INDEX

Petition under Section 62 and 79(1) (a) of the Electricity Act, 2003 read with Chapter–V of the Central Electricity Regulatory Commission (Conduct of Business) Regulations, 1999 and Central Electricity Regulatory Commission (Terms and Conditions of Tariff) Regulations, 2019 for approval of tariff of Kameng Hydro Power Station (KaHPS) (4 X 150 = 600 MW) for the period from unit wise CODs to 31.03.2024:

Sl. No.	Particulars	Page No.
1	Petition on affidavit	1-28
2	Summary (Tariff Forms) for determination of Annual Fixed Charges for the period of 17.06.2020 to 31.03.2024 and related forms enclosed as **Annexure-I**	29-116
3	CCEA Approval dated 2nd December, 2004 is enclosed as **Annexure-II**	117-119
4	CEA vetting (March 2015 price level) is attached as **Annexure- III**	120-130
5	Approval of Completed Cost by NEEPCO Board of Directors on 14.08.2023 is attached as **Annexure-IV**	131-135
6	Copy of letter dated 23.08.2023 to CEA for examination of project completion cost is attached as **Annexure – V.**	136-137
7	Tariff order on Petition No. 51/GT/2021 for Determination of Tariff of Kameng HPS is attached as **Annexure-VI**	138-143
8	Cost & Time overrun analysis with Bar Chart is attached as **Annexure-VII**	144-431
9	Loan Agreements enclosed as **Annexure-VIII**	432-731
10	Filing fees letter along with Form-1: **Annexure - IX**	732-733
11	Copies of PPAs with beneficiaries is enclosed as **Annexure-X**	734-784
12	Power Potential Studies enclosed as **Annexure -XI**	785-786
13	Balance Sheet of Company for FY 2020-21, 21-22 & 22-23 as **Annexure-XII**	787-1622
14	Auditor's Certificate on Capital Cost , Un-discharged liabilities etc as **Annexure-XIII**	1623-1644
15	Cost Audit Reports for FY 2020-21, 21-22 & 22-23 are enclosed as **Annexure-XIII**	1645-1716
16	DPR is enclosed as **Annexure-XIV**	1717-2016
17	Proof of service	2017

Affidavit verifying the submission of NEEPCO

I, Elizabeth Pyrbot, daughter of late J.C. Singh, aged about 51 years, resident of Vasant Kunj, Delhi do solemnly affirm and state as follows:

1. That I am Dy. General Manager(E) in the Petitioner - North Eastern Electric Power Corporation Limited and am well conversant with the facts of the case and am competent to swear the present affidavit.
2. That I have read the contents of the accompanying submission filed by North Eastern Electric Power Corporation Limited and have understood the contents of the same.
3. That the contents of the accompanying submission are based on information available with the petitioner in the normal course of business and believed by the deponent to be true.
4. That the annexures to the submissions are true and correct copies of their original

E Pyrbot

DEPONENT

VERIFICATION:

Verified at New Delhi on this 10th October. 2023, that the contents of above affidavit are true to the best of my knowledge, no part of it is false and nothing material has been concealed therefrom.

CHAPTER 1

BACKGROUND

It is respectfully submitted that:

1.1 Company Profile:

1.1.1 The petitioner, North Eastern Electric Power Corporation Ltd (hereinafter referred to as "NEEPCO") is a Miniratna Schedule "A" Central PSE under the Ministry of Power, Government of India, which was incorporated on the 2nd of April, 1976 to plan, investigate, design, construct, generate, operate and maintain power stations in the country within the meaning of the Companies Act, 1956. Pursuant to share transfer agreement dated 25th March 2020 between Government of India and NTPC Ltd, acquisition of entire equity stake of Government of India in NEEPCO Ltd by NTPC Ltd was completed on 27th March 2020. Further, NEEPCO is a 'Generating Company' as defined under Section 2(28) of the Electricity Act, 2003. Total installed capacity of the Company is 2057 MW comprising of 1525 MW from 08 nos. hydro power stations, 527 MW from 03 nos. gas based thermal power stations and 5 MW from 01 no. solar PV power plant.

1.1.2 All the four 150 MW units of the Kameng Hydro Power Station have been commissioned and are in commercial operation since 17th June 2020, 1st July 2020,22nd January 2021 & 12th February 2021 respectively.

1.2 BACKGROUND OF THE PROJECT:

The Kameng Hydro Power Station (KaHPS) (600 MW), is located in the West Kameng District of the state of Arunachal Pradesh. The power station is a run-of-the River scheme with storage envisaging utilization of the waters of the Bichom and Tenga Rivers (both tributaries of the Kameng River) for generation of power. The detailed investigations for the project were sanctioned by the Government of India in late 1968. The Central Water Commission (CWC) prepared the DPR of Kameng Hydro Power Station (KaHPS) in 1982 based on the investigation of the erstwhile Central Water & Power Commission (CW&PC). The Government of India in 1985, decided to execute the Project in the Central Sector through the North Eastern Electric Power Corporation Ltd. (NEEPCO). Accordingly, the project parameters were studied by NEEPCO for review and a fresh proposal considering views of CEA/CWC and technical developments which had taken place during the time was submitted to CEA in September, 1989.

1.3 TECHNO ECONOMIC CLEARANCE & INVESTMENT APPROVAL

The Techno-economic clearance for the project was granted by the CEA in April, 1991 for execution by NEEPCO at an estimated cost of Rs.1160.60 crore including IDC of Rs.186.38 crore at November, 1990 price levels.

Later, Government of Arunachal Pradesh handed over this project to a private company viz. M/s INTERCORP Industries Ltd in October, 1992. Since no work was done by this company for quite some time, Government of Arunachal Pradesh again handed over the project to NEEPCO for execution.

A Memorandum of Understanding was signed between the Government of Arunachal Pradesh and NEEPCO Ltd. on 31.03.99 for execution of this project in the Central sector.This project was taken up as a model project by the Government of India under their policy of 3-Stage development of new hydro-electric projects.

Subsequent to taking over of the project, NEEPCO had started project activities like preconstruction survey and development of infrastructure. After detailed investigation including topographical survey & construction material survey, NEEPCO had firmed up the broad design parameters for all major packages of the project with the help of M/s SMEC, the Design Consultant engaged by NEEPCO.

Updated cost estimate was submitted to CEA in 1999 and cleared by CEA on 06.04.2000 for an amount of Rs. 2264.10 crore (at October 1999 PL). GOI sanctioned Rs. 94.54 crore in July, 2001 for undertaking Preconstruction & infra-structural facilities. The estimate for Civil and Electrical works of the project was again updated at July, 2003 PL to Rs 2538.15 Cr (including IDC of Rs 290.34 Cr) and approved by CEA vide letter No.2/NEEPCO/8/03/PAC/8637-51 dated 31.10.2003.

PIB in its meeting held on 23.04.2004 had made some observations where "the project cost may be updated to March, 2004 PL on the basis of cost of civil works already tendered and updated cost of E&M works", amongst others, was one of the observations. PIB recommended for consideration of CCEA, investment approval for Kameng HPS at a cost of Rs 2538.15 crore (July, 2003 PL) subject to observation at Para 4 mentioned in the minutes.

Investment approval of the project was accorded by CCEA on 2nd December 2004 with completion time of the project within a period of 60 months (i.e December 2009) for an updated cost estimate of Rs 2496.90 crore which included IDC of Rs.249.09 crore at March 2004 PL and Rs 94.54 crore sanctioned for Stage-II activities.

A copy of the CCEA approval is attached as ***Annexure – II.***

Subsequently, a Revised Cost Estimate of Rs. 6,179.96 crore at March 2015 Price Level with Hard Cost of Rs.4, 724.67 crore (Rs.3988.17 crore for Civil works + Rs.736.50 crore for Electro-Mechanical works) and ID&FC of Rs. 1,455.29 crore has been vetted by CEA and is under process for approval in the Ministry of Power, Government of India.

A copy of the CEA vetting is attached as ***Annexure- III.***

1.4 STATUTORY CLEARANCES

The various statutory clearances for the project as obtained are given below in chronological order.

- Defence clearance : 05.02.1990
- TEC by CEA : 11.10.1991
- MOU between NEEPCO & GoAP : 31.03.1999
- Site clearance exemption obtained : 29.10.1999
- Public hearing held on (at Bomdila) : 17.11.1999
- Assessment of Compensatory Afforestation : 08.12.1999
- NOC from State Pollution Control Board : 07.01.2000
- Administrative approval for preliminary works : 01.02.2000
- Forest clearance (2nd stage) : 03.08.2000
- Environmental clearance : 29.03.2001
- PIB clearance : 23.03.2004
- CCEA clearance : 02.12.2004

1.5 PROJECT EXECUTION PACKAGES

The project execution was divided into the following seven major packages with details as below:

Package	Description of works	Awarded to	Date of Award/LOI
I	Civil works for Bichom dam and HRT(Faces-1 & 2)	M/s Patel Engg. – Unity JV	08.12.2004
II	Civil works for Tenga dam and HRT(Face-3 to Face-6)	M/s Patel Engg. – Unity JV	08.12.2004

Package	Description of works	Awarded to	Date of Award/LOI
III	Civil works of HRT (Faces-7 to 8), Surge Shaft Power House	M/s Patel Engg. – Unity JV	08.12.2004
IV	Hydro-Mechanical work (Gates & Penstock steel Liner)	M/s OMML and JSC - JV	17.12.2004
V	Electro-Mechanical work for Power House	M/s BHEL	17.12.2004
VI	400 kV & 132 kV Switch yards	M/s Techno Electric & Engg. Co. Ltd.	06.01.2009
VII	Generator & Power Transformer	M/s BHEL	28.03.2008

1.6 PROJECT COMPLETION COST

The Board of Directors of the Petitioner at its meeting held on 14.08.2023 approved the project completion cost of **Rs. 8404.47 crore** with Hard Cost of Rs.5657.03 crore plus ID&FC amounting to Rs.2747.44 crore.

A copy of the Board resolution is attached as ***ANNEXURE – IV.***

The project completion cost of Rs. 8404.47 crore as approved by the Board of Directors of the Petitioner has been submitted to CEA for examination vide letter No: NEEPCO/GHY/ED-P(H)/KaHEP/T-359/2023-24/103-105 dated 23rd August 2023.

A copy of the letter No NEEPCO/GHY/ED-P(H)/KaHEP/T-359/2023-24/103-105 dated 23rd August 2023 is attached as ***Annexure – V.***

1.7 Power Station Profile:

1.7.1 Location

Located in the Kameng valley of Arunachal Pradesh, Kameng Hydro Power Station (KaHPS) utilizes waters of Rivers Tenga and Bichom (both tributaries of Kameng River) on the run-of-the-river basis for power generation. The Bichom River has its origin in the glacial ranges of the greater Himalayas, at an altitude of around 7000 m. The River flows in a general southward direction till it is met by the Digien River, a major

tributary flowing from the west. The Digien River also descends from high altitude of the Himalayan ranges and is snow as well as rain fed. After the confluence, the River Bichom runs in a South-east direction for about 19.4 kms till it meets its second major tributary the Tenga River, flowing from the west. Tenga River rises in the hills of lesser Himalayas. It is rainfed and flows in easterly direction upto Jameri and then changes its direction of flow in a north-east direction till it meets the Bichom River. The River Kameng enters the Assam plains at about 32 kms upstream of Charduar and then joins the River Brahmaputra upstream of Tezpur at RL. of 85 m.

1.7.2 Technical Configuration

The Kameng Hydro Power Station (KaHPS) (600 MW) is developed as Run-of-the-River (ROR) scheme in Kameng basin of West Kameng District, Arunachal Pradesh. The power station utilises the flows from Rivers Bichom and Tenga over a gross head of 536 metres available in a U bend of the River, downstream of the confluence of the Rivers Bichom with Kameng. The power station consists of two numbers of Dams, a 69.0m high (above deepest foundation) Bichom dam across Bichom River and a 24.5m high (above deepest foundation) Tenga dam across Tenga River, and one number Head Race Tunnel of 14.527 km length with two numbers penstocks leading to the Power House for 4(four) numbers of generating units of 150 MW capacity each having total capacity of 600 MW

The water from Bichom reservoir is transported to the Kimi Power House across the Tenga River, with suitable arrangements to add the Tenga waters into the HRT during the lean period only. Water conductor system from Bichom to Kimi Power House comprises of approximately 14.527 km long, 6.70m dia Modified Horse Shoe shaped concrete lined Head Race tunnel. The firm power of the power station is 168.86 MW with design energy of **3353 MU with 95% Machine availability.**

1.7.3 Power Off take

The power generated from the Kameng Hydro Power Station (KaHPS) is evacuated through 400 kV Kameng – Balipara D/C Transmission Line of 76 kms and 132 kV Kimi – Khupi – Balipara Line of 69 kms. 400KV double circuit line is used to evacuate power upto Balipara grid substation near Tezpur. 132kV S/C line shall also evacuate power from Kimi to Balipara via Tenga. The 132kV Balipara — Tenga — Kameng line was utilized for construction power supply from the Grid. A 50MVA 220/132kV transformer has been installed for augmentation of Balipara substation.

Shares from this project had been allocated to beneficiary states of the Northern and Western regions in addition to the seven North Eastern states. Subsequently, Punjab, Delhi, Maharashtra, Gujarat, Madhya Pradesh, Rajasthan, Tripura, Mizoram and Manipur accounting for

allocated shares totalling 345 MW surrendered their shares and accordingly, the Ministry of Power, Government of India de-allocated these shares and allocated the quantum to the Petitioner, NEEPCO and declared the same as merchant power. Goa too has applied to the Ministry of Power for de-allocation of its share of 2 MW and the matter is under process. Power Purchase Agreements have been executed with the remaining beneficiaries accounting for 253 MW capacity viz. Assam, Arunachal Pradesh, Nagaland, Meghalaya, Uttar Pradesh, Chhattisgarh and Haryana.

CHAPTER 2

TARIFF APPLICATION

2.1 NEEPCO has set up the 600 (150 X 4) MW Kameng Hydro Power Station (KaHPS) and is filing this petition (along with Tariff filing forms) in terms of the Regulations 8 & 9 (1) of the CERC (Terms and Conditions of the Tariff) Regulations, 2019 for determination of Tariff of the aforesaid power station for the period from COD of each unit to 31st March, 2024.

2.2 **Dates of Commercial Operation (COD)**

Block/Unit	COD
Unit – I (150 MW)	17.06.2020
Unit - II (150 MW)	01.07.2020
Unit - III (150 MW)	22.01.2021
Unit - IV (150 MW)	12.02.2021
Station (600 MW)	12.02.2021

2.3 Section 62 of Electricity Act, 2003 provides for determination of Tariff by the appropriate Commission for the supply of electricity by Generating Company. The Hon'ble Commission is vested with the jurisdiction to regulate the Tariff of the Generating Companies, owned or controlled by the Central Government and other Generating Companies (ISGS) having composite scheme for generation and sale of electricity in more than one state as envisaged under Section 79(1) (a) & (b) of Electricity Act, 2003.

KaHPS is a generating station of NEEPCO, which is under the administrative control of the Ministry of Power, and accordingly, supply of electricity to the beneficiaries will be made at the rate determined by the Hon'ble Commission.

2.5 Regulation 9 (1) of the Central Electricity Regulatory Commission (Terms and Conditions of Tariff) Regulations, 2019 provides that a Generating Company

may make an application for the determination of Tariff for new generating station or unit thereof in accordance with the Procedures, Regulations, in respect of the generating stations or generating units thereof *within 60 days of the anticipated date of commercial operation.* As per the Regulation 9(1), the generating company shall make an application for determination of Tariff, based on capital expenditure incurred, duly certified by the auditors *or projected to be incurred up to the date of commercial operation and additional capital expenditure projected to be incurred during the Tariff period of the generating station.*

Accordingly, NEEPCO had filed a Petition No. 51/GT/2021 on 21st January 2021 before the Hon'ble Commission for determination of tariff of KaHPS. The Petition was disposed off by the Hon'ble Commission with the following observation in paragraphs 10 & 11 on 8th August 2023.

> "10.... *in the present case, the final RCE based on the COD of the units has yet to be submitted by the Petitioner to the Central Government for vetting and approval. Keeping in view that there will be a revision in the capital cost of the generating station after approval of RCE by the Central Government, we find no reason to keep this petition pending. Hence, we are inclined to dispose of this petition, with liberty to the Petitioner to approach the Commission with a fresh tariff petition, in respect of the generating station after approval of RCE by the Central Government. We direct accordingly.*
>
> *11. We also direct that the provisional tariff of Rs 4/kWh, being recovered by the Petitioner based on the decision in the 35th CC meeting of NERPC dated 21.3.2018, shall continue to be in operation till the tariff of the generating station is determined based on the approved RCE. The filing fees deposited by the Petitioner shall be adjusted against the fresh petition to be filed in terms of the liberty granted above."*

A copy of the order is attached as ***Annexure- VI.***

2.6 Kameng Hydro Power Station (KaHPS) (4x150 MW) in Arunachal Pradesh was accorded Government of India approval for execution by NEEPCO Ltd at an estimated cost of Rs.2496.90 crore which included IDC & FC of Rs.249.09 crore at March 2004 Price Level (PL) and with a commissioning schedule of 5 years from the date of Government sanction (i.e. by 31.12.2009). The sanction was conveyed by Ministry of Power vide letter no. 7/22/99-Hydel-I dated 02.12.2004.

The project was scheduled for commissioning in March 2018 but due to leakages observed in the Penstocks during pre-commissioning stage, the commissioning activities of Units I & II were temporarily suspended to

facilitate repairing work of Penstocks I & II. Rectification of Penstock-I was completed in October 2019 and the first two units linked to Penstock-I have been in commercial operation since 17th June 2020 and 1st July 2020 respectively. After rectification of Penstock-II linked to units 3 and 4, these two units were put into commercial operation on 22.01.2021 and 12.02.20121 respectively.

2.7 After the approval of Completed Project Cost by the Board of Directors on 14th August 2023, the Petitioner is filing the present petition for determination of Tariff of the 600 MW (4x150 MW) Kameng Hydro Power Station based on the approved completed capital expenditure for the period starting from COD of Unit I up to 31.03.2024 as per the Central Electricity Regulatory Commission (Terms and Conditions of Tariff) Regulations, 2019.

2.8 The application for determination of Tariff is being submitted along with the duly filled forms as per provisions of the Tariff Regulations, 2019. attached to this Petition. It is further submitted that the petitioner has submitted the information / documents as required under these formats to the extent the same is available with the Petitioner.

The filled in Formats prescribed by the applicable Regulations are enclosed as ***Annexure-I.***

CHAPTER 3

PROJECT CAPITAL COST AND FINANCING

3.1 Project Capital Cost

The completion cost of the project as approved by the Board of Directors of NEEPCO on 14th August 2023 is **Rs. 8404.47 crore with Hard Cost of Rs.5657.03 crore plus ID&FC amounting to Rs.2747.44 crore.**

3.2 Approval of the Project Capital Cost

Investment approval for the setting up of the Kameng Hydro Project at an estimated project cost of Rs.2496.90 crore including IDC Rs.249.09 crore at March 2004 price level had been conveyed by the Ministry of Power, Govt. of India vide their letter no. 7/22/99-Hydel-I dated 2nd December 2004.

A copy of the investment approval is attached as ***Annexure – II.***

Subsequently, the final project completion cost of **Rs. 8404.47** was approved by the Board of Directors of the Petitioner on 14.08.2023.

A copy of the Board resolution is attached as **Annexure – IV**.

The project completion cost of **Rs. 8404.47 crore** as approved by the Board of Directors of the Petitioner has been submitted to CEA for examination vide

letter No: NEEPCO/GHY/ED-P(H)/KaHEP/T-359/2023-24/103-105 dated 23rd August 2023

A copy of the letter No NEEPCO/GHY/ED-P(H)/KaHEP/T-359/2023-24/103-105 dated 23rd August 2023 is attached as ***Annexure – V.***

3.2.1 Time and Cost Overrun:

The major factors causing cost enhancements and time overrun are:

- Major design change of primary structures;
- Geological Surprises and natural hindrances;
- Devastating Flash floods;
- Contractual issues;
- Law and order problems; etc.
- Penstock repair works subsequent to detection of leakages, amongst Others.

The details of the time and cost overrun along with the reasons and justifications for the same are elaborated in the Tariff Form (5Ei & 5Eii).

A copy of the note detailing reasons and justifications for the time and cost overrun is attached as ***Annexure – VII.***

3.3 Revised Cost Estimate

The Revised Cost Estimate at September 2008 PL was submitted to CEA in February 2009 based on the revised quantities on account of design parameters. However, during the process of scrutiny of the estimate at CEA, the Package contractor, on expiry of the scheduled contract period of March 2009, have proposed for revision of rate(s) on the balance BOQ items of major hydraulic structures of the project on account of design changes amongst others. Therefore, CEA was requested to keep scrutiny of RCE at September 2008 PL on hold until a decision on revision of rate is firmed up. In the meantime, the cost incurred against the project had crossed 50 % of the approved Cost during October 2010 (Rs 1280.07 Cr). Further, the Board in its 180th Meeting held on 15.02.2011 directed NEEPCO to submit RCE to CEA for approval.

Accordingly, Revised Cost Estimate (RCE) at December 2010 PL amounting to Rs 4048.01 Cr (including IDC of Rs 579.46 Cr) was submitted to CEA on 19.03.2011. However, the RCE was returned by CEA on 18.07.2011 requesting NEEPCO to submit a consolidated/comprehensive document incorporating all relevant chapters of approved hydrology/civil design/E&M design/associated drawings/cost estimate etc for consideration. Accordingly, NEEPCO on 11.10.2011 submitted a comprehensive updated project report along with RCE (at December 2010 PL) amounting to Rs 4809.59 Cr for clearance of CEA. The subject RCE includes provision for extra works, provision for arbitration or re-tendering in case of cancellation of the

contract. As per CEA RCE submitted requires approval of Board. Therefore, proposal for submission of RCE considering all aspects is submitted before the Board for appraisal and approval in its 184th Board Meeting held on 29.11.2011. The Board after detailed deliberation has considered submission of RCE of the project at a cost of Rs 4809.42 Cr to CEA for examination and scrutiny and further needful in obtaining sanction of the Competent Authority.

In the meantime, Member (Hydro), CEA convened a meeting on 24.04.2012 in respect of RCE of Kameng HEP and after detailed deliberation it was concluded that NEEPCO would update the cost of Civil works and E&M works and frame the cost estimates at latest price level excluding the provisions for the unresolved issues with the contractors. Therefore, RCE was again updated to Rs.5139.00 Cr (including IDC) at December 2011 PL and submitted to CEA on 16.05.2012 for examination and concurrence. An amount of Rs 1503.51 Cr (excluding IDC) has already been incurred against the completed works till the end of December, 2011.

After examination of RCE at December 2011 PL by various divisions of CWC/CEA, the Hard Cost of Civil Works and E&M Works were tentatively finalized at Rs 2849.30 Cr and Rs. 616.96 Cr respectively on 29/9/2013. In the meantime, IDC&FC and tariff have been finalized by F&CA Division, CEA on 08/10/13 for Rs 1187.69 Cr and the 1st year & Levellised tariff for Rs 3.51/Kwh & Rs 3.07/Kwh respectively. CEA submitted its recommendation on RCE for a capital cost of Rs 4653.95 Cr to MOP, GOI on 11.12.13.

However, as decided in the meeting taken by Joint Secretary (Hydro) on 18.02.2015 to review the status of proposals related to PIB Notes/RCEs of various projects of Hydro PSUs, RCE updated to Rs. 6476.34 cr (excluding IDC) at December 2014 PL and submitted to MOP, GOI on 12.03.15. CEA/CWC during examination of RCE desires updating of RCE to March 2015 PL. Accordingly RCE updated to Rs 5100.16 Cr (excluding IDC) at March 2015 PL submitted to CEA/CWC on 23.07.2015.

CEA on 09/10/2015 has forwarded the duly vetted RCE (at March 2015 PL) to MOP, GOI for a Hard cost of Rs 4617.36 Cr. CEA vide I.D. Notes dated 06.11.2015 vetted the RCE-I (at March 2015 PL) for Rs. 6085.84 Cr including IDC &FC of Rs.1468.48 Cr.

Subsequently, in terms of the meeting taken by JS (Hydro) on 27.11.2015, CEA has revised the provision made in RCE-I under the head - Establishment from Rs 196.82 crore to Rs 304.13 crore. Accordingly, CEA in March 2016 intimated to the Ministry that vetted hard cost has been revised from Rs 4617.36 crore to Rs 4724.67 crore at March, 2015 PL and total project cost including IDC&FC from Rs 6085.84 crore to Rs 6179.96 crore.

Subsequent to vetting of Revised Cost Estimate (RCE) of Kameng HE Project (March 2015 Price Level) by CEA as conveyed vide letter dated 18.03.2016, (copy attached as **ANNEXURE-III**), the 1st meeting of the Standing Committee was convened on 22-04-16. Thereafter, note on time and cost overrun was circulated amongst the re constituted Revised Cost Committee members by

Ministry of Power on 21.12.2016 duly incorporating the response of NEEPCO on the observation of 1st meeting of the Standing Committee dtd 22-04-16.

Revised Cost Committee in its meeting held on 03.02.2017, 01.05.2017 & 28.12.2017 deliberated on the Time and cost over-run of the project. Revised Cost Committee during its meeting on 28.12.2017 opined that as the project is likely to be completed by March 2018, it would be more appropriate to consider the Revised Cost Estimate at completion cost instead of going for interim RCE at this stage. Accordingly, NEEPCO was directed to submit the RCE proposal at completion cost utmost by 15th May 2018.

The project was scheduled for commissioning in March 2018 but due to leakages observed in the Penstocks during pre-commissioning stage the commissioning activities of Units I & II were temporarily suspended to facilitate repairing work of Penstocks I & II. Rectification of Penstock-I was completed in October 2019 and the first two units linked to Penstock-I has been under commercial operation since June 2020. Rectification of Penstock-II linked with last two units has been completed and the 3rd and 4th units were put into commercial operation on 22.01.2021 1nd 12.02.2021 respectively.

The completion cost of the project as approved by the Board of Directors of NEEPCO on 14th August 2023 is Rs. **8404.47 crore with Hard Cost of Rs.5657.03 crore plus ID&FC amounting to Rs.2747.44 crore.**

3.4 Financing Plan

The expenditure on the project is to be met by NEEPCO with debt equity ratio of 70:30. The project cost is subject to adjustment in accordance with the final recommendation of CEA/CWC on the component of Establishment cost.

CHAPTER 4

TARIFF DETERMINATION

This section of the petition contains computation of Annual Fixed Cost and Energy Charges from 17th June'2020 (since COD of the 1stUnit) to the FY 2020-24 in terms of the CERC Tariff Regulations, 2019.

4.1 Capital cost as on COD:

The capital cost for arriving at the AFC as on Station COD dated 12th February, 2021is considered as below:

Hard Cost:	Rs5657.03 crore
IDC & FC:	Rs.2747.44 crore
Total:	Rs. **8404.47** crore

Capital Cost as on 17/06/2020 (COD of Unit-I) , Capital Cost on 01/07/2020 (COD of Unit-II) and Capital Cost as on 22/01/2021(COD of Unit-Iii) were Rs. 6802.96 Crore , Rs. 7087.93 Crore and Rs. 8125.00 Crore respectively. However, for the purpose of calculation of AFC, the costs of major common assets [such as, 132 KV Transmission line, Power House Civil (Main Plant Building), Reservoir & Dam, Tunnel, 400/220/132 KV Switchyard, Plant & Machinery in generating stations and Steel liner & penstock] are apportioned/allocated to different units. Accordingly, capital cost considered for the purpose of determination of AFC, for Unit-I, Unit-II and Unit-III are Rs. 2383.21 Crore , Rs. 4499.99 Crore and Rs. 6473.76 Crore respectively and the Tariff Form 11 has been modified accordingly incorporating the effect of apportioned/allocated cost of major common assets. The capital cost for the purpose of calculating AFC has been taken from the modified Tariff Form 11

4.2 Funding Pattern:

Debt: Equity, 70:30. So, with consideration of completion cost amounting to Rs. 8404.47 Crore, value for Debt and Equity are Rs. 5883.13 Crore and Rs. 2521.34 crore respectively.

4.3 Operational Norms

The Tariff proposal is based on the following operational norms:

Table: Normative Operating Parameters of the Power Station

Description	Units	Normative Parameters
Target NAPAF for recovery of fixed charges and for incentive	%	**85**
Auxiliary Energy Consumption	%	**1%**

However, the petitioner prays before the Hon'ble Commission for allowing relaxation of the above operating parameters of the power station based on actual performance in future.

4.4 Determination of Annual Fixed Cost

The Annual Fixed Cost (AFC) of the generating station consist of the following components:

4.2.1 Return on Equity (grossed up with effective tax rate);
4.2.2 Interest on Loan capital;
4.2.3 Depreciation;
4.2.4 Interest on Working Capital; and
4.2.5 Operation and Maintenance (O&M) Expenses.

Summary of Annual Fixed Charges Cost

4.2.1 Return on Equity

(a) As per the Regulation 30 of the Tariff Regulations, 2019, Return on Equity shall be computed at the base rate of 16.50% for thermal generating stations, transmission system including communication system and run of the River hydro generating station. The Kameng Hydro Project being a Run-of-the-River (ROR) with pondage, the base rate of 16.50% has been taken for computation of return on equity.

(b) MAT rate @ 17.47% has been considered for the purpose of grossing up of ROE. Impact of effective tax rate for the Financial Years 2020-21 to 2023-24 may kindly be allowed to pass on in accordance to Regulation 31 of the said Tariff Regulations.

(c) The ROE for each period/year of the Tariff Period for KaHEP since COD of Unit –I till 31.03.2024 are as below:

Table: Return on Equity

Rs. in lakh

Particulars	17.06.20 - 30.6.20	01.07.20 - 21.01.21	22.01.21- 11.02.21	12.02.21 -- 31.3.21	2021-22	2022-23	2023-24
Opening equity	7322.91	69333.05	134527.09	193116.37	251794.73	251794.73	251794.73
Closing equity	69333.05	134527.09	193116.37	251794.73	251794.73	251794.73	251794.73
Average equity	*38327.98*	*101930.07*	*163821.73*	*222455.55*	*251794.73*	*251794.73*	*251794.73*
Rate of ROE (grossed up)	*19.99*	*19.99*	*19.99*	*19.99*	*19.99*	*19.99*	*19.99*
Return on Equity	*293.92*	*11445.67*	*1884.41*	*5848.84*	*50341.32*	*50341.32*	*50341.32*

4.2.2 Interest on Loan Capital

(a) Regulation 32 of the Tariff Regulations,2019 provides as under: -

(i) The rate of interest on loan shall be the weighted average Rate of interest (ROI) calculated on the basis of actual loan portfolio after providing appropriate accounting adjustment for interest capitalized;

नॉर्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली NEEPCO North Eastern Electric Power Corporation New Delhi

(ii) The Interest on loan shall be calculated on the average normative loan of the year by applying aforesaid weighted average rate of interest.

(b) The petitioner submits that it is liable to pay Interest at the Interest Rate applicable as per the Loan agreement.

(c) Depreciation amount for respective period/financial year has been considered as the annual repayment of normative loan for the year.

(d) Based on the application of weighted average rate of interest as at the beginning of each year on the average normative Loans of the year during the Tariff Period, interest on Loan will be asunder: -

Table: Interest on Loan Capital

Rs. in lakh

Particulars	*17.06.20 to 30.6.20*	*01.07.20 to 21.01.21*	*22.01.21-11.02.21*	*12.02.21 -- 31.3.21*	*2021-22*	*2022-23*	*2023-24*

Interest on loan	359.96	13723.71	2243.36	6971.15	47011.90	42703.41	38386.21

4.2.3 Depreciation

(a) The base value for the purpose of computation of Depreciation is the completed Project Capital cost of Rs. **8404.47** crore as on anticipated station COD.

(b) Depreciation on estimated cost of assets has been calculated based on straight line method over the useful life of the asset, at the rates prescribed under Appendix I- Schedule of depreciation of CERC (Terms & Conditions of Tariff) Regulations, 2019.

(c) Land other than the land held under lease and the land for reservoir in case of hydro generating station shall not be a depreciable asset.

(d) The petitioner submits that based on capital value of assets, the weighted average depreciation works out to **5.3%** and the same is considered for the purpose of computation of Annual Fixed Cost.

Depreciation amount for each year of the Tariff Period are as under:

Table: Depreciation statement:

Rs. in lakh

Particulars	17.06.20 to 30.6.20	01.07.20 to 21.01.21	22.01.21-11.02.21	12.02.21 -- 31.3.21	2021-22	2022-23	2023-24

4.2.4 Interest on Working Capital

The interest on working capital has been worked out as per the norms prescribed in regulation 34 (c) of the CERC Tariff Regulations, 2019. The following have been considered for determining the base for working capital in a year:

Maintenance Spares:

In terms of Regulation 34 (c) (ii) of the Tariff Regulations, 2019, maintenance spares has been taken as 15% of Operation and Maintenance expenses specified in Regulation 35(2)(b).

A Table showing the amounts for maintenance spares for each year of the Tariff Period is as under: -

Table: Maintenance Spares for one year (15% of O&M Expenses for one year)

₹ in lakh

Particulars	17.06.20 to 30.6.20	01.07.20 to 21.01.21	22.01.21-11.02.21	12.02.21 - - 31.3.21	2021-22	2022-23	2023-24
Maintenance spares	29.55	783.44	102.17	336.54	2681.21	2809.11	2943.10

Receivables:

Receivable amount will be equivalent to 45 days of fixed cost.

A Table showing the receivables for each year/period during the Tariff period is as under:-

Table: Receivables component in Working Capital

₹ in lakh

Particulars	17.06.20 to 30.6.20	01.07.20 to 21.01.21	22.01.21-11.02.21	12.02.21 - - 31.3.21	2021-22	2022-23	2023-24
Receivables	141.48	5153.93	823.28	2573.28	20290.68	19855.60	19424.69

O&M Expenses:

As per the Regulation 35(2)(b) of CERC (Terms and Conditions of Tariff) Regulations, 2019, in case of hydro generating stations declared under commercial operation on or after 01.04.2019, O&M expenses shall be fixed at 3.5% of the original project cost (excluding cost of rehabilitation & resettlement works, IDC & IEDC) for first year of commercial operation for stations more than 200 MW and shall be subject to annual escalation of 4.774% per annum for the subsequent years.

Hence, O&M expenses for the first year are considered @ 3.50% of the project cost, with annual escalation of 4.77% per annum for the subsequent years.

Table: O&M expenses for one month:

₹ in lakh

Particulars	17.06.20 to 30.6.20	01.07.20 to 21.01.21	22.01.21-11.02.21	12.02.21 - - 31.3.21	2021-22	2022-23	2023-24
O&M expenses for 1 month	16.42	435.25	56.76	186.97	1489.56	1560.61	1635.06

Based on the above, interest on working capital is shown below:

Rs. in lakh

Particulars	17.06.20 to 30.6.20	01.07.20 to 21.01.21	22.01.21-11.02.21	12.02.21 - - 31.3.21	2021-22	2022-23	2023-24

CHAPTER-5

Miscellaneous Issues

5.1 It is submitted that the petitioner has deposited the requisite filing fee of Rs. 26,40,000.00 (Rupees twenty six Lakh forty thousand only) for the year 2023-24 in accordance with CERC (Payment of Fees) Regulations, 2012 and amendment thereof is paid vide Transaction Id/Reference no./Payment ID INB17213287639CHM3589277 dated 20.04.2023 for determination of tariff of the generating station till 31.03.2024.

CHAPTER-6
PRAYER

The present petition is submitted before the Hon'ble Commission for determination of Tariff of the Kameng Hydro Power Station. In view of the facts and circumstances described above in detail, the Petitioner humbly prays to the Hon'ble Commission that it may be pleased to: -

6.1 Approve the Project capital Cost of Rs. **8404.47** crore as approved by the Petitioner's Board of Directors on 14th August 2023 for determination of tariff (generating unit -wise as well as generating station as whole) for the 600 MW Kameng Hydro Power Station based on its COD.

6.2 Approve the normative IDC&FC of Rs. 2747.44 crore in terms of Regulation 19(2)(b) of the Tariff Regulations, 2019 which is included in the Project Capital Cost indicated above.

6.3 Allow the Petitioner to file revised petition on actual expenditure in the event of revised financial package, if any.

6.4 Approve the AFC for Kameng Hydro Power Station for the Tariff period from COD of Unit I to 31.03.2024 as per claim along with the petition for sale of power generated from the plant.

6.5 Allow recovery of filing fees of this petition from the beneficiaries.

6.6 Allow recovery of publication expenses from the beneficiaries incurred with regard to this petition.

6.7 Allow recovery from the beneficiaries any such tax, cess etc. levied on NEEPCO in relation to generation and supply/distribution of electricity.

6.8 Allow true up the gross up rate of return on equity at the end of every financial year in compliance to regulation 31 (3) of the CERC Tariff Regulations 2019.

6.9 Allow modification/change in operational norms based on actual performance experienced by the generating station.

6.10 Allow additions/alterations/changes/modifications to the petition at a future date.

6.11 Condone any inadvertent omissions/errors/differences/shortcomings.

6.12 Pass such order/orders as deemed fit and proper in the facts and circumstances of the case.

6.13 The Commission may also kindly allow the Petitioner to make additional submissions subsequently.

TARIFF FILING FORMS (HYDRO)

Checklist of Forms and other information/ documents for tariff filing for Hydro Stations

Form No.	Title of Tariff Filing Forms (Hydro)	Tick
FORM-1	Summary Sheet	√
FORM -1 (I)	Statement showing claimed capital cost	√
FORM -1 (II)	Statement showing Return on Equity	√
FORM-2	Details of COD, Type of hydro station, Normative Annual Plant Availability Factor(NAPAF) & other normative parameters considered for tariff calculation	√
FORM-3	Salient features of Hydroelectric Project	√
FORM-4	Details of Foreign loans	
FORM-4 A	Details of Foreign Equity	√
FORM-5	Abstract of Admitted Capital Cost for the existing Projects	√
FORM-5A	Abstract of Capital Cost Estimates and Schedule of Commissioning for the New projects	√
FORM-5B	Break-up of Capital Cost for Hydro Power Generating Station	√
FORM-5C	Break-up of Capital Cost for Plant and Equipment	√
FORM-5D	Break-up of Construction/Supply/Service packages	√
FORM-5E i	In case there is cost over run	√
FORM-5E ii	In case there is time over run	√
FORM-5F	In case there is claim of additional ROE	√
FORM-6	Financial Package upto COD	√
FORM-7	Details of Project Specific Loans	√
FORM-8	Details of Allocation of corporate loans to various projects	√
FORM-9A	Statement of Additional Capitalisation after COD	
FORM- 9B	Statement of Additional Capitalisation during end of the Project	√
FORM- 9B i	Details of Asset decapitalised during the period	
FORM- 9C	Statement showing reconciliation of ACE claimed with the capital addition as per Books	√
FORM- 9D	Statement showing items/assets/works claimed under Exclusions	
FORM- 9E	Statement of Capital Cost	√

Form No.	Title of Tariff Filing Forms (Hydro)	Tick
FORM- 9F	Statement of Capital Works in Progress	√
FORM-10	Financing of Additional Capitalisation	√
FORM- 11	Calculation of Depreciation on original project cost	√
FORM- 12	Statement of Depreciation	√
FORM- 13	Calculation of Weighted Average Rate of Interest on Actual Loans	√
FORM-13A	Calculation of Interest on Normative Loan	√
FORM- 13 B	Calculation of Interest on Working Capital	√
FORM- 13 C	Non-Tariff Income	
FORM- 13 D	Incidental Expenditure during Construction	√
FORM- 14	Draw Down Schedule for Calculation of IDC & Financing Charges	√
FORM- 14A	Actual cash expenditure	√
FORM-15 A	Design Energy and Peaking Capability (month-wise) – ROR with pondage /storage type New Station	√
FORM-15 B	Design Energy and MW Continuous (month-wise) – ROR type Station	N. A.
FORM- 16	Liability Flow Statement	√
Other Information/ Documents		

Sl. No.	Information/Document	Tick
1	Certificate of incorporation, Certificate for Commencement of Business, Memorandum of Association, & Articles of Association (For New Station setup by a company making tariff application for the first time to CERC)	N.A.
2	A. Station-wise and Corporate audited Balance Sheet and Profit & Loss Accounts with all the Schedules & annexures on COD of the Station for the new station & for the relevant years. B. Station wise and Corporate audited Balance Sheet and Profit & Loss Accounts with all the Schedules & annexures for the existing station for the relevant years.	N.A.
3	Copies of relevant loan Agreements	√
4	Copies of the approval of Competent Authority for the Capital Cost and Financial package.	√
	Copies of the Equity participation agreements and necessary approval for the foreign equity.	NA
6	Copies of the BPSA/PPA with the beneficiaries, if any	√

Sl. No.	Information/Document	Tick
7	Detailed note giving reasons of time and cost overrun, if applicable. List of supporting documents to be submitted: a. Detailed Project Report b. CPM Analysis c. PERT Chart and Bar Chart d. Justification for cost and time Overrun	√
8	Generating Company shall submit copy of Cost Audit Report along with cost accounting records, cost details, statements, schedules etc. for the Generating Unit wise /stage wise/Station wise/ and subsequently consolidated at Company level as submitted to the Govt. of India for first two years i.e. 2019-20 and 2020-21 at the time of mid-term true-up in 2012-22 and for balance period of tariff period 2019-24 at the time of final trueup in 2023-24.In case of initial tariff filing, the latest available Cost Audit Report should be furnished.	√
9	Any other relevant information, (Please specify)	NA
10	Reconciliation with Balance sheet of any actual additional capitalization and amongst stages of a generating station	NA
Note: Electronic copy of the petition (in words format) and detailed calculation as per these formats (in excel format) and any other information submitted shall also be furnished in the form of CD/Floppy disc.

Salient Features of Hydroelectric Project

Name of the Petitioner: M/s North Eastern Electric Power Corporation Limited
Name of the Generating Station: Kameng Hydro Power Station

1. Location	
State/Dist.	Arunachal Pradesh/ West Kameng District
River	Bichom & Tenga river
2. Diversion Tunnel	
Size, shape	8.0 m diameter, modified horse shape
Length (M)	368.32 m
3. Dam	
a) Bichom Dam	
Type	Concrete Gravity
Maximum dam height (M)	69.0 m
b) Tenga Dam	
Type	Concrete Gravity
Maximum dam height (M)	24.50 m
4. Spillway	
a) Bichom Dam	
Type	Ogee shaped concrete spillway with 6 nos. radial gates of size 9 m X 11.80 m
Crest level of spillway (M)	EL 735 m
b) Tenga Dam	
Type	Flat apron concrete spillway with 2 nos. radial gates of size 14 m X 14 m
Crest level of spillway (M)	EL 756 m
5. Reservoir	
a) Bichom Dam	
Full Reservoir Level (FRL) (M)	770 m (a.s.l)
Minimum Draw Down Level (MDDL) (M)	764.50 m (a.s.l)
Live storage (MCM)	5.718 MCM
b) Tenga Dam	
Full Reservoir Level (FRL) (M)	770 m (a.s.l)
Minimum Draw Down Level (MDDL) (M)	763 m (a.s.l)
Live storage (MCM)	0.5 MCM
6. De-silting Chamber	
Type	NA
Number and Size	NA
Particle size to be removed(mm)	NA
7. Head Race Tunnel	
Size and type	6.7 m dia. Modified Horse Shoe, Concrete lining
Length (M)	14.527 km
Design discharge(Cumecs)	140 cumec
8. Surge Shaft	
Type	Restricted orifice type surge shaft located at the end of Low Pressure Tunnel
Diameter (M)	25 m
Height (M)	71.35 m (including 9.35 m height of orifice)
9. Penstock/Pressure shafts	
Type	Combination of underground-overground-underground steel lined pressure tunnel
Diameter & Length (M)	1 no. of 5.3 m dia. of length 601.10 m taking off from surge tank, bifurcating into 3.75 m dia. (at valve house) of lengths 1415.813 m & 1415.497 m and then each bifurcating into 2.65 m dia. Of length 52.15 m each to feed units.
10. Power House	
Installed capacity (No of units x MW)	4 x 150 MW
Type of turbine	Francis Turbine
Rated Head(M)	492.75 m
Rated Discharge(Cumecs)	140 cumec (35 cumec per unit)
Head at Full Reservoir Level (M)	536.00 m
Head at Minimum Draw down Level (M)	530.50 m
MW Capability at FRL	600 MW
MW Capability at MDDL	168.86 MW
11. Tail Race Tunnel/Channel	
Diameter (M) , shape	Open Channel with width 65 m
Length (M)	49.50 m
Minimum tail water level (M)	233.59 m
12. Switchyard	
Type of Switch gear	SF6 type Circuit Breakers and combination of Pantograph & Horizontal Circuit Breaker (HCB) Isolators
No. of generator bays	4 Nos
No. of Bus coupler bays	1 No
No. of line bays	2 Nos
Efficiency (overall) Turbine and Generator	92.98%

Note: Specify limitation on generation during specific time period(s) on account of restrictions on water use due to

FORM-5A

Abstract of Capital Cost Estimates and Schedule of Commissioning for the New Projects

Name of the Petitioner : NORTH EASTERN ELECTRIC POWER CORPORATION LTD.
Name of the Generating Station : Kameng Hydro Power Station

New Projects
Capital Cost Estimates

Board of Director/Agency approving the Capital cost estimates:	Ministry of Power(MoP),Govt of India.				Remarks
Date of Approval of the Capital cost estimates	12/2/2004				
	Present Day Cost (in Rs. Lakh)	**Present Day Cost (in Rs. Lakh)**	**Present Day Cost (in Rs. Lakh)**	**Completed Cost (in Rs.Lakh)**	
Price level of approved estimates	Projected analysis as on 17.06.2020 -UNIT-I	Projected analysis as on 17.07.2020 -UNIT-II	Projected analysis as on 22.01.2021 -UNIT-III	Projected analysis as on 12.02.2021 -UNIT-IV	
March 2004 for Rs.249690.43 Lakh	680296.43	708793.00	812500.65	840841.59	
Foreign Exchange rate considered for the Capital cost estimates	NIL				
Capital Cost excluding IDC, IEDC & FC					
Foreign component, if any (In Million US$ or the relevant Currency)					
Domestic Component (Rs. Lakh)					
Capital cost excluding IDC, IEDC FC, FERV & Hedging Cost (Rs. Lakh)	346765.22	361237.80	412516.55	425400.99	
IDC, IEDC, FC, FERV & Hedging Cost					
Foreign component, if any (In Million US$ or the relevant Currency)					
Domestic Component (Rs. Lakh)					
Total IDC, IEDC, FC, FERV & Hedging Cost (Rs. Lakh)	333531.21	347555.20	399984.10	414440.60	
Rate of taxes & duties considered					
Capital Cost Including IDC, IEDC, FC, FERV & Hedging Cost					
Foreign component, if any (In Million US$ or the relevant Currency)					
Domestic Component (Rs. Lakh)					
Capital cost including IDC, IEDC & FC (Rs. Lakh)	680296.43	708793.00	812500.65	840841.59	
Schedule of Commissioning as per investment approval					
Scheduled COD of Unit - I	Wednesday, June 17, 2020				
Scheduled COD of Unit - II		Wednesday, July 01, 2020			
Scheduled COD of Unit-III			Friday, January 22, 2021		
Scheduled COD of Unit-IV				Friday, February 12, 2021	
Scheduled COD of last Unit / Station					

Note:

1. Copy of approval letter should be enclosed
2. Details of Capital Cost are to be furnished as per FORM-5B or 5C as applicable
3. Details of IDC & Financing Charges are to be furnished as per FORM-14

** Provide details of Freehold land, Lease hold land and Land under reservoir separately*

Note:

1. In case of cost variation, a detailed note giving reasons of such variation should be submitted clearly indicating whether such cost over run was beyond the control of the generating company.
2. In case of both time & cost overrun, a detailed note giving reasons of such time and cost over-run should be submitted clearly bringing out the agency responsible and whether such time and cost overrun was beyond the control of the generating company.
3. The implication on cost due to time over run, if any shall be submitted separately giving details of increase in prices in different packages from scheduled COD to Actual COD / anticipated COD, increase in IEDC from scheduled COD to actual COD/anticipated COD and increase of IDC from scheduled COD to actual/anticipated COD.
4. Impact on account of each reason for Time over run on Cost of project should be quantified and substantiated with necessary documents and supporting workings.
5. A list of balance work assets/work wise including initial spare on original scope of works along with estimate shall be furnished positively.

Petitioner

(Petitioner)

PART-II
FORM-5Ei

In case there is cost over run

Name of the Petitioner : NORTH EASTERN ELECTRIC POWER CORPORATION LTD.
Name of the Generating Station : Kameng Hydro Power Station

Sl. No.	Break Down	Original Cost (Rs. Lakh) as approved by the Board	Cost (Rs. Lakh)-as on 17.06.20-UNIT-I	Cost (Rs. Lakh)-as on 01.07.20-UNIT- II	Cost (Rs. Lakh)-as on 22.01.21-UNIT-III	Cost (Rs. Lakh)-as on 12.02.21-UNIT-IV	Difference	Reason for Variation (Please submit supporting computations and documents wherever applicable)	Increase in soft cost due to increase in hard cost
		Total Cost	Total Cost	Total Cost	Total Cost	Total Cost	Total Cost		
1	Infrastructure Works								
1.1	Preliminary including Development	1558	56.85	56.85	56.85	56.85	1501.15	The increase is mainly due to the cost of design consultancy services for providing detailed design and engineering for different structures of the projects. The cost for the services was finalized based on the International Competitive Bidding.	
1.2	Land* (FOREST LAND (RIGHT TO USE)	509.06	1957.97	1957.97	1957.97	1957.97	-1448.91	Increase due to appreciation in the cost of compensation determined by the Land Acquisition Officer, Government of Arunachal Pradesh apart from acqiuisition of additional quarry land.	
1.3	R&R expenditure (Land)	2.86	3872.49	3872.49	3872.49	3872.49	-3869.63	The increase is due to increase in cost of R&R works.	
1.4	Buildings	6993.75	7603.75	7603.75	7603.75	7603.75	-610.00	The main reason explaining the increase in the cost is the lesser plinth area rate taken in the sanctioned cost as compared to the rate of execution. This increase is due to considerable increase in the cost of building material and labour during execution of project. Further the increase is also inclusion of new items at project site like building for communication facilities, Megazine and field hostel/office at Guwahati.	
1.5	Miscellaneous	3324	3692.36	3692.36	3692.36	3692.36	-368.36	The expenditure under this head covered the capital cost and maintenance of miscellaneous works such as running and maintenance of vehicles, offices, water supply, colony etc.	
1.6	Maintenance	1431.01	3475.17	3475.17	3475.17	3475.17	-2044.16	The expenditure under this head covered maintenance of all the works during the execution of the project.	
1.7	(i) Tools & Plants	1566.26	1517.23	1517.23	1517.23	1517.23	265.58	The increase which is mainly due to inadequate provision of equipment in original estimate.	
	(ii) Special T&P	216.55							
1.8	Communication	22038.94	18300.25	19096.40	21968.88	22758.82	-719.88	The increase under this head is mainly due to the increase in cost of material and labour during execution of project. Further there is increase in cost in deposit work awarded to BRTF against construction of bridges & roads and their improvement at an amount higher than the amount approved by CCEA Further there is increase in cost for improvement of existing road and other approach roads, culvert etc.	
1.9	Environment & Ecology	6553.49	10518.22	10964.87	12513.28	12882.92	-6329.43	The increase was mainly due to revision of cost of implementation of CAT Plan from by GoAP as per prevailing cost norms and approved cost index.	
1.1	Plantation	170				56	114	Due to over provision in the DPR	
1.11	Losses on stock								
1.12	Receipt & Recoveries								
1.13	Total (Infrastructure works)	44364.36	50994.30	52237.10	56657.99	57873.57	-13509.65		
2	Major Civil Works								
2.1	Dam, Intake & De-silting Chambers								
2.1.1	HRT, TRT, Surge Shaft & Pressure shafts	45445.62	237673.22	237673.22	269811.34	269811.34	-224365.72	There is increase in cost due to execution of new items like construction sluices in Bichom Dam, Tenga Drop Shaft and extra works including transportation of quarry materials from Government designated quarries, due to poor geology encountered in tunnel excavation. Rocks encountered during tunnel excavation was mostly of Class-IV type for which preventive measures such as advanced ground stabilization method, PU/micro fine cement grouting etc. were resorted to. Extra work items were executed to restore the damaged work fronts due to collapses/flooding.	
2.1.4	Total	45445.62	237673.22	237673.22	269811.34	269811.34	-224365.72

2.2	Power Plant civil works	68622.2	22403.13	22403.13	22403.13	22403.13	46219.07	The increase is mainly Due to re-engineering by NEEPCO as per site requirement, there was increase in quantity of excavation of power house. Due to poor geology, power house location was shifted by 2000 m downstream, penstock profile changed from fully underground to partly underground and partly over ground and Tail Race Tunnel changed to Tail Race Channel. Additional work like micro piling, flood protection wall, cladding wall have been introduced in Power House. Expenditure under factors like Price Escalation & Statutory Levies have also resulted in the increase in cost under this head.	
2.2.5	Total	68760.33	22403.13	22403.13	22403.13	22403.13	46219.07

3	Hydro Mechanical equipments								
4	Plant & Equipment								
4.1	Supply, fabrication & erection of Turbine, Generator etc; Supply & Erection of Switch yard and Supply and erection of Transformer							The increase is mainly due to changes in capacity / specification during detail design and engineering. Penstock Butterfly valve and Shunt Reactor have been introduced as per design requirement. Besides, expenditure towards Price Escalation also resulted in the increase in cost. Further, NPV of Rs 1.46 crore was paid towards forest land diverted by MOEF, GOI for laying 132 kv Tenga-Buragaon-Bichom Transmission Line. However, there is decrease in cost due to waive off of Excise Duty for Kameng HEP as per the relevant guidelines of Govt. of India.	
4.1.1	Preliminary	56921.92	35694.57	48924.36	63644.08	76312.94	-19391.02

Details of Project Specific Loans

Name of the Company : NORTH EASTERN ELECTRIC POWER CORPORATION LTD.
Name of the Generating Station : Kameng Hydro Power Station

(Amount in Lacs)

Particulars	Term loan No.78202005
Source of Loan	Power Finance Corporation Ltd
Currency	INR
Amount of Loan sanctioned	223,968.00
Amount of Gross Loan drawn upto COD	178,279.25
Interest Type	Floating
Fixed Interest Rate, if applicable	Lending rate prevailling at the time of drawal with a interest reset at the end of every 3 years
Base Rate, if Floating Interest	N.A.
Margin, if Floating Interest	
Are there any Caps/Floor	N.A.
If above is yes,specify caps/floor	N.A.
Moratorium Period	
Moratorium effective from	26-Jul-05
Repayment Period	15 years
Repayment effective from	10-Oct-17
Repayment Frequency	Quarterly
Repayment Instalment	2971.32
Base Exchange Rate	N.A.

Note: The PFC loan was fully prepaid on 1st October , 2014.

PART-II
FORM-9A

Year wise Statement of Additional Capitalisation after COD

Name of the Petitioner : **NORTH EASTERN ELECTRIC POWER CORPORATION LTD.**
Name of the Generating Station : **Kameng Hydro Power Station**
COD
For Financial Year

Sl. No.	Head of Work / Equipment	ACE Claimed (Actual / Projected)				Regulations under which claimed	Justification	Admitted Cost by the Commission, if any
		Accrual basis	Un-discharged Liability included in col. 3	Cash basis	IDC included in col. 3			
1	2	3	4	5=3-4	6	7	8	9

1. In case the project has been completed and cost has already been admitted under any tariff notification(s) in the past, fill column 10 giving the cost as admitted for the purpose of tariff notification already issued by (Name of the authority) (Enclose copy of the tariff Order)

2. The above information needs to be furnished separately for each year / period of tariff period 2014-21.

3. In case of de-capitalisation of assets separate details to be furnished at column 1, 2, 3 and 4. Further, the original book value and year of capitalisation of such asset to be furnished at column 8. Where de-caps are on estimated basis the same to be shown separately.

4. Where any asset is rendered unserviceable the same shall be treated as de-capitalised during that year and original value of such asset to be shown at col. 3. And impaired value if any, year of its capitalisation to be mentioned at column 8.

5. Justification against each asset of capitalization should be specific to regulations under which claim has been made and the necessity of capitalization of that particular asset.

Note:
1. Fill the form in chronological order year wise along with detailed justification clearly bringing out the necessity and the benefits accruing to the beneficiaries.
2. In case initial spares are purchased along with any equipment, then the cost of such spares should be indicated separately. e.g. Rotor - 50 Crs. Initial spares- 5 Crs.

Summary of interest & FC as on 30.11.2020

ANNEXURE - II

No.7/22/99-Hydel-I
Government of India
Ministry of Power
******

Shram Shakti Bhavan, Rafi Marg
New Delhi, dated the 2nd December,2004

To

Shri S.C. Sharma,
CMD,
NEEPCO
Shillong.

Subject:- Execution of Kameng Hydro-electric Project (600 MW), in the Central Sector – Investment approval.

Sir,

I am directed to convey the approval of the President of India in terms of the Articles of Association of the North East Electric Power Corporation (NEEPCO) for setting up of Kameng Hydro Electric Project (4x150=600 MW), Arunachal Pradesh, in the Central Sector at an estimated cost of Rs.2496.90 crores including IDC of Rs.249.09 crores at March, 2004 price level, with a debt equity ratio of 70:30, which includes Rs.94.54 crores sanctioned for stage-II activities. The project cost is subject to adjustment in accordance with the final recommendation of CEA/CWC on the component of Establishment cost. Manpower should be sourced through redeployment of surplus staff to the extent possible. The abstract of cost is at Annex to this letter.

The project would be completed within a period of 60 months from the date of investment approval by the Govt. of India. NEEPCO should take necessary measures for timely completion of the project in the light of the fact that a number of projects executed by NEEPCO have seen huge time/cost overrun. The sanction accorded above is subject to the following conditions.

(i) The economy instructions issued by the Government of India from time to time, should be observed.

(ii) The actual expenditure should not exceed the budget allocation of each year; and

(iii) The expenditure will be related to the purpose for which it is sanctioned.

नॉर्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली NEEPCO New Delhi North Eastern Electric Power Corporation

4. NEEPCO will submit quarterly report to the Ministry of Power indicating financial and physical progress of implementation of the activities covered by this sanction.

5. The expenditure on the project is to be met by NEEPCO with debt equity ratio of 70:30. The budgetary support from the Government in the form of equity for this project is debitable to the following Heads in the Demands for the Grants of the Ministry of Power for the current year and the subsequent years for which these funds have been/will be released :

Major Head –"4552" Capital Outlay on North Eastern Areas
Minor Head - 00.800-Other expenditure
15-Projects/Schemes for the benefit of NER and Sikkim
15.02.42 Lum Sum Provision.

6. This issues with the concurrence of IF Division of Ministry of Power vide Dy. No 1358/Bud. dated 1.12.2004.

Yours faithfully,

Encl: As above

(Mehar Chand Jhamb)
Under Secretary to the Govt. of India

Subject:- Revised Cost Estimate (RCE) in respect of Kameng HEP (600 MW) of NEEPCO Ltd..

Please refer your letter no. 7/10/2015-H-I dated 20/25.01.2016 addressed to Chairperson, CEA on the above cited subject.

2. Vetted hard cost of Kameng HE Project amounting to Rs. 4617.36 crores and total cost of the project including IDC & FC amounting to Rs. 6085.84 crores at March, 2015 price level was communicated to MOP vide CEA letters of even nos. dated 9.10.2015 and 6.11.2015 respectively. In terms of meeting taken by Joint Secretary (Hydro), MOP on 27.11.2015, the provision made in the RCE under the Head – Establishment was reviewed. After review, the vetted establishment cost in the RCE was revised from Rs.196.82 crores to Rs. 304.13 crores and was communicated to MOP vide CEA letter dated 18.01.2016. Accordingly, vetted hard cost of the project has been revised from Rs.4617.36 crores to Rs. 4724.67 Crores at March, 2015 price level and total cost of the project including IDC & FC charges has been revised from Rs.6085.84 crores to Rs. 6179.96 Crores. Abstract of Revised Cost Estimates of the project at March, 2015 price level is enclosed at **Annex- I.** Detailed breakup of cost of civil and E&M works is enclosed at **Annex – II** and **Annex – III** respectively.

3 Variation Analysis

3.1 Variation in Total Cost

Total vetted revised hard cost of project is Rs.4724.67 crores at March, 2015 price level against the CCEA approved hard cost of Rs.2247.81 crores at March'04 price level. There is an increase of Rs. 2476.86 Crores (110.19 %) from CCEA approved cost. Details are as under:

Fax to:- CD (Projects) Hydro for kind perusal.

~ 120 ~ 16.3.16

Director (Tech).

(Rs. In crores)

Item	CCEA Approved Cost (March, 2004 PL)	Vetted cost by CEA/CWC (March, 2015 PL)	Variation with respect to CCEA approved cost	
			Rs. Crores	Percentage (%)
1	2	3	4 (3 – 2)	5
Civil Works	1678.59	3988.17	2309.58	137.59
E&M Woks	569.22	736.50	167.28	29.39
Hard Cost	2247.81	4724.67	2476.86	110.19

3.2 Head wise variation in Hard Cost of Civil Works

Total vetted hard cost of civil works is Rs. 3988.17 crores at March, 2015 price level against the CCEA approved cost of Rs.1678.59 crores at March, 2004 price level. There is an increase of Rs.2309.58 Crores (137.59 %) from CCEA approved cost. Head wise variation in cost of civil works is as under:

S. No.	Description	Increase over CCEA approved Cost (Rs Crores)
1	Price Escalation	1085.06
2	Change in Design	278.01
3	Additional Requirement	1022.62
4	Change in Scope	0.00
5	Inadequate/Over provision	100.81
6	Other Causes	-176.92
	TOTAL	2309.58

3.3 Head wise variation in Hard Cost of E&M Works

Total vetted hard cost of E&M works is Rs. 736.50 crores at March, 2015 price level against the CCEA approved cost of Rs.569.22-crores at March, 2004 price level. There is an increase of Rs.167.28 Crores (29.39 %) from CCEA approved cost. Head wise variation in cost of E&M works is as under:

S. No.	Description	Increase over CCEA approved Cost (Rs Crores)
1	Price Escalation	125.03
2	Exchange Rate Variation	-
3	Statutory Levies	-3.13
4	Change in Design / Scope	23.93
5	Inadequate/Over provision	-33.66
6	Others	55.11
	Total	**167.28**

4. Tariff and Financial Package

Considering the capital cost of Rs.6179.96 crores, the first year tariff and levelised tariff works out to Rs. 4.46/kWh and Rs. 4.14/kWh respectively based on the CERC Norms. Summery of Financial Package is given at **Annex- IV.**

5. Justification / Reasons for Time and Cost Overrun

Reasons for time overrun and cost overrun in brief is enclosed at **Annex - V.**

ANNEX - IV

Kameng HEP (4x150 MW) in Arunachal Pradesh by M/s NEEPCO

Financial Package

(Based on Present Day Cost at Price Level March, 2015)

Source of Financing	(Rs. crore)	% of total project cost
Equity (Govt. of India)	1853.99	30%*
Debt Domestic Commercial Borrowing (PSU Bonds & FI Loan)	4325.97	70%
Total (Equity + Debt)	6179.96	100%

*Equity deployment as on March, 2015 is 21.53% of total actual expenditure up to 31st March, 2015.

Term of Loan

Sl. No.	Item				
1.	Source of Debt	PSU Bonds			FI Loan
		XIVth Series	XVth Series	XIVth Series	
2.	Loan Amount (Rs.Crs)	2287.37	442.43	600.00	996.17
3.	Interest rate (Per annum)*	9.60%	9.15%	8.68%	11.65%
4.	Financing charges (Rs. crs.)#	1.67	0.22	0.57	-nil-

*Up March, 2015, the IDC has been considered based on actual amounting to Rs. 709.26 crore including interest on PFC loan, Short Term Loan (STL) and Bond (2nd Tranche). These loans were replaced by Bonds (XIVth & XVth series).

Up March, 2015, financing charges of Rs. 51.95 crore has been considered based on actual including pre-payment charges of Rs. 50.08 crs. & commitment fees of Rs. 0.06 crs. on PFC loan and Rs. 1.81 crs. on Bonds. From April, 15 to COD of station, the remaining financing charges of Rs. 0.69 crs. is being estimated.

JUSTIFICATION / REASONS FOR TIME AND COST OVERRUN

REASONS FOR TIME OVERRUN.

The Project was scheduled to be completed by Dec'09 as per the CCEA sanction conveyed by MOP vide letter dated 02.12.2004. On receipt of investment approval project works were started and major Civil Packages were awarded during December, 2004 and works commenced. However, during execution of the project, various problems were encountered leading to delay in commissioning of the project. The prominent hindrances are changes in design parameters/change in scope, poor geology in Head Race Tunnel (HRT), in High Pressure Tunnel (HPT) and in Power House site and devastating floods caused by cloud burst in the vicinity of the project on 27th -28th Oct 2008, amongst others. The commissioning of the project is now proposed as March 2017. Thus, the Project has incurred a time overrun of 87 (eighty seven) months. The main reason for time overrun is mainly due to poor geology in the 14.50 Km long Head Race Tunnel (HRT) and changes in design parameter of the project. Time overrun of 87 months arises due to primary time lost in execution of HRT which overshadowed other hindrances and delay in other work fronts. Item wise reasons for delay in brief are given below:

a. Geological and Geotechnical Reasons

- There have been slope failures in power house, collapses at different chainage along the HRT alignment. Considerable time was lost in taking preventive measures apart from additional time required for carrying out restoration works.
- Due to very poor geology and huge ingress of water resulting in formation of day light cavity Adit-VI was abandoned for which approximately 9 months were lost.
- Squeezing of tunnel, cavity formation and high seepage coupled with shear zone at different chainage in Face III had resulted in time overrun of 12 months.
- Major changes in construction methodology and deployment of equipment.
- Due to unstable character of the rock strata encountered in powerhouse area, powerhouse has been planned as surface structure located in open excavated pit with stable slopes and berms from top to bottom. Tail race channel was redesigned as open channel. In spite of re-designing the slope failures had occurred on many occasions. Slope failures had resulted in hold up of powerhouse excavation.

b. Change in Design Parameters

The following post award changes have taken place during execution for which considerable time was taken in finalization of the revised design parameters of the major structures of the project.

- Spillway Crest level was lowered by 20 m (i.e. from EL 755 m to EL 735 m) for Bichom Dam
- Change in Penstock profile from fully underground to partly over ground due to difficulties in tunneling in poor geology.
- Change in Tail Race System i.e. Tail Pool Tunnel to Tail Race Channel.

उत्तर पूर्वी इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली NEEPCO New Delhi North Eastern Electric Power Corporation

c. **Increase in volume of various works**

Increases in quantities of items at different locations are as under:

Item	Original Qty.	Revised Qty.	Increase in Qty.	Increase in %
Bichom Dam				
Excavation	1.91 Lac Cum	8.05 Lac Cum	6.14 Lac Cum	322
Reinforcement Steel	4200 MT	10000 MT	5800 MT	138
Concrete	2.62 Lac Cum	4.04 Lac Cum	1.42 Lac Cum	54.20
Tenga Dam				
Excavation	0.29 Lac Cum	1.35 Lac Cum	1.06 Lac Cum	366
Reinforcement Steel	2810 MT	2852 MT	42 MT	1.5
Concrete	0.28 Lac Cum	0.93 Lac Cum	0.65 Lac Cum	232
Power House				
Excavation	3.40 Lac Cum	10.85 Lac Cum	7.45 Lac Cum	219
Reinforcement Steel	4200 MT	5947 MT	1747 MT	42
Concrete	0.31 Lac Cum	0.75 Lac Cum	0.44 Lac Cum	142

Grouting works also increased primarily due to geological features in the dam abutments and the foundation.

d. **Increase in length of Diversion Tunnel**

Diversion Tunnel of 240 m length was adopted in combination with channelized river diversion to facilitate construction of Bichom Dam. However, due to shifting of outlet portal, completion length of Diversion Tunnel was executed to 368.32 m.

e. **Flooding of Tunnel**

Flash flood during 27th- 28th Oct 2008 at 2(two) different locations, namely Bichom & Tenga sites, damaged the approach roads to the work fronts and washed away the plants & equipments of the contractors. Considerable time was taken to restore the work front.

नॉर्थ ईस्टर्न इलेक्ट्रिक पावर कॉर्पोरेशन नई दिल्ली NEEPCO New Delhi North Eastern Electric Power Corporation

REASONS COST OVERRUN

Revised vetted cost of the project is Rs. 6179.96 Crores including IDC & FC at March, 2015 price level against sanctioned cost of the project amounting to Rs. 2496.90 crores including IDC & FC at March, 2004 price level. There is an increase of Rs.3683.06 crores compared to CCEA cleared cost of the project. Reasons for cost overrun are mainly attributed to following:

- **Inadequate /Over Provision:** There is net Inadequate/over provision of Rs 67.15 crores which includes Rs 100.81 crores for Civil works and Rs. (-) 33.66 crores for Electro-Mechanical works.
- **Price Escalation:** There is an increase of Rs.1210.09 crores towards Price escalation over approved cost which includes Rs 1085.06 Crores for Civil works and 125.03 crores for Electro-Mechanical works as per contract agreement formula.
- **Statutory levies:** There is a net decrease of Rs 3.13 Crores over approved cost occurred due to change in taxes as per Govt. notifications.
- **Addition / Deletion:** There is an increase of Rs.1022.62 Crores in cost due to addition / deletions of items.
- **Design / Scope:** There is an increase of Rs.23.93 Crores for E&M works and Rs.278.01 crores for civil works in cost due to change in design / scope of various works. Total increase under this head is Rs. 301.94 crores.
- **Others:** There is a net decrease of Rs 121.81 Crores due to other miscellaneous reasons.
- **IDC & FC:** There is an increase of Rs. 1206.20 crores (IDC – Rs.1153.57 crores + FC – Rs. 52.63 crores) over sanctioned cost on account of increase in Capital cost & Time overrun of 87 months.

EXTRACT OF THE MINUTES OF THE 280TH BOARD MEETING OF NORTH EASTERN ELECTRIC POWER CORPORATION LTD. HELD ON MONDAY, 14TH AUGUST, 2023 AT THE BOARD ROOM OF NEEPCO OFFICE, BROOKLAND COMPOUND, LOWER NEW COLONY, SHILLONG FROM 12:30 PM TO 3:00 PM

AGENDA NO.280.25

PROPOSAL SEEKING APPROVAL OF THE BOARD OF DIRECTORS OF NEEPCO FOR REVISED COST ESTIMATE AT COMPLETION COST (FEB'21 PL) IN RESPECT OF KAMENG H.E PROJECT (4X150 MW), ARUNACHAL PRADESH.

The Director (Technical) presented the agenda and explained its background. The Board was informed that the Investment approval of Kameng Hydro Electric Project (4x150 MW), Arunachal Pradesh was accorded by CCEA on 2nd December 2004 with completion time of the Project within a period of 60 months (i.e Dec'09). The CCEA approved cost of the project was Rs.2496.90 Cr (including IDC & FC of Rs 249.90 Cr) at March'2004 PL. NEEPCO awarded major Packages of the Project during December, 2004 and works commenced accordingly as per the drawn-up schedule. The Project however suffered delay due to various hindrances encountered during execution of the Project *viz.* change in design parameters, poor geology, flash floods, restoration of Penstocks, amongst others, resulting into time and cost overrun.

The Board was informed that all major structures of the Project viz., *Dam, Water Conductor System, Power House Civil Works, HM Works, EM Works* were completed in March 2018. But, during initial filling of the Water Conductor System, leakage was noticed in some joints of Penstock- I & II. Therefore, commissioning activities were temporarily suspended to facilitate repairing work of Penstock-I & II. The restoration works of Penstock-I was completed on 8th Oct 2019 and the first two units linked to penstock-I viz. Unit-1 & 2 were declared under commercial operation on 17th June 2020 and 1st July 2020 respectively. Subsequently, the restoration of Penstock-II was completed on 27th Nov'20 and generating units linked to penstock-II *viz.* Unit-3 & 4 were declared under Commercial Operation on 22nd Jan 2021 and 12th Feb 2021 respectively. The commissioning and COD of the project was also apprised to the MoP, GoI on 18th February 2021.

It was informed that RCE of the Project was submitted to CEA from time to time at price levels of Sept'2008, Dec'2010, Dec'2011, Dec'2014, Mar'2015, Sept'2018 and June'2019 with due approval of the Board of Directors, NEEPCO. However, the RCEs could not be taken up to the stage of approval as the Price Level become six months old during processing of RCE, necessitating updating of RCE at latest price level. Later on, the Board of Directors of NEEPCO in its 260th Board meeting held on 15.09.2020 resolved to process the RCE of Kameng HEP on completion cost upon commissioning of the Project.

Accordingly, the RCE of Kameng HEP at completion cost (Feb'2021 PL) is prepared for Rs.8404.47 Cr including IDC & FC of Rs.2747.44 Cr. The RCE at completion cost includes a provision of Rs 128.88 Crs against committed liabilities and Rs 16.13 Crs for balance works.

The hard cost and soft cost break up of Revised Cost Estimate (RCE) on completion cost vis-a-vis CCEA approved cost was explained to the Board, the details of which are as follows:

Rupees in Cr

Direct Charges	CCEA Approved Cost at Mar'04 PL	RCE at Feb'21 Price Level				
		Expenditure up to COD (Feb-21 PL)	Expenditure incurred after COD	Committed Liabilities	Balance expenditure	Total Cost
Hard Cost	2,247.81	5,387.79	141.04	128.88	16.13	5,673.84
IDC &FC	249.09	2,747.44	-	-	-	2,747.44
G. Total	**2,496.90**	**8,135.23**	**141.04**	**128.88**	**16.13**	**8,421.28**
Less, infirm power	-	-	-	-	-	-16.81
Net Total	**2,496.90**	**8,135.23**	**141.04**	**128.88**	**16.13**	**8404.47**

The Project has experienced a cost overrun of Rs 5907.57 Cr and a time overrun of 134.37 months with respect to CCEA approval. The main reasons of cost overrun and time overrun are as below:

A. Reasons of Cost Overrun:

Sl.No	Description of cost overrun	Total (Rs Cr)	%age
1	Price Escalation	1145.52	19.39%
2	Change in Scope	3.49	0.06%
3	Under / Over provision	83.14	1.41%
4	Change in Design	305.07	5.16%
5	Additional requirement / New item/Addition/Deletion	1826.65	30.92%
6	Others Causes	-33.35	-0.56%
7	Statutory Levies (Service Tax, VAT, Cess, GST...)	62.47	1.06%
8	FERV	16.23	0.27%
9	IDC & FC	2498.35	42.29%
	Total	**5907.57**	**100.00%**

B. Reasons of time overrun:

Sl.No.	Activities on Critical Path	Time Overrun (months)
1	Blockage of access road from Bichom Colony to Adit-I on account of landslide, huge mass slide etc.	1.31
2	Delay in tunnel excavation at Face-I due to Blow out at Ch 422.60 m, Ch 584.48m, Ch 591.13m, Ch. 616.88m	17.02
3	Delay in tunnel excavation at Face-I due to Blow out at Ch1337.00m	5.49
4	Additional time taken in tunnel excavation on account of changed in rock classification which also have cascading effect on concrete lining	31.63
5	Bichom Dam excavation kept on hold due to non-finalization of construction drawings on account of change in certain design parameters of the major structures.	4.63
6	Flooding of Kameng HEP on account of cloud burst during Oct'2008	5.72
7	Rectification of Squeezing effect in different chainages of HRT Face-III.	24.26
8	Delay in Power House civil works due to Slope Failure	9.75
9	Restoration of Penstock-1	21.06
10	Restoration of Penstock-2	11.10
11	Additional time taken in commissioning activities on restart of works for Unit-3 & 4 after penstock restoration works.	2.40
	Grand Total (Months)	**134.37**

Meanwhile, as per procedure communicated by NTPC for approval of RCEs of NEEPCO & THDC on 19.05.21; the RCE of Kameng HEP at completion cost (Feb'2021 PL) amounting to Rs.8421.28 Cr including IDC & FC of Rs.2747.44 Cr. was submitted to the Designated Independent Agency (DIA) i.e. M/s Aquagreen Engineering Management Private Ltd. (AEMPL) for examination/vetting vide letters dated 26.12.2022 & 19.04.2023.

The DIA vide letter dated 24.04.2023 had recommended the time overrun of 134.37 months in the project stating that time overrun have occurred primarily due to geological reasons, change in design, flash floods etc. which were not attributable to the generating company. Subsequently, the DIA vide

letter dated 23.05.2023 vetted the Capital cost of the project as on COD for Rs 7,782.39 crore including IDC & FC of Rs.2,747.44 crore for tariff determination. However, during the process of vetting, the DIA had reduced the cost by Rs 638.89 Cr under the following heads.

a) Sale of infirm power amounting to Rs.16.81 Cr excluded from the project cost which is acceptable.

b) The provision of Rs.128.88 Crs against committed liabilities and Rs.16.13 Crs for balance works have been not considered by DIA, stating that the same shall be allowed to be capitalized as and when incurred and claimed. Accordingly, cost provisioned against these Heads are included in the RCE at completion cost.

c) DIA had excluded 50% of incurred cost (i.e Rs.18.69 Cr) against restoration works of Penstocks citing reference of CCIE-2. However, it is to state that this incurred expenditure was necessary for completion of the penstock restoration works and accordingly included in the RCE at completion cost.

d) Expenditures under the head," *O-Miscellaneous, P-Maintenance, Q-Special Tools & Plants, Ordinary Tools & Plants, Establishments etc.*" is restricted to the extent of CEA Guidelines for Formulation of Detailed Project Reports for Hydro-Electric Schemes. In the process, the RCE has been reduced by Rs.458.38 cr under these heads. This expenditure, necessary for completion of the project works was already incurred and thus forms an integral part of the project cost. Accordingly, expenditure actually incurred against the mentioned Heads are included in the RCE at completion cost.

The head wise break up of Revised Cost Estimate (RCE) on completion cost vis-a-vis Capital cost vetted by DIA was placed before the Board.

In the meantime, DPE had issued vide OM dated 26.10.22 regarding approval of the projects of subsidiaries company by exercising powers of Maharatna/Navratna holding CPSEs had clarified that '*the delegated powers are to be exercised by the Boards of Maharatna/Navratna/Miniratna CPSEs as the case may be, in respect of projects of concerned CPSEs only and not for their subsidiaries'.* The DPE vide OM dtd.17.04.23 had issued further clarification that their OM dtdt 26.10.22 would not alter the already delegated powers to Maharatna/Navratna on the issue of powers to establish financial JVs and wholly owned subsidiaries.

The RCE of Kameng HE Project at completion cost involves increase in cost beyond 20 percent of the firmed-up cost estimates due to time overrun, change in scope, under-estimation etc. (excluding increase in costs due to statutory levies, exchange rate variation and price escalation within the approved time cycle). The RCE of Kameng HE Project shall require vetting by CEA and recommendations of the Revised Cost Committee before the proposal is placed for appraisal of the PIB and approval by the CCEA in terms of para 9 of the Department of Expenditure OM dated 05.08.2016. Further, the RCE of Kameng H.E Project at completion cost require approval of Board of Directors, NEEPCO prior to submission to CEA/MOP as per the Revised Guidelines for preparation and vetting of Revised Cost Estimates of Hydro Electric Projects of CPSUs communicated by MOP, GOI vide letter dated.16.10.2019.

During deliberation the Board opined that in order to improve the commercial competency of the company, NTPC Commercial team may provide handholding to NEEPCO Commercial wing in a long term basis.

On a query, it was informed that after CEA Vetting, the Revised Cost Estimate of Kameng H.E Project will be sent to NTPC for its appraisal. The Board desired that the same may be mentioned in the Board Resolution as well.

The Board after detailed deliberation approved the following resolution:

RESOLUTION:

RESOLVED to approve the Revised Cost Estimate of Kameng H.E Project at completion cost (Feb'21 PL) amounting to Rs.8404.47 crores including IDC & FC of Rs 2747.44 crores along with time overrun of 134.37 months.

RESOLVED FURTHER THAT NEEPCO shall take necessary action for submission of the Revised Cost Estimate of Kameng H.E Project at completion cost (Feb'21 PL) to CEA/MOP for examination and approval.

RESOLVED FURTHER THAT the Revised Cost Estimate of Kameng H.E Project at completion cost (Feb'21 PL) shall be apprised to NTPC after completion of CEA vetting.

Sub: Kameng H.E. Project (600 MW), Arunachal Pradesh executed by NEEPCO-Vetting of Time overrun in RCE at Completion cost.

Sir,

Investment approval of Kameng H.E Project for implementation by NEEPCO was accorded on 2nd December 2004 with scheduled date of completion within 60 months (i.e Dec'09) from the date of CCEA approval. However, the last generating unit of the project was commissioned on 12th February 2021 resulting in a time overrun of 134.37 months.

Subsequently, the project cost estimate has been updated at Completion cost (Feb'21 PL) which works out to Rs 8404.47 Cr along with time overrun of 134.37 months.

The Abstract of RCE on completion cost vis-a-vis CCEA approved cost is as below:

Rs. in Crores

Direct Charges	CCEA Approved Cost at Mar'04 PL	*RCE at Completion cost*	Variation
Hard Cost	2,247.81	5,673.84	3,426.03
IDC &FC	249.09	2,747.44	2,498.35
G. Total	**2,496.90**	**8,421.28**	5,924.38
Less, infirm power	-	-16.81	-16.81
Net Total	**2,496.90**	**8404.47**	5,907.57

In this connection, reference is invited to the direction given by CEA, HPA through e-mail dated 07.12.2022 (Copy attached) to first obtain vetting of time overrun of the project from HPM division, CEA for further processing of RCE by CEA.

In view of above, a detailed background note for the time overrun of 134.37 months in respect of Kameng H.E Project along with supporting documents is forwarded herewith for examination and vetting please.

Thanking you.

Enclo: As above.

Yours faithfully,

23/08/23

ORDER

This Petition has been filed by the Petitioner, NEEPCO, for approval of the tariff of Kameng Hydroelectric Power Plant (KaHEP), with the following prayers:

(i) Approve the Project capital cost of Rs.8153.06 crore as on anticipated station COD along-with generating unit-wise capital costs for determination of tariff (generating unit-wise as well as generating station as whole) for the 600 MW Kameng Hydro Electric Plant based on its COD (actual for U#1 & 2 and projected for U#3 & 4).

(ii) Approve the normative IDC&FC of Rs.2744.01 crore in terms of Regulation 19(2)(b) of the Tariff Regulations, 2019 which is included in the Project Capital Cost indicated above.

(iii) Allow the Petitioner to file revised petition on actual expenditure in the event of revised financial package, if any. approve the AFC for Kameng (600 MW) Hydro Electric Plant (KaHEP) for the tariff period from COD to 31.03.2024 as per claim along with the petition for sale of power generated from the plant.

(iv) Allow recovery of filing fees of this petition from the beneficiaries.

(v) Allow recovery of publication expenses from the beneficiaries incurred.

(vi) Allow recovery from the beneficiaries any such tax, cess etc. levied on NEEPCO in relation to generation and supply/distribution of electricity.

(vii) Allow true up the gross up rate of return on equity at the end of every financial year in compliance to regulation 31(3) of the CERC Tariff Regulations 2019.

(viii) Allow modification/change in operational norms based on actual performance experienced by the generating station.

(ix) Allow additions/alterations/changes/modifications to the petition at a future date.

(x) Condone any inadvertent omissions/errors/differences/shortcomings.

(xi) Pass such order/orders as deemed fit and proper in the facts and circumstance of the case.

2. The Kameng Hydroelectric Project (600 MW) is located in the West Kameng District of the State of Arunachal Pradesh. The project is a run-of-the-river scheme, with pondage, envisaging utilization of the waters of the Bichom and Tenga Rivers (both tributaries of the Kameng River) for generation of power. The detailed investigations for the project were sanctioned by the Government of India in 1968. The Central Water Commission (CWC) prepared the DPR for the project in 1982, based on the investigation of the erstwhile Central Water & Power Commission (CW&PC). The Government of India in 1985, decided to execute the project in the Central Sector through the Petitioner. Accordingly, the project parameters were studied by the Petitioner for review, and a fresh proposal considering the views of CEA/CWC and technical developments that had taken place during that time was submitted to CEA in September 1989.

3. The project was accorded Government of India approval for execution by the Petitioner at an estimated cost of Rs.2496.90 crore, which included IDC & FC of Rs.249.09 crore at March, 2004 Price Level (PL) and with a commissioning schedule of 5 years, from the date of Government sanction (i.e. by 31.12.2009). The sanction was conveyed by the Ministry of Power, GOI on 2.12.2004.

4. The Petitioner, in the petition, has submitted that the project was scheduled for commissioning in March 2018, but due to leakages observed in the Penstocks during the pre-commissioning stage, the commissioning activities of Units-I & II were temporarily suspended to facilitate the repair work of Penstocks I & II. The rectification of Penstock-I was completed in October, 2019. The Petitioner has also submitted that the first two units of the project have been commissioned and have been in commercial operation since 17.6.2020 and 1.7.2020 respectively. It has been added that the commissioning activities of the third and fourth units were in progress and the units were expected to be put into commercial operation during February 2021.

5. Accordingly, the Petitioner, in anticipation of declaring the station COD by 20.2.2021, had filed the present petition for determination of tariff of the project based on the capital expenditure projected to be incurred up to the anticipated COD (i.e. 20.2.2021), for the period from COD of the units, till 31.3.2024 as per the provisions of the Central Electricity Regulatory Commission (Terms and Conditions of Tariff) Regulations, 2019.

6. Thereafter, Units-III and IV of the project were declared under commercial operation on 22.1.2021 and 12.2.2021, respectively. Accordingly, the Petitioner filed an affidavit on 31.7.2021, revising the tariff filing forms, after serving copies on the Respondents.

Hearing dated 16.2.2023

7. During the hearing of the Petition on 16.2.2023, the learned counsel for the Petitioner submitted that it had filed a revised Petition, keeping in view that all the

four units of the generating station, had achieved commercial operation. Accordingly, the Commission adjourned the matter, after directing the Petitioner to file certain additional information and for the parties to complete their pleadings.

Hearing dated 14.7.2023

8. During the hearing on 14.7.2023, the learned counsel for the Petitioner, submitted that the Revised Cost Estimate (RCE), based on the completion cost of the project, is under preparation for submission to the appropriate authorities for vetting and approval. She, accordingly prayed, that the Petitioner may be granted liberty to amend the petition, after approval of the final RCE by the competent authority.

9. On a specific query by the Commission with regard to the completion cost of the project, the learned counsel for the Petitioner submitted that the final RCE is Rs 8208.09 crore, as on 12.2.2021 with a hard cost of Rs. 5460.65 crore, plus IDC & FC amounting to Rs.2747.44 crore. On a further query, as to the basis on which tariff is being recovered from the Respondent beneficiaries till date, the learned counsel for the Petitioner submitted that based on the decision in the 35th CC meeting of NERPC on 21.3.2018, a provisional tariff of Rs. 4/kWh is being recovered from the beneficiaries, subject to the final determination of tariff for the generating station by the Commission.

10. The submissions have been considered. Admittedly, in the present case, the final RCE based on the COD of the units has yet to be submitted by the Petitioner to the Central Government for vetting and approval. Keeping in view that there will be a revision in the capital cost of the generating station after approval of RCE by the Central Government, we find no reason to keep this petition pending. Hence, we

are inclined to dispose of this petition, with liberty to the Petitioner to approach the Commission with a fresh tariff petition, in respect of the generating station after approval of RCE by the Central Government. We direct accordingly.

11. We also direct that the provisional tariff of Rs 4/kWh, being recovered by the Petitioner based on the decision in the 35th CC meeting of NERPC dated 21.3.2018, shall continue to be in operation till the tariff of the generating station is determined based on the approved RCE. The filing fees deposited by the Petitioner shall be adjusted against the fresh petition to be filed in terms of the liberty granted above.

12. Petition No. 51/GT/2021 is disposed of in terms of the above.

ANNEXURE-VI

BACKGROUND NOTE ON TIME AND COST OVERRUN OF KAMENG HE PROJECT, ARUNACHAL PRADESH EXECUTED BY NEEPCO.

1.0 BACKGROUND

1.1 Kameng HE Project (4x150 MW) in Arunachal Pradesh was accorded Government of India approval for execution by NEEPCO Ltd at an estimated cost of Rs.2496.90 crore which included IDC & FC of Rs.249.09 crore March, 2004 Price Level (PL) and the commissioning schedule of 5 years from the date of Government sanction (i.e. by 31.12.2009). The sanction was conveyed by Ministry of Power vide letter no. 7/22/99-Hydel-I dated 02.12.2004. As per Investment approval, the funding of Kameng HEP was proposed with Debt: Equity ratio of 70:30 which works out as below:

Debt	:	Rs. 1747.83 Crore.
Equity	:	Rs. 749.07 Cr.

1.2 The Project involves construction of 69.0 M high concrete gravity Dam across Bichom river and 24.50 M high concrete gravity Dam across Tenga river and a surface Power house on the right bank of river Kameng housing 4 nos. of generating units of 150 MW each. Water from Bichom reservoir is led to Kimi Power House across Tenga River, with suitable arrangements to add the Tenga waters into the HRT during the lean period only. Water conductor system from Bichom to Kimi Power House comprised of 14.527 km long, 6.70m dia Modified Horse Shoe shaped concrete lined Head Race tunnel. The design energy of the project is 3353 MU at 95 % machine availability with firm power of 168.86 MW.

1.3 The works of Kameng HEP (600 MW) have been executed through seven major Contract packages viz. Civil, Hydro Mechanical and Electro Mechanical as per details given below:

Sl. No.	Name of Work	Agency	Date of agreement	Scheduled Completion Date
1	Package-I: Civil Works of Bichom Dam, River Diversion, Tunnel Intake and HRT up to 4400 M ± 500 M	M/s Patel Unity JV-Mumbai	08.12.04	02.03.09
2	Package-II: Civil Works of Tenga Dam, River Diversion, Tenga Intake and HRT From 4400 M To 11600 M ± 500 M.	M/s Patel Engineering Ltd., Mumbai	08.12.04	02.03.09
3	Package-III: Civil Works of Balance HRT up to 14477 M, Surge Shaft, Pressure Tunnels, Power House and Tail Race Tunnels	M/s Patel Engineering Ltd., Mumbai	08.12.04	02.03.09
4	Package-IV: Hydro-Mechanical Works	M/s OMIL JSC JV,	17.12.04	02.03.09

		Delhi		
5	Package-V: Electro-Mechanical Works of Power House	M/s BHEL, Delhi	03.12.04	02.06.09
6	Package-VI: 400 KV & 132 KV Switchyard	M/s Techno Electric & Engg Co, Kolkata	30.03.09	05.01.11
7	Package-VII: Supply of Transformer	M/s BHEL, Delhi	04.06.08	27.07.10

1.4 NEEPCO initially submitted RCE-I of the project at different price levels of Sept'08, Dec'10, Dec'11, Dec'14, Mar'15, Sept'18 and June'19 from time to time as detailed below. The RCEs at Dec'11 and Mar'15 price levels were cleared by CEA but could not reach the stage of final approval.

i) RCE (Sept 2008 PL) amounting to Rs.3253 Cr. including IDC was submitted to CEA on 17.02.2009 based on the revised quantities on account of design parameters. However, during the process of scrutiny of the estimate at CEA, the Package contractor, on expiry of the scheduled contract period of March 2009, have appealed for revision of rate(s) on the balance BOQ items of major hydraulic structures on account of design changes amongst others. Thereafter, NEEPCO requested CEA vide letter dated 17.08.2009 to kept scrutiny of RCE (Sept'08 PL) on hold until a decision on revision of rate are firmed up.

ii) RCE (Dec'2010 PL) amounting to Rs. 4048.01 Cr (including IDC of Rs. 579.46 Cr) was submitted to CEA on 19.03.2011. However, the RCE was returned by CEA on 18.07.2011 requesting NEEPCO to submit a consolidated/ comprehensive document incorporating all relevant chapters of approved hydrology / civil design / E&M design / associated drawings / cost estimate etc along with approval of RCE by the Board of Directors, NEEPCO for consideration.

iii) A comprehensive updated project report along with RCE (Dec'10 PL) amounting to Rs. 4809.59 Cr was submitted to CEA on 11.10.2011. The subject RCE includes provision for extra works, provision for arbitration or re-tendering in case of cancellation of the contract. In the meantime, Member (Hydro), CEA convened a meeting on 24.04.2012 in respect of RCE of Kameng HEP and after detailed deliberation it was concluded that NEEPCO would update the cost of Civil works and E&M works and frame the cost estimates at latest price level excluding the provisions for the unresolved issues with the contractors.

iv) In line with the minutes of meeting taken by Member (Hydro) on 24.04.12, NEEPCO on 16.05.2012 submitted the updated RCE (Dec'2011 PL) amounting to Rs.5139.00 Cr to CEA. The RCE was cleared by CEA on 11.12.13 for Rs 4653.95 Cr including IDC & FC of Rs. 1187.69 Cr. However, during the meeting held on 18.02.2015 chaired by JS(H), MoP, NEEPCO was directed to submit RCEs at the latest price level (Jan 15 or

Feb 15 PL) complying with MoF Guidelines that estimates shall be based on latest Price Level not more than 6(six) months old.

v) Subsequently, an updated RCE (Mar'2015 PL) was submitted to CEA on 23.07.2015 for Rs. 6568.64 Cr (including IDC & FC of Rs. 1468.48 Cr) in compliance of CWC letter dated 24.06.2015 and vetted by CEA for Rs. 6179.96 Cr on 18.03.2016.

vi) Several meetings were conducted at MoP on the vetted RCE. During the meeting chaired by Revised Cost Committee (RCC) on 26.10.2018, it was concluded that the RCE at March 2015 PL may not be acceptable to PIB and advised NEEPCO for submission of fresh RCE at latest price level. Accordingly, the RCE was again updated to Sept 2018 PL for Rs.5269.34 (excluding IDC & FC) and submitted to MoP and CEA on 30.11.18 and 07.12.2018 respectively. Necessary clarificatory along with supporting documents as sought by CWC/CEA were submitted time to time. However, CEA on 10.04.2019 has desired that the RCE shall be updated at latest Price level.

vii) Accordingly, the RCE was updated at June'2019 PL amounting to Rs.7927.34 Cr (including IDC&FC of Rs 2480.22 Cr) and submitted to CEA on 30.08.19. However, CEA returned the RCE on 24.01.2020.

viii) The BOD, NEEPCO in its 260th meeting held on 15th Sept'21 resolved to process RCE at completion cost upon commissioning of the project.

