,

The Members of North Eastern Electric Power Corporation Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of North Eastern Electric Power Corporation Limited ('the Company'), which comprise the Balance Sheet as at 31st March 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and notes to the Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'Standalone Financial Statements').

In our opinion and to the best of our information and according to the explanation given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs (financial position) of the Company as at 31st March 2021, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to the following matters in the Notes to the Standalone Financial Statements:

1. Note No.7(i) regarding recognizing of Deferred Tax Assets (DTA) ₹30546.32 lakhs during the FY 2020-21 in respect of " Unabsorbed depreciation".
2. Note No. 27(b) read with Note No. 38 VII and Note No. 47(a) regarding sale of energy includes ₹6903.18 lakhs being the revenue for the year recognized and provided for on the basis of provisional rate due to modification in Accounting Policy on "Revenue from Operations- Revenue from sale of Power". Impact of the said modification on revenue from operation during the current financial year is to the tune of ₹6903.18 lakhs and previous year ₹3826.51 lakhs.
3. Note No. 50 regarding Balances shown under Capital advances to Contractors, Trade payable and materials in transit/ with contractor/ issued on loan, Trade receivables, Other receivable are subjected to confirmation/ reconciliation and consequential adjustment if any.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below as the key audit matters to be communicated in our report.

Sl. No.	Key Audit Matter	Addressing the Key Audit Matter
1	**Recognition and Measurement of Revenue from sale of energy** The Company records revenue from sale of energy based on tariff approved by the Central Electricity Regulatory Commission (CERC) and where final tariff is yet to be approved by CERC, provisional sale is recognized on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through tariff petition. Where neither approved tariff is available nor petition is pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. The Company has also modified its accounting policy during the year for recognition of provisional revenue. (Refer note no. 27 read with significant accounting policy no. 17.1(a).)	**Our Audit Procedure** We have obtained an understanding of the CERC tariff regulations, orders, circulars, guidelines and the company's internal circulars and procedures in respect of recognition and measurement of revenue from sale of energy comprising of capacity and energy charges and adopted the following Audit Procedures: - Evaluated and tested the effectiveness of the company's design of internal controls relating to recognition and measurement of revenue from sale of energy. - Obtained the required Board resolution for modification in accounting policy. - Verified the accounting of revenue from sale of energy as well as accounting of provisional revenue from sale of energy based on provisional tariff computed as per the new modified accounting policy. - Evaluated the impact of modification in accounting policy and examined its disclosure in the notes to the Standalone Financial Statements
2	**Recognition of other income – Delayed payment surcharge** The Company recognises revenue from other income- delayed payment surcharge for sale of energy when no significant uncertainty as to measurability or collectability exists. Significant amount has been recognized during the year under this head. (Refer Note No. 28 and Significant Account Policy No. 17.2.iv)	**Our Audit Procedure:** We have adopted the following Audit Procedure: - Obtained and examined the Company's Accounting Policy in this regard. - Obtained an understanding of CERC regulation/ circular/ orders/ guidelines in this regard. - Obtained the various orders/ circular in this regard issued by the Ministry of Power, Govt. of India. - Obtained and examined the Company's communication with beneficiaries and company's directions in this regard. - Evaluated the reasonable certainty to the collectability of delayed payment surcharge and its recognition in the Standalone Financial Statement.

3	**Contingent Liability** There are number of litigations/ claims against the company pending before various forums. Claims made against the company are significant and the management's judgment is required for their proper disclosure. Disclosure of the same involves a significant degree of Management's judgment in interpreting the cases and assessment of the probability of occurrence of the liability which may be subject to Management bias. (Refer note no. 36 to the Standalone Financial Statement.)	**Our Audit Procedure** We have obtained the details of cases/ disputes/ claims pending before various courts/ Arbitration/ Quasi-Judicial Forums etc. as on 31.03.2021 from the Management along with the latest status and management's assessment for the same. We have also obtained the Company's Accounting Policy in this regard and their disclosure in notes to the Standalone financial statements for the same. We understood and tested the design and operating effectiveness of control as established by the Management for obtaining all relevant information for pending litigation/ cases. We discussed with Management regarding their basis of assessment and any material development thereto and also possible outcomes of the claims/ disputes.

Information Other than the Standalone Financial Statements and Auditors Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis Report, Director's Report including Director's Responsibility Statement and Report of Corporate Governance, but does not include the standalone financial statements and our auditors' report thereon. The Other Information as stated above is expected to be made available to us after the date of this Auditors' Report.

Our opinion on the standalone financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during audit or otherwise appears to be materially misstated.

When we read the Other Information as stated above and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and describe necessary actions required as per applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder and as per the Electricity Act, 2003 and relevant Central Electricity Regulatory Commission (CERC) regulation and other recognized accounting practices and policies.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable

and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing (SAs) will always detect a material misstatement when it exists. Our Audit being partially carried out off-site, based on documents/ information being procured electronically due to compulsion imposed from outbreak of second wave of COVID-19, our work may have inherent Risk and limitations. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of Section 143(11) of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanation given to us, we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the order, to the extent applicable.
2. As required by Section 143 (5) of the Act, on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure B, a report on the directions issued by the Comptroller and Auditor General of India.
3. As required by Section 143 (3) of the Act, we report that:
   a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
   b. in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
   c. the Balance Sheet, the Statement of Profit and Loss (including the other comprehensive income), the statement of Cash Flows and the Statement of changes in equity dealt with by this Report are in agreement with the books of account;
   d. In our opinion, the aforesaid Standalone Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act;
   e. Being a Government Company, pursuant to the Notification No. GSR 463(E) dated 5th June 2015 issued by Ministry of Corporate Affairs, Government of India, provisions of sub-section (2) of Section 164 of the Companies Act, 2013, are not applicable to the Company.

f. As per Notification No. GSR 463(E) dated 5th June, 2015 issued by the Ministry of Corporate Affairs, Govt. of India, Section 197 of the Act, as regards managerial remuneration, is not applicable to the Government Companies. Accordingly, reporting in accordance with requirement of provisions of section 197(16) of the Act is not applicable to the Company.

g. With respect to the adequacy of the internal financial controls with reference to Standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure C; and

h. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements - Refer Note 36 to the Standalone Financial Statements;

   ii. The Company has made provision, as required under the applicable law or Indian accounting standards, for material foreseeable losses, if any, on long-term contracts; and

   iii. The Company has no case of transferring any amount to the Investor Education and Protection Fund as per the provisions of the Act.

Annexure A to the Independent Auditors' Report

(Refer to in Paragraph 1 under "Report on other Legal and Regulatory Requirements" Section of Independent Auditors' Report of even date on the Standalone Financial Statement for the year ended 31st March 2021)

Based on the Audit procedure performed for the purpose of reporting a true and fair view on the Standalone Financial Statement of the Company and taking into consideration the information and explanation given to us and the books of accounts and other records examined by us in the normal course of audit and to the best of our knowledge and believe, we report that:

(i) (a) The Company has in some cases not maintained proper records related to situation of fixed assets available with it.

(b) There is a regular programme of physical verification of all fixed assets on an annual basis, by the Management. Though, no material discrepancies were noticed on such verification, in our opinion, the details and records maintained in Physical Verification Report, needs improvement having regard to the size of the Company and the nature of its assets.

(c) The title deeds of all the immovable properties are held in the name of the Company except in case of (i) KHEP, where land measuring 183.19 Hectares, valued at ₹452 lakhs is under litigation and (ii) Guwahati, where the mutation of 33.19 Acre of freehold land, valued at ₹441.00 lakhs is pending.

(ii) There is a regular programme of physical verification of inventory on an annual basis, by the Management. As informed, no material discrepancies were noticed on such physical verification.

(iii) The Company has not granted any loans, secured or unsecured to any companies, firms, limited liability partnership or other parties covered in register maintained under Section 189 of the Companies Act, 2013.

In view of the above, the clauses 3 (iii) (a), 3 (iii) (b) and 3 (iii) (c) of the Order are not applicable.

(iv) The Company has not granted any loans or given any guarantee and security covered under Section 185 and 186 of the Companies Act, 2013. In respect of investment in the Joint Venture Companies, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013.

(v) The Company has not accepted deposits from the public covered by section 73 to 76 of the Companies Act 2013. Therefore clause (v) of the order is not applicable.

(vi) We have broadly reviewed the accounts and records maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (I) of Section 148 of the Companies Act, 2013 read with Companies (Cost Records & Audit) Rules, 2014, as amended, and we are of the opinion that prima facie the prescribed accounts and records have been made and maintained. We have not, however, made detailed examination of the records with a view to determine whether they are accurate and complete.

(vii) (a) Undisputed statutory dues including provident fund, income tax, Goods and Service Tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities, with the exception for those dues, where the last date of payment has either been extended or the payment could not be made due to movement restrictions resulting from COVID-19. There are no undisputed dues outstanding as on 31st March 2021 for a period of more than six months from the date they became payable. We have been informed that employees' state insurance is not applicable to the Company.

(b) The disputed statutory dues aggregating to ₹46889.39 lakhs that have not been deposited on account of matters pending before appropriate authorities as on 31st March 2021 are detailed below:

Name of the statute	Nature of Dues	Amount (₹ In Lakh)	A.Y. to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	2891.40	2018-19	CIT (Appeal)
Income Tax Act, 1961	Income Tax	3,821.34	2012-13	High Court, Meghalaya
Income Tax Act, 1961	Income Tax	2,142.97	2013-14	High Court, Meghalaya
Income Tax Act, 1961	Income Tax	10,872.61	2014-15	ITAT, Guwahati
Income Tax Act, 1961	Income Tax	11,381.61	2015-16	High Court, Meghalaya
Income Tax Act, 1961	Income Tax	9,112.52	2016-17	High Court, Meghalaya
Income Tax Act, 1961	Income Tax	6,659.74	2012-13 to 2016-17	High Court, Meghalaya
Total		**46,882.19**		

The Company also has a disputed Statutory Dues under Service Tax for ₹7.20 lakhs at CESTAT, Kolkata.

(viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to financial institutions, banks or debenture holders.

(ix) The Company has not raised any money by way of initial public offer or further public offer. According to the information and explanations given to us, the money raised by the Company by way of Bonds, and Other loans have generally been applied for the purpose for which they were obtained.

(x) According to the information and explanations given to us and as represented by the Management and based on our examination of the books and records of the Company and in accordance with generally accepted auditing practices in India, no case of material frauds by the Company or any material fraud on the company by its officers or employees has been noticed or reported during the year.

(xi) As per notification no. GSR 463(E) dated 5th June 2015 issued by the Ministry of Corporate Affairs, Government of India, Section 197 of the Act is not applicable to the Government Companies. Accordingly, provisions of clause 3 (xi) of the Order are not applicable to the Company.

(xii) The provisions of clause 3 (xii) of the Order, for Nidhi Company, are not applicable to the Company.

(xiii) The Company has complied with the provisions of Section 177 and 188 of the Companies Act, 2013 w.r.t. transactions with the related parties, wherever applicable. Details of the transactions with the related parties have been disclosed in the Standalone financial statements as required by the applicable Indian Accounting Standards.

(xiv) The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, provisions of clause 3 (xiv) of the Order are not applicable to the Company.

(xv) The Company has not entered into any non-cash transactions with the directors or persons connected with them as covered under Section 192 of the Companies Act, 2013.

(xvi) According to information and explanation given to us, the Company is not required to be registered u/s 45-IA of Reserve Bank of India Act, 1934. Accordingly, provision of clause 3(xvi) of the Order is not applicable to the Company.

Annexure C to the Independent Auditors' Report

(Refered to in Paragraph 3(g) under 'Report on other Legal and Regulatory Requirements' section of Independent Auditors' Report of even date on the Standalone Financial statements for the year ended 31st March 2021)

Report on the Internal Financial Control under section 143 (3)(i) of the Act

We have audited the internal financial controls over financial reporting of North Eastern Electric Power Corporation Limited ('the Company') as of 31st March 2021 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained are sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting

principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any valuation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanations given to us and based on our audit, the following material weaknesses have been identified as at 31st March 2021:

the company has old information technology (IT) application system MATFIN, which is unable to cater the emerging needs and complete information consistent with financial reporting objectives. As informed to us, an ERP SAP Program is under implementation.

This could potentially result into weakness in the internal financial controls over financial reporting of the company.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, and to the best of our information and according to explanation given to us, the company has, in all material respects, an adequate internal financial controls over financial reporting as of 31st March 2021, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India and except for the possible effects of the material weaknesses described above on the achievement of the objectives of the control criteria, the Company's internal financial controls over financial reporting were operating effectively as of 31st March 2021.

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the Standalone Financial Statements of the Company as at and for the year ended 31st March 2021, and these material weaknesses do not affect our opinion on the standalone financial statements of the Company.

STANDALONE FINANCIAL STATEMENTS

Note No. 1: Significant Accounting Policies 2020-21

A. Corporate information

North Eastern Electric Power Corporation Limited ("NEEPCO Ltd."/ "the Company") is a leading power utility, primarily operating in the North-Eastern Region of India. NEEPCO Ltd, a Central Public Sector Enterprise (CPSE), is a wholly owned Subsidiary of NTPC Ltd and it is conferred with the Schedule A- Miniratna Category-I CPSE status by the Government of India. The address of the Company's registered office is Brookland Compound, Lower New Colony, Laitumkhrah, Shillong 793003, Meghalaya. Authorised Capital of the Company is ₹5000 crore. The Company has its 12 (twelve) generating stations, which are under operation [except Kopili (4 X 50 MW) power station is under shut down from the 07th of October 2019 due to rupturing of the penstock and presently under Reconstruction Renovation and Modernisation] with 8 (eight) hydro, 3 (three) thermal and 1(one) solar power generating stations. Present installed capacity of the company is 2057 MW.

NEEPCO Ltd has its debt (Bond XI issue to XXII issue) listed with Bombay Stock Exchange (BSE).

B. Basis of preparation

I. Statement of Compliance

The financial statements of the Company have been prepared in accordance with the relevant provisions of the Companies Act, 2013, Indian Accounting Standards (herein after referred to as "Ind-AS") as notified by the Ministry of Corporate Affairs pursuant to the section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and the provisions of the Electricity Act, 2003 to the extent applicable.

The Company has adopted all the applicable Ind ASs and such adoption was carried out in accordance with Accounting Principles generally accepted in India as prescribe in section 133 of the Act, read with Rule 7 of the Companies (Accounting) Rules 2014,

II. Basis of measurement

The financial statements have been prepared on historical cost basis, except

- Certain financial instruments that are measured at fair value;
- Assets held for sale – measured at fair value less cost to sell;
- Plan assets of defined employees benefit plans;

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Income and Expenses are accounted for on Mercantile Basis, except otherwise stated and disclosed accordingly.

III. Functional and presentation currency

These financial statements are presented in Indian Rupee (INR), which is the Company's functional currency. All financial information presented in INR has been rounded off to the nearest Lakh (up to two decimals) for the Company, except as stated otherwise.

IV. Current and Non-current classification

All assets and liabilities have been classified as current or non-current as per Company's operating cycle and other criteria set out in Schedule-III of the Companies Act 2013. Based on the nature of business, the Company has ascertained its operating cycle as 12 months for the purpose of Current or noncurrent classification of assets and liabilities.

Deferred tax assets and Deferred tax liabilities are classified as non-current .

V. Use of estimates and management judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, disclosure of contingent assets and liabilities at the date of financial statements and reported amount of income and expenses during the period. Actual results may differ from those estimates.

Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised in the financial statements prospectively and if material, their effects are disclosed in the notes to the financial statements.

Key sources of estimation uncertainty at the reporting date, which may cause a material adjustment to the carrying amounts of assets and liabilities for future years are provided in Note-D.

VI. Investment in Joint Venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The investment in joint venture is carried at cost, which comprises of price paid to acquire investment and directly attributable cost, less Impairment, if any.

C. Summary of Significant Accounting Policies

1. Property, plant and equipment

1.1 An item of PPE is recognized as an asset if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

1.2 Property, plant and equipment held for use in the production and transmission of power, or for administrative purposes, are stated in the balance sheet at cost, less accumulated depreciation/amortization and impairment loss, if any.

1.3 Auxiliaries which are not separately identifiable, but are common to more than one power generating unit are capitalised in the ratio of their respective installed capacity.

1.4 PPE are initially measured at cost of acquisition/ construction including decommissioning or restoration cost, if any, wherever required. The cost includes expenditure that is directly attributable to the acquisition/ construction of the asset. In cases where final settlement of bills with contractors is pending, but the asset is complete and ready for use, capitalization is done on provisional basis subject to necessary adjustments in the year of final settlement.

1.5 The expenditure incurred on start-up and commissioning of the project, including the expenditure incurred on trial/ test runs and experimental production is capitalized as an indirect element of the construction cost. However, after commencement of commercial operation, the expenditure incurred is charged to Revenue expenditure, even if the contract stipulation provides for final taking over of the plant after successful commissioning of the plant.

1.6 Subsequent expenditure on major maintenance or repairs includes the cost of the replacement of parts of assets and major overhaul costs. Where an asset or part of an asset is replaced and it is probable that future economic benefits associated with the item will be available to the Company, the expenditure is capitalized and the carrying amount of the item replaced is derecognized. If it is not practicable to determine the carrying amount of the replaced part, the company uses the cost of the replacement as an indication of what the cost of replaced part was at the time it was acquired or constructed.Similarly, overhaul costs associated with major maintenance are capitalized.

1.7 Standby equipment and servicing equipment which meet the recognition criteria of Property, Plant and Equipment are capitalized.

1.8 Assets over which the Company has control, though created on land not belonging to the Company are included under Property, Plant and Equipment.

1.9 Payments made/ liabilities created provisionally towards compensation, rehabilitation and other expenses relatable to land in possession are treated as cost of land.

1.10 Spare parts procured along-with the Plant & Machinery as well as procured subsequently which meets the recognition criteria are capitalized. Other machinery spares are treated as "stores & spares" forming part of the inventory.

1.11 Cost of mobile handsets are recognised as revenue expenditure.

1.12 An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an

item of property, plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognized in profit & loss or IEDC, as the case may be.

2. Capital work-in-progress

2.1 Expenditure incurred on assets under construction is carried at cost under Capital work in Progress. Such costs comprises purchase price of asset including all taxes/ duties and other costs that are directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

2.2 Cost directly attributable to projects under construction include costs of employee benefits, expenditure in relation to survey and investigation activities of the projects, cost of site preparation, initial delivery and handling charges, installation and assembly costs, professional fees, expenditure on maintenance and up-gradation etc. of common public facilities, depreciation on assets used in construction of project, interest during construction and other costs including administrative and general overhead costs, if attributable to construction of projects. Such costs are accumulated under "Capital works in progress" and subsequently allocated on systematic basis over major immovable assets. For projects under construction, the project specific IEDC is allocated to its qualifying assets at the time of capitalisation on the basis of Cost Estimate/ Completion Cost of the project.

2.3 Capital expenditure incurred to create facilities, over which the Company does not have control and creation of which is essential for construction of the project is carried on under "Capital works in progress" and subsequently allocated on systematic basis over major immovable assets, other than land and infrastructure facilities on commissioning of projects.

2.4 Expenditure against "Deposit works" is accounted for on the basis of statement of accounts received the concerned agency and acceptance by the Company.

2.5 Common expenditure of a project, which is partially in operation and partially under construction, is being apportioned on the basis of the installed capacity.

2.6 Share of Corporate office and Guwahati office expenditures relating to construction activities are allocated/ apportioned to the projects under construction on the basis of accretion to CWIP.

2.7 In case of abandonment/ suspension/ discontinuation of project, the expenditure in relation to the same is expensed/charged off in the year of such decision.

3. Intangible Assets

3.1 An intangible asset is recognized if and only if it is probable that the expected future economic benefit that are attributable to the assets will flow to the Company and the cost of the asset can be measuraed reliably.

3.2 Intangible assets acquired separately are measured on initial recognition at cost. Such assets are capitalized when the assets are ready for its intended use. After initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

3.3 Computer software (not being an integral part of the related hardware) acquired for internal use, is stated at cost of acquisition less accumulated amortization and impairment losses, if any.

3.4 Land taken for use from State Government (without transfer of title) and expenses on relief and rehabilitation as also on creation of alternate facilities for land evacuees or in lieu of existing facilities coming under submergence and where construction of such alternate facilities is a specific pre-condition for the acquisition of the land for the purpose of the project, are accounted for under "Land-Right to use."

3.5 Intangible assets not ready for its intended use as on the date of balance-sheet are disclosed as "Intangible assets under development".

4. Depreciation and amortization

Depreciation is charged as per Electricity Act, 2003 on straight line method following the rates and methodology notified by the Central Electricity Regulatory Commission constituted under the Act except the followings:

i. IT equipment (Personal Computers and Laptops including Peripherals) are depreciated in a period of three years.

ii. Computer software is amortised on straight-line method over a period of legal right to use or 03 (three) years, whichever is less. The amortisation period and the amortisation method of intangible assets with a finite useful life is reviewed at each financial year and adjusted prospectively, wherever required.

iii. "Land-right to use" is fully amortized over the period of useful life of the project, from its "Date of commercial operation".

iv. Leasehold Lands are amortised over the period of lease or useful life of the project, whichever is lower, from its "Date of commercial operation". Leasehold Land, in case of administrative offices, are amortised over the lease period.

v. Where the cost of depreciable assets has undergone a change during the year due to increase/ decrease in long term liabilities on account of exchange fluctuation, price adjustment, settlement of arbitration/ court cases, changes in duties and similar factors, the unamortized balances of such assets is depreciated prospectively over the residual life of such asset at the rate and methodology notified by the CERC regulations.

vi. Cost of major repairing and overhauls are depreciated over their useful lives where it is probable that future economic benefits will be available.

vii. Spares parts procured along with the Plant & Machinery or subsequently which are capitalized and added in the carrying amount of such item are depreciated over the residual useful life of the related plant and machinery at the rates and methodology notified by CERC.

viii. Assets/ procured installed, whose individual cost is ₹5000/- or less but more than ₹750/- (hereinafter is called Assets of minor value) and assets (excluding immovable assets) whose written down value is ₹5000/- or less at the beginning of the year are full depreciated during the year leaving a nominal balance of ₹1/- only.

ix. Low value items, which are in the nature of the assets (excluding immovable assets) and value up to ₹750/- are not capitalized and charged off to revenue during the year.

x. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale (or included in a disposal group that is classified as asset held for sale) in accordance with Ind AS 105 and the date that the asset is derecognised.

xi. Depreciation of Corporate/ Administrative office assets and general assets of projects under construction are charged following the rates notified vide CERC tariff regulations.

5. Impairment of assets

5.1 At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is indication that those assets may suffer an impairment loss. If any such indication exists, the recoverable amount (i.e., higher of its fair value less cost to sell and the value-in-use) is determined on individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

5.2 If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount and the difference between the carrying amount and recoverable amount is recognised as impairment loss in the statement of profit & loss.

5.3 Impairment losses recognised in prior periods are assessed at each reporting period date for any indications that the loss has decreased or no longer exits. An impairment loss is reversed if there has been a change in the estimated recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised.

6. Regulatory deferral accounts

6.1 Expenses/income recognized in the Statement of Profit & Loss to the extent recoverable from or payable to the beneficiaries is subsequent period as per CERC tariff Regulations are recognized as "Regulatory Deferral Account Balances".

6.2 Regulatory deferral account balances are adjusted from the year in which the same become recoverable from or payable to the beneficiaries.

6.3 Regulatory Deferral Account Balances are evaluated at each Balance Sheet Date to ensure that the underlying activities meet the recognition criteria and it is probable that future economic benefits associated with such balances will flow to the entity. If it is no longer probable that future economic benefit associated with such balances will flow to the Company, such balances are de-recognized.

6.4 Regulatory deferral Account Balances are tested for impairment at each Balance sheet date.

7. Foreign Currency Transaction

7.1 Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates.

7.2 In preparing the financial statements transactions in currencies other than the entity's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date.

7.3 Exchange differences on foreign currency borrowings relating to Asset under Constructions for future productive use are included in the cost of those assets when they are regarded as an adjustment to interest cost on those foreign currency borrowings as per the requirements of Ind AS 23.

7.4 Exchange differences on monetary items are recognized in the statement of profit and loss/IEDC, as the case may be, in the period in which they arise.

7.5 Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising out on settlement or translation of monetary items are recognized in the profit or loss in the year in which it arises with the exception that exchange differences on long term monetary items related to acquisition of property, plant and equipment recognized up to 31-03-2016 are adjusted to the carrying cost of property, plant and equipment.

7.6 In accordance with the CERC tariff regulations, every generating company shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises, i.e., the Company can recover the foreign exchange rate variation on actual basis when foreign currency loan is repaid after commercial operation date (COD).

8. Provisions, Contingent Liabilities and Contingent Assets

8.1 Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable ("more likely than not") that it is required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

8.2 The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation.

8.3 If the effect of the time value of money is material, provision is determined by discounting the expected future cash flow using a current pre-tax rate that reflects the risk specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

8.4 Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Contingent liabilities are not recognized but disclosed unless the possibilities of outflow of economic benefits are remote. Contingent liabilities are disclosed on the basis of judgment of management and are reviewed at each balance sheet date to reflect the current management estimate.

8.5 Contingent assets are possible assets that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefit is probable on the basis of judgment of management. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate. Contingent assets are disclosed in the financial statements when inflow of economic benefit is probable.

9. **Leases**

9.1 The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease.

9.2 Leases are classified as finance leases whenever the terms of the lease transfers substantially all the risks and rewards incidental to the ownership of an asset to the lessee. Such finance leases are generally capitalised at the lease's inception at the fair value of the leased property which equals the transaction price. All other leases are classified as operating leases.

9.3 In compliance to MCA notification, the Company has adopted Ind AS 116 "Leases" with effect from 01.04.2019 and applied to all lease contracts existing on 1 April 2019 . Consequently, the Company recorded the lease liability at the present value of remaining lease payments discounted at the incremental borrowing rate applicable at the date of initial application and the right of use assets at its carrying amount, discounted at the Company's incremental borrowing rate at the date of initial application.

10. **Inventories**

10.1 Inventories mainly comprise of stores and spare parts to be used for operation and maintenance of Property, Plant and Equipment.

10.2 Inventories are valued at costs or net realizable value (NRV), whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average cost formula and NRV is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

10.3 Value of scrap is adjusted in the account as & when sold/disposed-off and profit/loss, if any, is recognized in accounts in the year of sell/disposal.

11. **Trade receivable**

11.1 Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If collection is expected to be made within a period of 12 months or less from the reporting date, they are classified as current assets otherwise as non-current assets. Trade receivables are measured at their transaction price.

11.2 As the entire sales are made to State Govt. utilities as well as power trading companies, the Company is not providing for allowance for expected credit loss.

11.3 Trade Receivable represents the Company's right to an amount of Consideration that is unconditional (i.e. only the passage of time is required before payment of the Consideration is due)

12. **Financial Instruments**

12.1 Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction cost that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liabilities.

12.2 Other Financial Assets (Contract Assets)

Accounts Receivables is the right to consideration in exchange for goods or services, transferred to the Customer. If the Company performs by transferring the goods or services to a Customer before the Customer pays consideration or payment is due, Accounts Receivables (in the nature of Contract Asset) is recognised for the Earned Consideration that is conditional.

Financial assets comprises of investments in joint venture, advances to employees, trade receivables, cash and cash equivalents, claims recoverable, security deposits etc.

i. **Cash or Cash Equivalents:**

The Company considers all short term Bank deposits, which are readily convertible in to known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of

purchase, to be cash equivalents. Cash and cash equivalents consists of balances with banks which are unrestricted for withdrawal and usage in the balance sheet, bank overdrafts are shown within borrowings in current liabilities.

ii. Financial assets at amortized cost:

Financial assets which are initially measured at cost are subsequently measured at amortized costs if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii. Financial assets at Fair value through Other Comprehensive Income (OCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual term of the financial assets give rise on specified days to cash flows that are solely payment of principals and the interest on principal amount outstanding.

iv. Financial assets at Fair value through Profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive item on initial recognition. The transaction cost directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in the statement of profit or loss.

v. Derecognition of financial assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

vi. Impairment of financial assets

At each reporting date, the Company assess whether the credit risk on a financial instrument has increased significantly since initial recognition

If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. If, the credit risk on that financial instrument has increased significantly since initial recognition, the Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognized as an impairment gain or loss in the statement of profit and loss.

12.3 Financial liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company. The Company's financial liabilities includes loan & borrowings, trade and other payable etc.

i. The financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method.

ii. De-recognition of financial liability

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

13. Borrowing cost

13.1 Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition, construction/ development or erection of qualifying assets are capitalised to the cost of those assets, until such time substantially all the activities necessary to prepare the qualifying assets for their intended use are completed.

13.2 Investment income earned on the temporary investment of specific borrowings pending their expenditure on related qualifying assets is deducted from the borrowing costs eligible for capitalization.

13.3 All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred. Borrowing cost includes exchange differences on foreign currency borrowings are adjusted to interest cost.

13.4 Prepayment charges on repayment of loan in full will be charged off to the IEDC / Profit & Loss account, as applicable, in the year of repayment itself.

14. Government grants

14.1 Government grants are recognized when there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants has actually been received.

14.2 The benefits of a government loan at a below market rate of interest is also treated as Government Grant. The loan is initially recognised and measured at fair value and the government grant is measured as the difference between the initially recognized amount of the loan and the fair value of the loan based on prevailing market interest rates.

14.3 Government grants are recognised in the statement of profit and loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognized in the balance sheet by setting up the grant as deferred income.

14.4 Other government grants (grants related to income) are recognized as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis. Grants related to income are presented under other income in the statement of profit and loss.

15. Employee Benefits

15.1 Employee benefits consist of provident fund, pension, gratuity, post-retirement medical benefit (PRMB), leave benefits and other terminal benefits.

15.2 Company's contribution paid/payable during the year to Employees Defined Contribution Superannuation Scheme for providing Pension benefit, Provident Fund and Gratuity are accounted for and paid to respective funds which are administered through separate trusts. The Company's liability is actuarially determined for Gratuity, Leave encashment and PMRB at the Balance Sheet date and any further accretion during the year for Gratuity is provided for and that for Leave encashment and PMRB are charged to IEDC or profit & loss, as the case may be.

15.3 When the benefit of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expenses is recognized immediately in statement of profit and loss.

15.4 Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under performance related pay if the company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

15.5 The expenses incurred on terminal benefits in the form of ex-gratia payments are charged to IEDC or profit & loss, as the case may be in the year of incurrence of such expenses.

16. Income Taxes

Tax expense represents the sum of current tax and deferred tax.

16.1 Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current income tax charge is calculated by using tax rates that have been enacted or substantively enacted by the end of the reporting period.

16.2 Deferred tax

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively

enacted by the end of the reporting period. Tax relating to items recognized directly in other comprehensive income forms part of the statement of comprehensive income.

Deferred tax is provided, using the balance sheet method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered

Deferred Tax Assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which likely to give future economic benefits in the form of set off against future income tax liability. MAT is recognized as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

17. Revenue

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Revenues are reduced for rebates and other similar allowances.

17.1 Revenue from Operations

a) Revenue from Sale of Power

i. Revenue is recognised on transfer of control over the products or services to a Customer, based on the consideration that is specified in a contract with a customer or is expected to be received in exchange for the products or services and excludes amounts collected on behalf of third parties.

ii. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue".

iii. The incentives/ disincentives are recognized based on norms notified by the Central Electricity Regulatory Commission.

iv. Deferred tax liabilities till March, 2009, whenever materializes and recoverable from the beneficiaries as per the CERC tariff regulations, are accounted for on year to year basis

v. Exchange difference on account of translation of foreign currency borrowings recognized upto 31st March 2016, to the extent recoverable from or payable to the beneficiaries in subsequent periods as per the CERC Tariff Regulatons are accounted as "Deferred foreign currency fluctuation asset" with corresponding credit to "Deferred income from foreign currency fluctuation". Deferred income from foreign currency fluctuation account is amortized in the proportion in which depreciation is charged on such exchange differences and same is adjusted against depreciation expense.

vi. Rebate allowed to beneficiaries for timely payments are netted off with the the revenue from operation on account of Sale of energy

b) Revenue from DSM, RRAS and NERLDC Fees

Revenue from DSM is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Deviation Settlement Mechanism) Regulations 2014 and amendments thereto.

नार्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली NEEPCO New Delhi North Eastern Electric Power Corporation

ii. Revenue from RRAS is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Ancillary Services Operations) Regulations 2015 and amendments thereto.

iii. NERLDC Fees and charges are recognised as revenue as claimed on Beneficairies for reimbursement, governed by CERC (Terms & Conditions of Tariff) Regulations 2019 and amendments thereto.

17.2 Other Income

i. Dividend income from investments are recognized when the right to receive the dividend is established.

ii. Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iii. Insurance claims for loss of profit are accounted for in the year of acceptance. Other insurance claims are accounted for based on certainty of realisation.

iv. Interest/ Surcharge on late payment/ overdue trade receivables for sale of energy is recognized when no significant uncertainty as to measurability or collectability exists.

18. Material prior period error

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

19. Earnings Per Share

19.1 Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, if any, other than the conversion of potential equity shares, if any that have changed the number of equity shares outstanding, without a corresponding change in resources.

19.2 For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

20. Miscellaneous

20.1 Each material class of similar items is presented separately in the financial statements. Items of a dissimilar nature or function are presented separately unless they are immaterial.

20.2 Liabilities for pending Capital works executed but not certified are not provided for, pending acceptance by the Company.

20.3 Physical verification of Fixed Assets and Inventories are undertaken by the management once in a year. The discrepancies noticed, if any, are accounted for in the year in which such differences are found.

Critical accounting judgements and key sources of estimation uncertainity

In the application of the Company's accounting policies, which are described in Note-B, the management of the Company is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see point ii below), that the management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements

i. **Financial assets at amortized cost**

The management has reviewed the Company's financial assets at amortized cost in the light of its business model and have confirmed the Company's positive intention and ability to hold these financial assets to collect contractual cash flows.

ii. **Key sources of estimation uncertainty**

The following are the key assumptions concerning the future, and other key sources of estimation of uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year

a. **Impairment of investments**

The Company reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

b. **Provisions**

Provisions (excluding retirement benefits, leave encashment and Gold Coin) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates.

c. **Assets held for sale**

Significant judgement is required to apply the accounting of non-current assets held for sale under Ind AS 105- 'Noncurrent assets held for sale and discontinued operations'. In assessing the applicability, management has exercised judgement to evaluate the availability of the asset for immediate sale, management's commitment for the sale and probability of sale within one year to conclude if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

d. **Contingent liabilities**

Contingent liabilities arising from past events, the existence of which would be confirmed only on occurrence or non-occurrence of one or more future uncertain events, not wholly within the control of the Company or contingent liabilities where there is a present obligations but it is not probable that economic benefits would be required to settle the obligations are disclosed in the financial statements unless the possibility of any outflow in settlement is remote

e. **Fair value measurements and valuation processes**

For financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2 inputs are other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(i) North Eastern Electric Power Corporation (NEEPCO/ the Company) is in continuous profit (Profit before tax as well as Profit after tax) since the financial year 2003-04. During the current financial year, i.e. FY 2020-21, Kameng Hydro Electric Project (4X150 MW) (KaHEP) of the Company has been commissioned, resulting in substantial capitalization of Plant Assets. The said capitalization has resulted in accrual of considerable Deferred Tax Liability (DTL) for the Company during the year amounting to ₹31548.13 lakhs (which includes DTL amounting to ₹27093.07 lakhs for KaHEP, resulting in loss after tax to the Company.

NEEPCO is in the business of generation and sale of electricity. Electricity generated by various power plants of the Company are sold to various beneficiaries under long-term power purchase agreements. Tariffs for the generating stations are determined by the Central Electricity Regulatory Commission (CERC) in compliances to the CERC Tariff Regulations issued time to time on "Cost plus basis". Considering the CERC determined tariff for billing on NEEPCO's beneficiaries, as well as prevailing power market in India and Plant performances of the generating stations, it is expected that sufficient taxable profit will be available to the Company in future years.

In compliance to the Ind AS 12 - Taxes, the Company has recognised Deferred Tax Asset (DTA) amounting to ₹30546.32 lakhs during the FY 2020-21 in respect of "Unabsorbed depreciation" with convincing evidence that sufficient future taxable income will be available against which such DTA can be realized.

(ii) MAT credit available for the Company as on 01.04.2020 amounts to ₹2342.50 lakhs, being the amount as per computation of tax credit under Sec 115 JAA for the A/Y 2020-21. Balance MAT credit available as on 31.03.2021 amounts to ₹2342.50 lakhs.

(iii) Refer note no 49 for detailed disclosure.

Note No. 10: Trade receivables

(₹ in lakhs)

Particulars	As at 31st March 2021	As at 31st March 2020	As at 1st April 2019
Trade Receivables considered good - Secured	-	-	-
Trade Receivables considered good - Unsecured	57710.73	66226.10	63453.60
Trade Receivables - credit impaired	-	-	-
Allowance for doubtful debts	-	-	-
TOTAL	**57710.73**	**66226.10**	**63453.60**

(i) Trade receivables are dues in respect of goods sold or services rendered in the normal course of business.

(ii) Where no due date is specifically agreed upon, the normal credit period allowed by the Company is in compliance to the CERC regulations / Guidance.

(iii) Where a trade receivable has been provided for, such provision could be dictated by prudence, but one could still expect to realise the amount within 12 months from the balance sheet date. Under such circumstances, the said trade receivable is classified as current. Where, however, there is no expectation to realise the amount within the next twelve months period, the same needs to be classified as non-current along with the provision made for the same.

(iv) Change in trade receivables

(₹ in lakhs)

Particulars	As at 31st March 2021	As at 31st March 2020	As at 1st April 2019

Add:: Net Revenue Recognised but not realised during the year	(8515.37)	2772.50	17616.84
Closing Balance	57710.73	66226.10	63453.60

(v) Trade receivables are further analysed as :

(₹ in lakhs)

As at March 31, 2021	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	25205.92	-	25205.92
More than 45 days upto six months	6319.30	-	6319.30
More than six months	26185.51	-	26185.51
TOTAL	**57710.73**	**-**	**57710.73**

(₹ in lakhs)

As at March 31, 2020	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	14330.35	-	14330.35
More than 45 days upto six months	6942.72	-	6942.72
More than six months	44953.03	-	44953.03
TOTAL	**66226.10**	-	66226.10

(₹ in lakhs)

As at April 01, 2019	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	25958.89	-	25958.89
More than 60 days upto six months	10575.67	-	10575.67
More than six months	26919.04	-	26919.04
TOTAL	**63453.60**	**-**	**63453.60**

The Company considers its maximum exposure to credit risk with respect to customers as at March 31, 2021 to be ₹57710.73 lakhs (March 31, 2020: ₹66226.10 lakhs), which is the fair value of trade receivables after allowance for credit losses. The Company's exposure to customers is diversified and except MeECL (Meghalaya), no single customer contributes to more than 10% of outstanding dues (i.e. more than 45 days) accounts receivable as at March 31, 2021.

Movement in allowance for credit losses in respect of trade receivables:

Particulars	As at March 31, 2021	As at March 31, 2020	As at April 1, 2019
Balance at the beginning of the period	-	-	-
Additions during the period	-	-	-
Utilised during the period	-	-	-
Balance at the end of the period	-	-	-

In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix.

Note No. 11: Cash and Cash Equivalents

17.3 Bond Redemption Reserve

(₹ in lakhs)

Particulars	As at 31st March 2021	As at 31st March 2020	As at 1st April 2019
Balance at the beginning of the year/period	65054.17	65054.17	57067.08
Movement during the year/period	-	-	7987.09
Balance at the end of the year/period	**65054.17**	**65054.17**	**65054.17**

The nature of reserves are follows:

(a) **General Reserve :** Under the erstwhile companies Act 1956, a general reserve was created through an annual transfer of net profit at a specified percentage in accordance with applicable regulations. Consequent to the introduction of Companies Act 2013, the requirement to mandatory transfer a specified percentage of net profit to general reserve has been withdrawn.

(b) **Bond redemption reserve**: Ministry of Corporate Affairs has notified amendment to Companies (Share Capital and Debentures) Amendment Rules, 2019 on 16 August 2019. As per the amendment, Debenture Redemption Reserve (DRR) is not required to be created in case of listed companies. Accordingly, the Company has not created any Bonds/ Debenture Redemption Reserve during the year. Further, the outstanding balance of Bonds / Debenture Redemption Reserve created up to 31 March 2019 shall be written back as and when the respective bonds / debentures are redeemed.

Note No. 19: Long Term Provisions

(₹ in lakhs)

Particulars	As at 31st March 2021	As at 31st March 2020	As at 1st April 2019
Provision for Leave encashment	1070.55	6587.61	5550.27
Medical benefit for retired employees	279.04	141.49	156.79
Other retirement benefits			
Total	**1349.59**	**6729.10**	**5707.06**

The provision for employee benefits includes gratuity, Leave Encashment, Post retirement medical benefit, Gold Coin at retirement. The increase/ decrease in the carrying amount of the provision for the current year is mainly on account of net impact of incremental charge for current year and benefits paid in the current year.

1. Defined Contribution Plan

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) Provident fund

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary.Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the period was ₹3351.80 lakhs (previous year ₹3340.19 lakhs).The investment has earned sufficient interest to pay the same to the member as per the rate specified by the Government of India.

b) Superannuation fund

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt.of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC)/GL-xiv/08 dt.26.11.2008 and OM. No. 2(70)/08-DPE (WC)/GL-vii/09 dt.02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme.

The Companies contribution to the trust managing this scheme for the period was ₹2324.90 lakhs (previous year ₹2280.70 lakhs).

2. Defined benefit plans

a. Post-Retirement Medical Benefit scheme

The Company has a Contributory Scheme for Post –Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired /deceased employee and spouse of retiree/deceased are provided medical facilities on contributory basis which is as follows:

Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized / approved hospital.

For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests, examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less. The liability for the same is recognized on the basis of actuarial valuation.

b. Other retirement benefit on Superannuation

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. Other Employee benefit

Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

Note No. 25: Provisions

(₹ in lakhs)

Particulars	As at 31st March 2021	As at 31st March 2020	As at 1st April 2019
Employee benefits			
Gratuity	1529.85	1306.11	1560.89
Medical benefit for retired employees	441.98	438.34	352.55
Leave encashment	14761.47	13251.64	10377.70
Other retirement benefits	9.14	14.87	0.62
Total	**16742.44**	**15010.96**	**12291.76**

The provision for employee benefits includes gratuity, Leave Encashment, Post retirement medical benefit, Gold Coin at retirement. The increase/ decrease in the carrying amount of the provision for the current year is mainly on account of net impact of incremental charge for current year and benefits paid in the current year.

1. Defined Contribution Plan

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) Provident fund

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the period was ₹3351.80 lakhs (previous year ₹3340.19 lakhs). The investment has earned sufficient interest to pay the same to the member as per the rate specified by the Government of India.

b) Superannuation fund

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt.of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC) / GL-xiv/08 dt.26.11.2008 and OM. No. 2(70)/08-DPE (WC) / GL-vii/09 dt.02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme.

The Companies contribution to the trust managing this scheme for the period was ₹2324.90 lakhs (previous year ₹2280.70 lakhs).

2. Defined benefit plans

a. Retiring gratuity

The Company has a defined benefit gratuity plan. Every employee who has rendered continuous service of five years or more is entitled to get gratuity at 15 days salary (15/26 x last drawn basic salary plus dearness allowance) for each completed year of service subject to a maximum of ₹20.00 lakhs, on superannuation, resignation, termination, disablement or on death. The liability for the same is recognized on the basis of actuarial valuation.

The Board of Directors in their meeting held on 01.04.2013 has approved the creation of Gratuity Fund Trust vide its Resolution No.195/16 dt.1.4.2013 in order to meet the requirement of funds for payment of Gratuity to the employees separated from the services of the Corporation. Accordingly NEEPCO Employees Group Gratuity Assurance Fund Trust has been constituted on 25thJune, 2013 and a Master Policy, named as North Eastern Electric Power Corporation Ltd Employees Group Gratuity -cum-Life Assurance (cash accumulation) Scheme, has been taken from the Life Insurance Corporation of India on 5th August, 2013. Transactions with LICI during the FY 2020-21 for assessing fund balance as on 31.03.2021 are as per books of NEEPCO.

STANDALONE FINANCIAL STATEMENTS

b. Post-Retirement Medical Benefit scheme

The Company has a Contributory Scheme for Post-Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired/ deceased employee and spouse of retiree/ deceased are provided medical facilities on contributory basis which is as follows:

Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized/ approved hospital.

For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests, examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less.. The liability for the same is recognized on the basis of actuarial valuation.

c. Other retirement benefit on Superannuation

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. Other Employee benefit

a. Leave

The Company provides for earned leave benefits (including compensatory absences) and half pay leave to the employees of the Company which accrue annually at 30 days and 20 days respectively. Earned leave account is maintained in one section only i.e. en-cashable. On Superannuation/ separation of the employee from the Corporation, entire leave (Earned leave & Maximum 240 days Half Pay Leave) subject to a ceiling of 300 days will be en-cashable. Half pay leave cannot be commuted. The cash equivalent payable for Half Pay Leave would be equal to leave salary as admissible for half pay plus Dearness Allowance. The liability for the same is recognized on the basis of actuarial valuation.

b. Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

Note on Government Grant (Ind AS 20)

NEEPCO's approved Accounting Policy includes policy of recognition and accounting of "Government grant" (para 14 of note 1 - Summary of Significant Accounting Policies).

Govt. of India has approved a Sub-ordinate loan amounting to ₹29196.42 Lakh to NEEPCO for implementation of Tuirial HEP with interest @1% per annum payable from the "Date of Commercial Operation" of the project. Of the aforesaid loan amount, NEEPCO has received ₹29096.42 lakh till 31.03.2015 and the balance ₹100.00 lakh has been received during the

FY 2015-16. The loan amount (₹29096.42 lakh) received till 31.03.2015 has been recognized in books of NEEPCO as on 01.04.2015 (Ind AS Transition date) at its carrying value in compliance to the Ind AS 101 (Exception to the retrospective application). However, for the loan amount (₹100.00 lakh) received during the FY 2015-16, the benefit of the loan due to below market rate of interest (considered SBI base rate @9.70% effective as on June, 15) amounting to ₹82.64 lakh has been treated as a govt. grant and recognized in the Books of NEEPCO accordingly.

Spares out of Grant in Aid

During the current year, repairs & maintenance has been debited and Stock of Spares has been credited by an amount of ₹26.72 lakhs (Previous year ₹9.26 lakhs) for spares purchased out of Grant-in-aid received from the Central Govt. An equivalent amount has been recognized as income in the statement of Profit & Loss.

Grant from Ministry of Development of North Eastern Region

As per the Investment Approval sanctioned vide the Ministry of Power's letter no.7/7/2009-H-I dated 14th January, 2011, an amount of ₹300.00 crores has been sanctioned by the Ministry of Development of North Eastern Region (MDONER) as a part of the approved funding pattern for the Tuirial Hydro Electric Project, Mizoram. The total amount of ₹300.00 crores are included in Grant in Aid which is subjected to amortisation during normative useful life of the project since its commissioning.

Note No. 27: Revenue from Operations

(₹ in lakhs)

Particulars	For the year ended 31-Mar-21	For the year ended 31-Mar-20
Sale of Energy	203936.44	207394.26
Sale of Energy through trading	15776.03	2161.49
Electricity Duty	1564.69	1046.06
Revenue from DSM	2819.97	2971.54
Revenue from RRAS	892.46	488.94
Others ::		
CERC filling fee from the beneficiaries	-	145.41
FERV (Net) from the beneficairies	1547.99	32.55
NERLDC Fees & Other Charges from the beneficiaries	319.56	738.24
Sale of Electricity (Net)	**226857.14**	**214978.49**
Other operating Revenue ::		
Interest from the beneficiaries	341.56	4.53
Recognition from deferred revenue - Govt. grant	1610.72	1593.26
Net Revenue from Operation	**228809.42**	**216576.28**

a. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue".

b. Sale of energy includes ₹6903.18 lakhs (previous year ₹3826.51 lakh) being the revenue for the year recognised based on Annual Fixed Cost as per petition submitted to CERC pending issue of orders.

c. Sale includes ₹576.68 lakhs (Previous year ₹Nil) on account of earlier year's sales arising out of finalization of tariff in current year.

d. In terms of regulation. 67 of the CERC (Terms and conditions of Tariff) Regulations, 2019, deferred tax liabilities for the period up to 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees or from the beneficiaries or long term transmission customers/DICs, as the case may be. Accordingly, current sales includes ₹1319.85 lakhs (Previous year ₹1281.85 lakhs) as deferred tax materialisation.

e. Sale of energy is net of rebate to beneficiaries amounting to ₹848.64 lakh (previous year ₹1401.78 lakhs)

f. DSM and RRAS is accounted upto the period of the financial year 2020-21, as per the weekly statements issued by the NERPC.

g. On commissioning of the Kameng HEP (600 MW) during the current financial year, merchant power (345 MW) generated by the aforesaid plant has been sold/traded through NTPC Vidyut Vyapar Nigam Ltd (NVVN) under bi-lateral agreement as well as on "Day ahead" and "Real time" markets. Further, NEEPCO has traded available power under "Un-requisitioned surplus (URS)" for its thermal power plants, namely, AGBP and AGTPCC and on imposition of regulation to Meghalaya Energy Corporation Ltd (MeECL), its beneficiary, on "Day ahead" and "Real time" markets.

Contingent liabilities :		
Claims against the Company not acknowledged as debt in respect of:		
- Capital Works	156610.00	153671.00
- Land compensation cases	2738.00	4818.00
- Disputed Income tax demand	46889.39	44506.69
- Others	3.49	22.48
Total	206240.88	203018.17
Commitments :		
Estimated amount of contracts remaining to be executed on capital contracts and not provided for (net of advances and deposits)	-	-
Property, Plant & Equipment	32640.30	22394.77

(i) Claims against the company not acknowledged as debts as on March 31, 2021 include demand from the Income tax authorities for payment of tax of ₹46889.39 lakhs upon completion of their tax assessment for the A.Y. 2012-13 amounting to ₹3821.34 lakhs, A.Y. 2013-14 amounting to ₹2142.98 lakhs, A.Y. 2014-15 amounting to ₹10872.61 lakhs, A.Y. 2015-16 amounting to ₹11381.61 lakh, A.Y. 2016-17 amounting to ₹9112.52 lakh, **A.Y. 2018-19** amounting to ₹2891.40 lakh, Cases pending before High Court, Meghalaya amounting to ₹ 6659.73 lakh and demand from Customs, Excise and Service Tax Appellate Tribunal (CESTAT) for payment of ₹7.20 lakhs in respect of Service Tax.

(ii) There are few cases pending before the Arbitration Tribunal/ Courts, for which amount of claims are yet to be acsertained.

(iii) The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process. The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

(iv) The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition.

Note No. 37: Movement in Regulatory Deferral Accounts Balances

Nature of Rate Regulated Activities

The company is primarily engaged in the business of generation and sale of electricity. The tariff based on which the Company bill to its beneficiaries for electricity sold to them is determined by the Central Electricity Regulatory Commission (CERC) in compliance to the CERC (Terms and Conditions of Tariff) Regulations, as applicable from time to time. The said regulations allow the Company to recover its costs for providing the goods or services plus a fair return.

Recognition and measurement

- During determination of Annual Fixed Cost (AFC) of the Tuirial Hydro Electric Project (TrHEP) of North Eastern Electric Power Corporation Ltd (NEEPCO) for the period of 30.10.2017 to 31.03.2019 by the Central Electricity Regulatory Commission (CERC), order for which issued on 09.10.2018, the Hon'ble Commission has allowed depreciation @2% based on the petition submitted by NEEPCO for the said purposes in line with the decision of the Public Investment Board (PIB) of the Govt. of India during meeting dated 04.06.2010 held for considering RCE of the project (TrHEP).
- The rates and methodology as per the CERC tariff regulations based on which depreciation for TrHEP has been calculated and charged to the Statement of Profit & Loss of NEEPCO for the period under consideration vary from that allowed to recover through tariff as per the CERC order. Due to higher rate of depreciation as per the CERC regulations, depreciation

charged to the Statement of Profit & loss Account for the first 12 (twelve) years of operation TrHEP since its Date of Commercial Operation (COD) will be more than that of the depreciation recoverable through tariff, which will be reversed in future periods during remaining period of normative life of the generating station. Accordingly, the lower depreciation realized as "Revenue" for the generating station during the earlier period of its operation will be recovered/adjusted during later period.

- In view of above, the difference of depreciation to the extent recoverable/adjustable in future period has been recognized on an undiscounted basis as "Regulatory deferral account debit/credit balances" by credit/debit to the "Movement of Regulatory Deferral Account Balances".

- "Regulatory deferral account debit balances" recognized on account of the above during the period ended 31.03.2021 is as follows:

Particulars	Amount (₹ in lakhs)
Depreciation as per CERC Schedule of rates	6897.95
Depreciation @2% as allowed by CERC vide the tariff order dated 09.10.2018	2778.44
Difference (Recognized as "Regulatory Deferral balances")	**4119.51**

Regulatory Deferral Account balances in respect of Employees benefits expenses for Gratuity:

Ministry of Labour and Employment vide their Gazette notification dated the 29th March 2018 has notified the Payment of Gratuity (Amendment) Act, 2018 (12 of 2018) and thus has increased the limit of gratuity upto ₹20 (Twenty) lakh from the existing ₹10 (Ten) lakh.

Regulation 8 (3) of the CERC (Terms and conditions of Tariff) Regulations 2014 provides that "The Commission shall carry out truing up of tariff of generating station based on the performance of following Uncontrollable Parameters:

i) Force Majeure; ii) Change in Law; and iii) Primary Fuel Cost.

The increase in gratuity expenses due to enhancement of limit upto ₹20.00 lakh as per the Payment of Gratuity (Amendment) Act, 2018 falls under the category of "Change in law".

Accordingly, an amount of ₹4793.47 lakh to the extent expected as recoverable from the beneficiaries in subsequent period as per CERC Tariff Regulations have been recognized as "Regulatory Deferral Account Balances" as on 31.03.2021 in books of NEEPCO. No movement on the aforesaid balances have occured during the year ended 31.03.2021.

Regulatory Deferral Accounts Balances in respect of deferred adjustment on Deferred Tax Liabilities for projects under operation:

NEEPCO has long term Power Purchase Agreement (PPA) with the States of the North Eastern Region (referred to as the 'Beneficiaries') for selling electricity generated from its generating stations in operations. Tariff for generating stations of NEEPCO are determined by the Central Electricity Regulatory Commission (CERC) in compliance to their notified tariff regulations issued from time to time. As per the CERC Tariff Regulations 2014, ROE is grossed up with effective tax rate as applicable for the respective financial year. Accordingly, deferred tax accrued during the year on income generated from sale of electricity and further adjustable/reversal in future periods when the related deferred tax liability will form a part of current tax & recoverable from the beneficiaries has been accounted as "Deferred tax adjustment against deferred tax liability", which has been recognized as "Regulatory income" and presented as a movement in "Regulatory Deferral Accounts Balance" as a separate line item in compliance to the relevant provisions of Ind AS 114.

Regulatory Deferral Account balances due to reclassification of deferred tax recoverable from beneficiaries

As per Regulation 67 of the CERC (Terms and Conditions of Tariff Regulations) 2019, Deferred tax liabilities for the period up to 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees from the then beneficiaries or long term customers, as the case may be. Till 31st March, 2019 the deferred tax recoverable from beneficiaries in future years was presented as an adjustment to deferred tax liability and was not recognised as "Regulatory Deferral Accounts balances". The same has been reviewed during the FY 2019-20 in line with Ind AS 114 and has been reclassified as Regulatory Deferral Account balance. The regulated assets (+)/liability (-) recognized in the books to be recovered from or payable to beneficiaries in future periods are as follows:

(₹ in lakhs)

Sl. No.	Particulars	Regulatory Deferral Account Balances
A	Opening balance as on 01.04.2020	41254.63
B	Addition during the year (assets (+)/ liability (-)	-
C	Amount collected (-)/refunded (+) during the year	(1319.85)
D	Regulatory income/ (expense) recognized in the Statement of Profit and Loss (B-C)	(1319.85)
E	Closing balance as on 31.03.2021 (A+D)	39934.78

Regulatory Deferral Account balances in respect of exchange differences on Foreign Currency Monetary items

Para 28 of the Ind AS 21-"The Effects of Changes in Foreign Exchange Rates" provides that exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognised in profit or loss in the period in which they arise. Further, para D13 AA of the Ind AS 101 – "First-time Adoption of Indian Accounting Standards" provides for a first-time adopter may continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP. Accordingly, for periods beginning on or after 01.04.2016, all exchange differences arising on translation/ settlement of monetary items other than exchange difference on borrowings to the extent treated as an adjustment to interest cost during construction period are to be charged to the Statement of Profit and Loss. Regulation 69 of of the CERC (Terms and Conditions of Tariff) regulations provides that every generating company and the transmission licensee shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises.

In view of the above, exchange differences arising from settlement/translation of monetary items denominated in foreign currency to the extent recoverable from Or payable to the beneficiaries in subsequent period as per the relevant CERC Tariff regulations are recognized on an undiscounted basis as "Regulatory deferral accounts debit/credit balances" and adjusted from the year in which the same becomes recoverable from or payable to the beneficiaries.

The regulated assets (+)/liability (-) recognized in the books to be recovered from or payable to beneficiaries in future periods are as follows:

(₹ in lakhs)

Sl. No.	Particulars	Regulatory Deferral Account Balances
A	Opening balance as on 01.04.2020	914.32
B	Addition during the year (assets (+)/ liability (-)	647.34
C	Amount collected (-)/ refunded (+) during the year	101.75
D	Regulatory income/ (expense) recognized in the Statement of Profit and Loss (B-C)	545.59
E	Closing balance as on 31.03.2021 (A+D)	1459.91

a) **Regulatory deferral accounts debit balance - Note 15 recognized :**

The regulatory assets recognized in the books to be recovered from the beneficiaries in future periods are as follows:

(₹ in lakhs)

Particulars	As at 31st March 2021	As at 31st March 2020
A. Opening Balance	79861.53	69229.44
B. Movements during the year due to (i) Turial Depreciation ₹4119.51 lakhs (ii) Deferred Tax Adjustment against Deferred Tax Liability ₹1177.30 lakhs (iii) Deferred Tax Recoverable ₹ (1319.85) Lakhs (iv) Exchange difference ₹545.59 lakhs	4522.55	10632.09
C. Amount Collected / refunded during the year	-	-
D. Regulatory Deferral Account Balances recognized in the Statement of Profit & Loss (B-C)	4522.55	10632.09
E. Closing Balance (A+D)	**84384.08**	**79861.53**

Net movements in regulatory deferral account balances (I)	4522.55	10632.09
Tax on net movements in regulatory deferral account balances (II)	1020.78	2367.03
Total amount recognised in the statement of profit & loss during the year (I - II)	3501.77	8265.06

Rate of return/Discounting rate considered for recognition of Regulatory Deferral Account Balance is "Zero" Risk/uncertainty associated with future recovery of Regulatory Deferral Account Balances

- **Demand risk:** Recovery of regulatory deferral balances are subjected to billing to its beneficiaries and accordingly associated with related normal risks, such as, attitude of the customers towards settlement of their dues, availability of alternate source of supply etc.
- **Regulatory risk:** On account of Changes, if any, in Regulations and submission or approval of a rate setting application or the entity's assessment on the expected future regulatory actions.

Period over which expected to recover

i. **Employees benefit expenses:** The Company expects to recover the carrying amount of regulatory deferral debit account balances over a period of 2(two) years.

ii. **Others:** The Company is expected to recover/adjust the carrying amount of the regulatory deferral account balances over the period of normative useful life of the projects/generating stations.

Note No. 38: Additional disclosures

I. Disclosure on Kopili HEP (50X4 MW):

(i) Penstock I - feeding 02 (two) units (50 MW each) of Kopili Hydro Power Station, Umrongso, Assam of the Company got ruptured on 07.10.2019 following a Load through off and tripping of Unit -I (50 MW). 03 (three) other units were in full load during the mishap. Rupture happend at three locations of Penstock including at location immediately downstream of Valve House. Penstock protection valve closing mechanism was damaged in the incident and therefore, the Valve could not be closed to isolate the Penstock, consequently thereafter, the Power House was flooded upto EOT Crane beam level within a very short period. At present, Kopili (4 X 50 MW) system in in shutdown condition. The value of damaged assets assessed & recognised in books till 31.03.2021 amounts to ₹10366.72 lakhs (Gross value ₹20670.50 lakhs & Accumulated depreciation ₹10303.78 lakhs), for which provision for an equivalent amount has been provided in books.

(ii) The Corporation has lodged initial claim to the underwriter for an amount of ₹ 250.00 crore. Further action on this matter in under process with the underwriter.

II. Segment Reporting

NEEPCO is in the business of only one product, i.e., generation and selling of electricity. All the projects of NEEPCO are located with the North East Region, i.e., within the same geographical location. NEEPCO has no reportable segment and accordingly, Ind AS 108 – Operating Segment to disclose information about segments is not applicable.

III. During the year ended 31.03.2021, four units (each of installed capacity 150 MW) of Kameng Hydro Power Plant has been commissioned. Date of commercial operation of Unit # 1, Unit # 2, Unit # 3 and Unit # 4 of the said generating plant are 17thJune 2020,1stJuly 2020, 22nd January 2021 and 12th February 2021 respectively.

IV. Disclosure as per Ind AS 116 'Leases'

(A) Transition to Ind AS 116

The Company has applied the following practical expedients on initial application of Ind AS 116:

(i) Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.

(ii) Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.

(iii) Excluded the initial direct costs, if any, from the measurement of the right-of-use asset at the date of initial application.

On transition to Ind AS 116, the weighted average incremental borrowing rate applied to lease liabilities recognised under Ind AS 116 is 8.69%. For agrements relating to the FY 2020-21 the weighted average incremental borrowing rate is taken as 7.55%.

(B) Company as Lessee

(i) The Company's significant leasing arrangements are in respect of the following assets:

(a) Premises for guest houses/ transit camps which are not non-cancellable and are usually renewable on mutually agreeable terms.

(b) The Company has taken electrical vehicles on operating lease for a period of five years, which can be further extended at mutually agreed terms. Lease rentals are subject to escalation of 10% per annum.

(c) The Company has taken certain vehicles (other than electrical) on lease for periods more than 12 months.

(ii) The following are the carrying amounts of lease liabilities recognised and the movements during the period:

(₹ In lakhs)

Particulars	For the Year ended 31st March 2021	For the Year ended 31st March 2020
Opening Balance	978.75	-
- Additions in lease liabilities	425.48	1537.21
- Interest cost during the year	134.18	133.31
- Payment of lease liabilities	747.96	691.77
Closing Balance	**790.45**	**978.75**
Current	**522.66**	**592.10**
Non Current	**268.06**	**386.65**

(iii) The following are the carrying amounts of "Right to use Leased Assets" as on 31.03.2021:

(₹ In lakh)

Particulars	For the Year ended 31st March 2021	For the Year ended 31st March 2020
Opening Balance	934.67	-
- Additions in lease liabilities	425.48	1537.21
- Amortization during the period	633.85	602.54
Closing Balance	726.30	934.67

(iv) The following are the amounts recognised in profit or loss:

(₹ In lakh)

Between three and four years	14.96	13.07
Between four and five years	5.52	10.41
More than five years	-	5.52
Total	**790.45**	**978.75**

V. COVID-19 disclosure

I. The Company is in the business of generation and sale of electricity which is an essential service as emphasized by the Ministry of Power (MoP), Govt. of India. Due to outbreak of COVID 19, the Company has ensured availability of its power plants to generate electricity and has continued to supply electricity during the period of lockdown. In line with the directions of MoP dated 15th & 16th May 2020 issued in accordance with the announcement of Govt. of India under the Atmanirbhar Bharat special Economic and Compensation package, to allow a rebate between 20% - 25% on the capacity charge during the lockdown period subject to approval of the Board of Directors, an amount of ₹4076.02 lakh has been approved by the Board, to be allowed during the financial year 2020-21, subject to fulfiling conditions stipulated. During the year ended 31st March 2021, the Company has accounted for a rebate of ₹4076.02 lakh in respect of beneficiaries fulfilling conditions approved by the Board and the same has been disclosed as exceptional items.

Further, Central Electricity Regulatory Commission (CERC) issued an order dated 3rdApril 2020 wherein it was directed that "Late Payment Surcharge (LPS)" shall apply at a reduce rate of 12% p.a. instead of its normal rate of 18% p.a. on payments becoming overdue during the period from 24th March 2020 to 30th June 2020 to contain the impact of COVID 19. Further, under the Atmanirbhar Bharat package, the Company has deferred the capacity charges to DISCOMs for the lockdown period for the power not scheduled to be payable without interest after the lockdown period in three equal monthly installments. The impact on profit for the year due to reduction in LPS rate and deferment of capacity charges is not materials. The Company expects to fully recover the carrying amount of the assets including receivables, other financial and non-financial assets. The Company believes that the impact due to outbreak of COVID 19 is likely to be short-term in nature and does not anticipate any medium to long term risks in the Company's ability to continue as a going concern and meeting its liabilities as & when they fall due. The Company will continue to monitor any material changes to future conditions, considering the uncertainiity involved there-in.

VI. Disclosure on Vivad Se Vishwas Scheme:

The Govt. of India vide notification no. S.O. 1129 (E) dated 18.03.2020 notified "Direct Tax Vivad Se Vishwas Rules, 2020" and deadline for filing declaration under the said scheme (VsVs) extended till 31.03.2021. During the FY 2020-21, the Company has settled the following pending Income Tax disputes by opting for the VsVs Scheme.

(₹ In lakh)

FY	AY	Forum	(Payable)/ Receivable under VsVs Scheme	Balance under "Advance tax refundable" as on 31.03.2020	Inpact in the Statement of P&L A/c for the year ended 31.03.2021 (Dr)/ Cr
2008-09	2009-10	Commissioner (Appeals)	4.87	7.75	(2.89)
2009-10	2010-11	ITAT, Guwahati	(124.46)	116.66	(241.13)
2010-11	2011-12		3.13	414.29	(411.16)
2011-12	2012-13	High Court of Meghalaya	153.60	71.99	81.61
2012-13	2013-14		19.08	49.97	(30.89)
TOTAL			**56.20**	**660.66**	**(604.46)**

Accordingly, the Company has included net impact of the scheme during the FY 2020-21 amouting to ₹604.46 lakh in the Statement of Profit and Loss Account as Current Tax relating to the Previous Years under Vivas Se Vishwas Scheme.

VII. Note on Re-statement of Financial Statements:

During the Financial Year 2020-21, NEEPCO Ltd (the Company) has restated/modified its Financial Statements for the FY 2019-20 retrospectively in Compliance to "Ind AS 8 – Accounting Policies, Changes in Accounting Estimates & Errors". The said restatement/modification was carried out on account of changes in Accounting Policy on "Revenue from operations - Revenue from sale of power" as follows:

"Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC , the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries."

Accordingly, the Company has presented a third balance sheet at the beginning of the preceding period (i.e., as on 01.04.2019) in compliance to "Ind AS 1 - Presentation of Financial statements" for comparative information due to retrospective restatement in addition to the Balance sheet, Statement of Profit and loss, Cash flow and Statement of Changes in Equity and related notes for the year ended 31.03.2020 and 31.03.2021.

Impact of the aforesaid modification in policy are as follows:

i. **As on 01.04.2019**

No impact

ii. **FY 2019-20**

Revenue from operation and Total income increased by ₹3826.51 lakh

Current Tax liability increased by ₹668.57 lakh

Net worth increased by ₹3157.94 lakh

Note No. 39: Capital Management

The Company's capital management is intended to create value for shareholders by facilitating the meeting of long term and short term goals of the Company.

The Company determines the amount of capital required on the basis of annual business plan, coupled with long term and short term strategic investing plan. The funding requirements are met through equity, convertible and non- convertible debt securities, and other short term and long term borrowings. The Company's policy is aimed at combination of short term and long term borrowings.

The Company monitors the capital structure on the basis of net debt to equity ratio and maturity profile of the overall debt portfolio of the Company.

Note No. 40: Disclosure on Financial Instruments

This section gives an overview of the significance of financial instruments for the Company and provides additional information on balance sheet items that contain financial instruments.

The details of significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note no.1 to the financial statements

Financial assets and liabilities

The following table presents the carrying amount and fair value of each category of financial assets & liabilities as at March 31, 2021 & March 31, 2020.

Total					843730.59	843730.59	843730.59

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below:

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investment in quoted equity shares, quoted corporate debt instruments and mutual fund investments.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This level of hierarchy includes Company's over-the-counter (OTC) derivative contracts.

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. The main items in this category are investment in unquoted equity shares, measured at fair value.

(₹ In lakh)

Particulars	As at March 31, 2021			
	Level 1	Level 2	Level 3	Total
Financial assets measured at fair value

Total financial liabilities measured at fair value	**843730.59**	-	-	**843730.59**

The short-term financial assets and liabilities are stated at amortized cost which is approximately equal to their fair value.

The fair value in respect of the unquoted equity investments cannot be reliably measured.

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end

There have been no transfers between Level 1 and Level 2 for the years ended March 31, 2021 and March 31, 2020.

Transfer of financial assets

There have been no transfers of financial assets during the 2020-21.

Financial risk management

In the course of its business, the Company is exposed primarily to interest rates, liquidity and credit risk, which may adversely impact the fair value of its financial instruments.

The Company has a risk management policy which covers the risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the Board of Directors. The risk management framework aims to:

Create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on the Company's business plan.

Achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

Market Risk : - Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

Credit Risk :- Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks.

Liquidity Risk: Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The following table shows a maturity analysis of the anticipated cash flows including interest payable for the Company's non derivative financial liabilities on an undiscounted basis, which therefore differ from both carrying value and fair value.

(₹ In lakh)

Particulars	As at March 31, 2021				
	Carrying amount	Contractual cash flows	Less than 1 year	Between 1 - 5 years	More than 5 years
Non- derivative financial liabilities					
Borrowings	799160.41	799160.41	96203.14	385803.57	273426.63

Total (A+B)	**96002.81**	**95790.47**

Excluding unbilled revenue (Refer Note 13)

(ii) Provision for expected credit losses

(a) Financial assets for which loss allowance is measured using 12 month expected credit losses

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(b) Financial assets for which loss allowance is measured using life-time expected credit losses as per simplified approach.

The Company has customers (State government utilities) with capacity to meet the obligations and therefore the risk of default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk. Hence, no impairment loss has been recognised during the reporting periods in respect of trade receivables and unbilled revenue.

(iii) Ageing analysis of trade receivables

The ageing analysis of the trade receivables is as below: *(₹ In lakh)*

Ageing	Not due	0-30 days past due	31-60 days past due	61-90 days past due	91-120 days past due	More than 120 days past due	Total
Gross carrying amount as on 31st March 2021	25205.92	1850.79	2147.59	2097.57	221.17	26187.69	57710.73
Gross carrying amount as on 31st March 2020	13989.23	3887.79	2667.54	3.48	0.71	45677.35	66226.10

Liquidity Risks

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has an appropriate liquidity risk management framework for the management of short, medium and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Company's Treasury department is responsible for managing the short-term and long-term liquidity requirements of the Company. Short-term liquidity situation is reviewed daily by the Treasury department. The Board of directors has established policies to manage liquidity risk and the Company's Treasury department operates in line with such policies. Any breaches of these policies are reported to the Board of Directors. Long-term liquidity position is reviewed on a regular basis by the Board of Directors and appropriate decisions are taken according to the situation.

Typically, the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a month, including the servicing of financial obligations, this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

As part of the CERC Regulations, tariff inter-alia includes recovery of capital cost. The tariff regulations also provide for recovery of energy charges, operations and maintenance expenses and interest on normative working capital requirements. Since billing to the customers are generally on a monthly basis, the Company maintains sufficient liquidity to service financial obligations and to meet its operational requirements.

(i) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ In lakh)

Particulars	As at 31-03-2021	As at 31-03-2020

NEEPCO New Delhi North Eastern Electric Power Corporation

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the risk management committee.

Currency risk

The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates.

The currency profile of financial assets and financial liabilities as at 31 March 2021 and 31 March 2020 are as below:

31st March 2021 *(₹ In lakh)*

Particulars	USD	Others	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total	-	-	-
Financial Liabilities			
Secured Foreign Currency loans	20734.21		20734.21
Unsecured Foreign Curreny loans from banks & financial institution	50802.71		50802.71
Trade payables & other financial liabilities	-	-	-
Total	**71536.92**	-	**71536.92**

31st March 2020 *(₹ In lakh)*

Particulars	USD	Others	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total	-	-	-
Financial Liabilities			
Secured Foreign Currency loans	28996.44	-	28996.44
Unsecured Foreign Curreny loans from banks & financial institution	54263.75	-	54263.75
Trade payables & other financial liabilities	-	-	-
Total	**83260.19**	-	**83260.19**

Out of the above, no amount is hedged by derivative instruments. In respect of the balance exposure, gain/(loss) on account of exchange rate variations on all foreign currency loans and foreign currency monetary items (up to COD) is recoverable from beneficiaries. Therefore, currency risk in respect of such exposure would not be very significant.

Sensitivity analysis

Since the impact of strengthening or weakening of INR against USD, Euro, JPY and other currencies on the statement of profit and loss would not be very significant; therefore, sensitivity analysis for currency risk is not disclosed.

Interest Rate risk

The Group is exposed to interest rate risk arising mainly from non-current borrowings with floating interest rates. The Group is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Group manages the interest rate risks by entering into different kinds of loan arrangements with varied terms (e.g. fixed rate loans, floating rate loans, rupee term loans, foreign currency loans, etc.).

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments is as follows:

(₹ In lakh)

Particulars	31st March 2021	31st March 2020
Financial Assets		
Fixed Rate Instruments		
Bank Deposits	171.24	318.15
Total	**171.24**	**318.15**
Financial Liabilities		
Fixed Rate Instruments		
Bonds	531106.40	576732.55
Foreign currency loans	51252.61	54674.17
Rupee term loan	29125.00	29122.66
Lease obligations	790.45	978.75
	612274.46	**661508.13**
Variable-rate instruments		
Foreign currency loans	20747.76	29021.92
Rupee term loan	160753.97	116575.88
Cash Credit	6174.67	4329.38
	187676.40	149927.18
Total	**799950.86**	**811435.31**

Fair value sensitivity analysis for fixed-rate instruments

The Company's fixed rate instruments are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Cash flow sensitivity analysis for variable-rate instruments

A change of 50 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for the previous year.

(₹ In lakh)

Borrowings - current	3	36797.75	36797.75	80905.26	80905.26
Trade payables and payable for capital expenditure	3	8583.31	8583.31	9690.70	9690.70
Other financial liabilities	3	119154.91	119154.91	132288.68	132288.68

The carrying amounts of current trade receivables, current trade payables, payable for capital expenditure, investment in subsidiary and joint venture companies, cash and cash equivalents and other financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans, borrowings, non-current trade payables and payable for capital expenditure were calculated based on cash flows discounted using a current discount rate. They are classified at respective levels based on availability of quoted prices and inclusion of observable/non observable inputs.

Note No. 45: Disclosure as per Ind AS 115, 'Revenue from Contracts with Customers'

Nature of goods and services

The revenue of the Company comprises of income from energy sales, sale of energy through trading and other services. The following is a description of the principal activities:

(a) Revenue from energy sales

The major revenue of the Company comes from energy sales. The Company sells electricity to bulk customers, mainly electricity utilities owned by State Governments Discoms operating in States. Sale of electricity is generally made pursuant to long-term Power Purchase Agreements (PPAs) entered into with the beneficiaries. Further, the Company sell electrcity through Power Exchanges available with them under "Merchant Power".

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for energy sales:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms
Energy sales	The Company recognises revenue from contracts for energy sales over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from energy sales is determined in terms of CERC Regulations as notified from time to time. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. The amounts are billed on a monthly basis and are payable within contractually agreed credit period.

(b) Revenue from energy trading, consultancy and other services

Sale of Energy through trading

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for sale of energy through trading:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms
Sale of energy through trading	The Company recognises revenue from contracts for sale of energy through trading over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from sale of energy through trading is determined as per the terms of the agreements. The amounts are billed as per periodicity specified in the Contract and are payable within contractually agreed credit period.

Note No. 46: Corporate Social Responsibility (CSR)

As per Section 135 of the Companies Act, 2013 read with guidelines issued by Department of Public Enterprises, GOI, the Company is required to spend, in every financial year, at least two per cent of the average net profits of the Company made during the three immediately preceding financial years in accordance with its CSR Policy. The details of CSR expenses for the year are as under:

(a) Gross amount required to spent by the Company during the year: **₹1358.55 Lakh**

(b) Amount approved by the Board to be spent during the year : ₹728.18 Lakh

(c) Amount spent during the year:

(₹ In lakh)

Sl. No.	Particulars	FY 2020-21 #	FY 2019-20
(i)	Construction/acquisition of any asset	921.70	506.52
(ii)	On purposes other than (i) above	436.85	482.58

 # Included "On-going projects" amounting to ₹544.72 lakh

(d)	Details of related party transactions, e.g., contribution to a trust / society / section 8 company controlled by the company in relation to CSR expenditure as per Accounting Standard (AS) 18, Related Party Disclosures	NIL

Note No. 47: Disclosure as per Ind AS 1 'Presentation of financial statements'

a) Changes in Accounting Policies

During the year, following changes to the accounting policies have been made:

i. Modification in Accounting Policy on "Revenue from operations - Revenue from Sale of Power", resulting in restatements of the Financial Statements for FY 2019-20 and has been disclosed under Note no. 38 (VII). Further, impact of the said modification on revenue from operation during the current financial year is to the tune of ₹6903.18 lakhs.

ii. Certain other changes have also been made in the policies nos. 1.6, 4 (x), 6.3, 11.2, 17.1 (a) (i), 17.1 (a) (iii), 17.1 (a) (v), 17.1 (a) (vi) 17.2 (iv), 18 and D (c) for improved disclosures. There is no impact on the financial statements due to these changes. However, the policy numbers have been rearranged in the current year as required.

(b) Reclassifications and comparative figures

Certain reclassifications have been made to the comparative period's financial statements to enhance comparability with the current year's financial statements.

As a result, certain line items have been reclassified in the balance sheet and statement of cash flows, the details of which are as under:

Items of balance sheet before and after reclassification as at 31st March 2020.

(₹ In lakh)

Sl. No.	Particulars	Amount before reclassification	Reclassification	Amount after reclassification	Remarks	Reason for reclassification

North Eastern Electric Power Corporation Limited

ANNEXURE - 6B

Independent Auditors' Report

To,

The Members of North Eastern Electric Power Corporation Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of North Eastern Electric Power Corporation Limited ('the Venturer Company') and its jointly controlled entity (collectively referred to as 'the Company'), which comprise the Consolidated Balance Sheet as at 31st March 2021, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'Consolidated Financial Statements ') .

In our opinion and to the best of our information and according to the explanation given to us and due consideration of unaudited Financial Statement of the joint venture entity referred to below in the 'Other Matters' paragraph, the aforesaid Consolidated Financial Statements give the information required by the Companies Act 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the Consolidated state of affairs (financial position) of the Company as at 31st March 2021, and its Consolidated profit (financial performance including other comprehensive income), its Consolidated cash flows and the Consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to the following matters in the Notes to the Consolidated Financial Statements:

1. Note No.7(i) regarding recognizing of Deferred Tax Assets (DTA) ₹30546.32 lakhs during the FY 2020-21 in respect of "Unabsorbed depreciation".
2. Note No. 27(b) read with Note No. 38 VII and Note No. 47(a) regarding sale of energy includes ₹6903.18 lakhs being the revenue for the year recognized and provided for on the basis of provisional rate due to modification in Accounting Policy on "Revenue from Operations- Revenue from sale of Power". Impact of the said modification on revenue from operation during the current financial year is to the tune of ₹6903.18 lakhs and previous year ₹3826.51 lakhs.
3. Note No. 50 regarding Balances shown under Capital advances to Contractors, Trade payable and materials in transit/ with contractor/ issued on loan, Trade receivables, Other receivable are subjected to confirmation/ reconciliation and consequential adjustment if any.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below as the key audit matters to be communicated in our report. The below mentioned Key Audit Matters have been reproduced from the Independent Auditors' Report on the audit of Standalone Financial Statements of the venturer company.

Sl. No.	Key Audit Matter	Addressing the Key Audit Matters
1	**Recognition and Measurement of Revenue from sale of energy** The Company records revenue from sale of energy based on tariff approved by the Central Electricity Regulatory Commission (CERC) and where final tariff is yet to be approved by CERC, provisional sale is recognized on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through tariff petition. Where neither approved tariff is available nor petition is pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. The Company has also modified its accounting policy during the year for recognition of provisional revenue. (Refer note no. 27 read with Significant Accounting Policy No. 17.1(a).)	**Our Audit Procedure:** We have obtained an understanding of the CERC tariff regulations, orders, circulars, guidelines and the company's internal circulars and procedures in respect of recognition and measurement of revenue from sale of energy comprising of capacity and energy charges and adopted the following Audit Procedures: - Evaluated and tested the effectiveness of the company's design of internal controls relating to recognition and measurement of revenue from sale of energy. - Obtained the required Board resolution for modification in accounting policy. - Verified the accounting of revenue from sale of energy as well as accounting of provisional revenue from sale of energy based on provisional tariff computed as per the new modified accounting policy. - Evaluated the impact of modification in accounting policy and examined its disclosure in the notes to the Consolidated Financial Statements.
2	**Recognition of other income – Delayed payment surcharge** The Company recognises revenue from other income- delayed payment surcharge for sale of energy when no significant uncertainty as to measurability or collectability exists. Significant amount has been recognized during the year under this head. (Refer Note No. 28 and Significant Account Policy No. 17.2.iv)	**Our Audit Procedure:** We have adopted the following Audit Procedure: - Obtained and examined the Company's Accounting Policy in this regard. - Obtained an understanding of CERC regulation/ circular/ orders/ guidelines in this regard. - Obtained the various orders/circular in this regard issued by the Ministry of Power, Govt. of India. - Obtained and examined the Company's communication with beneficiaries and company's directions in this regard. - Evaluated the reasonable certainty to the collectability of delayed payment surcharge and its recognition in the Consolidated Financial Statement.

3	**Contingent Liability** There are number of litigations/claims against the company pending before various forums. Claims made against the company are significant and the management's judgment is required for their proper disclosure. Disclosure of the same involves a significant degree of Management's judgment in interpreting the cases and assessment of the probability of occurrence of the liability which may be subject to Management bias. (Refer note no. 36 to the Consolidated Financial Statement.)	**Our Audit Procedure:** We have obtained the details of cases/disputes/claims pending before various courts/Arbitration/Quasi-Judicial Forums etc. as on 31.03.2021 from the Management along with the latest status and management's assessment for the same. We have also obtained the Company's Accounting Policy in this regard and their disclosure in notes to the Consolidated financial statements for the same. We understood and tested the design and operating effectiveness of control as established by the Management for obtaining all relevant information for pending litigation/cases. We discussed with Management regarding their basis of assessment and any material development thereto and also possible outcomes of the claims/disputes.

Information Other than the Consolidated Financial Statements and Auditors Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis Report, Director's Report including Director's Responsibility Statement and Report of Corporate Governance, but does not include the Consolidated financial statements and our auditors' report thereon. The Other Information as stated above is expected to be made available to us after the date of this Auditors' Report.

Our opinion on the Consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated financial statements or our knowledge obtained during audit or otherwise appears to be materially misstated.

When we read the Other Information as stated above and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and describe necessary actions required as per applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the Consolidated financial position, Consolidated financial performance including other comprehensive income, Consolidated cash flows and Consolidated changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder and as per the Electricity Act, 2003 and relevant Central Electricity Regulatory Commission (CERC) regulation and other recognized accounting practices and policies .

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the

preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the venturer Company and its jointly controlled entity are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors are also responsible for overseeing the financial reporting process of the venturer Company and of its jointly controlled entity.

Auditors Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing (SAs) will always detect a material misstatement when it exists. Our Audit being partially carried out off-site, based on documents/ information being procured electronically due to compulsion imposed from outbreak of second wave of COVID-19, our work may have inherent Risk and limitations. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
- Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the

disclosures and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Materiality is the magnitude of misstatements in the Consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated financial statements.
- Obtain sufficient appropriate Audit evidence regarding the financial information of the business activities of the venturer company and its joint venture to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of only such business activities included in the Consolidated Financial Statements of which we are the independent Auditors. For the business activities included in the Consolidated Financial Statements, which have not been audited, their directors remain responsible for the direction, supervision and performance of it. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Others Matters

We did not audit the Financial Statements of the jointly controlled entity. The unaudited Financial Statement of jointly controlled entity has been furnished to us by the Management of the venturer company. The Consolidated Financial Statements reflect investments carried at ₹445.99 Lakhs in the Consolidated Balance Sheet as at March 31, 2021 and share of profit of joint venture at ₹1.57 Lakhs on the Consolidated Profit & Loss, based on such unaudited Financial Statements of such joint venture as at 31st March, 2021, accounted for under the Equity method. Our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosure included in respect of the jointly controlled entity, and our report in terms of section 143(3) and 143(11) of the Act, in so far as it relates to the aforesaid jointly controlled entity, is based solely on such unaudited Financial Statements.

Our opinion on the Consolidated Financial Statements and our report on other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the unaudited Financial Statements certified by the Management of jointly controlled entity.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, based on our audit and on the consideration of the unaudited Financial Statement of the jointly controlled entity as noted in the 'Other Matters' paragraph above, we report, to the extent applicable, that:

a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements;

b. in our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept by the venturer Company so far as it appears from our examination of those books;

c. the Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including the other comprehensive income), the Consolidated statement of Cash Flows and the Consolidated Statement of changes in equity dealt with by this Report are in agreement with the relevant Consolidated books of account maintained for the purpose of preparation of the Consolidated Financial Statements;

d. In our opinion, the aforesaid Consolidated Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act;

e. Being a Government Company, pursuant to the Notification No. GSR 463(E) dated 5th June 2015 issued by Ministry of Corporate Affairs, Government of India, provisions of sub-section (2) of Section 164 of the Companies Act, 2013, are not applicable to the venturer Company.

f. As per Notification No. GSR 463(E) dated 5th June, 2015 issued by the Ministry of Corporate Affairs, Govt. of India, Section 197 of the Act, as regards managerial remuneration, is not applicable to the Government Companies. Accordingly, reporting in accordance with requirement of provisions of section 197(16) of the Act is not applicable to the venturer Company.

g. With respect to the adequacy of the internal financial controls with reference to Consolidated financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure A; and

h. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the unaudited Financial Statements of the jointly controlled entity:

   i. The venturer Company has disclosed the impact of pending litigations on its financial position in its Consolidated Financial Statements - Refer Note 36 to the Consolidated Financial Statements;

   ii. The venturer Company has made provision, as required under the applicable law or Indian accounting standards, for material foreseeable losses, if any, on long-term contracts; and

   iii. The venturer Company has no case of transferring any amount to the Investor Education and Protection Fund as per the provisions of the Act.

Annexure A to the Independent Auditors' Report

(Refered to in Paragraph 1(g) under 'Report on other Legal and Regulatory Requirements' section of Independent Auditors' Report of even date on the Consolidated Financial statements for the year ended 31st March 2021)

Report on the Internal Financial Control under section 143 (3)(i) of the Act

In conjunction with our audit of the Consolidated Financial Statements of the company as of and for the year ended 31st March, 2021, we have audited the internal financial controls over financial reporting of North Eastern Electric Power Corporation Limited ('the venturer Company') and its jointly controlled entity which is a company incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the venturer Company and its jointly controlled entity, which is a company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained are sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any valuation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanations given to us and based on our audit, the following material weaknesses have been identified as at 31st March 2021:

the venturer company has old information technology (IT) application system MATFIN, which is unable to cater the emerging needs and complete information consistent with financial reporting objectives. As informed to us, an ERP SAP Program is under implementation.

This could potentially result into weakness in the internal financial controls over financial reporting of the venturer company.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, and to the best of our information and according to explanation given to us, the venturer company has, in all material respects, an adequate internal financial controls over financial reporting as of 31st March 2021, based on the internal control over financial reporting criteria established by the venturer company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India and except for the possible effects of the material weaknesses described above on the achievement of the objectives of the control criteria, the venturer Company's internal financial controls over financial reporting were operating effectively as of 31st March 2021.

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the Consolidated Financial Statements of the Company as at and for the year ended 31st March 2021, and these material weaknesses do not affect our opinion on the Consolidated financial statements of the Company.

Other Matters

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operative effectiveness of the Internal Financial Controls with reference to Consolidated Financial Statements in so far as it relates to the jointly controlled entity which is a company incorporated in India, is based on the corresponding unaudited Financial Statements of such Company incorporated in India.

Note No. 1: Significant Accounting Policies 2020-21 (Consolidated)

A. Corporate information

North Eastern Electric Power Corporation Limited ("NEEPCO Ltd."/ "the Company") is a leading power utility, primarily operating in the North-Eastern Region of India. NEEPCO Ltd, a Central Public Sector Enterprise (CPSE), is a wholly owned Subsidiary of NTPC Ltd and it is conferred with the Schedule A- Miniratna Category-I CPSE status by the Government of India. The address of the Company's registered office is Brookland Compound, Lower New Colony, Laitumkhrah, Shillong 793003, Meghalaya. Authorised Capital of the Company is ₹5000 crore. The Company has its 12 (twelve) generating stations, which are under operation [except Kopili (4 X 50 MW) power station is under shut down from the 07th of October 2019 due to rupturing of the penstock and presently under Reconstruction Renovation and Modernisation] with 8 (eight) hydro, 3 (three) thermal and 1(one) solar power generating stations. Present installed capacity of the company is 2057 MW.

NEEPCO Ltd has its debt (Bond XI issue to XXII issue) listed with Bombay Stock Exchange (BSE).

B. Basis of preparation

I. Statement of Compliance

The financial statements of the Company have been prepared in accordance with the relevant provisions of the Companies Act, 2013, Indian Accounting Standards (herein after referred to as "Ind-AS") as notified by the Ministry of Corporate Affairs pursuant to the section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and the provisions of the Electricity Act, 2003 to the extent applicable.

The Company has adopted all the applicable Ind ASs and such adoption was carried out in accordance with Accounting Principles generally accepted in India as prescribe in section 133 of the Act, read with Rule 7 of the Companies (Accounting) Rules 2014,

II. Basis of measurement

The financial statements have been prepared on historical cost basis, except

- Certain financial instruments that are measured at fair value;
- Assets held for sale – measured at fair value less cost to sell;
- Plan assets of defined employees benefit plans;

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Income and Expenses are accounted for on Mercantile Basis, except otherwise stated and disclosed accordingly.

III. Functional and presentation currency

These financial statements are presented in Indian Rupee (INR), which is the Company's functional currency. All financial information presented in INR has been rounded off to the nearest Lakh (upto two decimals) for the Company, except as stated otherwise.

IV. Current and Non-current classification

All assets and liabilities have been classified as current or non-current as per Company's operating cycle and other criteria set out in Schedule-III of the Companies Act 2013. Based on the nature of business, the Company has ascertained its operating cycle as 12 months for the purpose of Current or noncurrent classification of assets and liabilities.

Deferred tax assets and Deferred tax liabilities are classified as non-current .

V. Use of estimates and management judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, disclosure of contingent assets and liabilities at the date of financial statements and reported amount of income and expenses during the period. Actual results may differ from those estimates.

Continuous evaluation is done on the estimation and judgments based on historicalexperience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised in the financial statements prospectively and if material, their effects are disclosed in the notes to the financial statements.

Key sources of estimation uncertainty at the reporting date, which may cause a material adjustment to the carrying amounts of assets and liabilities for future years are provided in Note-D.

VI. Investment in Joint Venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The investment in joint venture is carried at cost, which comprises of price paid to acquire investment and directly attributable cost, less Impairment, if any.

C. Summary of Significant Accounting Policies

Basis of Consolidation

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with Ind AS 105.

Under the equity method, an investment in a joint venture is initially recognised in the consolidated balance sheet at cost and adjusted thereafter to recognise the Group's share of the profit and loss of the joint venture. When the Group's share of losses of a joint venture exceeds the Group's interest in that joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture.

An investment in a joint venture is accounted for using the equity method from the date on which the investee becomes a joint venture. On acquisition of the investment in a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised directly in equity as capital reserve in the period in which the investment is acquired.

If there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the net investment in a joint venture (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows from the net investment that can be reliably estimated, then it is necessary to recognise impairment loss with respect to the Group's investment in a joint venture.

When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with Ind AS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount, Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with Ind AS 36 to the extent that the recoverable amount of the investment subsequently increases.

1. Property, plant and equipment

1.1 An item of PPE is recognized as an asset if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

1.2 Property, plant and equipment held for use in the production and transmission of power, or for administrative purposes, are stated in the balance sheet at cost, less accumulated depreciation/amortization and impairment loss, if any.

1.3 Auxiliaries which are not separately identifiable, but are common to more than one power generating unit are capitalised in the ratio of their respective installed capacity.

1.4 PPE are initially measured at cost of acquisition/construction including decommissioning or restoration cost, if any, wherever required. The cost includes expenditure that is directly attributable to the acquisition/construction of the asset. In cases where final settlement of bills with contractors is pending, but the asset is complete and ready for use, capitalization is done on provisional basis subject to necessary adjustments in the year of final settlement.

1.5 The expenditure incurred on start-up and commissioning of the project, including the expenditure incurred on trial/test runs and experimental production is capitalized as an indirect element of the construction cost. However, after commencement of commercial operation, the expenditure incurred is charged to Revenue expenditure, even if the contract stipulation provides for final taking over of the plant after successful commissioning of the plant.

1.6 Subsequent expenditure on major maintenance or repairs includes the cost of the replacement of parts of assets and major overhaul costs. Where an asset or part of an asset is replaced and it is probable that future economic benefits associated with the item will be available to the Company, the expenditure is capitalized and the carrying amount of the item replaced is derecognized. If it is not practicable to determine the carrying amount of the replaced part, the company uses the cost of the replacement as an indication of what the cost of replaced part was at the time it was acquired or constructed.Similarly, overhaul costs associated with major maintenance are capitalized.

1.7 Standby equipment and servicing equipment which meet the recognition criteria of Property, Plant and Equipment are capitalized.

1.8 Assets over which the Company has control, though created on land not belonging to the Company are included under Property, Plant and Equipment.

1.9 Payments made/ liabilities created provisionally towards compensation, rehabilitation and other expenses relatable to land in possession are treated as cost of land.

1.10 Spare parts procured along-with the Plant & Machinery as well as procured subsequently which meets the recognition criteria are capitalized. Other machinery spares are treated as "stores & spares" forming part of the inventory.

1.11 Cost of mobile handsets are recognised as revenue expenditure.

1.12 An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognized in profit & loss or IEDC, as the case may be.

2. Capital work-in-progress

2.1 Expenditure incurred on assets under construction is carried at cost under Capital work in Progress. Such costs comprises purchase price of asset including all taxes/duties and other costs that are directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

2.2 Cost directly attributable to projects under construction include costs of employee benefits, expenditure in relation to survey and investigation activities of the projects, cost of site preparation, initial delivery and handling charges, installation and assembly costs, professional fees, expenditure on maintenance and up-gradation etc. of common public facilities, depreciation on assets used in construction of project, interest during construction and other costs including administrative and general overhead costs, if attributable to construction of projects. Such costs are accumulated under "Capital works in progress" and subsequently allocated on systematic basis over major immovable assets. For projects under construction, the project specific IEDC is allocated to its qualifying assets at the time of capitalisation on the basis of Cost Estimate/ Completion Cost of the project.

2.3 Capital expenditure incurred to create facilities, over which the Company does not have control and creation of which is essential for construction of the project is carried on under :Capital works in progress" and subsequently allocated on systematic basis over major immovable assets, other than land and infrastructure facilities on commissioning of projects.

2.4 Expenditure against "Deposit works" is accounted for on the basis of statement of accounts received the concerned agency and acceptance by the Company.

2.5 Common expenditure of a project, which is partially in operation and partially under construction, is being apportioned on the basis of the installed capacity.

2.6 Share of Corporate office and Guwahati office expenditures relating to construction activities are allocated/ apportioned to the projects under construction on the basis of accretion to CWIP.

2.7 In case of abandonment/ suspension/ discontinuation of project, the expenditure in relation to the same is expensed/ charged off in the year of such decision.

3. Intangible Assets

3.1 An intangible asset is recognized if and only if it is probable that the expected future economic benefit that are attributable to the assets will flow to the Company and the cost of the asset can be measuraed reliably.

3.2 Intangible assets acquired separately are measured on initial recognition at cost. Such assets are capitalized when the assets are ready for its intended use. After initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

3.3 Computer software (not being an integral part of the related hardware) acquired for internal use, is stated at cost of acquisition less accumulated amortization and impairment losses, if any.

3.4 Land taken for use from State Government (without transfer of title) and expenses on relief and rehabilitation as also on creation of alternate facilities for land evacuees or in lieu of existing facilities coming under submergence and where construction of such alternate facilities is a specific pre-condition for the acquisition of the land for the purpose of the project, are accounted for under "Land-Right to use."

3.5 Intangible assets not ready for its intended use as on the date of balance-sheet are disclosed as "Intangible assets under development".

4. Depreciation and amortization

Depreciation is charged as per Electricity Act, 2003 on straight line method following the rates and methodology notified by the Central Electricity Regulatory Commission constituted under the Act except the followings:

i. IT equipment (Personal Computers and Laptops including Peripherals) are depreciated in a period of three years.

ii. Computer software is amortised on straight-line method over a period of legal right to use or 03 (three) years, whichever is less. The amortisation period and the amortisation method of intangible assets with a finite useful life is reviewed at each financial year and adjusted prospectively, whereever required.

iii. "Land-right to use" is fully amortized over the period of useful life of the project, from its "Date of commercial operation".

iv. Leasehold Lands are amortised over the period of lease or useful life of the project, whichever is lower, from its "Date of commercial operation". Leasehold Land, in case of administrative offices, are amortised over the lease period.

v. Where the cost of depreciable assets has undergone a change during the year due to increase/ decrease in long term liabilities on account of exchange fluctuation, price adjustment, settlement of arbitration/ court cases, changes in duties and similar factors, the unamortized balances of such assets is depreciated prospectively over the residual life of such asset at the rate and methodology notified by the CERC regulations.

vi. Cost of major repairing and overhauls are depreciated over their useful lives where it is probable that future economic benefits will be available.

vii. Spares parts procured along with the Plant & Machinery or subsequently which are capitalized and added in the carrying amount of such item are depreciated over the residual useful life of the related plant and machinery at the rates and methodology notified by CERC.

viii. Assets/ procured installed, whose individual cost is ₹5000/- or less but more than ₹750/- (hereinafter is called Assets of minor value) and assets (excluding immovable assets) whose written down value is ₹5000/- or less at the beginning of the year are full depreciated during the year leaving a nominal balance of ₹1/- only.

ix. Low value items, which are in the nature of the assets (excluding immovable assets) and value up to ₹750/- are not capitalized and charged off to revenue during the year.

x. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale (or included in a disposal group that is classified as asset held for sale) in accordance with Ind AS 105 and the date that the asset is derecognised.

xi. Depreciation of Corporate/ Administrative office assets and general assets of projects under construction are charged following the rates notified vide CERC tariff regulations.

5. Impairment of assets

5.1 At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is indication that those assets may suffer an impairment loss. If any such indication exists, the recoverable amount (i.e., higher of its fair value less cost to sell and the value-in-use) is determined on individual

North Eastern Electric Power Corporation New Delhi

asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

5.2 If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount and the difference between the carrying amount and recoverable amount is recognised as impairment loss in the statement of profit & loss.

5.3 Impairment losses recognised in prior periods are assessed at each reporting period for any indications that the loss has decreased or no longer exits. An impairment loss is reversed if there has been a change in the estimated recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised.

6. Regulatory deferral accounts

6.1 Expenses/income recognized in the Statement of Profit & Loss to the extent recoverable from or payable to the beneficiaries is subsequent period as per CERC tariff Regulations are recognized as "Regulatory Deferral Account Balances".

6.2 Regulatory deferral account balances are adjusted from the year in which the same become recoverable from or payable to the beneficiaries.

6.3 Regulatory Deferral Account Balances are evaluated at each Balance Sheet Date to ensure that the underlying activities meet the recognition criteria and it is probable that future economic benefits associated with such balances will flow to the entity. If it is no longer probable that future economic benefit associated with such balances will flow to the Company, such balances are de-recognized.

6.4 Regulatory deferral Account Balances are tested for impairment at each Balance sheet date.

7. Foreign Currency Transaction

7.1 Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates.

7.2 In preparing the financial statements transactions in currencies other than the entity's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date.

7.3 Exchange differences on foreign currency borrowings relating to Asset under Constructions for future productive use are included in the cost of those assets when they are regarded as an adjustment to interest cost on those foreign currency borrowings as per the requirements of Ind AS 23.

7.4 Exchange differences on monetary items are recognized in the statement of profit and loss/ IEDC, as the case may be, in the period in which they arise.

7.5 Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising out on settlement or translation of monetary items are recognized in the profit or loss in the year in which it arises with the exception that exchange differences on long term monetary items related to acquisition of property, plant and equipment recognized up to 31-03-2016 are adjusted to the carrying cost of property, plant and equipment.

7.6 In accordance with the CERC tariff regulations, every generating company shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises, i.e., the Company can recover the foreign exchange rate variation on actual basis when foreign currency loan is repaid after commercial operation date (COD).

8. Provisions, Contingent Liabilities and Contingent Assets

8.1 Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable ("more likely than not") that it is required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

8.2 The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation.

New Delhi North Eastern Electric Power Corporation NEEPCO

8.3 If the effect of the time value of money is material, provision is determined by discounting the expected future cash flow using a current pre-tax rate that reflects the risk specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

8.4 Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Contingent liabilities are not recognized but disclosed unless the possibilities of outflow of economic benefits are remote. Contingent liabilities are disclosed on the basis of judgment of management and are reviewed at each balance sheet date to reflect the current management estimate.

8.5 Contingent assets are possible assets that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefit is probable on the basis of judgment of management. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate. Contingent assets are disclosed in the financial statements when inflow of economic benefit is probable.

9. Leases

9.1 The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease.

9.2 Leases are classified as finance leases whenever the terms of the lease transfers substantially all the risks and rewards incidental to the ownership of an asset to the lessee. Such finance leases are generally capitalised at the lease's inception at the fair value of the leased property which equals the transaction price. All other leases are classified as operating leases.

9.3 In compliance to MCA notification, the Company has adopted Ind AS 116 "Leases" with effect from 01.04.2019 and applied to all lease contracts existing on 1 April 2019. Consequently, the Company recorded the lease liability at the present value of remaining lease payments discounted at the incremental borrowing rate applicable at the date of initial application and the right of use assets at its carrying amount, discounted at the Company's incremental borrowing rate at the date of initial application.

10. Inventories

10.1 Inventories mainly comprise of stores and spare parts to be used for operation and maintenance of Property, Plant and Equipment.

10.2 Inventories are valued at costs or net realizable value (NRV), whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average cost formula and NRV is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

10.3 Value of scrap is adjusted in the account as & when sold/disposed-off and profit/loss, if any, is recognized in accounts in the year of sell/disposal.

11. Trade receivable

11.1 Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If collection is expected to be made within a period of 12 months or less from the reporting date, they are classified as current assets otherwise as non-current assets. Trade receivables are measured at their transaction price.

11.2 As the entire sales are made to State Govt. utilities as well as power trading companies, the Company is not providing for allowance for expected credit loss.

11.3 Trade Receivable represents the Company's right to an amount of Consideration that is unconditional (i.e. only the passage of time is required before payment of the Consideration is due)

12. Financial Instruments

12.1 Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction cost that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liabilities.

12.2 Other Financial Assets (Contract Assets)

Accounts Receivables is the right to consideration in exchange for goods or services, transferred to the Customer. If the Company performs by transferring the goods or services to a Customer before the Customer pays consideration or payment is due, Accounts Receivables (in the nature of Contract Asset) is recognised for the Earned Consideration that is conditional.