1.5 The last unit of the project was commissioned and under commercial operation since 12.02.2021. Accordingly, the RCE of Kameng HE Project is updated at Completed Cost (Feb'2021 PL) amounting to Rs.8404.47 Cr (including IDC&FC of Rs 2747.44 Cr) with cost overrun of Rs 5907.57 Cr and time overrun of 134.37 months.

2.0 ANALYSIS OF TIME OVERRUN.

Several issues faced which attributed to the delay in completion of the project as scheduled in detailed project report. The detail analysis of the time overrun has been discussed RCE, Volume 1.

The details are tabulated in the following table:

Sl. No.	Activities on Critical Path	Time Overrun (months)
1	Blockage of access road from Bichom colony to Adit-I on account of landslide, huge mass slide etc.	1.31
2	Delay in tunnel excavation at Face-I due to Blow out at Ch 422.60 m, Ch 584.48m, Ch 591.13m, Ch. 616.88m & Ch1337.00m of HRT Face-I & II	22.51
3	Additional time taken in tunnel excavation on account of changed in rock classification which also have cascading effect on concrete lining	31.63

4	Additional time taken for finalization of construction drawings on account of change in certain design parameters.	4.63
5	Flooding of Kameng HEP on account of cloud burst during Oct'2008	5.72
6	Rectification of Squeezing effect in different chainages of HRT Face-III.	24.26
7	Delay in Power House civil works due to Slope Failure	9.75
8	Restoration of Penstock-1	21.06
9	Restoration of Penstock-2	11.10
10	Additional time taken in commissioning activities on restart of works for Unit-3 & 4 after penstock restoration works.	2.40
	Total (Months)	**134.37**

3.0 ANALYSIS OF COST OVER RUN:

The cost overrun of the project has been carried out based on the approved cost by Cabinet Committee on Economic Affairs (CCEA) of Government of India at Mar, 2004 price level and completed cost as on Commercial Operation Date (COD).

The cost over run on completion of the project is shown below:

Sl. No	Particular	Approved Cost (Mar'04 PL)	RCE (Completed Cost)	Variation w.r.t. Approved cost
1	Hard Cost	2247.81 Cr.	5673.84 Cr	3426.03 Cr
2	IDC, FC	249.09Cr.	2747.44 Cr	2498.35 Cr
3	Less Infirm power	-	16.81 Cr	16.81 Cr
Total		**2496.90 Cr.**	**8404.47 Cr**	**5907.57 Cr**

Head wise sanctioned cost, RCE cost and cost variation thereon is given below:

(In Rs. Crore)

Heads	Sanctioned Cost at Mar'04 PL	Completion Cost at Feb'21 PL	Variation	% variation
I- Works				

A-Preliminary	15.58	32.89	17.31	111.13%
B-Land	5.12	44.50	39.38	769.16%

IDC &FC	249.09	2,747.44	2,498.35	1002.99%
TOTAL COST	**2,496.90**	**8,421.28**	**5,924.38**	**237.27%**
Less Infirm Power		-16.81	-16.81	-
Total Completion Cost	**2,496.90**	**8,404.47**	**5,907.57**	**236.60%**

The breakup of cost overrun under variance head viz (PE, ERV,SLV, IDC & FC etc.) of Rs. 5907.57 crore is given as under:-

Sl.No	Description of cost overrun	Total (Rs Cr)	%age

1	Price Escalation	1145.52	19.39%
2	Change in Scope	3.49	0.06%
3	Under / Over provision	83.14	1.41%
4	Change in Design	305.07	5.16%
5	Additional requirement / New item/Addition/Deletion	1826.65	30.92%
6	Others Causes	-33.35	-0.56%
7	Statutory Levies (Service Tax, VAT, Cess, GST...)	62.47	1.06%
8	FERV	16.23	0.27%
9	IDC & FC	2498.35	42.29%
	Total	**5907.57**	**100.00%**

The head wise reasons of cost overrun are described in brief as below:

3.1 A - Preliminary: (Variation Rs.17.31 Cr.)

As per CCEA, the total cost approved under preliminary works is Rs. 15.58 Crs. This cost includes mainly the expenditure on survey & investigation, topographical survey works, geotechnical investigations, hydraulic model studies, preparation of DPR including preparation of construction drawings etc.

As on COD, the project has incurred Rs.32.89 Crs under this head and a sum of Rs 1.84 lakhs has been kept for balance work. This cost is increased mainly due to variation in cost due to under/over estimation which includes mainly the cost of topographical survey works, hydro-metrological works, hydraulic model studies, preparation of DPR and tender documents, consultancy charges and other miscellaneous expenditure etc. The actual amount incurred under this head is less than the limit according to CEA guidelines i.e 2 % of the "I – Works" of the project or as per actual expenditure, whichever is the least.

3.2 B- Land: (Variation Rs.39.38 Cr.)

The cost under this head covers acquisition of land, rehabilitation & resettlement including compensation for property, interest charges, Solatium charges, demarcation & measurement charges etc.

The CCEA approved cost under this head was Rs. 5.12 Crs. As on COD, the cost incurred due to land is Rs. 44.50 Crs. The major reasons for variation are highlighted as under;

a) The additional cost incurred due to the implementation of R & R plan as notified by Govt. of Arunachal Pradesh in terms of Environment Clearance approved by MOE&F, Govt. of India.

b) The additional cost is also attributed to appreciation in the cost of compensation determined by the Land Acquisition Officer, Government of Arunachal Pradesh over the original estimates.

c) In addition, other costs were incurred due to value of forest royalty, value of Building & other Immovable assets, Solatium charges for compulsory acquisition of land /Land Revenue to Government and cost of demarcation & measurement of land.

3.3 C-Works: (Civil & HM works Rs 547.64 Cr).

The project components under this head are Coffer Dam, Diversion Tunnel and Concrete Gravity Dam works. As per CCEA, the total cost of C-works was Rs. 453.07 Crs. The actual cost incurred as on date under C-works is Rs. 953.24 Crs. There is a provision of Rs 47.47 Crs against committed liabilities. Hence, total cost under this head stands at Rs 983.40 Crs.

i) **Price Escalation (Rs 190.16 Crs):** There is increase of Rs.**190.16** Cr. due to price escalation as per contract provision.

ii) **Scope / design change (Rs.63.06 Cr.):** The increase in cost is due to incorporation of new items like construction sluices (not included in DPR) and extra work due to change in design parameters of civil works. However, due to change in design parameters there is reduction in quantity of concrete items & excavation items w.r.t DPR in respect of Tenga Dam under Package-II work. The overall cost variation due to scope/design change is Rs.63.06 Crs.

iii) **Additional requirement (Rs. 362.99 Cr.):** The cost has increase due to incorporation of some additional items due to site requirement such as restoration works after flooding of Bichom Dam & Tenga Dam, cost towards transportation of quarry materials from Govt. Approved quarry, service tax, Dismantling and relocation of Batching Plant including associated components, Dismantling of Rope Way & Reimbursement of cost of design, manufacture, procurement mobilisation erection and commissioning of ropeway, Re-alignment of Access roads including protection works, Restoration of Temporary Causeway over Sudu Nallah, River diversion works including design, construction, maintenance, dismantling and disposal of cofferdams, temporary ring bunds including removal of slush/silt from the working area after floods, Construction of Colcrete Coffer Dam among others. Further, as per model studies, construction of Bichom plunge pool is necessitated for energy dissipation and river banks protection for which an amount of Rs 33.79 Crs has been provisioned including construction of temporary approach to work site. The overall cost in this additional requirement is Rs. 362.99 Crs.

iv) **Over / Inadequate Provision (-Rs.112.27Cr.):** The cost had decrease mainly due to less quoted price in compared to DPR rate by the Package -I contractor against some grades of concrete.

v) **Other causes (-Rs.4.44 Cr.):** The resultant negative variation has occurred due to the rebate offered by Package-I, II, III & IV contractor and quantity variation.

- Rebate offered by Package-I & II Contractor : 10%
- Rebate offered by Package-III Contractor : 13%
- Rebate offered by Package-IV Contractor : 0.5%.

vi) **Statutory Levies (Rs.31.91Cr.):** The increase in cost is due to payment towards service tax, Cess, GST etc.

vii) **Exchange Rate Variation (Rs 16.22 Cr):** The increase in cost is due to booking of expenditure towards the Arbitration award passed and published by Hon'ble Arbitral Tribunal Justice B.P Kataky (Retd.) dated 23.04.2017 against claim no 2 towards Foreign Exchange Variation in respect of Hydro-Mechanical works.

3.4 J-Power Plant: (Civil & HM works Rs 1165.35 Cr).

The project components under this head are Head Race Tunnel, Adits, Surge shaft, Pressure shaft, Powerhouse, Tail Race channel, Switchyard and HM works. The CCEA cost under this head was Rs. 687.60 Crs. The actual cost incurred as on date under J-works is Rs. 1828.64 Crs. There is a provision of Rs 23.28 Crs against committed liabilities.

i) **Price escalation (Rs.446.18 Cr.):** There is increase of Rs.442.76 Cr due to price escalation. The variation is due to escalation on quoted rates of J-Power Plant Civil Works as per escalation formula given in the contract agreements. The price escalation is worked out on quarterly based on WPI for labour, materials and POL etc

ii) **Scope / design change (Rs.252.74 Cr.):** There is increase cost due to changes in design parameters of project components like HPT Power House Dam etc there have been both positive and negative variations in the quantity/cost of items of works. Extra work like micro piling, flood protection walls, cladding wall in Powerhouse and the impact due to change in penstock profile from fully underground to partly underground and partly over ground, change of Tail Race System from Tail Race Tunnel to Open Channel under Package-III contract has also contributed in variation of cost. The total increase in cost under this is Rs. 252.74 Crs.

iii) **Additional Requirement (Rs.406.09 Cr.):** There is increase of Rs. 405.96 Cr due to encountering of poor rock during tunnel excavation. Due to poor geology, extra work items were executed to restore the damaged work fronts due to collapses/flooding/seepages and to take preventive measures such as advanced ground stabilization method, PU/micro fine cement grouting, etc. The increase in cost has also taken place due to the cost towards transportation of quarry materials, service tax & cost towards penstock restoration which was not envisaged during DPR stage.

iv) **Over / Inadequate Provision (-Rs. 17.43 Cr.):** The decrease in cost is mainly due to less quantity execution of certain BOQ items under Package I work due to change geological condition.

v) **Others (Rs.63.53 Cr):** Positive variation has occurred due to dewatering at HPT beyond BOQ quantity under package III.

viii) **Statutory Levies (Rs 33.89** Cr): The increase in cost is due to payment towards service tax, Cess, GST etc.

3.5 K-Building: (Variation Rs.14.76 Cr.)

The provisions under this head covers the Residential / Non-residential buildings Office buildings Testing laboratories Workshops Other Service Buildings Community Centre etc. that required during the construction phase and the operation and maintenance stage. The CCEA cost for this work was

Rs. 69.94 Crs. Actual cost incurred as on date is Rs. 72.87 Crs and there is a provisioned of Rs 10.0 Crs against committed liabilities and Rs 1.82 Crs for buildings to be constructed beyond COD. Hence, total cost under this head is Rs 84.70 Crs with cost overrun of Rs. 14.76 Crs.

The cost overrun have occurred due to the following:

i. **Price Escalation** (Rs. 8.18 Crs): There is increase in cost due to increase in the price index of labour and materials.

ii. **Additional Requirement** (Addition/Deletion) (Rs. 2.55 Crs): The increase in cost of buildings is primarily due to increase in Plinth Area rate of different residential & non-residential buildings, provision for more numbers of quarters are per actual requirement, inclusion of an Auditorium building, inclusion of some items which was not incorporated in the approved estimate, increase in cost of building as per tender quoted by the contractors etc. The total cost incurred under this head is Rs. 2.55 Crs.

iii. **Statutory Levies** (Rs 4.02 Crs): The increase in cost is due to payment towards service tax, Cess, GST etc which was not envisaged in DPR.

3.6 **M-Plantation (- Rs.1.14 Cr):** This head covers plantation program, garden, parks and lawns etc. The total cost provisioned in CCEA under this head was Rs. 170 Crs. As on COD, the total expenditure under this head is Rs. 0.56 Crs which is less than the CCEA approved cost and there is no provision for balance work. This negative variation has occurred due to variation of provision with the DPR against camp equipment shed and other misc expenses etc.

3.7 **O-Miscellaneous: (Variation Rs.25.98 Cr)**
The provisions under this head cover the capital cost & maintenance of Water supply Sewage disposal and drainage works, Recreation, Medical, Firefighting equipment, Inspection vehicles, School bus, pay van visit of dignitaries Welfare works etc.
Total cost provision kept under the head O-Miscellaneous in CCEA was Rs. 33.24 Crs. The expenditure under this head as on COD is Rs. 59.22 Crs. Hence, there is increase of Rs. 25.98 Crs from CCEA approved cost under this head. The main reasons are due to under estimation in approved cost estimate against the works- electrification for construction power, inspection vehicles, transit camp, water supply, electricity bills for colony and grant to school etc. and due to extended construction period of the project.

3.8 **P-Maintenance (Rs 28.63 Cr):** The maintenance of all the works during the execution of the project have are accounted under this head. There is a total positive variation of Rs.28.63 Cr due to increase in cost towards C-Works, J-Power Plant and K-Buildings.

3.9 **Q-Special Tools & Plant (Rs. 1.66 Cr):** This head deals with the special equipment needed for the project such as Drilling & Grouting equipment, Transport, Compaction, Electrical equipment, Construction Plant & Earth Moving equipment and other miscellaneous equipment. The increase in cost is due to purchase of equipment for construction of project approach roads of about 121 Km connecting three different work sites at Tenga, Bichom & Kimi.

3.10 R-Communication: (Variation Rs.51.99 Cr.)

The cost incurred for construction of main approach roads, quarry roads, temporary or permanent river crossing, bridges and helipad required for the project are considered under this head. The total cost provisioned for this head in CCEA was Rs. 220.39 Crs. The cost incurred as on COD is Rs. 246.62 Crs. In addition, there is a provision of Rs. 13.66 Crs for committed liabilities and Rs 12.09 Crs for balance works to be carried out beyond COD. Hence overall cost under R-Communication is Rs. 272.38 Crs. Total positive variation of Rs.51.99 Cr. has occurred. The basic reason is due to increase in cost during award of work to different agencies engaged in construction of approach roads to various work fronts and reconstruction of roads due to washed away of roads by monsoon flood and heavy rainfall, construction of project internal access roads, provision for construction of balance steel girder on Pinjori-Kimi road which is under verge of completion.

3.11 X- Environment & Ecology (Variation Rs. 72.69 Cr.): This head covers the cost incurred under the items like compensatory afforestation catchment area treatment reservoir rim treatment fisheries development environment monitoring etc. The CCEA clearance approved an amount of Rs. 65.54 Crs under this head. The expenditure under this head up to COD is Rs. 138.23 Crs which includes a sum of Rs 2.18 Crs for payment against committed liabilities. The overall cost under the head X-Environment and Ecology is Rs. 138.23 Crs. Thus, the total cost overrun is Rs. 72.69 Crs. The main reason for the cost overrun is due to increase in cost of CAT plan released to Govt. of Arunachal Pradesh as per their revised submission and provision for construction of Fish Hatchery at Bichom Dam colony as per Environment & Forest clearance stipulations etc.

3.12 Audit and Account: (Variation Nil.)

The CCEA approved an amount of Rs. 15.66 Crs under this head. As on COD, an amount of Rs. 15.66 Crs has been incurred under this head.

3.13 Establishment (Variation Rs. 980.30 Cr): The establishment expenditure is regulated by entitlement of officers and staff which includes pay revision, DA, annual increment & other staff benefits. At the time PIB/CCEA approval, it is stated that during execution of the project, a total number of 500 NEEPCO personnel are proposed to be engaged. Recruitment/creation of posts would depend on the progress of works. Accordingly, manpower for the project has been adequately strengthened in phased manner as per requirement. The average manpower deployed in the project since inception till COD is broadly within proposed manpower envisaged in PIB Memo. Nevertheless, the establishment cost has increased due to the following reasons:

(i) An expenditure of Rs.94.54 crore, prior to sanction (before zero date i.e. 02.12.2004) of the project was incurred; this cost has been booked under establishment expenses.

(ii) The project is spread over vast area. The Kimi Power House site is situated at a distance of about 71 Km from Bichom dam site and 45.42 KM from Tenga Dam site. Since all the above sites are separated by far distances, three establishments/ offices were set up at Bichom Dam

site, Tenga dam site and Kimi Power House site, with adequate manpower and infrastructures for effective monitoring.

(iii) The increase in salary and wage revision w.e.f 01.01.1997, 01.01.2007 and 01.01.2017. The financial impact due to revised pay, increase in DA & increment amounts to Rs 156.33 Cr.

(iv) The establishment cost includes the effect of increase of Dearness Allowance (DA) from Dec '2004 to Dec '2006, by 13.80 % before wage revision. It also includes increase in DA by 125% during period from Jan '2007 till Jan'2016 and by 17 % from June'16 till Feb'21, after wage revision.

(v) Annual increment given to the employees as per prevailing GOI policy have also attributed to the cost overrun in the establishment cost.

(vi) As per Accounting Policy of the Corporation, the Corporate Office Expenses i.e. expenditure which is incurred by the various offices of the Corporation located in Shillong, New Delhi, Kolkata and Guwahati are allocated to the commissioned projects and the projects under construction on the basis of Total Sales from the commissioned projects and Total Capital Outlay of the said projects under construction. Accordingly, Corporate expenditure in respect of Kameng H.E Project amounts to Rs 339.14 Cr.

Statement showing effect of increase in Establishment cost		
Sl.No	Components	Total (Rs. In Cr)
1.	Expenditures incurred on Stage-II activities	94.54
2.	Impact on wage revision in establishment cost	156.33
3.	Impact on Increment, DA in establishment cost	390.29
4.	Corporate Expenditures	339.14
	Total	**980.30**

Besides above, additional manpower was required during the time overrun period also.

The establishment expenditure is based on the actually deployed manpower required for the work and based on Govt. approved wage structures for the organisation and also include arrears paid due to wage revision etc. Since every project and its infrastructure requirements are site specific hence the expenses in this project on establishment get justified because of the circumstances explained above.

3.14 S-Electro-Mechanical Works (Variation Rs 488.97 Cr.):

The provisions under this head cover the Electro-Mechanical equipment for the power plant and associated substation. The CCEA approved cost under this head was Rs. 569.22 Crs. The expenditure incurred as on date is Rs. 1022.35 Crs. A sum of Rs 33.65 Crs has been provisioned for committed liabilities and Rs 2.19 Crs for balance works to be executed beyond COD. Hence the total cost under S-Power Plant & Electro-mechanical systems is Rs. 1058.19 Crs. There is an increase of Rs. 488.97 Crs from the CCEA approved cost. The

variation of the revised cost with respect to the CCEA Cost has been attributed to the following heads.

a) **Price Escalation (Rs 155.95 Cr):** Price escalation is on account of increase in Wholesale Price index and Consumer Price index during the period Mar 2004 PL to February 2021 PL. Price Escalation includes an amount of Rs.113.47 Crore in respect of Generating Plants & Equipment due to Price Variation as per contract.

b) **Change in Scope (Rs. 3.49 Cr):** The amount in change of scope is mostly attributable to the changes required during execution of the works viz. deletion of VSAT communication, execution of switchyard civil works under civil package.

c) **Inadequate provision (Rs. 127.25 Cr):** The amount in Inadequate provision is attributable mostly to the followings facts

(i) Higher capacity GTs (63 MVA instead of 60 MVA): Rs.22.39 Cr
(ii) Addition of reactor- Rs.7.28 Cr
(iii) Higher capacity Auto transformers 3 nos. 40 MVA 1-phase transformer instead of 1 no. 100/3 MVA, 3 phase transformer): Rs. 7.06 Cr
(iv) Change in SST from 1x10 MVA 3 phase Transformer to 2x3.15 MVA SSTs: Rs.3.75 Cr
(v) Communication system-Rs.6.65 Cr

d) **Change in Design (Rs. -10.73 Cr):** The amount in Change in design is mostly attributable to the following changes-

(i) Against 100 km of 33 kV Line to different S/S, 22 km 11 kV are constructed: Rs. -3.93 Cr
(ii) Against 30 km of LT Line, 3 km are executed/being: Rs. 2.63 Cr
(iii) Change in Control & Relay panel for 400 kV, 132 kV & 33 kV System Scada System: (Rs.- 9.04 Cr)

e) **Additional Requirement (Rs 220.11 Cr):** The amount in additional requirement is mainly attributed to the following-

(i) Consumption of electricity from 2007: Rs. 38.15 Cr
(ii) Additional requirements such as RGMO, Penstock rupture device- Rs.1.81 Cr
(iii) Extended Warranty and extended site establishment cost to BHEL: Rs.31.53 Cr
(iv) Preservation of Turbine-Generator Units and associated equipment w.e.f. Apr 18 till water availability for Penstock repairing (to BHEL) : Rs.5.67 Cr
(v) Site establishment charge of Switchyard Contractor: Rs.4.99 Cr
(vi) Extended Warranty for Switchyard equipment: Rs.6.75 Cr
(vii) Extended SCE insurance for Switchyard: Rs.0.61 Cr
(viii) Transmission expenses from Mar'18 till COD of first unit: Rs 124.42 Cr.

f) **Others (Rs 0.26 Cr):** Due to increase in consultancy charges.

g) **Statutory Levies (Rs. -7.36 Cr):** The amount in Statutory levis is mainly attributable to the following-

(i) The project falls under category of Mega Power Project. Payment of Excise Duties was exempted as per policy. However, ED against transformer packages were paid due to non-availability of appropriate certificate at the time of dispatch.

(ii) Payment of NPV (Rs.10.00 Crore) towards right of way for 132 kV Transmission Line from Balipara to Kameng plus 16% consultancy charge of POWERGRID: (+) Rs. 11.60 Cr

(iii) Forest Compensation for 33 KV line from Bichom to Tenga and Tenga to Khuppi: (+) Rs.1.46 Cr

3.15 Y – Losses on Stock:

CCEA approved cost under this head was Rs. 3.58 Crs. As on COD, expenditure incurred is Rs 6.07 Crs.

3.16 V – RECIEPTS AND RECOVERIES:

This head is meant to account for estimated recoveries by way of resale or transfer of temporary buildings and special T&P. Miscellaneous receipts like rent charges of buildings electricity charges etc. should also be accounted for under this head.

For Kameng HEP a cost of Rs. 302.37 lakhs were estimated and approved by CCEA. However, as on COD an amount of Rs 6.69 Crs has been booked under receipts and recoveries as per actual for the project.

3.17 IDC &FC:

As per the CCEA approved cost an amount of Rs. 249.09 Crs was allocated against soft cost that comprise mainly of IDC and FC. As per investment approval, total project cost was financed at a debt-equity ratio of 70:30.

As on COD, the actual expenditure incurred under this head is Rs. 2747.44 Crs for 194.37 months (in which there is time overrun of 134.37 months).

3.18 INCOME FROM SALE OF INFIRM POWER:

An amount of Rs 16.81 Crs has been booked as income from the sale of infirm power before declaration of COD. The same has been deducted from total cost of the project.

.....Φ.....

BACKGROUND NOTE ON TIME OVERRUN OF KAMENG HE PROJECT, ARUNACHAL PRADESH EXECUTED BY NEEPCO.

1.0 BACKGROUND

1.1 Kameng HE Project (4x150 MW) in Arunachal Pradesh was accorded Government of India approval for execution by NEEPCO Ltd at an estimated cost of Rs.2496.90 crore including IDC & FC of Rs.249.09 crore at March, 2004 Price Level (PL) and the commissioning schedule of 60 months from the date of Government sanction (i.e. by 31.12.2009). The sanction was conveyed by Ministry of Power vide letter no. 7/22/99-Hydel-I dated 02.12.2004. As per Investment approval, the funding pattern was proposed with Debt: Equity ratio of 70:30 as below:

Debt	:	Rs. 1747.83 Crore.
Equity	:	Rs. 749.07 Cr.

1.2 The Project involves construction of 69.0 M high concrete gravity Dam across Bichom river and 24.50 M high concrete gravity Dam across Tenga river and a surface Power house on the right bank of river Kameng housing 4 nos. of generating units of 150 MW each. Water from Bichom reservoir is led to Kimi Power House across Tenga River, with suitable arrangements to add the Tenga waters into the HRT during the lean period only. Water conductor system from Bichom to Kimi Power House comprised of 14.527 km long, 6.70m dia Modified Horse Shoe shaped concrete lined Head Race tunnel. The design energy of the project is 3353 MU at 95 % machine availability with firm power of 168.86 MW.

1.3 The main works of Kameng HEP (600 MW) have been executed through seven major Contract packages viz. Civil, Hydro Mechanical and Electro Mechanical as per details given below:

Sl. No.	Name of Work	Agency	Date of agreement	Scheduled Completion Date
1	Package-I: Civil Works of Bichom Dam, River Diversion, Tunnel Intake and HRT up to 4400 M ± 500 M	M/s Patel Unity JV-Mumbai	08.12.04	02.03.09
2	Package-II: Civil Works of Tenga Dam, River Diversion, Tenga Intake and HRT From 4400 M To 11600 M ± 500 M.	M/s Patel Engineering Ltd., Mumbai	08.12.04	02.03.09
3	Package-III: Civil Works of Balance HRT up to 14477 M, Surge Shaft, Pressure Tunnels, Power House and Tail Race Tunnels	M/s Patel Engineering Ltd., Mumbai	08.12.04	02.03.09
4	Package-IV: Hydro-Mechanical Works	M/s OMIL JSC JV, Delhi	17.12.04	02.03.09
5	Package-V: Electro-Mechanical Works of Power House	M/s BHEL, Delhi	03.12.04	02.06.09
6	Package-VI: 400 KV & 132 KV Switchyard	M/s Techno Electric & Engg Co, Kolkata	30.03.09	05.01.11
7	Package-VII: Supply of Transformer	M/s BHEL, Delhi	04.06.08	27.07.10

1.4 NEEPCO initially submitted RCE-I of the project at different price levels of Sept'08, Dec'10, Dec'11, Dec'14, Mar'15, Sept'18 and June'19 from time to time as detailed below. The RCEs at Dec'11 and Mar'15 price levels were cleared by CEA but could not reach the stage of final approval.

i) RCE (Sept 2008 PL) amounting to Rs.3253 Cr. including IDC was submitted to CEA on 17.02.2009 based on the revised quantities on account of design parameters. However, during the process of scrutiny of the estimate at CEA, the Package contractor, on expiry of the scheduled contract period of March 2009, have appealed for revision of rate(s) on the balance BOQ items of major hydraulic structures on account of design changes amongst others. Thereafter, NEEPCO requested CEA vide letter dated 17.08.2009 to kept scrutiny of RCE (Sept'08 PL) on hold until a decision on revision of rate are firmed up.

ii) RCE (Dec'2010 PL) amounting to Rs. 4048.01 Cr (including IDC of Rs. 579.46 Cr) was submitted to CEA on 19.03.2011. However, the RCE was returned by CEA on 18.07.2011 requesting NEEPCO to submit a consolidated/ comprehensive document incorporating all relevant chapters of approved hydrology / civil design / E&M design / associated drawings / cost estimate etc along with approval of RCE by the Board of Directors, NEEPCO for consideration.

iii) A comprehensive updated project report along with RCE (Dec'10 PL) amounting to Rs. 4809.59 Cr was submitted to CEA on 11.10.2011. The subject RCE includes provision for extra works, provision for arbitration or re-tendering in case of cancellation of the contract. In the meantime, Member (Hydro), CEA convened a meeting on 24.04.2012 in respect of RCE of Kameng HEP and after detailed deliberation it was concluded that NEEPCO would update the cost of Civil works and E&M works and frame the cost estimates at latest price level excluding the provisions for the unresolved issues with the contractors.

iv) In line with the minutes of meeting taken by Member (Hydro) on 24.04.12, NEEPCO on 16.05.2012 submitted the updated RCE (Dec'2011 PL) amounting to Rs.5139.00 Cr to CEA. The RCE was cleared by CEA on 11.12.13 for Rs 4653.95 Cr including IDC & FC of Rs. 1187.69 Cr. However, during the meeting held on 18.02.2015 chaired by JS(H), MoP, NEEPCO was directed to submit RCEs at the latest price level (Jan 15 or Feb 15 PL) complying with MoF Guidelines that estimates shall be based on latest Price Level not more than 6(six) months old.

v) Subsequently, an updated RCE (Mar'2015 PL) was submitted to CEA on 23.07.2015 for Rs. 6568.64 Cr (including IDC & FC of Rs. 1468.48 Cr) in compliance of CWC letter dated 24.06.2015 and vetted by CEA for Rs. 6179.96 Cr on 18.03.2016.

vi) Several meetings were conducted at MoP on the vetted RCE. During the meeting chaired by Revised Cost Committee (RCC) on 26.10.2018, it was concluded that the RCE at March 2015 PL may not be acceptable to PIB and advised NEEPCO for submission of fresh RCE at latest price level. Accordingly, the RCE was again updated to Sept 2018 PL for Rs.5269.34 (excluding IDC & FC) and submitted to MoP and CEA on 30.11.18 and 07.12.2018 respectively. Necessary clarificatory along with supporting documents as sought by CWC/CEA were submitted time to time. However, CEA on 10.04.2019 has desired that the RCE shall be updated at latest Price level.

vii) Accordingly, the RCE was updated at June'2019 PL amounting to Rs.7927.34 Cr (including IDC&FC of Rs 2480.22 Cr) and submitted to CEA on 30.08.19. However, CEA returned the RCE on 24.01.2020.

viii) The BOD, NEEPCO in its 260th meeting held on 15th Sept'21 resolved to process RCE at completion cost upon commissioning of the project.

1.5 The last unit of the project was commissioned and under commercial operation since 12.02.2021. Accordingly, the RCE of Kameng HE Project is updated at Completed Cost (Feb'2021 PL) amounting to Rs.8404.47 Cr (including IDC&FC of Rs 2747.44 Cr) with cost overrun of Rs 5907.57 Cr and time overrun of 134.37 months.

2.0 ANALYSIS OF TIME OVERRUN.

Date of approval	Sanctioned Construction Period	Original Commissioning Schedule
03.12.2004	60 months	02.12.2009

COD	Actual Construction Period	Time Overrun (Months)
Unit-1: 17.06.2020	03.12.2004 to 17.06.2020	126.58
Unit-2: 01.07.2020	03.12.2004 to 01.07.2020	127.04
Unit-3: 22.01.2021	03.12.2004 to 22.01.2021	133.78
Unit-4: 12.02.2021	03.12.2004 to 12.02.2021	134.37
Project: 12.02.2021	**194.37 months**	**134.37 months**

The approved construction program given in the DPR and the Bar chart showing the actual critical path of work are attached at **Appendix-1**.

2.1 Reasons for Time Overrun:

On receipt of investment approval, major Civil Packages were awarded during December, 2004 and works commenced accordingly as per the drawn up schedule. However, during execution of the project, various problems have been encountered leading to delay in commissioning of the project. The prominent hindrances are mentioned below:

- Poor geology in approach road to Adit-I, Head Race Tunnel (HRT), in High Pressure Tunnel (HPT) and in Power House site
- Changes in design parameters/change in scope,
- Devastating floods caused by cloud burst in the vicinity of the project on 27th -28th Oct 2008,
- Restoration of squeezing effect of HRT,
- Penstock repair works subsequent to detection of leakages, amongst others.

The reason for time overrun is mainly due to poor geology encountered in the 14.50 Km long Head Race Tunnel (HRT) which overshadowed other hindrances and delay in other work fronts.

Meanwhile, all major structures of the project viz., Dam, Water Conductor System, Power House Civil Works, HM Works, EM Works were completed by March 2018. However, during filling of the Water Conductor System, leakage was noticed in some joints of Penstocks I & II. Therefore, commissioning activities of Units were temporarily suspended to facilitate repairing work of Penstocks I & II.

The rectification works of leakages at Penstock-I & II took longer time than anticipated as many challenges viz. water seepage requiring extensive grouting, difficult working condition inside the penstock containing with smoke from welding/grinding etc. had to be overcome during the rectification works. Finally, the Pentock-1 was made ready in Dec 2019 and Penstock-2 in Dec 2020.

The main reasons for time overrun are summarized as under:

Sl. No.	Description	Start Date	End Date	Period of delay (months)	Net Delay (Months)	Remarks
1	**Geological hindrances during excavation of HRT**					
a	Blockage of access road from Bichom Colony to Adit-I on account of landslide, huge mass slide etc.	1-9-05	10-10-05	1.31	1.31	Copy of site visit report of Director-II (HPM), CEA during Sept'05 and NEEPCO's letter dtd. 15/10/05 to contractor enclosed at **Appendix-1.A.**

7	a) Restoration of Penstock-1	30-3-18	30-12-19	21.06	21.06	A note on penstock restoration and a Geotechnical report on encountered rockmass in surface and underground penstocks along with CCIE-2 report enclosed at **Appendix-7.1, 7.2 and 7.3**
	b) Restoration of Penstock-2	30-3-18	02-12-20	32.16	11.10	

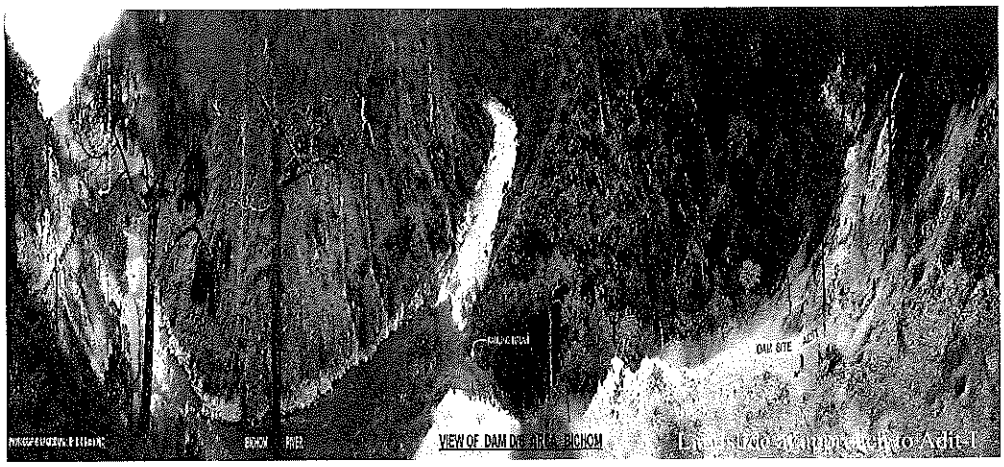
Sl. No.	Description	Start Date	End Date	Period of delay (months)	Net Delay (Months)	Remarks
8	a) Commissioning activities on restart of works for Unit-1 & 2	01-11-19	13-12-19	2.0	0.0	Overlapping period not considered.
	b) Commissioning activities on restart of works for Unit-3 & 4	28-11-20	12-02-21	2.40	2.40	Work Order dtd.19/09/18 for dismantling of MIV-1&3 and communication of Unit COD to MOP attached at **Appendix-8.1 & 8.2.**
				Net total delay (months)	**134.37**	

The delay due to change in geological conditions, local problems, etc. is difficult to quantify in terms of time overrun. Moreover, many hindrances in other fronts such as Bichom dam, Tenga Dam, HPT, construction of diversion tunnel, amongst others which had overlapped with the above stated hindrances are not considered to arrive net delay in time overrun of the project.

The above-mentioned hindrances have affected the critical activities of the project during their execution. The reasons responsible for delaying activities falling on critical path are being explained as under.

2.2 Delay in construction of access road from Bichom colony to Adit-I.

The approach road from Bichom colony to Adit-I is highly landslide prone area. Several instances of landslide, heavy rock fall etc, leading to road blocked have been observed due to poor geology. The project area is prone to very high rainfall during the monsoons that last from May to October, and flash floods have derailed construction works on several occasions. Due to which, it hampers the civil works of HRT Face-I & II. The time overrun on this account is considered as 1.31 months.



2.3 Blow out at Ch 422.60 m, Ch 584.48 m, Ch 591.13 m, Ch 616.88 m & Ch 1337.0 m.

The HRT passes through Precambrian meta-sedimentary rocks such as quartzite, phyllite, quartzite phyllite, gneiss, carbonaceous phyllite/schist/slate, and Gondowana formation rocks consisting of Quartzitic Sandstone, thinly laminated carbonaceous shale/siltstones with graphitic coaly bands. These highly folded, sheared, crushed and pulverized rocks posed several challenges such as Cavity formation, Blow out and Squeezing effects. Such cavities and chimneys were handled/negotiated with maximum care, with the help of multiple methodological tools such as Heading/Benching, use of probe holes, use of perforated MS pipe forepoles with microfine cement and Polyurethane grouting etc.

Major hindrances encountered due to poor geology leading to time overrun of the project are given below;

- Major blow outs in HRT Face-II and corresponding time taken for restoration.
  a) 1st Blow out occurred on Jan-07 at Ch 422.60m : 7 months
  b) 2nd Blow out occurred on Dec-07 at Ch 616.88 m : 9 months
  c) 3rd Blow out occurred on 27th July-10 at Ch. 1337m : 6 months

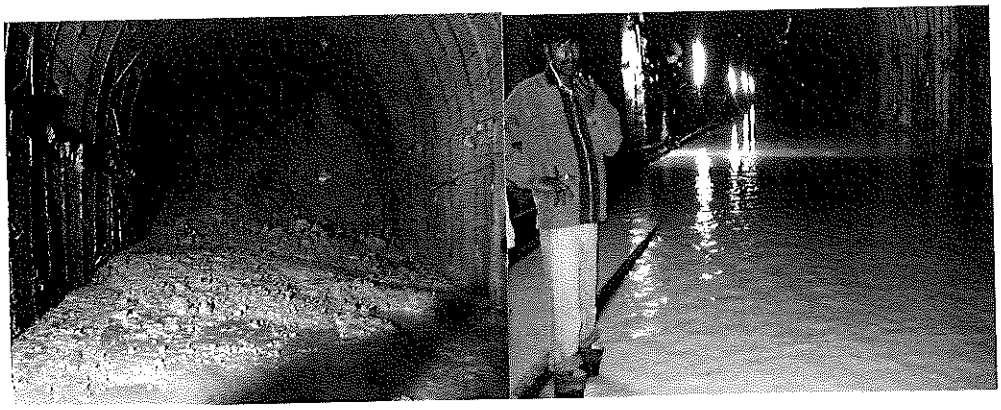


Fig-1: BLOW OUT AT CH 422 M &CH. 616.00 M OF FACE-II OF HRT

- Major changes in construction methodology and deployment of equipment. Post injection of PU/ cementitious materials as remedial measures and pre injection of PU/micro fine cement etc for advanced ground mass consolidation has become necessary.

The hindrances due to tackling the HRT blow out at different chainages had affected the project schedule by 22.51 months.

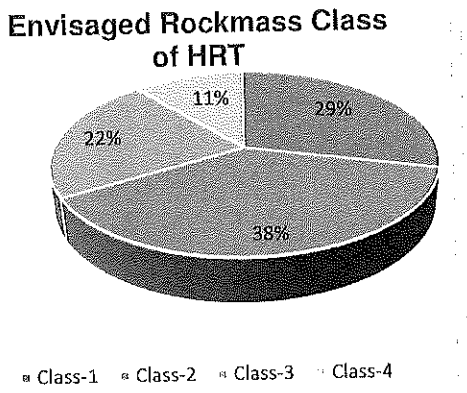
2.4 Additional time consumed in tunnel excavation on account of changed in rock classification.

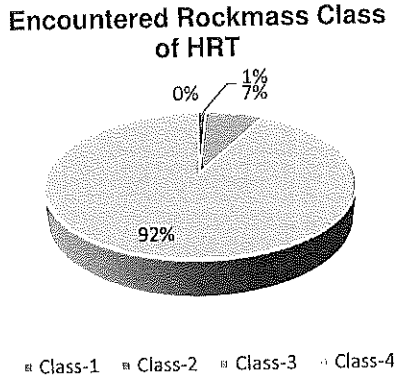
Most stretches of the tunnel lies within the middle Himalayan tectonic zone where multiple thrust faults strike E-W to SW-NE that were past active forelands thrusts associated with subduction of the Indian plate beneath the Asian Plate. The Siwalik formation of the Himalayan Mountains extends to southern part of hill ranges along river Kameng. Therefore, open excavation and underground excavation are vulnerable to collapse. Despite all precautions and adequate measures taken, there have been slope failures in power house, collapses at different chainage along the HRT alignment. Considerable time was lost in taking preventive measures apart from additional time required for carrying out restoration works. The geology along the HRT alignment is extremely poor and mostly of Class-IV B. In this connection, it may be mentioned that Adit VI had to be abandoned due to huge ingress of water resulting formation of day light cavity. This unanticipated adverse geology has contributed to significant slowing down of progress of excavation. The additional time taken due to change in type of rock class along the HRT alignment during execution in compared to that envisaged during tender stage is shown below.

Total length of HRT		14470	m		
As per contract	Rock Classification type	I	II	III	IV
	Anticipated Avg. Progress/day (m)	6	5.5	2.5	2
	Original envisaged Rock classification (%)	29%	38%	22%	11%
	Original envisaged length (m)	4196.30	5498.60	3183.40	1591.70
	Original scheduled time (days)	699.38	999.75	1273.36	795.85
	Total original time envisaged (days)	3768.34			
	Original time envisaged (months)	123.55			
As per Actual	Actual Avg. progress per day (m)	0	5	3	1.65
	Actual rock encountered (%)	0%	1%	7%	92%
	Actual length (m)	0	144.7	1012.9	13312.4
	Actual time taken (days)	0	28.94	337.6333	8068.121
	Total Actual time (days)	8434.69			
	Total Actual time (months)	276.55			
Additional time required (months)		153.00			
Net additional time considering four working fronts (months)		38.25			

At the time of preparation of the Tender Documents, it was envisaged that only a small portion of the tunnel length would require Class-IV support for boring of the tunnel. However, during actual construction, the rock condition is found to be extremely poor throughout the tunnel that almost the entire boring had to be carried out by Class-IV supports, which not only increased the cost, but also consumed much more time than was originally expected.

In this regard, Geological reports and a paper published by the International Journal of Scientific & Engineering Research, Volume 5, Issue 9, September-2014 (ISSN 2229-5518) on the Criticalities encountered in Construction of 14.45 km long Head Race Tunnel of Kameng Hydro Electric Project (600MW) in Arunachal Pradesh, India may also be refer (https://www.ijser.org/researchpaper/Criticalities-encountered-in-Construction-of-HRT.pdf)



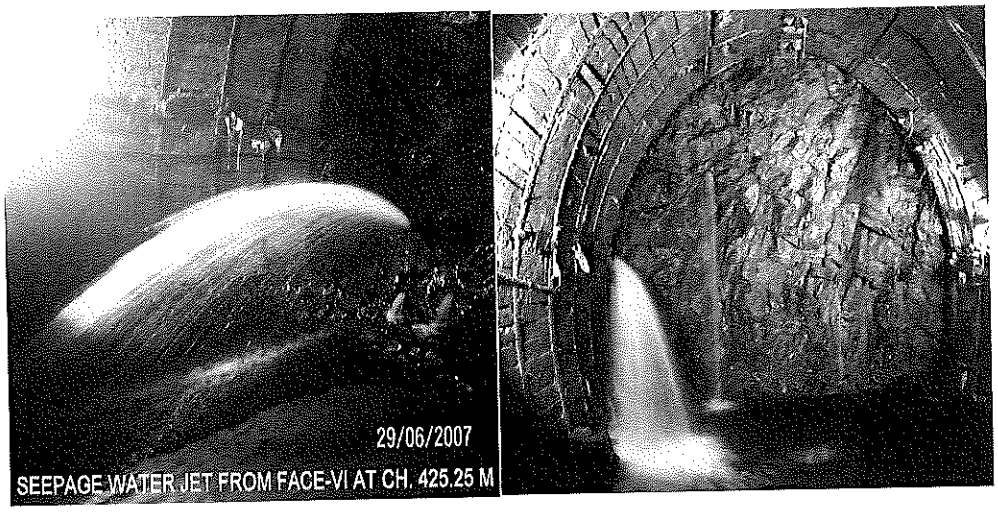


Total delay on this account is about 38.25 months. However, a net delay of 31.63 months has been considered excluding overlapped periods.

2.5 Heavy ingress of underground water in HRT Face-VI.

During boring of HRT from Face-VI, heavy ingress of water was encountered on 17th Feb.2007. Initially the rate of seepage water was about 1200-1500 ltr/min and rate of water volume has increased to a considerable one within days (in the order of 6000-6500 litr/min) and boring activity had to be suspended and additional dewatering arrangement had to be deployed. Though, there are two major water jets from the hole at the SPL, Seepage water was also flowing through other several drill holes. Seepage water has high iron content & also sand particles were coming out and finally deposited at the tunnel invert. Remedial measures had been taken up immediately, the rate of seepage water was considerably reduced and boring of tunnel resumed since 12th April 2007.

The face was continuously affected by heavy ingress of water since April'07 and the face advancement had to be slowed and finally P.U. grouting was done. This has reduced the ingress of water to almost nil facilitating further advancement. Ingress of seepage water caused major delay in the boring works and total time loss due to seepage in Face-VI was observed to be about 2 months. However, this hindrance is not considered for arriving net delay as it overlapped with other hindrances.



2.6 Additional time taken in Finalization of the revised design parameters of the major structures:

Certain design parameters of the project have undergone changes after the award of works as advised/ in consultation with CWC during the year 2006. Some of the major design changes are noted below. These design changes have resulted in variation in quantity w.r.t awarded work.

- Lowering of spillway crest level of Bichom Dam by 20 m and Tenga Dam by 2 m to minimize ingress of sediments into water conductor system and reduces damage to the turbine.
- The water conductor system from Surge shaft to Power house was originally designed as fully underground tunnels comprising of both horizontal and inclined tunnels. However, owing to the very poor rock structure in the Kimi area, the scheme had to be reviewed and re-designed, converting a part of the underground tunnel to buried penstock, to be constructed with Cut & Cover methodology, and other parts of inclined tunnels to vertical drop shafts of various lengths. Modification of Penstock profile was also adopted with provision of a Valve House with due approval of CWC.
- Change in Tail Race System from Tail Race Tunnel (TRT) to Tail Race Channel (TRC) for ease of construction.

On 12/01/2006, the Secretary, Power, GOI constituted committee comprising of Member (Hydro), CEA and Member (D&R), CWC to go into the details of changes made by NEEPCO in the features of the project during construction

stage and to make necessary recommendations. The changes agreed to are shifting of Bichom Site, shifting of Tenga Dam site, Change in layout of the HR Tunnel, shifting of Power House site and change of Pressure Tunnel from wholly underground to partly over ground. Further changes recommended by the committee were lowering of spillway crest level of Bichom Dam by 20m and spillway crest level of Tenga Dam by 2 m to minimize ingress of silt to the turbines. Civil works of Bichom dam were affected prior to finalization of the revised design parameters of the major structures w.e.f 09-11-06 to 08-11-07 resulting a delay of 11.99 months. However, a net delay of 4.63 months has been considered excluding overlapped periods.

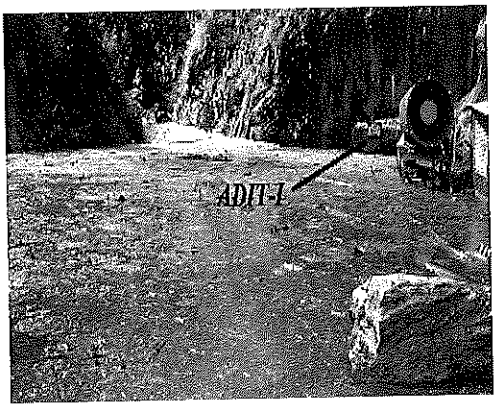
2.7 Flooding of Kameng Project due to cloud burst in Oct'2008.

Incessant rainfall in the West Kameng District of Arunachal Pradesh w.e.f 26th October 2008 till 27th October 2008 coupled with flash flood created extensive damage to the Tenga Dam site, approaches to the working faces of HRT under Package-I and Package-II apart from disruption of communication at various locations of the main access road to Bichom Dam Complex. The recorded rainfall on 27th Oct'2008 was 180 mm resulting in highest ever discharge of 3000 cumec at Tenga Dam site.

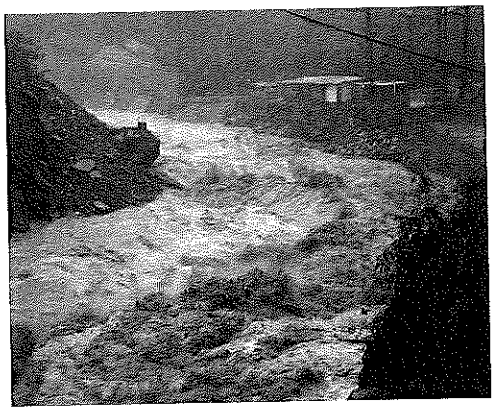
The incessant rain that lashed the Bichom Valley in general and the Bichom dam Area in particular on 26th Oct'2008 continued for a period of 30 (thirty) hours. The storm which was recorded as high as 290 mm, caused swelling of river water level to 716.50 m at Dam site, resulting in highest discharge of 1574 cumec during the year. This heavy discharge accompanied with boulders and floating debris, severely affected the dam site and caused damaged to the left abutment of Bailey Bridge located at 250 m d/s of dam axis leading to development of crack in the abutment, besides eroding part of stone masonry portion of abutment. The flash flood had resulted in wash out of 3 m - 4 m of approach road on each bank.

The incessant rain coupled with flash flood created extensive damage to the hydraulic structure apart from inundation of construction equipment deployed in different major work fronts along with disruption in major approaches to the work site. Restoration work was under taken in the affected work sites and the same

was completed with resumption of main works in 6 (six) months and 8 (eight) months in respect of BDC and KPC.



1. Adit-I portal submerged with slush



2. Tenga Dam

Further, heavy rainfall during Sept'12, June'14, July'17 & June'18 which had severely damaged the approach roads to project sitesresulting in shortage of essential commodities, construction materials and consumables items, thereby affecting the progress of works. However, delay due to the stated heavy rainfalls are not considered while arriving the net delay as it had overlapped with other hindrances explained above.

A net delay of 5.72 months has been considered on this account and a report on flash flood supported with newspaper cutting as documents/evidence are enclosed.

2.8 Rectification of squeezing effect:

Few tunnel stretches of HRT Face-III had undergone squeezing effect below Spring level (SPL) after installation of rib support due to adverse geological conditions. The deformation and squeezing had been observed by placing MPBX at regular intervals. Due to squeezing, ISMB ribs had been displaced inwardly which necessitated remining at some stretches so that the minimum required diameter of HRT lining is achieved. Therefore, re-mining was carried out to achieve required tunnel dimensions and concrete lining thickness as per design technical parameters due to which it hampers the civil works of Head Race Tunnel which was on critical path. The re-mining activities were taken up in different chainage with total delay of 24.26 months as below:

Re-mining activities	Total delay (months)	Net Delay (months)
Re-mining Zone-1 (Ch 2676.25 m to 2712.25 m)	2.14	2.14
Re-mining Zone-2 (Ch 2474.00 m to 2554.80 m)	4.73	3.23
Re-mining Zone-3 (Ch 2226.17 m to 2263.62 m)	3.55	0.00
Re-mining Zone-4 (Ch 2263.00 m to 2712.35 m)	4.14	3.88
Re-mining Zone-5(A)[Ch. 2842.08 m to 2832.0 m ; Ch. 2985.15 m to 3117.95 m LHS & Ch. 2807.0m to 2842.0 m; Ch. 2980.0 m to 3116.45 m RHS]	1.25	1.25
Re-mining Zone-5(B) [Ch. 2712.75 m to 3260.25 m LHS; Ch. 2696.50 m to 3251.25 m RHS]	2.53	0.00
Re-mining Zone-5(C) (Ch 2306.70 m to 2960.0 LHS & Ch. 2392.09 m to 2955.50 m RHS)	4.04	2.99
Zone-6(A) [Ch. 3266.75 m to 3364.70 m; Ch. 3364.75 m to 3374.0 m LHS & Ch. 3264.25 m to 3272.25 m RHS]	2.30	0.00
Re-mining Zone-6(B) [Ch. 3300.0 m to 3380.75 m RHS]	13.70	8.51
Shear Zone rectification at Face-3 [Ch. 1372.85 m to Ch. 1409.00 mat LHS and from Ch 1369.00 m to Ch. 1409.00 m at RHS].	4.73	2.04
Rectification near junction point of Adit-2, Face-3 [Ch. 72.02 m to 152.00 m at LHS].	2.14	0.23

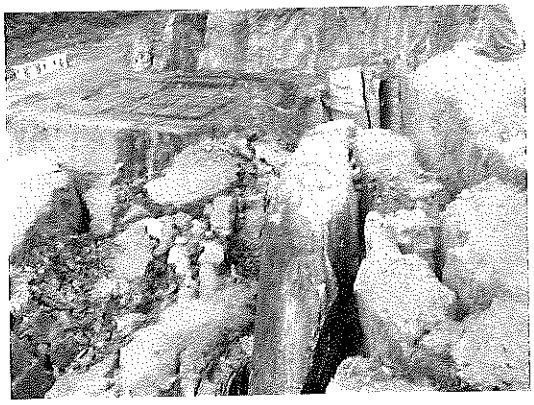
A net delay of 24.26 months has been considered against re-mining activities. A geological report along with supplementary work order copies are enclosed as a documents/evidence against the said re-mining activities.

2.9 Power House Slope failure:

Due to unstable character of the rock strata encountered in Power House area, power house has been planned as surface structure located in open excavated pit with stable slopes and berms from top to bottom and Tail race Tunnels have been redesigned as open channel. In spite of re-designing the excavation profile

with presumably stable slopes with berms at closer intervals, slope failures had occurred on several occasions at northern sides of Power House. Slope failures had resulted in hold up of power house excavation w.e.f November' 2006 and it has continued up to May'2007 and micro piling works at EL 248 m and at EL 237 m was carried out till December 2009 with a time loss of 44 months. The stabilization of excavation profile at northern and western sides of Power house has increased quantities of excavations and concreting as well as other protection items manifolds and necessitated deployment of additional equipment's for excavation, production, conveyance and placement of concrete in Power house.

A net delay of 9.75 months is considered on account of slope failure at Power House.



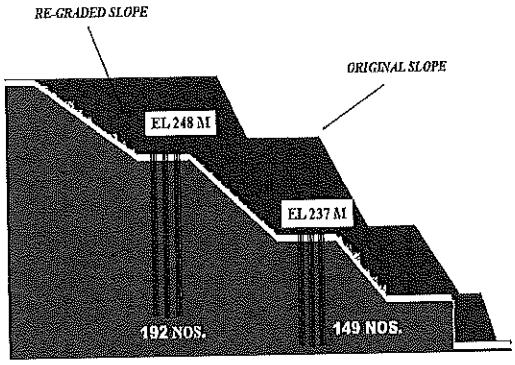


PHOTO-: Power House Slope failure

2.10 Rectification of Penstocks:

Construction of long tunnel with high rock cover and high-pressure tunnel/penstocks in young and tectonically disturbed Himalayan terrain was the most challenging task during construction of Kameng H.E Project. The criticalities encountered could not be predicted during investigation stage due to inaccessibility and high overburden of tunnel throughout the alignment for detail geo-technical investigation. Although the Central Mine Planning & Design Institute (CMPDI), Ranchi was assigned to develop a comprehensive geological model of the entire alignment of the tunnel during the pre-construction period but the same could not be carried out by CMPDI due to very difficult and remoteness of tunnel area. Hence, extremely tough terrain had affected the

geological investigation and sufficient geological information could not be gathered. Nevertheless, the tough and challenging task of tunneling in such poor and unfavourable geological formation was successfully completed for charging water in Feb'2018.

However, leakage was noticed in some joints of Penstocks-1&2 after test spinning of Unit # 1 & 2 on 08/03/18 and 10/03/18 respectively. Therefore, restorations were carried out as per the methodology suggested by the design consultant. The problem encountered in penstocks is unique and unprecedented in nature and scale. Major restoration works of penstock were necessitated in underground penstocks which cause to think that poor geology of the region has played a major role in creating the instant problem as elaborated below.

The overall rock condition in the Power House and upstream hill up to Surge Shaft where high pressure tunnel/penstock is located was found to be tectonically highly disturbed. Significant depth of overburden typically comprising coarse/fine colluvium material was encountered in open excavation of surface penstock portion. The overburden thickness above the vertical shafts 3 & 4 just upstream of powerhouse was observed to be 25 m comprising of RBM (River Borne Materials). Encountered rock in tunnel & surface excavation consisted of interbedded sand stones, carbonaceous shale and coal seams. Rock was found to be highly folded and jointed. In certain stretches, pulverized rock condition was also encountered due to proximity of main boundary thrust just south of powerhouse

Meanwhile, during tunnel excavation, frequent ingress of water was also encountered in the portion from Vertical Shaft- 2/3 to Power House in Gondwana formation marked by weak rock with coal bands. The huge ingress of water with very poor/crushed rockmass in vertical shafts/HPT tunnels delayed the activities like concreting and grouting after erection of penstock steel liner. A geotechnical report on encountered rockmass in surface and underground penstock during construction period is attached.

During penstock restorations, problem of seepage water was again encountered in underground portions. The soft infilling/ crushed rockmass got mixed with seepage water and gushed inside the penstock. This necessitated

grouting with micro-fine cement and Poly Urethane to facilitate welding for repairing of penstock. Significant volume of micro-fine cement was consumed with total of 586 MT & 525 MT in Penstock-1 & 2 respectively. Moreover, due to presence of underlying weak rock mass / pulverized rock/ coal bands with seepage water, large voids would have been created in the surrounding rockmass. Therefore, the complex geo-hydraulics of the area might have got some role in creating voids rapidly behind the steel liner where backfill and grouting with ordinary cement was done.

Further, the restoration of penstock was delayed due to presence of seepage water in highly jointed/crushed rockmass necessitating formulation of specific Welding Procedure Specifications (WPS). The presence of seepage water also led to repetition of welding activities in the same joints resulting prolongation of the restoration period.

Taking into consideration of the facts elaborated above, the main cause of failure of both the Penstocks and the additional time taken for restoration works might be attributable to the prevailing complex geo-hydraulics of the penstock area.

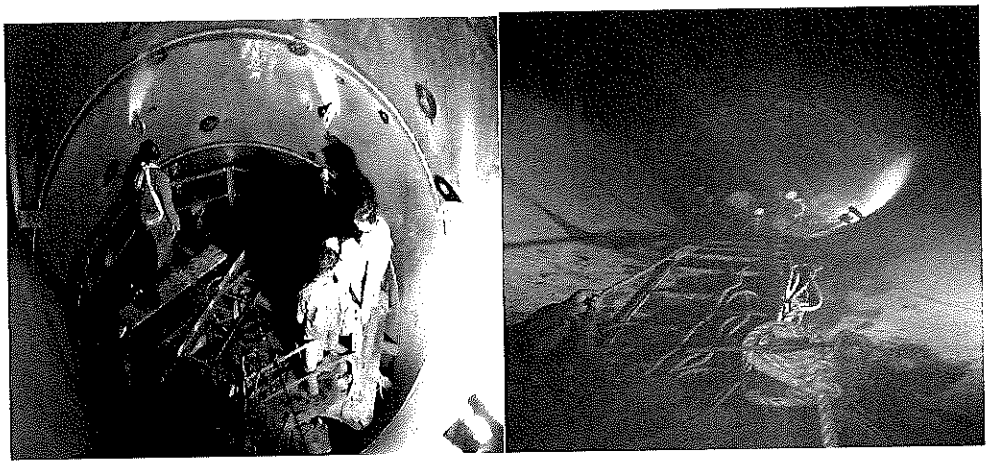

Photo:- Penstock restoration

Meanwhile, the Conciliation Committee of Independent Experts (CCIE-2) constituted in terms of MOP's OM dated 29th Dec'21 comprising of following members had also examined the cause of penstocks failure.

1. Ms. Rashmi Verma, Ex-Secretary (Truism) GOI
2. Shri Dhirendra Veer Singh, Ex-CMD, THDC (India) Ltd.
3. Shri Naveen Bhushan Gupta, Ex-Director (Finance), PFC Ltd.

The CCIE-2 concluded that the main cause of failure of both the Penstocks to be the encountered poor geology stating that due to subsidence of the underlying rock/pulverised rock/coal bands concrete around the liner would have dislodged and created large voids. The operative part of CCIE-2 report is attached at **Appendix-7.3**.

As elaborated above, the surrounding poor geological conditions in HPT area is unusual / unprecedented and cannot be ruled out in tectonically highly disturbed young Himalayan region.

A net delay of 21.06 months and 11.10 months have occurred under Penstock-1 and Penstock-2 respectively.

2.11 Commissioning activities on restart of works for Unit-3 & 4:

In order to facilitate penstock restoration works MIV Out let pipes of Unit-I & III along with all accessories, sub-systems, valves, Instruments etc were dismantled. After completion of penstock restoration works, the same were re-installed, tested and commissioned. Due to which, there was a delay of 2.40 months.

Conclusion:

Besides above, the Kameng H.E Project being located in very remote area faced many challenges during execution such as poor approach roads, non-availability of skilled manpower due to logistic problems, law & order problems etc. The hindrances encountered were successfully tackled by appropriate engineering with advice of technical experts from CEA/CWC/GSI etc and Panel of Experts constituted by NEEPCO comprising of retired officers from organizations like CWC, CEA, GSI, etc. The Corporation has strived hard to complete the project successfully by optimizing the cost and time despite facing several adversities. The delays suffered during the course of execution of the project leading to time overrun of 134.37 months are beyond the control of the Corporation.

.....End.....

Sub: Site visit to Kameng HEP (600 MW) in Arunachal Pradesh by Lt. S.N. Sareen, Director-I(HPM) from 2nd September, 2005 to 4th September, 2005 - tour report - reg

Sir,

I am directed to invite your kind attention to this Ministry's letter of even number dated 20th September, 2005 on the above subject and to request that a report on the observations/assessment may please be sent to this Ministry immediately

Thanking you,

Yours faithfully

Government of India
Central Electricity Authority
(Hydro Projects Monitoring Division)
Sewa Bhavan, R.K. Puram New Delhi-110066

Subject: **Site visit to Kameng HE Project (4x150 MW), Ar. Pradesh by Er. S.S. Sareen, Director-II (HPM) from 2nd Sept to 4th Sept 2005 - tour report reg.**

The undersigned has visited the ongoing Kameng HE Project from 2nd September to 4th September, 2005 for site review of status of various components of the Project. The current status of works alongwith observations/assessment made is covered in the enclosed tour report for kind perusal please.

The highlights of the assessment/critical areas are summarized as below:

i) The project works have taken the initial start with all the Main Civil works Packages, E&M works Package, and Hydro Mechanical works Package awarded promptly i.e within one day of the CCEA approval/ Investment decision accorded on 02.12.2004.

ii) However, the physical start of work has initial delays. Main Civil Works Contractor has arrived late at site and only partly mobilized resulting in slow pace of works.

iii) It was noticed that all the main civil works, divided into 3 contract packages, have been awarded to a single Contractor i.e M/s Patel Engg. Mumbai.

iv) As per the present progress of works, 6.7 m dia x 14.5 km long Head Race Tunnel is the Most Critical Activity of the Project. Only various adits (four nos.) works are in progress, rate of progress on which is very slow and so their completion is considerably delayed.

v) Presently, main civil works are being done in one/two shifts a day. These shall have to be done in three shifts with round the clock work.

vi) There is review of the conceptual design of the Pressure Shaft by NEEPCO as instead of original design of two pressure tunnels, a single larger diameter pressure shaft with butterfly valve is being considered partly surface and partly embedded which would bifurcate in lower reach and each bifurcated pressure shaft will further bifurcate into penstocks to feed water to four generating units located in the Power House. In the above modified arrangement, all the four Main Inlet Valves (Spherical Valves) of the turbines would need to be in-position for commissioning of the first generating unit. Further, in case of any major post commissioning problem in any of the main inlet valve, the entire power station would need to be shut down. The original design of two pressure tunnels has inherent advantages in this regard. This is a major change from the TEC and CEA's approval for such major change needs to be obtained. The HPI works are targeted for completion by April, 2009.

vii) The project authorities have targetted commissioning of four generating units as under:

Unit-I	September, 2009
Unit-II	October, 2009
Unit-III	November, 2009
Unit-IV	November, 2009

However, due to initial delays, the time reduction of 6 months available to project completion vis à vis contractual completion time has already been wiped out. The Project Authorities have rescheduled various activities and squeezed the time frame to retrieve the time lost. However, this requires concerted efforts both by Project Authorities and Main Works Contractors.

Encl: As above

(S.N. SAREEN)
Director-II (HPM)

Shri A.K. Kutty, Joint Secretary (Hydro), M/o Power
No. 12/6/2005/HPM/ [illegible] Dated: 13th Sept. 2005

Copy for information and further necessary action to:

i) Chairman-cum-Managing Director, NEEPCO Ltd., Lower New Colony, Brookland Compound, Shillong-793003.
ii) Shri P.K. Deka, ED(Projects), NEEPCO Ltd., NEEPCO Bhavan, Senduri Ali, R.G. Baruah Road, Guwahati.

(S.N. SAREEN)
Director-II (HPM)

TOUR REPORT OF THE VISIT OF Er. S.N. SAREEN, DIRECTOR, HPM, CEA, TO KAMENG HE PROJECT (4x150 MW), ARUNACHAL PRADESH, NEEPCO FROM 2nd SEPT. TO 4th SEPT. 2005 FOR SITE REVIEW OF STATUS OF WORKS.

The undersigned has visited Kameng Hydro Electric Project (4x150 MW), a run of river scheme from 2nd to 4th September, 2005 for site review of status of work of various components of the project. All the component sites of the project are approachable via Balipara, which is 78 Km from Tezpur (which is 175 Km from Guwahati). The salient features of the project, status of various works and the assessment including critical areas of works are discussed below.

2. **Salient Features of the Project:** The project comprises of following main components

(i) **Bichom Dam:** 75 M high, 230 M long, concrete gravity dam across river Bichom with live storage of 4.32 M cum with FRL as EL 770 M & MDDL as EL 766 M, catchment area 2277 Sq km, design flood 9434 cumecs, having 6 radial gates of size 12 m x 15 m

(ii) **Tenga Dam:** 27 M high, 85 M long, concrete gravity dam across river Tenga with live storage of 0.32 M cum with FRL as EL 770 M & MDDL EL 765 M, catchment area 1019 Sq Km, design flood 2438 cumecs, having 2 radial gates of size 14m x 12 m.

(iii) **(a) Head Race Tunnel:** 6.7 M Dia, 14.5 Km long concrete lined, Horse shoe shaped having design velocity of 4m/sec, and invert level at Bichom asl EL 750 M.
(b) Adits for HRT:

Adit-I : 6.5 M wide x 6 M high x **125 M long for 4400 m length of HRT.**
Adit-II : 6.5m wide x 6 m high x **378.M long for 5000 m length of HRT.**
Adit-III : 6.5m wide x 6 m high x **270 M long for 2200 m length of HRT**
Adit-IV : 6.0m wide x 6 m high x **406 M** long for **2911 m length of HRT,**
and **46 m length of High Pressure Tunnel** (Pressure Shaft)

(iv) **Surge Shaft:** 14m dia x (with 25 m dia Upper expansion chamber), 49 m high, located at end of HRT.

(v) **High Pressure Tunnel (HPT)/Penstocks:** Underground, 2 nos. x 4.00 m dia steel lined, 3264 M long bifurcating into 2 nos. each of 2.80 m dia to feed 4 units of 150 MW (Design being reviewed to single penstock partly underground partly surface, bifurcating into 4.0 m dia and subsequently further bifurcating near power house to suitable dia each, to feed four units.

Adit-V: For approach to top of HPT
Adit-VI: 7.30 M wide x 6.40 M high, 360 M long for 3264 M long HPT.

(vi) **Power House:** Located on right bank of river Kameng, semi underground (size 109.0M x 20.00 M), having 4 nos. vertical Francis Turbine driven generating units with Gross Head of 536 M

(vii) **Firm Power:** 163 MW
Annual Energy Generation: 359.3 MU
Cost of generation : 1.23 Paisa/unit

3. **Status of Award of Main Contracts:**

(i) **Package-I Works (Civil works for Bichom Dam, River Diversion, Bichom Intake and Part HRT – 4.4 Km long):** Works awarded to M/s Patel Engg., Mumbai on 03.12.2004 at contract cost of Rs. 143.81 Crores with **51 months time for completion of works**. Detailed work order was issued on 8.12.2004.

(ii) **Package-II Works (Civil works of Tenga Dam, River Diversion, Tenga Intake, and part HRT 7.2 Km long)** - Works awarded to M/s Patel Engg., Mumbai on 03.12.2004 at contract cost of Rs. 116.40 Crores with **51 months time for completion of works.**

(iii) **Package-III works (Civil works of part HRT – 2.911 Km, Surge Shaft, High Pressure Tunnel (Penstocks), Power House, and Tail Race Tunnel/Channel** Works' awarded to M/s Patel Engg. Mumbai on 03.12.2004 at contract cost of **Rs. 131.68 Crores with 51 months time for completion of works.**

(iv) **Package-IV works (Penstock steel liner/HM works)** - Works awarded to M/s Om Metals & JSC – JV, New Delhi on 03.12.2004 at contract cost of Rs.236.14 crores with **48 months time for completion of works.** Detailed work order was issued on 17.12.2004.

(v) **Package-V** (Electro-Mech Equpts) - Works awarded to M/s BHEL, New Delhi on 03.12.2004 at contract cost of Rs.241.40 crores with **54 months time for completion** including erection, testing & commissioning of generating units.

(vi) **400 KV & 132 KV switchyards:** NIT floated on 05.08.2005 and tenders are due for opening in October, 2005.

(vii) **Main step-up transformers & other transformers:** NIT floated on 29.08.2005. Tenders are due for opening in October, 2005.

(viii) **Consultants:** M/s SMEC, Australia, appointed as consultant on 17.12.2004 for design and engg. services.

4. **Current status of works:** The current status of main works are as under:

4.1 **Coffer Dam/River Diversion & Main Bichom Dam:**

No Diversion Tunnels are envisaged. Only coffer dam will be built centrally in the river for diversion of water in two stages for construction of dam in corresponding two stages.

(i) **Coffer Dam/River Diversion:** Work has not commenced. The first stage coffer dam/river diversion work has been programmed to commence from October, 2005 and completion by December, 2005, with 2nd phase coffer dam start by October, 2006 & completion by December, 2006. **The progress of these activities will need to be closely watched.**

(ii) **Main Bichom Dam:** It is the Main Dam of Kameng HEP to meet the larger part of water requirement for power generation.

(a) **Excavation:** The work has started w.e.f. 02.07.2005

Total quantity of works	About 2.00 lakh M^3 (100%)
Excavation done till 31.08.2005	0.19 lakh M^3 (9.5%)

(b) **Concreting:**

Total quantity of works :	2.61 lakh M^3 (100%)

North Eastern Electric Power Corporation New Delhi

The concreting work is yet to commence. The overall work of the dam have been scheduled for completion by **February, 2009.**

(iii) No desilting chambers have been envisaged at the outlet of the intake structures at Bichom Dam as the water is stated to be quite silt free. Project Authorities may review the matter from the angle of monsoon flood situations/long term angle.

Assessment: There was delay in start of works due to late arrival of Contractor at site, slow & only part mobilization by Contractor particularly the construction machinery and construction power, and slow pace of works. The adequate construction equipment including Batching Plant, Tower cranes etc would need to be mobilized early and works would need to be accelerated to retrieve the time lost, so as to avoid any criticality on this item.

4.2 River Diversion & Tenga Dam:

This is a much smaller dam and would be supplying supplementary water need during lean season (winter) as informed by Project Engineers. The work has not yet commenced. As per revised programme, the work will start in Oct 2005 with targeted completion by **April, 2008.**

Assessment: The delay in starting works is owing to slow and inadequate mobilization by contractor. The Project Authorities would need to ensure that contractor should mobilize fully without further loss of time and works should be accomplished in time.

4.3 Main Head Race Tunnel (HRT) and its Adit:

There are 4 adits (Adit-I in package-I works, Adit-II, Adit III in package-II works & Adit-IV in package-III works) which are needed for approach to HRT excavation. At this stage, the work of approach road to above Adits and Adit excavation works are in progress as under:

(i) **Adit-I** (6.5m wide x 6.0m high x **125 m long**)
Only approach road works to above adit is in progress, formation cutting of which is targeted for completion by September, 2005 for starting Adit I excavation immediately thereafter with a **completion target by January, 2006.** The road work, not delayed due to local problems slow progress by contractor and occurrence of land slide on route

(ii) **Adit-II** (6.5m wide x 6.0m high x **378m long**)
Till 31.08.2005, only 18.5 M length of excavation has been done. As per revised programme, the adit work are targeted for **completion by September, 2005, which does not appears feasible.** Adequate mobilization and concerted efforts are required to complete the adit atleast by November, 2005.

(iii) **Adit-III** (6.5m wide x 6.0m high x **270m long**)
Adit portal was completed on 21.05.2005. After that only **42.30 m length** of excavation has been done till 31.08.2005. As per revised programme, the adit work are targeted for **completion by September, 2005, which does not appears feasible.** Concerted efforts are required to even complete the adit by October, 2005

(iv) Adit IV (6.5m wide x 6.0m high x 406m long)

Only approach road to Adit-IV is completed & adit portal works are in progress. Adit excavation works are targeted to commence by middle of September, 2005. The completion of Adit is targeted by November, 2005, which would require adequate mobilization by contractor and concerted efforts to meet daily schedule of targets.

Assessment on various Adits Progress: There is overall delay in most of the above Adit works partly owing to delay in approach road and slow and inadequate mobilization of construction equipments and consequential slow progress by Contractor besides occurrence of land slides in project roads during current monsoon. Most of the above adits were supposed to be ready by April/May 2005 to start the tunnel work. However, these are now targeted for completion by October/November, 2005 by Project Authorities. **However, henceforth unless the rate of boring progress is accelerated the completion of adits might be further delayed thereby further delaying the start of Main tunnel works.** In this regard, the balance works of approach road to Adit-I would need to be expeditiously completed. The project authorities would need to ensure that adequate capacity & adequate number of construction equipments including DG sets for construction power besides adequate manpower are deployed at site by the contractor without further loss of time.

(v) **Main HRT works (6.7 M Dia x 14.5 Km long)**

The Main HRT works are divided in three segments and included segment-wise in all the three main civil works packages. However, all the three civil works have been awarded to a single contractor i.e. M/s Patel Engg. as indicated at S.No.3 above.

The HRT have been targeted for completion by August, 2009. However, as the work of various adits as discussed in item (i) to (iv) above are getting delayed, the commencement of works of Main HRT is also getting delayed. The start of works of HRT has now been programmed to commence from September, 2005 as per revised schedule of Project Authorities, which it is assessed will be further delayed as it is dependent on the completion of associated adits I to IV first.

Assessment: As per the present status of works, Main HRT is the **most critical activity of the project and project authorities would need to ensure that adequate equipments and manpower is deployed in time and the works of adits and HRT should be done in three shifts round the clock and progress monitored on daily basis.**

4.4 Surge shaft (13 m dia x 49 m high)

The works have been delayed and yet to commence. Only formation cutting of 4.5 Km long approach road to surge shaft has been completed. As per revised programme, the surge shaft is targeted for completion by Sept,2009. The project authorities may review the programme to squeeze the time to the extent possible so as to avoid any criticality on this item of work

4.5 **High Pressure Tunnel (Pressure shaft)/Penstocks etc.)**

As per original design, the entire High Pressure Tunnels (4 nos. each 4.0 mdia x 3.7kl m long originating d/s of surge shaft and bifurcating near the Power house to feed water to generating units in the Power House.

There are two adits (Adit V and Adit VI) to be constructed for approach to above Pressure Tunnels with gate at its inlet downstream of surge shaft. However, as informed by Project Engineers during discussions the works of Adit V has been suspended as there is review of the conceptual design of the Pressure Shaft as instead of original design of two pressure tunnels, a single larger diameter pressure tunnel with butterfly valve is being considered partly surface and partly embedded which would bifurcate in lower reach and each bifurcated pressure shaft will further bifurcate into penstocks to feed water to four generating units located in the Power House.

In the above modified arrangement, all the four Main Inlet Valves (Spherical Valves) of the turbine would also need to be in-position before the first generating unit could be commissioned. Further, in case of any major post-commissioning problem in any of the main inlet valve, the entire power station would need to be shut down. The original design of two pressure tunnels has inherent advantages in this regard. The HPT works are targeted for completion by April, 2009.

Progress of Adits for HPT works are as under:

Adit-V: Portal completed on 18.05.2005. However, works suspended due to non-finalization of pressure shaft profile.

Adit VI (7.30m wide x 6.40 m high x 360 m long) - The work has started and only **12.50 m length of adit excavation has been achieved till 31.8.2005.** The progress has been very slow due to ingress of water, and chimney formation in the initial reach of adit and very poor geological strata needing forepoling umbrella works to move ahead. **The Project Authorities would need to make concerted efforts and ensure that the contractor carries out works round the clock in three shifts to achieve better progress** and completion of adit within a fixed time frame. **The High Pressure Tunnel works would need to be given the require thrust to retrieve the time lost so as to avoid any future criticality on this item.**

4.6 **Power House (Semi-underground) Civil Works:**

Total quantity of excavation works	-	3.50 Lakh M^3(Original quantity)
	-	**8.35 Lakh M^3** (revised &anticipated quantity -100%)
Excavation done till 31.8.2005		**3.02 Lakh M^3** (36.2% of revised quantity)

From the above, it is seen that the quantity of excavation works have increased significantly higher (140% higher). The Project Engineer explained that it is partly owing to some shifting in the Power House Location and partly due to increase in quantity of work. The balance excavation work has been targeted for completion by June, 2006 in machine hall area and by June, 2007 in service bay area.

4.7 Pressure Shaft Steel Liner & Hydro Mechanical Works:

The works have been awarded to M/s. Om Metals in December, 2004 with completion time of 48 months. The above works include fabrication of about 1674 MT of penstock steel liner besides various gates and hoists. **The data on tonnage of these gates and hoists was not available with the Project Engineers at the time of visit and they have been requested to furnish these details alongwith progress made in the Monthly progress reports.**

Location for setting up site fabrication workshop of size 120 M x 110 M has been handed over to the firm on 05.04.2005. **Mobilization of manpower, materials and equipments is very slow by the contractor.** Only one 63 KVA welding rectifier-cum-generator, and only 180 MT of BQ steel plates have been brought to site from Sri Lanka and Ranganadi HEP. The detailed designs/drawings for various gates have been submitted by the firm for approval of NEEPCO.

The firm has to accelerate mobilization as there is huge work of site fabrication of Penstock steel liners and also of gates.

4.8. Electro-Mechanical Works:

The works have been awarded to M/s BHEL in December, 2004 with 54 months completion time. The first kick-off meeting has taken place in April, 2004. The model Testing of Turbine is programme to be done in the last quarter of year 2005.

The submission and approval of 1st stage and second stage embedded part drawings of turbine would need to be expedited so as these parts are subsequently manufactured and delivered at site in time.

4.9. 400 KV & 132 KV Switchyard:

The Notice Inviting Tenders have been floated in August, 2005 and the tenders are due for opening in October, 2005. The Project Authorities would need to ensure that the award of contract is placed at the earliest possible

4.10. Main Step-up Transformers & other Transformers:

The Notice Inviting Tenders have been floated in August, 2005 and the tenders are due for opening in October, 2005. The Project Authorities would need to ensure that the award of contract is placed at the earliest possible.

4.11 Project roads, office/residential bldgs, helipads, & misc.

432 Ha Land out of required 710 Ha has been acquired. Balance land will be acquired as per needs. The works of office/residential buildings at various sites is in progress. The stores, 90 MT explosives magazines and QC lab bldg, admn bldg at Tenga, and helipads at Kimi and Bichom dam completed. Project road works are in progress. Construction power is included in the scope of respective contractors. However, project authorities have also taken up work of 132 KV Balipara - Khuppi - Kimi line & sub-station under PGCIL, and 33 KV Khuppi - Tenga line under NEEPCO. These will lateron used for part evacuation of power

5.0 Important Drawings/sketches:

Following sketches/drawings are enclosed showing the general layout plan of various components of the project, quantity of works vis a vis progress achieved so far for some main components of the project:

1	Road Map of Kameng Project	(Sheet-1)
2	Adit-II Plan showing progress	(Sheet-2)
3	Adit-III Plan showing progress	(Sheet-3)
4	Adit-IV Plan showing progress	(Sheet-4)
5	Adit-VI Plan showing progress	(Sheet-5)
6	River Diversion works Bichom Dam	(Sheet-6)
7	Tentative Excavation programmed of Bichom Dam	(Sheet-7)
8	Tentative concreting programme of Bichom Dam	(Sheet-8)
9	Power House & Switchyard Plan	(Sheet 9)
10	Power House Excavation Profile & progress	(Sheet-10)

6.0 Commissioning Schedule of the Project

As per CCEA approval/Investment Decision accorded on 02.12.2004, the project is required to be commissioned within 5 years (i.e 60 months) time i.e. by November 2009. In regard to the award of Major Civil works, EM, & HM works contracts, the Project Authorities had taken advance action and **awarded these contracts promptly** in the first week of December 2004 itself with completion time ranging from 48 months (for hydro mechanical) to 54 months (for Electro-mechanical work) with 51 months (for civil works). **Thus, there is time cushion of 6 months w.r.t. the last activity of Electro-Mechanical works when compared with the overall completion schedule of 60 months fixed for the project.**

The project authorities have targeted commissioning of four generating units as under:

Unit-I	-	**Sept 2009**
Unit-II	-	**Oct 2009**
Unit-III	-	**Nov 2009**
Unit-IV	-	**Nov 2009**

However, there are delays in approach roads to work fronts of some main works, slow & inadequate mobilization and consequential slow progress of works by the Contractors particularly the civil works contractor. **These initial delays had already wiped out the time cushion of 6 months available for these works. Though project authorities are attempting to squeeze the time for various activities of works to retrieve the time lost, however, it needs concerted efforts both on the part of the Project Authorities and Main Works Contractors to achieve the same.**

7.0 Problem/Critical Areas of works and remedial measures:

(i) As per the present progress of works, the **14.5 Km long Main Head Race Tunnel (HRT) is the Most Critical activity** of the project, the work of which is yet to commence as approach adits are yet to be completed. The tunnel is targeted for completion by August, 2009

which needs adequate mobilization, concerted effort and close progress monitoring on daily basis.

(ii) Main civil works contractor has arrived late at site and only partly mobilized so far. He has to complete the balance mobilization (construction power & construction equipment etc) without further loss of time, to carry out the works in full swing.

(iii) Approach road to Adit-I (for Main HRT from Bichom Dam side) has been delayed and completion of balance works would need to be expedited.

(iv) Presently Main civil works are being done in one/two shifts a day. These shall have to be done in three shifts round the clock.

(v) The progress monitoring of Main works should be done on daily basis by devising suitably simple sheet format for each Main package.

(vi) No proper/reliable telecommunication arrangements are available at various works sites/work headquarters. Proper and reliable telecommunication arrangements are required to be made at these places including power house at Kimi, for smooth execution of the project.

(vii) **The approach roads to various works fronts (power house, Bichom dam etc) are highly landslide prone at several places.** Adequate storage of construction materials etc would need to be kept at site in advance before the onset of every monsoon to avoid disruption of work on this account. Proper machinery for road restoration would need to be kept deployed at required place for quick restoration of affected road during monsoon as and when the need arises.

(viii) Due to site transportation limitations, some higher capacity construction equipments would need to be brought in knocked down conditions for reassembly at site.

(ix) Project engineers were advised to identify well in advance the heavier and oversize consignments well in advance and ask the contractors to make timely route/road surveys for their smooth transportation to site.

(x) Project engineers were also advised to identify the long delivery items including higher thickness steel plates (such as stainless steel skin plates for radial gates etc) for advance action by concerned contractors to avoid any delay on this account.

8.0 Financial/Expenditure Details:

* Approved cost of the Project	Rs. 2496.90 Crores (including IDC of Rs 249.09 Crores) at March 2004 PL.
* Expenditure upto 3/2005	Rs. 227.73 Crores
* Approved outlay for 2005-06	Rs.413.00 Crores.
* Expenditure during 2005-06 (upto July, 2005)	Rs.29.66 Crores.
* Cumulative expenditure (upto July, 2005)	Rs.257.39 Crores

No. NEEPCO/KaHEP/BDC/EIC/W-1/2005-06/152 Date: 15/10/2005

To,
M/s Patel Unity J. V.,
C/O Patel Engineering Ltd.,
Patel Estate Road, Jogeswari (West),
Mumbai-400102.

Kind Attention: Shri S. N. Jain, Sr. GM
Camp: Bichom Dam Complex, KaHEP, Bichom, A.P.

Sub: Starting of the activities of ADIT-I of the HRT under Package-I

Dear Sir(s),

I would like to convey our appreciation to you for the sincere efforts put by you in taking up the works of ADIT-I from 12/10/2005 just after making the portion of the major approach road (from Dam Axis to Buragaon) connecting the ADIT-I location ready by us on 10/10/2005. With the deployment of your 600 CFM Air Compressor (Diesel) at site since today i.e. 15/10/2005, I am confident that the entire work of the ADIT-I can be completed as per the Approved Construction Schedule.

However, I am requesting you to arrange for mobilizing all other equipments/ machineries/ tools required at the ADIT-I face including the D. G. set of adequate capacity at the earliest so as to ensure achievement of the set target.

Thanking you,

Yours faithfully

15/10/05

Deputy General Manager/
Engineer-in-Charge

Memo NEEPCO/KaHEP/BDC/EIC/W-1/2005-06/163-65 Date: 15/10/2005
Copy to:

1. The Executive Director (Project-I), NEEPCO Ltd. Guwahati for kind information.
2. The HOP, BDC, KaHEP for kind information
3. The Sr. Manager (C), HRT-I, BDC, KaHEP for information and necessary action please. He is requested to maintain joint hindrance/ records regularly at site by monitoring the work minutely.

15/10/05

Deputy General Manager/
Engineer-in-Charge

Guwahati-05

REPORT OF DR. B.K. MITTAL AND SHRI B.M. HUKKU, EXPERT CONSULTANTS ON FACE-II OF KAMENG H.E. PROJECT HRT

1.0 The Geological details and results of investigations for the face-II were submitted for the perusal and study. On the basis of the above data supplied, the following recommendations are made.

I. OBSERVATIONS

2.0 Data considered are as follows :

(1) The probe data indicates that the horizontal distance of rock strata encountered is about 4m to 5m from the existing face at CH 425.80m (Rib NO.531) after crossing the loose zone. The total length of the critical zone consisting of loose muck is assessed to be 7.2m distance from Ch422.60m (Start of critical zone). The height of loose zone is found to be extended upto 24m. The chimney is inferred to be a shear zone/fault related. Heavy crushing has caused alteration of feldspar in gneissic rocks. Similar features may occur again. The rock strata on the right side of the critical zone could not be ascertained since corresponding probe hole (DG-H) passed through concrete and hard rock upto a depth of 8m and then continued through loose zone.

(2) Relatively weak rock with quartz veins along with seepage was observed between Ch 397.85m and Ch 404.6m.

(3) The seepage was also observed between Ch 397.85m and Ch 419.60m near the crown and below it and also on left of the centre line of tunnel. The seepage was varying from 25l/min to 125 l/m. In this zone loose quartzite and clay infilling was seen on the right hand side between Ch 407m to Ch 409.85m. The relatively loose quartzite was also noticed on the left hand site between Ch 409.85m to 412.85m (Rib NO. T-511 to T-514).

II. RECOMMENDATIONS

3.0 The method suggested by the Project Authorities is agreeable in principle. But it is slightly modified.

The following sequence is recommended :

(1) The 1st forepoling ring umbrella be provided starting from the bottom of the right hand side of the tunnel upto spring level (SPL) on the left hand side at Ch 422.6m (starting of loose zone) with perforated heavy duty 10m to 12m long MS Pipes having 100mm diameter at 500mm C/C. The pipes should be perforated at each end in a length of 2m. It should be ensured that the pipes should extend into hard strata for a minimum distance of 1m to 1.5m. these pipes may be grouted with grouting pressure compatible with face satiability.

Packer Grouting could be used to provide an initial seal in the first 1.5m to 2m beyond working face with higher pressures in the remaining pipe. Spacing of pipes depends on permeability of the rock mass and can be varied as per site conditions.

(2) The pipe fore poll should be installed one by one, after each hole has been drilled and then fully grouted as soon as possible after installation. Under no circumstances should be contractor be permitted to drill all the holes before installing the fore poles. If all holes are drilled simultaneously this may weaken the rock mass. The drilling, installation and grouting of forepole pipe be done one by one only.

(3) The 2nd ring of fore poling may be provided in the same location in the same manner as described in 1 above. The spacing of forepoling MS pipes would be 500mm C/C i.e. between the already installed fore polling pipes.

(4) The next fore poling umbrella should be provided at a distance of about 3m from the existing fore poling umbrella i.e. at Ch 425.6m (could be provided at Ch 425.3m). the procedure would be same with 2(two) rings. The holes should be staggered with respect to first forepole umbrella. In this case the length of MS heavy duty pipe may be reduced as per the site requirement. But the pipes should go into the hard rock for a minimum distance of 1m to 1.5m.

(5) After completing the second forepole umbrella, the muck lying in the face at Ch 425.3m upto a depth of 30 cm to 50 cm be removed and the steel supports should be erected. If while removing the muck, some mud flow is observed, the one more forepoling umbrella at a distanced of 1.5m from Ch 422.6m could be installed in the similar manner as described above. The steel supports should be

installed as close to the face as possible and be designed to support the forepole umbrella and the stress acting on the tunnel.

(6) After installing the steel supports, 20mm thick M.S. Steel plate lagging may be provided between the rib girders. The back of steel ribs and steel plates may be back filled in with concrete. The weepholes in the plate at 1.5m C/C (staggered) may be provided to drain seepage water. The properly designed concrete lining be provided after excavation.

(7) This process shall continue at every 3m interval till the critical loose zone is crossed completely.

.0 It has been reported that the section of tunnel could get reduced in the process. This hydraulic aspect may be examined and suitable remedial measures such as lowering the invert level of the tunnel for a short distance may be considered.

.0 Alternatively the attempts should be made to select suitable chemical material which is capable to grout and consolidate such loose muck so that further excavation could be carried out without any hindrance after providing the due tunnel supports in the form of shortcrete and steel ribs.

.0 Alternately, if this method is not successful, the tunnel alignment should be deviated at a distance of about 10m away (upstream) from the existing face i.e. Ch 425.3 and deviated HRT alignment may join the main alignment after crossing the critical loose muck zone.

CONCLUSION

.0 The above procedure should be monitored and modified as per site conditions and repeated till the critical loose zone is crossed.

.0 All necessary equipment e.g. Boomer having a capacity to drill hole upto 12m to 15m, grouting equipment/arrangement to develop sufficient pressure, heavy duty MS pipes and other relevant material and equipment may be mobilized at the earliest to carry out the work.