Financial assets comprises of investments in joint venture, advances to employees, trade receivables, cash and cash equivalents, claims recoverable, security deposits etc.

i. **Cash or Cash Equivalents:**

The Company considers all short term Bank deposits, which are readily convertible in to known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consists of balances with banks which are unrestricted for withdrawal and usage in the balance sheet, bank overdrafts are shown within borrowings in current liabilities.

ii. **Financial assets at amortized cost:**

Financial assets which are initially measured at cost are subsequently measured at amortized costs if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii. **Financial assets at Fair value through Other Comprehensive Income (OCI)**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual term of the financial assets give rise on specified days to cash flows that are solely payment of principals and the interest on principal amount outstanding.

iv. **Financial assets at Fair value through Profit or loss**

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive item on initial recognition. The transaction cost directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in the statement of profit or loss.

v. **Derecognition of financial assets**

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

vi. **Impairment of financial assets**

At each reporting date, the Company assess whether the credit risk on a financial instrument has increased significantly since initial recognition

If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. If, the credit risk on that financial instrument has increased significantly since initial recognition, the Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognized as an impairment gain or loss in the statement of profit and loss.

12.3 Financial liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company. The Company's financial liabilities includes loan & borrowings, trade and other payable etc.

(i) The financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method.

ii. **De-recognition of financial liability**

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

13. Borrowing cost

13.1 Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition, construction/development or erection of qualifying assets are capitalised to the cost of those assets, until such time substantially all the activities necessary to prepare the qualifying assets for their intended use are completed.

13.2 Investment income earned on the temporary investment of specific borrowings pending their expenditure on related qualifying assets is deducted from the borrowing costs eligible for capitalization.

13.3 All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred. Borrowing cost includes exchange differences on foreign currency borrowings are adjusted to interest cost.

13.4 Prepayment charges on repayment of loan in full will be charged off to the IEDC / Profit & Loss account, as applicable, in the year of repayment itself.

14. Government grants

14.1 Government grants are recognized when there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants has actually been received.

14.2 The benefits of a government loan at a below market rate of interest is also treated as Government Grant. The loan is initially recognised and measured at fair value and the government grant is measured as the difference between the initially recognized amount of the loan and the fair value of the loan based on prevailing market interest rates.

14.3 Government grants are recognised in the statement of profit and loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognized in the balance sheet by setting up the grant as deferred income.

14.4 Other government grants (grants related to income) are recognized as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis. Grants related to income are presented under other income in the statement of profit and loss.

15. Employee Benefits

15.1 Employee benefits consist of provident fund, pension, gratuity, post-retirement medical benefit (PRMB), leave benefits and other terminal benefits.

15.2 Company's contribution paid/payable during the year to Employees Defined Contribution Superannuation Scheme for providing Pension benefit, Provident Fund and Gratuity are accounted for and paid to respective funds which are administered through separate trusts. The Company's liability is actuarially determined for Gratuity, Leave encashment and PMRB at the Balance Sheet date and any further accretion during the year for Gratuity is provided for and that for Leave encashment and PMRB are charged to IEDC or profit & loss, as the case may be.

15.3 When the benefit of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expenses is recognized immediately in statement of profit and loss.

15.4 Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under performance related pay if the company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

15.5 The expenses incurred on terminal benefits in the form of ex-gratia payments are charged to IEDC or profit & loss, as the case may be in the year of incurrence of such expenses.

16. Income Taxes

Tax expense represents the sum of current tax and deferred tax.

North Eastern Electric Power Corporation New Delhi

16.1 Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current income tax charge is calculated by using tax rates that have been enacted or substantively enacted by the end of the reporting period.

16.2 Deferred tax

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Tax relating to items recognized directly in other comprehensive income forms part of the statement of comprehensive income.

Deferred tax is provided, using the balance sheet method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered

Deferred Tax Assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which likely to give future economic benefits in the form of set off against future income tax liability. MAT is recognized as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

17. Revenue

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Revenues are reduced for rebates and other similar allowances.

17.1 Revenue from Operations

a) Revenue from Sale of Power

i. Revenue is recognised on transfer of control over the products or services to a Customer, based on the consideration that is specified in a contract with a customer or is expected to be received in exchange for the products or services and excludes amounts collected on behalf of third parties.

ii. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue".

iii. The incentives/disincentives are recognized based on norms notified by the Central Electricity Regulatory Commission.

iv. Deferred tax liabilities till March, 2009, whenever materializes and recoverable from the beneficiaries as per the CERC tariff regulations, are accounted for on year to year basis

v. Exchange difference on account of translation of foreign currency borrowings recognized upto 31st March 2016, to the extent recoverable from or payable to the beneficiaries in subsequent periods as per the CERC Tariff Regulatons are accounted as "Deferred foreign currency fluctuation asset" with corresponding credit to "Deferred income from foreign currency fluctuation" . Deferred income from foreign currency fluctuation account is amortized in the proportion in which depreciation is charged on such exchange differences and same is adjusted against depreciation expense.

vi. Rebate allowed to beneficiaries for timely payments are netted off with the the revenue from operation on account of Sale of energy

b) **Revenue from DSM, RRAS and NERLDC Fees**

i. Revenue from DSM is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Deviation Settlement Mechanism) Regulations 2014 and amendments thereto.

ii. Revenue from RRAS is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Ancillary Services Operations) Regulations 2015 and amendments thereto.

iii. NERLDC Fees and charges are recognised as revenue as claimed on Beneficairies for reimbursement, governed by CERC (Terms & Conditions of Tariff) Regulations 2019 and amendments thereto.

17.2 Other Income

i. Dividend income from investments are recognized when the right to receive the dividend is established.

ii. Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iii. Insurance claims for loss of profit are accounted for in the year of acceptance. Other insurance claims are accounted for based on certainty of realisation.

iv. Interest/Surcharge on late payment /overdue trade receivables for sale of energy is recognized when no significant uncertainty as to measurability or collectability exists.

18. Material prior period error

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

19. Earnings Per Share

19.1 Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, if any, other than the conversion of potential equity shares, if any that have changed the number of equity shares outstanding, without a corresponding change in resources.

19.2 For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

20. Miscellaneous

20.1 Each material class of similar items is presented separately in the financial statements. Items of a dissimilar nature or function are presented separately unless they are immaterial.

20.2 Liabilities for pending Capital works executed but not certified are not provided for , pending acceptance by the Company.

20.3 Physical verification of Fixed Assets and Inventories are undertaken by the management once in a year. The discrepancies noticed, if any, are accounted for in the year in which such differences are found.

21. Critical accounting judgements and key sources of estimation uncertainity

In the application of the Company's accounting policies, which are described in Note-B, the management of the Company is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised.

22. **Critical judgements in applying accounting policies**

The following are the critical judgements, apart from those involving estimations (see point ii below), that the management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements

i. **Financial assets at amortized cost**

The management has reviewed the Company's financial assets at amortized cost in the light of its business model and have confirmed the Company's positive intention and ability to hold these financial assets to collect contractual cash flows.

ii. **Key sources of estimation uncertainity**

The following are the key assumptions concerning the future, and other key sources of estimation of uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year

a. **Impairment of investments**

The Company reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

b. **Provisions**

Provisions (excluding retirement benefits, leave encashment and Gold Coin) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates.

c. **Assets held for sale**

Significant judgement is required to apply the accounting of non-current assets held for sale under Ind AS 105- 'Noncurrent assets held for sale and discontinued operations'. In assessing the applicability, management has exercised judgment to evaluate the availability of the asset for immediate sale, management's commitment for the sale and probability of sale within one year to conclude if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

d. **Contingent liabilities**

Contingent liabilities arising from past events, the existence of which would be confirmed only on occurrence or non-occurrence of one or more future uncertain events, not wholly within the control of the Company or contingent liabilities where there is a present obligations but it is not probable that economic benefits would be required to settle the obligations are disclosed in the financial statements unless the possibility of any outflow in settlement is remote

e. **Fair value measurements and valuation processes:**

For financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2 inputs are other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(i) North Eastern Electric Power Corporation (NEEPCO/ the Company) is in continuous profit (Profit before tax as well as Profit after tax) since the financial year 2003-04. During the current financial year, i.e. FY 2020-21, Kameng Hydro Electric Project (4X150 MW) (KaHEP) of the Company has been commissioned, resulting in substantial capitalization of Plant Assets. The said capitalization has resulted in accrual of considerable Deferred Tax Liability (DTL) for the Company during the year amounting to ₹31548.13 lakhs (which includes DTL amounting to ₹27093.07 lakhs for KaHEP, resulting in loss after tax to the Company.

NEEPCO is in the business of generation and sale of electricity. Electricity generated by various power plants of the Company are sold to various beneficiaries under long-term power purchase agreements. Tariffs for the generating stations are determined by the Central Electricity Regulatory Commission (CERC) in compliances to the CERC Tariff Regulations issued time to time on "Cost plus basis". Considering the CERC determined tariff for billing on NEEPCO's beneficiaries, as well as prevailing power market in India and Plant performances of the generating stations, it is expected that sufficient taxable profit will be available to the Company in future years.

In compliance to the Ind AS 12 - Taxes, the Company has recognised Deferred Tax Asset (DTA) amounting to ₹30546.32 lakhs during the FY 2020-21 in respect of "Unabsorbed depreciation" with convincing evidence that sufficient future taxable income will be available against which such DTA can be realized.

(ii) MAT credit available for the Company as on 01.04.2020 amounts to ₹2342.50 lakhs, being the amount as per computation of tax credit under Sec 115 JAA for the A/Y 2020-21. Balance MAT credit available as on 31.03.2021 amounts to ₹2342.50 lakhs.

(iii) Refer note no 49 for detailed disclosure.

Particulars	As at 31st March 2021	As at 31st March 2020	As at 1st April 2019
Trade Receivables considered good - Secured	-	-	-
Trade Receivables considered good - Unsecured	57710.73	66226.10	63453.60
Trade Receivables - credit impaired	-	-	-
Allowance for doubtful debts	-	-	-
TOTAL	**57710.73**	**66226.10**	**63453.60**

(i) Trade receivables are dues in respect of goods sold or services rendered in the normal course of business.

(ii) Where no due date is specifically agreed upon, the normal credit period allowed by the Company is in compliance to the CERC regulations / Guidance.

(iii) Where a trade receivable has been provided for, such provision could be dictated by prudence, but one could still expect to realise the amount within 12 months from the balance sheet date. Under such circumstances, the said trade receivable is classified as current. Where, however, there is no expectation to realise the amount within the next twelve months period, the same needs to be classified as non-current along with the provision made for the same.

(iv) Change in trade receivables.

(₹ In lakh)

Particulars	As at 31st March 2021	As at 31st March 2020	As at 1st April 2019

(₹ In lakh)

As at March 31, 2020	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	14330.35	-	14330.35
More than 45 days upto six months	6942.72	-	6942.72
More than six months	44953.03	-	44953.03
TOTAL	**66226.10**	-	66226.10

(₹ In lakh)

As at April 01, 2019	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	25958.89	-	25958.89
More than 60 days upto six months	10575.67	-	10575.67
More than six months	26919.04	-	26919.04
TOTAL	**63453.60**	-	63453.60

The Company considers its maximum exposure to credit risk with respect to customers as at March 31, 2021 to be ₹57710.73 lakhs (March 31, 2020: ₹66226.10 lakhs), which is the fair value of trade receivables after allowance for credit losses. The Company's exposure to customers is diversified and except MeECL (Meghalaya), no single customer contributes to more than 10% of outstanding dues (i.e. more than 45 days) accounts receivable as at March 31, 2021.

Movement in allowance for credit losses in respect of trade receivables:

Particulars	As at March 31, 2021	As at March 31, 2020	As at April 1, 2019
Balance at the beginning of the period	-	-	-
Additions during the period			
Utilised during the period			
Balance at the end of the period	-	-	-

In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix.

Note No. 11: Cash and Cash Equivalents

Balance at the end of the year/period	**65054.17**	**65054.17**	**65054.17**

The nature of reserves are follows:

(a) **General Reserve :** Under the erstwhile companies Act 1956, a general reserve was created through an annual transfer of net profit at a specified percentage in accordance with applicable regulations. Consequent to the introduction of Companies Act 2013, the requirement to mandatory transfer a specified percentage of net profit to general reserve has been withdrawn.

(b) **Bond redemption reserve:** Ministry of Corporate Affairs has notified amendment to Companies (Share Capital and Debentures) Amendment Rules, 2019 on 16 August 2019. As per the amendment, Debenture Redemption Reserve (DRR) is not required to be created in case of listed companies. Accordingly, the Company has not created any Bonds/ Debenture Redemption Reserve during the year. Further, the outstanding balance of Bonds / Debenture Redemption Reserve created up to 31 March 2019 shall be written back as and when the respective bonds / debentures are redeemed.

Note No. 19: Long Term Provisions

(₹ In lakh)

Particulars	As at 31st March 2021	As at 31st March 2020	As at 1st April 2019
Provision for Leave encashment			
Medical benefit for retired employees	1070.55	6587.61	5550.27
Other retirement benefits	279.04	141.49	156.79
Total	**1349.59**	**6729.10**	**5707.06**

The provision for employee benefits includes gratuity, Leave Encashment, Post retirement medical benefit, Gold Coin at retirement. The increase/ decrease in the carrying amount of the provision for the current year is mainly on account of net impact of incremental charge for current year and benefits paid in the current year.

1. **Defined Contribution Plan**

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) **Provident fund**

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the period was ₹3351.80 lakhs (previous year ₹3340.19 lakhs). The investment has earned sufficient interest to pay the same to the member as per the rate specified by the Government of India.

b) **Superannuation fund**

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt. of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC) / GL-xiv/08 dt. 26.11.2008 and OM. No. 2(70)/08-DPE (WC) / GL-vii/09 dt. 02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme. The Companies contribution to the trust managing this scheme for the period was ₹2324.90 lakhs (previous year ₹2280.70 lakhs).

2. **Defined benefit plans**

a. **Post-Retirement Medical Benefit scheme**

The Company has a Contributory Scheme for Post-Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired /deceased employee and spouse of retiree/deceased are provided medical facilities on contributory basis which is as follows:

Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized/ approved hospital.

For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests, examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less.. The liability for the same is recognized on the basis of actuarial valuation.

b. **Other retirement benefit on Superannuation**

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. **Other Employee benefit**

Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

The provision for employee benefits includes gratuity, Leave Encashment, Post retirement medical benefit, Gold Coin at retirement. The increase/ decrease in the carrying amount of the provision for the current year is mainly on account of net impact of incremental charge for current year and benefits paid in the current year.

1. Defined Contribution Plan

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) Provident fund

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary.Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the period was ₹3351.80 lakhs (previous year ₹3340.19 lakhs). The investment has earned sufficient interest to pay the same to the member as per the rate specified by the Government of India.

b) Superannuation fund

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt.of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC)/ GL-xiv/08 dt.26.11.2008 and OM. No. 2(70)/08-DPE (WC) / GL-vii/09 dt.02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme.

The Companies contribution to the trust managing this scheme for the period was ₹2324.90 lakhs (previous year ₹2280.70 lakhs).

2. Defined benefit plans

a. Retiring gratuity

The Company has a defined benefit gratuity plan. Every employee who has rendered continuous service of five years or more is entitled to get gratuity at 15 days salary (15/26 x last drawn basic salary plus dearness allowance) for each completed year of service subject to a maximum of ₹20.00 lakhs, on superannuation, resignation, termination, disablement or on death. The liability for the same is recognized on the basis of actuarial valuation.

The Board of Directors in their meeting held on 01.04.2013 has approved the creation of Gratuity Fund Trust vide its Resolution No.195/16 dt.1.4.2013 in order to meet the requirement of funds for payment of Gratuity to the employees separated from the services of the Corporation. Accordingly NEEPCO Employees Group Gratuity Assurance Fund Trust has been constituted on 25th June, 2013 and a Master Policy, named as North Eastern Electric Power Corporation Ltd Employees Group Gratuity –cum- Life Assurance (cash accumulation) Scheme, has been taken from the Life Insurance Corporation of India on 5th August, 2013. Transactions with LICI during the FY 2020-21 for assessing fund balance as on 31.03.2021 are as per books of NEEPCO.

Details of Funded Assets with LIC *(₹ In lakh)*

Particulars	31.03.2021	31.03.2020	31.03.2019
Opening Balance	18567.96	18638.31	11025.31
Transactions during the year (Net Debit)	1522.59	1380.49	6821.34
Interest earned during the year (Net Credit)	1125.79	1310.14	791.66
Closing Balance	18171.16	18567.96	18638.31

b. Post –Retirement Medical Benefit scheme

The Company has a Contributory Scheme for Post-Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired /deceased employee and spouse of retiree/deceased are provided medical facilities on contributory basis which is as follows:

Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized / approved hospital. For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests, examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less. The liability for the same is recognized on the basis of actuarial valuation.

c. Other retirement benefit on Superannuation

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. Other Employee benefit

a. Leave

The Company provides for earned leave benefits (including compensatory absences) and half pay leave to the employees of the Company which accrue annually at 30 days and 20 days respectively. Earned leave account is maintained in one section only i.e. en-cashable. On Superannuation/ separation of the employee from the Corporation, entire leave (Earned leave & Maximum 240 days Half Pay Leave) subject to a ceiling of 300 days will be en-cashable. Half pay leave cannot be commuted. The cash equivalent payable for Half Pay Leave would be equal to leave salary as admissible for half pay plus Dearness Allowance.The liability for the same is recognized on the basis of actuarial valuation.

b. Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

Note on Government Grant (Ind AS 20)

NEEPCO's approved Accounting Policy includes policy of recognition and accounting of "Government grant" (para 14 of note 1 –Summary of Significant Accounting Policies).

Govt. of India has approved a Sub-ordinate loan amounting to ₹29196.42 Lakh to NEEPCO for implementation of Tuirial HEP with interest @1% per annum payable from the "Date of Commercial Operation" of the project. Of the aforesaid loan amount, NEEPCO has received ₹29096.42 lakh till 31.03.2015 and the balance ₹100.00 lakh has been received during the FY 2015-16. The loan amount (₹29096.42 lakh) received till 31.03.2015 has been recognized in books of NEEPCO as on 01.04.2015 (Ind AS Transition date) at its carrying value in compliance to the Ind AS 101 (Exception to the retrospective application). However, for the loan amount (₹ 100.00 lakh) received during the FY 2015-16, the benefit of the loan due to below market rate of interest (considered SBI base rate @9.70% effective as on Jun'15) amounting to ₹ 82.64 lakh has been treated as a govt. grant and recognized in the Books of NEEPCO accordingly.

Spares out of Grant in Aid

During the current year, repairs & maintenance has been debited and Stock of Spares has been credited by an amount of ₹26.72 lakhs (Previous year ₹9.26 lakhs) for spares purchased out of Grant-in-aid received from the Central Govt. An equivalent amount has been recognized as income in the statement of Profit & Loss.

Grant from Ministry of Development of North Eastern Region

As per the Investment Approval sanctioned vide the Ministry of Power's letter no.7/7/2009-H-I dated 14th January, 2011, an amount of ₹300.00 crores has been sanctioned by the Ministry of Development of North Eastern Region (MDONER) as a part of the approved funding pattern for the Tuirial Hydro Electric Project, Mizoram. The total amount of ₹300.00 crores are included in Grant in Aid which is subjected to amortisation during normative useful life of the project since its commissioning.

Note No. 27: Revenue from Operations

(₹ In lakh)

Particulars	For the year ended 31-Mar-21	For the year ended 31-Mar-20
Sale of Energy	203936.44	207394.26
Sale of Energy through trading	15776.03	2161.49
Electricity Duty	1564.69	1046.06
Revenue from DSM	2819.97	2971.54
Revenue from RRAS	892.46	488.94
Others ::		
CERC filling fee from the beneficiaries	-	145.41
FERV (Net) from the beneficiaries	1547.99	32.55
NERLDC Fees & Other Charges from the beneficiaries	319.56	738.24
Sale of Electricity (Net)	**226857.14**	**214978.49**
Other operating Revenue ::		
Interest from the beneficiaries	341.56	4.53
Recognition from deferred revenue - Govt. grant	1610.72	1593.26
Net Revenue from Operation	**228809.42**	**216576.28**

a. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue."

b. Sale of energy includes ₹6903.18 lakhs (previous year ₹3826.51 lakh) being the revenue for the year recognised based on Annual Fixed Cost as per petition submitted to CERC pending issue of orders.

c. Sale includes ₹576.68 lakhs (Previous year ₹Nil) on account of earlier years sales arising out of finalization of tariff in current year.

d. In terms of regulation. 67 of the CERC (Terms and conditions of Tariff) Regulations, 2019, deferred tax liabilities for the period up to 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees or from the beneficiaries or long term transmission customers/DICs, as the case may be. Accordingly, current sales includes ₹1319.85 lakhs (Previous year ₹1281.85 lakhs) as deferred tax materialisation.

e. Sale of energy is net of rebate to beneficiaries amounting to ₹848.64 lakh (previous year ₹1401.78 lakhs).

f. DSM and RRAS is accounted upto the period of the financial year 2020-21, as per the weekly statements issued by the NERPC.

g. On commissioning of the Kameng HEP (600 MW) during the current financial year, merchant power (345 MW) generated by the aforesaid plant has been sold/traded through NTPC Vidyut Vyapar Nigam Ltd. (NVVN) under bi-lateral agreement as well as on "Day ahead" and "Real time" markets. Further, NEEPCO has traded available power under "Un-requisitioned surplus (URS)" for its thermal power plants, namely, AGBP and AGTPCC and on imposition of regulation to Meghalaya Energy Corporation Ltd (MeECL), its beneficiary, on "Day ahead" and "Real time" markets.

(i) Claims against the company not acknowledged as debts as on March 31, 2021 include demand from the Income tax authorities for payment of tax of ₹46889.39 lakhs upon completion of their tax assessment for the A.Y. 2012-13 amounting to ₹3821.34 lakhs, A.Y. 2013-14 amounting to ₹2142.98 lakhs, A.Y. 2014-15 amounting to ₹10872.61 lakhs, A.Y. 2015-16 amounting to ₹11381.61 lakh, A.Y. 2016-17 amounting to ₹9112.52 lakh, **A.Y. 2018-19** amounting to ₹2891.40 lakh, Cases pending before High Court, Meghalaya amounting to ₹6659.73 lakh and demand from Customs, Excise and Service Tax Appellate Tribunal (CESTAT) for payment of ₹7.20 lakhs in respect of Service Tax.

(ii) There are few cases pending before the Arbitration Tribunal/ Courts, for which amount of claims are yet to be acsertained.

(iii) The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process.The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

(iv) The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition.

North Eastern Electric Power Corporation New Delhi NEEPCO

Note No. 37: Movement in Regulatory Deferral Accounts Balances

Nature of Rate Regulated Activities

The company is primarily engaged in the business of generation and sale of electricity. The tariff based on which the Company bill to its beneficiaries for electricity sold to them is determined by the Central Electricity Regulatory Commission (CERC) in compliance to the CERC (Terms and Conditions of Tariff) Regulations, as applicable from time to time. The said regulations allow the Company to recover its costs for providing the goods or services plus a fair return.

Recognition and measurement

- During determination of Annual Fixed Cost (AFC) of the Tuirial Hydro Electric Project (TrHEP) of North Eastern Electric Power Corporation Ltd (NEEPCO) for the period of 30.10.2017 to 31.03.2019 by the Central Electricity Regulatory Commission (CERC), order for which issued on 09.10.2018, the Hon'ble Commission has allowed depreciation @2% based on the petition submitted by NEEPCO for the said purposes in line with the decision of the Public Investment Board (PIB) of the Govt. of India during meeting dated 04.06.2010 held for considering RCE of the project (TrHEP).
- The rates and methodology as per the CERC tariff regulations based on which depreciation for TrHEP has been calculated and charged to the Statement of Profit & Loss of NEEPCO for the period under consideration vary from that allowed to recover through tariff as per the CERC order. Due to higher rate of depreciation as per the CERC regulations, depreciation charged to the Statement of Profit & loss Account for the first 12 (twelve) years of operation TrHEP since its Date of Commercial Operation (COD) will be more than that of the depreciation recoverable through tariff, which will be reversed in future periods during remaining period of normative life of the generating station. Accordingly, the lower depreciation realized as "Revenue" for the generating station during the earlier period of its operation will be recovered/adjusted during later period.
- In view of above, the difference of depreciation to the extent recoverable/adjustable in future period has been recognized on an undiscounted basis as "Regulatory deferral account debit/credit balances" by credit/debit to the "Movement of Regulatory Deferral Account Balances"
- "Regulatory deferral account debit balances" recognized on account of the above during the period ended 31.03.2021 is as follows:

Particulars	Amount (₹ in lakhs)
Depreciation as per CERC Schedule of rates	6897.95
Depreciation @2% as allowed by CERC vide the tariff order dated 09.10.2018	2778.44
Difference (Recognized as "Regulatory Deferral balances")	**4119.51**

Regulatory Deferral Account balances in respect of Employees benefits expenses for Gratuity:

Ministry of Labour and Employment vide their Gazette notification dated the 29th March 2018 has notified the Payment of Gratuity (Amendment) Act, 2018 (12 of 2018) and thus has increased the limit of gratuity upto ₹ 20 (Twenty) lakh from the existing ₹ 10 (Ten) lakh.

Regulation 8 (3) of the CERC (Terms and conditions of Tariff) Regulations 2014 provides that "The Commission shall carry out truing up of tariff of generating station based on the performance of following Uncontrollable Parameters:

i) Force Majeure;
ii) Change in Law; and
iii) Primary Fuel Cost.

The increase in gratuity expenses due to enhancement of limit upto ₹20.00 lakh as per the Payment of Gratuity (Amendment) Act, 2018 falls under the category of "Change in law",

Accordingly, an amount of ₹4793.47 lakh to the extent expected as recoverable from the beneficiaries in subsequent period as per CERC Tariff Regulations have been recognized as "Regulatory Deferral Account Balances" as on 31.03.2021 in books of NEEPCO. No movement on the aforesaid balances have occured during the year ended 31.03.2021.

Regulatory Deferral Accounts Balances in respect of deferred adjustment on Deferred Tax Liabilities for projects under operation:

NEEPCO has long term Power Purchase Agreement (PPA) with the States of the North Eastern Region (referred to as the Beneficiaries') for selling electricity generated from its generating stations in operations. Tariff for generating stations of NEEPCO are determined by the Central Electricity Regulatory Commission (CERC) in compliance to their notified tariff regulations issued from time to time. As per the CERC Tariff Regulations 2014, ROE is grossed up with effective tax rate as

applicable for the respective financial year. Accordingly, deferred tax accrued during the year on income generated from sale of electricity and further adjustable/reversal in future periods when the related deferred tax liability will form a part of current tax & recoverable from the beneficiaries has been accounted as "Deferred tax adjustment against deferred tax liability", which has been recognized as "Regulatory income" and presented as a movement in "Regulatory Deferral Accounts Balance" as a separate line item in compliance to the relevant provisions of Ind AS 114.

Regulatory Deferral Account balances due to reclassification of deferred tax recoverable from beneficiaries

As per Regulation 67 of the CERC (Terms and Conditions of Tariff Regulations) 2019, Deferred tax liabilities for the period upto 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees from the then beneficiaries or long term customers, as the case may be. Till 31st March, 2019 the deferred tax recoverable from beneficiaries in future years was presented as an adjustment to deferred tax liability and was not recognised as "Regulatory Deferral Accounts balances". The same has been reviewed during the FY 2019-20 in line with Ind AS 114 and has been reclassified as Regulatory Deferral Account balance. The regulated assets (+)/liability (-) recognized in the books to be recovered from or payable to beneficiaries in future periods are as follows:

(₹ In lakh)

Sl. No.	Particulars	Regulatory Deferral Account Balances
A	Opening balance as on 01.04.2020	41254.63
B	Addition during the year (assets (+)/ liability (-)	-
C	Amount collected (-)/refunded (+) during the year	(1319.85)
D	Regulatory income/(expense) recognized in the Statement of Profit and Loss (B-C)	(1319.85)
E	Closing balance as on 31.03.2021 (A+D)	39934.78

Regulatory Deferral Account balances in respect of exchange differences on Foreign Currency Monetary Items

Para 28 of the Ind AS 21-"The Effects of Changes in Foreign Exchange Rates" provides that exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognised in profit or loss in the period in which they arise. Further, para D13 AA of the Ind AS 101 – "First-time Adoption of Indian Accounting Standards" provides for a first-time adopter may continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP. Accordingly, for periods beginning on or after 01.04.2016, all exchange differences arising on translation/ settlement of monetary items other than exchange difference on borrowings to the extent treated as an adjustment to interest cost during construction period are to be charged to the Statement of Profit and Loss. Regulation 69 of of the CERC (Terms and Conditions of Tariff) regulations provides that every generating company and the transmission licensee shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises.

In view of the above, exchange differences arising from settlement/translation of monetary items denominated in foreign currency to the extent recoverable from Or payable to the beneficiaries in subsequent period as per the relevant CERC Tariff regulations are recognized on an undiscounted basis as "Regulatory deferral accounts debit/credit balances" and adjusted from the year in which the same becomes recoverable from or payable to the beneficiaries.

The regulated assets (+)/liability (-) recognized in the books to be recovered from or payable to beneficiaries in future periods are as follows:

(₹ In lakh)

Sl. No.	Particulars	Regulatory Deferral Account Balances
A	Opening balance as on 01.04.2020	914.32
B	Addition during the year (assets (+)/ liability (-)	647.34
C	Amount collected (-)/refunded (+) during the year	101.75
D	Regulatory income/(expense) recognized in the Statement of Profit and Loss (B-C)	545.59
E	Closing balance as on 31.03.2021 (A+D)	**1459.91**

a) **Regulatory deferral accounts debit balance - Note 15 recognized :**

The regulatory assets recognized in the books to be recovered from the beneficiaries in future periods are as follows:

(₹ In lakh)

Particulars	As at 31st March 2021	As at 31st March 2020
A. Opening Balance	79861.53	69229.44
B. Movements during the year due to (i) Turial Depreciation ₹4119.51 lakhs (ii) Deferred Tax Adjustment against Deferred Tax Liability ₹1177.30 lakhs (iii) Deferred Tax Recoverable ₹(1319.85) Lakhs (iv) Exchange difference ₹545.59 lakhs	4522.55	10632.09
C. Amount Collected / refunded during the year	-	-
D. Regulatory Deferral Account Balances recognized in the Statement of Profit & Loss (B-C)	4522.55	10632.09
E. Closing Balance (A+D)	**84384.08**	**79861.53**
Net movements in regulatory deferral account balances (I)	**4522.55**	**10632.09**
Tax on net movements in regulatory deferral account balances (II)	**1020.78**	**2367.03**
Total amount recognised in the statement of profit & loss during the year (I - II)	**3501.77**	**8265.06**

Rate of return/Discounting rate considered for recognition of Regulatory Deferral Account Balance is "Zero" Risk/uncertainty associated with future recovery of Regulatory Deferral Account Balances

- **Demand risk:** Recovery of regulatory deferral balances are subjected to billing to its beneficiaries and accordingly associated with related normal risks, such as, attitude of the customers towards settlement of their dues, availability of alternate source of supply etc.
- **Regulatory risk:** On account of Changes, if any, in Regulations and submission or approval of a rate setting application or the entity's assessment on the expected future regulatory actions.

Period over which expected to recover

i. **Employees benefit expenses:** The Company expects to recover the carrying amount of regulatory deferral debit account balances over a period of 2(two) years.

ii. **Others**: The Company is expected to recover/adjust the carrying amount of the regulatory deferral account balances over the period of normative useful life of the projects/generating stations.

Note No. 38: Additional disclosures

I. Disclosure on Kopili HEP (50X4 MW):

(i) **Penstock I -** feeding 02 (two) units (50 MW each) of Kopili Hydro Power Station, Umrongso, Assam of the Company got ruptured on 07.10.2019 following a Load through off and tripping of Unit -I (50 MW). 03 (three) other units were in full load during the mishap. Rupture happend at three locations of Penstock including at location immediately downstream of Valve House. Penstock protection valve closing mechanism was damaged in the incident and therefore, the Valve could not be closed to isolate the Penstock, consequently thereafter, the Power House was flooded upto EOT Crane beam level within a very short period. At present, Kopili (4 X 50 MW) system in in shutdown condition. The value of damaged assets assessed & recognised in books till 31.03.2021 amounts to ₹10366.72 lakhs (Gross value ₹20670.50 lakhs & Accumulated depreciation ₹10303.78 lakhs), for which provision for an equivalent amount has been provided in books.

(ii) The Corporation has lodged initial claim to the underwriter for an amount of ₹250.00 crore. Further action on this matter in under process with the underwriter.

II. Segment Reporting

NEEPCO is in the business of only one product, i.e., generation and selling of electricity. All the projects of NEEPCO are located with the North East Region, i.e., within the same geographical location. NEEPCO has no reportable segment and accordingly, Ind AS 108 – Operating Segment to disclose information about segments is not applicable.

III. During the year ended 31.03.2021, four units (each of installed capacity 150 MW) of Kameng Hydro Power Plant has been commissioned. Date of commercial operation of Unit # 1, Unit # 2, Unit # 3 and Unit # 4 of the said generating plant are 17th June 2020, 1st July 2020, 22nd January 2021 and 12th February 2021 respectively.

IV. Disclosure as per Ind AS 116 'Leases'

(A) Transition to Ind AS 116

The Company has applied the following practical expedients on initial application of Ind AS 116:

(i) Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.

(ii) Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.

(iii) Excluded the initial direct costs, if any, from the measurement of the right-of-use asset at the date of initial application.

On transition to Ind AS 116, the weighted average incremental borrowing rate applied to lease liabilities recognised under Ind AS 116 is 8.69%. For agreements relating to the FY 2020-21 the weighted average incremental borrowing rate is taken as 7.55%.

(B) Company as Lessee

(i) The Company's significant leasing arrangements are in respect of the following assets:

(a) Premises for guest houses/ transit camps which are not non-cancellable and are usually renewable on mutually agreeable terms.

(b) The Company has taken electrical vehicles on operating lease for a period of five years, which can be further extended at mutually agreed terms. Lease rentals are subject to escalation of 10% per annum.

(c) The Company has taken certain vehicles (other than electrical) on lease for periods more than 12 months.

(ii) The following are the carrying amounts of lease liabilities recognised and the movements during the period:

(₹ In lakh)

Particulars	For the Year ended 31st March 2021	For the Year ended 31st March 2020
Opening Balance	978.75	-
- Additions in lease liabilities	425.48	1537.21
- Interest cost during the year	134.18	133.31
- Payment of lease liabilities	747.96	691.77
Closing Balance	**790.45**	**978.75**
Current	**522.66**	**592.10**
Non Current	**268.06**	**386.65**

(iii) The following are the carrying amounts of "Right to use Leased Assets" as on 31.03.2021:

Depreciation expense for right-of-use assets	633.85	602.54
Interest expense on lease liabilities	134.18	133.31
Expense relating to short-term leases	-	-

(v) Details of Contractual Maturities of Lease Liabilities are:

(₹ In lakh)

Particulars	As at 31st March 2021	As at 31st March 2020
Less than one year	522.66	592.10
Between one and two years	194.48	286.72
Between two and three years	52.83	70.94
Between three and four years	14.96	13.07
Between four and five years	5.52	10.41
More than five years	-	5.52
Total	**790.45**	**978.75**

V. COVID-19 disclosure

I. The Company is in the business of generation and sale of electricity which is an essential service as emphasized by the Ministry of Power (MoP), Govt. of India. Due to outbreak of COVID-19, the Company has ensured availability of its power plants to generate electricity and has continued to supply electricity during the period of lockdown. In line with the directions of MoP dated 15th & 16th May 2020 issued in accordance with the announcement of Govt. of India under the Atmanirbhar Bharat special Economic and Compensation package, to allow a rebate between 20% - 25% on the capacity charge during the lockdown period subject to approval of the Board of Directors, an amount of ₹4076.02 lakh has been approved by the Board, to be allowed during the financial year 2020-21, subject to fulfiling conditions stipulated. During the year ended 31st March 2021, the Company has accounted for a rebate of ₹4076.02 lakh in respect of beneficiaries fulfilling conditions approved by the Board and the same has been disclosed as exceptional items.

Further, Central Electricity Regulatory Commission (CERC) issued an order dated 3rd April 2020 wherein it was directed that "Late Payment Surcharge (LPS)" shall apply at a reduce rate of 12% p.a. instead of its normal rate of 18% p.a. on payments becoming overdue during the period from 24th March 2020 to 30thJune 2020 to contain the impact of COVID-19. Further, under the Atmanirbhar Bharat package, the Company has deferred the capacity charges to DISCOMs for the lockdown period for the power not scheduled to be payable without interest after the lockdown period in three equal monthly installments. The impact on profit for the year due to reduction in LPS rate and deferment of capacity charges is not materials. The Company expects to fully recover the carrying amount of the assets including receivables, other financial and non-financial assets. The Company believes that the impact due to outbreak of COVID-19 is likely to be short -term in nature and does not anticipate any medium to long term risks in the Company's ability to continue as a going concern and meeting its liabilities as & when they fall due. The Company will continue to monitor any material changes to future conditions, considering the uncertainiity involved there-in.

VI. Disclosure on Vivad Se Vishwas Scheme:

The Govt. of India vide notification no. S.O. 1129 (E) dated 18.03.2020 notified "Direct Tax Vivad Se Vishwas Rules, 2020" and deadline for filing declaration under the said scheme (VsVs) extended till 31.03.2021. During the FY 2020-21, the Company has settled the following pending Income Tax disputes by opting for the VsVs Scheme.

(₹ In lakh)

FY	AY	Forum	(Payable)/ Receivable under VsVs Scheme	Balance under "Advance tax refundable" as on 31.03.2020	Inpact in the Statement of P&L A/c for the year ended 31.03.2021 (Dr)/ Cr
2008-09	2009-10	Commissioner (Appeals)	4.87	7.75	(2.89)
2009-10	2010-11	ITAT, Guwahati	(124.46)	116.66	(241.13)
2010-11	2011-12		3.13	414.29	(411.16)
2011-12	2012-13	High Court of Meghalaya	153.60	71.99	81.61
2012-13	2013-14		19.08	49.97	(30.89)
TOTAL			56.20	660.66	(604.46)

Accordingly, the Company has included net impact of the scheme during the FY 2020-21 amouting to ₹604.46 lakh in the Statement of Profit and Loss Account as Current Tax relating to the Previous Years under Vivas Se Vishwas Scheme.

VII. Note on Re-statement of Financial Statements:

During the Financial Year 2020-21, NEEPCO Ltd (the Company) has restated/modified its Financial Statements for the FY 2019-20 retrospectively in Compliance to "Ind AS 8 – Accounting Policies, Changes in Accounting Estimates & Errors". The said restatement/modification was carried out on account of changes in Accounting Policy on "Revenue from operations - Revenue from sale of power" as follows:

"Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries."

Accordingly, the Company has presented a third balance sheet at the beginning of the preceding period (i.e., as on 01.04.2019) in compliance to "Ind AS 1 - Presentation of Financial statements" for comparative information due to retrospective restatement in addition to the Balance sheet, Statement of Profit and loss, Cash flow and Statement of Changes in Equity and related notes for the year ended 31.03.2020 and 31.03.2021.

Impact of the aforesaid modification in policy are as follows:

i. **As on 01.04.2019**

No impact

ii. **FY 2019-20**

Revenue from operation and Total income increased by ₹3826.51 lakh

Current Tax liability increased by ₹668.57 lakh

Net worth increased by ₹3157.94 lakh

Note No. 39: Capital Management

The Company's capital management is intended to create value for shareholders by facilitating the meeting of long term and short term goals of the Company.

The Company determines the amount of capital required on the basis of annual business plan, coupled with long term and short term strategic investing plan. The funding requirements are met through equity, convertible and non- convertible debt securities, and other short term and long term borrowings. The Company's policy is aimed at combination of short term and long term borrowings.

The Company monitors the capital structure on the basis of net debt to equity ratio and maturity profile of the overall debt portfolio of the Company.

Note No. 40: Disclosure on Financial Instruments

This section gives an overview of the significance of financial instruments for the Company and provides additional information on balance sheet items that contain financial instruments.

The details of significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note no.1 to the financial statements.

Financial assets and liabilities

The following table presents the carrying amount and fair value of each category of financial assets & liabilities as at March 31, 2021 & March 31, 2020.

(₹ In lakh)

As at March 31, 2021	Fair value through statement of profit & loss	Fair value through OCI	Derivative instruments in hedging relationship	Derivative instruments not in hedging relationship	Amortised Cost	Total Carrying Value	Total Fair Value
Financial assets							
Cash and bank balances					218.13	218.13	218.13

Total					843730.59	843730.59	843730.59

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below:

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investment in quoted equity shares, quoted corporate debt instruments and mutual fund investments.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This level of hierarchy includes Company's over-the-counter (OTC) derivative contracts.

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. The main items in this category are investment in unquoted equity shares, measured at fair value.

(₹ In lakh)

Particulars	As at March 31, 2021			
	Level 1	Level 2	Level 3	Total
Financial assets measured at fair value				
(i) Trade receivables	57710.73	-	-	57710.73

Total financial liabilities measured at fair value	**843730.59**			**843730.59**

The short-term financial assets and liabilities are stated at amortized cost which is approximately equal to their fair value.

The fair value in respect of the unquoted equity investments cannot be reliably measured.

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end

There have been no transfers between Level 1 and Level 2 for the years ended March 31, 2021 and March 31, 2020.

Transfer of financial assets

There have been no transfers of financial assets during the 2020-21.

Financial risk management

In the course of its business, the Company is exposed primarily to interest rates, liquidity and credit risk, which may adversely impact the fair value of its financial instruments.

The Company has a risk management policy which covers the risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the Board of Directors. The risk management framework aims to:

Create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on the Company's business plan.

Achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

Market Risk : - Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

Credit Risk :- Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks.

Liquidity Risk: Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The following table shows a maturity analysis of the anticipated cash flows including interest payable for the Company's non derivative financial liabilities on an undiscounted basis, which therefore differ from both carrying value and fair value.

(₹ In lakh)

Particulars	As at March 31, 2021				
	Carrying amount	Contractual cash flows	Less than 1 year	Between 1 - 5 years	More than 5 years
Non- derivative financial liabilities					
Borrowings	799160.41	799160.41	96203.14	385803.57	273426.63
Trade payables	8583.31	8583.31	8583.31	-	-
Other financial liabilities	22951.77	22951.77	22429.11	522.66	-

Other current financial assets*	1607.48	1445.45
Total (A)	**1917.74**	**2123.57**
Financial assets for which loss allowance is measured using life-time Expected Credit Losses (ECL) as per simplified approach		
Trade receivables	57710.73	66226.10
Unbilled revenue	36374.34	27440.80
Total (B)	**94085.07**	**93666.90**
Total (A+B)	**96002.81**	**95790.47**

Excluding unbilled revenue (Refer Note 13)

(ii) Provision for expected credit losses

(a) Financial assets for which loss allowance is measured using 12 month expected credit losses

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(b) Financial assets for which loss allowance is measured using life-time expected credit losses as per simplified approach

The Company has customers (State government utilities) with capacity to meet the obligations and therefore the risk of default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk. Hence, no impairment loss has been recognised during the reporting periods in respect of trade receivables and unbilled revenue.

(iii) Ageing analysis of trade receivables

The ageing analysis of the trade receivables is as below:

(₹ In lakh)

Ageing	Not due	0 - 30 days past due	31-60 days past due	61-90 days past due	91-120 days past due	More than 120 days past due	Total
Gross carrying amount as on 31st March 2021	25205.92	1850.79	2147.59	2097.57	221.17	26187.69	57710.73
Gross carrying amount as on 31st March 2020	13989.23	3887.79	2667.54	3.48	0.71	45677.35	66226.10

Liquidity Risks

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has an appropriate liquidity risk management framework for the management of short, medium and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Company's Treasury department is responsible for managing the short-term and long-term liquidity requirements of the Company. Short-term liquidity situation is reviewed daily by the Treasury department. The Board of directors has established policies to manage liquidity risk and the Company's Treasury department operates in line with such policies. Any breaches of these policies are reported to the Board of Directors. Long-term liquidity position is reviewed on a regular basis by the Board of Directors and appropriate decisions are taken according to the situation.

Typically, the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a month, including the servicing of financial obligations, this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

As part of the CERC Regulations, tariff inter-alia includes recovery of capital cost. The tariff regulations also provide for recovery of energy charges, operations and maintenance expenses and interest on normative working capital requirements. Since billing to the customers are generally on a monthly basis, the Company maintains sufficient liquidity to service financial obligations and to meet its operational requirements.

(i) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ In lakh)

Particulars	As at 31-03-2021	As at 31-03-2020
Fixed-rate borrowings		
Foreign currency loans	-	-
Floating-rate borrowings		
Cash credit /WCDL	65925.33	42394.62

Cash credit /WCDL	-	40769.90	-	-	-	40769.90

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the risk management committee.

Currency risk

The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates.

The currency profile of financial assets and financial liabilities as at 31 March 2021 and 31 March 2020 are as below :

31st March 2021

(₹ In lakh)

Particulars	USD	Others	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total	-	-	-
Financial Liabilities			
Secured Foreign Currency loans	20734.21	-	20734.21
Unsecured Foreign Curreny loans from banks & financial institution	50802.71	-	50802.71
Trade payables & other financial liabilities	-	-	-
Total	**71536.92**	-	**71536.92**

31st March 2020

(₹ In lakh)

Particulars	USD	Others	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total	-	-	-
Financial Liabilities			
Secured Foreign Currency loans	28996.44	-	28996.44
Unsecured Foreign Curreny loans from banks & financial institution	54263.75	-	54263.75
Trade payables & other financial liabilities	-	-	-
Total	**83260.19**	-	**83260.19**

Out of the above, no amount is hedged by derivative instruments. In respect of the balance exposure, gain/(loss) on account of exchange rate variations on all foreign currency loans and foreign currency monetary items (up to COD) is recoverable from beneficiaries. Therefore, currency risk in respect of such exposure would not be very significant.

Sensitivity analysis

Since the impact of strengthening or weakening of INR against USD, Euro, JPY and other currencies on the statement of profit and loss would not be very significant; therefore, sensitivity analysis for currency risk is not disclosed.

Interest Rate risk

The Group is exposed to interest rate risk arising mainly from non-current borrowings with floating interest rates. The Group is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Group manages the interest rate risks by entering into different kinds of loan arrangements with varied terms (e.g. fixed rate loans, floating rate loans, rupee term loans, foreign currency loans, etc.).

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments is as follows:

(₹ In lakh)

Particulars	31st March 2021	31st March 2020
Financial Assets		
Fixed Rate Instruments		
Bank Deposits	171.24	318.15
Total	**171.24**	**318.15**
Financial Liabilities		
Fixed Rate Instruments		
Bonds	531106.40	576732.55
Foreign currency loans	51252.61	54674.17
Rupee term loan	29125.00	29122.66
Lease obligations	790.45	978.75
	612274.46	**661508.13**
Variable-rate instruments		
Foreign currency loans	20747.76	29021.92
Rupee term loan	160753.97	116575.88
Cash Credit	6174.67	4329.38
	187676.40	**149927.18**
Total	**799950.86**	**811435.31**

Fair value sensitivity analysis for fixed-rate instruments

The Company's fixed rate instruments are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Cash flow sensitivity analysis for variable-rate instruments

A change of 50 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for the previous year.

(₹ In lakh)

Particulars	Profit or loss	
	50 bp increase	50 bp decrease
31-Mar-21		
Foreign currency loans	(403.94)	403.94

Government Subordinate Loan	3	29125.00	8446.15	29122.66	7850.54
Lease obligations	3	790.45	790.45	978.75	978.75
Borrowings - current	3	36797.75	36797.75	80905.26	80905.26
Trade payables and payable for capital expenditure	3	8583.31	8583.31	9690.7	9690.70
Other financial liabilities	3	119154.91	119154.91	132288.68	132288.68

The carrying amounts of current trade receivables, current trade payables, payable for capital expenditure, investment in subsidiary and joint venture companies, cash and cash equivalents and other financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans, borrowings, non-current trade payables and payable for capital expenditure were calculated based on cash flows discounted using a current discount rate. They are classified at respective levels based on availability of quoted prices and inclusion of observable/non observable inputs.

Note No. 45: Disclosure as per Ind AS 115, 'Revenue from Contracts with Customers'

Nature of goods and services

The revenue of the Company comprises of income from energy sales, sale of energy through trading and other services. The following is a description of the principal activities:

(a) Revenue from energy sales

The major revenue of the Company comes from energy sales. The Company sells electricity to bulk customers, mainly electricity utilities owned by State Governments Discoms operating in States. Sale of electricity is generally made pursuant to long-term Power Purchase Agreements (PPAs) entered into with the beneficiaries. Further, the Company sell electrcity through Power Exchanges available with them under "Merchant Power".

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for energy sales:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms
Energy sales	The Company recognises revenue from contracts for energy sales over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from energy sales is determined in terms of CERC Regulations as notified from time to time. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. The amounts are billed on a monthly basis and are payable within contractually agreed credit period.

(b) Revenue from energy trading, consultancy and other services

Sale of Energy through trading

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for sale of energy through trading:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms
Sale of energy through trading	The Company recognises revenue from contracts for sale of energy through trading over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from sale of energy through trading is determined as per the terms of the agreements. The amounts are billed as per periodicity specified in the Contract and are payable within contractually agreed credit period.

Note No. 46: Corporate Social Responsibility (CSR)

As per Section 135 of the Companies Act, 2013 read with guidelines issued by Department of Public Enterprises, GOI, the Company is required to spend, in every financial year, at least two per cent of the average net profits of the Company made during the three immediately preceding financial years in accordance with its CSR Policy. The details of CSR expenses for the year are as under:

(a) Gross amount required to spent by the Company during the year: **₹1358.55 Lakh**

(b) Amount approved by the Board to be spent during the year : ₹728.18 Lakh

(c) Amount spent during the year:

(₹ In lakh)

Sl No.	Particulars	FY 2020-21 #	FY 2019-20
(i)	Construction/acquisition of any asset	921.70	506.52
(ii)	On purposes other than (i) above	**436.85**	482.58

 # Included "On-going projects" amounting to ₹544.72 lakh

(d)	Details of related party transactions, e.g., contribution to a trust / society / section 8 company controlled by the company in relation to CSR expenditure as per Accounting Standard (AS) 18, Related Party Disclosures	-

Note No. 47: Disclosure as per Ind AS 1 'Presentation of financial statement'

a) Changes in Accounting Policies:

During the year, following changes to the accounting policies have been made:

i. Modification in Accounting Policy on "Revenue from operations - Revenue from Sale of Power", resulting in restatements of the Financial Statements for FY 2019-20 and has been disclosed under Note no. 38 (VII). Further, impact of the said modification on revenue from operation during the current financial year is to the tune of ₹6903.18 lakhs.

ii. Certain other changes have also been made in the policies nos. 1.6, 4 (x), 6.3, 11.2, 17.1 (a) (i), 17.1 (a) (iii), 17.1 (a) (v), 17.1 (a) (vi) 17.2 (iv), 18 and D (c) for improved disclosures. There is no impact on the financial statements due to these changes. However, the policy numbers have been rearranged in the current year as required.

(b) Reclassifications and comparative figures

Certain reclassifications have been made to the comparative period's financial statements to enhance comparability with the current year's financial statements.

As a result, certain line items have been reclassified in the balance sheet and statement of cash flows, the details of which are as under:

Items of balance sheet before and after reclassification as at 31st March 2020

(₹ In lakh)

Independent Auditors Report on Emphasis of Matters (EOM) and Management Reply there-on

AUDITORS REPORT REF	AUDITORS REPORT	MANAGEMENT REPLY
EOM 1	Note No.7(i) regarding recognizing of Deferred Tax Assets (DTA) Rs.30546.32 lakhs during the FY 2020-21 in respect of "Unabsorbed depreciation".	The recognition has been made in compliance to the "Ind AS 12 – Taxes" in respect of "Unabsorbed depreciation" and necessary disclosure has been made at note 7(i) to the Financial Statements for the year ended 31.03.2021.
EOM 2	Note No. 27(b) read with Note No. 38 VII and Note No. 47(a) regarding sale of energy includes ₹6903.18 lakhs being the revenue for the year recognized and provided for on the basis of provisional rate due to modification in Accounting Policy on "Revenue from Operations-Revenue from sale of Power". Impact of the said modification on revenue from operation during the current financial year is to the tune of ₹6903.18 lakhs and previous year ₹3826.51 lakhs.	During the FY 2020-21, NEEPCO Ltd (the Company) has changed/modified its accounting policy on "Revenue from operations - Revenue from sale of power" and In case of power stations where final tariff is yet to be approved by Central Electricity Regulatory Commission (CERC) for the control period 2019-24, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the Ho'ble Commission through Tariff Petition as per the principles enunciated in the CERC (Terms & Conditions of Tariff) Regulations 2019. This has resulted in "Restatement of Financial Statements" for the FY 2019-20. Necessary disclosure for the same has been provided at note 38(VII) to the Financial Statements for the year ended 31.03.2021.
EOM 3	Note No. 50 regarding Balances shown under Capital advances to Contractors, Trade payable and materials in transit/ with contractor/ issued on loan, Trade receivables, Other receivable are subjected to confirmation/ reconciliation and consequential adjustment if any.	Noted

Management Reply to the Independent Auditors' Opinion on Internal Financial Controls of NEEPCO Reported under Sec. on 143 (3) (i) of the Companies Act 2013

Independent Auditors' Opinion	Management reply
According to the information and explanations given to us and based on our audit, the following material weaknesses have been identified as at 31st March 2021: the company has old information technology (IT) application system MATFIN, which is unable to cater the emerging needs and complete information consistent with financial reporting objectives. As informed to us, an ERP SAP Program is under implementation. This could potentially result into weakness in the internal financial controls over financial reporting of the company	North Eastern Electric Power Corporation Ltd (NEEPCO/ the Company) is in process for migration to ERP. Work for SAP s/4 HANA based ERP system awarded to M/s YASH Technologies on 28.08.2019. Substantial progress has already been achieved on ERP implementation in NEEPCO. As a matter of fact, Assam Gas Based Power Plant (291 MW), the biggest gas based power station and Guwahati office of NEEPCO have gone "Go-live" on 27.05.2021. Further, the ERP modules (ESS, FLM) have been implemented in all locations of NEEPCO. Thus migration to ERP is fully on track. With implementation of ERP in NEEPCO, which is expected to be functional during the next financial year (i.e., FY 2021-22), weakness in the internal financial controls over financial reporting of the company, if any, as reported by the Auditors will be addressed.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) OF THE COMPANIES ACT, 2013 ON THE FINANCIAL STATEMENTS OF NORTH EASTERN ELECTRIC POWER CORPORATION LIMITED FOR THE YEAR ENDED 31 MARCH 2021

The preparation of financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2021 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditor appointed by the Comptroller and Auditor General of India under Section 139(5) of the Act is responsible for expressing opinion on these financial statements under section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 10 June 2021.

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2021 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the statutory auditor and is limited primarily to inquiries of the statutory auditor and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report under section 143(6)(b) of the Act.

For and on the behalf of the
Comptroller & Auditor General of India

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) READ WITH SECTION 129(4) OF THE COMPANIES ACT, 2013 ON THE CONSOLIDATED FINANCIAL STATEMENTS OF NORTH EASTERN ELECTRIC POWER CORPORATION LIMITED FOR THE YEAR ENDED 31 MARCH 2021

The preparation of consolidated financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2021 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditor appointed by the Comptroller and Auditor General of India under Section 139(5) read with section 129(4) of the Act is responsible for expressing opinion on these financial statements under section 143 read with section 129(4) of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 10 June 2021.

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the consolidated financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2021 under Section 143(6)(a) read with section 129(4) of the Act. We conducted a supplementary audit of the financial statements of North Eastern Electric Power Corporation Limited for the year ended on that date. **Further, section 139(5) and 143(6)(a) of the Act are not applicable to its joint venture company M/s. KSK Dibbin Hydro Power Private Limited being private entity, for appointment of their Statutory Auditor and for conduct of supplementary audit. Accordingly, Comptroller and Auditor General of India has neither appointed the Statutory Auditors nor conducted the supplementary audit of this company.** This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report under section 143(6)(b) of the Act.

Form No. MR-3

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31ST March, 2021

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
M/s North Eastern Electric Power Corporation Limited,
Brookland Compound, Lower New Colony
East Khasi Hills
Shillong-793003, Meghalaya, India

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **M/s North Eastern Electric Power Corporation Limited (CIN: U40101ML1976GOI001658)** (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the Corporate Conducts and Statutory Compliances and expressing my opinion thereon.

Based on my verification of Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on **31st March, 2021** complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

Due to restriction of movement on account of COVID-19 pandemic we have examined returns filed and other provided to us through email as and when required at the time of audit for the financial year ended on 31st March, 2021 according to the provisions of:

i. The Companies Act, 2013 (the Act) and the rules made thereunder;
ii. The Memorandum and Articles of Association of the Company.

I further report that, having regard to the compliance system prevailing in the Company and on the examination of the relevant documents and records in pursuance thereof on test-check basis, the Company has complied with the following laws applicable specifically to the Company:

a. The Electricity Act, 2003;
b. The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The Acts which are not applicable to the Company though forming part of the prescribed Secretarial Audit Report have not been considered while preparing this Secretarial Audit Report.

Further, I have also examined compliance with the applicable clauses of the following:

(i) Secretarial Standards with regard to Meeting of the Board of Directors (SS-1) and General Meeting (SS-2) issued by The Institute of Company Secretaries of India and made effective from 1st July, 2015;

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc.

I further report that:

All the decisions taken at the Board Meetings and Committee Meetings are carried out unanimously as are recorded in the Minutes Book of the Meetings of the Board of Directors or Committee of the Board, as the case may be.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with all the applicable laws, rules, regulations and guidelines.

This Report is to be read with my letter of event date which is enclosed as **ANNEXURE 'I'** and forms integral part of this Report.

Biman Debnath

ANNEXURE - I

(TO THE SECRETARIAL AUDIT REPORT OF M/S NORTH EASTERN ELECTRIC POWER CORPORATION LIMITED FOR THE FINANCIAL YEAR ENDED ON 31ST MARCH, 2021).

To,
The Members,
M/s. North Eastern Electric Power Corporation Limited,
Brookland Compound, Lower New Colony
East Khasi Hills
Shillong - 793003, Meghalaya

My Report of event date is to be read along with this letter.

1. Maintenance of secretarial records is the responsibility of the management of the Company. My responsibility is to express an opinion on the secretarial records based on my audit.
2. I have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the secretarial records. The verification was done on test basis to ensure that correct facts are reflected in the secretarial records. I believe that the processes and practices, I followed provide a reasonable basis for my opinion.
3. I have not verified the correctness and appropriateness of financial records and books of accounts of the Company.
4. Wherever required, I have obtained the management representation letter about the compliance of laws, rules and regulations and happening of events etc.
5. The compliance of the provisions of corporate and other applicable laws, rules, regulations, standards is the responsibility of management. My examination was limited to the verification of procedures on test basis.
6. The Secretarial Audit Report is neither an assurance as to the future viability of the Company nor of the efficacy or effectiveness with which the management has conducted the affairs of the Company.

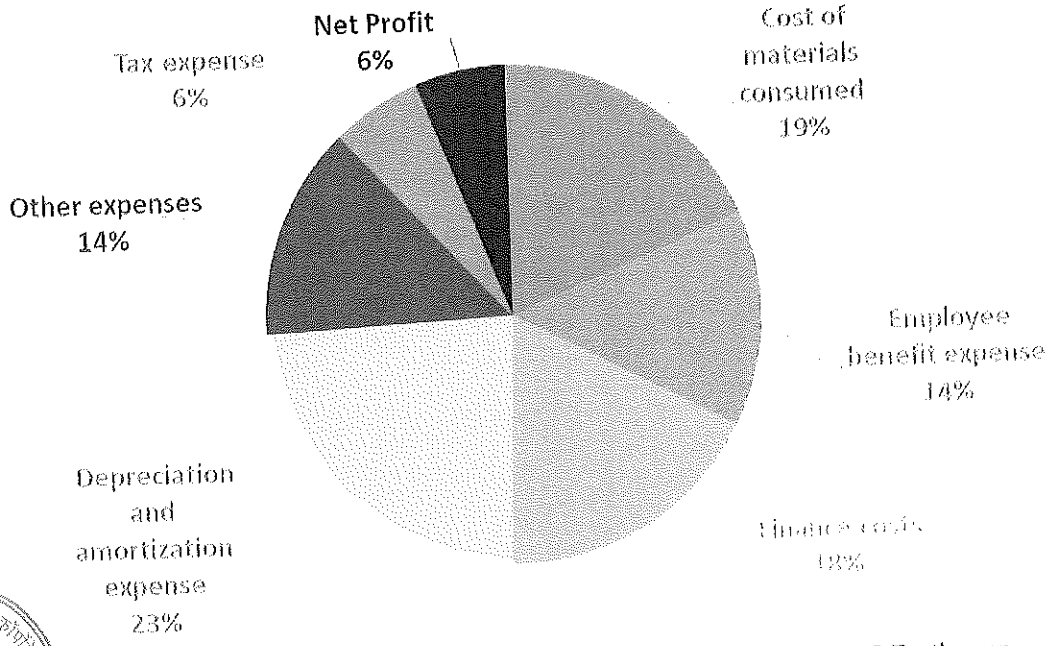
Total income of the Corporation for the year 2021-22 is ₹ 330196.67 lakh (previous year ₹ 255444.28 lakh).

Analysis of Expenditure w.r.t. Total income

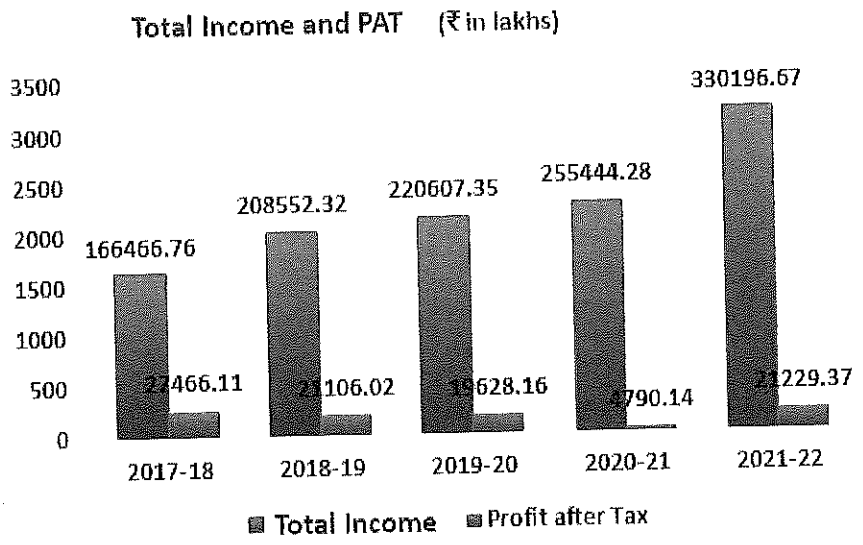


The above analysis excludes Movement in Regulatory Deferral Accounts balance & Tax thereon

नीपको NEEPCO New Delhi North Eastern Electric Power Corporation

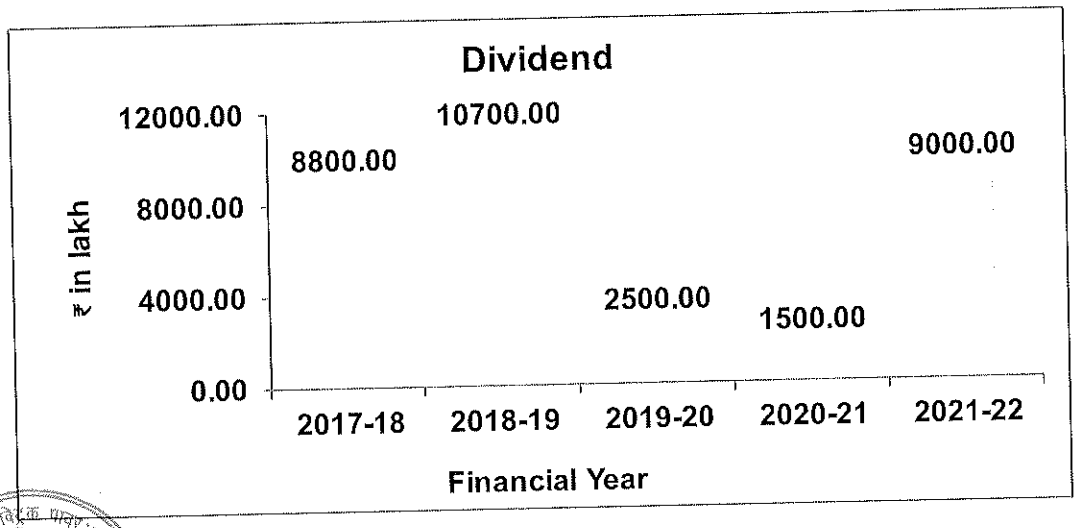
Total Income and Profit After Tax

The Corporation earned a profit before tax (including movement in R.D.A. Balances) amounting to ₹43345.29 lakh as against of ₹ 9090.50 lakh during the previous financial year. Profit after tax for the current financial year amounts to ₹21229.37 lakh as against ₹4790.15 lakh during the previous financial year.



DIVIDEND

The Company has paid an interim dividend of ₹ 7500.00 lakhs for the FY 2021-22 in March 2022. Further, the Board of Directors have recommended a final dividend of ₹ 1500.00 lakhs for the aforesaid FY. Thus total dividend payout for the FY 2021-22 is ₹ 9000.00 lakhs, i.e., ₹ 0.25 per share (face value of ₹ 10.00 each). The dividend pay-out represents 42.4% of Profit after Tax (PAT). The final dividend shall be subjected to the Shareholders approval in the Annual General Meeting.



FINANCIAL REVIEW:

A. CAPITAL STRUCTURE

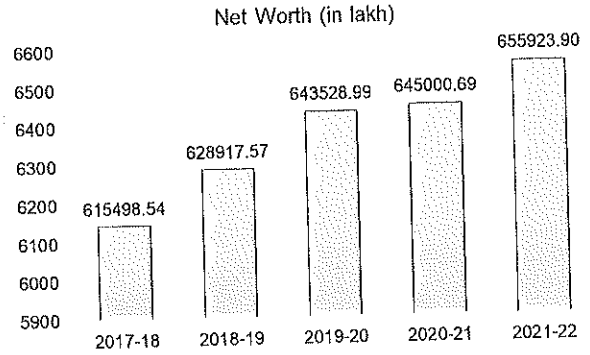
The Authorised Share Capital of the Corporation as on 31.03.2022 stood at ₹5,00,000.00 Lakh and the Paid up Capital was ₹3,60,981.04 lakh (Previous year ₹3,60,981.04 lakh).

B. LONG TERM BORROWINGS

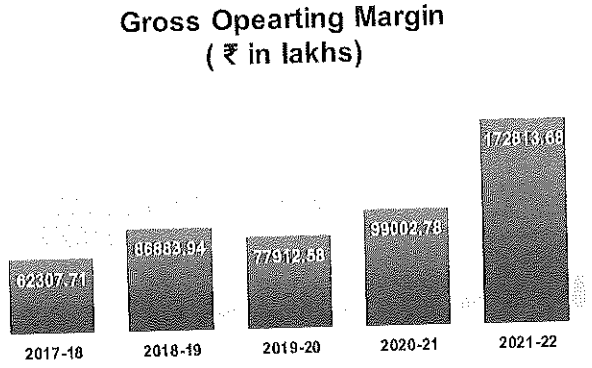
During the Financial Year 2021-22, the Corporation has mobilised borrowings amounting to ₹20,000.00 lakh through "PSU Bond - (unsecured)" and ₹35,000.00 lakh "Term loan" from SBI.

C. NET WORTH

The Net Worth of the Corporation as on 31st March, 2022 is ₹6,55,923.90 lakh against ₹6,45,000.69 lakh as on 31st March, 2021 and thus a growth of 1.69% over the previous year.



D. GROSS OPERATING MARGIN



The Gross Operating Margin of the Company as on 31.03.2022 is ₹1,72,813.68 lakh against ₹ 99,002.78 lakh as on 31st March, 2021.

E. STATUTORY AUDITOR

L. K. Kejriwal & Co, Chartered Accountants, Guwahati was appointed as the Statutory Auditor of the Company, by the Comptroller & Auditor General of India for the financial year 2021-22 and had conducted the Statutory Audit for the said financial year.

F. MANAGEMENT COMMENTS ON STATUTORY AUDITOR'S REPORT

The Statutory Auditor of the company has submitted their reports on the Financial Statements of the Company for the financial year 2021-22. The report of the Statutory Auditor dated the 14th May 2022 is given at **Annexure 6A** (for Stand-alone Financial statements) and **Annexure-6B** (for Consolidated Financial Statements). The Management's reply to the "Emphasis of Matters" of the Statutory Auditors Report is given in **ANNEXURE-6C.**

G. REVIEW OF ACCOUNTS BY COMPTROLLER & AUDITOR GENERAL OF INDIA

The Comptroller & Auditor General of India has conducted supplementary audit of the financial statements (Stand alone as well as Consolidated) of the Company for the FY 2021-22 under Section 143 (6) (a) of the Companies Act, 2013. Comments of the C&AG on the financial statements of your Company are given at **Annexure-7** for Standalone Financial statements and Consolidated Financial Statements.

H. COST AUDIT

As prescribed under the Companies (Cost Records and Audit) Rules, 2014, the Cost Accounting Records are being maintained by all operating stations of your Company. M/s A. C. Dutta & Co, Guwahati was appointed under section 148 of the Companies Act, 2013 as Cost Auditor for the financial year 2021-22 for conducting cost audit of cost accounting records of the Company. The Cost Audit for the year 2021-22 has been completed. The Cost Audit Report for the financial year ended March 31, 2022 shall be filed within the prescribed time under the Companies (Cost Records & Audit) Rules, 2014.

I. SECRETARIAL AUDITOR

M/s. Biman Debnath & Associates, Practicing Company Secretaries, Guwahati, was appointed as the Secretarial Auditor of the Company for conducting the secretarial audit for the year 2021-22. The Secretarial Audit Report in Form No.MR-3 for the financial year ended 31st March 2022 as audited by M/s. Biman Debnath & Associates, Practicing Company Secretaries is enclosed as **ANNEXURE -8.**

POWER STATIONS IN OPERATION:

POWER GENERATION

Achieved a total generation of 8120.29 MU against the MoU target of 8100 MU during the financial year 2021-22. Power generation achievement in FY 2021-22 vis-à-vis FY 2020-21 is shown below:

Power Station	MOU Generation Target (MU) FY 2021-22	Actual Generation (MU) FY 2021-22	Actual Generation (MU) FY 2020-21	Actual Plant Availability Factor (%) FY 2021-22	Actual Plant Availability Factor (%) FY 2020-21
Assam Gas Based Power Station (291 MW), Assam	1650	1787.10	1570.19	71.52	64.62
Agartala Gas Based Power Station (135 MW), Tripura	750	923.99	880.00	80.00	83.11
Tripura Gas Based Power Station (101 MW), Tripura	575	717.96	532.67	84.38	63.30
Thermal Total	**2975**	**3429.04**	**2982.86**

नॉर्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली NEEPCO New Delhi North Eastern Electric Power Corporation

Note:

Reasons for shortfall in power generation w.r.t MoU target for Hydro Power Stations:

Khandong & Khandong Stage II Power Station:	Doyang Hydro Power Station (DHPS):	Ranganadi Hydro Power Station (RHPS)	Tuirial Hydro Power Station (THPS)	Kameng Hydro Power Station (KaHPS)
• Shutdown of Khandong Stage -I PS for APM and inspection/repairing of water conductor system from 20.01.2020 to 25.10.2021. • Shutdown of Khandong & Khandong Stage II PS from 10.01.2022 for repair of all Hydro Mechanical Gates and Head Race Tunnel. On 26.03.2022, a mishap occurred at the project when sudden and high inflow in reservoir overtopped the temporary bundh constructed for maintenance work found way through the Khandong tunnel intake and as a result both the power stations got flooded and some structures got damaged.	Less availability of reservoir water.	Less availability of reservoir water.	Less availability of reservoir water & low system demand.	Less availability of water and outage of the units for various reasons.

HYDRO POWER STATIONS:

A) 275 MW Kopili Hydro Power Station (KHPS), Assam

Kopili Hydro Power Station	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual achieved (APAF) (%) during 2021-22
Power Stations		Design Energy	MoU Target	Actual during 2021-22		
Kopili Power Station	200 (4 x 50 MW)	993.80	Under Renovation & Modernization			
Khandong Power Station	50 (2 x 25 MW)	277.65	176	275.12	67	72.92
Khandong Stage-II Power Station	25 (1 x 25 MW)	86.30	51	10.97	69	15.27
Total	**275**		**227.00**	**286.09**		

Present Status of Renovation & Modernization of 4X50 MW Kopili Power Station:

The Renovation & Modernization (R&M) works for the power station is in progress.

Project Cost vetted by CEA (excluding IDC&FC): ₹ 82412.00 lakh at Jan '21 Price Level (PL).

Commissioning Schedule:

- March 2023: 100 MW (2 Units)
- April 2023: 100 MW (2 Units)

(a) MAIN CIVIL CONSTRUCTION WORKS:

Dismantling of Adit – II and PCC in Penstock alignment is completed. Anchor Block Cutting and Dismantling of Steel liner of HRT are in advance stage of completion. Drilling & grouting upstream of Adit-II is in progress. In all other location drilling & grouting is completed.

(b) HYDRO MECHANICAL WORKS:

Supply of cladded steel plates conforming to ASTM 537 Class-II with SS cladding from Japan is completed (5405 MT). Fabrication of ferrules and erection is in progress.

(c) **POWER HOUSE/ SWITCHYARD/ GENERATOR TRANSFORMER YARD WORKS:**

Status of some major activities are as below:

- Electro-Mechanical package-87% design, 81% Procurement & 22% manufacturing of equipment have been completed.
- One refurbished MIV and three new MIVs along with associated components have reached site.
- Cleaning & surface preparation of Draft tube is in progress. Pressed plate for Unit 3 is received at site and fixing of new plates has commenced.
- Laying of pipelines & associated items have started and six pump sets are erected.
- Two Generator Transformers received at site. Laying of new rail line is in progress.
- PCC and other associated work in the Switchyard completed. Laying of new earth mat and erection of Lightning Arrestor (LA) is in progress..
- Draft Tube and Drainage dewatering system along with flood water pumps in Valve gallery for all the units commissioned.
- 2 sets of 220 V DC battery bank with charger panel erected and commissioned. 24 V and 48 V DC battery bank with charger panel is also erected and commissioned.

(d) **FINANCIAL PROGRESS**

- Total value of works and supplies awarded as on 31.03.2022 is ₹ 79423.00 Lakh.
- Cumulative Expenditure incurred up to 31.03.2022 against R&M works of 200 MW Kopili Power Station is ₹ 43646.00 Lakh.

(e) **CONSTRAINTS:**

- Delay in receipt of imported materials from Japan for Penstock delayed start of associated works of fabrication and erection of ferrules.

Restoration of 2 X 25 MW Khandong Power Station and 1 X 25 MW Khandong Stage – II Power Station:

Due to unprecedented rainfall and sudden peak of Khandong reservoir on 26/03/2022, reservoir water gushed into the Head Race Tunnel and thereafter entered both the Power Stations connected to the Khandong system.

Cleaning at various locations in both the power stations and assessment of damage is in progress.

B) **75 MW Doyang Hydro Power Station (DHPS), Nagaland**

Doyang Hydro Power Station	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual APAF (%) during 2021-22
		Design Energy	MoU Target	Actual during 2021-22		
	75 (3x 25 MW)	227.24	221	100.58	70	62.39

Generation & APAF shortfall of DHPS is due to very less availability of water.

C) **405 MW Ranganadi Hydro Power Station (RHPS), Arunachal Pradesh**

Ranganadi Hydro Power Station	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual APAF (%) during 2021-22
		Design Energy	MoU Target	Actual during 2021-22		
	405 (3 x 135 MW)	1293.73	1260	1154.28	88	95.77

Generation shortfall of RHPS is due to less availability of water.

D) **60 MW Tuirial Hydro Power Station (THPS), Mizoram**

Tuirial Hydro Power Station	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual APAF (%) during 2021-22
		Design Energy	MoU Target	Actual during 2021-22		
	60 (2 x 30 MW)	250.63	181	137.42	85	73.02

- Generation shortfall of THPS is due to less availability of reservoir water & low system demand. APAF shortfall is due to less availability of reservoir water.
- NTPC Board in its 509th meeting held on 25.03.2022 accorded approval to the total completion cost of the Tuirial Hydro Electric Project amounting to ₹ 1,42,247.00 Lakh including IDC & FC of ₹ 6,937.00 Lakh subject to the approval of Ministry of Power.

E) **110 MW Pare Hydro Power Station (PHPS), Arunachal Pradesh**

Pare Hydro Power Station.	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual APAF (%) during 2021-22
		Design Energy	MoU Target	Actual during 2021-22		
	110 (2x 55 MW)	506.42	430	430.55	85	98.18

- NTPC Board in its 509th meeting held on 25.03.2022 accorded approval to the total completion cost of the Pare Hydro Electric Project amounting to ₹ 1,65,674.00 Lakh (₹ 1,64,031.00 Lakh vetted cost + ₹ 1,643.00 Lakh notional FERV) including IDC & FC of ₹ 23,804.00 Lakh subject to approval of Ministry of Power.

F) **600 MW Kameng Hydro Power Station (KaHPS), Arunachal Pradesh**

Kameng Hydro Power Station.	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual APAF (%) during 2021-22
		Design Energy	MoU Target	Actual during 2021-22		
	600 (4 x 150 MW)	3353	2800	2576.35	85	70.66

- Generation & APAF shortfall of KaHPS was due to outage of the units for various reasons and intermittent less availability of water.
- The Revised Cost Estimate (RCE) of the project is being processed for obtaining approval as per the prescribed procedure of NTPC.

THERMAL POWER STATIONS

A) **291 MW Assam Gas Based Power Station (AGBPS) (Combined Cycle), Assam**

Assam Gas Based Power Station	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual APAF (%) during 2021-22
		Annual Energy	MoU Target	Actual during 2021-22		
	291 (6 x 33.5 MW + 3 x 30 MW)	1746	1650	1787.10	72	71.52

- The DPR for R&M /Life Extension of AGBPS is in final stage of preparation.

Assam Gas Based Power Station	Gas Supplier	Contracted Quantity (MMSCMD)	Average Gas supply (MMSCMD)		
			2019-20	2020-21	2021-22
	M/s OIL	1.40	1.33	1.26	1.42

- **Additionally, one Agreement drawn with M/s HOEC on 15.12.2021 for 0.28 MMSCMD Gas on fall back basis.**

B) 135 MW Agartala Gas Based Power Station (AgGBPS) (Combined Cycle), Tripura

Agartala Gas Based Power Station	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual APAF (%) during 2021-22
		Annual Energy	MoU Target	Actual during 2021-22		
	135 (4 x 21 MW + 2 x 25.5 MW)	810	750	923.99	85	80

Less achievement of APAF from AgGBPS is due to less gas availability.

Advance copy of the DPR is received from M/S NTPC consultancy on 10-01-2022. Preparation of the DPR for R&M/LE of AgGBPS is in advance stage.

Agartala Gas Based Power Station	Gas Supplier	Contracted Quantity (MMSCMD)	Average Gas supply (MMSCMD)		
			2019-20	2020-21	2021-22
	M/s GAIL	0.75	0.62	0.69	0.71

The Gas Sales and Transportation Contract between NEEPCO and GAIL, is for supply of 0.75 MMSCMD of gas to the power station, from the gas fields of M/s ONGC.

C) 101 MW Tripura Gas Based Power Station (TGBPS) (Combined Cycle), Tripura

Tripura Gas Based Power Station	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual APAF (%) during 2021-22
		Annual Energy	MoU Target	Actual during 2021-22		
	101 (1 x 65.42 MW + 1 x 35.58 MW)	752.05	575	717.96	85	84.38

Tripura Gas Based Power Station	Gas Supplier	Contracted Quantity (MMSCMD)	Average Gas supply (MMSCMD)		
			2019-20	2020-21	2021-22
	M/s ONGC	0.50	0.43	0.37	0.46

RENEWABLE ENERGY POWER STATION

5 MWp Monarchak Solar Power Station, Tripura:

The energy generated from the plant during 2021-22 was 5.98 MU against Target of 6.00 MU with Capacity Utilization Factor (CUF) of 13.61%. Energy Generation was as per solar insolation.

ANALYSIS OF GENERATION

Net energy generation achieved during the year 2021-22 was 8120.29 MU against 6869.86 MU achieved during 2020-21. The increase in generation with respect to the previous year is 18.20%. The total energy generation in FY 2021-22 including loss due to system constraint, untraded amount, under requisition which is not attributable to NEEPCO is 8333.40 MU. Highest generation of 1005.48 MU was achieved in the month of July 2021 which constituted 12% of the total generation.

RENEWABLE ENERGY INITIATIVE:

A Memorandum of Understanding (MoU) was signed with IREDA on 02.10.2021 for cooperation in the field of Renewable Energy in the country.

Floating Solar Projects: Prospective study for establishment of floating solar project in the hydro projects' reservoirs was conducted. The Umrong reservoir of Kopili HP Station was found to be relatively suitable. Letter of award was issued to IREDA on 09.02.2022 to carry out the Pre-Feasibility (PFR) study for the project.

PFR for 40 MW_p capacity of Floating Solar Photo Voltaic (FSPV) project at Umrong reservoir of Kopili Hydro Power Station is submitted by IREDA and the same is being examined.

To harness the solar potential in the Ladakh region and to set up a small pilot Solar (PV) Project, NEEPCO initiated a discussion with the Ladakh Renewable Energy Development Agency (LREDA) and Ladakh Autonomous Hill Development Council (LAHDC) for providing necessary land for establishment of the project. Viability of Solar project would also be guided by availability of transmission system for evacuation of power.

OTHER PROJECTS:

Pradhan Mantri Sahaj Bijli Har Ghar Yojana – SAUBHAGYA

NEEPCO was entrusted to carryout Rural Electrification works in the state of Tripura under the 'Pradhan Mantri Sahaj Bijli Har Ghar Yojana - SAUBHAGYA' scheme on behalf of TSECL, Tripura in Sepahijala & South Tripura Districts. Successfully energized a total number of 12639 service connections and completed the Project in all respect by 25th March 2021. Closure report of the Project from the REC is received on 23rd November 2021.

UPCOMING PROJECTS:

Under S&I SCHEME: (Ownership Basis)		
S.N.	Project	Status
		HYDRO
1.	Wah Umiam St-III HEP (85 MW), Meghalaya	• TEC accorded approval for ₹ 96,390.00 lakh (including IDC of ₹ 10,063.00 lakhs) at January 2019 PL on 26.07.2021. • Expert Appraisal Committee (EAC), Govt. of India, recommended for grant of Environmental Clearance subject to Stage-I Forest Clearance (FC-I). • NEEPCO submitted all the necessary information/ documents to concerned Authorities during June'21. Further necessary action by Forest Department of Govt of Meghalaya is going on. • Survey works of 60 Ha of land out of 88 Ha Private Land is completed. Balance survey work is held up due to opposition by some of the land owners. The matter was apprised to the State Authorities, Govt. of Meghalaya and Local authorities, requesting their intervention for early resolution. • The transfer of 22 Ha land identified for Compensatory Afforestation (CA) is awaited from Revenue Department, Govt. of Meghalaya for subsequent mutation in the name of Forest Department, Govt. of Meghalaya. Required amount for the same already been deposited on 29.03.2022. • Meghalaya PWD was identified for undertaking the work of construction of approach road to dam site on deposit work basis. However, they are yet to submit estimates for the work and process for land acquisition. • No Objection Certificate (NOC) issued by Khasi Hills Autonomous District Council (KHADC) expired on 31.03.2022. The application for renewal of NOC was submitted to KHADC on 25.01.2022. The renewal is awaited. • All pending issues were raised in the meeting chaired by the Hon'ble Dy. Chief Minister, Govt. of Meghalaya in-charge of Power Dept. on 20.04.2022 at Shillong. Hon'ble Dy. CM assured to hold a meeting immediately with the concerned departments for resolution of issues. • Pre-construction activities can be taken up on receipt of Forest Clearance (Stage-I), completion of Land Acquisition and Investment Approval from Holding Company, NTPC.

Under S&I SCHEME: (Ownership Basis)		
S.N.	Project	Status
		HYDRO
2.	Wah Umiam St – I HEP (50 MW), Meghalaya	• These projects are located on the upstream of the Wah Umiam Stage – III HEP indicated above and were allotted on 12.03.2019. Thus, the whole Umiew basin has now been allotted to NEEPCO for development. • Draft MoAs were received from the State Government. NEEPCO furnished some observations with a request for necessary modification. • Govt. of Meghalaya on 03.09.2021 conveyed its consent for waiver of upfront premium and development of the project on BOOM basis, acceptance of which was conveyed by NEEPCO to GoM on 08.09.2021. • Matter is under constant persuasion and final MoAs from Govt. of Meghalaya are expected soon. • Pre-Feasibility Report (PFR) shall be finalized and preparation of DPR shall be taken up after signing of the MoAs.
3.	Wah Umiam St – II HEP (100 MW), Meghalaya	
4.	Nafra HEP (120 MW), Arunachal Pradesh	• MoA was signed with Govt. of Arunachal Pradesh on 14.08.2021. • In response to the request for transfer of TEC (previously accorded to the IPP) to NEEPCO, CEA on 31.08.2021 advised NEEPCO to submit a fresh DPR for concurrence considering the e-flow as per Bichom Basin Study. • Updated Hydrology report was submitted to the CEA on 10.01.2022 for examination and necessary clearance. Clearance is awaited. • Establishment of site camp and Bench Mark (BM) is completed. Manpower posted at site. • River discharge and rainfall data D/s of Nafra Project Power House site is being recorded and continuing. • A legal notice dated 31.12.2021 was received from M/s Sew Nafra Power Corporation Ltd. to reimburse the cost incurred by the IPP on the Project. The matter was apprised to GoAP on 05.01.2022.
5.	New Melling HEP (90 MW), Arunachal Pradesh	• MoA was signed with GoAP on 14.08.2021. • Manpower Posted at Project Site & Site Camp office established. • Preliminary Environment Study completed. • Automatic Weather Station (AWS) and Automatic Water Level Recorder (AWLR) installed at Project site & data collection is in progress. • DGPS Survey of Project components completed. • Collection of HM data from available nearby agencies completed. • Preparation of PFR completed. • A legal notice dated 31st Dec, 2021 was received from M/s Sew New Melling Power Corporation Limited. The matter was apprised to GoAP on 05.01.2022. • Subsequently, a case was also filed by the previous developer at Itanagar Bench of Guwahati High Court to which NEEPCO has been impleaded as a Respondent besides the State Government authorities.

Under BUILT & TRANSFER:		
	Project	Status
		HYDRO
1.	Ujh Multipurpose Project, UT of Jammu and Kashmir:	**Ujh Multipurpose HEP, Jammu & Kashmir (J&K):** • On 31.3.21 Ministry of Power, GOI communicated to the Ministry of Jal Shakti about nomination of NEEPCO as the executing agency for the 196 MW Ujh Multipurpose HE Project in Kathua (J&K). • TAC (Technical Appraisal Committee) clearance of Ujh MPP with IC of 89.5 MW has been accorded by Secretary (MoJS) on 17.01.2022. • The Ministry of Jal Shakti has circulated the EFC Memorandum for "Implementation of Ujh Multipurpose Project (National Project) on river Ujh (tributary of Ravi) in Union Territory (UT) of Jammu and Kashmir (J&K)" to different Ministries in April, 2022 for comments on the Draft EFC Memorandum. Funding approval of the project is awaited. • A coordination office has been established at site.

JOINT VENTURES:		
S.N.	Project	Status
		HYDRO
1.	Kurung HEP (330 MW), Arunachal Pradesh	• MoA with the Govt. of Arunachal Pradesh was signed on 27.01.2015 for development of the Project in Joint Venture with GoAP. • ToR clearance was obtained and PFR was prepared. • Pre-investment approval taken up with MoP was put on hold as per DIB meeting on 18.01.2018. As directed, revisit of certain MoA clauses was taken up with GoAP. • MoP on 28.06.2021 also took up the matter with GoAP. • GoAP in July'2021 responded that renegotiation of MoA clauses is not advisable at this stage. • NEEPCO requested MoP for Pre-investment approval for taking up the S&I activities for preparation of DPR. • As indicated by MoP on 18.08.2021, NEEPCO referred the Pre-investment approval to NTPC. The proposal was forwarded for pre-investment activities in two phases i.e. (i) upto DPR preparation and (ii) after DPR clearance by CEA. • Approval of Board of Directors, NEEPCO for the Phase–I Pre-investment activities was forwarded to NTPC on 09.03.2022. • Approval of NTPC Board on the same is expected soon. • Manpower has been posted at site. Preliminary field activities like installation of AWS and AWLR in the project area etc. are in progress. • Trace path cutting etc. to Dam/ Power House has been completed. • DGPS survey completed. • HM data collection is in progress. • Preparation of a modified PFR is in progress as per approved hydrology.
2.	Siang Upper Stage-II HE Project (3750 MW), Arunachal Pradesh.	• MoA with the Govt. of Arunachal Pradesh (GoAP) was signed on 28.05.2013 for development of the Project in Joint Venture between NEEPCO, NHPC and the State Govt. • NEEPCO prepared the PFR and started the DPR activities involving M/s RusHydro International (India) Pvt. Ltd. However, all activities on the project were kept on hold as per the advice of MoP vide letters dated 18.11.2015 and 02.02.2016. • As desired by GoAP, study on submergence area and land use pattern for the single stage Siang Upper HEP was taken up through NESAC. Report was submitted to GoAP in August 2021. • MoP in December 2021 indicated for possible allotment of Siang Upper HEP (10,000 MW) for development in joint venture between NEEPCO and NHPC.

Dibbin HEP (120 MW), Arunachal Pradesh:

- Shareholders' Agreement (SHA) was signed with KSK Energy Ventures Ltd. (KSKEVL) and KSK Electricity Financing India Pvt. Ltd. (KSKEFIPL) on 12.06.2014 for development of the project through KSK Dibbin Hydro Power Pvt. Ltd. (KSKDHPPL).
- Consideration of e-flow as per post TEC Basin Study Report brings down the Design Energy from 371 MU to 295 MU and the installed capacity gets revised to 80 MW.
- Effort to reestablish the commercial viability of the project is yet to materialize.
- KSKEVL was adjudged bankrupt and was registered under NCLT for liquidation.
- Put Notice to KSKEVL and KSKEFIPL was issued on 04.09.2020 and response of only KSKEVLwas received.
- On 23.04.2021 NEEPCO conveyed its nomination for a Good – Faith Negotiator to KSKEFIPL along with a request for their nomination.
- Awaiting response, NEEPCO appointed its nominee arbitrator which was intimated to KSKEFIPL on 31.01.2022 for acceptance as the sole arbitrator or else appoint its nominee arbitrator.
- Response of KSKEFIPL was received on 26.02.2022 which is under examination.

PROJECTS INDICATED FOR ALLOTMENT TO NEEPCO :

The Ministry of Power, Government of India, indicated possible allotment of 17 (seventeen) nos. of hydro projects in Arunachal Pradesh to NEEPCO totaling 4,988 MW vide MoP letter dated 22.12.2021.

In addition, 2 (two) more projects Viz. Siang Upper HEP (10,000 MW) and Siang Lower HEP (2,700 MW) aggregating a total capacity of 12,700 MW have been indicated for joint development with NHPC. A joint team consisting of NHPC & NEEPCO has been formed to liaise with the State Govt. of Arunachal Pradesh & local stakeholders, to carry out suitable analysis and preparation of evaluation reports.

Out of the 17 (seventeen) indicated projects, the proposal of revision of Design Energy considering Basin Study Report for Naying HEP (1000 MW) and Tato-II HEP (700 MW) has been vetted by CEA. At present, Cost estimate is being updated for the afore mentioned two projects. Further, due diligence study in respect of Tato-II HEP (700 MW) and Talong Londa HEP (225 MW) is under process by engaging a professional Consultant.

Data & documents of **Tawang – I HEP (600 MW)** and **Tawang – II HEP (800 MW)** has been taken over from NHPC.

The incumbent developer (M/s Velcan Energy Pvt. Ltd.) has been approached for initiating the process of due diligence by signing the non-disclosure agreement in respect of **Pauk HEP (145 MW), Heo HEP (240 MW)** and **Tato – I HEP (186 MW).**

PFR for Upper Siang HEP (10000 MW) is being prepared by M/s NHPC. Documents available with NEEPCO with regard to the project have already been handed over to M/s NHPC.

Pumped Storage Projects: Two existing Hydro Power Stations have been identified for development of Pumped Storage Plant and was communicated to the MoP on 06.01.2022. M/s AFRY India Pvt. Ltd was entrusted to prepare the PFR of the projects. Brief status of the PSP's is as below:

a) **Panyor PSP (660 MW):** Draft PFR for Panyor PSP (4 X 165 MW) using existing reservoir of Ranganadi Hydro Power Station (405 MW), Arunachal Pradesh as Lower Reservoir and creation of upper reservoir on the Pit Nallah is under preparation and is expected to be completed shortly.

b) **Kopili PSP (320 MW):** Draft PFR for Kopili PSP (4X80 MW) using existing Khandong reservoir as Upper Reservoir and existing Umrong Reservoir as Lower Reservoir of Kopili Hydro Power Station (275 MW) is completed and final PFR is expected to be received shortly.

RESEARCH & DEVELOPMENT (R&D):

The following R&D Project was undertaken through IIT, Guwahati during the year 2019-20 with a completion target of three years:

"Design of an automatic communication system through Cloud computing using sensor based automated input for efficient operation of RHPS with due emphasis on downstream concerns up to confluence with Subansiri River"

The project is in progress and bathymetric study was completed during the year 2021-22. The project is targeted to be completed within financial Year 2022-23.

In addition to the above project, following 2 (two) New R & D projects identified during 2021-22 shall be taken up in the year 2022-23:

Sl. No.	Name of the draft R & D Proposal	In-House/ Collaborative	Total Financial Involvement (₹ in Lakhs)	Time Line from the date of Final Approval
1	R&D on Smart illumination Controller	In-House (Agartala GBPS)/ R&D, NEEPCO	0.84	3 (Three) months
2	R&D on Fire Detection System	In-House (Agartala GBPS)/ R&D, NEEPCO	4.72	2 (Two) years
	Total=		**₹ 5.56 Lakh**	

Expenditure incurred on Research & Development for the financial year 2021-22 is ₹ 15.20 Lakhs.

QUALITY ASSURANCE & INSPECTION:

NEEPCO has an established centralized Corporate Quality Assurance Department. A Model Quality Management System is in force to carry out quality assurance and inspection activities of power projects works under implementation/execution for ensuring quality of works. All product, service specifications, drawings, quality assurance documents, test results/ test reports, etc. in respect of tenders being processed from corporate office are provided to QA&I department for planned and systematic actions. In respect of the field quality functions, the designated quality control officers of the respective sites / location exercise their day-to-day Quality Control checks as specified. However, the Administration of overall Quality Control procedures/ formats and periodic surveillance check is under the ambit of corporate QA&I department.

CERTIFICATIONS:

NEEPCO achieved accreditation and full compliance under Integrated Management System (IMS) as per the standards of ISO 9001:2015 (Quality Management System), ISO 14001:2015 (Environment Management System) and ISO 45001:2018 (Occupational Health & Safety Management System) in a total of 16 (sixteen) locations including all the nine O&M Stations, Corporate Head Quarter and other important offices, in three groups. The group wise validities of the extant certificates are up to 05.07.2024 (for eight locations), 23.12.2022 (for seven locations) and 20.10.2024 (for one location). Recertification is done before the end of existing validities.

The Corporation has also initiated implementation of Information Security Management System (ISMS) as per the standards of ISO 27001:2013 at 15 locations.

Further, the 291 MW Assam Gas Based Power Station, Bokuloni, Assam has been shortlisted by the Bureau of Energy Efficiency, New Delhi for implementation of ISO 50001:2018 (Energy Management System).

E-GOVERNANCE / IT INITIATIVES :

In its digitalization effort, the ERP system which was taken for implementation is now nearing finalization with nine locations attaining Go-Live /operational status and in the balance five locations implementation is in progress.

For hosting the current SAP ERP system, NEEPCO opted for Selection of MeitY empanelled Cloud Service Provider for Data Center (DC) and Disaster Recovery Center (DRC) on Govt Community Cloud DC via Open Tendering process. The LOI was issued to M/S ESDS Software Solution Pvt Ltd on 25th Nov 2021.

Migration to the hosting platform of the empaneled Cloud Service Provider for the ERP Data Center (DC) is completed. Network Connectivity to the DC has been extended from the present Network Service Provider – PGCIL (Power Grid Corporation of India Limited). Ongoing preparation and Connectivity to the Disaster Recovery Center (DRC) is in progress.

Inline to the implementation of ERP, the Material and Asset reclassification and recodification tasks were also extensively undertaken and separate software has been made available for streamlining the recodification and generation of new Assets and Material Codes for the SAP system.

In its endeavor for continuous improvement of services rendered and in response to the working and travelling challenges posed in pandemic situation, the IT department facilitated remote collaborations, video Conferencing Solutions via Microsoft Teams and enabled various meetings, training of official matters on this platform. As per advisory, IT System Security Audit for IT Devices was completed in Sept 2021 by CERT-IN empaneled agencies. Improvement of Network Connectivity along with enhancement measures to all locations is continuously being monitored.

PUBLIC PROCUREMENT POLICY FOR MICRO & SMALL ENTERPRISES (MSES):

The total value of goods and services procured from MSEs (including MSEs owned by SC/ST and women entrepreneurs) are as shown below:

Sl. No.	Description	2019-20	2020-21	2021-22
1	Total procurement in ₹ Lakhs	21,856.59	71,116.11	54,089.59
2	Total procurement from MSEs in ₹ Lakhs	943.56	4,613.32	7,741.10
3	Total procurement from MSEs owned by SC/ST entrepreneurs in ₹ Lakhs.	295.71	551.59	1558.51

North Eastern Electric Power Corporation New Delhi

Sl. No.	Description	2019-20	2020-21	2021-22
4	Total procurement from MSEs owned by women entrepreneurs in ₹ Lakhs.	20.18	66.62	135.40
5	Percentage of procurement from MSEs out of total procurement.	4.32%	6.49%	14.31%
6	Percentage of procurement from MSEs owned by SC/ST entrepreneurs out of total procurement.	1.35%	0.78%	2.88%
7	Percentage of procurement from MSEs owned by women entrepreneurs out of total procurement.	0.09%	0.09%	0.25%

RIGHT TO INFORMATION (RTI):

The Right to Information Act, 2005 is implemented to promote accountability, transparency and efficiency. Apart from receiving off -line RTI applications, NEEPCO is also linked to the online system of RTI request & Appeal Management Information Systems, "RTIMIS" portal. Through this portal, on-line RTI applications are processed. Details of First Appellate Authority, Nodal officer, Public Information Officer (PIO) and Central Public Information Officers (CPIOs), are uploaded in the corporate website.

RTI Applications received & disposed during FY 2021-22 are shown hereunder:

Compliance of the RTI Act, during the financial year 2021-2022	
Number of applications/appeals received	148
Number of applications/appeals disposed	100

RISK MANAGEMENT POLICY:

NEEPCO's extant Risk Management Policy (RMP) was implemented in February, 2016. Thereafter, based on the recommendation of the Audit Committee, the Board of Directors (BOD) in its Meeting held on 10.05.2019 approved its amendment in regard to the methodology of computation of Risk Exposure as well as the minimum period for review of the RMP. The amended RMP was issued in May, 2019.

The Policy establishes a structured and disciplined approach to Risk Management, including development of Risk Register to guide and prioritize decisions on risk related issues. Various risks faced by the power stations, projects and offices are being identified along with their mitigation measures and are continuously monitored by the Corporate QSHE & Risk Cell. To ensure proper monitoring, the heads of power stations/projects/offices submit quarterly status report on identified risks with their mitigation measures to the Chief Risk Officer (CRO), who is the Nodal Officer of all risk related matters, for reporting it to the Risk Review Committee (RRC). The RRC annually apprise the same and after scrutiny, submit to the Audit Committee (AC) for its review and evaluation of the key risks faced by the Corporation. The AC presents the relevant findings including its recommendations to the Board of Directors for approval/guidance/advice.

The Board of Directors of NEEPCO in its 269th meeting held on 4th February, 2022 constituted a Board Level Risk Management Committee (RMC) in pursuant to Regulation 21 of SEBI (Listing Obligations & Disclosure Requirement) Regulations, 2015, as under:

Name / Designation	Nature of Directorship	Chairperson / Member
1. Director (Technical), NEEPCO	Director (Technical)	Chairperson
2. Shri. U. K. Bhattacharya, Director (Projects), NTPC	Non-Executive Director	Member
3. Dr. Viveka Nand Paswan	Independent Director	Member
4. Director (Personnel), NEEPCO	Director (Personnel)	Member

Henceforth, the new RMC shall periodically review the RMP at least once in two years, including by considering the changing industry dynamics and evolving complexity. Besides, the RMC shall meet at least twice in a year. The meetings of the RMC shall be conducted in such a manner that on a continuous basis not more than 180 days shall elapse between any two consecutive meetings.

NEEPCO New Delhi North Eastern Electric Power Corporation

TERMINAL BENEFITS SETTLEMENT

The key objective of Terminal Benefits Cell is to settle the terminal benefits of all separated employees on time as per rules of the Corporation as well as directives/ guidelines of the Govt. of India.

During above financial year 2021-22, the total number of Gratuity cases settled in respect of retired/ resigned/ expired employees and expenditure on gratuity/ Post-Retirement Medical Benefits / NEEPCO Employees Family Economic Rehabilitation Scheme, presentation of Memento (05 grams Gold Coin), NEEPCO Employees Defined Contribution Superannuation Scheme, NEEPCO Employees' Social Security Scheme and NEEPCO Group Accident Insurance Scheme are as detailed below:

DETAILS OF GRATUITY SETTLED AS ON 31.03.2022

Category	Retirement (in nos.)	Resignation (in Nos.)	Death (in Nos.)	Amount (in ₹)
Executive	51	01	05	Rs.11,27,09,658.00
Supervisor	12	--	02	Rs.2,79,84,881.00
Workmen	44	-	08	Rs.9,06,70,744.00
Total	107	01	15	Rs.23,13,65,283.00

Amount paid under the following heads

Sl. No.	Head	Amount in ₹
1	Post-Retirement Medical Benefits	Rs.6,74,15,465.00
2	NEEPCO Employees Family Economic Rehabilitation Scheme	Rs.30,16,566.00
3	Memento (5 grams Gold Coin)	Rs.28,21,744.72
4	NEEPCO Employees Defined Contribution Superannuation Scheme	Rs.37,45,11,108.00
5	NEEPCO Employees' Social Security Scheme	Rs.68,00,000.00
6	NEEPCO Group Personal Accident Insurance Scheme	Rs.5,39,640.00

An amount of ₹8,77,500/-(Rupees Eight Lakh Seventy-seven Thousand Five hundred) only received during the financial year 2021-22 as one-time contribution from the members for availing the medical facilities under the PRMB scheme.

CORPORATE SOCIAL RESPONSIBILITY

Since its inception, NEEPCO has always accorded top priority to the all-around development of the people residing in and around its operational areas. As a responsible corporate entity, NEEPCO has undertaken various community development activities, particularly in the field of education, health, infrastructure development and other community needs.

In accordance with the provisions of the Companies Act, 2013, the Companies (Corporate Social Responsibility Policy) Rules, 2014, MCA General Circular no. 21/2014 dated 18.06.2014 and revised DPE guidelines, the NEEPCO's CSR policy has been approved by the Board of Directors on 14.07.2015 and has been also revised and duly approved by the Board of Directors on 11.08.2020.

NEEPCO CSR&S policy 2015, articulates the company's commitment to its stakeholders to conduct its business in an economically, socially and environmentally sustainable manner that is transparent and ethical. Accordingly, while determining CSR & Sustainability activities priority has been given to stakeholders in the neighbourhood area around its area of operations i.e. projects/plants/offices.

AIMS AND THRUST AREAS FOR CSR & SUSTAINABILITY ACTIVITIES:

CSR activities shall focus on social, economic and environmental impact rather than mere output and outcome. All the various activities that can be undertaken in general under CSR & Sustainability shall be in conformity with the Schedule VII of the Companies Act 2013.