NOTE ON THE GEOTECHNICAL ASSESSMENT OF THE SLUSH FLOW ZONE AND THE CAVITY FORMATION IN FACE-II OF HRT-I AND FOUNDATION ROCK OF RIGHT ABUTMENT OF THE DAM, BICHOM, KAMENG H.E. PROJECT, ARUNACHAL PREDESH.

BY

E. BALASUBRAMANIAM.
DIRECTOR
GEOLOGICAL SURVEY OF INDIA

Date of Inspection: 11.03.07

On request from Project Authority of Kameng H.E. Project, site inspection visit is undertaken to evaluate the progressive construction stage geological/geotechnical conditions of the locations for various components of Kameng H.E. Project. Shri A. Bora, Geologist, GSI and Shri B. C. Saha, DGM(C), NEEPCO Ltd., Tezpur accompanying during the visit.

On 11.03.07, the Face-II of the HRT-I was inspected followed by the inspection of Dam foundation on 12.03.07. Shri U.K. Borah, DGM(C), EIC (Pkg-I) and other officers of NEEPCO were involved during site visit and discussions.
Site officials appraised that on 12.01.07, 8m long, 5m wide and 4m high cavity has formed on the right side of the crown at Ch. 422.60m, due to loose fall. The cavity is oriented at about 45^0 angle upward and away from the center line.

Periodic ejection of slush material in semi liquid form flowed from the cavity with pressure, to the tune of 200 cum to 800 cum each time on various dates upto 16.02.07. Seepage water flow, varying from 160 to 400 Ltrs/min was observed during the above period.

Probe holes drilled on the face and away from the crown have indicated that the soft and loose material zone is about 3m deep on the left side, beyond which hard rock is intersected. However, due to limitation in Boomer capacity, cavity could be probed upto 19m depth only, upto which loose material was encountered.

Attempts were made to consolidate the loose material by grouting and backfill the cavity with concrete and cement slurry, since 16.01.07. Till date 13,956 bags of cement grouting and 240 cum of Backfilling have been done with practically no effect. The cement grout also came out along with slush as independent irregular lumps and blocks.

At present the opening is sealed with concrete and packed with sand filled gunny bags. Photo and video clippings, taken on various dates of slush flow were shown to understand the situation.

The tunnel face was inspected along with the site officials. The following observations were made.

1. The tunnel is passing through metasedimentary rocks of Pre-Cambrian age, which occupies regionally the area around Bichom Dam Complex upto just north of Tenga Dam locality. The Pre-Cambrian rocks of the area comprise Chlorite-Sericite-Phyllite, Quartz-Muscovite-Sericite Schist, Quartzite, Quartzo-Feldspathic Gneiss, Streaky Gneiss and Porphyroblastic Granite Gneiss.

2. The Tunnel Face-II, in the problem zone, is occupied by Quartzite/Quartzo-Feldspathic Gneiss, striking approximately at right angle to the tunnel and dipping at about 45° towards the face.

3. The probe holes have indicated that the same strata continue on the other side of the loose zone also.

4. The loose fall and the cavity zone are located within the quartzite/Quartzo-feldspathic Gneiss.

5. The loose material comprises angular to medium and course Quartz and Kaolin clay of about equal proportion.

Assessment of the loose fall zone:

1. The hard Quartzite/Quartzofeldspathic Gneiss are medium to course grained, dull white in colour comprising transparent quartz and white colored feldspars. The gneissosity is feebly developed.
2. The slush is derived from the degradation of the Quartzite/Quartzofeldspathic Gneiss.
3. The Quartzofeldspathic Gneiss/Quartzite appears to have undergone intense fracturing and comminution in the cavity and loose fall zone followed by degradation of feldspars into Kaolin clay.
4. Seepage water liquefied the loose material and was in store. When the zone was opened during tunnel boring the liquid material flowed freely into the tunnel under gravity. The force of the flow is caused by the self weight of the liquefied material.
5. Due to limited seepage into the fracture zone, liquefaction of the loose material takes time, causing periodic outflow as and when sufficient quantum accumulates.
6. With successive outflows, the cavity and thereby the area available for liquefaction progressively gets enlarged which is the cause for the gradual increase in the quantum of flow.
7. The liquefied material will occupy the bottom of the narrow orifice and the cavity will be at the top end of the loose zone. The thrust for the outburst of the material is given by infilling liquid material by self weight.

8. One of the following processes may have caused the development of the fracture zone.

a. In tight isoclinal folds the axial part on the fold will be a high tension area where intense, closely spaced axial plane fractures develop. When any slip or fault in this zone occurs along the axial plane, mechanical crushing of the material takes place in a restricted pipe like zone. In this specific case, the Quartzite/Quartzofeldspathic rock, forming part of the axis of the fold, oriented along the cavity zone has undergone intense fracturing and grinding. Later the freed feldspars got altered into Kaolin clay by seepage water.

b. The cavity zone could be part of a shear/fault zone. Mechanical grinding and alteration of feldspars could have taken place.

c. The fracture zone being highly permeable, seepage water from the surrounding area get accumulated in this zone, causing liquefaction of the material.

Suggestions:

1. Options are not available for assessing the extent of the fracture zone or the quantum of the slush material in store.
2. Probe holes have indicated the presence of loose material upto about 3m further in the tunnel line on the left side. The depth of the loose zone on the right hand side of the face could not be assessed by drilling. The depth along the cavity could be probed upto 19m and found to contain only loose material.
3. Hence, it is risky to open fully the loose fall zone and allow the unknown quantum of semi liquid material to flow into the tunnel.
4. Since, the finer fraction of the slush material is clay, attempt to consolidate the material by cement grout will not be successful as the grout will not travel in clay material.
5. Since Kaolin, derived from degradation of feldspars, constitutes the entire clay fraction, attempts should be made to identify a suitable chemical which will interact with Kaolin and consolidate the material or facilitate cement grouting of the loose material by dissolving the clay.
6. However, the above treatment, even if it is successful , is constrained by the fact that since the dimensions of the loose material zone and the quantum of slush material existing are not known.
7. The ground surface across the projected vertical plane of the cavity line should be checked for the occurrence of any fault/shear zone in order to confirm the possible cause for the slush material zone.
8. Extent of pressure that will be developed and created by the loose material on the tunnel gradually over a period of time is not assessable. Hence, it is

required to provide reinforcement to the tunnel in the loose zone by appropriate steel liner.

9. In the light of the unknown factors involved, the option of deviating the tunnel away from the fracture zone may also be considered. In that direction necessary probing investigations may be initiated.

BICHOM DAM RIGHT ABUTMENT AREA.

A wide zone of highly puckered chlorite-sericite mica schist is present on the right abutment foundation area of the dam. The dam axis is along N 77°E – S 77° W. The schist band bends in N70° -80° W – S 70° -80° E direction and dip at 60° - 75° towards SSW direction, crossing the Dam axis obliquely towards D/s to the left abutment side.

Cement-Rock bondage between the schist and the concrete will be doubtful, since, the schist material will slake in contact with water. Consequently, water will seep through the interface.

Hence, it is suggested that an appropriate concrete cover may be put in place on the U/s side of the Dam concealing the foundation over the schist.

NOTE SHEET

O/o Dy. General Manager, Bicham: A.P.

Sub: -Supplementary estimate for extra items executed for tackling of the critical stretch from ch.422.60m to ch.431.48 in face-II of HRT.

Ref: - (i) Original W.O No. NEEPCO/QP/C&P/F/C/KaHEP-352/1709 Dtd. 18/12/2004
(ii) Original Agreement No. NEEPCO/ED/QP/C&P/R/C/KaHEP/560 of 2004-05 Dtd 17/12/2004

The progress at Face-II of HRT came to a standstill w.e.f 12/01/2007 due to formation of cavity and subsequent flow of slush associated with heavy seepage. Initially, a cavity of about 8m long, 5m wide and 4m deep was formed on the right side of the crown and the seepage of water was observed to be about 210 liters/min. To tackle the cavity and arrest the loose fall, additional support measures and canopy were provided. Dry muck from outside of HRT was dumped on the face to provide as toe support. The rock strata on the left side were harder than the right. After completion of providing additional support measures and canopy backfilling was carried out in stages a. wing setting time in between. On completion of back filling two nos. half arches were erected on the left side where the rock was hard. The muck below the canopy on the right side was removed to extend the half arches erected on the left side. Consequent upon removal of muck below the canopy, mud/Slush flowed into the tunnel with heavy pressure through a small opening. Mud/slush flowed into the HRT on six occasions since beginning. The total mud/slush flow was 2177.75 cum. Having seen the unstable nature of the rock strata at the face, consolidation grouting with PPC/OPC was started from 16/01/2007 and continued upto 12/03/2007.

To assess the situation, ED (PROJECT-III) alongwith DGM (D&E) visited site on 30th & 31st Jan'07 and advised to carry out the following works through his records note of discussion dtd. 30th & 31st Jan'07 **(Copy enclosed as annexure-I).**

1. Cement-sand and cement grouting with efficient high capacity grout pump in stages using packers.
2. Details observation & record of discharge from drainage holes and reporting to Design wing regularly.
3. To conduct tracer Test to ascertain the linkage of the drained out water with nearby source.

Accordingly, grouting was continued and the daily records of discharge were sent to D&E Wing. On 11/02/07 tracer test with "Rhodamine" was carried out on the upstream of KAMLIN Nallah but no linkage could be found out.

SMEC Team visited site on 15/02/2007 and forwarded preliminary advice to carry out grouting with richer mix proportion of cement & water with 1:0.8 ratio and less. They also advised to explore for chemical grouting as an alternative **(Record notes of discussion dtd 15/2/07 is enclosed as annexure-II).**

As per suggestion of ED (P-III) ,DGM (D&E) and SMEC TEAM cement grouting was continued with richer mix proportion. The Director, Engineering Geology, GSI also visited site on 11/03/07 & 12/03/07 and offered his observations/suggestions vide his Inspection note dtd 12/03/07**(Copy enclosed as annexure-III).** He specifically mentioned in his note that the loose material comprised of angular to medium and coarse Quartz and Kaolin clay of about equal proportion. He also opined that cement grouting will not be effective in this type of rock mass. As per his said advice cement grouting was stopped on 12/03/08. The total cement consumed in grouting was13956 bags since beginning to 12/03/08. He also suggested to use suitable chemical which will interact with Kaolin and consolidate the materials or facilitate cement grouting of the loose material by dissolving the clay. To explore a suitable chemical, representatives of M/S Sika India Pvt. Ltd. Manufacturer of grout chemicals along with officer from Quality Control Wing of the Corporation visited site on 16/03/07 and collected samples of muck to identify the appropriate chemical for grouting.

In the meantime, panel of experts comprising Dr. B.K Mittal, Former Chairman CWC and Sri B.M. Hukku, Former DDG, GSI visited KPC on 26th March'07. To

apprise the situation in Face-II, the then Engineer-In-Charge alongwith Senior Engineers met the expert consultant at KPC, Kimi on 26th March'07. All the data records, photographs and video clips maintained at site were shown to them. After detailed discussion, the committee had suggested to ascertain the quantum/extent of loose muck stored on the right side of the face by probe holes with different inclinations upto a depth of 30 meters. In case, the above probe holes fail to determine the extent of loose muck stored, one exploratory drift having size of about 2.2m (H) x 1.5 M (W) should be bored on the left side starting from a distance of about 10M away from the critical chainage of 422.60 m (Annex-IV).

As per the suggestion of the expert committee 21 nos. of exploratory holes of different depths were drilled to ascertain the area containing the quantum of the loose muck. Based on the findings of the probe holes and suggestions received from the Expert committee, the Project Authority had submitted a proposal for remedial measures to ED (D&E) for perusal & necessary action on 07/04/07.The proposal was framed up for putting grouted fore poling pipe rings with erection of BOX girder steel support without disturbing the temporary supports installed in the critical area. For providing the stronger steel support, it was proposed to lower down the HRT alignment in the critical stretch and then to match the alignment with suitable gradient. Steel lagging was proposed for the new support system for placement of back filled concrete behind the box girders. Based on the findings of the probe holes data and the proposal submitted by the Project Authority, the expert committee forwarded their observations as well as recommendations for remedial measures to be taken up for the critical stretch. However, the expert committee has duly considered the proposal submitted by the Project Authority while forwarding the recommendations **(Copy of the report of the expert committee is enclosed as Annexure-V).** A brief out line of the observations as well as recommendations of the expert committee is narrated below:

OBSERVATIONS:

- The probe hole data indicates that the horizontal distance of the rock strata encountered is about 4 M to 5 M from the Face chainage of 426.4 M.
- The total length of the critical zone consisting of loose muck is assessed to be 7.5 m distance from chainage 422.60 m.
- The height of loose zone is found to be extended upto 24 m.
- The chimney is inferred to be a shear zone/ fault related.
- Heavy crushing has caused alteration of feldspar in gneissic rocks.
- Similar features may occur again.
- The rocks strata on the right side of the critical zone could not be ascertained.
- Relatively weak rock with quartz vein along with seepage was observed between chainage 397.85 m and Chainage 404.8 m.
- The seepage was also observed between chainage 397.85 m to Chainage 419.60 m near the crown below it and also on left of the center line of the tunnel.
- The seepage was varying from 261L/M to 125 L/M.
- In this zone loose quartz and clay infilling was seen on the right hand side between chainage 407m to chainage 409.85 m.
- The relatively loose quartzite was also noticed on left hand side between chainage 409.85 m to chainage 412.85 m.

RECOMMENDATIONS:

- A fore poling ring umbrella be provided starting from bottom of the right hand side of the tunnel upto SPL on the left hand side at Ch. 422.60 m.
- Perforated heavy duty 10 M to 12 M long MS pipes having 100 mm diameter at 500 mm c/c to be used.
- Pipes should extend into hard strata for a minimum length of 1.5 m to 2.0 m.

- Pipes may be grouted with grouting pressure compatible with face suitability.
- Packer grouting should be used to provide an initial seal in the first 1.5 m to 2 m beyond working face with higher pressure in the remaining pipe.
- The 2nd ring of the forepoling may be provided in the same location in the same manner.
- Next forepoling umbrella should be provided at a distance of about 3 m from the existing forepoling umbrella i.e., at Ch. 425.60 m.
- After completing the second fore poling umbrella the muck lying in the face at Ch. 425.3 m upto a depth of 30 cm to 50 cm be removed.
- If while removing the muck some mud flow is observed, one more forepoling ring creating umbrella at a distance of 1.5 m from Ch. 422.60 m should be installed in the similar manner.
- Specially designed box girder with ISMB 200/250, may be erected.
- After installing the steel supports, 20mm thick M.S Plate lagging may be provided between the rib girders.
- The back of steel ribs and steel plates may be backfilled in with concrete.
- This process shall continue at every 3 m interval till the critical loose zone is completely crossed.
- Alternatively the attempts should be made to select suitable chemical material which is capable to grout and consolidate the loose muck.

In the meantime, M/S Sika India Pvt. Ltd also forwarded their recommendations vide their Letter Dtd. 26/04/07 **(Copy enclosed as annexure-VI)** after testing of the loose muck samples collected from site. Their recommendations are as under:

- Low viscous PU RENI SIKAFIX 101 G –I to be used for primary binding of loose muck to stop water ingress.
- Next to consolidate the loose muck first to inject SIGUNIT L (SGL) and then to inject Micro fine cement admixed with INTRAPLAST EP-1 @ 4% along with Visco Crete 20 HE (h) @ 0.8% of weight of cement.

Based on the above recommendations of M/S Sika India Pvt. Ltd., M/S PEL was asked to procure the aforementioned materials. A methodology was prepared by Project Authority keeping in line with the recommendations of the experts committee and M/S Sika India Pvt. Ltd., the same methodology was approved by the ED (P-III) vide his note dated 03/05/07 **(Copy enclosed as Annexure-VII).** But on receipt of the order for supply of the materials, M/S Sika expressed their inability to supply the PU and Micro fine cement expeditiously for the work. Moreover, they were not capable to deploy applicators and required pumping equipments.

Due to the said constraints, the matter was taken up with M/S BASF, another chemical firm of Global repute. M/S BASF recommended MEYCO MP355/A3, two components solvent free polyurethane injection resin with **accelerator-10** specially deigned for rapid water stopping and ground stabilization for use initially in the strata to provide primary binding of the loose material to stop ingress of water. **(Copy of the M/S BASF's suggestion and other product literature on PU and Micro fine cement is enclosed as Annexure -VIII).** As per submission of M/S BASF, the noted two components PU material react both in dry as well as in wet condition. The material is able to give high foam factor and robust/ frigid foam. Also the material has very fast reaction time and has the feature of adjusting the setting time. They also recommended Rheocem 650 which is a fast setting Micro fine Portland cement for use as grouting material beyond the PU layer noted above. Above all, they agreed to supply the PU material and Microfine cement expeditiously for the work along with deployment of expert applicators and required grout pump for PU materials. References were also brought out by M/S BASF from which it could be seen that use of the above product had given proven result in our country specifically in the Himalayan Region.

Therefore, it was decided to use the services of M/S BASF in tackling of the critical stretch at Ch 422.60 m of Face-II of HRT and approval for the same was

received from ED (P-III) vide his note dated 11/05/07(**Copy enclosed as Annexure-IX**).

Having considered the recommendation of the experts, M/S Sika and M/S BASF, following methodology was finally fixed for treating the critical zone.

- Injection of Meyco MP 355/A3 (two component PU material) with accelerator-10 in the loose muck from Ch. 422.60 m and beyond in phases to facilitate removal of dumped muck retained in the critical zone by stopping ingress of seepage water with primary binding to loose muck.
- 1st forepoling umbrella with heavy duty perforated M/S Pipes with 100mm dia shall be provided at Ch. 422.60 m. Forepoling shall be done starting from bottom of right side upto SPL on left side at a spacing of 500 mm C/c with suitable length so that it reaches upto 1 m to 1.5 m in the hard strata in 2(two) rings one after the other with the same spacing in alternate fashion. The operation of forepoling shall done one by one followed by injection of SIGUNIT L (SGL) and then with Micro cement + 4%. Intraplast EP-1/ Micro fine cement (Rheocem 650) admixed with 1.5 to 2% Rheo-build. The 2nd forepoling umbrella shall be provided at Ch. 425.60 m in similar manner as described above.
- After completion of 2nd forepoling umbrella at Ch. 425.6 m muck lying at the face shall be removed upto a depth of 30 cm to 50 cm.
- If while removing the muck, some mud flow is observed, one more forepoling ring creating an umbrella at Ch. 428.60 m shall be installed in similar manner.
- Box girder steel support of ISMB 250 X 125 with lowered crown level of 1.2 m from existing level be erected from Ch. 422.60 m (starting of loose zone) at a spacing of 500 mm C/c.
- Fixing of 20 mm Ms Plate lagging in between the girders.
- Backfilling behind girders.
- Repetition of the above procedure shall be continued at every 3 m interval till the critical zone is overcome.
- Properly designed concrete lining shall be provided after boring of the critical stretch

As per the set methodology the treatment work was carried out successfully by the contractor on 07/08/2007 upto Ch. 431.48 m starting from Ch. 422.60 m. To carry out the treatment works the following extra items were executed.

1. Drilling of holes beyond 38mm Φ.
2. Supply and installation of perforated Heavy duty M.S. Pipe forepoling of 100 mm and 80 mm Φ.
3. Supply and injection of MEYCO MP 355/A3 (PU) with Accelerator 10
4. Supply and injection of SIGUNIT L (SGL).
5. Grouting Micro fine cement Rheocem 650 with Rheobuild 2000 PF as admixture.
6. Erection of box girder steel supports of ISMB 250 X 125
7. Installation of load cells.
8. Excavation in Rock beyond class IVB.

After treatment of the critical zone, the contractor, M/S PEL requested for advance against materials and imported manpower as per MoM dtd 16/07/2007 (**Copy enclosed as Annexure-X**) vide their letter no. PEL/P-I/223/508 Dtd. 03/08/07 (**copy enclosed as annexure-XI**) amounting to Rs. 193, 30,804.00 (Rupees One Crore Ninety Three Lakhs Thirty Thousand Eight Hundred and Four)) only. The same was processed for an amount of Rs. 96, 72,128.00 (Rupees Ninety Six Lakhs Seventy Two Thousand One Hundred and Twenty Eight) only for all the utilized materials and imported manpower (**as per Annex-XII**) and an amount of Rs 72,54,096.00 has been released as material advance as per approval of ED(P-III) vide his note dtd. 07/12/07(**copy enclosed as annexure-XIII**). Adhoc payment for supply and erection of box girder was made as per BOQ item no. 4.7. In addition to

advance against materials and imported manpower, payment for excavation from ch.422.60m to ch.431.48m and supply and erection of steel supports of Box Girder of ISMB 250 x 125 was released as per items no. 3.1.4 and 4.7 respectively. Rate analysis for the item (as listed below) executed in the critical stretch submitted by M/S PEL vide their letter no. PEL/P-1/223/633 Dtd. 22/11/07 (enclosed **along with all analysis in a file as Annex-XIV**).

a) Drilling Holes of 45 to 89 mm dia and fixing perforated pipe.
b) Drilling Holes of 45 to 150 mm dia for Forepoling and PU Grouting.
c) Providing and fixing M.S. Heavy duty pipes for Forepoling and PU grouting.
d) Grouting by Microfine Cement and SGL.
e) Grouting by approved P.U. material.
f) Excavation by Multi Drift method
g) Providing and fixing Ribs in Critical stretch.
h) Dewatering in Critical stretch.
i) Providing and fixing load cells in Critical stretch.

[(j)Machinery hourly use Rates Booklet.]

The Bill for the same was submitted along with the 26th RA Bill of M/S PEL for the period ending 31/12/07 for an amount of Rs. 9, 64, 59,268.00 (**Annex-XV**). During scrutiny of the Bill along with the analysis it was found that quantity shown in the bill did not tally with the quantity shown in the analysis. It was also found that they prepared the analysis considering sundries 01%, maintenance of haul road 5%, funding charges 7.5%, overhead 15%, profit 20%, ventilation charges 40%, 124% and 108% hidden expenses/indirect Charges for Skilled and unskilled labour respectively which are not as per relevant clause of the agreement i.e. clause-33 (iii) , Part –III Vol-I, Book –II of general Terms and Conditions. It was also found that they considered full shift for a workmen even if he is engaged for an hour a day. During scrutiny, it was also found that all related documents were not found enclosed along with analysis. Subsequently, they were asked to furnish the related documents vide our letter no. NEEPCO/KaHEP/BDC/HRT-I/W-4/2007-08/233 Dtd. 20/12/07, NEEPCO/KaHEP /BDC/HRT-I/W-4/2007-08/291 Dtd. 29/02/08 and NEEPCO/KaHEP/BDC/HRT-I/W-4/2007-08/311 Dtd. 15/03/08. They submitted the related documents in phase till 01/04/2008. In the meantime they have submitted the revised rate analysis vide their letter no. PEL/P-1/223/787 Dtd. 14/03/08

As the analyses were not as per the relevant clause of the agreement, on receipt of the related documents the same have been prepared afresh at this end considering the following points of clause 33(iii), Part-III, Vol-I Book-II of contract agreement. (**Excerpts enclosed as Annexure-XVI**)

a) Cost of materials including taxes.
b) Cost of transportation to site.
c) Cost of direct wages (excluding fringe benefit) for worker, gangers and working foreman (excluding Supervisors) and direct equipment charges as set out in the central water Commission guidelines.
d) Cost of facilities like electricity.
e) Supervision and overhead profit @ 20% on the sum (a) to (d).

The analysis had been framed based on actual cost of materials, manpower, equipments and facilities for the following items.

Item no.1: Drilling of Holes beyond 38 mm
Item no.2A: Supply and installation of 80mm diameter Heavy duty MS pipe
Item no.2B: Supply and installation of 100mm diameter Heavy duty MS pipe
Item no.3: Grouting with Microfine cement Rheocem 650 and Rheobuild 2000PF
Item no.4: Grouting with SIGUNIT-L
Item no.5: Grouting with PU (Meyco MP 355 A3)
Item no.6: Fabrication and Erection of BOX and SINGLE Section Ribs of ISMB 250x125
Item no.7: Supply and installation of Load Cells

नॉर्थ ईस्टर्न इलैक्ट्रिक पावर कॉरपोरेशन लिमिटेड
भारत सरकार का उपक्रम

NOTE SHEET

-6^N-

Item no.8: Excavation in Rock beyond Class IV B

While framing the above analysis the following basic parameters have been considered as per discussion held in between the ED (P-III), Project officials and the representatives of M/S PEL on 07/03/08 in the chamber of HOP, BDC.

(1) Engagement of workmen;

Duration of engagement	Effective Time Considered
0 hrs - 1 hrs	1 hrs
1 hrs – 2 hrs	2 hrs
2 hrs – 3 hrs	3 hrs
3 hrs – 4 hrs	4 hrs
4 hrs – 5 hrs	5 hrs
5 hrs – 6 hrs	6 hrs
6 hrs – 7 hrs	7 hrs
7 hrs – 8 hrs	full day of 8 hrs.

(2) In evaluating cost of labour hidden expenses/indirect Charges for Skilled as well as for unskilled labour is considered 55%. Rates of wages paid to skilled and unskilled labours have been considered according to payment made by M/S PEL. As per CWC guidelines, indirect cost for skilled and unskilled labour has been considered as 80% and 55% respectively for analyzing the rate for machineries.

(3) Supervision and overhead profit @ 20% is considered as per clause-33 (iii), Part –III, Vol-I, Book –II of GTCC.

(4) Ventilation Charges is considered as per calculated hourly use rate of ventilation.

(5) In evaluating cost of materials 10% transportation and 10% handling charges has been considered by M/S PEL. Transportation charges are considered separately and handling charges can't be entertained. Transportation of materials from Guwahati to Bichom being done by M/S PEL's own carrier hence transportation has been considered as per bills submitted by M/S PEL according to requirement of materials at site.

(6) Hourly use rate of two components PU injection pump @Rs. 350 per Kg has been considered as submitted by M/S PEL vide invoice no. 28/7/07 Dtd 28/07/07 of A.G. Developers Pvt. Ltd..

(7) Documents for entry tax could not be furnished along with the analysis by M/S PEL due to joint accounting at HQ Mumbai. They assured to furnish the same later on. It was decided in the discussion dtd 07/03/08 referred above that entry tax shall be considered while framing the analysis but the payment against the same shall be released only after submission of the required documents by M/S PEL.

The item for dewatering has not been considered as an extra item on the ground that it is covered under BOQ item no 1.3. The item no. 6 (Fabrication and Erection of BOX and SINGLE Section Ribs of ISMB 250x125) stated above is considered for analysis as it is not covered by BOQ items and technical specification. As per clause 4.9.4 (V), Book –III (A), only single section steel structure are to be used. Boring of HRT was carried out in rock strata class-IV/class V having RMR less than 20 in the critical stretch as per the report of Geologist (Copy enclosed as Annexure-XVII) and support system in this stretch is also different, therefore Item no. 8 for excavation beyond class –IV rock has been analyzed as it is not covered under BOQ items and technical specification as per Clause 3.8.2 , Book –III (A) of contract agreement.

Based on the analysis, an abstract of cost has been prepared, it is seen that the financial involvement for the extra items executed in tackling of the critical stretch from Ch. 422.60 m to Ch. 431.48 m in face –II of HRT comes to Rs. 2,57,13,386.61 (Rupees Two Crores Fifty Seven Lakhs Thirteen Thousand Three Hundred Eighty Six and Paise Sixty One) only.

नॉर्थ ईस्टर्न इलैक्ट्रिक पावर कॉरपोरेशन लिमिटेड
भारत सरकार का उपक्रम

NOTE SHEET

-7-

From the above, it could be seen that there is a big difference in assessmei financial involvement by M/S PEL and NEEPCO. The main reason is attributabl the consideration of sundries 01%, maintenance of haul road 5%, funding cha 7.5%, overhead 15%, profit 20%, ventilation charges 40%, 124% and 108% hic expenses/indirect Charges for Skilled and unskilled labour respectively by M/S which are not as per the relevant clause of the contract stipulation as stated abov

A comparative statement of rates and amount as assessed by M/S PEL NEEPCO is prepared and enclose as **Annex -XIX**

M/S PEL has requested vide their letter no. PEL/P-1/223/824 Dtd. 05/04/08(**c enclosed as annexure-XVIII**, for an advance of 75% of the assessed amount o items executed in tackling of the critical stretch till final settlement of the same such an amount of Rs. 1,19,88,869.16(Rupees One Crore Nineteen lakhs Ei Eight Thousand Eight Hundred Sixty Nine and Paise Sixteen) only can be relea as 75% advance on the balance payable amount of Rs. 1,59, 85,158.88(Rup One Crore Fifty Nine Lakhs Eighty Five Thousand One Hundred Fifty Eight Paise Eighty Eight) only. The balance payable amount of Rs. 1,59, 85,15 (Rupees One Crore Fifty Nine Lakhs Eighty Five Thousand One Hundred Fifty E and Paise Eighty Eight) only is arrived at by deducting the advance already paic procurement of materials & imported manpower and Payment made as per BOQ from total amount of extra items.(**Annex-XX**) .

In view of the above," **Supplementary estimate for extra ite executed for tackling of the critical stretch from ch.422.60m ch.431.48 in face-II of HRT** " amounting to Rs. 2,57,13,386.61 (Rupees Crores Fifty Seven Lakhs Thirteen Thousand Three Hundred Eighty Six and P Sixty One) only along with all the related analysis are submitted for approval of competent authority.

ANNEXURE I

Notes

Visit of E[illegible] [illegible]ote-III) [illegible] DGM (D&E) [illegible] 30th [illegible] [illegible] 31st Jan'07

In connection wi[illegible] the e[illegible]tivity [illegible] 463.25 m to 470 [illegible] m i[illegible] Face-I [illegible], a visit was ma[illegible] by [illegible] Executive HOP,BDC, DGM [illegible] BDC [illegible] and other site of[illegible] [illegible] 30.01.07 [illegible] [illegible] 422.[illegible] m [illegible] Face-II and between Ch. [illegible] of HRT-I [illegible] reported by the site authority [illegible] (Project-III), and [illegible] DGM(D&E) along with [illegible] GSI, SMEC and M/s Patel Engineering Ltd.

The Executive [illegible] Project-[illegible] on the abovem[illegible] [illegible] criticality [illegible] chronological a[illegible]tivitie[illegible] along wi[illegible] submitted and enclosed herewith. [illegible] DGM (D&E) was apprised with the situation [illegible] authorities. The details of the situation with [illegible] note and suggestion, Geologist, GSI are [illegible]

Followed by the site visit a discussion [illegible] made in the presence of all the officials and representatives from M/s Patel [illegible] Ltd., GSI, M/s [illegible]EC and observations and suggestions thereafter are recorded [illegible]

Face-II (Ch. [illegible] m)

- The H[illegible] in [illegible]ce-II [illegible] [illegible]ugh a critical stretch comprising of a shear zone at Ch. 422.[illegible] m.
- Heavy [illegible]ose f[illegible] of abo[illegible] [illegible] from the shear had been recorded on 12th Jan' 07, 15th Jan'07 [illegible] 19th Jan'0[illegible] [illegible] Jan'07.
- Heavy [illegible]eepage of the [illegible] [illegible]00 Ltrs/min had been reported from this face.
- In the [illegible] side of the face [illegible] of about 100 Ltrs/min had been reported.
- The p[illegible]posal [illegible] advancing [illegible] from the left side by M/s PEL was not agreed upon [illegible] the authorities at [illegible] seeing the situation.
- Cement sand and C[illegible] [illegible]ing should be continued with efficient high capacity grout pump [illegible] [illegible] of the cavity is ensured. After grouting proper observation [illegible] be ma[illegible] [illegible] removal of the temporary support.
- Grou[illegible]ing sho[illegible] be done [illegible] using packer.
- Detai[illegible] observ[illegible] [illegible] discharge from the drainage holes is advised.
- The [illegible]pecti[illegible] observat[illegible] [illegible] be furnished to the design wing regularly.
- If dis[illegible]arge from the [illegible] [illegible] do not decrease in due course, the ED(P-III) and DGM(D&E) opin[illegible] [illegible]ging CWC and M/s SMEC for further decision of acceleration of the f[illegible]
- The [illegible]ecutive Director [illegible] [illegible]ined for keeping the records of the criticality in the [illegible] of [illegible] [illegible] for future reference.
- Tra[illegible] test should be [illegible] to ascertain the [illegible]ge of the drained out water with [illegible] by [illegible]ce.
- Whi[illegible] proc[illegible]ing with [illegible] and benching in this critical stretch, suppo[illegible] measures i[illegible] [illegible] section should be provided.

Shri A. Chandhury,
Sr. Mr. (C), O/o the D (T)
For kind appraisal of D (T).

(10) ANNEXURE-II

SMEC

Record of discussion held between SMEC & NEEPCO

Date 15 02 07
Location Bichom Site Office
Attended by

SMEC :
1. Robert Goldsmith, Engineering Geologist
2. Mr. Robert Nievergelt, Tunneling Engineer
3. Mr. R Badal, Rock Mechanics Engineer
4. Mr. D Anand , Geotechnical Engineer
5. Mr. T L Sarma, Site Coordinator

NEEPCO
1. Mr. S. K. Das, DGM (C)
2. Mr. C. D. Deori, Sr. Manager (C)
3. Mr. M. Dihingia, Sr. Manager (C)
4. Mr. G. Kalita, Geologist

1. BICHOM DAM:

- The urgency of the design drawings for the blocks 4 & 5 was appreciated and SMEC indicated that the drawings now depend on finalization of the reduced gate level details. It was indicated that the designs for these blocks may be ready within about 2 weeks.
- SMEC has received as-excavated profiles and these will assist in the completing the design for the foundation stripping profile for left abutment.
- SMEC referred to its previous report on right abutment in the talc - chlorite schist issued to NEEPCO recently. Recommendations in that report were made for:
  - continuing detailed geological mapping as cleanup proceeds. The existing mapping is very useful as it indicates the widespread existing of clay filled joints and sheared zones, and the variability of the condition of the schist
  - starting point load-testing ASAP, and guidelines have been given to the laboratory personnel of NEEPCO at Package 2 lab.
  - Core sampling for unconfined compressive strength, and more tri-axial test. NEEPCO to source portable coring device.
  - It is important to conduct grouting trial as soon as practical.
- The need for a second soaked in - situ shear test is currently under evaluation. Such a test would be located so as to avoid construction work areas.
- Details of these recommendations will be provided next week.

2. TUNNEL

- SMEC discussed initial findings for the site visit to the tunnel faces 1 & 2 and following items discussed were preliminary advice only.

- It was indicated that before any recommendation can be provided, SMEC needs to refer to the Tunnel Designers, and the Technical Director, Tunnels

2.1 Face 2

- Asked for advice by NEEPCO on the current collapse situation, it was suggested that drainage holes be installed with drilling as deep as possible to the maximum extent of the available Boomer, that is nominally 20 m. Drainage is the most critical activity at this stage. The drainage holes should be directed above the estimated extent of the cavity and above any grouting holes. Various directions should be trialled above and to the right hand side of the tunnel, to attempt to intercept water holding strata which are currently draining into the cavity.
- The effectiveness of the present grouting activities are uncertain (grout is currently being injected into the fallen material resting above the tunnel crown). If NEEPCO wish to maintain this grouting, then it is advised that an increased thickness grout should be tried, compared to the present 1:1 water/cement mix, as the grout had been observed to flow back out of the material during the site visit. Additionally, sand or saw-dust additives could be trialled in an attempt to bind the grout mix within the slumped material above the tunnel crown.
- NEEPCO asked whether chemical grouting was an option for stabilizing the current overbreak problem. SMEC agreed that this was one alternative which should be investigated.

2.2 Face 1:

- It is understood that the tunnelling is making slow progress at this face due to considerable overbreak occurring above and ahead of the advancing tunnel face. At the time of the site visit, no tunnelling activities were being undertaken, as time was being allowed for setting of concrete placed into the overbreak above the last installed sets of ribs.
- NEEPCO described the type of failure occurring at this face as being block or wedge failure out of the face along the foliation planes which in this drive dip in the opposite direction to the direction of tunnelling. The schist material predominant in this part of the tunnel drive is extremely friable and has a tendency to crumble from the crown, even between spiling bars installed at 300 mm spacing.
- Asked for advice, SMEC suggested that shotcreting of the perimeter of the tunnel after each advance may assist to prevent fragmentation of the material at the crown. It was suggested that increasing the space between heading and bench (currently 3 m), maintaining a berm at the face, and spiling ahead of the face (face nailing) were appropriate measures to prevent blocks falling out of the tunnel face.

2.3 Conclusion

- SMEC will aim to have a report for the site visit with recommendations prepared by the end of the following week (23.02.2007)

(12) ANNEXURE - III

NOTE ON THE GEOTECHNICAL ASSESSMENT OF THE SLUSH FLOW ZONE AND THE CAVITY FORMATION IN FACE-II OF HRT-I AND FOUNDATION ROCK OF RIGHT ABUTMENT OF THE DAM, BICHOM, KAMENG H.E. PROJECT, ARUNACHAL PREDESH.

BY

E. BALASUBRAMANIAM.
DIRECTOR
GEOLOGICAL SURVEY OF NDIA

Date of Inspection: 11.03.07

On request from Project Authority of Kameng H.E. Project, site inspection visit is undertaken to evaluate the progressive construction stage geological/geotechnical conditions of the locations for various components of Kameng H.E. Project. Shri A. Bora, Geologist, GSI and Shri B. C. Saha, DGM(C), NEEPCO Ltd., Tezpur accompanying during the visit.

On 11.03.07, the Face-II of the HRT-I was inspected followed by the inspection of Dam foundation on 12.03.07. Shri U.K. Borah, DGM(C), EIC (Pkg-I) and other officers of NEEPCO were involved during site visit and discussions.
Site officials appraised that on 12.01.07, 8m long, 5m wide and 4m high cavity has formed on the right side of the crown at Ch. 422.60m, due to loose fall. The cavity is oriented at about 45^0 angle upward and away from the center line.

Periodic ejection of slush material in semi liquid form flowed from the cavity with pressure, to the tune of 200 cum to 800 cum each time on various dates upto 16.02.07. Seepage water flow, varying from 160 to 400 Ltrs/min was observed during the above period.

Probe holes drilled on the face and away from the crown have indicated that the soft and loose material zone is about 3m deep on the left side, beyond which hard rock is intersected. However, due to limitation in Boomer capacity, cavity could be probed upto 19m depth only, upto which loose material was encountered.

Attempts were made to consolidate the loose material by grouting and backfill the cavity with concrete and cement slurry, since 16.01.07. Till date 13,956 bags of cement grouting and 240 cum of Backfilling have been done with practically no effect. The cement grout also came out along with slush as independent irregular lumps and blocks.

At present the opening is sealed with concrete and packed with sand filled gunny bags. Photo and video clippings, taken on various dates of slush flow were shown to understand the situation.

The tunnel face was inspected along with the site officials. The following observations were made.

1. The tunnel is passing through metasedimentary rocks of Pre-Cambrian age, which occupies regionally the area around Bichom Dam Complex upto just north of Tenga Dam locality. The Pre-Cambrian rocks of the area comprise Chlorite-Sericite–Phyllite, Quartz-Muscovite–Sericite Schist, Quartzite, Quartzo–Feldspathic Gneiss, Streaky Gneiss and Porphyroblastic Granite Gneiss.

2. The Tunnel Face-II, in the problem zone, is occupied by Quartzite/Quartzo-Feldspathic Gneiss, striking approximately at right angle to the tunnel and dipping at about 45^{0} towards the face.

3. The probe holes have indicated that the same strata continue on the other side of the loose zone also.

4. The loose fall and the cavity zone are located within the quartzite/Quartzo-feldspathic Gneiss.

5. The loose material comprises angular to medium and course Quartz and Kaolin clay of about equal proportion.

Assessment of the loose fall zone:

1. The hard Quartzite/Quartzofeldspathic Gneiss are medium to course grained, dull white in colour comprising transparent quartz and white colored feldspars. The gneissosity is feebly developed.
2. The slush is derived from the degradation of the Quartzite/Quartzofeldspathic Gneiss.
3. The Quartzofeldspathic Gneiss/Quartzite appears to have undergone intense fracturing and comminution in the cavity and loose fall zone followed by degradation of feldspars into Kaolin clay.
4. Seepage water liquefied the loose material and was in store. When the zone was opened during tunnel boring the liquid material flowed freely into the tunnel under gravity. The force of the flow is caused by the self weight of the liquefied material.
5. Due to limited seepage into the fracture zone, liquefaction of the loose material takes time, causing periodic outflow as and when sufficient quantum accumulates.
6. With successive outflows, the cavity and thereby the area available for liquefaction progressively gets enlarged which is the cause for the gradual increase in the quantum of flow.
7. The liquefied material will occupy the bottom of the narrow orifice and the cavity will be at the top end of the loose zone. The thrust for the outburst of the material is given by infilling liquid material by self weight.

(74)

8. One of the following processes may have caused the development of the fracture zone.

   a. In tight isoclinal folds the axial part on the fold will be a high tension area where intense, closely spaced axial plane fractures develop. When any slip or fault in this zone occurs along the axial plane, mechanical crushing of the material takes place in a restricted pipe like zone. In this specific case, the Quartzite/Quartzofeldspathic rock, forming part of the axis of the fold, oriented along the cavity zone has undergone intense fracturing and grinding. Later the freed feldspars got altered into Kaolin clay by seepage water.

   b. The cavity zone could be part of a shear/fault zone. Mechanical grinding and alteration of feldspars could have taken place.
   c. The fracture zone being highly permeable, seepage water from the surrounding area get accumulated in this zone, causing liquefaction of the material.

Suggestions:

1. Options are not available for assessing the extent of the fracture zone or the quantum of the slush material in store.
2. Probe holes have indicated the presence of loose material upto about 3m further in the tunnel line on the left side. The depth of the loose zone on the right hand side of the face could not be assessed by drilling. The depth along the cavity could be probed upto 19m and found to contain only loose material.
3. Hence, it is risky to open fully the loose fall zone and allow the unknown quantum of semi liquid material to flow into the tunnel.
4. Since, the finer fraction of the slush material is clay, attempt to consolidate the material by cement grout will not be successful as the grout will not travel in clay material.
5. Since Kaolin, derived from degradation of feldspars, constitutes the entire clay fraction, attempts should be made to identify a suitable chemical which will interact with Kaolin and consolidate the material or facilitate cement grouting of the loose material by dissolving the clay.
6. However, the above treatment, even if it is successful , is constrained by the fact that since the dimensions of the loose material zone and the quantum of slush material existing are not known.
7. The ground surface across the projected vertical plane of the cavity line should be checked for the occurrence of any fault/shear zone in order to confirm the possible cause for the slush material zone.
8. Extent of pressure that will be developed and created by the loose material on the tunnel gradually over a period of time is not assessable. Hence, it is

required to provide reinforcement to the tunnel in the loose zone by appropriate steel liner.

9. In the light of the unknown factors involved, the option of deviating the tunnel away from the fracture zone may also be considered. In that direction necessary probing investigations may be initiated.

BICHOM DAM RIGHT ABUTMENT AREA.

A wide zone of highly puckered chlorite-sericite mica schist is present on the right abutment foundation area of the dam. The dam axis is along N 77°E – S 77° W. The schist band trends in N70° -80° W – S 70° -80° E direction and dip at 60°, - 75° towards SSW direction, crossing the Dam axis obliquely towards D/s to the left abutment side.

Cement-Rock bondage between the schist and the concrete will be doubtful, since, the schist material will slake in contact with water. Consequently, water will seep through the interface.

Hence, it is suggested that an appropriate concrete cover may be put in place on the U/s side of the Dam concealing the foundation over the schist.

12/3/07

Kameng Hydro Electric Project

Subject: Recommendation / Suggestions by the Visiting Experts on the hurdle encountered in Face – II of HRT, as recorded on 26th March 2007 at KPC, KaHEP

Having put up the critical issue encountered on face -II of HRT to the Visiting Experts Dr. B. M. Hukku, Ex Dy. Director General, GSI and Dr. B. K. Mittal, Ex Chairman, CWC at KPC, KaHEP on 26th March 2007, following suggestions have been issued by the Experts.

1. To ascertain the quantum / extent of Loose Muck stored on the right side of the face, probe holes with different inclinations upto a depth of about 30 Mtrs should be drilled. Thereafter, the associated findings/ observations should be recorded.

2. In case if the above probe holes fail to determine the extent of loose muck stored (i.e. if the holes do not encounter hard rock after crossing the loose zone), one exploratory drift having size of about 2.2M (H) X 1.5M (W) should be bored on the left side starting from a distance of about 10M away from the critical chainage 422.6 M. Such drift should be bored covering the length of deviated alignment. The purpose for boring the drift is to explore the geology for deviating the HRT alignment, if required.

As requested by the Visiting Experts, the above exploratory data needs to be furnished within the first week of April '07 for issuance of final recommendation / report within 18th April'07.

Necessary steps may be taken up expeditiously in accordance to above.

NOTE SHEET

The pre pages of the note sheet may kindly be perused.

The proposal for Review of Rates for the extra items executed for Tackling of the critical stretch from Ch 422.60m to 431.48m is in order.

Additional 1 % work cess has been included with the total cost of the items. The same may be agreed to finance subject to review approval of HOP. Total financial involvement is Rs 4,11,93,374.00 including 1% Work Cess.

Put up for comments / concurrence Please.

24/09/09

Dy. Manager (F)

Sr. Manager(F)

Notes above.

The Revised Rate analysis against critical stretch from ch. 422.60 m to 431.48m is agreed in finance and concurred for Rs. 4,11,93,374.00 including work cess 1%.

It is seen from the record that we have already released an amount of Rs. 4.55 cr. As such the over payment made to the party is required to be recovered from any payment due which comes first.

The competent approval may please be accorded to recover the excess payment made. ~~Subject~~

Submitted please.

HOP DOC. (Notes above and at pre-pages.)

The revised supplementary estimate for extra item(s) executed in the critical stretch from ch. 422.60 m to ch 431.48 m (1.0 km) amounting to Rs 411,93,374.0 (including 1% work cess) as proposed and vetted by Site finance is approved.

The difference of payment released based on the approval vide U.O. no 2119.50 dt 01/5/09 as proposed to be recovered is concurred.

DGM (C)/Ex i/c Pkg-I may pl take further action.

APPENDIX-1.C.

2ND BLOW OUT AT CH 584.48M

T-9.

An inspection note on Face-II of HRT, Bichom Dam Complex as on 15.12.07.

By. A.Born,Geologist,GSI

The Face-II was inspected at the reported chainage of 599.48m along with Shri M.C.Dihingia, Sr. Manager(C),HRT and other site Engineers and Geologist of NEEPCO and representatives of M/s PEL. During the inspection rib erection in left side of the heading was in progress.

During inspection following observations have been made.

1. The Face advanced in Heading and Benching method from Ch. 474.75m onwards.
2. The face at the heading comprise of Feldspathic Quartzite which are gray in colour and highly jointed with clay infillings.

The following joint sets are recorded.

Sl. No.	Join t Set	Dip Direction &Amount	Spacing of Joints.	Condition of Joints	Apperature/ Fillings.
1.	J-1	185°/50°	5-15 cm	Irregular rough	1-5mm (with Clay/ Talc/Sericite)
2.	J-2	300°/70°	6-25 cm	Irregular rough	2-4 mm
3.	J-3	80° /35°	5-12 cm	Irregular rough	1-4 cm(Clay)

3. The face comprise of medium strong rock which are slightly weathered and damp in nature.
4. Though the face excavated against the foliation direction, other 2 joint sets dipping away from the face. Joint planes are clay filled and form wedges and fall down as angular fragments and angular blocks depending upon the joint spacing. The rock of the area suffered intense deformation due to which they are highly fractured and clay filled because of alteration of feldspar to clay minerals.
5. Due to the prevailing geological environ, the rock mass become poor with RMR value of 26 categorized under Class IV.
6. Face is advanced in Heading (segment wise) with selective blasting based on rock and face condition.
7. Rib support has been provided @ 0.50 m C/C to 0.75m C/C with back filling segment wise by placing precast slab between the ribs.

U.O. No. 863 Dtd. 11/1/08
DO Engr. in-Charge (Pkg-I), BDC, NEEP

Noted 17/1/08

Suggestion:

The rock condition encountered during boring of HRT in face-II is poor in nature with heavy loose fall from crown after blast at Ch. 584.48m and Ch. 590.13m., which delayed the boring activity in Face-II.

The rock mass particularly at crown needs consolidation and support in advance by providing forepolings using perforated M.S Pipes at suitable spacing with cement/microfine cement grouting through the inserted pipes. After doing so, the rib spacing may be slightly increased and segmental boring may be avoided.

As joint planes are filled with clayey materials, for consolidation suitable grout may be used.

In the prevailing geological condition the forepoling using 32 mm bar appears inadequate.

Wherever heavy loose fall with formation of cavity was encountered, proper consolidation should be ensured.

A suitable distance between heading and benching should be maintained for smooth simultaneous activity.

During benching operation proper care should be taken.

In case of noticeable seepage from the face, advance drainage hole should be provided to release the accumulated water.

***

(107)

A Report on boring of Face-II of HRT-I under Package-I of Kameng H.E.Project (with emphasis on boring from Ch. 422.60m to 616.00m)

By G.C.Kalita,
Officer (Geology),BDC

Introduction:

The boring of HRT under Package-I for a total length of 5100m is commenced by two faces. Face-I is having a total length of 785.78m wile Face-II is 4314.22m. Out of the total length of 785.78m about 67m is cut and cover. The total completed boring length is 679.25 m leaving a plug of 34.01m to Intake portal till completion of excavation of dam right bank blocks. The face-II is for a total length of 4314.22 m out of which till date 616.88m of boring has been completed. Despite of the stipulated time bound approach with higher desired rate of progress and all out efforts from both the Project Authority and the Executing Agency, the delay in boring is attributed to the poor geology encountered during boring of tunnel which is elaborated below.

Geology of Face-I(upto Ch. 684.25m)

The HRT of package-I ,BDC is passing through a sequence of low to medium grade metasediments comprise mainly of Mica Schist ,Phyllites, Quartzites etc.

The Face-I upto Ch 684.25m comprise of alteration of Mica Schist /Carbonaceous Phyllite and Quartzite ,with numerous quartz veins. Clay infillings within joint planes with minor shear and intense staining are also noticed in some of the stretches. The poor nature of the rock can be ascertained by its following properties:

i. Lower U.C.S value.
ii. Low RQD.
iii. Close spacing of joints.
iv. Aperture upto 5mm.
v. Clay /talc/sericite infillings within joint planes.

Seepage in face-I in the excavated reach was not a significant problem i.e. no major seepage was encountered. This may be due to the reason that the vertical cover of Face-I is upto 84m in the junction and is close to the river bed. As the level of the GWT is controlled by the prevailing topography/vertical cover, due to less vertical cover the water table may be below the excavated reach and as such no significant seepage was observed. The proportion of Mica Schist is more in Face-I to that of Face-II.

Despite of the poor geology, wherever the rock permits efforts has been made to expedite the progress by putting Class-III and Class IV support system with variation in spacing of the support system keeping in view all precautionary measures.

L Tybot

As such the boring of 679.25m out of 718.303m has been completed within 506 days @ 1.34 m/ day.

Two significant collapses has been occurred at Ch.380.25m and Ch.527.85m for which a significant time has been consumed for rectification of the same.

Geology of Face-II (with emphasis from Ch. 422.60m to 616.88m)

The excavated reach of Face-II of HRT is also passing through fractured Quartzite and Mica Schist alteration with numerous quartz veins. Carbonaceous Phyllite and crushed quartzite are also associated in some of the stretches. In most of the sections the quartzite encountered are thinly bedded and highly fractured. Closely foliated mica schist is associated with quartzite in almost through out the excavated section in this stretch. Clay/Iron oxide/carbonaceous matter etc. in the form of infillings are associated almost through out the stretch within the foliation plane of Quartzite. In some of the stretches quartzite are pure while in some other it comprises of micaceous matter. Mostly Mica is soft with weathering while in some other stretches it is relatively hard. Seepage encountered in this face is associated with interlayer mica schist and along foliation plane.

1. The UCS ascertained vide MSI for the encountered rock mass in this stretch is summerised as under.

Sl. No.	Chainage (in M)	Strength(MPa)
1	422.60 to 453.23	50-200
2	453.23 to 494.18	50-150
3	494.18 to 585.13	5-150
4	585.13 to 616.88	5 -50 occasionally 100

2. The prominent joint sets encountered within the excavated portion of Face-II of HRT rock strata are as under.

Sl. No.	Joint Set	Dip Direction &Amount	Spacing of Joints.	Condition of Joints	Apperature/ Fillings.
1.	J-1	110°-220°/30°-80°	0.3-50 cm	Wavy Irregular to Planner rough	1-5mm (with occasional Talc/Sericite/c lay)
2.	J-2	300°-35°/14°- 80°	1-60 cm	Planner rough to planner Irregular	1-5 mm

3.	J-3 J-4	10°-80° /25°-85° 200°-290° /30°-85°	1-50 cm 1-70 cm	Planner Rough Planner Rough	1-10 cm 1-5 mm

3. Seepage Condition.

Seepage varies within Dry to wet, while flowing condition has been encountered within Ch. 422.60m to 430.13m.

The seepage is summeriesed as under.

Sl. No.	Chainage	Seepage
1	422.60mto 430.13m	Flowing
2	430.13m to 439.00	Dry to Damp
3	439.00m to 453.23m	Dry to Wet
4	453.23m to 455.23m	Damp
5	455.23m to 458.23m	Dry
6	458.23m to 484.98m	Wet
7	484.98m to 487.98m	Damp
8	487.98m to 491.98m	Dry
9	491.98m to 494.18m	Damp
10	494.18m to 502.68m	Damp
11	502.68m to 504.98m	Dry
12	504.98m to 519.23m	Damp
13	519.23m to 520.13m	Dry
14	520.13m to 524.48m	Damp
15	524.48m to 528.98m	Dry
16	528.98m to 585.13m	Damp
17	585.13m to 616.88m	Damp

4. Weathering Condition:

The rock in this stretch varies within Fresh to Highly Weathered in nature which is summarized as under.

Sl. No.	Chainage	Weathering
1	422.60m to 432.48m	HW to MW
2	432.48m to 487.98m	SW to MW
	453.23m to 468.23m	Fresh to Slightly Weathered.
	468.23m to 471.23m	Fresh
	471.23m to 487.98m	Fresh to Slightly Weathered.
	487.98m to 489.98m	SW to HW
	489.98m to 491.98m	MW- HW

493.00m upto a length of 10m. Though the entire section exhibit loose fall during erection activity, significant loose fall has been recorded at Ch. 584.48m and 590.13m. In some of the stretches canopy in the form of additional support has to be provided to restrict advancement of the face with frequent loose fall from crown portion. The face has been come to a stand still w.e.f 28.12.07 after huge slush flow and seepage encountered at Ch. 616.88m.

The heavy loose fall zone at Ch. 584.48m and 590.13m has been supported with Forepoling and Grouting in addition to the steel support. In this sections boring has been advanced with Heading and Benching very cautiously taking all precautionary measures with Rib erection and subsequent backfilling in half arch portion at a time.

Heavy seepage to the tune of 60-70 LPM has been recorded between Ch. 458.23m to 484.98m which significantly affected activities like loading and Blasting. Further frequent collapses of hole drilled for loading of explosive for face blast resulted in undercut which in turn increases the cycle time.

Keeping in view of the deteriorating nature of the rock with gradual increase in vertical cover, probe hole has been drilled to drain out the water and to release the pressure (if any) and also for tentative assessment of the rock type to be encountered. The probe hole has been drilled above SPL at about 10:00, 12.00 and 2.00'O Clock position in general. In some instances there may be slight change in position, may be either due to face profile or limitation of the machinery used.

The assessment from probe hole drilled within Ch. 422.60m to 616.88m is summerised as under.

Sl. No.	Chainage	Length	Hole No.	Location	Observation	Remarks.
1	502.68m	10m	1	2m above SPL 1m from right periphery	85% Hard 15 % Slightly Loose	Bit size 89mm
			2	1 m below Crown	75% Hard 20% Slightly Loose 5% loose	
			3	2.1m above SPL 1.50m from left periphery	85% Hard 4% S. loose 11% loose	
2	513.48m	10m	1	1.7m above SPL 1.50m from right periphery	70% soft 30 % S. hard.	Bit size 89mm
			2	1m below crown	55% soft 45% slightly hard	
			3	1.7 m above SPL 2m from left	65% soft 35% hard.	

				periphery		
3	522.27m	10m	1	2 m above SPL 1.75from right periphery	80% soft 20% slightly hard.	Bit size 89mm
			2	1.75m below crown	50% soft 30% slightly Hard 20%Hard.	
			3	1.75m above SPL 2.00 m from left periphery	65% soft 35% slightly Hard.	
4	531.23m	10m	1	2 m above SPl 1.75m from right periphary	20%Hard 10%Slightly Hard 70 % soft.	Bit size 89mm
			2	1.75 below crown	15% Hard 20% slightly Hard 65% soft	
			3	2 m above SPL 1.90m from left periphery	40% Hard 25% slightly Hard 35% soft.	
5	546.98m	7 mt	1	2.75 m above SPL 1 m from right periphery	71.43% soft 28.57 % slightly hard.	Bit size 89mm
			2	2 m below crown	42.85% hard. 14.30% slightly hard. 42.85% soft.	
6	28.11.07 588.63m	10	1		27.5% Hard 50% M. Hard 12.5% soft to M. hard. 10% soft.	Bit size 89mm
7	605.00	10	1	2.5m above SPl 1.50m from R. Periphery	95% M Hard. 5% loose.	Bit size 89mm
			2	0.50m below Crown	100% M. hard.	
			3	3m above SPL 1 m from left periphary	70 % M. Hard. 30% soft to M. Hard.	

(167)

8	615.00	3 No. holes has been drilled in face above SPL. 1 at crown and the rest 2 no. 1.50m in the periphery in both side upto a length of 6m. the purpose of the hole is to pre-inject cement grout so as to consolidate the rock. Observation: the hole upto a length of 6.00m indicates medium hardness of the rock. No seepage is observed from the hole during drilling and after insertion of pipes.

Every effort has been made to probe in advance the rock condition to be encountered. But in certain stretches it cannot be performed as in this stretches face may either be advanced with scaling and scooping.

So ,it may be expressed that the eventuality occurred on 28.12.07 is a Geological Surprise which cannot be assessed in advance in this type of complex Himalayan Terrain.

Officer (Geology)
O/o Engineer-in-Charge (Package-I)
Bichom Dam Complex,
KaHEP: NEEPCO Ltd.,

joints, yet the other two sets are dipping towards portal. Joints are closely spaced and with together with other above spatial geological environment prevails the rock mass become very weak and categorised under poor rock category of class IV, with RMR value ranges from 22 to 30. The Face advanced in benching and benchings with pull ranges from 1.5 – 3 m, supports by steel ribs @ 0.75 m to 1 m spacing with back filling concreting by placing pre cast slabs between the ribs. In this stretch the over break percentage ranges from 6.75 to 30.67 and distributed due to the prevailing geological environs. It is observed that in part between Ch. 511.48 m to 513.48 m for blasting single delay only one delay was used, however in future proper delay may be used for blasting

should use smaller delay detonators in advance operations to reduced damage to the surrounding mass which is very vulnerable. Pl. ensure in future

14/1/08.

2	Hydro Meteorological Observation	Sqm														Continued
3	Geological Investigation (Drilling)	Rm														Continued
4	Construction Material Survey	LS														Continued
5	PACKAGE WORKS -HRT-I Works															Further exploration for quarries in nearby area are being done.
	a) Intake Dam Excavation	Cum	17000	16000	1000		1000		-	-	-	-	16000	1000		As per Revised Construction Programme, the balance excavation was to be started from 01 April '08.However, as per construction drawing, the intake location has been shifted near the Dam body. Therefore, intake construction schedule has been deferred to match with the Dam works.
	b) Intake Dam Embankment	Cum	10000	8000	Completed								8000		Completed	
	c) Stage I Intake	LS		Completed											Completed	
	d) Intake Portal	No	1	Completed											Completed	
	e) Adit-II Boring	RM	89,000	34,111											Completed	
	f) Adit-II & HRT Junction	LS		Completed											Completed upto 24.Nov.'07	Some of the reasons due to which the progress of tunnel boring was hampered during the reporting period are as follows-
	Tunnel Boring: Fixed Tonnage Intake	RM	185	432.75	252.25	224.75	252.25	224.75	186.50	45	0.00	186.50	479.25	45		► FACE-I From 13/09/2007 (8:00 AM) the boring of Heading in this face had been suspended at Ch. 584.196 m keeping 34.107 m of plug (unbored length of tunnel) from the fixed Intake Portal location (SP4) and Benching up to Ch. 679.25 m leaving a bench of 5.00 m to give toe support to the tunnel face. Since the Intake Portal is located adjacent to the Dam body, feasibility of further advancement of boring from the face needs to be examined in accordance to the revised construction drawing for Dam Excavation Profile.
	Tunnel Boring: Fixed Tonnage Length	RM	1087.5	922.60	1092.40		1126.00		114.09	99	41.25	155.13	679.73	99		► FACE-II ▪Normal operation of boring on the face had been taken up from 24/08/2007 by drilling & blasting of the full face after treatment of critical stretch. ▪Face-II comprise of carbonaceous phyllite with quartzite at crown. The carbonaceous phyllite are thinly bedded with crenulations which become discrete particles after blast. This loose behaviour exhibit lack of cohesiveness among adjacent beds. The Quartzite at crown are also thinly bedded with aperture of 2-5 mm. It exhibits fragmented behaviour. ▪ The progress of HRT boring was slow during the reporting period because boring has to be done very cautiously taking all the precautionary measures & Heading and Benching method of tunnel boring have to be followed due to encountering of very poor geology as mentioned above. ▪ Frequent loosefall from crown portion on 4/11/07 & 5/11/07 delay the work of rib erection.Canopy at the crown portion had to be provided during fixing of tagging and bulkhead resulting in overall delay of cycle times. ▪The progress at F-II has come to a standstill from 15/11/07 again at Ch.584.48m due to heavy loosefall with sudden roof and face collapse resulting formation of cavity. The problem is almost similar to that encountered on 12/01/07 at ch.422.60m except seepage. Treatment of the cavity is in progress and anticipated to be completed within November07. ▪Prior to encountering of the poor rock strata,minimum cycle time attained in the face for 2.25m pull was about 19 hrs with full face blast. The time consumed in achieving 41.25 m progress w.e.f. 26/10/2007 to 25/11/2007 was 744 hrs against the required time of 348 hrs with a time over run of 396 hrs (16 days 12 hrs).
	Tunnel Boring: Total	RM	1272.5	1355.35	4194.65		1378.25		231.59	144	41.25	242.63	1157.98	144

		Dm														Continued
4	Construction Material Survey															Further exploration for quarries in nearby area are being done.
5	PACKAGE WORKS – HRT-I Works (Intake Open Excavation)	Cu.M	17000	17000	2000		2000		–	–	–	–	19000	1000		As per Revised Construction Programme, the balance excavation was to be started from 01 April '08 However, as per construction drawing, the intake location has been shifted near the Dam body. Therefore, intake construction schedule has been deferred to match with the Dam works.
	(i) Intake Open Excavation	Cu.M	9000	9000	Completed								9000		Completed	
	(ii) Signal Installation	LS			Completed										Completed	
	(iii) Adit Portal	No	1		Completed										Completed	
	(iv) Adit-II Boring	RM	38,000		34,111										Completed	
	(v) Adit-II to HRT Junction	LS			Completed										Completed on 01/12/2007	Some of the reasons due to which the progress of tunnel boring was hampered during the reporting period are as follows-
	(vi) Adit-II Tunnel Boring: Face-I (Intake)	RM	735	192.75	390.25	203.50	370.25	225.50	158.50	45	0.00	158.50	570.25	45		➤ FACE-I From 13/08/2007 (9:00 AM) the boring of Heading in this face had been suspended at Ch. 584.196 m keeping 34.107 m of plug (unbored length of tunnel) from the fixed Intake Portal location (SP4) and Benching up to Ch. 679.25 m leaving a bench of 5.00 m to give toe support to the tunnel face. Since the Intake Portal is located adjacent to the Dam body, feasibility of further advancement of boring from the face needs to be examined in accordance to the revised construction drawing for Dam Excavation Profile.
	Face-II (Intake)	RM	4015	422.50	3592.40		1199.00		159.13	99	29.50	188.63	608.63	99		➤ FACE-II ▪Face-II comprise of dull white Quartzite with three sets of prominent joints and clay infillings within the foliation plane. Aperture varying from 1 to 3 mm and individual beddings vary from 5 to 25 cm. The dip of the bedding plane is 50° towards 175° (towards the face). The face is damped in nature. Seepage is also noticed from the face. ▪ Ribs were being erected by scooping and trimming by Rocket Boomer (one half Arch at a time). Advancement is made very cautiously by providing additional support measures and Canopy which is necessary to prevent further deterioration of the rock strata ▪ The progress at Face-II had come to a standstill from 01/12/2007 to 09/12/2007 due to heavy loosefall and subsequent formation of cavity at 5:00 PM on 01/12/2007 at Ch. 591.13m. After blast at heading for a pull of 1.00m. It was observed that upto about 2.00m above SPL the face comprised of Mica Schist overlain by crushed Quartzite. The cavity at Ch. 591.13m has been formed due to presence of the crushed quartzite above the schist layer which may be a part of localized shear. Presence of clay in the weak plane act as a media for slippage. This slip along the weak plane may induce the collapse through out the periphery and might have given rise to the formation of cavity at this stretch with advancement of the face. ▪ The cavity has been tacked by backfill concrete, providing forepoling ring with heavy duty perforated MS pipe with consolidation grouting on 05/12/07. ▪ After tacking the Cavity, Ribs were being erected very cautiously by scooping and trimming by Rocket Boomer one half Arch at a time ▪ After observing some improvement in the rock strata in the face, full face heading was taken on 19/12/07 and was completed successfully on 20/12/07. But while full face Heading was taken on 21/12/2007 heavy loosefall and subsequent formation of cavity occurred during rib erection at 6:45PM at ch.610.88m. The problem was tacked by providing canopy and subsequent beddding on 22/12/07. Thereafter again full face heading was taken up to achieve optimum progress. ▪Poor geology is still continuing in the face which is hindering the progress of boring. ▪Prior to encountering of the poor rock strata,minimum cycle time attained in the face for 2.25m pull was about 19 hrs with full face blast. The time consumed in achieving 29.50 m progress w.e.f. 26/11/2007 to 25/12/2007 was 720 hrs against the required time of 249 hrs with a time over run of 471 hrs (19 days 15 hrs).
	(vii) Adit-II Tunnel Boring: Face-II (Intake)	RM	4107	945.05	4134.85		1312.50		242.50	144	29.50	272.00	1297.49	144		
6	ROAD WORKS – Kahan to Bichom (Link-2)	Km	2.310	[illegible]	[illegible]											
	[illegible]	Km	[illegible]	[illegible]	[illegible]

A Report on boring of Face-II of HRT-I under Package-I of Kameng H.E.Project
(with emphasis on boring from Ch. 422.60m to 616.00m)

By G.C.Kalita,
Officer (Geology),BDC

Introduction:

The boring of HRT under Package-I for a total length of 5100m is commenced by two faces. Face-I is having a total length of 785.78m wile Face-II is 4314.22m. Out of the total length of 785.78m about 67m is cut and cover. The total completed boring length is 679.25 m leaving a plug of 34.01m to Intake portal till completion of excavation of dam right bank blocks. The face-II is for a total length of 4314.22 m out of which till date 616.88m of boring has been completed. Despite of the stipulated time bound approach with higher desired rate of progress and all out efforts from both the Project Authority and the Executing Agency, the delay in boring is attributed to the poor geology encountered during boring of tunnel which is elaborated below.

Geology of Face-I(upto Ch. 684.25m)

The HRT of package-I ,BDC is passing through a sequence of low to medium grade metasediments comprise mainly of Mica Schist ,Phyllites, Quartzites etc.

The Face-I upto Ch 684.25m comprise of alteration of Mica Schist /Carbonaceous Phyllite and Quartzite ,with numerous quartz veins. Clay infillings within joint planes with minor shear and intense staihing are also noticed in some of the stretches. The poor nature of the rock can be ascertained by its following properties:

i. Lower U.C.S value.
ii. Low RQD.
iii. Close spacing of joints.
iv. Aperture upto 5mm.
v. Clay /talc/sericite infillings within joint planes.

Seepage in face-I in the excavated reach was not a significant problem i.e. no major seepage was encountered. This may be due to the reason that the vertical cover of Face-I is upto 84m in the junction and is close to the river bed. As the level of the GWT is controlled by the prevailing topography/vertical cover, due to less vertical cover the water table may be below the excavated reach and as such no significant seepage was observed. The proportion of Mica Schist is more in Face-I to that of Face-II.

Despite of the poor geology, wherever the rock permits efforts has been made to expedite the progress by putting Class-III and Class IV support system with variation in spacing of the support system keeping in view all precautionary measures.

As such the boring of 679.25m out of 718.303m has been completed within 506 days @ 1.34 m/ day.

Two significant collapses has been occurred at Ch.380.25m and Ch.527.85m for which a significant time has been consumed for rectification of the same.

Geology of Face-II (with emphasis from Ch. 422.60m to 616.88m)

The excavated reach of Face-II of HRT is also passing through fractured Quartzite and Mica Schist alteration with numerous quartz veins. Carbonaceous Phyllite and crushed quartzite are also associated in some of the stretches. In most of the sections the quartzite encountered are thinly bedded and highly fractured. Closely foliated mica schist is associated with quartzite in almost through out the excavated section in this stretch. Clay/Iron oxide/carbonaceous matter etc. in the form of infillings are associated almost through out the stretch within the foliation plane of Quartzite. In some of the stretches quartzite are pure while in some other it comprises of micaceous matter. Mostly Mica is soft with weathering while in some other stretches it is relatively hard. Seepage encountered in this face is associated with interlayer mica schist and along foliation plane.

1. The UCS ascertained vide MSI for the encountered rock mass in this stretch is summerised as under.

Sl. No.	Chainage (in M)	Strength(MPa)
1	422.60 to 453.23	50-200
2	453.23 to 494.18	50-150
3	494.18 to 585.13	5-150
4	585.13 to 616.88	5 -50 occasionally 100

2. The prominent joint sets encountered within the excavated portion of Face-II of HRT rock strata are as under.

Sl. No.	Joint Set	Dip Direction &Amount	Spacing of Joints.	Condition of Joints	Apperature/ Fillings.
1.	J-1	110°-220°/30°-80°	0.3-50 cm	Wavy Irregular to Planner rough	1-5mm (with occasional Talc/Sericite/clay)
2.	J-2	300°-35°/14°- 80°	1-60 cm	Planner rough to planner Irregular	1-5 mm

3.	J-3 J-4	10°-80° /25°-85° 200°-290° /30°-85°	1-50 cm 1-70 cm	Planner Rough Planner Rough	1-10 cm 1-5 mm

3. Seepage Condition.

Seepage varies within Dry to wet, while flowing condition has been encountered within Ch. 422.60m to 430.13m.

The seepage is summeriesed as under.

Sl. No.	Chainage	Seepage
1	422.60mto 430.13m	Flowing
2	430.13m to 439.00	Dry to Damp
3	439.00m to 453.23m	Dry to Wet
4	453.23m to 455.23m	Damp
5	455.23m to 458.23m	Dry
6	458.23m to 484.98m	Wet
7	484.98m to 487.98m	Damp
8	487.98m to 491.98m	Dry
9	491.98m to 494.18m	Damp
10	494.18m to 502.68m	Damp
11	502.68m to 504.98m	Dry
12	504.98m to 519.23m	Damp
13	519.23m to 520.13m	Dry
14	520.13m to 524.48m	Damp
15	524.48m to 528.98m	Dry
16	528.98m to 585.13m	Damp
17	585.13m to 616.88m	Damp

4. Weathering Condition:

The rock in this stretch varies within Fresh to Highly Weathered in nature which is summarized as under.

Sl. No.	Chainage	Weathering
1	422.60m to 432.48m	HW to MW
2	432.48m to 487.98m	SW to MW
	453.23m to 468.23m	Fresh to Slightly Weathered.
	468.23m to 471.23m	Fresh
	471.23m to 487.98m	Fresh to Slightly Weathered.
	487.98m to 489.98m	SW to HW
	489.98m to 491.98m	MW- HW

493.00m upto a length of 10m. Though the entire section exhibit loose fall during erection activity, significant loose fall has been recorded at Ch. 584.48m and 590.13m. In some of the stretches canopy in the form of additional support has to be provided to restrict advancement of the face with frequent loose fall from crown portion. The face has been come to a stand still w.e.f 28.12.07 after huge slush flow and seepage encountered at Ch. 616.88m.

The heavy loose fall zone at Ch. 584.48m and 590.13m has been supported with Forepoling and Grouting in addition to the steel support. In this sections boring has been advanced with Heading and Benching very cautiously taking all precautionary measures with Rib erection and subsequent backfilling in half arch portion at a time.

Heavy seepage to the tune of 60-70 LPM has been recorded between Ch. 458.23m to 484.98m which significantly affected activities like loading and Blasting. Further frequent collapses of hole drilled for loading of explosive for face blast resulted in undercut which in turn increases the cycle time.

Keeping in view of the deteriorating nature of the rock with gradual increase in vertical cover, probe hole has been drilled to drain out the water and to release the pressure (if any) and also for tentative assessment of the rock type to be encountered. The probe hole has been drilled above SPL at about 10:00, 12.00 and 2.00'O Clock position in general. In some instances there may be slight change in position, may be either due to face profile or limitation of the machinery used.

The assessment from probe hole drilled within Ch. 422.60m to 616.88m is summerised as under.

Sl. No.	Chainage	Length	Hole No.	Location	Observation	Remarks.
1	502.68m	10m	1	2m above SPL 1m from right periphery	85% Hard 15 % Slightly Loose	Bit size 89mm
			2	1 m below Crown	75% Hard 20% Slightly Loose 5% loose	
			3	2.1m above SPL 1.50m from left periphery	85% Hard 4% S. loose 11% loose	
2	513.48m	10m	1	1.7m above SPL 1.50m from right periphery	70% soft 30 % S. hard.	Bit size 89mm
			2	1m below crown	55% soft 45% slightly hard	
			3	1.7 m above SPL 2m from left	65% soft 35% hard.	

				periphery		
3	522.27m	10m	1	2 m above SPL 1.75from right periphery	80% soft 20% slightly hard.	Bit size 89mm
			2	1.75m below crown	50% soft 30% slightly Hard 20%Hard.	
			3	1.75m above SPL 2.00 m from left periphery	65% soft 35% slightly Hard.	
4	531.23m	10m	1	2 m above SPl 1.75m from right periphary	20%Hard 10%Slightly Hard 70 % soft.	Bit size 89mm
			2	1.75 below crown	15% Hard 20% slightly Hard 65% soft	
			3	2 m above SPL 1.90m from left periphery	40% Hard 25% slightly Hard 35% soft.	
5	546.98m	7 mt	1	2.75 m above SPL 1 m from right periphery	71.43% soft 28.57 % slightly hard.	Bit size 89mm
			2	2 m below crown	42.85% hard. 14.30% slightly hard. 42.85% soft.	
6	28.11.07 588.63m	10	1		27.5% Hard 50% M. Hard 12.5% soft to M. hard. 10% soft.	Bit size 89mm
7	605.00	10	1	2.5m above SPl 1.50m from R. Periphery	95% M Hard. 5% loose.	Bit size 89mm
			2	0.50m below Crown	100% M. hard.	
			3	3m above SPL 1 m from left periphary	70 % M. Hard. 30% soft to M. Hard.	

8	615.00	3 No. holes has been drilled in face above SPL. 1 at crown and the rest 2 no. 1.50m in the periphery in both side upto a length of 6m. the purpose of the hole is to pre-inject cement grout so as to consolidate the rock. Observation: the hole upto a length of 6.00m indicates medium hardness of the rock. No seepage is observed from the hole during drilling and after insertion of pipes.

Every effort has been made to probe in advance the rock condition to be encountered. But in certain stretches it cannot be performed as in this stretches face may either be advanced with scaling and scooping.

So ,it may be expressed that the eventuality occurred on 28.12.07 is a Geological Surprise which cannot be assessed in advance in this type of complex Himalayan Terrain.

APPENDIX-1.E.

4TH BLOW OUT AT CH. 616.88M

12/3/08

NOTE OF VISIT OF EXPERTS ON HRT FACE-II AT CH 616.88M OF KAMENG HEPROJECT(600MW), ARUNACHAL PRADESH(PERIOD FROM 6TH TO 10TH MARCH 2008)

1.0 BACKGROUND INFORMATION

1.1 It was reported that the HRT excavation was stopped at Face-II at ch 616.88m form 28.12.2007 due to heavy seepage and the tunnel was filled in with debris and rock fragments. The depth of deposition at ch 520.0m was at least 3.5m and Ch 580.0m at 5.7m. The face at ch 616.88m was completely filled up with rolling boulders. Now the slush/muck has been cleaned upto Ch.600.00 m(approx)

1.2 The site was visited by Director, GSI, Shillong on 17.01.2008 and opined that structurally the rocks were completely folded in the form of major anticlines and synclines with major fold axes were vertically faulted and sheared. Heavy accumulation of ground water in syncline fold closures was reported in the area. At this place the HRT encountered a major shear/fault zone along the axial plane of major syncline fold. The shear fault/zone comprises light colour sticky clayey gougy material and rock fragments of quartzite which came out in the form of debris/slush at the Face-II heading. Besides, the HRT Face-II is being excavated mainly in granite gneiss, quartzite with band of talc-chlorite schist. Rock conditions also changes at ch 616.88m onward where talc-chlorites schist was encountered at the crown level.

File (T-04)

1.3 Geological interpretations

The collapse heading at 616.88m of face-II of HRT, KaHEP is crossing through highly shattered quartzite with schistose bands which form acquicludes. The shattered quartzite which form aquifers and are highly charged with ground water.

The debris flow at the heading at face-II occurred on 28-12-07 and the debris flow extends upto about ± 213m into the HRT. The debris flow comprised of blocks and fragments of quartzitic material with clay representing crushed phyllite/schist.

In the excavated section of Face-II rocks are highly folded , overturn with boudins of quartzite. The rock formation trend N30°W-S30°E with easterly plunge. The foliation dips in general have moderate to steep dips. The sketch map by geologists, NEEPCO shows a linear ground depression trending roughly NW-SE across the tunnel section and extend further for about 40m from the present heading (sketch is enclosed). This depression may represent a major shattered and crushed rock zone within the quartizite and may extend upto a point downstream of the Bichom Dam site. Rocks are expected to improve after 40m from the present heading.

The tunnel excavation should be carried out in poor rock sections with drilled forepoles which can extend upto 15m length along the tunnel heading to prevent debris flow from heading. This is required as extremely poor rock may be encountered in this tunnel section between Face-II and Face-III.

2.0 FIELD INSPECTION

2.1 The tunnel Face-II was inspected and it was noticed that muck has been removed upto ch. 600.00m (approx). There are two openings in the debris/slush material, one is on left hand side and other is on right hand side. The steel rib at ch.614.53m was slightly visible on right hand side and water was coming out from top and bottom of steel rib flange. Similarly water was coming from left hand side opening. The quantum of water was much more on left hand side than the right hand side. The four ribs from ch 614.88m to 616.88m were still buried under debris.

2.2 The muck comprises of fragments of qurtazite and mica schist rock. The rock fragments were upto the size of 1.0mx 0.80mx0.40m approximately

2.3 It was observed that the steel rib at the face of niche on RHS of the tunnel at ch.503.30m were slightly bent at top towards the centre line of tunnel and the other steel rib at Ch. 493.00m was bending away from the centre line of the tunnel. Though the steel ribs in the back were intact in both sides.

2.4 It was reported that the quantum of seepage is decreasing. It was about 1300lpm on 6th Mar 08 and today i.e. 7th Mar it was about 1000lpm.

2.5 It was also reported that the bed level of river is at EL 703.00m and the invert level of tunnel is at EL749.00m approximately at this place.

2.6 It was also reported that a survey team, deputed to examine the top surface above the chainage 606.88m, found no depression or any development on the surface. But the whole area was covered with thick overburden comprising mostly of soils and slide debris. Two dry depressions, one almost

across HRT alignment and other at about 100m to 120m in right hand side of tunnel alignment were noticed.

3.0 RECOMMENDATIONS

3.1After discussing with the field engineers, the folwing measures are suggested

a. All steel supports should be strengthened, if found distressed and wherever necessary additional steel supports should be provided.

b. Forepoles in an angular ring (fan shape) at about 20m away from the face(ie at ch 595.00m) having a length of 12-15m should be installed at every 4 m. interval to create a 8m overlap along the periphery at crown at 500mm(circumferential distance) centre to centre over an arch of about 140degree. These forepoles polls should end 2-3m outside theoretical contours and with maximum deviation of 3-5degrre from the intended hit point. These forepoles should be grouted with either OPC/micro fine cement or/and colloidal silica grout. If the grouting efficacy is not satisfactory then Polyurethane with accelerators may be used. The grout material may be selected depending upon the material likely to be encountered during excavation of HRT. However, it would be prudent to start with first with OPC, then with fine cement, then with colloidal silica and lastly with Polyurethane with accelerators. The sequence may be changed as per site conditions. The grouting should be done from inside of the casing via perforation. The forepole pipes shall be perforated 100-

115mm dia and 12-15m long.The grouting should be carried with adequate pressures. If required single or double packers may be used if a particular zone along the length of forepole is to be grouted specially. After the ground is stabilised, the conventional drilling and blasting may be continued through the zone.

This process should be repeated at every 4m interval till the week zone is over. However, the spacing of forepoling ring may be increased or decreased as per site conditions.

c. The steel support should be designed to carry this extra load of forepoles.

d. Rock bolts may be provided wherever required in the sides (between the steel ribs)

e. The spacing of forepoles may be reduced to 250mm(circumferential distance) if required.

f. The tunnel may be excavated by taking a pull not more than 1-1.5m. The heavy duty rib steel supports with laggings may be provided at suitable spacing as per site conditions. If required steel plate lagging may be provided between the rib girders.

g. If any chimney has been formed, it should be filled in by pumping the concrete after putting steel support and lagging to a distance of about 10 to 12m or / to the extent possible.

h. The forepole pipes should be installed one by one. After each forepole pipe has been drilled and fully grouted, the next forepole pipe should be drilled and grouted.

i. Probing must be carried out at every stage.

j. A pilot hole may be drilled at every 4m interval to check the efficacy of OPC/fine microcement/colloidal silica/expansive polyurethane grout. After ensuring the sufficient reduction in flow and stability, the excavation may be continued.

k. Drainage holes should be drilled appropriately at suitable intervals and of sufficient length.

l) Adequate arrangement must be kept ready to pump out excess water flows and suitable safety measures must be taken to prevent any mishap due to sudden debris/slush/water flows

m) If the further advancement of tunnelling is causing any problem, investigation to reroute the HRT may be initiated.

n) The steel ribs at niche should be strengthened suitably.

o) The muck has been removed upto ch.600.00m. Now the muck should be removed from top by removing the material upto a depth of about 1-1.5m to length of 1-3 m. After removal of muck from top, the debris on slope may be adjusted/removed accordingly.This process should continue till the tunnel face at ch 616.88m is fully exposed. Simultaneously the condition of steel ribs should also examined and strengthened wherever necessary.

p) The attempts should be made to probe further at Ch. 609m and beyond by drilling straight or inclined probe holes to assess the width of shear/fault/distress zone and the extent of seepage water likely to be encountered.If required inclined probe holes may be drilled to assess the chimney formation. The length of the probe holes should be about 10-15m long.

4.0 ACNOWLEDGEMENT

4.1 Thanks are expressed to the officers of NEEPCO and GSI ,Shillong for their cooperation, assistance and help during the visit.

GOVERNMENT OF INDIA

GEOLOGICAL SURVEY OF INDIA

Geological Survey of India,
Engineering Geology Division,
North Eastern Region,
Shillong-793011..

No.

Dated., 17/01.2008

From:
R.Dharuman,
Director,
Engineering Geology Division-II
Geological Survey of India,
North Eastern Region,
Shillong-793 011.

To
The Deputy Director General,
Geological Survey of India,
North Eastern Region,
Shillong-793 003.

Subject : Submission of field inspection note.

Sir,

The undersigned paid an inspection visit to Kameng H.E. Project, West Kameng District, Arunachal Pradesh from 03.01.2008 to 09.01.2008, the project is under active construction stage.

The works of S/Shri Anjan Bora, Geologist (Sr.) Engineering Geology Division-II, Geological Survey of India, Guwahati were inspected and examined the various project components. The works have progressed as schedule as per the geological/structural condition of the area and objectives are being achieved.

As a part of programme the following critical/problematic reaches in the HRT and Kimi power house pit excavation were examined, and follow up work as suggested in the field enclosed for your kind information and necessary action.

1. Blow out (Heavy ingress of water, rock debris flow and cavity formation) in Head race tunnel (Face-II) at Ch. 616.88m.
2. Power house complex: Cut slopes and power house pit excavations were assessed for slope stability problems.
3. Geotechnical assessment of heavy water ingress/Seepage condition in HRT Face-VI.

Geotechnical assessment of tunnelling problems in HRT (Face-II & VI) and slope stability problems at Kimi Power House site.

1. Blow out (Heavy ingress of water, rock debris flow and cavity formation) in H R T (Face-II) at Ch. 616.88m. (89)

(a)Background information:

On 27.12.2007 at about 09:00 a.m. when shift work labourers are running out of the tunnel and shouting that heavy seepage/ flow of water gushed out from the tunnel heading. About 4000 to 5000 lpm of thick turnbide flow of water and spreading up to over 200m length of the tunnel are recorded. As reported that the turbide flow was reduced to 3000 lpm on 28.12.2007. Followed on 29.12.07 at about 07:00 a.m. and 03:00 p.m. at this time the operating crew heard a big bang/blast sound caused due to rock collapse, with this collapse lot of water and rock fragments/debris (about 3000 cu.m) comes down and filled up to tunnel invert level. It was also confirm that a large cavity as taken place at right side of the tunnel face/crown.

(b) Geological condition:

The HRT face-II has been excavated mainly in granite gneiss, quartzite with bands of talc-chlorite schist. The formations has a general dip of about 20°-30° dipping towards the heading face. Rock conditions also changes at CH. 618.8m onwards where talk-chlorites schist was encountered at the crown level.

Structurally the rocks are complexly folded in the form of major anticlines and synclines, with major fold axis are invariably faulted and sheared. Heavy accumulation of ground water in the synformal fold closures are reported in the area. At this location the tunnel encountered a major shear/fault zone along the axial plane of major syncline fold. The shear fault/ zone comprising light colour sticky clayey gauge and rock fragments of quartzite.

It is concluded from the above observations, that the blow out in the HRT (Face-II) at Ch. 616.88m. due to the large accumulation of ground water in the core of major syncline fold/shear/fault zone, the build up pressure due to gradual rise of tunnel cover was high enough which caused sudden burst/blowout at weak points.

© Recommendations: (Plate)

In order to plug the cavity in HRT face-II and restore the full face tunnel excavation, the following recommendation are suggested with the following guidelines.

I. Chemical grouting by polyurethane base and accelerators.
Layer-I (Plate) in order to consolidate the rock fragments/debris in the crown area ,chemical grouting by injecting PU accelerator, to create a grout canopy over the crown.

II. Layer by umbrella arch grouting, the holes are drilled within the tunnel ~~cousnt~~ profile and on the peripheral part and insert cast insitu perforated pipe and inject microfine to make a shield over the crown.

III.Layer by applying cement grout to plug the cavity as well as to enhance the mechanical strength of the crown part.

II. Excessive seepage of water in HRT face-Ch. 590

The excessive (2000 to 3000 lpm) in flow of water was recorded in the probe holes. Rock conditions in this location changes Ch.690m. onwards, whereas thin shear zone within the contact of basic dyke rock/mieaschist was encountered at the crown level.

Excessive seepage was also seen in gneisses with quartz veins and no specific problem has been encountered.

The HRT of Kameng H.E.Project is one of the largest tunnel being driven geologically complex Himalayan terrain. Heavy accumulation of ground water along the litho contacts of major rock units coupled with complex geological structurtes have led to difficult tunneling condition particularly huge material out wash incidences. Advance probing and effective drainnge measures must be the prerequisites in this type of terrain to avoid adversed tunneling problems. Imp

III.Kimi power house complex.

Slope cuttings and excavation: to accommodate the Kimi Power house is in progress. This cut slopes and Power house pit excavation were examined for its stability , effects of changes in slope angle and height, shear strength and pore water pressure etc.,

Geotechnical assessment.

Geologically the top of cut slope is occupied by about 20-24m. thick over burden/fluvio glacial terrace deposits, and at the bottom by Tertiary sedimentary rocks comprises of sand stone and carbonaceous shale interbanding (Fig.)

Slow creep movement in the cut slope in response to deeper excavation were noticed in the form of localized subsidence and development of tensional cracks (both transverse and longitudinal) in the concrete at R.L. ± 263m. In this case the weight of the top thick overburden and weathered rock may induced lateral stresses, which may overcome the shearing resistance. This was also coupled with high surface/ sub surface drainage discharge along the very steep gradient which may cause slope failures.

Based on field observation the instability indicated immediate risk on safe execution of the designed pit excavation, bedsides posing potential risk to power house complex in future.

The stability of the cut slope indicated that slope easening alone is not enough for long term stability of the slope and considerable retaining measure are required to stabilize the slope.

A series of shear intercepter (top, intermediate and bottom) has been recommended to resists shear failure the slope, which includes

1. Top shear intercepter (R.L. ± 253m): one row 6" dia inclined bored piles along with capping beam, normal to slope has been recommended to resists the combined effect of overburden and weathered rock at top.
2. Intermediate shear intercepter (R.L. ± 2498m):
   (a) Two rows of vertical piles with beam caps upto a depth of 24m.and
   (b) Vertical sand piles (R.L. 248m) holes drilled upto 24m depth and insert 6" dia perforated pipes which are filled with sand to release poer water pressure.
3. Shear key at the toe (cut of trench/anchored retaining wall has been recommended to protect the machine Hall.

In addition, slope monitoring by piezometer, bore hole extensormeter and monitoring the cracks through glass tell tales are also recommended.

Yours faithfully,

Sd/-

NOTE SHEET

Sub: Supplementary estimate for 10 nos. of extra items executed for tackling the criticality at ch.616.88 m and also at ch. 584.00m & ch.590.00m of Face-II of HRT, BDC, KaHEP and Rate analysis thereof for

1: Drilling of Holes beyond 38 mm upto 89mm
2: Drilling of Holes beyond 89 mm upto 150mm
3: Supply and installation of 50mm diameter Heavy duty MS pipe
4: Supply and installation of 80mm diameter Heavy duty MS pipe
5: Supply and installation of 100mm diameter Heavy duty MS pipe
6: Grouting with Microfine cement Rheocem 650 and Rheobuild 2000PF
7: Grouting with PU (Meyco MP 355 A3)
8: Fabrication and Erection of Box and SINGLE Section Ribs of ISMB 250x125 and 200 X 100
9: Underground Excavation in critical stretch.
10: Reimbursement for Dewatering and Ventilation in underground construction.

Payment of dewatering.

The boring in Face-II was being carried out in heading and benching. The geology of the face comprised of mainly mica schist with minor occurrences of quartzite bands with clay infillings throughout the face. The mica schist was very thin, thickness varied from 2-5mm. Three prominent joints sets were noticed on the face. High degree of weathering was noticed in the right side of the face, whereas the left side was moderately weathered.