Keeping the aim of working towards the activities identified in Schedule VII of the Companies Act, 2013, the following will be the thrust areas of CSR & Sustainability activities of NEEPCO:

- Eradicating hunger, poverty and malnutrition, promoting health care including preventive health care and sanitation and making available safe drinking water.
- Promoting education, including special education and employment enhancing vocational skills especially

among children, women, elderly, and the differently abled and livelihood enhancement projects.

- Promoting gender equality, empowering women, setting up homes and hostels for women and orphans; setting up old age homes, day care centres and such other facilities for senior citizens and measures for reducing inequalities faced by socially and economically backward groups.
- Ensuring environmental sustainability, ecological balance, protection of flora and fauna, animal welfare, agro-forestry, conservation of natural resources and maintaining quality of soil, air and water.
- Protection of national heritage, art and culture including restoration of buildings and sites of historical importance and works of art; setting up public libraries; promotion and development of traditional arts and handicrafts.
- Measures for the benefit of armed forces veterans, war widows and their dependents.
- Training to promote rural sports, nationally recognized sports, Paralympics sports and Olympic sports.
- Contribution to the Prime Minister's National Relief Fund or any other fund set up by the Central Government for socio-economic development and relief and welfare of the Scheduled Castes, the Scheduled Tribes, other backward classes, minorities and women.
- Contribution to incubators funded by Central Government or State Government or any agency or Public Sector Undertaking of Central Government or State Government, and contributions to public funded Universities, Indian Institute of Technology (IITs), National Laboratories and Autonomous Bodies (established under the auspices of Indian Council of Agricultural Research (ICAR), Indian Council of Medical Research (ICMR), Council of Scientific and Industrial Research (CSIR), Department of Atomic Energy (DAE), Defence Research and Development Organization (DRDO), Department of Biotechnology (DBT), Ministry of Electronics and Information Technology) engaged in conducting research in science, technology, engineering and medicine aimed at promoting Sustainable Development Goals (SDGs).
- Rural Development projects.
- Slum Area development: Slum area means any area declared as such by the central Government or any State Govt. or any competent authority any law for the time being in force.
- Disaster management, including relief, rehabilitation and reconstruction activities.

FINANCIAL DISCUSSION AND ANALYSIS REPORT

A detailed discussion and analysis on financial statements of North Eastern Electric Power Corporation Ltd (NEEPCO/the Company) is furnished below.

FINANCIAL POSITION

The Balance Sheet items are as discussed under:

1. Property, Plant & Equipment (PPE), Capital Work-in-Progress, Intangible assets and Intangible assets under development

The PPE, Capital work-in-progress, Intangible assets and Intangible assets under development of the Company are detailed as under:

₹ in lakhs

Particulars	As at March 31		% Change
	2022	2021	
Gross block of Property, Plant & Equipment (PPE) (Note-2)	18,19,243.89	18,06,020.08	0.73%
Net block of Property, Plant & Equipment (PPE), (Note-2)	12,91,027.95	13,49,807.25	(4.35%)
Capital work-in-progress (CWIP) (Note-3)	61,842.58	16,896.60	266.01%
Gross block of Intangible assets (Note-4)	10,519.66	9,613.39	9.43%
Net block of Intangible assets (Note-4)	9,181.06	8,842.39	3.83%
Intangible assets under development (Note-4A)	257.77	649.91	(60.34%)

During the year, increase in gross block of PPE is ₹ 13,223.81 lakhs (i.e., increased by 0.73%) and decrease in net block is ₹ 58,779.30 lakhs (i.e., decrease by 4.35%) over the previous year and as such, there is no significant increase in gross block. Decrease in net block of PPE has resulted due to charging of depreciation on assets of the Company including depreciation on Kameng HPS PPE for the whole year.

CWIP during the current financial year is increased by ₹ 44,945.98 lakhs (i.e., increased by 266.01%) mainly due to RRM works of Kopili HPS (4 X 50) MW project.

During the year, increase in gross block of Intangible assets is ₹ 906.27 lakhs (i.e., increased by 9.43%) and increase in net block by ₹ 338.67 lakhs (i.e., increased by 3.83%) over the previous year is mainly due to capitalization of "ERP Software" . Due to the aforesaid reason, the Intangible assets under development decreased by ₹ 392.14 lakhs (i.e., decreased by 60.34%) during the current financial year.

2. Investment in subsidiary & Joint Venture companies (note-5)

(₹ in lakhs)

Particulars	As at March 31	
	2022	2021
Investment in Joint ventures	2793.00	2793.00
Less: Provision	2793.00	2793.00
Total	**Nil**	**Nil**

Investment in the Joint Venture companies as on 31.03.2022 is as under:

(₹ in lakhs)

Name of Company	Amount
KSK Dibbin Hydro Power Pvt Ltd	2793.00
Less: Provision	2793.00
Net	Nil

The Company invested an amount of ₹ 2793.00 lakhs, being 30% shareholding of NEEPCO in the JV Company as per agreement. NEEPCO is under the process of exploring various scopes & opportunities for ensuring viability of M/s KSK Dibbin hydro Power Pvt Ltd, the Joint Venture Company, including engagement of legal expert to protect the Company's (NEEPCO) interest for

the investment made. However, considering commercial non viability of the project in its present form as observed by inter-disciplinary committee of the Company, provision of an equivalent amount has been made in books of NEEPCO.

3. Non-current financial assets (note-6 and note-8)

Non-current financial assets mainly comprise of loans & advance to employees, advance tax refundable, capital advances etc.

(₹ in lakhs)

Particulars	As at March 31		% Change
	2022	2021	
Loan to Employees (Note-6)	26.16	28.30	(7.56%)
Other non-current assets (Note-8)	18,303.10	19,223.53	(4.79%)
Total	**18,329.26**	**19,251.83**	**(4.79%)**

Loans to employees includes interest bearing computer advance, interest free furniture advance & multipurpose advance, whereas other Non-Current Assets includes Capital advances which are expected to be realized after a period of 12 months from the Balance Sheet date. It includes Capital advances to contractors (Un-secured), Deferred foreign currency fluctuation assets, Interest accrued on Advances and Advance Tax refundable.

The advance to contractor unsecured, considered good after adjustment of doubtful debts amounts to ₹ 14,920.68 lakhs as compared to the previous year's amount of ₹ 12,692.73 lakhs i.e, an increase by ₹ 2,227.95 lakhs. Advance Tax refundable has decreased by ₹ 2250.66 lakhs & stood at ₹ 2278.53 lakhs as on 31st March 2022 as against ₹ 4529.19 lakhs as on 31st March 2021.

4. Current assets (note-9 to note-15)

The current assets as at 31st March 2022 and 31st March 2021 and the changes therein are as follows:

(₹ in lakhs)

Particulars	As at march 31		Year to Year change	
	2022	2021	(₹ in lakhs)	In %
Current assets				
Inventories (Net of provision) (Note-9)	15,099.24	13,526.33	1,572.91	11.63%
Trade receivables (Note-10)	48,776.49	76,911.76	(28,135.27)	(36.58%)
Cash & cash equivalents (Note-11)	4,344.49	46.89	4,297.60	9165.28%
Bank balances other than cash and cash equivalents (Note-12)	1,009.06	171.24	837.82	489.27%
Others (Note-13)	35,806.83	18,844.62	16,962.21	90.01%
Other current assets (Note-15)	3,149.91	3,871.04	(721.13)	(18.63%)
Current Tax Assets (Net) (Note- 14)	141.20	-	141.20	
Total current assets	**1,08,327.22**	**1,13,371.88**	**(5,044.66)**	**(4.45%)**

(a) Inventories (note 9)

Inventories are valued at costs or net realizable value (NRV), whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average cost formula and NRV is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

Physical verification of inventories is done by the management once a year. Inventories were valued at ₹ 15099.24 lakhs and ₹ 13526.33 lakhs (net of provision) as on 31st March, 2022 and 31st March, 2021 respectively.

(b) Trade Receivables (note 10)

"Trade receivables" are dues receivable from the beneficiaries for sale of electricity. The Trade Receivables as on 31st March, 2022 were ₹ 48,776.49 lakhs as compared to ₹ 76,911.76 lakhs as on 31st March, 2021, i.e., a decrease of 36.58% during the year. Trade receivables as on 31.03.2022 and 31.03.2021 includes "Unbilled amount" ₹ 24,930.37 lakhs and ₹ 19,201.03 lakhs respectively.

(c) **Cash & Cash Equivalents and Bank balances other than Cash & Cash equivalent (note 11 and 12)**

It consists of (i) current accounts maintained with the Bank, (ii) Stamps in hand and (iii)Restricted money on the Balance Sheet date. As on 31st March, 2022 and 31st March, 2021 the Cash & Cash Equivalents (including Bank balances other than Cash & Cash equivalent) of the Corporation are ₹ 5353.55 lakhs and ₹ 218.13 lakhs respectively (which includes Restricted money amounting to ₹ 1009.06 lakhs and ₹ 171.24 lakhs respectively) and thus an increase by 2354.29% during the year.

(d) **Others (note 13)**

Others includes balances on account of Account receivables unsecured, considered good, claim receivables, Contract Assets, Advance to staff and Security deposits expected to be settled within 12 months from the close of the current financial year. As on 31st March, 2022, amount stood at ₹ 35806.83 lakhs as against ₹ 18844.62 lakhs on 31st March 2021. There is a net increase of ₹ 16,962.21 lakhs **(i.e.,** 90.01%) during FY 2021-22 over the previous year mainly due to increase in Contract Assets (₹ 29556.94 lakhs as on 31st March, 2022 in comparison to ₹ 17173.31 lakhs as on 31st March, 2021) and Claim receivables (₹ 3562.67 lakhs as on 31st March, 2022 in comparison to 'Nil' as on 31st March, 2021) .

(e) **Current Tax Assets (Net) (note 14)**

Current Tax Assets (Net) includes Advance Tax refundable, Advance Tax paid including TDS / TCS by netting-off Current Tax Liabilities consisting of Current year tax liabilities (including tax liability pertaining to regulatory deferred account balances), adjustment for earlier years and tax on Other Comprehensive Income. NEEPCO's Current Tax Assets (net) as on 31st March, 2022 was ₹ 141.20 lakh as against Current Tax Liabilities ₹ 226.19 lakh as on 31.03.2021.

(f) **Other Current Assets (note 15)**

Other Current Assets consists of prepaid expenses, advance to Suppliers & contractor (net of provision), Scrap/obsolete assets (net of provision), assets held for disposal (at NRV). NEEPCO's other current assets (net of provision) as on 31st March, 2022 and 31st March, 2021 were ₹ 3149.91 lakhs and ₹ 3871.04 lakhs respectively, i.e., a decrease by 18.63%.

5. Regulatory Deferral Accounts Debit Balance - Note-16

Regulatory deferred accounts debit balance (RDA Dr. bal.) as on 31st March 2022 & 31st March 2021 amounts to ₹ 92344.55 lakhs and ₹ 84384.08 lakhs respectively, i.e., an increase by 9.43%. Regulatory deferred accounts debit balance consists of Employees benefit expenses for gratuity amounting to ₹ 4793.47 lakhs (Previous Year ₹ 4793.47 lakhs), Depreciation - Tuirial Hydro Power Station amounting to ₹ 18079.69 lakhs (Previous Year ₹ 13962.05 lakhs), Deferred Tax adjustment against deferred tax liabilities amounting to ₹ 29387.52 lakhs (Previous Year ₹ 24233.87 lakhs), Deferred Tax Recoverable amounting to ₹ 38623.96 lakhs (Previous Year ₹ 39934.78 lakhs) and Exchange Difference on foreign loan amounting to ₹ 1459.91 lakhs (Previous Year ₹ 1459.91 lakhs). A summarized report on RDA Dr. bal. is as follows:

(₹ in lakhs)

Lease liabilities (Note 19A and 21A)

In compliance to MCA notification, the Company has adopted Ind AS 116 "Leases" with effect from 01.04.2019 and applied to all lease contracts existing on 1st April 2019. Consequently, the Company recorded the lease liability at the present value of remaining lease payments discounted at the incremental borrowing rate applicable at the date of initial application.

Details of Lease liabilities are as under:

(₹ in lakhs)

Particulars	As on 31st March, 2022	As on 31st March, 2021
Lease liabilities - Non-current	438.19	267.79
Lease liabilities - Current maturities (in one year or less)	573.64	522.66
Total Lease liabilities – Assets under lease	**1011.83**	**790.45**

Other non-current Liabilities

(a) Long term Provisions (Note 20):

Long Term Provisions of ₹ 1881.86 lakhs as on 31st March, 2022 (previous year ₹ 1349.59 lakhs) include Provisions for Employee Benefits (Medical benefit for retired employees ₹ 1607.45 lakhs and Other retirement benefits ₹ 274.41 lakhs) which are expected to be settled beyond 12 months from the date of Balance Sheet.

(b) Deferred Tax liabilities/(Asset) (Note 7)

Deferred Tax Liabilities (Net) as on 31st March, 2022 amounts to ₹ **76633.80** lakhs as compared to ₹ **61814.64** lakhs as on 31st March, 2021. Increase in deferred Tax Liability is mainly due to capitalization of Kameng HPS in the previous FY.

Other Current Liabilities

(a) Trade Payables (Note 22)

Trade payables include the amounts payable on account of goods purchased or services received in the normal course of business. The trade payables as on 31st March, 2022 were ₹ 22156.98 lakhs as compared to ₹ 8583.31 lakhs as on 31st March, 2021. The aforesaid trade payables include amount payable to MSMEs amounting to ₹ 496.79 lakhs as on 31.03.2022 (₹ 434.36 lakhs as on 31.03.2021) and the same were not due for more than 45 (forty-five) days from receipt of claims from the vendors as on Balance Sheet dates of the respective financial years. Increase in Trade payable during the CY in comparison to the PY is primarily due to recognition of amount (₹ 12442.72 lakhs) on account of transmission expenses billed by the transmission agency.

(b) **Other Financial Liabilities (Note 23)**

These include interest accrued but not due on outstanding loans & bonds and other liabilities like creditors for Capital expenditure, payable for employee's benefits and Provisions, which are expected to be paid/settled within 12 months from the date of Balance Sheet. Other Financial Liabilities as on 31st March, 2022 amounts to ₹ 17100.26 lakhs as compared to ₹ 19949.83 lakhs as on 31st March, 2021.

The decrease in other financial liabilities by 14.28 % is primarily due to decrease in the amount payable for capital expenditure and increase in amount payable for employees benefits.

(c) **Other Current Liabilities (note 24)**

These include retention money from contractors & others, advance from beneficiary, advance from REC for DDUGJY SAUBHAGYA schemes, Direct & Indirect Taxes Payables and other statutory dues payable (such as, CPF, LIP, NESS etc.), which are to be paid within 12 months from the date of the Balance Sheet. Other current Liabilities as on 31st March, 2022 amounted to ₹ 17136.87 lakhs as compared to₹ 14585.29 lakhs as on 31st March, 2021.

The increase in other current liabilities by 17.49 % is mainly due to increase in retention money from the contractors & Others and decrease in advance from beneficiaries.

(d) **Provisions (note 25)**

Provisions as on 31st March, 2022 was ₹ 15607.00 lakhs as compared to ₹ 16742.44 lakhs in the previous FY. These include Provision for Employee Benefits on account of Gratuity ₹ 1045.58 lakhs (previous year ₹ 1529.85 lakhs), Medical benefit for retired employees ₹ 693.90 lakhs (previous year ₹ 441.98 lakhs), Leave Encashment ₹ 13855.16 lakhs (previous year ₹ 14761.47 lakhs), and other retiring benefit ₹ 12.36 lakhs (previous year ₹ 9.14 lakhs), which are expected to be settled within 12 months from the date of Balance Sheet. Decrease in Short Term Provisions during FY 2021-22 by 6.78 % is mainly due to decrease in provisions for Gratuity & Employees leave encashment and increase in provision for Medical benefit for retired employees.

8. **Other Non- Current Liabilities :: Deferred Revenue (Note-26 and 26A)**

Deferred revenue consists of two items detailed as under:

(₹ in lakhs)

Particulars	As on 31st March, 2022	As on 31st March, 2021
Deferred revenue arising from Government grants		
Current	1597.96	1610.72
Non-Current	22797.99	24393.51
Deferred foreign currency fluctuation liabilities	6339.74	6059.27
Total	**30735.69**	**32063.50**

Deferred revenue arising from Government Grant

❖ **Grant from MDONER:**

As per the Investment Approval sanctioned vide the Ministry of Power's letter no.7/7/2009-H-I dated 14th January 2011, an amount of ₹30000.00 lakhs has been sanctioned by the Ministry of Development of North Eastern Region (MDONER) as a part of the approved funding pattern for the Tuirial Hydro Electric Project, Mizoram. The total amount of ₹ 30000.00 lakhs are included in Grant in Aid (GIA) which is subjected to amortization during normative useful life of the project since its commissioning, balance of which continuing in books of NEEPCO as on 31.03.2022 was ₹ 23407.96 lakhs.

❖ **Govt. subordinate loan:**

Govt. of India has approved a Sub-ordinate loan amounting to ₹ 29196.42 Lakhs to NEEPCO for implementation of Tuirial HEP with interest @1% per annum payable from the "Date of Commercial Operation" of the project. Of the aforesaid loan amount, NEEPCO has received ₹ 29096.42 lakhs till 31.03.2015 and the balance ₹ 100.00 lakhs has been received

during the FY 2015-16. The loan amount (₹ 29096.42 lakhs) received till 31.03.2015 has been recognized in books of NEEPCO as on 01.04.2015 (Ind AS Transition date) at its carrying value in compliance to the Ind AS 101 (Exception to the retrospective application). However, for the loan amount (₹ 100.00 lakhs) received during the FY 2015-16, the benefit of the loan due to below market rate of interest (considered SBI base rate @9.70% effective as on Jun'15) amounting to ₹ 82.64 lakhs has been treated as a govt. grant and recognized in the Books of NEEPCO accordingly, balance of which continuing in books of NEEPCO as on 31.03.2022 was ₹ 72.32 lakhs.

- **Spares out of Grant in Aid:**

  Total value of spares purchased out of "Grant in aid" received from the Central Govt. amounts to ₹ 3659.53 lakhs and accordingly, recognized in books of Assam Gas Based Power Stations of NEEPCO. The said GIA is subjected to adjustment on year to year basis based on value of such spares consumed/utilized for repairs & maintenance of the Plant. Balance continuing in books of NEEPCO as on 31.03.2022 on account of the aforesaid spares was ₹ 915.67 lakhs.

- **Deferred Foreign Currency Fluctuation liabilities:**

  "Deferred foreign currency fluctuation liability" recognized in books of the Company and balance continued as on 31.03.2022 amounts to ₹ 6339.74 lakhs (Previous year ₹ 6059.27 lakhs) on accounts of FERV relating to foreign loans (ECB from SBI Singapore and Foreign currency loan from KfW, Germany) drawn prior to 01.04.2016.

Result from Operations:

I. Total revenue (Note-27 & Note-28)

(₹ in lakhs)

Sl.	Particulars	FY 2021-22	FY 2020-21	Change
1	Sale of energy	241,233.75	196,172.98	22.97%
2	Sale of energy through trading	64,842.06	23,539.49	175.46%
3	Electricity duty	-	1,564.69	(100.00%)
4	Revenue from DSM	2,278.42	2,819.97	(19.20%)
5	Revenue from RRAS	256.87	892.46	(71.22%)
6	FERV (Net) from the beneficiaries	405.38	1,547.99	(73.81%)
7	NERLDC Fees & other charges from beneficiaries	474.78	319.56	48.57%
8	Deferred revenue – Govt. grant	1,597.96	1,610.72	(0.79%)
9	Interest from the beneficiaries	9,595.11	341.56	2709.20%
	Revenue from operation	**320,684.33**	**228,809.42**	40.15%
10	Other income	9,512.34	26,634.86	(64.29%)
	Total Revenue	**330,196.67**	**255,444.28**	29.26%

Revenue from operation (note 27):

NEEPCO sells electricity to bulk consumers comprising of the state-owned electricity utilities and power departments in the North Eastern Region (NER) (excluding Sikkim) as well as power departments outside NER (from Kameng HPS) under long term Power Purchase Agreements (PPAs) and as per the allocation made by the Ministry of Power for each of the beneficiary States. In addition, the Company resorted to Power trading through M/s NTPC Vidyut Vyapar Nigam Ltd (NVVN) and M/s PTC (I) Ltd for merchant power generated by Kameng HEP and Surplus power available to the Company on account of Un-requisitioned Energy (URS) & on regulation of power supply to the defaulting beneficiaries. Total revenue from operations during 2021-22 was ₹ 320684.33 lakhs (previous year ₹ 228809.42 lakhs,) which constitutes 97.12% (previous year 89.57%) of total income of the Company for the year.

With total installed capacity of 2057 MW, the Company has achieved a generation of 8120.29 MU during the current year as compared to total generation of 6869.86 MU during the previous year from its total installed capacity of 2057 MW.

Other Income (note 28)

'Other income' mainly comprises interest on bank deposits, delay payment surcharge, provision written back, and miscellaneous receipts.

Other Income was ₹ 9512.34 lakhs during the FY 2021-22 as compared to ₹ 26634.86 lakhs in FY 2020-21. The decrease in other income is mainly due to decrease in Delay payment surcharge (by ₹ 20944.99 lakhs) and increase in Misc. receipts (by ₹ 3667.09 lakhs).

During the current FY 2021-22, Other Misc. Receipts increased to ₹ 5126.98 lakhs (PY ₹ 1459.89 lakhs) which includes transit hostel recoveries, liquidity damage recovered, Insurance claim receivable, Interest from employees on loans, sale of tender paper etc.

II. Expenditure (Note-29 to Note-33)

The total expenditure in FY 2020-21 increased by 22.84% as compared to the previous year, which is due to increase in Employee benefits expenses, Finance Cost & Depreciation and decrease in Fuel cost & other expenses.

(₹ in lakhs)

Particulars	2021-22	2020-21	Increase/ (Decrease)	Change(%)
Fuel cost (Note 29)	63,488.96	49,454.08	14,034.88	28.38%
Employee benefit expense (Note 30)	46,518.08	42,644.29	3,873.79	9.08%
Finance costs (Note 31)	58,198.79	50,932.61	7,266.18	14.27%
Depreciation and amortization expense (Note 32)	80,781.94	65,614.53	15,167.41	23.12%
Other expenses (Note 33)	45,824.08	38,154.80	7,669.28	20.10%
Total expenses	**294,811.85**	**246,800.31**	**48,011.54**	19.45%

Fuel Cost

Price of fuel (natural gas) utilized in thermal generating stations of NEEPCO is governed by rate as decided and notified by the Ministry of Petroleum and Natural Gas (MoPNG), Government of India, except for Tripura Gas Based Power Station (TGBPS), for which applicable price is governed by agreement drawn between NEEPCO and ONGC for supply of fuel. Total fuel cost consists of cost of gas and transportation expenses thereon.

Increase in fuel cost during the Current year (CY) by ₹ 14034.88 lakhs over the Previous year (PY) is due to increase in MoPNG governed Domestic Gas Price per mmbtu increased (avg.) by 12.08% (Apr'21 to Sept'21 @$1.79 & Oct'21 to Mar'22 is @ $2.90 and Apr'20 to Sept'20 @ $2.39 & Oct'20 to Mar'21 is @ $1.79) and total increase in Fuel (gas) drawn during F.Y. 2021-22 by 103.01 mmbtu by the thermal stations of the Company.

Expenditure on fuel (gas) constituted 21.54 % of the total expenditure during the CY as against 20.04% during the PY.

Employees' Remuneration and Benefits

Employees' remuneration and benefits includes salaries and wages, contribution to Provident Fund and other superannuation benefits, leave encashment and Staff welfare expenses. These expenses accounted for 15.78 % of NEEPCO's total expenditure during the year as compared to 17.28 % in the previous year. Increase in employee's expenses during the CY in comparison to the PY by ₹ 3873.79 lakhs is mainly due to commissioning of Kameng HEP during the previous year resulting in charging off its employees benefit expenses for the full year to the Statement of Profit & Loss during the FY 2021-22.

Finance Costs

NEEPCO's finance costs include interest expenses on borrowings as well as other finance charges such as commitment fees, guarantee fee on foreign loan, Exchange rate fluctuation etc. All borrowings including foreign currency borrowings are denominated in Indian Rupees for accounting purposes.

During the year, finance Cost (revenue account) increased by 14.27% to ₹ 58198.79 lakhs from ₹ 50932.61 lakhs in the previous year. Increase in Finance cost during the CY in comparison to the PY by ₹ 7266.18 lakhs is mainly due to commissioning of Kameng HEP during the previous year resulting in charging off its borrowing costs for the full year to the Statement of Profit & Loss during the FY 2021-22. Finance cost accounted for 19.74 % of NEEPCO's total expenditure during the year as compared to 20.64 % in the previous year.

Depreciation

Depreciation is charged on Straight Line Method following the rates & methodology as per the Central Electricity Regulatory Commission (Terms and conditions of Tariff) Regulations 2019 notified on 07th March, 2019 & amendments thereto, except few exceptions as included in approved Accounting Policy of the Company. During the FY 2021-22, depreciation increased by 23.12% to ₹ 80781.94 lakhs during the current year as against ₹ 65614.53 lakhs in FY 2020-21. Increase in depreciation during the CY in comparison to the PY by ₹ 15167.41 lakhs is mainly due to commissioning of Kameng HPS and assets capitalization during the previous year resulting in substantial charging off depreciation on the said assets for the full year to the Statement of Profit & Loss during the FY 2021-22.

Depreciation accounted for 27.40 % of NEEPCO's total expenditure during the year as compared to 26.59 % in the previous year.

Other Expenses

Other expenses (including generation and administration expenses) consists of repair and maintenance of Plant assets, general establishment/administrative expenses, Insurance charges, Trading expenses, NERLDC fees & charges, Corporate Social Responsibility expenses, Security expenses, transport expenses, electricity duties, write offs etc. These expenses represented approximately 15.54% of NEEPCO's total expenditure during the year as compared to 15.46 % in FY 2020-21. In absolute terms, these expenses increased by ₹ 7669.28 lakhs (i.e. 20.10 %) over the previous year mainly due to increase in R&M ₹ 1271.81 lakhs, Trading expenses ₹ 3592.43 lakhs, Write off ₹ 693.59 lakhs, Interest to beneficiaries ₹ 1078.51 lakhs, RRAS expenses ₹ 298.48 lakhs, Medical expenses ₹ 236.10 lakhs, NERLDC fees & Charges ₹ 248.33 lakhs and Others (Net) ₹ 250.03 lakhs.

Movement in Regulatory Deferral Accounts Balances (Regulatory Income)

In compliance to Ind AS 114 – Regulatory Deferral Accounts and in line with the Guidance Note on "Accounting of Rate Regulated Activities" issued by the Institute of Chartered Accountants of India, "Regulatory Assets" has been created and corresponding "Regulatory Income" has been recognized in books of NEEPCO.

During the FY 2021-22, the Company had recognized an amount of ₹ 7960.47 lakhs (previous year ₹ 4522.55 lakhs) as "Movement in Regulatory Deferral Accounts balances" (Net of tax ₹ 6340.59 lakhs and ₹3501.77 lakhs respectively) in the Statement of Profit & Loss as Regulatory income. The said "Regulatory Income" recognized during the CY on account of the following three factors:

(i) **Depreciation - Tuirial HPS**

CERC determined Annual Fixed Cost (AFC) of Tuirial Hydro Power Station (THPS) of NEEPCO is in consideration of depreciation @2% in line with the decision of the Public Investment Board (PIB) of the Govt. of India for determining Revised Cost Estimate (RCE) of the generating station (THPS).

The rates and methodology as per the CERC Tariff Regulations based on which depreciation for THPS has been calculated and charged to the Statement of Profit & Loss of NEEPCO for the period under consideration vary from that allowed to recover through tariff as per the CERC order. Due to higher rate of depreciation as per the CERC Tariff Regulations, depreciation charged to the Statement of Profit & loss Account for the first 12 (twelve) years of operation the generating station (THPS) since its "Date of Commercial Operation (COD)" will be more than that of the depreciation recoverable through tariff, which will be reversed in future during its remaining period of normative useful life of the plant from the 13th year of its COD. Accordingly, the lower depreciation realized as "Revenue" for the generating station during the earlier period (till 12th year) of its operation will be recovered/adjusted during its later useful period.

In view of above, the difference of depreciation to the extent recoverable/adjustable in future period has been recognized on an undiscounted basis as "Regulatory deferral account debit balances" by crediting to the "Movement of Regulatory Deferral Account Balances". The difference of depreciation to the extent recoverable/adjustable in future period recognized during the CY on an undiscounted basis amounts to ₹ 4117.64 lakhs (PY ₹ 4119.51 lakhs) as "Regulatory Income".

(ii) **Deferred Tax adjustment against deferred tax liabilities**

Deferred tax accrued during the year on income generated from sale of electricity and further adjustable/reversal in future periods when the related deferred tax liability will form a part of current tax & recoverable from the beneficiaries amounting to ₹ 5153.65 lakhs has been accounted as "Deferred tax adjustment against deferred tax liability" during the CY (₹ 1177.30 lakhs during the PY), which has been recognized as "Regulatory income" and presented as a movement in "Regulatory Deferral Accounts Balance" in Books of the Company.

(iii) **Deferred tax recoverable from beneficiaries**

As per Regulation 67 of the CERC (Terms and Conditions of Tariff Regulations) 2019, Deferred tax liabilities for the period upto 31st March, 2009 whenever they materialize shall be recoverable directly by the generating companies or transmission licensees from the then beneficiaries or long term customers, as the case may be. Against the balance of ₹ 39934.78 lakhs as on 01.04.2021 on accounts of "Deferred tax recoverable", an amount of ₹ 1310.82 lakh has been recognized during the CY (₹ 1319.85 lakhs during the PY) as Regulatory Expense.

Profit before Tax

The profit of the Company before tax and exceptional items is tabulated below;

(₹ in lakhs)

Particulars	As on 31st March, 2022	As on 31st March, 2021

NEEPCO New Delhi North Eastern Electric Power Corporation

HUMAN RESOURCES AND HRD

As on 31.03.2022, the Corporation had 1644 numbers of regular employees including 3 Board Level Executives (excluding CVO). Out of which 725 are Executives, 227 are Supervisors and 689 are Workmen.

Analysis of Age Profile of regular employees and its findings are as under:

Age Group	Total	Percentage of employees
Up-to 30 years	52	3%
31 - 40 years	207	13%
41-50 years	358	22%
51-60 years	1027	62%

Superannuation profile in the next 5(five) years:						
Cadre	2022-23	2023-24	2024-25	2025-26	2026-27	TOTAL
Executive	52	54	51	57	56	270
Supervisor	20	14	29	18	25	106
Workmen	36	31	44	32	44	187
TOTAL	**108**	**99**	**124**	**107**	**125**	**563**

The above findings indicate that 62% of manpower in the Corporation are in the age brackets of 51 years and above and about 565 numbers of employees will be superannuating by the year March, 2027. This figure suggests that the attrition rate in the Corporation is high and needs immediate attention.

During the year 2021-2022, a total number of 589 employees participated in training and total training man days achieved was 3093.

ANNEXURE - 6A

Independent Auditors'Report

To

The Members of North Eastern Electric Power Corporation Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of North Eastern Electric Power Corporation Limited ('the Company'), which comprise the Balance Sheet as at 31st March 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and notes to the Financial Statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as 'Standalone Financial Statements').

In our opinion and to the best of our information and according to the explanation given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs (financial position) of the Company as at 31st March 2022, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to the following matters in the Notes to the Standalone Financial Statements:

1. Note No.2 (vi) regarding Capitalization of ₹12442.72 lakhs being Capacity Charges on Transmission assets including interest thereon billed by PGCIL for earlier years.
2. Note No. 27(b) read with Significant Accounting Policy 17.1(a)(ii) regarding Sale of energy includes ₹10279.34 lakhs being the revenue for the year recognized on the basis of provisional rate.
3. Note No. 28(iii) read with Note No. 13(i) regarding recognition of Delayed Payment Surcharge of ₹3636.25 lakhs on disputed Trade Receivable from TSECL.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below as the key audit matters to be communicated in our report.

Sl. No	Key Audit Matter	Addressing the Key Audit Matter
1	**Recognition and Measurement of Revenue from sale of energy** The Company records revenue from sale of energy based on tariff approved by the Central Electricity Regulatory Commission (CERC) and where final tariff is yet to be approved by CERC, provisional sale is recognized on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through tariff petition. Where neither approved tariff is available nor petition is pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. (Refer note no. 27 read with significant accounting policy no.17.1(a)	**Our Audit Procedure:** We have obtained an understanding of the CERC tariff regulations, orders, circulars, guidelines and the company's internal circulars and procedures in respect of recognition and measurement of revenue from sale of energy comprising of capacity and energy charges and adopted the following Audit Procedures: - Evaluated and tested the effectiveness of the company's design of internal controls relating to recognition and measurement of revenue from sale of energy. - Verified the accounting of revenue from sale of energy as well as accounting of provisional revenue from sale of energy based on provisional tariff computed as per the principles adopted by the Company.
2	**Impairment Assessment of carrying value of Property, Plant & Equipment (PPE)** The Company has a material operational asset base (PPE) relating to generation of electricity and is one of the components for determining the tariff as per the CERC Tariff Regulations, which may be vulnerable to impairment. Carrying value of PPE requires impairment assessment based on the future expected cash flows associated with the Power Plants (Cash Generating Units), (Refer Note No.50 read with the Significant Accounting Policy No.5)	**Our Audit Procedure:** We have adopted the following Audit Procedure: - Read the Company's Accounting Policies with respect to impairment in accordance with Ind AS 36 "Impairment of Assets". - Performed test of controls over key financial controls related to accounting, valuation and recoverability of assets through inspection of evidence. - Performed substantive audit procedures including : i) Obtained the management's impairment assessment ii) Evaluated the key assumptions including projected generation, fuel prices, exchange rate, energy prices, post power purchase agreement period and weighted average cost of capital by comparing them with prior years and external data, where available. iii) Obtained and evaluated the sensitivity analysis. Reliance has been placed on management projections for completion timeline, volume of generation and resultant revenue based on expected tariff there against.

Sl. No	Key Audit Matter	Addressing the Key Audit Matter
3	**Contingent Liability** There are number of litigations/claims against the company pending before various forums. Claims made against the company are significant and the management's judgement is required for estimating the amount involved and their proper disclosure. Disclosure of the same involves a significant degree of Management's judgement in interpreting the cases and assessment of the probability of occurrence of the liability which may be subject to Management bias. (Refer note no. 36 to the Standalone Financial Statement.)	**Our Audit Procedure:** We have obtained the details of cases / disputes / claims pending before various courts / Arbitration / Quasi-Judicial Forums etc. as on 31.03.2022 from the Management along with the latest status and management's assessment for the same. We have also obtained the Company's Accounting Policy in this regard and their disclosure in notes to the Standalone financial statements for the same. We understood and tested the design and operating effectiveness of control as established by the Management for obtaining all relevant information for pending litigation/cases. We discussed with Management regarding their basis of assessment and any material development thereto and also possible outcomes of the claims/disputes.

Information Other than the Standalone Financial Statements and Auditors Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis Report, Director's Report including Director's Responsibility Statement and Report of Corporate Governance, but does not include the standalone financial statements and our auditors' report thereon. The Other Information as stated above is expected to be made available to us after the date of this Auditors' Report.

Our opinion on the standalone financial statements does not cover the other information and we do not and will not express any form of assurance on conclusion there on.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during auditor otherwise appears to be materially is misstated.

When we read the Other Information as stated above and if we conclude that there is a misstatement therein, we are required to communicate the matter to those charged with governance and describe necessary actions required as per applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (IndAS) specified under Section 133 of the Act, read with relevant rules issued thereunder and as per the Electricity Act, 2003 and relevant Central Electricity Regulatory Commission (CERC) regulation and other recognized accounting practices and policies.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and

application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing (SAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the over ride of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the standalone financial statements or, if such disclosures are in adequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and(ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ('the Order')issued by the Central Government of India in terms of Section 143(11) of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanation given to us we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the order, to the extent applicable.

2. As required by Section 143(5) of the Act, on the basis of such check of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure B, a report on the directions issued by the Comptroller and Auditor General of India.

3. As required by Section 143(3) of the Act, we report that:

   a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

   b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

   c. The Balance Sheet, the Statement of Profit and Loss (including the other comprehensive income), the statement of Cash Flows and the Statement of changes in equity dealt with by this Report are in agreement with the books of account;

   d. In our opinion, the aforesaid Standalone Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act;

   e. Being a Government Company, pursuant to the Notification No. GSR 463(E) dated 5th June 2015 issued by Ministry of Corporate Affairs, Government of India, provisions of sub-section (2) of Section 164 of the Companies Act, 2013, are not applicable to the Company.

   f. As per Notification No. GSR 463(E) dated 5th June, 2015 issued by the Ministry of Corporate Affairs, Govt. of India, Section 197 of the Act, as regards managerial remuneration, is not applicable to the Government Companies. Accordingly, reporting in accordance with requirement of provisions of section 197(16) of the Act is not applicable to the Company.

   g. With respect to the adequacy of the internal financial controls with reference to Standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure C; and

   h. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

      i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements - Refer Note 36 to the Standalone Financial Statements;

ii. The Company has made provision, as required under the applicable law or Indian accounting standards, for material foreseeable losses, if any, on long-term contracts; and

iii. The Company has no case of transferring any amount to the Investor Education and Protection Fund as per the provisions of the Act.

Annexure A to the Independent Auditors' Report

(Refer to in Paragraph 1 under "Report on other Legal and Regulatory Requirements" Section of Independent Auditors' Report of even date on the Standalone Financial Statement for the year ended 31st March 2022)

Based on the Audit procedure performed for the purpose of reporting a true and fair view on the Standalone Financial Statement of the Company and taking into consideration the information and explanation given to us and the books of accounts and other records examined by us in the normal course of audit and to the best of our knowledge and believe, we report that:

(I) (a) (A) The company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment;

(B) The company has maintained proper records showing full particulars of intangible assets;

(b) There is a regular programme of physical verification of all Property, Plant and Equipment on an annual basis by the management. Though no material discrepancies were noticed on such verification, in our opinion, the details and records maintained in physical verification reports need improvement having regard to the size of the company and the nature of its business.

(c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in the financial statements are held in the name of the company, except in the following cases :

Description of Property	Gross Carrying value (Rs.In lakhs)	Held in name of	Whether Promoter Director or their relative or employee	Period held indicate range where appropriate	Reason for not being held in name of company
33.19 Area of Land at Guwahati, Assam	441.06	Assam Tea Corporation Ltd. Assam	NO	17.06.2009	Mutation process is under progress
183.19 Hectare of Land at West Jantia Hills, Meghalaya, for NEEPCO Project - Kopli Hydro Power Station - Stage II	452.68	Smt. Ibil Dkhar and Others (303 nos. of petitioners)	NO	10.09.1984	This Land is under litigation due to claim lodged by 303 land owners for enhancement of land compensation. The matter is Pending with the special Judge (Judicial) West, Jaintia Hills, Meghalaya
Design Office/ Guest House Building, Guwahati, Assam	375.48	Assam Tea Corporation Ltd, Assam	No	17.06.2009	Mutation process is under progress
Land at Tezu, Arunachal Pradesh	1.28	Not Available	Not Ascertainable	Not Available	Land Documents not available
Land & Building of CMD Quarter / Directors' Guest House at Laitkor, Shillong	Value of building - 222.88	Not Available	Not Ascertainable	Not Available	Land Documents not available. Land not appearing in books.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

(e) As per information and explanation given to us, no proceedings have been initiated or are pending against the company for holding any Benami property under the "Benami Transactions (Prohibition) Act, 1988 and Rules made thereunder.

(II) (a) There is a regular programme of physical verification of inventory on an annual basis. In our opinion, the coverage and procedure of such verification by the management is appropriate and as per information and explanation given to us, discrepancies of 10% or more in the aggregate for each class of inventory were not noticed on such physical verification.

(b) The Company has been sanctioned working capital limits in excess of ₹ 5 crores, in aggregate, from banks or financial institutions on the basis of security of current assets during the year and the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the Company.

(III) According to the information and explanations given to us, the company has not, during the year, made investments in, or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the provisions of clause (III) (a) (A) & (B), (b), (c), (d), (e) and (f) are not applicable to the company and hence not commented upon.

(IV) The company has not granted any loans or given any guarantee and security covered under sections 185 and 186 of the Companies Act, 2013. In respect of investment in the joint venture company, the Company has complied with the provisions of sections 185 and 186 of the Companies Act, 2013.

(V) According to the information and expalanations given to us, the company has not accepted any deposit or amounts which are deemed to be deposits, covered by sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules framed thereunder.

(VI) We have broadly reviewed the accounts and records maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (I) of Section 148 of the Companies Act, 2013 read with Companies (Cost Records & Audit) Rules, 2014, as amended, and we are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made detailed examination of the records with a view to determine whether they are accurate and complete.

(VII) (a) Undisputed statutory dues including Goods and Service Tax, provident fund, income tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities, with the exception for those dues, where the last date of payment has either been extended or the payment could not be made due to movement restrictions resulting from COVID-19. There are no undisputed dues outstanding as on the last day of the financial year concerned for a period of more than six months from the date they became payable. We have been informed that employees' state insurance is not applicable to the Company.

(b) The disputed statutory dues aggregating to ₹46889.39 lakhs that have not been deposited on account of matters pending before appropriate authorities as on 31st March 2022 are detailed below:

Name of the statute	Nature of Dues	Amount (₹ in Lakh)	A.Y to which the amount relates	CIT (Appeal)
Income Tax Act, 1961	Income Tax	2,891.40	2018-19	CIT (Appeal)
Income Tax Act, 1961	Income Tax	3,821.34	2012-13	High Court, Meghalaya
Income Tax Act, 1961	Income Tax	2,142.98	2013-14	High Court, Meghalaya
Income Tax Act, 1961	Income Tax	10,872.61	2014-15	ITAT, Guwahati
Income Tax Act, 1961	Income Tax	11,381.61	2015-16	High Court, Meghalaya
Income Tax Act, 1961	Income Tax	9,112.52	2016-17	High Court, Meghalaya
Income Tax Act, 1961	Probable tax liability related to DPS	6,659.73	2012-13 to 2016-17	High Court, Meghalaya & ITAT, Guwahati
Total		**46,882.19**		

The Company also has a disputed Statutory Dues under Service Tax for ₹ 7.20 lakhs at CESTAT, Kolkata.

(VIII) As informed, the Company has not surrendered or disclosed as income during the year any transactions not recorded in the books of account in the tax assessments under the Income Tax Act, 1961.

(IX) (a) In our opinion and according to the information and explanations given to us, the company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.

(b) As informed, the company has not been declared a wilful defaulter by any bank or financial institution or other lender.

(c) In our opinion and according to the information and explanations given to us, term loans were applied for the purpose for which the loans were obtained.

(d) As informed and based on our examination of the books and records of the company, funds raised on short term basis have not been utilised for long term purposes .

(e) As informed and based on our examination of the books and records of the company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

(f) As informed and based on our examination of the books and records of the company, the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.

(X) (a) The Company has not raised money by way of initial public offer or further public offer (including debt instruments) during the year.

(b) The Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year.

(XI) (a) According to the information and explanations given to us and as represented by the Management, no case of material frauds by the Company or any material fraud on the company has been noticed or reported during the year.

(b) No report under sub-Section (12) of Section 143 of the Companies Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules 2014 with the Central Government.

(c) As informed by the management, the Company has not received any whistle-blower complaints during the year.

(XII) (a) The provisions of clause 3 (XII)(a),(b) & (c) of the Order, for Nidhi Company, are not applicable to the company.

(XIII) The Company has complied with the provisions of Section 177 and 188 of the Companies Act, 2013 w.r.t. transactions with the related parties, wherever applicable. Details of the transactions with the related parties have been disclosed in the Standalone financial statements as required by the applicable Indian Accounting Standards.

(XIV) a) The Company has appointed firms of Chartered Accountants to carry out the internal audit of its units and offices. In our opinion and based on our examination, the company has an internal audit system commensurate with the size and nature of its business.

b) We have considered the reports of the Internal Auditors for the period under audit.

XV) As informed, the company has not entered into any non-cash transactions with directors or persons connected with them as covered under section 192 of Companies Act, 2013.

(XVI) (a) According to the information and explanation given to us, the company is not required to be registered under section 45-1A of the Reserve Bank of India Act, 1934.

(b) As informed and on the basis of our examination, the Company has not conducted any Non-Banking Financial or Housing Finance Activities.

(c) According to the information and explanation given to us, the Company is not a Core Investment Company (CIC) as defined under the Regulations by the Reserve Bank of India. Accordingly, provisions of clause 3 (xvi)(c) & (d) of the Order are not applicable to the Company.

(XVII) The Company has not incurred cash losses in the Financial Year and in the immediately preceding Financial year.

(XVIII) There has not been any resignation of the statutory auditors during the year.

(XIX) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans, we are of the opinion that no material uncertainty exists as on the date of the audit report that company is capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date.

(XX) (a) According to the information and explanations given to us, no unspent amount, in respect of other than ongoing projects, was required to be transferred to a Fund specified in Schedule VII to the Companies Act within a period of six months of the expiry of the financial year in compliance with second proviso to sub- section (5) of section 135 of the said Act during the year.

(b) The Company has transferred amounts remaining unspent under sub section 5 of section 135 of the Companies Act, 2013, pursuant to ongoing projects, to a special account in compliance with the provisions of sub section 6 of section 135 of the said Act.

(XXI) The financial statements of the company included in the consolidated financial statements of this company are unaudited, hence CARO report of the same is not available . In view of this, we are unable to comment on this clause.

Annexure C to the Independent Auditors' Report

(Refered to in Paragraph 3(g) under 'Report on other Legal and Regulatory Requirements' section of Independent Auditors' Report of even date on the Standalone Financial statements for the year ended 31st March 2022)

Report on the Internal Financial Control under section 143 (3)(i) of the Act

We have audited the internal financial controls over financial reporting of North Eastern Electric Power Corporation Limited ('the Company') as of 31st March 2022 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained are sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding there liability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any valuation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to the Standalone Financial Statements in place and such internal financial controls with reference to the Standalone Financial Statements were operating effectively as at 31st March 2022, based on the internal controls over financial reporting criteria established by the Company considering the components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

Note No. 1: Significant Accounting Policies 2021-22

A. Corporate information

North Eastern Electric Power Corporation Limited ("NEEPCO Ltd." / "the Company") is a leading power utility, primarily operating in the North-Eastern Region of India. NEEPCO Ltd, a Central Public Sector Enterprise (CPSE), is a wholly owned Subsidiary of NTPC Ltd and it is conferred with the Schedule A- Miniratna Category-I CPSE status by the Government of India. The address of the Company's registered office is Brookland Compound, Lower New Colony, Laitumkhrah, Shillong 793003, Meghalaya. Authorised Capital of the Company is ₹ 5000 crore. The Company has its 12 (twelve) generating stations, which are under operation [except Kopili (4 X 50 MW) power station is under shut down from the 07th of October 2019 due to rupturing of the penstock and presently under Reconstruction Renovation and Modernisation] with 8 (eight) hydro, 3 (three) thermal and 1(one) solar power generating stations. Present installed capacity of the company is 2057 MW.

NEEPCO Ltd has its debt (Bond XI issue to XXII issue) listed with Bombay Stock Exchange (BSE).

B. Basis of preparation

I. Statement of Compliance

The financial statements of the Company have been prepared in accordance with the relevant provisions of the Companies Act, 2013, Indian Accounting Standards (herein after referred to as "Ind-AS") as notified by the Ministry of Corporate Affairs pursuant to the section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and the provisions of the Electricity Act,2003 to the extent applicable.

The Company has adopted all the applicable Ind ASs and such adoption was carried out in accordance with Accounting Principles generally accepted in India as prescribed in section 133 of the Act, read with Rule 7 of the Companies (Accounting) Rules 2014,

II. Basis of measurement

The financial statements have been prepared on historical cost basis, except

- Certain financial instruments that are measured at fair value;
- Assets held for sale – measured at fair value less cost to sell;
- Plan assets of defined employees benefit plans;

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Income and Expenses are accounted for on Mercantile Basis, except otherwise stated and disclosed accordingly.

III. Functional and presentation currency

These financial statements are presented in Indian Rupee (INR), which is the Company's functional currency. All financial information presented in INR has been rounded off to the nearest Lakh (upto two decimals) for the Company, except as stated otherwise.

IV. Current and Non-current classification

All assets and liabilities have been classified as current or non-current as per Company's operating cycle and other criteria set out in Schedule-III of the Companies Act 2013. Based on the nature of business, the Company has ascertained its operating cycle as 12 months for the purpose of Current or noncurrent classification of assets and liabilities.

Deferred tax assets and Deferred tax liabilities are classified as non-current .

V. Use of estimates and management judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, disclosure of contingent assets and liabilities at the date of financial statements and reported amount of income and expenses during the period. Actual results may differ from those estimates.

Continuous evaluation is done on the estimation and judgements based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised in the financial statements prospectively and if material, their effects are disclosed in the notes to the financial statements.

Key sources of estimation uncertainty at the reporting date, which may cause a material adjustment to the carrying amounts of assets and liabilities for future years are provided in Note-D.

VI. Investment in Joint Venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The investment in joint venture is carried at cost, which comprises of price paid to acquire investment and directly attributable cost, less Impairment, if any.

C. Summary of Significant Accounting Policies

1. Property, plant and equipment

1.1 An item of PPE is recognized as an asset if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

1.2 Property, plant and equipment held for use in the production and transmission of power, or for administrative purposes, are stated in the balance sheet at cost, less accumulated depreciation/amortization and impairment loss, if any.

1.3 Auxiliaries which are not separately identifiable, but are common to more than one power generating unit are capitalised in the ratio of their respective installed capacity.

1.4 PPE are initially measured at cost of acquisition/construction including decommissioning or restoration cost, if any, wherever required. The cost includes expenditure that is directly attributable to the acquisition/construction of the asset. In cases, where final settlement of bills with contractors is pending, but the asset is complete and ready for use, capitalization is done on provisional basis subject to necessary adjustments in the year of final settlement.

1.5 The expenditure incurred on start-up and commissioning of the project, including the expenditure incurred on trial/test runs and experimental production is capitalized as an indirect element of the construction cost. However, after commencement of commercial operation, the expenditure incurred is charged to Revenue expenditure, even if the contract stipulation provides for final taking over of the plant after successful commissioning of the plant.

1.6 Subsequent expenditure on major maintenance or repairs includes the cost of the replacement of parts of assets and major overhaul costs. Where an asset or part of an asset is replaced and it is probable that future economic benefits associated with the item will be available to the Company, the expenditure is capitalized and the carrying amount of the item replaced is derecognized. If it is not practicable to determine the carrying amount of the replaced part, the company uses the cost of the replacement as an indication of what the cost of replaced part was at the time it was acquired or constructed. Similarly, overhaul costs associated with major maintenance are capitalized.

1.7 Standby equipment and servicing equipment which meet the recognition criteria of Property, Plant and Equipment are capitalized.

1.8 Assets over which the Company has control, though created on land not belonging to the Company are included under Property, Plant and Equipment.

1.9 Payments made/ liabilities created provisionally towards compensation, rehabilitation and other expenses relatable to land in possession are treated as cost of land.

New Delhi North Eastern Electric Power Corporation

1.10 Spare parts procured along-with the Plant & Machinery as well as procured subsequently which meets the recognition criteria are capitalized. Other machinery spares are treated as "stores & spares" forming part of the inventory.

1.11 Cost of mobile handsets are recognised as revenue expenditure.

1.12 An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognized in profit & loss or IEDC, as the case may be.

2. Capital work-in-progress

2.1 Expenditure incurred on assets under construction is carried at cost under Capital work in Progress. Such costs comprises purchase price of asset including all taxes/duties and other costs that are directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

2.2 Cost directly attributable to projects under construction include costs of employee benefits, expenditure in relation to survey and investigation activities of the projects, cost of site preparation, initial delivery and handling charges, installation and assembly costs, professional fees, expenditure on maintenance and up-gradation etc. of common public facilities, depreciation on assets used in construction of project, interest during construction and other costs including administrative and general overhead costs, if attributable to construction of projects. Such costs are accumulated under "Capital works in progress" and subsequently allocated on systematic basis over major immovable assets. For projects under construction, the project specific IEDC is allocated to its qualifying assets at the time of capitalisation on the basis of Cost Estimate/Completion Cost of the project.

2.3 Capital expenditure incurred to create facilities, over which the Company does not have control and creation of which is essential for construction of the project is carried on under : "Capital works in progress" and subsequently allocated on systematic basis over major immovable assets, other than land and infrastructure facilities on commissioning of projects.

2.4 Expenditure against "Deposit works" is accounted for on the basis of statement of accounts received the concerned agency and acceptance by the Company.

2.5 Common expenditure of a project, which is partially in operation and partially under construction, is being apportioned on the basis of the installed capacity.

2.6 Share of Corporate office and Guwahati office expenditures relating to construction activities are allocated/ apportioned to the projects under construction on the basis of accretion to CWIP.

2.7 In case of abandonment / suspension / discontinuation of project, the expenditure in relation to the same is expensed / charged off in the year of such decision.

3. Intangible Assets

3.1 An intangible asset is recognized if and only if it is probable that the expected future economic benefit that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably.

3.2 Intangible assets acquired separately are measured on initial recognition at cost. Such assets are capitalized when the assets are ready for its intended use. After initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

3.3 Computer software (not being an integral part of the related hardware) acquired for internal use, is stated at cost of acquisition less accumulated amortization and impairment losses, if any.

3.4 Land taken for use from State Government (without transfer of title) and expenses on relief and rehabilitation as also on creation of alternate facilities for land evacuees or in lieu of existing facilities coming under submergence and where construction of such alternate facilities is a specific pre-condition for the acquisition of the land for the purpose of the project, are accounted for under "Land-Right to use."

3.5 Intangible assets not ready for its intended use as on the date of balance-sheet are disclosed as "Intangible assets under development".

4. Depreciation and amortization:

Depreciation is charged as per Electricity Act, 2003 on straight line method following the rates and methodology notified by the Central Electricity Regulatory Commission constituted under the Act except the followings:

i. IT equipment (Personal Computers and Laptops including Peripherals) are depreciated in a period of three years.

ii. Computer software is amortised on straight-line method over a period of legal right to use or 03 (three) years, whichever is less. The amortisation period and the amortisation method of intangible assets with a finite useful life is reviewed at each financial year and adjusted prospectively, wherever required.

iii. "Land-right to use" is fully amortized over the period of useful life of the project, from its "Date of commercial operation".

iv. Leasehold Lands are amortised over the period of lease or useful life of the project, whichever is lower, from its "Date of commercial operation". Leasehold Land, in case of administrative offices, are amortised over the lease period.

v. Where the cost of depreciable assets has undergone a change due to increase / decrease in long term liabilities on account of exchange fluctuation, price adjustment, settlement of arbitration / court cases, changes in duties and similar factors, the unamortized balances of such assets is depreciated prospectively over the residual life of such asset at the rate and methodology notified by the CERC regulations.

vi. Cost of major repairing and overhauls are depreciated over their useful lives where it is probable that future economic benefits will be available.

vii. Spares parts procured alongwith the Plant & Machinery or subsequently which are capitalized and added in the carrying amount of such item are depreciated over the residual useful life of the related plant and machinery at the rates and methodology notified by CERC.

viii. Assets / procured installed, whose individual cost is ₹ 5000/- or less but more than ₹ 750/- (hereinafter is called Assets of minor value) and assets (excluding immovable assets) whose written down value is ₹ 5000/- or less at the beginning of the year are full depreciated during the year leaving a nominal balance of ₹ 1/- only.

ix. Low value items, which are in the nature of the assets (excluding immovable assets) and value up to ₹ 750/- are not capitalized and charged off to revenue during the year.

x. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale (or included in a disposal group that is classified as asset held for sale) in accordance with Ind AS 105 and the date that the asset is de-recognised.

xi. Depreciation of Corporate / Administrative office assets and general assets of projects under construction are charged following the rates notified vide CERC tariff regulations.

5. Impairment of assets

5.1 At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is indication that those assets may suffer an impairment loss. If any such indication exists, the recoverable amount (i.e., higher of its fair value less cost to sell and the value-in-use) is determined on individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

5.2 If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount and the difference between the carrying amount and recoverable amount is recognised as impairment loss in the statement of profit & loss.

5.3 Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exits. An impairment loss is reversed if there has been a change in the estimated recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does

not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised.

6. Regulatory deferral accounts

6.1 Expenses / Income recognized in the Statement of Profit & Loss to the extent recoverable from or payable to the beneficiaries is subsequent period as per CERC tariff Regulations are recognized as "Regulatory Deferral Account Balances".

6.2 Regulatory deferral account balances are adjusted from the year in which the same become recoverable from or payable to the beneficiaries.

6.3 Regulatory Deferral Account Balances are evaluated at each Balance Sheet Date to ensure that the underlying activities meet the recognition criteria and it is probable that future economic benefits associated with such balances will flow to the entity. If it is no longer probable that future economic benefit associated with such balances will flow to the Company, such balances are de-recognized.

6.4 Regulatory deferral Account Balances are tested for impairment at each Balance sheet date.

7. Foreign Currency Transaction

7.1 Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates.

7.2 In preparing the financial statements transactions in currencies other than the entity's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date.

7.3 Exchange differences on foreign currency borrowings relating to Asset under Constructions for future productive use are included in the cost of those assets when they are regarded as an adjustment to interest cost on those foreign currency borrowings as per the requirements of Ind AS 23.

7.4 Exchange differences on monetary items are recognized in the statement of profit and loss / IEDC, as the case may be, in the period in which they arise.

7.5 Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising out on settlement or translation of monetary items are recognized in the profit or loss in the year in which it arises with the exception that exchange differences on long term monetary items related to acquisition of property, plant and equipment recognized up to 31-03-2016 are adjusted to the carrying cost of property, plant and equipment.

7.6 In accordance with the CERC tariff regulations, every generating company shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises, i.e., the Company can recover the foreign exchange rate variation on actual basis when foreign currency loan is repaid after commercial operation date (COD).

8. Provisions, Contingent Liabilities and Contingent Assets

8.1 Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable ("more likely than not") that it is required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

8.2 The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation.

8.3 If the effect of the time value of money is material, provision is determined by discounting the expected future cash flow using a current pre-tax rate that reflects the risk specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

8.4 Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Contingent liabilities are not recognized but disclosed unless the possibilities of outflow of economic benefits are

remote. Contingent liabilities are disclosed on the basis of judgement of management and are reviewed at each balance sheet date to reflect the current management estimate.

8.5 Contingent assets are possible assets that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefit is probable on the basis of judgement of management. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate. Contingent assets are disclosed in the financial statements when inflow of economic benefit is probable.

9. Leases

9.1 The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease.

9.2 Leases are classified as finance leases whenever the terms of the lease transfers substantially all the risks and rewards incidental to the ownership of an asset to the lessee. Such finance leases are generally capitalised at the lease's inception at the fair value of the leased property which equals the transaction price. All other leases are classified as operating leases.

9.3 In compliance to MCA notification, the Company has adopted Ind AS 116 "Leases" with effect from 01.04.2019 and applied to all lease contracts existing on 1 April 2019 . Consequently, the Company recorded the lease liability at the present value of remaining lease payments discounted at the incremental borrowing rate applicable at the date of initial application and the right of use assets at its carrying amount, discounted at the Company's incremental borrowing rate at the date of initial application.

10. Inventories

10.1 Inventories mainly comprise of stores and spare parts to be used for operation and maintenance of Property, Plant and Equipment.

10.2 Inventories are valued at costs or net realizable value (NRV), whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average cost formula and NRV is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

10.3 Value of scrap is adjusted in the account as & when sold / disposed-off and profit / loss, if any, is recognized in accounts in the year of sell / disposal.

11. Trade receivable

11.1 Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If collection is expected to be made within a period of 12 months or less from the reporting date, they are classified as current assets otherwise as non-current assets. Trade receivables are measured at their transaction price.

11.2 As the entire sales are made to State Govt. utilities as well as power trading companies, the Company is not providing for allowance for expected credit loss.

11.3 Trade Receivable represents the Company's right to an amount of Consideration that is unconditional (i.e. only the passage of time is required before payment of the Consideration is due)

12. Financial Instruments

12.1 Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction cost that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liabilities.

12.2 Other Financial Assets (Contract Assets)

Accounts Receivables is the right to consideration in exchange for goods or services, transferred to the Customer. If the Company performs by transferring the goods or services to a Customer before the Customer pays consideration or payment is due, Accounts Receivables (in the nature of Contract Asset) is recognised for the Earned Consideration that is conditional.

Financial assets comprises of investments in joint venture, advances to employees, trade receivables, cash and cash equivalents, claims recoverable, security deposits etc.

i. **Cash or Cash Equivalents:**

The Company considers all short term Bank deposits, which are readily convertible in to known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consists of balances with banks which are unrestricted for withdrawal and usage in the balance sheet, bank overdrafts are shown within borrowings in current liabilities.

ii. **Financial assets at amortized cost:**

Financial assets which are initially measured at cost are subsequently measured at amortized costs if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii. **Financial assets at Fair value through Other Comprehensive Income (OCI)**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual term of the financial assets give rise on specified days to cash flows that are solely payment of principals and the interest on principal amount outstanding.

iv. **Financial assets at Fair value through Profit or loss**

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive item on initial recognition. The transaction cost directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in the statement of profit or loss.

v. **Derecognition of financial assets**

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

vi. **Impairment of financial assets**

At each reporting date, the Company assess whether the credit risk on a financial instrument has increased significantly since initial recognition

If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. If, the credit risk on that financial instrument has increased significantly since initial recognition, the Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognized as an impairment gain or loss in the statement of profit and loss.

12.3 Financial liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another

North Eastern Electric Power Corporation New Delhi NEEPCO

entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company. The Company's financial liabilities includes loan & borrowings, trade and other payable etc.

i. The financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method.

ii. **De-recognition of financial liability**

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

13. Borrowing cost

13.1 Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition, construction/development or erection of qualifying assets are capitalised to the cost of those assets, until such time substantially all the activities necessary to prepare the qualifying assets for their intended use are completed.

13.2 Investment income earned on the temporary investment of specific borrowings pending their expenditure on related qualifying assets is deducted from the borrowing costs eligible for capitalization.

13.3 All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred. Borrowing cost includes exchange differences on foreign currency borrowings are adjusted to interest cost.

13.4 Prepayment charges on repayment of loan in full will be charged off to the IEDC / Profit & Loss account, as applicable, in the year of repayment itself.

14. Government grants

14.1 Government grants are recognized when there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants has actually been received.

14.2 The benefits of a government loan at a below market rate of interest is also treated as Government Grant. The loan is initially recognised and measured at fair value and the government grant is measured as the difference between the initially recognized amount of the loan and the fair value of the loan based on prevailing market interest rates.

14.3 Government grants are recognised in the statement of profit and loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognized in the balance sheet by setting up the grant as deferred income.

14.4 Other government grants (grants related to income) are recognized as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis. Grants related to income are presented under other income in the statement of profit and loss.

15. Employee Benefits

15.1 Employee benefits consist of provident fund, pension, gratuity, post-retirement medical benefit (PRMB), leave benefits and other terminal benefits.

15.2 Company's contribution paid / payable during the year to Employees Defined Contribution Superannuation Scheme for providing Pension benefit, Provident Fund and Gratuity are accounted for and paid to respective funds which are administered through separate trusts. The Company's liability is actuarially determined for Gratuity, Leave encashment and PMRB at the Balance Sheet date and any further accretion during the year for Gratuity is provided for and that for Leave encashment and PMRB are charged to IEDC or profit & loss, as the case may be.

15.3 When the benefit of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expenses is recognized immediately in statement of profit and loss.

15.4 Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under performance related pay if the company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

15.5 The expenses incurred on terminal benefits in the form of ex-gratia payments are charged to IEDC or profit & loss, as the case may be in the year of incurrence of such expenses.

16. Income Taxes

Tax expense represents the sum of current tax and deferred tax.

16.1 Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current income tax charge is calculated by using tax rates that have been enacted or substantively enacted by the end of the reporting period.

16.2 Deferred tax

- Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Tax relating to items recognized directly in other comprehensive income forms part of the statement of comprehensive income.
- Deferred tax is provided, using the balance sheet method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.
- The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered

Deferred Tax Assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which likely to give future economic benefits in the form of set off against future income tax liability. MAT is recognized as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

- Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

17. Revenue

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Revenues are reduced for rebates and other similar allowances.

17.1 Revenue from Operations

a) Revenue from Sale of Power

i. Revenue is recognised on transfer of control over the products or services to a Customer, based on the consideration that is specified in a contract with a customer or is expected to be received in exchange for the products or services and excludes amounts collected on behalf of third parties.

ii. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed

by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue".

iii. The incentives / disincentives are recognized based on norms notified by the Central Electricity Regulatory Commission.

iv. Deferred tax liabilities till March, 2009, whenever materializes and recoverable from the beneficiaries as per the CERC tariff regulations, are accounted for on year to year basis

v. Exchange difference on account of translation of foreign currency borrowings recognized upto 31st March 2016, to the extent recoverable from or payable to the beneficiaries in subsequent periods as per the CERC Tariff Regulations are accounted as "Deferred foreign currency fluctuation asset" with corresponding credit to "Deferred income from foreign currency fluctuation". Deferred income from foreign currency fluctuation account is amortized in the proportion in which depreciation is charged on such exchange differences and same is adjusted against depreciation expense.

vi. Rebate allowed to beneficiaries for timely payments are netted off with the revenue from operation on account of Sale of energy

b) Revenue from DSM, RRAS and NERLDC Fees

i. Revenue from DSM is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Deviation Settlement Mechanism) Regulations 2014 and amendments thereto.

ii. Revenue from RRAS is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Ancillary Services Operations) Regulations 2015 and amendments thereto.

iii. NERLDC Fees and charges are recognised as revenue as claimed on Beneficairies for reimbursement, governed by CERC (Terms & Conditions of Tariff) Regulations 2019 and amendments thereto.

17.2 Other Income

i. Dividend income from investments are recognized when the right to receive the dividend is established.

ii. Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iii. Insurance claims for loss of profit are accounted for in the year of acceptance. Other insurance claims are accounted for based on certainty of realisation.

iv. Interest / Surcharge on late payment /overdue trade receivables for sale of energy is recognized when no significant uncertainty as to measurability or collectability exists.

18 Material prior period error

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

19 Earnings Per Share

19.1 Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, if any, other than the conversion of potential equity shares, if any that have changed the number of equity shares outstanding, without a corresponding change in resources.

North Eastern Electric Power Corporation New Delhi

19.2 For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

20 Miscellaneous

20.1 Each material class of similar items is presented separately in the financial statements. Items of a dissimilar nature or function are presented separately unless they are immaterial.

20.2 Liabilities for pending Capital works executed but not certified are not provided for, pending acceptance by the Company.

20.3 Physical verification of Fixed Assets and Inventories are undertaken by the management once in a year. The discrepancies noticed, if any, are accounted for in the year in which such differences are found.

Critical accounting judgements and key sources of estimation uncertainity

In the application of the Company's accounting policies, which are described in Note-B, the management of the Company is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised.

Critical judgements in applying accounting policies:

The following are the critical judgements, apart from those involving estimations (see point ii below), that the management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements.

i. Financial assets at amortized cost

The management has reviewed the Company's financial assets at amortized cost in the light of its business model and have confirmed the Company's positive intention and ability to hold these financial assets to collect contractual cash flows.

ii. Key sources of estimation uncertainty:

The following are the key assumptions concerning the future, and other key sources of estimation of uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial years.

a. Impairment of investments

The Company reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

b. Provisions

Provisions (excluding retirement benefits, leave encashment and Gold Coin) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates.

c. Assets held for sale

Significant judgement is required to apply the accounting of non-current assets held for sale under Ind AS 105 - 'Noncurrent assets held for sale and discontinued operations'. In assessing the applicability, management has exercised judgement to evaluate the availability of the asset for immediate sale, management's commitment for the sale and probability of sale within one year to conclude if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

d. **Contingent liabilities**

Contingent liabilities arising from past events, the existence of which would be confirmed only on occurrence or non-occurrence of one or more future uncertain events, not wholly within the control of the Company or contingent liabilities where there is a present obligations but it is not probable that economic benefits would be required to settle the obligations are disclosed in the financial statements unless the possibility of any outflow in settlement is remote.

e. **Fair value measurements and valuation processes:**

For financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

INVESTMENT IN JOINT VENTURES

(i) The carrying amount and market value of unquoted investments is as follows:

(₹ in lakhs)

Name of the Companies	Proportion of Ownership interest as at	
	31.03.2022	31.03.2021
KSK Dibbin Hydro Power	30%	30%

Particular	As at 31st March, 2022	As at 31st March, 2021
(a) Unquoted		
Aggregate carrying amount of unquoted investments	-	-
Total carrying amount	-	-

(i) The cost of unquoted investments approximate the fair value because there is a wide range possible fair value measurements and the cost represents estimate of fair value within that range.

(ii) **Investment in KSK Dibbin Hydro Power:-** Joint venture between KSK Energy Ventures and NEEPCO Ltd for setting up of a hydro power plant at Arunachal Pradesh.

NEEPCO is under the process of exploring various scopes & opportunities for ensuring viability of M/s KSK Dibbin hydro Power Pvt Ltd, the Joint Venture Company, including engagement of legal expert to protect the Corporation's (NEEPCO's) interest for the investment made. However, considering commercial non viability of the project in its present form as observed by inter-diciplinary committee of the Company, provision of equivalent amount has been made for the said investment.

Note No. 6: Loans

(i) NEEPCO is in the business of generation and sale of electricity. Electricity generated by various power plants of the Company are sold to various beneficiaries under long-term power purchase agreements. Tariffs for the generating stations are determined by the Central Electricity Regulatory Commission (CERC) in compliances to the CERC Tariff Regulations issued time to time on Cost plus basis. Considering the CERC determined tariff for billing on NEEPCO's beneficiaries, as well as prevailing power market in India and Plant performances of the generating stations, it is expected that sufficient taxable profit will be available to the Company in future years.

In compliance to the Ind AS 12 - Taxes, the Company has recognised Deferred Tax Asset (DTA) amounting to ₹ 30,546.32 lakhs upto the year ended 31.03.2021 in respect of Unabsorbed depreciation with convincing evidence that sufficient future taxable income will be available against which such DTA can be realized. With further accrual amounting to ₹ 11,994.67 lakhs during the FY 2021-22, DTA in respect of Unabsorbed depreciation as on 31.03.2022 stands at ₹ 42,540.99 lakhs.

(ii) MAT credit available for the Company as on 31.03.2022 amounts to ₹ 11745.65 lakhs, being the amount as per computation of tax credit under Sec 115 JAA.

(iii) * Others includes deferred tax assets created on provision for Post Retirement Medical Benefit (PRMB) & award of Gold Coin to superannuated employees.

(iv) Refer note no 48 for detailed disclosure.

Note No. 10: Trade receivables

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Trade Receivables considered good - Secured		
Trade Receivables considered good - Unsecured	48,776.49	76,911.76
Trade Receivables which have significant increase in credit risk		
Trade Receivables - credit impaired		
Allowance for doubtful debts		
TOTAL	**48,776.49**	**76,911.76**

(i) Trade receivables are dues in respect of goods sold or services rendered in the normal course of business.

(ii) Where no due date is specifically agreed upon, the normal credit period allowed by the Company is in compliance to the CERC regulations / Guidance.

(iii) Where a trade receivable has been provided for, such provision could be dictated by prudence, but one could still expect to realise the amount within 12 months from the balance sheet date. Under such circumstances, the said trade receivable is classified as current. Where, however, there is no expectation to realise the amount within the next twelve months period, the same needs to be classified as non-current alongwith the provision made for the same.

(iv) Debt due from related parties is NIL (Previous year : NIL)

Total	**19,201.03**	**25,205.96**	**6,319.26**	**65.92**	**12,382.55**	**13,737.03**	**-**	**76,911.76**

(I) Notes on Disputed Trade Receivable:

(1) Disputed trade receivables includes (i) ₹ 431.94 lakhs against claim for reimbursement on account of Effective Tax Rate; (ii) ₹ 1399.45 lakhs against claim for reimbursement of Foreign Exchange Rate Variation (FERV) for 2015-16 to 2018-19; (iii) ₹ 5799.78 lakhs against arrear bills arising out of determination of tariff of TGBP by CERC for 2017-18 & 2018-19; (iv) ₹ 2737.27 lakhs against bills for GTG unit during 2015-16 & 2016-17 prior to COD of STG unit.

(2) TSECL has appealed against the above mentioned bills amounting to ₹ 10368.44 lakhs before APTEL. The petition has been taken up by APTEL and included in the "List of Finals" to be taken up for hearing in its turn. There are sufficient legal/regulatory grounds as indicated by legal experts to infer that TSECL's petition will be turned down and judgement delivered in NEEPCO's favour by APTEL. Though vide the order dated 01st April 2022, Hon'ble APTEL has directed NEEPCO not to take any precipitative action against TSECL for payment of the dues during pendency of the appeal, however, Ministry of Power (Govt. of India) has initiated action for liquidation of the dues invoking provisions of the Tripartite Agreement (TPA) & the process is continuing .

(3) TSECL has offered out-of-court settlement of the above mentioned dispute regarding bills for ₹ 10368.44 lakhs, which has not been accepted by NEEPCO as the offer entailed sharing the disputed amount on a 50 - 50 basis. Meanwhile, based on NEEPCO's request, the Government of India has served notice on the Government of Tripura with regard to invocation of the payment security clause of the Tripartite Agreement between GoI, RBI and Govt. of Tripura which enables the GoI to divert fund from the state's account maintained with RBI to liquidate the dues payable to NEEPCO by TSECL, including Late Payment Surcharge on the dues. The payment has been deferred till decision on the matter, which is expected shortly.

(4) With consideration of the above, disputed trade receivable amounting to ₹ 10368.44 lakhs has been considered good and no provision has been provided in books since there is no significant credit risk. Further, the realisation of the aforesaid amount is expected within a period of 12 months from the Balance Sheet date.

New Delhi North Eastern Electric Power Corporation NEEPCO

(i) **Notes on Unbilled Revenue**

Unbilled revenue as on 31.03.2022 amounting to ₹ 24930.37 lakhs includes energy bills ₹ 16366.20 lakhs, trading of merchant power ₹ 6979.94 lakhs, FERV ₹ 1477.53 lakhs, NERLDC fees & charges ₹ 39.79 lakhs, open cycle (AGBPS) billing ₹ 0.75 lakhs & LPS ₹ 66.16 lakhs.

Change in trade receivables

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Opening Balance	76,911.76	66,226.10
Add:: Net Revenue Recognised but not realised during the year	(28,135.27)	10,685.66
Closing Balance	48,776.49	76,911.76

(ii) Trade receivables are further analysed as :

(₹ in lakhs)

As at March 31, 2022	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	33,536.25	-	33,536.25
More than 45 days upto six months	3,466.93	-	3,466.93
More than six months	11,773.31	-	11,773.31
TOTAL	**48,776.49**	-	**48,776.49**

(₹ in lakhs)

As at March 31, 2021	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	44,406.99	-	44,406.99
More than 45 days upto six months	6,319.26	-	6,319.26
More than six months	26,185.50	-	26,185.50
TOTAL	**76,911.76**	-	**76,911.76**

The Company considers its maximum exposure to credit risk with respect to customers as at March 31, 2022 to be ₹48776.49 lakhs (March 31, 2021: ₹ 76911.76 lakhs), which is the fair value of trade receivables after allowance for credit losses.

The Company's exposure to customers is diversified and except TSECL (Tripura) & P&E Mizoram, no other customer contributes to more than 10% of outstanding dues (i.e. more than 45 days) accounts receivable as at March 31, 2022.

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Balance at the beginning of the period	-	-
Additions during the period	-	-
Utilised during the period	-	-
Balance at the end of the period	-	-

In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix.

During the year, the Company has paid interim dividend amounting to ₹ 7500.00 lakhs, i.e., ₹ 0.21 per share (face value of ₹ 10/- each) for the financial year 2021-22 as approved by the Board during 269th BoD meeting dated 04.02.2022 & ₹ 1500.00 lakhs towards final dividend for the previous FY 2020-21 as approved by the Board during 265th BoD meeting dated 26.08.2021 .

Retained Earnings are the profit of the Company earned till date net of appropriation.

18.3 Bond Redemption Reserve

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Balance at the beginning of the year/period	65,054.17	65,054.17
Movement during the year/period		
Balance at the end of the year/period	**65,054.17**	**65,054.17**

The nature of reserves are as follows:

(a) **General Reserve :-** Under the erstwhile companies Act 1956, a general reserve was created through an annual transfer of net profit at a specified percentage in accordance with applicable regulations. Consequent to the introduction of Companies Act 2013, the requirement to mandatory transfer a specified percentage of net profit to general reserve has been withdrawn.

(b) **Bond redemption reserve:-** In terms of the applicable provisions of the Companies Act 2013, read with Companies (Share Capital and Debenture) Rules, 2014, the Company should comply with the requirements with regard to Bond/ Debenture Redemption Reserve. The adequacy of Bond/Debenture Redemption Reserve is required to be ten percent of the value of the outstanding debentures. As on 31.03.2022, the Company has maintained a Bond Redemption Reserve of ₹ 65054.17 lakhs, which is adequate for the purpose. Hence, the Company has not created any further Bond Redemption Reserve during the year.

Total	**438.19**	**267.79**

Note No. 20: Long Term Provisions

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Medical benefit for retired employees	1,607.45	1,070.55
Other retirement benefits	274.41	279.04
Total	**1,881.86**	**1,349.59**

The provision for employee benefits includes gratuity, Leave Encashment, Post retirement medical benefit, Gold Coin at retirement. The increase/ decrease in the carrying amount of the provision for the current year is mainly on account of net impact of incremental charge for current year and benefits paid in the current year .

1. **Defined Contribution Plan**

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) **Provident fund**

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary.Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the period was ₹ 3414.12 lakhs (previous period ₹ 3351.80 lakhs).The investment has earned sufficient interest to pay the same to the member as per the rate specified by the Government of India.

b) **Superannuation fund**

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt.of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC) / GL-xiv/08 dt.26.11.2008 and OM. No. 2(70)/08-DPE (WC) / GL-vii/09 dt.02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme. The Companies contribution to the trust managing this scheme for the year was ₹ 2404.67 lakhs (previous year ₹ 2324.90 lakhs).

2. **Defined benefit plans**

a. **Post –Retirement Medical Benefit scheme**

The Company has a Contributory Scheme for Post –Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired /deceased employee and spouse of retiree/deceased are provided medical facilities on contributory basis which is as follows:

Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized / approved hospital.

For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests, examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less.. The liability for the same is recognized on the basis of actuarial valuation.

b. **Other retirement benefit on Superannuation**

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. **Other Employee benefit**

Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

1. Defined Contribution Plan

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) Provident fund

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary.Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the year was ₹ 3414.12 lakhs (previous year ₹ 3351.80 lakhs).The investment has earned sufficient interest to pay the same to the member as per the rate specified by the Government of India.

b) Superannuation fund

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt.of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC) / GL-xiv/08 dt.26.11.2008 and OM. No. 2(70)/08-DPE (WC) / GL-vii/09 dt.02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme.

The Companies contribution to the trust managing this scheme for the year was ₹ 2404.67 lakhs (previous year ₹ 2324.90 lakhs).

2. Defined benefit plans

a. Retiring gratuity

The Company has a defined benefit gratuity plan. Every employee who has rendered continuous service of five years or more is entitled to get gratuity at 15 days salary (15/26 x last drawn basic salary plus dearness allowance) for each completed year of service subject to a maximum of ₹ 20.00 lakhs, on superannuation, resignation, termination, disablement or on death. The liability for the same is recognized on the basis of actuarial valuation.

The Board of Directors in their meeting held on 01.04.2013 has approved the creation of Gratuity Fund Trust vide its Resolution No.195/16 dt.1.4.2013 in order to meet the requirement of funds for payment of Gratuity to the employees separated from the services of the Corporation. Accordingly NEEPCO Employees Group Gratuity Assurance Fund Trust has been constituted on 25th June'2013 and a Master Policy, named as North Eastern Electric Power Corporation Ltd Employees Group Gratuity – cum- Life Assurance (cash accumulation) Scheme, has been taken from the Life Insurance Corporation of India on 5th August 2013.

Transactions with LICI during FY 2021-22 for assessing fund balance as on 31.03.2022 are as per books of NEEPCO.

Details of Funded Assets with LIC

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Opening Balance	18171.16	18567.96
Transactions during the year (Net Debit)	863.94	1522.59
Interest earned during the year (Net Credit)	1336.32	1125.79
Closing Balance	18643.54	18171.16

b. Post –Retirement Medical Benefit scheme

The Company has a Contributory Scheme for Post –Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired /deceased employee and spouse of retiree/deceased are provided medical facilities on contributory basis which is as follows:

Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized / approved hospital.

For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests, examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less.. The liability for the same is recognized on the basis of actuarial valuation.

c. Other retirement benefit on Superannuation

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. Other Employee benefit

a. Leave

The Company provides for earned leave benefits (including compensatory absences) and half pay leave to the employees of the Company which accrue annually at 30 days and 20 days respectively. Earned leave account is maintained in one section only i.e. en-cashable. On Superannuation/ separation of the employee from the Corporation, entire leave (Earned leave & Maximum 240 days Half Pay Leave) subject to a ceiling of 300 days will be en-cashable. Half pay leave cannot be commuted. The cash equivalent payable for Half Pay Leave would be equal to leave salary as admissible for half pay plus Dearness Allowance.The liability for the same is recognized on the basis of actuarial valuation. During the current financial year, restriction on leave encashment facilities of the employees of NEEPCO has been withdrawn. An amount of ₹ 4221.41 lakhs has been paid to the employees as leave encashment during the year.

b. Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

Note on Government Grant (Ind AS 20)

NEEPCO's approved Accounting Policy includes policy of recognition and accounting of "Government grant" (para 14 of note 1 –Summary of Significant Accounting Policies).

Govt. of India has approved a Sub-ordinate loan amounting to ₹ 29196.42 lakhs to NEEPCO for implementation of Tuirial HEP with interest @1% per annum payable from the "Date of Commercial Operation" of the project. Of the aforesaid loan amount, NEEPCO has received ₹ 29096.42 lakhs till 31.03.2015 and the balance ₹ 100.00 lakhs has been received during the FY 2015-16. The loan amount (₹ 29096.42 lakhs) received till 31.03.2015 has been recognized in books of NEEPCO as on 01.04.2015 (Ind AS Transition date) at its carrying value in compliance to the Ind AS 101 (Exception to the retrospective application). However, for the loan amount (₹ 100.00 lakhs) received during the FY 2015-16, the benefit of the loan due to below market rate of interest (considered SBI base rate @9.70% effective as on Jun'15) amounting to ₹ 82.64 lakhs has been treated as a govt. grant and recognized in the Books of NEEPCO accordingly.

Spares out of Grant in Aid

Total value of spares purchased out of "Grant in aid" received from the Central Govt. amounts to ₹ 3659.53 lakhs and accordingly, recognized in books of Assam Gas Based. During the current period, repairs & maintenance has been debited and Stock of Spares under "Grant in aid" has been credited by an amount of ₹ 13.96 lakhs (Previous year ₹ 26.72 lakhs). An equivalent amount has been recognized as income in the statement of Profit & Loss during the year.

Grant from Ministry of Development of North Eastern Region

As per the Investment Approval sanctioned vide the Ministry of Power's letter no.7/7/2009-H-I dated 14th January'2011, an amount of ₹ 30000.00 lakhs has been sanctioned by the Ministry of Development of North Eastern Region (MDONER) as a part of the approved funding pattern for the Tuirial Hydro Electric Project, Mizoram. The total amount of ₹ 300.00 crores are included in Grant in Aid which is subjected to amortisation during normative useful life of the project since its commissioning. Amount amortized during the FY 2021-22 amounts ₹ 1584.00 lakhs (Previous year ₹ 1584.00 lakhs). An equivalent amount has been recognized as income in the statement of Profit & Loss during the year.

Note No. 27: Revenue from Operations

(₹ in lakhs)

Particulars	For the year ended 31-Mar-22	For the year ended 31-Mar-21
Sale of Energy	241,233.75	196,172.98
Sale of Energy through trading	64,842.06	23,539.49
Electricity Duty	-	1,564.69
Revenue from DSM	2,278.42	2,819.97
Revenue from RRAS	256.87	892.46
Others :		
FERV (Net) from the beneficiaries	405.38	1,547.99
NERLDC Fees & Other Charges from the beneficiaries	474.78	319.56
Sale of Electricity (Net)	309,491.26	226,857.14
Other operating Revenue :		
Interest from the beneficiaries	9,595.11	341.56
Recognition from deferred revenue - Govt. grant	1,597.96	1,610.72
Net Revenue from Operation	**320,684.33**	**228,809.42**

a. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is

accounted for on the basis of tariff as agreed by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue".

b. Sale of energy includes ₹ 10279.34 lakhs (previous year ₹ 6903.18 lakhs) being the revenue for the year recognised based on Annual Fixed Cost as per petition submitted to CERC pending issue of orders.

c. Sale includes ₹ 11221.72 lakhs (Previous year ₹ 576.68 lakhs) on account of earlier years sales arising out of finalization of tariff in current year.

d. In terms of regulation. 67 of the CERC (Terms and conditions of Tariff) Regulations,2019, deferred tax liabilities for the period upto 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees or from the beneficiaries or long term transmission customers/DICs, as the case may be. Accordingly, sales for the year ended 31.03.2022 includes ₹1310.82 lakhs (including ₹ 98.43 lakhs relating to the financial year 2020-21). Deferred Tax materialisation recognised during the F.Y. 2020-21 amounts to ₹ 1319.85 lakhs.

e. During the year ended 31.03.2022, NEEPCO recognized revenue amounting to ₹11221.71 lakhs as "Sale of energy" and ₹9590.34 lakhs as "Interest from the beneficiaries" on account of truing up tariff orders for the control period 2014-19 and tariff order for 2019-24 (for AGBPS) issued by the CERC. The said revenue under "Sale of energy" includes RHPS (Rs. 10175.00 lakhs), TgGBPS (Rs. 3739.31 lakhs), DHPS (Rs.723.08 lakhs). KHPS II (Rs.280.99 lakhs) and AGBPS (- ₹ 3696.67 lakhs). Further, "Interest from beneficiaries" includes RHPS (Rs. 7099.03 lakhs), TgGBPS (Rs. 844.71 lakhs), DHPS (Rs. 829.08 lakhs), KHPS II (Rs.184.14 lakhs) and AGBPS (Rs. 633.38 lakhs). In addition, provisional revenue recognized in Books of NEEPCO during the year ended 31.03.2022 as per the Company's Accounting Policy in case of power stations where final tariff for the control period 2019-24 is yet to be approved by CERC amounts to ₹ 10279.34 lakhs.

f. DSM and RRAS is accounted upto the period of the financial year 2021-22, as per the weekly statements issued by the NERPC.

g. On commissioning of the Kameng HEP (600 MW) during the current financial year, merchant power (347 MW) generated by the aforesaid plant has been sold/traded through NTPC Vidyut Vyapar Nigam Ltd (NVVN) under bi-lateral agreement as well as on "Day ahead" and "Real time" markets. Further, NEEPCO has traded available power under "Un-requisitioned surplus (URS)" for its power plants on "Day ahead" and "Real time" markets.

Commitments :		
Estimated amount of contracts remaining to be executed on capital contracts and not provided for (net of advances and deposits)	-	-
Property, Plant & Equipment	16,030.42	32,640.30

(i) Claims against the company not acknowledged as debts as on March 31,2022 include demand from the Income tax authorities for payment of tax of ₹ 46889.39 lakhs upon completion of their tax assessment for the A.Y. 2012-13 amounting to₹ 3821.34 lakhs, A.Y. 2013-14 amounting to ₹ 2142.98 lakhs, A.Y. 2014-15 amounting to ₹ 10872.61 lakhs, A.Y. 2015-16 amounting to ₹ 11381.61 lakhs, A.Y. 2016-17 amounting to ₹ 9112.52 lakhs, A.Y. 2018-19 amounting to ₹ 2891.40 lakhs, Probable tax liability relating to DPS pending before High Court,Meghalaya and ITAT amounting to ₹ 6659.73 lakhs and demand from Customs, Excise and Service Tax Appellate Tribunal (CESTAT) for payment of ₹ 7.20 lakhs in respect of Service Tax.

(ii) There are few cases pending before the Arbitration Tribunal / Courts, for which amount of claims are yet to be acsertained.

(iii) The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process.The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

(iv) The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition.

Note No. 37: Movement in Regulatory Deferral Accounts Balances

Nature of Rate Regulated Activities

The company is primarily engaged in the business of generation and sale of electricity. The tariff based on which the Company bill to its beneficiaries for electricity sold to them is determined by the Central Electricity Regulatory Commission (CERC) in compliance to the CERC (Terms and Conditions of Tariff) Regulations, as applicable from time to time. The said regulations allow the Company to recover its costs for providing the goods or services plus a fair return.

Recognition and measurement

- During determination of Annual Fixed Cost (AFC) of the Tuirial Hydro Electric Project (TrHEP) of North Eastern Electric Power Corporation Ltd (NEEPCO) for the control period of 2019-2024 by the Central Electricity Regulatory Commission (CERC), order for which issued on 16.04.2021, the Hon'ble Commission has allowed depreciation @2% based on the petition submitted by NEEPCO for the said purposes in line with the decision of the Public Investment Board (PIB) of the Govt. of India during meeting dated 04.06.2010 held for considering RCE of the project (TrHEP).
- The rates and methodology as per the CERC tariff regulations based on which depreciation for TrHEP has been calculated and charged to the Statement of Profit & Loss of NEEPCO for the period under consideration vary from that allowed to recover through tariff as per the CERC order. Due to higher rate of depreciation as per the CERC regulations, depreciation charged to the Statement of Profit & loss Account for the first 12 (twelve) years of operation TrHEP since

its Date of Commercial Operation (COD) will be more than that of the depreciation recoverable through tariff, which will be reversed in future periods during remaining period of normative life of the generating station. Accordingly, the lower depreciation realized as "Revenue" for the generating station during the earlier period of its operation will be recovered/adjusted during later period.

- In view of above, the difference of depreciation to the extent recoverable/adjustable in future period has been recognized on an undiscounted basis as "Regulatory deferral account debit/credit balances" by credit/debit to the "Movement of Regulatory Deferral Account Balances".
- "Regulatory deferral account debit balances" recognized on account of the above during the year ended 31.03.2022 is as follows:

Particulars	Amount (₹ in lakhs)
Depreciation as per CERC Schedule of rates	6,896.52
Depreciation @2% as allowed by CERC vide the tariff order dated 09.10.2018	2,778.88
Difference (Recognized as "Regulatory Deferral balances")	4,117.64

Regulatory Deferral Account balances in respect of Employees benefits expenses for Gratuity:

Ministry of Labour and Employment vide their Gazette notification dated the 29th March 2018 has notified the Payment of Gratuity (Amendment) Act, 2018 (12 of 2018) and thus has increased the limit of gratuity upto ₹ 20 (Twenty) lakhs from the existing ₹ 10 (Ten) lakhs.

Regulation 8 (3) of the CERC (Terms and conditions of Tariff) Regulations 2014 provides that "The Commission shall carry out truing up of tariff of generating station based on the performance of following Uncontrollable Parameters:

i) Force Majeure;, ii) Change in Law; and iii) Primary Fuel Cost.

The increase in gratuity expenses due to enhancement of limit upto ₹20.00 lakhs as per the Payment of Gratuity (Amendment) Act, 2018 falls under the category of "Change in law" Accordingly, an amount of ₹ 4793.47 lakhs to the extent expected as recoverable from the beneficiaries in subsequent period as per CERC Tariff Regulations have been recognized as "Regulatory Deferral Account Balances" as on 31.03.2022 in books of NEEPCO. No movement on the aforesaid balances have occured during the Financial Year ended 31.03.2022.

Regulatory Deferral Accounts Balances in respect of deferred adjustment on Deferred Tax Liabilities for projects under operation:

NEEPCO has long term Power Purchase Agreement (PPA) with the States of the North Eastern Region (referred to as the 'Beneficiaries') for selling electricity generated from its generating stations in operations. Tariff for generating stations of NEEPCO are determined by the Central Electricity Regulatory Commission (CERC) in compliance to their notified tariff regulations issued from time to time. As per the CERC Tariff Regulations 2019, ROE is grossed up with effective tax rate as applicable for the respective financial year. Accordingly, deferred tax accrued during the year on income generated from sale of electricity and further adjustable/reversal in future periods when the related deferred tax liability will form a part of current tax & recoverable from the beneficiaries has been accounted as "Deferred tax adjustment against deferred tax liability", which has been recognized as "Regulatory income" and presented as a movement in "Regulatory Deferral Accounts Balance" as a separate line item in compliance to the relevant provisions of Ind AS 114.

Regulatory Deferral Account balances due to reclassification of deferred tax recoverable from beneficiaries

As per Regulation 67 of the CERC (Terms and Conditions of Tariff Regulations) 2019, Deferred tax liabilities for the period upto 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees from the then beneficiaries or long term customers, as the case may be. Till 31st March, 2019 the deferred tax recoverable from beneficiaries in future years was presented as an adjustment to deferred tax liability and was not recognised as "Regulatory Deferral Accounts balances". The same has been reviewed during the FY 2021-22 in line with Ind AS 114 and has been reclassified as Regulatory Deferral Account balance. The regulated assets (+)/liability (-) recognized in the books to be recovered from or payable to beneficiaries in future periods are as follows:

(₹ in lakhs)

Sl. No.	Particulars	Regulatory Deferral Account Balances
A	Opening balance as on 01.04.2021	39,934.78
B	Addition during the Financial Year ended 31.03.2022 (assets (+)/ liability (-)	-
C	Amount collected (-)/refunded (+) during the period	(1,310.82)
D	Regulatory income/(expense) recognized in the Statement of Profit and Loss (B-C)	(1,310.82)
E	Closing balance as on 31.03.2022 (A+D)	38,623.96

Regulatory Deferral Account balances in respect of exchange differences on Foreign Currency Monetary items

Para 28 of the Ind AS 21-"The Effects of Changes in Foreign Exchange Rates" provides that exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognised in profit or loss in the period in which they arise. Further, para D13 AA of the Ind AS 101 – "First-time Adoption of Indian Accounting Standards" provides for a first-time adopter may continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP. Accordingly, for periods beginning on or after 01.04.2016, all exchange differences arising on translation/ settlement of monetary items other than exchange difference on borrowings to the extent treated as an adjustment to interest cost during construction period are to be charged to the Statement of Profit and Loss. Regulation 69 of of the CERC (Terms and Conditions of Tariff) regulations provides that every generating company and the transmission licensee shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises.

Regulatory deferral accounts debit balance - Note 15 recognized :

The regulatory assets recognized in the books to be recovered from the beneficiaries in future periods are as follows:

(₹ in lakhs)

Particulars	As at 31st March 2022	As at 31st March 2021
A. Opening Balance	84,384.08	79,861.53
B. Movements during the year due to (i) Turial Depreciation ₹ 4117.64 lakhs (ii) Deferred Tax Adjustment against Deferred Tax Liability ₹ 5153.65 lakhs (iii) Deferred Tax Recoverable ₹ (1310.82) Lakhs	7,960.47	4,522.55
C. Amount Collected / refunded during the year	-	-
D. Regulatory Deferral Account Balances recognized in the Statement of Profit & Loss (B-C)	7,960.47	4,522.55
E. Closing Balance (A+D)	92,344.55	84,384.08
F) Net movements in regulatory deferral account balances (I)	7,960.47	4,522.55
G) Tax on net movements in regulatory deferral account balances (II)	1,619.88	1,020.78
H) Total amount recognised in the statement of profit & loss during the year (I - II)	6,340.59	3,501.77

Rate of return/Discounting rate considered for recognition of Regulatory Deferral Account Balance is "Zero" Risk/uncertainty associated with future recovery of Regulatory Deferral Account Balances

- **Demand risk:** Recovery of regulatory deferral balances are subjected to billing to its beneficiaries and accordingly associated with related normal risks, such as, attitude of the customers towards settlement of their dues, availability of alternate source of supply etc.
- **Regulatory risk:** On account of Changes, if any, in Regulations and submission or approval of a rate setting application or the entity's assessment on the expected future regulatory actions.

Period over which expected to recover

i. **Employees benefit expenses:** The Company expects to recover the carrying amount of regulatory deferral debit account balances over a period of 2(two) years.

ii. **Others:** The Company is expected to recover/adjust the carrying amount of the regulatory deferral account balances over the period of normative useful life of the projects/generating stations.

N. Undisclosed income: The company has not surrendered or disclosed as income or any transaction during the year in the tax assessment under the Income Tax Act, 1961. No search or survey under the Income Tax Act' 1961 has taken place during the year. Further, the company does not have any previously unrecorded income & related assets (Previous year NIL).

O. Crypto or Virtual Currency: The company has not traded or invested in Crypto or virtual currency during the current Financial Year (Previous Year NIL)

I. Disclosure of Ratios

Ratio	Numerator	Denominator	FY 2021-22	FY 2020-21	% Variance	Reason for Variance
Current ratio	Current Assets	Current Liabilities	0.54	0.56	(4.86)	
Debt-equity ratio	Paid-up debt capital (Long term borrowings+Short term borrowings)	Shareholder's Equity (Total Equity)	1.13	1.23	(7.75)	
Debt service coverage ratio	Profit for the year+Finance costs+ Depreciation and amortisation expenses+Exceptional items	Finance Costs + lease payments+Scheduled principal repayments of long term borrowings	1.18	0.63	87.68	Due to increase in the PAT over the previous year, the ratio is better
Return on equity ratio	Profit for the year	Average Shareholder's Equity	0.03	0.01	338.97	Due to increase in the PAT over the previous year, the ratio is better
Inventory turnover ratio	Revenue from operations	Average Inventory	22.41	17.87	25.36	Due to increase in the Revenue over the previous year, the ratio is better
Trade receivables turnover ratio	Revenue from operations	Average trade receivables	5.10	3.20	59.61	Due to better collection from the debtors for the current F.Y. the ratio is on the higher side
Trade payables turnover ratio	Total Purchases (Fuel Cost + Other Expenses+Closing Inventory-Opening Inventory)	Closing Trade Payables	7.21	9.75	(25.98)	Due to increase in trade payable on account of transmission expense
Net capital turnover ratio	Revenue from operations	Working Capital+current maturities of long term borrowings	3.42	2.60	31.31	Due to increase in the Revenue over the previous year, the ratio is better
Net profit ratio	Profit for the year	Revenue from operations	0.07	0.02	216.22	Due to increase in the PAT over the previous year, the ratio is better
Return on capital employed	Earning before interest and taxes	Capital Employed (i)	0.07	0.04	73.61	The increase of EBIT over the previous F.Y. resulted the better performance of the ratio
Return on investment (ii)-Investments in subsidiary and joint venture companies	{MV(T1) – MV(T0) – Sum [C(t_1)]}	{MV(T0) + Sum [W(t) * C(t_2)]}	-	-	-	The investment for the NEEPCO is NIL for both the F.Y s
Return on investment (ii)-Investments in others	{MV(T_1) – MV(T0) – Sum [C(t1)]}	{MV(T0) + Sum [W(t) * C(t_2)]}	-	-	-	The investment (either in the STDRs or other investments) for the NEEPCO is NIL for both the F.Y s

** Denominator is Negative

(i) Capital Employed= Tangible Net Worth + Total Debt + Deferred Tax Liabilities

(ii)Return on Investment where

T1 = End of time period

T0 = Beginning of time period

t = Specific date falling between T1 and T0

MV(T1) = Market Value at T1

MV(T0) = Market Value at T0
$C(t_1)$ = Cash inflow, cash outflow on specific date including dividend received
$C(t_2)$ = Cash inflow, cash outflow on specific date excluding dividend received
W(t) = Weight of the net cash flow (i.e. either net inflow or net outflow) on day 't', calculated as [T1 – t] / T1

J (I) Disclosure on Kopili HPS (50X4 MW):

(i) Penstock I - feeding 02 (two) units (50 MW each) of Kopili Hydro Power Station, Umrongso, Assam of the Company got ruptured on 07.10.2019 following a Load through off and tripping of Unit -I (50 MW). 03 (three) other units were in full load during the mishap. Rupture happened at three locations of Penstock including at location immediately downstream of Valve House. Penstock protection valve closing mechanism was damaged in the incident and therefore, the Valve could not be closed to isolate the Penstock, consequently thereafter, the Power House was flooded upto EOT Crane beam level within a very short period. At present, Kopili (4 X 50 MW) system in in shutdown condition. The value of damaged assets assessed & recognised in books till 31.03.2022 amounts to ₹10366.72 lakhs (Gross value ₹20670.50 lakhs & Accumulated depreciation ₹10303.78 lakhs), for which provision for an equivalent amount has been provided in books. Repair, Renovation and Modernization (RRM) activities of the said generating plant is going on with scheduled commissioning of all the units by April 2023.

(ii) Finalization of insurance claim lodged with the underwriter is in advanced stage with estimated settlement amount of ₹ 3562.67 lakhs, which has been duly accounted for in books of NEEPCO as on 31.03.2022 based on reasonable certainty of realization.

J (II) Disclosure on Khandong HPS (2 X 25 MW) and Kopili Stage II (1 X 25 MW) HPS:

As a consequence of unprecedented dry season flood in Kopili river, the Bundh constructed at the approach channel for taking up planned repair and renovation works overtopped on the 26th March 2022 leading to uncontrollable ingress of water from the Kopili reservoir into Khanding HRT. The discharge gushes down the hill slopes and inundated the Khandong Power House (2 X 25 MW) and Kopili Stage II Power House (1 X 25 MW) causing damages to the Power Stations and its Plant & Machineries. The value of damaged assets assessed & recognised in books as on 31.03.2022 amounts to ₹1457.63 lakhs (Gross value ₹7871.89 lakhs & Accumulated depreciation ₹6414.26 lakhs) for the said generating stations, for which provision for an equivalent amount has been provided in books.

K. Segment Reporting

NEEPCO is in the business of only one product, i.e., generation and selling of electricity. All the projects of NEEPCO are located with the North East Region, i.e., within the same geographical location. NEEPCO has no reportable segment and accordingly, Ind AS 108 – Operating Segment to disclose information about segments is not applicable.

L. Disclosure as per Ind AS 116 'Leases

(I) Transition to Ind AS 116

The Company has applied the following practical expedients on initial application of Ind AS 116:

(i) Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.

(ii) Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.

(iii) Excluded the initial direct costs, if any, from the measurement of the right-of-use asset at the date of initial application.

(iv) On transition to Ind AS 116, the weighted average incremental borrowing rate applied to lease liabilities recognised under Ind AS 116 is 8.69 %. For agreements relating to the FY 2021-22 the weighted average incremental borrowing rate is taken as 7.55 %.

(II) Company as Lessee

(i) The Company's significant leasing arrangements are in respect of the following assets:

(a) Premises for guest houses/ transit camps which are not non-cancellable and are usually renewable on mutually agreeable terms.

(b) The Company has taken electrical vehicles on operating lease for a period of five years, which can be further extended at mutually agreed terms. Lease rentals are subject to escalation of 10% per annum.

(c) The Company has taken certain vehicles (other than electrical) on lease for periods more than 12 months.

(III) The following are the carrying amounts of lease liabilities recognised and the movements during the period:

(₹ in lakhs)

Particulars	For the Year ended 31st March 2022	For the Year ended 31st March 2021
Opening Balance	790.45	978.75
- Additions in lease liabilities	807.03	425.48
- Interest cost during the year	130.13	134.18
- Payment of lease liabilities	715.78	747.96
Closing Balance	1,011.83	790.45
Current	573.64	522.66
Non Current	438.19	267.79

(IV) The following are the carrying amounts of "Right to use Leased Assets" as on 31.03.2022:

(₹ in lakhs)

Particulars	For the Year ended 31st March 2022	For the Year ended 31st March 2021
Opening Balance	726.30	934.67
- Additions in lease liabilities	807.03	425.48
- Amortization during the period	593.94	633.85
Closing Balance	939.39	726.30

(V) The following are the amounts recognised in profit or loss:

(₹ in lakhs)

Particulars	For the Year ended 31st March 2022	For the Year ended 31st March 2021
Depreciation expense for right-of-use assets	593.94	633.85
Interest expense on lease liabilities	130.13	134.18
Expense relating to short-term leases	-	-

(VI) Details of Contractual Maturities of Lease Liabilities are:

(₹ in lakhs)

Particulars	As at 31st March 2022	As at 31st March 2021
Less than one year	573.64	522.66
Between one and two years	295.29	194.48
Between two and three years	122.46	52.83
Between three and four years	16.56	14.96
Between four and five years	3.88	5.52
More than five years	-	-
Total	**1,011.83**	**790.45**

Note No. 40: Capital Management

The Company's capital management is intended to create value for shareholders by facilitating the meeting of long term and short term goals of the Company.