Due to poor rock condition encountered in the face, a restricted heading pull of about 0.75 metre was taken at Ch. 614.88 m at 11.45PM (26-12-07) with trimming blast and scaling. After backfilling behind the support, pre- injection was carried out at the crown with 3 nos of grout pipes one at the crown and the other two on the right and left at a distance of 1.5 m from the crown. During insertion of

grout pipes in the above mentioned positions, no seepage was observed through the pipes. As the rock strata were comprised of predominantly mica schist, grout intake was negligible. In the mean time, the face advanced by about 0.75 m after the grouting operation, as such 2 nos of supports beyond Ch. 615.63 m at spacing of 0.75m & 0.5m were erected touching the face. For erection of the two supports trimming and scaling was carried out. To facilitate trimming & scaling, the grout pipe on the right side of the crown was removed at 7 AM on 27.12.07. During erection of the two supports beyond Ch. 615.63 m, seepage of water started at 9:00 AM (27/12/07) with a hissing sound through the hole from which grout pipe was removed. Initially the rate of seepage was about 35-40 ltrs/min. After elapse of time, the seepage of water shifted towards the right side where the rock strata comprised of highly fractured mica schist and the rate of seepage gradually increased to about 100-120ltrs/min. The colour of the seepage water was found to be off- white similar to the one encountered in the critical stretch at Ch. 422.6 m. On observing the off-white colour of seepage water and highly fractured mica schist on the right side of the crown, decision to provide perforated heavy duty MS pipe Forepoling with grouting one by one on the right side of the crown was taken. During the operation of Forepoling and grouting, inflow of slush associated with heavy seepage occurred at 9.15PM on 28-12-07. Actions taken and happenings are recorded as under

- Seepage water recorded on 27-12-07 was about 40 litr/Min and it increased gradually to about 120 litr/Min.
- Arrangement for forepoling along with grouting using perforated heavy duty MS pipe was taken up from 9:30 PM of 27.12.07.
- At 11 PM (27/12/07) the seepage of water was about 400 ltr /Min.
- Drain holes were drilled on the Right Hand side through already backfilled area. The point of seepage at the face was advancing with collapse of rock.
- MS heavy duty perforated fore poling carried out upto 9.15 PM on 28/12/07. All total 10 nos. of fore poling pipes were installed. Out of 10nos.7nos.were grouted one by one leaving 3nos. as drainage pipes.
- During Forepoling operation slush inflow started at 9:15 PM (28/12/07) and continued intermittently. The inflow of slush was intermittent due to blockage of the path by fragmented rock.
- Due to flow of slush from the right side of the face with heavy seepage, the arrangement for the grouting was withdrawn from the face at 9.15PM of 28-12-07.
- Due to heavy slush associated with heavy seepage, dewatering pumps near the face was inundated and dewatering was resumed later.
- At 6:30 AM (29/12/07) heavy inflow of slush associated with heavy seepage occurred and submerged all the dewatering pumps.

New Delhi North Eastern Electric Power Corporation

- At 11:20 AM (29/12/07) heavy slush flow with heavy seepage occurred with rock blast as if some barrier has been washed away. Workmen working near the face ran away from the face. The situation was fearsome. All dewatering Pumps submerged. Seepage anticipated being about 6500litres/min.
- Power supply was disconnected. Power supply inside tunnel was resumed in segments at a time and power could be supplied upto Ch. 400m only after the rock blast.
- Water logged upto 200 meters from the face. The average depth of water inside the tunnel was about 2 m beyond Ch. 400 m up to the face.
- Due to slush inflow and heavy seepage, dewatering pumps were inundated.
- Again dewatering system was resumed at 5 PM on 29/12/07 with 25 HP-1 No., 15 HP- 2 nos., 7.5 HP – 1no. 5 HP- 1no. and was continued upto 7:30 AM (30/12/07). The pumps were again submerged due to which pumping was interrupted. As such, pondage level increased and seepage water started to flow through side drain of Adit-I portal from 10:00AM of 30/12/07.
- Water level did not recede by pumping and flooded the whole tunnel upto Adit portal.
- At 1:20 PM the discharge measured outside Adit -I portal through V-notch was found to be around 4200 litre/Min.
- The extent of seepage through the face could not be measured due to pondage.
- The volume of slush inflow also could not be ascertained until the dewatering was completed.
- To ascertain linkage with any perennial source, the topography along the tunnel alignment was explored on 30/12/07 along the HRT alignment upto about 500m from the face towards Tenga side. No indication could be seen on the topography along the HRT alignment.
- Exploration along the Bichom – Buragaon road was also carried out on 30/12/07. Two streams run crossing the road at about a distance of 0.8 Km and 1 KM from the Adit portal. On physical inspection it was observed that the Nallah is dry upto 100m & 150 m from the road respectively. It was presumed that water was seeping down below these points.
- Survey works have been taken up on 31/12/07 to ascertain the location and elevation of the above points w.r.t the HRT alignment for doing tracer test.
- Dewatering was carried out with 2 nos 25 HP, 2 nos 15 HP submersible pumps from 1:30 PM (30/12/07).
- Despite of the above dewatering arrangements, water level was not receding upto 2:30PM of 31.12.07.

- Contractor was asked to augment their dewatering system.
- At 5:00 PM (31/12/07), 1 no. 40 HP, 1 no. 25 HP, 2 nos. 15 HP and 1 no. 7.5 HP was put in operation for dewatering at Ch. 125.00m.
- Water level receded on 01/01/08. First pondage from Ch. 125.00m to 200.00m was cleared.
- At 11:35 AM (01/01/08) discharge measured through V-notch at Ch. 210m was found to be around 3000lit/min
- 3 pumps, one 40HP, one 15 HP and one 7.5 HP were engaged at Ch. 400.00m for dewatering of the pondage in between Ch. 400.00 to 617.00m. Till 11:30 PM (01/01/08) about 3cm of water level could be lowered.
- Water level in the pondage in between Ch. 400m to 617.00m was found to be same from 11:20 PM (01/01/08) to 10:30 AM (02/01/08).
- On 02/01/08, 1 no. 7.5 Hp, 1 no. 15 HP, 1 no. 40 HP and 1 no. 25 HP pumps were put in operation at Ch. 400.00m. Total dewatering from these pumps was about 3800 lit/min. Water level started to recede in the pondage in between Ch. 400m to Ch. 617.00m.
- On 03/01/08, 1 no. 7.5 Hp, 1 no. 15 HP, and 2 nos. 25 HP pumps were put in operation at Ch. 400.00m.
- On 04/01/08 , 1 no. 7.5 Hp, 1 no. 15 HP, and 2 nos. 25 HP pumps were in operation and at 1:00 PM one additional 50 HP pump was engaged. Dewatering continued.
- On 05/01/08 Director (Engineering Geology), GSI visited the site.
- Water level lowered significantly upto the top level of clay / silt and slush deposited in the stretch from Ch. 400m to 617.00m. The slush was very sticky.
- Dewatering was continued with 3 nos. sump pumps (1 no. 15 HP and 2 nos. 25 HP) near Ch. 400m since 06/01/08.
- Removal of slush started from 11:30 AM, 07/01/08. Due to continuous inflow from face to the tune of 2000 lpm, dewatering and slush removal have to be carried out parallely and the sticky nature of clay deposited was slowing down the progress of slush removal.
- On 10/01/08, HOP BDC visited the face upto Ch. 580.00m. The following observations were made:
  - Slush and clay of very sticky nature deposited in the stretch from Ch. 397.00 to Ch.478.00m
  - Sand deposited in the stretch from Ch. 478.00m to Ch. 520.00m.
  - Rolling boulders were deposited in the stretch from Ch. 520.00 upto the face i.e. Ch. 617.00m. The depth of deposition at Ch. 520.00m is about 3.5 m and at Ch. 580.00m was about 5.7 m. It seems that the face i.e. Ch. 617.00m is completely filled up with rolling boulders.

(5)

- Hop, BDC, informed the happenings to higher authority and in response to his intimation, suggestions regarding remedial measures received from ED (D& E) which was subsequently endorsed vide U.O. No. 2011-12 Dtd. 04/01/08 O/O the HOP, BDC (**Copy enclosed as Annexure-I**).
- On 11/01/08, ED (P-III) visited site to assess the situation. The inflow of water over surface of muck measured through V-notch at Ch. 480.00m was found to be around 1500 lpm. It may be noted that percolated water through the deposited muck couldn't be measured.
- Removal of slush inside the niche was completed on 13/01/08.
- The inflow of water over the surface of muck observed through V-notch at Ch. 515.00m and Ch. 577.00m and was found to be varied from 1500 to 2000 lpm .
- From 23/01/08 to 29/01/08 discharge was measured by floating method at Ch: 470.00m and was found to be varied from 2000 to 4200 lpm.
- As suggested by experts and D&E construction of P.C.C. Barrier (Bulkhead) at Ch. 584.00m was started on 27/01/08 and completed On 28/01/08 .
- On 29/01/08, at Ch.583.00m, 3 nos. of grout holes were drilled for a depth of 7.00 m and 1" dia , 6.00 m length ,GI pipe was inserted through each hole and Grouting done till 30/01/08.
- On 31/01/08, at Ch. 587.00 m, another 3 nos. of grout holes were drilled for a depth of 7.00 m each and 6.00 m length 1" dia GI pipe was inserted through each hole and grouting was carried out.
- From 31/01/08 to 15/02/08 , discharge measured by V-notch, installed at Ch.422.00 m, was found to be varied from 1300 to 1520 lpm.
- On 01/02/08 , at Ch. 590.00 m, another 3 nos. of grout holes were drilled for a depth of 7.00 m each and 6.00 m length, 1" GI dia pipe was inserted through each hole and grouted.
- On 02/02/08, at Ch. 593.00 m, another 3 nos. of grout holes were drilled for a depth of 7.00 m each and 6.00 m length, 1" dia GI pipe was inserted through each hole and grouting was carried out.
- Grouting continued through the above mentioned grout holes upto 7.30 AM of 06/02/07.
- On 07/02/07, Construction of another PCC barrier at Ch. 595.00m was done. Grouting was restarted and continued till 7:30 AM on 08/02/08.
- Grout hole drilling and Grouting was done upto 7:00 AM, 09/02/08
- Till 09/02/08, Mucking was done upto 606.00m. Grouting was done from 1:00PM, 09/02/08 to 6:00 AM, 10/02/08.

- Grouting was done from 8:00AM, 10/02/08 to 3:00PM of 11/02/08 and from 5:30 PM to 8:00 AM of 13/02/08. Having seen that grout was coming

out with seepage water from both right and left side, grouting was stopped at Ch. 609.00m.

- Note of Dr. B.K. Mittal, Ex-Chairman, CWC and expert consultant with recommendations received at site on 12.02.08 via e-mail (**copy enclosed as annexure-II**). The executing agency was asked to arrange all the required materials for taking up the works as per suggestion of Dr. B.K. Mittal.
- From 16/02/08, to 21/02/08 discharge measured by V-notch, installed at Ch.422.00 m, was found to be around 1013 lpm.
- On 18/02/08, 4 nos. of Drainage holes were drilled at Ch. 584.00m.
- On 21/02/08, 8mm of rainfall was recorded in this area on 21/02/08.
- From 22/02/08 to 04/03/08, discharge measured by V-notch, installed at Ch. 422.00 m, was found to be around 1013 lpm to 1168 lpm
- Dewatering was being carried out with 2nos. of 25 HP, 1 no. of 15 HP pump and 1no. 7.5 HP pump.
- 1(one) no. of 25 HP dewatering pump was capable to drain out the seepage water. However, to meet any exigency 1(one) no. each of 25 HP, 15 HP and 7.5 HP pumps were kept as standby.
- On 05/03/08, discharge measured by V-notch, installed at Ch.422.00 m, was found to be around 1338 lpm. 7mm of rainfall was recorded on 05/03/08.
- On 06/03/08 to 12/03/08, discharge measured by V-notch, installed at Ch.422.00 m, was found to be around 1013 lpm.
- On 06/03/08, CMD, NEEPCO visited site.
- From 07/03/08 to 10/03/08, Panel of Experts comprising of Dr. B.K. Mittal, Ex-Chairman, CWC, Mr. B.M. Hukku along with Director, GSI, Shillong visited site.
- The Expert Committee furnished their recommendations for tackling of the critical stretch (**copy enclosed as annexure –III**).
- As suggestion of the Expert Committee, Consolidation Grouting started on 08/03/08 at Ch. 607.88m through 5 nos. holes.
- On 10/03/08, mucking at the crown portion was done manually at Ch. 609.88m and removed through window of 1.20 x 1.0m with slope upto Ch. 615.38m. The last rib damaged due to welding shear at crown plate was visible.
- On 11/03/08, manual mucking continued and 4 nos. of holes drilled at Ch. 609.88m through which it was grouted.
- On 13/03/08, muck was removed upto SPL at Ch. 611.88m.
- On 13/03/08 2 nos. holes were drilled at Ch. 612.63m and grouted through one hole.

- Heavy seepage with continuous flow of water @90 lpm was observed through hole on the right side of crown. It was envisaged that the water level inside the rock was below the perforations of the pipe of 1-inch dia as the seepage was through the surrounding of the pipe and not through the pipe. It was decided to insert one 100mm dia pipe through this hole to augment the drainage.
- On 14/03/08, discharge measured by V-notch, installed at Ch.422.00 m, was found to be around 804 lpm and discharge through hole on the right side of the crown was found to be around 70 lpm. Another hole to the right of hole mentioned above was drilled to facilitate drainage. But no significant seepage was observed.
- On 15/03/08, one no. drain hole of 150mmø drilled at Ch. 612.00m through which water @ 90 lpm to 60 lpm was flowing out.
- From 16/03/08 upto 21/03/08 manual mucking continued. Rib no. T-775 at Ch. 616.38m was partially visible at crown portion. Three nos. of forepoles installed earlier in between rib no. T-774(Ch. 615.63m) and T-775 (Ch. 616.38m) were also visible. One portion of a damaged rib was found lying inside muck on right side under Rib no. T-774.
- On 19/03/08 Methodology for tackling of the critical stretch at Ch. 616.88m was forwarded to M/S PEL to expedite necessary actions for procurement of the required materials/accessories for the work.**(copy of the methodology is enclosed as annexure-IV)**
- From 19/03//08 to 23/03/08, discharge measured by V-notch, installed at Ch. 422.00 m, was found to be around 871 lpm.
- On 23/03/08, ramp was made by TATA Hitachi to facilitate Rocket Boomer for drilling of additional Anchor holes from Ch. 595.00m as per methodology suggested by Expert.
- Anchor hole drilling and fixing was done from Ch. 594.88m to 608.88m on 23/03/08 and runner of ISMC 150x50 was welded on left side of crown on 24/03/08 to strengthen the existing ribs.
- On 24/03/08 three nos. Probe holes were drilled in between rib no. T-771 & T-772 (Ch. 613.38 & 614.13m) hole no. 1 at crown (13m in length at 33° inclination), hole no. 2 at 1.80m right side of crown (15m in length at 28° inclination) and hole no.3 at 1.80m left side of crown (13m in length at 34° inclination).
- At crown i.e. hole no. 1, from 4 to 7m, loose rock was encountered and beyond that comparatively hard rock was found. During drilling seepage was observed through this hole along with other seepage locations.
- On right side i.e. hole no. 2, completely loose material encountered from 2.50m to 13.50m and after that hard rock was encountered. Drill rod stuck in the hole after 15m and couldn't be recovered. After completion of drilling

this hole no. 2, seepage water diverted through this hole. The seepage was to the tune of 700-800 lpm.

- On left side, medium soft rock was encountered from 2.00 to 7.00m and from 7.00m onwards medium hard rock was found.
- Drilling of forepoling holes started on 25/03/08 at Ch. 595.00m as per suggestion of experts and the first forepoling ring was completed on 28/03/08.Total 17 nos. of holes of 13m length from F-1 to F-17 were drilled and grouted one by one.
- On 26/03/08, two nos of probe holes (P4 & P5) were drilled at Ch. 613.88m of 13 &10m length respectively, In hole no. P4 (0.90m right side of crown) loose muck was encountered.from 3 to 8.50m of its length. In hole no. 5 (0.75m left side of crown) loose muck was encountered from 1 to 4.00m.
- Another hole of length 10 m (Hole no. 6) was drilled at Ch. 615.63m through debris (below the crown. Loose material & rock debris was encountered from 1 to 7 m. From 7 to 10m rock encountered was comparatively hard.
- On 28/03/08, one probe hole (P7) of 16m length drilled at Ch. 610.00m 1.00m right side of crown. Comparatively hard rock encountered from 3 to 13m of its length. Hard rock encountered from 13 to 16m
- On 29/03/08, another probe hole (P8) of 10m length was drilled at Ch. 612.00m, 1.80m right side of crown. Comparatively hard rock encountered from 3 to 10m of its length.
- Second forepoling ring started on 28/03/08 at Ch. 599.00m and completed at 8:00 PM, 01/04/08 total 17 nos. of holes of 13m length from F-18 to F-34 were drilled and grouted
- 3rd forepoling ring started on 01/04/08 at Ch. 603.00m and completed on 04/04/08, total 17 nos. of holes (F-35 to F-51) were drilled for a length of 13.00 m each, one after another and grouted with OPC one by one.
- The 1st concrete barrier constructed at Ch. 584.00 m was dismantled during mucking to facilitate drilling of 4th forepoling ring at Ch. 607.00 m.
- 4th forepoling ring started on 04/04/08 at Ch. 607.00m and completed on 08/04/08.A total of 17 nos. of holes (F-52 to F-68) were drilled for a length of 13.00 m each, one after another and grouted with OPC one by one.
- On 07/04/08, total 3 nos. of Drain holes, at Ch. 528.60 m, Ch. 545.50 m and at Ch. 556.60 m were drilled for a depth of 7.00 m each.
- Discharge @ 800 lpm continued through probe hole no. 2 at Ch. 612.63m upto 10/04/08.
- 5th Forepoling ring started on 08/04/08 and was completed on 12/04/08 at Ch. 611.00 m at 10:30 AM, total 19 nos. of holes (F-69 to F-87) were drilled for a depth of 13 m each, one after another and grouted with OPC one by one.
- 2nd ring of the 5th forepoling umbrella started on 12/04/08 at Ch. 611.00m and completed on 15/04/08. Total 11 nos. of holes (f-1 to f-11) were drilled for a length of 13.00 m each, one after another and grouted with OPC one by one.
- From 11/04/08 to 16/04/08, discharge through probe hole no.2 was found to be around 667 to 750 lpm.
- On 16/04/08, during drilling for 6th Forepoling ring on right side of the Probe hole no. 2, seepage water shifted to the newly drilled holes (F-91 & F-92). On 20/04/08, one box was fabricated with MS Plate to collect the scattered seepage water to divert it. From 20/04/08 to 25/04/08, discharge measured from the box was found to be around 750 lpm.
- 6th Forepoling umbrella started on 15/04/08 at Ch. 613.75 m and total 25 nos. of holes (F-88 to F-112) were drilled for a depth of 13 m each, one after another and grouted with OPC one by one.
- 2nd ring of the 6th forepoling umbrella started on 19/04/08 at Ch. 613.75m. Total 9 nos. of holes (f-12 to f-20) were drilled for a length of 13.00 m each, one after another and grouted with OPC one by one.

- On 21/04/08, Construction of 3rd Barrier Wall started at Ch. 612.63m (in between rib no. T-770 & T-771) and construction completed on 22/04/08.
- A layer of Shotcrete was applied on the loose muck in between the barrier wall upto the face and on the arch from Ch. 611m onwards to prevent any leakage of Chemical grout and flow of the loose muck due to high pressure of grouting (upto 50 bar)
- PU reached at site on 17/04/08
- From 26/04/08 to 25/05/08, discharge through V-notch @ Ch. 422.60m was found to be around 740 lpm.
- From 26/04/08 to 29/04/08, 8 nos. of drain holes were drilled starting from Ch. 552.85m upto 606.00m
- PU applicator with pump arrived at site on 29/04/08.
- On 30/04/08, 9 nos. holes were drilled (P1 to P9) for PU injection.
- Injection of PU (MEYCO MP 355/A3) started on 01/05/08 and 6.60 MT of PU Materials consumed. Seepage water shifted backward and was flowing out through drainage pipes provided at Ch. 611.00m on right side.
- On 02/05/08, 5 nos. of drainage holes were drilled for maintaining discharge at the same rate as earlier. Two additional holes were drilled (P-10 & P-11) for PU injection.
- PU injection resumed and all the remaining PU materials (4.895 MT) exhausted on 02/05/08.
- Due to injection of PU, the drain hole pipes got choked up at Ch. 611.00m and 613.75m. These pipes were redrilled and 3 nos. additional drainage holes were drilled on 02/05/08 and 03/05/08 to allow free flowing of the seepage water.
- Shotcreting was done at Face on 21/05/08 to arrest leakage of PU (2nd lot)
- Injection of microfine cement (Rheocem 650 with Rheobuild 2000 PF as Admixture) started on 04/05/08 from Ch. 596.00m and Six forepoling rings (at Ch. 596.00m, 602.00m, 606.00m, 609.00m, 612.00m and 616.00m)
- After arrival of the 2nd lot, Grouting with microfine cement started again on 23/05/08 but was stopped due to heavy leakage of grout.
- It was also observed that seepage through holes in ring no. 5 increased during drilling of hole no. F-126 of 6th ring. It was presumed that there was linkage of water in between the above mentioned holes and if the face was opened, the seepage water would have got diverted through the face. Hence, it was felt not proper to open up the face without further consolidation with P.U. to avoid any further flow of loose material.
- On 26/05/08, drain holes of 18m length were drilled in between rib no.T-770 and T-771 (ch.612.63m to 613.38m),using 89mm bit and 2"" HDMS pipe installed.
- On 29/05/08, probing was done by BASF Experts by drilling 13m long probe hole using 89mm bit. Observations were also made by blowing air in previously drilled hole. Three nos. of 10m long holes (P-12,P-13&P-14) drilled and 1"" GI pipe inserted for PU grouting.
- On 30/05/08, PU injection resumed by BASF Experts.
- On 31/05/08, 5Nos.of 10m-13m long holes (P-15,P-16,P-17,P-18&P-19) drilled and 1-inch GI pipe was inserted & PU injected through P-19,P-16 & P-115. Due to pressure rise injection of PU was stopped. BASF Experts suggested that grouting with microfine cement should be done in the whole face before opening of the face.
- Grouting with microfine cement restarted on 01/06/08. Remaining quantity of cement were injected through previously drilled holes (after redrilling). Grouting was stopped on 02/06/08 as all the available materials exhausted.
- From 02/06/08 to 05/06/08, total 11 nos. of holes (M-26 to M-36) were drilled at Ch. 613.00m for injection of microfine cement.
- Though there was heavy rainfall, no significant change in seepage/discharge was observed. On 11.06.08, three numbers of holes were cleared to facilitate drainage.
- Injection of microfine cement was resumed on 12/06/08 at Face (Ch 613.00m) through 17 nos. holes arranged in 3 rows in staggered manner.

- On 20/06/08, after completion of face consolidation by microfine cement, opening up of the face was started from right side by scooping and trimming. Arch portion of Rib was being erected in 4 pieces one by one. It was observed that the rockmass/debris in the face became very hard after injection of PU and microfine cement which led to delay in scooping and trimming, as a result only two arch ribs (Box Girder - ISMB250x125) could be erected till 25/06/08.
- Having seen dripping of water at some places, the representative of M/S BASF suggested to preinject with microfine cement ahead of 2nd erected steel support. Accordingly, 4 nos. of holes drilled and injection of microfine cement was carried out.

As per suggestions of experts and D&E wing, the above procedure comprising of forepoling umbrella with perforated heavy duty MS pipe, grouting with OPC/Microfine cement, Erection of box girders and backfilling with concrete was repeated till the critical zone from Ch.616.80 to Ch.654.38m was tackled successfully on 24-09-2008.

The mode of payment is to be regulated for any deviated item as per clause 33, part-III, Vol-I of contract agreement which is reproduced below:

33: DEVIATIONS

i) The Engineer-in-charge shall have power to make any deviation in the original specifications or drawings or designs of the works or any part thereof that are in his opinion, necessary at the

Time of or during the course of execution of the works. In the aforesaid purpose or for any other reason, if it shall in the opinion of the Engineer-in-Charge be desirable he will also have the powers to make deviations, such as:

a) variations
b) extra items
c) additions/omissions and
d) alterations or substitution of any kind

No such deviations in the specifications or drawings on designs or bill of Quantities, as aforesaid shall in any way vitiate or invalidate the Contract and any such deviations which the Contractor may be directed to do shall form integral part of the Contract as if originally provided therein and the Contractor shall carry out the same on the same conditions in all respect on which he agreed to do the works under the Contract.

ii) The rates for such items of works are as required to be executed due to deviations as stated in sub-clause, shall be payable in the manner as stated hereunder:

a) The rates already provided in the Bill of Quantities and as per the procedure mentioned above under Sub-Clause 33 of this part shall apply in respect of the same items(s) of work to be executed due to variations:
b) In case some items are not available in the Bill of Quantities, the rates of such items, as far as practicable, shall be derived from the contracted rates of analogous item(s) in the Bill of Quantities after actual observation at Site. The decision to select analogous items(s) shall be taken by the Engineer-in-Charge which shall be conclusive and binding on the Contractor.

iii) If the rates for such items of work cannot be determined in the manner as specified in Clause 33 (ii), the rates for such items to be executed shall be determined by the Engineer-in-Charge on the basis of actual analyzed cost taking the following into consideration:
a) Cost of materials including taxes.
b) Cost of transportation to site.

c) Cost of direct wages (excluding fringe benefit) of works, gangers and working foremen (excluding supervisors) and direct equipment changes as set out in the Central Water Commission guidelines.
d) Cost of facilities like electricity.
e) Supervision & overhead profit @ 20% on the sum of (a) to (d)

It may be mentioned here that the extra items executed in tackling of the criticality at Ch.616.80m do not covered under sub-clause 33(i) & (ii). As such, to tackle the critical Zone M/s, PUJV was asked to submit the analyses for the extra items executed as per clause 33(iii), part-III, Book-II of contract agreement vide our letter Nos. detailed below. (Copy **enclosed as annexure-V**):

1. NEEPCO/KaHEP/BDC/EIC/W-I/2009-10/248-252 Dtd.19/08/2009
2. NEEPCO/KaHEP/BDC/EIC/W-I/2009-10/70-72 Dtd.19/05/2009
3. NEEPCO/KaHEP/BDC/EIC/W-I/2008-09/364-66 Dtd.26/03/2009
4. NEEPCO/KaHEP/BDC/EIC/W-I/2008-09/244-46 Dtd.20/01/2009
5. NEEPCO/KaHEP/BDC/EIC/W-I/2008-09/50-52 Dtd.10/11/2008
6. NEEPCO/KaHEP/BDC/EIC/W-I/2008-09/115-117 Dtd.24/10/2008

After repeated request in writing as well as verbal, M/s PUJV submitted the rate analyses for the extra items executed at Ch.616.80m vide letter no. PEL/P-I/223/1293, Dated 14.09.09(Copy **enclosed as annexure- Annexure-IX**). On scrutiny of the rate analysis, it was observed that the analysis were not in line with the parameters mentioned in clause no.33 (iii), V-I, P-III, Book-II of contract agreement. As per the decision of MoM held on 16.09.09 at o/o the HOP,BDC, M/S PUJV deputed one engineer to co-ordinate with NEEPCO engineers for expeditious processing of the analysis. It was shown to him that the analysis was not in line with the parameters mentioned in clause no.33 (iii) of GTCC. Some documents were also not submitted along with the analysis. The deputed engineer of M/S PUJV was requested for submission of document in proper and correct form immediately. Accordingly, M/S PUJV submitted documents in phased manner till today.

In view of the above, the analyses have been prepared afresh at this end for 10(ten) items mentioned above in line with the provision of clause no.33 (iii) of GTCC and procedure adopted for finalizing 11nos. of extra items executed for tackling criticality at ch.422.60m of F-II,HRT-I .

It may be mentioned here that during the execution of the aforementioned extra items diesel operated machineries were in operation. Further more, dust and smoke nuisance had occurred during Microfine cement grouting and welding / cutting of obstructed objects during Drilling and installation of Heavy duty MS Pipes. Due to the above, 2 stage ventilation systems was put into operation of the exact time of execution of Item No.19 to 24 and accordingly cost of 2 stage ventilation has been considered while analyzing the above mentioned Items. Single stage ventilation was put in to operation for carrying out dewatering and regular maintenance of track inside HRT. As such, for Item No. 25 cost of single stage ventilation has been considered.

A Supplementary Estimate for extra items (10nos.) executed at Ch.616.80m has been framed **amounting to Rs. 14,19,12,439.00** (Rupees Fourteen Crores Nineteen Lakhs Twelve Thousand Four Hundred Thirty Nine) only. This assessment also covers the extra works executed at Ch.584.00m and 590.00m of Face –II for which necessary instruction was given by the EIC(Pkg-I) vide Memo no. NEEPCO/KaHEP/BDC/EIC/W-I/2007-08/634-636 Dtd.05/01/2008. (Copy **enclosed as annexure-VIII**). It is to be noted that in the analyses quantities executed at Ch.616.80m only is considered. The volume of works at Ch.584.00m and 590.00m is much less. The period required for tackling criticality at Ch.584.00m and 590.00m is 11 days and 9 days only respectively. Therefore separate analyses is not done for the extra works executed at Ch.584.00m and 590.00m and the quantities of extra items executed at these locations are added with the quantities of extra items executed at Ch.616.80m for preparation of the **Supplementary Estimate.**

It may be mentioned that an amount of Rs.7,86,22,635.00 is released as interim payment as per decision taken in the MoM dtd 06-05-2009 and approval received vide U.O.No.978,Dtd.10/08/09 (Copy **enclosed as annexure-VI (i) &(ii)**) for the extra works executed at Ch.616.80m at the rate finalized for extra works executed at Ch.422.60m against the following items

Sl. no.1:	Drilling of Holes beyond 38 mm upto 89mm
Sl. no.2:	Drilling of Holes beyond 89 mm upto 150mm
Sl. no.3:	Supply and installation of 80mm diameter Heavy duty MS pipe
Sl. no.4:	Supply and installation of 100mm diameter Heavy duty MS pipe
Sl. no.5:	Grouting with Microfine cement Rheocem 650 and Rheobuild 2000PF
Sl. no. 6:	Grouting with PU (Meyco Mp 355 A3)
Sl. no.7:	Fabrication and Erection of Box and SINGLE Section Ribs of ISMB 250x125 and 200 X 100
Sl. no 8:	Underground Excavation in critical stretch.

In the proposal for the above mentioned interim payment (as per decision taken in the MoM dtd 06-05-2009) also the quantities of extra items executed at Ch.584.00m and 590.00m are added with the quantities of extra items executed at Ch.616.80m. In the proposal for the above mentioned interim payment the item of dewatering was not considered. Instead it was proposed to deduct the payment made against dewatering at ch.422.60m.However having got the instruction vide u.o.no.368,dtd.29/08/09 (Copy **enclosed as annexure-X),** deduction of payment made against dewatering at ch.422.60m was not done and in line with that item of dewatering is considered in this proposal. This is mainly because when no BOQ items are under operation and only extra works are being executed during a particular period, cost of dewatering merits consideration since no bill value is available during that period on BOQ items to regulate payment.

It may further be mentioned that interim payment of Rs 1,50,13,884.00 (Rupees one crore fifty lakhs thirteen thousands eight hundred eighty four) only has also been released already against Heavy duty MS pipe (Rs.19,80,204.00), Microfine cement (Rs.19,11,360.00) and PU (Rs1,11,22,320.00).(Copy of the approval is enclosed as **annexure-VII**).

Total interim payments made so far is Rs.9,36,36,519.00 (Rupees Nine Crores Thirty Six Lakhs Thirty Six Thousand Five Hundred Nineteen) .With this the balance payable amount comes to Rs. 4,96,95,045.00 (Rupees Four Crores Ninety Six Lakhs Ninety Five Thousand Forty Five) only.

Submitted for kind perusal and further needful please.

The pre pages of the Note sheet may kindly be perused.

The view regarding financial concurrence & approval has already been recorded by Sr. Manager (F) in terms of Clause No. 1 point No 3 (page no 3) for policy guidelines of financial concurrence, in his note dtd. 19.03.2010. The Total financial involvement considering non working hours of machineries is Rs 14,25,29,795.00.

Put up for necessary action please.

Dy Manager (F), BDC

HOP/BDC, PI

Notes at pre-paper and above.

Total financial involvement for execution of 10 (Ten) nos of extra items at ch 616.48 m including extra items of ch 584.00 m and ch 590.00 m has been assessed at Rs 14,25,29,795.00 (Rupees fourteen crores twenty five lakh twenty nine thousand seven hundred ninety five) only by the Sr. Mgr(F+A) BDC. Technical clearance in terms of DOP clause no 15.1 has been given by the ED(D+C) GHy.

F+A wing, BDC have vetted the proposal subject to regularisation in terms of clause no 1 of financial concurrence whereby it is required to bring the notice of the authority one level higher than the approving authority.

ED - projects (Hydro) is requested to kindly approve the rate analysis of the items as mentioned and the supplementary estimate for an amount of Rs 14,25,29,795.00, keeping in view the above observations of F+A wing, BDC.

Encl:- As stated above.

ED - projects (Hydro), Please

25/3/2010

Financial approval accorded as proposed. As required this matter has been brought to the notice of D(T), copy of which is enclosed.

HOP/BDC

Notes at pre-page and above. 26/3/10

Necessary follow up action may please be taken. Copy of the confirmation order may also be endorsed to ED(D+C) GHy to intimate the final approval value.

A NOTE ON THE SLOPE FAILURE OF THE RIGHT ABUTMENT OF BICHOM DAM AND CAVITY FORMATION IN THE HRT (FACE II) AT Ch. 1337m, WEST KAMENG DISTRICT, ARUNACHAL PRADESH

By

Dr. Timir Baran Ghoshal, Senior Geologist, Geological Survey of India

(December, 2010)

INTRODUCTION:

The Bichom Dam Project, a component of Kameng Hydel Scheme (Package-I), envisages construction of a 69m high and 264.15m long concrete gravity dam across the river Bichom, a tributary of Kameng River at about 3.65km downstream of the confluence of Bichom and Digien Rivers and a HRT of 4.6km (0.785km from face-I and 3.815 km from face-II of adit –I)length from Adit-I. The construction stage geo-technical investigation for Bichom Dam Project (Kameng HEP), West Kameng District, Arunachal Pradesh was continued at the instance of Head of Project, Bichom Dam Project, NEEPCO. The geo-technical investigations were undertaken under the Annual Program of Geological Survey of India, North Eastern Region for F.S. 2010-12 under item no. EG/C/NER/RH8/2010/028.

The site was visited between 23/10/10 to 29/10/10 and geo-technical evaluation of the slope failure on the right abutment of the Bichom dam, assessment of the cavity formation in the HRT at Ch.1337m and geotechnical evaluation of the other appurtenant structure was carried out during the visit.

The field work and writing of this note has been carried out under the guidance of Shri J.M. Goutam, Superintending Geologist, Engineering Geology Div, NER, G.S.I, Shillong, for which the author wish to express his sincere thanks. The cooperation rendered by the project authorities during the course of geo-technical investigation is thankfully acknowledged. The author wish to put on record the assistance offered by Shri. Girish Kalita, Geologist, NEEPCO, Bichom dam Project, during the course of investigation and are thankful to him.

GEOTECHNICAL EVALUATION:

A. Right abutment of Bichom Dam:-

A small slope failure occurred on the right abutment from Ch. 10m U/s to 25m U/s between EL. 795 and EL. 785m on 20.09.10. Due to this slope failure part of the plain shotcrete layer (50mm thick)

NEEPCO
New Delhi
North Eastern Electric Power Corporation

along with red soil and highly weathered and sheared chlorite mica schist have been collapsed and accumulated on the lower bench. Further it is observed that 3 to 4 nos of rockbolts were also exposed on the collapsed stretch. As the bench between EL. 795m and EL. 785m is covered with initial layer of shotcrete, the material present in the slope is not visible during the visit. However the geological sections at 10 m U/s prepared on 18.07.10 revealed presence of 10cm thick shear zone along the contact of highly weathered schist and quartzite. As per the released construction drawings the slope angle in the failure zone was 1:1.6(i.e. 58°). Probably the collapse occurred due to steep cut slope in highly weathered and sheared rock mass.

Another slope failure occurred in between 25m U/s and 40m U/s between EL. 785m and EL. 775m. The slope forming material is highly weathered red soil with pieces of shattered /weathered rock mass. Here also the slope was exceptionally high. The slope failure caused due to steep slope cut (i.e. 72°) in highly incompetent slope mass. Further the slope was unsupported for about 1 month from the date of excavation of the stretch

The slope between EL. 785M and EL. 775M exposes alteration of thinly foliated chlorite mica schist and thinly to moderately bedded weathered quartzite. The rocks are closely jointed (2 + random) and highly weathered. The chlorite mica schist is strongly puckered and release of stress in form of opening of joints (2-5cm) has been observed in many places. The rock mass class in this zone is poor and the RMR varies from 30-40. Also the slope mass rating in this zone varies from 20 to 30. The SMR value indicate that the slope is unstable and required corrective measure (BIS code IS13365(part3):1997. Along this cut slope in many places presence of red soil and highly shattered rock mass has also been observed.

Considering the presence of poor rock mass and soil on the right abutment above the dam top it is suggested that the slope may be reduced. The excavation plan accordingly may be worked out by the project authority. The supportive measures both concurrent and permanent for these cut slopes may be recommended after the geological mapping of the slopes during and after the excavation.

B. Left abutment of Bichom Dam:-

The excavated slope of left abutment of Bichom Dam exposes Gneiss, Quartzite, Quartz sericite schist and sericite schist. The overall quality of the rock in the left abutment is fair to good with localized iron staining. It was suggested in the GSI report to protect the excavated surface with shotcrete / guniting to prevent further weathering of rock and opening of joints due to exposure. However the slope has been unattended for last one year as a result a small slope failure has occurred in the U/s of Block No. 3. Further slope failure may occur in future. Hence it is again

suggested to protect the slope with a thin layer of shotcrete as a preventive measure till the surface is covered with concrete.

C. HRT:-

The HRT in the D/s of Adit-I of Bichom Dam has been examined during the present visit. The whole stretch of the excavated HRT is supported with ribs. Hence the rock mass in the HRT could not be examined except in 2 nos niches where alternate unit of quartzite and quartz- sericite schist is exposed. RMR of the rock mass is 30-35 where as 'Q' of the rock mass varies between 2..5-3 (class IV). At both the niches light dripping has been observed. The rocks are slightly weathered and dissected by 2+R sets of joints. The rock mass quality at this 2 niches is class IV.

At present the tunnel has been progressed upto Ch. 1337.00m in Face-II. The face is totally covered with muck comprising of pieces of quartzite. Extensive seepage (about 4000lpm) has been observed near the face. At present the tunnel is going through a vertical cover of 960m.

From the record of project authority indicate that immediately after the blast at Ch. 1337.00m, heavy ingress of water and flow of rock debris occurred which inundated the tunnel upto about 300m from the face(Photo1). Further it was also apprised that that a water bearing zone has been encountered in face –II starting at ch. 1260m from the geological log of the Project Authority the whole stretch of the HRT is going through Class-IV rock mass and supported with steel ribs. Depending upon the deterioration of the rock mass with extensive seepage ribs has been placed @ 0.50m C/c to 1.00m C/c with occasional pipe roofing. Two major collapses has already occurred and tackled by the project authority at Ch. 422.60m and Ch. 616.80m in the HRT. Though the present source of heavy seepage cannot be ascertained due to very high rock cover and inaccessibility to the HRT alignment, from the study of contour plan of the HRT alignment it appears that the present influx of water is due to puncher of an aquifer.

At present it is impractical to find out the extent of the aquifer through geophysical method. Further from the study of HRT alignment the diversion of the tunnel is also not a suitable alternative due to very high cover and associated uncertainties. Hence the Project Authority has to go through these uncertainties. The very high cover of about 900m will continue for another 600m. At this high cover zone possibility of rock bursting may not be ruled out.

The Project Authority has injected poly urethane over the crown to arrest ingress of water and to consolidate the loose rockmass. Further, pipe forepoling was also done as an additional strengthening measure through which grouting was carried out to consolidation of the loose muck using microfine/OPC cement. As reported till date about 14 tons of PU and 3 tons of microfine

cement has already been grouted in this stretch. During inspection it was noticed that a reported significant seepage has been reduced/diverted on injection of PU. As such the pr authority is suggested to get ready with all type of arrangement for grouting particularly with and micro-fine cement etc and other suitable chemicals with advancing the face to avo d /minimi such type of eventuality in future.

Hence similar method may be continued for further advancement of the face. As the tunnel is passing through a high cover zone, to avoid risk of further collapse pre-grouting with micro-fine cement may be continued irrespective of the rock mass. In case of slight seepage also PU may be injected as a preventive measure in the high cover zone. Depending upon the rock condition rib spacing may be fixed in between 0.50m C/c to 0.75m C/c. Forepoling and other extra suppor measure may be adopted as and when required. All efforts should be adopted to minimize the formation of cavity etc. as the tunnel is passing through high cover zone. GSI may be consulted in this regard from time to time. No distortion of rib /lagging was noticed during the inspection which implied that there is no significant *insitu* stress present in the rock mass.

16. BOOKLET-III(Costs of materials.

The boring of HRT from F-II is progressing through a distressed zone with substantial ingress of water. The basic rock types encountered are thinly bedded Quartzite, Mica Schist, Talc and Graphite Schist belonging to Bomdila Group. The rock is intensely fractured and folded with variation of rock within a metre ever. Rock is thinly bedded, intensely jointed with infillings of talc/sericite/clay within the foliation plane associated with heavy seepage. Shearing is also noticed within the rock mass. Under the prevailing condition the rock exhibits weak behaviour with lack of cohesiveness and very less stability. Due to poor geology face collapses occurred frequently. To minimize the hindrances and surprises and to prevent face/roof collapse face advancement and

BDC, KaHEP.

formation of cavity due to very poor rock condition and in line with the suggestion of experts for restoration of critical stretch at ch: 616.88m , installation of fore poling rings was continued even after restoration of criticality at Ch.616.88m, by inserting 80mm dia HDMS pipe forming umbrella as and when required as per site condition and opinion of geologist followed by grouting and erection of conventional rib support system. Heading and benching method of tunnel boring was continued due to encountering of very poor geology as mentioned above.

After completion of benching up to ch: 1332.00m, heading work was resumed at ch: 1337.00m on 27-07-10. After a minor blast at about 8:30AM, during scaling and mucking, heavy ingress of milky white water @ 500 to 700 lpm along with crushed materials were observed flowing out from the right side of the crown (1 O'clock position) forming a cavity. Later on excessive water with crushed materials was started flowing continuously in full force leading to collapse of face at crown and both side of the crown up to springing level. To prevent further deterioration it had been decided to seal the face.

At around 5:00PM, slush flow started from the face and continued up to 8:00PM.Situation had become very alarming. Dewatering continued. At midnight around 0:30 AM, rock burst occurred at face which resulted in heavy flow of water along with rock debris. At 3:30 AM, bursting sound heard from the face resulting in sudden undulation of pondage water as well as increase in ingress of water. Dewatering pumps deployed at ch: 1144.00m (2nos 40hp, 2nos 25hp and 2nos 15 hp) got submerged. Gradually pondage of water reached up to ch:422.00m.Dewatering continued at ch:422.00m with deployment of 1 no 25hp,2 no 40 hp and 1 no 30 hp. Discharge recorded 6000lpm on 29-07-10.The water level did not recede by pumping and water started flowing through Adit-I on 29-07-10.The discharge recorded on 10-08-10 was 13400lpm. The highest discharge recorded was 14400.00lpm. All out effort was made for dewatering the pondage of water and huge ingress. 15 no of pumps having total capacity of 495HP were deployed at ch:135.00m,422.00m,775.00m and at ch:1144.00m.

- After completion of dewatering of pondage level of water up to ch: 1050.00m on 11-08-10, ED (Hydro) and ED (D&E) visited site along with other Sr Project officials for inspecting the distressed face. The tunnel was completely filled up with huge quantity of rock debris from face at ch: 1337.00m to ch: 1230.00m and thereafter gradually in a slope covering up to ch: 774.00m. Huge quantity of seepage water was continuously flowing out spreading over the deposited muck and on both side just like a natural stream with tremendous velocity. Discharge of seepage water was recorded on 11-08-10 was 13400 lpm. The BEML-220 which was on breakdown condition at ch: 1065.00m was badly damaged. All water and air pipe lines were lying in a damaged/distorted condition on account of flow of rock debris from the face. ED (Hydro) and ED (D&E) after visiting the site suggested for restoration of the face by adopting the same methodology as adopted for tackling criticality at ch: 422.60m and 616.88m.They have suggested to restore the face by undertaking fore poling with perforated heavy duty MS pipe, followed by injection of OPC, Micro fine cement and injection of polyurethane as required after complete dewatering of pondage of water and removal of slush and rock debris.
- **On18-08-10, the activity of slush and rock debris removal was started** with deployment of 1 no TATA Hitachi, 6 no Taurus and 2 no of dumpers and completed up to ch: 1337.00m on 21-11-10.Total quantity of slush and rock debris removed is 8525.296cum.
- Consolidation grouting with OPC had been started through existing fore poling pipes at ch1277.00m on 19-09-10 and carried out at ch: 1286.50m and 1292.00m.
- First fore poling ring had been started from ch 1307.00m on 20-09-10 with HDMS pipe of 80mm dia for a length 6.00m each at suitable spacing. Total of 19 nos of fore poling have installed one by one followed by OPC grouting. Total of 154 bags of OPC have been consumed.
- 2nd ring of fore poling was provided at ch 1311.00m (22-09-10 to 24-09-10) which comprise of 19 nos of HDMS pipe for a length of 6.00m each. Total of 106 bags of OPC and 128 bags of micro fine cement have been injected through this ring.
- 3rd ring of fore poling at ch 1315.00m had been started on 24-09-10 and completed insertion of 19 no of pipes on 28-09-10 followed by injection of 225 bags of OPC.

- 4th fore poling ring had been started from 28-09-10 at ch 1321.00m where 7 nos of fore poling existed. Total of 36 bags of OPC have been consumed in additional 2 no of fore poling in this ring.
- 5th fore poling ring at ch 1326.00m had been completed on12-10-10.
- 6th ring of fore poling have been done at ch:1330.00m
- BASF personnel had visited site on 29-09-10 and after having proper inspection and observation started application of PU from ch: 1321.00M.Cumulative total consumption of PU at ch 1321.00m was 1870.00kg which was injected during the period from 30-09-10 to 02-10-10. Cumulative total consumption of PU at ch: 1328.00m was 8635.00KG which was injected during the period from 15-10-10 to 16-10-10. Cumulative total consumption of PU at ch 1335.00m is 3300kg which was injected during the period 20-10-10 to 21-10-10. On 28-10-10 injection of PU resumed at ch1335.30m and consumed 2035 kg. On 30-10-10 injection of PU done at ch1335.00m.Total consumption of PU was 5405kg. On 18-11-10 and 19-11-10 another 4160kg and 2755kg respectively of PU injected at face. Till 20-11-10 cumulative consumption of PU was 28160.00kg.
- A plain cement concrete barrier was constructed at ch 1323.00m to prevent further movement of loose muck from face. Grouting with OPC was carried out through loose muck. Total of 42 bags of OPC injected through 8 no of holes.
- Sr Geologist from GSI Shillong visited site on 24-10-10 and suggested his view after inspection of the face.
- On 30-10-10, 16 no of fore poling had been completed at ch 1335.00m followed by OPC grouting.
- On 31-10-10, 8 no of fore poling had been completed at ch: 1330.50-1331.25m.
- Face consolidation by OPC had been started from 31-10-10 and was continued up to 6-11-10.Total of 464 bags of OPC has been consumed in consolidation of face.
- Taking all precautionary measures **opening of face resumed on 22-11-10** by trimming and scooping.
- ISMB200x100 box rib in 4 segments in heading and two segments in benching were erected from ch1337.00m and completed up to 1357.00m on 19-01-11 .
- Fore poling rings have been provided at ch1339.40m, 1342.80m, 1347.30m, and 1354.00m till overcoming critical stretch up to ch: 1357.00m.But due to no significant improvement of geology of face, fore poling with perforated heavy duty MS pipe of 80mm dia, followed by injection of micro fine cement continued beyond ch: 1357.00m. Fore poling rings have been provided at ch: 1360.00m, 1370.00m,1385.00m,1400.50m,1409.00m,1416.50m,1426.50m,1448.75m till end of March'11
- On 9-04-11, Director Technical and Executive Director Projects(Hydro) visited HRT Face-II . They have suggested carrying out boring with fore poling of 12.00m depth with 80mm dia perforated HDMS pipe along with pre-injection of micro fine cement for another stretch of 150.00m from ch: 1464.00m at 10.00m interval. Accordingly fore poling rings have been completed at ch: 1464.00m,1474.00m,1485.00m,1495.00m,1505.00m1518.00m,1527.50m,1535.50 m,1556.00m and at ch:1567.00m followed by injection of micro fine cement. Since no significant improvement in geology have been observed same methodology of fore poling and injection of micro fine cement is still continued for ground improvement and control of seepage.
- Non stop dewatering is also being continued since 27th July'10 with deployment of adequate no of pumps of various capacities at ch: 135.00m, 422.00m, 1140.00m and at ch: 1337.00m to carry out restoration work.
- Ventilation inside the HRT is also continued since 28th July '10 to facilitate restoration work of the distressed face.

Vide letter no. NEEPCO/Kal/HEP/BDC/HC/W-1/2010-11/654, Dated 31-01-2011, (Ref Annexure V-N), M/S PUJV was requested to submit rate analysis for extra items executed in tackling criticality at ch: 1337.00m. Accordingly, M/S PUJV submitted rate analysis for executed extra items for tackling critical stretch from ch:1337.00m to 1357.00m, vide letter No PEL/P-1/223/1723, dated 07-04-11(Ref Annexure –VI-N and BOOKLET submitted by M/S PUJV),amounting to Rs 29,62,29,034.00 , Vide letter no PEL/P-1/223/1755 , Dated 25-05-11, M/S PUJV submitted rate analysis for dewatering and ventilation separately(Ref Annexure –VII-N and BOOKLET submitted by M/S

NP-4

Pozen

P(JV),amounting to Rs 12,46,03,996.00 Total amount claimed by M/S PUJV is Rs 42,08,33,030.00(Rupees forty-two crore eight lakh thirty three thousand thirty only. After preliminary scrutiny, it has been observed that the rate analysis submitted by M/S PUJV is not in line with the terms and provisions of Contract Agreement and guidelines of CWC (latest edition). Hence the rate derived by M/S PUJV is found to be abnormally high . It is evident from the comparative statement of rates that the rates derived by M/S PUJV is 176.19% to 2012.77% higher than the analysed rates of NEEPCO (Ref Annexure –XI-N). Vide letter no. NEEPCO/KaHEP/BDC/HRT-I/W-4/2010-11/23. Dated 21-06-2011. (Ref Annexure –VIII-N), M/S PUJV was informed the same and the analysis submitted by them was returned for necessary correction.

In view of the above, the analyses have been prepared afresh at this end for 10(ten) items mentioned above in line with the provision of clause no.33 (iii) of GTCC and procedure adopted for finalizing extra items executed for tackling criticality at ch.422.60m & 616.88m of F-II,HRT-I .

A Supplementary Estimate for extra items (10nos.) executed has been framed amounting to Rs. 16,99,27,331.00 (Rupees Sixteen Crores Ninety Nine Lakhs Twenty Seven Thousand Three Hundred Thirty One) only (Ref Annexure –I-N). This assessment covers the extra works executed

i) from ch: 699.50m to ch: 1337.00m (Ref Annexure –III-N).

ii) from Ch.1337.00m to ch.1357.00m,**(critical stretch)**, (Ref Annexure –II-N) and

iii) from ch: 1357.00m up to ch: 1566.00m (Ref Annexure –IV-N)of Face –II .

It is to be noted that in the analyses quantities executed from ch1337.00m to 1357.00m **(critical stretch)** only is considered. Extra items were executed before encountering of criticality at ch.1337.00m Similarly, extra items are being executed even after successful tackling of criticality at ch.1337.00m due to adverse geology and poor rock condition with heavy ingress of water. Therefore separate analyses are not done for the extra works executed from ch: 699.50m to ch: 1337.00m and from ch: 1357.00m to ch: 1566.00m because natures of works and methodology followed for execution are similar and rate analysis is a very time consuming job with repetitions of same specification and therefore the quantities of extra items executed at these locations are added with the quantities of extra items executed at Ch.1337.00m for preparation of the Supplementary Estimate.

- After successful tackling of critical stretch from ch. 616.88m to 654.00m, payment for extra woks carried out from ch: 654.00m to 699.50m is made on the basis of lower of the analysed rates for ch. 422.60m and ch. 616.88m. However, 10% Special Security Deposite was deducted from the Bill Amount subject to non submission of fresh rate analysis for the extra items executed from ch: 654.00m to 699.50m. The rate analysis for the same has not yet been submitted by M/S PUJV.
- The quantity of extra item executed from ch: 699.50m to ch: 1337.00m is given below and the financial involvement for the same is Rs. 47,26,310.00(Ref Annexure –III-N) on the basis of the analysed rates for ch.1337.00m.

  i) Drilling beyond 89mm upto 150mm----------546.00m

  ii) HDMS pipe fixing dia 80mm----------300.00m

  iii) HDMS pipe fixing dia 80mm----------246.00m

- Quantity of extra work done for tackling criticality from ch1337.00m to 1357.00m **(critical stretch)** is given below and rate analysis for all these extra items are done and the financial involvement is Rs. 12,11,08,332.00(Ref Annexure –II-N) on the basis of the analysed rates:

  1.Drilling of Holes beyond 38 mm up to 89mm-----932.00m

  2.Drilling of Holes beyond 89 mm up to 150mm---1805.00m

  3.Supply and installation of 80mm diameter Heavy duty MS pipe---1350.00m

  4.Supply and installation of 100mm diameter Heavy duty MS pipe—354.00m

  5.Application of Micro fine cement Grouting-----14720.00m

  6.Grouting with PU -------30449.75m

  7. Fabrication and Erection of Box Ribs ----43.87MT

  8.Underground Excavation in critical stretch----1043.76Cum

  9.Dewatering in underground construction during tackling criticality---584800.56Kwh

  10.Ventilation in underground construction site excluding the period of execution of BOQ and Extra items----2322.05Hr

- Parameters adopted for analysis of rate are:

a) Cost of materials is including of CST/VAT.

NEEPCO New Delhi North Eastern Electric Power Corporation

E Pybot

b) Cost of transportation of materials to site (Ref Annexure B (I) Item No 36.
c) Cost of direct wages (excluding fringe benefit) considering 8:00hrs a shift.
d) Cost of machinery using CWC guide line for use hrs of machinery considering actual working hrs.
e) Cost of facilities like electricity @ 2%
f) Super vision and overhead profit @ 20% on the sum of a) to e).
g) Finally 1% cess and 4% WCT added on total amount.

- The quantity of extra items executed from ch: 1357.00m to ch: 1566.00m during the period from 20th Jan'2011 to **30th June'2011** is given below and the financial involvement for the same is Rs 4,40,92,698.00(Ref Annexure –IV-N) on the basis of the analysed rates for ch.1337.00m.

i) Drilling beyond 38mm up to 89mm----------268.00m
ii) Drilling beyond 89mm upto 150mm----------3661.00m
iii) HDMS pipe fixing dia 80mm----------3645.00m
iv) Injection of Micro fine cement ----------39525.00kg
v) Injection of PU ---------- 6201.75kg

Summary of Financial involvement

- Total Financial involvement for all extra item of works executed for tackling **critical stretch** from ch: 1337.00m to1357.00m including dewatering and ventilation arrived at

  Rs 12,11,08,322.00

- Total Financial involvement for all extra item of work executed beyond ch:1357.00m to ch:1566.00m during the period from 20 Jan'2011 to **June 2011** considering the same rate as derived for ch:1337-1357.00m is arrived at

  Rs 4,40,92,698.00

- Total financial involvement for all extra item of works executed from Aug'09 to July'2010 (Ch:699.50m to ch:1337.00m) considering the same rate as derived above is arrived at

  Rs 47, 26,310.00

Gross Financial involvement is (Rs 12,11,08,322.00 + Rs 4,40,92,698.00 + Rs 47, 26,310.00 =) **Rs. 16,99,27,331.00** (Rupees Sixteen Crores Ninety Nine Lakhs Twenty Seven Thousand Three Hundred Thirty One) only including 1% cess and 4% WCT.

Recovery is to be made for:-

- Interim Payment amounting to Rs 4, 20, 68,934.00 made in 22nd Extra Bill (March'2011, Ref Abstract MB No 9373, P-18) for extra items executed for tackling critical stretch at ch: 1337.00m up to 20-12-2010 considering 70% of total amount on the basis of lowest of the approved rates for extra items executed at ch: 422.00m and 616.88m. (Ref. U.O.No 1353, Dtd 02-03-11, O/O The Executive Director Projects (Hydro) NEEPCO Ltd., Guwahati, endorsed Vide U.O. No 1707, Dtd 5-03-11, O/O The Engineer -In-Charge(Pkg-I), KaHEP enclosed as Annexure –IX-N)

- Interim Payment amounting to Rs 2, 44, 09,094.00 for Dewatering and Ventilation works for tackling criticality at ch: 1337.00m against Extra Bill No: 20 (Feb'2011, Ref Abstract MB No 9373, Page-6) (Ref. U.O.No 2915, Dated 15-02-11, O/O The Executive Director Projects (Hydro), endorsed vide U.O.No. 1676, Dated 17-02-11,O/O The D G M (C),BDC KaHEP, enclosed as Annexure –X-N)

Total Amount to be recovered Rs.6, 64, 78,028.00

Net financial involvement after recovery of interim payments against all extra item of work executed from ch:1337.00m to 1357.00m,1357.00m to 1566.00m and from ch:699.50m to 1337.00m is arrived to be(Rs16,99,27,331.00 – Rs 6,64,78,028.00) i.e **Rs10,34,49,303.00**(Rupees Ten Crore Thirty Four lakh Forty Nine Thousand Three hundred Three)only.

Account of regular items and extra items against Package-I are as given below:-

Particulars	Rs	Rs
1.Regular BOQ Items(including escalation)		1098904237.00
2. Extra Items		
a) Removal of slush	1,51,02,721.00	
b)Pre Coffer Dam	8,93,750.00	
c)Payment for Cavity at ch:422.00m and 616.88m to 699.50m	20,89,07,271.00	
d) Restoration Works	4,28,96,585.00	
e) Interim payment for dewatering and ventilation ch:1337.00	2,44,09,094.00	
f) Interim payment against extra item at ch:1337.00m	4,20,68,934.00	
3)Total Amount Released for extra works	33,42,78,355.00	
4)Proposal for Approval of Removal of slush and rock debris at ch:1337.00 is under process.	1,66,49,465.00	
5) Proposed Extra works from ch: 1337-1357.00m, 1357-1566.00m and ch: 699.50m to 1320.00m of Face-II of HRT, BDC.	10,34,49,303.00	
6)Total for extra works (3+4+5)		45,43,77,123.00
6)Total Regular and Extra Items(1+6)		155,32,81,360.00
7) Total value of Pkg-I		143,81,03,498.00

The percentage of extra works in respect to value of Pkg-I i.e. Rs 45, 43, 77,123.00/ Rs 143, 81, 03,498.00 is 31.60% including the instant proposed amount. Since the total value of extra works have exceeded 25% of the original contract value of Pkg-I, hence the instant financial involvement will require the approval of BOD as per Clause No 5 (e) of annexure -A of DOP.

Put up for kind perusal and further needful please.

NOTE SHEET

Sub:- Supplementary estimate for 10 nos. of extra items executed for tackling the criticality from Ch. 1337.00m to 1357.00m (27th July'10 to 19th Jan'11) and also from Ch. 669 50m to 1337.00 m (1st July'09 to 26th Jan'10) & from Ch. 1357.00m to 1556.00m (20th Jan'11 to 30th June'11) of Face-II of HRT, BDC, KaHEP and Rate analysis thereof.
Ref: - U.O. No./HRT-1/BDC/197 dtd 29/07/2011(Along with copy of all enclosures.)

Note of Sr Manager HRT may be seen. Prepages.

Tunneling work was progressing in face-II with utmost care due to very poor geology. We had reached up to up to ch 1332.00 m in heading and ch 1337.00 m in benching on 27.07.2010. Geology encountered in previous strata was thinly bedded Quartzite, Mica Schist, Talc and Graphitic Schist. The rocks were intensely fractured and folded with variation of rock type in every pull. Rocks were thinly bedded, intensely jointed with infillings of talc/sericite/clay within the foliation plane associated with heavy seepage. Occasionally Shearing was also noticed within the rock mass. Rocks were having lack of cohesiveness, closely jointed with very less stability. Poor geology had resulted frequent occurrences of face collapses. As such, till date three major face collapses in face-II at Ch. 422.60m, Ch.616.88m and 1337.00m had occurred associated with flow of huge quantum of slush and heavy seepage which inundated the tunnel up to about the crown portion which is well known.

On 27.07.2010 at ch 1337m in heading a minor blast was taken for advancement. During scaling and mucking heavy ingress of milky white water along with crushed materials were observed flowing out from right side of the crown and subsequently major collapse at 1337m took place. Maximum discharge of water recorded was about 14000 lpm. All total, rock debris with slush flown was 8525.296 cum. Several numbers of pumps were deployed for dewatering. Tackling of criticality was done by pipe poling forming umbrella, PU grouting, MFC grouting, face consolidation, providing heavy box girder etc with continuous dewatering and ventilation. Details of collapse with its tackling are elaborated in the note of Sr Manager HRT in page NP-2 and NP-3. Critical stretch has been considered from ch 1337m to 1357.00m. Time taken was from 27.07.2010 to 19.01.2011. Contractor had submitted rate analysis for tackling the criticality but was not satisfactory hence it has been prepared afresh in HRT for 10 items in line with the provision of clause 33(iii) of GTCC and procedure adopted for finalizing extra items executed for tackling criticality at ch 422.60m and 616.88m.

This Supplementary estimate for 10 extra items executed has been framed for Rs.16, 99, 27,331.00 and covers the following extra works executed.

i) Between ch 699.50m to ch 1337.00m for Rs.47, 26,310.00
ii) Between ch 1337.00m to 1357.00m for Rs. 12, 11, 08,322.00
iii) Between ch 1357.00m to 1566.00m for Rs.4, 40, 92,698.00

In this supplementary estimate analysis has been made for the quantities executed between Ch: 1337.00m to 1357.00m of critical stretch only. No separate analysis has been prepared for the extra items executed from Ch: 699.00m to Ch: 1337.00m and after Ch: 1357.00m to Ch: 1566.00m as the nature of works and methodology followed for execution are similar. Therefore the quantities of extra item executed at these locations are added with the quantities of extra item executed at Ch: 1337.00m for preparation of the supplementary estimate.

Out of total financial involvement of Rs. 16, 99, 27,331.00 an interim payment of Rs. 6, 64, 78,028.00 has already been made to the contractor and the same is to be deducted from the approved value.

The proposal covers the measurements up to June 2011. Similar extra works are still going on. It is proposed that extra works of similar nature/specification after June'2011 should be paid as per approved rate of this proposal with escalation.

The percentage of all Extra works in respect of value of Pkg-I is (+) 31.56% including the instant proposed amount (detailed break up in NP 5), hence approval of Board of Directors is required as per Clause No. 5 (c) of Annexure-A of DOP.

Proposal is being submitted for favor of perusal and further needful.
Encl: As stated with 6 nos. of booklets.

Finance Concurrence may be accorded.

NOTE SHEET

Notes pre-pages.

Blowout and formation of a cavity at CH.1337m of Face-II occurred during July, 2010. The restoration of the Face was carried out adopting the same methodology carried out for restoration at CH.422.6m and 616.88m.

Adhoc payment of Rs.6,64,78,028.00 was released to the Contractor considering the lowest approved rates evaluated against the extra items for restoration works against CH.422m and 616m. The supplementary estimates for 10 Nos of extra items executed, has been prepared by the Project Authority in line with the provision of Contract and CWC guidelines.

As bought out, total value of the extra items against the instant proposal after deducting the cost component of dewatering stands at Rs.13,44,43,123.00 and the net payable amount is Rs.6,79,65,094.85. As indicated in the note of the ED(C&P), the total variation due to extra items of work executed so far against Package-I of the Project amounts to Rs.55,13,23,044.00 which is 38.34% with respect to the contract sum. The variation being beyond the delegated power of the Director (Technical), the same shall require approval of the CMD. The principle for evaluation of the item rates are generally found to be in order.

Forwarded for views of the Director (Finance) and subsequent approval of the CMD.

commence immediately on receipt of Letter of Award. Readily available machinery will be moved to the site.

B. PHASE – II :

a) In Phase – II of mobilization, all Civil Works required for installation of Crushing Plant, Batching Plant, Cement Storage, Water Tank etc. will be taken up. It shall generally comprise of :-

- Induction of new /refurbished equipments procured from India and abroad to suit the Construction Schedule.
- Establishing fully equipped garage and equipment repair /overhaul workshop
- Foundation preparation and civil works for Crushing Plant, Batching Plant, etc. followed by erection and commissioning
- Establishing Quality Control Laboratory.

2 PERMANENT WORKS :

A. ADIT–I + HEAD RACE TUNNEL :

a) **General :-**

The work includes 200M long Adit–I and 4,400M long HRT (horse shoe shaped). Rock has been classified under 4 groups viz. Class-I (29%), Class-II (38%), Class-III (22%) and Class-IV (11%). Cross section of Adit and Head Race Tunnels are enclosed. Rock is of Pre-Cambrian group.

b) **Excavation :-**

Tunnel will be excavated full face. A two boom Hydraulic Jumbo will be used for drilling, excavator CK-90 or equivalent for loading muck and 18T Taurus tipper for hauling muck to dump area. An effective progress of 4.4M per day is envisaged with different pull in different class of rock. Cycle time and equipment planning for tunnel excavation is given hereunder. Dump area is between dam axis and designated quarry, the latter is 500M away from dam axis on the d/s side. Therefore distance of dump area from portal will not be more than 400M. Nitches will be provided at suitable intervals for turning / crossing of machineries.

Scanned by CamScanner

c) **Support :-**

Rock support includes rock bolts, mesh, shotcrete and ribs. Extent of their requirement varies in different class of rock. Supports in Class-I and II rock will be done in the same shift of excavation whereas in Class-III and IV rock the supports will be done in the second shift.

Rock supports provided in the tender are as under :-

1.	Rock bolt	90,000 M
2.	Mesh	1,04,000 Sqm.
3.	Shotcrete	13,050 Cum
4.	Rib	180 MT
5.	Hollow core anchors	32,500 M
6.	Fore poling	32,500 M
7.	Micro pile	1,400 M

Drilling for rock bolts, anchors, fore poling and micro piles will be done using boomer and bolts installed manually from a Scissor Jumbo. Mesh will be fixed also from a Scissor Jumbo. Shotcrete mixed in a concrete mixer outside portal will be conveyed inside tunnel in 6 Cum transit mixer and sprayed using an Aliva AL-262 shotcrete machine. Ribs and block concrete to the extent required will be provided in Class-IV rock.

d) **Lining :-**

It is proposed to do lining work in two stages i.e. sides and arch first and invert later. When the tunnel excavation reaches about 2,000M chainage, lining of sides and arch will commence from portal end and proceed towards tunnel heading. 2 x 8M long telescopic tunnel form will be used which will give a progress of 200M per month at the rate 8M per day. On completion of overt lining, invert lining will commence at the farthest end and proceed towards portal. Each pour of 8M long sides and arch lining involves 8M x 8 Cum = 64 Cum/m of concrete which will be pumped using a 30 Cum per hr. concrete pump in about 6 to 8 hrs. and vibrated using needle and form vibrators. Concrete will be conveyed in 6 Cum transit mixer. 30 Cum/hr.

Executive Director
Contract & Procurement
NEEPCO Ltd., Shillong-3

Scanned by CamScanner

Batching Plant will be adequate for tunnel lining. 16M length of sides and arch lining in the area of nitches will not be done in this operation to enable crossing of vehicles. This portion will be concreted ahead of invert lining.

e) **Grouting :-**

After about a month of lining work, pack grouting and consolidation grouting will start. Drilling will be done with Boomer. Drilling of drainage hole also will be done with Boomer. Grouting will be done using a grout pump Hany 310 from a Scissor Jumbo platform.

f) **Ventilation :-**

Forced ventilation system with 1,600mm dia. double suspension flexible duct line and 110 KW vent. fans at portal and online is envisaged.

g) **Dewatering :-**

Head Race Tunnel has a gradient of 1 in 1,760M with invert of portal @ EL 750M. Dewatering of tunnel seepage will be done with 10HP pumps installed at 500M c/c.

B. INTAKE STRUCTURE :

a) **General :-**

Intake Structure is located approximately 150M u/s of dam axis on right bank with invert level at EL 750M and top at EL 773M. Access road under construction by NEEPCO links Intake Structure.

b) **Excavation :-**

Approx. 10,000 Cum of open excavation is involved and this will be done in the 7, 8 and 9th month by benching method concurrent to Dam excavation.

c) **Slope Stabilisation :-**

As the excavation goes down rock support like rock bolts / anchors, chain link / mesh and shotcrete will be provided on the rock face. Shotcrete will be sprayed using Aliva AL-262 shotcrete machine. Drilling for rock-bolts / drainage holes will be done with Jack Hammer / BBC 120F.

Criticalities encountered in Construction of (HRT) Head Race Tunnel of Kameng Hydro Electric Project (600MW), In Arunachal Pradesh, India.

Md.Hadi Alam, Mr. M.K.Sharma

Abstract: This paper presents some of the criticalities encountered in construction of (14.45 Km) head race Tunnel of (600MW) Kameng hydroelectric project in Arunachal pradesh, India located in North East Himalayan Region. As the region has complex geological formations and is considered to be the best field laboratory to learn Rock Mechanics and Tunneling Technology for weak rockmass. The ongoing excavation of HRT in Kameng H.E Project encountered various criticalities and geological problems thereby hindering the overall progress. The rock class encountered during the excavation of HRT varied from good to fair quality (class II to VIA &VIB as per Q system of rock classification). The HRT support system was designed for different classes of rock mass and the same was implemented with some modification as per the site conditions and some additional strengthening work also taken up in the crown portion of erected steel rib (ISMB 200X100) in the squeezing zones. The Rock mass encountered along the excavated tunnel profile, mainly comprised of faults, folds, fracture and share zones of poor geology. Thus the experiences of tunneling in this tectonically disturbed, young and fragile Himalaya are precious for the tunnel engineers all over the world. The experience of tunneling in 600MW Kameng H.E project for last Ten years is a boon for all of us. It was a challenging job to construct a long Tunnel with high overburden and in this young and tectonically disturbed Himalayan terrain. Geological surprises (faults/shear zones) causing cavity, loosefall, blowout, high ingress of water and squeezing ground conditions were common phenomenon that encountered along tunnel profile. As such deep and long tunnel should be carefully planned to avoid too high overburden causing squeezing ground condition or rock bursts; it was experienced and realized that under different overburden conditions of tunnel excavation the same rock strata which is safe at lower overburden may pose severe tunneling problem at a very high overburden due to increase of in-situ stresses. In this paper some of the criticalities encountered during the excavation of HRT and the cause of the criticalities as well as rehabilitation measures adopted are analyse and discussed.

Index Terms— (HRT) Head Race Tunnel construction of power project, Construction Criticalities, Geological problems , Rock load, Overburden, Insitu-stress , Cavity formation ,Seepage in HRT, tunnel Squeezing problems and Blowout of tunnel excavation.

---

1. Introduction

The Project is situated in Arunachal Pradesh, India and about 350 km away from Guwahati, the gateway of North East India. The water conductor system from Bichom and Tenga River (both tributaries of river Kameng) over a gross head of 536m to Kimi Power House is comprise of 14.45 km long tunnel, 6.7m diameter of Modified Horse Shoe shaped concrete lined Head Race Tunnel. The project will generate 161 MW of firm power with an annual energy generation benefit of 3592 MU in a 90% dependable year.

2. GEOLOGY ALONG THE TUNNELPROFILE.

The Project is located in a geologically complex and tectonically disturbed area, dissected by a number of major thrusts, faults, shears zones. As per initial investigations carried out the HRT was expected to encounter on upper Bichom side Precambrian rockmass, mainly of schist chlorite, sericite Phyllite and blastic Granite Gneiss. In the middle and lower reach Gondwana rocks expected of quartzite, slate and dolomite, sandstone and carbonaceous phyllites and slates. In HRT face-III about 89% rock mass was expected to fall in the good rock class (Class- I, II & III) and 11% in poor rock class (Class- IVA & IVB) having shear zones and comprising of crushed and fractured rock material along with clay gauge with low compressive strength.

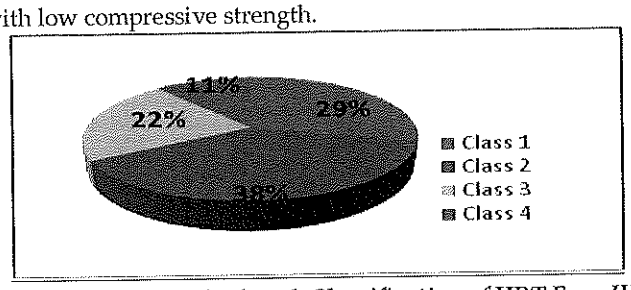

Fig: 1: Original % of Rock Classification of HRT Face-III

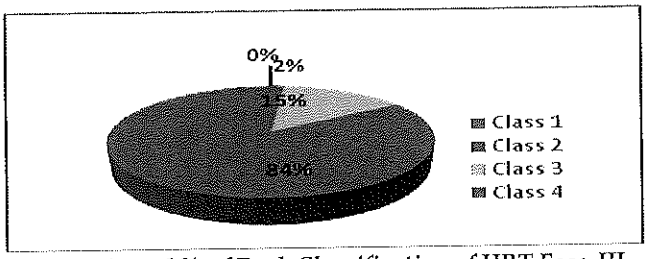

Fig: 2: Actual % of Rock Classification of HRT Face-III

NEEPCO
New Delhi
North Eastern Electric Power Corporation

The ongoing construction of 4.80Km HRT Face-III of Kameng H.E project it was found so far that 84% rockmass encountered come under poor rock category and supported by Class-IV support system. The HRT passes through Gondwana formation comprising weak sedimentary rocks mainly consist of thinly laminated carbonaceous shale/siltstone with graphitic coaly bands, Quartzitic sandstone and Precambrian metasedimentary rocks such as Quartzite, phyllite, Quartzitic phyllite, Gneiss, Carbonaceous schist/slate. These metamorphic rocks are highly folded, sheared, crushed, pulverized, jointed, foliated, banded and fractured in nature. In some stretches clay gouge has also been observed along with shear zones. Which have resulted in slow progress and difficult tunneling media, the rockmass such as phyllites and quartzites are found to be closely jointed, folded and fractured having several shear zones, rendering the rock mass into poor category. In some critical stretches where the carbonaceous rockmass encountered, major cavities have been occurred along with water ingress.

The major challenges of HRT have been successfully handled by various methods such as roof Forepoling, chemical grouting , cement grouting , umbrella/ channel forepoling and multiple drifting , the conventional tunneling method is preferred due to lesser construction risk, higher flexibility in dealing with such ground problems. With limited geological and geo-technical data for extremely poor and unforeseen ground condition available for this deep seated tunnel, flexibility in changing the support system and different excavation methodology is practiced, mainly full face, heading and benching , multiple drifting method based on rock conditions.

The HRT Face- VI ,between Tenga dam and Surge Shaft and Power House are located in rocks of Gondowana Supergroup has undergone intense tectonic activity in the form of folding, faulting and thrusting, represented by alternate bands of medium to coarse grained grey sand stone, carbonaceous shale/ carbonaceous siltstone with occasional presence of minor coal partings and quartz vein. Because of closeness to the Main Boundary Fault, the area has suffered poly phase deformation and due to which the rocks are highly fragmented. The highly folded rock strata encourage water entrapment and subsequent release on boring. Total length of HRT face-VI is 1684.00m, where heavy seepage of underground water was encountered along with very poor geology, the rate of seepage recorded in this stretches of tunnel varied from 6500 to 9000 liters/min.

The rock formations along the tunnel alignment have been classified based on the rock mass behavior and the rock strata encountered in the HRT have been divided into five classes i.e. class-I, class-II, class-III, class-IVA and class-IVB. The Rock Mass Rating (RMR) system proposed by Bieniawski (1976) and Q system proposed by Barton et al. (1974) and updated in Barton (1996) have been used to define generic classes of rockmass. The RMR value is assessed by six parameters of the face rock conditions and is given below:

- Uniaxial compressive strength of rock.
- RQD.
- Spacing of discontinuities.
- Condition of discontinuities.
- Groundwater condition.
- Orientation of discontinuities.

In the entire length of tunnel excavation of Kameng H.E Project, above 80% rockmass encountered falls under Class – IV (poor) rock category, some of the most common rock formations contain layers of carbonaceous shale and Phyllite and often compacted carbonaceous clay sediments which have not yet acquired the properties of rock and having very low compressive strength.

The carbonaceous shales encountered in HRT Face-III behave like squeezing or even swelling media. When the rock formation encountered consists of sequence of horizontal layers of immature fractured carbonaceous shale, the excavation of the tunnel is commonly associated with a gradual compression of the rockmass, involving a downward movement of the crown along with loosefall and cavity formation. This is due to relatively low resistance against slippage at the boundaries between the fractured carbonaceous shale, which reduces considerably the strength of rockmass located above the crown of tunnel face. The failure and the extent to the failures propagate depends upon the characteristics of the rock mass, the magnitude and directions of the in- situ stresses, the shape and size of the cavern and the intensity and orientation of the discontinuities.

3. ROCK TYPE AND ITS CHARECTERISTICS IN KAMENG H.E PROJECT.

The rock mass is characterized by its strength, deformability and in-situ stresses, and is considered to be heterogeneous, anisotropic and discontinuous medium. The in-situ deformation modulus of a rock mass is an essential parameter considered for design, analysis and interpretation of monitored data. The Modulus and strength of intact rock reduces on account of presence of discontinuities such as joints, bedding, and foliation planes within the rock mass. In thinly laminated rocks such as schist and phyllite, the modulus of elasticity parallel to the foliation is likely to be much higher than that in the perpendicular direction.

As the excavation is made in intact rockmass there is an adjustment (or redistribution) of stresses and strains around

IJSER © 2014

NEEPCO
North Eastern Electric Power Corporation
New Delhi

that excavation profile. The Rock load around the tunnel structures seems to transmit both normal and shear stresses through the discontinuities in rock mass and folding of rock causes shear failure along the bedding planes. The shear strength of discontinuities depends upon the alteration of joints or the discontinuities, the roughness, the thickness of infillings or the gouge material and the moisture content. It was observed that the cavity formations in HRT Face-III were initiated by sliding of rockmass along the joint plane due to its in-situ stresses and rock load. The stresses in the rock are generally low for shallow depth and high for at greater depth.

In HRT Face-III the main rockmass comprise of Sand stone, Quartzite, Phyllite sequence, Carbonaceous shale, Schist and Slate (Table: 1). It was found that the Phyllite, Carbonaceous Shale, Schist and Slate were thinly laminated and fractured in nature which comes under poor rock category, where the RMR value range from 14 to 30. The quartzite rich zones which were mainly subordinate bands in Face-III fall under fair category and the RMR value range from 41 to 60. The rockmass consist of Schists in HRT commonly contains clay minerals such as biotite, mica and chlorite, all of these are platy minerals and are found aligned with the foliation. When present as continuous layers, they form the planes of weakness, in HRT Face-III the thinly laminated Schist and phyllite created most of the stability problems along with carbonaceous rockmass. The rock masses surrounding the tunnel perform much better, except near shear zones, faults, thrusts and intra-thrust zones and the water-charged rock masses.

The following table shows the range of RMR value of different rockmass at different chainages in HRT Face-III.

Table1: Rock type encountered in Face-III of KaHEP with respect to chainage from 0.00m to 4115.00m.

Sl no.	Chainage (m)	RMR value of Face	Class of Rock	Rock Type encountered in HRT Face-III
1	0.00m to 240.00 m	17- 34	Class – IV	Sand stone, Carbonaceous silt stone and shale.
2	241.00m to 334.12m	28-36	Class – IV	Fractured and sheared Phyllite / Quartzites.
3	334.12m to 336.02m	36-44	Class-III	Quartzite.
4	336.02m to 570.89m	21-36	Class – IV	Jointed Quartzite/ Quartz chlorite schist and phyllite.
5	570.89m to 760.37m	32-58	Class-III	Sequence of quartzite/ Phyllite/Chlorite Schist.
6	760.37m to 848.40m	62-74	Class-II	Quartzite, phyllite and Chlorite Schist.
7	848.40m to 888.20m	44-58	Class-III	Quartzite, phyllite and Chlorite Schist.
8	888.20m to 1280.00m	22- 36	Class – IV	Heavily fractured Quartz chlorite Talc Schist.
9	1280.00m to 1338.18m	32-44	Class-III	Quartz -chlorite Schist.
10	1338.18m to 1465.70m	18-35	Class – IV	Heavily fractured low grade Quartz chlorite Schist.
11	1465.70m to 1493.80m	35-41	Class-III	Fractured Quartz - chlorite Schist.
12	1493.80m to1640.60m	27-35	Class – IV	Heavily fractured Quartz chlorite Schist.
13	1640.60m to 1679.60m	32-44	Class-III	Quartzite.
14	1679.60m to 1840.70m	14-32	Class – IV	Heavily fractured low grade Quartz chlorite Schist.
15	1841.70m to 2158.60m	35-58	Class-III	Quartzite, phyllitic quartzite and carbonaceous slate.
16	2158.60m to 2194.66m	25-40	Class – IV	Fractured Quartz - chlorite Schist.
17	2194.66m to 2221.40m	38-40	Class-III	Schist and Quartz – chlorite.
18	2221.40m to 2418.64m	20-38	Class – IV	Sand stone, Slate and Thinly bedded Carbonaceous materials.
19	2418.64m to 2434.50m	32-44	Class-III	Sand stone.
20	2434.50m to 3530.00m	17-33	Class – IV	Weak Carbonaceous shale, Schist, Coaly layers, fractured quartzite, thinly bedded phyllite, Siltstone, graphitic coaly layers and Sand stone.
21	3530.00m to 3700.65m	30- 35	Class – IV	Phyllitic Quartzite, Talc chlorite - Quartzitic phyllite.
22	3700.65m to 3760.00m	29- 35	Class – IV	Quartzitic phyllite.
23	3760.00m to 4115.00m	27-37	Class – IV	Quartzitic phyllite & phyllite.

It was observed that as the tunnel is excavated, stress relief allows elastic rebound of ground previously in compression to relieve stress this also confirms by some booming sound around the rib support in squeezing area of Face-III. This stress relief occurs beyond the working face as well as around the tunnel excavation.

As the depth of a tunnel becomes greater the ground condition becomes less favorable, it was observed that the stress within the surrounding rock mass increases and failure occurred when the stress exceeds the strength of the rock mass. The in-situ stresses develop in rockmass is the result of weight of overlying rockmass, the locked in tectonic stresses and strain energy. Thus the failure mechanism in the tunnel depends on the in-situ stress level and characteristics of the excavated rock mass mainly its compressive strength. As the depth below the ground surface increases, the rock stress increases and may reach a level at which the failure of the rock mass is induced. During course of excavation in rockmass these stresses get redistributed around the openings. The distribution depends largely on rockmass structures such as discontinuities, heterogeneities, folds, faults, dike, fabric etc. It is a fact that the weight of the overlying rock mass is the primary source of stress around the tunnel excavation. It was found that the stretches where cavities occurred in HRT Face-III the in-situ stresses in most of the case higher than the compressive strength of the rockmass. In HRT Face-III the average in-situ stress in distress zones is found to be in the range of **10.31MPa to 20.56MPa (N/mm²)** and when the compressive strength of rockmass falls below in-situ stress limit, various problems in excavation of Tunnel occurred such as loosefall, cavity formation and squeezing ground condition. It was estimated that par 100m rise of overburden increase of in-situ stress is around 2.5 MPa.

In order to determine the behaviour of tunnel face, the compressive strength test of rockmass at different chainages of HRT on various rock samples were determined at site laboratory with little modifications and deviations in the testing procedures by using point load test and UCS (Unconfined compressive strength) test of rock (UCS is considered about 23.4 times of point load test) (Singh and Singh, 1993). The range of value of strength of rock samples were found to be in between 1.50MPa to 23.43MPa and RMR value in the range of 11-74.

In order to perform the laboratory test, lump samples with L/W or L/D ratio 2 to 2.5 is maintained. The rock samples were collected randomly after the face blast and extensive compressive strength testing were done in site laboratory to determine its strength. The maximum and minimum rock strengths were observed when the failure is initiated normal to and respectively parallel to the weakness planes of the rock, i.e., bedding, foliation, cleavage, etc. The (UCS) test on lump of blasted rock was preferred due to extensive testing and constrain in rock sample preparation in every alternative face blast. Table: 2 below show some of the findings in HRT Face-III of KaHEP.

TABLE: 2: Laboratory testing of some of Rock samples w.r.t Chainage and some of the criticalities encountered and advantages of excavations of HRT Face-III:

Sl No.	Critical Chainage (m) in Face-III	Compressive Strength (MPa)	Rock Type /Remarks
1	1390.00m	1.85MPa	Heavy loosefall occurred from crown, MPBX deflection at Ch: 1380.00m is observed in Lower Left.
2	1680.00m to 1776.00m	2.20MPa	Truss and struts are fixed in the crown portion of erected rib to counteract the squeezing effect. MPBX deflection at Ch: 1736.00m, Ch: 1753.00m & Ch: 1780.00m at Lower Right, Lower Left, Upper Left, and Upper Right & Crown is observed. It took average 7 months to stabilize.
3	2435.00m to 2575.00m	1.85MPa	Heavy loosefall and cavity formation have been occurred on several occasions leading to slow progress of tunnel boring. The steel (ISMB200) Truss and struts are fixed in the crown portion.
4	2652.00m	3.00MPa	Deformation of steel ribs (ISMB200) observed in the LHS SPL.
5	2683.00m	1.65MPa	Major cavity formation occurred.
6	2717.00m	2.25MPa	Major cavity formation occurred. The MPBX deflection at Ch: 2726.00m at Lower Right, Lower Left, Upper Left and crown is observed.
7	2770.00m	1.75MPa	Major cavity formation occurred.
8	2870.00m	3.50MPa	Deformation observed in the Steel ribs.
9	2895.10m	1.75MPa	Major cavity formation occurred.
10	2914.10m	1.80MPa	Major cavity formation occurred; the face excavation is done by scooping and chipping, without blasting.
11	2938.60m	1.72MPa	Major cavity formation occurred and tunnel squeezing observed. The MPBX deflection at Ch: 2927.00m Lower Right, Lower Left, Upper Left, Upper Right and Crown are observed.
12	3002.00m	1.75MPa	Deformation observed in the Steel ribs (ISMB 200) & Cavity formation occurred due to loosefall.
13	3250.00m	2.65MPa	Deformation observed in the Steel ribs (ISMB200).
14	3289.40m	2.85MPa	Deformation observed in the Steel ribs (ISMB 200) & Cavity formation occurred due to loosefall.
15	3310.00m	2.00MPa	Major cavity formation occurred.
16	3118.15m	1.75MPa	The tunnel diameter is increased

4. STRESSES AND ROCK LOAD IN HEAD RACE TUNNEL.

As the rock mass has undergone a complicated history of loading due to which, the in-situ stresses in rockmass becomes its integral characteristics. It is found that the rock at depth is subjected to stresses resulting from the weight of the overlying strata, from locked in stresses of tectonic origin and strain energy in the form of in-situ stress. The vertical stress below the surface is given by following equation.

$$\sigma v = \gamma \acute{z}$$

$$\sigma v = 0.027\acute{z} \qquad \text{(After Hoek and Brown 1978)}$$

Where σv is the vertical stress
γ is the unit weight of the overlying rock and
$\acute{z}$ is the depth below surface in (m).

The ratio of horizontal to vertical stress for different deformation moduli of rockmass can be calculated base on curves proposed by Brown and Hoek (1978), Herget (1988). The sudden cracks in the rockmass and the rock fall during excavation from the crown portion of HRT causes due to these stress release, but it was observed that if the strength of rock mass is more than the in-situ stresses in tunnel, then tunnel and face remains stable.

In HRT Face-III after testing of numerous rock samples in different chainages and calculating in-situ stresses from different levels of strain/ closure in the SPL of HRT and correlating the values from the curve proposed by (Hoek, 2001), it was estimated the range of in-situ stress is in between **10.31MPa** to **20.56MPa** (105.16Kgf/cm² to 209.71Kgf/cm²) and average in-situ stress is found to be **14.64MPa** (149.33Kgf/cm²) in distress zones of HRT (Table: 3), the value of in-situ stress is estimated corresponding to the convergence reading and amount of squeezing in the distress zone location with due consideration of rockmass strength and its (UCS) value as proposed by (Hoek, 2001).

It was found that once the rockmass strength falls below 20% of the in-situ stress level i.e, **2.93MPa** (29.89Kgf/cm²) or below the range **2.06 MPa** (21.01Kgf/cm²) to **4.11MPa (N/mm²)** (41.92Kgf/cm²) the deformations in the rockmass increases subsequently unless these deformations are controlled by forepoling or by pre-grouting, the face collapse,

IJSER © 2014
http://www.ijser.org

NEEPCO New Delhi North Eastern Electric Power Corporation

cavity formation and squeezing phenomenon are experienced in HRT.

The components of in-situ stress act both horizontally and vertically, which may be estimated in HRT by observing the steel rib deformation patterns in different directions in squeezing zones, the horizontal stress is estimated to be more than its vertical stress, Hast (1958) found that horizontal stresses often exceeds by 1.3 to 1.5 times the vertical stresses. Hence, the loads on the tunnel support system are usually erratic and non uniform due to different directions of in-situ stresses. The average direction of maximum horizontal stress in this region of Himalaya is found to be in the North Eastern quadrant. These stresses in the rockmass around periphery of tunnel may not develop immediately after excavation but may take a time period after excavation to develop, due to adjustments and displacements in the rock mass. It is also interesting to find out some of the facts how a rockmass surrounding a tunnel deforms and how the support system acts to control this deformation.

TABLE: 3: Calculation of In-Situ Stress in HRT-Face-III in major distress zone with different levels of strain as per curve proposed by (Hoek and Marinos, 2000):

HRT Face-III, Chainage (m)	Rock Mass Strength (UCS) in MPa (Qcmass)	Tunnel Deformation at SPL of HRT Face-III in (m) (Ua)	Radius of Tunnel in (m) (R)	% Strain ε= (Ua/R) x 100	(Value w.r.t % Strain from the curve) Rock Mass Strength (Qcmass) / In-Situ stress (Po)	In-Situ stress = Qcmass/ (Qcmass/Po) in MPa (Po)
2472.47	2.15	0.165	3.65	4.52	0.16	13.44
2475.72	2.45	0.150	3.65	4.11	0.17	14.41
2486.22	1.85	0.480	3.65	13.15	0.09	20.56
2490.22	1.85	0.283	3.65	7.75	0.12	15.42
2500.97	1.25	0.450	3.65	12.33	0.08	15.63
2555.47	1.75	0.280	3.65	7.67	0.13	13.46
2560.47	1.95	0.230	3.65	6.30	0.14	13.93
2565.47	1.75	0.250	3.65	6.85	0.12	14.58
2569.72	1.65	0.150	3.65	4.11	0.16	10.31

From the above (Table-3) the maximum in-situ stress in HRT is estimated with different levels of strain as proposed by (Hoek and Marinos, 2000) (Fig: 3) is found to be **20.56MPa** (209.71Kgf/cm²) (Approx. 210.00 Kilogram per square centimeter) in HRT Face-III with about 800m-1000m overburden.

It is a known fact that the state of rock in tunnel before the excavation remains in equilibrium in a gravity field. The process of tunneling evokes new equilibrium conditions which will change during the various stages of tunneling and construction of supports until a final equilibrium is reached.

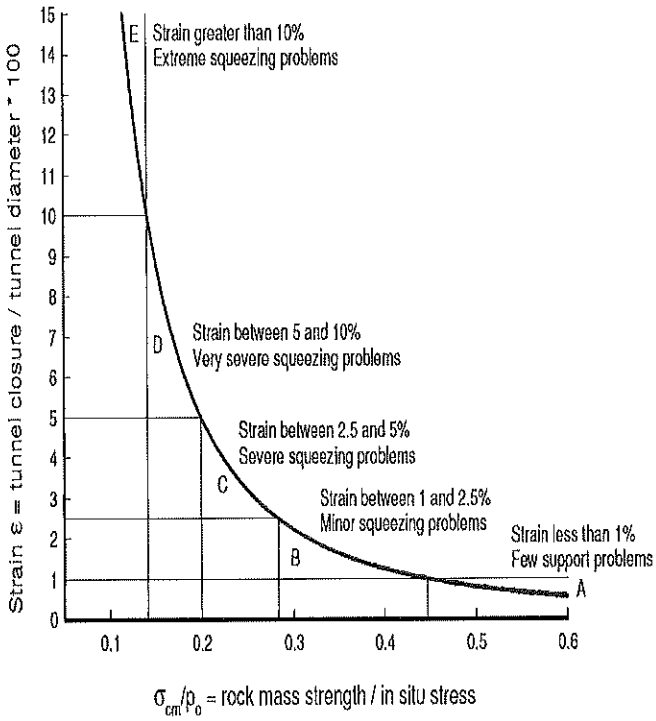

Fig: 3 Relationship between tunnel strain and ratio of rock mass strength to in situ stress (Proposed by Dr. Evert Hoek and Marinos, 2000)

TABLE: 4: Some of the findings of Horizontal and vertical in-situ stress in various projects in Himalaya (India) as reported by Central Soil and Material Research Station (CSMRS), New Delhi are given below:

Sl. No.	Name of Project/ Location	Max. Horizontal stress	Max. Vertical Stress	Remarks
1	Tehri Dam project (Uttaranchal, India)	2.38MPa		Average in-situ stress at Dam site
2	Tala H.E Project (Bhutan)	16.22-10.01 MPa	10.66MPa	Orientation N62°E at an elevation 770m.

The 600 MW Tawang H.E project Stage-I on river Tawang Chu having HRT length of 14.00 Km in east Kameng district of Arunachal pradesh, where (CSMRS) recently conducted number of tests to find out the in-situ stress by hydraulic fracturing tests and the horizontal Stress is found to be 7.42MPa to 11.62MPa and Vertical Stress is around 4.92MPa, the direction of horizontal stress is N63⁰E.

The strain in the rockmass is calculated by MPBX (Multi-Point Borehole Extensometers) and its reading clearly shows the rock movements in HRT Face-III (Fig:4) and same is recorded by 0.5m, 1.50m and 3.00m length anchors in the rockmass. The convergence readings are also taken by plastic survey reflectors of the Geodata Bireflex type. It was found that the average time taken to stabilization the rockmass is around 6 to 7 months after the excavation for HRT Face-III & VI. In rocks where the loads and deformations do not attain stable values, it is recommended that the lining work should not be taken up for safety measures. If the final lining is installed after the tunnel has been stabilized by initial support, the final lining will undergo very little additional loadings.

Thus the element of time plays a very important part in determining the final deformation and the loads coming on to the support systems. The more the time elapses, before the supports are installed, the more the deformation and lesser the stresses in the support system but no direct correlation between the reduction in stresses in the support system and the deformation of the tunnel is worked out. It was understood that the rock mass squeezes in the tunnel and the phenomena is time dependent and depend on the degree of stresses and rock strength.

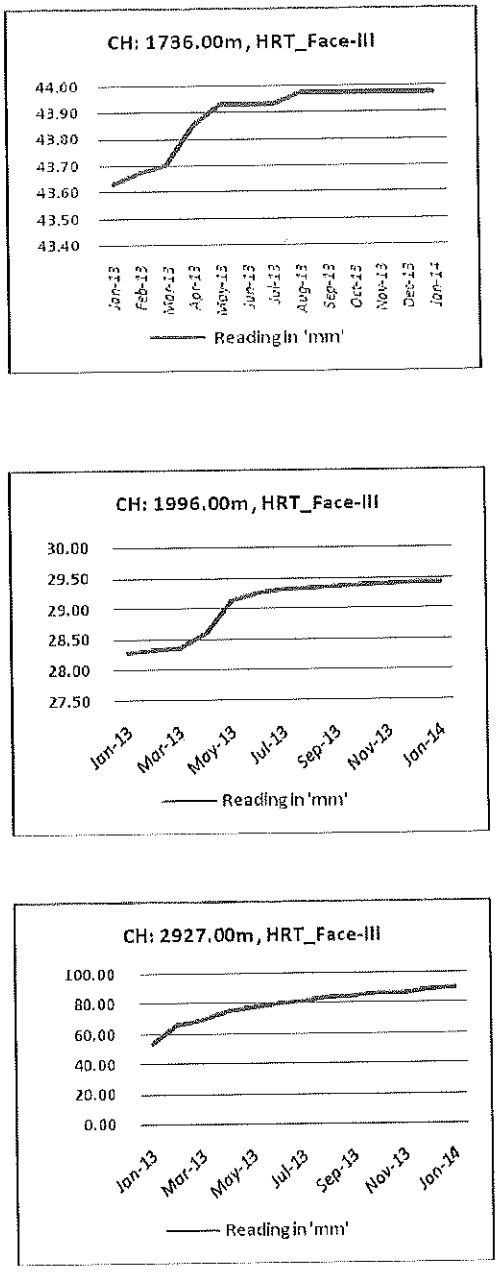

Fig:4: HRT Clouser of Face-III at various changes 1736.00m, 1996.00m and 2927.00mm (MPBX reading)

The photographs (1 & 2) shown below is the face rock condition of HRT face-III where the deformation in the steel ribs occurred after fixing the support system due to very high active stresses in rockmass and the compressive strength of rockmass was found to be below 7.00MPa (71.40Kgf/cm²). The rockmass shows very complicated joint patterns and bedding plane.

New Delhi
North Eastern Electric Power Corporation

Photo: 1 Anticline in HRT ch: 2922.85m Face-III

Photo: 2 Shear zone in HRT ch: 3275.15mFace-III

The rock classes generally encountered in HRT Face-III from Ch: 2200.00m to Ch: 3550.00m is of squeezing in nature due to highly presence of carbonaceous rockmass and coaly layers with highly fractured and jointed rockmass. At some places the crown as well as the side walls were converged by mechanisms of stress induced. It was observed in HRT Face-III and VI that the stability of underground excavations, cavity formation and squeezing ground conditions depends on following factors.

- When the in-situ stress in rockmass is more than the compressive strength of the rock. (Table: 2)
- The unfavorable condition of the rock mass of weak and sheared with low uniaxial compressive strength and when foliations were parallel with the tunnel excavation.
- When the carbonaceous rockmass and clay rich formation and rockmass containing clay gouge.
- When the entire rock load fell on crown portion due to its orientation of joint patterns, leading to buckling of steel ribs sometime collapse of erected ribs (Photo: 3).
- Due to high difference in pre and post excavation stresses.
- Size and shape of the openings and the methodology of excavation such as full-face, heading and benching and multiple drifting methods.
- Nature and type of rocks and their engineering properties.
- Groutability of rock.
- Depth of overburden and rock covers over the opening, as it increases approx. @ 2.5MPa, (25.5Kgf/cm^2) per 100m rise.
- Extent of discontinuities like faults, number of joint sets, fracture planes etc.
- Frequency of joints, their orientations, joint filling materials, and permeability characteristics.
- Presence of shear zone or over stressed zone.
- Slickensided zone, thick fault gouge and weak clay and shales.
- The permeability of the rockmass around the tunnel opening.

Most failures in tunnel face are initiated at the crown portion, when the highly fractured rockmass that wants to loosen and come out, which do not possess the inherent resistive strength. This can continue until the formation of cavity in tunnel or completely collapses or until the geometry and stress conditions come to equilibrium. It was observed that the tunnel excavation causes a disturbance of the initial state of stress in the ground and creates a three-dimensional stress regime in the form of a bulb around the advancing tunnel face. The failure mechanism depends on the in-situ stress level and characteristics of the given rock mass. Such a stress regime is indicatively displayed in Figure (5).

Photo: 3 Cavity formations in HRT Face-VI

As the (Photo-3) above is of HRT Face-VI, where the rock was not sufficiently strong enough, the strength of rock (UCS) found to be below 7.00MPa, the induced stress due to rock load was more than the rock strength resulting rock failure thereby forming the cavity in the crown portion. It was observed that when tunnels is excavated in jointed rock mass at relatively shallow depth with lower overburden, the most common types of failure are those involving wedges falling from the roof or sliding out of the sidewalls of the openings. These wedges are formed by intersecting structural features, such as bedding planes and joints, which separate the rock

mass into discrete but interlocked pieces. When a free face is created by the excavation of the opening, the restraint from the surrounding rock is removed.

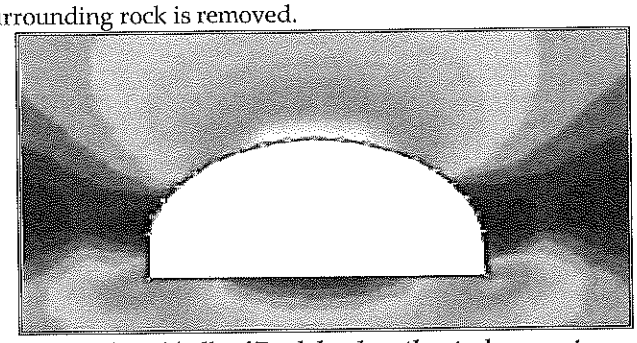

Fig: 5: Predicted bulb of Rock load on the steel support.

Unless steps are taken to support these loose wedges, the stability of the tunnel opening deteriorates rapidly. This failure process will continue until natural arching in the rock mass prevents further unraveling or until the opening is full of fallen material. The cavity formation in some location in HRT was due to encounter of local thick shear zones dipping towards the tunnel face. The soil/gouge materials not having any inherent strength fall down rapidly unless it is supported carefully and immediately.

Thus a higher cavity/ chimney formation along the thick shear zone are common phenomenon in HRT Face-III, unless the face is protected at crown prior to blasting. It was also observed in HRT Face-VI where the chimney formation occurred in water-charge rockmass, where seepage out of excavated rock susceptible to erosion and dissolution. The rock load acting on the tunnel varies depending upon the type and mechanical characteristics of rock mass pre-existing stresses in the rock mass, the nature and strength of rock. Thus rock at depth is subjected to stresses resulting from the weight of the overlying strata and the excavation in the rockmass causes the stress field to disrupt and a new set of stresses are induced in the rockmass surrounding the opening. Failure occurs if the strength of the rock is less than the induced stress (Photo-4).

Photos: 4: Shear failure of steel rib due to developed stresses in cut and cover portion above the flash portal & cavity formation.

The rock load is also affected by ground water conditions, which lubricate the joints in rock and cause greater load than when the material is dry and causes the cavity formation. During the excavation of tunnel, whenever it was felt that the rock loads at crown of excavated face is likely to exceeds the strength of rockmass, to prevent the further rock fall, immediately the steel canopy in the form of umbrella in the crown portion is provided. In several locations in HRT Face-III the canopy with (ISMB 200X100) is provided as preventive measures.

5. METHODOLOGY ADOPTED FOR EXCAVATION OF HRT.

In KaHEP Package –II, the total length of HRT is 06.90 km, comprise of (Face-III & IV 4.95km and Face-V & VI 1.95Km). The HRT is horseshoe shaped concrete lined has been designed to convey 140 cum design discharge. The length of total HRT from intake to surge shaft is 14.45 km with 4(four) Adits of different lengths have been constructed to facilitate and accelerate the construction activity. The tunnel excavation is carried out by drilling and blasting through full-face and heading and benching method, normally 1.5m to 2.00m meters pull is achieved in each round. The rock mass encountered during HRT face advancement mainly consists of Phyllite, Quartzite and carbonaceous materials and maximum rock is classified and comes under Class IVA /IVB category. The tunnel advancement in heading and benching method is adopted to avoid formation of cavity as well as to tackle the cavity easily if any. The heading is generally carried out for a stretch of 8.00m followed by benching of 8.00m. The heading is kept at least 4.00m in advance than benching. The steel rib of ISMB 200X100 at a spacing of 0.5m, 0.75m and 1.00m c/c is adopted for tunnel support considering the rock condition. The average progress is found to be around 40-45 m in a month. The average requirement of explosive is 0.61 Kg/m3. The construction niche is constructed at a spacing of 300 m along the left side of the tunnel and drainage system is maintained on the right side throughout the length of the tunnel. The ventilation system of 1.90m diameter is provided at SPL on right side.

The face maps are prepared after every blast and RMR value is calculated. Excavation methodology and support system are reviewed progressively during the construction. As the construction method has to deal with varying ground conditions and large deformations in the form of crown settlements, longitudinal as well as horizontal deformations. The New Austrian Tunneling Method (NATM) was also adopted in HRT Face-III about 15% of total length of tunnel was excavated by NATM, when the RMR value range from 36 to 63 with high compressive strength of rock and when the rock encountered mainly comprised of good quality Quartzite,

Schist and Phyllite with lesser joints.

6. CRITICALITIES AND REMADIAL MEASURES ADOPTED DURING CONSTRUCTION OF HRT:

6.1 Cavity formation in HRT Face-II

Progress of HRT Face-II boring was severely affected due to poor geology, on 12.01.07 a cavity of 4.0m X 5.0m X 08.0m was formed on right hand side of the crown at Ch. 422.60 m of HRT Face-II. Cavity was formed in rockmass with shear zone encountered within banded Quartzite. A small opening was formed at the extreme right side through which mud/slush with high pressure flowed into the tunnel. A mixture of soil and water flows into the tunnel like a viscous fluid. The semi-liquid slush flowed from the cavity was estimated to be 200cum to 400cum each time. Seepage water flow to the tune of 160Litre/Minute to 400Litre/Minute was also observed. The total length of the critical zone consisting of loose muck was assessed to be 7.20m distance from Ch 422.60 m. The height of loose zone was found to be extended up to 24.00m. Basic rock type encountered was mica Schist; talc Schist and Quartzite with abundance of Kaolin of Pre-Cambrian group.

The loose muck of cavity comprised of angular to medium and coarse quartz and kaolin clay of equal proportion. In order to arrest the loosefall face plugging is done by muck and steel canopy was provided at the crown and the face is restored by providing of 83nos. of 100mm dia., forepole tubes, injecting 9.5mt PU (polyurethane) chemicals, erecting box girder, carrying out 9954bags of Micro fine cement grout. Total 7 month was required to tackle the problem of HRT Face-II. On 29.12.07 blowout at Ch. 616.68m occurred with coming down of huge water and rock fragments/debris and filled up to a HRT length of 220m.

Seepage of around 6500Liters/Minute was observed in HRT. The rockmass were comprised of complexly folded in the form of major anticlines and synclines with major fold, vertically faulted and sheared (GSI Report, 2008). Blow out occurred due to heavy accumulation of ground water in the syncline fold closures. The built up pressure and in-situ stress due to gradual rise of tunnel cover triggered the blow out and the debris flow out comprised of Quartzitic materials with infilling clay. The remedial measures encompass use of 80mm to 100mm dia. M.S perforated pipe forepoles grouted with Micro fine cement, Ordinary Portland Cement (OPC) and PU (Polyurethane) grout, the entire restoration work was completed in 9 months. Again on 27-07-2010 another blowout occurred at Ch: 1337.00m in HRT Face-II, the basic rock types encountered were thinly bedded quartzite, Mica Schist, Talk and Graphite Schist belonging to Bomdila Group.

The rock was thinly fractured and folded with variation of rock within a metre even. The rockmass infillings of talk/sericite/clay within the foliation joint associated with heavy seepage created most of the tunnel problems and the face was restored with similar methodology adopted for tackling the previous problems i.e., 80mm dia. and 12.0m long perforated pipe forepole grouted with OPC/ micro-fine cement and Polyurethane material. The entire restoration work was completed in 5 months.

6.2 Squeezing effect and Cavity formation and in Face-III.

In some stretches the presence of very weak rockmass along with high rock cover (Approx. 800m- 1000m) led to squeezing problems. It has long been understood that the ground, if allows to deform slightly is capable of contributing to its own support but in case of unfavorable condition of the rock masses which were weak , sheared and foliated and the in-situ stress is more than the strength of rock the deformation is much severe. In HRT Face-III, frequent collapses with heavy over-breaks and chimney formations of 3.00m to 9.00m depth were experienced during tunneling due to highly jointed and sheared phyllite and carbonaceous rock conditions. Minor cavities are also frequently encountered in tunneling because of presence clay strata and water along the

North Eastern Electric Power Corporation New Delhi

shear zone details given in (Table: 2).

It was observed that the ground with low frictional strength the rate of squeeze depends on degree of overstress. At several places in HRT Face-III, the rock shows gradual squeezing tendency or deformations generally over period of about one month after excavation. This is manifested by development of cracks in the lagging and buckling of steel ribs and disjointing of concrete slabs with steel ribs (Photo-8).The squeezing mainly occurred when the rockmass consists of shiny carbonaceous materials with very low compressive strength of below 2.00Mpa (Photo-7). The rock mass encountered in squeezing area was weak in nature and the uniaxial compressive strength was significantly low and presences of no definite join patterns were observed. After the excavation immediately the steel support system were fixed and backfilled is done with M20 concrete but after 20 to 30 days the deformation in the rib was observed due to high stresses in the rock mass.

Photo: 7 Squeezing in crown portion in HRT Face-III

Photo: 8 Squeezing Rock strata in HRT Face-III

After excavation the local stress regime changes in ground condition, the rockmass around the opening loses its inherent strength under the influence of the stresses. The stress increases due overburden rock load, in most of the squeezing rock formation the compressive strength of rockmass is found to be below 7.00MPa. It was observed that the load in the rock mass is transferred by internal shear zones to adjacent ground until an equilibrium condition is reached. If the ground is weak and the overburden load is too great, the tunnel may close by deforming the support system. Thus, if final equilibrium is reached before support system is provided in the tunnel, the support may not receive loads from the medium at all. In HRT Face-III, apart from weak ground conditions number of shear zones have been encountered and negotiated during tunneling, where also the squeezing phenomenon is predominant. Apart from in-situ stresses the squeezing may also due to result of pore pressure and swelling of clay minerals. Presence of some clay minerals such as Kaolin and Montmorillonite, which have the tendency of squeezing as well as swelling, exerts pressure on the support system; the rockmass Schist that encountered in HRT Face-III contains mainly the clay minerals. According to Mohr's theory, the squeezing conditions were also predicted under rock cover more than 300m and rock burst conditions were met where overburden is more than 1000m.

It was experienced that the in-situ stresses are influenced by the depth below the ground surface, the maximum squeezing occurred in HRT Face-III, where the range of overburden is 800m – 1000m. Therefore, it is recognized that the depth of tunnel or the overburden of carbonaceous rocks are important parameter and probable cause of squeezing phenomenon in the HRT. The effects of tunnel depth or the overburden on support pressure and closure in tunnel have been studied for HRT Face-III, which are summarized below.

- The tunnel depth has a significant effect on support pressure and tunnel closure in squeezing ground conditions of carbonaceous rock.
- The depth effect on support pressure increases with deterioration in rock mass quality probably because the confinement decreases and the degree of freedom for the movement of rock blocks increases.
- The fact would be of help to take decisions on realigning a tunnel through a better tunneling media or a lesser depth or both in order to reduce the anticipated support pressure and closure in tunnels.

The thickness of shear zones encountered in HRT Face-III, varied from few centimeters to a meter. The formation of cavity as well as squeezing effect are frequent in these shear zones. Therefore the asking rate of HRT excavation went up due to very poor ground conditions. The rock support system being provided in HRT Face-III has been reviewed due to unsatisfactory rate of progress. To tackle the problem of squeezing in HRT, modifications in the tunnel section have been incorporated by increasing tunnel diameter from 7.3m to 7.6m from Ch: 3118.15m (March'2013).

North Eastern Electric Power Corporation New Delhi

The following (Photograph-9) show the condition of rockmass before fixing of support system and the squeezing effect on support system were seen after laps of time period. The anticline and syncline in the rockmass indicates the presence of stresses and the significant signs of squeezing in the form of deformation in ribs are observed in the SPL.

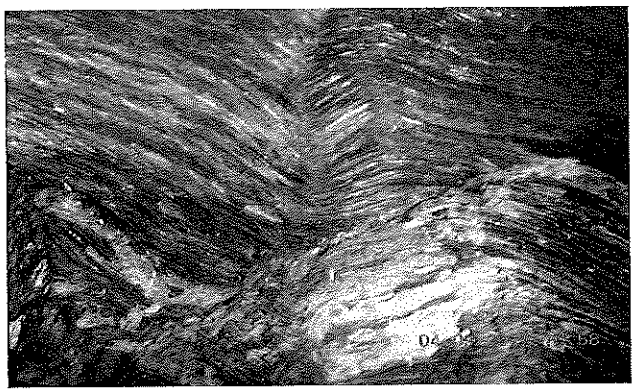

Photo: 9: The rock condition of face and the squeezing takes place the rock seems to experience high stress.

The pattern of deformation indicates that the induced stresses around the tunnel acts directly on the tunnel steel support system through the encountered shear zones comprising of thick clay-filled fault gouges, weak clay shales and flowing ground conditions. Where the interlocking of blocks are missing, the joint strength, the rock strength is lost and the rockmass is enable to counteract the in-situ stress due to its orientation of joint patterns.

The encounter of such fractured shear zones during excavation results the cavity formation and subsequently squeezing phenomenon in course of time. Some of the reasons for the cavity formation in the squeezing zones of HRT Face-III are analyzed and are given below:

- The fractured rockmass filled with crushed rock and clay particles with seepage, when excavated the circular and curvilinear fracture plane in the crown portion susceptible to fall and forms cavity.
- Foliation joints dipping at an angle of 10-15 deg towards face of tunnel and forming low dip planes in the crown.
- Very low compressive strength of rockmass and in most of the cases the rock strength is found to be below 2.00 MPa.
- Smooth undulated and clay coated joint surface with low cohesion and foliation planes separating out from each other causing loosening in rock mass.
- Micaceous nature of sheared quartzite having clayey nature which swells with water and also creates pressure on the support system.
- Presence of crushed and sheared materials along the shear zones.

To tackle Cavity problems, following remedial measures were adopted in HRT:

- To allow all loose materials to fall-off completely in case of minor cavity or to plug the face with muck than concrete filling is done.
- Channelizes the excessive seepage water if any by drilling holes and inserting pipes.
- In soft rock strata to prevent loosefall umbrella roofing or canopy is provided by using channel sections or with ½ ISMB 200X100 forepoling in the crown portion.
- Concrete is filled-up in the gaps created by cavities after face plugging.
- Backfill and consolidation cement grouting in the cavity portions and area ahead of cavity to consolidate weak strata.
- Pre-support using various techniques, such as spiles and forepoling with steel bars, soil nails, soil doweling typically are installed through and ahead of the tunnel face.
- Systematic doweling in top heading considering joint spacing.

Photo:10 The face condition where the dry crushed sheared material suddenly comes out exerting high pressure in rib support. Ch: 1385.0m, HRT Face-III.

In an inhomogeneous rockmass, the process of failure is initiated by its weakest link the zone of loose soil and weak rock, crack, bedding plane, soft seam, etc. Further, the failure in an inhomogeneous rockmass is progressive, whereas in homogeneous rockmass failure is abrupt. Hence the advantage of inhomogeneous materials is that it gives an advance warning of the failure process starting slowly from the weakest zone. The thin rock layers may buckle under high in-situ stresses first and then they may rupture progressively by violent brittle failure. Experience from tunneling has

NEEPCO
North Eastern Electric Power Corporation
New Delhi

International Journal of Scientific & Engineering Research, Volume 5, Issue 9, September-2014
ISSN 2229-5518

shown that cavity and squeezing ground conditions are generally encountered where the peak angle of internal friction is less than 30. Moreover rocks have pre-existing planes of weakness like joints and bedding planes etc. as such failure occurs mostly along these planes of weaknesses. The fact is clear that in squeezing ground condition the stiff support system will attract high support pressure as it will restrict the tunnel closure but if flexible support system is provided after some delay it will attract much less support pressure thereby more tunnel stability.

6.3 Ingress of water at HRT Face-VI

The rock types encountered during excavation of HRT Face-VI are mainly alternate bend of gray sandstone, laminated carbonaceous shale, carbonaceous siltstone and thin layers of coal seam of 'Gondowana Supergroup. The rocks were found to be highly folded, fractured and sheared in nature, the fractures and closely spaced joint planes are filled with crushed rocks, rock powders, clay particles and secondary carbonaceous infillings.

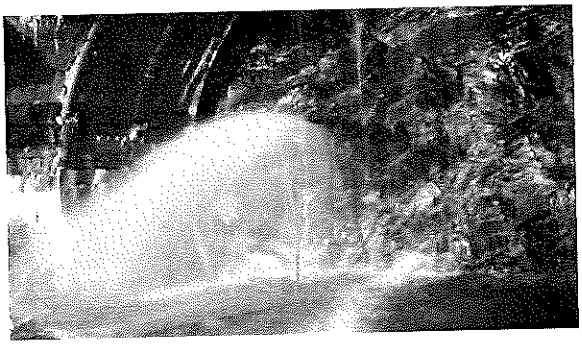

Photo: 11: The seepage water comes out at high pressure.

The highly folded rock strata encourage water entrapment and subsequent release on boring. Total length of HRT face-VI is 1684.00m and heavy seepage of underground water was encountered along with very poor geology from Ch. 331m to Ch. 343m, Ch. 532.00m to Ch.595.00 m, and from Ch. 750.75 to 781.15 m. The heavy ingress of water was first encountered on 17th Feb'2007 at Ch: 333.0m. The rate of seepage recorded in this stretches of tunnel varied from 6500 to 9000 liters/min. The progress during the year 2007-'08 was only 360 m due to the criticalities encountered. The tunnel alignment had also passed through three major shear zones, leading to collapse of face, formation of huge cavity and flow of loose muck/sludge accompanied by heavy seepage water from the face of HRT.

The seepage out of excavated rock susceptible to erosion and dissolution and resulted the collapse of the opening. The first major shear zone encountered at Ch 743.75 m in July'2008, second at Ch 784.00 m Aug'08 and the third at Ch 958.00 m in September'2009. Hence total time required to overcome these criticalities was about 13 months.

In order to stabilize the rockmass and to divert the excessive seepage water, extensive cement and admixtures grouting was carried out. The Colloidal silica grouting was also carried out for rock improvement and reducing seepage water. Finally Polyurethane (Sodium silicate or Polyurethane) (PU) grouting about 10mt was carried out and Polyurethane grouting was needed to divert seepage water from the HRT at two locations, one at Ch 784.00 m and another at Ch 958.00 m, for further face advancement of tunnel. Work suffered badly during the period and Tunneling was suspended for many months in these stretches. In order to drain out the seepage water from tunnel dewatering system was strengthened by installing additional pipe lines and pump sets.

Photo: 12: PU (polyurethane) *Grout, HRT Face-VI.*

The PU Grouting was done under high pressure in HRT Face-VI, by drilling 45 mm dia, 5.00 m long holes all along the HRT periphery and in the face keeping an overlap of 2.00 m. The grout pressure up to (60 bar) was used to inject the PU grout into the fractured rockmass, which reacts chemically with seepage water. The PU grout stabilized, strengthen and seal the rockmass by diverting the huge seepage water from the tunnel face to adjoining area. The face condition was improved by injecting PU grout and further tunneling was possible in HRT Face-VI.

7. CONCLUSIONS

In Kameng H.E Project the HRT is passing through one of the most geologically complicated and challenging terrain, where disposition of geological formations is controlled by several tectonic plans, share zones with in-situ stresses. It was found in the HRT face-II, face-III & VI of KaHEP, that when the rock strength of tunnel face goes below 20% of average in-situ stresses, which is around **2.93MPa**, (2.93N/mm²) or (29.89Kgf/cm²) the chances of loosefall and cavity formation is much more and the occurrence of squeezing phenomenon is

predominant, thereby threatening the stability of tunnel. It was also observed that if the compressive strength of rock is more than **20.56MPa**, (20.56N/mm²) or (209.71Kgf/cm²) the problem of cavity formation and loosefall rarely encountered and tunnel is found to be stable, provided restriction of free movement of rockmass in their join pattern. The pattern of joints, folding and seepage water of rockmass have great impact on stability of rockmass in tunnel face. It was also found during the compressive strength test of HRT rock samples, that when the force is applied to the rockmass parallel to its bedding plane the strength of rock found to be around 20% strength, then when the force is applied perpendicular to its bedding plane. Therefore for the same rock type the tunnel stability depends on the orientation of the bedding plane and its capacity to counteract the in-situ stresses by virtue of its strength. The fact is clear that in squeezing ground condition that the stiff support system will attract high support pressure as it will restrict the tunnel closure but if flexible support system is provided after some delay it will attract much less support pressure thereby more tunnel stability.

In Kameng H.E project the magnitude of HRT mishaps and criticalities could not be predicated during DPR stage due to limited geo-technical investigation data. The experience of Kameng H.E project covering different engineering and geological issues may be taken as an eye opener for hydro structures being planned in geo-technically sensitive lesser Himalayan region. The tough and challenging task of tunneling through poor geology by evolving strategies involving engineering skills and innovative ideas were the key to successful tunneling. The criticalities and remedial measures adopted here shall be of great use during tunneling in similar conditions in other projects in India.

Thus the tunneling through the Himalayan rock formations is a very difficult task but the unforeseen problems are unavoidable in any under-ground excavation. If not properly handled, these problems can lead to serious consequences and failure of the projects. Apart from the safety implications, substantial economic cost is also associated in the form of delay caused in the project. Proper geological investigations with vigilant monitoring, testing and proper engineering supervisions are required during tunnel excavation. Also, as far as possible timely remedial action plan should be made in advance keeping all previous shortcoming and observations in mind. This will be helpful in saving time and cost with more safety during the execution to tunneling project.

APPENDIX-2.

HEAVY INGRESS OF UNDERGROUND WATER IN FACE-VI

A REPORT ON HEAVY SEEPAGE OF WATER AT HRT FACE VI OF KAMENG H.E. PROJECT

DATED: - KHUPI THE 11th NOV'2007.

Total length of HRT Face-VI = 2404.00 m (from Rd. 9695.99 m to Rd 12100.00 m).

Underground excavation of HRT Face-VI was commenced w.e.f. 07-04-06. Initially *(up to Ch.181.00 m)* the rate of seepage was not significant. However the same has been gradually increased to 4500 l.p.m. at Ch. 331.5 m. On the night of 17-02-07, the rate of seepage suddenly attained about 6500 l.p.m. (Ch. 333.00 m) while drilling probe holes. The progress of tunnel boring was disrupted for 53 days (w.e.f. 17-02-07 to 12-04-07). After taking necessary action to contain the ingress of water, as per recommendations of ***Committee of Experts*** *(Annexure-I)* , the work of tunnel boring again started w.e.f. 12-04-07. Since then the progress of work has been severely affecting due to heavy seepage of water, except a small stretch. Details of quantum of seepage encountered at Face-VI, from Ch 181.00 m till date, are given below:

PERIOD	CHAINAGE		REMARKS
	FROM	TO	
Oct'06	181 m	210 m	Heavy seepage, **about 1200 - 1500 l.p.m. (approx).**
Nov'06 to Jan'07	217 m	282.71 m	Rate of **seepage gradually increased to 1500-2000 l.p.m. (approx).**
Jan'07 to Feb'07	282.71 m	331.56 m	Rate of seepage **further increased to 4000-4500 l.p.m. (approx).**
17th Feb'07	331.56 m	333 m	Rate of **seepage suddenly increased to 6000 - 6500 l.p.m. (approx).** *Huge water jets from the drainage holes started showing and entire portion of tunnel from junction branch Face-VI inundated within 9-10 Hrs and maximum depth of accumulated water*

			at some locations of the tunnel reached 2.5 m.
18th Feb'07 to 11th Apr'07	333 m		Tunnel boring activity held up. Augmentation of dewatering system taken up. Accumulated water dewatered by 27-2-07. Director, GSI & CoE visited site on 09-3-07 and from 24th to 28th Mar'07 respectively. Recommendations of CoE implemented by 11-04-07 and tunnel boring resumed w.e.f. 12-04-07.
12th Apr'07 to 14th Apr'07	333 m	335.75 m	**Heavy seepage – 1500 – 2000 l.p.m. (approx).**
15th Apr'07 to 30th Apr'07	335.75 m	341.75 m	**Seepage gradually reduced to 800 – 1200 l.p.m. (approx).**
May'07 to 9th May'07	341.75 m	348.25 m	**Seepage is less than 1000 l.p.m. (approx).**
May'07 to Mid of Jun'07	348.25 m	412 m	**Seepage gradually increased to 1500 – 1800 l.p.m. (approx).**
Mid of Jun'07 12th Oct'07	412 m	533.75 m	**Rate of seepage further increased to 2000 – 2500 l.p.m**
13th Oct'07 till date	533.75 m	548.75 m	**Rate of seepage attained more than 5500 l.p.m. (approx) on 10-11-07.** Heavy seepage observed in the form of stream from face as well as crown portion.

A sketch showing chainagewise seepage condition of Face-VI is enclosed herewith for ready reference as **Annexure-II**

To control the seepage problem and continue with the tunnel boring activity, following steps are taken as per MoM dated 3-11-07:

2 of

1. 1.0 m length of the crown from Ch. 542.75 m kept without backfill concrete to cut off possible water paths to the face. Flow of seepage water along the roof of the tunnel m to Ch 542.75 m has been successfully cut off at this point
2. M/S PEL has yet to mobilize more pumps to strengthen the dewatering system as committed in the meeting.
3. In this portion of tunnel (i.e. Ch542.75 m to Ch 544.75 m), 5 nos of probe holes, 89 mm dia and 5 m long drilled radially.
4. Mobilization of materials and machineries are in progress to take up the grouting operation in line with the recommendations of CoE during their last visit in Mar'07.

Geology at Ch. 548.75 m:- The rock is highly fractured, jointed and about 60% to 70 % are carbonaceous shale. However the same is comparatively better along the periphery of the crown portion, which are gray sand stone & shale. Heavy loose fall from face caused self advancement by 3-4 m. Heavy flow of water, in the form of stream, are observed from two locations (one near centre above SPL and another towards LHS above SPL) besides seepage from the roof and rock joints at face.

All arrangements are being made for cement grouting along the periphery and face of tunnel section (in line with recommendations of CoE during their last visit in Mar'07). ***In view of the prevailing geological & seepage condition at face, perhaps the grouting may not be effective. However, expert opinion is solicited in this regard.***

Detail Action Taken Report at Ch 313.00 m is also enclosed as **Annexure-I** for reference.

Khupi

Sr. Manager (C)
Addl-III, TDG.

REPORT OF THE EXPERTS OF THEIR VISIT TO KAMENG H.E. PROJECT, ARUNACHAL PRADESH FROM 24.03.2007 TO 28.03.2007.

FACE VI - ADIT -3

A. **OBSERVATIONS :**

1. It was reported that heavy flow of water from drill holes of Face -VI of HRT was noticed on 17.02.07 and was still continuing. It was also reported that water flow from the face was of the order of 6000 litres per minute (100 litres per second)

2. The water is flowing from different holes with varying intensity and discharge. The flow is more on left hand side (Facing the face of tunnel). The discharges as noticed on 25/03/2007 are as follow:
   (i) Maximum discharge on a hole located on LHS at about 3.5 m height from base. The length of water jet is about 6 m from the face. (It was reported that the length of jet was 8 m before few days back)
   (ii) Discharges from holes located on left hand side near the SPL and at top.
   (iii) The discharge from a hole on right hand side just above the SPL.

3. Apart from the above, seepage was observed on RHS about a distance of 70 m – 100 m from the face.

4. It was also noticed that the Face –VI of tunnel and debris lying above floor are stained due to coating of inferred red oxide.

5. It was observed that sand/debris were deposited in front of face-VI of tunnel but water seeping was clear, perhaps more clear then the river water. It appears that all wash material behind the face has already come out along with the flowing/seeping water.

6. The length of water jet coming from various holes are varying from few cm to 6 m.

B. RECOMMEMDATIONS

1. During the meeting held on 09.03.07 at Delhi certain investigations were to be carried out. These investigations are still in progress.
2. The efforts should be made to identify the source of ingress water and isolate that area by adopting suitable/appropriate method.
3. In the mean time, it is recommended that grouting may be done by drilling diverging angular holes all along the periphery of the face. The pattern of drilling and grouting should be as follows:-
   i) The first ring of holes should be 500 mm away from the face. The holes should be 5.0 m long at 500 mm centre to centre (circumference) and should be grouted.
   ii) Subsequently holes should be drilled between the existing drill holes (500 mm C/C) and their length should be about 10.0 m and should be grouted.
   iii) A second ring at 1000 mm away from the face and having 15.0 m length should be drilled. Their spacing should be between the existing holes staggered (125 mm between the existing holes) as indicated in i) and ii) above and grouted.

iv) The grouting should be done at an adequate pressure sufficient to counter the existing water pressure.

v) A pilot hole may be drilled and after ensuring the sufficient reduction inflow, the excavation may continue, if necessary fore poling may be carried out.

vi) Drainage holes be drilled appropriately at suitable distance and length.

vii) Adequate arrangement may be kept ready to pump out the excess flow.

4. If the grouting as recommended above is not successful, a concrete plug may be constructed as described hereafter:-

i) For this, a partial timber bulk head may be erected near the face (about 3 m away from the face or as practical in the circumstances) and it should be fitted with adequate number of open pipe at low level. These pipes must be fitted with a valve at the out end, which is left open. Concrete is to be placed up to pipe elevation for the full width of the bulk head wall. After this, corrugated sheets may then be placed against the rock face, irregularities behind the bulk head/ corrugated sheets being filled in with rock/stone. This will permit flow behind the bulk head to reach the discharging pipe. Depending upon the rate of flow, the main timber bulk head is to be concreted to provide a reasonable strong and impervious barrier. Once the concrete is cured, the valve is closed so that flow of water will not interfere with the work of consolidation grouting of the rock in which bulk head is located.

ii) The cement grout with 1:1 to 2:1 water cement ratio may be used to seal off the flow at least upto a distance of 5m to 10m away from the face

according to the local conditions (inflow of water). The use of higher water/cement ratios may lead to early breakdown of the grout seal and is not recommended. The permeability test and probing should be conducted before proceeding further. If the joints in the rock are less than 0.3 mm width, the micro fine cement or expansive polyurethane may be used.

iii) It is also necessary to angle the outer most diverging holes in a ring along the periphery of the tunnel. The grouting may be done in two or three rings about 0.5 m to 1 m apart and the thickness of solidify mantle should be at least about 5 m. If during probing, it is found that water flow is reduced, the number of rings may be curtailed. It may also be desirable to do extensive additional grouting to establish the integrity of the bulk head with rock face.

iv) The progress and success of the grouting programme can be checked by metering the inflow though the pipe valve. Once the water flow is under control and grout is hardened, tunnel advance can continue upto some distance behind the front injected zone with successive rounds of consolidation grouting till better rock is encountered.

5. The method adopted should be monitored and adjusted/corrected as per the site conditions.

Sub: Execution of Civil Works Under Package-I of Kameng H.E.P. --- Suspension of concreting work in Dam thereof.

Ref: No. PEL/P-1/223/407 Dtd. 21.03.07.

Dear Sir(s),

In inviting a reference to the letter issued by you, as cited above, I am to record the following paras.

The Supplementary Concrete and Material Processing Plants were commissioned by you on the left bank of Dam Site due to delay in mobilisation of Main Designated Plants at your end. With the Supplementary Plants, 3,302 Cum of Dam Concreting had been done between March'06 and May'06. The said quantum of Concreting had to be poured manually in absence of specified mechanized system. Due to the limitations of the said plants, targeted quantum of Concreting associated with Stage-I River Diversion could not be completed. The Main Plants as designated in the Contract Agreement have been commissioned by you as noted below.

- Aggregate Crushing Plant (100TPH) -- 31.07.06.
- Sand Plant (50TPH) -- 26.08.06.
- Concrete Batching Plant (60Cum/Hr) -- 08.10.06.
- Ropeway (in lieu of stipulated Tower Crane) – 08.11.06.

Having commissioned the Main Plants and Equipments, you were ready for specified Dam concreting from 09.11.06.

As per Provision of the Contract Agreement, you are to obtain permission to operate Stone & Sand Quarries from the Concern Authority and the Corporation needs to assist you for the same. However, no such efforts for obtaining the permission to operate the quarries from State Government has been seen at your end so far. In this regard the earlier letter issued from this end vide L/No. NEEPCO/KaHEP/BDC/EIC/W-1/2006-07/198 Dtd. 13.06.06 may be referred to. Instead of only assisting you for the process, the Corporation has been taking up the issue with the State Government directly for the interest of the work. In absence of the required permission

to operate the Stone Quarry (located at the hill near Adit-I of HRT near Kamlin Nallah) you have been requested to take up quarrying of boulder from the river bed within the acquired area since beginning of the work by us. In this regard, all our previous correspondences made with you may be referred to. No appropriate actions have been noticed at your end in this regard also. As such, as pointed out by you, the non availability of Stone quarry cannot be termed as attributable reason for disruption in Dam Concreting.

However, as per the records, it is agreed that delay in taking up Dam Concreting from 09.11.06 (after commissioning of the Major Plants & Equipments) is attributed to non availability of Revised Construction Drawings with reference to the necessity for lowering of the Spillway Crest and founding the Dam on the right abutment (the geology being mica schist dominant). This aspects will be dealt in accordance to the stipulated Provisions of the Contract Agreement.

You are requested to note the above aspects and to start quarrying of river bed boulders from the acquired area immediately so as to start Dam Concreting on receipt of Revised Construction Drawings.

Thanking you.

Yours faithfully,

No. NEEPCO/KaHEP/BDC/EIC/W-1/2007-08/ Date: 14.11.07.

To,
M/s Patel-Unity Joint Venture,
C/o Patel Engineering Ltd.,
Patel Estate Road, Jogeswari (West)
Mumbai- 400102.
Camp: Bichom Dam Complex.

Sub: Execution of the works of Bichom Dam under Package-I in accordance to the Approved Construction Drawings.

Ref: 1. No.PEL/P-1/223/600 Dtd. 08.11.07.
2. No.NEEPCO/KaHEP/BDC/EIC/W-1/2007-08/ 525 Dtd. 08.11.07.

Dear Sir(s),

Reference is drawn to your letter cited under reference 1 above.

The Approved Revised Construction Drawings for Bichom Dam Excavation have been issued to you on 18.10.07. and the corresponding Revisions of the Drawings have also been issued from this end vide this office L/No. NEEPCO/KaHEP/BDC/EIC/W-1/2007-08/535 Dtd. 13.11.07. The said Construction Drawings have indicated the necessity to take up the remaining excavation of the Dam from the top levels of the abutments at both the banks. Also, dismantling of the erected Concrete Batching Plant on the right abutment and the Ropeway Foundations on both the abutments is found unavoidable as per the referred drawings. The diversion of the main Access Road existing on the right abutment from Bichom to Buragaon connecting Adit-I approach is essential for the required remaining excavation of the Dam which was well indicated in earlier Pre Revised Approved Drawings issued to you.

Since the new Construction Drawings have been issued after revising the Design Aspects of the Dam on purely Technical ground with lowered Crest Level, your contention vide the letter cited under reference 1 above need not to be reviewed further.

You are hereby requested to take up the remaining Dam Excavation work as already instructed vide this office L/No. NEEPCO/KaHEP/BDC/EIC/W-1/2007-08/ 525 Dtd. 08.11.07.

Please note that responsibility against the consequences which may arise due to delay on your part in resuming the works shall not be shared by the Corporation.

Thanking you.

Yours faithfully,

DGM(C)/Engr. In-Charge (Pkg-I)
Bichom Dam Complex,

APPENDIX-4.

FLOODING OF KAMENG HEP DUE TO HEAVY RAINS DURING OCT'2008

ANNEXURE - II

Report on damage caused due to heavy torrential rain at Bichom during the period 26th and 27th Oct'08.

The activities of the project at BDC came to standstill w.e.f afternoon of 26th Oct'08 due to heavy torrential rain. The rainfall recorded for the period from 9:30 AM (26.10.08) to 9:30AM (27.10.08) is 106 mm and the same was recorded to be 173 mm on 27.10.08 from 9:30 AM to 3:30 PM.

(A) Damage on the working fronts:

HRT-I

Due to this heavy rainfall major landslides had occurred at Adit-I Site and on the stretch from BDC Colony to Adit-I. The culvert over the Kamlin nallah was chocked due to flow of debris and heavy landslide near the Adit-I Portal and sudden gush of water in Kamlin Nallah took place. The site office of M/s Patel Engineering Ltd. and the electrical installations near the Adit has also been damaged considerably.

Due to the above reasons water entered into the tunnel upto a depth of 5.50 m at Adit-I Portal. The following machineries are inside the tunnel which could not be removed.

1. Rocket Boomer.
2. Shotcrete Machine(ALIVA with Roboarm)
3. Concrete Pump
4. Grouting Pump.
5. Electrical Transformer, 500 KVA.
6. Dewatering pumps.

It is fortunate that there was no casualties of workers. Some of the pictures taken for the land slides and damaged caused in HRT are enclosed.

To divert the accumulated water of Kamlin Nallah, efforts has been made to cut trenches for draining out the water to the Bichom River as the existing draining system was not enough to take the load. Meanwhile, on 29.10:08 (10:00 AM) the water level at the Portal has reduced by about 1.50 m but is still above the SPL. There has been no rain since yesterday i.e. 28.10.08.

All the excavator stationed at Dam Site have been engaged for clearing the landslides in between colony and Adit-I. It is expected that this road will be thorough by today i.e. 29.10.08.

(B) Bichom Dam:

The incessant rain that lashed the Bichom Valley in general and the Bichom Dam area in particular on 26.10.08 continued for a period of about 30(Thirty) hours. The storm which was recorded as 290 mm, caused swelling of river water level to 716.50 m at Dam site with a discharge of 1574 cumec, registering the highest flood discharge.

observed during the year. The high discharge of the river carrying boulders and floating debris, created havoc at Dam site area and caused damage to the left abutment of Bailey Bridge located at 250.00m down-stream of Dam axis resulting in development of crack in the abutment besides eroding part of the stone masonry portion of the abutment. The approach to the bridge on both the banks has also been washed out for a stretch of 3.00 to 4.00m on each bank.

Apart from the above, the heavy downpour has caused immense damage to the ongoing work of re-alignment of access road in the right bank. The extent of damage as observed are enumerated below

1) A major landslide has occurred at the junction point of main access road and new access road to Dam site.

2) A stretch of about 10.00m of retaining wall under construction by M/s Patel Engineering Ltd., as a slope protection measure has collapsed at Ch.378.00m

3) Road formation of the access road from Ch.748.00m to 878.00m leading the bailey bridge has been washed out due to heavy rain.

4) Several minor landslide occurred on the new access road between Ch.540.00m and Ch.748.00m

5) A stretch of about 170.00 m of formation from Ch.0.00 m has been partially eroded.

Apart from the above, the main access road to Dam site remained closed for vehicular traffic w.e.f 27.10.08 due to heavy landslide and rock fall at different locations. The work for clearing the landslide and rock fall on the main access road to Dam site and Adit-I has been started by M/s Patel Engineering Ltd., w.e.f. 28.10.08. However, the work is likely to suffer badly for want of POL and other inputs as the road leading to Bomdila is also closed due to washing out of one slab culvert on Sudu Nallah near Bichom complex besides numerous landslide and rock fall on Bichom-Nafra road.

The financial evaluation of the extent of damage can be worked out only when the accessibility to the work site is restored.

(C) Damaged caused in the approach road in between BDC Colony to Nafra:

The road communication between BDC Colony and Nafra got totally disrupted as a box culvert over Sudu Nallah got washed away and as a result 20 m of road formation has got wiped out (Photograph enclosed). Several major landslides have taken place in between Bichom Village to Nafra junction point. These landslides can be cleared only after construction of a temporary approach over Sudu Nallah. It is estimated that to make the road thorough upto Nafra, it will take nearly ten days time. Machineries engaged in clearing of landslides in between Adit-I to BDC Colony can be deployed

2

in the stretch in between Bichom and Nafra on completion of the clearance of the slides to Adit-I.

(D) Disruption of water supply system:

Torrential rain caused havoc in the water supply system of the colony as 12 Nos. of 80 mm pipe of the main supply line got damaged/washed away. Efforts are on to restore the supply by 29.10.08. Employees of NEEPCO as well as M/s Patel Engineering Ltd., who have been getting supply of water from the scheme have been suffering for the last 2 days due to the above reasons.

(E) Electrical Supply to Colony:

In view of the above scenario of road communication and also understanding that there is severe damage of main approach road from Nag Mandir to Bomdila, severe power cut has been imposed in the colony. Only about 6 hours of power supply in a day has been allowed for the colony. Severe power cut has been effected in the office also. As on 29.10.08 only 1050 litres of HSD is available in stock for running of DG Sets and this will cater for maximum of 6-7 days. Due to the severe power cut, communication facilities through VSAT which is the only source of contact is also getting badly affected.

(F) Shortage of Food Stuff:-

Disruption in road communication has created a panic in the local market and there is no food stuff available for purchase by the employees. This being the end of the month not much of money or stock of food stuff is available with the employees causing the situation harsh. If no help is received at the earliest situation will be grave. It is to be intimate that at present total strength of NEEPCO employees including their family members at BDC will be around 120 Nos and that of M/s Patel Engineering Ltd., is around 500Nos. Assistance for the employees of M/s Patel Engineering Ltd., also needs consideration as their present stock of food stuff will suffice only 7-8 days and stock of HSD is also not sufficient to have full fledged operation of equipment required for restoration of road communication.

In view of the above scenario, it is requested to kindly take up the matter with the District Administration/ appropriate authority for early clearance of road upto Nafra and also for supply of food stuff and diesel for survival of employees of NEEPCO as well as M/s Patel Engineering Ltd., at BDC.

As the equipment stationed inside HRT got totally submerged in the water, it is expected substantial damage might have caused. However actual extent of damage and financial involvement thereof can be assessed only after opening of the machineries. It is however expected that to construct the box culvert over Sudu Nallah alongwith other associated works and restoration of water supply to the colony there is financial involvement to the tune of 25 Lakhs approximately.

OCTOBER :

Rain devastate West Kameng

Eight presumed dead

ITANAGAR, Oct 29: Two people are confirmed dead while six are missing after heavy rain lashed West Kameng. All the casualties were reported from Rupa.

West Kameng Superintendent of Police when contacted informed that search is still on to locate the six missing persons. However, eyewitness said that six were washed away along with the vehicles they were travelling near Rupa.

Uninterrupted rain for more than 24 hours from Oct 27 resulted in massive destruction of the district. This is the second time; the district has witnessed destructive nature's fury.

Road length of approximately 100 mtrs was completely washed away at Chug near Rupa.

Many Government and private residential buildings in Rupa Township have been damaged and washed away besides disrupting essential services. Jidhingkho, Jinikkho and Doblokkho Rivers which were in full spate took heavy toll and washed away 24 houses including 2 quarters of PWD and damaged 37 houses. The fury and might of the 3 rivers combined also washed away around 100 meters of the main road connecting Bomdila and Tawang from Tezpur thus cutting it off totally from the rest of the world. It would take considerable period for its restoration.

Damage to cultivable land and standing crops have been reported from all over the district.

Damage to Micro-hydel at Dirang has also been reported.

Chief Minister Dorjee Khandu this morning made aerial survey and visited Rupa,Tenga Valley and Dirang under West Kameng to take stock of the damages caused by the 24- incessant heavy rain which stopped yesterday morning only.

Expressing grief over the loss of eight human lives and damage of properties estimated at 296.60 lacs the Chief Minister Dorjee Khandu after making an elaborate aerial survey of Rupa Sub-Division and it's adjoining areas in the district today, announced Rupees 50 lacs as an immediate relief and Rupees 1 lac each against the deceased. He also announced Rupees 10 thousand and Rupees Twenty thousand each for the partially and fully damaged houses.

Immediately, after his arrival to the state Capital, the Chief Minister convened a meeting with the Chief Secretary, Commissioner Finance and Secretary Civil Aviation and other officials to work out the modalities for maintaining supply of essential commodities and movement of stranded commuters.

Apprising the Chief Minister of the huge losses and agony of the people, MLA R.K. Khrimey and Deputy Commissioner I/C Rinchin Tashi urged for early relief and restoration measures.

MLA R.K. Khrimey clarified that the current flood situation has nothing to do with the power projects operating in West Kameng district but is purely due to natural cloud burst and also due to disturbances over Bay of Bengal. DIPRO

APPENDIX-5.

RECTIFICATION OF SQUEEZING EFFECT IN HRT

A GEOTECHNICAL REPORT ON SQUEEZING ZONE IN FACE III TDG, KaHEP, NEEPCO, TENGA, Ar. P.

In HRT Face III, the main rockmass encountered comprises of alternate sequence of Sandstone, Carbonaceous Shale/Siltstone with coaly layers of Gondwana Group and Quartzite, Phyllite, Schist, Gneiss and Slate of Precambrian. The rockmass comprising Quartzite, Gneiss and Sandstone are moderately strong and falls under fair to good category. The rockmass comprising Phyllite, Schist, Slate and carbonaceous Shale are flaky/laminated due to presence of platy minerals and falls under poor to very poor category.

The tunnel boring has been done by drilling and blasting method with 1.5 m to 2.00 m pull. In poor rockmass, the excavation has been done in heading and benching method. In some stretches, only scooping is required in lieu of drilling and blasting.

The Kameng Hydro Electric Project area is tectonically highly disturbed, forming part of the Lesser Himalayan range. The area is dissected by a number of major thrusts and faults striking E-W to SW-NE associated with Himalayan orogeny. Due to proximity of faults/thrust/shear zones to the project site, the rockmass encountered at some stretches in Face III are highly folded and crushed. The rockmass having very low UCS values along with seepage and high rock cover makes the rockmass squeezing in nature, which leads to convergence as observed in the tunnel. The convergence in the tunnel has been observed in the tunnel in the form of twisting of ISMB, displacement of the support system etc.

Such zones of loosefall/cavity/squeezing in Face III have been tabulated below

Sl. No.	Chainage in Face III	Remarks
1	72 M TO 153 M	Loosefall due to shear zone
2	1369 M TO 1409 M	Heavy loosefall, Deflection
3	1680 m to 1776 m	Truss and struts are fixed in crown portion, Squeezing
4	2435 m to 2575 m	Heavy loosefall and cavity formation, Truss and struts fixing in the crown
5	2652 m	Deformation of steel ribs
6	2683 m	Cavity formation
7	2717 m	Cavity formation, Deflection
8	2770 m	Cavity formation

R. Rajan

9	2870 m	Deformation of steel ribs
10	2895.10 m	Cavity formation
11	2914.10 m	Cavity formation, Excavation by scooping and chipping only
12	2938.60 m	Cavity formation, Squeezing
13	3002 m	Deformation of steel ribs
14	3218 m	Squeezing
15	3245.15 m	Heavy loosefall and cavity, Squeezing
16	3250 m	Deformation of steel ribs
17	3270 m	Heavy deformation of steel ribs and cavity formation
18	3289.40 m	Deformation of steel ribs, cavity formation
19	3310 m	Cavity formation, Squeezing, rib twisting
20	3335 – 3345 m	Deformation at crown, cavity
21	3381 m	Cavity formation
22	3394 m	Deformation at crown

The deformation and squeezing had been observed by placing MPBX at regular intervals. Due to squeezing, ISMB ribs had been displaced inwardly which necessitated remining at some stretches so that the minimum required diameter of HRT lining is achieved. The details of remining activities are tabulated below.

Sl. No.	Remining zones	Face III Chainages
1	Zone-1	2676.25 m to 2712.25 m
2	Zone 2	2474.00 m to 2554.80 m
3	Zone 3	2226.17 m to 2263.62 m
4	Zone 4	2263.00 m to 2712.35 m

5	Zone 5 (A)	Ch. 2842.08 m to 2832.0 m ; Ch. 2985.15 m to 3117.95 m LHS & Ch. 2807.0m to 2842.0 m; Ch. 2980.0 m to 3116.45 m RHS
6	Zone 5 (B)	Ch. 2712.75 m to 3260.25 m LHS; Ch. 2696.50 m to 3251.25 m RHS
7	Zone 5 (C)	Ch 2306.70 m to 2960.0 LHS & Ch. 2392.09 m to 2955.50 m RHS
8	Zone 6 (A)	Ch. 3266.75 m to 3364.70 m; Ch. 3364.75 m to 3374.0 m LHS & Ch. 3264.25 m to 3272.25 m RHS
9	Zone 6 (B)	Ch. 3300.0 m to 3380.75 m RHS
10	Adit II junction -Face III	Ch. 72 m to 153 m
11	Remining	Ch. 1369 m to 1409 m

Sub: Civil works of Tenga Dam, River Diversion, Tenga Intake and HRT from RD 4400 m to 11600 m ± 500 m on either side(i.e 2nd half of the Bichom –Tenga Portion and 1st Half of Tenga-Kimi Portion), Package-II under Kameng H.E. Project, Arunachal Pradesh, India – **Supplementary Work Order for Extra item: Re-mining of HRT Face-III from Ch. 2676m to Ch.2710m left side and Ch.2677.51m to Ch. 2695.76m Right side during the period from 23rd March 2015 to 26th May 2015.**

Ref.:- Agreement No.: NEEPCO/ED/QP/C&P/R/C/KaHEP/561 of 2004-05 dtd.17.12.2004.

Dear Sir(s),

In inviting a reference to the above, the undersigned on behalf of North Eastern Electric Power Corporation Ltd. (A Govt. of India Enterprise) is pleased to place this Supplementary Work Order for Extra item- *Re-mining of HRT Face-III from Ch. 2676m to Ch.2710m left side and Ch.2677.51m to Ch. 2695.76m Right side during the period from 23rd March 2015 to 26th May 2015*, under Package-II works as per Specifications, quantity, rates mentioned in BoQ enclosed as Annexure-I and as per terms and conditions given below:

Terms & Condition:

1. **Scope of Work:** Scope of the work of this extra item include rectification of tunnel in distress/ squeezed zone of HRT, Face-III between Chainage 2676m to Ch.2710.00m (Left side) and Ch.2677.51m to Ch. 2695.76m (Right side) by dismantling of existing support system in partial or full, breaking of encroached backfill concrete/ rock mass with/ without use of explosive materials, disposal of all excavated/ broken and loose muck in the stretch, supply, fabrication and installation of ISMB 200 x 100 steel ribs in parts and rectification of damaged ribs including use of all accessory steel materials, other consumables, transportation of materials/ machineries to site and including all equipments, machineries and labour etc. required to complete the work as per technical specification, drawing and as directed by the Engineer-In-Charge, complete in all respect.

Arunachal Pradesh

2. **Estimated Value of Work:** ₹ 80,63,139.00 (Rupees Eighty Lakhs Sixty-Three Thousan One Hundred and Thirty-Nine only).
3. **Time of Completion:** The work has already been completed which was executed during th period 23/3/2015 to 26/5/2015.
4. **Issue of Materials and Machineries:** No construction materials and machineries we issued by the Department for executing this extra item. However, explosive materials issue by the Corporation for under-ground excavation works during execution of this extra item, any, has been recovered from running RA bills of Package-II.
5. **Measurement & Payment:** Measurement of this extra item is as per the accepted joi record maintained during execution of the work. Payment shall be made as per the quanti and its corresponding unit rate mentioned in the BoQ enclosed and as per the procedure Contract Provisions of Package – II Works Agreement.
6. **Variation of Quantity:** The quantity shown against item of works in the BoQ enclosed firm and no variation in quantity would be allowed.
7. **Price Escalation:** The rate are firm & no price escalation shall be payable upon it.
8. **Security Deposit** 10% security Deposit shall be deducted for due performance of the ite which shall be released as per Clause No. 3(ii) of Part-III, GTC of Vol-I, General Terms a Conditions of Contract of the Agreement mentioned at reference above.

All other Terms & Conditions for execution of the extra work shall remain same as those the original contract provisions of Package – II Works Agreement.

M/s PEL is requested to depute authorized representative to attend this office for drawl supplementary agreement with Non-Judicial Stamp Paper of Rs 100.00 only within 3 days fr the date of issue of this work order.

Thanking you.

Ref.:- Agreement No.: NEEPCO/ED/QP/O&P/R/C/KaHEP/561 of 2004-05 dtd.17.12.2004.

Dear Sir(s),

In inviting a reference to the above, the undersigned on behalf of North Eastern Electric Power Corporation Ltd. (A Govt. of India Enterprise) is pleased to place this Supplementary Work Order for Extra item- *Re-mining of HRT Face-III from (Ch. 2842.08m to 2832.00m) and from (Ch 2985.15m to 3117.95m) at left side of HRT and from (Ch.2807.00m to Ch. 2842.00m) and from (Ch. 2980.00m to 3116.45m) at Right side of HRT(Zone-VA) under Package-II of KaHEP,* as per Specifications, quantity, rates mentioned in BoQ enclosed as Annexure-I and as per terms and conditions given below:

Terms & Condition:

1. **Scope of Work:** Scope of the work of this extra item include rectification of tunnel in distress/ squeezed zone of HRT, Face-III between Ch. 2842.08m to 2832.00m and Ch 2985.15m to 3117.95m Left side and Ch. 2807.00m to Ch. 2842.00m & Ch. 2980.00m to 3116.45m at Right side by dismantling of existing support system in partial or full, breaking of encroached backfill concrete/ rock mass with/ without use of explosive materials, disposal of all excavated/ broken and loose muck in the stretch, supply, fabrication and installation of ISMB 200 x 100 steel ribs in parts and rectification of damaged ribs including use of all accessory steel materials, other consumables, transportation of materials/ machineries to site and including all equipments, machineries and labour etc. required to complete the work

as per technical specification, drawing and as directed by the Engineer-In-Charge, in all respect.

2. **Estimated Value of Work:** ₹ **1,51,21,177.00** (Rupees One Crore Fifty One Lakhs Two One Thousand One Hundred and Seventy-Seven) only.
3. **Time of Completion:** The work has already been completed which was executed during the period Nov-2015 to Dec' 2015.
4. **Issue of Materials and Machineries:** No construction materials and machineries were issued by the Department for executing this extra item. However, explosive materials issued by the Corporation for under-ground excavation works during execution of this extra item, if any, has been recovered from running RA bills of Package-II.
5. **Measurement & Payment:** Measurement of this extra item is as per the accepted joint record maintained during execution of the work. Payment shall be made as per the quantity and its corresponding unit rate mentioned in the BoQ enclosed and as per the procedure of Contract Provisions of Package – II Works Agreement.
6. **Variation of Quantity:** The quantity shown against item of works in the BoQ enclosed is firm and no variation in quantity would be allowed.
7. **Price Escalation:** The rate is firm & no price escalation shall be payable upon it.
8. **Security Deposit** 10% security Deposit shall be deducted for due performance of the item, which shall be released as per Clause No. 3(ii) of Part-III, GTC of Vol-I, General Terms and Conditions of Contract of the Agreement mentioned at reference above.

All other Terms & Conditions for execution of the extra work shall remain same as those of the original contract provisions of Package – II Works Agreement.

M/s PEL is requested to depute authorized representative to attend this office for drawl of supplementary agreement with Non-Judicial Stamp Paper of Rs 100.00 only within 3 days from the date of issue of this work order.

Thanking you.

Sub: Civil works of Tenga Dam, River Diversion, Tenga Intake and HRT from RD 4400 m to 11600 m ± 500 m on either side(i.e 2nd half of the Bichom –Tenga Portion and 1st Half of Tenga-Kimi Portion), Package-II under Kameng H.E. Project, Arunachal Pradesh, India – **Supplementary Work Order for Extra item: Re-mining works at HRT Face-III from Ch. 3300.00m to 3380.75m at Right Hand Side (ZONE-VIB).**

Ref.:- Agreement No.: NEEPCO/ED/QP/C&P/R/C/KaHEP/561 of 2004-05 dtd.17.12.2004.

Dear Sir(s),

In inviting a reference to the above, the undersigned on behalf of North Eastern Electric Power Corporation Ltd. (A Govt. of India Enterprise) is pleased to place this Supplementary Work Order for Extra item- *Re-mining works at HRT Face-III from Ch. 3300.00m to 3380.75m at Right Hand Side under Package-II of KaHEP(ZONE-VIB),* as per Specifications, quantity, rates mentioned in BoQ enclosed as Annexure-I and as per terms and conditions given below:

Terms & Condition:

1. **Scope of Work**: Scope of the work of this extra item include rectification of tunnel in distress/ squeezed zone of HRT, Face-III between Ch. 3300.00m to 3380.75m and Ch. at Right hand side by dismantling of existing support system in partial or full, breaking of encroached backfill concrete/ rock mass with/ without use of explosive materials, disposal of all excavated/ broken and loose muck in the stretch, supply, fabrication and installation of ISMB 200 x 100 steel ribs in parts and rectification of damaged ribs including use of all accessory steel materials, other consumables, transportation of materials/ machineries to site and including all equipments, machineries and labour etc. required to complete the work as per technical specification, drawing and as directed by the Engineer-In-Charge, complete in all respect.
2. **Estimated Value of Work:** ₹ 1,22,97,087.00 (Rupees One Crore Twenty-Two Lakhs Ninety-Seven Thousand and Eighty-Seven) only.

Time of Completion: The work has already been completed which was executed during the period 25th Sep'2015 to 04th Dec' 2016.

4. **Issue of Materials and Machineries:** No construction materials and machineries were issued by the Department for executing this extra item. However, explosive materials issued by the Corporation for under-ground excavation works during execution of this extra item, if any, has been recovered from running RA bills of Package-II.
5. **Measurement & Payment:** Measurement of this extra item is as per the accepted joint record maintained during execution of the work. Payment shall be made as per the quantity and its corresponding unit rate mentioned in the BoQ enclosed and as per the procedure of Contract Provisions of Package – II Works Agreement.
6. **Variation of Quantity:** The quantity shown against item of works in the BoQ enclosed is firm and no variation in quantity would be allowed.
7. **Price Escalation:** The rate is firm & no price escalation shall be payable upon it.
8. **Security Deposit** 10% security Deposit shall be deducted for due performance of the item, which shall be released as per Clause No. 3(ii) of Part-III, GTC of Vol-I, General Terms and Conditions of Contract of the Agreement mentioned at reference above.

All other Terms & Conditions for execution of the extra work shall remain same as those of the original contract provisions of Package – II Works Agreement.

M/s PEL is requested to depute authorized representative to attend this office for drawl of supplementary agreement with Non-Judicial Stamp Paper of Rs 100.00 only within 3 days from the date of issue of this work order.

Thanking you.

Enclo : Annexure – I.

Ref.:- Agreement No.: NEEPCO/ED/QP/C&P/R/C/KaHEP/561 of 2004-05 dtd.17.12.2004.

Dear Sir(s),

In inviting a reference to the above, the undersigned on behalf of North Eastern Electric Power Corporation Ltd. (A Govt. of India Enterprise) is pleased to place this Supplementary Work Order for Extra item- *Re-mining works at HRT, Face-III from Ch. 72.02m to 152.00m at Left Hand Side,* as per Specifications, quantity, rates mentioned in BoQ enclosed as Annexure-I and as per terms and conditions given below:

Terms & Condition:

1. **Scope of Work:** Scope of the work of this extra item include rectification of tunnel in distress/ squeezed zone of HRT, Face-III between Ch. 72.02m to 152.00m at Left Hand Side by dismantling of existing support system in partial or full, breaking of encroached backfill concrete/ rock mass with/ without use of explosive materials, disposal of all excavated/ broken and loose muck in the stretch, installation of primary support system such as ISMB 200 x 100 steel ribs in parts, rectification of damaged ribs, placement of concrete laggings, etc. including use of all accessory steel materials, other consumables, transportation of materials/ machineries to site and including all equipments, machineries and labour etc. required to complete the work as per technical specification, drawing and as directed by the Engineer-In-Charge, complete in all respect.
2. **Estimated Value of Work: Rupees 68,16,535.00** (Rupees Sixty-Eight Lakhs Sixteen Thousand Five Hundred and Thirty-Five) only.
3. **Time of Completion:** The work has already been completed which was executed during the period 04th Dec' 2016 to 06th Feb'2017.

CORPORATE OFFICE : BROOKLAND COMPOUND, LOWER NEW COLONY, SHILLONG-793003

4. **Issue of Materials and Machineries:** No construction materials and machineries were issued by the Department for executing this extra item. However, explosive materials issued by the Corporation for under-ground excavation works during execution of this extra item, if any, has been recovered from running RA bills of Package-II.
5. **Measurement & Payment:** Measurement of this extra item is as per the accepted joint record maintained during execution of the work. Payment shall be made as per the quantity and its corresponding unit rate mentioned in the BoQ enclosed and as per the procedure of Contract Provisions of Package – II Works Agreement.
6. **Variation of Quantity:** The quantity shown against item of works in the BoQ enclosed is firm and no variation in quantity would be allowed.
7. **Price Escalation:** The rate is firm & no price escalation shall be payable upon it.
8. **Security Deposit** 10% security Deposit shall be deducted for due performance of the item, which shall be released as per Clause No. 3(ii) of Part-III, GTC of Vol-I, General Terms and Conditions of Contract of the Agreement mentioned at reference above.

All other Terms & Conditions for execution of the extra work shall remain same as those of the original contract provisions of Package – II Works Agreement.

M/s PEL is requested to depute authorized representative to attend this office for drawl of supplementary agreement with Non-Judicial Stamp Paper of Rs 100.00 only within 3 days from the date of issue of this work order.

Thanking you.

Enclo : Annexure – I.

Yours faithfully,

EIC (Pkg-II)/ GM(C),
TDG, KaHEP, Khuppi.

APPENDIX-6.A.

CRACK FORMATION AT EL. 263.00M BERM

A GEOTECHNICAL NOTE ON SLOPE STABILISATION IN POWER HOUSE, KaHEP

A. Bora

Resident Geologist, GSI

At the request of the project authority, site inspection in the powerhouse area has been made between 26 / 10 / 06 and 31 / 10 / 06 to study the development of cracks in the excavated slopes / berms. During April'06, 30 cm wide cracks were observed at berm 263.00 m on the Unit-I alignment. The site geologist opined that the adopted cut slopes (1H : 4V) below EL 263.00 M should be reviewed in purview of adverse geological situation. After further deterioration of the cracks, the consultant geologist Mr. B. M. Hukku & D & E wing engineers visited site on 28 / 07 / 06 and suggested some remedial measures. But again after aggravation of the cracks, the site geologist gave some remedial measures on 09 / 08 / 06 and a visit was made by the undersigned on 23 / 08 / 06 and advised following temporary protection measures:-

i. To fill all the cracks / joints with sand cement slurry.

ii. Installation of 25 mm Dia, 7 m long grouted rock bolts @ 2 - 2.5 m c/c in staggered fashion.

These measures were adopted by the project authority and no further cracks were observed till 21 / 10 /06. As excavation in the power house area was in progress and reached the level of about 235 M (between A & D line), some subsidence cracks were observed at EL 253 M & EL 275.5 M and in the slope below 275.5 M (beneath the shotcreted face).

The power house area of Kameng HE Project is located on Gondwana super group Overlain by thick overburden of about 25 m comprising of river terrace deposit followed by colluvium deposit, The colluvium material is

composed of assorted angular rock fragments ranging from 1 cm to 30 cm in one dimension which are graded in nature with gravely soil matrix with thickness of approx. 5 - 10 m. Below this colluvium, the river terrace deposit are recorded above the bedrock. The assorted pebbles and boulders with sand matrix comprise sandstone, quartzite and gneisses. Overburden materials are free draining in nature. Before cutting of the powerhouse slopes seepage points were noticed in the interface of rock and overburden and further went down through rock due to percolation of ground water through joints and cracks. The Gondwana supergroup comprises alternate sequence of gray sand stone, carbonaceous shale and carbonaceous siltstone with layers of coal partings. The rock mass present here have suffered intense tectonic movement due to Himalayan orogeny. As a result, rocks are intensely folded and sheared which has been depicted by the striated surfaces observed along the joint planes anastomosing quartz vein in sandstone and high ranking coal associated with carbonaceous shale.

Observations:-

The proposed berm width ~ 10 m at EL 263 M got reduced to 5 - 7 m between RD 55 m d/s, CH. 49.00 M to RD 33 m d/s, CH 38.50 m due to rock toppling.This happened due to distressing of the rock mass and steep dipping sandstone beds with strike parallel to berm edge.

The cracks observed from RD 0.00 M to 40.00 M u/s at EL 275.5 m and in the slope (2H:1V) between EL 275.5 m and 263.00 M were due to slumping and slide movement at the synclinal core of the sandstone bed observed resting on low dipping carbonaceous shale beds.

Disposition of the synclinal core of sandstone behaved like dead loads as resting over the crushed carbonaceous shale with coal particles. Due to toe cutting together with the seepage water, the subsidence has been noticed at the EL 275.5 M berm.

Recommendations:-

i. In the powerhouse pit, further 20 m deep excavation is still left. Under the present circumstances, the proposed slope (1H :4V) in the poor Gondwana formation appears unstable. It appears that the cut slopes in this rock will be stable in natural slope of (1H : 1V) only.

ii. The slope (2H:1V) above EL 263.00 M appears flatter than required. Due to space constraint between switchyard and powerhouse pit, the cut slopes in the available poor strata may be moderated and the finished slope (2H:1V) may be steepened. To review the design in this type of poor rock, shear parameters may be considered.

iii. The carbonaceous & clay material present here gets dissolved with seepage water and therefore lime mixed with cement grout may be tried to make the particles insoluble.

iv. Below 263.00 M berm mostly carbonaceous shale with coal particles are likely to be encountered in the present power house slopes. To restrict the sliding movement in such material bore piling through perforated casing may be considered.

(A. Bora)

APPENDIX-6.C.

PILING WORK FOR SLOPE STABILIZATION

AGENDA NO: 164.10

MICRO PILING WORKS FOR SLOPE PROTECTION AND CONSOLIDATION OF POWER HOUSE SLOPES IN KAMENG HYDRO ELECTRIC PROJECT (600MW), ARUNACHAL PRADESH.

The Executive Director (Technical) presented the agenda and explained its background. It was informed that the Power House excavation work of Kameng Project was taken up from March'05 from E.L. 288.00 m (N.S.L.). Till April'06, 6.96 Lac Cum of excavation was achieved. In view of the location of the Power house in Gondwana Super Group consisting of Sandstone Carbonaceous Shale and Carbonaceous Silt Stone with layers of Coal Parting and Rock mass being highly folded, Jointed and Crushed, necessary protection viz. Shotcreting, Rock bolting and Turfing of the excavated slopes were carried out along with the excavation as per the released construction drawings based on geological studies and design carried out by the international Consultant M/s SMEC.

During April'06, the excavation level of E.L. 227.00 m was reached while a crack of 30 cm wide at berm level E.L. 263.00 m was observed. Excavation works continued till October 2006 along with the protection measures suggested by the Resident Geologist. During Oct'06 multiple vertical cracks were also noticed at the bench around EL258.00 m and excavation works was suspended. Director, EG, Division (NER) visited the Power House site during Nov' 06 and suggested moderation of up slopes and bore piling at close intervals in two levels E.L. 248.00 m and E.L. 237.00 m. As per geological report, the rocks are intensely folded and sheared which has depicted by the striated surfaces observed along with the joints planes with Quarzite vein in sand stone and carbonaceous shale. The rock mass in the Power House is highly folded, jointed and crushed, thus making the slopes unstable, if not protected in a systematic way. M/s SMEC agreed to such measures and regradation activity for northern slopes were started from 25 Jan'07. Accordingly further excavations were carried out and till June 2008, 9.58 lakh of excavation could be achieved and excavation upto EL 225 m in the pit level has been reached apart from completion of protection works till EL 248.0 m. Meanwhile, a visit of Director, GSI,Shillong could be arranged in March, 2007 who observed that the failure took place in the form of toppling as well as sinking of sandstone beds and suggested that suitably designed and spaced row of sound bore piles to a depth of 10m below the deepest designed level of EL214.0 m may be created in the berm at EL 243.0m. Subsequently, Director, EGD-II, GSI(NER) during his visit to the project site in January 2008 suggested similar protective measures. Accordingly the balance excavation of 11.0 m depth was suspended which will be taken up only after accomplishment of the protection and consolidation works through piling.

(3/4)

Based on the additional inputs on geological parameters M/s SMEC, preliminary drawings for piling work was received from the consultant during June'07, suggesting 47-48 nos. of 1.00 m dia bore piles at 5.00m C/C in two rows with depth ranging from 22.00m to 26.00 m.

The package contractor for the work of Power House, M/s PEL was informed to take up the bore piling works of aforesaid specification immediately. However, M/s PEL, in turn has reported that, as they do not have any expertise in bore piling works, they would like to execute the work through some other agency who are having the expertise in this field. In the Contract Agreement of Package III, bore piling works are not included in BOQ. Moreover none of the items of bore piling works are covered under item slope protection in the BOQ. Accordingly in a meeting held on 27th July, 2007 the Director (Technical), NEEPCO, requested M/s PEL to make necessary arrangements for undertaking piling works at Power House and confirmed that the Corporation will provide all necessary assistance in selection of Piling Contractor. As a follow up action, the Project Authority of Kameng HE Project has accordingly contacted 2 (two) experts in this field of Engineering viz., ITD Cementation and Simplex Infra Ltd. at Kolkata and requested them to send their priced offers as a sub-Contractor of M/s PEL. In this respect letters to the firm were issued by ED, P-III, KaHEP in September,07, duly furnishing all necessary report, drawings and brief summary of geology of the area. As no response was received from them, reminders were also issued in October, 2007 to these firms. As none of the above firms responded till December,07, as an alternative measure instead of bore piling, geo-grid, providing toe walls etc were suggested in consultation with Design wing. On reviewing, SMEC has suggested micro piling of 30 cm dia at 2 levels of the completed excavated portion of Power House.

As advised by PEL, two firms who are expert in the field of micro piling works, were contacted by the Project Authority, as below.

(1) M/s Mining Associate Pvt. Ltd.
(2) M/s Maheswari Mining Pvt. Ltd.

The firms were requested to conduct a visit to work site and submit their priced offer at the earliest. After carrying out visit to the site of work, only one firm namely M/s Maheswari Mining Pvt. Ltd. had submitted their offer to the Project Authority through the Package contractor M/s PEL. The offer was examined at various levels and a joint negotiation meeting was held wherein the award price was firmed up at Rs. 15,18,58,614.00, which includes 15% payment to Package Contractor, M/s PEL against profit and overhead for providing facilities, such as , free land, free accommodation, electricity, drinking water and departmental supply of construction materials, which otherwise will be difficult on the part of the Corporation to arrange in view of the engagement of the package contractor in the same area.

As the work is of specialized nature and not covered under the package contract, the work of Micro-piling has been considered to be executed as an additional work. In order to carry out the work, M/s MMPL (sub-contractor of M/s PEL) has requested for

3084

(4/4)

10% mobilization advance against equivalent amount of BG in order to mobilize the plant and machinery with deployment of 2 nos hydraulic rotary rigs with in one month and to complete the work of 415 nos of micro piling within a periods of 8(eight) months. The advance is proposed to be recovered from 2nd RA Bill on a time bound manner. Above point was discussed in the negotiation meeting and considering the urgency of such specialized works, Committee agreed that the interest free advance will be extended to the piling contractor against submission of BG. In regard to the reasonability of the recommended rates, the Board was informed that the original price of MMPL (the Sub-Contractor of PEL) was negotiated upon by a high level committee in the Corporate Office after scrutiny and analysis of the rates in the Project Office and the same was found to be in order. Suitable clause on defect liability, provisions to avoid idle charges will be incorporated at the time of awarding the work.

The Board thereafter approved the following resolution:

"The Board of Directors, considering the urgency approved in principle the work of Micro Piling in Kameng Power House area and authorised CMD to undertake the work through the Package Contractor, M/s Patel Engineering Ltd as extra work, within the parameters of the Contract Agreement and established procedure and subject to compliance of laid down guidelines. Ex-post facto approval of the Board will be taken after finalisation of BOQ and rate analyses. The Board further approved grant of 10% interest free advance on the estimated work value, against submission of Bank Guarantee after due compliance of the conditions mentioned in the CVC Circular 4CC-1-CTE-2 dated 10th April, 2007.

4 of 4

APPENDIX-7.1 & 7.2.

RESTORATION OF PENSTOCK-1 & 2

A NOTE ON PENSTOCK RESTORATION

Construction of long tunnel with high rock cover and high pressure tunnel/penstocks in young and tectonically disturbed Himalayan terrain was the most challenging task during construction of Kameng H.E Project. The criticalities encountered could not be predicted during investigation stage due to inaccessibility and high overburden of tunnel throughout the alignment for detail geo-technical investigation. Although the Central Mine Planning & Design Institute (CMPDI), Ranchi was assigned to develop a comprehensive geological model of the entire alignment of the tunnel during the pre-construction period but the same could not be carried out by CMPDI due to very difficult and remoteness of tunnel area. Hence, extremely tough terrain had affected the geological investigation and sufficient geological information could not be gathered. Nevertheless, the tough and challenging task of tunneling in such poor and unfavourable geological formation was successfully completed for charging water in Feb'2018.

However, leakage was noticed in some joints of Penstocks-1&2 after test spinning of Unit # 1 & 2 on 08/03/18 and 10/03/18 respectively. Therefore, restorations were carried out as per the methodology suggested by the design consultant. The problem encountered in penstocks is unique and unprecedented in nature and scale. Major restoration works of penstock were necessitated in underground penstocks which cause to think that poor geology of the region has played a major role in creating the instant problem as elaborated below.

The overall rock condition in the Power House and upstream hill up to Surge Shaft where high pressure tunnel/penstock is located was found to be tectonically highly disturbed. Significant depth of overburden typically comprising coarse/fine colluvium material was encountered in open excavation of surface penstock portion. The overburden thickness above the vertical shafts 3 & 4 just upstream of powerhouse was observed to be 25 m comprising of RBM (River Borne Materials). Encountered rock in tunnel & surface excavation consisted of interbedded sand stones, carbonaceous shale and coal seams. Rock was found to be highly folded and jointed. In certain stretches, pulverized rock condition was also encountered due to proximity of main boundary thrust just south of powerhouse

NEEPCO
New Delhi
North Eastern Electric Power Corporation

Meanwhile, during tunnel excavation, frequent ingress of water was also encountered in the portion from Vertical Shaft- 2/3 to Power House in Gondwana formation marked by weak rock with coal bands. The huge ingress of water with very poor/crushed rockmass in vertical shafts/HPT tunnels delayed the activities like concreting and grouting after erection of penstock steel liner. A geotechnical report on encountered rockmass in surface and underground penstock during construction period is attached.

During penstock restorations, problem of seepage water was again encountered in underground portions. The soft infilling/ crushed rockmass got mixed with seepage water and gushed inside the penstock. This necessitated grouting with micro-fine cement and Poly Urethane to facilitate welding for repairing of penstock. Significant volume of micro-fine cement was consumed with total of 586 MT & 525 MT in Penstock-1 & 2 respectively. Moreover, due to presence of underlying weak rock mass / pulverized rock/ coal bands with seepage water, large voids would have been created in the surrounding rockmass. Therefore, the complex geo-hydraulics of the area might have got some role in creating voids rapidly behind the steel liner where backfill and grouting with ordinary cement was done.

Further, the restoration of penstock was delayed due to presence of seepage water in highly jointed/crushed rockmass necessitating formulation of specific Welding Procedure Specifications (WPS). The presence of seepage water also led to repetition of welding activities in the same joints resulting prolongation of the restoration period.

Taking into consideration of the facts elaborated above, the main cause of failure of both the Penstocks and the additional time taken for restoration works might be attributable to the prevailing complex geo-hydraulics of the penstock area.

A GEOTECHNICAL REPORT ON ENCOUNTERED ROCKMASS IN SURFACE AND UNDERGROUND PENSTOCK, KaHEP, KIMI

The Kameng Hydro Electric Project area is tectonically highly disturbed, forming part of the Lesser Himalayan range. The area is dissected by a number of major thrusts and faults striking E-W to SW-NE associated with Himalayan orogeny. The rock types occurring in the project area belong to the older meta-sedimentaries of Pre-Cambrian age in the northern part, sedimentary rocks of the Gondwana Supergroup in the central and southern part. Main Boundary Thrust (MBT) which lies in the south of Kimi powerhouse complex, separates Gondwana from Siwalik (GSI report,2007).

The penstock is partly surface and partly underground. The surface penstock part consists of area between Anchor Block 1 and 9 of Penstock 1 & 2. The underground penstock consists of five nos. of vertical shafts i.e. VS-1, VS-2, VS-3, VS-4 & VS-5 and tunnels i.e. Face-IX, Face-X, Face-XI, Face-XII, Face-XIII, Face-XIV, Face-XV, Face-XVI & Face-XVII.

Detailed geological foundation grade mapping of the trench area of surface penstock i.e. between Anchor Block 1 & 9 of Penstock 1 & 2 has been carried out on Scale 1:100. The face logging and 3-D geological mapping of underground high pressure tunnels and vertical shafts has been carried out during boring.

Geotechnical observation

The rock mass observed in the trench area between AB 1 & 9 in Penstock 1 & 2 and the tunnels and vertical shafts comprises Sandstone, Carbonaceous Siltstone/Shale of Gondwana supergroup. The rock mass is highly jointed and highly folded. Sandstone is medium grained, fresh to highly weathered (W0-W4), medium strong, highly jointed. Sandstone is crushed and crumpled at some places. At some stretches, highly weathered(W4), yellow to brown coloured fine grained sandstone is also observed. Carbonaceous Siltstone/Shale is dark grey, laminated, weak and moderately weathered. Iron staining is observed on sandstone and siltstone beds. Due to intense folding, the rock mass is highly jointed and crushed. Graphitic coaly layers are crushed and are present in thin (<10 cm) shear zones.

Joint Data

There are three joint sets along with the bedding joint. The bedding joint is gentle to moderately dipping towards NW. The attitude of bedding joints/joints shows variation due to

R. Rajan

folding. The strike of the bedding plane is across the penstock alignment. The rock mass condition is highly jointed and crushed at places.

The joint characteristics have been summarised below.

	BJ	J1	J2	J3
STRIKE	N 140°-225°	N 15°-50°	N 130°-185°	N 100°-135°
DIP AMOUNT	10°-75°	55°-85°	35-90	45-55
DIP DIRECTION	N 230°-315°	N 105°-140°	N 40°-80°	N 190°-225°
CONTINUITY	15-20 M	UPTO 4 M	UPTO 4 M	UPTO 3 M
SPACING	1-75 CM	1-50 CM	2-50 CM	2-30 CM
APERTURE	0-5 MM WITH SOFT FILLING	0-2 MM	0-1 MM	0-1 MM
ROUGHNESS, PLANE	SMOOTH, PLANAR	SMOOTH/ SLIGHTLY ROUGH, PLANAR	SMOOTH/ SLIGHTLY ROUGH, PLANAR	SMOOTH/ SLIGHTLY ROUGH, PLANAR

Rock strength

The UCS value of the rock mass has been estimated by "Impact Method". The UCS value of medium strong, coarse grained, moderately jointed, fresh to slightly weathered sandstone is ~100 MPa. The UCS value of moderately weak, Fine grained, moderately jointed, highly weathered sandstone is 25-50 MPa.

The UCS value of moderately weak, laminated, highly jointed carbonaceous siltstone/Shale is 1-25 MPa.

Seepage

Seepage is observed at many stretches along the penstock. Heavy seepage is observed near Anchor Block 5 where a nallah existed across the penstock alignment. Due to heavy seepage, special arrangement has been made to channelize the nallah water across the penstock alignment. Seepage is also observed between Anchor block 6 And 7A.

Shear zone/CCZ

At many stretches along the surface penstock, shear seams/shear zones/CCZ have been observed. Shear seams have been observed all along the surface penstock. The thickness of shear

R. Rajan

seams is less than 10 cm and comprises of clay gouge or black graphitic material. It runs parallel and across to bedding plane. The shear zone comprises of black clay gouge/black graphitic material matrix with rock fragments of sandstone/shale. The thickness of shear zone is more than 10 cm. It is mainly observed from anchor block 4 to anchor block 9. CCZ(crushed and crumpled zone) is also observed from anchor block 4 to anchor block 9. CCZ consists of highly weathered sandstone.

Dental treatment

The excavation for foundation of the surface penstock has been carried out up to sound rock line. After the geological mapping, the stretch containing shear seams/shear zones/CCZ has been excavated to a suitable depth as per dental treatment method. Some stretches near anchor block 5 and 7 have been excavated to 2-2.5 m depth depending on the continuity of the shear zone and seepage.

UNDERGROUND PENSTOCK

The underground boring in the HPT tunnels and vertical shafts have been done very cautiously due to very poor rockmass and seepage. The rockmass encountered in boring of tunnels and shafts is alternate sequence of Sandstone, friable to laminated Carbonaceous Siltstone/Shale of Gondwana supergroup with minor coal layers. The rockmass is fresh to moderately weathered, highly jointed and folded. The pull taken in HPT tunnels varies from 50 cm to 2.00 m. The rockmass encountered in HPT tunnels is of Class IV/V. Moreover, the tunnel has been excavated mainly in heading and benching method. In some stretches, the rock mass is so poor that it needs only scooping with little bit of undercut blasting. RMR value ranges from 10 to 35. Methane gas is also encountered at several locations during tunnel excavation. The vertical shafts has been excavated with 50 cm to 75 cm pull. Due to very poor rock mass class in shafts, it has been supported with steel ribs ISMB 200 and precast laggings followed by backfilling.

Seepage is observed at several stretches in underground tunnels and vertical shafts.

Tezpur.

Subject: **Geological note for the new layout of Kameng H.E. Project.**

Ref. : Your office letter No. NEEPCO/CM/IC/TEZ/T-304/2006-07/1848, dt 22.1.07.

Sir,

I am herewith enclosing the necessary note sought for with respect to the new layout of Kameng H.E. Project, particularly with respect to powerhouse location and HRT alignment, Arunachal Pradesh, for your perusal and necessary action.

The salient features are briefly stated below:

1. That the new alignment of HRT as well as powerhouse, surge shaft and penstock are located in a relatively better geological environment than the DPR locations.

2. The new location of powerhouse has the same geological set up as the DPR location. However, the new location has enabled the HRT and penstock from passing across the Main Boundary Thrust and a major fault respectively. When these factors are taken into consideration, the new location of powerhouse, obviously, is a better one than the one in DPR layout.

Yours faithfully,
27/2/07
(E.Balasubramanian)
Director,

North Eastern Electric Power Corporation Ltd. नई दिल्ली NEEPCO New Delhi

REGIONAL GEOTECHNICAL EVALUATION OF NEW SITES OF THE PROJECT COMPONENTS OF KAMENG H.E. PROJECT, ARUNACHAL PADESH.

The terrain encompassing the various project components of Kameng H.E. Project is geologically complex and tectonically highly disturbed area, forming part of the lesser Himalayan range and dissected by a number of major thrusts, faults, shears and abundant well developed cross-crossing joint systems.

The rock types occurring in the area belong to the older meta-sedimentaries of Pre-Cambrian age in the northern part, Gondwana sediments in the central part and younger Tertiary sediments of Siwalik Group in the southeastern part, separated by NE-SW trending major thrusts (Plate-I). The tentative geological sequence worked out for the area is as follows:

Siwalik Group : Fine-grained greasy sandstone, grey to chocolate shale with lenses of lignite and variegated/mottled clay and mudstone(?= Tipams + Girujans)

----------THRUST-(Main boundary thrust)----------

Gondwana Group : Quartzitic sandstone, carbonaceous shale/slate with coal bands (?=Damuddas)
Pebble slate, phyllite, conglomerate, quartzites etc.,(?=Talcher)

----------THRUST----------

Pre-Cambrian Group : Chlorite-Sericite-phyllite, quartz-muscovite-sericite schist, Quartzite, streaky gneiss and porpyroblastic granite gneiss.

As per the original project layout, the surge shaft was located within Siwalik Group of rocks. As a consequence, the HRT was to cut across the active Main Boundary Thrust (MBT) contact between Gondwana and Siwalik Groups of rocks. In addition, the penstock was to cross the NW-SE trending fault zone to reach the powerhouse that was proposed on the other side of the fault, within the Gondwana Group of rocks.

It was felt that the above crossings of WCS might pose stability problems. Hence, an alternative alignment of HRT and new locations for power house and surge shaft were suggested by an expert committee constituted by NEEPCO in January, 2000. As per the changed layout, the powerhouse, surge shaft and other structures were shifted by about 2 km downstream, towards SW, away from the thrust contact between Gondwana and Siwalik Groups of rocks and the NW-SE tending fault. These new locations have placed all the structures within the Gondwana Group of rocks only. The new sites were subsequently investigated by GSI and necessary imputs were submitted for designing the structures.

In the new HRT alignment, the length of WCS remains almost same. However, the entire distance from Bichom to Kimi P.H. will be covered by a single HRT with a drop-shaft from Tenga dam in the middle part, whereas in the earlier proposal, there were two segments, i.e., an 8.75km long link tunnel from Bichom to Tenga dam and 5.86km long HRT from Tenga to Kimi P.H.

Geologist (Jr)

definitely lead to cause unusual stress which ultimately would have led to cracks in welding joints, thus leakage in both the Penstocks. This gets also corroborated with the fact, that huge quantity of cement grouting was done to fill the gaps behind penstock/backfill concrete, after refurbishment of Penstocks. Around 1150 MT (2,30,000 Bags) of cement was injected.

6. DMR, another expert agency in this field, also has brought out and pin pointed in detail, the main cause of failure of both the Penstocks, as surrounding geology leading to charging of pulverized rocks and subsidence. Their entire Report which has all technical details has been vetted by IIT'ians from IIT Kharagpur, who are experts in respective fields.

Conciliation Committee of Independent Experts (CCIE), after seeing all reports and seeing all the facts as enumerated above, in explaining that the main cause of failure of both the Penstocks at a particular zone/reach is the encountered geology & subsidence leading to formation of large pockets behind the Penstocks/backfill concrete. Due to subsidence of underlying rock/pulverized rock/coal bands, concrete around the liners would have dislodged and created large voids.

Conciliation Committee of Independent Experts (CCIE), at the same time take cognizance of the facts elaborated in various committee reports, about deficiencies found in welding works executed by Contractor. This came to light when leakage in Penstocks were found and thereafter it was got emptied, and various tests were conducted on already executed welding joints, where deficiencies were found. Committee also takes the note of the fact, that all these joints were already inspected, radiography/UT tests were conducted while construction work was in progress, and was duly authenticated, signed and accepted by NEEPCO.