The Company determines the amount of capital required on the basis of annual business plan, coupled with long term and short term strategic investing plan. The funding requirements are met through equity, convertible and non- convertible debt securities, and other short term and long term borrowings. The Company's policy is aimed at combination of short term and long term borrowings.

The Company monitors the capital structure on the basis of net debt to equity ratio and maturity profile of the overall debt portfolio of the Company.

Note No. 41: Disclosure on Financial Instruments

This section gives an overview of the significance of financial instruments for the Company and provides additional information on balance sheet items that contain financial instruments.

The details of significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note no.1 to the financial statements

Financial assets and liabilities

The following table presents the carrying amount and fair value of each category of financial assets & liabilities as at March 31, 2022 & March 31, 2021.

(₹ in lakhs)

As at March 31, 2022	Fair value through statement of profit & loss	Fair value through OCI	Derivative instruments in hedging relationship	Derivative instruments not in hedging relationship	Amortised Cost	Total Carrying Value	Total Fair Value

Total					821,687.76	821,687.76	821,687.76

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below:

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investment in quoted equity shares, quoted corporate debt instruments and mutual fund investments.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This level of hierarchy includes Company's over-the-counter (OTC) derivative contracts.

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. The main items in this category are investment in unquoted equity shares, measured at fair value.

(₹ in lakhs)

Particulars	As at March 31, 2022			
	Level 1	Level 2	Level 3	Total
Financial assets measured at fair value				
(i) Trade receivables	48,776.49	-	-	48,776.49

(iii) Other financial liabilities	9,003.31	-	-	9,003.31
Total financial liabilities measured at fair value	**821,687.76**			**821,687.76**

* Trade & Other payables includes trade payables & payables for capital expenditure

The short-term financial assets and liabilities are stated at amortized cost which is approximately equal to their fair value.

The fair value in respect of the unquoted equity investments cannot be reliably measured.

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end

There have been no transfers between Level 1 and Level 2 for the years ended March 31, 2022 and March 31, 2021.

Transfer of financial assets

There have been no transfers of financial assets during the 2021-22.

Financial risk management

In the course of its business, the Company is exposed primarily to interest rates, liquidity and credit risk, which may adversely impact the fair value of its financial instruments.

The Company has a risk management policy which covers the risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the Board of Directors. The risk management framework aims to:

Create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on the Company's business plan.

Achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

Market Risk : - Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes.

Future specific market movements cannot be normally predicted with reasonable accuracy.

Credit Risk :- Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks.

Liquidity Risk: Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The following table shows a maturity analysis of the anticipated cash flows including interest payable for the Company's non derivative financial liabilities on an undiscounted basis, which therefore differ from both carrying value and fair value.

(₹ in lakhs)

Particulars	As at March 31, 2022				
	Carrying amount	Contractual cash flows	Less than 1 year	Between 1 - 5 years	More than 5 years
Non- derivative financial liabilities

Derivative financial liabilities					

The cost of unquoted investments approximate the fair value because there is a wide range possible fair value measurements and the cost represents estimate of fair value within that range.

Note No. 42: Operating Segment

a. Electricity generation is the principal activity of the Corporation. Other operation like interest income does not form a reportable segment as per the Accounting Standard 108.

b. The Corporation has power projects located within the country and therefore geographical segments are inapplicable.

Note No. 43: Financial Risk Management

(i) Exposure to Credit Risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was :

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Financial assets for which loss allowance is measured using 12 months Expected Credit Losses (ECL)		
Non-current investments		
Non-current loans	26.16	28.30
Other non-current financial assets	-	-
Cash and cash equivalents	4,344.49	46.89
Bank balances other than cash and cash equivalents	1,009.06	171.24

* Excluding Contract Assets (Refer Note 13)

STANDALONE FINANCIAL STATEMENTS

(ii) **Provision for expected credit losses**

(a) **Financial assets for which loss allowance is measured using 12 month expected credit losses**

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(b) **Financial assets for which loss allowance is measured using life-time expected credit losses as per simplified approach**

The Company has customers (State government utilities) with capacity to meet the obligations and therefore the risk of default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk. Hence, no impairment loss has been recognised during the reporting periods in respect of trade receivables and unbilled revenue.

(iii) **Ageing analysis of trade receivables**

(₹ in lakhs)

Ageing	Not due	0 - 30 days past due	31-60 days past due	61-90 days past due	91-120 days past due	More than 120 days past due	Total
Gross carrying amount as on 31st March 2022	33,536.25	3,466.93	-	-	-	11,773.31	48,776.49
Gross carrying amount as on 31st March 2021	44,406.95	1,850.79	2,147.59	2,097.57	221.17	26,187.69	76,911.76

Liquidity Risks

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has an appropriate liquidity risk management framework for the management of short, medium and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Company's Treasury department is responsible for managing the short-term and long-term liquidity requirements of the Company. Short-term liquidity situation is reviewed daily by the Treasury department. The Board of directors has established policies to manage liquidity risk and the Company's Treasury department operates in line with such policies. Any breaches of these policies are reported to the Board of Directors. Long-term liquidity position is reviewed on a regular basis by the Board of Directors and appropriate decisions are taken according to the situation.

Typically, the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a month, including the servicing of financial obligations, this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters

As part of the CERC Regulations, tariff inter-alia includes recovery of capital cost. The tariff regulations also provide for recovery of energy charges, operations and maintenance expenses and interest on normative working capital requirements. Since billing to the customers are generally on a monthly basis, the Company maintains sufficient liquidity to service financial obligations and to meet its operational requirements.

(i) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Fixed-rate borrowings		
Foreign currency loans	-	-

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the risk management committee.

Currency risk

The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates.

The currency profile of financial assets and financial liabilities as at 31 March 2022 and 31 March 2021 are as below:

31st March 2022

(₹ in lakhs)

Particulars	USD	Others	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total			
Financial Liabilities			
Secured Foreign Currency loans	13,608.89		13,608.89
Unsecured Foreign Curreny loans from banks & financial institution		43,744.62	43,744.62
Trade payables & other financial liabilities			-
Total	**13,608.89**	**43,744.62**	**57,353.51**

31st March 2021

(₹ in lakhs)

Particulars	USD	Others	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total	-	-	-
Financial Liabilities			
Secured Foreign Currency loans	20,734.21	-	20,734.21
Unsecured Foreign Curreny loans from banks & financial institution		50,802.71	50,802.71
Trade payables & other financial liabilities	-	-	-
Total	**20,734.21**	**50,802.71**	**71,536.92**

Out of the above, no amount is hedged by derivative instruments. In respect of the balance exposure, gain/(loss) on account of exchange rate variations on all foreign currency loans and foreign currency monetary items (up to COD) is recoverable from beneficiaries. Therefore, currency risk in respect of such exposure would not be very significant.

Sensitivity analysis

Since the impact of strengthening or weakening of INR against USD, Euro, JPY and other currencies on the statement of profit and loss would not be very significant; therefore, sensitivity analysis for currency risk is not disclosed.

Interest Rate risk

The Group is exposed to interest rate risk arising mainly from non-current borrowings with floating interest rates. The Group is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Group manages the interest rate risks by entering into different kinds of loan arrangements with varied terms (e.g. fixed rate loans, floating rate loans, rupee term loans, foreign currency loans, etc.).

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments is as follows:

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Financial Assets		
Fixed Rate Instruments		
Bank Deposits	1,009.06	171.24
Total	1,009.06	171.24
Financial Liabilities		
Fixed Rate Instruments		
Bonds	481,105.48	531,106.40

Lease obligations	1,011.83	790.45
	555,412.27	**612,274.46**
Variable-rate instruments		
Foreign currency loans	13,620.09	20,747.76
Rupee term loan	157,716.01	160,753.97
Cash Credit	-	6,174.67
	171,336.10	187,676.40
Total	**726,748.37**	**799,950.86**

Fair value sensitivity analysis for fixed-rate instruments

The Company's fixed rate instruments are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Cash flow sensitivity analysis for variable-rate instruments

A change of 50 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for the previous year.

(₹ in lakhs)

Particulars	Profit or loss	
	50 bp increase	50 bp decrease
31-Mar-22

Lease obligations	3	1,011.83	1,011.83	790.45	790.45
Borrowings - current	3	24,312.43	24,312.43	36,797.75	36,797.75
Trade payables and payable for capital expenditure	3	22,156.98	22,156.98	8,583.31	8,583.31
Other financial liabilities	3	10,173.49	10,173.49	12,887.43	12,887.43

The carrying amounts of current trade receivables, current trade payables, payable for capital expenditure, investment in subsidiary and joint venture companies, cash and cash equivalents and other financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans, borrowings, non-current trade payables and payable for capital expenditure were calculated based on cash flows discounted using a current discount rate. They are classified at respective levels based on availability of quoted prices and inclusion of observable/non observable inputs.

Note No. 45: Disclosure as per Ind AS 115, ' Revenue from Contracts with Customers'

Nature of goods and services

The revenue of the Company comprises of income from energy sales, sale of energy through trading and other services. The following is a description of the principal activities:

(a) Revenue from energy sales

The major revenue of the Company comes from energy sales. The Company sells electricity to bulk customers, mainly electricity utilities owned by State Governments Discoms operating in States. Sale of electricity is generally made pursuant to long-term Power Purchase Agreements (PPAs) entered into with the beneficiaries. Further, the Company sell electrcity through Power Exchanges available with them under "Merchant Power".

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for energy sales:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms
Energy sales	The Company recognises revenue from contracts for energy sales over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from energy sales is determined in terms of CERC Regulations as notified from time to time. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. The amounts are billed on a monthly basis and are payable within contractually agreed credit period.

STANDALONE FINANCIAL STATEMENTS

(b) Revenue from energy trading, consultancy and other services

Sale of Energy through trading

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for sale of energy through trading:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms
Sale of energy through trading	The Company recognises revenue from contracts for sale of energy through trading over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from sale of energy through trading is determined as per the terms of the agreements. The amounts are billed as per periodicity specified in the Contract and are payable within contractually agreed credit period.

II. Disaggregation of revenue

In the following table, revenue is disaggregated by type of product and services, geographical market and timing of revenue recognition:

(₹ in lakhs)

ANNEXURE - 6B

L.K.KEJRIWAL & CO

CHARTERED ACCOUNTANT

Independent Auditors'Report

To

To the Member of North Eastern Electric Power Corporation Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of North Eastern Electric Power Corporation Limited ('the Venturer Company') and its jointly controlled entity (collectively referred to as 'the Company'), which comprise the Consolidated Balance Sheet as at 31st March2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as' Consolidated Financial Statements').

In our opinion and to the best of our information and according to the explanation given to us and due consideration of unaudited Financial Statement of the joint venture entity referred to below in the 'Other Matters' paragraph, the aforesaid Consolidated Financial Statements give the information required by the Companies Act 2013 ('the Act ')in the manners o required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the Consolidated state of affairs (financial position) of the Company as at 31st March2022, and its Consolidated profit (financial performance including other comprehensive income), its Consolidated cash flows and the Consolidated changes inequity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to the following matters in the Notes to the Consolidated Financial Statements:

1. Note No.2(vi) regarding Capitalisation of ₹12442.72 lakhs being Capacity Charges on Transmission assets including interest thereon billed by PGCIL for earlier years.
2. Note No. 27(b) read with Significant Accounting Policy 17.1(a)(ii) regarding Sale of energy includes ₹ 10279.34 lakhs being the revenue for the year recognized on the basis of provisional rate.
3. Note No. 28(iii) read with Note No. 13(i) regarding recognition of Delayed Payment Surcharge of ₹3636.25 lakhs on disputed Trade Receivable from TSECL.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below as the key audit matters to be communicated in our report. The below mentioned Key Audit Matters have been reproduced from the Independent Auditors' Report on the audit of Standalone Financial Statements of the venturer company.

Sl. No	Key Audit Matter	Addressing the Key Audit Matter
1	**Recognition and Measurement of Revenue from sale of energy** The Company records revenue from sale of energy based on tariff approved by the Central Electricity Regulatory Commission (CERC) and where final tariff is yet to be approved by CERC, provisional sale is recognized on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through tariff petition. Where neither approved tariff is available nor petition is pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. (Refer note no. 27 read with significant accounting policy no. 17.1(a).)	**Our Audit Procedure:** We have obtained an understanding of the CERC tariff regulations, orders, circulars, guidelines and the company's internal circulars and procedures in respect of recognition and measurement of revenue from sale of energy comprising of capacity and energy charges and adopted the following Audit Procedures: - Evaluated and tested the effectiveness of the company's design of internal controls relating to recognition and measurement of revenue from sale of energy. - Verified the accounting of revenue from sale of energy as well as accounting of provisional revenue from sale of energy based on provisional tariff computed as per the principles adopted by the Company.
2	**Impairment Assessment of carrying value of Property, Plant & Equipment (PPE)** The Company has a material operational asset base (PPE) relating to generation of electricity and is one of the components for determining the tariff as per the CERC Tariff Regulations, which may be vulnerable to impairment. Carrying value of PPE requires impairment assessment based on the future expected cash flows associated with the Power Plants (Cash Generating Units), (Refer Note No.50 read with the Significant Accounting Policy No.5)	**Our Audit Procedure:** We have adopted the following Audit Procedure: - Read the Company's Accounting Policies with respect to impairment in accordance with Ind AS 36 "Impairment of Assets". - Performed test of controls over key financial controls related to accounting, valuation and recoverability of assets through inspection of evidence. - Performed substantive audit procedures including : i) Obtained the management's impairment assessment ii) Evaluated the key assumptions including projected generation, fuel prices, exchange rate, energy prices, post power purchase agreement period and weighted average cost of capital by comparing them with prior years and external data, where available. iii) Obtained and evaluated the sensitivity analysis. - Reliance has been placed on management projections for completion timeline, volume of generation and resultant revenue based on expected tariff there against.

Sl. No	Key Audit Matter	Addressing the Key Audit Matter
3	**Contingent Liability** There are number of litigations/claims against the company pending before various forums. Claims made against the company are significant and the management's judgment is required for estimating the amount involved and their proper disclosure. Disclosure of the same involves a significant degree of Management's judgment in interpreting the cases and assessment of the probability of occurrence of the liability which may be subject to Management bias. (Refer note no. 36 to the Consolidated Financial Statement.)	**Our Audit Procedure:** We have obtained the details of cases/disputes/claims pending before various courts/Arbitration/Quasi-Judicial Forums etc. as on 31.03.2022 from the Management along with the latest status and management's assessment for the same. We have also obtained the Company's Accounting Policy in this regard and their disclosure in notes to the Standalone financial statements for the same. We understood and tested the design and operating effectiveness of control as established by the Management for obtaining all relevant information for pending litigation/cases. We discussed with Management regarding their basis of assessment and any material development thereto and also possible outcomes of the claims/disputes.

Information Other than the Consolidated Financial Statements and Auditors Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis Report, Director's Report including Director's Responsibility Statement and Report of Corporate Governance, but does not include the Consolidated financial statements and our auditors' report thereon. The Other Information as stated above is expected to be made available to us after the date of this Auditors' Report.

Our opinion on the Consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially in consistent with the Consolidated financial statements or our knowledge obtained during audit otherwise appears to be materially misstated.

When we read the Other Information as stated above and if we conclude that there is a material misstatement therein, we are required to communicate the matter those charged with governance and describe necessary actions required as per applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the Consolidated financial position, Consolidated financial performance including other comprehensive income, Consolidated cash flows and Consolidated changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section133 of the Act, read with relevant rules issued there under and as per the Electricity Act,2003 and relevant Central Electricity Regulatory Commission(CERC) regulation and other recognized accounting practices and policies.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and

application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement ,whether due to fraud or error which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the venturer Company and its jointly controlled entity are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors are also responsible for overseeing the financial reporting process of the venturer Company and of its jointly controlled entity.

Auditors Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance ,but is not a guarantee that an audit conducted in accordance with Standard on Auditing (SAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
- Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the disclosures and whether the Consolidated financial statements represent the under lying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the Consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of

our audit work and in evaluating the results of our work; and(ii) to evaluate the effect of any identified misstatements in the Consolidated financial statements.

- Obtain sufficient appropriate Audit evidence regarding the financial information of the business activities of the venturer company and its joint venture to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of only such business activities included in the Consolidated Financial Statements of which we are the independent Auditors. For the business activities included in the Consolidated Financial Statements, which have not been audited, their directors remain responsible for the direction, supervision and performance of it. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant efficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Others Matters

We did not audit the Financial Statements of the jointly controlled entity. The unaudited and unsigned Financial Statement of jointly controlled entity has been furnished to us by the Management of the venturer company. The Consolidated Financial Statements reflect investments carried at ₹445.00 Lakhs in the Consolidated Balance Sheet as at March 31, 2022 and share of loss of joint venture at ₹0.99 Lakhs on the Consolidated Profit & Loss, based on such unaudited and unsigned Financial Statements of such joint venture as at 31st March, 2022, accounted for under the Equity method. Our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosure included in respect of the jointly controlled entity, and our report in terms of section 143(3) and 143(11) of the Act, in so far as it relates to the aforesaid jointly controlled entity, is based solely on such unaudited and unsigned Financial Statements.

Our opinion on the Consolidated Financial Statements and our report on other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the unaudited and unsigned Financial Statements provided by the Management of jointly controlled entity.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the unaudited and unsigned Financial Statement of the jointly controlled entity as noted in the 'Other Matters' paragraph above, we report, to the extent applicable, that:

a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements;

b. in our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept by the venturer Company so far as it appears from our examination of those books;

c. the Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including the other comprehensive income), the Consolidated statement of Cash Flows and the Consolidated Statement of changes in equity dealt with by this Report are in agreement with the relevant Consolidated books of account maintained for the purpose of preparation of the Consolidated Financial Statements;

d. In our opinion, the aforesaid Consolidated Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act;

e. Being a Government Company, pursuant to the Notification No. GSR 463(E) dated 5th June2015 issued by Ministry of Corporate Affairs, Government of India, provisions of sub-section (2) of Section 164 of the Companies Act, 2013, are not applicable to the venture Company.

f. As per Notification No. GSR 463(E) dated 5th June, 2015 issued by the Ministry of Corporate Affairs, Govt. of India, Section 197 of the Act, as regards managerial remuneration, is not applicable to the Government Companies. Accordingly, reporting in accordance with requirement of provisions of section 197(16) of the Act is not applicable to the venturer Company.

g. With respect to the adequacy of the internal financial controls with reference to Consolidated financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure A; and

h. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the unaudited and unsigned Financial Statements of the jointly controlled entity:

   i. The venturer Company has disclosed the impact of pending litigations on its financial position in its Consolidated Financial Statements-Refer Note36 to the Consolidated Financial Statements;

   ii. The venturer Company has made provision, as required under the applicable law or Indian accounting standards,for material foreseeable losses,if any, on long-term contracts; and

   iii. The venturer Company has no case of transferring any amount to the Investor Education and Protection Fund as per the provisions of the Act.

Annexure A to the Independent Auditors' Report

(Refered to in Paragraph 1(g) under 'Report on other Legal and Regulatory Requirements' section of Independent Auditors' Report of even date on the Consolidated Financial statements for the year ended 31st March 2022)

Report on the Internal Financial Control under section 143 (3)(i) of the Act

In conjunction with our audit of the Consolidated Financial Statements of the company as of and for the year ended 31st March, 2022, we have audited the internal financial controls over financial reporting of North Eastern Electric Power Corporation Limited('the venturer Company')and its jointly controlled entity which is a company incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the venturer Company and its jointly controlled entity, which is a company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act,2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained are sufficient and appropriate to provide a basis for our audit opinion on the venturer Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding there liability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail , accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any valuation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become in adequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the venturer Company has, in all material respects, an adequate internal financial controls with reference to the Consolidated Financial Statements in place and such internal financial controls with reference to the Consolidated Financial Statements were operating effectively as at 31 March 2022, based on the internal controls over financial reporting criteria established by the venturer Company considering the components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operative effectiveness of the Internal Financial Controls with reference to Consolidated Financial Statements in so far as it relates to the jointly controlled entity which is a company incorporated in India, is based on the corresponding unaudited and unsigned Financial Statements of such Company incorporated in India.

Note No. 1: Significant Accounting Policies 2021-22

A. **Corporate information**

North Eastern Electric Power Corporation Limited ("NEEPCO Ltd." / "the Company") is a leading power utility, primarily operating in the North-Eastern Region of India. NEEPCO Ltd, a Central Public Sector Enterprise (CPSE), is a wholly owned Subsidiary of NTPC Ltd and it is conferred with the Schedule A- Miniratna Category-I CPSE status by the Government of India. The address of the Company's registered office is Brookland Compound, Lower New Colony, Laitumkhrah, Shillong 793003, Meghalaya. Authorised Capital of the Company is ₹ 5000 crore. The Company has its 12 (twelve) generating stations, which are under operation [except Kopili (4 X 50 MW) power station is under shut down from the 07th of October 2019 due to rupturing of the penstock and presently under Reconstruction Renovation and Modernisation] with 8 (eight) hydro, 3 (three) thermal and 1(one) solar power generating stations. Present installed capacity of the company is 2057 MW.

NEEPCO Ltd has its debt (Bond XI issue to XXII issue) listed with Bombay Stock Exchange (BSE).

B. **Basis of preparation**

I. **Statement of Compliance**

The financial statements of the Company have been prepared in accordance with the relevant provisions of the Companies Act, 2013, Indian Accounting Standards (herein after referred to as "Ind-AS") as notified by the Ministry of Corporate Affairs pursuant to the section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and the provisions of the Electricity Act,2003 to the extent applicable.

The Company has adopted all the applicable Ind ASs and such adoption was carried out in accordance with Accounting Principles generally accepted in India as prescribe in section 133 of the Act, read with Rule 7 of the Companies (Accounting) Rules 2014,

II. **Basis of measurement**

The financial statements have been prepared on historical cost basis, except

- Certain financial instruments that are measured at fair value;
- Assets held for sale – measured at fair value less cost to sell;
- Plan assets of defined employees benefit plans;

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Income and Expenses are accounted for on Mercantile Basis, except otherwise stated and disclosed accordingly.

III. **Functional and presentation currency**

These financial statements are presented in Indian Rupee (INR), which is the Company's functional currency. All financial information presented in INR has been rounded off to the nearest Lakh (upto two decimals) for the Company, except as stated otherwise.

IV. **Current and Non-current classification**

All assets and liabilities have been classified as current or non-current as per Company's operating cycle and other criteria set out in Schedule-III of the Companies Act 2013. Based on the nature of business, the Company has ascertained its operating cycle as 12 months for the purpose of Current or noncurrent classification of assets and liabilities.

Deferred tax assets and Deferred tax liabilities are classified as non-current.

V. Use of estimates and management judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, disclosure of contingent assets and liabilities at the date of financial statements and reported amount of income and expenses during the period. Actual results may differ from those estimates.

Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised in the financial statements prospectively and if material, their effects are disclosed in the notes to the financial statements.

Key sources of estimation uncertainty at the reporting date, which may cause a material adjustment to the carrying amounts of assets and liabilities for future years are provided in Note-D.

VI. Investment in Joint Venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The investment in joint venture is carried at cost, which comprises of price paid to acquire investment and directly attributable cost, less Impairment, if any.

C. Summary of Significant Accounting Policies

Basis of Consolidation

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with Ind AS 105.

Under the equity method, an investment in a joint venture is initially recognised in the consolidated balance sheet at cost and adjusted thereafter to recognise the Group's share of the profit and loss of the joint venture. When the Group's share of losses of a joint venture exceeds the Group's interest in that joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture.

An investment in a joint venture is accounted for using the equity method from the date on which the investee becomes a joint venture. On acquisition of the investment in a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised directly in equity as capital reserve in the period in which the investment is acquired.

If there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the net investment in a joint venture (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows from the net investment that can be reliably estimated, then it is necessary to recognise impairment loss with respect to the Group's investment in a joint venture.

When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with Ind AS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value

in use and fair value less costs of disposal) with its carrying amount, Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with Ind AS 36 to the extent that the recoverable amount of the investment subsequently increases.

1. **Property, plant and equipment**

1.1 An item of PPE is recognized as an asset if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

1.2 Property, plant and equipment held for use in the production and transmission of power, or for administrative purposes, are stated in the balance sheet at cost, less accumulated depreciation/amortization and impairment loss, if any.

1.3 Auxiliaries which are not separately identifiable, but are common to more than one power generating unit are capitalised in the ratio of their respective installed capacity.

1.4 PPE are initially measured at cost of acquisition/construction including decommissioning or restoration cost, if any, wherever required. The cost includes expenditure that is directly attributable to the acquisition/construction of the asset. In cases where final settlement of bills with contractors is pending, but the asset is complete and ready for use, capitalization is done on provisional basis subject to necessary adjustments in the year of final settlement.

1.5 The expenditure incurred on start-up and commissioning of the project, including the expenditure incurred on trial/test runs and experimental production is capitalized as an indirect element of the construction cost. However, after commencement of commercial operation, the expenditure incurred is charged to Revenue expenditure, even if the contract stipulation provides for final taking over of the plant after successful commissioning of the plant.

1.6 Subsequent expenditure on major maintenance or repairs includes the cost of the replacement of parts of assets and major overhaul costs. Where an asset or part of an asset is replaced and it is probable that future economic benefits associated with the item will be available to the Company, the expenditure is capitalized and the carrying amount of the item replaced is derecognized. If it is not practicable to determine the carrying amount of the replaced part, the company uses the cost of the replacement as an indication of what the cost of replaced part was at the time it was acquired or constructed.Similarly, overhaul costs associated with major maintenance are capitalized.

1.7 Standby equipment and servicing equipment which meet the recognition criteria of Property, Plant and Equipment are capitalized.

1.8 Assets over which the Company has control, though created on land not belonging to the Company are included under Property, Plant and Equipment.

1.9 Payments made/ liabilities created provisionally towards compensation, rehabilitation and other expenses relatable to land in possession are treated as cost of land.

1.10 Spare parts procured along-with the Plant & Machinery as well as procured subsequently which meets the recognition criteria are capitalized. Other machinery spares are treated as "stores & spares" forming part of the inventory.

1.11 Cost of mobile handsets are recognised as revenue expenditure.

1.12 An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognized in profit & loss or IEDC, as the case may be.

2. **Capital work-in-progress**

2.1 Expenditure incurred on assets under construction is carried at cost under Capital work in Progress. Such costs comprises purchase price of asset including all taxes/duties and other costs that are directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

2.2 Cost directly attributable to projects under construction include costs of employee benefits, expenditure in relation to survey and investigation activities of the projects, cost of site preparation, initial delivery and handling charges, installation and assembly costs, professional fees, expenditure on maintenance and up-gradation etc. of common public facilities, depreciation on assets used in construction of project, interest during construction and other costs including administrative and general overhead costs, if attributable to construction of projects. Such costs are accumulated under "Capital works in progress" and subsequently allocated on systematic basis over major immovable assets. For projects under construction, the project specific IEDC is allocated to its qualifying assets at the time of capitalisation on the basis of Cost Estimate/Completion Cost of the project.

2.3 Capital expenditure incurred to create facilities, over which the Company does not have control and creation of which is essential for construction of the project is carried on under :Capital works in progress" and subsequently allocated on systematic basis over major immovable assets, other than land and infrastructure facilities on commissioning of projects.

2.4 Expenditure against "Deposit works" is accounted for on the basis of statement of accounts received the concerned agency and acceptance by the Company.

2.5 Common expenditure of a project, which is partially in operation and partially under construction, is being apportioned on the basis of the installed capacity.

2.6 Share of Corporate office and Guwahati office expenditures relating to construction activities are allocated/ apportioned to the projects under construction on the basis of accretion to CWIP.

2.7 In case of abandonment/suspension/discontinuation of project, the expenditure in relation to the same is expensed/charged off in the year of such decision.

3. **Intangible Assets**

3.1 An intangible asset is recognized if and only if it is probable that the expected future economic benefit that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably.

3.2 Intangible assets acquired separately are measured on initial recognition at cost. Such assets are capitalized when the assets are ready for its intended use. After initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

3.3 Computer software (not being an integral part of the related hardware) acquired for internal use, is stated at cost of acquisition less accumulated amortization and impairment losses, if any.

3.4 Land taken for use from State Government (without transfer of title) and expenses on relief and rehabilitation as also on creation of alternate facilities for land evacuees or in lieu of existing facilities coming under submergence and where construction of such alternate facilities is a specific pre-condition for the acquisition of the land for the purpose of the project, are accounted for under "Land-Right to use."

3.5 Intangible assets not ready for its intended use as on the date of balance-sheet are disclosed as "Intangible assets under development".

4. **Depreciation and amortization:**

Depreciation is charged as per Electricity Act, 2003 on straight line method following the rates and methodology notified by the Central Electricity Regulatory Commission constituted under the Act except the followings:

i. IT equipment (Personal Computers and Laptops including Peripherals) are depreciated in a period of three years.

ii. Computer software is amortised on straight-line method over a period of legal right to use or 03 (three) years, whichever is less. The amortisation period and the amortisation method of intangible assets with a finite useful life is reviewed at each financial year and adjusted prospectively, whereever required.

iii. "Land-right to use" is fully amortized over the period of useful life of the project, from its "Date of commercial operation".

iv. Leasehold Lands are amortised over the period of lease or useful life of the project, whichever is lower, from its "Date of commercial operation". Leasehold Land, in case of administrative offices, are amortised over the lease period.

v. Where the cost of depreciable assets has undergone a change due to increase/decrease in long term liabilities on account of exchange fluctuation, price adjustment, settlement of arbitration/court cases, changes in duties and similar factors, the unamortized balances of such assets is depreciated prospectively over the residual life of such asset at the rate and methodology notified by the CERC regulations.

vi. Cost of major repairing and overhauls are depreciated over their useful lives where it is probable that future economic benefits will be available.

vii. Spares parts procured along with the Plant & Machinery or subsequently which are capitalized and added in the carrying amount of such item are depreciated over the residual useful life of the related plant and machinery at the rates and methodology notified by CERC.

viii. Assets/procured installed, whose individual cost is ₹ 5000/- or less but more than ₹ 750/- (hereinafter is called Assets of minor value) and assets (excluding immovable assets) whose written down value is ₹ 5000/- or less at the beginning of the year are full depreciated during the year leaving a nominal balance of ₹ 1/- only.

ix. Low value items, which are in the nature of the assets (excluding immovable assets) and value up to ₹ 750/- are not capitalized and charged off to revenue during the year.

x. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale(or included in a disposal group that is classified as asset held for sale) in accordance with Ind AS 105 and the date that the asset is de-recognised.

xi. Depreciation of Corporate/Administrative office assets and general assets of projects under construction are charged following the rates notified vide CERC tariff regulations.

5. Impairment of assets

5.1 At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is indication that those assets may suffer an impairment loss. If any such indication exists, the recoverable amount (i.e., higher of its fair value less cost to sell and the value-in-use) is determined on individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

5.2 If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount and the difference between the carrying amount and recoverable amount is recognised as impairment loss in the statement of profit & loss.

5.3 Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exits. An impairment loss is reversed if there has been a change in the estimated recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised.

6. **Regulatory deferral accounts**

6.1 Expenses/income recognized in the Statement of Profit & Loss to the extent recoverable from or payable to the beneficiaries in subsequent period as per CERC tariff Regulations are recognized as "Regulatory Deferral Account Balances".

6.2 Regulatory deferral account balances are adjusted from the year in which the same become recoverable from or payable to the beneficiaries.

6.3 Regulatory Deferral Account Balances are evaluated at each Balance Sheet Date to ensure that the underlying activities meet the recognition criteria and it is probable that future economic benefits associated with such balances will flow to the entity. If it is no longer probable that future economic benefit associated with such balances will flow to the Company, such balances are de-recognized.

6.4 Regulatory deferral Account Balances are tested for impairment at each Balance sheet date.

7. **Foreign Currency Transaction**

7.1 Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates.

7.2 In preparing the financial statements transactions in currencies other than the entity's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date.

7.3 Exchange differences on foreign currency borrowings relating to Asset under Constructions for future productive use are included in the cost of those assets when they are regarded as an adjustment to interest cost on those foreign currency borrowings as per the requirements of Ind AS 23.

7.4 Exchange differences on monetary items are recognized in the statement of profit and loss/IEDC, as the case may be, in the period in which they arise.

7.5 Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising out on settlement or translation of monetary items are recognized in the profit or loss in the year in which it arises with the exception that exchange differences on long term monetary items related to acquisition of property, plant and equipment recognized up to 31-03-2016 are adjusted to the carrying cost of property, plant and equipment.

7.6 In accordance with the CERC tariff regulations, every generating company shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises, i.e., the Company can recover the foreign exchange rate variation on actual basis when foreign currency loan is repaid after commercial operation date (COD).

8. **Provisions, Contingent Liabilities and Contingent Assets**

8.1 Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable ("more likely than not") that it is required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

8.2 The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation.

8.3 If the effect of the time value of money is material, provision is determined by discounting the expected future cash flow using a current pre-tax rate that reflects the risk specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

8.4 Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company.

Contingent liabilities are not recognized but disclosed unless the possibilities of outflow of economic benefits are remote. Contingent liabilities are disclosed on the basis of judgment of management and are reviewed at each balance sheet date to reflect the current management estimate.

8.5 Contingent assets are possible assets that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefit is probable on the basis of judgment of management. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate. Contingent assets are disclosed in the financial statements when inflow of economic benefit is probable.

9. Leases

9.1 The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease.

9.2 Leases are classified as finance leases whenever the terms of the lease transfers substantially all the risks and rewards incidental to the ownership of an asset to the lessee. Such finance leases are generally capitalised at the lease's inception at the fair value of the leased property which equals the transaction price. All other leases are classified as operating leases.

9.3 In compliance to MCA notification, the Company has adopted Ind AS 116 "Leases" with effect from 01.04.2019 and applied to all lease contracts existing on 1 April 2019. Consequently, the Company recorded the lease liability at the present value of remaining lease payments discounted at the incremental borrowing rate applicable at the date of initial application and the right of use assets at its carrying amount, discounted at the Company's incremental borrowing rate at the date of initial application.

10. Inventories

10.1 Inventories mainly comprise of stores and spare parts to be used for operation and maintenance of Property, Plant and Equipment.

10.2 Inventories are valued at costs or net realizable value (NRV), whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average cost formula and NRV is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

10.3 Value of scrap is adjusted in the account as & when sold/disposed-off and profit/loss, if any, is recognized in accounts in the year of sell/disposal.

11. Trade receivable

11.1 Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If collection is expected to be made within a period of 12 months or less from the reporting date, they are classified as current assets otherwise as non-current assets. Trade receivables are measured at their transaction price.

11.2 As the entire sales are made to State Govt. utilities as well as power trading companies, the Company is not providing for allowance for expected credit loss.

11.3 Trade Receivable represents the Company's right to an amount of Consideration that is unconditional (i.e. only the passage of time is required before payment of the Consideration is due)

12. Financial Instruments

12.1 Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction cost that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and

financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liabilities.

12.2 Other Financial Assets (Contract Assets)

Accounts Receivables is the right to consideration in exchange for goods or services, transferred to the Customer. If the Company performs by transferring the goods or services to a Customer before the Customer pays consideration or payment is due, Accounts Receivables (in the nature of Contract Asset) is recognised for the Earned Consideration that is conditional.

Financial assets comprises of investments in joint venture, advances to employees, trade receivables, cash and cash equivalents, claims recoverable, security deposits etc.

i. **Cash or Cash Equivalents:**

The Company considers all short term Bank deposits, which are readily convertible in to known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consists of balances with banks which are unrestricted for withdrawal and usage in the balance sheet, bank overdrafts are shown within borrowings in current liabilities.

ii. **Financial assets at amortized cost:**

Financial assets which are initially measured at cost are subsequently measured at amortized costs if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii. **Financial assets at Fair value through Other Comprehensive Income (OCI)**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual term of the financial assets give rise on specified days to cash flows that are solely payment of principals and the interest on principal amount outstanding.

iv. **Financial assets at Fair value through Profit or loss**

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive item on initial recognition. The transaction cost directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in the statement of profit or loss.

v. **Derecognition of financial assets**

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

vi. **Impairment of financial assets**

At each reporting date, the Company assess whether the credit risk on a financial instrument has increased significantly since initial recognition

If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. If, the credit risk on that financial instrument has increased significantly since initial recognition, the Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognized as an impairment gain or loss in the statement of profit and loss.

12.3 Financial liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company. The Company's financial liabilities includes loan & borrowings, trade and other payable etc.

i. The financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method.

ii. **De-recognition of financial liability**

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

13. Borrowing cost

13.1 Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition, construction/development or erection of qualifying assets are capitalised to the cost of those assets, until such time substantially all the activities necessary to prepare the qualifying assets for their intended use are completed.

13.2 Investment income earned on the temporary investment of specific borrowings pending their expenditure on related qualifying assets is deducted from the borrowing costs eligible for capitalization.

13.3 All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred. Borrowing cost includes exchange differences on foreign currency borrowings are adjusted to interest cost.

13.4 Prepayment charges on repayment of loan in full will be charged off to the IEDC / Profit & Loss account, as applicable, in the year of repayment itself.

14. Government grants

14.1 Government grants are recognized when there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants has actually been received.

14.2 The benefits of a government loan at a below market rate of interest is also treated as Government Grant. The loan is initially recognised and measured at fair value and the government grant is measured as the difference between the initially recognized amount of the loan and the fair value of the loan based on prevailing market interest rates.

14.3 Government grants are recognised in the statement of profit and loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognized in the balance sheet by setting up the grant as deferred income.

14.4 Other government grants (grants related to income) are recognized as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis. Grants related to income are presented under other income in the statement of profit and loss.

15. Employee Benefits

15.1 Employee benefits consist of provident fund, pension, gratuity, post-retirement medical benefit (PRMB), leave benefits and other terminal benefits.

15.2 Company's contribution paid/payable during the year to Employees Defined Contribution Superannuation Scheme

for providing Pension benefit, Provident Fund and Gratuity are accounted for and paid to respective funds which are administered through separate trusts. The Company's liability is actuarially determined for Gratuity, Leave encashment and PMRB at the Balance Sheet date and any further accretion during the year for Gratuity is provided for and that for Leave encashment and PMRB are charged to IEDC or profit & loss, as the case may be.

15.3 When the benefit of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expenses is recognized immediately in statement of profit and loss.

15.4 Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under performance related pay if the company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

15.5 The expenses incurred on terminal benefits in the form of ex-gratia payments are charged to IEDC or profit & loss, as the case may be in the year of incurrence of such expenses.

16. Income Taxes

Tax expense represents the sum of current tax and deferred tax.

16.1 Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current income tax charge is calculated by using tax rates that have been enacted or substantively enacted by the end of the reporting period.

16.2 Deferred tax

- Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Tax relating to items recognized directly in other comprehensive income forms part of the statement of comprehensive income.
- Deferred tax is provided, using the balance sheet method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.
- The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered

Deferred Tax Assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which likely to give future economic benefits in the form of set off against future income tax liability. MAT is recognized as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

- Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

17. Revenue

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Revenues are reduced for rebates and other similar allowances.

North Eastern Electric Power Co. New Delhi

17.1 Revenue from Operations

a) Revenue from Sale of Power

i. Revenue is recognised on transfer of control over the products or services to a Customer, based on the consideration that is specified in a contract with a customer or is expected to be received in exchange for the products or services and excludes amounts collected on behalf of third parties.

ii. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue".

iii. The incentives/disincentives are recognized based on norms notified by the Central Electricity Regulatory Commission.

iv. Deferred tax liabilities till March, 2009, whenever materializes and recoverable from the beneficiaries as per the CERC tariff regulations, are accounted for on year to year basis

v. Exchange difference on account of translation of foreign currency borrowings recognized upto 31st March 2016, to the extent recoverable from or payable to the beneficiaries in subsequent periods as per the CERC Tariff Regulatons are accounted as "Deferred foreign currency fluctuation asset" with corresponding credit to "Deferred income from foreign currency fluctuation". Deferred income from foreign currency fluctuation account is amortized in the proportion in which depreciation is charged on such exchange differences and same is adjusted against depreciation expense.

vi. Rebate allowed to beneficiaries for timely payments are netted off with the the revenue from operation on account of Sale of energy

b) Revenue from DSM, RRAS and NERLDC Fees

i. Revenue from DSM is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Deviation Settlement Mechanism) Regulations 2014 and amendments thereto.

ii. Revenue from RRAS is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Ancillary Services Operations) Regulations 2015 and amendments thereto.

iii. NERLDC Fees and charges are recognised as revenue as claimed on Beneficairies for reimbursement, governed by CERC (Terms & Conditions of Tariff) Regulations 2019 and amendments thereto.

17.2 Other Income

i. Dividend income from investments are recognized when the right to receive the dividend is established.

ii. Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iii. Insurance claims for loss of profit are accounted for in the year of acceptance. Other insurance claims are accounted for based on certainty of realisation.

iv. Interest/Surcharge on late payment /overdue trade receivables for sale of energy is recognized when no significant uncertainty as to measurability or collectability exists.

18 Material prior period error

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

19 Earnings Per Share

19.1 Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, if any, other than the conversion of potential equity shares, if any that have changed the number of equity shares outstanding, without a corresponding change in resources.

19.2 For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

20 Miscellaneous

20.1 Each material class of similar items is presented separately in the financial statements. Items of a dissimilar nature or function are presented separately unless they are immaterial.

20.2 Liabilities for pending Capital works executed but not certified are not provided for , pending acceptance by the Company.

20.3 Physical verification of Fixed Assets and Inventories are undertaken by the management once in a year. The discrepancies noticed, if any, are accounted for in the year in which such differences are found.

Critical accounting judgements and key sources of estimation uncertainity

In the application of the Company's accounting policies, which are described in Note-B, the management of the Company is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised.

Critical judgements in applying accounting policies:

The following are the critical judgements, apart from those involving estimations (see point ii below), that the management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements

i. **Financial assets at amortized cost**

The management has reviewed the Company's financial assets at amortized cost in the light of its business model and have confirmed the Company's positive intention and ability to hold these financial assets to collect contractual cash flows.

ii. **Key sources of estimation uncertainty:**

The following are the key assumptions concerning the future, and other key sources of estimation of uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year

a. **Impairment of investments**

The Company reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

b. **Provisions**

Provisions (excluding retirement benefits, leave encashment and Gold Coin) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates.

c. **Assets held for sale**

Significant judgement is required to apply the accounting of non-current assets held for sale under Ind AS 105 - 'Noncurrent assets held for sale and discontinued operations'. In assessing the applicability, management has exercised judgment to evaluate the availability of the asset for immediate sale, management's commitment for the sale and probability of sale within one year to conclude if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

d. **Contingent liabilities**

Contingent liabilities arising from past events, the existence of which would be confirmed only on occurrence or non-occurrence of one or more future uncertain events, not wholly within the control of the Company or contingent liabilities where there is a present obligations but it is not probable that economic benefits would be required to settle the obligations are disclosed in the financial statements unless the possibility of any outflow in settlement is remote

d. **Fair value measurements and valuation processes:**

For financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(i) NEEPCO is in the business of generation and sale of electricity. Electricity generated by various power plants of the Company are sold to various beneficiaries under long-term power purchase agreements. Tariffs for the generating stations are determined by the Central Electricity Regulatory Commission (CERC) in compliances to the CERC Tariff Regulations issued time to time on "Cost plus basis". Considering the CERC determined tariff for billing on NEEPCO's beneficiaries, as well as prevailing power market in India and Plant performances of the generating stations, it is expected that sufficient taxable profit will be available to the Company in future years.

In compliance to the Ind AS 12 - Taxes, the Company has recognised Deferred Tax Asset (DTA) amounting to ₹ 30,546.32 lakhs upto the year ended 31.03.2021 in respect of "Unabsorbed depreciation" with convincing evidence that sufficient future taxable income will be available against which such DTA can be realized. With further accrual amounting to ₹ 11,994.67 lakh during the FY 2021-22, DTA in respecte of "Unabsobed depreciation" as on 31.03.2022 stands at ₹ 42,540.99 lakh.

(ii) MAT credit available for the Company as on 31.03.2022 amounts to ₹ 11745.65 lakhs, being the amount as per computation of tax credit under Sec 115 JAA.

(iii) * Others includes deferred tax assets created on provision for Post Retirement Medical Benefit (PRMB) & award of Gold Coin to superannuated employees.

(iv) Refer note no 48 for detailed disclosure.

Note No. 10: Trade receivables

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Trade Receivables considered good - Secured		
Trade Receivables considered good - Unsecured	48,776.49	76,911.76
Trade Receivables which have significant increase in credit risk		
Trade Receivables - credit impaired		
Allowance for doubtful debts		
TOTAL	**48,776.49**	**76,911.76**

(i) Trade receivables are dues in respect of goods sold or services rendered in the normal course of business.

(ii) Where no due date is specifically agreed upon, the normal credit period allowed by the Company is in compliance to the CERC regulations / Guidance.

(iii) Where a trade receivable has been provided for, such provision could be dictated by prudence, but one could still expect to realise the amount within 12 months from the balance sheet date. Under such circumstances, the said trade receivable is classified as current. Where, however, there is no expectation to realise the amount within the next twelve months period, the same needs to be classified as non-current along with the provision made for the same.

(iv) Debt due from related parties is NIL (Previous year : NIL)

(ii) Undisputed Trade Receivables – which have significant increase in credit risk								-
(iii) Undisputed Trade Receivables – credit Impaired								-
(iv) Disputed Trade Receivables– considered good					9,936.50	431.94		10,368.44
(v) Disputed Trade Receivables – which have significant increase in credit risk								-
(vi) Disputed Trade Receivables – credit Impaired								-
Total	**19,201.03**	**25,205.96**	**6,319.26**	**65.92**	**12,382.55**	**13,737.03**	**-**	**76,911.76**

(I) Notes on Disputed Trade Receivable:

(1) Disputed trade receivables includes (i) ₹ 431.94 lakh against claim for reimbursement on account of Effective Tax Rate; (ii) ₹ 1399.45 lakh against claim for reimbursement of Foreign Exchange Rate Variation (FERV) for 2015-16 to 2018-19; (iii) ₹ 5799.78 lakh against arrear bills arising out of determination of tariff of TGBP by CERC for 2017-18 & 2018-19; (iv) ₹ 2737.27 lakh against bills for GTG unit during 2015-16 & 2016-17 prior to COD of STG unit.

(2) TSECL has appealed against the above mentioned bills amounting to ₹ 10368.44 before APTEL. The petition has been taken up by APTEL and included in the "List of Finals" to be taken up for hearing in its turn. There are sufficient legal/regulatory grounds as indicated by legal experts to infer that TSECL's petition will be turned down and judgement delivered in NEEPCO's favour by APTEL. Though vide the order dated 01st April 2022, Hon'ble APTEL has directed NEEPCO not to take any precipitative action against TSECL for payment of the dues during pendency of the appeal, however, Ministry of Power (Govt. of India) has initiated action for liquidation of the dues invoking provisions of the Tripartite Agreement (TPA) & the process is continuing.

(3) TSECL has offered out-of-court settlement of the above mentioned dispute regarding bills for ₹ 10368.44 lakhs, which has not been accepted by NEEPCO as the offer entailed sharing the disputed amount on a 50 - 50 basis. Meanwhile, based on NEEPCO's request, the Government of India has served noticed on the Government of Tripura with regard to invocation of the payment security clause of the Tripartite Agreement between GoI, RBI and Govt. of Tripura which enables the GoI to divert fund from the state's account maintained with RBI to liquidate the dues payable to NEEPCO by TSECL, including Late Payment Surcharge on the dues. The payment has been deferred till decisuon on the matter, which is expected shortly.

(4) With consideration of the above, disputed trade receivable amounting to ₹ 10368.44 lakhs has been considered good and no provision has been provided in books since there is no significent credit risk. Further, the realisation of the aforesaid amount is expected within a period of 12 months from the Balance Sheet date.

(i) Notes on Unbilled Revenue

Unbilled revenue as on 31.03.2022 amounting to ₹ 24930.37 lakhs includes energy bills ₹ 16366.20 lakhs, trading of merchant power ₹ 6979.94 lakhs, FERV ₹ 1477.53 lakhs, NERLDC fees & charges ₹ 39.79 lakhs, open cycle (AGBPS) billing ₹ 0.75 lakhs & LPS ₹ 66.16 lakhs.

Change in trade receivables

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Opening Balance	76,911.76	66,226.10
Add:: Net Revenue Recognised but not realised during the year	(28,135.27)	10,685.66
Closing Balance	48,776.49	76,911.76

(ii) Trade receivables are further analysed as :

(₹ in lakhs)

As at March 31, 2022	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	33,536.25	-	33,536.25
More than 45 days upto six months	3,466.93	-	3,466.93
More than six months	11,773.31	-	11,773.31
TOTAL	**48,776.49**	**-**	**48,776.49**

(₹ in lakhs)

As at March 31, 2021	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	44,406.99	-	44,406.99
More than 45 days upto six months	6,319.26	-	6,319.26
More than six months	26,185.50	-	26,185.50
TOTAL	**76,911.76**	**-**	**76,911.76**

The Company considers its maximum exposure to credit risk with respect to customers as at March 31, 2022 to be ₹48776.49 lakhs (March 31, 2021: ₹ 76911.76 lakhs), which is the fair value of trade receivables after allowance for credit losses. The Company's exposure to customers is diversified and except TSECL (Tripura) & P&E Mizoram, no other customer contributes to more than 10% of outstanding dues (i.e. more than 45 days) accounts receivable as at March 31, 2022.

Movement in allowance for credit losses in respect of trade receivables:

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Balance at the beginning of the period	-	-
Additions during the period	-	-
Utilised during the period	-	-
Balance at the end of the period	-	-

In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix.

Movement during the year/period		
Balance at the end of the year/period	**65,054.17**	**65,054.17**

North Eastern Electric Power Corporation New Delhi

The nature of reserves are follows:

(a) General Reserve :- Under the erstwhile companies Act 1956, a general reserve was created through an annual transfer of net profit at a specified percentage in accordance with applicable regulations. Consequent to the introduction of Companies Act 2013, the requirement to mandatory transfer a specified percentage of net profit to general reserve has been withdrawn.

(b) Bond redemption reserve:- In terms of the applicable provisions of the Companies Act 2013, read with Companies (Share Capital and Debenture) Rules, 2014, the Company should comply with the requirements with regard to Bond/Debenture Redemption Reserve. The adequacy of Bond/Debenture Redemption Reserve is required to be ten percent of the value of the outstanding debentures. As on 31.03.2022, the Company has maintained a Bond Redemption Reserve of ₹ 65054.17 lakh, which is adequate for the purpose. Hence, the Company has not created any further Bond Redemption Reserve during the year.

Total Borrowings	**718,899.93**	**755,433.34**

Note:

a. The company has utilised its borrowed fund for the specific purpose only as per the terms & conditions of loan agreement(s).

b. The quarterly returns or statements of current assets filed by the Company with banks or financial institutions are in agreement with the books of accounts.

Financial Liabilities

Note No. 19 A Non current financial liabilities - Lease liabilities *(₹ in lakhs)*

Particulars	As at 31st March, 2022	As at 31st March, 2021
Lease Liability - Asset under Lease	1011.83	790.45
Less: Current maturities of lease liabilities	573.64	522.66
Total	**438.19**	**267.79**

Note No. 20: Long Term Provisions

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Medical benefit for retired employees	1,607.45	1,070.55
Other retirement benefits	274.41	279.04
Total	**1,881.86**	**1,349.59**

The provision for employee benefits includes gratuity, Leave Encashment, Post retirement medical benefit, Gold Coin at retirement. The increase/ decrease in the carrying amount of the provision for the current year is mainly on account of net impact of incremental charge for current year and benefits paid in the current year.

1. Defined Contribution Plan

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) Provident fund

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary.Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the period was ₹ 3414.12 lakhs (previous period ₹ 3351.80 lakhs).The investment has earned sufficient interest to pay the same to the member as per the rate specified by the Government of India.

b) Superannuation fund

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt.of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC) / GL-xiv/08 dt.26.11.2008 and OM. No. 2(70)/08-DPE (WC) / GL-vii/09 dt.02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme. The Companies contribution to the trust managing this scheme for the year was ₹ 2404.67 lakhs (previous year ₹ 2324.90 lakhs).

2. Defined benefit plans

a. Post –Retirement Medical Benefit scheme

The Company has a Contributory Scheme for Post –Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired /deceased employee and spouse of retiree/deceased are provided medical facilities on contributory basis which is as follows:

Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized / approved hospital.

For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests, examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less. The liability for the same is recognized on the basis of actuarial valuation.

b. Other retirement benefit on Superannuation

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. **Other Employee benefit**

Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

Note No. 25: Short Term Provisions

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Employee benefits		
Gratuity	1,045.58	1,529.85
Medical benefit for retired employees	693.90	441.98
Leave encashment	13,855.16	14,761.47
Other retirement benefits	12.36	9.14
Total	**15,607.00**	**16,742.44**

The provision for employee benefits includes gratuity, Leave Encashment, Post retirement medical benefit, Gold Coin at retirement. The increase/ decrease in the carrying amount of the provision for the current year is mainly on account of net impact of incremental charge for current year and benefits paid in the current year.

1. Defined Contribution Plan

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) Provident fund

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary.Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the year was ₹ 3414.12 lakhs (previous year ₹ 3351.80 lakhs).The investment has earned sufficient interest to pay the same to the member as per the rate specified by the Government of India.

b) Superannuation fund

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt.of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC) / GL-xiv/08 dt.26.11.2008 and OM. No. 2(70)/08-DPE (WC) / GL-vii/09 dt.02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme. The Companies contribution to the trust managing this scheme for the year was ₹ 2540.24 lakhs (previous year ₹ 2324.90 lakhs).

2. Defined benefit plans

a. Retiring gratuity

The Company has a defined benefit gratuity plan. Every employee who has rendered continuous service of five years or more is entitled to get gratuity at 15 days salary (15/26 x last drawn basic salary plus dearness allowance) for each completed year

of service subject to a maximum of ₹ 20.00 lakhs, on superannuation, resignation, termination, disablement or on death. The liability for the same is recognized on the basis of actuarial valuation.

The Board of Directors in their meeting held on 01.04.2013 has approved the creation of Gratuity Fund Trust vide its Resolution No.195/16 dt.1.4.2013 in order to meet the requirement of funds for payment of Gratuity to the employees separated from the services of the Corporation. Accordingly NEEPCO Employees Group Gratuity Assurance Fund Trust has been constituted on 25th June'2013 and a Master Policy, named as North Eastern Electric Power Corporation Ltd Employees Group Gratuity – cum- Life Assurance (cash accumulation) Scheme, has been taken from the Life Insurance Corporation of India on 5th August 2013.

Transactions with LICI during FY 2021-22 for assessing fund balance as on 31.03.2022 are as per books of NEEPCO.

Details of Funded Assets with LIC

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Opening Balance	18171.16	18567.96
Transactions during the year (Net Debit)	863.94	1522.59
Interest earned during the year (Net Credit)	1336.32	1125.79
Closing Balance	18643.54	18171.16

b. Post –Retirement Medical Benefit scheme

The Company has a Contributory Scheme for Post –Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired /deceased employee and spouse of retiree/deceased are provided medical facilities on contributory basis which is as follows:

Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized / approved hospital.

For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests , examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less.. The liability for the same is recognized on the basis of actuarial valuation.

c. Other retirement benefit on Superannuation

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. Other Employee benefit

a. Leave

The Company provides for earned leave benefits (including compensatory absences) and half pay leave to the employees of the Company which accrue annually at 30 days and 20 days respectively. Earned leave account is maintained in one section only i.e. en-cashable. On Superannuation/ separation of the employee from the Corporation, entire leave (Earned leave & Maximum 240 days Half Pay Leave) subject to a ceiling of 300 days will be en-cashable. Half pay leave cannot be commuted. The cash equivalent payable for Half Pay Leave would be equal to leave salary as admissible for half pay plus Dearness Allowance.The liability for the same is recognized on the basis of actuarial valuation. During the current financial year, restriction on leave encashment facilities of the employees of NEEPCO has been withdrawn. An amount of ₹ 4221.41 lakhs has been paid to the employees as leave encashment during the year.

b. Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

Note on Government Grant (Ind AS 20)

NEEPCO's approved Accounting Policy includes policy of recognition and accounting of "Government grant" (para 14 of note 1 –Summary of Significant Accounting Policies).

Govt. of India has approved a Sub-ordinate loan amounting to ₹ 29196.42 Lakh to NEEPCO for implementation of Tuirial HEP with interest @1% per annum payable from the "Date of Commercial Operation" of the project. Of the aforesaid loan amount, NEEPCO has received ₹ 29096.42 lakh till 31.03.2015 and the balance ₹ 100.00 lakh has been received during the FY 2015-16. The loan amount (₹ 29096.42 lakh) received till 31.03.2015 has been recognized in books of NEEPCO as on 01.04.2015 (Ind AS Transition date) at its carrying value in compliance to the Ind AS 101 (Exception to the retrospective application). However, for the loan amount (₹ 100.00 lakh) received during the FY 2015-16, the benefit of the loan due to below market rate of interest (considered SBI base rate @9.70% effective as on Jun'15) amounting to ₹ 82.64 lakh has been treated as a govt. grant and recognized in the Books of NEEPCO accordingly.

Spares out of Grant in Aid

Total value of spares purchased out of "Grant in aid" received from the Central Govt. amounts to ₹ 3659.53 lakh and accordingly, recognized in books of Assam Gas Based. During the current period, repairs & maintenance has been debited and Stock of Spares under "Grant in aid" has been credited by an amount of ₹ 13.96 lakhs (Previous year ₹ 26.72 lakhs). An equivalent amount has been recognized as income in the statement of Profit & Loss during the year.

Grant from Ministry of Development of North Eastern Region

As per the Investment Approval sanctioned vide the Ministry of Power's letter no.7/7/2009-H-I dated 14th January'2011, an amount of ₹ 30000.00 lakh has been sanctioned by the Ministry of Development of North Eastern Region (MDONER) as a part of the approved funding pattern for the Tuirial Hydro Electric Project, Mizoram. The total amount of ₹ 300.00 crores are included in Grant in Aid which is subjected to amortisation during normative useful life of the project since its commissioning. Amount amortized during the FY 2021-22 amounts ₹ 1584.00 lakhs (Previous year ₹ 1584.00 lakhs). An equivalent amount has been recognized as income in the statement of Profit & Loss during the year.

Note No. 27: Revenue from Operations

(₹ in lakhs)

Particulars	For the year ended 31-Mar-22	For the year ended 31-Mar-21
Sale of Energy	241,233.75	196,172.98
Sale of Energy through trading	64,842.06	23,539.49
Electricity Duty	-	1,564.69
Revenue from DSM	2,278.42	2,819.97
Revenue from RRAS	256.87	892.46
Others ::		
FERV (Net) from the beneficairies	405.38	1,547.99
NERLDC Fees & Other Charges from the beneficiaries	474.78	319.56
Sale of Electricity (Net)	**309,491.26**	**226,857.14**
Other operating Revenue ::		
Interest from the beneficiaries	9,595.11	341.56
Recognition from deferred revenue - Govt. grant	1,597.96	1,610.72
Net Revenue from Operation	**320,684.33**	**228,809.42**

a. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue".

b. Sale of energy includes ₹ 10279.34 lakhs (previous year ₹ 6903.18 lakh) being the revenue for the year recognised based on Annual Fixed Cost as per petition submitted to CERC pending issue of orders.

c. Sale includes ₹ 11221.72 lakhs (Previous year ₹ 576.68) on account of earlier years sales arising out of finalization of tariff in current year.

d. In terms of regulation. 67 of the CERC (Terms and conditions of Tariff) Regulations,2019, deferred tax liabilities for the period upto 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees or from the beneficiaries or long term transmission customers/DICs, as the case may be. Accordingly, sales for the year ended 31.03.2022 inludes ₹1310.82 lakhs (including ₹ 98.43 lakhs relating to the financial year 2020-21). Deferred Tax materialisation recognised during the F.Y. 2020-21 amounts to ₹ 1319.85 lakhs.

e. During the year ended 31.03.2022, NEEPCO recognized revenue amounting to ₹11221.71 lakh as "Sale of energy" and ₹9590.34 lakhs as "Interest from the beneficiaries" on account of truing up tariff orders for the control period 2014-19 and tariff order for 2019-24 (for AGBPS) issued by the CERC. The said revenue under "Sale of energy" includes RHPS (₹ 10175.00 lakhs), TgGBPS (₹ 3739.31 lakhs), DHPS (₹723.08 lakhs). KHPS II (₹280.99 lakhs) and AGBPS (- ₹ 3696.67 lakhs). Further, "Interest from beneficiaries" includes RHPS (₹ 7099.03 lakhs), TgGBPS (₹ 844.71 lakhs), DHPS (₹ 829.08 lakhs), KHPS II (₹184.14 lakhs) and AGBPS (₹ 633.38 lakhs). In addition, provisional revenue recognized in Books of NEEPCO during the year ended 31.03.2022 as per the Company's Accounting Policy in case of power stations where final tariff for the control period 2019-24 is yet to be approved by CERC amounts to ₹ 10279.34 lakhs.

f. DSM and RRAS is accounted upto the period of the financial year 2021-22, as per the weekly statements issued by the NERPC.

g. On commissioning of the Kameng HEP (600 MW) during the current financial year, merchant power (347 MW) generated by the aforesaid plant has been sold/traded through NTPC Vidyut Vyapar Nigam Ltd (NVVN) under bi-lateral agreement as well as on "Day ahead" and "Real time" markets. Further, NEEPCO has traded available power under "Un-requisitioned surplus (URS)" for its power plants on "Day ahead" and "Real time" markets.

Commitments :		
Estimated amount of contracts remaining to be executed on capital contracts and not provided for (net of advances and deposits)	-	-
Property, Plant & Equipment	16,030.42	32,640.30

(i) Claims against the company not acknowledged as debts as on March 31,2022 include demand from the Income tax authorities for payment of tax of ₹ 46889.39 lakhs upon completion of their tax assessment for the A.Y. 2012-13 amounting to₹ 3821.34 lakhs , A.Y. 2013-14 amounting to ₹ 2142.98 lakhs ,A.Y. 2014-15 amounting to ₹ 10872.61 lakhs, A.Y. 2015-16 amounting to ₹ 11381.61 lakh, A.Y. 2016-17 amounting to ₹ 9112.52 lakh,A.Y. 2018-19 amounting to ₹ 2891.40 lakh, Probable tax liability relating to DPS pending before High Court,Meghalaya and ITAT amounting to ₹ 6659.73 lakh and demand from Customs, Excise and Service Tax Appellate Tribunal (CESTAT) for payment of ₹ 7.20 lakhs in respect of Service Tax.

(ii) There are few cases pending before the Arbitration Tribunal / Courts, for which amount of claims are yet to be ascertained.

(iii) The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process.The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

(iv) The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition.

Note No. 37: Movement in Regulatory Deferral Accounts Balances

Nature of Rate Regulated Activities

The company is primarily engaged in the business of generation and sale of electricity. The tariff based on which the Company bill to its beneficiaries for electricity sold to them is determined by the Central Electricity Regulatory Commission (CERC) in compliance to the CERC (Terms and Conditions of Tariff) Regulations, as applicable from time to time. The said regulations allow the Company to recover its costs for providing the goods or services plus a fair return.

Recognition and measurement

- During determination of Annual Fixed Cost (AFC) of the Tuirial Hydro Electric Project (TrHEP) of North Eastern Electric Power Corporation Ltd (NEEPCO) for the control period of 2019-2024 by the Central Electricity Regulatory Commission (CERC), order for which issued on 16.04.2021, the Hon'ble Commission has allowed depreciation @2% based on the petition submitted by NEEPCO for the said purposes in line with the decision of the Public Investment Board (PIB) of the Govt. of India during meeting dated 04.06.2010 held for considering RCE of the project (TrHEP).
- The rates and methodology as per the CERC tariff regulations based on which depreciation for TrHEP has been calculated and charged to the Statement of Profit & Loss of NEEPCO for the period under consideration vary from that allowed to recover through tariff as per the CERC order. Due to higher rate of depreciation as per the CERC regulations, depreciation charged to the Statement of Profit & loss Account for the first 12 (twelve) years of operation TrHEP since its Date of Commercial Operation (COD) will be more than that of the depreciation recoverable through tariff, which will be reversed in future periods during remaining period of normative life of the generating station. Accordingly, the lower depreciation realized as "Revenue" for the generating station during the earlier period of its operation will be recovered/adjusted during later period.
- In view of above, the difference of depreciation to the extent recoverable/adjustable in future period has been recognized on an undiscounted basis as "Regulatory deferral account debit/credit balances" by credit/debit to the "Movement of Regulatory Deferral Account Balances".
- "Regulatory deferral account debit balances" recognized on account of the above during the year ended 31.03.2022 is as follows:

Particulars	Amount (₹ in lakhs)
Depreciation as per CERC Schedule of rates	6,896.52
Depreciation @2% as allowed by CERC vide the tariff order dated 09.10.2018	2,778.88
Difference (Recognized as "Regulatory Deferral balances")	4,117.64

Regulatory Deferral Account balances in respect of Employees benefits expenses for Gratuity:

Ministry of Labour and Employment vide their Gazette notification dated the 29th March 2018 has notified the Payment of Gratuity (Amendment) Act, 2018 (12 of 2018) and thus has increased the limit of gratuity upto ₹20 (Twenty) lakh from the existing ₹10 (Ten) lakh. Regulation 8 (3) of the CERC (Terms and conditions of Tariff) Regulations 2014 provides that "The Commission shall carry out truing up of tariff of generating station based on the performance of following Uncontrollable Parameters:

i) Force Majeure;, ii) Change in Law; and iii) Primary Fuel Cost.

The increase in gratuity expenses due to enhancement of limit upto ₹20.00 lakh as per the Payment of Gratuity (Amendment) Act, 2018 falls under the category of "Change in law",

Accordingly, an amount of ₹ 4793.47 lakh to the extent expected as recoverable from the beneficiaries in subsequent period as per CERC Tariff Regulations have been recognized as "Regulatory Deferral Account Balances" as on 31.03.2022 in books of NEEPCO. No movement on the aforesaid balances have occured during the Financial Year ended 31.03.2022."

Regulatory Deferral Accounts Balances in respect of deferred adjustment on Deferred Tax Liabilities for projects under operation:

NEEPCO has long term Power Purchase Agreement (PPA) with the States of the North Eastern Region (referred to as the 'Beneficiaries') for selling electricity generated from its generating stations in operations. Tariff for generating stations of NEEPCO are determined by the Central Electricity Regulatory Commission (CERC) in compliance to their notified tariff regulations issued from time to time. As per the CERC Tariff Regulations 2019, ROE is grossed up with effective tax rate as applicable for the respective financial year. Accordingly, deferred tax accrued during the year on income generated from sale of electricity and further adjustable/reversal in future periods when the related deferred tax liability will form a part of current tax & recoverable from the beneficiaries has been accounted as "Deferred tax adjustment against deferred tax liability", which has been recognized as "Regulatory income" and presented as a movement in "Regulatory Deferral Accounts Balance" as a separate line item in compliance to the relevant provisions of Ind AS 114.

Regulatory Deferral Account balances due to reclassification of deferred tax recoverable from beneficiaries

As per Regulation 67 of the CERC (Terms and Conditions of Tariff Regulations) 2019, Deferred tax liabilities for the period upto 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees from the then beneficiaries or long term customers, as the case may be. Till 31st March, 2019 the deferred tax recoverable from beneficiaries in future years was presented as an adjustment to deferred tax liability and was not recognised as "Regulatory Deferral Accounts balances". The same has been reviewed during the FY 2021-22 in line with Ind AS 114 and has been reclassified as Regulatory Deferral Account balance. The regulated assets (+)/liability (-) recognized in the books to be recovered from or payable to beneficiaries in future periods are as follows:

(₹ in lakhs)

Sl. No.	Particulars	Regulatory Deferral Account Balances
A	Opening balance as on 01.04.2021	39,934.78
B	Addition during the Financial Year ended 31.03.2022 (assets (+)/ liability (-)	-
C	Amount collected (-)/refunded (+) during the period	(1,310.82)
D	Regulatory income/(expense) recognized in the Statement of Profit and Loss (B-C)	(1,310.82)
E	Closing balance as on 31.03.2022 (A+D)	38,623.96

Regulatory Deferral Account balances in respect of exchange differences on Foreign Currency Monetary items

Para 28 of the Ind AS 21-"The Effects of Changes in Foreign Exchange Rates" provides that exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognised in profit or loss in the period in which they arise. Further, para D13 AA of the Ind AS 101 – "First-time Adoption of Indian Accounting Standards" provides for a first-time adopter may continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP. Accordingly, for periods beginning on or after 01.04.2016, all exchange differences arising on translation/ settlement of monetary items other than exchange difference on borrowings to the extent treated as an adjustment to interest cost during construction period are to be charged to the Statement of Profit and Loss. Regulation 69 of of the CERC (Terms and Conditions of Tariff) regulations provides that every generating company and the transmission licensee shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises.

Regulatory deferral accounts debit balance - Note 15 recognized :

The regulatory assets recognized in the books to be recovered from the beneficiaries in future periods are as follows:

(₹ in lakhs)

Particulars	As at 31st March 2022	As at 31st March 2021
A. Opening Balance	84,384.08	79,861.53
B. Movements during the year due to (i) Turial Depreciation ₹ 4117.64 lakhs (ii) Deferred Tax Adjustment against Deferred Tax Liability ₹ 5153.65 lakhs (iii) Deferred Tax Recoverable ₹ (1310.82) Lakhs	7,960.47	4,522.55
C. Amount Collected / refunded during the year	-	-
D. Regulatory Deferral Account Balances recognized in the Statement of Profit & Loss (B-C)	7,960.47	4,522.55
E. Closing Balance (A+D)	92,344.55	84,384.08
F) Net movements in regulatory deferral account balances (I)	7,960.47	4,522.55
G) Tax on net movements in regulatory deferral account balances (II)	1,619.88	1,020.78
H) Total amount recognised in the statement of profit & loss during the year (I - II)	6,340.59	3,501.77

Rate of return/Discounting rate considered for recognition of Regulatory Deferral Account Balance is "Zero" Risk/uncertainty associated with future recovery of Regulatory Deferral Account Balances

- **Demand risk:** Recovery of regulatory deferral balances are subjected to billing to its beneficiaries and accordingly associated with related normal risks, such as, attitude of the customers towards settlement of their dues, availability of alternate source of supply etc.
- **Regulatory risk:** On account of Changes, if any, in Regulations and submission or approval of a rate setting application or the entity's assessment on the expected future regulatory actions.

  Period over which expected to recover

  i. **Employees benefit expenses:** The Company expects to recover the carrying amount of regulatory deferral debit account balances over a period of 2(two) years.

  ii. **Others:** The Company is expected to recover/adjust the carrying amount of the regulatory deferral account balances over the period of normative useful life of the projects/generating stations.

I. The company does not hold any Invetsment Property in its books of accounts, so fair valuation of investment property is not applicable.

J. During the year the company has not revalued any of its Property,plant and equipment.

K. During the year, the company has not revalued any of its Intangible assets.

L. The company has not provided nor taken any loan or advance to/from any other person or entity with the understanding that benefit of the transaction will go to a third party, the ultimate beneficiary.

M. No scheme or arrangement have been approved by the competent authority in terms of section 230 to 237 of the Companies Act' 2013.

N. Undisclosed income: The company has not surrendered or disclosed as income or any transaction during the year in the tax assessment under the Income Tax Act, 1961. No search or survey under the Income Tax Act' 1961 has taken place during the year. Further, the company does not have any previously unrecorded income & related assets (Previous year NIL).

O. Crypto or Virtual Currency: The company has not traded or invested in Crypto or virtual currency during the current Financial Year (Previous Year NIL)

I. Disclosure of Ratios

Ratio	Numerator	Denominator	FY 2021-22	FY 2020-21	% Variance	Reason for Variance
Current ratio	Current Assets	Current Liabilities	0.54	0.56	(4.86)	
Debt-equity ratio	Paid-up debt capital (Long term borrowings+Short term borrowings)	Shareholder's Equity (Total Equity)	1.13	1.23	(7.75)	
Debt service coverage ratio	Profit for the year+Finance costs+ Depreciation and amortiation expenses+Exceptional items	Finance Costs + lease payments+Scheduled principal repayments of long term borrowings	1.18	0.63	87.68	Due to increase in the PAT over the previous year, the ratio is better
Return on equity ratio	Profit for the year	Average Shareholder's Equity	0.03	0.01	338.97	Due to increase in the PAT over the previous year, the ratio is better
Inventory turnover ratio	Revenue from operations	Average Inventory	22.41	17.87	25.36	Due to increase in the Revenue over the previous year, the ratio is better

Ratio	Numerator	Denominator	FY 2021-22	FY 2020-21	% Variance	Reason for Variance
Trade receivables turnover ratio	Revenue from operations	Average trade receivables	5.10	3.20	59.61	Due to better collection from the debtors for the current F.Y. the ratio is on the higher side
Trade payables turnover ratio	Total Purchases (Fuel Cost + Other Expenses+Closing Inventory-Opening Inventory)	Closing Trade Payables	7.21	9.75	(25.98)	Due to increase in trade payable on account of transmission expense
Net capital turnover ratio	Revenue from operations	Working Capital+current maturities of long term borrowings	3.42	2.60	31.31	Due to increase in the Revenue over the previous year, the ratio is better
Net profit ratio	Profit for the year	Revenue from operations	0.07	0.02	216.22	Due to increase in the PAT over the previous year, the ratio is better
Return on capital employed	Earning before interest and taxes	Capital Employed(i)	0.07	0.04	73.61	The increase of EBIT over the previous F.Y. resulted the better performance of the ratio
Return on investment(ii)-Investments in subsidiary and joint venture companies	{MV(T1) – MV(T0) – Sum [C(t1)]}	{MV(T0) + Sum [W(t) * C(t2)]}	-	-	-	The investment for the NEEPCO is NIL for both the F.Y s
Return on investment(ii)-Investments in others	{MV(T1) – MV(T0) – Sum [C(t1)]}	{MV(T0) + Sum [W(t) * C(t2)]}	-	-	-	The investment (either in the STDRs or other investments) for the NEEPCO is NIL for both the F.Y s

** Denominator is Negative

(i) Capital Employed= Tangible Net Worth + Total Debt + Deferred Tax Liabilities

(ii)Return on Investment where

T1 = End of time period

T0 = Beginning of time period

t = Specific date falling between T1 and T0

MV(T1) = Market Value at T1

MV(T0) = Market Value at T0

C(t1) = Cash inflow, cash outflow on specific date including dividend received

C(t2) = Cash inflow, cash outflow on specific date excluding dividend received

W(t) = Weight of the net cash flow (i.e. either net inflow or net outflow) on day 't', calculated as [T1 – t] / T1

J(I) Disclosure on Kopili HPS (50X4 MW):

(i) Penstock I - feeding 02 (two) units (50 MW each) of Kopili Hydro Power Station, Umrongso, Assam of the Company got ruptured on 07.10.2019 following a Load through off and tripping of Unit -I (50 MW). 03 (three) other units were in full load during the mishap. Rupture happened at three locations of Penstock including at location immediately downstream of Valve House. Penstock protection valve closing mechanism was damaged in the incident and therefore, the Valve could not be closed to isolate the Penstock, consequently thereafter, the Power House was flooded upto EOT Crane beam level within a very short period. At present, Kopili (4 X 50 MW) system in in shutdown condition. The value of damaged assets assessed & recognised in books till 31.03.2022 amounts to ₹10366.72 lakhs (Gross value ₹20670.50 lakhs & Accumulated depreciation ₹10303.78 lakhs), for which provision for an equivalent amount has been provided in books. Repair, Renovation and Modernization (RRM) activities of the said generating plant is going on with scheduled commissioning of all the units by April 2023.

(ii) Finalization of insurance claim lodged with the underwriter is in advanced stage with estimated settlement amount of ₹ 3562.67 lakh, which has been duly accounted for in books of NEEPCO as on 31.03.2022 based on reasonable certainty of realization."

J (II) Disclosure on Khandong HPS (2 X 25 MW) and Kopili Stage II (1 X 25 MW) HPS:

As a consequence of unprecedented dry season flood in Kopili river, the Bundh constructed at the approach channel for taking up planned repair and renovation works overtopped on the 26th March 2022 leading to uncontrollable ingress of water from the Kopili reservoir into Khanding HRT. The discharge gushes down the hill slopes and inundated the Khandong Power House (2 X 25 MW) and Kopili Stage II Power House (1 X 25 MW) causing damages to the Power Stations and its Plant & Machineries. The value of damaged assets assessed & recognised in books as on 31.03.2022 amounts to ₹1457.63 lakhs (Gross value ₹7871.89 lakhs & Accumulated depreciation ₹6414.26 lakhs) for the said generating stations, for which provision for an equivalent amount has been provided in books.

K. Segment Reporting

NEEPCO is in the business of only one product, i.e., generation and selling of electricity. All the projects of NEEPCO are located with the North East Region, i.e., within the same geographical location. NEEPCO has no reportable segment and accordingly, Ind AS 108 – Operating Segment to disclose information about segments is not applicable.

L. Disclosure as per Ind AS 116 'Leases

(I) Transition to Ind AS 116

The Company has applied the following practical expedients on initial application of Ind AS 116:

(i) Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.

(ii) Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.

(iii) Excluded the initial direct costs, if any, from the measurement of the right-of-use asset at the date of initial application.

(iv) On transition to Ind AS 116, the weighted average incremental borrowing rate applied to lease liabilities recognised under Ind AS 116 is 8.69 %. For agreements relating to the FY 2021-22 the weighted average incremental borrowing rate is taken as 7.55 %.

(II) Company as Lessee

(i) The Company's significant leasing arrangements are in respect of the following assets:

(a) Premises for guest houses/ transit camps which are not non-cancellable and are usually renewable on mutually agreeable terms.

(b) The Company has taken electrical vehicles on operating lease for a period of five years, which can be further extended at mutually agreed terms. Lease rentals are subject to escalation of 10% per annum.

(c) The Company has taken certain vehicles (other than electrical) on lease for periods more than 12 months.

(III) The following are the carrying amounts of lease liabilities recognised and the movements during the period:

(₹ in lakhs)

Particulars	For the Year ended 31st March 2022	For the Year ended 31st March 2021
Opening Balance	790.45	978.75
- Additions in lease liabilities	807.03	425.48
- Interest cost during the year	130.13	134.18
- Payment of lease liabilities	715.78	747.96
Closing Balance	**1,011.83**	**790.45**
Current	**573.64**	**522.66**
Non Current	**438.19**	**267.79**

(IV) The following are the carrying amounts of "Right to use Leased Assets" as on 31.03.2022:

(₹ in lakhs)

Particulars	For the Year ended 31st March 2022	For the Year ended 31st March 2021
Opening Balance	726.30	934.67
- Additions in lease liabilities	807.03	425.48
- Amortization during the period	593.94	633.85
Closing Balance	939.39	726.30

(V) The following are the amounts recognised in profit or loss:

(₹ in lakhs)

Particulars	For the Year ended 31st March 2022	For the Year ended 31st March 2021
Depreciation expense for right-of-use assets	593.94	633.85
Interest expense on lease liabilities	130.13	134.18
Expense relating to short-term leases	-	-

(VI) Details of Contractual Maturities of Lease Liabilities are:

(₹ in lakhs)

Particulars	As at 31st March 2022	As at 31st March 2021
Less than one year	573.64	522.66
Between one and two years	295.29	194.48
Between two and three years	122.46	52.83
Between three and four years	16.56	14.96
Between four and five years	3.88	5.52
More than five years	-	-
Total	**1,011.83**	**790.45**

Note No. 40: Capital Management

The Company's capital management is intended to create value for shareholders by facilitating the meeting of long term and short term goals of the Company.

The Company determines the amount of capital required on the basis of annual business plan, coupled with long term and short term strategic investing plan. The funding requirements are met through equity, convertible and non- convertible debt securities, and other short term and long term borrowings. The Company's policy is aimed at combination of short term and long term borrowings.

The Company monitors the capital structure on the basis of net debt to equity ratio and maturity profile of the overall debt portfolio of the Company.

Note No. 41: Disclosure on Financial Instruments

This section gives an overview of the significance of financial instruments for the Company and provides additional information on balance sheet items that contain financial instruments.

The details of significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note no.1 to the financial statements

Financial assets and liabilities

The following table presents the carrying amount and fair value of each category of financial assets & liabilities as at March 31, 2022 & March 31, 2021.

(₹ in lakhs)

As at March 31, 2022	Fair value through statement of profit & loss	Fair value through OCI	Derivative instruments in hedging relationship	Derivative instruments not in hedging relationship	Amortised Cost	Total Carrying Value	Total Fair Value

Total					821,687.76	821,687.76	821,687.76

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below:

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investment in quoted equity shares, quoted corporate debt instruments and mutual fund investments.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This level of hierarchy includes Company's over-the-counter (OTC) derivative contracts.

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. The main items in this category are investment in unquoted equity shares, measured at fair value.

(₹ in lakhs)

Particulars	As at March 31, 2022			
	Level 1	Level 2	Level 3	Total
Financial assets measured at fair value

(iii) Other financial liabilities	9,003.31	-	-	9,003.31
Total financial liabilities measured at fair value	**821,687.76**			**821,687.76**

* Trade & Other payables includes trade payables & payables for capital expenditure

The short-term financial assets and liabilities are stated at amortized cost which is approximately equal to their fair value.

The fair value in respect of the unquoted equity investments cannot be reliably measured.

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end

There have been no transfers between Level 1 and Level 2 for the years ended March 31, 2022 and March 31, 2021.

Transfer of financial assets

There have been no transfers of financial assets during the 2021-22.

Financial risk management

In the course of its business, the Company is exposed primarily to interest rates, liquidity and credit risk, which may adversely impact the fair value of its financial instruments.

The Company has a risk management policy which covers the risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the Board of Directors. The risk management framework aims to:

Create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on the Company's business plan.

Achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

Market Risk : - Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

Credit Risk :- Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks.

Liquidity Risk: Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The following table shows a maturity analysis of the anticipated cash flows including interest payable for the Company's non derivative financial liabilities on an undiscounted basis, which therefore differ from both carrying value and fair value.

(₹ in lakhs)

Particulars	As at March 31, 2022				
	Carrying amount	Contractual cash flows	Less than 1 year	Between 1 - 5 years	More than 5 years
Non- derivative financial liabilities					
Borrowings	743,199.93	743,199.93	121,646.59	390,169.95	231,383.39
Trade payables	30,125.35	30,125.35	21,466.10	690.88	-
Other financial liabilities	10,246.31	10,246.31	10,246.31	-	-
Total non- derivative financial liabilities	**783,571.59**	**783,571.59**	**153,359.00**	**390,860.83**	**231,383.39**
Derivative financial liabilities					

(₹ in lakhs)

Particulars	As at March 31, 2022				
	Carrying amount	Contractual cash flows	Less than 1 year	Between 1 - 5 years	More than 5 years
Non- derivative financial liabilities					
Borrowings	792,208.01	792,208.01	96,203.14	385,803.57	273,426.63
Trade payables	20,476.44	20,476.44	8,194.07	389.24	-
Other financial liabilities	9,003.31	9,003.31	22,429.11	522.66	-
Total non- derivative financial liabilities	821,687.76	821,687.76	126,826.32	386,715.47	273,426.63
Derivative financial liabilities					

The cost of unquoted investments approximate the fair value because there is a wide range possible fair value measurements and the cost represents estimate of fair value within that range.

Note No. 42: Operating Segment

a. Electricity generation is the principal activity of the Corporation. Other operation like interest income does not form a reportable segment as per the Accounting Standard 108.

b. The Corporation has power projects located within the country and therefore geographical segments are inapplicable.

Note No. 43: Financial Risk Management

(i) Exposure to Credit Risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was :

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Financial assets for which loss allowance is measured using 12 months Expected Credit Losses (ECL)		
Non-current investments		
Non-current loans	26.16	28.30
Other non-current financial assets	-	-
Cash and cash equivalents	4,344.49	46.89
Bank balances other than cash and cash equivalents	1,009.06	171.24
Current loans	1,429.36	63.83
Other current financial assets*	4,820.53	1,607.48
Total (A)	**11,629.60**	**1,917.74**
Financial assets for which loss allowance is measured using life-time Expected Credit Losses (ECL) as per simplified approach		
Trade receivables	48,776.49	76,911.76

Total (B)	**78,333.43**	**113,286.10**
Total (A+B)	**89,963.03**	**115,203.84**

* Excluding Contract Assets (Refer Note 13)

नीपको NEEPCO New Delhi North Eastern Electric Power Corporation

(ii) Provision for expected credit losses

(a) Financial assets for which loss allowance is measured using 12 month expected credit losses

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(b) Financial assets for which loss allowance is measured using life-time expected credit losses as per simplified approach

The Company has customers (State government utilities) with capacity to meet the obligations and therefore the risk of default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk. Hence, no impairment loss has been recognised during the reporting periods in respect of trade receivables and unbilled revenue.

(iii) Ageing analysis of trade receivables

The ageing analysis of the trade receivables is as below: *(₹ in lakhs)*

Ageing	Not due	0 - 30 days past due	31-60 days past due	61-90 days past due	91-120 days past due	More than 120 days past due	Total
Gross carrying amount as on 31st March 2022	33,536.25	3,466.93	-	-	-	11,773.31	48,776.49
Gross carrying amount as on 31st March 2021	44,406.95	1,850.79	2,147.59	2,097.57	221.17	26,187.69	76,911.76

Liquidity Risks

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has an appropriate liquidity risk management framework for the management of short, medium and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Company's Treasury department is responsible for managing the short-term and long-term liquidity requirements of the Company. Short-term liquidity situation is reviewed daily by the Treasury department. The Board of directors has established policies to manage liquidity risk and the Company's Treasury department operates in line with such policies. Any breaches of these policies are reported to the Board of Directors. Long-term liquidity position is reviewed on a regular basis by the Board of Directors and appropriate decisions are taken according to the situation.

Typically, the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a month, including the servicing of financial obligations, this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters

As part of the CERC Regulations, tariff inter-alia includes recovery of capital cost. The tariff regulations also provide for recovery of energy charges, operations and maintenance expenses and interest on normative working capital requirements. Since billing to the customers are generally on a monthly basis, the Company maintains sufficient liquidity to service financial obligations and to meet its operational requirements.

(i) **Financing arrangements**

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Fixed-rate borrowings		
Foreign currency loans	-	-
Floating-rate borrowings		
Cash credit /WCDL	19,500.00	65,925.33
Term loans	65,000.00	45,000.00
Foreign currency loans	-	-
Total	**84,500.00**	**110,925.33**

(ii) **Maturities of financial liabilities**

The following are the contractual maturities of derivative and non-derivative financial liabilities, based on contractual cash flows:

31st March 2022

(₹ in lakhs)

Contractual maturities of financial liabilities	Contractual cash flows

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the risk management committee.

Currency risk

The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates.

The currency profile of financial assets and financial liabilities as at 31 March 2022 and 31 March 2021 are as below

31st March 2022 *(₹ in lakhs)*

Particulars	USD	Others	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total			
Financial Liabilities			
Secured Foreign Currency loans	13,608.89		13,608.89
Unsecured Foreign Curreny loans from banks & financial institution		43,744.62	43,744.62
Trade payables & other financial liabilities			-
Total	**13,608.89**	**43,744.62**	**57,353.51**

31st March 2021 *(₹ in lakhs)*

Particulars	USD	Others	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total	-	-	-
Financial Liabilities			
Secured Foreign Currency loans	20,734.21	-	20,734.21
Unsecured Foreign Curreny loans from banks & financial institution		50,802.71	50,802.71
Trade payables & other financial liabilities	-	-	-
Total	**20,734.21**	**50,802.71**	**71,536.92**

Out of the above, no amount is hedged by derivative instruments. In respect of the balance exposure, gain/(loss) on account of exchange rate variations on all foreign currency loans and foreign currency monetary items (up to COD) is recoverable from beneficiaries. Therefore, currency risk in respect of such exposure would not be very significant.

Sensitivity analysis

Since the impact of strengthening or weakening of INR against USD, Euro, JPY and other currencies on the statement of profit and loss would not be very significant; therefore, sensitivity analysis for currency risk is not disclosed.

Interest Rate risk

The Group is exposed to interest rate risk arising mainly from non-current borrowings with floating interest rates. The Group is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Group manages the interest rate risks by entering into different kinds of loan arrangements with varied terms (e.g. fixed rate loans, floating rate loans, rupee term loans, foreign currency loans, etc.).

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments is as follows:

(₹ in lakhs)

Particulars	As at 31st March, 2022	As at 31st March, 2021
Financial Assets		
Fixed Rate Instruments		
Bank Deposits	1,009.06	171.24
Total	**1,009.06**	**171.24**
Financial Liabilities		
Fixed Rate Instruments		
Bonds	481,105.48	531,106.40
Foreign currency loans	44,170.86	51,252.61

Lease obligations	1,011.83	790.45
	555,412.27	**612,274.46**
Variable-rate instruments		
Foreign currency loans	13,620.09	20,747.76
Rupee term loan	157,716.01	160,753.97
Cash Credit	-	6,174.67
	171,336.10	187,676.40
Total	**726,748.37**	**799,950.86**

Fair value sensitivity analysis for fixed-rate instruments

The Company's fixed rate instruments are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Cash flow sensitivity analysis for variable-rate instruments

A change of 50 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for the previous year.

(₹ in lakhs)

Particulars	Profit or loss	
	50 bp increase	50 bp decrease
31-Mar-22

Financial liabilities					
Bonds	3	481,105.48	506,164.96	531,106.40	560,747.69
Foreign currency loans - KFW	3	44,170.86	46,824.99	51,252.61	55,931.33
Foreign currency loans - ECB	3	13,620.09	13,620.09	20,747.76	20,747.76
Rupee term loans	3	157,716.01	157,716.01	130,130.89	130,130.89
Government Subordinate Loan	3	29,124.10	9,163.57	29,125.00	8,446.15
Lease obligations	3	1,011.83	1,011.83	790.45	790.45
Borrowings - current	3	24,312.43	24,312.43	36,797.75	36,797.75
Trade payables and payable for capital expenditure	3	22,156.98	22,156.98	8,583.31	8,583.31
Other financial liabilities	3	10,173.49	10,173.49	12,887.43	12,887.43

The carrying amounts of current trade receivables, current trade payables, payable for capital expenditure, investment in subsidiary and joint venture companies, cash and cash equivalents and other financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans, borrowings, non-current trade payables and payable for capital expenditure were calculated based on cash flows discounted using a current discount rate. They are classified at respective levels based on availability of quoted prices and inclusion of observable/non observable inputs.

Note No 45. Disclosure as per Ind AS 115, ' Revenue from Contracts with Customers'

I. Nature of goods and services

The revenue of the Company comprises of income from energy sales, sale of energy through trading and other services. The following is a description of the principal activities:

(a) Revenue from energy sales

The major revenue of the Company comes from energy sales. The Company sells electricity to bulk customers, mainly electricity utilities owned by State Governments Discoms operating in States. Sale of electricity is generally made pursuant to long-term Power Purchase Agreements (PPAs) entered into with the beneficiaries. Further, the Company sell electrcity through Power Exchanges available with them under "Merchant Power".

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for energy sales:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms
Energy sales	The Company recognises revenue from contracts for energy sales over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from energy sales is determined in terms of CERC Regulations as notified from time to time. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. The amounts are billed on a monthly basis and are payable within contractually agreed credit period.

(b) **Revenue from energy trading, consultancy and other services**

Sale of Energy through trading

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for sale of energy through trading:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms
Sale of energy through trading	The Company recognises revenue from contracts for sale of energy through trading over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from sale of energy through trading is determined as per the terms of the agreements. The amounts are billed as per periodicity specified in the Contract and are payable within contractually agreed credit period.

II. Disaggregation of revenue

In the following table, revenue is disaggregated by type of product and services, geographical market and timing of revenue recognition:

(₹ in lakhs)

Particulars	Generation of energy		Others		Total	
	For the year ended		For the year ended		For the year ended	
	31 March 2022	31 March 2021	31 March 2022	31 March 2021	31 March 2022	31 March 2021
Geographical markets						
India	306,075.81	219,712.47	3,415.45	7,144.67	309,491.26	226,857.14
Others						-
	306,075.81	219,712.47	3,415.45	7,144.67	309,491.26	226,857.14
Timing of revenue recognition						
Products and services transferred over time	306,075.81	219,712.47	3,415.45	7,144.67	309,491.26	226,857.14
	306,075.81	219,712.47	3,415.45	7,144.67	309,491.26	226,857.14

III. Reconciliation of revenue recognised with contract price:

Particulars	For the year ended 31 March 2022	For the year ended 31 March 2021
Contract price	311,286.91	227,705.78
Adjustments for:		
Rebates	(1795.65)	(848.64)
Revenue recognised	309,491.26	226,857.14

IV. Contract balances

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are transferred to unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms. The contract liabilities primarily relate to the advance consideration received from the customers which are referred as 'advances from customers / payable to beneficiaries'.

The following table provides information about trade receivables, unbilled revenue and advances from customers / payable to beneficiaries:

Particulars	As at March 31, 2022		As at 31 March 2021	
	Current	Non-current	Current	Non-current
Trade receivables	48,776.49	-	76,911.76	-
Contract Assets	29,556.94	-	17,173.31	-
Advances from customers / payable to beneficiaries	1,342.73	-	2,275.00	-

Note No. 46: Corporate Social Responsibility (CSR)

As per Section 135 of the Companies Act, 2013 read with guidelines issued by Department of Public Enterprises, GOI, the Company is required to spend, in every financial year, at least two per cent of the average net profits of the Company made during the three immediately preceding financial years in accordance with its CSR Policy. The details of CSR expenses for the year are as under:

(₹ in lakhs)

	Particulars	FY 2021-22	FY 2020-21
(i)	Amount required to be spent by the Company during the year	545.98	1,358.55
(ii)	Amount of expenditure incurred #	556.66	1,358.55
(iii)	Shortfall at the end of the year	Nil	Nil
(iv)	Total of previous years shortfall	Nil	Nil
(v)	Reason for shortfall	Not applicable	Not applicable
(vi)	Nature of CSR activities		
	(a) Construction/acquisition of any asset	337.00	921.70
	(b) On purposes other than (a) above	219.66	436.85
(vii)	Details of related party transactions, e.g., contribution to a trust controlled by the Company in relation to CSR expenditure as per relevant Accounting Standard	Nil	Nil

(viii) Movement in CSR liability

(₹ in lakhs)

Particulars	For the year ended 31 March 2022	For the year ended 31 March 2021
Opening Balance CSR Liability (A)	544.72	-
Paid / adjusted during the year (B)	460.06	-
Addition during the year (C)	456.02	544.72
Closing balance as at the year end (D=A-B+C) ##	540.67	544.72

(ix) Break up CSR expenses under major heads:

(₹ in lakhs)

	Particulars	FY 2021-22	FY 2020-21
1.	Eradicating Hunger and Proverty, Health Care and Sanitation	196.35	876.81
2.	Education and Skill Development	172.63	250.57
3.	Sports	-	1.02
4.	Rural Development	187.68	230.15
	Total	**556.66**	**1,358.55**

For the FY 2021-22 : ₹ 556.66 lakh includes expenditure incurred over sanction (for AGBPS) ₹ 10.68 lakh, "CSR Ongoing projects" amounting to ₹ 452.64 lakh and "CSR unspent" amounting to ₹ 3.38 lakh. For the FY 2020-21: ₹ 1358.55 lakh includes "CSR Ongoing Projects" ₹ 544.72 lakh.

Balance under "CSR Onging Project : ₹ 525.22 Lakh and balance under CSR Unspent ₹ 15.45 Lakh

Note No. 47: Disclosure on Inventories

(a) Amount of inventories consumed and recognised as expense during the year is as under (₹ in lakhs)

Particulars	For the year ended 31 March 2022	For the year ended 31 March 2021
Fuel Cost	57354.86	43,645.89
Others (included in Note 33 - Other expenses)*	3827.22	3,107.30
Total	**61182.08**	**46,753.19**

* includes imported material consumed during the year ended 31st March 2022 amounts to ₹212.25 lakhs (Previous year ₹ 126.76 lakhs)

Note No. 48: Income Tax related disclosures

(i) Disclosure as per Ind AS 12 "Income Tax"

(a) Income Tax Expense

i) Income tax recognised in the statement of Profit & Loss (₹ in lakhs)

INDEPENDENT AUDITORS REPORT ON EMPHASIS OF MATTERS (EOM) AND MANAGEMENT REPLY THERE-ON:

Auditors report ref	Auditors report	Management reply
EOM 1	Note No.2 (vi) regarding Capitalisation of ₹ 12442.72 lakhs being Capacity Charges on Transmission assets including interest thereon billed by PGCIL for earlier years.	The capacity charges of the transmission assets amounting to ₹ 12442.72 lakhs billed by the transmission agency during the year pursuant to the order of CERC dated 31st August 2021 for the period till commercial operation dates (pre-COD) relating to one of the hydro power projects of the Company has been added to capital cost under "Property , Plant & Equipment", as the same is directly attributable to bringing the assets to its present location & condition as intended by the Management as per provision of Ind AS 16 read with Regulation 19 of the CERC (Terms & Conditions of Tariff) Regulation, 2019. Necessary disclosure on the matter has been provided at "Note 2 (vi)" to the Financial Statements for the year ended 31.03.2022.
EOM 2	Note No. 27(b) read with Significant Accounting Policy 17.1(a)(ii) regarding Sale of energy includes ₹ 10279.34 lakhs, being the revenue for the year recognized on the basis of provisional rate.	During the FY 2020-21, NEEPCO has modified its accounting policy on "Revenue from operations – Revenue from sale of energy". The modified policy is as follows: "In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019." In compliance to the above accounting policy for revenue recognition, an amount of ₹10279.34 lakh has been recognized as revenue in the books of NEEPCO during the FY 2021-22. Necessary disclosure for the said revenue recognized in books of the Company has been provided at "Note 27 (b)" to the Financial Statements for the year ended 31.03.2022.
EOM 3	Note No. 28(iii) read with Note No. 13(i) regarding recognition of Delayed Payment Surcharge of ₹3636.25 lakhs on disputed Trade Receivable from TSECL	The amount relates to Delay Payment Surcharge (DPS) accrued on unsettled old bills amounting to ₹10368.44 lakh payable by TSECL (the beneficiary). The said DPS claim of NEEPCO is in compliance to the relevant regulation of the CERC Tariff Regulations. In response to TSECL appeal before the APTEL against the above mentioned claims of NEEPCO, the petition has been taken up by Hon'ble Tribunal and included in the "List of Finals" to be taken up for hearing in its turn. There are sufficient legal/regulatory grounds as indicated by legal experts to infer that TSECL's petition will be turned down and judgement will be delivered in NEEPCO's favour by APTEL. In view of reasonable certainty on realization/settlement of the said DPS in favour of NEEPCO, the same has been recognized in books of the Company during the FY 2021-22 in compliance to the relevant accounting policy, which reads as follows: "Interest/Surcharge on late payment /overdue trade receivables for sale of energy is recognized when no significant uncertainty as to measurability or collectability exists." Necessary disclosure for the said recognition in books of the Company has been provided at "Note 28 (iii)" to the Financial Statements for the year ended 31.03.2022.

MANAGEMENT REPLY

ANNEXURE -7

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) OF THE COMPANIES ACT, 2013 ON THE FINANCIAL STATEMENTS OF NORTH EASTERN ELECTRIC POWER CORPORATION LIMITED FOR THE YEAR ENDED 31 MARCH 2022

The preparation of financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2022 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditor appointed by the Comptroller and Auditor General of India under Section 139(5) of the Act is responsible for expressing opinion on these financial statements under section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 14 May 2022.

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2022 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the statutory auditor and is limited primarily to inquiries of the statutory auditor and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report under section 143(6)(b) of the Act.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) READ WITH SECTION 129(4) OF THE COMPANIES ACT, 2013 ON THE CONSOLIDATED FINANCIAL STATEMENTS OF NORTH EASTERN ELECTRIC POWER CORPORATION LIMITED FOR THE YEAR ENDED 31 MARCH 2022

The preparation of consolidated financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2022 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditor appointed by the Comptroller and Auditor General of India under Section 139(5) read with section 129(4) of the Act is responsible for expressing opinion on these financial statements under section 143 read with section 129(4) of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 14 May 2022.

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the consolidated financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2022 under Section 143(6)(a) read with section 129(4) of the Act. We conducted a supplementary audit of the financial statements of North Eastern Electric Power Corporation Limited for the year ended on that date. **Further, section 139(5) and 143(6)(a) of the Act are not applicable to its joint venture company M/s. KSK Dibbin Hydro Power Private Limited being private entity, for appointment of their Statutory Auditor and for conduct of supplementary audit. Accordingly, Comptroller and Auditor General of India has neither appointed the Statutory Auditors nor conducted the supplementary audit of this company.** This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report under section 143(6)(b) of the Act.

ANNEXURE-10

PARTICULARS OF CORPORATE SOCIAL RESPONSIBILITY (AS PER COMPANIES ACT 2013)

1. Brief outline on CSR Policy of the Company

NEEPCO accords top priority for all-round development of the people residing in and around its operational areas. As a responsible corporate entity, various community development activities, particularly in the field of education, health, infrastructure development and other community needs are being undertaken.

Mission

To be a responsible corporate entity for nurturing human values with concern for society and the environment.

Vision

To make a sustainable impact on the planet and the communities we serve.

A brief outline of the CSR Policy of the Company as under:

- NEEPCO formulated a 'CSR and Sustainability Policy 2015' in accordance with the provisions of the Companies Act, 2013, the Companies (Corporate Social Responsibility Policy) Rules, 2014, MCA General Circular no. 21/2014 dated 18.06.2014 and revised DPE guidelines
- NEEPCO CSR&S policy 2015, articulates the company's commitment to its stakeholders to conduct its business in an economically, socially and environmentally sustainable manner that is transparent and ethical. Accordingly, while determining CSR & Sustainability activities priority has been given to stakeholders in the neighborhood area around its area of operations i.e. projects/plants/offices.
- NEEPCO has placed special emphasis on (a) Promotion of Education, (b) Promotion of Health Care, (c) Entrepreneurship and Skill Development, (d) Swachh Bharat Abhiyan, (e) Rural Area Development in line with its CSR policy.
- As per CSR policy, CSR and Sustainability initiatives are administered through a two-tier administrative set up comprising of:
  - i. Board Level Committee on CSR (Tier-I)
  - ii. Standing Committee on CSR & Sustainability (Tier-II)

Standing Committee on CSR & Sustainability (Tier-II) is a committee comprising of representatives from the HR, Technical and Finance Department which examine the proposals and submit its recommendations for consideration to the nodal officer for further recommendations of the Board Level Committee and in-principle approval of the Board of Directors.

Kameng Hydro Power Station (600 MW), Arunachal Pradesh	2848	2912.75	2576.35	74.62	70.66
Hydro Total	**5043**	**5202.32**	**4685.27**		
Monarchak Solar Power Station (5 MW), Tripura	6	6.74	5.98	15.38	13.61
NEEPCO Total (2057 MW)	**8265**	**8492.00**	**8120.29**		
Actual APAF (%) achieved during 2022-23 (Weighted Average)	81.61				

Note:
1. 4 x 50 MW Kopili Power Station and 2 x 25 MW Khandong Power Station are under Renovation &

Modernization (R&M).
2. 1 x 25 MW Khandong Stage – II Power Station is under restoration following inundation of the Power Station on 26/03/2022.
3. Generation (MU) in respect of AGBPS & AgGBPS for the year 2022-23 is less than 2021-22 due to less availability of Gas.

HYDRO POWER STATIONS

A) 275 MW Kopili Hydro Power Station (KHPS), Assam.

Kopili Hydro Power Station	Installed Capacity (MW)	Generation in MU			Normative Annual Plant Availability Factor (%)	Actual APAF 2022-23
Power Stations		Design Energy	Target	Actual 2022-23		
Kopili Power Station	4 X 50 MW	Under shutdown for Renovation & Modernization				
Khandong Power Station	2 X 25 MW	Under shutdown for Renovation & Modernization				
Khandong Stage – II Power Station	1 X 25 MW	Synchronised on 20.05.2023.				