Both the parties were informed and explained about the shortcomings found in their Roles & Responsibilities, by Committee. And both were advised to share the responsibility and cost involved in repair & refurbishment of Penstocks, in a good spirit, keeping the facts as mentioned above, and also keeping in mind that Contractor did not run away from the difficult situation and did his best on the directions of

NEEPCO, from time to time, and completed the repair and refurbishment of entire Penstocks afresh. Project is commissioned and earning revenue.

Accordingly, 3rd Meeting on 20.01.2023 was convened at NEEPCO's office in Delhi.

Representatives of M/s Om Metals were called first and was asked to state their share of the total liability of repair & refurbishment of Penstocks. They informed the committee that they are ready to share the cost involved in rectification of faults, found by Global i.e 39 joints and offsets. This works out approximately 1/3rd of total cost of repair as per them.

Subsequently NEEPCO's representatives were called and intimated about the part proposed to be shared by Contractor. Representatives of NEEPCO explained that first inspection got carried out by Global, was based only on visual inspection. Hence that can not be taken as reference point. Later UT/ Radiography was got conducted and many joints previously welded did show shortcomings.

Members of CCIE pointed out to NEEPCO representatives that, all these joints were tested, radiographed/UT tested, and all were duly accepted and signed by NEEPCO's site engineers during execution.

Taking holistic view, and spirit of SOP of CCIE issued by Ministry of Power, which is based on give and take, it was suggested by the committee to share the cost involved in Repair & Refurbishment of Penstocks, equally.

Accordingly, both the parties were advised to get verified the cost of Repair & Refurbishment from Project within 15 days' time. Last day of submission of such jointly verified cost would be by 5th Feb'2023 and imitated to CCIE.

During the discussion it was pointed out by NEEPCO that they have made certain payments to 3rd parties directly on behalf of Contractor. Also, the cost involved in agency like DMR which was utilized for investigation, framing procedure and specifications for repair. Any cost which was agreed mutually and minuted/recorded shall be accounted for. All this cost shall be bonafide and shall be accepted as Expense towards

repair. However, cost towards hiring an agency (TPI) agency to help NEEPCO for carrying out inspections shall not be accounted for towards expense of repair. While, cost incurred on cement grouting or chemical grouting done to have moisture free atmosphere required for proper workmanship in welding shall not be included as cost towards repair.

Above, is subject to approval of Competent authority of NEEPCO.

Brookland Compound, Lower New Colony,
Shillong, Meghalaya-793003.

Dear Sir,

ADVANCES: C & I
M/s North Eastern Electric Power Corporation Limited (NEEPCO)
SANCTION OF CREDIT FACILITIES.

With reference to your application dated 09/02/2017 for Bank finance and subsequent clarifications received from you, we have the pleasure in advising you that the following credit facilities have been sanctioned in your favour, subject to the terms and conditions specified in the Annexure(s) hereto along with those contained in the loan security documents/deeds to be executed by you to the advance:-

Sanction for:

(i)	Short Term Loan (STL-3) of Rs. 200.00 Cr repayable in 12 months.

Approval for:

(i) Competitive pricing of Short Term Loan (STL-III) limit at 0.00 % above MCLR-1Y, present effective rate being 8.00 % p.a. with monthly rests against applicable pricing of 0.35% above MCLR-1Y i.e. 8.35 % p.a. for AA rated borrower
(ii) 100% concession in upfront fee on Short Term Loan.

The loan has been sanctioned subject to the following condition(s):

Short Term Loan will be disbursed only after obtaining ECR covering Bank's entire exposure and the same is maintained at AA or better.

[redacted]

E Pyrbot

2. The above limit is as per terms and conditions set out in Annexure A-C including security and pricing in addition to the other terms and conditions enumerated below :-

i. The Short Term Loan facilities sanctioned to the Company is to be utilized for meeting the funds mismatch in the capital expenditure for various ongoing projects.

ii. The Bank will also levy a charge of Rs. 10,000/- per month in case of delay in submission of Audited Balance Sheet of the company and associate/group concerns more than 9 months from the date of financial closure i.e. 31st March of each financial year.

iii. The Company should not induct a person who is a Director on the Board of a company whose name appears in the willful defaulters' list of RBI/CIBIL (other than as a nominee/honorary/professional director). In case such a person is found to be on the Board of the Company, it would take expeditious and effective steps for removal of the person from its Board.

iv. The Bank reserves the right to cancel the limits (either fully or partially) unconditionally without prior notice.

(a) In case the limits/ part of the limits are not utilized and/or
(b) In case of deterioration in the loan accounts in any manner whatsoever, and/or
(c) In case of noncompliance of terms and conditions of sanction

v. Registration of charges: Charges created in favour of the Bank will be registered with the Registrar of companies within 30 days from the date of creation.

vi. The Company shall monitor the project schedule, avoid cost over-run, achieve targeted installation standard, ensure dynamic risk management for best utilization and avoid loss due to accidents.

vii. The bank's credit facilities will also be governed by the Bank's standard covenants attached hereto (Annexure-B).

3. Please arrange to complete all the formalities of documentation, including that of creation/extension of mortgage, and also arrange to fulfill the pre-disbursal conditions/stipulations at an early date to enable us to release the facilities.

4. Please note that in the event of violation/deviation from the laid down terms and conditions, the Bank may, at its discretion:

- withdraw Drawing Power in the A/c
- freeze operation in the A/c
- apply penal interest in the A/c
- call up the advance

5. We request you to please return the duplicate copy of this letter and Annexures duly signed by the authorised signatory of the Company in token of their having accepted the terms and conditions of sanction within 30 days from the date of this letter. Bank reserves the right to review the terms of sanction in case of delay in accepting the sanction letter. Please also arrange to pass suitable Board Resolution in this regard and arrange to call on us for executing the necessary security documents along with certified copy of the Resolution for our record.

Yours faithfully,

Assistant General Manager
Shillong Br - 0181

NOW IT IS HEREBY AGREED BY AND BETWEEN THE PARTIES AS FOLLOWS:

1. The borrower's application dated 21.08.2013 and subsequent correspondence with the Bank (hereinafter collectively referred to as "the borrower's proposal ") shall be deemed to constitute the basis of this Agreement and of the credit facility granted / to be granted by the Bank hereinafter and the Borrower hereby warrants the correctness of each and every statement and particulars therein contained and undertakes to carry out the proposal therein set forth.

2. The Borrower declares and confirms that the aforesaid credit facility granted / agreed to fbe granted to the Borrower shall be governed by the terms and conditions as set out in the sanction / arrangement letter no. RMME/SHG/166 dated 25.10.2013. As also herein contained as well as those embodied in the relative security documents. The aforesaid sanction / arrangement letter shall be read in conjunction with the provisions of this Agreement and in the event of any inconsistency in the terms of the aforesaid sanction / arrangement letter , the provisions of this Agreement will , unless otherwise specifically stated in the sanction / arrangement letter , prevailed for all intents and purposes.

3. **The Borrower agrees and undertakes for repayment of the principal amounts of the aforesaid credit facility in 4 quarterly installments starting from 3 months after the date of first disbursement. Provided however, interest will be paid as and when applied in the account.**

4. Interest shall be charged on the outstanding in the account opened in respect of the aforesaid credit facility at such rate (s) as may be determined by the Bank from time to time at the Bank's sole discretion on the basis of any internal credit rating accorded to the Borrower or otherwise at the rate 0.25% above the Base Rate of the Bank which is presently 9.80% p.a. and thus the present effective rate of interest being 10.05% p.a. calculated on daily balance of the loan amount at monthly rests, provided that on the basis any internal credit rating accorded to the Borrower or otherwise the Bank shall at any time, and from time to time be entitled to vary the margin and Base Rate at its discretion. Depending on variations of Base Rate and Margin, the effective rate of interest shall vary periodically and the Borrower shall be liable to pay the effective rate of interest.

   Where interest is charged by the Bank at concessionary rate(s) because of the credit facilities being granted by the Bank to the borrower under the Interest Subsidy Scheme or any other scheme(s) formulated by the Government and /or RBI and / or any other authority from time to time, the Borrower agrees, declares, confirms and affirms that in the event of withdrawal, modification and /or variation of such scheme(s) , the concessionary rates or rate(s) of interest shall stand withdrawn and the usual rate or rates of interest applicable at the material time to such credit facilities shall become effective and the Bank shall become entitled to charge such rate or rates of interest and the Borrower shall pay to the Bank on demand the difference between such concessionary rate or rates and the usual rate of interest of the Bank applicable at the material time to such credit facilities and such difference shall become due and payable by the borrower to the Bank

For STATE BANK OF INDIA

it is established that the envelope containing such notice, communication or demand was properly addressed and put in to the post office.

42. The Borrower agrees and gives consent without any demur or protestation that :

a) In the event of default in repayment of any monies or in the performance or breach of any terms or obligation, the Bank and / or the Reserve Bank of India or nay other authorized agency will have an absolute discretion or unqualified right, power and authority to disclose or publish names of the Borrower and or its directors/ office bearers / constituents / members as DEFAULTER in such manner as they think fit.

b) As a precondition relating to the grant / credit facilities, the Borrower hereby agrees and consents for the disclosure by the Bank of all or any information and data relating to the Borrower, the credit facilities availed by the Borrower, obligations assumed / to be assumed by the Borrower in relation thereto and default if any committed by the Borrower in discharge thereof , as the Bank may deem appropriate and necessary to disclose and furnish to Credit Information Bureau (India) Limited and any other agency so authorized in this behalf by RBI.

c) The Borrower hereby declares that the information and data furnish by the Borrower to the Bank are true and correct. The Borrower hereby agrees that the Credit Information Bureau (India) Limited and any other agency so authorized may use, process the said information and data disclosed by the said Banks in the manner as deemed fit by them; and the Credit Information Bureau (India) Limited and any other agency so authorized may furnished for consideration, the processed information and data or products thereof prepared by them , to the Banks or financial institutions and other credit grantors or registered users and confirms that the Borrower shall not raise any dispute whatsoever in that behalf in all respect and to all intents.

43. Notwithstanding anything contained herein above, the Borrower confirms having agreed that the Bank reserves the absolute right to cancel the limits within (either fully or partially) unconditionally without prior notice :

a) In case the limits / part of the limits are not utilized by the Borrower and / or ;

b) In case of deterioration in the loan account in any manner whatsoever , and / or

Dear Sir/Madam,

CHANGE OVER FROM BASE RATE TO MARGINAL COST OF FUNDS BASED LENDING RATE (MCLR)

This is in continuation to our Sanction Letter dated RMME/SHG/ dated 21.02.2015 communicating sanction of Short Term Loan of Rs.300.00 crores (Rupees three hundred crores only).

2. The effective rate of interest for the facility stated in the above referred sanction letter has linkage to the Base Rate declared by the Bank from time to time.

3. In accordance with the mandatory instructions/guidelines issued by Reserve Bank of India (RBI), with effect from 1st April, 2016, the Bank has to determine the chargeable effective rate of interest for the loan facilities, with linkage to the Marginal Cost of Funds Based Lending Rate (MCLR). For your kind information and guidance, the basis on which the MCLR is determined is provided in the RBI Circular DBR No.Dir.BC.67/13.03.00/2015-16 dated December 17, 2015 and Reserve Bank of India (Interest Rate on Advances) Directions, 2016 dated March 03, 2016, updated as on 29.03.2016, which are available in the website of RBI.

4. In view of the aforesaid, the effective rate of interest for the credit facilities sanctioned to you shall be linked to the MCLR, with effect from 01.04.2016 as under:

EXISTING RATE				PROPOSED RATE			
Applicable Base Rate as on date.	Spread	Effective Rate	Reset Periodicity	Applicable MCLR as on date.	Spread	Effective Rate	Reset Periodicity
9.3	Nil	9.3	Yearly	9.15	Nil	9.15	Yearly.

Please note that the MCLR prevailing as on the date of first disbursement will be applicable, and future reset dates will be determined accordingly.

4. All other terms and conditions remain unchanged.

Yours faithfully,

Chief Manager & RMME

For the Lapsed Period of 5 months	₹. NIL
For the Next One Year (13.05.2015)	₹.
Total	₹.

This amount is non-refundable even you do not take up the Limits Renewed or foreclose the loan/facilities account within the period mentioned.

2.m. The information / data pertaining to all your borrowal accounts shall be furnished to Credit Information Bureau of India Limited (CIBIL) and other Agencies / Authorities, from time to time in terms of mandatory provisions in force.

This Sanction Advice is being delivered to you in duplicate. Kindly return the duplicate **copy** of this Sanction Advice duly signed on all pages by you as also by the guarantor/s in token of your acceptance of Credit facility / facilities sanctioned to you on the Terms and Conditions specified herein.

DETAILS OF CREDIT FACILITY / FACILITIES SANCTIONED:-

OTHER TERMS AND CONDITIONS:

1. You are to ensure insurance of the current assets for full value with bank clause.
2. Account is subject to penal interest (Presently 2.00%) under following circumstances.
   a) Irregularities/ over drawings in loan account(s).
   b) Default in observance of borrowing covenants/ term and conditions of the sanction
   c) Non-compliance of any of the terms and condition stated above.
3. Our bank will obtain No Objection Certificate from existing lenders if they hold charge on your Current Assets prior to disbursal of this sanctioned loan.
4. This credit sanction is valid for an availment period of SIX MONTHS from the date of communication. Unless availed within the period of six months, this sanction requires revalidation by the sanctioning authority before the expiry of six month.

Please note that:

2.a. the limits shall not be operative until specified documents are executed both by loanee /s and guarantor/s and terms and conditions of sanction are complied with as per the requirements of Sanctioning Authority / disbursing branch (es).

2. b. the credit facility should be utilised for the specific purpose for which the same has been sanctioned and if the bank has reason to believe that you have violated, or apprehends that you are about to violate the said conditions, the Bank shall have the option to exercise its right to recall the entire loan or any part there of at once, in addition to its right to withdraw the undrawn limits not withstanding anything contrary contained in this Sanction Advice. It is affirmed that this right is without prejudice to the Bank's right to demand the Loan amount for violation of other terms and conditions of the sanction and / or the terms reflected in the loan / security documents to be executed by you.

2. c. the referred credit facility is extended to you solely at the Bank's discretion. In addition to what is stated in para 2.c., the Bank reserves the right to withdraw partially / wholly or regulate such credit facility on the occurrence of any one or all of the following events:

2.d.1. Your non-compliance with terms and conditions of sanction

2.d.2. Indulging in drawings beyond sanctioned limits.

2.d. In terms of directives in force now or as may be modified from time to time default in repayment of instalments and / or servicing of interest for a notified period, automatically results in categorization of all your borrowal accounts as Non Performing Asset (NPA). Such categorization renders you **ineligible** from seeking.

2.d.1. Additional / adhoc credit facilities (Fund based and / or Non- fund based).

2.d.2. Waiver of overdue interest.

2.d.3. Soft recovery measures etc.

2.e.1. In the case of borrowal accounts where interest rate is linked to Base rate or where fixed interest rate is specified by the Bank, **changes if any**, in the Bank's Base rate and/or the spread or fixed rate specified by the Bank, shall be conveyed through Press Report or Publicity through media or a suitable 'Notice' placed in the banking hall of the branch and such mode of communication shall be construed as sufficient "Notice" to you about the **revisions effected in the interest rates.**

Pay-in date	*30th September , 2015*
Deemed date of allotment	*30th September, 2015*

**The Issuer reserves its sole & absolute right to modify (pre-pone/ postpone) the above issue schedule without giving any reasons or prior notice.*

LISTING

The bond issue is proposed to be listed on the Bombay Stock Exchange Ltd. ("BSE"). The Issuer has obtained an "in-principle" approval from the BSE for listing of the Bonds offered under this Private Placement Offer Letter.

INDEX	TITLE
I.	Definitions/ Abbreviations
II.	Disclaimers
III.	Issuer Information:
A.	Name and address of the Registered & Corporate Office
B.	Compliance Officer of the Issue
C.	Chief Finance Officer
D.	Statutory Auditors of the Issuer
IV.	Brief summary of business/ activities of issuer and its line of business
A.	Overview
B.	Brief profiles of the generating stations
C.	Brief note on the on-going projects of the Corporation
D.	Corporate Structure of the Issuer
E.	Key Operational and Financial Parameters for the last 3 audited years
F.	Gross Debt: Equity Ratio of the Company prior to and after the issue of this security
V.	A brief history of the issuer since its incorporation giving details of its activities
A.	Details of Share Capital as on last quarter end (30.06.2015)
B.	Changes in capital structure as on last quarter end, for the last five years
C.	Equity Share Capital history of the Company as on last quarter end, for the last five years
D.	Details of any Acquisition or Amalgamation in the last 1 year
E.	Details of any Reorganization or Reconstruction in the last 1 year
F.	Any financial or other material interest of the directors, promoters or key managerial personnel in the offer and the effect of such interest in so far as it is different from the interests of other persons
G.	Details of any litigation or legal action pending or taken by any Ministry or Department of the Government or a statutory authority against any promoter of the offeree company during the last three years immediately preceding the year of the circulation of the offer letter and any direction issued by such Ministry or Department or statutory authority upon conclusion of such litigation or legal action shall be disclosed
H.	Related party transactions entered during the last three financial years immediately preceding the year of circulation of offer letter including with regard to loans made or, guarantees given or securities provided
I.	Summary of reservations or qualifications or adverse remarks of auditors in the last five financial years immediately preceding the year of circulation of offer letter and of their impact on the financial statements and financial position of the company and the corrective steps taken and proposed to be taken by the company for each of the said reservations or qualifications or adverse remark
J.	Details of any inquiry, inspections or investigations initiated or conducted under the Companies Act or any previous company law in the last three years immediately preceding the year of circulation of offer letter in the case of company and all of its subsidiaries
K.	Details of acts of material frauds committed against the company in the last three years, if any, and if so, the action taken by the company
VI.	Details of the shareholding of the Company as on the latest quarter end (30.06.2015)
A.	Shareholding pattern of the Company as on the latest quarter end (30.06.2015)
B.	List of top 10 holders of equity shares of the company as on the latest quarter end (30.06.2015)
VII.	Details regarding the Directors of the Company
A.	Details of the current Directors of the Company
B.	Details of change in Directors since last three years
C.	Remuneration of directors (during the current year and last three financial years)
VIII.	Details regarding the Statutory Auditors of the Company
A.	Details of the Auditor of the Company
B.	Details of change in Auditor since last three years
IX.	Details of borrowings of the Company as on the latest quarter end (30.06.2015)
A.	Details of Secured Loan Facilities
B.	Details of Unsecured Loan Facilities
C.	Details of NCDs
D.	List of Top 10 Debenture Holders as on the latest quarter end (30.06.2015)
E	The amount of corporate guarantee issued by the Issuer along with name of the counterparty (like name of the subsidiary, JV entity, group company, etc) on behalf of whom it has been issued.
F.	Details of Commercial Paper
G.	Details of rest of the borrowing (if any including hybrid debt like FCCB, Optionally Convertible Debentures / Preference Shares).
H.	Details of all default/s and/or delay in payments of interest and principal of any kind of term loans, debt securities

	and other financial indebtedness including corporate guarantee issued by the Company, in the past 5 years.
I.	Details of any outstanding borrowings taken/ debt securities issued where taken / issued (i) for consideration other than cash, whether in whole or part, (ii) at a premium or discount, or (iii) in pursuance of an option.
J.	Management's perception of risk factors
X.	Details of promoters of the company
XI.	Abridged version of audited consolidated (wherever available) and standalone financial information (like profit & loss statement, balance sheet and cash flow statement) for at least last three years and auditor qualifications , if any
XII.	Abridged version of latest audited / limited review half yearly consolidated (wherever available) and standalone financial information (like profit & loss statement and balance sheet) and auditors qualifications, if any
XIII.	Any material event/ development or change at the time of issue or subsequent to the issue which may affect the issue or the investor's decision to invest/ continue to invest in the debt securities
XIV.	The names of the debenture trustee(s) shall be mentioned with statement to the effect that debenture trustee(s) has given his consent to the issuer for his appointment under regulation 4 (4) and in all the subsequent periodical communications sent to the holders of debt securities.
XV.	The detailed rating rationale (s) adopted (not older than one year on the date of opening of the issue)/ credit rating letter issued (not older than one month on the date of opening of the issue) by the rating agencies shall be disclosed
XVI.	If the security is backed by a guarantee or letter of comfort or any other document / letter with similar intent, a copy of the same shall be disclosed. In case such document does not contain detailed payment structure (procedure of invocation of guarantee and receipt of payment by the investor along with timelines); the same shall be disclosed in the offer document.
XVII.	Copy of consent letter from the debenture trustee "SBICAP Trustee Company Ltd." dated 18th September, 2015 conveying their consent to act as trustee for the current issue of bonds is enclosed elsewhere in this disclosure document.
XVIII.	Names of all the recognized stock exchanges where the debt securities are proposed to be listed clearly indicating the designated stock exchange.
XIX.	Other details
A.	DRR creation – relevant regulations and applicability
B.	Issue/instrument specific regulations - relevant details (Companies Act, RBI guidelines, etc).
C.	Application process
XX.	Issue Details
XXI.	Summary Term Sheet
XXII.	Servicing behavior on existing debt securities and other borrowings
XXIII.	Undertaking regarding common form of transfer
XXIV.	Material event, development or change at the time of issue
XXV.	Permission / Consent from prior creditors
XXVI.	Material contracts & agreements involving financial obligations of the issuer
	Declaration
ANNEXURES:	
A.	Credit Rating letters from Rating Agencies (ICRA Ltd., CARE Ltd. and CRISIL)
B.	Consent letters dated 18th September, 2015 from SBICAP Trustee Company Ltd.
C.	Consent letter from Registrar & Transfer Agent - MCS Limited
D.	Consent letter from Axis Bank Ltd. to act as Bankers to the Issue
E.	In-principle Approval from Bombay Stock Exchange
F.	Application Form & Instructions

I. DEFINITIONS/ABBREVIATIONS

Articles	Articles of Association of the Company
AY	Assessment Year
Board/ Board of Directors	The Board of Directors of NEEPCO Ltd.
Bonds	XVIth Series Secured Redeemable Non-Convertible Taxable Bonds in the nature of Debentures of ₹10,00,000/- each offered through private placement route
Bondholder/Debenture holder	The holder of the Bonds
Book Closure / Record Date	The date of closure of register of Bonds for payment of interest and repayment of principal
BSE	Bombay Stock Exchange
CARE	Credit Analysis and Research Ltd.
CDSL	Central Depository Services (India) Ltd.
CMD	Chairman and Managing Director of NEEPCO
Depository(ies)	A Depository registered with SEBI under the SEBI (Depositories and Participant) Regulations, 1996, as amended from time to time
Depositories Act	The Depositories Act, 1996, as amended from time to time
Depository Participant	A Depository participant as defined under Depositories Act
Designated Stock Exchange	Bombay Stock Exchange Limited.
Deemed Date of Allotment	Date as specified in the summary term sheet
DER	Debt Equity Ratio
DP	Depository Participant
DRR	Debenture Redemption Reserve
FIs	Financial Institutions
Fiscal	Period of 12 months period ending March 31st, of that particular year unless otherwise stated
FY	Financial Year
Government/GOI	Government of India
ITSL/ Trustee	SBICAP Trustee Company Limited
Issuer/ NEEPCO/ Corporation/Company	North Eastern Electric Power Corporation Limited
I.T. Act	The Income Tax Act, 1961, as amended from time to time
Memorandum	Memorandum of Association of the Company
MF	Mutual Fund
NSDL	National Securities Depository Limited
PAN	Permanent Account Number
PPOL/Private Placement Offer Letter	PPOL dated 29th September, 2015 for Private Placement of 8.68% p.a. payable semi annually XVIth Secured Redeemable Non-Convertible Taxable Bonds Series in the nature of Debentures of ₹10,00,000/- each for cash at par.
Rs. / INR	Indian Rupee
RTGS	Real Time Gross Settlement
Registrar	MCS Limited
RBI	The Reserve Bank of India

Any person into whose

possession this Document comes is required to inform about and to observe any such restrictions. Any disputes arising out of this issue will be subject to the exclusive jurisdiction of the courts **at Shillong.** All information considered adequate and relevant about the Issuer has been made available in this Document for the use and perusal of the potential investors and no selective or additional information would be available for a section of investors in any manner whatsoever.

e. DISCLAIMER IN RESPECT OF ARRANGER

The Issuer is solely responsible for the truth, accuracy and completeness of all the information provided in this Information Memorandum. Neither is the Arranger responsible for preparing, clearing, approving, scrutinizing or vetting this Information Memorandum, nor is the Arranger responsible for doing any due diligence for verification of the truth, correctness or completeness of the contents of this Information Memorandum. The Arranger shall be entitled to rely on the truth, correctness and completeness of this Information Memorandum. It is to be distinctly understood that the aforesaid use of this Information Memorandum by the Arranger should not in any way be deemed or construed to mean that the Information Memorandum has been prepared, cleared, approved, scrutinized or vetted by the Arranger. Nor should the contents of this Information Memorandum in any manner be deemed to have been warranted, certified or endorsed by the Arranger as to the truth, correctness or completeness thereof. Each recipient must satisfy itself as to the accuracy, reliability, adequacy, reasonableness or completeness of the Information Memorandum.

The Arranger has not conducted any due diligence review on behalf or for the benefit of the Debenture Trustee or any of the Debenture Holder. Each of the Debenture Holder should conduct such due diligence on the Issuer, the Debentures and the Security, as it deems appropriate and make its own independent assessment thereof.

Distribution of this Information Memorandum does not constitute a representation or warranty, express or implied by the Arranger that the information and opinions herein will be updated at any time after the date of this Information Memorandum. The Arranger does not undertake to notify any recipient of any information coming to the attention of the Arranger after the date of this Information Memorandum. No responsibility or liability or duty of care is or will be accepted by the Arranger for updating or supplementing this Information Memorandum nor for providing access to any additional information as further information becomes available.

Neither the Arranger nor any of their respective directors, employees, officers or agents shall be liable for any direct, indirect or consequential loss or damage suffered by any person as a result of relying on any statement in or omission from this Information Memorandum or in any other information or communications made in connection with the Debentures.

The Arranger is acting for the Company in relation to the Issue of the Debentures and not on behalf of the recipients of this Information Memorandum. The receipt of this Information Memorandum by any recipient is not to be constituted as the giving of investment advice by the Arranger to that recipient, nor to constitute such a recipient a customer of the Arranger. The Arranger is not responsible to any other person for providing the protection afforded to the customers of the Arranger nor for providing advice in relation to the Debentures.

Each recipient of this Information Memorandum acknowledges that:

(a) each recipient has been afforded an opportunity to request and to review and has received all additional information considered by the recipient to be necessary to verify the accuracy of or to supplement the information contained herein; and

(b) such recipient has not relied on the Sole Arranger in connection with its investigation of the accuracy of such information or its investment decision.

III. ISSUER INFORMATION:

A.NAME AND ADDRESS OF THE REGISTERED / CORPORATE OFFICE OF THE ISSUER:

Name of the Issuer	North Eastern Electric Power Corporation Limited (NEEPCO)
Registered Office	Brookland Compound, Lower New Colony, Shillong - 793 003, Meghalaya, India.
Telephone Number	0364 – 2228652 / 2223051
Fax Number	0364 – 2228652 / 2228542 / 2505776
Website	www.neepco.gov.in
E-mail	chiranjeeb@neepco.gov.in; cranee@neepco.gov.in

B. COMPLIANCE OFFICER OF THE ISSUE:

Mr. Chiranjeeb Sharma
Company Secretary, NEEPCO Limited
Brookland Compound, Lower New Colony,

Nabin Nagar , Janapath
Guwahati – 781 024

IV. BRIEF SUMMARY OF THE BUSINESS/ACTIVITIES OF THE ISSUER AND ITS LINE OF BUSINESS

A. OVERVIEW

NEEPCO is a Schedule "A" Miniratna Government of India Enterprise under the Ministry of Power with a present Authorised Capital of `5000 crore. Its primary goal is the integrated and efficient development of the Power Sector in the Region by planning, investigating and preparing preliminary feasibility and definite project reports followed by the actual construction, operation and maintenance of power stations and projects.

Since NEEPCO has been incorporated to operate primarily in the North Eastern Region, it would be pertinent to mention the immense potential of the region for generation of power. Additionally, the Region also has abundant resource of coal, oil and gas for thermal power generation. In spite of such huge potential the Region ranks lowest in the country in terms of per capita energy consumption. This has been mainly due to inhospitable climatic conditions, remote location and inaccessibility of geographical locations.

Hydro-electric Power: In terms of hydro power, the North Eastern Region has the potential of about 58971 MW, i.e. almost 40% of the country's total hydro potential. Of this huge hydro potential, less than 2% (1116 MW) has so far been harnessed as on 31.03.2010 and the remaining 98% is yet to be exploited.
Natural Gas: 151.68 billion cubic feet - enough to generate 7500 MW for 10 years.
Coal: 864.78 Million tonnes against 186 Billion tones of reserves in the country. With the reserves in the N.E Region, approximately 240 MW/day can be generated for a period of 100 years.

However with continual improvement of infrastructure and communication facilities, the North East region stands to become the Power House of India by utilising its surplus power potential especially in the hydro sector.

MISSION STATEMENT

- To harness the vast hydro & thermal power potential of the region.
- To produce pollution free and inexhaustible power through planned development of power generation projects.
- To play a significant role in the integration and development of hydroelectric and thermal power in the Central Sector covering all aspects such as investigation, planning, designs, construction, operation and maintenance of hydroelectric and thermal projects which in turn would effectively promote the development of the nation as a whole.

CERTIFICATIONS RECEIVED

- ✓ ISO 9001-2000 Quality Management System
- ✓ ISO 14001-2004 Environmental Safeguards
- ✓ OHSAS 18001-1999 Occupational Health and Safety Standards

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Since its inception NEEPCO has always given top priority towards all round development of the people residing in and around its operational areas. As a responsible corporate citizen, NEEPCO has undertaken various community development activities particularly in the field of education, health, infrastructure development and other community needs. The Corporation is committed to discharge larger responsibilities towards the society in future.

NEEPCO'S CSR MISSION

- To execute and operate projects in a cost effective, environment friendly and socio-economically responsive manner with thrust on energy conservation.
- To be a responsible corporate entity for nurturing human values with concern for society.
- To contribute towards community development and help achieve a high level of human development in the field of education and health in particular as human development contributes to welfare by enhancing 'capabilities' of people thereby increasing their productivity, income and general wellbeing.

PRODUCTS/SERVICES

NEEPCO generates and supplies power to the seven states of the North Eastern Region. The primary beneficiaries are:

- Assam Power Distribution Company Ltd.
- Meghalaya Energy Corporation Ltd.
- Tripura State Electricity Corporation Ltd.
- Department of Power, Govt. of Arunachal Pradesh
- Electricity Department, Govt. of Manipur
- Power & Electricity Department, Govt. of Mizoram
- Department of Power, Govt. of Nagaland

SUPPLY OF POWER

NEEPCO's generating stations feed power at their respective bus-bar into the Regional Grid. Power is transmitted to the Bulk Power Consumers through transmission systems of the PowerGrid Corporation of India Ltd. (PGCIL) as well as the respective State Transmission Utilities (STU). Generation and transmission of power in the region is regulated by the North Eastern Regional Power Commission and the North Eastern Regional Load Despatch Centre which are the designated apex bodies for integrated operation and management of the Regional Power System (Regional Grid). Tariff for power from the various stations are fixed as per the Availability Based Tariff (ABT) by the Central Electricity Regulatory Authority (CERC). The ABT regime came into force in the North Eastern Region with effect from 01.11.2003. NEEPCO has commissioned/synchronized the following generating power stations:

Sl.	Name of the Power Station	Installed Capacity	State
1	Khandong Power Station	50 MW	Assam
2	Kopili Power Station	200 MW	Assam
3	Kopili Hydro Electric Project – Stage II	25 MW	Assam
4	Doyang Hydro Electric Project	75 MW	Nagaland
5	Ranganadi Hydro Electric Project	405 MW	Arunachal Pradesh
	Sub-total (Hydro)	**755 MW**	
6	Assam Gas Based Power Project	291 MW	Assam
7	Agartala Gas Based Power Project (84 MW + 51 MW)	135 MW	Tripura
8	Tripura Gas Based Power Project	101 MW	Tripura
	Sub-total (Thermal)	**527 MW**	
	Grid Interactive Solar Power Plant at TGBP Site, Tripura **(Renewable)**	**5 MW**	Tripura
	Grand Total	**1287 MW**	

B. BRIEF PROFILES OF THE GENERATING STATIONS

1. Khandong Power Station & 2. Kopili Power Station (KHEP): They comprise the original Kopili Hydro Electric Project (100 MW) located on the River Kopili in the North Cachar Hills District of Assam which was the maiden venture of NEEPCO when it came into existence in 1976. The first stage of Kopili Hydro Electric Plant has two dam and dyke systems for creating two reservoirs, one on the Kopili River and the other on the Umrong stream, a tributary of the Kopili. Water from the Kopili reservoir is utilized in the Khandong power station through a 2852 metre long tunnel to generate 50 MW (2 X 25 MW) of power. The tail water from this powerhouse is led to the Umrong reservoir. The water from Umrong reservoir is taken through a 5473 metre long tunnel to the Kopili power station to generate 200 MW (4 X 50 MW) of power. Subsequently, the Stage I Extension (100 MW) of the project envisaged setting up two additional 50 MW units at Kopili Power Station, provisions for which were already kept during the first stage development of the project. The Units III and IV under this extension scheme were commissioned in March, 1997 and June, 1997 respectively. The total installed capacity of the Kopili Power Station thus went up to 200 MW and that of the project as whole to 250 MW. The raising of the Umrong reservoir by 7.6 m was taken up to meet the demand for more water for two additional 50 MW units of first stage extension.

3. Kopili Hydro Electric Project - Stage II (KHEP-II): The second stage of the Kopili Hydro Electric Project involved construction of a powerhouse to generate additional 25 MW of power by utilizing water from the Kopili reservoir through a 480 m long water conductor system, provision of which was kept as a by-pass conduit from the surge shaft in the Khandong tunnel. The water from the second stage powerhouse goes to the Umrong reservoir for utilization in the Kopili power station

4. Doyang Hydro Electric Project (DHEP): Situated on the River Doyang, a tributary of the River Brahmaputra, this Project with a capacity of 3 X 25 MW and an estimated annual generation of 227 Million Units was commissioned on the 2nd week of July'2000. The Project is located in Wokha District of Nagaland. It consists of three units of 25 MW each and has a Design Energy of 227 MU. The Dam is of Rock Fill type with a height of 87.50 m and length of 462 m. The steel lined HRT has double bifurcation, 5.92m in diameter and 427.86 m long and the Design Head is 67.0 m. The Evacuation System comprises a 132 kV D/C Doyang-Dimapur lines of PGCIL and a 132 kV S/C Doyang-Kohima line and 132 KV S/C Doyang-Mokochung line of Govt. of Nagaland.

5. Ranganadi Hydro Electric Project (RHEP): This run-of-the-river Project is located in the Lower Subansiri District of the State of Arunachal Pradesh in the Ranganadi basin and the adjoining Dikrong basin. . It consists of three units of 135 MW each and has a Design Energy of 1509.66 MU. The Dam is of Concrete Gravity type with a height of 68 m and length of 340 m. The HR Tunnel has a diameter of 6.8 m and is 10.13 km long while the dimensions of the Penstock are 5.8 m dia x 778 m long; 4.75 m dia x 137 m long; 3.35 m dia x 147 m long. The Design Head is 304.0 m. The Evacuation System comprises 400 kV Ranganadi-Balipara D/C Lines of PGCIL and 132 kV Ranganadi-Nirjuli S/C Line, 132 kV Ranganadi-Along S/C Line of the Govt. of Arunachal Pradesh.

6. Assam Gas Based Power Project (AGBPP): This Combined Cycle Gas Turbine Project is located in the Dibrugarh District of Assam. It has been partly financed by a loan of 37.272 Billion Yen under bilateral credit arrangement with the Overseas Economic Cooperation Fund of Japan. It utilizes natural gas available in the oil fields of Upper Assam. The power station comprises of 6 Gas Turbines with associated Waste Heat Recovery Boilers and 3 Steam Turbines, arranged in a modular fashion. A module comprises of 2 Gas Turbines with associated Waste Heat Recovery Boilers and 1 steam turbine.

7. Agartala Gas Based Power Project (AGTP): This project is located in the West Tripura District of the state of Tripura near the capital town of Agartala .The project was run on an Open Cycle Mode with 4 Gas Turbines of 21 MW each of European Gas Turbine make operating on natural gas obtained from the gas fields of M/S ONGC. The Project has been financed through the budgetary support of the Government of India and partially through external commercial borrowings from the Deutsche Bank, Germany. The Project was completed in 1997-98. at a cost of Rs 322.55 Crores with a 50:50 debt equity ratio. Subsequently, the AGTP-Extension was commissioned in August, 2015 thereby transforming the project into a Combined Cycle plant with 2 (two) Steam Turbine Generating units of 25.5 MW each and a total installed capacity of 135 MW. The financing pattern of this extension project was with a Debt-Equity ratio of 70:30. The debt component of the cost was met from the proceeds of the USD 100 million ECB from SBI, Singapore while equity was funded from internal accruals of NEEPCO.

8. 5 MWp Grid Interactive Solar Power Plant: As a maiden venture, a 5 MWp Grid Interactive Solar PV Power Project is being setup at Monarchak within the premises of the 101 MW Tripura Gas Based Power Project at an estimated cost of ₹42.89 Cr. (including IDC), with the levellised tariff being Rs. 9.46/unit. The project was commissioned on 15th February, 2015. The power generated from the project is being evacuated through a 33 KV Double – Circuit Line to the Rabindranagar Sub-Station of Tripura State Electricity Corporation Limited (TSECL). The infrastructure for evacuation of power was carried out by TSECL on "Deposit Work Basis".

9. Tripura Gas Based Power Project (TGBPP): A Gas Based Combined Cycle Project of nominal capacity 101 MW, this project is located in Monarchak, Tripura. Like the AGTP-Extension, this project was approved with a debt-equity ratio of 70:30 with the equity to be fully funded by NEEPCO from its internal accruals while the debt was financed from the proceeds of the USD 100 million ECB from SBI, Singapore as well as PSU Bonds raised from time to time. A fuel supply agreement (FSA) for this project was signed with ONGC on 5th June, 2008. A PPA was signed on 19th March, 2008 with the State Govt. of Tripura which is the sole beneficiary of this project. The project was successfully synchronized on 11th March, 2015 and was fully loaded upto 66 MW on 30th March, 2015.

C. BRIEF NOTE ON THE ON-GOING PROJECTS OF THE CORPORATION:

a. ON-GOING POWER PROJECTS

NEEPCO is presently constructing five more projects which will add another 922 MW to its Installed capacity. All the on-going projects have been allotted to NEEPCO by the Government of India in agreement with the respective State Governments. A summary of these projects is as follows:

Sl.	Name of the Project	Installed Capacity	State	Estimated Cost (*₹ in crore*)
(i)	Kameng Hydro Electric Project	600 MW	Arunachal Pradesh	6476.34
(ii)	Pare Hydro Electric Project	110 MW	Arunachal Pradesh	1487.50
(iii)	Tuirial Hydro Electric Project	60 MW	Mizoram	1381.71
	Total	**770 MW**		

(i) Kameng Hydro Electric Project (600 MW):

A run-of-the-river (ROR) scheme in the West Kameng District of Arunachal Pradesh, this project comprises of 4 units of 150 MW turbine-generators each with total design energy of 3,353 MU. The project was approved for construction on 2nd December, 2004 at a cost of ₹2496.90 crore including IDC of ₹249.09 crore at March, 2004 price levels and is presently in advanced stages of construction. PPAs have been signed with the Governments of Assam and Arunachal Pradesh for 300 MW each.

The approved funding pattern of this project is with a debt-equity ratio of 70:30 and the equity to be fully funded by the Govt. of India. The debt component is presently being funded by a loan from PFC. A revised cost estimate (RCE) of ₹6476.34 crore has been submitted to the Ministry of Power and is presently awaiting approval. The expected date of commissioning is June, 2016. The tariff is ₹4.16/kwh for the first year and ₹3.97/kwh as levellized tariff based on the RCE.

The Ministry of Power has allocated the energy from this project to the NE Region (50%), the Western Region (25%) and the Northern Region (25%).

The source-wise expenditure (provisional) for this project as on 31st August, 2015 is as follows:

Sources of funds	Expenditure in ₹ crore
Equity from Govt. of India	749.07

PSU Bonds	2838.63
Internal Resources	427.53
Total	**4015.23**

(ii) Pare Hydro Electric Project (110 MW):

A concrete gravity dam scheme on the Dikrong river in the Papumpare District of Arunachal Pradesh, the project is comprised of 2 units of 55 MW turbine-generators with a total design energy of 506.42 MU. The project was approved for construction on 4th December, 2008 at a cost of ₹573.99 crore including IDC of ₹67.66 crore at June, 2007 price levels and is presently in advanced stages of construction. PPAs have been signed with all the seven states of the NER for supply of power from this project.

The approved funding pattern of this project is with a debt-equity ratio of 70:30 and the equity to be fully funded by the Govt. of India. The debt component is being funded by a loan from KfW, Germany covered by the Indo-German Bilateral Development Cooperation Programme under an agreement signed between the Government of India and the Government of the Federal Republic of Germany on 21st May, 2008.

A revised cost estimate (RCE) of Rs.1487.50 crore including IDC of Rs.141.52 crore has been submitted to the Ministry of Power and is presently awaiting approval.

The source-wise expenditure (provisional) for this project as on 31st August, 2015 is as follows:

Sources of funds	Expenditure in ₹ Crore
Equity from Govt. of India	172.20
KfW Loan	529.44
Internal Resources	324.22
Total	**1025.86**

(iii) Tuirial Hydro Electric Project (60 MW):

A medium head storage scheme in the Aizawl District of Mizoram, the project comprises 2 units of 30 MW turbine-generators with total design energy of 250.63 MU. CCEA clearance was obtained on 7th July, 1998. After the award of major packages, work on the project began from 2001 as per the drawn up plan. However, the project work came to total stop w.e.f. 9th June, 2004 on account of agitation launched by Tuirial Crop Compensation Claimant Association claiming payment of crop compensation for the standing crops in the riverine reserve forest. As on June, 2004 prior to stoppage of work, 30% of the project work and 95% of Design & Engineering work had been completed.

In order to revive the project, various efforts were made by the Ministry of Power, NEEPCO and the Govt. of Mizoram. Subsequently, a PIB recommendation for revival of the project at a RCE of ₹913.63 crore at March, 2010 PL was placed before the CCEA for investment decision. The CCEA clearance was issued on 14th January, 2011 with approval for a debt-equity ratio of 85:15, commissioning schedule of December, 2015 and the following funding pattern:

Source of funds	Amount in ₹ crore
1. Equity from Govt. of India	137.04
2. Subordinate Loan from Govt. of India	291.96
3. Grant from NLCPR of DoNER	300.00
4. Loan from domestic FI/PFC	184.63
Total	**913.63**

The rate of interest on the Subordinate Loan is 1% p.a. to be paid w.e.f. the date of commercial operation and loan repayments will start from the 16th year from commissioning up to the 30th year. Presently, a RCE is under preparation by NEEPCO and will be submitted to the MoP for necessary approval.

The source-wise expenditure (provisional) for this project as on 31st August, 2015 is as follows:

Sources of funds	Expenditure in ₹ Crore
1. Equity from Govt. of India	137.04
2. Subordinate Loan from Govt. of India	291.96
3. Grant from NLCPR of DoNER	169.91
4. Bonds	184.63
5. Internal Resources	88.92
Total	**872.46**

b. RENEWABLE ENERGY INITIATIVES:

The Corporation has ventured into the Renewable Energy Sector in the form of Solar and Wind Energy Projects and has also committed to the Ministry of New & Renewable Energy (Green Energy Commitment) to implement projects up to

2500 MW during the period 2015-2019. Apart from the already ongoing Solar PV project at Monarchak, other projects have been proposed which are as under:

Sl.	Project	Status
1.	Grid Interactive Solar Power Project (2 MW), Lanka, Assam.	▪ Detail project report (DPR) prepared through consultant and investment approval accorded on 28th Nov 2014. Thus, ***"Excellent"*** MOU rating could be achieved.
2.	Grid interactive Solar Power Project (5 MW), Surjyamoninagar, Tripura	▪ Detail project report (DPR) was prepared by NEEPCO and approved on 13th August 2014. Thus, ***"Excellent"*** MOU rating could be achieved.
3.	Grid Interactive Wind Power Project, at Kopili HEP, Assam.	▪ Pre- Feasibility Report was prepared by National Institute of Wind Energy Technology, Chennai and accepted on 26th February 2015, thereby achieved the ***"Excellent"*** MOU rating.

The Strategic Business Plan for Renewable Energy Sector of NEEPCO for the next 5 years has also been formulated. The Corporation has committed to put up 2500 MW of Renewable Energy Projects during 2015-19 as per Prime Ministers' initiative for putting in 1 Lakh MW of Renewable Energy in the Country. The Commitment certificate was handed over to Government of India during the RE-INVEST 2015 (1st Renewable Energy Global Investors Meet & Expo), organized by MNRE w.e.f 15.02.2015 to 17.02.2015 at New Delhi. The targeted year-wise capacity addition is as below:

Type of RE Project	Year wise Capacity Addition (MW)					
	2015-16	2016-17	2017-18	2018-19	2019-20	Total
Solar	95	150	550	555	600	1950
Wind	---	40	150	150	160	500
SHEP	--	---	--	20	30	50
Total	95	190	700	725	790	2500

c. S&I SCHEMES: (Ownership Basis):

Sl.	Project	Status
		HYDRO
1.	**Projects in Meghalaya**	
	Mawphu H.E. Project, Stage-II (75 MW), Meghalaya	▪ Draft Detailed Project Report (DPR) is under scrutiny by CEA. ▪ Comprehensive EIA/ EMP studies by WAPCOS in progress. ▪ Application for diversion of 110 Ha of forest land submitted.
2.	Killing Hydro Electric project (50 MW), Assam/ Meghalaya	▪ Pre-Feasibility Report (PFR) has been prepared. ▪ Terms of Reference (TOR) for EIA/EMP Studies obtained from MoEF on 30.12.2014. ▪ Tender for EIA/EMP studies opened on 30.03.2015 and techno-commercial bid under evaluation. ▪ HM data collection, Topographical Survey and Geological Surface Mapping in progress. ▪ Application for diversion of 123.2 Ha of forest land made on 29.12.2014. ▪ Brahmaputra Board has been requested for handing over the related reports/ information to NEEPCO.
3.	**Projects in Mizoram**	
	Lungreng HEP (815 MW)	▪ Clearance of MEA for taking up the S&I works is awaited since both the projects involve international boundary with Myanmar.
	Chhimtuipui HEP (635 MW)	
	Mat HEP (76 MW)	▪ DPR under updation by CWC. ▪ NEC requested CWC on 01.04.2015 to hand over all the related inputs to NEEPCO. ▪ Matter is under persuasion with CWC and Efforts are being made for updation of the DPR at the earliest.
	Tuivai HEP (210 MW), Mizoram.	▪ MOA was signed with Govt. of Mizoram on 10.02.2015 for execution of the project. ▪ DPR was earlier prepared by CWC and subsequently reviewed by NEEPCO prior to signing of the MOA. ▪ Cost estimate of the project has been updated.
4.	**Projects in Manipur:**	
	Pabram HEP (150 MW)	▪ Pre Implementation Agreement was signed with the State Govt. on 28.08.14 for DPR preparation and implementation of these projects.
	Khongnem Chakha HEP (50	

Sl.	Project	Status
	MW)	▪ Project Feasibility Report (PEF) prepared.
	Irang HEP (60 MW),	▪ Techno-commercial viability issues being taken up with the State Government.
	Tuivai HEP (51 MW)	

d. PROJECTS IN THE PIPELINE: (Ownership Basis):

Sl.	Project	Status
		HYDRO
1.	Selim HEP (170 MW), Meghalaya	▪ NEEPCO on 29.12.2014 submitted application for allotment of the Selim H.E. Project in the prescribed format with a requisite amount of Rs. 2.75 lakh to the Government of Meghalaya.
2.	Panyor HEP (80 MW), Arunachal Pradesh	▪ The Government of Arunachal Pradesh allotted the project to M/s Raajratna Energy Holdings Pvt .Ltd. ▪ The Developer had on 30.10.2014 communicated its offer to hand over the Project to NEEPCO on cost plus basis. ▪ NEEPCO engaged consultant or carrying out Due Diligence Study of the project on 19.02.2015.
3.	Nafra HEP (120 MW), Arunachal Pradesh	▪ The Govt. of Arunachal Pradesh allotted the project to M/s SEW Energy Ltd. ▪ SPV namely M/s Sew Nafra Power Corporation Private Ltd. on 03.03.2015 offered to Sale/Transfer of ownership of the project to NEEPCO, which is under examination of NEEPCO.
		THERMAL
4.	Garo Hills Thermal Power Project (500 MW), Meghalaya	▪ The Project site identified near Darrugiri, East Garo Hills District of Meghalaya. ▪ Preliminary survey works for the Project site completed. ▪ NEEPCO has taken up the physical survey to identify the coal bearing area and Coal Bearing lands under the East Darrengiri Area have been identified as the primary source for the captive mining to cater the need of coal linkage for the Project. The District Administration, East Garo Hills have been pursued/being pursued for interaction with the Coal Bearing Land owners and get the consent/ Expression of Interest for providing land to NEEPCO on lease to take up further activities for establishing captive coal mining to supply requisite coal for the Project. A report on the same is prepared in Nov 2014. This being the target under MoU 2014-15 under "Initiative for growth" could be achieved as "Excellent".
		RENEWABLE
5.	2 MW Solar PV Power Plant at Sonapur, Assam.	▪ MoU has been signed between NEEPCO and Assam Don Bosco University Sonapur, Assam, on 9th Feb' 2015 for setting up of 2 MW Solar PV Power Plant.

e. RAJIV GANDHI GRAMIN VIDYUTKARAN YOJNA (RGGVY)

The Corporation has been entrusted by the Govt. of Tripura for implementation of Rural Electricity infrastructure including Household Electrification Scheme under 12th Plan Grameen Vidyutikaran Yojana in two Districts viz South Tripura and Sepahijala. The sanction project cost (excluding 5% agency charges) for South Tripura District is Rs. 44.80 Cr. and for Sepahijala District is Rs. 39.04 Cr. Work was awarded in September, 2014.

Quadripartite Agreement amongst Rural Electrification Corporation (REC), Govt. of Tripura, Tripura State Electricity Corporation Ltd. (TSECL) and NEEPCO was signed on 26.11.2014. Mobilization of material at site has started in March 2015 for commencing erection works.

The cumulative expenditure incurred in the Project up to 31st March, 2015 was Rs.0.65 Crore, out of which an amount of Rs.0.35 Crore was spent during 2014-15.

f. JOINT VENTURE PROJECTS

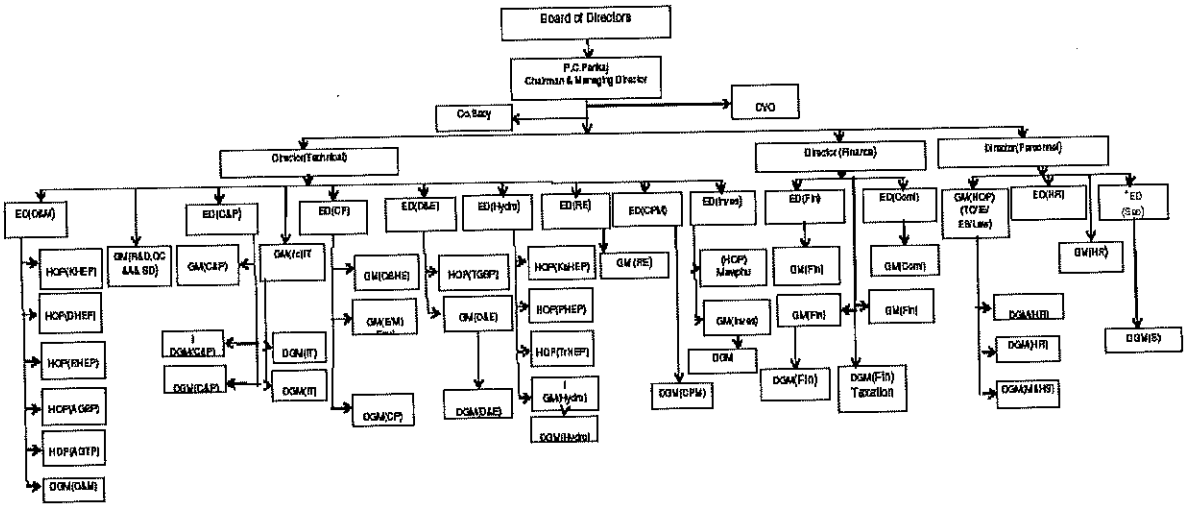
With a view to enhance generation capacity, NEEPCO has formed Joint Ventures with other CPSUs, State Utilities and Private Developers to undertake various projects. The projects taken up through the JV route and their status are given below:

Sl.	Project	Status
		HYDRO

1.	Dibbin HEP (120 MW), Arunachal Pradesh.	▪ KSK Dibbin Hydro Power Private Limited (JV between KSK Energy Ventures and NEEPCO) has submitted the Revised Hydrology to CWC for approval which is awaited.
2.	Siang Upper (Stage-II) HE Project (3750 MW), Arunachal Pradesh.	▪ Revised PFR confirming to the MOEF stipulation has been prepared. ▪ Stage-I Forest Clearance was obtained on 01.07.2014. ▪ TOR for EIA/EMP studies cleared by MOEF in Oct'14 based on revised PFR. ▪ Comprehensive EIA/EMP studies carried out by WAPCOS is in progress. ▪ 80% of Topographical survey completed. ▪ Investigation works are facing stiff resistance from local inhabitants.
3.	Siang Upper Stage-I HEP (6000 MW), Arunachal Pradesh	▪ As decided by Ministry of Power Government of India in its meeting on 06.06.2014, a single JV Company shall be formed for both the Siang Upper Stage-I & II HEP and a tripartite MOA amongst the JV partners and GOAP shall be signed for both the projects. ▪ This tripartite MoA shall supersede the MoA already signed between GoAP and NEEPCO in respect of Siang Upper Stage-II HEP (3750 MW). ▪ The draft Tripartite MOA to be signed among NHPC, NEEPCO and GOAP is under finalization.
4.	Tipaimukh HE Project (1500MW), Manipur.	▪ Finalization of the Draft Promoters' Agreement is in process between NEEPCO & NHPC. ▪ Meanwhile, MOEF recommended exploring the feasibility with smaller dams involving smaller forest area. ▪ As per the aforesaid recommendation and subsequent request of MOP and NEEPCO, NHPC is exploring for revision of the project to involve lesser forest area. ▪ Meanwhile, MoP vide letters dated 20.08.2014 and 05.01.2015 suggested the State Governments of Manipur and Mizoram that forest clearance of the Project need not be pursued at this stage and desired that the State Governments may intimate their views if any, in the matter.
5.	Kurung HEP (330 MW), Arunachal Pradesh	▪ NEEPCO signed MOA with the Govt. of Arunachal Pradesh on 27.01.2015 for development of the project in Joint Venture with State Govt. Thus, NEEPCO achieved MOU Target with *"Excellent"* rating - "Taking up of new project of at least 100 MW in Hydro Sector under Joint Venture".
		THERMAL
6.	Margherita Coal Based Thermal Project (1320 MW)	▪ The Draft MOU has been finalized between NEEPCO and APGCL with 51% and 49% equity share respectively and sought the in-principle approval of the Ministry of Power.
		RENEWABLE ENERGY PROJECTS
7.	50 MW Solar Power Project, Andhra Pradesh.	▪ Projects of 50 MW at Andhra Pradesh is also being taken up by the JV for implementation for which Power Purchase agreement was signed on 06.12.2014, with target of commissioning by March, 2016 in phases.
8.	100 MW Wind Power Project, Gujarat	▪ M/s Metatron Danke Green Energy Pvt. Ltd. (A Joint Venture Company between ECI Engineering and Construction Co. Ltd. and NEEPCO) has initialed implementation of 100 MW Wind Power Project at Gujarat for which land has since been identified.
9.	Ultra Mega Solar Power Plants (UMSPP) at Leh (5000 MW) and Kargil (2500 MW).	▪ The Govt. of India has envisaged for setting up of Ultra Mega Solar Power Plants (UMSPP) at Leh (5000 MW) and Kargil (2500 MW) area of Jammu & Kashmir. ▪ The Detailed Project Reports of the same are prepared by NEEPCO and under finalization.
		OTHERS
10.	JV between NEEPCO and Govt. of Tripura.	▪ MOU was signed between Govt. of Tripura and NEEPCO on 12.12.2014 for formation of a Power Generation Company in JV between Govt. of Tripura and NEEPCO. ▪ Draft SHA for the GENCO with NEEPCO equity at 10% is under preparation jointly with Tripura. ▪ Preparation of DPR for conversion of Rokhia & Baramura Thermal Projects to Combined Cycle is in final stage of completion. ▪ Work for RLA and preparation of DPR for R & M of Gumti HEP awarded to CPRI on 23.03.2015.

D. CORPORATE STRUCTURE OF THE NEEPCO LTD.

ORGANISATIONAL CHART OF NEEPCO



OFFICES

NEEPCO's registered office is in the picturesque hill city of Shillong. It also has liaison offices in New Delhi, Kolkata, Guwahati and Itanagar.

V. A BRIEF HISTORY OF THE ISSUER SINCE ITS INCORPORATION GIVING DETAILS OF ITS ACTIVITIES

The North Eastern Electric Power Corporation Ltd. (NEEPCO Ltd.) was incorporated on 2nd April, 1976 under the Companies Act, 1956 with an Authorised Capital of Rs.75 crore. NEEPCO is a Schedule "A" Government of India Enterprise under the Ministry of Power. Its primary goal is the integrated and efficient development of the Power Sector in

the Region by planning, investigating and preparing preliminary feasibility and definite project reports followed by the actual construction, operation and maintenance of power stations and projects.

A. DETAILS OF SHARE CAPITAL AS ON LAST QUARTER END (30.06.2015)

NEEPCO is a fully owned Government of India Enterprise and its entire share capital is held by the Central Government. Presently, its authorized share capital is Rs.5000 crore and its paid-up share capital is Rs.3426.12 crore.

The investment by the Government of India in the Corporation has steadily risen since its incorporation with the infusion of additional Equity for every new project undertaken by the NEEPCO. Thus, the Authorized Capital of NEEPCO had to be gradually increased from the initial amount of Rs.75.00 crores to the present Rs.5000.00 crores.

CAPITAL STRUCTURE (as on 30.06.2015)	Amount (*Rs. in lakh*)
AUTHORISED CAPITAL 5,00,00,00,000 equity shares of Rs.10/- each	**500000.00**
ISSUED, SUBSCRIBED AND PAID-UP CAPITAL 3,42,61,15,400 equity shares of Rs.10/- each	**342611.54**

B. CHANGES IN CAPITAL STRUCTURE AS ON LAST QUARTER END, FOR THE LAST FIVE YEARS

None.

C. EQUITY SHARE CAPITAL HISTORY OF THE COMPANY AS ON LAST QUARTER END, FOR THE LAST FIVE YEARS

Date of Allotment	No. of Equity Shares	Face Value Rs.	Issue Price Rs.	Consideration (Cash, other than cash, etc)	Cumulative	
					No. of Equity Shares	Equity Share Capital (*Rs. in lakhs*)
20-05-2011	4,50,00,000	10.00	10.00	-	327,69,30,400	3276,93.04
02-03-2012	1,53,00,000	10.00	10.00	Book adjustment by Govt. of India	329,22,30,400	3292,23.04

None.

J. MANAGEMENT'S PERCEPTION OF RISK FACTORS:

Prospective investors should carefully consider all the information in this Private Placement Offer Letter, including the risks and uncertainties described below, before making an investment in the Bonds. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business prospects, results of operations and financial condition. If any of the following or any other risks actually occur, our business prospects, results of operations and financial condition could be adversely affected and the price of, and the value of your investment in the Bonds could decline and you may lose all or part of your redemption amounts and/ or interest amounts.

(i) RISKS RELATING TO OUR BUSINESS AND INDUSTRY

1. With the power sector industry becoming increasingly competitive, the Corporation's growth will depend largely on its ability to minimize costs and maximize revenues.
2. Our revenues are largely dependent on the ability of our power stations to perform at optimal levels. The performance of our hydro stations at optimum levels depends upon the water levels of the rivers and reservoirs which in turn depend upon rainfall conditions. A decline in rainfall levels may results in lower levels of generation by the hydro stations which would in turn result in lower revenues for the Corporation.
3. Significant shortages in the supply of natural gas could adversely affect our thermal stations which would adversely affect our financial condition and results of operations
4. Power sector CPSUs are required to adhere to certain norms as approved by the Government of India through the Ministry of Power and other authorities as well as the Central Electricity Regulatory Commission (CERC). Changes in the regulatory regime by the CERC with respect to tariff regulations may adversely affect our financial condition and results of operations. The Corporation may also be vulnerable to the introduction of rules, regulations and norms of operation by the Government of India from time to time.
5. The Corporation enjoys certain tax benefits which may be withdrawn thereby adversely affecting our business, financial condition and results of operations.
6. We have borrowed in foreign currency and are likely to continue to do so in the future which exposes us to fluctuations in foreign exchange rates thereby adversely affecting our financial condition and results of operations.
7. The construction, maintenance and operation of power projects carry certain risks which to the extent they materialize could adversely affect our business and financial performance
8. Negative trends in the Indian power sector or the Indian economy could adversely affect our business and financial performance.
9. As the Corporation uses IT in many of its work processes there are possible risks of IT frauds.

(ii) RISKS RELATING TO THE INDIAN ECONOMY

10. A slowdown in the economic growth in India could adversely impact our business.
11. The growth of the power sector in India is dependent on the continued growth of the Indian economy and regulatory developments in India. Any adverse change in policy implementation / industry demand may adversely affect us.
12. Our ability to raise foreign currency borrowings may be constrained by regulatory, statutory and legal conditions in the country.
13. Any downgrading of India's sovereign rating by a credit rating agency could have a negative impact on our business

(iii) RISKS RELATING TO THE BONDS

14. There is no guarantee that the Bonds issued pursuant to this Issue will be listed on BSE in a timely manner.
15. Any downgrading in credit rating of our Bonds may affect the trading price of our Bonds and our ability to raise funds.
16. Payments made on the Bonds will be subordinated to certain tax and other liabilities preferred by law.

X. DETAILS OF PROMOTERS OF THE COMPANY

None. (*NEEPCO Ltd. fully owned by the Government of India*)

XI. ABRIDGED VERSION OF AUDITED CONSOLIDATED (WHEREVER AVAILABLE) AND STANDALONE FINANCIAL INFORMATION (LIKE PROFIT & LOSS STATEMENT, BALANCE SHEET AND CASH FLOW STATEMENT) FOR AT LEAST LAST THREE YEARS AND AUDITOR QUALIFICATIONS , IF ANY

Email:- corporate@sbicaptrustee.com

A copy of the letter from SBICAP Trustee Company Ltd. conveying their consent to act as Trustee for the current issue of Bonds is enclosed elsewhere in this Disclosure Document.

NEEPCO and the Trustees shall enter into a Trustee Agreement specifying, inter alia, the powers, authorities and obligations of the Trustees and NEEPCO. By applying for the Bonds, the Bondholders shall without further action or deed, be deemed to have irrevocably given their consent to and authorised the Trustees or any of their agents or authorized officials to do, inter alia, all acts, deeds, matters and things in respect of or relating to the security to be created for securing the Bonds being offered in terms of this Document including the right to substitute or release any property charged in their favour and/or to create a charge on additional properties in their favour including the right of the Trustees to release, and/or substitute relevant title deeds in respect thereof. All the rights and remedies of the Bondholders shall vest in and shall be exercised by the Trustees without reference to the Bondholders. Any payment made by NEEPCO to the Trustees on behalf of the Bondholders shall discharge NEEPCO any liability to the Bondholders. No Bondholder shall be entitled to proceed directly against NEEPCO unless the Trustees, having become so bound to proceed, fail to do so.

XV. THE DETAILED RATING RATIONALE (S) ADOPTED (NOT OLDER THAN ONE YEAR ON THE DATE OF OPENING OF THE ISSUE)/ CREDIT RATING LETTER ISSUED (NOT OLDER THAN ONE MONTH ON THE DATE OF OPENING OF THE ISSUE) BY THE RATING AGENCIES SHALL BE DISCLOSED

The company has obtained a rating of **ICRA "AA", CARE "AA" and CRISIL "AA"** for the proposed Bond Issue vide letters dated **23rd September, 2015, 24th September, 2015** and **28th September, 2015** respectively. Instruments with this rating are considered to have very low credit risk.

The above ratings are not recommendations to buy, sell or hold securities and investors should take their own decision. The rating may be subject to revision or withdrawal at any time by the assigning rating agencies and should be evaluated independently of any other rating. The rating obtained is subject to revision at any point of time in the future. The rating agencies have the right to suspend, withdraw the rating at any time on the basis of new information etc.

XVI. IF THE SECURITY IS BACKED BY A GUARANTEE OR LETTER OF COMFORT OR ANY OTHER DOCUMENT / LETTER WITH SIMILAR INTENT, A COPY OF THE SAME SHALL BE DISCLOSED. IN CASE SUCH DOCUMENT DOES NOT CONTAIN DETAILED PAYMENT STRUCTURE (PROCEDURE OF INVOCATION OF GUARANTEE AND RECEIPT OF PAYMENT BY THE INVESTOR ALONG WITH TIMELINES); THE SAME SHALL BE DISCLOSED IN THE OFFER DOCUMENT.

Nil.

XVII. COPY OF CONSENT LETTER FROM THE DEBENTURE TRUSTEE "SBICAP TRUSTEE COMPANY LTD." DATED 18th SEPTEMBER, 2015 CONVEYING THEIR CONSENT TO ACT AS TRUSTEE FOR THE CURRENT ISSUE OF BONDS IS ENCLOSED ELSEWHERE IN THIS DISCLOSURE DOCUMENT.

XVIII. NAMES OF ALL THE RECOGNISED STOCK EXCHANGES WHERE THE DEBT SECURITIES ARE PROPOSED TO BE LISTED CLEARLY INDICATING THE DESIGNATED STOCK EXCHANGE.

The Secured Non-Convertible Redeemable Bonds in the nature of Debentures) are proposed to be listed on the Wholesale Debt Market (WDM) Segment of the **Bombay Stock Exchange of India Ltd. ("BSE").** The Company has obtained an in-principle approval from the BSE for listing of said Bonds on its Wholesale Debt Market (WDM) Segment. The Company shall make an application to the BSE to list the Bonds to be issued and allotted under this Disclosure Document and complete all the formalities relating to listing of the Bonds **within 15 days from the deemed date of allotment of the bonds.** If such permission is not granted **within 20 days** from the from the deemed date of allotment of the bonds or where such permission is refused before the expiry of the 20 days from the closure of the Issue, the Company shall forthwith repay without interest, all monies received from the applicants in pursuance of the Disclosure Document, and if such money is not repaid within the stipulated time after the Company becomes liable to repay it (i.e. from the date of refusal or 20 days from the date of closing of the subscription list, whichever is earlier), then the Company and every director of the Company who is an officer in default shall be jointly and severally liable to repay the money, with interest at the rate of 15 per cent per annum on application money, or as prescribed by the relevant rules and regulations.

In connection with listing of Bonds with BSE, the Company hereby undertakes that:

(a) It shall comply with conditions of listing of Bonds as may be specified in the Listing Agreement with BSE.
(b) Ratings obtained by the Company shall be periodically reviewed by the credit rating agencies and any revision in the rating shall be promptly disclosed by the Company to BSE.
(c) Any change in rating shall be promptly disseminated to the holder(s) of the Bonds in such manner as BSE may determine from time to time.
(d) The Company, the Trustees and BSE shall disseminate all information and reports on Bonds including compliance reports filed by the Company and the Trustees regarding the Bonds to the holder(s) of Bonds and the general public by placing them on their websites.
(e) Trustees shall disclose the information to the holder(s) of the Bonds and the general public by issuing a press release in any of the following events:
  (i) default by the Company to pay interest on Bonds or redemption amount;
  (ii) revision of rating assigned to the Bonds;
(f) The information referred to in para (e) above shall also be placed on the websites of the Trustees, Company & BSE.

XIX. OTHER DETAILS:

A. DRR CREATION - RELEVANT REGULATIONS AND APPLICABILITY

The Company shall create a Bond/Debenture Redemption Reserve in accordance with Section 18(7)(b) of the Companies (Share Capital & Debentures) Rules, 2014.

B. ISSUE/INSTRUMENT SPECIFIC REGULATIONS - RELEVANT DETAILS (COMPANIES ACT, RBI GUIDELINES, ETC)

1. Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide circular no. LAD-NRO/GN/2008/13/127878 dated June 06, 2008, as amended and Securities and Exchange Board of India (Issue and Listing of Debt Securities) (Amendment) Regulations, 2012 issued vide circular no. LAD-NRO/GN/2012-13/19/5392 dated October 12, 2012).

2. The Companies Act, 2013.

C. APPLICATION PROCESS:

PROCEDURE FOR APPLYING FOR DEMAT FACILITY

1. The applicant must have at least one beneficiary account with any of the Depository Participants (DPs) of NSDL or CDSL prior to making the application.
2. The applicant must necessarily fill in the details (including the beneficiary account number and Depository Participant's ID) appearing in the Application Form under the heading 'Details for Issue of Bonds in Electronic/ Dematerialised Form'.
3. Bonds allotted to an applicant will be credited directly to the applicant's respective Beneficiary Account(s) with the DP.
4. For subscribing the bonds, names in the application form should be identical to those appearing in the account details in the depository. In case of joint holders, the names should necessarily be in the same sequence as they appear in the account details in the depository.
5. Non-transferable allotment advice/refund orders will be directly sent to the applicant by the Registrars to the Issue.
6. If incomplete/incorrect details are given under the heading 'Details for Issue of Bonds in Electronic/ Dematerialised Form' in the application form, it will be deemed to be an incomplete application and the same may be held liable for rejection at the sole discretion of the Company.
7. For allotment of Bonds, the address, nomination details and other details of the applicant as registered with DP shall be used for all correspondence with the applicant. The Applicant is therefore responsible for the correctness of its demographic details given in the application form vis-à-vis those with their DP. In case the information is incorrect or insufficient, the Issuer would not be liable for losses, if any.
8. It may be noted that Bonds being issued in electronic form, the same can be traded only on the Stock Exchanges having electronic connectivity with NSDL or CDSL. Bombay Stock Exchange Limited., where the Bonds of the Company are proposed to be listed has connectivity with NSDL and CDSL.
9. Interest or other benefits would be paid to those Bondholders whose names appear on the list of beneficial owners given by the Depositories to the Company as on Record Date/ Book Closure Date. In case of those Bonds for which the beneficial owner is not identified by the Depository as on the Record Date/ Book Closure Date, the Company would keep in abeyance the payment of interest or other benefits, till such time that the beneficial owner is identified by the Depository and conveyed to the Company, whereupon the interest or benefits will be paid to the beneficiaries, as identified, **within a period of 15 days.**

HOW TO APPLY:

This being a private placement offer, investors who are established/ resident in India and who have been addressed through this communication directly only are eligible to apply. Application shall be for a minimum number of 5 (five) Bonds and multiples of 1 (one) Bond thereafter.

Applicants may remit their application money by way of electronic transfer of funds through RTGS mechanism or through Core Banking Solution (CBS) for credit in the account of in favour of the "**North Eastern Electric Power Corporation Ltd.**" for crediting the amount to the following bank accounts:

Beneficiary Name	**North Eastern Electric Power Corporation Ltd.**
Account No.	**270010200001120**
Bank	**Axis Bank Ltd.**
Branch	**Shillong Branch**
Location	**OB Shopping Mall, Police Bazaar, Shillong – 793001**
Account Type	**Current**
IFSC Code	**UTIB0000270**

All Application Forms duly completed (along with all necessary documents as detailed in this Disclosure Document) must be delivered before the closing of the issue to the Issuer. While forwarding the application form, applicants must ensure that the relevant UTR number/ or any other evidence of having remitted the application money is obtained. Detailed instructions for filling up the application form are provided elsewhere in this Disclosure Document.

Applications for the Bonds must be in the prescribed form (enclosed) and completed in BLOCK LETTERS in English and as per the instructions contained therein. Applications not completed in the prescribed manner are liable to be rejected. The name of the applicant's bank, type of account and account number must be filled in the Application Form. This is required for the applicant's own safety and these details will be printed on the refund orders and interest/ redemption warrants.

The applicant or in the case of an application in joint names, each of the applicant, should mention his/her Permanent Account Number (PAN) allotted under the Income-Tax Act, 1961 or where the same has not been allotted, the GIR No. and the Income tax Circle/Ward/District. As per the provision of Section 139A (5A) of the Income Tax Act, PAN/GIR No. needs to be mentioned on the TDS certificates. Hence, the investor should mention his PAN/GIR No. if the investor does

not submit Form 15G/15AA/other evidence, as the case may be for non-deduction of tax at source. In case neither the PAN nor the GIR Number has been allotted, the applicant shall mention "Applied for" and in case the applicant is not assessed to income tax, the applicant shall mention 'Not Applicable' (stating reasons for non applicability) in the appropriate box provided for the purpose. Application Forms without this information will be considered incomplete and are liable to be rejected.

Applications may be made in single or joint names (not exceeding three). In the case of joint applications, all payments will be made out in favour of the first applicant. All communications will be addressed to the first named applicant whose name appears in the Application Form at the address mentioned therein.

All applicants are requested to tick the relevant column "Category of Investor" in the Application Form. Public/ Private/ Religious/ Charitable Trusts, Provident Funds and Other Superannuation Trusts and other investors requiring "approved security" status for making investments.

No separate receipts shall be issued for the application money. However, the Issuer will acknowledge the receipt of the applications by stamping and returning the acknowledgment slip to the applicant. Applications shall be deemed to have been received by the Issuer Company when submitted at their designated branch.

For further instructions, please read Application Form carefully.

As per Section 72 of the Companies Act, 2013, only individuals applying as sole applicant/Joint Applicant can nominate, in the prescribed manner, a person to whom his Bonds shall vest in the event of his death. Non individuals including holders of Power of Attorney cannot nominate.

MODIFICATION OF RIGHTS

The rights, privileges, terms and conditions attached to the Bonds may be varied, modified or abrogated with the consent, in writing, of those holders of the Bonds who hold at least three fourth of the outstanding amount of the Bonds or with the sanction accorded pursuant to a resolution passed at a meeting of the Bondholders, provided that nothing in such consent or resolution shall be operative against the Company where such consent or resolution modifies or varies the terms and conditions of the Bonds, if the same are not acceptable to the Company.

XX. ISSUE DETAILS

ISSUE SIZE

The issuer proposes to issue 9000 bonds of face value of Rs.10,00,000/- each aggregating to Rs.900 crore.

AUTHORITY FOR THE ISSUE

The issue is being made in pursuance of the Board Resolution dated **10th February, 2015** and EGM Special Resolution dated **10th March, 2015.**

REGISTRATION AND GOVERNMENT APPROVALS

The Company can undertake the activities proposed by it in view of the present approvals and no further approval from any government authority(ies) is required by it to undertake the proposed activities and except those approvals which may be required to be taken in the normal course of business from time to time.

OBJECTS OF THE ISSUE

The funds will be utilized for prepayment of existing high cost borrowings and to finance the construction of various on-going hydro and thermal projects in the NER.

UTILISATION OF ISSUE PROCEEDS

The Company is managed by professionals under the supervision of its Board of Directors. Further, the Company is subject to a number of regulatory checks and balances as stipulated in its regulatory environment. Therefore, the management shall ensure that the funds raised via this private placement shall be utilized only towards satisfactory fulfillment of the objects of the issue. The Company further confirms that the proceeds of the current issue of Bonds shall not be used for providing loan to or acquisition of shares of any person who is part of the same group or who is under the same management.

MINIMUM SUBSCRIPTION

As the current issue of Bonds is being made on private placement basis, the requirement of minimum subscription shall not be applicable and therefore the Company shall not be liable to refund the issue subscription(s)/ proceed(s) in the event of the total issue collection falling short of issue size or certain percentage of issue size.

NATURE OF THE BOND

The bonds are Secured, Redeemable, Non-Convertible Taxable and in the nature of Debentures.

SECURITY

The Bonds together with interest costs and all other monies and amounts payable in respect of these Bonds will be fully secured by first pari-passu charge on identified Fixed Assets of the company with a minimum asset cover of 100% throughout the tenure of Bonds in favour of a Trustee.

The said security shall be created in favour of the Trustees within the stipulated regulatory period from the Deemed Date of Allotment or such extended period as may be permitted by the relevant authority(ies). The Security will be created by the Company, as aforesaid, in favour of the Trustee on such of the assets for which the Company obtains, after all due diligence and efforts, the requisite consents and permissions applicable under law or in accordance with the contractual conditions of holding of such assets for creating the above-mentioned charge. The creation of such security shall be sufficient compliance of the Company's obligation to create security.

TERMS OF PAYMENT

The full face value of the Bonds applied for is to be paid along with the application form. Investor(s) need to send in the application form and the Cheque/Demand Draft/ RTGS/ECS for the full face value of the Bonds applied for.

Issue Price of the Bond	Minimum Application for	Amount Payable on Application per Bond
Rs.10 lakhs	5 Bonds and in multiples of 1 Bond thereafter	Full Issue Price i.e. Rs.10 lakhs

PAY-IN-DATE & DEEMED DATE OF ALLOTMENT

Pay-in Date shall be the date on which application money has to be paid in favour of **"North Eastern Electric Power Corporation Ltd."** by a Cheque/Demand draft. The funds can also be remitted through RTGS. Details of the Account of the Company are given in the Application form of this document. The Company reserves the right to shift the Pay-in Date and/or the Deemed Date of Allotment to any other date or allot the Bonds on multiple dates without giving any reason or any prior notice. The Company may at its sole discretion accept the subscription amount after the Pay-in Date. All benefits available to the investors shall be from the Deemed Date of Allotment and actual allotment may occur on a date other than the Deemed Date of Allotment.

LETTER(S) OF ALLOTMENT/ BOND CERTIFICATE(S)/ REFUND ORDER(S) ISSUE OF LETTER(S) OF ALLOTMENT

The beneficiary account of the investor(s) with National Securities Depository Ltd. (NSDL)/Central Depository Services (India) Ltd. (CDSL)/ Depository Participant will be given initial CREDIT **within 2 working days** from the Deemed Date of Allotment. The initial CREDIT in the account will be akin to the Letter of Allotment. On completion of the all-statutory formalities, such CREDIT in the account will be akin to a Bond Certificate.

ISSUE OF BOND CERTIFICATE(S)

The Bonds since issued in electronic (dematerialized) form, will be governed as per the provisions of The Depository Act, 1997, Securities and Exchange Board of India (Depositories and Participants) Regulations, 1997, rules notified by NSDL/ CDSL/ Depository Participant from time to time and other applicable laws and rules notified in respect thereof. The Bonds shall be allotted in DEMAT form only.

MODE OF TRANSFER OF BONDS

Transfer of theses dematerialized bonds should be in accordance with the rules/procedures as prescribed by NSDL/CDSL/Depository participant of the transferor/transferee and all other applicable laws and rules notified in respect thereof.

PUT/ CALL OPTION

There is **NO** option for any Put or Call in the current issue.

DEPOSITORY ARRANGEMENTS

The Company has made depository arrangements with National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) for issue and holding of the Bonds in dematerialized form. As per the provisions of Depositories Act, 1996, the Bonds issued by The Company can be held in a dematerialized form, i.e. not in the form of physical certificates but be fungible and be represented by the statement issued through electronic mode. In this context, two Tripartite Agreements have been signed:

- Tripartite Agreement dated 18th June, 2002 between NEEPCO, NSDL and MCS Limited
- Tripartite Agreement dated 4th April, 2002 between NEEPCO, CDSL and MCS Limited

FICTITIOUS APPLICATIONS

Any person who:-
a) Makes, in a fictitious name, an application to a body corporate for acquiring or subscribing to, the bonds, or
b) Otherwise induces a body corporate to allot, or register any transfer of, bonds therein to them, or any other person in a fictitious name, shall be liable for legal consequences of such action.

MARKET LOT

The market lot will be one Bond ("Market Lot"). Since the Bonds are being issued only in dematerialised form, the odd lots will not arise either at the time of issuance or at the time of transfer of Bonds.

INTEREST ON APPLICATION MONEY

Interest at the Coupon Rate as per Termsheet (subject to deduction of income tax under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof, as applicable) will be paid to all the applicants on the application money for the Bonds.

Such interest shall be paid from and including the date of realisation of cheque(s)/demand draft(s)/ RTGS/ECS up to but excluding the Deemed Date of Allotment. Such interest would be paid on all valid application. The interest on application money will be computed on the basis of actual number of days elapsed in a year. For this purpose a year would comprise a period of 365 days. In the leap year the month of February shall be considered as of 29 days and the year would be of 366 days. Such interest would be paid on all the valid applications, including the refunds. Where the entire subscription amount has been refunded, the interest on application money will be paid along with the refund orders.

The interest on application money will be remitted through RTGS/ECS or interest cheque(s)/ demand draft(s) for interest on application money (along with Refund Orders, in case of refund of application money, if any) shall be dispatched by the NEEPCO **within 10 days** from the Deemed Date of Allotment and the relative interest warrant(s) along with the Refund Order(s), as the case may be, will be dispatched by registered post/courier/speed post to the sole/ first applicant, at the sole risk of the applicant.

INTEREST ON BONDS

The Bonds shall carry interest at the coupon rates as per term sheet (subject to deduction of tax at source at the rates prevailing from time to time under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof for which a certificate will be issued by NEEPCO) on the outstanding principal amount of Bonds till final redemption. Interest will be paid semi annually on **15th December** and **15th June** each year throughout the tenure of the Bonds till final redemption.

The first interest period shall be defined as actual number of days falling between the **Deemed Date of Allotment** to **15th December, 2015** including the first date but excluding the last date. The first interest payment would be made on **15th December, 2015**. This will be calculated by multiplying the nominal amount with the interest rate on an **"Actual / Actual"** day basis. The second and subsequent interest period is defined as the actual number of days between **15th December** and **15th June** and **15th June** & **15th December** including the first date but excluding the last date. This will be calculated by multiplying the nominal amount by the Interest Rate with the actual number of days divided by total number of days in the coupon period (as per SEBI's Circular No. CIR/IMD/DF/18/2013 dated October 29, 2013). The last Interest Payment would be made on the final redemption date, along with the redemption of principal amount. The last interest payment shall again be calculated on actual number of days i.e. from interest payment date to a day immediately preceding the date of redemption.

In case the Deemed Date of Allotment is revised (pre-poned/ postponed) then the Interest Payment Dates and Interest payment Schedule may also be revised accordingly by the Company at its sole & absolute discretion.

Interest on Bonds will cease from the date of final redemption in all events. If any interest payment date falls on a day which is not a Business Day ('Business Day' being a day on which Commercial Banks are open for Business in the city of **Shillong**) then payment of interest will be made on the next day that is a business day.

COMPUTATION OF INTEREST

The Bonds will carry interest rates as per the term sheet from the Deemed Date of Allotment. The interest will be paid from the Deemed Date of Allotment (subject to deduction of tax at source at the rates prevailing from time to time under the Income Tax Act, 1961 or any other statutory modification or re-enactment thereof) as per term sheet. The Interest shall be computed on **"Actual / Actual"** day count basis (refer SEBI's Circular No. CIR/IMD/DF/18/2013 dated October 29, 2013).

RECORD DATE

The Record Date for all interest payments and repayment of the bond value upon redemption will be the day immediately preceding the period of **15 days prior to the interest payment or redemption date**, as the case may be. Such payment will be made to the bondholder as appearing in the records of the RTA as on the said date. In case the record date, as defined herein, falls on a holiday, the record date shall be the previous Working Day immediately preceding such date.

DEDUCTION OF TAX AT SOURCE

Tax applicable under the Income-Tax Act, 1961, or any other statutory modification or re-enactment thereof will be deducted at source. Tax exemption certificate/ document, under section 193/197/197A of the Income Tax Act, 1961, if any, must be lodged at the office of the Issuer, at least fifteen (15) days prior to the interest payment date. The applicants must submit tax exemption certificate, if applicable, in respect of the interest on application money, if any, along with the application form as required under the Income Tax Act, 1961. In case of tax deducted at source, the Company will send the

TDS certificate to the investors. Therefore, to ensure non-deduction/lower deduction of tax at source from interest on application money, the investors should submit Form 15H/15AA, authority letter from Assessing Officer for non-deduction of tax as may be applicable, with the Application Form, on or before the closure of the Issue.

Regarding deduction of tax at source and the requisite declaration forms to be submitted, prospective investor is advised to consult his tax advisor before investing in the Bonds to be issued by NEEPCO.

REDEMPTION

The Bonds will be redeemed in 5 (Five) equal annual instalments each amounting to 20% of the Face Value of each Bond at the end of 11th, 12th, 13th, 14th and 15th years respectively from the Deemed Date of Allotment. The Bonds, up to the extent of the Face Value/installment(s) already redeemed, will not carry any obligation, for interest or otherwise, after the date of redemption.

The Bonds held in the dematerialised form shall be taken as discharged on payment of the redemption amount by the Company on maturity to the registered Bondholders whose name appear in the Register of Bondholders on the record date. Such payment will be a legal discharge of the liability of the Company towards the Bondholders.

In case the principal redemption date falls on a day which is not a Business Day ('Business Day' being a day on which Commercial Banks are open for Business in **Shillong**), then the payment due shall be made on the previous Business Day.

PAYMENT ON REDEMPTION

Payment on redemption will be made by cheque(s)/warrants(s) /demand draft /credit through ECS/RTGS system in the name of the Bondholder(s) whose name appears on the List of Beneficial Owners given by Depository to NEEPCO as on the Record Date. The Issuer's liability to Bondholder(s) towards all their rights including payment of interest or otherwise shall cease and stand extinguished from the due date of redemption in all events. Further, the Issuer will not be liable to pay interest, income or compensation of any kind from the date of such redemption of the Bonds.

Each installment of the Bonds shall be taken as discharged upon payment of the redemption amount on the 11th, 12th, 13th, 14th and 15th anniversary dates. The Bonds shall be taken as fully discharged upon payment of the final redemption installment on the 15th anniversary date. Such payment will be a legal discharge of the all liability of the Company towards the Bondholders. On payment of each redemption installment, the Company will inform NSDL/CDSL and accordingly the account of the Bondholders with NSDL/CDSL will be adjusted.

The liability of the Company shall stand discharged on posting of redemption warrants by Registered Post and/or remitting the redemption proceeds through ECS/EFT/RTGS to the above said Beneficiaries. No claim, damages or penal interest in respect of delayed payment, etc. shall lie upon the Company in the event of non-receipt of the same by the addressee Bondholder.

RIGHTS OF BONDHOLDERS

Bondholder is not a shareholder. The Bondholders will not be entitled to any other rights and privilege of shareholders other than those available to them under statutory requirements. The Bond(s) shall not confer upon the holders the right to receive notice, or to attend and vote at the General Meeting of the Company. The principal amount and interest on the Bonds will be paid to the registered Bondholders only, and in case of Joint Holders, to the one whose name stands first. Besides the above, the Bonds shall be subject to the provisions of the Companies Act, 1956, the Articles of Association of NEEPCO, the terms of this bond issue and the other terms and conditions as may be incorporated in the Trust deed and other documents that may be executed in respect of these Bonds.

EFFECT OF HOLIDAYS

Should any of the dates defined anywhere in the present Information Memorandum, except the Deemed Date of Allotment, fall on a Sunday or a Holiday, the next working day shall be considered as the effective date. In case the date involves a payment, then the next working day on which Scheduled Commercial Banks in Shillong are open for business shall be considered as the effective date.

LIST OF BENEFICIAL OWNERS /REGISTER OF BENEFICIAL OWNERS

The Company shall request the RTA to provide a list of Beneficial Owners as at the end of the Record Date. This shall be the list, which shall be considered for payment of interest or repayment of principal amount, as the case may be. The RTA shall maintain a register and an index of Beneficial Owners in the manner as provided for, in compliances with various applicable regulations.

SUCCESSION

In the event of the demise of the sole/first holder of the Bond(s) or the last survivor, in case of joint holders for the time being, the Company shall recognize the executor or administrator of the deceased Bondholder, or the holder of succession certificate or other legal representative as having title to the Bond(s). The Company shall not be bound to recognize such executor or administrator, unless such executor or administrator obtains probate, wherever it is necessary, or letter of administration or such holder is the holder of succession certificate or other legal representation, as the case may be, from a Court in India having jurisdiction over the matter. The Company may, in its absolute discretion, where it thinks fit, dispense with production of probate or letter of administration or succession certificate or other legal representation, in order to recognize such holder as being entitled to the Bond(s) standing in the name of the deceased Bondholder on production of sufficient documentary proof or indemnity.

Where a non-resident Indian becomes entitled to the Bond by way of succession, the following steps have to be complied with:

a. Documentary evidence to be submitted to the Legacy Cell of the RBI to the effect that the Bond was acquired by the NRI as part of the legacy left by the deceased holder.

b. Proof that the NRI is an Indian National or is of Indian origin. Such holding by the NRI will be on a non-repatriation basis

FUTURE BORROWINGS

Company reserves the right to make further issues of Bonds or raise loans from any source it deems fit on the security or otherwise of its assets without the consent of the Trustees and without any approval from the bondholders of these present bonds. However, NOC from Debenture Holder (LIC) shall be required for creating pari-passu charge.

DECLARATION REGARDING NON-DEFAULT

Company has never defaulted in payment of interest or principal redemption on any of the Bonds issued by it nor has it defaulted in case of non-allotment of Bonds or payment of application money.

NOTICES

Any notice to the Bondholder required to be sent by Company shall be deemed to have been given if sent by registered post /courier to the holders appearing in the most recent records of the RTA.

All notices to be given by the Beneficial Owners of Bonds shall be sent by Registered Post or by Hand Delivery to the Company or such persons, at such address, as may be notified by the Company from time to time.

All communications from bondholders to NEEPCO shall be addressed to:

The Executive Director (Finance), North Eastern Electric Power Corporation Limited,
Brookland Compound, Lower New Colony, Shillong 793 003

TAX BENEFITS TO THE BONDHOLDERS OF THE COMPANY

The holder(s) of the Bonds are advised to consider in their own case, the tax implications in respect of subscription to the Bonds after consulting their own tax advisor/ counsel.

DISPUTES & GOVERNING LAWS AND JURISDICTION

The Bonds shall be construed to be governed in accordance with Indian laws and rules framed there under. Any dispute between NEEPCO and the bondholders will subject to the jurisdiction of the Shillong High Court.

CERTIFIED TRUE COPY OF THE BOARD RESOLUTION PASSED BY THE BOARD OF DIRECTORS OF NORTH EASTERN ELECTRIC POWER CORPORATION LTD. IN ITS 213TH BOARD MEETING HELD ON 10TH FEBRUARY 2015 AT AIZAWL.

AGENDA NO: 213.13

MOBILIZATION OF Rs.1500.00 CRORE IN THE FORM OF REDEEMABLE NON-CONVERTIBLE TAXABLE DEBENTURES (NEEPCO PSU BONDS) FOR FUNDING THE CAPITAL EXPENDITURE OF THE CORPORATION

RESOLUTIONS:

Resolved that mobilisation of Rs.1500 crore (Rs.600 crore by 31st March, 2015 and Rs.900 crore during 2015-16) for the various on-going projects of the Corporation in the form of Redeemable Non-Convertible Taxable Debentures / NEEPCO PSU Bonds is hereby recommended for approval of the Shareholders in terms of Rule No.14 (2)(a) of Chapter 3 of the Companies (Prospectus and Allotment of Securities) Rules, 2014.

Resolved that upon approval of the Shareholders for mobilisation of these NEEPCO PSU Bonds, the Chairman and Managing Director be and is hereby authorised to complete all formalities and execute all documents for

(i) Selection and engagement of the Arranger/s, if required, through limited tender to those appearing in the PRIME Database League Table (Private Placements of Debt for PSUs) for the period April 1, 2014 to December 31, 2014 and finalize the terms and conditions of appointment and do all acts and things as may be considered necessary in connection with the appointment of the Arranger/s.

(ii) Allotment of Bonds to the Bondholders in relation to these NEEPCO PSU Bonds.

(iii) Listing on BSE and/or NSE, for dematerialization with the NSDL/CDSL, creation of charge required for raising these funds and for fulfilling all necessary legal and statutory requirements in relation to these NEEPCO PSU Bonds.

Resolved that the Chairman and Managing Director be and is hereby authorised to delegate the powers conferred by the Board in respect of these NEEPCO PSU Bonds.

Resolved further that the approval of the Board be and is hereby accorded for affixation of the Common Seal of the Company on all necessary documents and in the presence of a Director.

Resolved that creation of security by way of mortgage and/or hypothecation of the assets of the Corporation for providing security to the Bondholders of the NEEPCO PSU Bonds aggregating Rs.1500.00 crore is hereby recommended for approval of the Shareholders in terms of Section 180(1)(a) of the Companies Act, 2013.

The Board further authorizes the Chairman and Managing Director to convene a meeting of the Shareholders and fix the date, time and venue for the same.

Dear Sir,

Re: Private Placement of Secured, Redeemable Non-Convertible Taxable Bonds in nature of Debentures (XVI Issue) for cash at par with a face value of Rs.10,00,000/- each aggregating Rs.900 Crore.

We acknowledge receipt of your application online portal on September 21, 2015 seeking In-principle approval for issue of captioned security. In this regard, the Exchange is pleased to grant in-principle approval for listing subject to fulfilling the following conditions:

1. Filing of listing application.
2. Payment of fees as may be prescribed from time to time.
3. Compliance with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 as amended 2012, and submission of Disclosures and Documents as per Regulations 21, in the format specified in Schedule I of the said Regulations and also Compliance with provisions of Companies Act 2013.
4. Receipt of Statutory & other approvals & compliance of guidelines issued by the statutory authorities including SEBI, RBI, DCA etc. as may be applicable.
5. Compliance with change in the guidelines, regulations directions of the Exchange or any statutory authorities, documentary requirements from time to time.

This In Principle Approval is valid for a period of 1 year from the date of issue of this letter. The Exchange reserves its right to withdraw its in-principle approval at any later stage if the information submitted to the Exchange is found to be incomplete/ incorrect/misleading/false or for any contravention of Rules, Bye-laws and Regulations of the Exchange, Listing Agreement, Guidelines/Regulations issued by the statutory authorities etc. Further, it is subject to payment of all applicable charges levied by the Exchange for usage of any system, software or similar such facilities provided by BSE which the Company shall avail to process the application of securities for which approval is given vide this letter.

North Eastern Electric Power Corporation Limited
Brookland Compound,
Lower New Colony,
Shillong – 793003

Dear Sir,

Re: ICRA rating for Rs. 900 crore Non-Convertible Debenture (NCD) Programme of North Eastern Electric Power Corporation Limited

This is with reference to your email dated September 22, 2015, for re-validating your rating for the fresh NCD Programme of Rs. 900 crore.

We confirm that the **"[ICRA]AA" rating with a Stable outlook,** assigned to the captioned NCD programme of your company, and last communicated to you vide our letter dated August 13, 2015 stands. Instruments with [ICRA]AA rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk.

The other terms and conditions for the credit rating of the aforementioned instrument shall remain the same vide our letter Ref No: ICRA/KOL/RA/2015-16/369 dated August 13, 2015.

With kind regards,
For ICRA Limited

Jayanta Roy

Dear Sir,

Credit rating for proposed Non-Convertible Debenture issue

Please refer to our letter no. **CARE/KRO/RL/2015-16/1189** dated August 05, 2015 for the rating of proposed long-term Non-Convertible Debenture (NCD) issue aggregating Rs.900 crore.

2. We are now in receipt of your request for revalidation of the said rating on the basis of revised terms of the NCD.
3. We are pleased to reaffirm the rating of **'CARE AA' [Double A]** to the aforesaid NCD issue.
4. The repayment terms of the NCD is attached.as **Annexure I.**
5. All other terms and conditions contained in our rating letter no. **CARE/KRO/RL/2015-16/1189** dated August 05, 2015 would remain the same.

If you need any clarification, you are welcome to approach us in this regard.

Thanking you,

Yours faithfully,

(Abhishek Khemka)

CRISIL RATINGS

Mr. Moni Raman
Executive Director (Finance)
North Eastern Electric Power Corporation Ltd
Brookland Compound,
Lower New Colony,
Laitumkhrah,
Shillong - 793003
Tel:364 2228779

Dear Mr. Moni Raman,

Re: CRISIL Rating on the Rs. 9 Billion Non-Convertible Debentures of North Eastern Electric Power Corporation Ltd

All ratings assigned by CRISIL are kept under continuous surveillance and review.

Please refer to our rating letter dated August 27, 2015 bearing Ref. no.: NOTESTEPC/137283/NCD/081501319.

Please find in the table below the ratings outstanding for your company.

S.No.	Instrument	Rated Amount (Rs. in Billion)	Rating Outstanding
1	Non-Convertible Debentures	9.00	CRISIL AA/Stable

As per our Rating Agreement, CRISIL would disseminate the rating along with outlook through its publications and other media, and keep the rating along with outlook under surveillance for the life of the instrument. CRISIL reserves the right to suspend, withdraw or revise the ratings assigned to the captioned instrument at any time, on the basis of new information, or unavailability of information or other circumstances, which CRISIL believes, may have an impact on the rating.

As per the latest SEBI circular (reference number: CIR/IMD/DF/17/2013; dated October 22, 2013) on centralized database for corporate bonds/debentures, you are required to provide international securities identification number (ISIN; along with the reference number and the date of the rating letter) of all bond/debenture issuances made against this rating letter to us. The circular also requires you to share this information with us within 2 days after the allotment of the ISIN. We request you to mail us all the necessary and relevant information at debtissue@crisil.com. This will enable CRISIL to verify and confirm to the depositories, including NSDL and CDSL, the ISIN details of debt rated by us, as required by SEBI. Feel free to contact us for any clarifications you may have at debtissue@crisil.com

Should you require any clarifications, please feel free to get in touch with us.

With warm regards,

Yours sincerely,

Tushar Kumar Shah
Associate Director - CRISIL Ratings

Nivedita Shibu
Team Leader - CRISIL Ratings

A CRISIL rating reflects CRISIL's current opinion on the likelihood of timely payment of the obligations under the rated instrument and does not constitute an audit of the rated entity by CRISIL. CRISIL ratings are based on information provided by the issuer or obtained by CRISIL from sources it considers reliable. CRISIL does not guarantee the completeness or accuracy of the information on which the rating is based. A CRISIL rating is not a recommendation to buy, sell, or hold the rated instrument; it does not comment on the market price or suitability for a particular investor. All CRISIL ratings are under surveillance. Ratings are revised as and when circumstances so warrant. CRISIL is not responsible for any errors and especially states that it has no financial liability whatsoever to the subscribers / users / transmitters / distributors of this product. Rating of [ICRA]AA assigned to the proposed non-convertible debenture programme of North Eastern Electric Power Corporation Limited

Instrument	Amount (in Rs. Crore)	Rating Action
Proposed Non-Convertible Debenture Programme	900.00	[ICRA]AA/Stable assigned

ICRA has assigned a long term rating of [ICRA]AA (pronounced ICRA double A)[1] with a Stable outlook to the Rs 900 crore proposed non-convertible debenture programme of North Eastern Electric Power Corporation Limited (NEEPCO).

The rating takes into account the significant progress achieved thus far in the ongoing 600 MW Kameng hydroelectric project, with dam excavation and tunnel boring being completed in March 2015, thereby significantly mitigating risks associated with geological uncertainties, and the commissioning of 152 MW of gas based capacity at Tripura and Agartala in the current financial year, which is expected to support NEEPCO's overall profits and cash accruals going forward. ICRA notes that the project is now on course for an early commissioning in H1 FY 2016-17. The rating also takes into account the improvement in the company's receivables position in FY 2014-15 post the substantial collections from Assam Power Distribution Corporation Ltd. as well as commencement of payments from Meghalaya Energy Corporation Ltd., and the increase in NEEPCO's turnover and profitability in FY 2014-15. ICRA observes that in Q1 FY 2015-16, NEEPCO has achieved a robust generation growth of 31% yoy, due to higher generation from the Kopili and Ranganadi hydroelectric stations, and this is expected to support the company's current year's performance. The rating further factors in NEEPCO's sovereign ownership and demonstrated support from the Government of India (GoI), its strategic importance to the power scenario in North East India, with the company meeting around ~33% of regional power demand, and the company's limited demand risks arising from its competitive cost of power, and the location of its plants in the North Eastern region, where competitive intensity is lower due to the existence of only a few number of players. ICRA notes that the availability of domestic gas for NEEPCO's gas based stations, at a discount to the Government notified price, leads to a competitive tariff for gas based stations. In FY 2014-15, despite the 5% year-on-year (yoy) decline in overall generation, the average tariff for NEEPCO's operational generation stations remained at a reasonable level of Rs 3.39/kwh. NEEPCO has signed long term power purchase agreements with the 7 State Electricity Utilities (SEUs) of the North Eastern Region for its 922 MW upcoming power projects, and this mitigates off-take risks to an extent. The rating also derives comfort from the cost-plus nature of the company's operations, leading to steady business returns, its limited exposure to regulatory risks, given that the tariff petition for all operational generation stations being filed for the FY 2014-15 to FY 2018-19 period. ICRA notes that the Central Electricity Regulatory Commission (CERC) hearings for NEEPCO's tariff petitions have already been completed, and therefore the final orders are expected shortly.

Despite the substantial progress made in ongoing projects, the rating is, however, tempered by NEEPCO's significant capex plans that remain in the medium term, exposing the company to project execution risks. Such risks get accentuated owing to location of its plants in the North Eastern region, where operational hurdles remain high. The rating is also constrained by the time and cost over-runs at the under-construction hydroelectric projects, which is likely to lead to tariff escalations, especially for the 110 MW Pare and 60 MW Tuirial projects. However, NEEPCO's average pooled tariff would continue to remain competitive, supported by low tariffs from existing generation stations. Given the significant cost

[1] 100 lakh = 1 crore = 10 million

escalations in NEEPCO's ongoing hydroelectric projects, and the absence of Government approval for the revised cost estimates, there has been a delay in equity infusion by GoI for funding the equity component of the cost escalation. This has led to increased dependence on debt funding, in turn leading to increasing leveraging. However, ICRA observes that GoI is expected to approve the revised cost estimate for the Kameng project shortly, and subsequently also bring in 30% of the equity contribution for the project's cost escalation. The rating further incorporates NEEPCO's exposure to State Electricity Boards having weak financial profile, thereby resulting in significant counter party credit risks, and the company's less diversified customer base, with Assam Power Distribution Company Limited alone contributing to more than 50% of revenues, thus exposing the company to customer concentration risks as well. Given the deteriorating financial health of distribution utilities, the company's ability to sustain its collection efficiencies would remain a key rating lever. As on March 31, 2015, ~21% of NEEPCO's debt profile is comprised of foreign currency loans, which remain un-hedged, thereby exposing the company to risks associated with currency fluctuations. Going forward, NEEPCO's ability to complete the ongoing projects without any further cost or time overruns, and GoI's timely support to ensure tariff competitiveness for these projects will be key rating sensitivities.

Company Profile

NEEPCO, which was incorporated as a 100% GoI owned generating company in April, 1976, has been mandated to harness the power generation potential, both through the hydro and thermal power route in North-Eastern region of India. NEEPCO assumes strategic importance to the power scenario in North East India, with the company meeting around 33% of overall regional power demand. NEEPCO has been conferred the "Mini Ratna – Category I" status by GoI. The company currently has 1135 MW generation capacity in operation, of which 755 MW is hydro based, 375 MW is gas based, and the balance 5 MW is solar power based. NEEPCO is also implementing several greenfield projects located in different states of North-East India, of which 5 projects, totalling around 922 MW, are currently under execution. The total estimated cost for all the ongoing projects, which are scheduled for commissioning in phases from FY 2015-16 onwards, is Rs. 10,715 crore.

Recent Results

NEEPCO reported a net profit of Rs 310.34 crore (provisional) in FY 2014-15 on the back of an operating income of Rs 1539.66 crore (provisional), as against a net profit of Rs 245.39 crore on the back of an operating income of Rs 1331.39 crore in FY 2013-14.

Dear Sir,

Credit rating for Bank Facilities

Please refer to our letters dated July 31, 2015 and August 05, 2015 on the captioned subject.

2. The rationale for the ratings is attached as ***Annexure I***. Kindly note that the rationale would be published in the forthcoming issue of our monthly journal, 'CAREVIEW'.
3. A write-up (brief rationale) on the above rating is proposed to be issued to the press shortly. A draft is enclosed for your perusal as ***Annexure II***.
4. We request you to peruse the Rationale and Press Release and offer your comments, if any. We are doing this as a matter of courtesy to our clients and with a view to ensure that no factual inaccuracies have inadvertently crept in. Kindly revert as early as possible. In any case, if we do not hear from you by August 06, 2015 we will proceed on the basis that you have no comments to offer.

If you need any clarification, you are welcome to approach us in this regard.

Thanking you,

Yours faithfully,

(Abhishek Khemka)

Annexure I

Rationale

North Eastern Electric Power Corporation Ltd. (NEEPCO)

Ratings

Facilities	Amt (Rs. cr)	Rating[1]	Remarks
Non-Convertible Debentures	3,100	CARE AA (Double A)	Revised from CARE AA- (Double A minus)
Proposed Non-Convertible Debentures	900	CARE AA (Double A)	Assigned

Rating Rationale

The revision in rating takes into account reduction in project implementation risk occasioned out of completion of 152 MW of gas based projects, significant physical progress in Kameng Hydro Power Project (600 MW) with commissioning of the project being preponed to June 2016 (as against April 2017), recovery of old dues and improvement in profitability during FY15.

The rating continues to draw strength from the controlling stake and financial support of Government of India (GoI), NEEPCO's established track record in implementing power projects in North-Eastern India and satisfactory operational efficiency of its power stations backed by assured returns based on the Central Electricity Regulatory Commission (CERC) fixed tariffs. The rating is however constrained by the residual risks associated with the implementation of the ongoing projects and counter party risks.

Going forward, the ability of the company to successfully commission the ongoing projects within time & cost estimates, timely collection of proceeds from counter party, and any major debt funded capital expenditure shall be the key rating sensitivities.

Background

North Eastern Electric Power Corporation Ltd. (NEEPCO), incorporated in the year 1976 as a GoI undertaking (100% holding), has been set up to construct, generate, operate and maintain power stations in the North Eastern Region (NER) of the country. NEEPCO is a Miniratna Category – I company. The company is currently into generation of power through Hydro (capacity 755 MW) Gas based - thermal (capacity 375 MW) and Solar (capacity 5 MW) route in the NER with a total installed capacity of 1,135 MW; making NEEPCO the largest power producer in NER by catering to around 50% of the region's energy requirements. Of the total installed capacities, 755 MW (66.5%) pertains to Hydro based capacities with five operational capacities instituted across the states of Assam (3 capacities), Nagaland and Arunachal Pradesh (1 capacity each). The remaining 375 MW (33.0%) pertains to its gas based capacities with two operational capacities instituted across Assam and Tripura and 5 MW (0.5%) of solar capacity in Tripura.

NEEPCO is currently setting up projects of 922 MW through 5 projects (3 hydro - 770 MW and 2 thermal – 152 MW) across NER as part of its 12th Five Year Plan The total cost of the ongoing

[1] *Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE publications.*

3rd Floor, Prasad Chambers, (Shagun Mall Bldg.), 10A, Shakespeare Sarani, Kolkata 700 071.

projects, which are scheduled for commissioning in phases by Q1FY17, is estimated to be Rs.10,705 crore (*pending approval from the appropriate authority*) being financed in the debt to equity ratio of 7:3. NEEPCO has already expended Rs.6,828 crore till March 31, 2015.

Credit Risk Assessment

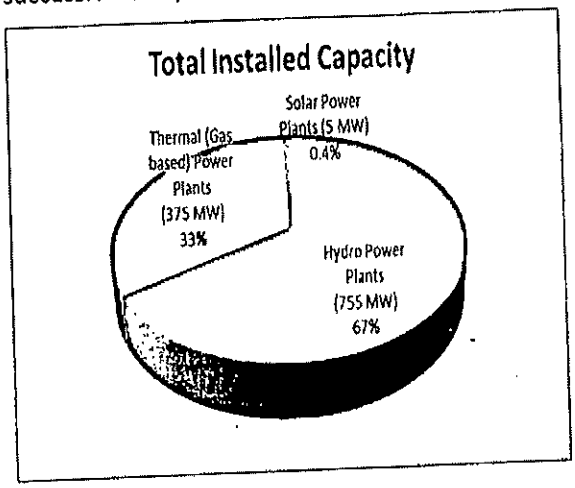
Sovereign controlling stake and financial support of GoI

NEEPCO, a 'Miniratna – I' and GoI enterprise, has been under the administrative control of Ministry of Power, GoI, since April 1976. GoI through its 100% equity holding in NEEPCO has demonstrated considerable financial support to the company in the form of regular equity infusion to part finance the completed/ ongoing projects & normal business operations. Further, GoI has also provided loan of Rs.291 crore for the ongoing project at the interest rate of 1%.

The company is governed by 11 members Board of which there is 4 executive directors, 5 independent directors and 2 government nominees. The day to day affairs of the company are looked after by CMD and three functional directors with adequate support from a team of experienced professionals.

Established track record in implementing power projects in North-East India

NEEPCO has wide experience and expertise in implementing hydro projects in the north-east which provides it significant competitive advantages over others. The company has a strong design and engineering base with in-house expertise in geology, geo-physics, geo-technics, construction and material surveys. NEEPCO's strong project management skills are demonstrated through its successful completion and operation of the power projects in the toughest of the terrains.



NEEPCO originated with a hydro power plant of 250 MW named as Kopili Hydro Electric Project (with COD in phases during 1984 and 1988) followed by NEEPCO's first gas based power project (291MW) in the state of Assam during 1995-98. The said power plants are the oldest (~ 20-30 years old) amongst its operational facilities with a satisfactory generation history.

Hydro Power Plants	Capacity (MW)	Year of Commissioning	Cost (Rs. Cr.)	Type
Khandong, Assam	25X2=50	1984	122	Reservoir based Hydroelectric
Kopili Stage I, Assam	50X4=200	1988-1997	267	
Doyang, Nagaland	25X3=75	2000	758	
Ranganadi, Arunachal Pradesh	135X3=405	2002	1,455	Run-of-river Hydroelectric
Kopili Stage II, Assam	25X1=25	2004	82	Downstream of Khandong
Total	755		2,684	

3rd Floor, Prasad Chambers, (Shagun Mall Bldg.), 10A, Shakespeare Sarani, Kolkata 700 071.
Tel: +91-33-4018 1600 / 02 | Fax: +91-33-4018 1603 | Email: care@careratings.com | www.careratings.com
CIN-L67190MH1993PLC071691

Gas based Power Plants	Capacity (MW)	Year of Commissioning	Cost (Rs. Cr.)	Type
Assam Power Plant	33.5X6+30X3=291	1995-99	1,514	Combined Cycle Gas Turbine
Agartala Power Plant	21X4=84	1988	336	Open Cycle Gas Turbine
Total	375		1,850	

Solar Power Plants	Capacity (MW)	Year of Commissioning	Cost (Rs. Cr.)	Type
Tripura Power Plant	5	2015	49.5	Monocrystalline SPV module
Total	5		49.5	

Competitive Advantage owing to prominent operating capacities in North-East India

NEEPCO is into generation of power through Hydro Thermal and Solar power route in the NER with a total installed capacity of 1,135 MW; making NEEPCO the largest power producer in NER by catering to 47-50% of the region's energy requirements. Other major player in the region is NHPC with an installed capacity of 105 MW followed by small state level generation companies.

Satisfactory operational efficiency of power stations

Hydro Power Plant

NEEPCO's hydro projects (755 MW) have a satisfactory track record of operation:

Hydro Power Plant	Capacity MW	Normative PAF (%)	Actual PAF (%)					
			FY10	FY11	FY12	FY13	FY14	FY15
			Tariff Period (2009-14)					TP (2014-19)
Kopili Hydro Project , Assam	275	76	63	66	77	67	55	50
Doyang, Nagaland	75	73	62	76	74	66	75	63
Ranganadi, Arunachal Pradesh	405	85	95	90	94	95	94	86

Hydro Power Plant	Capacity MW	Design Energy	Actual Generation (MUs)						
			FY10	FY11	FY12	FY13	FY14	FY15	Q1FY16
			Tariff Period (2009-14)					TP (2014-19)	
Kopili Hydro Project, Assam	275	1,550	931	949	1,185	924	973	717	198
Doyang, Nagaland	75	227	180	257	229	213	246	165	11
Ranganadi, Arunachal Pradesh	405	1,510	1025	1408	980	1,240	981	1,110	365
Grand Total	755	-	2,136	2,614	2,394	2,377	2,200	1,992	575

Kopili Hydroelectric Project (275 MW) has tracked a sound generation record with satisfactory PAF and generation levels (in line with the normative standards) in the past. However in the recent years, due to rise in the content of sulfur in the Kopili River steam, backed by increased coal mining in the adjoining areas of Upper Assam, resulted in acidification of the water body which in turn has exposed the power generating machineries to constant corrosion and mutilation.

Henceforth generation in the Kopili hydroelectric station has witnessed a sharp down fall in the last three years (PAF stood at 50% in FY15 vis-à-vis 77% in FY12) due to continuous renovation and modernization works carried out for replacing the damaged parts worn out by corrosion. However, during Q1FY16 the performance of the plant has improved substantially with generation output of 198 million units in Q1FY16 vis-à-vis 30 million units in Q1FY5.

3rd Floor, Prasad Chambers, (Shagun Mall Bldg.), 10A, Shakespeare Sarani, Kolkata 700 071.
Tel: +91-33-4018 1600 / 02 | Fax: +91-33-4018 1603 | Email: care@careratings.com | www.careratings.com
CIN-L67190MH1993PLC071691

Doyang Hydroelectric Station (75 MW), Plant availability and generation has remained satisfactory over the years with PAF of around 65-75% vis-à-vis NAPAF of 73%. Further, against design energy of 227 MU, the actual generation has remained high and mostly beyond and above the design energy (108% in FY14). However during FY15, due to low rainfall in the region there had been a sharp decline in the generation levels, which however has improved in Q1FY16 (11 MU in Q1FY16 as against 8 MU in Q1FY15).

Ranganadi Hydroelectric Station (405 MW) witnessed higher generation and better-recovery of energy charges during FY15 and Q1FY16 on account of good rainfall in the region. Further, as against design energy of 1510 MU, the highest generation reported in the last 6 years was 1408 MU (in FY11).

Gas based Power Plant

The performance of NEEPCO's two gas based power plants in terms of generation levels have continued to remain satisfactory over the years, and the plants have operated close to normative parameters as defined by CERC, thereby limiting the under-recovery of revenues.

Gas based Power Plant	Capacity MW	Normative	FY10	FY11	FY12	FY13	FY14	FY15	Q1FY16
			Tariff Period (2009-14)					TP (2014-19)	
PAF (%)									
Assam Gas Power Plant	291	72	70	74	70	66	69	70	66
Agartala Gas Power Plant	84	85	90	87	89	86	87	83	87
PLF (%)									
Assam Gas Power Plant	291	-$	69	72	69	66	68	70	66
Agartala Gas Power Plant	84	-$	90	88	90	86	87	83	87

$ PLF norms for thermal power stations no longer exist in the 2009-14 tariff period

Gas based Power Plant	Capacity MW	Actual Generation (MUs)						
		FY10	FY11	FY12	FY13	FY14	FY15	Q1FY16
		Tariff Period (2009-14)					TP (2014-19)	
Assam Gas Power Plant	291	1,750	1,835	1,765	1,680	1,726	1,741	405
Agartala Gas Power Plant	84	663	644	666	633	642	629	178
Total	**375**	**2,413**	**2,479**	**2,431**	**2,313**	**2,368**	**2,370**	**583**

Assam Gas Plant- The plant availability for the Assam gas based generation station had remained satisfactory over the years (around 69-70% as against NAPAF of 72%) with generation output showing an improving trend post decline in the output levels during FY13. NEEPCO current has contracted quantity of 1.4 mmscmd available from Oil India Limited.

Agartala Gas Plant- Agartala based power plant is well placed in terms of plant availability and PLF factor which has remained consistently above the normative benchmarks of 85% over the years. Fuel is adequately availability in the region with a contracted gas supply of 0.75 mmscmd from ONGC and GAIL.

Solar based Power Plant

The solar power project (5MW) is located within the premises of the upcoming thermal power project (101 MW gas based plant) at Monarchak, Tripura. The project got commissioned on February 04, 2015 (COD - February 04, 2015) and has generated around 1 MU units during its 55 days of operation in FY15 and 1.5 MU in Q1FY16. The project is the largest Grid Interactive Solar Power Plant in the North Eastern Region of India.

Revenue visibility backed by assured returns based on the CERC fixed tariffs

The tariffs for each power station of NEEPCO are determined as per the tariff regulation notified by CERC. The tariff is determined by referring to Annual Fixed Charges (AFC), which comprise of interest on loan, depreciation, interest on working capital, operation & maintenance expenses (O&M) and Return on Equity (ROE). While the 'cost-plus tariff' mechanism assures recovery of cost, there is a risk of probable non-receipt of approval for various costs incurred, upon non-achievement of normative operational parameters. Tariff of NEEPCO for the period FY09-FY14 has all been approved by the regulatory authority and the corporation has already filed tariff petitions for the period 2014-19 with the CERC. Also, sale of energy is governed by Power Purchase Agreements (PPA) signed by NEEPCO with the Beneficiaries (currently all the seven states of NER). Further, the company has PPA's in place for the upcoming projects also.

Counterparty risk

NEEPCO has SEUs as its customers and thereby is exposed to counterparty risk. NEEPCO's customer includes the distribution utilities of all the seven states in the North-East India, with Assam Power Distribution Company Limited (APDCL), accounting for around 50% of its billings. Given the weak financial profile of the distribution utilities the company remains exposed to counter party risk regarding timely collection of sale proceeds. The average collection period has consistently

CIN-L67190MH1993PLC071691

remained high (6-7 months) mainly on account of delay in receiving the sales proceeds mainly from APDCL & Meghalaya Energy Corporation Ltd. (MeECL).

Name of the SEU	FY13			FY14			FY15		
	Sales	Debtors	Debtors as a % of Sales	Sales	Debtors	Debtors as a % of Sales	Sales	Debtors	Debtors as a % of Sales
	Amt. (Rs. crore)			Amt. (Rs. crore)			Amt. (Rs. crore)

Others	15.5	(0.5)	*-3*	8.1	1.8	*22*	32.5	1.8	*6*
Total	**1,325.2**	**744.9**	*56*	**1,279.7**	**791.9**	*62*	**1,530.5**	**768.5**	**50**

However during FY15, NEEPCO has recovered old dues of around Rs.300 crore from APDCL and has taken necessary steps towards recovering the old dues from MeECL. Going forward, given the weak financial health of the distribution utilities, timely collection of the proceeds would remain a key rating sensitivity.

Substantial reduction in project Risks associated with implementation of large expansion projects

NEEPCO being a Public Sector Enterprise has to go through a long drawn process for getting approvals for projects which altogether take around 2~3 years' time. The company had envisaged setting up 5 power projects (Kameng – 600 MW, Pare – 110 MW, Tuirial – 60 MW, Tripura Gas Turbine – 101 MW and Agartala Combined Cycle Extension – 51 MW) by 2010. However, all these projects suffered substantial time and cost overrun due to geological, logistical, climatic & technological hurdles, followed by change in the scope of work, increase in steel & cement prices and inadequate road accessibility in the remote areas of NER where the projects are located. The revised aggregate cost of all the projects amounts to Rs.10,705 crore (revised from Rs.4,905 cr) and the company has expended Rs.6,828 crore till March 31, 2015 on all the above projects.

There has been a revision in the project cost mainly on account of increase in project cost for Kameng project (600 MW) from Rs.2,497 crore to Rs.6,476 crore due to change in price level from Dec.2011 to Dec 2014. However, the project has been shortlisted under Hon'ble Prime Ministers PRAGATI (Pro-Active Governance and Timely Implementation) Program wherein the project has been put under fast track clearance and the commissioning of the project has been preponed to June 2016 (revised from April 2017). Till June 30, 2015, excavation of the entire 15.5 Km tunnel and setting up of the dam is almost complete, which reduces the geological and project implementation risk significantly. This coupled with the successfully completion (COD proposed in H1FY16) of the Tripura and Agartala Gas Power Plant (aggregate capacity of 152 MW) softens the project

3rd Floor, Prasad Chambers, (Shagun Mall Bldg.), 10A, Shakespeare Sarani, Kolkata 700 071.
Tel: +91-33-4018 1600 / 02 | Fax: +91-33-4018 1603 | Email: care@careratings.com | www.careratings.com
CIN-L67190MH1993PLC071691

implementation risk to a greater extent. The other projects (Pare – 110 MW, Tuirial – 60 MW) are also under advanced stage of completion and are expected to be operational by Q4FY16.

The revised aggregate cost of all the projects of Rs.10,705 crore (pending approval from the appropriate authority) is being funded at a debt equity ratio of 7:3 except Tuirial Hydro Project, for which debt equity ratio is 8.5:1.5. The equity component for NEEPCO's proposed power projects is expected to be contributed by GoI (majorly) and through internal accruals. The revised cost of the projects is yet to be approved by the Ministry. Pending receipt of equity from GoI and debt tie up for revised cost, company has temporarily funded the project expenses out of internal accruals. The company has raised Rs.2,500 cr of NCD for prepayment of term loan from Power Finance Corporation and part financing the project cost. Further, the company has all the necessary project related clearances followed by appropriate Fuel Supply Agreements (FSA) and Power Purchase Agreements (PPA) with the appropriate parties.

Comfortable financial risk profile

Revenue from sale of power witnessed a y-o-y increase of around 20% in FY15, despite of slight decline (-4.5%) in the generation output, mainly due to materialization of the deferred tax of Rs.182 crore upto financial year 2014-15. Further, sale for FY14 includes additional income of Rs.30.4 crore towards arrear for earlier years based on finalization of the tariff order for 2009-14.

Overall Performance of NEEPCO over the last three years

Power Plant	FY13	FY14	FY15
Total Generation (MUs)	4,690	4,568	4,363
Actual Sales (MUs)$	4,341	4,264	4,105
Sales Realization (Rs. crore)	1,323.1	1,277.8	1,530.5

$ including internal consumption but excluding power auxiliary consumption and transmission loss

NEEPCO has a satisfactory capital structure characterized by an overall gearing of 0.86 times as on March 31, 2015. Despite increase in debt during the last three years (availed to meet the ongoing project requirements), the continuous increase in the networth backed by regular equity infusion by GoI (Rs.169 crore in the last three years) and healthy profitability over the years, has led to satisfactory capital structure. However, with the incremental capex being expected to be funded through a debt: equity ratio of 70:30, capital structure is expected to see some deterioration going forward. The company's interest coverage ratio stood comfortable during FY15.

Working capital management

NEEPCO's average collection period has remained consistently high (around 6-8 months) over the last few years, mainly due to non-recovery of dues from APDCL and MeECL. However during FY15, NEEPCO has realized old dues of around Rs.300 crore from APDCL. The company has earned higher profit from operation vis-à-vis debt repayment & fund requirement for project during last 3 years. This coupled with short term working capital loan of Rs.125 cr and working capital demand loan of Rs.35.0 crore (against sanctioned fund based limits of Rs.50.0 crore) enabled the company to fund its higher operating cycle.

Annexure II

Brief Rationale

CARE revises and assigns 'CARE AA' rating to the long term debt instrument issue of North Eastern Electric Power Corporation Ltd. (NEEPCO)

Ratings

Facilities	Amt (Rs. cr)	Rating[1]	Remarks
Non-Convertible Debentures	3,100	CARE AA (Double A)	Revised from CARE AA- (Double A minus)
Proposed Non-Convertible Debentures	900	CARE AA (Double A)	Assigned

Rating Rationale

The revision in rating takes into account reduction in project implementation risk occasioned out of completion of 152 MW of gas based projects, significant physical progress in Kameng Hydro Power Project (600 MW) with commissioning of the project being preponed to June 2016 (as against April 2017), recovery of old dues and improvement in profitability during FY15.

The rating continues to draw strength from the controlling stake and financial support of Government of India (GoI), NEEPCO's established track record in implementing power projects in North-Eastern India and satisfactory operational efficiency of its power stations backed by assured returns based on the Central Electricity Regulatory Commission (CERC) fixed tariffs. The rating is however constrained by the residual risks associated with the implementation of the ongoing projects and counter party risks.

Going forward, the ability of the company to successfully commission the ongoing projects within time & cost estimates, timely collection of proceeds from counter party, and any major debt funded capital expenditure shall be the key rating sensitivities.

Background

North Eastern Electric Power Corporation Ltd. (NEEPCO), incorporated in the year 1976 as a GoI undertaking (100% holding), has been set up to construct, generate, operate and maintain power stations in the North Eastern Region (NER) of the country. NEEPCO is a Miniratna Category – I company. The company is currently into generation of power through Hydro (capacity 755 MW) Gas based - thermal (capacity 375 MW) and Solar (capacity 5 MW) route in the NER with a total installed capacity of 1,135 MW; making NEEPCO the largest power producer in NER by catering to around 47-50% of the region's energy requirements.

NEEPCO is currently setting up projects of 922 MW through 5 projects (3 hydro - 770 MW and 2 thermal – 152 MW)across NER as part of its 12th Five Year Plan. The total cost of the ongoing projects, which are scheduled for commissioning in phases by Q1FY17, is estimated to be Rs.10,705 crore (*pending approval from the appropriate authority*) being financed in the debt to equity ratio of 7:3. NEEPCO has already expended Rs.6,828 crore till March 31, 2015.

[1] *Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE publications.*

CIN-L67190MH1993PLC071691

Kameng project (600 MW) has been shortlisted under Hon'ble Prime Ministers PRAGATI (Pro-Active Governance and Timely Implementation) Program wherein the project has been put under fast track clearance and the commissioning of the project has been preponed to June 2016 (revised from April 2017). Till June 30, 2015, excavation of the tunnel and setting up of the dam is almost complete, which reduces the geological and project implementation risk significantly. This coupled with the successfully completion (COD proposed in H1FY16) of the Tripura and Agartala Gas Power Plant (aggregate capacity of 152 MW) softens the project implementation risk to a greater extent. The other projects (Pare – 110 MW, Tuirial – 60 MW) are also under advanced stage of completion and are expected to be operational by Q4FY16.

NEEPCO earned PBT and PAT (after defd. tax) of Rs.389.8 crore (Rs. 301.4 crore in FY14) & Rs.318.5 crore (Rs. 231.5 crore in FY14) on a total income of Rs.1558.2 crore in FY15 (Rs. 1417.5 crore in FY14).

During FY15, NEEPCO has recovered old dues of around Rs.300 crore from APDCL and has taken necessary steps towards recovering the old dues from MeECL.

Rating Rationale

CRISIL RATINGS

August 27, 2015
Mumbai

North Eastern Electric Power Corporation Ltd

'CRISIL AA/Stable' assigned to NCD issue

Rs.9 Billion Non Convertible Debentures | **CRISIL AA/Stable (Assigned)**

CRISIL has assigned its **'CRISIL AA/Stable'** rating to the Rs.9 billion non-convertible debenture (NCD) issue of North Eastern Electric Power Corporation Ltd (NEEPCO).

CRISIL's rating on NEEPCO reflects its strategic importance to, and strong need-based financial support expected from its parent, Government of India (GoI: holds 100 per cent equity in NEEPCO), stable cash flows from the 1135 Megawatt (MW) of operational power project on account of regulated tariff structure with full variable cost pass-through and fixed return on equity and healthy financial risk profile marked by large net worth. The rating also factors in the recent commissioning/ synchronization of 152 MW of gas based capacities. These rating strengths are partially offset by NEEPCO's large ongoing capital expenditure (capex), significant risks associated with implementation of hydro projects and the weak counterparty risk profile of its customers.

NEEPCO is strategically important to GoI, given that it accounts for 40 per cent of the total power supplied to the seven north eastern states; all of whom have been granted special category status by GoI. Also GoI's complete ownership of NEEPCO provides it access to need-based or viability gap funding support from GoI. In addition, GoI also intervenes in order to ensure faster realization of receivables. GoI has in the past provided support to some of NEEPCO's projects through equity infusion and unsecured loans at subordinated rate of interest in order to ensure that the projects remain viable even with higher than normative project costs. GoI's timely intervention in faster realization of receivables is reflected in NEEPCO's receivables period coming down from 226 days as on March 31, 2014 to 183 days as on March 31, 2015. CRISIL believes that NEEPCO will continue to remain strategically important to GoI and will continue to receive need-based support from GoI.

Also, NEEPCO's cash flows have high degree of stability given the regulated tariff structure that allows for recovery of all fixed and variable charges and fixed return on equity based on approved capital costs. The Central Electricity Regulatory Commission (CERC) norms enable the company to earn a prescribed rate of return on its equity capital subject to achievement of a normative plant availability factor and generation target as notified by CERC for each of its plants. NEEPCO's plants have a long track record of operating around their respective operational norms resulting in high stability in its cash flow profile. CRISIL believes that NEEPCO's cash flows will continue to remain healthy, backed by stable profitability on account of regulated tariff over the medium term.

Moreover, the company has healthy financial risk profile marked by its large networth of more than Rs. 52 billion as on March 31, 2015 and low term debt in its completed projects. Although, NEEPCO's debt levels have increased substantially over the last 4 years to Rs. 47.9 billion as on March 31, 2015, these are to fund the projects currently under implementation. Also the company has recently commissioned/synchronized 152 MW of gas based power capacities i.e. 101 MW at Monarchak (Tripura) and 51 MW Extension at Agartala (Tripura). CRISIL believes that with the commissioning of these projects, the company's cash accruals will continue to increase over the medium term and support its strong financial risk profile.

These rating strengths are partially offset by NEEPCO's large ongoing capex and significant risks associated with implementation of Hydro projects. Currently NEEPCO is implementing 3 projects worth more than Rs. 90 billion. This includes a Rs.65 billion 600 MW hydro project at Kameng (Arunachal Pradesh), a Rs. 15 billion 110 MW hydro project at Pare (Arunachal Pradesh) and a Rs. 14 billion 60 MW hydro project at Tuirial (Mizoram). However, there has been considerable progress on the Kameng project with completion of the tunnel and substantial progress on the dam in the last few months. CRISIL believes that given the inherent risks in implementation of large hydro projects, NEEPCO will continue to be exposed to high project implementation and execution risks over the medium term.

Moreover, NEEPCO has a weak counterparty risk profile. The credit quality of NEEPCO's customers, i.e. distribution companies (discoms) in the north eastern region is relatively weak. NEEPCO's weak counterparty risk profile is also reflected in its large receivables of more than 6 months of Rs. 2.74 billion as on March 31, 2015. However, over the last few months, these discoms have regularised payments to a large extent, but their continued ability to make timely payments remains a key rating sensitivity factor for NEEPCO. Also post commissioning of Kameng project the counterparty risk profile of NEEPCO will improve with 50 per cent of the project revenues coming from western and northern states. CRISIL believes that NEEPCO will continue to have a weak counter-party risk profile over the medium term.

Outlook: Stable

CRISIL believes that NEEPCO's business risk profile will continue to remain strong backed by stable cash accruals on account of its regulated tariff structure. The outlook may be revised to 'Positive' in case the company is able to successfully commission and stabilize operations at the 600 MW Kameng project in a timely manner, while sustaining an improvement in the overall receivables period. Conversely, the outlook may be revised to 'Negative' in case of further delays and/or cost overrun in the commissioning of its ongoing projects resulting in a decline in company's ROCE or if there is a significant increase in NEEPCO's overall receivables period.

About the Company

NEEPCO, incorporated in 1976, has 7 power stations, and is the largest suppliers of power to the North-Eastern grids. The company is a 100 per cent GoI entity with existing generation capacity of 1287 MW of which 755 MW is hydroelectric projects, 527 MW is gas based power projects and 5 MW is solar power projects.

For 2014-15, NEEPCO posted a net profit of Rs.3.19 billion on net sales of Rs.15.3 billion, against a net profit of Rs.2.32 billion on net sales of Rs.12.8 billion in 2013-14.

About CRISIL LIMITED
CRISIL is a global analytical company providing ratings, research, and risk and policy advisory services. We are India's leading ratings agency. We are also the foremost provider of high-end research to the world's largest banks and leading corporations.

About CRISIL Ratings
CRISIL Ratings is India's leading rating agency. We pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we have a leadership position. We have rated over 75,000 entities, by far the largest number in India. We are a full-service rating agency. We rate the entire range of debt instruments: bank loans, certificates of deposit, commercial paper, non-convertible debentures, bank hybrid capital instruments, asset-backed securities, mortgage-backed securities, perpetual bonds, and partial guarantees. CRISIL sets the standards in every aspect of the credit rating business. We have instituted several innovations in India including rating municipal bonds, partially guaranteed instruments and microfinance institutions. We pioneered a globally unique and affordable rating service for Small and Medium Enterprises (SMEs).This has significantly expanded the market for ratings and is improving SMEs' access to affordable finance. We have an active outreach programme with issuers, investors and regulators to maintain a high level of transparency regarding our rating criteria and to disseminate our analytical insights and knowledge.

COMPANY'S SEAL

INSTRUCTIONS

Applicants are advised to read PPOL carefully in order to satisfy themselves before making an application for subscription.

1) Application Form must be completed in BLOCK LETTERS IN ENGLISH.

2) Signatures should be made in English / Hindi. Signatures made in any other Indian language must be attested by an authorized official of a Bank or by a Magistrate / Notary Public under his / her official seal. Attestation may be done in the space provided in the application form or a separate signature attestation may be enclosed.

3) Application shall be for a minimum number of 5 Bonds and multiples of one Bond thereafter.

4) The payment can be made either through Cheque, Bank transfer or through RTGS.

5) In case of payment through Cheque, it has to be ensured that the application Forms accompanied by the Cheque, drawn and made payable in favour of the **"North Eastern Electric Power Corporation Ltd."** and crossed **"Account Payee Only"** are deposited, preferably in clearing, directly with the designated branches of Axis Bank Ltd. (Collecting Banker) for crediting the amount to **'A/c No. 270010200001120'**.

6) In case the payment is being made through RTGS, the RTGS details are below:

Bank Name :	**Axis Bank Ltd.**
Account No :	**270010200001120**
IFSC Code:	**UTIB0000270**

7) Cash, Outstation Cheques, Money Orders or Postal Orders will NOT be accepted.

8) As a matter of precaution against possible fraudulent encashment of interest warrants due to loss / misplacement, applicants are requested to mention the full particulars of their bank account, as specified in the Application Form. Interest warrants will then be made out in favour of the sole / first applicant's account. Cheques will be issued as per the details in the register of Bondholders at the risk of the sole / first applicant at the address registered with Corporation.

10) The PAN / GIR No. and IT Circle / Ward / District of the Sole / First Applicant and all Joint Applicants(s) should be mentioned in the Application Form. In case neither the PAN nor GIR Number has been allotted, the fact of non - allotment should be mentioned in the space provided and Form 60 should be submitted duly signed. In absence of PAN No. it may be noted that TDS will be deducted at a higher rate if applicable.

11) Income Tax as applicable will be deducted at source at the time of payment interest on application money. Those who are eligible and desirous of claiming exemptions of tax under Income Tax Act, 1961 are required to submit relevant certificate issued by the Income-Tax Officer and / or submit Form 15AA / 15G/15H (in duplicate as prescribed in the Income Tax Rules, 1962) along with the Application Form.

12) In the case of applications made under Power of Attorney or by limited companies, corporate bodies, registered societies, trusts etc., following documents (attested by Company Secretary/ directors) must be lodged along with the application or sent directly to NEEPCO along with a copy of the Application Form:

(i) Certificate of Incorporation and Memorandum & Articles of Association
(ii) Resolution of the Board of Directors/trustees and identification of those who have authority to operate
(iii) Certified True Copy of Power of Attorney granted to transact business on its behalf.
(iv) Form 15AA for investors seeking exemption for Tax deduction at source from interest on the application money.
(v) Any officially valid document to identify the trustees, settlers, beneficiaries and those holding Power of Attorney
   a. Resolution of the managing body of the foundation/association
(vi) Certificate of registration
(vii) Documentary evidence of the Demat details and DP ID to be submitted by the investor along with application form.
(viii) The applicants are requested to clearly indicate the DP ID and Client ID details. In case these details are not filled up correctly, the investor shall have to bear the charges levied by NSDL/CDSL for getting the credit Corporate Action conducted again.
(ix) Copy of PAN card
(x) Any other document as may be required to fulfill KYC Requirement.

13) Please give the Complete Bank details like Bank Account Number, IFSC Code, Name of the Bank and Branch and Branch Code in the Column for Bank details for the purpose of payment of interest on application money through RTGS.

14) The receipt of the applications will be acknowledged by the NEEPCO authorities in the acknowledgement slip appearing below the application form.

15) All future communication should be addressed to the Registered Office of NEEPCO (whose address is given below) or to such other person at such address as may be notified by NEEPCO from time to time.

However SEBI reserves the right to take up at any point of time, with the Issuer, any irregularities or lapses in this Private Placement Offer Letter.

c. DISCLAIMER OF THE STOCK EXCHANGE

As required, a copy of this Document has been submitted to BSE for hosting the same on its website. It is to be distinctly understood that such submission of the Document with BSE or hosting the same on its website should not in any way be deemed or construed that the document has been cleared or approved by BSE ; or does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Document; nor does it warrant that this Issuer's securities will be listed or continue to be listed on the Exchange; nor does it take responsibility for the financial or other soundness of this issuer, its promoters, its management or any scheme or project of NEEPCO. Every person who desires to apply for or otherwise acquire any securities of this Issuer may do so pursuant to independent inquiry, investigation and analysis and shall not have any claim against the Exchange whatsoever by reason of any loss which may be suffered by such person consequent to or in connection with such subscription / acquisition whether by reason of anything stated or omitted to be stated herein or any other reason whatsoever.

d. DISCLAIMER IN RESPECT OF JURISDICTION

The private placement of Bonds is made in India to Companies, Corporate Bodies, Trusts registered under the Indian Trusts Act, 1882, Societies registered under the Societies Registration Act, 1860 or any other applicable laws, provided that such Trust/ Society is authorized under constitution/ rules/ byelaws to hold bonds in a Company, Indian Mutual Funds registered with SEBI, Indian Financial Institutions, Insurance Companies, Commercial Banks including Regional Rural Banks and Cooperative Banks, Provident, Pension, Gratuity, Superannuation Funds as defined under Indian laws. The Disclosure document does not, however, constitute an offer to sell or an invitation to subscribe to securities offered hereby in any other jurisdiction to any person to whom it is unlawful to make an offer or invitation in such jurisdiction. Any person into whose

possession this Document comes is required to inform about and to observe any such restrictions. Any disputes arising out of this issue will be subject to the exclusive jurisdiction of the courts **at Shillong.** All information considered adequate and relevant about the Issuer has been made available in this Document for the use and perusal of the potential investors and no selective or additional information would be available for a section of investors in any manner whatsoever.

e. DISCLAIMER IN RESPECT OF ARRANGER

The Issuer is solely responsible for the truth, accuracy and completeness of all the information provided in this Information Memorandum. Neither is the Arranger responsible for preparing, clearing, approving, scrutinizing or vetting this Information Memorandum, nor is the Arranger responsible for doing any due diligence for verification of the truth, correctness or completeness of the contents of this Information Memorandum. The Arranger shall be entitled to rely on the truth, correctness and completeness of this Information Memorandum. It is to be distinctly understood that the aforesaid use of this Information Memorandum by the Arranger should not in any way be deemed or construed to mean that the Information Memorandum has been prepared, cleared, approved, scrutinized or vetted by the Arranger. Nor should the contents of this Information Memorandum in any manner be deemed to have been warranted, certified or endorsed by the Arranger as to the truth, correctness or completeness thereof. Each recipient must satisfy itself as to the accuracy, reliability, adequacy, reasonableness or completeness of the Information Memorandum.

The Arranger has not conducted any due diligence review on behalf or for the benefit of the Debenture Trustee or any of the Debenture Holder. Each of the Debenture Holder should conduct such due diligence on the Issuer, the Debentures and the Security, as it deems appropriate and make its own independent assessment thereof.

Distribution of this Information Memorandum does not constitute a representation or warranty, express or implied by the Arranger that the information and opinions herein will be updated at any time after the date of this Information Memorandum. The Arranger does not undertake to notify any recipient of any information coming to the attention of the Arranger after the date of this Information Memorandum. No responsibility or liability or duty of care is or will be accepted by the Arranger for updating or supplementing this Information Memorandum nor for providing access to any additional information as further information becomes available.

Neither the Arranger nor any of their respective directors, employees, officers or agents shall be liable for any direct, indirect or consequential loss or damage suffered by any person as a result of relying on any statement in or omission from this Information Memorandum or in any other information or communications made in connection with the Debentures.

The Arranger is acting for the Company in relation to the Issue of the Debentures and not on behalf of the recipients of this Information Memorandum. The receipt of this Information Memorandum by any recipient is not to be constituted as the giving of investment advice by the Arranger to that recipient, nor to constitute such a recipient a customer of the Arranger. The Arranger is not responsible to any other person for providing the protection afforded to the customers of the Arranger nor for providing advice in relation to the Debentures.

Each recipient of this Information Memorandum acknowledges that:

(a) each recipient has been afforded an opportunity to request and to review and has received all additional information considered by the recipient to be necessary to verify the accuracy of or to supplement the information contained herein; and

(b) such recipient has not relied on the Sole Arranger in connection with its investigation of the accuracy of such information or its investment decision.

f. DISCLAIMER IN RESPECT OF ARRANGER

The debenture trustee is not a guarantor and will not be responsible for any non-payment of interest and redemption and/or any loss or claim.

III. ISSUER INFORMATION:

A.NAME AND ADDRESS OF THE REGISTERED / CORPORATE OFFICE OF THE ISSUER:

Name of the Issuer	North Eastern Electric Power Corporation Limited (NEEPCO)
Registered Office	Brookland Compound, Lower New Colony, Shillong - 793 003, Meghalaya, India.
Telephone Number	0364 – 2228652 / 2223051
Fax Number	0364 – 2228652 / 2228542 / 2505776
Website	www.neepco.co.in
E-mail	chiranjeeb@neepco.co.in ; cranee@neepco.co.in

B. COMPLIANCE OFFICER OF THE ISSUE:

Mr. Chiranjeeb Sharma
Company Secretary, NEEPCO Limited
Brookland Compound, Lower New Colony,
Shillong - 793 003, Meghalaya, India
Tel.: 0364-2228652
Fax: 0364-2228542/2505776
E-mail: chiranjeeb@neepco.gov.in

C. CHIEF FINANCE OFFICER:

Mr. Alexander Gordon West Kharkongor
Director (Finance), NEEPCO Limited
Brookland Compound, Lower New Colony,
Shillong - 793 003, Meghalaya, India
Tel.: 0364-2223176
Fax: 0364-2228542/2505776
E-mail: agwest@neepco.gov.in

IV. BRIEF SUMMARY OF THE BUSINESS/ACTIVITIES OF THE ISSUER AND ITS LINE OF BUSINESS

A. OVERVIEW

NEEPCO is a Schedule "A" Miniratna Government of India Enterprise under the Ministry of Power with a present Authorised Capital of ₹5000 crore. Its primary goal is the integrated and efficient development of the Power Sector in the Region by planning, investigating and preparing preliminary feasibility and definite project reports followed by the actual construction, operation and maintenance of power stations and projects.

Since NEEPCO has been incorporated to operate primarily in the North Eastern Region, it would be pertinent to mention the immense potential of the region for generation of power. Additionally, the Region also has abundant resource of coal, oil and gas for thermal power generation. In spite of such huge potential the Region ranks lowest in the country in terms of per capita energy consumption. This has been mainly due to inhospitable climatic conditions, remote location and inaccessibility of geographical locations.

Hydro-electric Power: In terms of hydro power, the North Eastern Region has the potential of about 58971 MW, i.e. almost 40% of the country's total hydro potential. Of this huge hydro potential, less than 2% (1116 MW) has so far been harnessed as on 31.03.2010 and the remaining 98% is yet to be exploited.
Natural Gas: 151.68 billion cubic feet - enough to generate 7500 MW for 10 years.
Coal: 864.78 Million tonnes against 186 Billion tones of reserves in the country. With the reserves in the N.E Region, approximately 240 MW/day can be generated for a period of 100 years.

However with continual improvement of infrastructure and communication facilities, the North East region stands to become the Power House of India by utilising its surplus power potential especially in the hydro sector.

MISSION STATEMENT

- To harness the vast hydro & thermal power potential of the region.
- To produce pollution free and inexhaustible power through planned development of power generation projects.
- To play a significant role in the integration and development of hydroelectric and thermal power in the Central Sector covering all aspects such as investigation, planning, designs, construction, operation and maintenance of hydroelectric and thermal projects which in turn would effectively promote the development of the nation as a whole.

CERTIFICATIONS RECEIVED

- ✓ ISO 9001-2000 Quality Management System
- ✓ ISO 14001-2004 Environmental Safeguards
- ✓ OHSAS 18001-1999 Occupational Health and Safety Standards

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Since its inception NEEPCO has always given top priority towards all round development of the people residing in and around its operational areas. As a responsible corporate citizen, NEEPCO has undertaken various community development activities particularly in the field of education, health, infrastructure development and other community needs. The Corporation is committed to discharge larger responsibilities towards the society in future.

NEEPCO'S CSR MISSION

- To execute and operate projects in a cost effective, environment friendly and socio-economically responsive manner with thrust on energy conservation.
- To be a responsible corporate entity for nurturing human values with concern for society.
- To contribute towards community development and help achieve a high level of human development in the field of education and health in particular as human development contributes to welfare by enhancing 'capabilities' of people thereby increasing their productivity, income and general wellbeing.

PRODUCTS/SERVICES

NEEPCO generates and supplies power to the seven states of the North Eastern Region. The primary beneficiaries are:

- Assam Power Distribution Company Ltd.
- Meghalaya Energy Corporation Ltd.
- Tripura State Electricity Corporation Ltd.
- Department of Power, Govt. of Arunachal Pradesh
- Electricity Department, Govt. of Manipur
- Power & Electricity Department, Govt. of Mizoram
- Department of Power, Govt. of Nagaland

SUPPLY OF POWER

NEEPCO's generating stations feed power at their respective bus-bar into the Regional Grid. Power is transmitted to the Bulk Power Consumers through transmission systems of the PowerGrid Corporation of India Ltd. (PGCIL) as well as the respective State Transmission Utilities (STU). Generation and transmission of power in the region is regulated by the North Eastern Regional Power Commission and the North Eastern Regional Load Despatch Centre which are the designated apex bodies for integrated operation and management of the Regional Power System (Regional Grid). Tariff for power from the various stations are fixed as per the Availability Based Tariff (ABT) by the Central Electricity Regulatory Authority (CERC). The ABT regime came into force in the North Eastern Region with effect from 01.11.2003. NEEPCO has commissioned/synchronized the following generating power stations:

Sl.	Name of the Power Station	Installed Capacity	State
1	Khandong Power Station	50 MW	Assam
2	Kopili Power Station	200 MW	Assam
3	Kopili Hydro Electric Project – Stage II	25 MW	Assam
4	Doyang Hydro Electric Project	75 MW	Nagaland
5	Ranganadi Hydro Electric Project	405 MW	Arunachal Pradesh
	Sub-total (Hydro)	**755 MW**	
6	Assam Gas Based Power Project	291 MW	Assam
7	Agartala Gas Based Power Project (84 MW + 51 MW)	135 MW	Tripura
8	Tripura Gas Based Power Project	101 MW	Tripura
	Sub-total (Thermal)	**527 MW**	
	Grid Interactive Solar Power Plant at TGBPP Site, Tripura **(Renewable)**	**5 MW**	Tripura
	Grand Total	**1287 MW**	

B. BRIEF PROFILES OF THE GENERATING STATIONS

1. Khandong Power Station & 2. Kopili Power Station (KHEP): They comprise the original Kopili Hydro Electric Project (100 MW) located on the River Kopili in the North Cachar Hills District of Assam which was the maiden venture of NEEPCO when it came into existence in 1976. The first stage of Kopili Hydro Electric Plant has two dam and dyke systems for creating two reservoirs, one on the Kopili River and the other on the Umrong stream, a tributary of the Kopili. Water from the Kopili reservoir is utilized in the Khandong power station through a 2852 metre long tunnel to generate 50 MW (2 X 25 MW) of power. The tail water from this powerhouse is led to the Umrong reservoir. The water from Umrong reservoir is taken through a 5473 metre long tunnel to the Kopili power station to generate 200 MW (4 X 50 MW) of power. Subsequently, the Stage I Extension (100 MW) of the project envisaged setting up two additional 50 MW units at Kopili Power Station, provisions for which were already kept during the first stage development of the project. The Units III and IV under this extension scheme were commissioned in March, 1997 and June, 1997 respectively. The total installed capacity of the Kopili Power Station thus went up to 200 MW and that of the project as whole to 250 MW. The raising of the Umrong reservoir by 7.6 m was taken up to meet the demand for more water for two additional 50 MW units of first stage extension.

3. Kopili Hydro Electric Project - Stage II (KHEP-II): The second stage of the Kopili Hydro Electric Project involved construction of a powerhouse to generate additional 25 MW of power by utilizing water from the Kopili reservoir through a 480 m long water conductor system, provision of which was kept as a by-pass conduit from the surge shaft in the Khandong tunnel. The water from the second stage powerhouse goes to the Umrong reservoir for utilization in the Kopili power station

4. Doyang Hydro Electric Project (DHEP): Situated on the River Doyang, a tributary of the River Brahmaputra, this Project with a capacity of 3 X 25 MW and an estimated annual generation of 227 Million Units was commissioned on the 2nd week of July'2000. The Project is located in Wokha District of Nagaland. It consists of three units of 25 MW each and has a Design Energy of 227 MU. The Dam is of Rock Fill type with a height of 87.50 m and length of 462 m. The steel lined HRT has double bifurcation, 5.92m in diameter and 427.86 m long and the Design Head is 67.0 m. The Evacuation System comprises a 132 kV D/C Doyang-Dimapur lines of PGCIL and a 132 kV S/C Doyang-Kohima line and 132 KV S/C Doyang-Mokochung line of Govt. of Nagaland.

5. Ranganadi Hydro Electric Project (RHEP): This run-of-the-river Project is located in the Lower Subansiri District of the State of Arunachal Pradesh in the Ranganadi basin and the adjoining Dikrong basin. . It consists of three units of 135 MW each and has a Design Energy of 1509.66 MU. The Dam is of Concrete Gravity type with a height of 68 m and length of 340 m. The HR Tunnel has a diameter of 6.8 m and is 10.13 km long while the dimensions of the Penstock are 5.8 m dia x 778 m long; 4.75 m dia x 137 m long; 3.35 m dia x 147 m long. The Design Head is 304.0 m. The Evacuation System comprises 400 kV Ranganadi-Balipara D/C Lines of PGCIL and 132 kV Ranganadi-Nirjuli S/C Line, 132 kV Ranganadi-Along S/C Line of the Govt. of Arunachal Pradesh.

6. Assam Gas Based Power Project (AGBPP): This Combined Cycle Gas Turbine Project is located in the Dibrugarh District of Assam. It has been partly financed by a loan of 37.272 Billion Yen under bilateral credit arrangement with the Overseas Economic Cooperation Fund of Japan. It utilizes natural gas available in the oil fields of Upper Assam. The power station comprises of 6 Gas Turbines with associated Waste Heat Recovery Boilers and 3 Steam Turbines, arranged in a modular fashion. A module comprises of 2 Gas Turbines with associated Waste Heat Recovery Boilers and 1 steam turbine.

7. Agartala Gas Based Power Project (AGTP): This project is located in the West Tripura District of the state of Tripura near the capital town of Agartala .The project was run on an Open Cycle Mode with 4 Gas Turbines of 21 MW each of European Gas Turbine make operating on natural gas obtained from the gas fields of M/S ONGC. The Project has been financed through the budgetary support of the Government of India and partially through external commercial borrowings from the Deutsche Bank, Germany. The Project was completed in 1997-98. at a cost of Rs 322.55 Crores with a 50:50 debt equity ratio. Subsequently, the AGTP-Extension was commissioned in August, 2015 thereby transforming the project into a Combined Cycle plant with 2 (two) Steam Turbine Generating units of 25.5 MW each and a total installed capacity of 135 MW. The financing pattern of this extension project was with a Debt-Equity ratio of 70:30. The debt component of the cost was met from the proceeds of the USD 100 million ECB from SBI, Singapore while equity was funded from internal accruals of NEEPCO.

8. 5 MWp Grid Interactive Solar Power Plant: As a maiden venture, a 5 MWp Grid Interactive Solar PV Power Project is being setup at Monarchak within the premises of the 101 MW Tripura Gas Based Power Project at an estimated cost of ₹42.89 Cr. (including IDC), with the levellised tariff being ₹9.46/unit. The project was commissioned on 15th February, 2015. The power generated from the project is being evacuated through a 33 KV Double – Circuit Line to the Rabindranagar Sub-Station of Tripura State Electricity Corporation Limited (TSECL). The infrastructure for evacuation of power was carried out by TSECL on "Deposit Work Basis".

9. Tripura Gas Based Power Project (TGBPP): A Gas Based Combined Cycle Project of nominal capacity 101 MW, this project is located in Monarchak, Tripura. Like the AGTP-Extension, this project was approved with a debt-equity ratio of 70:30 with the equity to be fully funded by NEEPCO from its internal accruals while the debt was financed from the proceeds of the USD 100 million ECB from SBI, Singapore as well as PSU Bonds raised from time to time. A fuel supply agreement (FSA) for this project was signed with ONGC on 5th June, 2008. A PPA was signed on 19th March, 2008 with the State Govt. of Tripura which is the sole beneficiary of this project. The project was successfully synchronized on 11th March, 2015 and was fully loaded upto 66 MW on 30th March, 2015.

10. 50 MW Solar Power Project, Madhya Pradesh (Joint Venture): The project has been developed by WAANEEP Solar Private Limited as a Joint Venture between WAAREE Energies Ltd. and NEEPCO. The Project was commissioned on 15-June-2015. Generation from the Plant for the year 2015-16 was 69.8019 MU.

C. BRIEF NOTE ON THE ON-GOING PROJECTS OF THE CORPORATION:

a. ON-GOING POWER PROJECTS

NEEPCO is presently constructing five more projects which will add another 922 MW to its Installed capacity. All the on-going projects have been allotted to NEEPCO by the Government of India in agreement with the respective State Governments. A summary of these projects is as follows:

Sl.	Name of the Project	Installed Capacity	State	Estimated Cost (₹ *in crore*)
(i)	Kameng Hydro Electric Project	600 MW	Arunachal Pradesh	6179.96
(ii)	Pare Hydro Electric Project	110 MW	Arunachal Pradesh	1487.50
(iii)	Tuirial Hydro Electric Project	60 MW	Mizoram	1441.52
	Total	**770 MW**		

(i) Kameng Hydro Electric Project (600 MW):

A run-of-the-river (ROR) scheme in the West Kameng District of Arunachal Pradesh, this project comprises of 4 units of 150 MW turbine-generators each with total design energy of 3,353 MU. The project was approved for construction on 2nd December, 2004 at a cost of ₹2496.90 crore including IDC of ₹249.09 crore at March, 2004 price levels and is presently in advanced stages of construction. PPAs have been signed with the Governments of Assam and Arunachal Pradesh for 300 MW each.

The approved funding pattern of this project is with a debt-equity ratio of 70:30 and the equity to be fully funded by the Govt. of India. The debt component is presently being funded by a loan from PFC. A revised cost estimate (RCE) of ₹6476.34 crore has been submitted to the Ministry of Power and is presently awaiting approval. The expected date of commissioning is June, 2016. The tariff is ₹4.16/kwh for the first year and ₹3.97/kwh as levellized tariff based on the RCE.

The Ministry of Power has allocated the energy from this project to the NE Region (50%), the Western Region (25%) and the Northern Region (25%).

The source-wise expenditure (provisional) for this project as on 31st December, 2016 is as follows:

Sources of funds	Expenditure in ₹ crore
Equity from Govt. of India	775.70
PSU Bonds	3438.63
Internal Resources	945.60
Total	**5159.93**

(ii) Pare Hydro Electric Project (110 MW):

A concrete gravity dam scheme on the Dikrong river in the Papumpare District of Arunachal Pradesh, the project is comprised of 2 units of 55 MW turbine-generators with a total design energy of 506.42 MU. The project was approved for construction on 4th December, 2008 at a cost of ₹573.99 crore including IDC of ₹67.66 crore at June, 2007 price levels and is presently in advanced stages of construction. PPAs have been signed with all the seven states of the NER for supply of power from this project.

The approved funding pattern of this project is with a debt-equity ratio of 70:30 and the equity to be fully funded by the Govt. of India. The debt component is being funded by a loan from KfW, Germany covered by the Indo-German Bilateral Development Cooperation Programme under an agreement signed between the Government of India and the Government of the Federal Republic of Germany on 21st May, 2008.

A revised cost estimate (RCE) of ₹1487.50 crore including IDC of ₹141.52 crore has been submitted to the Ministry of Power and is presently awaiting approval.

The source-wise expenditure (provisional) for this project as on 31st December, 2016 is as follows:

Sources of funds	Expenditure in ₹ Crore
Equity from Govt. of India	172.20
KfW Loan	582.20
Bonds	300.00
Internal Resources	272.03
Total	**1326.43**

(iii) Tuirial Hydro Electric Project (60 MW):

A medium head storage scheme in the Aizawl District of Mizoram, the project comprises 2 units of 30 MW turbine-generators with total design energy of 250.63 MU. CCEA clearance was obtained on 7th July, 1998. After the award of major packages, work on the project began from 2001 as per the drawn up plan. However, the project work came to total stop w.e.f. 9th June, 2004 on account of agitation launched by Tuirial Crop Compensation Claimant Association claiming payment of crop compensation for the standing crops in the riverine reserve forest. As on June, 2004 prior to stoppage of work, 30% of the project work and 95% of Design & Engineering work had been completed.

In order to revive the project, various efforts were made by the Ministry of Power, NEEPCO and the Govt. of Mizoram. Subsequently, a PIB recommendation for revival of the project at a RCE of ₹913.63 crore at March, 2010 PL was placed before the CCEA for investment decision. The CCEA clearance was issued on 14th January, 2011 with approval for a debt-equity ratio of 85:15, commissioning schedule of December, 2015 and the following funding pattern:

Source of funds	Amount in ₹ crore
1. Equity from Govt. of India	137.04
2. Subordinate Loan from Govt. of India	291.96
3. Grant from NLCPR of DoNER	300.00
4. Loan from domestic FI/PFC	184.63
Total	**913.63**

The rate of interest on the Subordinate Loan is 1% p.a. to be paid w.e.f. the date of commercial operation and loan repayments will start from the 16th year from commissioning up to the 30th year. Presently, a RCE is under preparation by NEEPCO and will be submitted to the MoP for necessary approval.

The source-wise expenditure (provisional) for this project as on 31st December, 2016 is as follows:

Sources of funds	Expenditure in ₹ Crore
1. Equity from Govt. of India	137.04
2. Subordinate Loan from Govt. of India	291.96
3. Grant from NLCPR of DoNER	300.00
4. Bonds	184.63
5. Internal Resources	212.62
Total	**1126.25**

b. RENEWABLE ENERGY INITIATIVES:

The Corporation has ventured into the Renewable Energy Sector in the form of Solar and Wind Energy Projects and has also committed to the Ministry of New & Renewable Energy (Green Energy Commitment) to implement projects up to 2500 MW. The projects that have been proposed are as under:

Sl.	Project
1.	Grid Interactive Solar Power Project (2 MW), Lanka, Assam.
2.	Grid Interactive Wind Power Project (3 MW) at Kopili HEP, Assam.
3.	1000 MW Grid Connected Solar Projects in India MoU has been signed between NEEPCO and SECI on 19th June, 2015 for implementation of 1000 MW Grid Connected Solar Projects in India.
4.	500 MW Solar Project in the Solar Park at Bhadla, Rajasthan MoA was signed between NEEPCO and M/s SURYA URJA Company of Rajasthan Limited on 4th August, 2015 for setting up of 500 MW Solar Project in the Solar Park
5.	500 MW Solar PV Project in Tamil Nadu Memorandum of Understanding (MoU) was signed between NEEPCO and Tamil Nadu Generation and Distribution Corporation (TANGEDCO) on 10th September, 2015 for setting up of 500 MW Solar PV Project in the next 5 years.

c. S&I SCHEMES: (Ownership Basis):

Sl.	Project	Status
		HYDRO
	Projects in Meghalaya	
1.	Mawphu H.E. Project, Stage-II (75 MW), Meghalaya	▪ Forest Clearance (Stage I) for diversion of forest land submitted to the DFO, East Khasi Hills District, Govt. of Meghalaya on 28.04.2014. ▪ Draft EIA/EMP reports have been commented upon by MoEF and final reports shall be prepared incorporating the observations and approved project features. ▪ 2nd consultation meeting was held on 22nd March, 2016. Preparation of revised DPR is in advanced stage.
2.	Killing Hydro Electric Project (50 MW), Assam/ Meghalaya	▪ Pre-Feasibility Report (PFR) has been prepared. ▪ Clearance on Terms of Reference (TOR) for EIA/EMP Studies obtained from MoEF on 30.12.2014. ▪ MoP vide letter dated 17th August, 2015 conveyed the decision of MoWR, that the Brahmaputra Board shall continue with the balance works and the DPR of the Project and hand over to NEEPCO on completion for execution.
	Projects in Mizoram	
1.	Tuivai HEP (210 MW), Mizoram.	▪ MOA was signed with Govt. of Mizoram on 10.02.2015 for execution of the project. ▪ Different project alternatives are being explored to optimize the cost and tariff of the project along with financial restructuring for arriving at required quantum of grant.

PROJECTS IN THE PIPELINE: (Ownership Basis):

Sl.	Project	Status
		HYDRO
1.	Selim HEP (170 MW), Meghalaya	▪ NEEPCO submitted application in Dec., 2014 along with requisite fee for allotment of the Selim H.E. Project in the prescribed format to the Government of Meghalaya. ▪ The matter is being pursued with the State Government for an early decision in favour of NEEPCO.
		THERMAL
1.	Garo Hills Thermal Power Project (500 MW), Meghalaya	▪ MOA with the Govt. of Meghalaya signed on 17th March, 2011. ▪ Coal linkage is yet to be established".

e. DEEN DAYAL UPADHYAYA GRAM JYOTI YOJANA (DDUGJY):

NEEPCO is implementing Rural Electricity Infrastructure including Household electrification scheme under the 12th Plan of Deen Dayal Upadhyaya Gram Jyoti Yojana (erstwhile RGGVY) in two Districts of the State of Tripura, viz. South Tripura and Sepahijala. The cost of the projects are ₹46.87 crore and ₹40.84 crore respectively with scheduled completion in September 2016. Works in both the districts are progressing satisfactorily and around 55% works have been completed till

f. JOINT VENTURE PROJECTS

With a view to enhance generation capacity, NEEPCO has formed Joint Ventures with other CPSUs, State Utilities and Private Developers to undertake various projects. The projects taken up through the JV route and their status are given below:

Sl.	Project	Status
		HYDRO
1.	Dibbin HEP (120 MW), Arunachal Pradesh.	▪ KSK Dibbin Hydro Power Private Limited (JV between KSK Energy Ventures and NEEPCO) has submitted the Revised Hydrology to CWC for approval which is awaited. ▪ Techno Economic Clearance obtained from Central Electricity Authority in Dec 2009. ▪ Deputy Commissioner, Bomdila passed the award for acquisition of land in ▪ May 2011. ▪ Environment Clearance accorded by the Ministry of Environment & Forests in July 2012. ▪ Application has been forwarded on 25-04-2015 to initiate process for compliance of Forest Rights Act. ▪ For diversion of forest land, Stage I Forest Clearance accorded by Ministry of ▪ Environment & Forests in Feb 2012. ▪ Application has been forwarded in May 2015 for Stage II Forest Clearance. ▪ Payment to MoEF towards Compensatory Afforestation, NPV etc. related to diversion of forest land for the project amounting to `3.99 Crore has been effected on 22.4.2015. ▪ Meanwhile, M/S KSK Energy Ventures expressed its interest to divest its equity to NEEPCO for total taking over of the project by NEEPCO, which is under examination.
2.	Siang Upper (Stage-II) HE Project (3750 MW) & Siang Upper Stage-I HEP (6000 MW), Arunachal Pradesh.	▪ As per GoI decision, both these projects were to be developed in Joint Venture mode between NEEPCO and NHPC for which formation of JV Company is in process. ▪ The Siang Upper (Stage-II) HEP was under survey & investigation by NEEPCO (MoA signed with State Govt. on 28.05.2013) which was stopped due to vehement local protest. ▪ Subsequently, the project works were put on hold as per the communication of MoP, GoI till a final decision is taken regarding development of the projects in single stage or two stages..
3.	Tipaimukh HE Project (1500MW), Manipur.	▪ MoP conveyed on 10.12.2012 its decision to induct NEEPCO as a partner in the aforesaid JV in lieu of SJVNL. ▪ Finalization of the Draft Promoters' Agreement is in process between NEEPCO & NHPC. ▪ Meanwhile, MoEF denied approval to the forest diversion proposal in Manipur and Mizoram and further recommended to explore the feasibility with smaller dams involving smaller forest area. ▪ As per the aforesaid recommendation and subsequent request of MoP and NEEPCO, NHPC is exploring for revision of the project to involve lesser forest area. ▪ MoP vide letter dated 20.08.2014 has communicated its decision for not pursuing the Forest Clearance further at this stage and requested the State Governments of Manipur and Mizoram to intimate their views/ comments on the matter, which is awaited.
4.	Kurung HEP (330 MW), Arunachal Pradesh	▪ MOA signed with the Govt. of Arunachal Pradesh on 27th January, 2015 for development of the Project in joint venture with the State Govt. ▪ NEEPCO prepared the PFR afresh. ▪ TOR meeting held on 09.02.16 at New Delhi and MOEF & CC accorded clearance. Formal order awaited. ▪ Preparation of DPR and EIA/EMP are in process. ▪ Manpower posted at site..

		THERMAL
5.	Margherita Coal Based Thermal Project (1320 MW)	▪ Draft MOU to be signed between NEEPCO and APGCL with 51% and 49% share of equity respectively has been approved by the BOD and sent to MoP, GoI for in principle approval which is awaited.
		OTHERS
6.	JV between NEEPCO and Govt. of Tripura.	▪ MOU was signed between Govt. of Tripura and NEEPCO on 12.12.2014 for formation of a Power Generation Company (GENCO) in JV between Govt. of Tripura and NEEPCO. ▪ Draft SHA for the GENCO with NEEPCO equity at 10% is under finalisation jointly with Govt. of Tripura. ▪ Preparation of DPR for conversion of Rokhia & Baramura Thermal Projects to Combined Cycle projects is in final stage of completion. ▪ DPR for R & M of Gumti HEP prepared.

D. CORPORATE STRUCTURE OF THE NEEPCO LTD.

OFFICES

NEEPCO's registered office is in the picturesque hill city of Shillong. It also has liaison offices in New Delhi, Kolkata, Guwahati and Itanagar.

V. A BRIEF HISTORY OF THE ISSUER SINCE ITS INCORPORATION GIVING DETAILS OF ITS ACTIVITIES

The North Eastern Electric Power Corporation Ltd. (NEEPCO Ltd.) was incorporated on 2nd April, 1976 under the Companies Act, 1956 with an Authorised Capital of ₹75 crore. NEEPCO is a Schedule "A" Government of India Enterprise under the Ministry of Power. Its primary goal is the integrated and efficient development of the Power Sector in the Region by planning, investigating and preparing preliminary feasibility and definite project reports followed by the actual construction, operation and maintenance of power stations and projects.

A. DETAILS OF SHARE CAPITAL AS ON LAST QUARTER END (31.12.2016)

NEEPCO is a fully owned Government of India Enterprise and its entire share capital is held by the Central Government. Presently, its authorized share capital is ₹5000 crore and its paid-up share capital is ₹3452.81 crore.

The investment by the Government of India in the Corporation has steadily risen since its incorporation with the infusion of additional Equity for every new project undertaken by the NEEPCO. Thus, the Authorized Capital of NEEPCO had to be gradually increased from the initial amount of ₹75.00 crore to the present ₹5000.00 crore.

CAPITAL STRUCTURE (as on 31.12.2016)	Amount (₹ *in lakh*)
AUTHORISED CAPITAL 5,00,00,00,000 equity shares of ₹10/- each	**500000.00**
ISSUED, SUBSCRIBED AND PAID-UP CAPITAL 345,28,10,400 equity shares of ₹10/- each	**345281.04**

B. CHANGES IN CAPITAL STRUCTURE AS ON LAST QUARTER END, FOR THE LAST FIVE YEARS

None.

None.

J. MANAGEMENT'S PERCEPTION OF RISK FACTORS:

Prospective investors should carefully consider all the information in this Private Placement Offer Letter, including the risks and uncertainties described below, before making an investment in the Bonds. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business prospects, results of operations and financial condition. If any of the following or any other risks actually occur, our business prospects, results of operations and financial condition could be adversely affected and the price of, and the value of your investment in the Bonds could decline and you may lose all or part of your redemption amounts and/ or interest amounts.

(i) RISKS RELATING TO OUR BUSINESS AND INDUSTRY

1. With the power sector industry becoming increasingly competitive, the Corporation's growth will depend largely on its ability to minimize costs and maximize revenues.
2. Our revenues are largely dependent on the ability of our power stations to perform at optimal levels. The performance of our hydro stations at optimum levels depends upon the water levels of the rivers and reservoirs which in turn depend upon rainfall conditions. A decline in rainfall levels may results in lower levels of generation by the hydro stations which would in turn result in lower revenues for the Corporation.
3. Significant shortages in the supply of natural gas could adversely affect our thermal stations which would adversely affect our financial condition and results of operations
4. Power sector CPSUs are required to adhere to certain norms as approved by the Government of India through the Ministry of Power and other authorities as well as the Central Electricity Regulatory Commission (CERC). Changes in the regulatory regime by the CERC with respect to tariff regulations may adversely affect our financial condition and results of operations. The Corporation may also be vulnerable to the introduction of rules, regulations and norms of operation by the Government of India from time to time.
5. The Corporation enjoys certain tax benefits which may be withdrawn thereby adversely affecting our business, financial condition and results of operations.
6. We have borrowed in foreign currency and are likely to continue to do so in the future which exposes us to fluctuations in foreign exchange rates thereby adversely affecting our financial condition and results of operations.
7. The construction, maintenance and operation of power projects carry certain risks which to the extent they materialize could adversely affect our business and financial performance
8. Negative trends in the Indian power sector or the Indian economy could adversely affect our business and financial performance.
9. As the Corporation uses IT in many of its work processes there are possible risks of IT frauds.

(ii) RISKS RELATING TO THE INDIAN ECONOMY

10. A slowdown in the economic growth in India could adversely impact our business.
11. The growth of the power sector in India is dependent on the continued growth of the Indian economy and regulatory developments in India. Any adverse change in policy implementation / industry demand may adversely affect us.
12. Our ability to raise foreign currency borrowings may be constrained by regulatory, statutory and legal conditions in the country.
13. Any downgrading of India's sovereign rating by a credit rating agency could have a negative impact on our business

(iii) RISKS RELATING TO THE BONDS

14. There is no guarantee that the Bonds issued pursuant to this Issue will be listed on BSE in a timely manner.
15. Any downgrading in credit rating of our Bonds may affect the trading price of our Bonds and our ability to raise funds.
16. Payments made on the Bonds will be subordinated to certain tax and other liabilities preferred by law.

XII. ABRIDGED VERSION OF LATEST AUDITED / LIMITED REVIEW HALF YEARLY CONSOLIDATED (WHEREVER AVAILABLE) AND STANDALONE FINANCIAL INFORMATION (LIKE PROFIT & LOSS STATEMENT AND BALANCE SHEET) AND AUDITORS QUALIFICATIONS, IF ANY

Nil.

XIII. ANY MATERIAL EVENT/ DEVELOPMENT OR CHANGE AT THE TIME OF ISSUE OR SUBSEQUENT TO THE ISSUE WHICH MAY AFFECT THE ISSUE OR THE INVESTOR'S DECISION TO INVEST/ CONTINUE TO INVEST IN THE DEBT SECURITIES

Nil.

XIV. THE NAMES OF THE DEBENTURE TRUSTEE(S) SHALL BE MENTIONED WITH STATEMENT TO THE EFFECT THAT DEBENTURE TRUSTEE(S) HAS GIVEN HIS CONSENT TO THE ISSUER FOR HIS APPOINTMENT UNDER REGULATION 4(4) AND IN ALL THE SUBSEQUENT PERIODICAL COMMUNICATIONS SENT TO THE HOLDERS OF DEBT SECURITIES.

In accordance with the provisions of (i) Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide circular no. LAD-NRO/GN/2008/13/127878 dated June 06, 2008, as amended, (ii) Securities and Exchange Board of India (Issue and Listing of Debt Securities) (Amendment) Regulations, 2012 issued vide circular no. LAD-NRO/GN/2012-13/19/5392 dated October 12, 2012, as amended, (iii) the Companies Act, 2013 and (iv) Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993, the Issuer has appointed SBICAP Trustee Company Ltd. to act as Trustees ("Trustees") for and on behalf of the holder(s) of the Bonds. The address and contact details of the Trustees are as under:

SBICAP Trustee Company Ltd.
Apeejay House, 6th Floor, 3 Dinshaw Waccha Road, Churchgate, Mumbai 400 020
Tel.:- 022 4302 5555; Fax: 022-22040465
Email:- corporate@sbicaptrustee.com

A copy of the letter from SBICAP Trustee Company Ltd. conveying their consent to act as Trustee for the current issue of Bonds is enclosed elsewhere in this Disclosure Document.

NEEPCO and the Trustees shall enter into a Trustee Agreement specifying, inter alia, the powers, authorities and obligations of the Trustees and NEEPCO. By applying for the Bonds, the Bondholders shall without further action or deed, be deemed to have irrevocably given their consent to and authorised the Trustees or any of their agents or authorized officials to do, inter alia, all acts, deeds, matters and things in respect of or relating to the security to be created for securing the Bonds being offered in terms of this Document including the right to substitute or release any property charged in their favour and/or to create a charge on additional properties in their favour including the right of the Trustees to release, and/or substitute relevant title deeds in respect thereof. All the rights and remedies of the Bondholders shall vest in and shall be exercised by the Trustees without reference to the Bondholders. Any payment made by NEEPCO to the Trustees on behalf of the Bondholders shall discharge NEEPCO any liability to the Bondholders. No Bondholder shall be entitled to proceed directly against NEEPCO unless the Trustees, having become so bound to proceed, fail to do so.

XV. THE DETAILED RATING RATIONALE (S) ADOPTED (NOT OLDER THAN ONE YEAR ON THE DATE OF OPENING OF THE ISSUE)/ CREDIT RATING LETTER ISSUED (NOT OLDER THAN ONE MONTH ON THE DATE OF OPENING OF THE ISSUE) BY THE RATING AGENCIES SHALL BE DISCLOSED

The company has obtained a rating of **ICRA "AA"; Stable and CARE "AA"; Stable** for the proposed Bond Issue vide letters dated **15th March, 2017** and **23rd February, 2017** respectively. Instruments with this rating are considered to have very low credit risk.

The above ratings are not recommendations to buy, sell or hold securities and investors should take their own decision. The rating may be subject to revision or withdrawal at any time by the assigning rating agencies and should be evaluated independently of any other rating. The rating obtained is subject to revision at any point of time in the future. The rating agencies have the right to suspend, withdraw the rating at any time on the basis of new information etc.

XVI. IF THE SECURITY IS BACKED BY A GUARANTEE OR LETTER OF COMFORT OR ANY OTHER DOCUMENT / LETTER WITH SIMILAR INTENT, A COPY OF THE SAME SHALL BE DISCLOSED. IN CASE SUCH DOCUMENT DOES NOT CONTAIN DETAILED PAYMENT STRUCTURE (PROCEDURE OF INVOCATION OF GUARANTEE AND RECEIPT OF PAYMENT BY THE INVESTOR ALONG WITH TIMELINES); THE SAME SHALL BE DISCLOSED IN THE OFFER DOCUMENT.

Nil.

XVII. COPY OF CONSENT LETTER FROM THE DEBENTURE TRUSTEE "SBICAP TRUSTEE COMPANY LTD." DATED 22nd MARCH, 2017 CONVEYING THEIR CONSENT TO ACT AS TRUSTEE FOR THE CURRENT ISSUE OF BONDS IS ENCLOSED ELSEWHERE IN THIS DISCLOSURE DOCUMENT.

XVIII. NAMES OF ALL THE RECOGNISED STOCK EXCHANGES WHERE THE DEBT SECURITIES ARE PROPOSED TO BE LISTED CLEARLY INDICATING THE DESIGNATED STOCK EXCHANGE.

The Secured Non-Convertible Redeemable Bonds in the nature of Debentures) are proposed to be listed on the Wholesale Debt Market (WDM) Segment of the **Bombay Stock Exchange of India Ltd. ("BSE").** The Company has obtained an in-principle approval from the BSE for listing of said Bonds on its Wholesale Debt Market (WDM) Segment. The Company shall make an application to the BSE to list the Bonds to be issued and allotted under this Disclosure Document and complete all the formalities relating to listing of the Bonds **within 15 days from the deemed date of allotment of the bonds**. If such permission is not granted **within 20 days** from the from the deemed date of allotment of the bonds or where such permission is refused before the expiry of the 20 days from the closure of the Issue, the Company shall forthwith repay without interest, all monies received from the applicants in pursuance of the Disclosure Document, and if such money is not repaid within the stipulated time after the Company becomes liable to repay it (i.e. from the date of refusal or 20 days from the date of closing of the subscription list, whichever is earlier), then the Company and every director of the Company who is an officer in default shall be jointly and severally liable to repay the money, with interest at the rate of 15 per cent per annum on application money, or as prescribed by the relevant rules and regulations.

In connection with listing of Bonds with BSE, the Company hereby undertakes that:

(a) It shall comply with conditions of listing of Bonds as may be specified in the Listing Agreement with BSE.
(b) Ratings obtained by the Company shall be periodically reviewed by the credit rating agencies and any revision in the rating shall be promptly disclosed by the Company to BSE.
(c) Any change in rating shall be promptly disseminated to the holder(s) of the Bonds in such manner as BSE may determine from time to time.
(d) The Company, the Trustees and BSE shall disseminate all information and reports on Bonds including compliance reports filed by the Company and the Trustees regarding the Bonds to the holder(s) of Bonds and the general public by placing them on their websites.
(e) Trustees shall disclose the information to the holder(s) of the Bonds and the general public by issuing a press release in any of the following events:
  (i) default by the Company to pay interest on Bonds or redemption amount;
  (ii) revision of rating assigned to the Bonds;
(f) The information referred to in para (e) above shall also be placed on the websites of the Trustees, Company & BSE.

XIX. OTHER DETAILS:

A. DRR CREATION - RELEVANT REGULATIONS AND APPLICABILITY

The Company shall create a Bond/Debenture Redemption Reserve in accordance with Section 18(7)(b) of the Companies (Share Capital & Debentures) Rules, 2014.

B. ISSUE/INSTRUMENT SPECIFIC REGULATIONS - RELEVANT DETAILS (COMPANIES ACT, RBI GUIDELINES, ETC)

1. Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide circular no. LAD-NRO/GN/2008/13/127878 dated June 06, 2008, as amended and Securities and Exchange Board of India (Issue and Listing of Debt Securities) (Amendment) Regulations, 2012 issued vide circular no. LAD-NRO/GN/2012-13/19/5392 dated October 12, 2012).

2. The Companies Act, 2013.

C. APPLICATION PROCESS:

PROCEDURE FOR APPLYING FOR DEMAT FACILITY

1. The applicant must have at least one beneficiary account with any of the Depository Participants (DPs) of NSDL or CDSL prior to making the application.
2. The applicant must necessarily fill in the details (including the beneficiary account number and Depository Participant's ID) appearing in the Application Form under the heading 'Details for Issue of Bonds in Electronic/ Dematerialised Form'.
3. Bonds allotted to an applicant will be credited directly to the applicant's respective Beneficiary Account(s) with the DP.
4. For subscribing the bonds, names in the application form should be identical to those appearing in the account details in the depository. In case of joint holders, the names should necessarily be in the same sequence as they appear in the account details in the depository.
5. Non-transferable allotment advice/refund orders will be directly sent to the applicant by the Registrars to the Issue.
6. If incomplete/incorrect details are given under the heading 'Details for Issue of Bonds in Electronic/ Dematerialised Form' in the application form, it will be deemed to be an incomplete application and the same may be held liable for rejection at the sole discretion of the Company.
7. For allotment of Bonds, the address, nomination details and other details of the applicant as registered with DP shall be used for all correspondence with the applicant. The Applicant is therefore responsible for the correctness of its demographic details given in the application form vis-à-vis those with their DP. In case the information is incorrect or insufficient, the Issuer would not be liable for losses, if any.
8. It may be noted that Bonds being issued in electronic form, the same can be traded only on the Stock Exchanges having electronic connectivity with NSDL or CDSL. Bombay Stock Exchange Limited., where the Bonds of the Company are proposed to be listed has connectivity with NSDL and CDSL.
9. Interest or other benefits would be paid to those Bondholders whose names appear on the list of beneficial owners given by the Depositories to the Company as on Record Date/ Book Closure Date. In case of those Bonds for which the beneficial owner is not identified by the Depository as on the Record Date/ Book Closure Date, the Company would keep in abeyance the payment of interest or other benefits, till such time that the beneficial owner is identified by the Depository and conveyed to the Company, whereupon the interest or benefits will be paid to the beneficiaries, as identified, **within a period of 15 days.**

HOW TO APPLY:

This being a private placement offer, investors who are established/ resident in India and who have been addressed through this communication directly only are eligible to apply. Application shall be for a minimum number of 5 (five) Bonds and multiples of 1 (one) Bond thereafter.

Applicants may remit their application money by way of electronic transfer of funds through RTGS mechanism or through Core Banking Solution (CBS) for credit in the account of in favour of the "**North Eastern Electric Power Corporation Ltd.**" for crediting the amount to the following bank account:

Beneficiary Name	**North Eastern Electric Power Corporation Ltd.**
Account No.	**32061917621**
Bank	**State Bank of India**
Branch	**SBI Main Branch**
Location	**Kachari Road, Shillong – 793001**
Account Type	**Current**
IFSC Code	**SBIN0000181**

All Application Forms duly completed (along with all necessary documents as detailed in this Disclosure Document) must be delivered before the closing of the issue to the Issuer. While forwarding the application form, applicants must ensure that the relevant UTR number/ or any other evidence of having remitted the application money is obtained. Detailed instructions for filling up the application form are provided elsewhere in this Disclosure Document.

Applications for the Bonds must be in the prescribed form (enclosed) and completed in BLOCK LETTERS in English and as per the instructions contained therein. Applications not completed in the prescribed manner are liable to be rejected. The name of the applicant's bank, type of account and account number must be filled in the Application Form. This is required for the applicant's own safety and these details will be printed on the refund orders and interest/ redemption warrants.

The applicant or in the case of an application in joint names, each of the applicant, should mention his/her Permanent Account Number (PAN) allotted under the Income-Tax Act, 1961 or where the same has not been allotted, the GIR No. and the Income tax Circle/Ward/District. As per the provision of Section 139A (5A) of the Income Tax Act, PAN/GIR No. needs to be mentioned on the TDS certificates. Hence, the investor should mention his PAN/GIR No. if the investor does not submit Form 15G/15AA/other evidence, as the case may be for non-deduction of tax at source. In case neither the PAN

nor the GIR Number has been allotted, the applicant shall mention "Applied for" and in case the applicant is not assessed to income tax, the applicant shall mention 'Not Applicable' (stating reasons for non applicability) in the appropriate box provided for the purpose. Application Forms without this information will be considered incomplete and are liable to be rejected.

Applications may be made in single or joint names (not exceeding three). In the case of joint applications, all payments will be made out in favour of the first applicant. All communications will be addressed to the first named applicant whose name appears in the Application Form at the address mentioned therein.

All applicants are requested to tick the relevant column "Category of Investor" in the Application Form. Public/ Private/ Religious/ Charitable Trusts, Provident Funds and Other Superannuation Trusts and other investors requiring "approved security" status for making investments.

No separate receipts shall be issued for the application money. However, the Issuer will acknowledge the receipt of the applications by stamping and returning the acknowledgment slip to the applicant. Applications shall be deemed to have been received by the Issuer Company when submitted at their designated branch.

For further instructions, please read Application Form carefully.

The issue is being made in pursuance of the Board Resolution dated **15th February, 2016** and EGM Special Resolution dated **10th May, 2016.**

REGISTRATION AND GOVERNMENT APPROVALS

The Company can undertake the activities proposed by it in view of the present approvals and no further approval from any government authority(ies) is required by it to undertake the proposed activities and except those approvals which may be required to be taken in the normal course of business from time to time.

OBJECTS OF THE ISSUE

The funds will be utilized for prepayment of existing high cost borrowings and to finance the construction of various on-going hydro and thermal projects in the NER.