Present Status of Renovation & Modernization of 4X50 MW Kopili Power Station:
The Renovation & Modernization (R&M) works for the power station is in progress. Project Cost of ₹ 82412.00 Lakh at Jan '21 Price Level (PL) was vetted by CEA (excluding IDC&FC).
Revised Commissioning Schedule:

- U#4 by August 2023
- U#3 by August 2023
- U#2 by September 2023
- U#1 by October 2023.

(a) MAIN CIVIL CONSTRUCTION WORKS:

- Non-shrink grout behind steel in-liner in HRT.
- In Power House, RCC work of lift shaft.

(b) HYDRO MECHANICAL WORKS:

- Fit-up, Welding and Testing of penstock (L-1) are in progress.

(c) POWER HOUSE/ SWITCHYARD/ GENERATOR TRANSFORMER YARD WORKS (as on 21.05.23):
Status of some major activities are as shown below:

- **Bus duct, LAVT, NGT cubicles of 4 nos. of Generators**: 90% manufacturing & 34% erection completed. Erection of U#4 & 3 are in progress.
- **Procurement and erection of E/M equipment**: 93% manufacture & 38% erection completed. U#4 erection and box up are in progress. Erection of U#3 in progress.
- **05 nos. of 3-phase GT**: 54% erection completed. Erection of GTs for U#4 & 3 completed.
- **02 nos. of B/F valves**: 100% manufacture & 48% erection completed. Erection of B/F valves are in progress.
- **Repair of runners, guide apparatus for U# 2, 3, 4**: 80% manufacturing & 62% erection completed. Erection of U#4 & U#3 completed and U#2 is in progress.
- **3 sets of DT Cone assembly**: Erection is in progress and 41% erection completed.
- **Erection, stringing, testing & commissioning of 220KV interconnecting tower**: Completed.

(d) FINANCIAL PROGRESS

- Total value of works and supplies awarded as on 31.03.2023 is ₹ 82358 Lakhs. *(Prov.)*

- Cumulative Expenditure incurred up to 31.03.2023 for R&M works of 200 MW Kopili Power Station is ₹ 88198 Lakhs *(Prov.)*

Restoration of 1 X 25 MW Khandong Stage – II Power Station:

- Mechanical spin tested at rated RPM on 03.04.2023 and Test Synchronization was done successfully on 14.05.2023. Subsequently shutdown withdrawn & synchronized on 20.05.2023.

Renovation, Modernisation and LE of 2 X 25 MW Khandong Power Station:

- The work is scheduled to be completed by March & May, 2025.

ACTIVITIES IN PROGRESS:

- Cleaning of MIV floor of Power House.
- About 69% dismantling of E/M equipment completed.
- Bids for supply and commissioning of 132KV and 33 KV Switchyard Equipment was cancelled on 16.02.2023 due to very high price quoted by the single T-C Qualified Bidder and re- tender was published in GeM portal on 22.05.2023.
- LOI issued for civil works pertaining to RR&M of Khandong Power Station on 01.05.2023.
- LOI issued for supply & commissioning of EM Package on 12.05.2023,
- NIB issued for H/M works on 10.03.2023. T-C bid opened on 05.05.2023 and evaluation is in progress.
- CEA vetted cost estimate of Electro-mechanical works on 18.11.2022 amounting to ₹ 188.42 Cr at March 22 Price Level. The vetting of cost estimate in respect of Civil & H/M works for RM and LE works of Khandong PS (2 X 25 MW) is awaited.

B) 75 MW Doyang Hydro Power Station (DHPS), Nagaland.

Doyang Hydro Power Station	Installed Capacity (MW)	Generation in MU			Normative Annual Plant Availability Factor (%)	Actual APAF 2022-23
		Design Energy	Target	Actual 2022-23		
	3 X 25 MW	227.24	177	177.35	70	65.81

APAF shortfall of DHPS was due to very less availability of water.

C) 405 MW Panyor Lower Hydro Power Station (PLHPS), Arunachal Pradesh.

Panyor Lower Hydro Power Station	Installed Capacity (MW)	Generation in MU			Normative Annual Plant Availability Factor (%)	Actual APAF 2022-23
		Design Energy	Target	Actual 2022-23		
	3 X 135 MW	1293.73	1305	1376.28	88	95.53

D) 60 MW Tuirial Hydro Power Station (THPS), Mizoram.

Tuirial Hydro Power Station	Installed Capacity (MW)	Generation in MU			Normative Annual Plant Availability Factor (%)	Actual APAF 2022-23
		Design Energy	Target	Actual 2022-23		
	2 X 30 MW	250.63	190	204.10	85	78.40

- *APAF shortfall of THPS is due to less availability of reservoir water.*
- *The RCEs of this project amounting to ₹ 1,42,247.00 Lakhs including IDC & FC of ₹ 6,937.00 Lakhs, approved by the Board of directors of NTPC was submitted to Ministry of Power for communication of requisite approvals to NEEPCO.*

E) 110 MW Pare Hydro Power Station (PHPS), Arunachal Pradesh.

Pare Hydro Power Station	Installed Capacity (MW)	Generation in MU			Normative Annual Plant Availability Factor (%)	Actual APAF 2022-23
		Design Energy	Target	Actual 2022-23		
	2 X 55 MW	506.42	523	531.84	85	98.32

- *The RCEs of this project amounting to ₹ 1,65,674.00 Lakhs (₹ 1,64,031.00 Lakhs vetted cost + ₹ 1,643.00 Lakhs notional FERV) including IDC & FC of ₹ 23,804.00 Lakhs, approved by the Board of Directors of NTPC was submitted to Ministry of Power for communication of requisite approvals to NEEPCO.*

F) 600 MW Kameng Hydro Power Station (KaHPS), Arunachal Pradesh.

Kameng Hydro Power Station	Installed Capacity (MW)	Generation in MU			Normative Annual Plant Availability Factor (%)	Actual APAF 2022-23
		Design Energy	Target	Actual 2022-23		
	4 X 150 MW	3353.00	2848	2912.75	85	74.62

- *CERC is yet to approve the normative APAF in respect of KaHPS. However, in anticipation the NAPAF is considered as 85%. APAF shortfall of KaHPS was due to outage of the units for various reasons.*
- ***This Power Station was dedicated to the Nation by the Hon'ble Prime Minister Shri Narendra Modi on 19th November, 2022.***
- *RCE of the project at completion cost of ₹ 842128.00 Lakhs, including IDC & FC of ₹ 274744.00 Lakhs has been forwarded to a CERC empaneled agency for their recommendation.*

THERMAL POWER STATIONS

A) 291 MW Assam Gas Based Power Station (AGBPS), (Combined Cycle), Assam.

Assam Gas Based Power Station	Installed Capacity (MW)	Generation in MU			Normative Annual Plant Availability Factor (%)	Actual APAF 2022-23
		Annual Energy	Target	Actual 2022-23		
	291 MW	1746	1650	1689.83	72	73.35

Assam Gas Based Power Station	Gas Supplier	Contracted Quantity (MMSCMD)	Average Gas Supply (MMSCMD)		
			2020-21	2021-22	2022-23
	M/s OIL	1.40	1.26	1.42	1.36

The Gas Sale and Purchase Agreement with M/s OIL is for supply of 1.40 MMSCMD of gas to the Power Station.

B) 135 MW Agartala Gas Based Power Station (AgGBPS), (Combined Cycle), Tripura.

Agartala Gas Based Power Station	Installed Capacity (MW)	Generation in MU			Normative Annual Plant Availability Factor (%)	Actual APAF 2022-23
		Annual Energy	Target	Actual 2022-23		
	135 MW	810	838	845.63	85	81.69

APAF shortfall of AgGBPS was due to less availability of gas.

Agartala Gas Based Power Station	Gas Supplier	Contracted Quantity (MMSCMD)	Average Gas Supply (MMSCMD)		
			2020-21	2021-22	2022-23
	M/s GAIL	0.75	0.69	0.71	0.68

The Gas Sales and Transportation Contract between NEEPCO and GAIL, is for supply of 0.75 MMSCMD of gas to the Power Station, to be supplied from the gas fields of M/s ONGC.

C) 101 MW Tripura Gas Based Power Station (TGBPS), (Combined Cycle), Tripura.

Tripura Gas Based Power Station	Installed Capacity (MW)	Generation in MU			Normative Annual Plant Availability Factor (%)	Actual APAF 2022-23
		Annual Energy	Target	Actual 2022-23		
	101 MW	752.05	728	747.48	85	86.45

Tripura Gas Based Power Station	Gas Supplier	Contracted Quantity (MMSCMD)	Average Gas Supply (MMSCMD)		
			2020-21	2021-22	2022-23
	M/s ONGC	0.50	0.37	0.46	0.48

NEEPCO signed an agreement with M/s ONGC for supply of 0.5 MMSCMD of gas (182.5 MMSCM annually) for the Plant.

RENEWABLE ENERGY POWER STATION

5 MWp Grid Interactive Monarchak Solar Power Station, Tripura.

The energy generated from the station during 2022-23 was 6.74 MU against Target of 6.00 MU with Capacity Utilization Factor (CUF) of 15.38%.

ANALYSIS OF GENERATION

Net energy generation achieved during the year 2022-23 was 8492.00 MU against 8120.29 MU achieved during 2021-22. The increase in generation with respect to the previous year is 4.58%. The total energy generation in 2022-23 including loss due to system constraint, untraded amount, under requisition which was not attributable to NEEPCO was 9025.94 MU. Highest generation of 956.01 MU was achieved in the month of August, 2022 which constituted 11.26% of the total generation.

RENEWABLE ENERGY INITIATIVE:

Floating Solar Project (FSP) at Kopili reservoir: The PFR is completed for 40.59 MW (DC) FSP. Expected tariff is Rs. 4.26 /kWh with estimated project cost of ₹ 20050.00 Lakhs with 15.78% CUF. To make the tariff comparable with ground mounted solar, VGF of 50 to 70 Lakhs/MW will be required. The process for DPR works has started.

Floating Solar Project at Umiam Lake, Meghalaya: NOC obtained from State Govt. for DPR preparation. Available data like bathymetry survey, etc. have been obtained from MePGCL on 18.03.2023. CMD, MePGCL assured full support to NEEPCO in the meeting held at Shillong on 05.04.2023 for the FSP. For preparation of PFR, SECI has submitted their offer. Meanwhile, Consultancy wing of NTPC has expressed interest to provide consultancy services to NEEPCO to access the floating solar power potential in the north eastern region.

Solar Park in Uttar Pradesh: Planning to set up 600 MW solar park in Lalitpur district of Uttar Pradesh. Acquisition of 3000 acres land is under process.

7500 MW Solar Projects in Leh & Kargil, UT of Ladakh: On behalf of MNRE, DPR was prepared by NEEPCO in December 2014 for setting up of 5000 MW, UMSPP in Leh district, UT of Ladakh and proposed another 2500 MW in Kargil region. The project site starts from Debring (125 KM from Leh town) and ends at Pang (175 KM from Leh town) in south-east direction of Leh town. As per DPR, annual

energy supplied to grid - Million Units (MU) at P50 Level, at P75 Level, at P90 Level 8091.2 (MU), 7602.3 (MU), 7162.3 (MU) respectively and annual CUF (%), at P50 Level, at P75 Level, at P90 Level 18.47%, 17.36% 16.35% respectively. The power evacuation is only key technical barrier for this project.

In December 2018, SECI floated tender for selection of Solar Power Developers for setting up 7500 MW grid connected solar power projects (including implementation of power transmission and evacuation infrastructure) in Leh & Kargil districts, UT of Ladakh. A Task Force was formed with 7 PSEs [GAIL, BHEL, NLC, NEEPCO, NHPC, SJVN, Rajasthan Electronics & Instruments Ltd (REIL)] to pursue the possibility of participating in the bid. The Tender was later terminated in January 2021.

In the recent Budget, Govt. of India has earmarked ₹ 20,700 Crore including central support of ₹ 8,300 crore for construction of the Inter-state transmission system for evacuation and grid integration of 13 GW renewable energy from Ladakh.

UPCOMING PROJECTS:

To be a leading Electric Power Company of the Country in alignment with the Nationally Determined Contribution (NDC), NEEPCO is focused on development of renewable energy from Hydro and pump storage projects as well as solar power projects, in addition to operation and maintenance of its commissioned stations.

In December 2021, Govt. of India indicated 17 (seventeen) hydro projects with aggregate installed capacity of 4988 MW in hydro rich Arunachal Pradesh. Among the indicated projects, the Corporation has identified 6 priority projects for first phase development considering commercial attractiveness, status of clearances etc. Combine installed capacity of these 6 projects is 2746 MW. The brief status of the projects is as below:

Sl. No.	Name of Project	Status
1.	Nafra HE Project (120 MW), Arunachal Pradesh	➢ MoA signed with the Govt of Arunachal Pradesh on 14.08.2021. ➢ Preparation of Tender documents for Civil Works is in advanced stage of completion. ➢ Confirmatory Topographical survey has completed. ➢ Proposal for Road improvement works from Bichom Complex to Dam & Power House Sites of Nafra HEP through local contractors is in process. ➢ As per updated PMP value from IMD, Design flood has been revised by CWC and accorded approval on the revised design flood of 3300 Cumec in place of 7300 Cumec on 04.05.2023. ➢ Core clay sample collected and testing is in progress ➢ The consultancy work for physical model studies have been awarded to IRI Roorkee. ➢ Meanwhile, the earlier developer filed a case at Gauhati High Court, Itanagar Bench impleading NEEPCO as one of the Respondents besides the State Govt. and others. The petitioner claimed for reimbursement of its expenditure already incurred along with interest. NEEPCO filed its Affidavit in Opposition. Matter is under subjudice.
2.	Tato – II HE Project (700 MW), Arunachal Pradesh	➢ Based on the recommendation of the Evaluation Committee, the proposal for acquisition of the project has been approved by the BoD, NEEPCO in the 276th Board Meeting held on 10th February 2023. ➢ Approved SOP of the GoAP for handing /taking over of the project has been issued by the State Govt. vide its letter dated 17.01.2023. ➢ MOP has accorded in-principle approval for acquiring the project by NEEPCO vide letter dated 23.03.2023. ➢ Revised Draft quadripartite agreements and fresh MoA for the project has been received from GoAP on 05.05.2023 ➢ Signing of quadripartite agreement and subsequent MoA is expected shortly. ➢ Tender Documents for Diversion Tunnel is in advanced stage of completion. ➢ Preliminary infrastructure works has been initiated.

Sl. No.	Name of Project	Status
3.	Tato – I HE Project (186 MW), Arunachal Pradesh	➢ Post Due diligence, based on the recommendation of the Evaluation Committee, the proposal for acquisition of these projects has been approved by the BoD, NEEPCO in the 276th Board Meeting held on 10th February 2023. ➢ Approved SOP of the GoAP for handing /taking over of these projects has been issued by the State Govt. vide its letter dated 17.01.2023. ➢ MOP has accorded in-principle approval for acquiring these projects by NEEPCO vide letter dated 23.03.2023. ➢ NOC for taking up of the project has been received from GoAP on 26.04.2023 ➢ Revised Draft quadripartite agreements and fresh MoA for the Heo HEP and Tato – I HEP has been received from GoAP on 05.05.2023 ➢ Signing of quadripartite agreement and subsequent MoA is expected shortly.
4.	Heo HE Project (240 MW), Arunachal Pradesh	
5.	Naying HE Project (1000 MW), Arunachal Pradesh	➢ The Govt. of Arunachal Pradesh vide its letter dated 13.01.2023 has conveyed the allotment of the project to NEEPCO and has also circulated the MoA to be signed between the State and NEEPCO. ➢ The State cabinet has approved the revised MoA for the project and conveyed the same vide letter dated 06.04.2023. ➢ All necessary formalities for signing of MoA has been completed and signing of the same is expected shortly. ➢ The Revised Cost Estimates has been recast at Dec'2022 Price level.
6.	Hirong HE Project (500 MW), Arunachal Pradesh	➢ The Govt. of Arunachal Pradesh vide its letter dated 13.01.2023 has conveyed the allotment of the project to NEEPCO and has also circulated the MoA to be signed between the State and NEEPCO. ➢ The State cabinet has approved the revised MoA for the project and conveyed the same vide letter dated 06.04.2023. ➢ All necessary formalities for signing of MoA has been completed and signing of the same is expected shortly. ➢ The DPR shall be reviewed and revised after signing of MoA.
Other future hydro projects (ownership basis):		
1.	Wah Umiam St – III HEP (85 MW), Meghalaya	➢ CEA conveyed accord of appraisal to the Detailed Project Report (DPR) of the project on 26.07.2021. ➢ Expert Appraisal Committee (EAC), Govt. of India, recommended for grant of Environmental Clearance subject to Stage-I Forest Clearance (FC-I). ➢ All formalities for Forest Clearance, compensatory afforestation, land acquisition, etc. are under process at concerned departments of Govt. of Meghalaya. ➢ Clearance issued from Ministry of Tribal Affairs on 27.03.2023 in respect of Wah Umiam Stage-III HEP. ➢ Cost updation at October'22 PL is in process for submission to CEA. ➢ Main issues related to the project are - ➢ Forest Clearance (FC-I): Pending with State Forest Department, Govt of Meghalaya. ➢ Acquisition of 88 Ha Private Land is still under process at Land Record and Survey Department, Govt. of Meghalaya. ➢ Meghalaya PWD is yet to submit estimate of construction of Approach Road to be carried out as deposit work by them along with process for land acquisition. ➢ The above are being highlighted regularly to State Authorities. ➢ CMD NEEPCO vide letter dated 04.01.2023 to the Chief Secretary, GoM apprised the above-mentioned major issues for his intervention. ➢ The Joint Secretary, MOP took up the matter with the Chief Secretary, Govt. of Meghalaya on 30.09.2022 and 31.01.2023 for his intervention & directions to concerned Officials for early resolution of the issues.

Sl. No.	Name of Project	Status
2.	New Melling HEP (90 MW), Tawang District, Arunachal Pradesh	➢ MOA signed on 14.08.2021 with GoAP. ➢ Preliminary Environment Study completed. ➢ Based on a new PFR combining downstream Mago Chu HE Project, a 180 MW capacity Project has been observed to be feasible. The matter is being taken up with the State Government. ➢ Construction of site camp building is in progress. ➢ Meanwhile, the earlier developer filed a case at Gauhati High Court, Itanagar Bench impleading NEEPCO as one of the Respondents besides the State Govt. and others. The petitioner claimed for reimbursement of its expenditure already incurred along with interest. NEEPCO filed its Affidavit in Opposition. Matter is under subjudice.
3.	Wah Umiam HEP Stage – I (50 MW) & Wah Umiam HEP Stage – II (100 MW) in Meghalaya	➢ MOA signed for both the projects on 25.10.22. ➢ Updation of PFR at March'23 PL is in process including updating of hydrological series to ascertain the viability of the projects.
Projects in JV mode:		
1.	Kurung HEP (330 MW), Kra Daadi Dist., Arunachal Pradesh	➢ MOA signed on 27.01.2015 with GoAP. ➢ Regarding revisit of certain clauses of MOA as decided in the DIB meeting held on 18.01.2018, State Government responded in July2021 that renegotiation is not advisable at this stage. ➢ Revised PFR (updated up to March 22PL) is completed. TOR application and prior environmental clearance is under process. ➢ As advised by MOP in August 2021, Pre-investment approval was taken up with NTPC. ➢ NTPC vide letter dated 12.09.2022 informed that NEEPCO may go ahead for phase – I pre-investment activities (estimated amount ₹ 2473.00 Lakhs) in line with approval of NEEPCO Board. ➢ Work order for Detailed Topographic and Hydrographic Survey placed on 08.02.2023 and work is in progress. ➢ Acquisition of land on lease for accommodation to the officers and staffs is in process. ➢ Tender for engagement of consultant for EIA & EMP Study floated through GEM portal during Feb'23. TC evaluation is in process. ➢ Work awarded for preparation of DPR. ➢ Re-tendering for Geological Investigations (Drilling and Pit/Trench) is in process.
2.	Siang Upper Stage – II HE Project (3750 MW), Arunachal Pradesh.	➢ MoAs with the Govt. of Arunachal Pradesh (GoAP) was signed on 28.05.2013 for development of the Project in Joint Venture between NEEPCO, NHPC and the State Govt. ➢ NEEPCO prepared the PFR and started the DPR activities involving M/s RusHydro International (India) Pvt. Ltd. However, all activities on the project were kept on hold as per the advice of MoP vide letters dated 18.11.2015 and 02.02.2016 till a decision is taken in regard to development of the Siang Upper St – I & II projects in single stage or two stages. ➢ MoP in December 2021 indicated for possible allotment of Siang Upper HEP (10,000 MW) for development in joint venture between NEEPCO and NHPC. ➢ A joint team has been formed to liaise with the State Government of Arunachal Pradesh & local stakeholders and to carry out suitable analysis and preparation of evaluation reports for the projects. ➢ PFR for combined Upper Siang HEP of 10,000 MW Installed Capacity is being prepared by M/s NHPC. The documents available with NEEPCO pertaining to the project have been handed over to M/s NHPC in the last week of March 2022.

Sl. No.	Name of Project	Status
3.	Dibbin HEP (120 MW), Arunachal Pradesh	➢ Shareholders' Agreement (SHA) was signed with KSK Energy Ventures Ltd. (KSKEVL) and KSK Electricity Financing India Pvt. Ltd. (KSKEFIPL) on 12.06.2014 for development of the project through KSK Dibbin Hydro Power Pvt. Ltd. (KSKDHPPL). ➢ Consideration of e-flow as per post TEC Basin Study Report impacted the commercial viability of the project with reduction in installed capacity and design energy. ➢ Efforts to re-establish the commercial viability of the project did not materialize. ➢ Meanwhile, KSKEVL was adjudged bankrupt and liquidation process was initiated under NCLT. ➢ NEEPCO initiated legal recourse in terms of the SHA viz. Put Notice, appointment of Good Faith Negotiator, appointment of nominee arbitrator/ sole arbitrator respectively, which were not agreed by KSKEFIPL. ➢ The matter was subsequently referred to ICA for appointment of Arbitrator in respect of KSKEFIPL and as required, brief Statement of Claim was submitted on 20.02.2023 by NEEPCO.

PUMPED STORAGE PROJECTS:

In addition to the above, NEEPCO has identified two PSPs with combined installed capacity of 980 MW in existing hydro projects of the Corporation.

A) Panyor PSP (660 MW), Arunachal Pradesh:

- ✓ PFR preparation considering existing reservoir of Panyor Lower HPS (405 MW), Arunachal Pradesh as Lower Reservoir is completed.
- ✓ NOC for carrying out DPR preparation works for the project has been received from Govt. of Arunachal Pradesh.
- ✓ Consultancy services for preparation of DPR has been awarded on 21.04.2023.
- ✓ Topographical survey work using combination of DGPS, LiDAR, Drone/UAV is under progress.

B) Kopili PSP (320 MW), Assam:

- ✓ PFR considering existing Khandong reservoir of Kopili HPS (275 MW) as Upper Reservoir and existing Umrong Reservoir as Lower Reservoir has been completed.
- ✓ Revised PFR with enhanced installed capacity is under preparation.
- ✓ DPR activity shall be started after completion of the Revised PFR.
- ✓ NEEPCO has sought NOC from Govt. of Assam for preparation of DPR and related works vide letter dated 10.04.2023.

C) Indicated PSP Sites:

Further to the meeting (dated 11.03.2022) chaired by the Hon'ble Minister of Power and New & Renewable Energy, the MoP, GOI has on 8th Aug'2022, directed NEEPCO to study 8 (eight) potential PSP sites in Mizoram/Assam/Manipur, besides two other projects, viz. Panyor & Kopili PSPs being currently studied by NEEPCO and to take up with the respective state Governments for further allotment of feasible PSP schemes.

PFR preparation for three projects in Mizoram viz. 400 MW Nghasih, 1650 MW Tuiphai Lui & 1500 MW Leiva Lui are being taken up in the first phase by engaging the consultant. NOC for carrying out Preliminary Assessment, field visit and finalization of DPR for the above three PSPs received from Govt. of Mizoram on 06.12.2022. Work orders for Preparation of Pre-Feasibility Report (PFR) for the above 3 (three) PSPs have been issued on 01.05.2023.

RESEARCH & DEVELOPMENT (R&D):

Following R&D Projects were completed in the FY 2022-23:

- ***Design of an automatic communication system through Cloud computing using sensor based automated input for efficient operation of Ranganadi Hydro Electric Project (presently Panyor Lower Hydro Power Station) with due emphasis on downstream concerns up to confluence with Subansiri River.***

  The project was undertaken through IIT, Guwahati during the year 2019-20 with a completion target of three years. The project activities were completed including finalisation of sensor locations at site and model demonstration and the final report was received in January 2023. Implementation of the model at site is under consideration which shall facilitate early prediction/ warning of the water level in the downstream locations for any release through the gates.

- ***Smart illumination Controller at Agartala Gas Based Power Station, Tripura.***

  The project was taken up in-house in June 2022 with a completion period of 3 months and was completed as per schedule in September 2022. The model of the product with features like 'Light Averaging', 'Reverse Light Offset', 'Off Timer' etc. was demonstrated successfully. A few more such product are also manufactured for distribution to other locations of NEEPCO.

In addition to the above, following 2 (two) new R&D projects were taken up in the year 2022-23:

Sl. No.	Name of the R&D Proposal	In-House/ Collaborative	Total Financial Involvement (₹ in Lakhs)	Time Line from the date of Final Approval
1	R&D on Fire Detection System	In-House (Agartala GBPS)/ R&D, NEEPCO	4.72	2 (Two) years
2	Development of low cost sustainable and efficient electro-catalyst and proton exchange membrane for electrolyser assembly for producing Green Hydrogen	IIT, Guwahati	55.59 (excluding GST)	3 (Three) years
Total:			**₹ 60.31 Lakh**	

Expenditure incurred on Research & Development for the financial year 2022-23 is ₹ 59.88 Lakhs.

QUALITY ASSURANCE & INSPECTION:

NEEPCO has an established centralized Corporate Quality Assurance Department. A Model Quality Management System is in force to carry out quality assurance and inspection activities of power projects works under implementation/execution for ensuring quality of works. All product, service specifications, drawings, quality assurance documents, test results/ test reports, etc. in respect of tenders being processed from corporate C&P Wing are provided to QA&I department for planned and systematic actions. In respect of the field quality functions, the designated quality control officers of the respective sites / location exercise their day-to-day Quality Control checks as specified. However, the administration of overall Quality Control procedures/ formats and periodic surveillance check is under the ambit of corporate QA&I department.

The Corporate QA&I wing have performed 4 (four) nos. Surveillance Inspection of ongoing Rectification and Renovation work of KHPS, Assam and have submitted inspection reports accordingly. The Corporate QA&I wing have submitted Model Quality Assurance Plan (MQAP) of the following works to the Corporate

C&P wing for tendering purposes:

i) EM Restoration Works, KHPS (200 MW)
ii) Construction of HOP Residence including Security Room, Garage and Servant Quarter in Industrial Complex at Kameng Hydro Power Station, Arunachal Pradesh, Kimi, Arunachal Pradesh.
iii) Construction of Health Centre for Industrial Complex of Kameng Hydro Power Station, Kimi, Arunachal Pradesh.
iv) River Diversion Works pertaining to Tato – II Hydro Electric Project (700 MW), Arunachal Pradesh.
v) Design, fabrication, supply, installation & commissioning of penstock & steel in-liner of Khandong PS.

CERTIFICATIONS:

NEEPCO achieved accreditation and full compliance under Integrated Management Systems (IMS) as per the standards of ISO 9001:2015 (Quality Management System), ISO 14001:2015 (Environment Management System) and ISO 45001:2018 (Occupational Health & Safety Management System) in 16 (sixteen) locations, including all of its O&M Stations, Corporate Head Quarter and other important offices, in three groups. The group wise validities of the extant certificates are up to 05.07.2024 (for eight locations), 20.10.2024 (for one location) and 22.12.2025 (for seven locations).

Accreditation under Information Security Management System (ISMS) as per the standard of ISO 27001:2013 at 15 locations is under advanced stage of implementation.

Besides, accreditation of the 291 MW Assam Gas Based Power Station, Bokuloni, Assam under ISO 50001:2018 (Energy Management System) by the Bureau of Energy Efficiency (BEE), New Delhi is underway for which NEEPCO had signed MOU with the BEE on 17.11.2022.

E-GOVERNANCE / IT INITIATIVES:

In its effort of digitalization and in order to onboard efficiency in the Business Processes, NEEPCO is in the process of implementation of ERP in the organization. As on March, 2023 all locations of NEEPCO have attained Go-Live in a phased manner. The major Modules covered in the implementation are FICO, MM, PS, HCM including Payroll, SD, ISU (Operation), ISU (Commercial), FLM, DMS & PM. ERP being an integrated solution ensures transparency along with accurate and consistent data.

For hosting the current SAP ERP system, NEEPCO opted for Selection of MeitY empaneled Cloud Service Provider for Data Center (DC) and Disaster Recovery Center (DRC) on Govt. Community Cloud. Migration to the hosting platform of the Cloud Service Provider for the ERP DC & DRC is completed.

Inline to the implementation of ERP, the Material and Asset reclassification and recodification tasks were also extensively undertaken and separate software have been made available for streamlining the recodification and generation of new Asset IDs and Material Codes for the SAP system.

As a part of the IT improvement, network connectivity to all power stations, offices and on-going construction project sites in the Organization has been enhanced. As per Advisory, IT Security Audit for the Infrastructure via CERT IN empaneled Auditor has been initiated. Cyber Security Awareness programs are being organized in all projects / offices on a routine basis for the employees.

Initiatives have also been undertaken to identify Critical Information Infrastructure (CII) as per Govt. guidelines. As per requirement and guidelines, IT Policy Documents and other Standard Operating Procedures are being revised and circulated.

The IT infrastructure and components (Hardware, Software, Firmware) are being duly reviewed and aligned with the business needs of the Organization. NEEPCO is in the process of acquiring an Information Security Management System via ISO 27001 Certification for best practices in the domain.

PUBLIC PROCUREMENT POLICY FOR MICRO & SMALL ENTERPRISES (MSES):

The total value of goods and services procured from MSEs (including MSEs owned by SC/ST and women entrepreneurs) are as shown below:

Sl. No.	Description	2020-21	2021-22	2022-23
1	Total procurement in ₹ Lakhs	71116.11	54089.59	6197.65
2	Total procurement from MSEs in ₹ Lakhs	4613.32	7741.10	2198.20
3	Total procurement from MSEs owned by SC/ST entrepreneurs in ₹ Lakhs.	551.59	1558.51	86.89
4	Total procurement from MSEs owned by women entrepreneurs in ₹ Lakhs.	66.62	135.40	280.64
5	Percentage of procurement from MSEs out of total procurement.	6.49%	14.31%	35.47%
6	Percentage of procurement from MSEs owned by SC/ST entrepreneurs out of total procurement.	0.78%	2.88%	1.40%
7	Percentage of procurement from MSEs owned by women entrepreneurs out of total procurement.	0.09%	0.25%	4.53%

Note: Data as updated in Sambandh Portal, Considering Exceptions granted by MoMSME & MoP.

Note:

1. *Minutes of the meeting held under the Chairmanship of Secretary (Power) on 25.08.2022 to review the progress achieved in procurement made through GeM-reg (OM Circulated vide F.No.3/18/2020-FIN(Part-1) Dated 30.08.2022)*
2. *MOM held under the chairmanship of Additional Secretary & Development Commissioner (MSME) to consider the proposal of CPSEs for Exemption. (Circulated vide F.No. 21(9)/2017-MA(Pt-I)(E-17230) Dated 31.08.2021 by O/o Development Commissioner, MSME, MoMSME and requested for implementation by NTPC vide email Dated 27.07.2022)*

Procurement from GeM: NEEPCO has achieved 93.44% of procurement through GeM Portal during the FY 2022-23.

RIGHT TO INFORMATION (RTI):

The Right to Information Act, 2005, is implemented to promote accountability, transparency and efficiency. Apart from receiving off -line RTI applications, NEEPCO is also linked to the online system of RTI request & Appeal Management Information Systems, "RTIMIS" portal. Through this portal, on-line RTI applications are processed. Details of First Appellate Authority, Nodal officer, Public Information Officer (PIO) and Central Public Information Officers (CPIOs), are uploaded in the Corporate website.

FINANCIAL DISCUSSION AND ANALYSIS REPORT

A detailed discussion and analysis on financial statements of North Eastern Electric Power Corporation Ltd (NEEPCO/the Company) is furnished below.

FINANCIAL POSITION

The Balance Sheet items are as discussed under:

1. **Property, Plant & Equipment (PPE), Capital Work-in- Progress, Intangible assets and Intangible assets under development**

The PPE, Capital work-in-progress, Intangible assets and Intangible assets under development of the Company are detailed as under:

₹ *in lakhs*

Particulars	As at March 31		% Change
	2023	2022	
Gross block of Property, Plant & Equipment (PPE) (Note-2)	18,51,396.21	18,19,243.89	1.77%
Net block of Property, Plant & Equipment (PPE), (Note-2)	12,42,505.49	12,91,027.95	-3.76%
Capital work-in-progress (CWIP) (Note-3)	1,14,194.44	61,842.58	84.65%
Gross block of Intangible assets (Note-4)	10,805.47	10,519.66	2.72%
Net block of Intangible assets (Note-4)	8,664.64	9,181.06	-5.62%
Intangible assets under development (Note-4A)	96.00	257.77	-62.76%

During the year, increase in gross block of PPE is ₹ 32,152.32 lakhs (i.e., increased by 1.77%) and decrease in net block is ₹ 48,522.46 lakhs (i.e., decrease by 3.76%) over the previous year and as such, there is no significant increase in gross block. Decrease in PPE net block has resulted from depreciation of assets of the Company accrued during the current financial year, which is more than asset addition in books of NEEPCO during the said year.

CWIP during the current financial year is increased by ₹ 52,351.86 lakhs (i.e., increased by 84.65 %) mainly due Kopili (4 X 50) MW HPS & Khangdong (2 X 25) MW HPS , which are under Renovation & Modernization.

During the year, increase in gross block of Intangible assets is ₹ 285.81 lakhs (i.e., increased by 2.72%) over the previous year is mainly due to capitalization of "Software" relating to ERP/SAP. Further, the Intangible assets under development decreased by ₹ 161.77 lakhs (i.e., decreased by 62.76 %) during the current financial year due to capitalization of "Software" relating to ERP/SAP.

2. Investment in subsidiary & Joint Venture companies (note-5)

(₹ in lakhs)

Particulars	As at March 31	
	2023	2022
Investment in Joint ventures	2793.00	2793.00
Less: Provision	2793.00	2793.00
Total	**Nil**	**Nil**

Investment in the Joint Venture companies as on 31.03.2023 is as under:

(₹ in lakhs)

Name of Company	Amount
KSK Dibbin Hydro Power Pvt Ltd	2793.00
Less: Provision	2793.00
Net	Nil

The Company invested an amount of ₹ 2793.00 lakhs, being 30% shareholding of NEEPCO in the JV Company as per agreement. NEEPCO is under the process of exploring various scopes & opportunities for ensuring viability of M/s KSK Dibbin hydro Power Pvt Ltd, the Joint Venture Company, including engagement of legal expert to protect the Company's (NEEPCO) interest for the investment made. However, considering commercial non-viability of the project in its present form as observed by inter-disciplinary committee of the Company, provision of an equivalent amount has been made in books of NEEPCO.

3. Non-current financial assets (note-6 and note-8)

Non-current financial assets mainly comprise of loans &advance to employees, advance tax refundable, capital advances etc.

(₹ in lakhs)

Particulars	As at March 31		% Change
	2023	2022	
Loan to Employees (Note-6)	28.19	26.16	7.76%
Other non-current assets (Note-8)	18,179.20	18,303.10	-0.68%
Total	**18,207.39**	**18,329.26**	**-0.66%**

Loans to employees includes interest bearing computer advance, interest free furniture advance & multipurpose advance, whereas other Non-Current Assets includes Capital advances which are expected to be realized after a period of 12 months from the Balance Sheet date. It includes Capital advances to contractors (Un-secured), Deferred foreign currency fluctuation assets, Interest accrued on Advances and Advance Tax refundable.

The advance to contractor unsecured, considered good after adjustment of doubtful debts amounts to ₹ 14,783.20 lakhs as compared to the previous year's amount of ₹ 14,920.68 lakhs i.e, an decrease by Rs 137.48 lakhs. Advance Tax refundable has increased by ₹ 64.93 lakhs & stood at ₹ 2343.46 lakhs as on 31st March 2023 as against ₹ 2278.53 lakhs as on 31st March 2022. The said net increase in Advance Tax refundable during the current FY has resulted from accrual of additional refundable tax amounting to ₹398.41 lakh for the AY 2020-21 and reclassification of tax refundable amounting to ₹333.48 lakh for the AY 2014-15 from "Non-current asset" to "Current asset".

4 Current assets (note-9 to note-15)

The current assets as at 31 March 2023 and 31 March 2022 and the changes therein are as follows:

(₹ in lakhs)

Particulars	As at March 31		Year to Year change	
Current assets	**2023**	**2022**	(₹ in lakhs)	**In %**
Inventories (Net of provision) (Note-9)	12,516.05	15,099.24	-2,583.19	-17.11%
Trade receivables (Note-10)	94,429.78	48,776.49	45,653.29	93.60%
Cash & cash equivalents (Note-11)	1,461.34	4,344.49	-2,883.15	-66.36%
Bank balances other than cash and cash equivalents (Note-12)	291.50	1,009.06	-717.56	-71.11%
Others (Note-13)	23,225.20	35,806.83	-12,581.63	-35.14%
Current Tax Assets (Net) (Note- 14)	-969.4	141.2	-1,110.60	-786.54%
Other current assets (Note-15)	3,894.05	3,149.91	744.14	23.62%
Total current assets	**1,34,848.52**	**1,08,327.22**	**26,521.30**	**24.48%**

(a) Inventories (note 9)

Inventories are valued at costs or net realizable value (NRV), whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average cost formula and NRV is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

Physical verification of inventories is done by the management once a year. Inventories were valued at ₹ 12,516.05 lakhs and ₹ 15,099.24 lakhs (net of provision) as on 31st March, 2023 and 31st March, 2022 respectively.

(b) Trade Receivables (note 10)

"Trade receivables" are dues receivable from the beneficiaries for sale of electricity. The Trade Receivables as on 31st March, 2023 were ₹ 94,429.78 lakhs as compared to ₹ 48,776.49 lakhs as on 31st March, 2022, i.e., an increase of 93.60 % during the year. Trade receivables as on 31.03.2023 and 31.03.2022 includes "Unbilled amount" ₹ 44,382.59 lakhs and ₹ 24,930.37 lakhs respectively.

(c) Cash & Cash Equivalents and Bank balances other than Cash & Cash equivalent (note 11 and 12)

It consists of (i) current accounts maintained with the Bank, (ii) Stamps in hand and (iii)Restricted money on the Balance Sheet date. As on 31st March, 2023 and 31st March, 2022, Cash & Cash Equivalents (including Bank balances other than Cash & Cash equivalent) of the Corporation are ₹ 1752.84 lakhs and ₹ 5353.55 lakhs respectively (which includes Restricted money amounting to ₹

291.50 lakhs and ₹ 1009.06 lakhs respectively) and thus a decrease by 67.26% during the year, which has resulted mainly due to the main reason for decrease in balances with bank and reduction in restricted money balance due to settlement of contractor's claim for works executed under DDUGVY scheme of GOI..

(d) Others (note 13)

Others includes balances on account of Account receivables unsecured, considered good), Claim receivables, Contract Assets, Advance to staff and Security deposits expected to be settled within 12 months from the close of the current financial year. As on 31st March, 2023, amount stood at ₹ 23,225.20 lakhs as against ₹ 35,806.83 lakhs on 31st March 2022. There is a net decrease of ₹ 12,581.63 lakhs **(i.e.,** 35.14%) during FY 2022-23 over the previous year due to decrease in Contract Assets by ₹ 8521.62 lakhs, decrease in Claim Receivable by ₹ 3562.67, decrease in advance to staff by ₹ 241.93 lakhs, net decrease in Others by ₹ 255.41 lakhs as

(e) Current Tax Assets (Net) (note 14)

Current	1592.91	1597.96
Non-Current	21,209.27	22,797.99
Deferred foreign currency fluctuation liabilities	9600.09	6339.74
Total	**32,402.27**	**30,735.69**

Deferred revenue arising from Government Grant

- *Grant from MDONER:*
  As per the Investment Approval sanctioned vide the Ministry of Power's letter no.7/7/2009-H-I dated 14th January'2011, an amount of ₹ 30,000.00 lakh has been sanctioned by the Ministry of Development of North Eastern Region (MDONER) as a part of the approved funding pattern for the Tuirial Hydro Power Station, Mizoram. The total amount of ₹ 300.00 crores are included in Grant in Aid which is subjected to amortization during normative useful life of the project since its commissioning. Amount amortized during the FY 2022-23 amounts ₹ 1584.00 lakhs (Previous year ₹ 1584.00 lakhs). An equivalent amount has been recognized as income in the statement of Profit & Loss during the year.

- *Govt. subordinate loan:*
  Govt. of India has approved a Sub-ordinate loan amounting to ₹ 29,196.42 Lakh to NEEPCO for implementation of Tuirial HPS with interest @1% per annum payable from the "Date of Commercial Operation" of the project. Of the aforesaid loan amount, NEEPCO has received ₹ 29,096.42 lakh till 31.03.2015 and the balance ₹ 100.00 lakh has been received during the FY 2015-16. The loan amount (₹ 29,096.42 lakh) received till 31.03.2015 has been recognized in books of NEEPCO as on 01.04.2015 (Ind AS Transition date) at its carrying value in compliance to the Ind AS 101 (Exception to the retrospective application). However, for the loan amount (₹ 100.00 lakh) received during the FY 2015-16, the benefit of the loan due to below market rate of interest (considered SBI base rate @9.70% effective as on Jun'15) amounting to ₹ 82.64 lakh has been treated as a govt. grant and recognized in the Books of NEEPCO accordingly.

- *Spares out of Grant in Aid:*
  Total value of spares purchased out of "Grant in aid" received from the Central Govt. amounts to ₹ 3659.53 lakh and accordingly, recognized in books of Assam Gas Based. During the current period, repairs & maintenance has been debited and Stock of Spares under "Grant in aid" has been credited by an amount of ₹ 8.91 lakhs (Previous year ₹ 13.96 lakhs). An equivalent amount has been recognized as income in the statement of Profit & Loss during the year.

- *Deferred Foreign Currency Fluctuation liabilities:*
  "Deferred foreign currency fluctuation liability" recognized in books of the Company and balance continued as on 31.03.2023 amounts to ₹ 9600.09 lakhs (Previous year ₹ 6339.74 lakhs) on accounts of FERV relating to foreign loans (ECB from SBI Singapore and Foreign currency loan from KfW, Germany) drawn prior to 01.04.2016.

Result from Operations:

I. Total revenue (Note-27 & Note-28)

(₹ in lakhs)

Sl.	Particulars	FY 2022-23	FY 2021-22	Change
1	Sale of energy	3,49,174.31	2,41,233.75	44.75%
2	Sale of energy through trading	91,844.22	64,842.06	41.64%
3	Revenue from DSM	3,962.75	2,278.42	73.93%
4	Revenue from RRAS	1254.35	256.87	388.32%
5	FERV (Net) from the beneficiaries	467.51	405.38	15.33%
6	NERLDC Fees & other charges from beneficiaries	596.86	474.78	25.71%
7	Deferred revenue – Govt. grant	1,592.90	1,597.96	-0.32%
8	Interest from the beneficiaries	6,762.37	9,595.11	-29.52%
	Revenue from operation	**4,55,655.27**	**3,20,684.33**	**42.09%**
9	Other income	1,408.23	9,512.34	-85.20%
	Total Revenue	**4,57,063.50**	**3,30,196.67**	**38.42%**

Revenue from operation (note 27):

NEEPCO sells electricity to bulk consumers comprising of the state-owned electricity utilities and power departments in the North Eastern Region (NER) (excluding Sikkim) as well as power departments outside NER (from Kameng HPS) under long term Power Purchase Agreements (PPAs) and as per the allocation made by the Ministry of Power for each of the beneficiary States. In addition, the Company resorted to Power trading through M/s NTPC Vidyut Vyapar Nigam Ltd (NVVN) for merchant power generated by Kameng HEP and Surplus power available to the Company on account of Un-requisitioned Energy (URS). Total revenue from operations during 2022-23 was ₹ 4,55,655.27lakhs (previous year ₹ 320684.33 lakhs,) which constitutes 99.69% (previous year 97.12 %) of total income of the Company for the year.

With total installed capacity of 2057 MW, the Company has achieved a generation of 8491.93 MU during the current financial year as compared to total generation of 8120.29 MU during the previous financial year.

Other Income (note 28)

'Other income' mainly comprises interest on bank deposits, delay payment surcharge, provision written back, and miscellaneous receipts.

Other Income was ₹ 1408.23 lakhs during the FY 2022-23 as compared to ₹ 9512.34 lakhs in FY 2021-22. The decrease in other income is mainly due to decrease in Delay payment surcharge (by ₹ 3603.12 lakhs), decrease in Misc. receipts (by ₹ 4769.40 lakhs), Increase in Interest on bank deposits by Rs. 370.84 lakh and decrease (net) for Others by ₹ 102.43 lakh.

II. Expenditure (Note-29 to Note-33)

The total expenditure in FY 2022-23 increased by 32.02 % as compared to the previous year, which is due to increase in Fuel Cost, Employee benefits expenses, other expenses & Depreciation and decrease in Finance cost.

(₹ in lakhs)

Particulars	2022-23	2021-22	Increase/ (Decrease)	Change (%)
Fuel cost (Note 29)	1,47,687.42	63,488.96	84,198.46	132.62%
Employee benefit expense (Note 30)	51,406.14	46,518.08	4,888.06	10.51%
Finance costs (Note 31)	53,667.13	58,198.79	-4,531.66	-7.79%
Depreciation and amortization expense (Note 32)	83,550.16	80,781.94	2,768.22	3.43%
Other expenses (Note 33)	52,902.05	45,824.08	7,077.97	15.45%
Total expenses	**3,89,212.90**	**2,94,811.85**	**94,401.05**	**32.02%**

Fuel Cost

Price of fuel (natural gas) utilized in thermal generating stations of NEEPCO is governed by rate as decided and notified by the Ministry of Petroleum and Natural Gas (MoPNG), Government of India, except for Tripura Gas Based Power Station (TGBPS), for which applicable price is governed by agreement drawn between NEEPCO and ONGC for supply of fuel. Total fuel cost consists of cost of gas and transportation expenses thereon.

Increase in fuel cost during the Current financial year (CY) by ₹ 84,198.46 lakhs over the comparative previous financial year was primarily due to increase in MoPNG governed Domestic Gas Price per MMBTU

increased (avg.) by 212.85% (Apr'22 to Sept'22 @$6.10 & Oct'22 to Mar'23 is @ $8.57 and Apr'21 to Sept'21 @$1.79 & Oct'21 to Mar'22 is @ $2.90).

Expenditure on fuel (gas) constituted 37.95 % of the total expenditure during the CY as against 21.54 % during the PY.

Employees' Remuneration and Benefits

Employees' remuneration and benefits includes salaries and wages, contribution to Provident Fund and other superannuation benefits, leave encashment and Staff welfare expenses. These expenses accounted for 13.21 % of NEEPCO's total expenditure during the year as compared to 15.78 % in the previous year. Increase in employee's expenses during the CY in comparison to the PY by ₹ 4888.06 lakhs is mainly due to the provision made against performance related pay (PRP) in the Current Financial Year.

Finance Costs

NEEPCO's finance costs include interest expenses on borrowings as well as other finance charges, such as, Guarantee fee on foreign loan, Exchange rate fluctuation etc. All borrowings including foreign currency borrowings are denominated in Indian Rupees for accounting purposes.

During the year, finance Cost (revenue account) decreased by 7.79% to ₹ 53,667.13 lakhs from ₹ 58,198.79 lakhs in the previous year. Decrease in Finance cost during the CY in comparison to the PY by ₹ 4531.66 lakhs is mainly due to repayment of Bonds (19th Issue, 14th issue, 13th issue, and 12th issue) and pre-payment of ECB loan. Finance cost accounted for 13.79 % of NEEPCO's total expenditure during the year as compared to 19.74 % in the previous year.

Depreciation

Depreciation is charged on Straight Line Method following the rates & methodology as per the Central Electricity Regulatory Commission (Terms and conditions of Tariff) Regulations 2019 notified on 07th March, 2019 & amendments thereto, except few exceptions as included in approved Accounting Policy of the Company. During the FY 2022-23, depreciation increased by 3.43% to ₹ 83,550.16 lakhs during the current year as against ₹ 80,781.94 lakhs in FY 2021-22. Increase in depreciation during the CY in comparison to the PY by ₹ 2768.22 lakhs is mainly due to assets capitalization during the current year.

Depreciation accounted for 21.47 % of NEEPCO's total expenditure during the year as compared to 27.40 % in the previous year.

Other Expenses

Other expenses (including generation and administration expenses) consists of repair and maintenance of Plant assets, general establishment/administrative expenses, Insurance charges, Trading expenses, NERLDC fees & charges, Corporate Social Responsibility expenses, Security expenses, transport expenses, electricity duties, write offs etc. These expenses represented approximately 13.59% of NEEPCO's total expenditure during the year as compared to 15.54% in FY 2021-22. In absolute terms, these expenses increased by ₹ 7077.97 lakhs (i.e. 15.45 %) over the previous year mainly due to increase in Uniform & Liveries ₹ 1012.02 lakhs, Subscription & membership fees ₹ 214.99 lakhs, Miscellaneous expenses ₹ 759.12 lakhs, EDP Expenses Rs. 512.07 lakhs, RRAS expenses ₹ 3898.44 lakhs, GoI schemes (KUSUM and RTS) ₹ 482.19 lakh and Others (Net) ₹ 199.14 lakhs.

Movement in Regulatory Deferral Accounts Balances (Regulatory Income)

In compliance to Ind AS 114 – Regulatory Deferral Accounts and in line with the Guidance Note on "Accounting of Rate Regulated Activities" issued by the Institute of Chartered Accountants of India,

"Regulatory Assets" has been created and corresponding "Regulatory Income" has been recognized in books of NEEPCO.

During the FY 2022-23, the Company had recognized an amount of ₹ 6950.66 lakhs (previous year ₹ 7960.47 lakhs) as "Movement in Regulatory Deferral Accounts balances" (Net of tax ₹ 5482.47 lakhs and ₹6340.59 lakhs respectively) in the Statement of Profit & Loss as Regulatory income. The said "Regulatory Income" recognized during the CY on account of the following factors:

(i) **Depreciation - Tuirial HEP**

CERC determined Annual Fixed Cost (AFC) of Tuirial Hydro Power Station (THPS) of NEEPCO is in consideration of depreciation @2% in line with the decision of the Public Investment Board (PIB) of the Govt. of India for determining Revised Cost Estimate (RCE) of the generating station (THPS).

The rates and methodology as per the CERC Tariff Regulations based on which depreciation for THPS has been calculated and charged to the Statement of Profit & Loss of NEEPCO for the period under consideration vary from that allowed to recover through tariff as per the CERC order. Due to higher rate of depreciation as per the CERC Tariff Regulations, depreciation charged to the Statement of Profit & loss Account for the first 12 (twelve) years of operation the generating station (THPS) since its "Date of Commercial Operation (COD)" will be more than that of the depreciation recoverable through tariff, which will be reversed in future during its remaining period of normative useful life of the plant from the 13th year of its COD. Accordingly, the lower depreciation realized as "Revenue" for the generating station during the earlier period (till 12th year) of its operation will be recovered/adjusted during its later useful period.

In view of above, the difference of depreciation to the extent recoverable/adjustable in future period has been recognized on an undiscounted basis as "Regulatory deferral account debit balances" by crediting to the "Movement of Regulatory Deferral Account Balances". The difference of depreciation to the extent recoverable/adjustable in future period recognized during the CY on an undiscounted basis amounts to ₹ 4113.61 lakhs (PY ₹ 4117.64 lakhs) as "Regulatory Income".

(ii) **Deferred Tax adjustment against deferred tax liabilities**

Deferred tax accrued during the year on income generated from sale of electricity and further adjustable/reversal in future periods when the related deferred tax liability will form a part of current tax & recoverable from the beneficiaries amounting to ₹ 10542.90 lakhs has been accounted as "Deferred tax adjustment against deferred tax liability" during the CY (₹ 5153.65 lakhs during the PY), which has been recognized as "Regulatory income" and presented as a movement in "Regulatory Deferral Accounts Balance" in Books of the Company.

(iii) **Deferred tax liabilities recoverable from beneficiaries**

As per Regulation 67 of the CERC (Terms and Conditions of Tariff Regulations) 2019, Deferred tax liabilities for the period upto 31st March, 2009 whenever they materialize shall be recoverable directly by the generating companies or transmission licensees from the then beneficiaries or long term customers, as the case may be. Against the balance of ₹ 38623.96 lakhs as on 01.04.2022 on accounts of "Deferred tax recoverable", an amount of ₹ 1452.47 lakh has been materialized during the CY (₹ 1310.82 lakhs during the PY) and accordingly reversed/adjusted.

(iv) **Employees benefit expenses – Gratuity**

In pursuant to the order dated 23.01.2023 issued by the Central Electricity Regulatory Commission (CERC) in Petition no. 718/MP/2020, ₹ 4793.47 lakh relating to recovery of "Employees benefit expenses" has been adjusted based on bills raised on the beneficiaries for realization on the said amount.

(v) **Exchange differences**

Exchange differences amounting to ₹ 1459.91 lakh has been revised during the year in consideration to the single part tariff issued by the CERC for Pare HPS of NEEPCO.

Profit before Tax

The profit of the Company before tax and exceptional items is tabulated below;

(₹ in lakhs)

Particulars	As on 31st March, 2023	As on 31st March, 2022
Total Income	**4,57,063.5**	**3,30,196.67**
less:

HUMAN RESOURCES AND HRD

As on 31.03.2023, the Corporation had 1515 numbers of regular employees including 1 (one) Board Level Executive (excluding CVO). Out of which, 666 are Executives, 204 are Supervisors and 644 are Workmen.

Analysis of Age Profile of regular employees and its findings are as under:

Age Group	Total	Percentage of employees
Up-to 30 years	33	2%
31 - 40 years	207	14%
41-50 years	320	21%
51-60 years	957	63%

Superannuation profile in the next 5 (five) years:						
Cadre	**2023-24**	**2024-25**	**2025-26**	**2026-27**	**2027-28**	**TOTAL**
Board Level	-	-	-	-	1	1
Executive	54	51	57	56	47	265
Supervisor	14	29	18	25	13	99
Workmen	31	44	32	44	49	200
TOTAL	**99**	**124**	**107**	**125**	**110**	**565**

The above findings indicate that 63% of manpower in the Corporation are in the age brackets of 51 years and above and about 565 numbers of employees will be superannuating by the year March, 2028. This figure suggests that the attrition rate in the Corporation is high and needs immediate attention.

During the year 2022-23, a total number of 614 employees participated in training and total training man days achieved was 2884.

Emphasis of Matter

We draw attention to the following matters in the Notes to the Standalone Financial Statements :

1. Note No. 2 (v) regarding Capitalization of Rs. 2485.44 lakhs being Capacity Charges on Transmission assets (including interest thereon) billed by PGCIL, for earlier years.
2. Note No. 27(b) read with Significant Accounting Policy 17.1(a)(ii) regarding sale of energy includes Rs. 10045.51 lakhs being the revenue for the year recognized on the basis of provisional rate.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below as the key audit matters to be communicated in our report.

Sl. No	Key Audit Matter	Addressing the Key Audit Matter
1	**Recognition and Measurement of Revenue from sale of energy** The Company records revenue from sale of energy based on tariff approved by the Central Electricity Regulatory Commission (CERC) and where final tariff is yet to be approved by CERC, provisional revenue is recognized on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through tariff petition. Where neither approved tariff is available nor petition is pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. (Refer note no. 27 read with significant accounting policy no. 17.1(a)	**Our Audit Procedure :** We have obtained an understanding of the CERC tariff regulations, orders, circulars, guidelines and the company's internal circulars and procedures in respect of recognition and measurement of revenue from sale of energy comprising of capacity charges and energy charges and adopted the following Audit Procedures : - Evaluated and tested the effectiveness of the company's design of internal controls relating to recognition and measurement of revenue from sale of energy. - Verified the accounting of revenue from sale of energy as well as accounting of provisional revenue from sale of energy based on provisional tariff computed as per the principles adopted by the Company.

2	**Impairment Assessment of carrying value of Property, Plant & Equipment (PPE)** The Company has a material operational asset base (PPE) relating to generation of electricity and is one of the components for determining the tariff as per the CERC Tariff Regulations, which may be vulnerable to impairment. Carrying value of PPE requires impairment assessment based on the future expected cash flows associated with the Power Plants (Cash Generating Units). (Refer Note No. 50 read with the Significant Accounting Policy No.5)	**Our Audit Procedures :** We have adopted the following Audit Procedure: - Read the Company's Accounting Policies with respect to impairment in accordance with Ind AS 36 "Impairment of Assets". - Performed test of controls over key financial controls related to accounting, valuation and recoverability of assets through inspection of evidence. - Performed substantive audit procedures including : i) Obtained the management's impairment assessment. ii) Evaluated the key assumptions including projected generation, fuel prices, exchange rate, energy prices, post power purchase agreement period and weighted average cost of capital by comparing them with prior years and external data, where available. iii) Obtained and evaluated the sensitivity analysis. - Reliance has been placed on management projections for completion timeline, volume of generation and resultant revenue based on expected tariff there against.
3	**Contingent Liability** There are number of litigations/claims against the company pending before various forums. Claims made against the company are significant and the management's judgement is required for estimating the amount involved and their proper disclosure.	**Our Audit Procedures :** We have obtained the details of cases/disputes/claims pending before various courts/ Arbitrations/ quasi judicial Forums etc. as on 31.03.2023 from the Management along with the latest status and management's assessment for the same.

	Disclosure of the same involves a significant degree of Management's judgement in interpreting the cases and assessment of the probability of occurrence of the liability which may be subject to Management bias. (Refer note no. 36 to the Standalone Financial Statements.)	We have also obtained the Company's Accounting policy in this regard and their disclosure in notes to the Standalone financial statements for the same. We understood and tested the design and operating effectiveness of control as established by the Management for obtaining all relevant information for pending litigation/ cases. We discussed with Management regarding their basis of assessment and any material development thereto and also possible outcomes of the claims/ disputes.

Information other than the Standalone Financial Statements and Auditors Report thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Management Discussion and Analysis Report, Director's Report including Director's Responsibility Statement, Report of Corporate Governance and other informations included in the Annual Report, but does not include the standalone financial statements and our auditors' report thereon. The Other Information as stated above is expected to be made available to us after the date of this Auditors' Report.

Our opinion on the standalone financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially in consistent with the standalone financial statements or our knowledge obtained during audit or otherwise appears to be materially misstated.

When we read the Other Information as stated above and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and describe necessary actions required as per applicable laws and regulations.

CHARTERED ACCOUNTANTS

Responsibilities of Management and Those charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, Changes in Equity and the Cash Flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued there under and as per the Electricity Act, 2003 and relevant Central Electricity Regulatory Commission (CERC) regulation and other recognized accounting practices and policies.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an Auditors' Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing (SAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an Audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also;

L.K.KEJRIWAL & CO.
CHARTERED ACCOUNTANTS

- Identify and assess the risk of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditors' Report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditors' Report. However, future events or conditions may cause the company to cease to continue as a going concern; and

- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures and whether the Standalone Financial Statements represent the under lying transactions and events in a manner that achieves fair presentation.

  Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decision of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in

  i) Planning the scope of our audit work and in evaluating the results of our work; and
  ii) To evaluate the effect of any identified misstatements in the Standalone Financial Statements.

  We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

L.K.KEJRIWAL & CO.
CHARTERED ACCOUNTANTS

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of Section 143(11) of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanation given to us, we give in the 'Annexure A' a statement on the matters specified in the paragraphs 3 and 4 of the order, to the extent applicable.

2. As required by section 143(5) of the Act, on the basis of such checks of the books and records of the company as we considered appropriate and according to the information and explanations given to us, we give in the 'Annexure B' a report on the directions issued by the Comptroller and Auditor General of India.

3. As required by section 143(3) of the Act, we report that :

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The Balance Sheet, the statement of Profit and Loss (including other comprehensive income), the statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.

   d) In our opinion, the aforesaid Standalone Financial Statements comply with the Indian Accounting Standards specified under section 133 of the Act.

Annexure A to the Independent Auditors' Report

(Refer to in Paragraph 1 under "Report on other Legal and Regulatory Requirements" Section of Independent Auditors' Report of even date on the Standalone Financial Statement for the year ended 31st March 2023)

Based on the Audit procedure performed for the purpose of reporting a true and fair view on the Standalone Financial Statement of the Company and taking into consideration the information and explanation given to us and the books of accounts and other records examined by us in the normal course of audit and to the best of our knowledge and belief, we report that;

(I) (a) (A) The Company has generally maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment. However preparation of detailed PPE Register in ERP SAP is still under progress at some of the units.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) There is a regular programme of physical verification of all Property, Plant and Equipment on an annual basis by the management. Though no material discrepancies were noticed on such verification, in our opinion, the details and records maintained in physical verification reports need improvement having regard to the size of the company and the nature of its business.

(c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in the financial statements are held in the name of the company, except in the following cases :

Description of Property	Gross Carrying value (Rs. in lakhs)	Held in name of	Whether Promoter, Director or their relative or employee	Period held- indicate range where appropriate	Reason for not being held in name of company
183.19 Hectare of land at West Jaintia Hills, Meghalaya, for NEEPCO Project -Kopli Hydro	452.68	Smt. Ibil Dkhar and others (160 nos. of petitioners)	No	10.09.1984	This land is under litigation due to claim lodged by 160 land owners for enhancement

Power Station -Stage II					of land compensation. The matter is pending with the special Judge (Judicial) West, Jaintia Hills, Meghalaya
Land at Tezu, Arunachal Pradesh	1.28	Not available	Not ascertainable	Not available	Land documents not available
Land and Building of CMD quarter/ Directors Guest House at Laitkore, Shillong	Value of Building – 222.88	Not available	Not ascertainable	Not available	Land documents not available. Land not appearing in Books.

(d) The Company has not revalued its Property, Plant and Equipment (including right to use assets) or intangible assets or both during the year.

(e) As per information and explanation given to us, no proceedings have been initiated or are pending against the Company for holding any Benami Property under the 'Benami Transactions (Prohibition) Act, 1988' and Rules made thereunder.

(II) (a) There is a regular programme of physical verification of inventory on an annual basis. In our opinion, the coverage and procedure of such verification by the management is appropriate and as per information and explanation given to us, discrepancies of 10% or more in the aggregate for each class of inventory were not noticed on such physical verification. However, in our opinion, the details & records maintained in respect of physical verification of inventory needs improvement.

(b) The Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks or financial institutions on the basis of security of current assets during the year and the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the company.

508, Ashiana Towers, Exhibition Road, Patna – 800 001

L.K.KEJRIWAL & CO.
CHARTERED ACCOUNTANTS

(III) According to the information and explanations given to us, the company has not, during the year, made investments in, or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured to companies, firms, limited liability partnerships or any other parties. Accordingly, the provisions of clause (III)(a)(A) and (B), (b),(c), (d),(e) and (f) are not applicable to the company and hence not commented upon.

(IV) The Company has not granted any loans or given any guarantee and security covered under sections 185 and 186 of the Companies Act, 2013. In respect of investment in the Joint Venture Company, the Company has complied with the provisions of sections 185 and 186 of the Companies Act, 2013.

(V) According to the information and explanations given to us, the company has not accepted any deposit or amounts which are deemed to be deposits, covered by sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the Rules framed thereunder.

(VI) We have broadly reviewed the accounts and records maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (I) of section 148 of the Companies Act, 2013 read with companies (Cost records and Audit) Rules, 2014, as amended, and we are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made detailed examination of the records with a view to determine whether they are accurate and complete.

(VII) (a) According to the information and explanation given to us, Undisputed Statutory dues including Goods and Service tax, Provident Fund, Income tax, Cess and other Statutory dues have generally been regularly deposited with the appropriate authorities, with the exception for those dues, where the last date of payment has either been extended or the payment could not be made due to unavailability of deductee's details in case of payment to Contractors. There are no undisputed dues outstanding as on the last day of the financial year concerned for a period of more than six months from the date they became payable. We have been informed that employees state insurance is not applicable to the company.

(b) The disputed Statutory dues aggregating to Rs.27,614.24 lakhs that have not been deposited on account of matters pending before appropriate authorities as on 31st March 2023 are detailed below :

The Company also has a disputed Statutory dues under Service Tax for Rs. 7.20 lakhs at CESTAT, Kolkata.

(VIII) As informed, the Company has not surrendered or disclosed as income during the year any transactions not recorded in the books of account in the tax assessments under the Income Tax Act, 1961.

(IX) (a) In our opinion and according to the information and explanations given to us, the company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.

(b) As informed, the company has not been declared a wilful defaulter by any bank or financial institution or other lender.

(c) In our opinion and according to the information and explanations given to us, term loans were applied for the purpose for which the loans were obtained.

(d) As informed and based on our examination of the books and records of the company, funds raised on short term basis have, prima facie, not been utilized for long term purposes during the year.

L.K.KEJRIWAL & CO.
CHARTERED ACCOUNTANTS

(e) As informed and based on our examination of the books and records of the company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or Joint Ventures.

(f) As informed and based on our examination of the books and records of the company, the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, Joint Ventures or associate companies.

(X) (a) The Company has not raised money by way of initial public offer or further public offer (including debt instruments) during the year.

(b) The Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year.

(XI) (a) According to the information and explanations given to us and as represented by the Management, no case of material frauds by the Company or any material fraud on the company has been noticed or reported during the year.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules 2014 with the Central Government.

(c) As informed by the Management, the Company has not received any whistle-blower complaints during the year.

(XII) (a) The provisions of clause 3 (XII)(a),(b) & (c) of the Order, for Nidhi Company, are not applicable to the company.

(XIII) In our opinion and according to the information and explanation given to us, The Company has complied with the provisions of Section 177 and 188 of the Companies Act, 2013 w.r.t. transactions with the related parties, wherever applicable. Details of the transactions with the related parties have been disclosed in the Standalone financial statements as required by the applicable Indian Accounting Standards.

(XIV) a) The Company has appointed firms of Chartered Accountants to carry out the internal audit of its units and offices. In our opinion and based on our examination, the company has an internal audit system commensurate with the size and nature of its business.

b) We have considered the reports of the Internal Auditors for the period under audit.

(XV) As informed, the company has not entered into any non-cash transactions with directors or persons connected with them as covered under section 192 of Companies Act, 2013.

(XVI) (a) According to the information and explanation given to us, the company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

L.K.KEJRIWAL & CO.
CHARTERED ACCOUNTANTS

(b) As informed and on the basis of our examination, the Company has not conducted any Non-Banking Financial or Housing Finance Activities.

(c) According to the information and explanation given to us, the Company is not a Core Investment Company (CIC) as defined under the Regulations by the Reserve Bank of India. Accordingly, provisions of clause 3(XVI) (c) & (d) of the Order are not applicable to the Company.

(XVII) The Company has not incurred cash losses in the Financial Year and in the immediately preceding Financial year.

(XVIII) There has not been any resignation of the statutory auditors during the year.

(XIX) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans, we are of the opinion that no material uncertainty exists as on the date of the audit report that company is capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date.

(XX) (a) According to the information and explanations given to us, unspent amount in respect of other than ongoing projects, required to be transferred to a Fund specified in Schedule VII to the Companies Act, 2013 within a period of six months of the expiry of the financial year, was so transferred during the financial year 2022-23 in compliance with second proviso to sub-section (5) of section 135 of the said Act.

(b) The Company has transferred amounts remaining unspent under sub section 5 of section 135 of the Companies Act, 2013, pursuant to ongoing projects, to a special account in compliance with the provisions of sub section 6 of section 135 of the said Act.

(XXI) The financial statements of the joint venture company included in the consolidated financial statements of this company are unaudited, hence CARO report of the same is not available. In view of this, we are unable to comment on this clause.

Annexure C to the Independent Auditors' Report

(Refered to in Paragraph 3(g) under 'Report on other Legal and Regulatory Requirements' section of our Report of even date on the Standalone Financial Statements for the year ended 31st March 2023)

Report on the Internal Financial Controls under section 143(3)(i) of the Companies Act,2013 ("the Act")

We have audited the internal financial controls with reference to Standalone Financial Statements of North Eastern Electric Power Corporation Limited ('the Company') as of 31st March 2023 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls with reference to Standalone Financial Statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Financial Statements was established and maintained and if such controls operated effectively in all material respects.

L.K.KEJRIWAL & CO.
CHARTERED ACCOUNTANTS

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Standalone Financial Statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial control with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company ; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Financial Statements to future periods are subject to the risk that the internal financial control with reference to Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The address of the Company's registered office is Brookland Compound, Lower New Colony, Laitumkhrah, Shillong 793003, Meghalaya. Authorised Capital of the Company is ₹ 5000 crore. The Company has its 12 (twelve) generating stations, which are under operation [except theree generating stations of Kopili HPS, namely, Kopili (4 X 50 MW) power station, Khangdong Stage I (2 X 25 MW) Power Station and Khangdong Stage II (1 X 25 MW) Power Station, which are under Repairing/Reconstruction Renovation and Modernisation] with 8 (eight) hydro, 3 (three) thermal and 1(one) solar power generating stations. Present installed capacity of the company is 2057 MW.

NEEPCO Ltd has its debt (Bond XI Issue to XXIII issue) listed with Bombay Stock Exchange (BSE).

B. Basis of preparation

I. Statement of Compliance

The financial statements of the Company have been prepared in accordance with the relevant provisions of the Companies Act, 2013, Indian Accounting Standards (herein after referred to as "Ind-AS") as notified by the Ministry of Corporate Affairs pursuant to the section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and the provisions of the Electricity Act, 2003 to the extent applicable.

The Company has adopted all the applicable Ind ASs and such adoption was carried out in accordance with Accounting Principles generally accepted in India as prescribe in section 133 of the Act, read with Rule 7 of the Companies (Accounting) Rules 2014,

II. Basis of measurement

The financial statements have been prepared on historical cost basis, except

- Certain financial instruments that are measured at fair value;
- Assets held for sale – measured at fair value less cost to sell;
- Plan assets of defined employees benefit plans;

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Income and Expenses are accounted for on Mercantile Basis, except otherwise stated and disclosed accordingly.

III. Functional and presentation currency

These financial statements are presented in Indian Rupee (INR), which is the Company's functional currency. All financial information presented in INR has been rounded off to the nearest Lakh (upto two decimals) for the Company, except as stated otherwise.

IV. Current and Non-current classification

All assets and liabilities have been classified as current or non-current as per Company's operating cycle and other criteria set out in Schedule-III of the Companies Act 2013. Based on the nature of business, the Company has ascertained its operating cycle as 12 months for the purpose of Current or noncurrent classification of assets and liabilities.

Deferred tax assets and Deferred tax liabilities are classified as non-current.

V. Use of estimates and management judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, disclosure of contingent assets and liabilities at the date of financial statements and reported amount of income and expenses during the period. Actual results may differ from those estimates.

Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised in the financial statements prospectively and if material, their effects are disclosed in the notes to the financial statements.

Key sources of estimation uncertainty at the reporting date, which may cause a material adjustment to the carrying amounts of assets and liabilities for future years are provided in Note-D.

VI. Investment in Joint Venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The investment in joint venture is carried at cost, which comprises of price paid to acquire investment and directly attributable cost, less impairment, if any.

C. Summary of Significant Accounting Policies

1. Property, plant and equipment

1.1 An item of PPE is recognized as an asset if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

1.2 Property, plant and equipment held for use in the production and transmission of power, or for administrative purposes, are stated in the balance sheet at cost, less accumulated depreciation/amortization and impairment loss, if any.

1.3 Auxiliaries which are not separately identifiable, but are common to more than one power generating unit are capitalised in the ratio of their respective installed capacity.

1.4 PPE are initially measured at cost of acquisition/construction including decommissioning or restoration cost, if any, wherever required. The cost includes expenditure that is directly attributable to the acquisition/construction of the asset. In cases where final settlement of bills with contractors is pending, but the asset is complete and ready for use, capitalization is done on provisional basis subject to necessary adjustments in the year of final settlement.

1.5 The expenditure incurred on start-up and commissioning of the project, including the expenditure incurred on trial/test runs and experimental production is capitalized as an indirect element of the construction cost. However, after commencement of commercial operation, the expenditure incurred is charged to Revenue expenditure, even if the contract stipulation provides for final taking over of the plant after successful commissioning of the plant.

1.6 Subsequent expenditure on major maintenance or repairs includes the cost of the replacement of parts of assets and major overhaul costs. Where an asset or part of an asset is replaced and it is probable that future economic benefits associated with the item will be available to the Company, the expenditure is capitalized and the carrying amount of the item replaced is derecognized. If it is not practicable to determine the carrying amount of the replaced part, the company uses the cost of the replacement as an indication of what the cost of replaced part was at the time it was acquired or constructed.Similarly, overhaul costs associated with major maintenance are capitalized.

1.7 Standby equipment and servicing equipment which meet the recognition criteria of Property, Plant and Equipment are capitalized.

1.8 Assets over which the Company has control, though created on land not belonging to the Company are included under Property, Plant and Equipment.

1.9 Payments made/ liabilities created provisionally towards compensation, rehabilitation and other expenses relatable to land in possession are treated as cost of land.

1.10 Spare parts procured along-with the Plant & Machinery as well as procured subsequently which meets the recognition criteria are capitalized. Other machinery spares are treated as "stores & spares" forming part of the inventory.

1.11 Cost of mobile handsets are recognised as revenue expenditure.

1.12 An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognized in profit & loss or IEDC, as the case may be.

2. Capital work-in-progress

2.1 Expenditure incurred on assets under construction is carried at cost under Capital work in Progress. Such costs comprises purchase price of asset including all taxes/duties and other costs that are directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

2.2 Cost directly attributable to projects under construction include costs of employee benefits, expenditure in relation to survey and investigation activities of the projects, cost of site preparation, initial delivery and handling charges, installation and assembly costs, professional fees, expenditure on maintenance and up-gradation etc. of common public facilities, depreciation on assets used in construction of project, interest during construction and other costs including administrative and general overhead costs, if attributable to construction of projects. Such costs are accumulated under "Capital works in progress" and subsequently allocated on systematic basis over major immovable assets. For projects under construction, the project specific IEDC is allocated to its qualifying assets at the time of capitalisation on the basis of Cost Estimate/Completion Cost of the project.

2.3 Capital expenditure incurred to create facilities, over which the Company does not have control and creation of which is essential for construction of the project is carried on under :Capital works in progress" and subsequently allocated on systematic basis over major immovable assets, other than land and infrastructure facilities on commissioning of projects.

2.4 Expenditure against "Deposit works" is accounted for on the basis of statement of accounts received the concerned agency and acceptance by the Company.

2.5 Common expenditure of a project, which is partially in operation and partially under construction, is being apportioned on the basis of the installed capacity.

2.6 Share of Corporate office and Guwahati office expenditures relating to construction activities are allocated/apportioned to the projects under construction on the basis of accretion to CWIP.

2.7 In case of abandonment/suspension/discontinuation of project, the expenditure in relation to the same is expensed/charged off in the year of such decision.

3. Intangible Assets

3.1 An intangible asset is recognized if and only if it is probable that the expected future economic benefit that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably.

3.2 Intangible assets acquired separately are measured on initial recognition at cost. Such assets are capitalized when the assets are ready for its intended use. After initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

3.3 Computer software (not being an integral part of the related hardware) acquired for internal use, is stated at cost of acquisition less accumulated amortization and impairment losses, if any.

3.4 Land taken for use from State Government (without transfer of title) and expenses on relief and rehabilitation as also on creation of alternate facilities for land evacuees or in lieu of existing facilities coming under submergence and where construction of such alternate facilities is a specific pre-condition for the acquisition of the land for the purpose of the project, are accounted for under "Land-Right to use."

3.5 Intangible assets not ready for its intended use as on the date of balance-sheet are disclosed as "Intangible assets under development".

4. Depreciation and amortization:

Depreciation is charged as per Electricity Act, 2003 on straight line method following the rates and methodology notified by the Central Electricity Regulatory Commission constituted under the Act except the followings:

i. IT equipment (Personal Computers and Laptops including Peripherals) are depreciated in a period of three years.

ii. Computer software is amortised on straight-line method over a period of legal right to use or 03 (three) years, whichever is less. The amortisation period and the amortisation method of intangible assets with a finite useful life is reviewed at each financial year and adjusted prospectively, whereever required.

iii. "Land-right to use" is fully amortized over the period of useful life of the project, from its "Date of commercial operation".

iv. Leasehold Lands are amortised over the period of lease or useful life of the project, whichever is lower, from its "Date of commercial operation". Leasehold Land, in case of administrative offices, are amortised over the lease period.

v. Where the cost of depreciable assets has undergone a change due to increase/decrease in long term liabilities on account of exchange fluctuation, price adjustment, settlement of arbitration/court cases, changes in duties and similar factors, the unamortized balances of such assets is depreciated prospectively over the residual life of such asset at the rate and methodology notified by the CERC regulations.

vi. Cost of major repairing and overhauls are depreciated over their useful lives where it is probable that future economic benefits will be available.

vii. Spares parts procured along with the Plant & Machinery or subsequently which are capitalized and added in the carrying amount of such item are depreciated over the residual useful life of the related plant and machinery at the rates and methodology notified by CERC.

viii. Assets/procured installed, whose individual cost is Rs. 5000/- or less but more than Rs. 750/- (hereinafter is called Assets of minor value) are depreciated during a period of 12 month leaving a nominal balance of Rs. 1/- only.

ix. Low value items, which are in the nature of the assets (excluding immovable assets) and value up to Rs. 750/- are not capitalized and charged off to revenue during the year.

x. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale(or included in a disposal group that is classified as asset held for sale) in accordance with Ind AS 105 and the date that the asset is de-recognised.

xi. Depreciation of Corporate/Administrative office assets and general assets of projects under construction are charged following the rates notified vide CERC tariff regulations.

North Eastern Electric Power Corporation Limited Shillong

5. Impairment of assets

5.1 At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is indication that those assets may suffer an impairment loss. If any such indication exists, the recoverable amount (i.e., higher of its fair value less cost to sell and the value-in-use) is determined on individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

5.2 If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount and the difference between the carrying amount and recoverable amount is recognised as impairment loss in the statement of profit & loss.

5.3 Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exits. An impairment loss is reversed if there has been a change in the estimated recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised.

6. Regulatory deferral accounts

6.1 Expenses/income recognized in the Statement of Profit & Loss to the extent recoverable from or payable to the beneficiaries is subsequent period as per CERC tariff Regulations are recognized as "Regulatory Deferral Account Balances".

6.2 Regulatory deferral account balances are adjusted from the year in which the same become recoverable from or payable to the beneficiaries.

6.3 Regulatory Deferral Account Balances are evaluated at each Balance Sheet Date to ensure that the underlying activities meet the recognition criteria and it is probable that future economic benefits associated with such balances will flow to the entity. If it is no longer probable that future economic benefit associated with such balances will flow to the Company, such balances are de-recognized.

6.4 Regulatory deferral Account Balances are tested for impairment at each Balance sheet date.

7. Foreign Currency Transaction

7.1 Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates.

7.2 In preparing the financial statements transactions in currencies other than the entity's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date.

7.3 Exchange differences on foreign currency borrowings relating to Asset under Constructions for future productive use are included in the cost of those assets when they are regarded as an adjustment to interest cost on those foreign currency borrowings as per the requirements of Ind AS 23.

7.4 Exchange differences on monetary items are recognized in the statement of profit and loss/IEDC, as the case may be, in the period in which they arise.

7.5 Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising out on settlement or translation of monetary items are recognized in the profit or loss in the year in which it arises with the exception that exchange differences on long term monetary items related to acquisition of property, plant and equipment recognized up to 31-03-2016 are adjusted to the carrying cost of property, plant and equipment.

7.6 In accordance with the CERC tariff regulations, every generating company shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises, i.e., the Company can recover the foreign exchange rate variation on actual basis when foreign currency loan is repaid after commercial operation date (COD).

8. Provisions, Contingent Liabilities and Contingent Assets

8.1: A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

8.2: The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

8.3: When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of reimbursement, if any.

8.4: Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

8.5: Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

8.6: Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

9. Leases

9.1 The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease.

9.2 Leases are classified as finance leases whenever the terms of the lease transfers substantially all the risks and rewards incidental to the ownership of an asset to the lessee. Such finance leases are generally capitalised at the lease's inception at the fair value of the leased property which equals the transaction price. All other leases are classified as operating leases.

9.3 In compliance to MCA notification, the Company has adopted Ind AS 116 "Leases" with effect from 01.04.2019 and applied to all lease contracts existing on 1 April 2019 . Consequently, the Company recorded the lease liability at the present value of remaining lease payments discounted at the incremental borrowing rate applicable at the date of initial application and the right of use assets at its carrying amount, discounted at the Company's incremental borrowing rate at the date of initial application.

10. Inventories

10.1 Inventories mainly comprise of stores and spare parts to be used for operation and maintenance of Property, Plant and Equipment.

10.2 Inventories are valued at costs or net realizable value (NRV), whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average cost formula and NRV is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

10.3 Value of scrap is adjusted in the account as & when sold/disposed-off and profit/loss, if any, is recognized in accounts in the year of sell/disposal.

11. Trade receivable

11.1 Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If collection is expected to be made within a period of 12 months or less from the reporting date, they are classified as current assets otherwise as non-current assets. Trade receivables are measured at their transaction price.

11.2 As the entire sales are made to State Govt. utilities as well as power trading companies, the Company is not providing for allowance for expected credit loss.

11.3 Trade Receivable represents the Company's right to an amount of Consideration that is unconditional (i.e. only the passage of time is required before payment of the Consideration is due)

12. Financial Instruments

12.1 Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction cost that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liabilities.

12.2 Other Financial Assets (Contract Assets)

Accounts Receivables is the right to consideration in exchange for goods or services, transferred to the Customer. If the Company performs by transferring the goods or services to a Customer before the Customer pays consideration or payment is due, Accounts Receivables (in the nature of Contract Asset) is recognised for the Earned Consideration that is conditional.

Financial assets comprises of investments in joint venture, advances to employees, trade receivables, cash and cash equivalents, claims recoverable, security deposits etc.

i. Cash or Cash Equivalents:

The Company considers all short term Bank deposits, which are readily convertible in to known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consists of balances with banks which are unrestricted for withdrawal and usage in the balance sheet, bank overdrafts are shown within borrowings in current liabilities.

ii. Financial assets at amortized cost:

Financial assets which are initially measured at cost are subsequently measured at amortized costs if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii. Financial assets at Fair value through Other Comprehensive Income (OCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual term of the financial assets give rise on specified days to cash flows that are solely payment of principals and the interest on principal amount outstanding.

iv. Financial assets at Fair value through Profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive item on initial recognition. The transaction cost directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in the statement of profit or loss.

v. Derecognition of financial assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

vi. Impairment of financial assets

At each reporting date, the Company assess whether the credit risk on a financial instrument has increased significantly since initial recognition

If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. If, the credit risk on that financial instrument has increased significantly since initial recognition, the Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognized as an impairment gain or loss in the statement of profit and loss.

12.3 Financial liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company. The Company's financial liabilities includes loan & borrowings, trade and other payable etc.

(i) The financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method.

ii. De-recognition of financial liability

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

13. Borrowing cost

13.1 Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition, construction/development or erection of qualifying assets are capitalised to the cost of those assets, until such time substantially all the activities necessary to prepare the qualifying assets for their intended use are completed.

13.2 Investment income earned on the temporary investment of specific borrowings pending their expenditure on related qualifying assets is deducted from the borrowing costs eligible for capitalization.

13.3 All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred. Borrowing cost includes exchange differences on foreign currency borrowings are adjusted to interest cost.

13.4 Prepayment charges on repayment of loan in full will be charged off to the IEDC / Profit & Loss account, as applicable, in the year of repayment itself.

14. Government grants

14.1 Government grants are recognized when there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants has actually been received.

14.2 The benefits of a government loan at a below market rate of interest is also treated as Government Grant. The loan is initially recognised and measured at fair value and the government grant is measured as the difference between the initially recognized amount of the loan and the fair value of the loan based on prevailing market interest rates.

14.3 Government grants are recognised in the statement of profit and loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognized in the balance sheet by setting up the grant as deferred income.

14.4 Other government grants (grants related to income) are recognized as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis. Grants related to income are presented under other income in the statement of profit and loss.

15. Employee Benefits

15.1 Employee benefits consist of provident fund, pension, gratuity, post-retirement medical benefit (PRMB), leave benefits and other terminal benefits.

15.2 Company's contribution paid/payable during the year to Employees Defined Contribution Superannuation Scheme for providing Pension benefit, Provident Fund and Gratuity are accounted for and paid to respective funds which are administered through separate trusts. The Company's liability is actuarially determined for Gratuity, Leave encashment and PMRB at the Balance Sheet date and any further accretion during the year for Gratuity is provided for and that for Leave encashment and PMRB are charged to IEDC or profit & loss, as the case may be.

15.3 When the benefit of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expenses is recognized immediately in statement of profit and loss.

15.4 Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under performance related pay if the company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

15.5 The expenses incurred on terminal benefits in the form of ex-gratia payments are charged to IEDC or profit & loss, as the case may be in the year of incurrence of such expenses.

16. Income Taxes

Tax expense represents the sum of current tax and deferred tax.

16.1 Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current income tax charge is calculated by using tax rates that have been enacted or substantively enacted by the end of the reporting period.

16.2 Deferred tax

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Tax relating to items recognized directly in other comprehensive income forms part of the statement of comprehensive income.

- Deferred tax is provided, using the balance sheet method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.
- The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered

Deferred Tax Assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which likely to give future economic benefits in the form of set off against future income tax liability. MAT is recognized as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

- Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

17. Revenue

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Revenues are reduced for rebates and other similar allowances.

17.1 Revenue from Operations

a) Revenue from Sale of Power

i. Revenue is recognised on transfer of control over the products or services to a Customer, based on the consideration that is specified in a contract with a customer or is expected to be received in exchange for the products or services and excludes amounts collected on behalf of third parties.

ii. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue".

iii. The incentives/disincentives are recognized based on norms notified by the Central Electricity Regulatory Commission.

iv. Deferred tax liabilities till March, 2009, whenever materializes and recoverable from the beneficiaries as per the CERC tariff regulations, are accounted for on year to year basis

v. Exchange difference on account of translation of foreign currency borrowings recognized upto 31st March 2016, to the extent recoverable from or payable to the beneficiaries in subsequent periods as per the CERC Tariff Regulatons are accounted as "Deferred foreign currency fluctuation asset" with corresponding credit to "Deferred income from foreign currency fluctuation". Deferred income from foreign currency fluctuation account is amortized in the proportion in which depreciation is charged on such exchange differences and same is adjusted against depreciation expense.

vi. Rebate allowed to beneficiaries for timely payments are netted off with the the revenue from operation on account of Sale of energy

b) Revenue from DSM, RRAS and NERLDC Fees

i. Revenue from DSM is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Deviation Settlement Mechanism) Regulations 2014 and amendments thereto.

ii. Revenue from RRAS is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Ancillary Services Operations) Regulations 2015 and amendments thereto.

iii. NERLDC Fees and charges are recognised as revenue as claimed on Beneficairies for reimbursement, governed by CERC (Terms & Conditions of Tariff) Regulations 2019 and amendments thereto.

17.2 Other Income

i. Dividend income from investments are recognized when the right to receive the dividend is established.

ii. Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iii. Insurance claims for loss of profit are accounted for in the year of acceptance. Other insurance claims are accounted for based on certainty of realisation.

iv. Interest/Surcharge on late payment /overdue trade receivables for sale of energy is recognized when no significant uncertainty as to measurability or collectability exists.

18 Material prior period error

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

19 Earnings Per Share

19.1 Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, if any, other than the conversion of potential equity shares, if any that have changed the number of equity shares outstanding, without a corresponding change in resources.

19.2 For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

20 Miscellaneous

20.1 Each material class of similar items is presented separately in the financial statements. Items of a dissimilar nature or function are presented separately unless they are immaterial.

20.2 Liabilities for pending Capital works executed but not certified are not provided for , pending acceptance by the Company.

20.3 Physical verification of Fixed Assets and Inventories are undertaken by the management once in a year. The discrepancies noticed, if any, are accounted for in the year in which such differences are found.

Critical accounting judgements and key sources of estimation uncertainity

In the application of the Company's accounting policies, which are described in Note-B, the management of the Company is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised.

Critical judgements in applying accounting policies:

The following are the critical judgements, apart from those involving estimations (see point ii below), that the management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements

i. Financial assets at amortized cost

The management has reviewed the Company's financial assets at amortized cost in the light of its business model and have confirmed the Company's positive intention and ability to hold these financial assets to collect contractual cash flows.

ii. Key sources of estimation uncertainty:

The following are the key assumptions concerning the future, and other key sources of estimation of uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year

a. Impairment of investments

The Company reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

b. Provisions

Provisions (excluding retirement benefits, leave encashment and Gold Coin) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates.

c. Assets held for sale

Significant judgement is required to apply the accounting of non-current assets held for sale under Ind AS 105 - 'Non current assets held for sale and discontinued operations'. In assessing the applicability, management has exercised judgment to evaluate the availability of the asset for immediate sale, management's commitment for the sale and probability of sale within one year to conclude if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

d. Contingent liabilities

Contingent liabilities arising from past events, the existence of which would be confirmed only on occurrence or non-occurrence of one or more future uncertain events, not wholly within the control of the Company or contingent liabilities where there is a present obligations but it is not probable that economic benefits would be required to settle the obligations are disclosed in the financial statements unless the possibility of any outflow in settlement is remote

d. Fair value measurements and valuation processes:

For financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(i) NEEPCO is in the business of generation and sale of electricity. Electricity generated by various power plants of the Company are sold to various beneficiaries under long-term power purchase agreements. Tariffs for the generating stations are determined by the Central Electricity Regulatory Commission (CERC) in compliances to the CERC Tariff Regulations issued time to time on "Cost plus basis". Considering the CERC determined tariff for billing on NEEPCO's beneficiaries, as well as prevailing power market in India and Plant performances of the generating stations, it is expected that sufficient taxable profit will be available to the Company in future years.

In compliance to the Ind AS 12 - Income Taxes, the Company has recognised Deferred Tax Asset (DTA) amounting to ₹ 42,540.99 lakhs upto the year ended 31.03.2022 in respect of "Unabsorbed depreciation" with convincing evidence that sufficient future taxable income will be available against which such DTA can be realized. On adjustment amounting to ₹ 6990.50 lakh during the FY 2022-23, DTA in respect of "Unabsobed depreciation" as on 31.03.2023 stands at ₹ 35550.49 lakh.

(ii) MAT credit available for the Company as on 31.03.2023 amounts to ₹ 24702.68 lakhs (Previous year ₹ 11745.65 lakhs), being the amount as per computation of tax credit under Sec 115 JAA.

(iii) * Others includes deferred tax assets created on provision for Post Retirement Medical Benefit (PRMB) & award of Gold Coin to superannuated employees.

(iv) Refer note no 48 for detailed disclosure.

Trade Receivables which have significant increase in credit risk		
Trade Receivables - credit impaired		
Allowance for doubtful debts		
TOTAL	94,429.78	48,776.49

(i) Trade receivables are dues in respect of goods sold or services rendered in the normal course of business.

(ii) Where no due date is specifically agreed upon, the normal credit period allowed by the Company is in compliance to the CERC regulations / Guidance.

(iii) Where a trade receivable has been provided for, such provision could be dictated by prudence, but one could still expect to realise the amount within 12 months from the balance sheet date. Under such circumstances, the said trade receivable is classified as current. Where, however, there is no expectation to realise the amount within the next twelve months period, the same needs to be classified as non-current along with the provision made, if any, for the same.

(iv) Amount receivable from related parties is ₹ 2401.46 lakhs

Total	24,930.37	8,605.88	3,466.93	1,324.05	0.75	10,016.57	431.94	48,776.49

(I) Notes on Disputed Trade Receivable:

(1) Disputed trade receivables includes (i) Rs. 431.94 lakh against claim for reimbursement on account of Effective Tax Rate; (ii) Rs. 1399.45 lakh against claim for reimbursement of Foreign Exchange Rate Variation (FERV) for 2015-16 to 2018-19; (iii) Rs. 5799.78 lakh against arrear bills arising out of determination of tariff of TGBP by CERC for 2017-18 & 2018-19; (iv) Rs. 2737.27 lakh against bills for GTG unit during 2015-16 & 2016-17 prior to COD of STG unit.

(2) Ministry of Power (Govt. of India) has initiated action for settlement of TSECL dues amounting to ₹ 10368.44 invoking provisions of the Tripartite Agreement (TPA) & the process is continuing. TSECL has appealed against the above mentioned bills amounting to ₹ 10368.44 lakh before APTEL. The petition has been taken up by APTEL and included in the "List of Finals" to be taken up for hearing in its turn. There are sufficient legal/regulatory grounds as indicated by legal experts to infer that TSECL's petition will be turned down and judgement delivered in NEEPCO's favour by APTEL. However, vide the order dated 01st April 2022, Hon'ble APTEL has directed NEEPCO not to take any precipitative action against TSECL for payment of the dues during pendency of the appeal.

(3) TSECL has offered out-of-court settlement of the above mentioned dispute regarding bills for ₹ 10368.44 lakh, which has not been accepted by NEEPCO as the offer entailed sharing the disputed amount on a 50 - 50 basis. Meanwhile, based on NEEPCO's request, the Government of India has served noticed on the Government of Tripura with regard to invocation of the payment security clause of the Tripartite Agreement between GoI, RBI and Govt. of Tripura which enables the GoI to divert fund from the state's account maintained with RBI to liquidate the dues payable to NEEPCO by TSECL, including Late Payment Surcharge on the dues. The payment has been deferred till decision on the matter.

(4) With consideration of the above, disputed trade receivable amounting to Rs 10368.44 lakhs has been considered good and no provision has been provided in books since there is no significent credit risk. Further, the realisation of the aforesaid amount is expected within a period of 12 months from the Balance Sheet date.

(5) Notes on Unbilled Revenue

Unbilled revenue as on 31.03.2023 amounting to ₹ 44382.59 lakhs includes energy bills ₹ 26476.88 lakhs, trading of merchant power ₹ 2400.71 lakhs, FERV ₹ 3727.85 lakhs, Wage impact (incl. claim of gratuity enhancement) Rs. 6969.89 lakh, Arrear on AFC revision Rs. 2925.36 lakh, Interest from beneficiaries Rs. 1704.12 lakh, NERLDC fees & charges ₹ 129.98 lakhs & LPS ₹ 47.80 lakhs.

Change in trade receivables

(₹ in lakhs)

Particulars	As at 31st March 2023	As at 31st March 2022
Opening Balance	48,776.49	76,911.76
Add:: Net Revenue Recognised but not realised during the year	45,653.29	(28,135.27)
Closing Balance	94,429.78	48,776.49

(ii) Trade receivables are further analysed as :

(₹ in lakhs)

As at March 31, 2023	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	76,558.90	-	76,558.90
More than 45 days upto six months	6,836.72	-	6,836.72
More than six months	11,034.16	-	11,034.16
TOTAL	94,429.78	-	94,429.78

(₹ in lakhs)

As at March 31, 2022	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	33,536.25	-	33,536.25
More than 45 days upto six months	3,466.93	-	3,466.93
More than six months	11,773.31	-	11,773.31
TOTAL	48,776.49	-	48,776.49

The Company considers its maximum exposure to credit risk with respect to customers as at March 31, 2023 to be ₹ 94,429.78 lakhs (March 31, 2022: ₹ 48776.49 lakhs), which is the fair value of trade receivables after allowance for credit losses. The Company's exposure to customers is diversified and except TSECL (Tripura), MSPDCL (Manipur) & P&E Mizoram, no other customer contributes to more than 10% of outstanding dues (i.e. more than 45 days) accounts receivable as at March 31, 2023 .

Movement in allowance for credit losses in respect of trade receivables:

Particulars	As at March 31, 2023	As at March 31, 2022
Balance at the beginning of the period	-	-
Additions during the period	-	-
Utilised during the period	-	-
Balance at the end of the period	-	-

In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix.

18.3 Bond Redemption Reserve

(₹ in lakhs)

Particulars	As at 31st March 2023	As at 31st March 2022
Balance at the beginning of the year/period	65,054.17	65,054.17
Movement during the year/period		
Balance at the end of the year/period	**65,054.17**	**65,054.17**

The nature of reserves are follows:

(a) General Reserve :- Under the erstwhile companies Act 1956, a general reserve was created through an annual transfer of net profit at a specified percentage in accordance with applicable regulations. Consequent to the introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of net profit to general reserve has been withdrawn.

(b) Bond redemption reserve:-In terms of the applicable provisions of the Companies Act 2013, read with Companies (Share Capital and Debenture) Rules, 2014, the Company should comply with the requirements with regard to Bond/Debenture Redemption Reserve. The adequacy of Bond/Debenture Redemption Reserve is required to be ten percent of the value of the outstanding debentures. As on 31.03.2023, the Company has maintained a Bond Redemption Reserve of Rs. 65054.17 lakh, which is adequate for the purpose. Hence, the Company has not created any further Bond Redemption Reserve during the year.

Less: Current maturities of lease liabilities	607.67	573.64
Total	478.64	438.19

Note no.- 20 **Long Term Provisions**

(₹ in lakhs)

Particulars	As at 31st March 2023	As at 31st March 2022
Medical benefit for retired employees	-	1,607.45
Other retirement benefits	319.12	274.41
Total	**319.12**	**1,881.86**

The provision for employee benefits includes gratuity, Leave Encashment, Post retirement medical benefit, Gold Coin at retirement. The increase/ decrease in the carrying amount of the provision for the current year is mainly on account of net impact of incremental charge for current year and benefits paid in the current year.

1. Defined Contribution Plan

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) Provident fund

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary.Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the period was ₹ 3367.77 lakhs (previous period ₹ 3414.12 lakhs).The investment has earned sufficient interest to pay the same to the members as per the rate specified by the Government of India.

b) Superannuation fund

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt.of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC) / GL-xiv/08 dt.26.11.2008 and OM. No. 2(70)/08-DPE (WC) / GL-vii/09 dt.02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme.
The Companies contribution to the trust managing this scheme for the year was ₹ 2507.55 lakhs (previous year ₹ 2404.67 lakhs).

2. Defined benefit plans

a. Post –Retirement Medical Benefit scheme

The Company has a Contributory Scheme for Post –Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired /deceased employee and spouse of retiree/deceased are provided medical facilities on contributory basis which is as follows:
Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized / approved hospital.
For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests , examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less.. The liability for the same is recognized on the basis of actuarial valuation.

b. Other retirement benefit on Superannuation

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. Other Employee benefit

Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

1. Defined Contribution Plan

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) Provident fund

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary.Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the year was ₹ 3367.77 lakhs (previous year ₹ 3414.12 lakhs).The investment has earned sufficient interest to pay the same to the member as per the rate specified by the Government of India.

b) Superannuation fund

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt.of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC) / GL-xiv/08 dt.26.11.2008 and OM. No. 2(70)/08-DPE (WC) / GL-vii/09 dt.02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme.

The Companies contribution to the trust managing this scheme for the year was ₹ 2507.55 lakhs (previous year ₹ 2404.67 lakhs).

2. Defined benefit plans

a. Retiring gratuity

The Company has a defined benefit gratuity plan. Every employee who has rendered continuous service of five years or more is entitled to get gratuity at 15 days salary (15/26 x last drawn basic salary plus dearness allowance) for each completed year of service subject to a maximum of Rs. 20.00 lakhs, on superannuation, resignation, termination, disablement or on death. The liability for the same is recognized on the basis of actuarial valuation.

The Board of Directors in their meeting held on 01.04.2013 has approved the creation of Gratuity Fund Trust vide its Resolution No.195/16 dt.1.4.2013 in order to meet the requirement of funds for payment of Gratuity to the employees separated from the services of the Corporation. Accordingly NEEPCO Employees Group Gratuity Assurance Fund Trust has been constituted on 25th June'2013 and a Master Policy, named as North Eastern Electric Power Corporation Ltd Employees Group Gratuity –cum- Life Assurance (cash accumulation) Scheme, has been taken from the Life Insurance Corporation of India on 5th August 2013.

Transactions with LICI during FY 2022-23 for assessing fund balance as on 31.03.2023 are as per books of NEEPCO.

Details of Funded Assets with LIC ₹ In lakhs

Particulars	31.03.2023	31.03.2022
Opening Balance	18,643.54	18,171.16
Transactions during the year (Net Debit)	1,481.56	863.94
Interest earned during the year (Net Credit)	1,459.55	1,336.32
Closing Balance	**18,621.53**	**18,643.54**

b. Post –Retirement Medical Benefit scheme

The Company has a Contributory Scheme for Post –Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired /deceased employee and spouse of retiree/deceased are provided medical facilities on contributory basis which is as follows:

Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized / approved hospital.

For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests , examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less.. The liability for the same is recognized on the basis of actuarial valuation.

c. Other retirement benefit on Superannuation

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. Other Employee benefit

a. Leave

The Company provides for earned leave benefits (including compensatory absences) and half pay leave to the employees of the Company which accrue annually at 30 days and 20 days respectively. Earned leave account is maintained in one section only i.e. en-cashable. On Superannuation/ separation of the employee from the Corporation, entire leave (Earned leave & Maximum 240 days Half Pay Leave) subject to a ceiling of 300 days will be en-cashable. Half pay leave cannot be commuted. The cash equivalent payable for Half Pay Leave would be equal to leave salary as admissible for half pay plus Dearness Allowance.The liability for the same is recognized on the basis of actuarial valuation.

b. Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

Note on Government Grant (Ind AS 20)

NEEPCO's approved Accounting Policy includes policy of recognition and accounting of "Government grant" (para 14 of note 1 –Summary of Significant Accounting Policies).

Govt. of India has approved a Sub-ordinate loan amounting to ₹ 29196.42 Lakh to NEEPCO for implementation of Tuirial HEP with interest @1% per annum payable from the "Date of Commercial Operation" of the project. Of the aforesaid loan amount, NEEPCO has received ₹ 29096.42 lakh till 31.03.2015 and the balance ₹ 100.00 lakh has been received during the FY 2015-16. The loan amount (₹ 29096.42 lakh) received till 31.03.2015 has been recognized in books of NEEPCO as on 01.04.2015 (Ind AS Transition date) at its carrying value in compliance to the Ind AS 101 (Exception to the retrospective application). However, for the loan amount (₹ 100.00 lakh) received during the FY 2015-16, the benefit of the loan due to below market rate of interest (considered SBI base rate @9.70% effective as on Jun'15) amounting to ₹ 82.64 lakh has been treated as a govt. grant and recognized in the Books of NEEPCO accordingly.

Spares out of Grant in Aid

Total value of spares purchased out of "Grant in aid" received from the Central Govt. amounts to ₹ 3659.53 lakh and accordingly, recognized in books of Assam Gas Based. During the current period, repairs & maintenance has been debited and Stock of Spares under "Grant in aid" has been credited by an amount of ₹ 8.91 lakhs (Previous year ₹ 13.96 lakhs). An equivalent amount has been recognized as income in the statement of Profit & Loss during the year.

Grant from Ministry of Development of North Eastern Region

As per the Investment Approval sanctioned vide the Ministry of Power's letter no.7/7/2009-H-I dated 14th January'2011, an amount of ₹ 30000.00 lakh has been sanctioned by the Ministry of Development of North Eastern Region (MDONER) as a part of the approved funding pattern for the Tuirial Hydro Electric Project, Mizoram. The total amount of ₹ 300.00 crores are included in Grant in Aid which is subjected to amortisation during normative useful life of the project since its commissioning. Amount amortized during the FY 2022-23 amounts ₹ 1584.00 lakhs (Previous year ₹ 1584.00 lakhs). An equivalent amount has been recognized as income in the statement of Profit & Loss during the year.

Note no.- 27 **Revenue from Operations**

(₹ in lakhs)

Particulars	For the year ended 31-Mar-23	For the year ended 31-Mar-22
Sale of Energy	3,49,174.31	2,41,233.75
Sale of Energy through trading	91,844.22	64,842.06

Revenue from RRAS	1,254.35	256.87
Others ::		
FERV (Net) from the beneficairies	467.51	405.38
NERLDC Fees & Other Charges from the beneficiaries	596.86	474.78
Sale of Electricity (Net)	**4,47,300.00**	**3,09,491.26**
Other operating Revenue ::		
Interest from the beneficiaries	6,762.37	9,595.11
Recognition from deferred revenue - Govt. grant	1,592.90	1,597.96
Net Revenue from Operation	**4,55,655.27**	**3,20,684.33**

a. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue".

b. Sale of energy includes ₹ 10045.51 lakhs (previous year ₹ 10279.34 lakh) being the revenue for the year recognised based on Annual Fixed Cost as per petition submitted to CERC pending issue of orders.

c. Sale includes ₹ 9940.46 lakhs (Previous year ₹ 11221.72) on account of earlier years sales arising out of finalization of tariff in current year. Further, Sales includes Rs. 6725.64 lakhs allowed by CERC vide their order dated 23.01.2023 for reimbursement of expenses on account of Gratuity (Amendment) Act 2018.

d. In terms of regulation. 67 of the CERC (Terms and conditions of Tariff) Regulations,2019, deferred tax liabilities for the period upto 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees or from the beneficiaries or long term transmission customers/DICs, as the case may be. Accordingly, sales for the year ended 31.03.2023 inludes ₹1452.02 lakhs (after adjustment of ₹ 0.45 lakhs relating to the financial year 2021-22) (Previous FY 2021-22 amounts to ₹ 1310.82 lakhs).

e. During the year ended 31.03.2023, NEEPCO recognized revenue amounting to Rs. 9940.46 lakh as "Sale of energy" and Rs.6762.37 lakhs as "Interest from the beneficiaries" on account of truing up tariff orders for the control periods 2014-19 and tariff orders for 2019-24 issued by the CERC. The said revenue under "Sale of energy" includes DHPS (Rs. 2134.08 lakhs), Khangdong Stg II (Rs. 119.14 lakhs), KHPS (Rs. 1266.63 lakhs), PLHPS (Rs. 6171.87 lakhs), TGBPS (Rs. - 1158.72 lakhs) and PHPS (Rs. 1407.46 lakhs). Further, "Interest from beneficiaries" includes DHPS (Rs. 755.64 lakhs), Khangdong Stg II (Rs. 205.31lakhs), KHPS (Rs. 1704.12 lakhs), PLHPS (Rs. 3202.02 lakhs), TGBPS (Rs. 578.06 lakhs) and PHPS (Rs. 317.22 lakhs). In addition, provisional revenue recognized in Books of NEEPCO during the year ended 31.03.2023 as per the Company's Accounting Policy in case of power stations where final tariff for the control period 2019-24 is yet to be approved by CERC amounts to RS. 10045.51 lakhs.

f. DSM and RRAS is accounted upto the period of the financial year 2022-23, as per the weekly statements issued by the NERPC.

g. During the current financial year, merchant power (347 MW) generated by Kameng (600 MW) HPS has been sold/traded through NTPC Vidyut Vyapar Nigam Ltd (NVVN) under bi-lateral agreement as well as on "Day ahead" and "Real time" markets. Further, NEEPCO has traded available power under "Un-requisitioned surplus (URS)" for its power plants on "Day ahead" and "Real time" markets.

Property , Plant & Equipment	37,718.70	16,030.42

(i) Claims against the company not acknowledged as debts as on March 31,2023 include demand from the income tax authorities for payment of tax of ₹ 27614.24 lakhs upon completion of their tax assessment for the A.Y. 2015-16 amounting to ₹ 11381.61 lakh, A.Y. 2016-17 amounting to ₹ 9112.52 lakh, A.Y. 2020-21 amounting to ₹ 1992.06 lakh, Probable tax liability relating to DPS pending before High Court,Meghalaya and ITAT amounting to ₹ 5120.85 lakh and demand from Customs, Excise and Service Tax Appellate Tribunal (CESTAT) for payment of ₹ 7.20 lakhs in respect of Service Tax.

#Others consists of various cases pending due to court procedure related to gratuity amounting to Rs 15.00 lakhs, EPF amounting to Rs 61.00 lakhs and writ petition challenging termination notice passed by the Commissioner / Secretary (Power) Government of Arunachal Pradesh of New Meling HEP and Sew Nafra Power Corporation Ltd. against contracts awarded amounting to Rs 19162.00 lakhs

(ii) There are few cases pending before the Arbitration Tribunal / Courts, for which amount of claims are yet to be acsertained.

(iii) The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process.The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

(iv) The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition.

Note no. 37 Movement in Regulatory Deferral Accounts Balances

Nature of Rate Regulated Activities

The company is primarily engaged in the business of generation and sale of electricity. The tariff based on which the Company bill to its beneficiaries for electricity sold to them is determined by the Central Electricity Regulatory Commission (CERC) in compliance to the CERC (Terms and Conditions of Tariff) Regulations, as applicable from time to time.

The said regulations allow the Company to recover its costs for providing the goods or services plus a fair return.

Recognition and measurement

• During determination of Annual Fixed Cost (AFC) of the Tuirial Hydro Electric Project (TrHEP) of North Eastern Electric Power Corporation Ltd (NEEPCO) for the control period of 2019-2024 by the Central Electricity Regulatory Commission (CERC), order for which issued on 16.04.2021, the Hon'ble Commission has allowed depreciation @2% based on the petition submitted by NEEPCO for the said purposes in line with the decision of the Public Investment Board (PIB) of the Govt. of India during meeting dated 04.06.2010 held for considering RCE of the project (TrHEP).

• The rates and methodology as per the CERC tariff regulations based on which depreciation for TrHEP has been calculated and charged to the Statement of Profit & Loss of NEEPCO for the period under consideration vary from that allowed to recover through tariff as per the CERC order. Due to higher rate of depreciation as per the CERC regulations, depreciation charged to the Statement of Profit & loss Account for the first 12 (twelve) years of operation TrHEP since its Date of Commercial Operation (COD) will be more than that of the depreciation recoverable through tariff, which will be reversed in future periods during remaining period of normative life of the generating station. Accordingly, the lower depreciation realized as "Revenue" for the generating station during the earlier period of its operation will be recovered/adjusted during later period.

• In view of above, the difference of depreciation to the extent recoverable/adjustable in future period has been recognized on an undiscounted basis as "Regulatory deferral account debit/credit balances" by credit/debit to the "Movement of Regulatory Deferral Account Balances".

• "Regulatory deferral account debit balances" recognized on account of the above during the year ended 31.03.2023 is as follows:

Particulars	Amount (₹ in lakhs)
Depreciation as per CERC Schedule of rates	6,896.90
Depreciation @2% as allowed by CERC vide the tariff order dated 09.10.2018	2,783.29
Difference (Recognized as "Regulatory Deferral balances")	**4,113.61**

Regulatory Deferral Account balances in respect of Employees benefits expenses for Gratuity:
Ministry of Labour and Employment vide their Gazette notification dated the 29th March 2018 has notified the Payment of Gratuity (Amendment) Act, 2018 (12 of 2018) and thus has increased the limit of gratuity upto ₹ 20.00 (Twenty) lakh from the existing ₹ 10 (Ten) lakh.
Regulation 8 (3) of the CERC (Terms and conditions of Tariff) Regulations 2014 provides that "The Commission shall carry out truing up of tariff of generating station based on the performance of following Uncontrollable Parameters:

i) Force Majeure;, ii) Change in Law; and iii) Primary Fuel Cost.

The increase in gratuity expenses due to enhancement of limit upto ₹20.00 lakh as per the Payment of Gratuity (Amendment) Act, 2018 falls under the category of "Change in law",
Accordingly, an amount of ₹ 4793.47 lakh to the extent expected as recoverable from the beneficiaries in subsequent period as per CERC Tariff Regulations recognized as "Regulatory Deferral Account Balances" in books of NEEPCO (the Company) as on 31.03.2018. The Central Electricity Regulatory Commission (CERC) vide order dated 23.01.2023 in NEEPCO's petition no. 718/MP/2020 has allowed reimbursement of the impact of the aforesaid enhancement of gratuity limit as "Additional O&M expenses" for the control period 2014-19. Accordingly, the amount allowed by the Hon'ble Commission has been recognized under "Revenue from operation" with reversal of ₹ 4793.47 lakh lying under "Regulatory Deferral Account balances" during the FY 2022-23 in respect of Employees benefits expenses for Gratuity.

Regulatory Deferral Accounts Balances in respect of deferred adjustment on Deferred Tax Liabilities for projects under operation:

NEEPCO has long term Power Purchase Agreement (PPA) with the States of the North Eastern Region (referred to as the 'Beneficiaries') for selling electricity generated from its generating stations in operations. Tariff for generating stations of NEEPCO are determined by the Central Electricity Regulatory Commission (CERC) in compliance to their notified tariff regulations issued from time to time. As per the CERC Tariff Regulations 2019, ROE is grossed up with effective tax rate as applicable for the respective financial year. Accordingly, deferred tax accrued during the year on income generated from sale of electricity and further adjustable/reversal in future periods when the related deferred tax liability will form a part of current tax & recoverable from the beneficiaries has been accounted as "Deferred tax adjustment against deferred tax liability", which has been recognized as "Regulatory income" and presented as a movement in "Regulatory Deferral Accounts Balance" as a separate line item in compliance to the relevant provisions of Ind AS 114.

Regulatory Deferral Account balances due to reclassification of deferred tax recoverable from beneficiaries

As per Regulation 67 of the CERC (Terms and Conditions of Tariff Regulations) 2019, Deferred tax liabilities for the period upto 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees from the then beneficiaries or long term customers, as the case may be. Till 31st March, 2019 the deferred tax recoverable from beneficiaries in future years was presented as an adjustment to deferred tax liability and was not recognised as "Regulatory Deferral Accounts balances". The same has been reviewed during the FY 2022-23 in line with Ind AS 114 and has been reclassified as Regulatory Deferral Account balance. The regulated assets (+)/liability (-) recognized in the books to be recovered from or payable to beneficiaries in future periods are as follows:

(₹ In lakh)

Sl. No.	Particulars	Regulatory Deferral Account Balances
A	Opening balance as on 01.04.2022	38,623.96
B	Addition during the Financial Year ended 31.03.2023	-
C	Amount collected (-)/refunded (+) during the period	(1,452.47)
D	Regulatory income/(expense) recognized in the Statement of Profit and Loss (B-C)	(1,452.47)
E	Closing balance as on 31.03.2023 (A+D)	37,171.49

Regulatory Deferral Account balances in respect of exchange differences on Foreign Currency Monetary items

Para 28 of the Ind AS 21-"The Effects of Changes in Foreign Exchange Rates" provides that exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognised in profit or loss in the period in which they arise. Further, para D13 AA of the Ind AS 101 – "First-time Adoption of Indian Accounting Standards" provides for a first-time adopter may continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP. Accordingly, for periods beginning on or after 01.04.2016, all exchange differences arising on translation/ settlement of monetary items other than exchange difference on borrowings to the extent treated as an adjustment to interest cost during construction period are to be charged to the Statement of Profit and Loss. Regulation 69 of of the CERC (Terms and Conditions of Tariff) regulations provides that every generating company and the transmission licensee shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises.

Regulatory deferral accounts debit balance - Note 16 recognized :

The regulatory assets recognized in the books to be recovered from the beneficiaries in future periods are as follows:

(₹ in lakhs)

Particulars	As at 31st March 2023	As at 31st March 2022
A. Opening Balance	92,344.55	84,384.08
B. Movements during the year due to (i) Turial Depreciation ₹ 4113.61 lakhs (ii) Deferred Tax Adjustment against Deferred Tax Liability ₹ 10542.90 lakhs. (iii) Deferred Tax Recoverable ₹ (1452.47) Lakhs (iv) Employee Benefit- Gratuity ₹ (4793.47) Lakhs (v) Exchange Difference ₹ (1459.91) Lakhs	6,950.66	7,960.47
C. Amount Collected / refunded during the year	-	-
D. Regulatory Deferral Account Balances recognized in the Statement of Profit & Loss (B-C)	6,950.66	7,960.47
E. Closing Balance (A+D)	**99,295.21**	**92,344.55**
F) Net movements in regulatory deferral account balances (I)	**6,950.66**	**7,960.47**
G) Tax on net movements in regulatory deferral account balances (II)	**1,468.19**	**1,619.88**
H) Total amount recognised in the statement of profit & loss during the year (I - II)	**5,482.47**	**6,340.59**

Rate of return/Discounting rate considered for recognition of Regulatory Deferral Account Balance is "Zero"
Risk/uncertainty associated with future recovery of Regulatory Deferral Account Balances

- **Demand risk:** Recovery of regulatory deferral balances are subjected to billing to its beneficiaries and accordingly associated with related normal risks, such as, attitude of the customers towards settlement of their dues, availability of alternate source of supply etc.
- **Regulatory risk:** On account of Changes, if any, in Regulations and submission or approval of a rate setting application or the entity's assessment on the expected future regulatory actions.

Period over which expected to recover

. **Others:** The Company is expected to recover/adjust the carrying amount of the regulatory deferral account balances over the period of normative useful life of the projects/generating stations.

I. Disclosure of Ratios

Ratio	Numerator	Denominator	FY 2022-23	FY 2021-22	% Variance	Reason for Variance
Current ratio	Current Assets	Current Liabilities	0.55	0.54	3.34	For the current F.Y. Current assets is higher in comparison to previous F.Y.
Debt-equity ratio	Paid-up debt capital (Long term borrowings+Short term borrowings)	Shareholder's Equity (Total Equity)	1.08	1.14	(5.31)	In the current F.Y., the total debts decreased compared to the previous year, while the total equity increased over to previous period , which has resulted decreased in ratio over the previous F.Y.
Debt service coverage ratio	Profit for the year+Finance costs+ Depreciation and amortiation expenses+Exceptional items	Finance Costs + lease payments+Scheduled principal repayments of long term borrowings	1.14	1.18	(3.53)	Due to higher Debt servicing in the current F.Y., the ratio dipped over the previous F.Y. inspite of increased earnings avaible for debts over the previous F.Y.
Return on equity ratio	Profit for the year	Average Shareholder's Equity	0.06	0.03	85.03	Due to increase in the Profit over the previous year, the ratio is better
Inventory turnover ratio	Revenue from operations	Average Inventory	33.00	22.41	47.29	Due to increase in the Revenue and decrease in the average inventory over the previous year, the ratio is better
Trade receivables turnover ratio	Revenue from operations	Average trade receivables	6.36	5.10	24.71	Due to increase in average debtors for the current period the ratio is on the higher side

Trade payables turnover ratio	Total Purchases (Fuel Cost + Other Expenses+Closing Inventory-Opening Inventory)	Closing Trade Payables	9.59	7.21	32.92	Due to increase in the Net Credit purchase the ratio is on the higher side
Net capital turnover ratio	Revenue from operations	Working Capital+current maturities of long term borrowings	4.16	3.42	21.80	Due to increase in the Revenue vis-à-vis the trade receivables over the previous year, the ratio appeared to be on the higher side over the previous F.Y
Net profit ratio	Profit for the year	Revenue from operations	0.09	0.07	31.58	Due to increase in the PAT over the previous year, the ratio is better in current F.Y.
Return on capital employed	Earning before interest and taxes	Capital Employed(i)	0.09	0.07	27.47	The increase of EBIT over the previous period results in better performance of the ratio
Return on investment(ii)-Investments in subsidiary and joint venture companies	{MV(T1) – MV(T0) – Sum [C(t1)]}	{MV(T0) + Sum [W(t) * C(t2)]}	-	-	-	The investment for the NEEPCO is NIL for both the F.Y s
Return on investment(ii)-Investments in others	{MV(T1) – MV(T0) – Sum [C(t1)]}	{MV(T0) + Sum [W(t) * C(t2)]}	-	-	-	The investment (either in the STDRs or other investments) for the NEEPCO is NIL for both the F.Y s

** Denominator is Negative

(i) Capital Employed= Tangible Net Worth + Total Debt + Deferred Tax Liabilities

(ii)Return on Investment where

T1 = End of time period

s

t = Specific date falling between T1 and T0

MV(T1) = Market Value at T1

MV(T0) = Market Value at T0

$C(t_1)$ = Cash inflow, cash outflow on specific date including dividend received

$C(t_2)$ = Cash inflow, cash outflow on specific date excluding dividend received

W(t) = Weight of the net cash flow (i.e. either net inflow or net outflow) on day 't', calculated as [T1 – t] / T1

J(I) Disclosure on Kopili HPS (50X4 MW):

(i) Penstock I - feeding 02 (two) units (50 MW each) of Kopili Hydro Power Station, Umrongso, Assam of the Company got ruptured on 07.10.2019 following a Load through off and tripping of Unit -I (50 MW). 03 (three) other units were in full load during the mishap. Rupture happened at three locations of Penstock including at location immediately downstream of Valve House. Penstock protection valve closing mechanism was damaged in the incident and therefore, the Valve could not be closed to isolate the Penstock, consequently thereafter, the Power House was flooded upto EOT Crane beam level within a very short period. At present, Kopili (4 X 50 MW) system in in shutdown condition. The value of damaged assets assessed & recognised in books till the financial year 2020-21 amounts to Rs.10366.72 lakhs (Gross value Rs.20670.50 lakhs & Accumulated depreciation Rs.10303.78 lakhs), for which provision for an equivalent amount has been provided in books. Repair, Renovation and Modernization (RRM) activities of the said generating plant is going on with scheduled commissioning of all the units during the FY 2023-24.

J (II) Disclosure on Khandong HPS (2 X 25 MW) and Kopili Stage II (1 X 25 MW) HPS:

As a consequence of unprecedented dry season flood in Kopili river, the Bundh constructed at the approach channel for taking up planned repair and renovation works overtopped on the 26th March 2022 leading to uncontrollable ingress of water from the Kopili reservoir into Khanding HRT. The discharge gushes down the hill slopes and inundated the Khandong Power House (2 X 25 MW) and Kopili Stage II Power House (1 X 25 MW) causing damages to the Power Stations and its Plant & Machineries. The value of damaged assets assessed & recognised in books in the previous financial year 2021-22 amounts to Rs.1457.63 lakhs (Gross value Rs.7871.89 lakhs & Accumulated depreciation Rs.6414.26 lakhs) for the said generating stations, for which provision for an equivalent amount has been provided in books.

K. Segment Reporting

NEEPCO is in the business of only one product, i.e., generation and selling of electricity. All the projects of NEEPCO are located with the North East Region, i.e., within the same geographical location. NEEPCO has no reportable segment and accordingly, Ind AS 108 – Operating Segment to disclose information about segments is not applicable.

L. Disclosure as per Ind AS 116 'Leases

(I) Transition to Ind AS 116

The Company has applied the following practical expedients on initial application of Ind AS 116:

(i) Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.

(ii) Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.

(iii) Excluded the initial direct costs, if any, from the measurement of the right-of-use asset at the date of initial application.

(iii) On transition to Ind AS 116, the weighted average incremental borrowing rate applied to lease liabilities recognised under Ind AS 116 is 8.69 %. For agreements relating to the FY 2022-23 the weighted average incremental borrowing rate is taken as 7.14 %.

(ii) Company as Lessee

(i) The Company's significant leasing arrangements are in respect of the following assets:

(a) Premises for guest houses/ transit camps which are not non-cancellable and are usually renewable on mutually agreeable terms.

(b) The Company has taken electrical vehicles on operating lease for a period of five years, which can be further extended at mutually agreed terms. Lease rentals are subject to escalation of 10% per annum.

(c) The Company has taken certain vehicles (other than electrical) on lease for periods more than 12 months.

(III) The following are the carrying amounts of lease liabilities recognised and the movements during the period:

(₹ in lakhs)

Particulars	For the Year ended 31st March 2023	For the Year ended 31st March 2022
Opening Balance	1,011.83	790.45
- Additions in lease liabilities	677.22	807.03
- Interest cost during the year	125.94	130.13
- Payment of lease liabilities	728.69	715.78
Closing Balance	**1,086.30**	**1,011.83**
Current	607.67	573.64
Non Current	478.63	438.19

(IV) The following are the carrying amounts of "Right to use Leased Assets" as on 31.03.2023:

Less than one year	607.67	573.64
Between one and two years	341.20	295.29
Between two and three years	127.37	122.46
Between three and four years	10.06	16.56
Between four and five years	-	3.88
More than five years	-	-
Total	**1,086.30**	**1,011.83**

M. Information in respect of micro and small enterprises as at 31 March 2023 as required by Schedule III to the Companies Act, 2013 and Micro, Small and Medium Enterprises Development Act, 2006 (MSMED Act)

Particulars	For the Year ended 31st March 2023	For the Year ended 31st March 2022
a) Amount remaining unpaid to any supplier: Principal amount Interest due thereon	712.14 -	1,054.92 -
b) Amount of interest paid in terms of Section 16 of the MSMED Act along-with the amount paid to the suppliers beyond the appointed day.	-	-
c) Amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act.	-	-
d) Amount of interest accrued and remaining unpaid	-	-
e) Amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprises, for the purpose of disallowances as a deductible expenditure under Section 23 of MSMED Act	-	-

The payment to the vendors are made as and when they are due, as per terms and conditions of respective contracts.

N. Changes in Accounting Policies:

During the year, changes/modification have been made in Accounting Policies at sl. 4 (viii) and 8 in respect of "Depreciation and Amortization" and "Provisions, Contingent Liabilities and Contingent Assets" respectively. There is no significant material impact on the financial statements due to these changes/modifications.

Note no.- 40 Capital Management

The Company's capital management is intended to create value for shareholders by facilitating the meeting of long term and short term goals of the Company.

The Company determines the amount of capital required on the basis of annual business plan, coupled with long term and short term strategic investing plan. The funding requirements are met through equity, convertible and non- convertible debt securities, and other short term and long term borrowings. The Company's policy is aimed at combination of short term and long term borrowings.

The Company monitors the capital structure on the basis of net debt to equity ratio and maturity profile of the overall debt portfolio of the Company.

Note no.- 41 Disclosure on Financial Instruments

This section gives an overview of the significance of financial instruments for the Company and provides additional information on balance sheet items that contain financial instruments.

The details of significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note no.1 to the financial statements

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below:

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investment in quoted equity shares, quoted corporate debt instruments and mutual fund investments.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This level of hierarchy includes Company's over-the-counter (OTC) derivative contracts.

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. The main items in this category are investment in unquoted equity shares, measured at fair value.

(₹ in lakhs)

(iv) others	35,806.83	-	-	35,806.83
Total financial assets measured at fair value	**89,963.03**	-	-	**89,963.03**
Financial liabilities measured at fair value				
(i) Borrowings	7,45,737.92	-	-	7,45,737.92
(ii) Trade & Other payables*	30,125.35	-	-	30,125.35
(iii) Other financial liabilities	10,143.72	-	-	10,143.72
Total financial liabilities measured at fair value	**7,86,006.99**			**7,86,006.99**

* Trade & Other payables includes trade payables & payables for capital expenditure

The short-term financial assets and liabilities are stated at amortized cost which is approximately equal to their fair value.

The fair value in respect of the unquoted equity investments cannot be reliably measured.

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end

There have been no transfers between Level 1 and Level 2 for the years ended March 31, 2023 and March 31, 2022.

Transfer of financial assets

There have been no transfers of financial assets during the 2022-23

Financial risk management

In the course of its business, the Company is exposed primarily to interest rates, liquidity and credit risk, which may adversely impact the fair value of its financial instruments.
The Company has a risk management policy which covers the risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the Board of Directors. The risk management framework aims to:

Create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on the Company's business plan.

Achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

Market Risk : - Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

Credit Risk :- Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks.

Liquidity Risk: Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The following table shows a maturity analysis of the anticipated cash flows including interest payable for the Company's non derivative financial liabilities on an undiscounted basis, which therefore differ from both carrying value and fair value.

(₹ in Lakhs)

Particulars	As at March 31, 2023				
	Carrying amount	Contractual cash flows	Less than 1 year	Between 1 - 5 years	More than 5 years
Non- derivative financial liabilities					
Borrowings	7,04,959.94	7,04,959.94	1,17,811.20	4,06,318.99	1,80,829.75
Trade payables	32,517.25	32,517.25	19,140.46	13,376.79	-
Other financial liabilities	50,205.85	50,205.85	49,727.21	478.64	-
Total non- derivative financial liabilities	**7,87,683.04**	**7,87,683.04**	**1,86,678.87**	**4,20,174.42**	**1,80,829.75**
Derivative financial liabilities					

(₹ in Lakhs)

Particulars	As at March 31, 2022				
	Carrying amount	Contractual cash flows	Less than 1 year	Between 1 - 5 years	More than 5 years
Non- derivative financial liabilities					
Borrowings	7,45,737.92	7,45,737.92	1,65,546.00	4,56,761.11	1,23,430.81
Trade payables	30,125.35	30,125.35	21,466.10	690.88	-
Other financial liabilities	10,143.72	10,246.31	10,246.31	-	-
Total non- derivative financial liabilities	**7,86,006.99**	**7,86,109.58**	**1,97,258.41**	**4,57,451.99**	**1,23,430.81**
Derivative financial liabilities					

The cost of unquoted investments approximate the fair value because there is a wide range possible fair value measurements and the cost represents estimate of fair value within that range.

Note No. - 42 Operating Segment

a. Electricity generation is the principal activity of the Corporation. Other operation like interest income does not form a reportable segment as per the Accounting Standard 108.

b. The Corporation has power projects located within the country and therefore geographical segments are inapplicable.

Note No 43 **Financial Risk Management**

(i) Exposure to Credit Risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was :

(₹ in lakhs)

Particulars	As at 31st March 2023	As at 31st March 2022
Financial assets for which loss allowance is measured using 12 months Expected Credit Losses (ECL)		
Non-current investments		
Non-current loans	28.19	26.16
Other non-current financial assets	-	-
Cash and cash equivalents	1,461.34	4,344.49
Bank balances other than cash and cash equivalents	291.50	1,009.06
Current loans	1,187.43	1,429.36
Other current financial assets*	1,002.45	4,820.53
Total (A)	**3,970.91**	**11,629.60**
Financial assets for which loss allowance is measured using life-time Expected Credit Losses (ECL) as per simplified approach		
Trade receivables	94,429.78	48,776.49
Contract Assets	21,035.32	29,556.94
Total (B)	**1,15,465.10**	**78,333.43**
Total (A+B)	**1,19,436.01**	**89,963.03**

* Excluding Contract Asets (Refer Note 13)

(ii) Provision for expected credit losses

(a) Financial assets for which loss allowance is measured using 12 month expected credit losses

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(b) Financial assets for which loss allowance is measured using life-time expected credit losses as per simplified approach

The Company has customers (State government utilities) with capacity to meet the obligations and therefore the risk of default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk. Hence, no impairment loss has been recognised during the reporting periods in respect of trade receivables and unbilled revenue.

(iii) Ageing analysis of trade receivables

The ageing analysis of the trade receivables is as below: (₹ in lakhs)

Ageing	Not due	0 - 30 days past due	31-60 days past due	61-90 days past due	91-120 days past due	More than 120 days past due	Total
Gross carrying amount as on 31st March 2023	76,558.90	6,822.65	14.08	-	-	11,034.15	94,429.78
Gross carrying amount as on 31st March 2022	33,536.25	3,466.93	-	-	-	11,773.31	48,776.49

Liquidity Risks

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has an appropriate liquidity risk management framework for the management of short, medium and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Company's Treasury department is responsible for managing the short-term and long-term liquidity requirements of the Company. Short-term liquidity situation is reviewed daily by the Treasury department. The Board of directors has established policies to manage liquidity risk and the Company's Treasury department operates in line with such policies. Any breaches of these policies are reported to the Board of Directors. Long-term liquidity position is reviewed on a regular basis by the Board of Directors and appropriate decisions are taken according to the situation.

Typically, the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a month, including the servicing of financial obligations, this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters

As part of the CERC Regulations, tariff inter-alia includes recovery of capital cost. The tariff regulations also provide for recovery of energy charges, operations and maintenance expenses and interest on normative working capital requirements. Since billing to the customers are generally on a monthly basis, the Company maintains sufficient liquidity to service financial obligations and to meet its operational requirements.

(i) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ in lakhs)

Particulars	As at 31-03-2023	As at 31-03-2022
Fixed-rate borrowings		
Foreign currency loans	-	-
Floating-rate borrowings		
Cash credit /WCDL	99,011.00	19,500.00
Term loans	20,000.00	65,000.00
Foreign currency loans	-	-
Total	**1,19,011.00**	**84,500.00**

(ii) Maturities of financial liabilities

The following are the contractual maturities of derivative and non-derivative financial liabilities, based on contractual cash flows:

31st March 2023 (₹ in lakhs)

Cash credit /WCDL	24,312.43	-	-	-	-	24,312.43

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the risk management committee.

Currency risk

The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates.

The currency profile of financial assets and financial liabilities as at 31 March 2023 and 31 March 2022 are as below

31st March 2023 (₹ in lakhs)

Particulars	USD	Euro	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total			
Financial Liabilities			
Secured Foreign Currency loans	-		-
Unsecured Foreign Curreny loans from banks & financial institution		40,139.50	40,139.50
Trade payables & other financial liabilities			-
Total	-	40,139.50	40,139.50

31st March 2022 (₹ in lakhs)

Particulars	USD	Euro	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total	-	-	-
Financial Liabilities			
Secured Foreign Currency loans	13,620.08		13,620.08
Unsecured Foreign Curreny loans from banks & financial institution		44,170.87	44,170.87
Trade payables & other financial liabilities	-	-	-
Total	**13,620.08**	**44,170.87**	**57,790.95**

Out of the above, no amount is hedged by derivative instruments. In respect of the balance exposure, gain/(loss) on account of exchange rate variations on all foreign currency loans and foreign currency monetary items (up to COD) is recoverable from beneficiaries. Therefore, currency risk in respect of such exposure would not be very significant.

Sensitivity analysis

Since the impact of strengthening or weakening of INR against USD, Euro, JPY and other currencies on the statement of profit and loss would not be very significant; therefore, sensitivity analysis for currency risk is not disclosed.

Interest Rate risk

The Group is exposed to interest rate risk arising mainly from non-current borrowings with floating interest rates. The Group is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Group manages the interest rate risks by entering into different kinds of loan arrangements with varied terms (e.g. fixed rate loans, floating rate loans, rupee term loans, foreign currency loans, etc.).

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments is as follows:

(₹ in lakhs)

Particulars	31st March 2023	31st March 2022
Financial Assets		
Fixed Rate Instruments		
Bank Deposits	291.50	1,009.06
Total	291.50	1,009.06
Financial Liabilities		
Fixed Rate Instruments		
Bonds	3,84,826.40	4,81,105.48
Foreign currency loans	40,139.50	44,170.86
Rupee term loan	29,124.96	29,124.10
Lease obligations	1,086.31	1,011.83
	4,55,177.17	**5,55,412.27**
Variable-rate instruments		
Foreign currency loans	-	13,620.09
Rupee term loan	2,36,972.50	1,57,716.01
Cash Credit	-	-
	2,36,972.50	1,71,336.10
Total	6,92,149.67	**7,26,748.37**

Fair value sensitivity analysis for fixed-rate instruments

The Company's fixed rate instruments are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Cash flow sensitivity analysis for variable-rate instruments

A change of 50 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for the previous year.

(₹ in lakhs)

Particulars	Profit or loss	
	50 bp increase	50 bp decrease
31-Mar-23		
Foreign currency loans	(204.48)	204.48

Lease obligations	3	1,086.31	1,086.31	1,011.83	1,011.83
Borrowings - current	3	22,054.36	22,054.36	24,312.43	24,312.43
Trade payables and payable for capital expenditure	3	32,517.25	32,517.25	30,125.35	30,125.35
Other financial liabilities	3	49,119.55	49,119.55	9,131.89	9,131.89

The carrying amounts of current trade receivables, current trade payables, payable for capital expenditure, investment in subsidiary and joint venture companies, cash and cash equivalents and other financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans, borrowings, non-current trade payables and payable for capital expenditure were calculated based on cash flows discounted using a current discount rate. They are classified at respective levels based on availability of quoted prices and inclusion of observable/non observable inputs.

Note No 45 **Disclosure as per Ind AS 115, ' Revenue from Contracts with Customers'**

Nature of goods and services

The revenue of the Company comprises of income from energy sales, sale of energy through trading and other services. The following is a description of the principal activities:

(a) Revenue from energy sales

The major revenue of the Company comes from energy sales. The Company sells electricity to bulk customers, mainly electricity utilities owned by State Governments Discoms operating in States. Sale of electricity is generally made pursuant to long-term Power Purchase Agreements (PPAs) entered into with the beneficiaries. Further, the Company sell electrcity

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for energy sales:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms
Energy sales	The Company recognises revenue from contracts for energy sales over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from energy sales is determined in terms of CERC Regulations as notified from time to time. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. The amounts are billed on a monthly basis and are payable within contractually agreed credit period.

(b) Revenue from energy trading, consultancy and other services
Sale of Energy through trading

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for sale of energy through trading:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms
Sale of energy through trading	The Company recognises revenue from contracts for sale of energy through trading over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from sale of energy through trading is determined as per the terms of the agreements. The amounts are billed as per periodicity specified in the Contract and are payable within contractually agreed credit period.

II. Disaggregation of revenue

In the following table, revenue is disaggregated by type of product and services, geographical market and timing of revenue recognition.

Independent Auditors' Report

To the Members of North Eastern Electric Power Corporation Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of North Eastern Electric Power Corporation Limited ('the Venturer Company') and its jointly controlled entity (collectively referred to as 'the Company'), which comprise the Consolidated Balance Sheet as at 31st March 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated statement of Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as 'Consolidated Financial Statements').

In our opinion and to the best of our information and according to the explanations given to us, and due consideration of unaudited Financial Statements of the joint venture entity referred to below in the 'Other Matters' paragraph, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the Consolidated state of affairs (financial position) of the Company as at 31st March 2023, and its consolidated profit (financial performance including other comprehensive income), its Consolidated changes in equity and the Consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

CHARTERED ACCOUNTANTS

Emphasis of Matter

We draw attention to the following matters in the Notes to the Consolidated Financial Statements :

1. Note No. 2 (v) regarding Capitalization of Rs. 2485.44 lakhs being Capacity Charges on Transmission assets including interest thereon billed by PGCIL, for earlier years.
2. Note No. 27(b) read with Significant Accounting Policy 17.1(a)(ii) regarding sale of energy includes Rs. 10045.51 lakhs being the revenue for the year recognized on the basis of provisional rate.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below as the key audit matters to be communicated in our report. The below mentioned Key Audit Matters have been reproduced from the Independent Auditors' Report on the audit of Standalone Financial Statements of the venturer company.

Sl. No	Key Audit Matter	Addressing the Key Audit Matter
1	**Recognition and Measurement of Revenue from sale of energy** The Company records revenue from sale of energy based on tariff approved by the Central Electricity Regulatory Commission (CERC) and where final tariff is yet to be approved by CERC, provisional revenue is recognized on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through tariff petition. Where neither approved tariff is available nor petition is pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. (Refer note no. 27 read with significant accounting policy no. 17.1(a)	**Our Audit Procedure :** We have obtained an understanding of the CERC tariff regulations, orders, circulars, guidelines and the company's internal circulars and procedures in respect of recognition and measurement of revenue from sale of energy comprising of capacity charges and energy charges and adopted the following Audit Procedures : - Evaluated and tested the effectiveness of the company's design of internal controls relating to recognition and measurement of revenue from sale of energy. - Verified the accounting of revenue from sale of energy as well as accounting of provisional revenue from sale of energy based on provisional tariff computed as per the principles adopted by the Company.

CHARTERED ACCOUNTANTS

2	**Impairment Assessment of carrying value of Property, Plant & Equipment (PPE)** The Company has a material operational asset base (PPE) relating to generation of electricity and is one of the components for determining the tariff as per the CERC Tariff Regulations, which may be vulnerable to impairment. Carrying value of PPE requires impairment assessment based on the future expected cash flows associated with the Power Plants (Cash Generating Units). (Refer Note No. 50 read with the Significant Accounting Policy No.5)	**Our Audit Procedures :** We have adopted the following Audit Procedure: - Read the Company's Accounting Policies with respect to impairment in accordance with Ind AS 36 "Impairment of Assets". - Performed test of controls over key financial controls related to accounting, valuation and recoverability of assets through inspection of evidence. - Performed substantive audit procedures including : i) Obtained the management's impairment assessment. ii) Evaluated the key assumptions including projected generation, fuel prices, exchange rate, energy prices, post power purchase agreement period and weighted average cost of capital by comparing them with prior years and external data, where available. iii) Obtained and evaluated the sensitivity analysis. - Reliance has been placed on management projections for completion timeline, volume of generation and resultant revenue based on expected tariff there against.
3	**Contingent Liability** There are number of litigations/claims against the company pending before various forums. Claims made against the company are significant and the management's judgement is required for estimating the amount involved and their proper disclosure.	**Our Audit Procedures :** We have obtained the details of cases/disputes/claims pending before various courts/ Arbitrations/ quasi judicial Forums etc. as on 31.03.2023 from the Management along with the latest status and management's assessment for the same.

	Disclosure of the same involves a significant degree of Management's judgement in interpreting the cases and assessment of the probability of occurrence of the liability which may be subject to Management bias. (Refer note no. 36 to the Consolidated Financial Statements.)	We have also obtained the Company's Accounting policy in this regard and their disclosure in notes to the Consolidated financial statements for the same. We understood and tested the design and operating effectiveness of control as established by the Management for obtaining all relevant information for pending litigation/ cases. We discussed with Management regarding their basis of assessment and any material development thereto and also possible outcomes of the claims/ disputes.

Information other than the Consolidated Financial Statements and Auditors Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis Report, Director's Report including Director's Responsibility Statement, Report of Corporate Governance and other information included in the Annual Report, but does not include the Consolidated financial statements and our auditors' report thereon. The Other Information as stated above is expected to be made available to us after the date of this Auditors' Report.

Our opinion on the Consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially in consistent with the Consolidated financial statements or our knowledge obtained during audit or otherwise appears to be materially misstated.

When we read the Other Information as stated above and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and describe necessary actions required as per applicable laws and regulations.

CHARTERED ACCOUNTANTS

Responsibilities of Management and Those charged with Governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the Consolidated financial position, Consolidated financial performance including other comprehensive income, Consolidated changes in equity and Consolidated cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder and as per the Electricity Act, 2003 and relevant Central Electricity Regulatory Commission (CERC) regulation and other recognized accounting practices and policies.

This responsibility of the respective Board of Directors also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the venturer company and its jointly controlled entity are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors are also responsible for overseeing the financial reporting process of the venturer company and of its jointly controlled entity.

Auditors' Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an Auditors' Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing (SAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of user taken on the basis of these Consolidated Financial Statements.

L.K.KEJRIWAL & CO.
CHARTERED ACCOUNTANTS

As part of an Audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also;

- Identify and assess the risk of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system with reference to consolidated financial statements in place and the operating effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditors' Report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditors' Report. However, future events or conditions may cause the company to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures and whether the Consolidated Financial Statements represent the under lying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate Audit evidence regarding the financial information of the business activities of the venturer company and its joint venture to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of only such business activities included in the Consolidated Financial Statements of which we are the independent Auditors. For the business activities included in the Consolidated Financial Statements, which have not been audited, their directors remain responsible for the direction, supervision and performance of it. We remain solely responsible for our audit opinion.

L.K.KEJRIWAL & CO.
CHARTERED ACCOUNTANTS

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in

i) Planning the scope of our audit work and in evaluating the results of our work; and
ii) To evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance of the venturer company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the Financial Statements of the jointly controlled entity. The unaudited Financial Statements of jointly controlled entity has been furnished to us by the Management of the venturer company. The Consolidated Financial Statements reflect investments carried at Rs. 443.13 lakhs in the Consolidated Balance Sheet as at 31 March 2023, and share of loss of joint venture at Rs. 1.87 lakhs on the Consolidated Profit & Loss, based on such unaudited Financial Statements of such joint venture as at 31 March, 2023, accounted for under the Equity method. Our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosure included in respect of the jointly controlled entity, and our report in terms of section 143(3) and 143(11) of the Act, in so far as it relates to the aforesaid jointly controlled entity, is based solely on such unaudited Financial Statements.

Our opinion on the Consolidated Financial Statements and our report on other Legal And Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the unaudited Financial Statements provided by the Management of the jointly controlled entity.

Report on Other Legal and Regulatory Requirements

As required by section 143(3) of the Act, based on our audit and on the consideration of the unaudited Financial Statements of the jointly controlled entity as noted in the 'Other Matters' paragraph above, we report, to the extent applicable, that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements;

b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept by the Venturer Company so far as it appears from our examination of those books;

c) The Consolidated Balance Sheet, the Consolidated statement of Profit and Loss (including the other comprehensive income), the Consolidated statement of changes in equity and the Consolidated statement of cash flows dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements;

d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Indian Accounting Standards specified under section 133 of the Act;

e) Being a Government Company, pursuant to the notification no. GSR 463(E) dtd. 5th June 2015 issued by the Ministry of Corporate Affairs, Government of India, provisions of sub sections (2) of section 164 of the Companies Act, 2013 are not applicable to the venturer company;

f) As per notification no. GSR 463 (E) dtd. 5th June 2015 issued by the Ministry of Corporate Affairs, Government of India, section 197 of the Act, as regards managerial remuneration, is not applicable to the Government Companies. Accordingly, reporting in accordance with requirement of provisions of section 197(16) of the Act is not applicable to the venturer company;

g) With respect to the adequacy of the Internal Financial Controls with reference to Consolidated Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure A'; and

h) With respect to the other matters to be included in the Auditors Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the unaudited Financial Statements of the jointly controlled entity:

i) The Venturer Company has disclosed the impact of pending litigations on its financial position in its Consolidated Financial Statements – refer note no. 36 to the Consolidated Financial Statements;

ii) The Venturer Company has made provision, as required under the applicable Law or Indian Accounting Standards, for material foreseeable losses, if any, on long term contracts; and

iii) The Venturer Company has no case of transferring any amount to the Investor Education and Protection Fund as per the provisions of the Act.

iv) a) The management of the Venturer Company has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Venturer Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Venturer Company or provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

b) The management of the Venturer Company has represented, that, to the best of its knowledge and belief, no funds have been received by the Venturer Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Venturer Company shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party, or provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries; and

c) Based on such audit procedure as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub clause (iv)(a) and (iv)(b) above contain any material mis-statement.

i) a) The final dividend for the previous year, declared and paid during the year by the Venturer Company is in accordance with Section 123 of the Act, as applicable.

b) The interim dividend declared by the Venturer Company during the year is in accordance with section 123 of the Act.

Annexure A to the Independent Auditors' Report

(Refered to in Paragraph 1(g) under 'Report on other Legal and Regulatory Requirements' section of our Report of even date on the Consolidated Financial Statements for the year ended 31 March 2023)

Report on the Internal Financial Controls under section 143(3)(i) of the Companies Act 2013, (the Act)

In conjunction with our audit of the Consolidated Financial Statements of the company as of and for the year ended 31 March, 2023, we have audited the internal financial controls of North Eastern Electric Power Corporation Limited ('the Venturer Company') and its jointly controlled entity which is a company incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the venturer company and its jointly controlled entity, which is a company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Consolidated Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

L.K.KEJRIWAL & CO.
CHARTERED ACCOUNTANTS

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Venturer Company's internal financial controls with reference to Consolidated Financial Statements.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding their liability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company ; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Venturer Company has, in all material respects, an adequate internal financial controls with reference to the Consolidated Financial Statements in place and such internal financial controls with reference to the Consolidated Financial Statements were operating effectively as at 31st March 2023, based on the criteria for internal controls with reference to Consolidated Financial Statements established by the Venturer Company considering the components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operative effectiveness of the Internal Financial Controls with reference to the Consolidated Financial Statements in so far as it relates to the jointly controlled entity which is a company incorporated in India, is based on the corresponding unaudited Financial Statements of such Company incorporated in India. Our opinion on the adequacy and operating effectiveness of internal financial controls with reference to the consolidated financial statements of the venturer company , as explained by the management , is not affected as the unaudited financial statements of the joint venture company is not material to the venturer company.

The address of the Company's registered office is Brookland Compound, Lower New Colony, Laitumkhrah, Shillong 793003, Meghalaya. Authorised Capital of the Company is ₹ 5000 crore. The Company has its 12 (twelve) generating stations, which are under operation [except theree generating stations of Kopili HPS, namely, Kopili (4 X 50 MW) power station, Khangdong Stage I (2 X 25 MW) Power Station and Khangdong Stage II (1 X 25 MW) Power Station, which are under Repairing/Reconstruction Renovation and Modernisation] with 8 (eight) hydro, 3 (three) thermal and 1(one) solar power generating stations. Present installed capacity of the company is 2057 MW.

NEEPCO Ltd has its debt (Bond XI issue to XXIII issue) listed with Bombay Stock Exchange (BSE).

B. Basis of preparation

I. Statement of Compliance

The financial statements of the Company have been prepared in accordance with the relevant provisions of the Companies Act, 2013, Indian Accounting Standards (herein after referred to as "Ind-AS") as notified by the Ministry of Corporate Affairs pursuant to the section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, Companies (Indian Accounting Standards) Amendment Rules 2016 and the provisions of the Electricity Act, 2003 to the extent applicable.

The Company has adopted all the applicable Ind ASs and such adoption was carried out in accordance with Accounting Principles generally accepted in India as prescribe in section 133 of the Act, read with Rule 7 of the Companies (Accounting) Rules 2014,

II. Basis of measurement

The financial statements have been prepared on historical cost basis, except

- Certain financial instruments that are measured at fair value;
- Assets held for sale – measured at fair value less cost to sell;
- Plan assets of defined employees benefit plans;

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Income and Expenses are accounted for on Mercantile Basis, except otherwise stated and disclosed accordingly.

III. Functional and presentation currency

These financial statements are presented in Indian Rupee (INR), which is the Company's functional currency. All financial information presented in INR has been rounded off to the nearest Lakh (upto two decimals) for the Company, except as stated otherwise.

IV. Current and Non-current classification

All assets and liabilities have been classified as current or non-current as per Company's operating cycle and other criteria set out in Schedule-III of the Companies Act 2013. Based on the nature of business, the Company has ascertained its operating cycle as 12 months for the purpose of Current or noncurrent classification of assets and liabilities.

Deferred tax assets and Deferred tax liabilities are classified as non-current .

V. Use of estimates and management judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, disclosure of contingent assets and liabilities at the date of financial statements and reported amount of income and expenses during the period. Actual results may differ from those estimates.

Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised in the financial statements prospectively and if material, their effects are disclosed in the notes to the financial statements.

Key sources of estimation uncertainty at the reporting date, which may cause a material adjustment to the carrying amounts of assets and liabilities for future years are provided in Note-D.

VI. Investment in Joint Venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The investment in joint venture is carried at cost, which comprises of price paid to acquire investment and directly attributable cost, less impairment, if any.

C. Summary of Significant Accounting Policies

Basis of Consolidation

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with Ind AS 105.

Under the equity method, an investment in a joint venture is initially recognised in the consolidated balance sheet at cost and adjusted thereafter to recognise the Group's share of the profit and loss of the joint venture. When the Group's share of losses of a joint venture exceeds the Group's interest in that joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture.

An investment in a joint venture is accounted for using the equity method from the date on which the investee becomes a joint venture. On acquisition of the investment in a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised directly in equity as capital reserve in the period in which the investment is acquired.

If there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the net investment in a joint venture (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows from the net investment that can be reliably estimated, then it is necessary to recognise impairment loss with respect to the Group's investment in a joint venture.

When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with Ind AS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount, Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with Ind AS 36 to the extent that the recoverable amount of the investment subsequently increases.

1. Property, plant and equipment

1.1 An item of PPE is recognized as an asset if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

1.2 Property, plant and equipment held for use in the production and transmission of power, or for administrative purposes, are stated in the balance sheet at cost, less accumulated depreciation/amortization and impairment loss, if any.

1.3 Auxiliaries which are not separately identifiable, but are common to more than one power generating unit are capitalised in the ratio of their respective installed capacity.

1.4 PPE are initially measured at cost of acquisition/construction including decommissioning or restoration cost, if any, wherever required. The cost includes expenditure that is directly attributable to the acquisition/construction of the asset. In cases where final settlement of bills with contractors is pending, but the asset is complete and ready for use, capitalization is done on provisional basis subject to necessary adjustments in the year of final settlement.

1.5 The expenditure incurred on start-up and commissioning of the project, including the expenditure incurred on trial/test runs and experimental production is capitalized as an indirect element of the construction cost. However, after commencement of commercial operation, the expenditure incurred is charged to Revenue expenditure, even if the contract stipulation provides for final taking over of the plant after successful commissioning of the plant.

1.6 Subsequent expenditure on major maintenance or repairs includes the cost of the replacement of parts of assets and major overhaul costs. Where an asset or part of an asset is replaced and it is probable that future economic benefits associated with the item will be available to the Company, the expenditure is capitalized and the carrying amount of the item replaced is derecognized. If it is not practicable to determine the carrying amount of the replaced part, the company uses the cost of the replacement as an indication of what the cost of replaced part was at the time it was acquired or constructed.Similarly, overhaul costs associated with major maintenance are capitalized.

1.7 Standby equipment and servicing equipment which meet the recognition criteria of Property, Plant and Equipment are capitalized.

1.8 Assets over which the Company has control, though created on land not belonging to the Company are included under Property, Plant and Equipment.

1.9 Payments made/ liabilities created provisionally towards compensation, rehabilitation and other expenses relatable to land in possession are treated as cost of land.

1.10 Spare parts procured along-with the Plant & Machinery as well as procured subsequently which meets the recognition criteria are capitalized. Other machinery spares are treated as "stores & spares" forming part of the inventory.

1.11 Cost of mobile handsets are recognised as revenue expenditure.

1.12 An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognized in profit & loss or IEDC, as the case may be.

2. Capital work-in-progress

2.1 Expenditure incurred on assets under construction is carried at cost under Capital work in Progress. Such costs comprises purchase price of asset including all taxes/duties and other costs that are directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

2.2 Cost directly attributable to projects under construction include costs of employee benefits, expenditure in relation to survey and investigation activities of the projects, cost of site preparation, initial delivery and handling charges, installation and assembly costs, professional fees, expenditure on maintenance and up-gradation etc. of common public facilities, depreciation on assets used in construction of project, interest during construction and other costs including administrative and general overhead costs, if attributable to construction of projects. Such costs are accumulated under "Capital works in progress" and subsequently allocated on systematic basis over major immovable assets. For projects under construction, the project specific IEDC is allocated to its qualifying assets at the time of capitalisation on the basis of Cost Estimate/Completion Cost of the project.

2.3 Capital expenditure incurred to create facilities, over which the Company does not have control and creation of which is essential for construction of the project is carried on under :Capital works in progress" and subsequently allocated on systematic basis over major immovable assets, other than land and infrastructure facilities on commissioning of projects.

2.4 Expenditure against "Deposit works" is accounted for on the basis of statement of accounts received the concerned agency and acceptance by the Company.

2.5 Common expenditure of a project, which is partially in operation and partially under construction, is being apportioned on the basis of the installed capacity.

2.6 Share of Corporate office and Guwahati office expenditures relating to construction activities are allocated/apportioned to the projects under construction on the basis of accretion to CWIP.

2.7 In case of abandonment/suspension/discontinuation of project, the expenditure in relation to the same is expensed/charged off in the year of such decision.

3. Intangible Assets

3.1 An intangible asset is recognized if and only if it is probable that the expected future economic benefit that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably.

3.2 Intangible assets acquired separately are measured on initial recognition at cost. Such assets are capitalized when the assets are ready for its intended use. After initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

3.3 Computer software (not being an integral part of the related hardware) acquired for internal use, is stated at cost of acquisition less accumulated amortization and impairment losses, if any.

3.4 Land taken for use from State Government (without transfer of title) and expenses on relief and rehabilitation as also on creation of alternate facilities for land evacuees or in lieu of existing facilities coming under submergence and where construction of such alternate facilities is a specific pre-condition for the acquisition of the land for the purpose of the project, are accounted for under "Land-Right to use."

3.5 Intangible assets not ready for its intended use as on the date of balance-sheet are disclosed as "Intangible assets under development".

4. Depreciation and amortization:

Depreciation is charged as per Electricity Act, 2003 on straight line method following the rates and methodology notified by the Central Electricity Regulatory Commission constituted under the Act except the followings:

i. IT equipment (Personal Computers and Laptops including Peripherals) are depreciated in a period of three years.

ii. Computer software is amortised on straight-line method over a period of legal right to use or 03 (three) years, whichever is less. The amortisation period and the amortisation method of intangible assets with a finite useful life is reviewed at each financial year and adjusted prospectively, whereever required.

iii. "Land-right to use" is fully amortized over the period of useful life of the project, from its "Date of commercial operation".

iv. Leasehold Lands are amortised over the period of lease or useful life of the project, whichever is lower, from its "Date of commercial operation". Leasehold Land, in case of administrative offices, are amortised over the lease period.

v. Where the cost of depreciable assets has undergone a change due to increase/decrease in long term liabilities on account of exchange fluctuation, price adjustment, settlement of arbitration/court cases, changes in duties and similar factors, the unamortized balances of such assets is depreciated prospectively over the residual life of such asset at the rate and methodology notified by the CERC regulations.

vi. Cost of major repairing and overhauls are depreciated over their useful lives where it is probable that future economic benefits will be available.

vii. Spares parts procured along with the Plant & Machinery or subsequently which are capitalized and added in the carrying amount of such item are depreciated over the residual useful life of the related plant and machinery at the rates and methodology notified by CERC.

viii. Assets/procured installed, whose individual cost is Rs. 5000/- or less but more than Rs. 750/- (hereinafter is called Assets of minor value) are depreciated during a period of 12 month leaving a nominal balance of Rs. 1/- only.

ix. Low value items, which are in the nature of the assets (excluding immovable assets) and value up to Rs. 750/- are not capitalized and charged off to revenue during the year.

x. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale(or included in a disposal group that is classified as asset held for sale) in accordance with Ind AS 105 and the date that the asset is de-recognised.

xi. Depreciation of Corporate/Administrative office assets and general assets of projects under construction are charged following the rates notified vide CERC tariff regulations.

5. Impairment of assets

5.1 At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is indication that those assets may suffer an impairment loss. If any such indication exists, the recoverable amount (i.e., higher of its fair value less cost to sell and the value-in-use) is determined on individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

5.2 If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount and the difference between the carrying amount and recoverable amount is recognised as impairment loss in the statement of profit & loss.

5.3 Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exits. An impairment loss is reversed if there has been a change in the estimated recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised.

6. Regulatory deferral accounts

6.1 Expenses/income recognized in the Statement of Profit & Loss to the extent recoverable from or payable to the beneficiaries is subsequent period as per CERC tariff Regulations are recognized as "Regulatory Deferral Account Balances".

6.2 Regulatory deferral account balances are adjusted from the year in which the same become recoverable from or payable to the beneficiaries.

6.3 Regulatory Deferral Account Balances are evaluated at each Balance Sheet Date to ensure that the underlying activities meet the recognition criteria and it is probable that future economic benefits associated with such balances will flow to the entity. If it is no longer probable that future economic benefit associated with such balances will flow to the Company, such balances are de-recognized.

6.4 Regulatory deferral Account Balances are tested for impairment at each Balance sheet date.

7. Foreign Currency Transaction

7.1 Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates.

7.2 In preparing the financial statements transactions in currencies other than the entity's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date.

7.3 Exchange differences on foreign currency borrowings relating to Asset under Constructions for future productive use are included in the cost of those assets when they are regarded as an adjustment to interest cost on those foreign currency borrowings as per the requirements of Ind AS 23.

7.4 Exchange differences on monetary items are recognized in the statement of profit and loss/IEDC, as the case may be, in the period in which they arise.

7.5 Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising out on settlement or translation of monetary items are recognized in the profit or loss in the year in which it arises with the exception that exchange differences on long term monetary items related to acquisition of property, plant and equipment recognized up to 31-03-2016 are adjusted to the carrying cost of property, plant and equipment.

7.6 In accordance with the CERC tariff regulations, every generating company shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises, i.e., the Company can recover the foreign exchange rate variation on actual basis when foreign currency loan is repaid after commercial operation date (COD).

8. Provisions, Contingent Liabilities and Contingent Assets

8.1: A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

8.2: The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

8.3: When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of reimbursement, if any.

8.4: Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

8.5: Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

8.6: Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

9. Leases

9.1 The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease.

9.2 Leases are classified as finance leases whenever the terms of the lease transfers substantially all the risks and rewards incidental to the ownership of an asset to the lessee. Such finance leases are generally capitalised at the lease's inception at the fair value of the leased property which equals the transaction price. All other leases are classified as operating leases.

9.3 In compliance to MCA notification, the Company has adopted Ind AS 116 "Leases" with effect from 01.04.2019 and applied to all lease contracts existing on 1 April 2019 . Consequently, the Company recorded the lease liability at the present value of remaining lease payments discounted at the incremental borrowing rate applicable at the date of initial application and the right of use assets at its carrying amount, discounted at the Company's incremental borrowing rate at the date of initial application.

10. Inventories

10.1 Inventories mainly comprise of stores and spare parts to be used for operation and maintenance of Property, Plant and Equipment.

10.2 Inventories are valued at costs or net realizable value (NRV), whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average cost formula and NRV is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

10.3 Value of scrap is adjusted in the account as & when sold/disposed-off and profit/loss, if any, is recognized in accounts in the year of sell/disposal.

11. Trade receivable

11.1 Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If collection is expected to be made within a period of 12 months or less from the reporting date, they are classified as current assets otherwise as non-current assets. Trade receivables are measured at their transaction price.

11.2 As the entire sales are made to State Govt. utilities as well as power trading companies, the Company is not providing for allowance for expected credit loss.

11.3 Trade Receivable represents the Company's right to an amount of Consideration that is unconditional (i.e. only the passage of time is required before payment of the Consideration is due)

12. Financial Instruments

12.1 Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction cost that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liabilities.

12.2 Other Financial Assets (Contract Assets)

Accounts Receivables is the right to consideration in exchange for goods or services, transferred to the Customer. If the Company performs by transferring the goods or services to a Customer before the Customer pays consideration or payment is due, Accounts Receivables (in the nature of Contract Asset) is recognised for the Earned Consideration that is conditional.

Financial assets comprises of investments in joint venture, advances to employees, trade receivables, cash and cash equivalents, claims recoverable, security deposits etc.

i. Cash or Cash Equivalents:

The Company considers all short term Bank deposits, which are readily convertible in to known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consists of balances with banks which are unrestricted for withdrawal and usage in the balance sheet, bank overdrafts are shown within borrowings in current liabilities.

ii. Financial assets at amortized cost:

Financial assets which are initially measured at cost are subsequently measured at amortized costs if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii. Financial assets at Fair value through Other Comprehensive Income (OCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual term of the financial assets give rise on specified days to cash flows that are solely payment of principals and the interest on principal amount outstanding.

iv. Financial assets at Fair value through Profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive item on initial recognition. The transaction cost directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in the statement of profit or loss.

v. Derecognition of financial assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

vi. **Impairment of financial assets**

At each reporting date, the Company assess whether the credit risk on a financial instrument has increased significantly since initial recognition

If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. If, the credit risk on that financial instrument has increased significantly since initial recognition, the Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognized as an impairment gain or loss in the statement of profit and loss.

12.3 Financial liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company. The Company's financial liabilities includes loan & borrowings, trade and other payable etc.

(i) The financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method.

ii. De-recognition of financial liability

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

13. Borrowing cost

13.1 Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition, construction/development or erection of qualifying assets are capitalised to the cost of those assets, until such time substantially all the activities necessary to prepare the qualifying assets for their intended use are completed.

13.2 Investment income earned on the temporary investment of specific borrowings pending their expenditure on related qualifying assets is deducted from the borrowing costs eligible for capitalization.

13.3 All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred. Borrowing cost includes exchange differences on foreign currency borrowings are adjusted to interest cost.

13.4 Prepayment charges on repayment of loan in full will be charged off to the IEDC / Profit & Loss account, as applicable, in the year of repayment itself.

14. Government grants

14.1 Government grants are recognized when there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants has actually been received.

14.2 The benefits of a government loan at a below market rate of interest is also treated as Government Grant. The loan is initially recognised and measured at fair value and the government grant is measured as the difference between the initially recognized amount of the loan and the fair value of the loan based on prevailing market interest rates.

14.3 Government grants are recognised in the statement of profit and loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognized in the balance sheet by setting up the grant as deferred income.

14.4 Other government grants (grants related to income) are recognized as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis. Grants related to income are presented under other income in the statement of profit and loss.

15. Employee Benefits

15.1 Employee benefits consist of provident fund, pension, gratuity, post-retirement medical benefit (PRMB), leave benefits and other terminal benefits.

15.2 Company's contribution paid/payable during the year to Employees Defined Contribution Superannuation Scheme for providing Pension benefit, Provident Fund and Gratuity are accounted for and paid to respective funds which are administered through separate trusts. The Company's liability is actuarially determined for Gratuity, Leave encashment and PMRB at the Balance Sheet date and any further accretion during the year for Gratuity is provided for and that for Leave encashment and PMRB are charged to IEDC or profit & loss, as the case may be.

15.3 When the benefit of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expenses is recognized immediately in statement of profit and loss.

15.4 Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under performance related pay if the company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

15.5 The expenses incurred on terminal benefits in the form of ex-gratia payments are charged to IEDC or profit & loss, as the case may be in the year of incurrence of such expenses.

16. Income Taxes

Tax expense represents the sum of current tax and deferred tax.

16.1 Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current income tax charge is calculated by using tax rates that have been enacted or substantively enacted by the end of the reporting period.

16.2 Deferred tax

- Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Tax relating to items recognized directly in other comprehensive income forms part of the statement of comprehensive income.

- Deferred tax is provided, using the balance sheet method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.
- The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered

Deferred Tax Assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which likely to give future economic benefits in the form of set off against future income tax liability. MAT is recognized as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

- Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

17. Revenue

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Revenues are reduced for rebates and other similar allowances.

17.1 Revenue from Operations

a) Revenue from Sale of Power

i. Revenue is recognised on transfer of control over the products or services to a Customer, based on the consideration that is specified in a contract with a customer or is expected to be received in exchange for the products or services and excludes amounts collected on behalf of third parties.

ii. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue".

iii. The incentives/disincentives are recognized based on norms notified by the Central Electricity Regulatory Commission.

iv. Deferred tax liabilities till March, 2009, whenever materializes and recoverable from the beneficiaries as per the CERC tariff regulations, are accounted for on year to year basis

v. Exchange difference on account of translation of foreign currency borrowings recognized upto 31st March 2016, to the extent recoverable from or payable to the beneficiaries in subsequent periods as per the CERC Tariff Regulatons are accounted as "Deferred foreign currency fluctuation asset" with corresponding credit to "Deferred income from foreign currency fluctuation". Deferred income from foreign currency fluctuation account is amortized in the proportion in which depreciation is charged on such exchange differences and same is adjusted against depreciation expense.

vi. Rebate allowed to beneficiaries for timely payments are netted off with the the revenue from operation on account of Sale of energy

b) Revenue from DSM, RRAS and NERLDC Fees

i. Revenue from DSM is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Deviation Settlement Mechanism) Regulations 2014 and amendments thereto.

ii. Revenue from RRAS is recognised based on the weekly Accounts issued by the North Eastern Regional Power Committee (NERPC) which is governed by the Central Electricity Regulatory Commission (Ancillary Services Operations) Regulations 2015 and amendments thereto.

iii. NERLDC Fees and charges are recognised as revenue as claimed on Beneficairies for reimbursement, governed by CERC (Terms & Conditions of Tariff) Regulations 2019 and amendments thereto.

17.2 Other Income

i. Dividend income from investments are recognized when the right to receive the dividend is established.

ii. Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iii. Insurance claims for loss of profit are accounted for in the year of acceptance. Other insurance claims are accounted for based on certainty of realisation.

iv. Interest/Surcharge on late payment /overdue trade receivables for sale of energy is recognized when no significant uncertainty as to measurability or collectability exists.

18 Material prior period error

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

19 Earnings Per Share

19.1 Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, if any, other than the conversion of potential equity shares, if any that have changed the number of equity shares outstanding, without a corresponding change in resources.

19.2 For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

20 Miscellaneous

20.1 Each material class of similar items is presented separately in the financial statements. Items of a dissimilar nature or function are presented separately unless they are immaterial.

20.2 Liabilities for pending Capital works executed but not certified are not provided for , pending acceptance by the Company.

20.3 Physical verification of Fixed Assets and Inventories are undertaken by the management once in a year. The discrepancies noticed, if any, are accounted for in the year in which such differences are found.

Critical accounting judgements and key sources of estimation uncertainity

In the application of the Company's accounting policies, which are described in Note-B, the management of the Company is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised.

Critical judgements in applying accounting policies:

The following are the critical judgements, apart from those involving estimations (see point ii below), that the management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements

i. Financial assets at amortized cost

The management has reviewed the Company's financial assets at amortized cost in the light of its business model and have confirmed the Company's positive intention and ability to hold these financial assets to collect contractual cash flows.

ii. Key sources of estimation uncertainty:

The following are the key assumptions concerning the future, and other key sources of estimation of uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year

a. Impairment of investments

The Company reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

b. Provisions

Provisions (excluding retirement benefits, leave encashment and Gold Coin) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates.

c. Assets held for sale

Significant judgement is required to apply the accounting of non-current assets held for sale under Ind AS 105 - 'Non current assets held for sale and discontinued operations'. In assessing the applicability, management has exercised judgment to evaluate the availability of the asset for immediate sale, management's commitment for the sale and probability of sale within one year to conclude if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

d. Contingent liabilities

Contingent liabilities arising from past events, the existence of which would be confirmed only on occurrence or non-occurrence of one or more future uncertain events, not wholly within the control of the Company or contingent liabilities where there is a present obligations but it is not probable that economic benefits would be required to settle the obligations are disclosed in the financial statements unless the possibility of any outflow in settlement is remote

d. Fair value measurements and valuation processes:

For financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

INVESTMENT IN JOINT VENTURES

(i) The carrying amount and market value of unquoted investments is as follows: *(₹ in lakhs)*

Name of the Companies	Proportion of Ownership interest as at	
	31.03.2023	31.03.2022
KSK Dibbin Hydro Power	30%	30%

Particular	As At 31st March' 2023	As at 31st March,2022
(a) Unquoted		
Aggregate carrying amount of unquoted investments	443.13	445.00
Total carrying amount	**443.13**	**445.00**

(i) The cost of unquoted Investments approximate the fair value because there is a wide range possible fair value measurements and the cost represents estimate of fair value within that range.

(ii) Investment in KSK Dibbin Hydro Power:- Joint venture between KSK Energy Ventures and NEEPCO Ltd for setting up of a hydro power plant at Arunachal Pradesh.

NEEPCO is under the process of exploring various scopes & opportunities for ensuring viability of M/s KSK Dibbin hydro Power Pvt Ltd, the Joint Venture Company, including engagement of legal expert to protect the Corporation's (NEEPCO's) interest for the investment made. However, considering commercial non viability of the project in its present form as observed by inter-diciplinary committee of the Company, provision of equivalent amount has been made for the said investment.

(i) NEEPCO is in the business of generation and sale of electricity. Electricity generated by various power plants of the Company are sold to various beneficiaries under long-term power purchase agreements. Tariffs for the generating stations are determined by the Central Electricity Regulatory Commission (CERC) in compliances to the CERC Tariff Regulations issued time to time on "Cost plus basis". Considering the CERC determined tariff for billing on NEEPCO's beneficiaries, as well as prevailing power market in India and Plant performances of the generating stations, it is expected that sufficient taxable profit will be available to the Company in future years.

In compliance to the Ind AS 12 - Income Taxes, the Company has recognised Deferred Tax Asset (DTA) amounting to ₹ 42,540.99 lakhs upto the year ended 31.03.2022 in respect of "Unabsorbed depreciation" with convincing evidence that sufficient future taxable income will be available against which such DTA can be realized. On adjustment amounting to ₹ 6990.50 lakh during the FY 2022-23, DTA in respect of "Unabsobed depreciation" as on 31.03.2023 stands at ₹ 35550.49 lakh.

(ii) MAT credit available for the Company as on 31.03.2023 amounts to ₹ 24702.68 lakhs (Previous year ₹ 11745.65 lakhs), being the amount as per computation of tax credit under Sec 115 JAA.

(iii) * Others includes deferred tax assets created on provision for Post Retirement Medical Benefit (PRMB) & award of Gold Coin to superannuated employees.

(iv) Refer note no 48 for detailed disclosure.

North Eastern Electric Power Corporation Limited Shillong

Note no. - 10 **Trade receivables**

(₹ in lakhs)

Particulars	As at 31st March 2023	As at 31st March 2022
Trade Receivables considered good - Secured		
Trade Receivables considered good - Unsecured	94,429.78	48,776.49
Trade Receivables which have significant increase in credit risk		
Trade Receivables - credit impaired		
Allowance for doubtful debts		
TOTAL	94,429.78	48,776.49

(i) Trade receivables are dues in respect of goods sold or services rendered in the normal course of business.

(ii) Where no due date is specifically agreed upon, the normal credit period allowed by the Company is in compliance to the CERC regulations / Guidance.

(iii) Where a trade receivable has been provided for, such provision could be dictated by prudence, but one could still expect to realise the amount within 12 months from the balance sheet date. Under such circumstances, the said trade receivable is classified as current. Where, however, there is no expectation to realise the amount within the next twelve months period, the same needs to be classified as non-current along with the provision made, if any, for the same.

(iv) Amount receivable from related parties is ₹ 2401.46 lakhs

(₹ in lakhs)

(I) Notes on Disputed Trade Receivable:

(1) Disputed trade receivables includes (I) Rs. 431.94 lakh against claim for reimbursement on account of Effective Tax Rate; (II) Rs. 1399.45 lakh against claim for reimbursement of Foreign Exchange Rate Variation (FERV) for 2015-16 to 2018-19; (iii) Rs. 5799.78 lakh against arrear bills arising out of determination of tariff of TGBP by CERC for 2017-18 & 2018-19; (iv) Rs. 2737.27 lakh against bills for GTG unit during 2015-16 & 2016-17 prior to COD of STG unit.

North Eastern Electric Power Corporation Limited Shillong

(2) Ministry of Power (Govt. of India) has initiated action for settlement of TSECL dues amounting to ₹ 10368.44 invoking provisions of the Tripartite Agreement (TPA) & the process is continuing. TSECL has appealed against the above mentioned bills amounting to ₹ 10368.44 lakh before APTEL. The petition has been taken up by APTEL and included in the "List of Finals" to be taken up for hearing in its turn. There are sufficient legal/regulatory grounds as indicated by legal experts to infer that TSECL's petition will be turned down and judgement delivered in NEEPCO's favour by APTEL. However, vide the order dated 01st April 2022, Hon'ble APTEL has directed NEEPCO not to take any precipitative action against TSECL for payment of the dues during pendency of the appeal.

(3) TSECL has offered out-of-court settlement of the above mentioned dispute regarding bills for ₹ 10368.44 lakh, which has not been accepted by NEEPCO as the offer entailed sharing the disputed amount on a 50 - 50 basis. Meanwhile, based on NEEPCO's request, the Government of India has served noticed on the Government of Tripura with regard to invocation of the payment security clause of the Tripartite Agreement between GoI, RBI and Govt. of Tripura which enables the GoI to divert fund from the state's account maintained with RBI to liquidate the dues payable to NEEPCO by TSECL, including Late Payment Surcharge on the dues. The payment has been deferred till decision on the matter.

(4) With consideration of the above, disputed trade receivable amounting to Rs 10368.44 lakhs has been considered good and no provision has been provided in books since there is no significent credit risk. Further, the realisation of the aforesaid amount is expected within a period of 12 months from the Balance Sheet date.

(5) Notes on Unbilled Revenue

Unbilled revenue as on 31.03.2023 amounting to ₹ 44382.59 lakhs includes energy bills ₹ 26476.88 lakhs, trading of merchant power ₹ 2400.71 lakhs, FERV ₹ 3727.85 lakhs, Wage impact (incl. claim of gratuity enhancement) Rs. 6969.89 lakh, Arrear on AFC revision Rs. 2925.36 lakh, Interest from beneficiaries Rs. 1704.12 lakh, NERLDC fees & charges ₹ 129.98 lakhs & LPS ₹ 47.80 lakhs.

Change in trade receivables

(₹ in lakhs)

Particulars	As at 31st March 2023	As at 31st March 2022
Opening Balance	48,776.49	76,911.76
Add:: Net Revenue Recognised but not realised during the year	45,653.29	(28,135.27)
Closing Balance	94,429.78	48,776.49

(ii) Trade receivables are further analysed as :

(₹ in lakhs)

As at March 31, 2023	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	76,558.90	-	76,558.90
More than 45 days upto six months	6,836.72	-	6,836.72
More than six months	11,034.16	-	11,034.16
TOTAL	94,429.78	-	94,429.78

(₹ in lakhs)

As at March 31, 2022	Gross credit risk amount	Allowance for credit losses	Net credit risk amount
Amounts not yet due	33,536.25	-	33,536.25
More than 45 days upto six months	3,466.93	-	3,466.93
More than six months	11,773.31	-	11,773.31
TOTAL	48,776.49	-	48,776.49

The Company considers its maximum exposure to credit risk with respect to customers as at March 31, 2023 to be ₹ 94,429.78 lakhs (March 31, 2022: ₹ 48776.49 lakhs), which is the fair value of trade receivables after allowance for credit losses. The Company's exposure to customers is diversified and except TSECL (Tripura), MSPDCL (Manipur) & P&E Mizoram, no other customer contributes to more than 10% of outstanding dues (i.e. more than 45 days) accounts receivable as at March 31, 2023 .

Movement in allowance for credit losses in respect of trade receivables:

Particulars	As at March 31, 2023	As at March 31, 2022
Balance at the beginning of the period	-	-
Additions during the period	-	-
Utilised during the period	-	-
Balance at the end of the period	-	-

In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix.

18.3 Bond Redemption Reserve (₹ in lakhs)

Particulars	As at 31st March 2023	As at 31st March 2022
Balance at the beginning of the year/period	65,054.17	65,054.17
Movement during the year/period		
Balance at the end of the year/period	**65,054.17**	**65,054.17**

The nature of reserves are follows:

(a) General Reserve :- Under the erstwhile companies Act 1956, a general reserve was created through an annual transfer of net profit at a specified percentage in accordance with applicable regulations. Consequent to the introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of net profit to general reserve has been withdrawn.

(b) Bond redemption reserve:-In terms of the applicable provisions of the Companies Act 2013, read with Companies (Share Capital and Debenture) Rules, 2014, the Company should comply with the requirements with regard to Bond/Debenture Redemption Reserve. The adequacy of Bond/Debenture Redemption Reserve is required to be ten percent of the value of the outstanding debentures. As on 31.03.2023, the Company has maintained a Bond Redemption Reserve of Rs. 65054.17 lakh, which is adequate for the purpose. Hence, the Company has not created any further Bond Redemption Reserve during the year.

Lease Liability - Asset under Lease	1086.31	1011.83
Less: Current maturities of lease liabilities	607.67	573.64
Total	**478.64**	**438.19**

Note no.- 20 Long Term Provisions

(₹ in lakhs)

Particulars	As at 31st March 2023	As at 31st March 2022
Medical benefit for retired employees	-	1,607.45
Other retirement benefits	319.12	274.41
Total	**319.12**	**1,881.86**

The provision for employee benefits includes gratuity, Leave Encashment, Post retirement medical benefit, Gold Coin at retirement. The increase/ decrease in the carrying amount of the provision for the current year is mainly on account of net impact of incremental charge for current year and benefits paid in the current year.

1. Defined Contribution Plan

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) Provident fund

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary.Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the period was ₹ 3367.77 lakhs (previous period ₹ 3414.12 lakhs).The investment has earned sufficient interest to pay the same to the members as per the rate specified by the Government of India.

b) Superannuation fund

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt.of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC) / GL-xiv/08 dt.26.11.2008 and OM. No. 2(70)/08-DPE (WC) / GL-vii/09 dt.02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme.
The Companies contribution to the trust managing this scheme for the year was ₹ 2507.55 lakhs (previous year ₹ 2404.67 lakhs).

2. Defined benefit plans

a. Post –Retirement Medical Benefit scheme

The Company has a Contributory Scheme for Post –Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired /deceased employee and spouse of retiree/deceased are provided medical facilities on contributory basis which is as follows:
Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized / approved hospital.
For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests , examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less.. The liability for the same is recognized on the basis of actuarial valuation.

b. Other retirement benefit on Superannuation

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. Other Employee benefit

Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

1. Defined Contribution Plan

The Company participates in a number of defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by them at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period. The major defined contribution plans operated by the Company are as below:

a) Provident fund

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary.Company pays fixed contribution at predetermined rates to the Provident Fund Trust, which invests the fund in permitted securities as per Government guidelines. The Companies contribution to the fund for the year was ₹ 3367.77 lakhs (previous year ₹ 3414.12 lakhs).The investment has earned sufficient interest to pay the same to the member as per the rate specified by the Government of India.

North Eastern Electric Power Corporation Limited Shillong

b) Superannuation fund

In terms of the Guidelines of Department of Public Enterprise (DPE), Govt.of India (GOI) issued vide O.M. no.2(70)/08-DPE (WC) / GL-xiv/08 dt.26.11.2008 and OM. No. 2(70)/08-DPE (WC) / GL-vii/09 dt.02.04.2009, the Company has formulated the NEEPCO Employees Defined Contribution Superannuation Benefit Scheme.

The Companies contribution to the trust managing this scheme for the year was ₹ 2507.55 lakhs (previous year ₹ 2404.67 lakhs).

2. Defined benefit plans

a. Retiring gratuity

The Company has a defined benefit gratuity plan. Every employee who has rendered continuous service of five years or more is entitled to get gratuity at 15 days salary (15/26 x last drawn basic salary plus dearness allowance) for each completed year of service subject to a maximum of Rs. 20.00 lakhs, on superannuation, resignation, termination, disablement or on death. The liability for the same is recognized on the basis of actuarial valuation.

The Board of Directors in their meeting held on 01.04.2013 has approved the creation of Gratuity Fund Trust vide its Resolution No.195/16 dt.1.4.2013 in order to meet the requirement of funds for payment of Gratuity to the employees separated from the services of the Corporation. Accordingly NEEPCO Employees Group Gratuity Assurance Fund Trust has been constituted on 25th June'2013 and a Master Policy, named as North Eastern Electric Power Corporation Ltd Employees Group Gratuity –cum- Life Assurance (cash accumulation) Scheme, has been taken from the Life Insurance Corporation of India on 5th August 2013.

Transactions with LICI during FY 2022-23 for assessing fund balance as on 31.03.2023 are as per books of NEEPCO.

Details of Funded Assets with LIC ₹ in lakhs

Particulars	31.03.2023	31.03.2022
Opening Balance	18,643.54	18,171.16
Transactions during the year (Net Debit)	1,481.56	863.94
Interest earned during the year (Net Credit)	1,459.55	1,336.32
Closing Balance	**18,621.53**	**18,643.54**

b. Post –Retirement Medical Benefit scheme

The Company has a Contributory Scheme for Post –Retirement Medical Facilities for Superannuated Employees. Under the scheme the retired /deceased employee and spouse of retiree/deceased are provided medical facilities on contributory basis which is as follows:

Reimbursement of medical expenses incurred for indoor treatment restricted to the rates of nearest authorized / approved hospital.

For out-patient/ domiciliary treatment taken in empanelled hospitals, reimbursement are allowed for clinical tests , examination, cost of medicines and other OPD expenses at actual subject to a ceiling of maximum of last basic per annum, whichever is less.. The liability for the same is recognized on the basis of actuarial valuation.

c. Other retirement benefit on Superannuation

To nurture a good organizational culture and appreciate the sincere services rendered by the employee, the Corporation is providing a Gold Coin to the retiring employee on the date of retirement. The liability for the same is recognized on the basis of actuarial valuation.

3. Other Employee benefit

a. Leave

The Company provides for earned leave benefits (including compensatory absences) and half pay leave to the employees of the Company which accrue annually at 30 days and 20 days respectively. Earned leave account is maintained in one section only i.e. en-cashable. On Superannuation/ separation of the employee from the Corporation, entire leave (Earned leave & Maximum 240 days Half Pay Leave) subject to a ceiling of 300 days will be en-cashable. Half pay leave cannot be commuted. The cash equivalent payable for Half Pay Leave would be equal to leave salary as admissible for half pay plus Dearness Allowance.The liability for the same is recognized on the basis of actuarial valuation.

b. Social Security Scheme

The Company has a Social Security Scheme in lieu of compassionate appointment. The Company makes a matching contribution to the scheme. The objective of the scheme is to provide cash benefits to the dependent beneficiaries in the event of the death of an employee of the Company while in service including permanent total disablement leading to cessation of employment.

Note on Government Grant (Ind AS 20)

NEEPCO's approved Accounting Policy includes policy of recognition and accounting of "Government grant" (para 14 of note 1 –Summary of Significant Accounting Policies).

Govt. of India has approved a Sub-ordinate loan amounting to ₹ 29196.42 Lakh to NEEPCO for implementation of Tuirial HEP with interest @1% per annum payable from the "Date of Commercial Operation" of the project. Of the aforesaid loan amount, NEEPCO has received ₹ 29096.42 lakh till 31.03.2015 and the balance ₹ 100.00 lakh has been received during the FY 2015-16. The loan amount (₹ 29096.42 lakh) received till 31.03.2015 has been recognized in books of NEEPCO as on 01.04.2015 (Ind AS Transition date) at its carrying value in compliance to the Ind AS 101 (Exception to the retrospective application). However, for the loan amount (₹ 100.00 lakh) received during the FY 2015-16, the benefit of the loan due to below market rate of interest (considered SBI base rate @9.70% effective as on Jun'15) amounting to ₹ 82.64 lakh has been treated as a govt. grant and recognized in the Books of NEEPCO accordingly.

Spares out of Grant in Aid

Total value of spares purchased out of "Grant in aid" received from the Central Govt. amounts to ₹ 3659.53 lakh and accordingly, recognized in books of Assam Gas Based. During the current period, repairs & maintenance has been debited and Stock of Spares under "Grant in aid" has been credited by an amount of ₹ 8.91 lakhs (Previous year ₹ 13.96 lakhs). An equivalent amount has been recognized as income in the statement of Profit & Loss during the year.

Grant from Ministry of Development of North Eastern Region

As per the Investment Approval sanctioned vide the Ministry of Power's letter no.7/7/2009-H-I dated 14th January'2011, an amount of ₹ 30000.00 lakh has been sanctioned by the Ministry of Development of North Eastern Region (MDONER) as a part of the approved funding pattern for the Tuirial Hydro Electric Project, Mizoram. The total amount of ₹ 300.00 crores are included in Grant in Aid which is subjected to amortisation during normative useful life of the project since its commissioning. Amount amortized during the FY 2022-23 amounts ₹ 1584.00 lakhs (Previous year ₹ 1584.00 lakhs). An equivalent amount has been recognized as income in the statement of Profit & Loss during the year.

Note no.- 27 **Revenue from Operations**

(₹ in lakhs)

Particulars	For the year ended 31-Mar-23	For the year ended 31-Mar-22

Interest from the beneficiaries	6,762.37	9,595.11
Recognition from deferred revenue - Govt. grant	1,592.90	1,597.96
Net Revenue from Operation	**4,55,655.27**	**3,20,684.33**

a. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. Revenue from sale of power includes sales delivered to customers but not yet billed, commonly referred to as "Unbilled revenue".

b. Sale of energy includes ₹ 10045.51 lakhs (previous year ₹ 10279.34 lakh) being the revenue for the year recognised based on Annual Fixed Cost as per petition submitted to CERC pending issue of orders.

c. Sale includes ₹ 9940.46 lakhs (Previous year ₹ 11221.72) on account of earlier years sales arising out of finalization of tariff in current year. Further, Sales includes Rs. 6725.64 lakhs allowed by CERC vide their order dated 23.01.2023 for reimbursement of expenses on account of Gratuity (Amendment) Act 2018.

d. In terms of regulation. 67 of the CERC (Terms and conditions of Tariff) Regulations,2019, deferred tax liabilities for the period upto 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees or from the beneficiaries or long term transmission customers/DICs, as the case may be. Accordingly, sales for the year ended 31.03.2023 inludes ₹1452.02 lakhs (after adjustment of ₹ 0.45 lakhs relating to the financial year 2021-22) (Previous FY 2021-22 amounts to ₹ 1310.82 lakhs).

e. During the year ended 31.03.2023, NEEPCO recognized revenue amounting to Rs. 9940.46 lakh as "Sale of energy" and Rs.6762.37 lakhs as "Interest from the beneficiaries" on account of truing up tariff orders for the control periods 2014-19 and tariff orders for 2019-24 issued by the CERC. The said revenue under "Sale of energy" includes DHPS (Rs. 2134.08 lakhs), Khangdong Stg II (Rs. 119.14 lakhs), KHPS (Rs. 1266.63 lakhs), PLHPS (Rs. 6171.87 lakhs), TGBPS (Rs. - 1158.72 lakhs) and PHPS (Rs. 1407.46 lakhs). Further, "Interest from beneficiaries" includes DHPS (Rs. 755.64 lakhs), Khangdong Stg II (Rs. 205.31lakhs), KHPS (Rs. 1704.12 lakhs), PLHPS (Rs. 3202.02 lakhs), TGBPS (Rs. 578.06 lakhs) and PHPS (Rs. 317.22 lakhs). In addition, provisional revenue recognized in Books of NEEPCO during the year ended 31.03.2023 as per the Company's Accounting Policy in case of power stations where final tariff for the control period 2019-24 is yet to be approved by CERC amounts to RS. 10045.51 lakhs.

f. DSM and RRAS is accounted upto the period of the financial year 2022-23, as per the weekly statements issued by the NERPC.

g. During the current financial year, merchant power (347 MW) generated by Kameng (600 MW) HPS has been sold/traded through NTPC Vidyut Vyapar Nigam Ltd (NVVN) under bi-lateral agreement as well as on "Day ahead" and "Real time" markets. Further, NEEPCO has traded available power under "Un-requisitioned surplus (URS)" for its power plants on "Day ahead" and "Real time" markets.

(iv) The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition.

Note no. 37 Movement in Regulatory Deferral Accounts Balances

Nature of Rate Regulated Activities

The company is primarily engaged in the business of generation and sale of electricity. The tariff based on which the Company bill to its beneficiaries for electricity sold to them is determined by the Central Electricity Regulatory Commission (CERC) in compliance to the CERC (Terms and Conditions of Tariff) Regulations, as applicable from time to time.

The said regulations allow the Company to recover its costs for providing the goods or services plus a fair return.

Recognition and measurement

• During determination of Annual Fixed Cost (AFC) of the Tuirial Hydro Electric Project (TrHEP) of North Eastern Electric Power Corporation Ltd (NEEPCO) for the control period of 2019-2024 by the Central Electricity Regulatory Commission (CERC), order for which issued on 16.04.2021, the Hon'ble Commission has allowed depreciation @2% based on the petition submitted by NEEPCO for the said purposes in line with the decision of the Public Investment Board (PIB) of the Govt. of India during meeting dated 04.06.2010 held for considering RCE of the project (TrHEP).

• The rates and methodology as per the CERC tariff regulations based on which depreciation for TrHEP has been calculated and charged to the Statement of Profit & Loss of NEEPCO for the period under consideration vary from that allowed to recover through tariff as per the CERC order. Due to higher rate of depreciation as per the CERC regulations, depreciation charged to the Statement of Profit & loss Account for the first 12 (twelve) years of operation TrHEP since its Date of Commercial Operation (COD) will be more than that of the depreciation recoverable through tariff, which will be reversed in future periods during remaining period of normative life of the generating station. Accordingly, the lower depreciation realized as "Revenue" for the generating station during the earlier period of its operation will be recovered/adjusted during later period.

• In view of above, the difference of depreciation to the extent recoverable/adjustable in future period has been recognized on an undiscounted basis as "Regulatory deferral account debit/credit balances" by credit/debit to the "Movement of Regulatory Deferral Account Balances".

• "Regulatory deferral account debit balances" recognized on account of the above during the year ended 31.03.2023 is as follows:

Particulars	Amount (₹ in lakhs)
Depreciation as per CERC Schedule of rates	6,896.90
Depreciation @2% as allowed by CERC vide the tariff order dated 09.10.2018	2,783.29
Difference (Recognized as "Regulatory Deferral balances")	**4,113.61**

Regulatory Deferral Account balances in respect of Employees benefits expenses for Gratuity:
Ministry of Labour and Employment vide their Gazette notification dated the 29th March 2018 has notified the Payment of Gratuity (Amendment) Act, 2018 (12 of 2018) and thus has increased the limit of gratuity upto ₹ 20.00 (Twenty) lakh from the existing ₹ 10 (Ten) lakh.
Regulation 8 (3) of the CERC (Terms and conditions of Tariff) Regulations 2014 provides that "The Commission shall carry out truing up of tariff of generating station based on the performance of following Uncontrollable Parameters:

i) Force Majeure;, ii) Change in Law; and iii) Primary Fuel Cost.

The increase in gratuity expenses due to enhancement of limit upto ₹20.00 lakh as per the Payment of Gratuity (Amendment) Act, 2018 falls under the category of "Change in law",
Accordingly, an amount of ₹ 4793.47 lakh to the extent expected as recoverable from the beneficiaries in subsequent period as per CERC Tariff Regulations recognized as "Regulatory Deferral Account Balances" in books of NEEPCO (the Company) as on 31.03.2018. The Central Electricity Regulatory Commission (CERC) vide order dated 23.01.2023 in NEEPCO's petition no. 718/MP/2020 has allowed reimbursement of the impact of the aforesaid enhancement of gratuity limit as "Additional O&M expenses" for the control period 2014-19. Accordingly, the amount allowed by the Hon'ble Commission has been recognized under "Revenue from operation" with reversal of ₹ 4793.47 lakh lying under "Regulatory Deferral Account balances" during the FY 2022-23 in respect of Employees benefits expenses for Gratuity.

Regulatory Deferral Accounts Balances in respect of deferred adjustment on Deferred Tax Liabilities for projects under operation:

NEEPCO has long term Power Purchase Agreement (PPA) with the States of the North Eastern Region (referred to as the 'Beneficiaries') for selling electricity generated from its generating stations in operations. Tariff for generating stations of NEEPCO are determined by the Central Electricity Regulatory Commission (CERC) in compliance to their notified tariff regulations issued from time to time. As per the CERC Tariff Regulations 2019, ROE is grossed up with effective tax rate as applicable for the respective financial year. Accordingly, deferred tax accrued during the year on income generated from sale of electricity and further adjustable/reversal in future periods when the related deferred tax liability will form a part of current tax & recoverable from the beneficiaries has been accounted as "Deferred tax adjustment against deferred tax liability", which has been recognized as "Regulatory income" and presented as a movement in "Regulatory Deferral Accounts Balance" as a separate line item in compliance to the relevant provisions of Ind AS 114.

Regulatory Deferral Account balances due to reclassification of deferred tax recoverable from beneficiaries

As per Regulation 67 of the CERC (Terms and Conditions of Tariff Regulations) 2019, Deferred tax liabilities for the period upto 31st March, 2009 whenever they materialise shall be recoverable directly by the generating companies or transmission licensees from the then beneficiaries or long term customers, as the case may be. Till 31st March, 2019 the deferred tax recoverable from beneficiaries in future years was presented as an adjustment to deferred tax liability and was not recognised as "Regulatory Deferral Accounts balances". The same has been reviewed during the FY 2022-23 in line with Ind AS 114 and has been reclassified as Regulatory Deferral Account balance. The regulated assets (+)/liability (-) recognized in the books to be recovered from or payable to beneficiaries in future periods are as follows:

(₹ In lakh)

Sl. No.	Particulars	Regulatory Deferral Account Balances
A	Opening balance as on 01.04.2022	38,623.96
B	Addition during the Financial Year ended 31.03.2023	-
C	Amount collected (-)/refunded (+) during the period	(1,452.47)
D	Regulatory income/(expense) recognized in the Statement of Profit and Loss (B-C)	(1,452.47)
E	Closing balance as on 31.03.2023 (A+D)	37,171.49

Regulatory Deferral Account balances in respect of exchange differences on Foreign Currency Monetary items

Para 28 of the Ind AS 21-"The Effects of Changes in Foreign Exchange Rates" provides that exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognised in profit or loss in the period in which they arise. Further, para D13 AA of the Ind AS 101 – "First-time Adoption of Indian Accounting Standards" provides for a first-time adopter may continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP. Accordingly, for periods beginning on or after 01.04.2016, all exchange differences arising on translation/ settlement of monetary items other than exchange difference on borrowings to the extent treated as an adjustment to interest cost during construction period are to be charged to the Statement of Profit and Loss. Regulation 69 of of the CERC (Terms and Conditions of Tariff) regulations provides that every generating company and the transmission licensee shall recover the foreign exchange rate variation on year-to-year basis as income or expense in the period in which it arises.

Regulatory deferral accounts debit balance - Note 16 recognized :

The regulatory assets recognized in the books to be recovered from the beneficiaries in future periods are as follows:

(₹ in lakhs)

Particulars	As at 31st March 2023	As at 31st March 2022
A. Opening Balance	92,344.55	84,384.08
B. Movements during the year due to (i) Turial Depreciation ₹ 4113.61 lakhs (ii) Deferred Tax Adjustment against Deferred Tax Liability ₹ 10542.90 lakhs. (iii) Deferred Tax Recoverable ₹ (1452.47) Lakhs (iv) Employee Benefit- Gratuity ₹ (4793.47) Lakhs (v) Exchange Difference ₹ (1459.91) Lakhs	6,950.66	7,960.47
C. Amount Collected / refunded during the year	-	-
D. Regulatory Deferral Account Balances recognized in the Statement of Profit & Loss (B-C)	6,950.66	7,960.47
E. Closing Balance (A+D)	**99,295.21**	**92,344.55**
F) Net movements in regulatory deferral account balances (I)	**6,950.66**	**7,960.47**
G) Tax on net movements in regulatory deferral account balances (II)	**1,468.19**	**1,619.88**
H) Total amount recognised in the statement of profit & loss during the year (I - II)	**5,482.47**	**6,340.59**

Rate of return/Discounting rate considered for recognition of Regulatory Deferral Account Balance is "Zero".
Risk/uncertainty associated with future recovery of Regulatory Deferral Account Balances

• **Demand risk:** Recovery of regulatory deferral balances are subjected to billing to its beneficiaries and accordingly associated with related normal risks, such as, attitude of the customers towards settlement of their dues, availability of alternate source of supply etc.

• **Regulatory risk:** On account of Changes, if any, in Regulations and submission or approval of a rate setting application or the entity's assessment on the expected future regulatory actions.

Period over which expected to recover

• **Others:** The Company is expected to recover/adjust the carrying amount of the regulatory deferral account balances over the period of normative useful life of the projects/generating stations.

I. Disclosure of Ratios

Ratio	Numerator	Denominator	FY 2022-23	FY 2021-22	% Variance	Reason for Variance
Current ratio	Current Assets	Current Liabilities	0.55	0.54	3.34	For the current F.Y. Current assets is higher in comparison to previous F.Y.
Debt-equity ratio	Paid-up debt capital (Long term borrowings+Short term borrowings)	Shareholder's Equity (Total Equity)	1.08	1.14	(5.31)	In the current F.Y., the total debts decreased compared to the previous year, while the total equity increased over to previous period , which has resulted decreased in ratio over the previous F.Y.
Debt service coverage ratio	Profit for the year+Finance costs+ Depreciation and amortiation expenses+Exceptional items	Finance Costs + lease payments+Scheduled principal repayments of long term borrowings	1.14	1.18	(3.53)	Due to higher Debt servicing in the current F.Y., the ratio dipped over the previous F.Y. inspite of increased earnings avaible for debts over the previous F.Y.
Return on equity ratio	Profit for the year	Average Shareholder's Equity	0.06	0.03	85.03	Due to increase in the Profit over the previous year, the ratio is better
Inventory turnover ratio	Revenue from operations	Average Inventory	33.00	22.41	47.29	Due to increase in the Revenue and decrease in the average inventory over the previous year, the ratio is better
Trade receivables turnover ratio	Revenue from operations	Average trade receivables	6.36	5.10	24.71	Due to increase in average debtors for the current period the ratio is on the higher side

Trade payables turnover ratio	Total Purchases (Fuel Cost + Other Expenses+Closing Inventory-Opening Inventory)	Closing Trade Payables	9.59	7.21	32.92	Due to increase in the Net Credit purchase the ratio is on the higher side
Net capital turnover ratio	Revenue from operations	Working Capital+current maturities of long term borrowings	4.16	3.42	21.80	Due to increase in the Revenue vis-à-vis the trade receivables over the previous year, the ratio appeared to be on the higher side over the previous F.Y
Net profit ratio	Profit for the year	Revenue from operations	0.09	0.07	31.58	Due to increase in the PAT over the previous year, the ratio is better in current F.Y.
Return on capital employed	Earning before interest and taxes	Capital Employed(i)	0.09	0.07	27.47	The increase of EBIT over the previous period results in better performance of the ratio
Return on investment(ii)-Investments in subsidiary and joint venture companies	{MV(T1) – MV(T0) – Sum {C(t1)]}	{MV(T0) + Sum [W(t) * C(t2)]}	-	-	-	The investment for the NEEPCO is NIL for both the F.Y s
Return on investment(ii)-Investments in others	{MV(T1) – MV(T0) – Sum [C(t1)]}	{MV(T0) + Sum [W(t) * C(t2)]}	-	-	-	The investment (either in the STDRs or other investments) for the NEEPCO is NIL for both the F.Y s

** Denominator is Negative
(i) Capital Employed= Tangible Net Worth + Total Debt + Deferred Tax Liabilities
(ii)Return on Investment where
T1 = End of time period
s
t = Specific date falling between T1 and T0
MV(T1) = Market Value at T1
MV(T0) = Market Value at T0
$C(t_1)$ = Cash inflow, cash outflow on specific date including dividend received
$C(t_2)$ = Cash inflow, cash outflow on specific date excluding dividend received
W(t) = Weight of the net cash flow (i.e. either net inflow or net outflow) on day 't', calculated as [T1 – t] / T1

J(I) Disclosure on Kopili HPS (50X4 MW):

(i) Penstock I - feeding 02 (two) units (50 MW each) of Kopili Hydro Power Station, Umrongso, Assam of the Company got ruptured on 07.10.2019 following a Load through off and tripping of Unit -I (50 MW). 03 (three) other units were in full load during the mishap. Rupture happened at three locations of Penstock including at location immediately downstream of Valve House. Penstock protection valve closing mechanism was damaged in the incident and therefore, the Valve could not be closed to isolate the Penstock, consequently thereafter, the Power House was flooded upto EOT Crane beam level within a very short period. At present, Kopili (4 X 50 MW) system in in shutdown condition. The value of damaged assets assessed & recognised in books till the financial year 2020-21 amounts to Rs.10366.72 lakhs (Gross value Rs.20670.50 lakhs & Accumulated depreciation Rs.10303.78 lakhs), for which provision for an equivalent amount has been provided in books. Repair, Renovation and Modernization (RRM) activities of the said generating plant is going on with scheduled commissioning of all the units during the FY 2023-24.

J (II) Disclosure on Khandong HPS (2 X 25 MW) and Kopili Stage II (1 X 25 MW) HPS:

As a consequence of unprecedented dry season flood in Kopili river, the Bundh constructed at the approach channel for taking up planned repair and renovation works overtopped on the 26th March 2022 leading to uncontrollable ingress of water from the Kopili reservoir into Khanding HRT. The discharge gushes down the hill slopes and inundated the Khandong Power House (2 X 25 MW) and Kopili Stage II Power House (1 X 25 MW) causing damages to the Power Stations and its Plant & Machineries. The value of damaged assets assessed & recognised in books in the previous financial year 2021-22 amounts to Rs.1457.63 lakhs (Gross value Rs.7871.89 lakhs & Accumulated depreciation Rs.6414.26 lakhs) for the said generating stations, for which provision for an equivalent amount has been provided in books.

K. Segment Reporting

NEEPCO is in the business of only one product, i.e., generation and selling of electricity. All the projects of NEEPCO are located with the North East Region, i.e., within the same geographical location. NEEPCO has no reportable segment and accordingly, Ind AS 108 – Operating Segment to disclose information about segments is not applicable.

L. Disclosure as per Ind AS 116 'Leases

(I) Transition to Ind AS 116

The Company has applied the following practical expedients on initial application of Ind AS 116:

(i) Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.

(ii) Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.

(iii) Excluded the initial direct costs, if any, from the measurement of the right-of-use asset at the date of initial application.

1599

North Eastern Electric Power Corporation Limited * Shillong

(iii) On transition to Ind AS 116, the weighted average incremental borrowing rate applied to lease liabilities recognised under Ind AS 116 is 8.69 %. For agreements relating to the FY 2022-23 the weighted average incremental borrowing rate is taken as 7.14 %.

(II) Company as Lessee

(i) The Company's significant leasing arrangements are in respect of the following assets:

(a) Premises for guest houses/ transit camps which are not non-cancellable and are usually renewable on mutually agreeable terms.

(b) The Company has taken electrical vehicles on operating lease for a period of five years, which can be further extended at mutually agreed terms. Lease rentals are subject to escalation of 10% per annum.

N. Changes in Accounting Policies:

During the year, changes/modification have been made in Accounting Policies at sl. 4 (viii) and 8 in respect of "Depreciation and Amortization" and "Provisions, Contingent Liabilities and Contingent Assets" respectively. There is no significant material impact on the financial statements due to these changes/modifications.

Note no.- 40 Capital Management

The Company's capital management is intended to create value for shareholders by facilitating the meeting of long term and short term goals of the Company.

The Company determines the amount of capital required on the basis of annual business plan, coupled with long term and short term strategic investing plan. The funding requirements are met through equity, convertible and non- convertible debt securities, and other short term and long term borrowings. The Company's policy is aimed at combination of short term and long term borrowings.

The Company monitors the capital structure on the basis of net debt to equity ratio and maturity profile of the overall debt portfolio of the Company.

Note no.- 41 Disclosure on Financial Instruments

This section gives an overview of the significance of financial instruments for the Company and provides additional information on balance sheet items that contain financial instruments.

The details of significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note no.1 to the financial statements

Other financial liabilities					9,131.89	9,131.89	9,131.89
Total					7,90,318.04	7,90,318.04	7,86,006.99

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below:

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investment in quoted equity shares, quoted corporate debt instruments and mutual fund investments.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This level of hierarchy includes Company's over-the-counter (OTC) derivative contracts.

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. The main items in this category are investment in unquoted equity shares, measured at fair value.

(₹ in lakh)

Total financial liabilities measured at fair value	**7,86,006.99**			**7,86,006.99**

* Trade & Other payables includes trade payables & payables for capital expenditure

The short-term financial assets and liabilities are stated at amortized cost which is approximately equal to their fair value.

The fair value in respect of the unquoted equity investments cannot be reliably measured.

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end

North Eastern Electric Power Corporation Limited Shillong

There have been no transfers between Level 1 and Level 2 for the years ended March 31, 2023 and March 31, 2022.

Transfer of financial assets

There have been no transfers of financial assets during the 2022-23

Financial risk management

In the course of its business, the Company is exposed primarily to interest rates, liquidity and credit risk, which may adversely impact the fair value of its financial instruments.
The Company has a risk management policy which covers the risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the Board of Directors. The risk management framework aims to:

Create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on the Company's business plan.

Achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

Market Risk :- Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

Credit Risk :- Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks.

Liquidity Risk: Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The following table shows a maturity analysis of the anticipated cash flows including interest payable for the Company's non derivative financial liabilities on an undiscounted basis, which therefore differ from both carrying value and fair value.

(₹ In lakh)

Particulars	As at March 31, 2023				
	Carrying amount	Contractual cash flows	Less than 1 year	Between 1 - 5 years	More than 5 years
Non- derivative financial liabilities

Derivative financial liabilities					

The cost of unquoted investments approximate the fair value because there is a wide range possible fair value measurements and the cost represents estimate of fair value within that range.

Note No. - 42 Operating Segment

a. Electricity generation is the principal activity of the Corporation. Other operation like interest income does not form a reportable segment as per the Accounting Standard 108.

b. The Corporation has power projects located within the country and therefore geographical segments are inapplicable.

Note No 43 **Financial Risk Management**

(i) Exposure to Credit Risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was :

(₹ in lakhs)

Particulars	As at 31st March 2023	As at 31st March 2022
Financial assets for which loss allowance is measured using 12 months Expected Credit Losses (ECL)		
Non-current investments		
Non-current loans	28.19	26.16
Other non-current financial assets	-	-
Cash and cash equivalents	1,461.34	4,344.49
Bank balances other than cash and cash equivalents	291.50	1,009.06
Current loans	1,187.43	1,429.36
Other current financial assets*	1,002.45	4,820.53
Total (A)	**3,970.91**	**11,629.60**
Financial assets for which loss allowance is measured using life-time Expected Credit Losses (ECL) as per simplified approach		
Trade receivables	94,429.78	48,776.49

Total (B)	**1,15,465.10**	**78,333.43**
Total (A+B)	**1,19,436.01**	**89,963.03**

* Excluding Contract Asets (Refer Note 13)

(ii) Provision for expected credit losses

(a) Financial assets for which loss allowance is measured using 12 month expected credit losses

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(b) Financial assets for which loss allowance is measured using life-time expected credit losses as per simplified approach

The Company has customers (State government utilities) with capacity to meet the obligations and therefore the risk of default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than default is negligible or nil. Further, management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk. Hence, no impairment loss has been recognised during the reporting periods in respect of trade receivables and unbilled revenue.

(iii) Ageing analysis of trade receivables

The ageing analysis of the trade receivables is as below: (₹ in lakhs)

Ageing	Not due	0 - 30 days past due	31-60 days past due	61-90 days past due	91-120 days past due	More than 120 days past due	Total
Gross carrying amount as on 31st March 2023	76,558.90	6,822.65	14.08	-	-	11,034.15	94,429.78
Gross carrying amount as on 31st March 2022	33,536.25	3,466.93	-	-	-	11,773.31	48,776.49

Liquidity Risks

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has an appropriate liquidity risk management framework for the management of short, medium and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Company's Treasury department is responsible for managing the short-term and long-term liquidity requirements of the Company. Short-term liquidity situation is reviewed daily by the Treasury department. The Board of directors has established policies to manage liquidity risk and the Company's Treasury department operates in line with such policies. Any breaches of these policies are reported to the Board of Directors. Long-term liquidity position is reviewed on a regular basis by the Board of Directors and appropriate decisions are taken according to the situation.

Typically, the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a month, including the servicing of financial obligations, this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters

As part of the CERC Regulations, tariff inter-alia includes recovery of capital cost. The tariff regulations also provide for recovery of energy charges, operations and maintenance expenses and interest on normative working capital requirements. Since billing to the customers are generally on a monthly basis, the Company maintains sufficient liquidity to service financial obligations and to meet its operational requirements.

(i) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ in lakhs)

Particulars	As at 31-03-2023	As at 31-03-2022
Fixed-rate borrowings		
Foreign currency loans	-	-
Floating-rate borrowings		
Cash credit /WCDL	99,011.00	19,500.00
Term loans	20,000.00	65,000.00
Foreign currency loans	-	-
Total	**1,19,011.00**	**84,500.00**

(ii) Maturities of financial liabilities

The following are the contractual maturities of derivative and non-derivative financial liabilities, based on contractual cash flows:

31st March 2023 (₹ in lakhs)

Cash credit /WCDL	24,312.43	-	-	-	-	24,312.43

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the risk management committee.

Currency risk

The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates.

The currency profile of financial assets and financial liabilities as at 31 March 2023 and 31 March 2022 are as below

31st March 2023 (₹ in lakhs)

Particulars	USD	Euro	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total			
Financial Liabilities			
Secured Foreign Currency loans	-		-
Unsecured Foreign Curreny loans from banks & financial institution		40,139.50	40,139.50
Trade payables & other financial liabilities			-
Total	-	40,139.50	40,139.50

31st March 2022 (₹ in lakhs)

Particulars	USD	Euro	Total
Financial Assets			
Trade other receivables	-	-	-
Cash and Cash equivalent	-	-	-
Other Financial Assets	-	-	-
Total	-	-	-
Financial Liabilities			
Secured Foreign Currency loans	13,620.08		13,620.08
Unsecured Foreign Curreny loans from banks & financial institution		44,170.87	44,170.87
Trade payables & other financial liabilities	-	-	-
Total	13,620.08	44,170.87	57,790.95

Out of the above, no amount is hedged by derivative instruments. In respect of the balance exposure, gain/(loss) on account of exchange rate variations on all foreign currency loans and foreign currency monetary items (up to COD) is recoverable from beneficiaries. Therefore, currency risk in respect of such exposure would not be very significant.

Sensitivity analysis

Since the impact of strengthening or weakening of INR against USD, Euro, JPY and other currencies on the statement of profit and loss would not be very significant; therefore, sensitivity analysis for currency risk is not disclosed.

Interest Rate risk

The Group is exposed to interest rate risk arising mainly from non-current borrowings with floating interest rates. The Group is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Group manages the interest rate risks by entering into different kinds of loan arrangements with varied terms (e.g. fixed rate loans, floating rate loans, rupee term loans, foreign currency loans, etc.).

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments is as follows:

(₹ in lakhs)

Particulars	31st March 2023	31st March 2022
Financial Assets		
Fixed Rate Instruments		
Bank Deposits	291.50	1,009.06
Total	291.50	1,009.06
Financial Liabilities		
Fixed Rate Instruments		
Bonds	3,84,826.40	4,81,105.48

Lease obligations	1,086.31	1,011.83
	4,55,177.17	**5,55,412.27**
Variable-rate instruments		
Foreign currency loans	-	13,620.09
Rupee term loan	2,36,972.50	1,57,716.01
Cash Credit	-	-
	2,36,972.50	1,71,336.10
Total	6,92,149.67	**7,26,748.37**

Fair value sensitivity analysis for fixed-rate instruments

The Company's fixed rate instruments are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Cash flow sensitivity analysis for variable-rate instruments

A change of 50 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for the previous year.

(₹ in lakhs)

Trade payables and payable for capital expenditure	3	32,517.25	32,517.25	30,125.35	30,125.35
Other financial liabilities	3	49,119.55	49,119.55	9,131.89	9,131.89

The carrying amounts of current trade receivables, current trade payables, payable for capital expenditure, investment in subsidiary and joint venture companies, cash and cash equivalents and other financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans, borrowings, non-current trade payables and payable for capital expenditure were calculated based on cash flows discounted using a current discount rate. They are classified at respective levels based on availability of quoted prices and inclusion of observable/non observable inputs.

Note No 45 **Disclosure as per Ind AS 115, ' Revenue from Contracts with Customers'**

Nature of goods and services

The revenue of the Company comprises of income from energy sales, sale of energy through trading and other services. The following is a description of the principal activities:

(a) Revenue from energy sales

The major revenue of the Company comes from energy sales. The Company sells electricity to bulk customers, mainly electricity utilities owned by State Governments Discoms operating in States. Sale of electricity is generally made pursuant to long-term Power Purchase Agreements (PPAs) entered into with the beneficiaries. Further, the Company sell electrcity through Power Exchanges available with them under "Merchant Power".

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for energy sales:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms

Energy sales	The Company recognises revenue from contracts for energy sales over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from energy sales is determined in terms of CERC Regulations as notified from time to time. Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries. The amounts are billed on a monthly basis and are payable within contractually agreed credit period.

(b) Revenue from energy trading, consultancy and other services
Sale of Energy through trading

Below are the details of nature, timing of satisfaction of performance obligations and significant payment terms under contracts for sale of energy through trading:

Product/ Service	Nature, timing of satisfaction of performance obligations and significant payment terms
Sale of energy through trading	The Company recognises revenue from contracts for sale of energy through trading over time as the customers simultaneously receive and consume the benefits provided by the Company. The tariff for computing revenue from sale of energy through trading is determined as per the terms of the agreements. The amounts are billed as per periodicity specified in the Contract and are payable within contractually agreed credit period.

II. Disaggregation of revenue

In the following table, revenue is disaggregated by type of product and services, geographical market and timing of revenue recognition.

Particulars	Generation of energy		Others		Total

INDEPENDENT AUDITORS REPORT ON EMPHASIS OF MATTERS (EOM) AND MANAGEMENT REPLY THERE-ON:

Sl. no.	Independent Auditors Opinion	Management reply
1	Note No. 2 (v) regarding Capitalization of Rs. 2485.44 lakhs being Capacity Charges on Transmission assets (including interest thereon) billed by PGCIL, for earlier years.	The capacity charges of the transmission assets (including interest) amounting to ₹ 2485.44 lakhs billed by the transmission agency during the current financial year in pursuant to orders of CERC dated 7th October 2022 has been capitalized in books of NEEPCO, being the costs directly attributable to bringing the assets (the generating station) to its present location & condition as intended by the Management as per provision of Ind AS 16 read with Regulation 19 of the CERC (Terms & Conditions of Tariff) Regulation, 2019. NEEPCO, being a regulated entity, its tariff is determined by the CERC under "Cost Plus" structure and accordingly, the same will be included as additional capital expenditure while submitting "Truing up" Petition for Kameng HPS, the generating Plant impacted by the said costs, for the control period 2019-24 for recovery of the same through tariff.
2	Note No. 27(b) read with Significant Accounting Policy 17.1(a)(ii) regarding sale of energy includes Rs. 10045.51 lakhs being the revenue for the year recognized on the basis of provisional rate.	During the FY 2020-21, NEEPCO has modified its accounting policy on "Revenue from operations – Revenue from sale of energy". The modified policy is as follows: "In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019." In compliance to the above accounting policy for revenue recognition, an amount of Rs.10045.51 lakh has been recognized in books of NEEPCO during the FY 2021-22 for two of its generating stations, namely, Kameng HPS and Agartala GBPS. Accordingly, the above revenue recognized during the year is in compliance to the relevant accounting policy of NEEPCO.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) OF THE COMPANIES ACT, 2013 ON THE FINANCIAL STATEMENTS OF NORTH EASTERN ELECTRIC POWER CORPORATION LIMITED FOR THE YEAR ENDED 31 MARCH 2023

The preparation of financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2023 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditor appointed by the Comptroller and Auditor General of India under Section 139(5) of the Act is responsible for expressing opinion on these financial statements under section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 16 May 2023.

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2023 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the statutory auditor and is limited primarily to inquiries of the statutory auditor and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit, nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report under section 143(6)(b) of the Act.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) READ WITH SECTION 129(4) OF THE COMPANIES ACT, 2013 ON THE CONSOLIDATED FINANCIAL STATEMENTS OF NORTH EASTERN ELECTRIC POWER CORPORATION LIMITED FOR THE YEAR ENDED 31 MARCH 2023

The preparation of consolidated financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2023 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditor appointed by the Comptroller and Auditor General of India under Section 139(5) read with section 129(4) of the Act is responsible for expressing opinion on these financial statements under section 143 read with section 129(4) of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 16 May 2023.

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the consolidated financial statements of North Eastern Electric Power Corporation Limited for the year ended 31 March 2023 under Section 143(6)(a) read with section 129(4) of the Act. We conducted a supplementary audit of the financial statements of North Eastern Electric Power Corporation Limited for the year ended on that date. **Further, section 139(5) and 143(6)(a) of the Act are not applicable to its joint venture company M/s. KSK Dibbin Hydro Power Private Limited being private entity, for appointment of their Statutory Auditor and for conduct of supplementary audit. Accordingly, Comptroller and Auditor General of India has neither appointed the Statutory Auditors nor conducted the supplementary audit of this company**. This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report under section 143(6)(b) of the Act.

ANNEXURE-8A

FORM NO. MR-3
SECRETARIAL AUDIT REPORT
FOR THE FINANCIAL YEAR ENDED 31ST MARCH 2023
[Pursuant to section 204(1) of the Companies Act, 2013 and rule No. 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
North Eastern Electric Power Corporation Limited
Brookland Compound Lower New Colony,
Dist. East Khasi Hills, Shillong,
Meghalaya, PIN: 793003

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **North Eastern Electric Power Corporation Limited** (hereinafter called the 'Company' or 'NEEPCO'). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on our verification of the company's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the company has, during the audit period covering the financial year ended on **31st March 2023** ('Audit period') complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained according to the provisions of:

(i) The Companies Act, 2013 (the Act) and the rules made thereunder;
(ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
(iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
(iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings; **(Not Applicable as there were no reportable events)**
(v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') to the extant applicable on listed debt securities:

(a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; **(Not Applicable as there were no reportable events)**

(b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992;
(c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009; **(Not Applicable)**
(d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999; **(Not Applicable)**
(e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008; **(Not Applicable as there were no reportable events)**
(f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client; **(Not Applicable)**
(g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; **(Not Applicable as there were no reportable events)**
(h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998; and **(Not Applicable as there were no reportable events)**

(vi) The industry specific laws and rules, regulations, directions, guidelines, circulars and instructions framed thereunder:

(a) The Electricity Act, 2003;
(b) Sexual Harassment of Women at the Workplace (Prevention, Prohibition & Redressal) Act, 2013.

We have also examined compliance with the applicable clauses of the following:

(i) Secretarial Standards issued by The Institute of Company Secretaries of India;
(ii) The Debt Listing Agreement entered into by the Company with BSE Stock Exchange.

We have also examined compliance with the applicable clauses of the Secretarial Standards issued by The Institute of Company Secretaries of India with respect to Board & General Meetings.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above except for the provisions as mentioned herein below:

a) *The company has not registered the project (KHEP) Stage II freehold land measuring 183.19 hectares, valued at ₹ 4.52 crores in its name. However, as per Section 187 of the Companies Act, 2013 all investments made in any property, shares or securities shall be made and held by the company in its own name.*

b) *The Company did not have a Women Director in the Board of the Company after the vacancy caused by cessation of Mrs. Mala Sinha w.e.f. 10th July, 2022.*

We further report that the Board of Directors of the Company is duly constituted with proper balance of Non-Executive Directors and Independent Directors except for the appointment of Women Director. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice was given to all Directors of the schedule of the Board & Committee Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings as represented by the management were carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or Committee of the Board, as the case may be.

We further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period no specific events occurred having a major bearing on the company's affairs in pursuance of the above referred Laws, Rules, Regulations, Guidelines, Standards, etc.

Our report of even date is to be read along with this letter.

1) Maintenance of Secretarial record is the responsibility of the management of the Company. Our responsibility is to express an opinion on these secretarial records based on our audit.

2) We have followed the audit practices and process as were appropriate to obtain reasonable assurance about the correctness of the contents of the Secretarial records. The verification was done on test basis to ensure that correct facts are reflected in Secretarial records. We believe that the process and practices, we followed provide a reasonable basis for our opinion.

3) We have not verified the correctness and appropriateness of financial records and Books of Accounts of the Company as well as correctness of the values and figures reported in various disclosures and returns as required to be submitted by the Company under the specified laws, though we have relied to a certain extent on the information furnished in such returns.

4) Our Audit examination is restricted only to legal compliances of the applicable laws to be done by the Company; we have not checked the practical aspects relating to the same.

5) Wherever required, we have obtained the Management representation about the Compliance of laws, rules and regulations and happening of events etc.

6) The Compliance of the provisions of Corporate and other applicable laws, rules, regulations, standards is the responsibility of management. Our examination was limited to the verification of procedure on test basis.

7) The Secretarial Audit report is neither an assurance as to the future viability of the Company nor of the efficacy or effectiveness with which the management has conducted the affairs of the Company.

8) Due to the inherent limitations of an audit including internal, financial, and operating controls, there is an unavoidable risk that some misstatements or material non-compliances

Form CRA-3

[Pursuant to rule 6(4) of the Companies (Cost Records and Audit) Rules, 2014]

THE COST AUDIT REPORT (Part I)

We, **A. C. Dutta & Co.**, Cost Accountants, having been appointed as Cost Auditor under section 148(3) of the Companies Act, 2013 (18 of 2013) of **North Eastern Electric Power Corporation Limited**, having its Registered office at Brookland Compound, Lower New Colony, Laitumkhrah, Shillong-793003. (hereinafter referred to as NEEPCO/ the Company), have audited the Cost records maintained under section 148 of the said Act, in compliance with the Cost Auditing Standards, in respect of **Generation of Electricity** for the **Financial Year 2021-22**, maintained by the company and Report in addition to our observations and suggestions in Para II.

i. We have obtained all the information and explanations which to the best of our knowledge & belief were necessary for the purpose of this audit.

ii. In our opinion, proper cost records as per rule 5 of the Companies (Cost Records and Audit) Rules, 2014and amendments thereto have been maintained by the company in respect of the products under reference.

iii. In our opinion, proper reports/documents adequate for the purpose of the cost audit have been received from all generating units.

iv. In our opinion and to the best of our information, the said books & records give the information required by the Companies Act 2013, in the manner so required.

v. In our opinion, the company has adequate system of internal audit of cost records which, to our opinion, is commensurate to its nature and size of business.

vi. In our opinion, information, statements in the annexure to this cost audit report, gives a true and fair view of the cost of production of Product(s)/Output, cost of sales, margin & other information relating to products under reference.

vii. Detailed unit wise, Cost statements and schedules thereto in respect of the products under reference of the company, duly audited and certified by us, are kept in the company.

For **A. C. Dutta & Co.**

A. C. Datta, Partner
(M-04670)

Note : Figure for earlier year(s) have been recasted/rearranged/regrouped, wherever necessary.

Part II

OBSERVATION & SUGGESTION

1. Plant performance of NEEPCO's generating stations :

The following Generating Stations of the Company are unable to achieve its Normative/Designed/Installed Capacity during the FY 2021-22:

A. Generation

Generating station	Designed/ Installed Capacity (in MU)	Actual generation (in MU)	Capacity utilisation (in %)
TGBPS	752.05	717.96	95.47
Kopili HPS	363.95	286.09	78.61
Doyang HPS	227.24	100.58	44.26
Ranganadi HPS	1293.73	1154.28	89.22
Tuirial HPS	250.63	137.42	54.83
Pare HPS	506.42	430.55	85.02
Kameng HPS	3353	2576.35	76.83
Solar	8.32	5.98	71.88

2. Auxiliary Power Consumption (APC) :

During the FY 2021-22, Auxiliary Power consumption of the following generating stations are significantly higher than the normative APC (allowed by the CERC):

Power Plant	Generation 2021 – 22 (in MU)	Norm APC (in %)	Norm APC (in MU)	Actual Aux. consumption including colony (MU)	Actual APC (in %)	Excess APC w.r.t. CERC normative	
						(in MU)	(in %)
AGTPCC	923.99	3.10%	27.28	32.75	3.72%	5.47	0.62%
TGBPP	717.96	3.30%	17.58	25.05	4.70%	7.47	1.40%
KHEP	286.09	1.20%	0.81	4.64	6.85%	3.83	5.65%
Tuirial	137.42	1.20%	1.90	7.05	4.43%	5.15	3.23%

3. Margin:

The Table below presents unit revenue, cost of sales and net margin for the generating stations of NEEPCO for the FY 2021-22.

Table : Margin Analysis for NEEPCO Power Plants

Power Plant	Units sold (MU)	Revenue	Cost of Sales	Net Margin	Net Margin
		Rs/Unit	Rs/Unit	Rs/Unit	Rs. Lakh
AGBPP	1748.23	3.55	2.81	0.74	12,958.38
AGTPP	891.25	3.75	3.54	0.21	1,899.47
TGBPP	692.91	4.98	4.09	0.88	6,120.55
KHEP	248.06	1.64	2.62	-0.99	-2,448.49
DHEP	86.98	9.84	10.13	-0.29	-252.85
RHEP	1009.78	3.58	1.41	2.17	21,904.16
Tuirial	114.58	8.19	13.42	-5.23	-5,988.44
Pare	370.58	5.04	5.62	-0.58	-2,161.24
Kameng	2262.54	4.52	5.09	-0.57	-12,951.41
Solar	5.88	7.43	9.29	-1.86	-109.28
Total/Avg.	**7430.79**	**4.17**	**3.91**	**0.26**	**18970.85**

Findings on the above Table:

- Net Margin for NEEPCO as a whole for the financial year (FY) 2021-22 is "Positive".
- The most significant per unit negative margin is for Tuirial HPS (Rs. - 5.23).
- Kameng HPS, the project with highest designed capacity of the corporation, incurred maximum loss in terms of totality (Rs.-129.51 Crores).
- Further, Kameng & Tuirial HPS, being the high cost generating stations, all efforts need to be taken for achieving its normative Plant availability as well as designed energy, in order to avoid revenue losses in future.

Management's attention on the above is solicited for necessary action in view of improved Plant performance as well as profitability.

NORTH EASTERN ELECTRIC POWER CORPORATION NEEPCO New Delhi

COST ACCOUNTING POLICY FOR THE FY 2021-2022

A. Corporate information

North Eastern Electric Power Corporation Limited ("NEEPCO" / "the Company") is a leading power utility, primarily operating in the North-Eastern Region of India. NEEPCO Ltd, a Central Public Sector Enterprise (CPSE), is a wholly owned Subsidiary of NTPC Ltd and it is conferred with the Schedule A- Miniratna Category-I CPSE status by the Government of India. The address of the Company's registered office is Brookland Compound, Lower New Colony, Laitumkhrah, Shillong 793003, Meghalaya. Authorised Capital of the Company is ₹ 5000 crore. The Company has its 12 (twelve) generating stations, which are under operation [except Kopili (4X50 MW) power stations which is under shut down from the 07th of October 2019 due to rupturing of the penstock and presently under Reconstruction Renovation & Modernization], with 8 (eight) hydro, 3 (three) thermal and 1(one) solar power stations. Present install capacity of the Company is 2057 MW.

NEEPCO has its debt (Bond XI issue to XXIII issue) listed with Bombay Stock Exchange (BSE).

B. Cost Accounting Policy

The cost accounting policy adopted by the Company and its adequacy or otherwise to determine correctly the cost of production/generation, cost of sales, sales realization and margin of the product is adequate and is in due adherence to the Generally Accepted Cost Accounting Principles (GACAP), Cost accounting standards (CAS) issued by the Institute of Cost Accountants of India and CRA -1 in pursuant to Rule 5(1) of the Companies (Cost Records and Audit) Rules, 2014 & amendments there-to. The policy cover, inter alia, the following areas:

I. Identification of cost Centre/cost objects and cost drivers:

- **<u>Production Cost Centres</u>:**
  Power House, Switchyard, Dam, Tunnel (including Penstock), D.M. Water Plant and GBS.
- **<u>Service Cost Centres</u>**
  Finance & Accounts, Personal & Administration, General Plant Administration, Maintenance Divisions- Administrative Building & Township, Stores and Workshop, Hospital Facilities and Corporate Office.

The Cost Accounting system of the company is integrated with the Financial Accounting system. The designed software "SAP-ERP" is used for seven generating

units of the company migrated to ERP during FY 2021-22 & "MATFIN" is used for the remaining generating units (Units which are not yet migrated to SAP-ERP) for recording various transactions relating to Employee costs, Repair & Maintenance, Stores Accounting, Asset Accounting etc. The account code structures enable identification of expenses/costs as well as revenue for each cost centre.

Cost drivers for the Company are Employee costs, Fuel (gas) cost, Repairs & Maintenance expenses, Depreciation, Overheads etc.

The corporate office and other administrative offices are treated as service cost centers. The expenditure of service cost centers are allocated on each cost centers under administrative overheads on suitable basis.

Cost so determine for power stations are than aggregated and unit cost is arrived at based on respective net generation- i.e., Gross generation netted for actual consumption for auxiliaries (for Thermal & Solar Plants) and Gross generation netted for free electricity to Home States (FESH) and actual consumption for auxiliaries (for Hydro Plants).

II. Accounting for material cost including packing materials, stores and spares, employee cost, utilities and other relevant cost components:

(i) **Material Costs:**

For the Thermal Power Stations, gas cost & its transportation cost including incidental taxes constitute major materials (fuel) cost for generation of electricity (product). For hydro generating unit, no input material (fuel) cost is involved.

(ii) **Stores and spares:**

Receipts & issue of stores, spares & consumables are recorded in MM-Module of SAP-ERP and Store Accounting module of MATFIN respectively. Issue price for each of such items are valued based on weighted average cost.

(iii) **Employees Costs:**

The Employees costs comprises of Salary and wages, Allowances, Incentives, Gratuity, Contributory provident fund, Leave Encashment, Medical expenses, Superannuation Benefits etc. Records are maintained for determination of Employee costs for all power stations and also for service units.

(iv) **Repairs & maintenance:**

Such expenditure includes repairs & Maintenance of Plants & machineries, Electrical installations, Hydraulic structures, Roads/Buildings etc. Cost are booked to the respective cost centers for which the same has been carried out. The repairs & maintenance expenditure relating to maintenance of colony/township & other indirect expenditures are treated as Overheads & allocated accordingly.

(v) Utilities

Power:

Auxiliary power consumed by the generating stations (including FESH for hydro stations) has been deducted from gross generation in consonance with practices followed under CERC order for determining Net (saleable) generation. The cost of production per unit is worked out based on net generation i.e. Gross generation is reduced by auxiliary consumption and FESH.

Effluent Treatment:

Expenditure pertaining to ETP/waste management during generation of electricity are treated as utility expenditure & same are recorded accordingly.

(vi) Other Relevant Cost Component:

Research and Development Expenses, Quality control Expenses, power trading expenses and other relevant cost components are accumulated and then apportioned to respective cost centers based on service rendered.

III. Accounting, allocation and absorption of overheads:

(i) Other Production Overhead:

Overhead comprising of Repairs and Maintenance, Insurance, Depreciation and other relevant costs of the generating stations, which are not directly identifiable to the Plant's production process and are common in nature, are treated as "Other production overhead" and are allocated/apportioned to cost centers.

(ii) Administrative Overhead:

Administrative Overhead is absorbed to the product. It includes cost of all activities relating to general management and administration of the Power Station.

(iii) Selling and Distribution Overhead:

Expenses for selling of electricity through power trading exchanges constitute selling and distribution overhead.

IV. Accounting for depreciation/amortization:

Depreciation is charged as per Electricity Act, 2003 on straight line method following the rates and methodology notified by the Central Electricity Regulatory Commission constituted under the Act except the followings:

i. IT equipment (Computers and Peripherals) are being depreciated fully (100%) in three years.
ii. Computer software is amortised on straight-line method over a period of legal right to use or 03 (three) years, whichever is less.
iii. "Land-right to use" is fully amortized over the period of useful life of the project from its "Date of commercial operation".
iv. Leasehold Lands are amortised over the period of lease or useful life of the project, whichever is lower, from its "Date of commercial operation". Leasehold Land, in case of administrative offices, are amortised over the lease period.
v. Where the cost of depreciable assets has undergone a change due to during the year due to increase/decrease in long term liabilities on account of exchange fluctuation, price adjustment, settlement of arbitration/court cases, changes in duties and similar factors, the unamortized balances of such assets is depreciated prospectively over the residual life of such asset at the rate and methodology notified by the CERC regulations.
vi. Cost of major repairing and overhauls are depreciated over their useful lives where it is probable that future economic benefits will be available.
vii. Spares parts procured along with the Plant & Machinery or subsequently which are capitalized and added in the carrying amount of such item are depreciated over the residual useful life of the related plant and machinery at the rates and methodology notified by CERC.
viii. Assets/procured installed, whose individual cost is Rs. 5000/- or less but more than Rs. 750/- (hereinafter is called Assets of minor value) and assets (excluding immovable assets) whose written down value is Rs. 5000/- or less at the beginning of the year are full depreciated during the year leaving a nominal balance of Rs. 1/- only
ix. Low value items, which are in the nature of the assets (excluding immovable assets) and value up to Rs. 750/- are not capitalized and charged off to revenue during the year.
x. Depreciation of Corporate/Administrative office assets and general assets of projects under construction are charged following the rates notified vide CERC tariff regulations.

V. Valuation of Inventories

Inventories mainly comprise of stores and spare parts to be used for operation and maintenance of Property, Plant and Equipment.

नार्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली
NEEPCO
North Eastern Electric Power Corporation New Delhi

Inventories are valued at costs or net realizable value (NRV), whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average cost formula and NRV is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

Value of scrap is adjusted in the account as & when sold/disposed-off and profit/loss, if any, is recognized in accounts in the year of sell/disposal.

VI. Treatment of abnormal and non-recurring costs including classification of other non-cost items:

Abnormal costs/Non-Recurring costs items, if any, are separately identified and excluded from cost of production.

VII. Other relevant cost accounting policy adopted by the Company:

Changes, if any, as per Accounting Standards notified by the ministry of corporate affairs are incorporated in Cost Report to the extent applicable.

C. Briefly specify the changes, if any, made in the cost accounting policy for the product(s)/service(s) under audit during the current financial year as compared to the previous financial year:

The previous year figure has been re-stated/re-grouped/re-casted, where ever required.

D. Adequacy or otherwise of the Budgetary Control System, if any, followed by the company:

The company has budgetary control system which is commensurate to the nature and size of the operations.

COST ACCOUNTING POLICY	
(1) Briefly describe the cost accounting policy adopted by the Company and its adequacy or otherwise to determine correctly the cost of production/operation, cost of sales, sales realization and margin of the product(s)/service(s) under reference separately for each product(s)/service(s). The policy shall cover, inter alia, the following areas:	NEEPCO's Cost accounting policy is attached, which is found to be adequate for determination of Cost of Generation, Cost of Sales, Sales realisation and Margin of the product.
(2) Briefly spacify the changes, if any, made in the cost accounting policy for the product (s) or Service (s) under audit during the current financial year as compared to the previous financial year.	No change in cost accounting policy during the year
(3) Observations of the Cost Auditor regarding adequacy or otherwise of the Budgetary Control System, if any, followed by the company.	The Corporation has a centralised Budget and reporting department located at Corporate office. Budget control system adopted by the corporation is found to be adequate and commensurate to the nature and size of the company.

COST AUDIT REPORT

We, **Niran & Co., Cost Accountants and Dhananjay V. Joshi & Associates** having been appointed as Lead Cost Auditor and Cost Auditors under section 148(3) of the Companies Act, 2013 (18 of 2013) of **North Eastern Electric Power Corporation Limited (A Subsidiary of NTPC Limited)** having its registered office at Brookland Compound, Lower New Colony, Laitumkhrah, Shillong-793003, (hereinafter referred to as "NEEPCO Ltd" / "the Company"), have audited the Cost Records maintained under section 148 of the said Act, in compliance with the Cost Auditing Standards, in respect of the **"Generation of Electricity" for the financial year 2022-23** (from 1st April, 2022 to 31st March, 2023) maintained by the Company and Report, in addition to our observations and suggestions in Para-2.

(i) We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of this audit.

(ii) In our opinion, proper cost records, as per rule 5 of the Companies (Cost Records and Audit) Rules 2014 and as amended time to time, have been maintained by the Company in respect of Products under reference.

(iii) In our opinion and to the best of our information, the said books and records give the information required by the Companies Act, 2013 in the manner so required.

(iv) In our opinion, the Company has adequate system of Internal Audit of Cost Records which in our opinion is commensurate to its nature and size of the business.

(v) In our opinion, information, statements in the annexure to this Cost Audit Report gives a true and fair view of the cost of rendering of services, cost of sales, margin and other information relating to Products under reference.

(vi) Detailed unit-wise and service-wise cost statements and schedules thereto in respect of the Products under reference to the Company duly audited and certified by us are kept in the Company.

2. Specific Observations and Suggestions:

I. Performance Analysis:

A. The following table enumerates the performance of the company.

S. No	Generating Stations	Design/ Installed energy (MU)	Gross Generation (MU)	Capacity Utilization (%)	Gross Generation (MU)	Capacity Utilization (%)
			FY 2022-23		FY 2021-22	
1	Panyor Lower HPS	1,293.73	1,376.21	106.38%	1,154.28	89.22%
2	Kopili HPS	1,357.75	Under shut down	0.00%	286.09	21.07%
3	Doyang HPS	227.24	177.35	78.05%	100.58	44.26%
4	Tuirial HPS	250.63	204.10	81.43%	137.42	54.83%
5	Pare HPS	506.42	531.84	105.02%	430.55	85.02%
6	Kameng HPS	3,353.00	2,912.75	86.87%	2,576.35	76.84%
7	Assam GBPS	1,746.00	1,689.83	96.78%	1,787.10	102.35%
8	Agartala GBPS	810.00	845.63	104.40%	923.99	114.07%
9	Tripura GBPS	752.05	747.48	99.39%	717.96	95.47%
10	Solar PV PS	8.32	6.74	81.01%	5.98	71.88%
	Total	10,305.14	8,491.93	82.40%	8,120.30	78.80%

Observations:

- The above table shows that during the FY 2022-23, all the generating stations have improved its generation & thus resulted in improved capacity utilization in comparison to the previous comparative year, except Khandong I & II (due to total Plant shutdown for R&M/ repairing) and the thermal stations, namely, Assam GBPS & Agartala GBPS.
- All the three generating stations of Kopili HPS were under shutdown throughout the year 2022-23 for Repairing/Reconstruction Renovation and Modernisation.

B. The following units of respective generating stations of the company are unable to achieve its design/installed capacity during the year 2022-23.

Generating Stations	Units	Design Capacity (MU)	Gross Generation (MU)	Capacity Utilization (%)
Doyang Hydro Power Station	DHPS-1	75.747	63.57	84%
	DHPS-2	75.747	50.25	66%
	DHPS-3	75.747	63.53	84%
Tuirial Hydro Power Station	THPS-1	125.315	106.85	85%
	THPS-2	125.315	97.25	78%
Kameng Hydro Power Station	KaHPS-1	838.250	559.09	67%
	KaHPS-2	838.250	650.42	78%
	KaHPS-4	838.250	823.23	98%
Assam Gas Based Power Station	Unit-III	201	182.50	91%
	Unit-VI	201	164.95	82%

(02)

	Unit-VII	180	169.00	94%
	Unit-VIII	180	167.17	93%
	Unit-IX	180	139.64	78%
Agartala Gas Based Power Station	Unit-V	153	151.50	99%
	Unit-VI	153	131.15	86%
Tripura Gas Based Power Station	Unit-II	265	213.96	81%
Monarchak Solar PS	Unit-I	8.322	6.74	81%

C. During the current financial year 2022-23, the gross generation (in MU) of the following units of respective generating stations of the company has been decreased as compared to the previous year 2021-22.

Generating Stations	Units	Design Capacity (MU)	Gross Generation (MU)		Capacity utilization (%)	
			2022-23	2021-22	2022-23	2021-22
Kameng Hydro Power Station	KaHPS-1	838.250	559.09	724.98	67%	86%
	KaHPS-2	838.250	650.42	746.05	78%	89%
Assam Gas Based Power Station	UNIT-I	201	225.21	242.95	112%	121%
	UNIT-II	201	201.03	207.71	100%	103%
	UNIT-III	201	182.50	232.53	91%	116%
	UNIT-IV	201	225.49	231.40	112%	115%
	UNIT-VI	201	164.95	179.66	82%	89%
	UNIT-VII	180	169.00	177.61	94%	99%
	UNIT-VIII	180	167.17	179.67	93%	100%
Agartala Gas Based Power Station	UNIT-II	126	139.48	162.93	111%	129%
	UNIT-III	126	130.45	153.93	104%	122%
	UNIT-IV	126	134.26	144.05	107%	114%
	UNIT-V	153	151.50	163.05	99%	107%
	UNIT-VI	153	131.15	148.33	86%	97%

II. **Auxiliary Power Consumption (APC):**

A. The Auxiliary Consumption of Generating stations are provided below.

S. No.	Generating Stations	Gross Generation	CERC Norm		Actual Auxiliary Consumption		Less/excess) APC w.r.t. to CERC Norm		Value of Excess APC	
		In MU	In %	In MU	in %	In MU	In %	In MU	Rs/Unit	Amount (Lakh)
1	Panyor Lower HPS	1376.21	1.00%	13.76	0.55%	7.61	0.45%	6.15	1.373	84.47
2	Doyang HPS	177.35	1.20%	2.13	1.25%	2.21	-0.05%	-0.08	3.375	-2.76
3	Tuirial HPS	204.1	1.20%	2.45	4.59%	9.36	-3.39%	-6.91	2.562	-177.05
4	Pare HPS	531.84	1.20%	6.38	0.31%	1.64	0.89%	4.74	2.5	118.55
5	Kameng HPS	2912.75	1.00%	29.13	0.32%	9.29	0.68%	19.84	2.479	491.77
6	Agartala GBPS	845.63	3.10%	26.21	3.48%	29.39	-0.38%	-3.18	4.993	-158.55
7	Assam GBPS	1689.83	2.75%	46.47	2.43%	41.01	0.32%	5.46	5.185	283.12
8	Tripura GBPS	747.48	3.30%	24.67	3.57%	26.69	-0.27%	-2.02	2.248	-45.48
	Total	8485.19		151.2		127.2		24.00		594.06

NIRAN & CO. Bhubaneswar COST ACCOUNTANTS

(03)

Observations:

- In case of Panyor Lower Hydro Power Station, Pare Hydro Power Station, Kameng Hydro Power Station, Assam Gas Based Power Station the auxiliary power consumption is considerably higher compared to CERC norm.

III. Margin Analysis:

A. The table below enumerates the Generating station wise per unit Sales, Cost of Sales, Margin for the financial year 2022-23.

S. No.	Power Generating Stations	Units Sold (MU)	Net Sales (Rs/Unit)	Cost of Sales (Rs/Unit)	Net Margin (Rs/Unit)	Units Sold (MU)	Net Sales (Rs/Unit)	Cost of Sales (Rs/Unit)	Net Margin (Rs/Unit)
		2022-23				2021-22			
1	Panyor Lower Hydro Power Station	1,205.04	2.80	1.54	1.26	1,009.78	3.58	1.41	2.17
2	Kopili Hydro Power Station	-	-	-	-	248.06	1.64	2.62	-0.99
3	Doyang Hydro Power Station	151.32	8.35	6.39	1.96	86.98	9.84	10.13	-0.29
4	Tuirial Hydro Power Station	172.16	6.46	8.81	-2.35	114.58	8.19	13.42	-5.23
5	Pare Hydro Power Station	464.62	5.21	4.59	0.62	370.58	5.04	5.62	-0.58
6	Kameng Hydro Power Station	2,548.54	5.31	4.43	0.88	2,262.54	4.52	5.09	-0.57
7	Assam Gas Based Power Station	1,648.26	7.26	6.97	0.29	1,748.23	3.55	2.81	0.74
8	Agartala Gas Based Power Station	816.32	7.15	6.59	0.56	891.25	3.75	3.54	0.21
9	Tripura Gas Based Power Station	723.84	4.82	3.85	0.97	692.91	4.98	4.09	0.88
10	Monarchak Solar Power Station	6.56	8.68	7.13	1.55	5.88	7.43	9.29	-1.86
TOTAL		7,736.66	5.56	4.84	0.72	7,430.79	4.17	3.91	0.26

Observations:

- During the financial year 2022-23, all the generating stations have contributed profit except Tuirial Hydro Power Station with a negative margin of Rs. 2.35/Unit.
- All the generating stations except Panyor Lower Hydro Power Station & Assam Gas Based Power Station are showing a increase in Net margin in FY 2022-23 as compared to the PY 2021-22.
- Tuirial Hydro Power station is the only Generating Station that shows negative margin for both FY 2022-23 & PY 2021-22.

Total	**166:54:00**	**66:13:00**	**100:41:00**

Observation:

- In Panyor Lower Hydro Power Station (PLHPS) Unit-I, Annual plant maintenance (APM) for 2022-23 and 2021-22 has been done for 221.55 hours and 244.40 hours respectively, but after the (APM) there is also forced outage for 212 hours and 182 hours for both 2022-23 and 2021-22 respectively for S/D for Guide Vane

NIRAN & CO. Bhubaneswar COST ACCOUNTANTS

(05)

3. **General Suggestions:**

- As per the CRA-1, Rule-5 of the Companies (Cost Records and Audit) Rules, the Company has to maintain the Cost records on concurrent basis. Hence, we suggest for the maintenance of such on quarterly basis followed by the quarterly review by the Cost Auditor in order to comply the statute and facilitate management to have knowledge on the deviation/variances on the key areas and initiate steps for Control.
- Company should develop a comprehensive cost accounting manual in line with Cost Accounting Standards (CAS) to maintain consistency and credibility in maintaining Cost Records & Reporting.
- As the company is in the process of implementing SAP, Unit (Turbine) wise Cost records should be maintained.
- The Company is in the transition phase of SAP implementation. We suggest, activity wise cost centre i.e. for each service department, employee benefits & social benefits etc. need to be developed and Cost should be captured, accordingly.
- Mapping of GL codes with activity linked to the cost centres required to be in place.
- Budgets need to be reviewed on quarterly basis & variance thereon for improvement of operation & Cost measurement system.
- The energy reading between Secured energy meter (SEM) data of Power grid need =s to be reconciled with meter reading of NEEPCO.
- Meters should be installed in the colony and other auxiliary areas for detailed analysis to have a control on consumption.
- Implementation of Energy Audit should be done for better control on transformation loss, auxiliary consumption and colony consumption.
- Due to unavailability of Planned Maintenance Policy, we could not determine the scheduled maintenance for each generating station.

4. **Disclosure:**

- We have not made detailed examination of the statements and annexures certified by the Branch Auditor and only considered those statements and annexure for consolidation purpose.
- Reconciliation of Indirect Tax for the product group of the company is based on the periodical returns submitted by the company to the various authorities. This includes various indirect taxes paid by the company. However we have not carried out detailed audit of the same
- Changes are made in ascertainment of various Cost components looking at the requirement of the financial year 2022-23. Previous year figures have been regrouped/rearranged/re-casted wherever necessary to make the figures comparable with current year's figures.

COST ACCOUNTING POLICY FOR THE FY 2022-2023

A. Corporate information

North Eastern Electric Power Corporation Limited ("NEEPCO Ltd." / "the Company") is a leading power utility, primarily operating in the North-Eastern Region of India. NEEPCO Ltd, a Central Public Sector Enterprise (CPSE), is a wholly owned Subsidiary of NTPC Ltd and it is conferred with the Schedule A- Miniratna Category-I CPSE status by the Government of India. The address of the Company's registered office is Brookland Compound, Lower New Colony, Laitumkhrah, Shillong 793003, Meghalaya. Authorised Capital of the Company is ₹ 5000 crore. The Company has its 12 (twelve) generating stations, which are under operation [except three generating stations of Kopili HPS, namely, Kopili (4 X 50 MW) power station, Khangdong Stage I (2 X 25 MW) Power Station and Khangdong Stage II (1 X 25 MW) Power Station, which are under Repairing/Reconstruction Renovation and Modernisation] with 8 (eight) hydro, 3 (three) thermal and 1(one) solar power generating stations. Present installed capacity of the company is 2057 MW.

NEEPCO has its debt (Bond XIV to XVI, XVIII, XX to XXIII issue) listed with Bombay Stock Exchange (BSE).

B. Cost Accounting Policy

The cost accounting policy adopted by the Company and its adequacy or otherwise to determine correctly the cost of production/generation, cost of sales, sales realization and margin of the product is adequate and is in due adherence to the Generally Accepted Cost Accounting Principles (GACAP), Cost accounting standards (CAS) issued by the Institute of Cost Accountants of India and CRA -1 in pursuant to Rule 5(1) of the Companies (Cost Records and Audit) Rules, 2014 & amendments there-to. The policy cover, inter alia, the following areas:

***I. Identification of cost Centre/cost objects and cost drivers*:**

- <u>Production Cost Centres</u>:
  Power House, Switchyard, Dam, Tunnel (including Penstock), D.M. Water Plant and Gas Booster System (GBS).
- <u>Service Cost Centres</u>
  Finance & Accounts, Personal & Administration, General Plant Administration, Maintenance Divisions- Administrative Building & Township, Stores and Workshop, Hospital Facilities and Corporate Office, Other Service departments.

NIRAN & CO. Bhubaneswar COST ACCOUNTANTS

7

The Cost Accounting system of the company is integrated with the Financial Accounting system. The Units (Projects & Offices) of NEEPCO have migrated to ERP in phased manner from its old designed software "MATFIN", with migration of the last Unit during the 03rd quarter of the FY 2022-23 with "Cut over" data as on 30.09.2022 and the said system is used for all generating units for recording various transactions relating to Employee costs, Repair & Maintenance, Stores Accounting, Asset Accounting etc. The account code structures enable identification of expenses/costs as well as revenue for each cost centre.

Cost drivers for the Company are Employee costs, Fuel (gas) cost, Repairs & Maintenance expenses, Depreciation, Overheads etc.

The corporate office and other administrative offices are treated as service cost centers. The expenditure of service cost centers is allocated on each cost centers as administrative overheads on the basis of installed capacity of the generating stations in operation during the year.

Cost so determined for power stations are then aggregated and unit cost is arrived based on respective net generation- i.e., Gross generation ***netted off*** for Free electricity to Home States (FESH) (for Hydro Plants), Auxiliary power consumption by the Plant (including colony consumption) (for Hydro, Thermal & Solar Plants) and Other adjustment, if any.

II. Accounting for material cost including packing materials, stores and spares, employee cost, utilities and other relevant cost components:

(i) **Material Costs:**

For the Thermal Power Stations, gas cost & its transportation cost including incidental taxes constitute major materials (fuel) cost for generation of electricity (product). For hydro generating unit, no input material (fuel) cost is involved. (As per CAS-6)

(ii) **Direct Expenses**

The cost includes Electricity duty on generation, operating expenses of DG Sets, outsourcing expenses etc. (As per CAS-10)

(iii) **Stores and spares:**

Receipts & issue of stores, spares & consumables are recorded in Store Accounting module of MATFIN/SAP. Issue price for each of such items are valued based on weighted average cost.

NIRAN & CO. Bhubaneswar COST ACCOUNTANTS

8

(iv) **Employees Costs:**

The Employees costs comprises of Salary and wages, Allowances, Incentives, Gratuity, Contributory provident fund, Leave Encashment, Medical expenses, Superannuation Benefits and the benefits incurred or to be incurred for the services rendered for the employees etc. Records are maintained for determination of Employee costs for all power stations and also for service units. The direct employee cost allocated for the operation cost centers is presented in cost statements as a separate line item and the indirect employee cost is presented in cost statement as a part of production overhead. The employee cost pertaining to the Corporate office and Other Administrative Offices, such as, Guwahati, New Delhi, Kolkata, ED(Arunachal), is presented in cost statement as a part of administrative overhead(As per CAS-7).

(v) **Repairs & maintenance:**

Such expenditure includes repairs & Maintenance of Plants & machineries, Electrical installations, Hydraulic structures, Roads/Buildings etc. Cost are booked to the respective cost centers for which the same has been carried out. The repairs & maintenance expenditure relating to operation cost centers are treated as direct repair & Maintenance cost. The repair & maintenance pertaining to the auxiliary units other than the power house/main plant are considered as part of production overheads. The repair & maintenance pertaining to the Corporate office and Other Administrative Offices, such as, Guwahati, New Delhi, Kolkata, ED(Arunachal), is presented in cost statement as a part of administrative overhead (As per CAS-12).

(vi) **Utilities**

Effluent Treatment:

Expenditure pertaining to ETP/waste management during generation of electricity are treated as utility expenditure & same are recorded accordingly. (As per CAS-8)

(vii) **Other Relevant Cost Component:**

a) Research and Development Expenses(As per CAS-20)
b) Quality control Expenses (As per CAS-21)

The relevant cost components are accumulated and then apportioned to respective cost centers based on service rendered shown as a separate line item in cost statement.

NIRAN & CO. Bhubaneswar COST ACCOUNTANTS

9

(Vii) **Interest and Finance Cost**

The cost includes Interest on Bonds, Interest on Foreign currency Borrowings , Interest on Govt of India Loan, Interest on Domestic loan from Financial Institutes/Banks etc.

The interest cost for the project specific borrowings are assigned to the respective generating stations and the common interest are apportioned to the generating stations in operation based on installed capacity. (As per CAS-17)

III. Accounting, allocation and absorption of overheads:

(i) **Other Production Overhead:**

Overhead comprising of Indirect Repairs and Maintenance, Insurance, Depreciation, indirect employee cost and other relevant costs of the generating stations, which are not directly identifiable to the Plant's production process and are common in nature, are treated as "Other production overhead" and are allocated/apportioned to cost centers. (As per CAS-3)

(ii) **Administrative Overhead**:

The Corporate office and Other Administrative Offices, such as, Guwahati, New Delhi, Kolkata, ED(Arunachal) are treated as service cost centers. The expenditure of service cost centers is allocated on each cost centers as administrative overheads on the basis of installed capacity of the generating stations in operation during the year. (As per CAS-11)

(iii) **Selling and Distribution Overhead**:

Expenses for selling of electricity through power trading exchanges, open access charges, regulatory charges etc. constitute selling and distribution overhead. (as per CAS-15)

IV. Accounting for depreciation/amortization:

Depreciation is charged as per Electricity Act, 2003 on straight line method following the rates and methodology notified by the Central Electricity Regulatory Commission constituted under the Act except the followings:

i. IT equipment (Personal Computers and Laptops including Peripherals) are depreciated in a period of three years.

ii. Computer software is amortised on straight-line method over a period of legal right to use or 03 (three) years, whichever is less. The amortisation period and the amortisation method of intangible assets with a finite useful life is reviewed at each financial year and adjusted prospectively, wherever required.

NIRAN & CO. Bhubaneswar COST ACCOUNTANTS

10

iii. "Land-right to use" is fully amortized over the period of useful life of the project from its "Date of commercial operation".

iv. Leasehold Lands are amortised over the period of lease or useful life of the project, whichever is lower, from its "Date of commercial operation". Leasehold Land, in case of administrative offices, are amortised over the lease period.

v. Where the cost of depreciable assets has undergone a change due to during the year due to increase/decrease in long term liabilities on account of exchange fluctuation, price adjustment, settlement of arbitration/court cases, changes in duties and similar factors, the unamortized balances of such assets is depreciated prospectively over the residual life of such asset at the rate and methodology notified by the CERC regulations.

vi. Cost of major repairing and overhauls are depreciated over their useful lives where it is probable that future economic benefits will be available.

vii. Spares parts procured along with the Plant & Machinery or subsequently which are capitalized and added in the carrying amount of such item are depreciated over the residual useful life of the related plant and machinery at the rates and methodology notified by CERC.

viii. Assets/procured installed, whose individual cost is Rs. 5000/- or less but more than Rs. 750/- (hereinafter is called Assets of minor value) are depreciated during a period of 12 months leaving a nominal balance of Rs. 1/- only

ix. Low value items, which are in the nature of the assets (excluding immovable assets) and value up to Rs. 750/- are not capitalized and charged off to revenue during the year.

x. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale(or included in a disposal group that is classified as asset held for sale) in accordance with Ind AS 105 and the date that the asset is de-recognised.

xi. Depreciation of Corporate/Administrative office assets and general assets of projects under construction are charged following the rates notified vide CERC tariff regulations.

Assignment of Depreciation Cost

The depreciation relating to operation cost centers are treated as direct depreciation cost. The depreciation pertaining to the auxiliary units other than the power house/main plant are considered as part of production overheads. depreciation pertaining to the Corporate office and Other Administrative Offices, such as, Guwahati, New Delhi, Kolkata, ED(Arunachal), is presented in cost statement as a part of administrative overhead (As per CAS-16).

V. Valuation of Inventories

Inventories mainly comprise of stores and spare parts to be used for operation and maintenance of Property, Plant and Equipment.

Inventories are valued at costs or net realizable value (NRV), whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in

bringing the inventories to their present location and condition. Cost is determined using weighted average cost formula and NRV is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

Value of scrap is adjusted in the account as & when sold/disposed-off and profit/loss, if any, is recognized in accounts in the year of sell/disposal.

VI. Related party Transactions

There is no Related party transaction effecting Cost Records.

VII. Treatment of abnormal and non-recurring costs including classification of other non-cost items:

Any abnormal costs/Non-Recurring costs items is separately identified and excluded from cost of production.

VIII. Other relevant cost accounting policy adopted by the Company:

Changes, if any, as per Accounting Standards notified by the ministry of corporate affairs are incorporated in Cost Report to the extent applicable.

C. Briefly specify the changes, if any, made in the cost accounting policy for the product(s)/service(s) under audit during the current financial year as compared to the previous financial year:

During the current financial year, Corporate and other admin offices expenses has been apportioned on the basis of installed capacity of the generating stations against the previous year apportionment based on gross generation. Such changes have no material impact on cost records.

The previous year figure has been re-stated/re-grouped/re-casted, where ever required.

D. Adequacy or otherwise of the Budgetary Control System, if any, followed by the company:

The company has budgetary system which is commensurate to the nature and size of the operations. The implementation of full-fledged control system is in process.

UPDATED COST ESTIMATE

March-2004

Issued by O/o GM(D&E) New Delhi

नॉर्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन लिमिटेड
(भारत सरकार का उद्यम)
NORTH EASTERN ELECTRIC POWER CORPORATION LTD.
(A Govt. of India Enterprise)

UPDATED COST ESTIMATE OF KAMENG HYDRO ELECTRIC PROJECT (MARCH, 2004 PRICE LEVEL)

The estimate for construction of kameng H.E. project was first prepared in 1982 and subsequently it was revised /updated at different price levels at different point of time. The Revised cost estimate,1999 at Oct.99 price level , was accorded by CEA on 06.04.2000. Copy of the approval letter is enclosed in the Chapter Appendices. This cost estimate of Kameng H.E. Project, updated as per recommendation of PIB held on 23-04-2004, has been prepared based on the following conditions:-

1. Cost of C-Works and J-Power Plant Civil Works are updated from REVISED COST ESTIMATE of July 2003 on the basis of cost of civil works already tendered.

2. Cost of Electro -Mechanical works are updated to the price level of March 2004 from the price level of July 2003

3. The analysis of rates, use rates of equipment and other basic calculations are as per CWC guidelines.

4. Quantities of works, preliminary design/drawing, details of project features, which form the basis of this cost estimate, are identical to those provided in the cost estimate of October, 1999, approved by CEA.

5. In regard to the rates for compensation of land, the same have been considered as per the rates provided by the Dy. Commissioner, Bomdila, West Kameng District.

6. Rates for works of roads, under the sub-head 'R-Communication' have been taken as per actual from the agreement drawn between NEEPCO & BRO.

7. Item under the sub-head 'O-Miscellaneous' have been escalated on the basis of the cost Estimate October, 1999.

8. Since, the work will be executed through contracting agencies hence as per CWC guidelines, list of equipment under sub-head 'Q-Special T &P" has been limited to general purpose equipment.

9. International consultancy under the sub-head 'O-Miscellaneous" has been deleted and provision of Rs.2 crore for consultancy has been kept under 'A-Preliminary" as per CWC's advice.

10. Development of dumping yard under the sub-head 'X-Environment" and ecology has been deleted and provision of 20 hac. land for dumping area has been kept under 'B-Land' as advised by CWC.

11. As per the conditions mentioned in the approval letter of CEA, on Oct. 1999 cost estimate, the cost of 'B-Land' and 'Environment and ecology' have been restricted to 5.56 crore and 92.05 crore respectively.

12. Following provisions have been kept in the estimate:

    Establishment charges @ 5%.
    Audit and account charges 1%.

The general guidelines of the CWC for preparation of cost estimate for river valley projects have been followed.

The total estimated cost of the project is Rs. 2496.90 crores including IDC of Rs. 249.09 crores at March 2004 price level. Govt. of India has approved this estimated cost for investment and execution of kameng H.E. Project on 2nd December 2004 vide letter No.7/22/99-Hydel-I (copy enclosed in Appendices) . The project is scheduled to be completed in 5 years. The levellised tariff and the 1st year tariff have been worked out to be Rs. 1.23/Kwh and Rs. 1.48/Kwh respectively with 12% free power to Arunachal Pradesh. The cost per MW is Rs. 4.16 crores.

KAMENG HYDRO ELECTRIC PROJECT (4x150 MW)

SALIENT FEATURES

I. Type of scheme: Run-of- the river

II. Location:

Project	:	Located in the West Kameng District of Arunachal Pradesh.
Bichom Dam	:	Across river Bichom 3.65 Km downstream of the confluence of Bichom & Digien.
Tenga Dam	:	Across river Tenga 1.05 Km upstream of confluence of Bichom and Tenga river.
Power House	:	On the right bank of Kameng river near Kimi village in the West Kameng District.

III. Bichom Dam:

Catchment Area	:	2277 Sq. Km.
Design Flood Discharge	:	9434 cumecs.
Dam height	:	75 m (above deepest foundation)
Length	:	230 m
Type	:	Concrete gravity
Average river Bed Level	:	706 m
Top of Dam	:	773 m
Pond Level (FRL)	:	770 m
Deepest foundation level	:	698 m
MDDL	:	766 m
Maximum water level	:	771 m
Live Storage	:	4.32 m cum.
Spillway	:	Ogee shaped concrete spillway having 6 radial gates, of size 12m x 15m and crest level at an elevation 755.00 m.

IV. Bichom-Tenga Link Tunnel:

Shape & Type	:	Horse shoe, concrete lined
Length & Diameter	:	8.75 km, 6.7 m dia.
Design Discharge	:	140 Cumecs.
Invert level at Bichom	:	746.30 m
Slope	:	1:833

V. Tenga Dam:

Catchment Area	:	1019 Sq. Km.
Design Flood Discharge	:	2438 cumecs.
Dam height	:	27 m (above deepest foundation)
Length	:	85 m
Type	:	Concrete gravity
Average River Bed Level	:	753.00 m
Top of Dam	:	773.00 m
Pond level (FRL)	:	770.00 m
MDDL	:	765.00 m
Deepest foundation level	:	747.00 m (assumed at present)
Crest level	:	758.00 m
MWL	:	771.00 m
Live Storage	:	0.32 m cum.
Spillway	:	Ogee shaped concrete spillway having 2 nos. radial gates, of size 14m x 12m

VI. Head Race Tunnel

	Shape	:	Modified Horse shoe concrete lined.
	Length & Diameter	:	14.5 km, 6.7 m dia.
	Design discharge	:	140 cumecs
	Velocity	:	4m/sec
	Invert Level at Bichom intake	:	750 m
	Slope of tunnel	:	1 in 1000
VII.	**Surge Shaft:**		
	Type	:	Restricted orifice type surge shaft located at the end of Head Race Tunnel.
	Diameter	:	15.00 m (with upper expansion chamber Of 25m dia)
	Diameter of orifice	:	5 m
	Top Level of surge tank	:	785.00 m.
	Up Surge Level	:	778. 00 m
	Down Surge Level	:	749 .00 m
VIII.	**Penstocks:**		
	Type	:	Underground steel lined pressure tunnel.
	Number	:	2 nos. of 4 m dia taking off from surge tank each bifurcating into 2 nos. of 2.8m dia to feed 4 units of 150MW.
	Diameter of main penstock	:	4.0 m
IX.	**Power House:**		
	Type	:	Semi underground
	Size of Power House	:	109.00 m x 20.00 m
	Type of Turbine	:	Vertical Francis Turbine.
	No. & capacity of generating unit	:	4 units of 150 MW.
	Unit spacing	:	20.025 m centre to centre
	Tail Water level (Max)	:	239.00 M
	Tail Water (Min)	:	232 M
	Gross Head	:	536.00 m
	Firm Power	:	163 MW
	Energy Generation	:	3592 MU
X.	**Construction Period**	:	5 years
XI.	**Project Cost**	:	2496.90 crores (i/c IDC=Rs.249.09 crores) at March 2004 price level)
XII.	**Tariff:**	:	
	Levellised	:	Rs.1.23 per unit
	1st Year	:	Rs.1.48 per unit

KAMENG HYDRO ELECTRIC PROJECT

ABSTRACT
OF
(Civil & Electrical Works)

NHPC
New Delhi
North Eastern Electric Power Corporation

KAMENG H. E. PROJECT (4X 150 MW)- ARUNACHAL PRADESH

General abstract of cost of Civil & Electrical Works and IDC

DIRECT CHARGES		Estimated Amount (Rs. in Lakhs) based on the Price quoted by the lowest bider under all Civil Packages (4 no.s)
I-WORKS		
A	PRELIMINARY	1558.00
B	LAND	511.92
C	WORKS	45307.63
J	POWER PLANTS CIVIL WORKS	68760.33
K	BUILDING	6993.75
M	PLANTATION	170.00
O	MISCELLANEOUS	3324.00
P	MAINTENANCE	1431.01
Q	SPECIAL T&P	216.55
R	COMMUNICATION	22038.94
X	ENVIRONMENT AND ECOLOGY	6553.50
Y	LOSSES ON STOCK	357.75
	TOTAL OF I-WORKS	157223.38
II	ESTABLISHMENT @ 5 % OF I WORKS- B LAND	7805.69
III	TOOLS AND PLANTS @ 1 % OF I WORKS	1566.26
IV	Suspense	-
V	RECEIPTS AND RECOVERIES ON CAPITAL ACCOUNT (-)	-302.37
	TOTAL OF DIRECT CHARGES	166292.96
	INDIRECT CHARGES	
(a)	CAPITALISED VALUES OF ABTEMENT OF LAND REVENUE @ 5 %OF THE COST OF CULTURABLE LAND	0.00
(b)	AUDIT AND ACCOUNTS CHARGES @ 1 % OF I- WORKS	1566.26
	TOTAL OF INDIRECT CHARGES	1566.26
	A. TOTAL OF CIVIL WORKS	167859.21
	B.TOTAL OF ELECTRICAL WORKS	56921.93
	TOTAL OF CIVIL AND ELECTRICAL WORKS (A+B)	224781.14
	INTEREST DURING CONSTRUCTION (IDC)	24909.00
	GROSS TOTAL OF COST	249690.14
	SAY Rs. (IN CRORES)	2496.90

Note-:- 1) The Estimate for Electrical works have been updated as on March 2004

2) The Estimated provision for "C"-Works and "J"-Power Plant Civil Works have been worked out as per the bid price of the lowest Bider (March 2004).

3) Establishment Charge have been considered as 5% as per PIB recommendation in place of 8% taken in the Estimate of July 2003

	iv) acquisition of land for dumping yard	Hect	20		
		TOTAL	658.5	Hect	
A)	Total USF land598.50 hact. @ Rs. 36750/hect				219.95
B)	Total RF Land 60 hact. @ Rs. 9000/hect				5.40
	TOTAL (A + B)				225.35
5	30 houses having plinth area of about 500 sq.ft. each will be effected. Housing assistance @ Rs. 3.60 lakh for each house.				108.00
6	Compensation for standing crops				Nil
7	Rent for use of land				Nil
8	Interest on 25% of estimated cost @ 12% for 2 years.	Included in the unit land rate			
9	Solatium charges for compulsory acquisition @30% of Rs. 217.99 lakhs	Included in the unit land rate			
10	Legal charges @ 1% of total compensation				3.33
11	Reallocation of communication				Nil

North Eastern Electric Power Corporation New Delhi

12	Rehabilitation measures					
a)	Allotment of plots for housing = 30 x 4 Hac. X Rs. 36000/Hact = Rs. 43.20 lakh					
b)	Village roads, wells, school, post office, dispensery, panchayat ghar etc. = Rs. 92.00 lakhs					
c)	Cost for development of lands and cost towards implementation of rehabilitation and resettlement plan = Rs. 50.00 lakhs					143.20
13	Staff for demarcation/measurement of land @1% of land viaue.					2.25
14	Establishment charges for land acquisition and rehabilitation @ 6.25%.					29.78
	TOTAL					511.92

KAMENG HYDRO ELECTRIC PROJEC

ABSTRACT
OF
COST
(Electrical Works)

ELECTRICAL WORKS

1. TURBINE

Four vertical Francis turbines are proposed to be installed in the Power House. Vertical shaft arrangement is proposed to take advantage of compactness in the semi underground power house. The major parameters and specifications of the turbine are indicated below:

i)	FRL	:	770 M
ii)	MDDL	:	766 M
iii)	Normal Tail Water Level	:	234 M
iv)	Maximum Tail Water Level	:	234 M
v)	Maximum Gross Head	:	536 M
vi)	Minimum Gross Head	:	532 M
vii)	Minimum Net Head (rated)	:	501.22 M
viii)	Design Head	:	504 M
ix)	Rated Speed	:	428.6 RPM
x)	Specific Speed	:	72.49 RPM-KW-m
xi)	Turbine rated output at rated net head of 501.22m and rated speed	:	153.83 MW
xii)	Maximum continuous output at rated net head of 531.5m	:	169.213 MW
xiii)	Maximum continuous output at rated net head of 501..22m	:	160.908 MW
xiv)	Maximum Runway speed		
	• at net head of 531.5m	:	725 RPM
	• at rated net head of 501.22m	:	704 RPM
	• at net head of 504m	:	706 RPM

2. GENERATOR

Each of the turbine will be coupled directly to a 3 phase, 50 Hz 13.8 kV synchronous generator of 166.68 MVA, 0.9 rated power factor with 10% continuous over load capacity. The stator shall be of fabricated construction, split into sectors to facilitate transportation. The rotor will also be transported in parts and assembled at site.

Conventional construction is proposed so that the comparatively short rotor can be lifted out. This particular construction will bring the mass centre of the rim near the guide bearing and so an additional top guide bearing can be dispensed with.

The stator frame shall be polygonal, external cooling, where cold oil can be delivered to the inner radius of the thrust bearing, where it is most effective access to the bearing pads is unimpeded and the size of the sump is reduced.

The tentative dimension of some salient part of the generator indicated below :-

a) Outer core diameter	= 5.39 m
b) Air gap diameter	= 4.21 m
c) Stator frame diameter	= 6.59 m
d) Inner diameter of generation barrel	= 8.59 m
e) Length of stator frame	= 3.98 m
f) Height of load bearing bracket	= 2.57 m
g) Rotor weight (app)	= 343 T
h) Stator weight	= 280.925T
i) GD^2	= 2893 T

3. EXCITATION

Because of the important role excitation control plays in the power system especially with large alternators, it is proposed to use static excitation system. This will allow greater flexibility and faster control of excitation as desirable for larger unit sizes. The static excitation system will be complete with rectifier transformer, convector, control cubicle, field flushing unit and associated stator rotor current limiters etc.

4. GOVERNOR

Electro-hydraulic governor are proposed for the turbines. The system will be complete with oil leakage units, oil pipe lines, emergency slide valve, system of automatic control for auto operation duty of the units and also with high pressure compressed air supply.

5. EOT CRANE

Considering the weight of the rotor in the range of 250 MT, it is proposed to have two cranes of 190/85 MT capacity each which will be capable of being operated in parallel. There will be another crane in the service bay for unloading of materials at service bay capacity of which shall be 35/20T.

6. GENERATOR TRANSFORMER

It is proposed to step up generation voltage of the units to 400 kV by installation of 13.8/400KV single phase 63 MVA single phase transformers. A total of 12 No. 13.8/400 KV single phase transformers with one numbers of spares are proposed.

NEEPCO
New Delhi
North Eastern Electric Power Corporation

7. COMPRESSED AIR SYSTEM

The compressed air system will comprise a common low pressure compressor and receiver for the braking system of the machine and a separate high pressure compressor for the governors. HP & LP air system shall be inter connected with pressure reducers, gate valves etc.

8. OIL PRESSURE SYSTEM

The oil pressure system will provide oil under pressure for operations of the turbine governing system guide vanes and spherical valves. It is proposed to have one air/oil pressure accumulator which will be kept under pressure by the HP air compressor.

9. COOLING WATER SYSTEM

The cooling water requirements for the power house are proposed to be taken from the tail race with the help of pumps

The tentative requirements of cooling water per unit is shown below :-

a)	Generators air coolers	=	12,000 LPM
b)	Generator upper & Lower guide bearing	=	1,800 LPM
c)	Generator thrust bearing	=	3,000 LPM
d)	Turbine guide bearing	=	300 LPM
e)	Turbine shaft	=	960 LPM
f)	Oil pressure unit	=	800 LPM
g)	Transformer oil coolers	=	4,000 LPM
	TOTAL	=	**22,860 LPM**

For this purpose 6 pumps including two spare pumps each of 23,000 LPM capacity supplying water at 4 kg/cm2 is proposed. Four duplex strainers of 28,000 LPM capacity will also be provided one filter shall be stand by.

Connections will be taken from a common header to the four generating units to supply cooling water to generator air coolers generator bearing coolers, turbine bearing coolers, turbine seal and Oil pressure unit oil coolers. The discharge from each generating unit will be lead to the tailrace through independent discharge pipes.

Provision shall be kept for cooling water for cooling of transformers in case of requirements.

The drainage system will receive water from floor drains, seepage water etc. which will be directly led into the tail race.

NEEPCO
New Delhi
North Eastern Electric Power Corporation

10. FIRE PROTECTION SYSTEM

High-pressure water jet system is proposed for fire protection of oil coolers, Oil pressure Units and transformer. Low-pressure water system is proposed for the protection of fire in stores and workshops, cable racks etc Fire and cabinet hydrant are proposed to be provided at various points in the power house that will be easily accessible and give maximum coverage, so that any fire can be quickly extinguished. Besides, fire seal shall be used in the wall/floor openings.

For the protection of the generator transformers located on the transformer deck, automatic fire protection system of emulsification type is proposed for each transformer. This fire protection system shall be initiated by temperature sensing elements placed at suitable locations around and over each transformer. Portable fire extinguishing equipment is also proposed as ready means of dealing effectively and immediately with fire. The equipment shall comprise of deluge valve, alarm projector/nozzles detectors drain valve piping, fittings fire hose cabinet etc. CO2 Fire Protection system is proposed for the generator. Intelligent Smoke and fire detectors of micro processor base shall be installed in control rooms, service rooms for alarm. Besides portable fire extinguisher, dry chemical powder type, carbon di-oxide type, Hallos type, sand/water backset etc. shall be provided. One fire tender shall also be provided.

11. AIR CONDITIONING & VENTILATION SYSTEM

Split type Air conditioning plant is proposed for air conditioning of control room and other areas in the Power House. Exhausters shall be provided in PH roof and opening in the walls for natural air circulation.

12. OUTDOOR SWITCHYARD

400KV one & half breaker scheme is proposed for the outdoor switchyard. It is proposed to construct 400KV double Circuit line to evacuate power upto Balipara grid substation of POWERGRID near Tezpur. Besides, one number 100 MVA 400/132KV auto-transformer is also considered to power at 132KV level of voltage. There shall be 132KV S/C line from Kameng to Balipra via Tenga. The 132KV Balipra-Tenga-Kameng line shall be utilized initially for drawing construction power from the Grid. Terminal equipment at Tenga is be in the scope of this estimate. The 132KV line form Balipara to Kameng via Tenga and the augmentation of Balipara sub-station by a 50 MVA 220/132KV transformer is included in the estimate.

400 KV switchyard shall have four nos. incoming generator bays, two outgoing line bays & one inter-connecting 400/132KV transformer bay.

132KV switchyard is considered with double bus arrange and it shall have one interconnecting bay to 400/132KV auto transformer, Two transformer bays for 10 MVA 132/33KV station transformers and one bus coupler bay and one line bay. Details of the schemes are as per Plates 1,2,3 & 4.

नॉर्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली NEEPCO New Delhi North Eastern Electric Power Corporation

For the transmission scheme para 4 of the letter NO CEA.ID.No.18/6/99-HAD/214 dtd 10.08.1999 (Plate 6) is referred.

The 33KV switchyard is considered with single bus arrangement.

13. PROTECTION

GENERATOR PROTECTION

The generator protection equipment shall be of modular design with software library and with provision to select plant requirements. The electronic units shall be in a standard cubicle. The software tripping matrix shall be equipped with provision for external tripping commands to the Circuit Breakers. The software module shall be compatible to receiving signals from external functions. The protection should also be suitable for direct connection to Circuit Breakers. The protection system should be provided for setting and control with aid of PC with an user interface programme which can be done locally by PC or remotely using suitable coupler. The protection system also have documentation facilities with printers. All the protection function should have pre-determined ranges setting for assignments. The protection module should provide facility to create, edit and check entire gamut of protection with facility to read and parameters with self explanatory text and minimum coding. The protection module should also have safety devices to prevent change in configuration. The control system shall also facilitate to programme all settings off line or on line and down load the same with the help of a PC connected to the system. The protection system shall have built in testing facility.

400/132KV LINE PROTECTION

The following protection is proposed for 400KV/132KV transmission lines:

i) Numerical full scheme distance protection suitable for use with any communication scheme.
ii) Auto-recloser relays of microprocessor based design.
iii) Local Breaker back-up protection.
iv) Over voltage protection.
v) Disturbance recorder.

14. HT & LT POWER SUPPLY FOR AUXILARIES OF GENERATING UNITS

Each generator bus duct is proposed to be tapped at 13.8 KV side and connected to a 13.8KV/0.4 step down transformer for feeding the various auxiliaries of the generating unit. The capacity of the Unit Auxiliary transformer shall be of 1000KVA. The unit auxiliaries system is proposed to feed by two independent sources. One derived from the generating unit and the other from the station busbars, supplying station services as well as providing standby for the Unit Auxiliaries. The rating of the transformer is chosen large enough so as to cater to the needs of running unit and station auxiliaries standby supply Station services are proposed to be fed from two nos. 1 MVA 33/0.4 KV transformer in the switchyard. Besides, colony supply shall be provided from the 33KV sub-station in future.

The 415V switchyard shall be indoor type with IP-52 protection level fully draw out type with Air break Circuit Breaker and aluminium bus bars.

15. 11KV BUS DUCT AND PANELS

Four sets of 13.8 KV 10,000 Amp. Isolated phase bus duct and generator terminal cubicles are proposed in the power station.

The connections on the 13.8KV side of the transformers are proposed to be done by top off from the isolated bus ducts. The 13.8 KV incoming generator terminal cubicle shall include tappings for unit Auxiliary transformer and excitation transformer by suitable bus work.

The equipments shall be complete with all bus work connections as required for 13.8 KV cubicle, 13.8KV VTs, Generator Neutral cubicle. Auxiliary Transformer Cubicle, etc.

16. DEWATERING SYSTEM

Two numbers of vertical shaft, axial flow deep well multistage turbine pumps of submerge type with motors are proposed to pump out the water from the dewatering sump to the tail pool.

17. RAIN WATER DRAINAGE SYSTEM

Rainwater drainage system will receive rainwater from the area surrounding the powerhouse. The rainwater will be collected in sump through various drains/pipes, embedment etc. The discharge from each transformer is proposed to be connected to a common header, which will also open in to drainage sump receiving rainwater. The system shall comprise of 3 nos. of vertical shaft axial flow turbine pumps, pipe control panels etc.

Subject: Feasibility Report for Kameng HEP (4x150 MW) - Arunachal Pradesh (Est. Cost Rs. 244420.0 lakhs + Rs. 41024.0 lakhs IDC) - Comments on Transmission System

The report has been examined and comments on transmission system are as under:-

1. The feasibility report envisages installation of 4 units of 150 MW at Kameng HEP station in Arunachal Pradesh. Power is proposed to be stepped up to 400 KV through 13 nos. 60 MVA, 11/400 KV generator transformers, which is in order.

2. For evacuation of 600 MW of power from Kameng HEP, the following transmission system has been considered as mentioned on page-57 of the report.

i)	Kameng - Balipara	400 KV D/C
ii)	Kameng - Balipara Via Bhalukpung	220 KV D/C

The above transmission system is not in line with the already approved following transmission system, which was approved along with Generation Scheme in April, 1991 for an Estimated Cost of Rs. 1160.60 crores (Generation Rs. 1112.87 crores, Transmission Rs. 47.73 crores including IDC).

i)	Kameng - Balipara	400 KV D/C	60 Kms.
ii)	Kameng - Bhalukpung	220 KV S/C or D/C	40 Kms
iii)	Bhalukpung-Balipara	220 KV S/C or D/C	50 Kms
iv)	Bhalukpung S/S	220/132 KV	2x50 MVA
v)	400 and 220 KV bay extensions at Balipara sub-station		

3. NEEPCO have submitted an updated cost for civil and electrical works based on June, 1999 level at an estimated cost of Rs. 2874.52 crores including IDC. The details of electrical works and the SLD of the switchyard have not been furnished. Project authorities may be advised to furnish these details.

4. The already sanctioned transmission system in April 1991 was reviewed based on subsequent studies and discussions held with POWERGRID, Arunachal Pradesh and MOP. Based on these discussions the following

नॉर्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली
North Eastern Electric Power Corporation New Delhi

transmission system was found to be most suitable and PGCIL were advised to submit the modified transmission scheme report

i) Kameng – Balipara 400 KV D/C
ii) Kameng – Tenga - Balipara 132 KV S/C
iii) Balipara S/S 220/132 KV 1x50 MVA
iv) Tenga S/S 132/33 2x10 MVA
v) 400 KV & 132 KV line bay extension at Balipara sub station

5. It would be required to cover a 400/132 KV, 1x100 MVA main transformer in the generation switchyard of Kameng. Project Authorities may be advised to include the cost of 400/132 KV, 1x100 MVA transformer and associated bays

6. Since all the T&T works are to be executed by PGCIL, but in the MOU it has been stated that NEEPCO would construct a 132 KV S/S at Tenga along with transmission lines from Tenga to Kameng for construction power requirement. This needs to be sorted out between NEEPCO & PGCIL

7. On page 5, it has been stated that for construction power requirements at Bichom, Tenga and Kimi, three nos. Diesel Power House with 4x500 MW sets would be constructed. The capacity unit may be corrected

8. On page 11, it has been stated that the project has been included in the Ninth Five Year Plan, but as per revised generation programme furnished by the Planning Wing of CEA, the project has been included in the Tenth Five Year Plan. This needs to be reconciled

9. Based on the above changes, project authorities may be advised to modify the Project Report

ANNEXURE –D

CONSTRUCTION POWER FOR 4 X 150 MW KAMENG HYDRO ELECTRIC POWER PROJECT.

1.0 POWER AND ENERGY REQUIREMENT

The construction power including colony of NEEPCO and contractors to the tune of 8950KW and energy to the tune of 110.9 MU shall be required for construction of Kameng Hydro Electric Project. The requirement of energy is calculated considering 5 years of actual execution, excluding 2 years of pre-execution period.

2.0 LOAD DEMAND AT VARIOUS SITES

2.1 BICHOM DAM AND DIVERSION TUNNEL

The total construction power requirement for Bichom Dam and Diversion Tunnel site shall be 450 HP or 335.7 KW. A 2x630 KVA, 33/0.415KV transformer with power supply from 33KV Bichom sub station shall meet the load. Considering 50% load factor, the energy requirement will be 2.06 MU.

The total power requirement for Bichom dam construction site shall be about 1550 HP i.e. 1150.3HP i.e. 1360 KVA. The power shall be met by 2x630KVA, 33/0.415KV transformers fed from 33KV Bichom substation and the energy requirement for the dam would be 16.56 MU.

2.2 TENGA DAM SITE

Same as 2.1 above.

2.3 BICHOM-TENGA LINK TUNNEL

A 250KVA transformer shall be required to meet about 150 to 220 KW connected load of welding set, compressors, shaping machine, lathe machine, cold bending machine, illumination etc. and the energy requirement would be about 15.77 MU.

2.4 TENGA-KIM HEAD RACE TUNNEL

The energy requirement for this work will be around 14.39 MU.

2.5 SURGE SHAFT

The power shall be met from 33KV Kimi Sub station and the energy requirement shall be 0.72 MU.

2.6 QUARRY

The total energy requirement for quarry shall be 11.52 MU.

उत्तर पूर्वी विद्युत शक्ति निगम लिमिटेड नई दिल्ली
North Eastern Electric Power Corporation New Delhi

2.7 POWERHOUSE AND SWITCHYARD

The total energy requirement shall be 5.76 MU.

2.8 COLONIES

2.8.1 DEPARTMENTAL COLONIES

In each site at Bichom, Tenga and Kimi, 50 units of accommodation is considered at Khupi, 725 units of accommodation is proposed for executive, supervisors and assistants of NEEPCO and these officers/staffs shall be posted for a period of abut 5 years. The connected load at these locations shall be as under :-

	AREA	CONNECTED LOAD	LOAD FACTOR	ENERGY REQUIREMENT
1.	At Khupi a) Quarter b) Water Supply c) Street Lighting	 725x1.5KW = 1087.5KW 200 KW 10 KW	 50%	13.26 MU
2.	At Bichom a) Quarter b) Water Supply c) Street Lighting	 50x1.5KW = 75KW 50 KW 1 KW	 50%	
3.	At Tenga a) Quarter b) Water Supply c) Street Lighting	 50x1.5KW = 75KW 50 KW 1 KW	 50%	
4.	At Kimi a) Quarter b) Water Supply c) Street Lighting	 50x1.5KW = 75KW 50 KW 1 KW	 50%	

Based on the above, the connected load at Khupi shall be 1297.5 KW which shall be met from 33 KV Tenga Sub-station by 2x630KVA, 33/0.415 Transformer and for other areas shall be met form 33/0.415KV, 250KVA Transformer provided in the DPH which has required capacity to accommodate this load.

2.8.2 CONTRACTOR's COLONY

2000 units of labour dwellings are considered at each of the 3 sites i.e. Dam site at Bichom, dam site at Tenga and Power House site at Kimi. In addition to the above, 40 dwelling units for supervisory and executive staff are considered in each of the 3 sites. The average load in each dwelling unit for labour is considered about 0.1KW, for executives 2 KW, for water supply 100KW and for street lighting 20KW and for 5 years the total requirement shall be approximately 12.24 MU.

NEEPCO
North Eastern Electric Power Corporation
New Delhi

While calculating energy consumption, it is considered that electricity shall not be used for cooking purpose, for which cooking gas shall be arranged.

The total requirement of power & energy and transformer capacity is given in Annexure A-1.

3.0 METERING

All metering shall be at the 33KV sub-stations for individual feeders. In case, power is given to different contractors from a common feeder, the metering shall be done at LT end.

4.0 SOURCE OF CONSTRUCTION POWER

The construction power shall be made available from the existing 400/220KV sub-station at Balipara of PGCIL. For this purpose, one 220/132KV, 50 MVA transformer with associated bays at Balipara and 132KV line from Balipra to Tenga synchronizing with requirement of power for construction activities shall be constructed. The line shall be extended to Kameng later on for evacuation of power. Besides, to meet standby power, 4x625KVA DG set shall be installed in three load centres.

5.0 SUB-STATIONS

One no. 2 x 10 MVA, 132/33KV sub-station shall be constructed at Tenga and 2 nos 33KV sub station shall be constructed at Bichom and Kimi site.

6.0 33KV TRANSMISSION LINE

Power from Tenga to Bichom and Kimi shall be transmitted by 33KV S/C transmission line with ACSR "RACOON" conductor on galvanized steel tubular poles. At each site power will be received at 33KV sub-station from which 33KV line shall be drawn to individual load centre.

7.0 LT LINES

From each 33/0.415KV transformer, power shall be distributed by 4 or 5 wire, 415 V LT lines on galvanized steel tubular poles with all aluminum GNAT conductor.

8.0 STAND BY POWER

4X625KVA Diesel Power House is proposed at Tenga, Bichom and Kimi. The diesel Power House shall be near the 33KV sub-station. In each Diesel Power House, one no.35 Kilo-litre vertical Diesel Tank is considered for storage of fuel. The generation voltage of DG shall be 415 V which shall be stepped up to 33 KV through 630KVA transformer.

9.0 COST ESTIMATE

The cost estimate for construction power is prepared on the basis of July 2003 price of various electrical and mechanical equipment. The detailed cost estimate is given at Annexure-B1.

10.0 COST OF P.O.L

Of the total 110.90 MU of energy, 30% is considered to be available from DPH on account of outage of 132KV transmission line and the balance shall be available from the grid. The cost of POL for the energy to be made available from DPH shall be Rs.1084.23 lakhs (details are given at Annexure C1) in 5 years.

11.0 ENERGY COST

The entire energy shall be made available From Grid and DPH. It is considered that 30% of this energy shall be met from DPH in case of outage of 132KV transmission line. It is considered that actual utilization of construction power is for 5 years. Accordingly, cost of energy from DPH is given below :

a)	P.O.L.	=	Rs. 1084.23 lakhs
b)	O&M charges @ 2.5% per annum on Rs. 6809.80 lakhs	=	Rs. 851.23 lakhs
			Rs. 1935.46 lakhs

For the construction power of Kameng HEP, an agreement has been signed between NEEPCO and POWERGRID on 6th Feb, 2002 for turnkey execution of 132KV S/C Balipara-Khupi-Kimi line, substation at Tenga/Khupi and bay extension at Balipara substation at an estimated cost of Rs. 39.32 crores. This has been accounted for in the cost estimate.

ANNEXURE –C-II

P.O.L. COST FOR DIESEL POWER HOUSE

1.	Total energy requirement in 5 years	110.9 MU
2.	Energy requirement per year	22.18
3.	Standby energy to be generated from DPH (30%) per year	6.654
4.	Fuel requirement per year @ 3.2kwh/ltr	2078 klt/year
5.	Lubricant requirement per year @ 0.62 ltr/hr	9161.74 ltr/year
6.	Coolant requirement @ 0.50 ltr/hr	7388.5 ltr/year
7.	Cost of P.O.L per year (considering cost of diesel @ Rs.10.00/litre, cost of lubricant @ Rs.75.00/ltr and cost of coolant @ Rs.30/ltr	Rs.216.84 lakhs per year =(2078x1000x10)+(9161.74x75) + (7388.5x30)
8.	Cost of P.O.L in 5 years	Rs.1084.23 lakhs

FIFTY RUPEES

AGREEMENT

THIS AGREEMENT made this 6th day of February 2002 between North Eastern Electric Power Corporation Limited (NEEPCO), A Govt. Of India Enterprise, Brookland Compound, Lower New Colony, Shillong-793003 (hereinafter referred to as "Owner" or NEEPCO which expression shall include its administrators, successors, executors and permitted assigns) of the one part and Powergrid Corporation of India Ltd., A Govt of India Enterprise, a company incorporated under the Companies Act, 1956, having its Registered Office at B-9, Qutab Institutional Area, Katwaria Sarai, New Delhi – 110 016 (hereinafter referred to as "POWERGRID" which expression shall include its administrators, successors, executors and permitted assigns) of the other part.

WHEREAS, the Owner, has requested POWERGRID to execute the work of Turnkey Construction of:

132 KV S/C Balipara- Khupi- Kimi Transmission Line
132/33 KV Substation at Khupi
Extension Bay at Balipara

For Construction Power of Kameng HEP of NEEPCO (hereinafter referred to as "Project") and whereas POWERGRID has consented to execute the said work as Deposit Work on Cost Plus basis on behalf of the Owner on terms and conditions stipulated herein

NOW THEREFORE THIS DEED WITNESSETH AS UNDER: For the purpose of this Agreement the terms used herein shall unless repugnant to the context have the meaning assigned to them as under:

1.0 DEFINITIONS

Project shall mean 132 KV KHUPI Sub-station, Balipara Sub-station and 132 KV Balipara-Khupi-Kimi Transmission line.

1.1 i) "Sub-Station" shall mean 132 KV Khupi Sub-Station and / or Balipara Substation.

ii) Transmission Line shall mean 132 KV S/C Balipara- Khupi-Kimi Transmission Line

1.2 "Contractor" shall mean the Bidder whose bid is accepted by the POWERGRID for award of Contract for the total work or any part of the work of the Substation & Transmission Line resulting in a Contract and shall include such contractor's legal representatives, successors and permitted assigns.

1.3 "Sub-Contractor" means any person (other than the Contractor) named in the contract for any part of the works or any person to whom any part of the Contract has been sub-contracted with the consent of POWERGRID and the Sub-Contractor's legal successors in title but not any assignee of the Contractor.

1.4 "Site" shall mean and include the land & other places at which the Transmission Line, Sub-station and related facilities are to be constructed and any adjacent land, path etc., which may be allocated or used by the Owner/POWERGRID/Contractor in performance of work under this Agreement.

1.5 "Engineer" shall mean the officer of NEEPCO appointed in writing to act as co-ordinator for the purposes of this work.

1.6 "Project Manager" shall mean an officer nominated by POWERGRID in writing for Co-ordination of the various activities of POWERGRID such as Engineering, Contracts, Finance, Site Activities etc. for the purposes of this project.

1.7 "Equipment/Material" shall mean the equipment/material procured by POWERGRID for this work.

1.8 "Bid document" shall mean the documents prepared by POWERGRID, which consists of inviting tenders and awarding contract(s).

1.9 "Cost Plus" shall mean actual executed cost of the project plus the overhead charges @ 16% on the actual executed cost of the project.

1.10 Words denoting singular only shall also include plural and vice-versa wherever the context so requires.

2/13

2.0 SCOPE OF SERVICES

2.1 The scopes of services to be rendered by POWERGRID under the Agreement will be as under subject to specific exclusions as brought out in clause2.2 hereinafter

(i) The scope of work shall include Design, Engineering, Procurement, Erec-tion Testing and Commissioning and works incidental thereto for the Construction of:

A **Transmission Line**

a) Balipara- Nichiphu (Loop In- Loop Out)- Khupi 132 KV Single Circuit Transmission Line

b) Khupi- Kimi 132 KV Single Circuit Transmission Line (initially operated at 33KV level)

B **Extension of Substation at Balipara**

a) 2x 50 MVA, 220/132 KV Transformer at Balipara with associated bays
b) 1 No. of 132 KV line Bay for line to Khupi

c) 1 No. of 132 KV Bay for Bus Transfer.

C. **132/33 KV Sub-station at Khupi**

a) 2 Nos. of 132 KV line Bays – 1 No. of line to Balipara & 1 No. of line to Kimi (it would remain idle for time being)

b) 4x 5 MVA, single phase, 132/33 KV Transformer with associated bays

c) 1 No. of 132 KV Bay for Bus Transfer

d) 1 No. of 33 KV line bay at Khupi (for operating Khupi- Kimi portion at 33 KV)

ii) Preparation of all Bid documents including technical specifications and tender drawings.

iii) Invitation of Bids, evaluation of bids, pre-award discussions with the selected vendors and finalization of awards on behalf of Owner.

iv) Placement of orders/finalization of contract and issue of contract, all post contract co-ordination, inspection of materials at the manufacture's work/or at site and witnessing of testing of equipment/materials etc., and implementation of the

3/13

agreed quality assurance programme of the various manufacturers/contractors on behalf of Owner

v) Project Management including expediting to ensure supply of all materials and equipment in line with the agreed contract programme and supervision of all activities such as storage, handling of materials/equipment at site, erection testing and commissioning by the concerned contractors and making of progressive payment to the contractors on behalf of Owner subject to adequate funds being made available to POWERGRID by Owner from time to time.

vi) POWERGRID reserves the right to appoint any contractor for any specific job to ensure timely commissioning of the Sub-Stations and Transmission line in accordance with provision of clause 3.4.2 below.

However, all necessary assistance as may be reasonably requested by POWERGRID in this regard due to any unforeseen circumstances shall be rendered by Owner in the interest of project execution.

vii) Construction of Sub-Station Control Room Bldg., Fire Water Pump House, DG set Bldg. Water and Electricity facilities for construction purpose. The cost of the construction power and water facilities mentioned herein has not been included in the estimated cost as worked out in clause 4.0 of this agreement.

viii) Soil Investigation for the Sub-station site shall be carried out by POWERGRID as per specifications of POWERGRID and Leveling of the switchyard shall also be done by POWERGRID.

ix) Construction of switchyard fencing and gate and switchyard roads shall be done by POWERGRID.

x) Construction of approach roads and boundary wall for the sub-station.

xi) Liaison and follow up with Govt. bodies shall be done by POWERGRID. However all necessary assistance shall be provided by the Owner in the interest of timely project execution.

xii) At the cost of Owner, POWERGRID will take necessary action on behalf of NEEPCO (Owner) in obtaining the right of way, forest, environment and PTCC clearance and any other statutory clearance. Disbursement of crop / tree and forest compensation shall be done by POWERGRID on behalf of Owner. The above cost shall form part of project cost.

Any other works not enumerated above but incidental to the above works.

2.2 EXCLUSION FROM POWERGRID'S SCOPE OF WORK

i) Co-ordination with statutory Authorities including Gazette Notification other than Electrical Inspector under the Electricity laws. However, all assistance in this regard shall be extended by POWERGRID.

ii) Acquisition of land jointly identified by Owner and POWERGRID will be done by NEEPCO and handed over to POWERGRID for construction purposes.

iii) Arrangement of road passes for trucks and trailers if required within the State.

iv) Colony, Buildings, colony infrastructures and main/colony roads, which are excluded from the cost estimate of the Project.

3.0 WORKING PROCEDURE

3.1 POWERGRID shall execute the work as defined in clause 2.1 above to complete the work within the stipulated time frame. To enable POWERGRID to discharge their functions in a smooth and efficient manner, Owner shall issue necessary authorization in favour of POWERGRID to act on their behalf for the scope of services under this Agreement and also provide all other necessary documents required for this purpose including concessional sales-tax declaration forms duly filled in and signed. Owner shall also ensure prompt release of funds to POWERGRID to enable unhindered progress of work. It is clearly understood by the parties that POWERGRID shall not finance any portion of the work from their own funds at any time during the execution of various works.

3.2.1 To ensure proper coordination between POWERGRID and Owner for carrying out the works under the scope of this Agreement, both Owner and POWERGRID shall nominate their respective Project Managers who shall be the focal point for all matters relating to this Agreement.

3.2.2 The recovery of TDS under Sales Tax/ Income Tax related to this work shall be done by POWERGRID on behalf of the Owner. TDS so deducted shall be deposited with the relevant tax authorities and TDS certificate shall be issue d on behalf of the Owner using permanent account number and TDS account number of the Owner. Relevant challans and copies of TDS certificates shall be forwarded to the Owner for filing necessary returns.

3.3 POWERGRID shall issue the payment certificates on behalf of the Owner against this Project.

5/13

3.4 AWARD OF CONTRACT (METHODOLOGY)

3.4.1 For the purpose of execution of work for the scope of services under t Agreement, the entire work of the transmission line including substation sh be broadly based on the quantities indicated in the cost estimate and may divided into contract packages to be executed by various contractors.

3.4.2 These Contracts shall be awarded by POWERGRID on behalf of the Owner aft observing codal formalities in line with the works and procurement policy POWERGRID for timely execution of work.

4.0 PROJECT COST / OVERHEAD CHARGES

4.1 The work will be executed by POWERGRID on behalf of Owner on Cost Plus basi as indicated in the abstract cost estimate enclosed at Annexure -1

4.1.1 The actual cost shall be the cost of all equipment / services as paid to the contractors or any other agency as required under the various contracts to be placed by POWERGRID for executing the works. In case of urgent requirement of any equipment /material, POWERGRID may in consultation with NEEPCO, divert the material/ equipment from its own stores if available at rate of the Equipment received in the store + 2% per annum storage charges + 12.5% Supervision charges.

4.1.2 The cost of the works has been tentatively arrived at Rs. 39.32 crores after including 16 % overhead charges and 5% Service Tax on overhead charges. The list of works covered in the estimates cannot be considered exhaustive and hence the final cost including price variation etc will be as certified by POWERGRID based on the actual works executed.

4.2 OVERHEAD CHARGES

The overhead charges payable to POWERGRID for the deposit work as brought out in clause no 4.0 above shall be Rs. 5.39 crores which is 16% of presently estimated cost of works of Rs. 33.66 crores. While working out the overhead charges, actual executed cost of the works shall be considered which shall include cost towards forest, environment clearances, right of way, crop compensation / tree compensation and PTCC clearance. In case any further addition / change / revision in scope of POWERGRID's work is warranted, additional overhead charges as mutually agreed shall be payable.

If any equipment or machines are to be purchased other than those covered in the estimate shall be purchased only with the consent of the Owner. The cost of such equipment shall be borne by the Owner. These equipments will be maintained by

POWERGRID and handed over to the Owner on completion of the project in working condition.

4.3 TAXES and DUTIES.

The overhead charges indicated above does not include any taxes / duties. Service Tax (present rate of 5%) as applicable on the overhead charges is to be received by POWERGRID from the Owner for this work and shall be paid by NEEPCO to POWERGRID in addition to the overhead charges indicated above.

All present and future taxes / duties and any variation thereof levied by any act / notification of Govt. / Central Govt. arising out of this Agreement or Agreements between POWERGRID and its contractors / suppliers shall be to Owners account. The Owner shall pay the same directly to the concerned authorities or promptly deposit to POWERGRID in case POWERGRID is called upon to pay the same and this will constitute the component of project cost.

5.0 TERMS OF PAYMENT.

5.1 The payment to POWERGRID towards the execution of the Project under the scope of works and substation and transmission line will be made by owner as per the following.

i) 10% payment including corresponding overhead charges and taxes shall be released on acceptance of offer by NEEPCO or signing of Agreement which ever is later.

ii) Balance payment (along with corresponding overhead charges and taxes) envisaged, shall be released to POWERGRID on quarterly basis for payment to the contractor / POWERGRID, as they arise during the execution of the contract. For this POWERGRID will submit quarterly budget estimate and NEEPCO will ensure that the funds are released at least a month in advance before the commencement of the quarter so that the work does not suffer. POWERGRID shall also furnish a quarterly fund utilization status at the end of every quarter. It may be clearly understood that at no stage POWERGRID will utilize its own funds for the execution of this contract nor utilize NEEPCO's funds for the purpose other than this Contract.

iii) Any delay in release of funds by Owner shall automatically extend completion period.

7/13

6.0. TIME SCHEDULE

6.1. The entire work of construction and commissioning of project is to be completed within a period of 42 months from the date of payment of advance or signing of Agreement whichever is later.

If by reason of extra or additional work or any industrial dispute or any cause or causes outside of and beyond the reasonable control of POWERGRID and / or its contractors, the work is delayed or impeded, the delayed period shall be construed as automatic time extension.

6.2. The completion period is indicated in good faith and is subject to fulfillment of obligation on part of NEEPCO.

7.0 FACILITIES / INFORMATION TO BE PROVIDED BY OWNER.

7.1 All necessary information, data and facilities as may be required by POWERGRID in connection with services shall be promptly rendered by Owner under this Agreement.

7.2 The Owner shall give their views on all matters pertaining to this project as may be referred to by POWERGRID from time to time within a reasonable time which would normally not exceed 15 (fifteen) days and shall discharge faithfully all its obligations under this Contract.

8.0 FORCE MAEJURE

8.1 Force majeure is hereby defined as any cause which is beyond the control of POWERGRID or its contractors or Owner as the case may be, which they could not foresee or with a reasonable amount of diligence could not have foreseen and which substantially affects the performance of the work including, but not limited to natural phenomena including but not limited to floods, droughts, earthquakes and epidemics, etc.

a) Acts of any Government, domestic or foreign, including but not limited to war, declared or undeclared, priorities, quarantines, embargoes, etc.

b) Law and order situations leading to stoppage of execution of work, revolutions, riots, civil commotions, illegal strikes, including in the premises of the contractors

8.2.1 During the period of their inability to perform the services as a result of any event of force majeure, POWERGRID shall be entitled to continue to be paid under the terms of this contract. During the force majeure period, any extra expenditure that may have to be incurred by POWERGRID including reactivation of services, the same shall be settled by the Owner in favour of POWERGRID through mutual agreement.

8/13

Provided that the party affected shall within 30 (thirty) days from the occurrence of such causes , notify the other in writing of such causes and latest status of work.

8.2.2. POWERGRID or Owner shall not be liable for any delays in performing its obligation resulting from force majeure causes as referred to and/or defined herein above. The date of completion will be extended by corresponding period equal to the period of force majeure if the situation so warrants and by such period to be mutually agreed to by POWERGRID and Owner. Should one or both parties be prevented from fulfilling their obligations by state of force majeure lasting for a period of two months, the two parties shall consult each other and decide as to further course of action.

9.0 TAKING OVER

9.1 As soon as the works have been completed in accordance with the Agreement (except in minor respects that do not affect their use and or cause any serious risks) Owner shall issue a certificate to POWERGRID site in charge (herein called the taking over certificate) in which they shall certify the dates on which the works have been completed and passed commissioning tests if any.

9.2 The surplus materials and scraps if any after joint inspection of line and reconciliation of materials, will be handed over to the Owner on" as is where is basis" or disposed off as per mutually agreed terms after the works are completed. The wastage will be allowed as stipulated in the POWERGRID specifications. No deduction from POWERGRID's bill shall be made on account of scrap or wastage within the allowable limit. In case of wastage or scrap beyond the permissible limits, the cost is to be borne by POWERGRID.

9.3 Before handing over of the facilities, POWERGRID shall hand over the concerned drawings, test certificates, pre-commissioning tests results of power transformer, breaker, current transformer, Potential transformer etc. and copies of the approval of the statutory authorities to the Owner.

10.0 TERMINATION OF AGREEMENT

10.1 In the event when both the parties mutually agree to terminate the Agreement, on account of force majeure or any other reasons, the termination shall take effect from the date and time to be agreed upon mutually.

10.2. In the event of termination of this Agreement, compensation shall be paid to POWERGRID for all services performed by it up to the date of termination. In addition, POWERGRID shall be paid proportionately for such of those items of work, which has been partially completed and mutually agreed.

नॉर्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली NEEPCO New Delhi North Eastern Electric Power Corporation

9/13

11.0 SETTLEMENT OF DISPUTE AND ARBITRATION.

11.1 Any dispute or difference arising out of this agreement shall be amicably settled between the parties.

11.2 In case of non-settlement of dispute or difference, the matter shall be within 30 (Thirty) days referred to arbitrator as per clause 11.3 herein below as provided in GOI Ministry of Energy DOP Letter no. 11/17/89/LIS(CT) Dtd. 02-08-1989 and its subsequent amendments thereof.

11.3 As per provision of the aforesaid circular dtd. 02-08-1989,

"In the event of any dispute or difference relating to the interpretation and application of the provisions of this agreement is not settled then the disputes or the differences shall be referred by either party to the arbitration of one of the arbitrators in the Department of Public Enterprises to be nominated by the Secretary to the Govt of India in charge of the Bureau of Public Enterprise. The Indian Arbitration Act, 1940 shall not be applicable to the Arbitrator under this clause. The award of arbitrator shall be binding upon the parties to the dispute, provided, however, any party aggrieved by such award may make a further reference for setting aside or revision of the award to the Law Secretary, Department of Legal Affairs, Ministry of Law and Justice, GOI. Upon such reference, the dispute shall be decided by the Law Secretary/ Additional Secretary, when so authorized by the Law Secretary, those decisions shall bind the parties finally and conclusively. The arbitrator shall give reasoned award. The parties to the disputes will share equally the cost of arbitration as intimated by the arbitrator."

However, the Indian arbitration Act, 1940 has been replaced by the Arbitration and Conciliation Act, 1996.

11.4 The venue of arbitration shall be as mutually decided by owner and POWERGRID.

11.5 If any litigation/ arbitration cases crop up due to various contracts orders placed by POWERGRID, in execution of the work, POWERGRID shall resolve the same themselves during pendency of this Agreement, the Owner shall provide necessary assistance if required. Cost of such litigation / arbitration and any liability arising out of the judgement /award thereof, if any, shall be borne by the Owner (NEEPCO) and POWERGRID shall in no way be responsible for the same.

12.0 DELAY IN COMPLETION

POWERGRID's standard provisions of LD/penalty due to delay in completion shall be kept in the contracts with various contractors engaged for this work. Under any eventuality the proceeds received from the contractor on account shall be passed on to Owner (NEEPCO).

10/13

13.0 WARRANTY

Suitable provision shall be incorporated in the suppliers/ Erectors/ Contractors empowering the Owner (NEEPCO) to operate the Bank Guarantees in case of requirement.

14.0 INSPECTION AND TESTING

POWERGRID shall issue suitable instructions to the suppliers to send inspection call endorsement to NEEPCO also and if they want they can also depute their representative to witness the inspection at their own cost.

15.0 SECURITY

Cost towards special security if necessary to be provided for execution of work shall be borne by the Oowner. Assistance if any required by POWERGRID for obtaining security from state shall be provided by the Owner.

16.0 AMENDMENT

This Agreement may be amended or modified if necessary by a written instrument signed by both the parties and the same shall be considered as an integral part of this document.

17.0 EFFECTIVE DATE

This Agreement shall be deemed to have come into force with effect from the date of receipt of deposit money in advance from Owner or signing of Agreement which ever is later. All rights, obligations and responsibilities of Owner and POWERGRID shall be deemed to have commenced and accrue from the above date.

18.0 NOTICE OF DEFAULT

Notice of default given by either party to the other party under this Agreement shall be in writing and shall be deemed to have been duly and properly served upon the parties hereto if it is delivered against acknowledgement or by registered mail with acknowledgment duly addressed to the signatories to this agreement at the address mentioned herein.

19.0 CORRESPONDENCE

19.1 All communications from owner to POWERGRID regarding Engineering, Design and related maters shall be addressed to Project Manager nominated by POWERGRID in writing for the purpose of this work.

Annexure- I

ABSTRACT COST ESTIMATE

BALIPARA- KHUPI- KIMI TRANSMISSION SYSTEM

S.NO	DESCRIPTION	AMOUNT (Rs. In Crores)
A	Preliminary & Civil Works (Annexure 1.1)	0.09
B	Land & Compensation (Annexure-1.1)	1.45
C	Civil Works (Annexure-1.1)	
	i) Infrastructure	0.68
	ii) Buildings	0.36
	iii) Colony	0.00
D	Equipment Cost	
	a) Trans. Lines (Annexure 1.2)	15.39
	b) Substation (Annexure 1.3)	15.69
E	**Total (A to D)**	33.66
F	Consultancy Fee @ 16 % (Against E)	5.39
	Service Tax @ 5% of F	0.27
	GRAND TOTAL	39.32

** Provision of Rs. 1.45 crores has been kept for cost of compensatory afforestation for 189 Ha. which includes payment already made by POWERGRID for afforestation of 136 Ha (to be reimbursed by NEEPCO). However actual payment towards PTCC, Crop and forest compensation will be made by NEEPCO.

13/13.

Annexure-b

Cost Estimate Per Km. for construction of 33 KV, Single Circuit line in Hilly Terrain with ACSR Raccoon

Sl. No.	Particulars	Quantity	Unit	Rate (Rs.)	Amount (Rs.)
1	Preliminary works, investigation, reconalssance survey.etc.	1	Km	2500	5500
2	Land	included in project		cost	
3	Detailed Survey	1	Km	3500	8500
4	11 Mtr. Steel tubular or pole 410-SP 60 conforming to IS 2713 Part-I to Part -III 1980 with base plate including two course of red oxide paint.	19	No.	7000	133000
5	33 Kv,70 KN Disc Insulator with all accessories	72	No.	415	29880
6	33 kv pin insulator with G.I. pin	30	Set	595	17850
7	Tension string fitting to suit ACSR Raccoon Conductor (6 / 4.09 - 1/4.09 mm)	24	Set	135	3240
8	Cross arm for :-				
	a) 33 kv single pole structure	5	Set	450	2250
	b) 33 kv double pole structure	3	Set	2000	6000
	c) 33 kvquadra pole structure	2	Set	4000	8000

	a) 33 kv double pole sructure	3	Set	2000	6000
	b) 33 kv quadra pole structure	2	Set	8000	16000
10	Stay set complete with all accessories	10	Set	920	9200
11	Clamp made of MS flat	38	No.	35	1330
12	Earthing set complete	2	Set	150	300
13	ACSR Raccoon Conductor	3.06	Km	40000	122400
14	Barbed wire	20	Kg.	18	360
15	33 kv Danger Plate	11	No.	15	165
16	Nut, Bolts & washers (Assorted)	60	Kg.	40	2400
17	G.I. Stranded wire 7/8 SWG	60	Kg.	40	2400
18	PG clamp suitable for weasel Conductor	24	No.	600	14400

Sl. No.	Particulars	Quantity	Unit	Rate (Rs.)	Amount (Rs.)
19	Total Cost of materials				389175
20	a) Transportation including head loading @ 13 % of 19				50592.75
	b) Insurance @ 1 % of 19				3891.75
	c) Sales Tax @ 4 %				15567
21	Sub total (19) + (20)				459226.5
22	Erection cost as per Appendix -I				31766.17
23	Total (21 + 22)				490992.67
24	Total cost of line per Km.				490992.67
			Say Rs.	4.85 lacs.	

Annexure-c

Cost Estimate for 630 kva, 33 / 0.415 kv sub-station for construction power

Sl. No.	Particulars	Quantity	Unit	Rate (Rs.)	Amount (Rs.)
1	630 KVA, 33/0.415 kv transformer	1	No.	735000	735000
2	33 Kv DO with gang switch	1	No.	4500	4500
3	33 KV LA	3	No.	5000	15000
4	415 v,400 Amp., Switch fuse unit	1	No.	11000	11000
5	415 v, 3 phase energy meter with CT	1	No.	3000	3000
6	11 Mtr. Tubular Steel Pole	4	No.	7000	28000
7	M.S. Channel 100x50x6x2500mm	8	No.	560	4480
8	M.S. Angle 65x65x6x1000mm	15	No.	185	2775
9	Nuts & Bolts	10	Kg.	60	600
10	Earthing	3	Set	300	900
11	Danger plate	2	No.	15	30
12	Paint	2	Ltr.	100	200
13	Foundation	1	m	6000	6000
14	Sub-Station fencing	10	m	300	3000
15	Total Cost of materials				814485
16	a) Transportation including head loading @ 13 % of 15				105883.05
	b) Insurance @ 1 % of 15				8144.85
	c) Sales Tax @ 4 % of 15				32579.4
17	Sub total (15) + (16)				961092.3
18	Erection cost @ 10% on 17				96109.23
19	Total cost of Sub-Station(17+18)				1057201.53

Say, Rs. 10.60 lacs.

Annexure-d

Cost Estimate for 250 kva, 33 / 0.415 kv sub-station for construction power.

Sl. No.	Particulars	Quantity	Unit	Rate (Rs.)	Amount (Rs.)
1	250 KVA, 33/0.415 kv transformer	1	No.	200000	200000

	v) IB, Hostel, Hospital etc.	Sqm	4500
77	Permanent Buildings		
	a) Residential all type	Sqm	5000
	c) Non Residential		
	i) Store, Godown shed, Admin. Office Building, School, Post Office, Bank; Telephone Exchang,e Hospital, Community Centre, Market, Magazine etc.	Sqm	4500
	ii) Workshop, Fabrication shop, Diesel Power House, Canteen etc.	Sqm	3500
	iii) Guest House, Hostel	Sqm	5000
78	Stone rip rap or pitching	cum	1,074.00

1. EXCAVATION IN HARD SOIL					
(SOFT & DISINTREGRATED ROCK)					
Lead 1(one) KM					
The excavation is proposed to be carried out with the following equipment:-					
1.Hydraulic excavator 2.5 Cum					
2.Rear dumper 32 T					
3. Crawler Dozer 320 HP					
MACHINERY CHARGES					
(i) Hydraulic Excavator					
Capacity =	2.5	Cum			
Ideal production/Hr =	245	Cum			
Taking depth of cutting and angle of					
Swing as = 0.88					
Production of excavation per hour =		215.60	Cum		
Taking efficiency and job management factor as 0.83 & 0.69					
Output/Hr =	123.47412	Cum			
Say	123.00	Cum			
Use rate of excavator/hr =			Rs	1,931.00	
Cost of excavation/cum =			Rs	15.70	
(ii) Rear dumper 18 T					
Actual capacity of dumper = 8.33x 0.67 =					
	5.58	Cum			
Cycle Time					
Average lead = 1 Km					
(a) Loading time = 13.40/123 x 60 =		2.7224878	Min		
(b) Spotting time =		0.3	Min		
(c) Turning & dumping time =		2.00	Min		
(d) Empty haul @ 25 Km/hr =		2.4	Min		
(e) Loaded haul @ 20 Km/hr =		3	Min		
		10.4224878	Min		
No of trips per working hour of 50 min =		4.79731912	Trips		
Output of dumper =		26.7743177	Cum		
Use rate of dumper/hr =			Rs	1,338.00	
Cost of dumper/cum =			Rs	49.97	
(iii) Crawler Dozer 320 HP					
Assume that one 320 HP crawler dozer will work					
Output of dozer = output of excavator =		123	Cum		
Hourly use rate of dozer =			Rs	3,739.00	
Cost of dozer/cum =			Rs	30.40	
Cost of machinery = (i + ii + iii) =			Rs	96.07	
Add for					
(a) Construction & maintenance of haul road @ 5%			Rs	4.80	
(b) Electric energy @ 2%			Rs	1.92	
(c) Levelling & trimming of waste spoil @ 5%			Rs	4.80	

North Eastern Electric Power Corporation New Delhi

				Total	Rs	107.60	
	Add OH & CP @ 20 %				Rs	21.52	
			Gross total		Rs	129.12	
			Say		Rs	129.00	
		Cost of excavation / Cum			Rs	129.00	

2. EXCAVATION IN HARD ROCK IN FOUNDATION

Lead 1(four) KM

The equipment required are :-

1.Drilling - Wagon drill

2. Excavation & loading - 2.5 Cum Hydraulic Excavator

& Crawler Dozer 320 HP

3.Disposal - 18 T Rear Dumper

A. DRILLING & BLASTING

Size of hole In mm	Hole Pattern In mm	Area per Hole (Sqm)	Qnty of Rock per Linear m Of hole (cum)	Kg of Explosive Per linear Metre of Hole		Kg of explosives per cum of rock (% of hole filled)	
					100	75.00	50
38	1.52x1.52	2.3104	2.3104	1.34	0.580	0.43	0.29

Depth of drilling per 100 cum =	43.28254848	M			
Horizontal drilling and pull effect @ 50% =					
	21.64127424	M			
Total	64.92382271	M			
Say	65.00	M			
Rate of drilling with wagon drill = 15m/hr					
Time required for drilling of 65 cum =		4.33	Hr		
Use rate of wagon drill				Rs	985.00
Use rate of drill steel/m				Rs	44.00
(i) Cost of drilling =				Rs	4,268.33
(ii) Cost of drill steel for 65 m				Rs	2,860.00
(iii) Blasting					
a. Explosive :					
Consider 75% depth of hole fill with explosive					
Qnty of explosives reqd for 100 Cum of rock		43.00	Kg		
Cost of explosive per kg				Rs	61.30
Cost of explosive				Rs	2,635.90
b.Detonator :-					
Consider depth of hole =		1.75	M		
Qnty of rock for 1.75 m depth of hole		4.0432	Cum		
No of hole/100 cum of rock		24.7328848	Nos		
	Say	25.00	Nos		
Cost of detonator 5m lead (Elect) =				Rs	16.00
Cost of detonator =				Rs	400.00
c. Add 40% of cost of detonator for					
Primer, copper wire, loading etc.				Rs	160.00
d. Blasting batteries @ 50 % of cost of detonators				Rs.	200.00
Total of (a+b+c+d)=				Rs	3,395.90
Total of (i +ii +iii) =				Rs	10,524.23
Cost/Cum =/				Rs	105.24

B. DISPOSAL OF ROCK

	Rock output = 100 cum, Lead = 1 Km					
	(i) Hydraulic Excavator					
	Capacity =	2.5	Cum			
	Ideal production/Hr =	245	Cum			
	Taking depth of cutting and angle of					
	Swing as = 0.88					
	Production of excavation per hour =		215.60	Cum		
	Taking efficiency and job management factor as 0.83 & 0.69					
	Output/Hr =	123.47412	Cum			
	Say	123.00	Cum			
	Use rate of excavator/hr =			Rs	1,931.00	
	Time reqd for excavtion =		0.81	Hr		
	Cost of excavation/cum =			Rs	15.70	
	(ii) Rear dumper 18 T					
	Actual capacity of dumper = 8.33 x 0.67 =					
		5.58	Cum			
	Cycle Time					
	Average lead = 1 Km					
	(a) Loading time = 60 x 11.26/123 =		2.7224878	Min		
	(b) Spotting time =		0.30	Min		
	(c) Turning & dumping time =		2.00	Min		
	(d) Empty haul @ 25Km/hr =		2.40	Min		
	(e) Loaded haul @ 20 Km/hr =		3.00	Min		
			10.4224878	Min		
	No of trips per working hour of 50 min =		4.79731912	Trips		
	Output of dumper =		26.7743177	Cum		
	Use rate of dumper/hr =			Rs	1,338.00	
	Cost of dumper/cum =			Rs	49.97	
	(iii) Crawler Dozer 320 HP					
	Assume that one 320 HP crawler dozer will work					
	Output of dozer = output of excavator =		123	Cum		
	Hourly use rate of dozer =			Rs	3,739.00	
	Cost of dozer/cum =			Rs	30.40	
	Cost of machinery = (i + ii + iii) =			Rs	96.07	
	Total of (A+B) =			Rs	201.31	
	Add for					
	(a) Construction & maintenance of haul road @ 5%			Rs	10.07	
	(b) Electric energy @ 2%			Rs	4.03	
	(c) Levelling & trimming of waste spoil @ 3%			Rs	6.04	
			Total	Rs	221.44	
	Add OH & CP @ 20 % excluding cost of explosives			Rs	38.22	
		Gross total		Rs	259.66	
		Say		Rs	260.00	
	Cost of excavation / Cum			Rs	260.00

5.	TUNNEL SHUTTERING GANTRY						
Brief Specification :							
Finished Diameter = 7.00 m							
Length = 10 m							
A. MATERIAL							
(i) M.S. Plate 6 mm thick 169.3 sqm =				7.98	MT		
	Add 2.5% wastage =			0.20	MT		
(ii) Weight of structurals such as ISMB, ISMC,ISA etc =				15.18	MT		
			Total	23.36	MT		
(iii) Hydraulic Jack 5 T capacity =				6	Nos		
(iv) Winch (Hand) =				6	Nos		
(v) Other Misc. Items							
	(a) Cost of M.S. Plate @27431.00/MT =				Rs	224,381.74	
	(b) Cost of Structural steel @ 22430.00/MT =				Rs	340,498.21	
	(c) Hyd Jack @ 75,000/no				Rs	450,000.00	
	(d) Winch @ 1,16,000/no =				Rs	696,000.00	
	(e) Misc items , turn buckles etc. L.S. =				Rs	100,000.00	
			Sub total =		Rs	1,810,879.95	
B.FABRICATION CHARGES							
(i) Fabrication including cutting, bending, maching,welding etc.							
@ 40% of cost of steel =					Rs	225,951.98	
(ii) Transportation of steel from store to workshop & workshop							
To site including loading and unloading lead less than 5 Km							
@ 10% cost of steel =					Rs	56,487.99	
			Sub total =		Rs	282,439.97	
C. ERECTION							
Erection charge @ 70% cost of steel =					Rs	395,415.96	
			Sub total =		Rs	395,415.96	
	Total of (A + B + C) =				Rs	2,488,735.89	
Considering salvage value of 28% , net price chargable to work =					Rs	1,791,889.84	
	Hence cost /sqm =				Rs	10,584.11	
Maximum no of times to be used =			125	Nos			
	Hence cost /sqm/use =				Rs	84.67	
D. LOWERING, SHIFTING, CLEANING, OILING AND RESETTING OF GANTRY							
			Cycle time				
(i) Concreting			15.00	Hrs			
(ii) Setting time			13.00	Hrs			
(iii) Lowering & Shifting			10.00	Hrs			
Cleaning & Resetting			10.00	Hrs			
			48.00	Hrs = 6 Shifts			
	Progress/month = 75 x 10/6 =			125.00	m/month		
Labour charges							
I.Regular							
(i) Foreman 1 no @ 9600/month for three shift =					Rs	960.00	
(ii) Rigger 1 no @7000.00 /month for three shift =					Rs	700.00	

					Rs	1,660.00	
II. Casual							
(i) Belder 8 nos @ 3600/MONTH for two shift -=					Rs	1,920.00	
(ii) Khalasi-I 6 nos @3600.00/ month for three shift =					Rs	2,160.00	
Add hidden cost =					Rs	3,572.00	
			Total		Rs	7,152.00	
		Labour charges/sqm =			Rs	42.24	
		Cost of shuttering/sqm =			Rs	126.92	
	Qnty of con in 10 m length of gantry =			83.75	Cum		
		Cost of shuttering/cum =			Rs	256.56	
			Say		Rs	257.00	
		Cost / Cum			Rs	257.00	

6. SHUTTERING IN DAM, SPILLWAYS, POWER HOUSE, SHAFT, TRAINING WALL ETC.

Brief Specification :

Useful life - 8 times

A. MATERIAL

Sl No	Name of structurals	Qnty (Kg)	Rate/Kg	Amount (in Rs)
1	M.S. Plate 3.15 mm thick	57.00	26.27	1,497.61
2	M.S. Plate 2 mm thick	23.00	26.27	604.30
3	M.S. Angles 65 x 65 x 5 mm	47.00	20.17	948.00
4	M.S. Angles 65 x 65 x 6 mm	20.00	20.17	403.40
5	M.S. Channel 100 x 50 mm	112.00	18.99	2,127.32
6	M.S. Channel 150 x 75 mm	42.00	18.99	797.74
7	M.S. Flats 63x 6 mm	22.00	26.80	589.59
8	G.I. Pipe 50 mm dia	3.50	35.39	123.87
9	Nuts & Bolts 10 mm dia & 85 mm long	4.50	25.00	112.50
10	Slotted pins & wedges 10 mm dia & 600 mm long (Nos)	30.00	2.00	60.00
11	Bolts & Nuts 25 mm dia and above (nos)	26.00	20.00	520.00
	Sub total		Rs	7,784.32
	Deduct salvage value @ 28%		Rs	2,179.61
	Total		Rs	5,604.71

Additional Materials :

12	M.S. Rods 16 mm & 25 Ø dia anchorage	240	18.81	4,514.40
13	Linseed Oil @ 8 lts/100 sqm	8	56.25	450.00
	Total		Rs	10,569.11

B. FABRICATION & TRANSPORTATION TO SITE

(i) Fabrication including cutting, bending, maching,welding etc. @ 90% of the subtotal of material Sl no 1- 11 in A above	Rs	7,005.89
(ii) Transportation of steel from store to workshop & workshop Including loading , unloading & rehandling for lead under 5 Kms @ 5% of the subtotal of material Sl no 1- 11 in A above	Rs	389.22
Sub total B =	Rs	7,395.11
Total of (A+B) =	Rs	17,964.22
Cost of shuttering /sqm / use = 17964.22/100 x 8	Rs	22.46

C. LABOUR FOR ERECTION & DISMANTLING

Regular

(i) Foreman 0.75 no @ 9600/month for one day =	Rs	240.00
(ii) Sr. Carpenter 1 no @7200/month for one day =	Rs	240.00
(iii)Carpenters-II 3 nos @7000/month for one day =	Rs	700.00

					Rs	1,180.00	
Casual							
Khalasi-I 8 nos @3600.00/ month for one day =					Rs	960.00	
Belders 10 nos @ 3600/MONTH for one day =					Rs	1,200.00	
Hiden cost =					Rs	2,132.00	
		Total of labour			Rs	4,512.00	
		Labour charges/sqm =			Rs	**45.12**	
		Cost of shuttering/sqm =			Rs	67.58	
		Say			Rs	68.00	
		Cost of shuttering/sqm =			**Rs**	**68.00**	

7.	COARSE AGGREGATE				
A. DRILLING & BLASTING CHARGES					
Rate of drilling and blasting/cum					
	The equipment required are :-				
	1.Drilling - Jack Hammer				
	2. Excavation & loading - 2.5 Cum Hydraulic Excavator				
	& Crawler Dozer 320 HP				
	3.Disposal - 18 T Rear Dumper				
A. DRILLING & BLASTING					
Rock drilling at quarry site is proposed to be carried out by Jack Hammer.					
Depth of drilling per 100 cum of rock					
	=100/(0.59x0.764)	67.64	m		3.28
Add for horizontal drilling a pull					
effect@ 50% of above total drilling'=67.64x1.5		101.4546706			
	say	102	m		
Rate of drilling with Jack Hammer =5.0 m/hr					
Use rate of jack hammer				Rs	437.00
Use rate of drill steel/m				Rs	44.00
(i) Cost of drilling =				Rs	8,914.80
(ii) Cost of drill steel for 102 m				Rs	4,488.00
(iii) Blasting					
a. Explosive :					
Consider 75% depth of hole fill with explosive					
Qnty of explosives reqd for 100 Cum of rock			43.00	Kg	
Cost of explosive per kg				Rs	61.30
Cost of explosive				Rs	2,635.90
b.Detonator :-					
Consider depth of hole =			1.75	M	
Qnty of rock for 1.75 m depth of hole			0	Cum	
No of hole/100 cum of rock			58.2857143	Nos	
		Say	59.00	Nos	
Cost of detonator 5m lead (Elect) =				Rs	16.00
Cost of detonator =				Rs	944.00
c. Add 15% of cost of gelatine for					
blasting battery, Primer, copper wire, loading etc.				Rs	395.39
d. Stemming @ 7 % of cost of gelatine				Rs.	184.51
	Total of (a+b+c+d)=			Rs	4,159.80
	Total of (i + ii + iii)=			Rs	17,562.60
	Cost/Cum =			Rs	175.63
	Total of A=			Rs	175.63
				Rs	175.63
Assume 30% of blasted rock will be for works.					
Rate per cum (borrow measure) =				Rs	122.94
	Losses per cum as below :-				

	(i) Rejection at quarry =			20	%	
	(ii) Transit from quarry to processing plant =			5	%	
	(iii) Process reject =			10	%	
	(iv) Transit from processing plant to site =			3	%	
Rate after losses & rejection per cum =				Rs	169.65	
	Swell factor =	0.67				
Rate per cum =				Rs	113.67	
B. CARRIAGE OF BLASTED ROCK UPTO CRUSHING PLANT						
	Average lead 15 KM					
Machinery Charges :-						
	(i) Crawler Dozer 180HP at site of excavation					
	Output of dozer =		140	Cum		
	use rate of dozer/hr =			Rs	2,906.00	
	Rate/cum =			Rs	20.76	
	(ii) Carriage from quarry to processing and screening plant					
	Rear dumper 18 T					
	Capacity = 6.34	Cum				
	Cycle Time					
	Average lead =15 Km					
	(a) Loading time = 6.34/140 x 60 =		2.72	Min		
	(b) Spotting time =		0.30	Min		
	(c) Turning & dumping time =		2.00	Min		
	(d) Empty haul @ 25 Km/hr =		36.00	Min		
	(e) Loaded haul @ 20 Km/hr =		45.00	Min		
			86.02	Min		
	No of trips per working hour of 50 min =		0.58	Trips		
	Output of dumper =		3.69	Cum		
	Use rate of dumper/hr =			Rs	1,338.00	
	Cost of dumper/cum =			Rs	362.79	
	Total of B=			Rs	383.55	
	Rate /cum (bulk volume)= 0.67 x 310.37			Rs	256.98	
C. CRUSHING AND PROCESSING OF AGGREGATE						
Capacity of crushing Plant =			200	MT		
Production per hr = 200 / 0.67 x 2.8			106.609808	Cum		
Output /hr with 0.69 job management factor			73.56	Cum		
Use rate per hour =				Rs	7,630.50	
Rate/cum =				Rs	103.73	
Rate /cum after adding rejection & transit						
losses = 103.73 x 1.03 x 1.10 =				Rs	117.53	
D. CARRAIGE OF CRUSHED AGGREGATE TO B&M PLANT						
	(i) F.E. Loader (2 cum) at screening plant					
	Output of loader =2x50x 0.83 x0.69/0.43 =			133.19	Cum	

	Use rate of loader/hr =				Rs	1,388.00	
	Cost of loader/cum =				Rs	10.42	
	(ii) Carraige from screening plant to work site						
	Average lead 2 KM						
	Tipper 10T						
	Capacity =	4.00	Cum				
	Cycle Time						
	(a) Loading time = 4.00/133.19 x 60 =			1.80	Min		
	(b) Spotting time =			0.30	Min		
	(c) Turning & dumping time =			2.00	Min		
	(d) Empty haul @ 25 Km/hr =			4.80	Min		
	(e) Loaded haul @ 20 Km/hr =			6.00	Min		
				14.90	Min		
	No of trips per working hour of 50 min =			3.36	Trips		
	Output of tipper =			13.42	Cum		
	Use rate of tipper/hr =				Rs	635.00	
	Cost of tipper/cum =				Rs	47.31	
	(iii) Cost of storage @ 10% of (ii) above				Rs	4.73	
	(iv) Conveyance to B&M Plant @ 10% of (ii)				Rs	4.73	
	Total of D				Rs	67.20	
	Adding 3% for transportation losses, rate/cum =				Rs	69.21	
E. Misc supplies					Rs	10.00	
	Total of (A + B + C +D + E) =				Rs	567.39	
Add for							
(a) Construction & maintenance of haul road @ 5%					Rs	28.37	
(b) Electric energy @ 2%					Rs	11.35	
			Total		Rs	607.10	
	Add forest royality @ Rs 15.00/cum				Rs	15.00	
		Gross total			Rs	622.10	
		Say			Rs	622.00	
		Rate/cum			**Rs**	**622.00**	

8.	SAND (CRUSHED)						
Rate of coarse aggregate /cum =					Rs	567.39	
as per item no 6)							
Add extra charges for secondary crushing , screening, washing							
& wastage during sand processing @ 50% of primary crushing					Rs	58.76	
			Total		Rs	626.15	
Add for							
(a) Construction & maintenance of haul road @ 5%					Rs	31.31	
(b) Electric energy @ 2%					Rs	12.52	
			Total		Rs	669.98	
	Add forest royality @ Rs 15.00/cum				Rs	15.00	
		Gross total			Rs	684.98	
		Say			Rs	685.00	
		Rate/cum			**Rs**	**685.00**	

9.	RIVER SAND				
A.COLLECTION OF SAND					
	(i) Hydraulic Excavator 2.5 Cum				
	Ideal production/Hr =	245	Cum		
	Taking efficiency and job management factor as 0.83 & 0.69				
	Output/Hr =	140.3115	Cum		
	Say	140.00	Cum		
	Use rate of excavator/hr =			Rs	1,931.00
	Cost of excavation/cum =			Rs	13.79

	2 mm thick HR coil is used for fabrication of Air Duct. Length of each		
piece will be 1.77 m. MS Angles 25 x 25 x3 mm is used for end flages . Rubber gasket			
is proposed for joints.			
A. COST OF MATERIALS (for 10 nos of 1.77 m long duct)			
(a) 2 mm thick HR coil 0.81 MT =		Rs	22649.36
(b) MS Angles 0.06 MT @ 20088.00/MT =		Rs	1166.53
		Rs	23815.90
(c) Bolts,nuts rubber gasket, rivets etc @ 2% of cost of steel =		Rs	476.32
	Sub total of A	Rs	**24292.21**
B. FABRICATION			
(a) Labour - It is assumed that 10 nos duct can be fabricated in one working			
shift of 8 hours			
	REGULAR		
	(i) Foreman 1 No @9600/month =	Rs	320.00
	(ii) Blacksmith 1 no @ 3600/month =	Rs	120.00
	(iii) Fitter 1 no @7000/month =	Rs	233.33
		Rs	673.33
	CASUAL		
	(iv)Belders 2 nos	Rs	240.00
		Rs	240.00
	Hidden cost =	Rs	670.67
	Total of labour =	Rs	**1584.00**
(b) Machinery Charges			
	(i) Radial drill Machine 2 hrs @ 117.00/hr =	Rs	372.00
	(ii) Welding machine for 3 hrs @ 115.00/hr =	Rs	582.00
	(iv) T & P etc =	Rs	50.00
	Total of machinery	Rs	**1004.00**
	Sub total of B	Rs	**2588.00**
C. INSTALATION			
(a) Cost of Materials & machinery			
	(i) 28 mm of tor steel = 0.2445 x 19041.00 =	Rs	4655.52
	(ii) Cost of drill steel = 15 x34.00 =	Rs	510.00
	(iii) Cost of Jack hammer for 5 hrs = 5 x 318=	Rs	2185.00
	(iv) Cost of welding set for 2 hrs = 2 x 195 =	Rs	388.00
	(v) Cost of power = 2.50 x 24 =	Rs	88.80
	Total of materials & machinery =	Rs	7827.32

(b) Labour					
	For cutting rod, handling pipe, fixing of support and frection of pipe.				
	REGULAR				
	(i) Rigger 1 No @7000/month =			Rs	233.33
	(ii) Fitter 1 no @ 7000/month =			Rs	233.33
				Rs	466.67
	CASUAL				
	(iii) Helper 1 no			Rs	120.00
	(iv) Belders 5 nos			Rs	600.00
				Rs	720.00
	Hidden cost =			Rs	769.33
	Total of labour =			Rs	**1956.00**
(c) Add local transportation of pipe and steel = L.S.				Rs	**45.00**
(d) Sundries/ Misc item = L.S.				Rs	**45.00**
	Sub total of C			Rs	**9873.32**
	Total of (A+B+C) =			Rs	**36753.54**
	Cost /RM = 36418.05/17.70 =			Rs	2076.47
		Say		Rs	2076.00
		Rate/RM		**Rs**	**2076.00**

37.	ROPE DRUM HOIST FOR 12.6 X 15.0 M RADIAL GATE					
Cost of rope drum hoist for Radial gate 12m x 12 m at						
DHEPas on March 1996					Rs	700000.00
Add escalation for 7.25 years @ 4% per year =					Rs	203000.00
					Rs	903000.00
Present cost of materials of hoist Less 20% OH & CP =					Rs	752500.00
	(i) Proportionate cost of materials for 13.5 x 10 m					
	size of Radil Gate =				Rs	705468.75
	(ii) Manufactureing cost @ 60% of material=				Rs	423281.25
	(iii) Cost of shop & painting @ 10% of material =				Rs	70546.88
	(iv) Transportation @ 6% of material =				Rs	42328.13
	(v) Erection @ 20% of material =				Rs	141093.75
			Total		Rs	1382718.75
Add 5% for materials as OH and 20% for other						
items as OH & CP =					Rs	170723.44
			Gross total =		Rs	1553442.19
			Say,		Rs	1553442.00
			Rate /Set =		**Rs.15.53**	**Lakh**

North Eastern Electric Power Corporation New Delhi

38.	HOIST BRIDGE - FOR 15 M X 12.6 M RADIAL GATE					
	Cost for 1 MT					
	(i) Cost of material =				Rs	22430.71
	(ii) Add 2.50% wastage =				Rs	560.77
					Rs	22991.48
	(iii) Manufactureing cost @ 60% of material=				Rs	13794.89
	(iv) Cost of shop & painting @ 10% of material =				Rs	2299.15
	(v) Transportation @ 6% of material =				Rs	1379.49
	(vi) Erection @ 20% of material =				Rs	4598.30
			Total		Rs	**45063.30**
Add 5% for materials as OH and 20% for other						
items as OH & CP =					Rs	5563.94
			Gross total =		Rs	**50627.24**
			Say,		Rs	50627.00
			Rate /MT =		Rs	**50627.00**

39. STEEL LINING FOR PRESSURE SHAFT						
Consier 2 Nos 3 m long & 7.0 M dia stell lined shaft of 18mm thickness of BQ Plate						
A. COST OF MATERIALS						
	BQ Plate =	(π x 7.00 x 2 x 3) x141.41 =			18649.1508	Kg
	Add wastage @ 2.5% =				466.22877	Kg
					19115.3796	Kg
	Weigth of material =				19.1153796	MT
	(i)Cost of steel =				Rs	656173.21
	(ii)Transportation of steel from porject store to workshop					
	2 KM lead (20T Trailor) for 1 hrs = 1 x 919.00 =				Rs	938.00
	(iii)Unloading at site 18 T Crane for 15 min = 1/4 x 1960				Rs	499.75
		Sub total of A =			Rs	**657610.96**
B LABOUR						
	(i) Straightening @ 1.5% of A =				Rs	9842.60
	(ii) Marking @ 1% of A =				Rs	6561.73
	(iii) Cutting @ 5% of A =				Rs	32808.66
	(iv) Rolling @5% =				Rs	32808.66
	(v) Welding @ 10% 0f A =				Rs	65617.32
	(vi) Handling Materials @1% of A				Rs	6561.73
	(vii) Testing of welding @ 3% of A=				Rs	19685.20
	(viii) Fixture, T&P etc. @ 0.5% of A =				Rs	3280.87
		Sub total of B			Rs	**177166.77**
C. ERECTION						
	(i) Transportation of pipes to workshop , average 2 Km lead,					
	Considering 1 pipe/ Trailor for one hrs = 1 x 919 =				Rs	911.00
	(ii) Unloading by derrick 10T capacity 2 nos pipe in					
	1 Hrs = 1 x 514.00 =				Rs	550.00
	(iii) Transportation by Trolley =				Rs	400.00
	(iv) Assembling , final matching , field welding ,					
	Testing and paucity @ 10 % of A =				Rs	65617.32
		Sub total of C			Rs	**67478.32**
		Total of (A+ B+C)			Rs	**902256.05**
Add 5% for steel as OH and 20% for other						
items as OH & CP =					Rs	82025.23
		Gross total =			Rs	**984281.28**
		Say			Rs	984281.00
		Rate/MT			**Rs**	**51492.00**

40. TUNNEL BORING					
Average lead =	1.00	Km			
Tunnel of diameter =	6.70	M			
Thickness of lining =	0.30	M			
Rib thickness =	0.15	M			
Minimum excavated diameter of tunnel = Finished dia of tunnel + 2(thickness of linning					
		+ Rib thickness) =		7.60	M
Add for pay line = 7.60 + 2 x 0.2 =				8.00	M
Cross sectional area of tunnel =				50.2654825	Sqm
Quantity of excavation per meter length =				50.2654825	Cum
			Say	51.00	Cum
Assumed progress per face (this includes drilling, blasting, mucking, ribbing etc.)=2.5 m					
	Qnty of excavatin per cycle =2.5 x 51 cum =			127.50	Cum
Cycle of operations :					
1. Drilling & shifting of Drill Jumbo =		4.00	Hrs		
2. Charging & Blasting =		1.00	Hrs		
3. Defuming =		1.00	Hrs		
4. Scaling =		0.50	Hrs		
5. Mucking =		5.00	Hrs		
6. Survey & Mapping =		0.50	Hrs		
7. Average time for supporting =		12.00	Hrs		
	Total =	24.00	Hrs		
A. DIRECT LABOUR					
REGULAR					
(i) Foreman 1.5 No for 24.5 hrs @ 9600/month =				Rs	1440
(ii) Explosive Inspector 1No for 1shift @ 7648/month =				Rs	240.00
(iii) Electrician 1.5 no for 24.5 hr @ 7000/month =				Rs	1050
			Total =	Rs	2730.00
CASUAL					
(iv) Helper to Electrician 1.5 no for 24.5 hr @ 3600 per month =				Rs	540.00
(v) Helper to foreman 1No for 24.5 hr @ 3600 per month =				Rs	360.00
(vi) Blaster 1 no for 1 shift @3600 per month				Rs	120.00
(vii) Explosive chargeman 1no for 1 shift @3600 per month =				Rs	120.00
(viii) Belders 15 nos for 24.5 hr @3600 per month =				Rs	5400.00
				Rs	6540.00
Hidden cost =				Rs	5781.00
Total of direct labour				Rs	15051.00
Rate of labour /cum =				Rs	118.05

B. MACHINERY CHARGES					
Equipments	Nos	Working	Use rate		Amount
		hrs/cycle			
1. Hydraulic Drill Jumbo	1	4	4623.00	Rs	18492.00
2. 35 T tipper (6 cum)	4	5	883.00	Rs	17660.00
3. Crawler Loader (1.2 cum)	1	5	1379.00	Rs	6895.00
4. 180HP crawler dozer	1	1	2906.00	Rs	2906.00
Total of machinery charges =				Rs	45953.00
Rate/cum =				Rs	**360.42**
C. MATERIAL CHARGES					
Drilling and Blasting					
It is proposed that to attain 2.5 m progress per cycle , 3.m deep					
holes will be drilled.					
Cross sectional area of tunnel =			50.2655	Sqm	
Assuming average spacing of hole =			0.7	M c/c	
Area of rock cross section per hole =0.7 x 0.7			0.49	Sqm	
No. hole required per face =50.2655/0.49=			103	Nos	
Depth of drilling =103 x3=			309.00	M	
(i) Cost of drill steel = 309 x 91.00=			Rs	28119.00	
Rate of drill /cum =				Rs	220.54
(ii) Explosives					
Genletatine required is 1kg/cum @61.00/Kg =				Rs	61.00
(iii) Detonators & fuse coil					
Cost of detonators of 103 nos @ 16.00/each =			Rs	1648.00	
Cost /cum =				Rs	12.93
(iv) Other consumable petty stores such as blasting batteries, galvanometers					
and blasting wires etc @ 50% of explosive =				Rs	30.50
Total of drilling and blasting =				Rs	324.97
Add for supports packing etc. @ 5% of above =				Rs	16.25
Add for miscellaneous supplies @ 5% of above =				Rs	16.25
Rate /cum =				Rs	**357.46**
D. CHARGES FOR VENTILATION BLOWERS :					
Double line exhaust ventilation system is proposed . Maximum length of					
Working face is 2187 m; cost of ventilation is analysed in 4 stages 0-600, 600-1200,					
1200-1800 & 1800-2500 chainages, since cost increases due to addition of Boosters at evry 600m.					
Equipments:					
1. 900 mm sweep two stage Axial fan with 50 HP/4 pole elec. Motor (AC) 1 nos					
2. -do- as boosters at every 600 m					
3. 900 mm dia metalic ducting					
4. Cables , starter switches , RS Joists and angles for installation					

(i) CH 0.00 - 600.00 m						
	(a) Cost of Blower at intake /hr = 1 x 295.00 =				Rs	327.00
	(b) Cost of ducting					
	Length of duct = 1 x 600 = 600 m					
	Cost of duct @ 2076.00=		Rs	1245600.00		
	Deduct 20% resale value		Rs	249120.00		
	Net chargeable to work		Rs	996480.00		
Time required for boring of 600 m length @ 60 m/ month = 600/60 =10 months						
No. of working hours = 10x75x8 =			6000	Hrs		
		Say	6000	Hrs		
	Cost of duct/hr =				Rs	166.08
	(c) Cost of Platform, misc items LS/Hr =				Rs	40.00
	Sub total of (i) =				Rs	**533.08**
(ii) CH 600.00 - 1200.00 m						
(a) Cost of 1 no Blower & 1 no booster /hr =1x 2 x 198.00 =					Rs	456.00
(b) Cost of ducting						
Length of duct = 1 x 1200= 1200 m						
Cost of duct @ 2076.00=			Rs	2491200.00		
Deduct 20% resale value			Rs	498240.00		
Net chargeable to work			Rs	1992960.00		
Time required for boring of 1200 m length @ 60 m/ month = 1200/60 =20 months						
No. of working hours = 20 x 75 x 8				12000	Hrs	
		Say		12000	Hrs	
	Cost of duct/hr =				Rs	166.08
	(c) Cost of Platform, misc items LS/Hr =				Rs	100.00
	Sub total of (ii) =				Rs	**722.08**
(iii) CH 1200.00 - 1800.00 m						
(a) Cost of 1 no Blower & 2 no booster /hr = 3 x 198 =					Rs	684.00
(b) Cost of ducting						
Length of duct = 1 x1800 = 1800 m						
Cost of duct @ 1762.00=			Rs	3736800.00		
Deduct 20% resale value			Rs	747360.00		
Net chargeable to work			Rs	2989440.00		
Time required for boring of 1800 m length @60 m/ month = 1800/60 =30 months						
No. of working hours = 30 x 75 x 8				18000	Hrs	
		Say		18000	Hrs	
	Cost of duct/hr =				Rs	166.08
	(c) Cost of Platform, misc items LS/Hr =				Rs	150.00
	Sub total of (iii) =				Rs	**1000.08**

(iv) CH 1800.00 - 2500.00 m						
(a) Cost of 1 no Blower & 3 no booster /hr = 4 x 198 =					Rs	912.00
(b) Cost of ducting						
Length of duct = 2187 m						
Cost of duct @ 1762.00=			Rs	4540212.00		
Deduct 20% resale value			Rs	908042.40		
Net chargeable to work			Rs	3632169.60		
Time required for boring of 2187 m length @60 m/ month = 2187/60 =36 months						
No. of working hours = 36 x 75 x 8				21600	Hrs	
		Say		21600	Hrs	
	Cost of duct/hr =				Rs	168.16
	(c) Cost of Platform, misc items LS/Hr =				Rs	150.00
	Sub total of (iv) =				Rs	**1230.16**
	Average cost /hr				Rs	**871.35**
			Say,		Rs	871.00
Use rate of Blower/Hr =					Rs	871.00
No of working hours of Blower per cycle=				24.00	Hr.	
Total charges of Blower per cycle= 24.0 x 800					Rs	20904.00
	Rate/cum =				Rs	**163.95**
F. SHOP CHARGES						
i) Machine shop including foundry and smithy (L.S.)					Rs	20.00
(ii) Structural shop L.S.					Rs	20.00
(iii) Steel metal shop					Rs	20.00
iv) Air and water pipe shop					Rs	20.00
v) Carpentry shop					Rs	20.00
Total shop charges per cum =					Rs	**100.00**
G. Electric material charges per cum (L.S.)					Rs	**10.00**
H. Track charges per cum (L.S.)					Rs	**50.00**
I. Water charges per cum =					Rs	**10.00**
	Total of (A+B+C+D+E+F+G+H+I) =				Rs	**1169.88**
Add for Electric Energy charges @ 2% =					Rs	23.40
		Total =			Rs	**1193.28**
Add 5% OH on Explosive and 20% for others as OH & CP					Rs	227.57
		Gross total =			Rs	**1420.84**
		Say,			Rs	1421.00
		Cost/cum =			Rs	**1421.00**

41. EXCAVATION OF PILOT SHAFT FOR SURGE SHAFT/INTAKE SHAFT /POWER HOUSE SHAFT

It is proposed to excavate a pilot shaft of 6.0m dia in first stage and then to widen the shaft to requird dia.

In the first stage, e xcavated r ock will be disposed by a 10T Derrick , while in the second stage, the muck will be thrown down the pilot shaft and disposed by means of Tippers and Loaders through the adit.

A. EXCAVATION OF PILOT SHAFT

(i) Dia = 13.00 m

(ii) Depth = 65.00 m

(iii) Excavated area = 156.14 sqm

The excavation is to be done by conventional method - drilling by Jack Hammer, muck loading manually and disposal by means of 10T Derrick operated electrically . Bucket of size will be 2.2 sqm.

Consider average lift for the analysis.

DRILLING

Consider 1 m pull =		1.3	M (effective drilling)	
Spacing of drill hole = 0.7 x .07 =		0.49	Sqm	
Holes no = 156.14/0.49 =		318.653	Nos	
	Say	319	Nos	
Total length of drilling with 2 nos 500 cfm (elec) air compresor =				
319 x1.3 =		414.70	M	
12 nos of Jack Hammer can work = 414.70/(5x12)=			6.91	Hrs
(i) Cost of 12 nosof Jack Hammer @ 316.00/hr=				Rs 36244.78
(ii) cost of drill steel @ 34.00/m =				Rs 18246.80
				Rs **54491.58**

BLASTING

Considering 50% hole depth is filled with spl Gelatine 80% of Power Gel 801.			
Quntity of explosives = 319 x3 x 0.2 =	191.4	Kg	
(i) Cost of Explosives = 191.40x 61.30 =		Rs	11675.40
(ii) Cost of detonators 3m lead =319 x 11.00 =		Rs	3509.00
(iii) Add 50% of cost of detonators for consumables such as blasting batteries, copper wire , expolsive steaming materials etc.		Rs	1754.50
		Rs	16938.90
Sub total of A =		Rs	71430.48

B. MUCKING

Mucking is proposed with one 10T Derrick , 3 nos Bucket capacity 2.2 cum .		
Total volume of rock including 10% over break =	171.754	Cum/m depth pull
Swell factor =	0.67	
Quntity /bucket =2.2 x0.67 =	1.474	Cum

Loading is done manually,						
Assuming 5 buckets/ hour						
Quntity/hour = 5 x1.47 =				7.37	Cum	
Total time of mucking = 171.754/7.35 =				23.30447761	Hrs	
Cost of mucking						
(ii) Derrick @ 489.00/hr =					Rs	12817.46
(iii) Cost of scaling by pavement breaker 1 Hr @ 306/hr =					Rs	350.00
(iv) Dozer 180 HP for 0.5 hrs @ 2432/hr =					Rs	1453.00
	Sub total of B =				Rs	14620.46

C.DIRECT LABOUR						
Cycle time						
	Drilling		3.00	Hrs		
	Loading & Blasting		1.00	Hrs		
	Defuming		0.50	Hrs		
	Scaling		1.00	Hrs		
	Mucking		6.00	Hrs		
	Rockbolting		5.00	Hrs		
	Shortcret/lagging		2.00	Hrs		
		Total =	18.50	Hrs		
			2.3125	Shifts		
	Progress/month = 75 /2.31 =			32.43243243	M	
			Say,	33	M	
LABOUR						
REGULAR						
(i) Foreman 1 No for 2.31 shift @ 9600/month =					Rs	740.00
(ii) Explosive Inspector 1No for 1shift @ 7200/month =					Rs	240.00
(iii) Electrician 1 no for 2.31 shift @ 7000/month =					Rs	539.58
					Rs	1519.58
CASUAL						
(iv) Helper to Electrician 1no for 2.31 shift @ 3600 PER MONTH =					Rs	277.50
(v) Helper to foreman 1No for 2.31 shift @ 3600 PER MONTH =					Rs	277.50
(vi) Blaster 1 no for 1 shift @ 3600 PER MONTH =					Rs	120.00
(vii) Explosive chargeman 1no for 1 shift @ 3600 PER MONTH =					Rs	120.00
(viii) Belders 4 nos for 2.31 shift @3600 PER MONTH =					Rs	1110.00
(ix) Mucker & hole cleaner 14 nos for 1shift @ 3600 PER MONTH =					Rs	1440.00
					Rs	3345.00
Hidden cost =					Rs	3055.42
Total of direct labour					Rs	7920.00

D. VENTILATION						
(i) Cost of 1 no 50 HP blower/hr=					Rs	128.00
(ii) Cost of ducting						
Cost of 125 m long 900 mm metallic duct @ 2076/m =					Rs	259500.00
Deduct 20% resale value =					Rs	51900.00
Net chargeable to work =					Rs	207600.00
Time required for completion for excavation = 65x75x8/33 =						
				1181.818182	Hrs	
			Say,	1181.818182	Hrs	
Cost/hr =					Rs	175.66
	Total of (i+ii) =				Rs	303.66
	Total cost of ventilation for 18.50 hrs =				Rs	**5617.74**
	Total of (A+B+C+D) =				Rs	**99588.68**
Add for						
	Pipe lines for air & water L.S. =				Rs	500.00
	Misc. Items for safety measures L.S. =				Rs	500.00
	Workshop charges L.S.=				Rs	1500.00
	Electric energy L.S. =				Rs	500.00
					Rs	**102588.68**
ADD 5% for explosives as OH and 20% for other						
items as OH & CP =					Rs	18240.08
		Total =			Rs	**120828.76**
		Cost /Cum=			Rs	703.50
		Say			Rs	704.00
		Rate/Cum =			**Rs**	**704.00**

42.	**BORING OF INCLINED PRESSURE SHAFT BY RAISE CLIMBER**					
The finished dia of inclined shaft is 7.0 m dia and the excavated dia 8.6 m . The inclination						
to the horizontal is 45° . As such it is proposed to excavate the inclined shaft						
with Raise Climber from the bottom by drilling , blasting and self mucking upto horizontal						
Portion.						
Following equipment are proposed :-						
1.Raise Climber			1No			
2.Jack hammer			5 Nos			
3. Scaling Hammer/ Pavement Breaker			3No			
4. Crawler Loader (side dump)			1No			
5. IST-Tipper			3 Nos			
6. Dozer 180 HP			1No			
A. COST OF DRILLING						
Consider 2m pull /cycle						
Depth of drill hole = 2.3 m						
Area of shaft =			20.32	Sqm		
Quantity /pull =			40.64	Cum		
Add 10% overbreak =			4.064	Cum		
			44.704	Cum		
Spacing of drill hole =			0.7	M		
No of drill holes = 20.32./0.7 x0.7 =			41.4694	Nos		
Say =			42	Nos		
Total length of drilling =			96.6	M		
Time required for :-						
Drilling @2.3 m/hr/Jack Hammer =96.6/2.3 x5 =				8.4	Hr.	
(using 5 nos of Jack Hammer)						
(i) Cost of Jack Hammer = 5 x 8.4 x 318=					Rs	18354.00
(ii) Cost of drill steel =96.6 x34.00 =					Rs	4250.40
(iii) Cost of Raise Climber for 6 hrs @ 2479/hr =					Rs	23100.00
	Sub total of A =				Rs	**45704.40**
B. BLASTING						
Considering requirement of explosive as 0.8 Kg/cum						
Quantity required=				35.7632	Kg	
(i) Cost of Explosives = 76.68 x 61.30 =					Rs	2181.56
(ii) Cost of detonators 5m lead =42 x 16=					Rs	672.00
(iii) Add 50% of cost of detonators for consumables such as					Rs	336.00
blasting batteries, copper wire , expolsive steaming materials etc.						
	Sub total of B =				Rs	3189.56

नॉर्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली NEEPCO New Delhi North Eastern Electric Power Corporation

C. MUCKING					
Volume of muck = 44.70 cum					
(a) Loading					
Capacity of 1.5 cum Crawler Loader = 60 cum /hr					
Time of loading = 44.70/60		0.74507	Hrs		
(b) Transportation by 10 T Tipper (6 Cum)					
Body Volume =	6	Cum			
Swell factor =	0.67				
Capacity of Tipper = 0.67 x 6 =		4.02	Cum		
Cycle time					
Loading time = 4.02 x60/60 =		4.02	Min		
Spotting time =		0.50	Min		
Loaded haul @ 15 KMPH		4.00	Min		
Empty haul @ 20 KMPH		3.00	Min		
5 Turning & 7 dumping =		2.00	Min		
Total =		13.52	Min		
No of trips / hr = 50 /13.52 =		3.7	Nos		
Quntity transported per hour with one tripper = 3.7 x 4.02 =				14.87	Cum
No. of trippers required for mucking = 44.70/14.87=					
			3.01	Nos	
		Say,	3.00	Nos	
Keeping 50% extra =			4.5	Nos	
Cost of mucking					
(i) Loader @ 1046 /hr for.75 hr =				Rs	1034.15
(ii) IST tripper 3 nos @ 615/hr for =				Rs	1905.00
(iii) 180 HP dozer for 1/2 hr @ 2432/hr =				Rs	1453.00
Sub total of C =				Rs	4392.15
D . DIRECT LABOUR					
Cycle time					
1. Preparation time required for					
fixing /extnsion of rail, marking					
profile and drilling pattern etc.			4.00	Hrs	
2.Drilling time			9.00	Hrs	
3. Loading & Blasting			3.00	Hrs	
4. Defuming =			1.00	Hrs	
5. Scaling =			1.00	Hrs	
6. Mucking (self mucking i/c clearing of obstruction) =			0.75	Hrs	
7. Support and backfill			2.50	Hrs	
Total =			21.25	Hrs	
		Say	2.66	Shift	
Expected progress /month = 75X2 / 2.66 =			56.47	M	

LABOUR					
REGULAR					
(i) Foreman 1 No for 2.66 shift @ 9600/month =				Rs	850
(ii) Explosive Inspector 1No for 1shift @ 7200/month =				Rs	240
(iii) Electrician 1 no for 4.5shift @ 7000/month =				Rs	619.79
				Rs	1709.79
CASUAL					
(iv) Helper to Electrician 1no for 4.5 shift @ 3600 PER MONTH =				Rs	318.75
(v) Helper to foreman 1No for 4.5 shift @ 3600 PER MONTH =				Rs	318.75
(vi) Blaster 1 no for 1 shift @3600 PER MONTH =				Rs	120.00
(vii) Explosive chargeman 2 no for 1 shift @3600 PER MONTH =				Rs	240.00
(viii) Belders 4 nos for 4.5 shift for hole cleaning & marking				Rs	1275.00
Drilling pattern ,scaling etc @3600 PER MONTH =					
				Rs	2272.50
Hidden cost =				Rs	2617.71
Total of direct labour				Rs	6600.00
E. MISC. EQUIPMENTS :					
Scaling Hammer 1 no for 1 hr @ 249/hr=				Rs	249.00
	Sub total of E =			Rs	249.00
F. VENTILATION					
Cost of ventilation for 19 hrs. = 19 x 381.57				Rs	7249.83
	Total of (A+B+C+D+E+F) =			Rs	67384.94
Add for					
	Pipe lines for air & water L.S.=			Rs	750.00
	Misc. Items for safety measures L.S.=			Rs	500.00
	Workshop charges L.S.=			Rs	2000.00
	Electric energy L.S.=			Rs	500.00
	Construction & maintenance of haul road @ 5% =			Rs	3369.25
				Rs	74504.18
ADD 5% for explosives as OH and 20% for other					
items as OH & CP =				Rs	14472.80
		Total =		Rs	88976.99
		Rate/Cum		Rs	1990.36
		Say		Rs	1991.00
		Rate/Cum =		**Rs**	1991.00

44.	0.63 MM CGI SHEET ROOFING FOR POWER HOUSE.					
A. Material for 100 sqm.						
Sl. No.	Item		Qtty	Unit	Rate	Amount in Rs.
1	0.63 mm CGI sheet		820	Kg	32.24	26436.80
	128 sqm @6.41 Kg/sqm					
2	J-hook bolt & nuts		250	Each	5.00	1250.00
	8 mm dia					
3	Bitumen & limpet washer		550	Each	1.00	550.00
4	Beam bolts & nuts		300	Each	2.00	600.00
	25 x 6 mm					
			Total =		Rs.	28836.80
B. LABOUR						
a) Regular						
i) Blacksmith 10 Nos @ Rs. 75.00/day =					Rs.	750.00
ii) Foreman 1 No @ Rs 9600/month =					Rs.	320.00
					Rs.	1070.00
b) Casual						
(iii) Mazdoor 8 Nos @ Rs 50.00/day =					Rs.	400.00
Add for hidden cost =					Rs.	1076.00
		Total =			Rs.	2546.00
C. SUNDRIES LIKE T&P, ROPE, SCAFFOLDING ETC.						
	LS =				Rs.	100.00
		Total of (A+ B+C) =			Rs.	31482.80
Add 5% for CGI Sheet as OH and 20% for other						
items as OH & CP =					Rs.	2331.04
		Gross total =			Rs.	33813.84
	Cost / Sqm = 33380.98/100 =				Rs.	338.14
		Say,			Rs.	339.00
	Cost / sqm =				Rs.	339.00

45.	**STONE MASONRY (with 1 : 4 cement and sand mortar)**					
	Brief specification : Hand packed.					
A. MATERIAL						
ii Stone/cum (as per item for stone Riprap) =					Rs.	250.33
iii 0.54 cum river sand including storage, handling and						
Carrying to site @ Rs 353/cum =					Rs.	170.64
(iii) 3 bags of cement @ Rs 233.33/bag =					Rs.	708.00
		Total =			Rs.	**1128.97**
B. LABOUR (per 100 cft)						
a) Regular						
i) Mason 3 Nos @ Rs. 7000/month =					Rs.	700.00
					Rs.	700.00
b) Casual						
iii) Belder 3.5 Nos @ Rs 50.00/day =					Rs.	175.00
iv) Bhisti 0.5 No @ Rs 50.00/day =					Rs.	25.00
					Rs.	200.00
Add for hidden cost =					Rs.	670.00
		Total =			Rs.	1570.00
Labour per cum = 1472.68 x 35.28/100 =					Rs.	**553.90**
		Total of (A+ B) =			Rs.	**1682.87**
Add 5% for cement as OH and 20% for other						
items as OH & CP =					Rs.	230.37
Add Forest royality stone/cum=						15.00
		Gross total =			Rs.	**1928.24**
		Say,			Rs.	1929.00
	Rate/cum =				**Rs.**	**1929.00**

46.	EMERGENCY GATE, SERVICE GATE ETC.					
A. COST OF MATERIALS (for 1 MT)						
(a) Cost of M.S. Plate , Structurals steel (average cost) =					Rs	22430.71
(b) Add 2.5% as wastage =					Rs	560.77
					Rs	22991.48
(c) Pig iron 0.60 MT @ 10000.00 =					Rs	6000.00
(d) Acetylene 1.8 cum @ 218.00 =					Rs	392.40
(e) Oxygen 13.50 cum @ 40.00 =					Rs	540.00
(f) Electrodes 4mm, 450 no @ 18.89/each =					Rs	8500.50
(g) Gun metal 13.50 Kg @ 12.00/Kg =					Rs	162.00
(h) Rubber metal 4.0 m @ 2.50/m =					Rs	10.00
(f) Misc items eg. Screws, bolt etc @ 35% of cost of MS =					Rs	8047.02
	Sub total of A				Rs	46643.40
B. LABOUR CHARGES						
(a) Fabrication @ 60% of cost of MS =					Rs	13794.89
(b) Machining i/c turning, drilling etc @ 100% of cost of MS =					Rs	22991.48
(c) Casting @ 20% of cost of MS =					Rs	4598.30
(d) Forging charges @ 15% of cost of MS =					Rs	3448.72
(e) Temporary jig and fixtures @ 10% of cost of MS =					Rs	2299.15
	Sub total of B				Rs	47132.53
C. ERECTION & TRANSPORTATION CHARGES						
(a) Transportation & positioning @ 10% of cost MS =					Rs	2299.15
(b) Erection of embedded parts & trashrack @ 50% Cost of MS					Rs	11495.74
		Total =			Rs	13794.89
	Total of (A+B+C) =				Rs	107570.82
Add 5% for steel as OH and 20% for other						
Items as OH & CP =					Rs	18065.44
	Gross total =				Rs	125636.26
	Say				Rs	125636.00
	RATE/MT				Rs	125636.00

43.	ENLARGEMENT OF SURGE SHAFT					
For enlargement of 6.0 m dia shaft, it is proposed to carry out the enlargement work						
In stages considering an increment of 3.0 m radial strip in each stage.						
	Depth of excavation =				2	M
	(by Jack Hammer)					
	Area of excavation in each cycle					
	(considering the 1st strip from pilot shaft) =				84.78	sq.m.
	Volume of excavation = 84.78x2.0 =				169.56	Cum
Cycle of operation :						
	1. Drilling =			7	Hrs	
	2. Charging and blasting =			3	Hrs	
	3. Defuming / scaling =			1	Hrs	
	4. Removal of residual muck =			2	Hrs	
		Total =		13	Hrs	
				1.625	Shift	
As mucking will not affect the regular drilling ,						
The cycle period for excavation is 13 hours.						
MUCKING						
Upto the tunnel invert, self mucking through the pilt shaft is proposed.						
Mucking from the intersection point of pilot shaft and tunnel will be carried						
Out with the help of Tipper and Loader as proposed in tunnel mucking.						
	Quantity of excavation =			169.56	Cum	
Taking 18 T Tipper, Capacity =				8.04	Cum	
Cycle time (as item no. 18 of coarse aggregate) ,						
Output of Tipper per hour =				23.99	Cum	
Considering 4 trips, output /hr = 23.99x4 =				95.96	Cum	
	Hence mucking period =			1.767	Hrs	
		Say,		1.767	Hrs	
	Taking residual removal =			1.000	Hrs	
	Total mucking time =			2.77	Hrs	
A. DIRECT LABOUR						
REGULAR						
(i) Foreman 1.5 No for 1.63 shift @ 9600/month =					Rs	782.4
(ii) Explosive Inspector 1No for 1shift @ 7200/month =					Rs	240
(iii) Electrician 1.5 no for 1.63 shift @ 7000/month =					Rs	570.5
					Rs	1592.9
CASUAL						
(iv) Helper to Electrician 1.5 no for 1.63 shift @ 50.00 /day =					Rs	122.25
(v) Helper to foreman 1No for 1.63 shift @ 50.00 /day =					Rs	81.50
(vi) Blaster 1 no for 1 shift @ 50.00 /day					Rs	50.00
(vii) Explosive chargeman 1no for 1 shift @ 50.00 /day =					Rs	50.00
(viii) Belders 15 nos for 1.63 shift @50.00 /day =					Rs	1222.50
						1526.25

Hidden cost =				Rs	2113.76
Total of direct labour				Rs	**5232.91**
B. MACHINERY CHARGES					
Equipments	Nos	Working	Use rate		Amount
		hrs/cycle			
2.18 T tripper (8.04cum)	4	3	883.00	Rs	10596.00
3.FE Loader (3.5 cum)	1	3	1379.00	Rs	4137.00
4. 320HP crawler dozer	1	1	3739.00	Rs	3739.00
Total of machinery charges =				Rs	**18472.00**

C. DRILLING AND BLASTING					
	Dia of hole =			38	Mm
	Spacing of drill hole = 0.7x0.7 =			0.49	Sqm
	No of hole reqd = 84.78/0.49 =			173.020408	
		Say,		174	Nos
	Total length of drilling = 2x174 =			348	M
Considering the increase and openers of the working area, output of					
Jack hammer is taken as 5 m/hr.					
Taking simultaneous operation of 10 nos of Jack hammer,					
Time reqd for drilling = 348/10x5 =				6.96	Hrs
		Say,		7	Hrs
(i) Cost of Jack hammer = 345.00x7x10 =				Rs	30590.00
(ii) Cost of Drill steel = 348x34.00 =				Rs	15312.00
		Total =		Rs	45902.00
(iii) Explosive					
Considering explosive requirement as 1 Kg/Cum.					
Total explosive required = 169.56x1 =				169.56	Kg
a) Cost of explosive = 169.56x61.30 =				Rs	10343.16
b) Cost of detonator 3 m lead = 174x11.00 =				Rs	1914.00
c) add 50% of cost of detonator as consumeable =				Rs	957.00
		Total =		Rs	13214.16
		Total of C =		Rs	**59116.16**
D. Shop Charges					
	i) Machine shop including foundry and smithy			Rs	1500.00
	ii) Structural shop			Rs	1000.00
	Iii) Steel metal shop			Rs	1200.00
	iv) Air and water pipe shop			Rs	500.00
	v) Carpentry shop			Rs	500.00
TOTAL SHOP CHARGES				Rs	4700.00
E. Electric material charges per cum L.S.				Rs	2000.00
F. Track charges per cum=				Rs	8000.00

G. Water charges per cum =					Rs	2000.00
	Total of (A+B+C+D+E+F+G) =				Rs	**99521.07**
Add for Electric Energy charges @ 2% =					Rs	1990.42
		Total =			Rs	101511.49
Add 5% OH on Explosive and 20% for others as OH & CP					Rs	18463.72
		Gross total =			Rs	**119975.21**
		Say,			Rs	119976.00
		Cost/cum =			**Rs**	**707.57**
		Say,			**Rs**	**708.00**

47.	ROPE DRUM HOIST FOR BULKHEAD GATE, INTAKE GATE ETC.					
	(Based on work order of Ranganadi HE Project dtd. November'98)					
A. HOIST						
	i) Cost of 1.025 MT of material =				Rs	22430.71
	(ii) Fabrication i/c shop charges =				Rs	13458.43
	iii) Transportation =				Rs	2297.64
		Total =			Rs	38186.78
B. HOIST SUPPORTING STRUCTURES						
	i) Cost of material =				Rs	5744.10
	(ii) Fabrication i/c shop charges =				Rs	3446.46
	(iii) Transportation =				Rs	574.41
		Total =			Rs	9764.97
		Total of (A+ B) =			Rs	47951.75
		Say,			Rs	47952.00
		Rate/MT =			**Rs**	**47952.00**

48.	**HYDRAULIC HOIST FOR GATES.**					
	RHEP work order for gates 10.00 m x 12.00 m size

50.	OPEN EXCAVATION IN ORDINARY SOIL					
	MIXED WITH BOULDERS					
	Lead 1(one) KM					
	The excavation is proposed to be carried out with the following equipment:-					
	1.Hydraulic excavator 2.5 Cum					
	2.Rear dumper 18 T					
	3. Crawler Dozer 180 HP					
MACHINERY CHARGES						
	(i) Hydraulic Excavator					
	Capacity =		2.5	Cum		
	Ideal production/Hr =		245	Cum		
	Taking depth of cutting and angle of					
	Swing as =	0.88				
	Production of excavation per hour =			215.60	Cum	
	Taking efficiency and job management factor as 0.83 & 0.69					
	Output/Hr =		123.47412	Cum		
		Say	123.00	Cum		
	Use rate of excavator/hr =				Rs	1931.00
	Cost of excavation/cum =				Rs	15.70
	(ii) Rear dumper 18 T					
	Actual capacity of dumper = 9.47 x 0.67 =					
			6.3449	Cum		
	Cycle Time					
	Average lead = 1 Km					
	(a) Loading time = 6.34/123 x 60 =				3.10	Min
	(b) Spotting time =				0.30	Min
	(c) Turning & dumping time =				2.00	Min
	(d) Empty haul @ 25 Km/hr =				2.40	Min
	(e) Loaded haul @ 20 Km/hr =				3.00	Min
					10.80	Min
	No of trips per working hour of 50 min =				4.631742575	Trips
	Output of dumper =			29.38794346	Cum	
	Use rate of dumper/hr =				Rs	1338.00
	Cost of dumper/cum =				Rs	45.528875
	(iii) Crawler Dozer 180 HP					
	Assume that one 180 HP crawler dozer will work					
	Output of dozer = output of excavator =				123	Cum
	Hourly use rate of dozer =				Rs	2906.00
	Cost of dozer/cum =				Rs	23.626016
	Cost of machinery = (i + ii + iii) =				Rs	84.854078
	Add for					
	(a) Construction & maintenance of haul road @ 5%				Rs	4.2427039
	(b) Electric energy @ 2%				Rs	1.6970816
	(c) Levelling & trimming of waste spoil @ 5%				Rs	4.2427039
				Total	Rs	95.04
	Add OH & CP @ 20 %				Rs	19.007313
			Gross total		Rs	114.04
			Say		Rs	114.00
		Cost of excavation / Cum			Rs	114.00

North Eastern Electric Power Corporation

52.	**DRILLING GROUT HOLES 48 mm dia. FOR HIGH PRESSURE**					
	GROUTING IN DAM FOUNDATIONS (DRILLING FROM GALLERY)					
	The drilling is proposed to be done with crawler drill of size 55, 110 mm					
	The diameter of hole will be 48 mm and depth up to 20 metre					
A. MACHINERY CHARGES						
	1) Hourly use Rate of Crawler Drill =		Rs.	840.00		
	Average Rate of drilling =			15	m/hr	
	Considering effeciency and job management factors as 0.80 and 0.75,					
	Actual rate of drilling = 0.80 x 0.75 x 15 =		9.00	m/hr		
	Cost of drilling / m = Rs. 32/9.0			=	Rs.	93.33
	2) Cost of drill steel / m			=	Rs.	91.00
			SUB - TOTAL (A)	=	Rs.	184.33
B. LABOUR, WORK SHOP, LIGHTING CHARGES ETC.						
	Add 80% cost of drill steel			=	Rs.	72.80
			TOTAL	=	Rs.	257.13
	Add 20% for Overhead and Contractor's Profit			=	Rs.	51.43
			GROSS TOTAL	=	Rs.	308.56
					Say Rs.	309.00
						Per Metre

53.	**DRILLING CONTRACT/CONSOLIDATION GROUT HOLES**					
	UPTO 42 mm dia. (in Tunnel) BY ROCK BOLTING JUMBO					
	The drilling is proposed with Single Boom Hydraulic Rock Bolting Jumbo.					
	1) Contact Grouting:					
		Hole spacing 0.6 m depth @ 2m c/c in both ways				
	2) Consolidation Grouting					
		Hole spacing 3 m depth @ 3 m c/c on both ways				
	Consideirng 18 m length of tunnel					
	Total No. of drill holes:					
	i)	Contact Grouting = 2 x ((5.50 + 3.50) / 2 + 1) =			11	Nos.
		In 18 m length no. of holes = (18/2+1) x 11 =			110	Nos.
	ii)	Consolidation Grouting = [2x((5.50 + 3.50)/3 + 1] x (18/3 + 1)			56	Nos.
	Total depth of drilling = 110 x 0.6 + 56 x 3 =			234	Metres	
	Drilling time @ 50 m/hr = 234/50 =			4.68	Hrs	
			Say	4.70	Hrs	
A. MACHINERY CHARGES						
	i)	Cost of Rock Bolting Machine for 4.70 hrs. = 4.7 x 4142 =			Rs.	18,264.20
	ii)	Cost of drill steel = 234 x 91.00 =			Rs.	21,294.00
			SUB - TOTAL (A)	=	Rs.	39,558.20
B. LABOUR WORK SHOP, LIGHTING CHARGES ETC.						
	Add 80% cost of drill steel			=	Rs.	17,035.20
			TOTAL	=	Rs.	56,593.40
	Cost/metre = Rs. 56593.40 / 234			=	Rs.	241.85
	Add 20% for Overhead and Contractor's Profit			=	Rs.	48.37
			GROSS TOTAL	=	Rs.	290.22
					Say Rs.	**290.00**
						Per Metre

54.	**DRILLING GROUT HOLES WITH JACK HAMMER FOR POWER HOUSE SHAFT/SURGE SHAFT/PRESSURE SHAFT/INTAKE SHAFT/OPEN AREA**					
A. MACHINERY CHARGES						
	Hourly use Rate of Jack Hammer			=	Rs.	437.(
	Hourly use rate of Pusher Leg			=	Rs.	10.(
				=	Rs.	447.(
	Rate of drilling =		2.3	m/hr		
	(1)	Cost of Jack Hammer / m =		=	Rs.	194.3
	(2)	Cost of Drill Steel @ Rs. 51.00/m = 51 x 1		=	Rs.	44.0
			SUB - TOTAL (A)	=	Rs.	238.3
B. LABOUR WORK SHOP, LIGHTING CHARGES ETC.						
	Add 100% cost of drill steel			=	Rs.	44.0
			TOTAL	=	Rs.	282.3
	Add 20% for Overhead and Contractor's Profit			=	Rs.	56.4
			GROSS TOTAL	=	Rs.	338.8
					Say Rs.	339.0(
						per Metre

55	**EXCAVATION OF SHAFT FOR SURGE SHAFT / INTAKE SHAFT/ POWER HOUSE SHAFT**					
	Shaft excavation					
	i)	Dia = 13.00 mm				
	ii)	Depth = 65.00 m				
	iii)	Excavated area = 156.14 m^2				
The excavation is to be done by convetional method drilling by Jack Hammer, Muck loading manually and disposal						
by means of 10 T Derrick operated electrically. Bucket of size will be 2.2m^3. Consider average lift for analysis						
I	DRILLING					
	Consider 1.3 m pull		=	1.3	m	
	Spacing of driller hole = 0.7 x 0.7		=	0.49	m^2	
	Hole Nos. = 156.14 / 0.49		=	318.7	nos.	
			Say	319	Nos	
	Total length of Drilling with 2 nos. 500 Cfm (Elec)					
	Air Compressor = 319 x 1.3		=	414.7		
	12 nos. Jack Hammer cum work		=	6.28	Hrs.	
	= 414.70/(5.5 x 12)		Say	6.5	Hrs.	
	a) Cost of 12 nos. Jack Hammers @ Rs. 51.00/m			=	Rs.	34,086.00
	b) Cost of drill steel @ Rs. 51.00/m			=	Rs.	18,246.80
		= 414.70 x 51.00				
	C) 2 Nos. compressor @ 480.00/hr			=	Rs.	6,331.00
		= 2 x 250 x 6.50		=	Rs.	4,511.00
					Total Rs.	63,174.80
II	BLASTING					
	Considering 50% hole depth is filled with spl. Gelatine					
	80% of Powr Gel 80 L					
	Quantity of Explosives = 319 x 3 x 0.2 = 191.40					
	a) Cost of Explosives = 191.40 x 61.00			=	Rs.	11,675.40
	b) Cost of detonators 3 m leaed = 319 x 11.00			=	Rs.	3,509.00
	c) Add 50% cost of detonators for consumables			=	Rs.	1,754.50
	Such as blasting, batteries, copper wire, explosive					
	Steaming materials etc.					
	Blasting Charge			=	Rs.	16,938.90
	Total cost of drilling & blasting (I+II)			=	Rs.	80,113.70
III	MUCKING					
	Mucking is proposed with 10 T Derrick 3 nos. Bucket capacity 2.2 cum in each Derrick					
	Total volume of rock including 20% O.B.		=	187.34	cum/m depth of pull	

	Swell factor		=	0.67		
	Quantity/bucket = 2.2 x 0.67		=	1.474	Cum	
		Say	=	1.50	Cum	
	Loading is done manually,					
	Assuming 8 buckets/hour					
	Quantity/hour = 8 x 1.5 x 2		=	24	Cum	
	Total time of mucking = 187.34 / 24		=	7.806	Hrs.	
		Say	=	8.00	Hrs.	
	Cost of Mucking					
	a) Derrick for 8.0 hrs. = 8 x 6151.00 x 2			=	Rs.	8,800.00
	b) Scaling hammer 6 nos. for 1 hr. = 6 x 243.00			=	Rs.	1,458.00
	c) 2 nos. 10 HP (elect) pump (DW)					
	effective working 8 hrs. = 2x8x100.00			=	Rs.	3,920.00
	d) Dozer 180 HP for 1 hrs. = 1 x 1974.0			=	Rs.	2,906.00
		Total Mucking			Rs.	17,084.00
IV	DIRECT LABOUR					
	Cycle time					
	Drilling		=	6.50	hrs.	
	Loading & Blasting		=	3.00	hrs.	
	Defuming		=	1.00	hrs.	
	Scaling		=	1.00	hrs.	
	Mucking		=	8.00	hrs.	
	Rock Bolting		=	6.00	hrs.	
	Shotcrete/lagging		=	3.00	hrs.	
				28.50	hrs.	
			=	3.56	Shifts	
	Progress / month = 75 x 1/3.56		=	21.06	hrs.	
		Say	=	21.00	m	
	Labour					
	A) Regular					
	i) 1.5 Nos. Foreman @ Rs. 9600/M for 3.56 shift = 3.56 x 9600 x 1/30				Rs.	1,139.20
	ii) 1 No. Electrician-II @ Rs. 7000/M for 3.56 shift = 3.56x7000x1/30				Rs.	830.67
	iii) 1 No. Explosive Inspector @9600/M for 1 shift - 1x9600/30				Rs.	320.00
	iv) 1 No. Explosive chargeman @7000/M for 1 shift = 1x7000/30				Rs.	233.33
	v) 1 No. Blaster @4200/M for 1 shift				Rs.	140.00
					Rs.	2,663.20
	B) Casual (50% extra for underground work)					
	i) 20 nos. Muckers @3600 for 1 shift = 1x20x3600/30				Rs.	2,400.00
	ii) 10 nos. Belders @3600/M for 3.56 shift = 3.56*3600*10/30				Rs.	4,272.00
	iii) 1 no. helper for Electrician@3600 for 3.56 shift = 3600*3.56/30				Rs.	427.20

NEEPCO
North Eastern Electric Power Corporation
New Delhi

	iv) 1 no. helper for Foreman@3600 for 3.56 shift = 3600*3.56/30	Rs.	427.20
	v) 4 nos. Hole Cleaner 3600 for 1 shift	Rs.	480.00
		Rs.	8,006.40
	Add (80% of A & 55% of B) for hidden cost	Rs.	6,534.08
V	VENTILATION		
	1. Cost of 1 No. 25 HP Blower/hr	Rs.	228.00
	2. Cost of ducting		
	Cost of 65 m long 800 mm metallic duct = 65 x 1718 x 800/900	Rs.	99,262.22
	Assuming 20% salvage value,		
	Net cost chargable to work = 0.80x99262.22	Rs.	79,409.78
	Time required for completion of excavation = 1105 Hrs.		
	Cost/Hour = 79409.78/1105	Rs.	7,186.00
	Sub Total (1+2)	Rs.	199.86
	Hence total cost of ventilation for 28.5 hrs. = 28.50 x 199.86	Rs.	5,696.01
	ABSTRACT OF COST		
	A. Drilling & Blasting (I + II)	Rs.	63,174.80
	B. Mucking (III)	Rs.	17,084.00
	C. Labour (IV)	Rs.	6,534.08
	D. Ventilation (V)	Rs.	5,696.01
		Rs.	92,488.89
	Add for pipe lines for air & water @1%	Rs.	924.89
	Add for misc supplies such as safety hamlets		
	Gumboots, wireopes, etc. @ 1%	Rs.	924.89
	Add 3% for workshop charges	Rs.	2,774.67
	Add 1% for Electric materials and energy	Rs.	924.89
		Total Rs.	98,038.22
	Add 10% for explosives as OH & 20% for other items as OH & CP	Rs.	10,486.41
		Rs.	108,524.63
	Cost / cum = 122740.14 / 187.34	Rs.	579.29
		Say Rs.	**579.00**

56	PERMANENT STEEL SUPPORT						
	Supply and erection of the permanent teel support of ISMB 175 x 85 or any other section as per drawing and specification						
	for underground Tunnel including fabrication, transportation, T&P, Labour etc. in complete:						
	A.	Materials: (Three sets/shifts).					
		i) ISMB 175x85 = 3 x 25.27		=	75.81	MT	
		2.5% wastage		=	1.90	MT	
				TOTAL	77.705	MT	
		Cost of ISMB = (77.70 x 19.50 x 1915.00) / 1000=		Rs.	33,988.19		
		ii) MS Plate: (for each set)					22,430.71
		a) 25mm thick 6 x 2 x 0.4 x 0.3					560.77
		= (1.44 x 196.4) / 1000		=	0.28		22,991.48
		b) 20 mm thick 2 x 12 x 0.5 x 0.15 x 0.4					
		= (0.72 x 157.10) / 1000		=	0.11		574.79
			Add 2.5 % wastage		0.010		689.74
					0.406	MT	1,379.49
		Cost of MS Plate = 0.406 x 27829.00 =		Rs.	11132.53		1,839.32
							2,299.15
		iii) 20 mm dia 100 mm long Bolts					1,149.57
		4 x 3 = 12 Nos. @ 25.00		=	300		1,839.32
			Total	Rs.	11432.53		9,771.38
		For three sets = 11593.89 x 3 =		Rs.	34297.60		
							2,758.98
		iv) 16 nos. of 1.30 mtr. Long, 25 mm dia steel in between					
		Two supports = 16 x 1.30 x 3.85/1000 =			0.080	MT	36,521.84
		Cost of steel rod 2 x 0.08 x 16203.00=		Rs.	3592.50		3,655.65
							39,177.48
			Total of (	Rs.	83010.83		
	B.	FABRICATION: (three sets / shifts)

3	**Material charges**						
	A. Drilling and Blasting						
	a) It is proposed that to attain 2.5 m progress per cycle face 3.0m deep holes will be drilled.						
	Cross sectional area of Tunnel	=	57	sqm			
	Assuming average spacing of holes	=	0.7	m c/c			
	Area of rock corss section per hole		0.49	sqm			
	No. of holes required per face = 57/0.49	=	117.0				
	Total depth of drilling = 116 x 3.0	=	351	m			
	Say	=	351	m			
	Cost of drill steel = 351xCost of drill steel	=	351x91=Rs.	31941.00			
	Rate of drill steel per cum =31941/142.5	=	Rs 224.15				
	b) Explosives:						
	i) Gelatine required per cum	=	1	Kg.			
	Cost of gelatine per Kg.	Rs.	61				
	Rate per cum = 1 x 61.00	Rs.	61				
	ii) Detonators and fuse coils						
	No. of detonators and fuse coils @ one per	=	117.0	Nos.			
	hole per face						
	Cost of 79 nos. detonators and fuse coil						
	@Rs. 16.00 each = 117 x 16.00	Rs.	1872				
	Rate per cum = 1855/85.5	Rs.	13.14				
	iii) Other consumable petty stores such as blasting,						
	batteries, galvanometers and blasting wires etc.						
	@50% of item i)	Rs.	30.5				
	Total explosive charges per cum (i+ii+iii)	Rs.	104.64				
	Total drilling and blasting charges	Rs.	328.78				
	B. Timber for supports packing etc.						
	Rate per cum 1% of A	Rs.	3.29				
	C. Miscellaneous supplies such as wire ropes,						
	Manila rpes, v-clamps, rubber gloves,						
	Shackles and artificial respirators etc.						
	Rate per cum 1% of A	Rs.	3.29				
	Total material charges = (A+B+C)						
		Rs.	335.36				
	4. Charges for ventilation blowers:						
	Ventilation:						
	Exhaust ventilation system is proposed. Maximum length of working face is 2187.00 m, cost of ventilation is						
	analysed in 4 stage 0-600, 600-1200, 1200-1800 and 1800-2135 chainages, since cost increases due to						
	addition of boosters at every 600 m.						
	Equipments proposed:						
	1. 900 mm sweep two stage Axial fan with 50 HP / 4 pole elec. Motor (AC) 1 No.						
	2. -do- as boosters at every 600 m.						
	3. 900 mm dia Metallic Ducting						
	4. Cables, starter switches, RS joists and angles for installation						
	I. Ch 0-600						
	a) Cost of Blower at intake/hr-2 nos. = 2 x 328.00		=	Rs.	654.00		
	b) Cost of ducting						
	Length of duct = 570.00 m						
	Cost of duct @Rs. 2076.00 = 570.00 x 2076.00		=	Rs.	1,183,320.00		
	Deduct 20% resale value (-)		=	Rs.	236,664.00		
	Net chargeable cost to works		=	Rs.	946,656.00		
	Time required for boring of 600mm length @ 75m/month						
	=600/75 = 8 months						
	No. of working hours = 8 x 75 x 8	=	4800	hrs.			
	Cost of duct/hr = 996480 / 4800		=	Rs.	197.22		
	c) Cost of Platform, misc, items LS/Hr		=	Rs.	75.00		
	Total upto 600 m (a+b+c)		=	Rs.	926.22		
	II. Ch 600-1200						
	a) Cost of 2 No. Blower and 2 no booster = 4x328.00		=	Rs.	1,308.00		
	b) Cost of ducting						
	Length of duct = 1170.00 m						
	Cost of duct @Rs. 1718.00 = 1170.00 x 1718.00		=	Rs.	2,428,920.00		
	Deduct 20% resale value (-)		=	Rs.	485,784.00		
	Net chargeable cost to works		=	Rs.	1,943,136.00		
	Time required for boring of 1200m length @ 75m/month						
	= 1200/75=16 months						
	No. of working hours = 16 x 75 x 8 = 9600 hrs.		9600.00

1 **HYDRAULIC EXCAVATOR**

Capacity : 2.5 Cum (250 HP)

1. Capital Cost (C) = Rs. 82.00 Lakh.
2. Life (L)
   (a) Year (Ly) = 12 Years.
   (b) Hours (Lh) = 17500 Hrs.
3. Life time repair provision : 125 % of capital cost.

A. OWNERSHIP COST :

Dy = (0.9C)/(Lyx2200) = (0.9x82,00,000)/(12x2200) =	Rs.	279.55
Dh = (0.9C)/Lh = (0.9x82,00,000)/17500 =	Rs.	421.71
D = (Dh+Dy)/2 =	**Rs.**	**350.63**
Total of A =	**Rs.**	**350.63**

B. OPERATIONAL COST :

(I) Repair charges = (1.25x82,00,000)/17500 =	**Rs.**	**585.71**

(II) Operators and maintenance crew charges

Operational hours/year (Two shifts) = 2200 Hrs.

Designation	No.	Monthly wage	Months/yr	Hrs/yr		Rate/hr
Regular						
a) Operator	2	7200	12	2200	Rs.	78.55
b) Mechanic	0.5	7000	12	2200	Rs.	19.09
c) Foreman	0.5	9600	12	2200	Rs.	26.18
				Sub-total =	Rs.	123.82
Casual						
a) Helper	2	3600	12	2200	Rs.	39.27
d) Chowkidar	0.5	3600	12	2200	Rs.	9.82
				Sub-total =	Rs.	49.09

Add for indirect crew cost (80% of direct crew charges for regular worker and 55% of direct crew charges for casual worker) = 0.80x127.34 + 0.55x33.30 = Rs. 126.05

Total crew charge per hour = **Rs. 298.96**

(III) POL / Energy Charges :

Requirement of fuel/Hr = (0.22xBHP)xC1xC2 = 0.22x250x0.50x1.00 = 27.50 Ltr.

a) cost of oil @ Rs. 18.53 per Ltr =33.00x18.53 =	Rs.	509.58
b) Lubricant & oil @ 25% of (a) = 0.25x509.58 =	Rs.	127.39
Total =	**Rs.**	**636.97**
(IV) Sundries / Misc. supplies : At 10% of repair charges = 0.10x585.71 =	**Rs.**	**58.57**
Total of B =	**Rs.**	**1580.22**
GRAND TOTAL = (A+B) =	**Rs.**	**1930.85**
Say,	**Rs.**	**1931.00**

HOURLY USE RATE = Rs. 1931.00

2 HYDRAULIC EXCAVATOR

Capacity : 0.09 - 1.0 Cum (103 HP)

1. Capital Cost (C) = Rs. 50.00 Lakh.
2. Life (L)
(a) Year (Ly) = 10 Years.
(b) Hours (Lh) = 12000 Hrs.
3. Life time repair provision : 100 % of capital cost.

A. OWNERSHIP COST :

(I) (a) Repair charges = (1.0x9,00,000)/12000 =		Rs.	75.00
	Total of (I) =	**Rs.**	**75.00**
(II) Operators and maintenance crew charges			
Operational hours/year (One shifts) =	1200 Hrs.		
Total crew charge per hour = Same as item No. 27 =		**Rs.**	**252.45**
(III) POL / Energy Charges :			
Requirement of fuel/Hr = (0.22xBHP)xC1xC2 = 0.22x148x1.0x1.0 =	32.56 Ltr.		
a) cost of oil @ Rs. 18.53 per Ltr =32.56x18.53 =		Rs.	603.34
b) Lubricant & oil @ 25% of (a) = 0.25x603.34 =		Rs.	150.83
	Total =	**Rs.**	**754.17**
(IV) Sundries / Misc. supplies :			
At 10% of repair charges = 0.10x75.00 =		Rs.	7.50
	Total of B =	**Rs.**	**1089.12**
GRAND TOTAL = (A+B) =		Rs.	1156.62
	Say,	Rs.	1157.00
HOURLY USE RATE =		**Rs.**	**1157.00**
COST OF 100 CFM COMP. AIR = 1082x100/500 =		**Rs.**	**231.40**
	Say,	**Rs.**	**231.00**

23 **SHOTCRETE MACHINE (Pneumatic)**

Capacity : 250.00 cfm 4 - 6 Cum/Hr

1. (a) Capital Cost (C) = Rs. 8.00 Lakh.
2. Life (L)
   - (a) Year (Ly) = 5 Years.
   - (b) Hours (Lh) = 6000 Hrs.
3. Life time repair provision :
   - (a) For machine = 100% of capital cost.

A. OWNERSHIP COST :

(a) Machine

Dy = (0.9C)/(Lyx2200) = (0.9x8,00,000)/(5x2200) =	Rs.	65.45
Dh = (0.9C)/Lh = (0.9x8,00,000)/6000 =	Rs.	120.00
D = (Dh+Dy)/2 =	Rs.	92.73
Total of A =	**Rs.**	**92.73**

B. OPERATIONAL COST :

(I) (a) Repair charges = (1.00x8,00,000)/6000 =	Rs.	133.33
Total of (I) =	**Rs.**	**133.33**

(II) Operators and maintenance crew charges

Operational hours/year (Two shifts) = 2200 Hrs.

Designation	No.	Monthly wage	Months/yr	Hrs/yr		Rate/hr
Regular						
a) Operator	2	7000	12	2200	Rs.	76.36
b) Fitter	1	7000	12	2200	Rs.	38.18
c) Foreman	0.25	9600	12	2200	Rs.	13.09
			Sub-total =		Rs.	127.64
Casual						
a) Helper	2	3600	12	2200	Rs.	39.27
(b) Choukider	0.5	3600	12	2200		
			Sub-total =		Rs.	39.27

Add for indirect crew cost (80% of direct crew charges for regular worker and 55% of direct crew charges for casual worker) =

0.80x127.64 + 0.55x39.27 =	Rs.	123.71
Total crew charge per hour =	**Rs.**	**290.62**

(III) POL / Energy Charges :

a) Air consumption = 250 cfm		
Cost of compressed air @ Rs. 169/100 cfm = 250x169/100 =	Rs.	422.50
b) Lubricant & oil @ 25% of (a) = 0.25x 185.00 =	Rs.	105.63
Total of (III) =		**528.13**

(IV) Sundries / Misc. supplies :

At 10% of repair charges = 0.10x133.33 =	Rs.	13.33

(a) Machine

Dy = (0.9C)/(Lyx2200) = (0.9x17,00,000)/(8x2200) =	Rs.	86.93
Dh = (0.9C)/Lh = (0.9x17,00,000)/12000 =	Rs.	127.50
D = (Dh+Dy)/2 =	Rs.	107.22
Total of A =	Rs.	107.22

B. OPERATIONAL COST :

(I) (a) Repair charges = (1.00x17,00,000)/12000 = Rs. 141.67

Total of (I) = Rs. 141.67

(II) Operators and maintenance crew charges
Operational hours/year (Two shifts) = 2200 Hrs.

Designation	No.	Monthly wage	Months/yr	Hrs/yr		Rate/hr
Regular						
a) Operator	2.00	7200	12	2200	Rs.	78.55
b) Fitter	0.26	7000	12	2200	Rs.	9.93
c) Foreman	0.26	9600	12	2200	Rs.	13.61
				Sub-total =	Rs.	102.09
Casual						
a) Chowkidar	0.50	3600	12	2200	Rs.	9.82
b) Helper	2	3600	12	2200	Rs.	39.27
				Sub-total =	Rs.	49.09

Add for Indirect crew cost (80% of direct crew charges for regular worker and 55% of direct crew charges for casual worker) = Rs. 108.67

Total crew charge per hour = 0.80x102.09 + 0.55x49.09 = **Rs. 259.85**

(III) POL / Energy Charges :
Air consumption = 4.25 cum/m = 150 cfm

a) Cost of compressed air @ Rs.169/100 cfm =169/100x150 =	Rs.	253.50
b) Lubricant & oil @ 25% of (a) = 0.25x111.00 =	Rs.	63.38
Total =	Rs.	316.88

(IV) Sundries / Misc. supplies :
At 10% of repair charges = 0.10x141.67 = Rs. 14.17

Total of B = Rs. 732.56

GRAND TOTAL = (A+B) = Rs. 839.77

Say, Rs. 840.00

HOURLY USE RATE = **Rs. 840.00**

42 DIAMOND CORE DRILL MACHINE (300 mm)

1. (a) Capital Cost (C) = Rs. 15.00 Lakh.

2. Life (L) Year (Ly) = 8 Years.
3. Life time repair prov Hours (Lh) = 8000 Hrs.
(a)

A. OWNERSHIP COS For machine = 80% of capital cost.

(a) Machine

Dy = (0.9C)/(Lyx1200) = (0.9x15,00,000)/(8x1200) =	Rs.	140.63
Dh = (0.9C)/Lh = (0.9x15,00,000)/8000 =	Rs.	168.75
D = (Dh+Dy)/2 =	Rs.	154.69
Total of A =	**Rs.**	**154.69**

B. OPERATIONAL COST :

(I) (a) Repair charges = (0.8x15,00,000)/8000 = Rs. 150.00

(II) Operators and maintenance crew charges **Total of (I) =** **Rs. 150.00**

Operational hours/year (Two shifts) = 1200 Hrs

Designation	No.	Monthly wage	Months/yr	Hrs/yr		Rate/hr
Regular						
a) Driller	1.00	7000	12	1200		70.00

No.7/22/99-Hydel-I
Government of India
Ministry of Power
******

Shram Shakti Bhavan, Rafi Marg
New Delhi, dated the 2nd December,2004

To

Shri S.C. Sharma,
CMD,
NEEPCO
Shillong.

Subject:- Execution of Kameng Hydro-electric Project (600 MW), in the Central Sector – Investment approval.

Sir,

I am directed to convey the approval of the President of India in terms of the Articles of Association of the North East Electric Power Corporation (NEEPCO) for setting up of Kameng Hydro Electric Project (4x150=600 MW), Arunachal Pradesh, in the Central Sector at an estimated cost of Rs.2496.90 crores including IDC of Rs.249.09 crores at March, 2004 price level, with a debt equity ratio of 70:30, which includes Rs.94.54 crores sanctioned for stage-II activities. The project cost is subject to adjustment in accordance with the final recommendation of CEA/CWC on the component of Establishment cost. Manpower should be sourced through redeployment of surplus staff to the extent possible. The abstract of cost is at Annex to this letter.

The project would be completed within a period of 60 months from the date of investment approval by the Govt. of India. NEEPCO should take necessary measures for timely completion of the project in the light of ıct that a number of projects executed by NEEPCO have seen huge :ost overrun. The sanction accorded above is subject to the following ions.

(i) The economy instructions issued by the Government of India from time to time, should be observed.

(ii) The actual expenditure should not exceed the budget allocation of each year; and

(iii) The expenditure will be related to the purpose for which it is sanctioned.

4. NEEPCO will submit quarterly report to the Ministry of Power indicating financial and physical progress of implementation of the activities covered by this sanction.

5. The expenditure on the project is to be met by NEEPCO with debt equity ratio of 70:30. The budgetary support from the Government in the form of equity for this project is debitable to the following Heads in the Demands for the Grants of the Ministry of Power for the current year and the subsequent years for which these funds have been/will be released :

Major Head –"4552" Capital Outlay on North Eastern Areas
Minor Head - 00.800-Other expenditure
15-Projects/Schemes for the benefit of NER and Sikkim
15.02.42 Lum Sum Provision.

6. This issues with the concurrence of IF Division of Ministry of Power vide Dy. No 1358/Bud. dated 1.12.2004.

Yours faithfully,

Encl: As above

(Mehar Chand Jhamb)
Under Secretary to the Govt. of India

नार्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली NEEPCO New Delhi North Eastern Electric Power Corporation

Summary Record of Discussions held in the PIB Meeting on 23.4.2004 at 3.00 P.M. in FRESCO Room, North Block regarding Kameng Hydro Electric Project, Arunachal Pradesh (4X150MW).

List of participants is attached.

2. Background

2.1 The meeting commenced with a presentation by NEEPCO regarding the salient features of the project. CMD, NEEPCO mentioned that till now only 2% of the hydro potential of the North-East has been tapped. (The hydro potential is estimated at 59000 MW). He mentioned that with an installed capacity of 1130 MW, NEEPCO contributes to 50% of the generation capacity and 60% of energy generation in NE region. NEEPCO generation plants are presently functioning at a healthy plant load factor of 76% and the company has shown a profit in 2003-04. This has been achieved by selling power outside the region and through improved collection efficiency.

2.2 Kameng project consists of two dams on river Bichom and Tenga and is a "run of the river" scheme. The length of HRT is 14.5 kms. The forest land needed for the project consists of 650 hectares of uncultivated State forest and 60 hectares of Reserve forest. It was mentioned that Environmental and Forest clearances have been obtained. TEC from CEA has also been obtained and 430 hectares of land has been acquired, which is adequate for project construction. The project will be completed in 5 years.

2.3 On the issue of sale of power, CMD, NEEPCO mentioned that in view of low power tariff of Rs. 1.47 paise per unit at bus bar, there will be no difficulty in sale of power.

3. Discussion

3.1 On a query from Advisor (PAMD) regarding project cost, CMD, NEEPCO mentioned that while the present costing is at July, 2003 price level, NEEPCO has already received bids for the civil packages which are well below this limit. No escalation is anticipated in the estimated cost of Rs. 2538.15 crores in respect of civil

works. Since there may be escalation for electro-mechanical package, it was decided that cost estimates may be updated to March 2004 price level before going to CCEA.

3.2 Chairman, PIB enquired about the rationale for choosing the unit size of 4x150 mw in preference to 2x300 mw or 3x200 mw. CMD, NEEPCO explained that this size was chosen on the basis of hydrology of the project and in the lean season when the water flow is low, at least one unit should be running at full rating. He also explained that since the project was located in an inaccessible area, logistics of carrying large turbines also dictated the size of E&M equipment.

3.3 Chairman, PIB enquired about the impact of securitisation of past dues on the balance sheet of NEEPCO. CMD, NEEPCO explained that the recovery levels are now at 87%. JS &FA (Power) mentioned that though this is undoubtedly an improvement, NEEPCO still needs to catch up with other Power utilities, where recoveries are in the range of 95%. CMD, NEEPCO mentioned that poor financial health of North-Eastern States does pose a problem.

3.4 JS (PF-II) enquired about availability 10 mw of construction power and Advisor (PAMD) enquired about the approach road to the project. CMD, NEEPCO explained that under the Stage II clearance, approach roads to the project site have been built and infrastructure for obtaining construction power is in place. He mentioned that construction power would be sourced as soon as project implementation starts. A three stage clearance procedure has been of considerable benefit to the project.

3.5 On the issue of land acquisition, JS&FA suggested that all the land that is needed should be acquired expeditiously since land acquisition at a later stage may create problems. CMD, NEEPCO explained that balance land is with the State Government and NEEPCO would find it difficult to protect the entire land No problem is anticipated in taking over the balance land at a later stage.

3.6 Advisor (PAMD) stressed the need for close monitoring so as to complete the project in time. He referred to the previous record of the company where a large number of projects have seen time overruns of 3 to 6 years. Secretary (Power) explained that each State has its own set of problems. Arunachal and Sikkim, however,

NEEPCO New Delhi North Eastern Electric Power Corporation

4. **Summary of Observations**

(i) Project cost may be updated to March, 2004 price level on the basis of cost of civil works already tendered and updated cost of ~~E&M~~ works.

(ii) NEEPCO should enter into power purchase agreements with the beneficiaries along with suitable payment security mechanism before seeking CCEA approval.

(iii) The project cost should be reworked by JS&FA on the basis of establishment costs being pegged within a ceiling of 5% of capital cost. Manpower should be sourced through redeployment of surplus staff to the extent possible.

(iv) NEEPCO should enter into an indemnification agreement with Powergrid for evacuation of power.

(v) CCEA note should contain a paragraph about measures to be taken for timely completion of the project in the light of the fact that a number of projects executed by NEEPCO have seen huge time/cost overrun.

(vi) CCEA note should confirm that the project is eligible for mega power status and that project costs have been estimated accordingly.

(vii) The status regarding availability of funds in the 10th Plan may be specified clearly in the note for CCEA both for debt and equity components. Debt component should be raised by NEEPCO without govt. guarantee.

5. **Recommendation**

PIB recommended for the consideration of CCEA, investment approval for Kameng Hydro Electric Project (4x150 mw) at a cost of Rs.2538.15 cr. (July 2003 price level), subject to observations in para 4 above.

The meeting ended with a vote of thanks to the Chair.

नॉर्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली
NEEPCO
North Eastern Electric Power Corporation New Delhi

have extended greater cooperation than other states. Three stage clearance process has also ensured that lot of spade work gets done before the project is actually underway. He mentioned that floating of tenders after TEC by CEA facilitates saving in time. He assured that MoP would closely monitor the project.

3.7 On a query from Advisor (PAMD) regarding seismic issues, CMD, NEEPCO clarified that the designs are based on advice from IIT, Roorkee and computer simulation has been carried out to ensure that the design is robust in an area where seismic activity is high.

3.8 JS (PF-II) enquired about status of agreements regarding purchase of power. JS&FA (Power) mentioned that since most of this power is likely to be exported to other regions, it is important that power purchase agreements are in place before the project is commissioned. Secretary (Power) agreed that PPAs should be signed before the CCEA is approached.

3.9 Regarding the evacuation of power, it was mentioned that Powergrid will carry out the evacuation and suitable indemnification agreement will be signed. Only a 60 km Transmission line will be required for evacuation.

3.10 Advisor (PAMD) referred to the gap in resources in 10th Plan. Secretary (Power) confirmed that MoP will find funds within its overall Plan ceiling to fund the gap, which is around Rs. 387 crores.

3.11 On the issue of mega power status, CMD, NEEPCO clarified that the costing of this project has been done on the basis of its having mega power status. JS&FA (Power) confirmed that this project would be eligible for mega power status. Chairman, PIB, suggested that this should be suitably highlighted in the CCEA note.

3.12 Issue of high establishment cost came up for discussion. JS&FA (Power) stated that in Subansiri HEP, the establishment cost was substantially reduced. CMD, NEEPCO observed that this project has two dams and the supervision costs are high. While conceding this point, Chairman, PIB mentioned that, nevertheless there is a case for reduction of manpower. It was decided that establishment costs be reviewed by JS&FA and reduced within an overall ceiling of 5% of capital cost.

NEEPCO
New Delhi
North Eastern Electric Power Corporation

OFFICE OF SECRETARY
CENTRAL ELECTRICITY AUTHORITY
SEWA BHAVAN, R.K.PURAM
NEW DELHI-110066.

No. 2/NEEPCO/8/00-PAC/2683-99 Dated: 6-4-2000

The Chairman – cum- Managing Director,
North Eastern Electric Power Corporation,
Brookland Compound,
Lower New Colony,
Shillong-793003.

Subject: Kameng HE Project (4x150 MW)- Arunachal Pradesh
Approval of revised cost estimates.

The Revised Cost Estimates (RCE) submitted by North Eastern Electric Power Corporation (NEEPCO), vide their letter No.NEEPCO/ND/F-32/2143 dated 5th September, 1999 and vide letter No.NEEPCO/ND/ED/F-32/98-99/4650 dated 1st March, 2000 and the financial package submitted vide their letters dated 8th December, 1999, 5th January, 2000 and 13th January, 2000 were considered in the Authority Meeting held on 7th December, 1999, 17th February, 2000 and again on 30th March, 2000.

1. Central Electricity Authority accords approval of RCE of Kameng HE Project (4x150 MW) at a present day estimated cost (Oct. 1999 price level) and completed estimated cost as indicated below:

(Rs. crs.)

	Present cost (Oct.'99 price level)	Completed cost
Civil works	1505.83	1900.92
E&M works	541.78	655.82
Total cost without IDC & FC	2047.61	2556.74
IDC	216.49	238.37
FC	Nil	Nil
Total cost Including IDC & FC	2264.10	2795.11

The IDC of Rs. 216.49 crores at present day cost and Rs. 238.37 crores for completed cost have been worked out on the basis of 50:50 debt equity ratio and the financial package as submitted by NEEPCO.

2 The Cost clearance is with the stipulation that :

i) The completed cost of the above scheme shall not exceed the above cost except on account of

(a) Variation in Foreign Exchange Rate in respect of foreign currency involved.

(b) Change in rates of Indian Taxes and Duties such as excise duty, sales tax, custom duty, work tax and additional taxes and duties levied subsequently to the issue of approval of revised cost estimates.

(c) Change in Indian Law resulting in change of cost.

3. The abstract of completed cost and present day capital cost approved by CEA is furnished at Annex-I. Summary of Financial Package. as submitted by NEEPCO and considered by CEA is given at Annexure-II. The salient features of the project are given in Annex-III.

4. In case geological surprises are met, NEEPCO shall systematically maintain a record of geological surprises, those are encountered. At the same time NEEPCO shall request Ministry of Power to constitute an Expert Committee consisting of representatives from Ministry of Power, CWC, GSI and CEA. Once a Committee is constituted, NEEPCO shall submit their proposal for the enhanced cost to the Expert Committee which in turn shall examine and recommend the cost thereof..

5. The cost clearance is subject to the following stipulations.

a) NEEPCO shall issue corrigendum for revised present day cost of Rs. 2264.10 crores and completed cost of Rs. 2795.11 crores for compliance of Section 29 of Electricity (Supply) Act, 1948.

b) NEEPCO shal comply with the requirements as given in Annexure-IV.

6. NEEPCO shall obtain environment clearance and formal forest clearance from MOEF. Any increase in cost of "Environment and Ecology" beyond Rs. 92.05 crores (completed cost) already provided, shall be absorbed by NEEPCO.

7. Any increase in cost of B-land' beyond Rs. 5.56 crores (Completed cost)

already provided, shall be absorbed by NEEPCO.

8. NEEPCO shall provide all necessary information to PGCIL for framing up the power evacuation proposal from the project and also tie up sale of power so generated from the project.

9. The project shall be commissioned in a period of 6 years and 8 months considering September, 2000 as zero date and COD as given below.

1st Unit	July, 2006
2nd Unit	October, 2006
3rd Unit	January, 2007
4th Unit	April, 2007

10. The requirement of construction equipments and provision under "Q-Special T&P" would be got reassessed from CWC before procurement in case the execution is to be done through contractor.

11. Three (3) copies of semi-annual progress reports on physical progress of the project and expenditure actually incurred and duly certified by statutory auditors shall be submitted to CEA till COD of the last unit. The project Authorities would give free accessibility to CEA officers and staff to have an on the spot assessment of the various aspects of the project.

12. The completion cost of the schemes shall be submitted to CEA for approval within a period of 3 months from COD of last unit.

(VIJOY KUMAR)
SECRETARY, CEA

Encl: As above.