UTILISATION OF ISSUE PROCEEDS

The Company is managed by professionals under the supervision of its Board of Directors. Further, the Company is subject to a number of regulatory checks and balances as stipulated in its regulatory environment. Therefore, the management shall ensure that the funds raised via this private placement shall be utilized only towards satisfactory fulfillment of the objects of the issue. The Company further confirms that the proceeds of the current issue of Bonds shall not be used for providing loan to or acquisition of shares of any person who is part of the same group or who is under the same management.

MINIMUM SUBSCRIPTION

As the current issue of Bonds is being made on private placement basis, the requirement of minimum subscription shall not be applicable and therefore the Company shall not be liable to refund the issue subscription(s)/ proceed(s) in the event of the total issue collection falling short of issue size or certain percentage of issue size.

NATURE OF THE BOND

The bonds are Secured, Redeemable, Non-Convertible Taxable and in the nature of Debentures.

SECURITY

The Bonds together with interest costs and all other monies and amounts payable in respect of these Bonds will be fully secured by first pari-passu charge on identified Fixed Assets of the company with a minimum asset cover of 100% throughout the tenure of Bonds in favour of a Trustee.

The said security shall be created in favour of the Trustees within the stipulated regulatory period from the Deemed Date of Allotment or such extended period as may be permitted by the relevant authority(ies). The Security will be created by the Company, as aforesaid, in favour of the Trustee on such of the assets for which the Company obtains, after all due diligence and efforts, the requisite consents and permissions applicable under law or in accordance with the contractual conditions of holding of such assets for creating the above-mentioned charge. The creation of such security shall be sufficient compliance of the Company's obligation to create security.

TERMS OF PAYMENT

The full face value of the Bonds applied for is to be paid along with the application form. Investor(s) need to send in the application form and the Cheque/Demand Draft/ RTGS/ECS for the full face value of the Bonds applied for.

Issue Price of the Bond	Minimum Application for	Amount Payable on Application per Bond
₹10 lakhs	5 Bonds and in multiples of 1 Bond thereafter	Full Issue Price i.e. ₹10 lakhs

PAY-IN-DATE & DEEMED DATE OF ALLOTMENT

Pay-in Date shall be the date on which application money has to be paid in favour of "**North Eastern Electric Power Corporation Ltd.**" by a Cheque/Demand draft. The funds can also be remitted through RTGS. Details of the Account of the Company are given in the Application form of this document. The Company reserves the right to shift the Pay-in Date and/or the Deemed Date of Allotment to any other date or allot the Bonds on multiple dates without giving any reason or any prior notice. The Company may at its sole discretion accept the subscription amount after the Pay-in Date. All benefits available to the investors shall be from the Deemed Date of Allotment and actual allotment may occur on a date other than the Deemed Date of Allotment.

LETTER(S) OF ALLOTMENT/ BOND CERTIFICATE(S)/ REFUND ORDER(S) ISSUE OF LETTER(S) OF ALLOTMENT

The beneficiary account of the investor(s) with National Securities Depository Ltd. (NSDL)/Central Depository Services (India) Ltd. (CDSL)/ Depository Participant will be given initial CREDIT **within 2 working days** from the Deemed Date of Allotment. The initial CREDIT in the account will be akin to the Letter of Allotment. On completion of the all-statutory formalities, such CREDIT in the account will be akin to a Bond Certificate.

ISSUE OF BOND CERTIFICATE(S)

The Bonds since issued in electronic (dematerialized) form, will be governed as per the provisions of The Depository Act, 1997, Securities and Exchange Board of India (Depositories and Participants) Regulations, 1997, rules notified by NSDL/ CDSL/ Depository Participant from time to time and other applicable laws and rules notified in respect thereof. The Bonds shall be allotted in DEMAT form only.

MODE OF TRANSFER OF BONDS

Transfer of theses dematerialized bonds should be in accordance with the rules/procedures as prescribed by NSDL/CDSL/Depository participant of the transferor/transferee and all other applicable laws and rules notified in respect thereof.

PUT/ CALL OPTION

There is **NO** option for any Put or Call in the current issue.

DEPOSITORY ARRANGEMENTS

The Company has made depository arrangements with National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) for issue and holding of the Bonds in dematerialized form. As per the provisions of Depositories Act, 1996, the Bonds issued by The Company can be held in a dematerialized form, i.e. not in the form of physical certificates but be fungible and be represented by the statement issued through electronic mode. In this context, two Tripartite Agreements have been signed:

- Tripartite Agreement between NEEPCO, NSDL and Karvy Computershare Pvt. Ltd.
- Tripartite Agreement between NEEPCO, CDSL and Karvy Computershare Pvt. Ltd.

FICTITIOUS APPLICATIONS

Any person who:-
a) Makes, in a fictitious name, an application to a body corporate for acquiring or subscribing to, the bonds, or
b) Otherwise induces a body corporate to allot, or register any transfer of, bonds therein to them, or any other person in a fictitious name, shall be liable for legal consequences of such action.

MARKET LOT

The market lot will be one Bond ("Market Lot"). Since the Bonds are being issued only in dematerialised form, the odd lots will not arise either at the time of issuance or at the time of transfer of Bonds.

INTEREST ON APPLICATION MONEY

Interest at the Coupon Rate as per Termsheet (subject to deduction of income tax under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof, as applicable) will be paid to all the applicants on the application money for the Bonds.

Such interest shall be paid from and including the date of realisation of cheque(s)/demand draft(s)/ RTGS/ECS up to but excluding the Deemed Date of Allotment. Such interest would be paid on all valid application. The interest on application money will be computed on the basis of actual number of days elapsed in a year. For this purpose a year would comprise a period of 365 days. In the leap year the month of February shall be considered as of 29 days and the year would be of 366 days. Such interest would be paid on all the valid applications, including the refunds. Where the entire subscription amount has been refunded, the interest on application money will be paid along with the refund orders.

The interest on application money will be remitted through RTGS/ECS or interest cheque(s)/ demand draft(s) for interest on application money (along with Refund Orders, in case of refund of application money, if any) shall be dispatched by the NEEPCO **within 10 days** from the Deemed Date of Allotment and the relative interest warrant(s) along with the Refund Order(s), as the case may be, will be dispatched by registered post/courier/speed post to the sole/ first applicant, at the sole risk of the applicant.

INTEREST ON BONDS

The Bonds shall carry interest at the coupon rates as per term sheet (subject to deduction of tax at source at the rates prevailing from time to time under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof for which a certificate will be issued by NEEPCO) on the outstanding principal amount of Bonds till final redemption. Interest will be paid semi annually on **27th May** and **27th November** each year throughout the tenure of the Bonds till final redemption.

The first interest period shall be defined as actual number of days falling between the **Deemed Date of Allotment** to **27th May, 2017** including the first date but excluding the last date. However, the first interest payment will be made on **29th May, 2017** since 27th May, 2017 is a Saturday. This will be calculated by multiplying the nominal amount with the interest rate on an "**Actual / Actual**" day basis. The second and subsequent interest period is defined as the actual number of days between **27th May** and **27th November** and **27th November** and **27th May** including the first date but excluding the last date. This will be calculated by multiplying the nominal amount by the Interest Rate with the actual number of days divided by total number of days in the coupon period (as per SEBI's Circular No. CIR/IMD/DF/18/2013 dated 29th October, 2013 and SEBI Circular No. CIR/MD/DF-1/122/2016 dated 11th November, 2016). The last Interest Payment would be made on the final redemption date along with the redemption of principal amount.

In case the Deemed Date of Allotment is revised (pre-poned/postponed) then the Interest Payment Dates and Interest payment Schedule may also be revised accordingly by the Company at its sole & absolute discretion.

Interest on Bonds will cease from the date of final redemption in all events. If any interest payment date falls on a day which is not a Business Day ('Business Day' Means a day other than a Sunday and Saturday or a Bank holiday on which banks are open for general business in Mumbai) then payment of interest will be made on the next day that is a business day. In terms of the SEBI Circular No.CIR/MD/DF-1/122/2016 dated 11th November, 2016, interest/redemption payments shall be made only on the days when the money market is functioning in Mumbai.

COMPUTATION OF INTEREST

The Bonds will carry interest rates as per the term sheet from the Deemed Date of Allotment. The interest will be paid from the Deemed Date of Allotment (subject to deduction of tax at source at the rates prevailing from time to time under the Income Tax Act, 1961 or any other statutory modification or re-enactment thereof) as per term sheet. The Interest shall be computed on "**Actual / Actual**" day count basis (refer SEBI's Circular No. CIR/IMD/DF/18/2013 dated October 29, 2013).

RECORD DATE

The Record Date for all interest payments and repayment of the bond value upon redemption will be the day immediately preceding the period of **15 days prior to the interest payment or redemption date**, as the case may be. Such payment will be made to the bondholder as appearing in the records of the RTA as on the said date. In case the record date, as defined herein, falls on a holiday, the record date shall be the previous Working Day immediately preceding such date.

DEDUCTION OF TAX AT SOURCE

Tax applicable under the Income-Tax Act, 1961, or any other statutory modification or re-enactment thereof will be deducted at source. Tax exemption certificate/ document, under section 193/197/197A of the Income Tax Act, 1961, if any, must be lodged at the office of the Issuer, at least fifteen (15) days prior to the interest payment date. The applicants must submit tax exemption certificate, if applicable, in respect of the interest on application money, if any, along with the

application form as required under the Income Tax Act, 1961. In case of tax deducted at source, the Company will send the TDS certificate to the investors. Therefore, to ensure non-deduction/lower deduction of tax at source from interest on application money, the investors should submit Form 15H/15AA, authority letter from Assessing Officer for non-deduction of tax as may be applicable, with the Application Form, on or before the closure of the Issue.

Regarding deduction of tax at source and the requisite declaration forms to be submitted, prospective investor is advised to consult his tax advisor before investing in the Bonds to be issued by NEEPCO.

REDEMPTION

The Bonds will be redeemed in one instalment at the end of 3year and 2 month from the Deemed Date of Allotment.

The Bonds held in the dematerialised form shall be taken as discharged on payment of the redemption amount by the Company on maturity to the registered Bondholders whose name appear in the Register of Bondholders on the record date. Such payment will be a legal discharge of the liability of the Company towards the Bondholders.

In case the principal redemption date falls on a day which is not a Business Day ('Business Day' Means a day (other than a Sunday and Saturday or a Bank holiday on which banks are open for general business in Mumbai) then the payment due shall be made on the previous Business Day along with accrued interest. In terms of the SEBI Circular No.CIR/MD/DF-1/122/2016 dated 11th November, 2016, interest/redemption payments shall be made only on the days when the money market is functioning in Mumbai.

PAYMENT ON REDEMPTION

Payment on redemption will be made by credit through ECS/RTGS system in the name of the Bondholder(s) whose name appears on the List of Beneficial Owners given by Depository to NEEPCO as on the Record Date. The Issuer's liability to Bondholder(s) towards all their rights including payment of interest or otherwise shall cease and stand extinguished from the due date of redemption in all events. Further, the Issuer will not be liable to pay interest, income or compensation of any kind from the date of such redemption of the Bonds.

The Bonds shall be taken as discharged upon payment of the redemption amount the redemption date. Such payment will be a legal discharge of the all liability of the Company towards the Bondholders. On payment of the redemption amount, the Company will inform NSDL/CDSL and accordingly the account of the Bondholders with NSDL/CDSL will be adjusted.

The liability of the Company shall stand discharged on remitting the redemption proceeds through ECS/EFT/RTGS to the above said Beneficiaries. No claim, damages or penal interest in respect of delayed payment, etc. shall lie upon the Company in the event of non-receipt of the same by the addressee Bondholder.

RIGHTS OF BONDHOLDERS

Bondholder is not a shareholder. The Bondholders will not be entitled to any other rights and privilege of shareholders other than those available to them under statutory requirements. The Bond(s) shall not confer upon the holders the right to receive notice, or to attend and vote at the General Meeting of the Company. The principal amount and interest on the Bonds will be paid to the registered Bondholders only, and in case of Joint Holders, to the one whose name stands first. Besides the above, the Bonds shall be subject to the provisions of the Companies Act, 2013, the Articles of Association of NEEPCO, the terms of this bond issue and the other terms and conditions as may be incorporated in the Trust deed and other documents that may be executed in respect of these Bonds.

EFFECT OF HOLIDAYS

Should any of the dates defined anywhere in the present Information Memorandum, except the Deemed Date of Allotment, fall on a Sunday or a Holiday, the next working day shall be considered as the effective date. In case the date involves a payment, then the next working day on which Scheduled Commercial Banks in Shillong are open for business shall be considered as the effective date.

LIST OF BENEFICIAL OWNERS /REGISTER OF BENEFICIAL OWNERS

The Company shall request the RTA to provide a list of Beneficial Owners as at the end of the Record Date. This shall be the list, which shall be considered for payment of interest or repayment of principal amount, as the case may be. The RTA shall maintain a register and an index of Beneficial Owners in the manner as provided for, in compliances with various applicable regulations.

SUCCESSION

In the event of the demise of the sole/first holder of the Bond(s) or the last survivor, in case of joint holders for the time being, the Company shall recognize the executor or administrator of the deceased Bondholder, or the holder of succession certificate or other legal representative as having title to the Bond(s). The Company shall not be bound to recognize such executor or administrator, unless such executor or administrator obtains probate, wherever it is necessary, or letter of administration or such holder is the holder of succession certificate or other legal representation, as the case may be, from a

Court in India having jurisdiction over the matter. The Company may, in its absolute discretion, where it thinks fit, dispense with production of probate or letter of administration or succession certificate or other legal representation, in order to recognize such holder as being entitled to the Bond(s) standing in the name of the deceased Bondholder on production of sufficient documentary proof or indemnity.

Where a non-resident Indian becomes entitled to the Bond by way of succession, the following steps have to be complied with:

a. Documentary evidence to be submitted to the Legacy Cell of the RBI to the effect that the Bond was acquired by the NRI as part of the legacy left by the deceased holder.

b. Proof that the NRI is an Indian National or is of Indian origin. Such holding by the NRI will be on a non-repatriation basis

FUTURE BORROWINGS

Company reserves the right to make further issues of Bonds or raise loans from any source it deems fit on the security or otherwise of its assets without the consent of the Trustees and without any approval from the bondholders of these present bonds.

DECLARATION REGARDING NON-DEFAULT

Company has never defaulted in payment of interest or principal redemption on any of the Bonds issued by it nor has it defaulted in case of non-allotment of Bonds or payment of application money.

NOTICES

Any notice to the Bondholder required to be sent by Company shall be deemed to have been given if sent by registered post /courier to the holders appearing in the most recent records of the RTA.

All notices to be given by the Beneficial Owners of Bonds shall be sent by Registered Post or by Hand Delivery to the Company or such persons, at such address, as may be notified by the Company from time to time.

All communications from bondholders to NEEPCO shall be addressed to:

The Compliance Officer/Company Secretary, North Eastern Electric Power Corporation Limited, Brookland Compound, Lower New Colony, Shillong 793 003

TAX BENEFITS TO THE BONDHOLDERS OF THE COMPANY

The holder(s) of the Bonds are advised to consider in their own case, the tax implications in respect of subscription to the Bonds after consulting their own tax advisor/ counsel.

DISPUTES & GOVERNING LAWS AND JURISDICTION

The Bonds shall be construed to be governed in accordance with Indian laws and rules framed there under. Any dispute between NEEPCO and the bondholders will subject to the jurisdiction of the Shillong High Court.

No: 04:06: Reset: 782:2011-12

19th September, 2011

Mr. A G West
General Manager (Fin)
North Eastern Electric Power Corpn.
Brookland Compound,Lower New Colony
Post Box No. 79,
Shillong – 793 003

Dear Sir,

Sub: 3 years Interest reset of PFC Loan no. 78202005.

In terms of the Memorandum of Agreement and PFC Circular No. 04:07: Policy: 2004-05: Cir: P&C: I dated: 13-may-2004, the Corporation has a right to reset the Interest Rates at the end of the every third year beginning with the date of the first disbursement on or after 13-may-2004. Interest reset, if exercised by the corporation shall apply from the standard due date immediately following the end of the three year period.

Accordingly, the Loans referred to in Annexure for the disbursement made up to the Reset Date, i.e. cutoff date, shall be due for Re-set on 15-Oct-2011. Consequent to the reset of the interest rate, the applicable interest rate shall be 12.75% w.e.f. 15-Oct-2011. However, you have an option to prepay the entire loan outstanding amount without payment of premium within 15 days from the date of this letter or 15-Oct-2011, whichever is later. In case the borrower does not prepay within this period it shall be presumed that reset has been accepted and reset shall apply from the reset date i.e. 15-Oct-2011.

Thanking you,

Yours sincerely

(Upendra Upreti)
Manager (Recovery)

31st July, 2014

Mr. G. S. Patra
General Manager (NER & W. Bengal)
Power Finance Corporation Ltd.
Connaught Place,
New Delhi – 110001

Sub: Prepayment of PFC Loan sanctioned for the Kameng HEP
Ref: PFC's letter No.04:06:Reset:782:2011-12 dated 19th September, 2011

Dear Sir,

Kindly refer to PFC's letter referred above wherein NEEPCO was informed of the reset date of 15-Oct-2011. As per Clause 2.3 of the Loan Agreement, we anticipate a similar letter from PFC for the next reset date falling on 15-Oct-2014, i.e. 3 years from the previous reset date.

In this regard, we would like to inform you that NEEPCO is considering the option of exercising the prepayment of the entire loan outstanding as on 15-Oct-2014 as the present interest rate charged by PFC is on the higher side. However, if PFC could consider reducing the interest rate on this loan to a more comfortable rate, NEEPCO may not need to exercise the prepayment option.

We look forward to your positive response.

Thanking you,

Yours faithfully,

31.7.14

Sub: Financial Assistance sanctioned to NEEPCO's Kameng HEP (4x150 MW), Arunachal Pradesh- Partial funding of cost overrun & revision of project related dates

Ref: NEEPCO letter no. NEEPCO/FIN/GM/08/2054 dated 03.05.2013

Dear Sir,
Please refer to above referred NEEPCO request regarding partial funding of cost overrun, extension of scheduled COD and loan reschedulement. It is to inform you that PFC is in-principle agreeable for:

1. Enhancement of the term loan sanctioned to NEEPCO (Loan no. 78202005) from ₹ 1739.68 crore to ₹ 2239.68 crore, an increase of ₹ 500 crore, including funding of IDC, being partial cost overrun of the project (revised project cost of ₹ 4766.54crore) and subject to the following additional condition:

   Pre-Commitment Condition:
   NEEPCO shall submit an undertaking that they shall obtain approval of the revised project cost from CEA/MoP/any other Govt. authority, as applicable, and any communication from the approving authority on project cost shall be intimated to PFC.

2. Revision of Project related dates as below;

Sl No	Milestone	Existing Schedule	Proposed Schedule
1	Project Completion date	31.05.2013	31.03.2017
2	Loan closing date	30.11.2013	30.09.2017
3	Repayment Start date	15.12.2013	15.10.2017

Please note that all other terms and conditions of the original sanction communicated vide PFC's letter dated 28-Jan-2005 shall remain unaltered.

Yours faithfully,

(VNBR Viswanadh P)

Schedule annexed to this agreement, by way of Hypothecation and Mortgage for securing due payment by the Borrower of the loan and interest, interest tax, service charges, interest on unpaid interest/liquidated damages/ penal interest, other expenses etc. in the form prescribed by the Corporation.

NOW IT IS HEREBY AGREED BY AND BETWEEN THE PARTIES HERETO as follows:-

1. The Corporation will lend and advance to the Borrower the sum of Rs. 1739.68 Crore (Rupees One Thousand Seven Hundred Thirty Nine Crore and Sixty Eight Lakhs) only, on the terms and conditions set out in the Corporation's letter dated 28th January, 2005, 31st May, 2005 and 26th July, 2005, and on the terms and conditions herein set out. The said letters shall form part of this Agreement as Annexure-I as if fully set forth hereunder and all the terms and conditions set out in the said letter will be binding on the Borrower.

2. The Borrower shall repay to the Corporation the amount of the said loan with interest, interest tax, service charges, commitment charges, liquidated damages/penal interest, interest on unpaid interest/liquidated damages/penal interest etc. thereon and costs, charges, expenses, losses and other moneys, etc. in accordance with the terms and conditions set out in that behalf in the said letter dated 28th January, 2005, 31st May, 2005 and 26th July, 2005, of the Corporation. The Borrower shall make all payments of principal, interest, interest tax, service charges, commitment charges, liquidated damages/penal interest, interest on unpaid interest/liquidated damages/ penal interest, other expenses etc. to the Corporation at its Registered Office at New Delhi.

3. The Borrower shall implement the said Project and shall also adhere to and comply with all such amendments thereto as are approved by the Corporation.

4. The Borrower agrees and undertakes to complete the work in the manner and according to the time schedule envisaged in terms and conditions of sanction of loan.

5. The Borrower has represented to and assured the Corporation that the loan applied for and being granted by the Corporation to the Borrower is within the borrowing powers of the Borrower in accordance with the laws and bye-laws applicable to it and all

formalities, required by the laws and bye-laws and rules regulating the work and conduct of the Borrower in respect of such borrowing have been fully complied with.

6. The Borrower has further agreed to create a first charge in favour of the Corporation in the manner indicated below:

   i. Hypothecation of all the immovable assets created/ to be created (save and except stocks and book debts), of the 4x150 MW, Kameng Hydro .Electric Project.

   ii. Mortgage of all immovable assets of 4x150 MW, Kameng Hydro .Electric Project created/ to be created under the loan.

   more specifically indicated in the schedule annexed to this agreement for due fulfillment of the obligations of the Borrower in terms of this Agreement and for due repayment of the principal amount and the interest, interest tax, service charges, commitment charges, liquidated damages/penal interest, interest on unpaid interest/liquidated damages/penal interest etc. thereon and costs, charges, expenses, losses and other moneys, etc.

7. The Borrower shall furnish to the Corporation such periodical returns of its workings and with regard to the utilization of the amount of the loan and the progress of the Project as may be required by the Corporation.

8. The Borrower shall make available for the inspection of the Corporation all its books of account and other books and documents maintained by it and/or required to be maintained by it under any law, bye-laws or rules of the Borrower and allow all facilities to the Corporation or any persons authorized by it for the purpose of carrying out such inspection. The Corporation shall have the right to inspect the Project and all the books of account, records and documents relating thereto at any time.

9. The Borrower agrees and undertakes to execute, sign, seal and deliver all documents, papers, acknowledgements and other writings as may be required by the Corporation at any time during the pendancy of this Agreement, more fully and effectively securing the moneys due and payable or to become due and payable by the Borrower to the Corporation in terms of these presents.

10. The Borrower must be and continue to be the owner and in physical possession of the Project at the time of disbursement of each installment of loan amount and till all the money due to the Corporation are fully liquidated by the Borrower.

11. The Borrower shall not transfer or abandon the Project at any stage without written consent of the Corporation. In case at any stage or on a future date, the Project is proposed to be transferred to any other organization or to be abandoned, the entire outstanding (e.g., principal, interest, interest tax, service charges, commitment charges, liquidated damages/penal interest, interest on unpaid interest/liquidated damages/penal interest etc.) due from the Borrower shall be paid to the Corporation before any such transfer is affected.

12. In the event of a default on the part of the Borrower or any breach of the terms and conditions of these presents, the Borrower shall be liable to pay to the Corporation all costs, charges and expenses incurred/to be incurred by the Corporation in connection with the negotiations for the Agreement and in respect of the Agreement including legal expenses incurred for realization/recovery of the outstanding dues.

13. The Corporation shall without prejudice to its other rights and remedies be entitled to recall the loan at any time before the due date for repayment thereof, if the Borrower fails to fulfill its obligations under this Agreement and/or in the event of its committing a breach of any of the terms thereof. The decision of the Managing Director of the Corporation as to whether a breach of the terms of this Agreement has been committed by the Borrower or not shall be final and binding on the Borrower.

14. Every notice, demand, request, consent, approval, waiver or agreement to be given or made hereunder shall, save as otherwise herein specifically provided, be in writing and in the English Language and shall be delivered by hand or sent by mail (Registered Post) or by telex or cable and shall be deemed to have been given and received, if delivered by hand, upon delivery, if sent by mail, the 3rd day (excluding Saturday, Sunday and other closed days) following the date of mailing, and if sent by telex or cable, the 2nd day (excluding Saturday, Sunday and other closed days) following the date of transmission. Ref : PFC sanction letter no. 3:04:NEEPCO:Kameng:I, dated 28.01.05.

Dear Sir,

This has reference to the above. In this regard please be informed that the clause no. 4.1 of the Terms & Condition of sanction attached with the sanction letter of the subject loan is amended as follows :

Existing clause

4.1 Commitment Charges

The Borrower will ..... till the date of drawl of loan by the borrower.

The drawl schedule once submitted shall be final and no revision shall be allowed in the drawl schedule.

Amended clause

4.1 Commitment Charges

The Borrower will ..... till the date of drawl of loan by the borrower.

The borrower is allowed prospective revision in the drawl schedule upto a maximum of two times during the currency of loans

All other Terms & Conditions of the loan sanction shall remain the same.

Inconvenience caused due to the above is highly regretted.

Thanking you,

Yours faithfully,

Lower New Colony,
Shillong – 793 003 Fax No. 0364 – 2505776

Sub : Reduction in rebate for timely repayment.

Dear Sir,

Kindly refer to the sanction letter(s) for the following schemes sanctioned by PFC for implementation of various projects:

Sl. No.	No. of Loan	Loan Amount (Rs. Crs.)	Date of Sanction	Name of the Project
1.	78201001	552.36	12.01.05	Tripura Gas Based Power Project (280 MW)
2.	78202005	1739.68	28.01.05	Kameng HEP (4x150 MW)
3.	78202001	130.00	7.04.99	Ranganadi HEP (4x150 MW)
4.	78202003	130.00	29.08.01	Ranganadi HEP (4x150 MW)
5.	78202004	50.85	17.01.01	Doyang HEP (3x25 MW)

As you are aware, PFC has revised its interest rates policy with effect from 1st July, 2005 and the rebate for timely repayment has also been reduced from 0.5% to 0.25% with effect from i.e. 1.7.2005 (for details please refer to our circular letter no. 4:7:Policy:2005-06/State & Central dated 11th July, 2005 addressed to you).

Consequent to the above, please be informed that the clause no. 2 of the terms and conditions annexed with the sanction letter(s) pertaining to the rate of interest, stands suitably modified and the rebate of 0.25% shall be applicable for the aforesaid schemes with effect from 01.07.2005 as per revised PFC policy.

You are requested to kindly note the above and send your acceptance in respect of the above by signing a duplicate copy of this letter annexed herewith.

Thanking you,

Yours faithfully,
for **Power Finance Corporation Ltd.**

Sub.: Financial assistance for Kameng H.E.P. (4x150 MW), Arunachal Pradesh – Loan No. 78202005.

Dear Sir,

With reference to your proposal vide letter No. NEEPCO/ND/2004-2005/F-32/2429 dated 10.08.2004 regarding financial assistance for **Kameng H.E.P. (4x150 MW)**, involving a total cost of Rs. 2485.26 crores, we are pleased to advise that we are generally agreeable to advance loan of **Rs. 1739.68 crores (Rupees One Thousand Seven Hundred Thirty Nine Crores and Sixty Eight Lakhs only)** for the project. The loan shall be subject to the 'Terms & Conditions' (T&C) given in the Attachment to (this) sanction letter and also such further terms and conditions as laid down in the form of 'Memorandum of Agreement' (MoA) to be executed by PFC and NEEPCO.

We request you to communicate your acceptance within one month from the date of this letter, to avail the above loan on the said terms and conditions.

The following documents (in the prescribed formats) shall be required at the time of execution/disbursement of loan as per policy applicable:

(a) Documents required at the time of execution/signing of loan documents:

i) Extract of Board Resolution, duly attested by the Company Secretary, accepting the loan on the terms & conditions of PFC and authorizing officer to accept and agree to said terms & conditions and execute the relevant loan documents/undertaking etc.
ii) Specimen signatures of authorized signatory duly attested by the Company Secretary.
iii) Certificate from the borrower, in the prescribed format, that the borrower has received a copy of Operational Policy Statement (OPS) of PFC and confirming that the borrower is aware of the terms and conditions of OPS which shall also apply to this loan.
iv) Certificate of compliance of loans, bye laws etc. applicable to the borrower to be issued by the Company Secretary, as the case may be.
v) Certificate in the prescribed format that the borrower shall continue to be the owner and in physical possession of the project till the outstanding loan amount is fully liquidated.
vi) Resolution under section 293(1)(a) and 293(1)(d) of the Companies Act 1956, duly attested by Company Secretary.
vii) Certificate from the Company Secretary/Statutory Auditor that the borrowing is within the borrowing limit of NEEPCO, with details thereof.

Project Development
Power Fin. Corp. Ltd.

General Manager
NEEPCO Ltd., Shillong

viii) Option letter in the prescribed format, whereby the borrower either opts to pay commitment charges or upfront fee as per clause 4.1 of the terms & conditions.

ix) Quarter-wise drawl schedule.

(b) Documents required at the time of disbursement of loan:

i) Tripartite Escrow Agreement in the prescribed format.

ii) Materials and equipment schedule, in the prescribed format, for the project/scheme to be financed under the loan

In addition to above, the borrower shall furnish all other documents as may be required in terms of loan.

Kind attention is invited to clause 16.0 of Terms & Conditions of sanction, which read as under:-

"The sanction of loan accorded in terms of the sanction letter will stand cancelled if the Borrower fails to execute the complete documents (i.e., MoA alongwith documents required before or at the time of execution of MoA) within a period of six months from the date of sanction letter. The Corporation may, in exceptional cases, agree to extend the aforesaid period of six months, for such further period as it may deem appropriate if the Borrower makes an application to the Corporation before expiry of initial six-months period, duly supported by the reasons for such extension."

ATTACHMENT TO THE SANCTION LETTER FOR LOAN NO. 78202005

TERMS AND CONDITIONS OF SANCTION

1.0 AGREEMENT

1.1 The Borrower shall execute a Memorandum of Agreement (MOA) in the form prescribed by the Power Finance Corporation Ltd. (the Corporation) for the purpose and submit all other documents as required within six months of the date of letter of sanction of loan.

1.2 The Memorandum of Agreement shall not be executed in case the borrower has been declared a defaulter by PFC.

2.0 RATE OF INTEREST

2.1 The Borrower shall pay interest on the said loan at the rate of interest *prevailing* on the date of each disbursement applicable for Mega generation loans as per PFC policy ***(presently, it is 7.25% per annum upto commissioning of the first unit, thereafter it would be 7.00 % per annum#)*** alongwith interest tax at the rate applicable from time to time. The interest in favour of the Corporation shall begin to accrue from the date of payment/issue of cheque by the Corporation. The instalment of interest and interest tax will be payable quarterly ***on 15th day of April, 15th day of July, 15th day of October and 15th day of January every year*** after commencement of disbursement. The amount of interest and interest tax payable will be calculated at the above rates upto the date immediately preceding the due date of payment i.e. 14th day of the month on the amount disbursed/outstanding upto the last day of the preceding month. **Computation of interest shall be made on a daily basis using 365 days factor.**

The reduction in rate shall be made from the date of receipt of intimation in PFC in regard to commissioning of the first unit or the actual date of commissioning, whichever is later; provided that if intimation is received within 5 (five) working days from actual commissioning of the unit, the reduction shall be given w.e.f. from the date of commissioning.

2.2 Notwithstanding anything stated hereinabove, the Corporation shall be at liberty and have the right to revise the rate of interest on the loan amount or part thereof yet to be disbursed by giving prior written notice to the Borrower of such revision. The revised rate shall take effect from such date as may be specified by the Corporation in this behalf.

2.3 **Interest Reset:** Notwithstanding anything herein above, the Corporation shall have a right to reset the rate of interest with put option, at the end of every third year beginning with the date of first disbursement. Interest reset, if exercised by the Corporation, shall apply from the standard due date immediately following the end of 3rd year period. In case where the Borrower does not agree to so revised interest rate for upward revision, the Borrower shall have the option to prepay the entire loan outstanding amount without payment of premium.

General Manager (Finance)
NEEPCO Ltd., Shillong - 3

B.S. BISHT
Sr. Manager
Documentation

5.2 The penal interest charged from borrowers shall be subject to the rebate of different rates, provided the repayment of dues is received in the following manner :-

a) In case the payment is received within one month of the date on which the repayments became due, 50% of the penal interest due from the date of default till the date of receipt, shall be allowed as rebate;

b) In case the payment is received within two months of the date on which the repayments became due, 30% of the penal interest due, from the date of default till the date of receipt shall be allowed as rebate;

c) In case the payment is received within three months of the date on which the repayments became due, 10% of the penal interest due from the date of default till the date of receipt, shall be allowed as rebate; and

d) No rebate shall be given in penal interest in case of default of over three months.

5.3 The Borrower shall pay on demand all costs, charges, expenses, losses and other moneys that may be incurred by the Corporation, in connection with remittance/receipt of moneys to or to the order of or from the borrower, or in connection with protecting and/or enforcing the rights of the Corporation under the Memorandum of Agreement and/or Guarantee Deed and/or any other document for the loan in question. The decision of the Corporation with regard to the amount/loss incurred on these, shall be final and binding on the Borrower.

6.0 **APPROPRIATION OF AMOUNT PAID BY THE BORROWER:**

6.1 The money paid by the Borrower shall be appropriated in the following order:

a) Costs, charges, expenses, losses and other moneys;
b) Interest on penal interest, costs, charges, expenses and other moneys;
c) Penal Interest;
d) Commitment Charges;
e) Interest/interest tax;
f) Repayment of prinicpal in the order of the occurence of the dues; and lastly,
g) Prepayment of principal.

7.0 **ALL PAYMENTS TO BE REALISEABLE AT PAR IN NEW DELHI :**

7.1 The Borrower shall so arrange that the amounts due and payable to the Corporation are realiseable by the corporation at par on the due dates of the relevant payments in New Delhi.

8.0 **MAINTENANCE OF ACCOUNTS AND AUDIT**

8.1 The Borrower shall maintain proper accounts and other records and prepare annual accounts including the profit and loss account and the balance sheet in the forms and manner prescribed under the Electricity Supply Act, 1948 or any other statute as applicable. The Borrower shall furnish to the Corporation the unaudited annual accounts, within six months and audited accounts within one year of the close of the year to which the accounts relate.

9.0 INSPECTIONS

9.1 It would be open to the corporation to depute its officers and other staff/nominees for inspection of the matters relating to this loan and its purposes and the inspecting staff shall have access to such books, records and stores of the Borrowers as will be deemed necessary by the inspecting staff/nominees. The Borrower shall allow all facilities to the inspecting officers/nominees for the purpose of carrying out such inspection and render such explanation or elucidation as may be required by the Corporation and or its nominees and allow the taking of any copies of/or extracts therefrom.

10.0 REPORTS:

10.1 The Borrower shall also furnish to the Corporation such reports on its working, either in general or in specific relation to this loan, in the manner as may be prescribed by the Corporation from time to time.

10.2 The Borrower shall furnish to the Corporation a report on the utilisation of this loan and on this physical progress of the project/programme in the manner and within the period as may be prescribed by the Corporation.

10.3 The Borrower shall prepare a completion report and forward the same to the Corporation within six (6) months of completion of the project.

11.0 GUARANTEES AND SECURITY

11.1 The loan shall be guaranteed fully, unconditionally and irrevocably by first charge on the entire assets (movable and immovable) of the project (Kameng HEP) to be created from the proposed loan, save and except stocks and book debts as per PFC policy.

11.1.1 **Creation of additional security :** The Borrower undertakes that if, at any time during the subsistence of this Agreement, the Corporation is of the opinion that the security provided by the Borrower has become inadequate to cover the balance of the loans then outstanding, the Borrower shall provide and furnish to the Corporation additional security as may be acceptable to the Corporation to cover such deficiency.

11.1.2 **Registration of charge :** The Borrower shall have the particulars of charge registered with the Registrar of Companies (RoC) as per the Companies Act within stipulated time, and shall submit a certificate from the RoC certifying the registration of charge.

11.2 **Escrow Account as per PFC policy.** The escrow account already opened by NEEPCO in case of earlier PFC loan would be required to be enhanced for the entire pendency of the loan repayment period, to the satisfaction of PFC.

12.0 UTILISATION OF LOAN AND COMPLETION OF PROJECT :

12.1 The Borrower shall ensure that the equipments/materials for which the loan is obtained from the Organisation are utilised for the implementation of the project.

General Manager (Finance)
NEEPCO Ltd., Shillong-3

बी० एस० बिष्ट/ B.S. BISHT
वरिष्ठ प्रबंधक/ Sr. Manager
Documentation

12.2 The Borrower shall not raise borrowings from any other sources for meeting any part of the cost of equipments/materials/works financed through this loan.

12.3 The Borrower shall take all necessary steps to ensure that the project is completed as envisaged in the manner and according to the time schedule envisaged, i.e. by the end of *December 2009.* *

* *Could be reviewed and changed at the time of execution of loan documents*

12.4 The procurement by the borrower of the equipment and material agreed to be financed by Corporation shall be done in accordance with the procedure laid down/ mutually agreed by the Corporation and shall be agreed between borrower and the Corporation before or at the time of signing of loan agreement. Such procurement procedure may be either as laid down by the Corporation or as applicable by the International Financial Institution whose loan proceeds may be intended to be availed under the loan or the procurement procedure is being followed by the borrower in case it is acceptable to PFC.

12.5 The borrower shall furnish a completion report on the successful completion of the project within six (6) months of the commercial operation of the project/schemes as per format prescribed by the Corporation.

13.0 DRAWAL OF LOAN

13.1 The Borrower shall before the disbursement of the loan sanctioned, furnish to the Corporation a schedule in the prescribed form containing complete details of the equipments/materials ordered/supplied and/or civil/erection work completed/to be completed for which the payments are required to be made or to become due.

13.2 The Borrower shall have to submit its application for drawal of the loan duly supported by the certificates and documents as required by the Corporation.

13.3 The loan shall be disbursed according to the disbursement procedure of the Corporation, as modified/amended from time to time and/or as mutually agreed. Normally disbursement will be made on the basis of the standard equipments/materials ordered / supplied as required for the completion of the project/programme and payment for these equipments/materials becoming due by the Borrower to the supplier(s) concerned and also in respect of the civil/erection works completed/to be completed for implementation of project/programme through any agency(ies) engaged for the purpose.

13.4 For specific type of loans or sub-projects or loan arrangements tailor made disbursement/reimbursements procedures would be evolved in consultation with the borrower and shall be followed on both sides.

13.5 If desired by the Borrower, the Corporation may make an advance payment as per the disbursement procedure of the Corporation on completion of necessary loan documents. (the certificate/proof, as may be needed by the Corporation, in regard to utilisation of advance will be submitted by borrowers within six months of the drawl or in such time frame as agreed to by the Corporation).

General Manager (Finance)
NEEPCO Ltd., Shillong-3

P.F.C. Ltd.
Chandrakot, Sector-1, New Delhi-1

13.6 The Corporation shall not be liable for any charge whatsoever for which the Borrower may become liable due to delayed payment in respect of the equipments/materials ordered/supplied or in respect of civil/erection works executed through the agency(ies) engaged.

13.7 The borrower shall draw the loan as per drawal schedule and the closing date of loan shall be *30th June 2010* * or as such, other date as may be agreed to by the Corporation.

* *Could be reviewed and changed at the time of execution of loan documents*

13.8 Claims for expenditure incurred from *10th August 2004* shall be admissible against this loan.

14.0 SUPERVISION AND MONITORING:

14.1 The Corporation would monitor the progress of project/scheme financed by it. In this respect:

a) the borrower shall furnish periodic progress reports on the formats, as defined by the Corporation or as agreed and intimated to the borrower;

b) the borrower shall provide full cooperation and access to the officials of the corporation for monitoring through visits to Project related sites, stores as well as the Head Quarters of the borrowers. The borrower shall also provide documents as may be deemed necessary for assessing the physical as well as financial progress of the project.

In case the Corporation is not satisfied with the progress of the project/scheme financed or the utilisation of financial assistance provided, it may resort to remedial measures as stipulated in the clause DEFAULT hereunder.

General Manager
NEEPCO Ltd., Shillong-3

15.0 DEFAULTS

15.1 In case it is found to the satisfaction of the Corporation, which shall be final and not questioned, that the amount already disbursed has not been properly and effectively utilised by the Borrower for the project/programme and/or the progress achieved in the implementation of the project/programme or compliance of any of the condition(s) of this loan is considered to be not satisfactory, the Corporation shall have absolute discretion at any time to suspend, reduce, cancel, alter or delay disbursement of said loan and/or instalments in any manner and may decline to disburse any and/or all the remaining instalments without assigning any reason thereof, to the Borrower and without being liable for any losses or damages.

15.2 If the Borrower defaults in the payment of principal or interest or any other payment required under the loan agreement, the Corporation, at its option, may by notice to the Borrower and to the guarantor, declare the principal of the loan than outstanding to be due and payable immediately together with the interest and other charges thereon, and on such declaration such principal, together with the interest and other charges thereon, shall become due and payable immediately.

VALIDITY PERIOD OF SANCTION

The sanction of loan accorded in terms of the sanction letter shall stand cancelled if the Borrower fails to *execute* the complete documents (i.e., MOA alongwith documents required before or at the time of execution of MOA) within a period of *six months* from the date of sanction letter. The Corporation may, in exceptional cases, agree to extend the aforesaid period of six months, for such further period as it may deem appropriate if the Borrower makes an application to the Corporation before expiry of initial six-month period, duly supported by the reasons for such extension.

17.0 SALE/TRANSFER/ABANDONING OF THE PROJECT BY THE BORROWER

17.1 The Borrower must be and continue to be the owner and in physical possession of the project at the time of execution of Memorandum of Agreement, disbursement of each instalment of loan amount and till all the moneys due to the Corporation are fully liquidated by the Borrower.

17.2 The Borrower shall not transfer or abandon the project at any stage without written consent of the Corporation. In case at any stage or on a future date, the project is proposed to be transferred to any other organisation or to be abandoned, the entire outstanding eg (principal, interest, interest-tax, service charges, commitment charges, penal interest, interest on penal interest etc.) due from the Borrower shall be paid to PFC before any such transfer is affected.

18.0 MISCELLANEOUS PROVISIONS :

18.1 The Borrower shall be bound to follow and give effect to all instructions/ recommendations of the Corporation.

18.2 The said loan shall also be subject to such further terms and conditions as may be laid down in the form of agreement to be executed by the Borrower.

18.3 Notwithstanding the various terms and conditions hereinabove mentioned the Borrower has been given a copy of the Operational Policy Statement(OPS) of PFC and amendments/modifications thereto, for such financial assistance or assistances, and the Borrower is fully aware of the various terms and conditions set out therein which shall apply mutatis-mutandis to this loan as if fully set forth herein and all the provisions set out in the OPS shall be binding on the borrowers. Further the Borrower shall also take note of and comply with any change/revision/modification/ amendments that may be made subsequently and notified by PFC.

18.4 The Corporation shall recover interest tax, if applicable, from the borrower at the applicable rate under Interest Tax Act, 1974.

18.5 The borrower shall during the currency of loans bear all such imposts, duties and taxes or any other charges as may be levied from time to time by the Govt. or other authority.

18.6 On premature repayment of loan, the existing policies of the corporation in this regard would be applicable.

IV. BRIEF SUMMARY OF THE BUSINESS/ACTIVITIES OF THE ISSUER AND ITS LINE OF BUSINESS

A. OVERVIEW

NEEPCO is a Schedule "A" Miniratna Government of India Enterprise under the Ministry of Power with a present Authorised Capital of Rs.5000 crores. Its primary goal is the integrated and efficient development of the Power Sector in the Region by planning, investigating and preparing preliminary feasibility and definite project reports followed by the actual construction, operation and maintenance of power stations and projects.

Since NEEPCO has been incorporated to operate primarily in the North Eastern Region, it would be pertinent to mention the immense potential of the region for generation of power. Additionally, the Region also has abundant resource of coal, oil and gas for thermal power generation. In spite of such huge potential the Region ranks lowest in the country in terms of per capita energy consumption. This has been mainly due to inhospitable climatic conditions, remote location and inaccessibility of geographical locations.

Hydro-electric Power: In terms of hydro power, the North Eastern Region has the potential of about 58971 MW, i.e. almost 40% of the country's total hydro potential. Of this huge hydro potential, less than 2% (1116 MW) has so far been harnessed as on 31.03.2010 and the remaining 98% is yet to be exploited.
Natural Gas: 151.68 billion cubic feet - enough to generate 7500 MW for 10 years.
Coal: 864.78 Million tonnes against 186 Billion tones of reserves in the country. With the reserves in the N.E Region, approximately 240 MW/day can be generated for a period of 100 years.

However with continual improvement of infrastructure and communication facilities, the North East region stands to become the Power House of India by utilising its surplus power potential especially in the hydro sector.

MISSION STATEMENT

- To harness the vast hydro & thermal power potential of the region.
- To produce pollution free and inexhaustible power through planned development of power generation projects.
- To play a significant role in the integration and development of hydroelectric and thermal power in the Central Sector covering all aspects such as investigation, planning, designs, construction, operation and maintenance of hydroelectric and thermal projects which in turn would effectively promote the development of the nation as a whole.

CERTIFICATIONS RECEIVED

- ✓ ISO 9001-2000 Quality Management System
- ✓ ISO 14001-2004 Environmental Safeguards
- ✓ OHSAS 18001-1999 Occupational Health and Safety Standards

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Since its inception NEEPCO has always given top priority towards all round development of the people residing in and around its operational areas. As a responsible corporate citizen, NEEPCO has undertaken various community development activities particularly in the field of education, health, infrastructure development and other community needs. The Corporation is committed to discharge larger responsibilities towards the society in future.

NEEPCO'S CSR MISSION

- To execute and operate projects in a cost effective, environment friendly and socio-economically responsive manner with thrust on energy conservation.
- To be a responsible corporate entity for nurturing human values with concern for society.
- To contribute towards community development and help achieve a high level of human development in the field of education and health in particular as human development contributes to welfare by enhancing 'capabilities' of people thereby increasing their productivity, income and general wellbeing.

PRODUCTS/SERVICES

NEEPCO generates and supplies power to the seven states of the North Eastern Region. The primary beneficiaries are:

- Assam Power Distribution Company Ltd.
- Meghalaya Energy Corporation Ltd.
- Tripura State Electricity Corporation Ltd.
- Department of Power, Govt. of Arunachal Pradesh
- Electricity Department, Govt. of Manipur
- Power & Electricity Department, Govt. of Mizoram
- Department of Power, Govt. of Nagaland

SUPPLY OF POWER

NEEPCO's generating stations feed power at their respective bus-bar into the Regional Grid. Power is transmitted to the Bulk Power Consumers through transmission systems of the PowerGrid Corporation of India Ltd. (PGCIL) as well as the respective State Transmission Utilities (STU). Generation and transmission of power in the region is regulated by the North Eastern Regional Power Commission and the North Eastern Regional Load Despatch Centre which are the designated apex bodies for integrated operation and management of the Regional Power System (Regional Grid). Tariff for power from the various stations are fixed as per the Availability Based Tariff (ABT) by the Central Electricity Regulatory Authority (CERC). The ABT regime came into force in the North Eastern Region with effect from 01.11.2003. Presently, NEEPCO has the following generating power stations:

Sl.	Name of the Power Station	Installed Capacity	State
1	Khandong Power Station	50 MW	Assam
2	Kopili Power Station	200 MW	Assam
3	Kopili Hydro Electric Project – Stage II	25 MW	Assam
4	Doyang Hydro Electric Project	75 MW	Nagaland
5	Ranganadi Hydro Electric Project	405 MW	Arunachal Pradesh
	Sub-total (Hydro)	**755 MW**	
6	Assam Gas Based Power Project	291 MW	Assam
7	Agartala Gas Based Power Project	84 MW	Tripura
	Sub-total (Thermal)	**375 MW**	
Grid Interactive Solar Power Plant at TGBP Site, Tripura **(Renewable)**		**5 MW**	Tripura
	Grand Total	**1135 MW**	

BRIEF PROFILES OF THE GENERATING STATIONS

1. Khandong Power Station & 2. Kopili Power Station: They comprise the original Kopili Hydro Electric Project (100 MW) located on the River Kopili in the North Cachar Hills District of Assam which was the maiden venture of NEEPCO when it came into existence in 1976. The first stage of Kopili Hydro Electric Plant has two dam and dyke systems for creating two reservoirs, one on the Kopili River and the other on the Umrong stream, a tributary of the Kopili. Water from the Kopili reservoir is utilized in the Khandong power station through a 2852 metre long tunnel to generate 50 MW (2 X 25 MW) of power. The tail water from this powerhouse is led to the Umrong reservoir. The water from Umrong reservoir is taken through a 5473 metre long tunnel to the Kopili power station to generate 200 MW (4 X 50 MW) of power. Subsequently, the Stage I Extension (100 MW) of the project envisaged setting up two additional 50 MW units at Kopili Power Station, provisions for which were already kept during the first stage development of the project. The Units III and IV under this extension scheme were commissioned in March, 1997 and June, 1997 respectively. The total installed capacity of the Kopili Power Station thus went up to 200 MW and that of the project as whole to 250 MW. The raising of the Umrong reservoir by 7.6 m was taken up to meet the demand for more water for two additional 50 MW units of first stage extension.

3. Kopili Hydro Electric Project - Stage II: The second stage of the Kopili Hydro Electric Project involved construction of a powerhouse to generate additional 25 MW of power by utilizing water from the Kopili reservoir through a 480 m long water conductor system, provision of which was kept as a by-pass conduit from the surge shaft in the Khandong tunnel. The water from the second stage powerhouse goes to the Umrong reservoir for utilization in the Kopili power station

4. Doyang Hydro Electric Project: Situated on the River Doyang, a tributary of the River Brahmaputra, this Project with a capacity of 3 X 25 MW and an estimated annual generation of 227 Million Units was commissioned on the 2nd week of July'2000. The Project is located in Wokha District of Nagaland. It consists of three units of 25 MW each and has a Design Energy of 227 MU. The Dam is of Rock Fill type with a height of 87.50 m and length of 462 m. The steel lined HRT has double bifurcation, 5.92m in diameter and 427.86 m long and the Design Head is 67.0 m. The Evacuation System comprises a 132 kV D/C Doyang-Dimapur lines of PGCIL and a 132 kV S/C Doyang-Kohima line and 132 KV S/C Doyang-Mokochung line of Govt. of Nagaland.

5. Ranganadi Hydro Electric Project: This run-of-the-river Project is located in the Lower Subansiri District of the State of Arunachal Pradesh in the Ranganadi basin and the adjoining Dikrong basin. . It consists of three units of 135 MW each and has a Design Energy of 1509.66 MU. The Dam is of Concrete Gravity type with a height of 68 m and length of 340 m. The HR Tunnel has a diameter of 6.8 m and is 10.13 km long while the dimensions of the Penstock are 5.8 m dia x 778 m long; 4.75 m dia x 137 m long; 3.35 m dia x 147 m long. The Design Head is 304.0 m. The Evacuation System comprises 400 kV Ranganadi-Balipara D/C Lines of PGCIL and 132 kV Ranganadi-Nirjuli S/C Line, 132 kV Ranganadi-Along S/C Line of the Govt. of Arunachal Pradesh.

6. Assam Gas Based Power Project: This Combined Cycle Gas Turbine Project is located in the Dibrugarh District of Assam. It has been partly financed by a loan of 37.272 Billion Yen under bilateral credit arrangement with the Overseas

Economic Cooperation Fund of Japan. It utilizes natural gas available in the oil fields of Upper Assam. The power station comprises of 6 Gas Turbines with associated Waste Heat Recovery Boilers and 3 Steam Turbines, arranged in a modular fashion. A module comprises of 2 Gas Turbines with associated Waste Heat Recovery Boilers and 1 steam turbine.

7. Agartala Gas Based Power Project: This project is located in the West Tripura District of the state of Tripura near the capital town of Agartala .The project runs on an Open Cycle Mode and consists of 4 Gas Turbines of 21 MW each of European Gas Turbine make operating on natural gas obtained from the gas fields of M/S ONGC. The Project has been financed through the budgetary support of the Government of India and partially through external commercial borrowings from the Deutsche Bank, Germany. The Project has been completed at a cost of Rs 322.55 Crores with a 50:50 debt equity ratio. The Project was completed in 1997-98.

8. 5MWp Grid Interactive Solar Power Plant: As a maiden venture, a 5 MWp Grid Interactive Solar PV Power Project is being setup at Monarchak within the premises of the 101 MW Tripura Gas Based Power Project at an estimated cost of Rs.42.89 Cr. (including IDC), with the levellised tariff being Rs. 9.46/unit. The project was commissioned on 15th February, 2015. The power generated from the project is being evacuated through a 33 KV Double – Circuit Line to the Rabindranagar Sub-Station of Tripura State Electricity Corporation Limited (TSECL). The infrastructure for evacuation of power was carried out by TSECL on "Deposit Work Basis".

OFFICES

NEEPCO's registered office is in the picturesque hill city of Shillong. It also has liaison offices in New Delhi, Kolkata, Guwahati and Itanagar.

D. BRIEF NOTE ON THE ON-GOING PROJECTS OF THE CORPORATION:

a. ON-GOING POWER PROJECTS

NEEPCO is presently constructing five more projects which will add another 922 MW to its Installed capacity. All the on-going projects have been allotted to NEEPCO by the Government of India in agreement with the respective State Governments. A summary of these projects is as follows:

Sl.	Name of the Project	Installed Capacity	State	Estimated Cost (*Rs. in crore*)
(i)	Tuirial Hydro Electric Project	60 MW	Mizoram	913.63
(ii)	Kameng Hydro Electric Project	600 MW	Arunachal Pradesh	4653.95
(iii)	Tripura Gas Based Project	101 MW	Tripura	623.44
(iv)	Pare Hydro Electric Project	110 MW	Arunachal Pradesh	573.99
(v)	Agartala Gas Turbine Project - Extension	51 MW	Tripura	296.87
Total		**922 MW**		

(i) Kameng Hydro Electric Project (600 MW):

A run-of-the-river (ROR) scheme in the West Kameng District of Arunachal Pradesh, this project comprises of 4 units of 150 MW turbine-generators each with total design energy of 3,353 MU. The project was approved for construction on 2nd December, 2004 at a cost of Rs.2496.90 crore including IDC of Rs.249.09 crore at March, 2004 price levels and is presently in advanced stages of construction. PPAs have been signed with the Governments of Assam and Arunachal Pradesh for 300 MW each.

The approved funding pattern of this project is with a debt-equity ratio of 70:30 and the equity to be fully funded by the Govt. of India. The debt component is presently being funded by a loan from PFC. A revised cost estimate (RCE) of Rs.4653.95 crore including IDC of Rs.1187.67 crore has been submitted to the Ministry of Power after obtaining recommendation by the CEA and is presently awaiting approval. The project commissioning date proposed in the RCE is June, 2016 and accordingly the IDC and the tariff were worked out by the CEA. The tariff is Rs.3.51/kwh for the first year and Rs.3.07/kwh as levellised tariff based on the recommended RCE of CEA.

The source-wise expenditure (provisional) for this project as on 31st January, 2015 is as follows:

Sources of funds	Expenditure in Rs. crore
Equity from Govt. of India	749.07
PSU Bonds	2298.37
Internal Resources	513.56
Total	**3561.00**

(ii) Pare Hydro Electric Project (110 MW):

A concrete gravity dam scheme on the Dikrong river in the Papumpare District of Arunachal Pradesh, the project is comprised of 2 units of 55 MW turbine-generators with a total design energy of 506.42 MU. The project was approved for construction on 4th December, 2008 at a cost of Rs.573.99 crore including IDC of Rs.67.66 crore at June, 2007 price levels and is presently in advanced stages of construction. PPAs have been signed with all the seven states of the NER for supply of power from this project.

The approved funding pattern of this project is with a debt-equity ratio of 70:30 and the equity to be fully funded by the Govt. of India. The debt component is being funded by a loan from KfW, Germany covered by the Indo-German Bilateral Development Cooperation Programme under an agreement signed between the Government of India and the Government of the Federal Republic of Germany on 21st May, 2008.

A revised cost estimate (RCE) of Rs.1128.38 crore including IDC of Rs.80.64 crore has been submitted to the Ministry of Power on 26th June, 2013 and is presently awaiting approval. The project commissioning date proposed in the RCE is September, 2014 and accordingly the IDC and the tariff have been worked out. The tariff is Rs.4.40/kwh for the first year and levellised tariff is Rs.4.30/kwh.

The source-wise expenditure (provisional) for this project as on 31st January, 2015 is as follows:

Sources of funds	Expenditure in Rs. Crore
Equity from Govt. of India	172.20
KfW Loan	536.00
Internal Resources	248.55
Total	**956.75**

(iii) Tuirial H Hydro Electric Project (60 MW):

A medium head storage scheme in the Aizawl District of Mizoram, the project comprises 2 units of 30 MW turbine-generators with total design energy of 250.63 MU. CCEA clearance was obtained on 7th July, 1998. After the award of major packages, work on the project began from 2001 as per the drawn up plan. However, the project work came to total stop w.e.f. 9th June, 2004 on account of agitation launched by Tuirial Crop Compensation Claimant Association claiming payment of crop compensation for the standing crops in the riverine reserve forest. As on June, 2004 prior to stoppage of work, 30% of the project work and 95% of Design & Engineering work had been completed.

In order to revive the project, various efforts were made by the Ministry of Power, NEEPCO and the Govt. of Mizoram. Subsequently, a PIB recommendation for revival of the project at a RCE of Rs.913.63 crore at March, 2010 PL was placed before the CCEA for investment decision. The CCEA clearance was issued on 14th January, 2011 with approval for a debt-equity ratio of 85:15, commissioning schedule of December, 2015 and the following funding pattern:

Source of funds	Amount in Rs. crore
1. Equity from Govt. of India	137.04
2. Subordinate Loan from Govt. of India	291.96
3. Grant from NLCPR of DoNER	300.00
4. Loan from domestic FI/PFC	184.63
Total	**913.63**

The rate of interest on the Subordinate Loan is 1% p.a. to be paid w.e.f. the date of commercial operation and loan repayments will start from the 16th year from commissioning up to the 30th year.

Presently, a RCE is under preparation by NEEPCO and will be submitted to the MoP for necessary approval.

The source-wise expenditure (provisional) for this project as on 31st January, 2015 is as follows:

Sources of funds	Expenditure in Rs. Crore
1. Equity from Govt. of India	136.97
2. Subordinate Loan from Govt. of India	290.96
3. Grant from NLCPR of DoNER	120.55
4. Bonds	184.63
Total	**733.11**

(iv) Tripura Gas Based Power Project (101 MW):

A Gas Based Combined Cycle Project of nominal capacity 101 MW, this project is located in Monarchak, Sonamura Sub-Division, West Tripura District. Investment approval was conveyed by the Ministry of Power on 14th July, 2009 for a cost of Rs.421.01 crore at December, 2008 PL and a debt-equity ratio of 70:30 with the equity to be fully funded by NEEPCO from its internal accruals.

A tender for the EPC Contract for Main Plant Package was invited through the ICB route in April, 2008. However, only one bid was received and the lone bidder did not fulfill the qualifying requirements for the EPC Contract as stipulated in the Tender Documents including other shortfall in Technical offer. Accordingly, the bid was rejected. As there was inadequate response against ICB, it was felt that re-tendering would not yield any better result and instead cause delay in the process of award. Accordingly, in order to expedite implementation of the project, it was decided to award the EPC Contract for Main Plant Package to BHEL on offer basis through negotiation with assistance from the Central Electricity Authority (CEA). A Negotiation Committee was constituted with Member (Thermal) CEA and senior officers of NEEPCO to finalize the scope, terms and conditions and prices for the EPC Contract. Upon finalization of the EPC cost with BHEL and as reviewed by the Negotiation Committee, the original approved project cost was revised at November, 2009 PL to Rs.623.44 crore including IDC of Rs.51.09 crore. The investment approval for this RCE-I was conveyed by the Ministry of Power on 23rd February, 2011.

Now, as more than 50% of the approved RCE-I has been incurred, the cost estimate has been revised again at December, 2012 PL and the same is presently awaiting the approval. The RCE-II submitted is for Rs.951.47 crore including IDC of Rs.66.52 crore with tariff of Rs.4.09/kwh for the first year and levellised tariff of Rs.4.20/kwh.

A fuel supply agreement (FSA) for this project was signed with ONGC on 5th June, 2008. A PPA was signed on 19th March, 2008 with the State Govt. of Tripura which will be the sole beneficiary of this project.

The source-wise expenditure (provisional) for this project as on 31st January, 2015 is as follows:

Source of funds	Expenditure in Rs. Crore
NEEPCO PSU Bonds	284.80
ECB from SBI, Singapore	371.16
Internal resources	213.45
Total	**869.41**

(v) Agartala Gas Turbine Project - Extension

The 84 MW Agartala Gas Turbine Plant (AGTP) in Agartala, Tripura consisting of 4 (four) European-make Gas Turbine Units of 21 MW each is presently operating in open cycle mode utilizing 0.75 MMSCUD of natural gas. This plant is proposed to be converted into a Combined Cycle Power Plant by installing 2 (two) Steam Turbine Generating units of 23 MW with Plant configuration of 2 modules, each module comprising of 2 Gas Turbines (existing) + 2 Heat Recovery Steam Generators (new) + 1 Steam Turbine with Air Cooled Condensing System (new). Air Cooled Condensing System is envisaged in order to minimize the water requirement. The CC extension project is accordingly proposed within the premises of the existing Plant as there is adequate space to accommodate the Combined Cycle Extension Project. With the addition of the extension plant, the tariff of the entire Agartala project will come down from Rs 3.13 per unit to Rs 2.64 per unit. PPAs have been concluded with all the seven states of the NER for supply of power from this project.

The financing pattern of this project is with a Debt-Equity ratio of 70:30. The debt component of the Project Cost is being met from the proceeds of the ECB from SBI, Singapore while equity is being met from internal accruals of NEEPCO.

The main plant works (EPC) are beng executed by M/s Thermax Limited, Pune while the Transformer & Switchyard are being set up by M/s Bharat Bijiee Limited, Mumbai. The project is expected to be commissioned in March, 2015.

The source-wise expenditure (provisional) for this project as on 31st January, 2015 is as follows:

Sources of funds	Expenditure in Rs. crore
ECB from SBI, Singapore	260.75
Internal Resources	38.34
Total	**298.09**

b. RENEWABLE ENERGY INITIATIVES:

The Corporation has ventured into the Renewable Energy Sector in the form of Solar and Wind Energy Projects and has also committed to the Ministry of New & Renewable Energy (Green Energy Commitment) to implement projects up to 2500 MW during the period 2015-2019. Apart from the already ongoing Solar PV project at Monarchak, other projects have been proposed which are as under:

(i) Grid Interactive Solar Power Project (2 MW), Lanka, Assam: A detailed project report prepared through a consultant M/s STEAG Energy Services (India) Pvt. Ltd., Noida and obtaining of clearances from State Pollution Control Board are in process.

(ii) Grid interactive Solar Power Project (5 MW), Surjyamonigar, Tripura: An NIT for preparation of DPR was floated on 9th October, 2013.2013. Evaluation of the same is completed. A draft MOU with the Govt. of Tripura is under finalization. Preparation of DPR for the project will be carried out on conclusion of the MOU with Govt. of Tripura.

(iii) Grid Interactive Wind Power Project, at Kopili HEP, Assam: Detailed investigations for feasibility of setting up wind power project are being carried out through the Centre for Wind Energy Technology (C-WET), Chennai which are scheduled to be completed in December, 2014.

c. RAJIV GANDHI GRAMIN VIDYUTKARAN YOJNA (RGGVY)

The Corporation has been entrusted by the Government of Tripura for implementation of Rural Electricity Infrastructure & Household Electrification Scheme under 12th Plan Grameen Vidyutikaran Yojana in two Districts viz. Sepahijala and South Tripura. The financing for the project shall be made by Rural Electrification Corporation (REC) through the Government of Tripura. While 90% of the project shall be financed by REC, the remaining 10% shall be contributed by the Government of Tripura from their own resources. The objective of the project is to achieve 100% electrification of villages/households with special dispensation for all rural below poverty level (BPL) households and also to have suitable back stream infrastructure and connectivity to provide sustainable electricity in the rural areas.

Sepahijala and South Tripura Districts have 117 and 140 numbers respectively of inhabited census/revenue villages as per 2011 census. Under the scheme, 63 KVA and 25 KVA sub-stations along with 11 KV 3 phase, 415 V three phase and 415 V Single Phase lines would be constructed.

Detailed Project Reports (DPRs) for the works were prepared in the month of November, 2013 and the same have been approved by REC in January, 2014. Subsequently, tenders for the works have been invited on 10th February, 2014. The works are scheduled for completion within two years from the date of placement of order.

d. JOINT VENTURE PROJECTS

With a view to enhance generation capacity, NEEPCO is planning to pool resources with other CPSUs and undertake various projects through Joint Ventures. Further the Corporation is planning to form JVs with Private developers for executing projects which are already allotted to these developers. The following projects are being taken up:

A. HYDRO

i. Dibbin Hydro Electric Project (120 MW), Arunachal Pradesh: A Memorandum of Understanding between M/s KSK Energy Ventures Ltd. was concluded on 28th March, 2014 for implementation of the project in JV with NEEPCO's equity share of 30%.

ii. Siang Upper Stage-II Hydro Electric Project (3750 MW), Arunachal Pradesh: A MOA was signed with the State Govt. of Arunachal Pradesh (GoAP) on 28th May, 2013 for implementation in joint venture between NEEPCO, NHPC and the GoAP. The preparation of DPR and comprehensive environmental studies are under process. As desired by the MOEF, GOI, a new PFR is under preparation for approval of term of reference (TOR). A draft Shareholders' Agreement between NEEPCO and NHPC is under finalization.

iii. Siang Upper Stage-I Hydro Electric Project (6000 MW), Arunachal Pradesh: The GoAP conveyed its approval on 29th January, 2014 for development of the project in JV between NHPC, NEEPCO and the GoAP. NHPC has also given some observations on the terms and conditions communicated by GOAP, decisions on which are awaited.

NEEPCO has requested the Ministry of Power to include both the Siang Upper Stage I & II Hydro Electric Projects in the category of National Projects for fast tracking their implementation.

iv. Tipaimukh Hydro Electric Project (1500 MW), Manipur: On 10th December, 2012 the MoP conveyed its decision to induct NEEPCO as a partner in the aforesaid JV in lieu of SJVNL. Finalization of the Draft Promoters' Agreement is in process between NEEPCO & NHPC. Meanwhile, the MOEF recommended exploring the feasibility of smaller dams involving smaller forest area. NHPC explored the feasibility of the project with reduction in FRL from 175m to 155m that would result in 26% reduction of forest area. The MoP desired NHPC to explore the techno-commercial aspect of the proposal. On 24th January, 2014, NEEPCO had suggested to NHPC to explore the feasibility of the project with FRL below 155m keeping reservoir submergence to the minimum corresponding to power generation capacity only.

v. Gumti SHP (15 MW), Tripura: A JV Company between NEEPCO and TSECL is proposed for renovation of this project. NEEPCO has prepared a draft report on the project. A Draft MOU is being finalized for signing between NEEPCO and TSECL, which is expected shortly.

B. THERMAL

vi. 35 MW Rokhia Gas Based CC Project in JV with Tripura State Electricity Corporation: The Government of Tripura has agreed in principle for formation of a JV between NEEPCO and TSECL for conversion of the Rokhia (63 MW) & Baramura (42 MW) Gas based Power Plants into Combined Cycle configuration by adding 35 MW & 26 MW steam turbines respectively. The NIB for preparation of DPRs for Rokhia and Baramura was floated on 5th

December, 2013. Evaluations have been completed and the Corporation is in the final stages for award of the work. A draft MOU/ JV agreement for the above projects with the Government of Tripura is under finalization.

vii. 26 MW Baramura Gas Based CC Project in JV with the Tripura State Electricity Corporation.

C. RENEWABLE ENERGY PROJECTS

viii. *50 MW Solar Power Project of SECI* in Madhya Pradesh: The Share Holder Agreement between M/s WAAREE Energies Ltd. was concluded on 28th March, 2014 for implementation of the project in JV with NEEPCO's Equity Participation of 40%.

ix. 100 MW Wind Power Project, Gujarat: The MOU with ECI Engineering & Construction Co. Ltd. was signed on 28th March, 2014 for implementation of 100 MW Wind Power Project, Gujarat in JV with NEEPCO's Equity Participation of 40%.

E. GROSS DEBT : EQUITY RATIO PRIOR TO AND AFTER THE ISSUE OF THIS SECURITY:

Prior to the Issue	After the issue

V. A BRIEF HISTORY OF THE ISSUER SINCE ITS INCORPORATION GIVING DETAILS OF ITS ACTIVITIES

The North Eastern Electric Power Corporation Ltd. (NEEPCO Ltd.) was incorporated on 2nd April, 1976 under the Companies Act, 1956 with an Authorised Capital of Rs.75 crores. NEEPCO is a Schedule "A" Government of India Enterprise under the Ministry of Power. Its primary goal is the integrated and efficient development of the Power Sector in the Region by planning, investigating and preparing preliminary feasibility and definite project reports followed by the actual construction, operation and maintenance of power stations and projects.

A. DETAILS OF SHARE CAPITAL AS ON LAST QUARTER END (31.12.2014)

NEEPCO is a fully owned Government of India Enterprise and its entire share capital is held by the Central Government. Presently, its authorized share capital is Rs.5000 crore. The paid up share capital of the Corporation was Rs.3426.12 crore.

The investment by the Government of India in the Corporation has steadily risen since its incorporation with the infusion of additional Equity for every new project undertaken by the NEEPCO. Thus, the Authorized Capital of NEEPCO had to be gradually increased from the initial amount of Rs.75.00 crores to the present Rs.5000.00 crores.

CAPITAL STRUCTURE (as on 31.12.2014)	Amount (*Rs. in lakh*)
AUTHORISED CAPITAL 5,00,00,00,000 equity shares of Rs.10/- each	**500000.00**
ISSUED, SUBSCRIBED AND PAID-UP CAPITAL 3,42,61,15,400 equity shares of Rs.10/- each	**342611.54**

B. CHANGES IN CAPITAL STRUCTURE AS ON LAST QUARTER END, FOR THE LAST FIVE YEARS

Date of Change (AGM)	Rupees	Particulars
10th July, 2009	1500,00,00,000/-	Increase in AUTHORISED SHARE CAPITAL from **Rs.3500,00,00,000/-** divided into 350,00,00,000 equity shares of Rs.10/- each to **Rs.5000,00,00,000/-** divided into 500,00,00,000 equity shares of Rs.10/- each.

C. EQUITY SHARE CAPITAL HISTORY OF THE COMPANY AS ON LAST QUARTER END, FOR THE LAST FIVE YEARS

Date of Allotment	No. of Equity Shares	Face Value Rs.	Issue Price Rs.	Consideration (Cash, other than cash, etc)	Cumulative	
					No. of Equity Shares	Equity Share Capital (*Rs. in lakhs*)
20-02-2009	1,38,20,000	10.00	10.00	-	319,27,48,800	3192,74.88
26-08-2009	1,16,60,000	10.00	10.00	-	320,44,08,800	3204,40.88
25-11-2009	2,33,40,000	10.00	10.00	-	322,77,48,800	3227,74.88
23-03-2010	41,81,600	10.00	10.00	Book adjustment by Govt. of India	323,19,30,400	3231,93.04
20-05-2011	4,50,00,000	10.00	10.00	-	327,69,30,400	3276,93.04

02-03-2012	1,53,00,000	10.00	10.00	Book adjustment by Govt. of India	329,22,30,400	3292,23.04
20-11-2012	1,44,10,000	10.00	10.00	-	330,66,40,400	330664.04
05-02-2013	80,00,000	10.00	10.00	-	331,46,40,400	331464.04
05-12-2013	2,80,00,000	10.00	10.00	-	334,26,40,400	334264.04
14-05-2013	81,00,000	10.00	10.00	-	335,07,40,400	335074.04
26-03-2014	1,21,75,000	10.00	10.00	-	336,29,15,400	336291.54
14-05-2014	2,21,70,000	10.00	10.00	-	338,50,85,400	338508.54
16-07-2014	4,10,30,000	10.00	10.00	-	342,61,15,400	342611.54

Note: NEEPCO is fully owned by the President of India; hence the nature of allotment of all the above equity shares is only on fully paid-up basis on receipt of equity sanction orders from the Govt. of India from time to time.

D. DETAILS OF ANY ACQUISITION OR AMALGAMATION IN THE LAST 1 YEAR

None.

E. DETAILS OF ANY REORGANIZATION OR RECONSTRUCTION IN THE LAST 1 YEAR

None.

F. ANY FINANCIAL OR OTHER MATERIAL INTEREST OF THE DIRECTORS, PROMOTERS OR KEY MANAGERIAL PERSONNEL IN THE OFFER AND THE EFFECT OF SUCH INTEREST IN SO FAR AS IT IS DIFFERENT FROM THE INTERESTS OF OTHER PERSONS

Nil

G. DETAILS OF ANY LITIGATION OR LEGAL ACTION PENDING OR TAKEN BY ANY MINISTRY OR DEPARTMENT OF THE GOVERNMENT OR A STATUTORY AUTHORITY AGAINST ANY PROMOTER OF THE OFFEREE COMPANY DURING THE LAST THREE YEARS IMMEDIATELY PRECEDING THE YEAR OF THE CIRCULATION OF THE OFFER LETTER AND ANY DIRECTION ISSUED BY SUCH MINISTRY OR DEPARTMENT OR STATUTORY AUTHORITY UPON CONCLUSION OF SUCH LITIGATION OR LEGAL ACTION SHALL BE DISCLOSED

None.

J. MANAGEMENT'S PERCEPTION OF RISK FACTORS:

Prospective investors should carefully consider all the information in this Private Placement Offer Letter, including the risks and uncertainties described below, before making an investment in the Bonds. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business prospects, results of operations and financial condition. If any of the following or any other risks actually occur, our business prospects, results of operations and financial condition could be adversely affected and the price of, and the value of your investment in the Bonds could decline and you may lose all or part of your redemption amounts and/ or interest amounts.

(i) RISKS RELATING TO OUR BUSINESS AND INDUSTRY

1. With the power sector industry becoming increasingly competitive, the Corporation's growth will depend largely on its ability to minimize costs and maximize revenues.
2. Our revenues are largely dependent on the ability of our power stations to perform at optimal levels. The performance of our hydro stations at optimum levels depends upon the water levels of the rivers and reservoirs which in turn depend upon rainfall conditions. A decline in rainfall levels may results in lower levels of generation by the hydro stations which would in turn result in lower revenues for the Corporation.
3. Significant shortages in the supply of natural gas could adversely affect our thermal stations which would adversely affect our financial condition and results of operations
4. Power sector CPSUs are required to adhere to certain norms as approved by the Government of India through the Ministry of Power and other authorities as well as the Central Electricity Regulatory Commission (CERC). Changes in the regulatory regime by the CERC with respect to tariff regulations may adversely affect our financial condition and

results of operations. The Corporation may also be vulnerable to the introduction of rules, regulations and norms of operation by the Government of India from time to time.

5. The Corporation enjoys certain tax benefits which may be withdrawn thereby adversely affecting our business, financial condition and results of operations.
6. We have borrowed in foreign currency and are likely to continue to do so in the future which exposes us to fluctuations in foreign exchange rates thereby adversely affecting our financial condition and results of operations.
7. The construction, maintenance and operation of power projects carry certain risks which to the extent they materialize could adversely affect our business and financial performance
8. Negative trends in the Indian power sector or the Indian economy could adversely affect our business and financial performance.
9. As the Corporation uses IT in many of its work processes there are possible risks of IT frauds.

(ii) RISKS RELATING TO THE INDIAN ECONOMY

10. A slowdown in the economic growth in India could adversely impact our business.
11. The growth of the power sector in India is dependent on the continued growth of the Indian economy and regulatory developments in India. Any adverse change in policy implementation / industry demand may adversely affect us.
12. Our ability to raise foreign currency borrowings may be constrained by regulatory, statutory and legal conditions in the country.
13. Any downgrading of India's sovereign rating by a credit rating agency could have a negative impact on our business

(iii) RISKS RELATING TO THE BONDS

14. There is no guarantee that the Bonds issued pursuant to this Issue will be listed on BSE in a timely manner.
15. Any downgrading in credit rating of our Bonds may affect the trading price of our Bonds and our ability to raise funds.
16. Payments made on the Bonds will be subordinated to certain tax and other liabilities preferred by law.

X. DETAILS OF PROMOTERS OF THE COMPANY

None. (*NEEPCO Ltd. fully owned by the Government of India*)

Nil.

XIV. THE NAMES OF THE DEBENTURE TRUSTEE(S) SHALL BE MENTIONED WITH STATEMENT TO THE EFFECT THAT DEBENTURE TRUSTEE(S) HAS GIVEN HIS CONSENT TO THE ISSUER FOR HIS APPOINTMENT UNDER REGULATION 4 (4) AND IN ALL THE SUBSEQUENT PERIODICAL COMMUNICATIONS SENT TO THE HOLDERS OF DEBT SECURITIES.

In accordance with the provisions of (i) Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide circular no. LAD-NRO/GN/2008/13/127878 dated June 06, 2008, as amended, (ii) Securities and Exchange Board of India (Issue and Listing of Debt Securities) (Amendment) Regulations, 2012 issued vide circular no. LAD-NRO/GN/2012-13/19/5392 dated October 12, 2012, as amended, (iii) the Companies Act, 2013 and (iv) Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993, the Issuer has appointed SBICAP Trustee Company Ltd. to act as Trustees ("Trustees") for and on behalf of the holder(s) of the Bonds. The address and contact details of the Trustees are as under:

SBICAP Trustee Company Ltd.
Apeejay House, 6th Floor, 3 Dinshaw Waccha Road, Churchgate, Mumbai 400 020
Tel.:- 022 4302 5555
Fax: 022-22040465
Email:- corporate@sbicaptrustee.com

A copy of the letter from SBICAP Trustee Company Ltd. conveying their consent to act as Trustee for the current issue of Bonds is enclosed elsewhere in this Disclosure Document.

NEEPCO and the Trustees shall enter into a Trustee Agreement specifying, inter alia, the powers, authorities and obligations of the Trustees and NEEPCO. By applying for the Bonds, the Bondholders shall without further action or deed, be deemed to have irrevocably given their consent to and authorised the Trustees or any of their agents or authorized officials to do, inter alia, all acts, deeds, matters and things in respect of or relating to the security to be created for securing the Bonds being offered in terms of this Document including the right to substitute or release any property charged in their favour and/or to create a charge on additional properties in their favour including the right of the Trustees to release, and/or substitute relevant title deeds in respect thereof. All the rights and remedies of the Bondholders shall vest in and shall be exercised by the Trustees without reference to the Bondholders. Any payment made by NEEPCO to the Trustees on behalf of the Bondholders shall discharge NEEPCO any liability to the Bondholders. No Bondholder shall be entitled to proceed directly against NEEPCO unless the Trustees, having become so bound to proceed, fail to do so.

XV. THE DETAILED RATING RATIONALE (S) ADOPTED (NOT OLDER THAN ONE YEAR ON THE DATE OF OPENING OF THE ISSUE)/ CREDIT RATING LETTER ISSUED (NOT OLDER THAN ONE MONTH ON THE DATE OF OPENING OF THE ISSUE) BY THE RATING AGENCIES SHALL BE DISCLOSED

The company has obtained a rating of **"CARE AA-"** for the proposed Bond Issue from CARE Ltd. vide letter dated 29th January, 2015 and rating rationale dated 12th February, 2015. Facilities with this rating are considered to have very low credit risk.

The above ratings are not recommendations to buy, sell or hold securities and investors should take their own decision. The rating may be subject to revision or withdrawal at any time by the assigning rating agencies and should be evaluated independently of any other rating. The rating obtained is subject to revision at any point of time in the future. The rating agencies have the right to suspend, withdraw the rating at any time on the basis of new information etc.

XVI. IF THE SECURITY IS BACKED BY A GUARANTEE OR LETTER OF COMFORT OR ANY OTHER DOCUMENT / LETTER WITH SIMILAR INTENT, A COPY OF THE SAME SHALL BE DISCLOSED. IN CASE SUCH DOCUMENT DOES NOT CONTAIN DETAILED PAYMENT STRUCTURE (PROCEDURE OF INVOCATION OF GUARANTEE AND RECEIPT OF PAYMENT BY THE INVESTOR ALONG WITH TIMELINES); THE SAME SHALL BE DISCLOSED IN THE OFFER DOCUMENT.

Nil.

XVII. COPY OF CONSENT LETTER FROM THE DEBENTURE TRUSTEE "SBICAP TRUSTEE COMPANY LTD." DATED 25th FEBRUARY, 2015 CONVEYING THEIR CONSENT TO ACT AS TRUSTEE FOR THE CURRENT ISSUE OF BONDS IS ENCLOSED ELSEWHERE IN THIS DISCLOSURE DOCUMENT.

XVIII. NAMES OF ALL THE RECOGNISED STOCK EXCHANGES WHERE THE DEBT SECURITIES ARE PROPOSED TO BE LISTED CLEARLY INDICATING THE DESIGNATED STOCK EXCHANGE.

The Secured Non-Convertible Redeemable Bonds in the nature of Debentures) are proposed to be listed on the Wholesale Debt Market (WDM) Segment of the **Bombay Stock Exchange of India Ltd. ("BSE").** The Company has obtained an in-principle approval from the BSE for listing of said Bonds on its Wholesale Debt Market (WDM) Segment. The Company shall make an application to the BSE to list the Bonds to be issued and allotted under this Disclosure Document and complete all the formalities relating to listing of the Bonds **within 15 days from the deemed date of allotment of the bonds**. If such permission is not granted **within 20 days** from the from the deemed date of allotment of the bonds or where such permission is refused before the expiry of the 20 days from the closure of the Issue, the Company shall forthwith repay without interest, all monies received from the applicants in pursuance of the Disclosure Document, and if such money is not repaid within the stipulated time after the Company becomes liable to repay it (i.e. from the date of refusal or 20 days from the date of closing of the subscription list, whichever is earlier), then the Company and every director of the Company who is an officer in default shall be jointly and severally liable to repay the money, with interest at the rate of 15 per cent per annum on application money, or as prescribed by the relevant rules and regulations.

In connection with listing of Bonds with BSE, the Company hereby undertakes that:

(a) It shall comply with conditions of listing of Bonds as may be specified in the Listing Agreement with BSE.
(b) Ratings obtained by the Company shall be periodically reviewed by the credit rating agencies and any revision in the rating shall be promptly disclosed by the Company to BSE.
(c) Any change in rating shall be promptly disseminated to the holder(s) of the Bonds in such manner as BSE may determine from time to time.
(d) The Company, the Trustees and BSE shall disseminate all information and reports on Bonds including compliance reports filed by the Company and the Trustees regarding the Bonds to the holder(s) of Bonds and the general public by placing them on their websites.
(e) Trustees shall disclose the information to the holder(s) of the Bonds and the general public by issuing a press release in any of the following events:
  (i) default by the Company to pay interest on Bonds or redemption amount;
  (ii) revision of rating assigned to the Bonds;
(f) The information referred to in para (e) above shall also be placed on the websites of the Trustees, Company & BSE.

XIX. OTHER DETAILS:

A. DRR CREATION - RELEVANT REGULATIONS AND APPLICABILITY

The Company shall create a Bond/Debenture Redemption Reserve in accordance with Section 18(7)(b) of the Companies (Share Capital & Debentures) Rules, 2014.

B. ISSUE/INSTRUMENT SPECIFIC REGULATIONS - RELEVANT DETAILS (COMPANIES ACT, RBI GUIDELINES, ETC)

1. Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide circular no. LAD-NRO/GN/2008/13/127878 dated June 06, 2008, as amended and Securities and Exchange Board of India (Issue and Listing of Debt Securities) (Amendment) Regulations, 2012 issued vide circular no. LAD-NRO/GN/2012-13/19/5392 dated October 12, 2012).

2. The Companies Act, 2013.

C. APPLICATION PROCESS:

PROCEDURE FOR APPLYING FOR DEMAT FACILITY

1. The applicant must have at least one beneficiary account with any of the Depository Participants (DPs) of NSDL or CDSL prior to making the application.
2. The applicant must necessarily fill in the details (including the beneficiary account number and Depository Participant's ID) appearing in the Application Form under the heading 'Details for Issue of Bonds in Electronic/ Dematerialised Form'.
3. Bonds allotted to an applicant will be credited directly to the applicant's respective Beneficiary Account(s) with the DP.
4. For subscribing the bonds, names in the application form should be identical to those appearing in the account details in the depository. In case of joint holders, the names should necessarily be in the same sequence as they appear in the account details in the depository.
5. Non-transferable allotment advice/refund orders will be directly sent to the applicant by the Registrars to the Issue.
6. If incomplete/incorrect details are given under the heading 'Details for Issue of Bonds in Electronic/ Dematerialised Form' in the application form, it will be deemed to be an incomplete application and the same may be held liable for rejection at the sole discretion of the Company.
7. For allotment of Bonds, the address, nomination details and other details of the applicant as registered with DP shall be used for all correspondence with the applicant. The Applicant is therefore responsible for the correctness of its demographic details given in the application form vis-à-vis those with their DP. In case the information is incorrect or insufficient, the Issuer would not be liable for losses, if any.
8. It may be noted that Bonds being issued in electronic form, the same can be traded only on the Stock Exchanges having electronic connectivity with NSDL or CDSL. Bombay Stock Exchange Limited., where the Bonds of the Company are proposed to be listed has connectivity with NSDL and CDSL.
9. Interest or other benefits would be paid to those Bondholders whose names appear on the list of beneficial owners given by the Depositories to the Company as on Record Date/ Book Closure Date. In case of those Bonds for which the beneficial owner is not identified by the Depository as on the Record Date/ Book Closure Date, the Company would keep in abeyance the payment of interest or other benefits, till such time that the beneficial owner is identified by the Depository and conveyed to the Company, whereupon the interest or benefits will be paid to the beneficiaries, as identified, **within a period of 15 days.**

HOW TO APPLY:

This being a private placement offer, investors who are established/ resident in India and who have been addressed through this communication directly only are eligible to apply. Application shall be for a minimum number of 5 (five) Bonds and multiples of 1 (one) Bond thereafter.

Applicants may remit their application money by way of electronic transfer of funds through RTGS mechanism or through Core Banking Solution (CBS) for credit in the account of in favour of the "**North Eastern Electric Power Corporation Ltd.**" for crediting the amount to the following bank account:

Beneficiary Name	**North Eastern Electric Power Corporation Ltd.**
Account No.	**32061917621**
Bank	**State Bank of India**
Branch	**SBI Main Branch**
Location	**Kachari Road, Shillong – 793001**
Account Type	**Current**
IFSC Code	**SBIN0000181**

All Application Forms duly completed (along with all necessary documents as detailed in this Disclosure Document) must be delivered before the closing of the issue to the Issuer. While forwarding the application form, applicants must ensure that the relevant UTR number/ or any other evidence of having remitted the application money is obtained. Detailed instructions for filling up the application form are provided elsewhere in this Disclosure Document.

Applications for the Bonds must be in the prescribed form (enclosed) and completed in BLOCK LETTERS in English and as per the instructions contained therein. Applications not completed in the prescribed manner are liable to be rejected. The name of the applicant's bank, type of account and account number must be filled in the Application Form. This is required for the applicant's own safety and these details will be printed on the refund orders and interest/ redemption warrants.

The applicant or in the case of an application in joint names, each of the applicant, should mention his/her Permanent Account Number (PAN) allotted under the Income-Tax Act, 1961 or where the same has not been allotted, the GIR No. and the Income tax Circle/Ward/District. As per the provision of Section 139A (5A) of the Income Tax Act, PAN/GIR No. needs to be mentioned on the TDS certificates. Hence, the investor should mention his PAN/GIR No. if the investor does

not submit Form 15G/15AA/other evidence, as the case may be for non-deduction of tax at source. In case neither the PAN nor the GIR Number has been allotted, the applicant shall mention "Applied for" and in case the applicant is not assessed to income tax, the applicant shall mention 'Not Applicable' (stating reasons for non applicability) in the appropriate box provided for the purpose. Application Forms without this information will be considered incomplete and are liable to be rejected.

Applications may be made in single or joint names (not exceeding three). In the case of joint applications, all payments will be made out in favour of the first applicant. All communications will be addressed to the first named applicant whose name appears in the Application Form at the address mentioned therein.

All applicants are requested to tick the relevant column "Category of Investor" in the Application Form. Public/ Private/ Religious/ Charitable Trusts, Provident Funds and Other Superannuation Trusts and other investors requiring "approved security" status for making investments.

No separate receipts shall be issued for the application money. However, the Issuer will acknowledge the receipt of the applications by stamping and returning the acknowledgment slip to the applicant. Applications shall be deemed to have been received by the Issuer Company when submitted at their designated branch.

For further instructions, please read Application Form carefully.

Signatures should be made in English or in any of the Indian Languages. Thumb impressions must be attested by an authorized official of a Bank or by a Magistrate/ Notary Public under his/her official seal.

NOMINATION FACILITY

As per Section 109(A) of the Companies Act, 1956, only individuals applying as sole applicant/Joint Applicant can nominate, in the prescribed manner, a person to whom his Bonds shall vest in the event of his death. Non individuals including holders of Power of Attorney cannot nominate.

MODIFICATION OF RIGHTS

The rights, privileges, terms and conditions attached to the Bonds may be varied, modified or abrogated with the consent, in writing, of those holders of the Bonds who hold at least three fourth of the outstanding amount of the Bonds or with the sanction accorded pursuant to a resolution passed at a meeting of the Bondholders, provided that nothing in such consent or resolution shall be operative against the Company where such consent or resolution modifies or varies the terms and conditions of the Bonds, if the same are not acceptable to the Company.

XX. ISSUE DETAILS

ISSUE SIZE

The issuer proposes to issue 6000 bonds of face value of Rs.10,00,000/- each aggregating to Rs.600 crore.

AUTHORITY FOR THE ISSUE

The issue is being made in pursuance of the Board Resolution dated **10th February, 2015** and EGM Special Resolution dated **10th March, 2015.**

REGISTRATION AND GOVERNMENT APPROVALS

The Company can undertake the activities proposed by it in view of the present approvals and no further approval from any government authority(ies) is required by it to undertake the proposed activities and except those approvals which may be required to be taken in the normal course of business from time to time.

OBJECTS OF THE ISSUE

The funds will be utilized for prepayment of existing high cost borrowings and to finance the construction of various on-going hydro and thermal projects in the NER.

UTILISATION OF ISSUE PROCEEDS

The Company is managed by professionals under the supervision of its Board of Directors. Further, the Company is subject to a number of regulatory checks and balances as stipulated in its regulatory environment. Therefore, the management shall ensure that the funds raised via this private placement shall be utilized only towards satisfactory fulfillment of the objects of the issue. The Company further confirms that the proceeds of the current issue of Bonds shall not be used for providing loan to or acquisition of shares of any person who is part of the same group or who is under the same management.

MINIMUM SUBSCRIPTION

As the current issue of Bonds is being made on private placement basis, the requirement of minimum subscription shall not be applicable and therefore the Company shall not be liable to refund the issue subscription(s)/ proceed(s) in the event of the total issue collection falling short of issue size or certain percentage of issue size.

NATURE OF THE BOND

The bonds are Secured, Redeemable, Non-Convertible Taxable and in the nature of Debentures.

SECURITY

The Bonds together with interest costs and all other monies and amounts payable in respect of these Bonds will be fully secured by first pari-passu charge on identified Fixed Assets of the company with a minimum asset cover of 125% throughout the tenure of Bonds in favour of a Trustee.

The said security shall be created in favour of the Trustees within the stipulated regulatory period from the Deemed Date of Allotment or such extended period as may be permitted by the relevant authority(ies). The Security will be created by the Company, as aforesaid, in favour of the Trustee on such of the assets for which the Company obtains, after all due diligence and efforts, the requisite consents and permissions applicable under law or in accordance with the contractual conditions of holding of such assets for creating the above-mentioned charge. The creation of such security shall be sufficient compliance of the Company's obligation to create security.

TERMS OF PAYMENT

The full face value of the Bonds applied for is to be paid along with the application form. Investor(s) need to send in the application form and the Cheque/Demand Draft/ RTGS/ECS for the full face value of the Bonds applied for.

Issue Price of the Bond	Minimum Application for	Amount Payable on Application per Bond
Rs.10 lakhs	5 Bonds and in multiples of 1 Bond thereafter	Full Issue Price i.e. Rs.10 lakhs

PAY-IN-DATE & DEEMED DATE OF ALLOTMENT

Pay-in Date shall be the date on which application money has to be paid in favour of "**North Eastern Electric Power Corporation Ltd.**" by a Cheque/Demand draft. The funds can also be remitted through RTGS. Details of the Account of the Company are given in the Application form of this document. The Company reserves the right to shift the Pay-in Date and/or the Deemed Date of Allotment to any other date or allot the Bonds on multiple dates without giving any reason or any prior notice. The Company may at its sole discretion accept the subscription amount after the Pay-in Date. All benefits available to the investors shall be from the Deemed Date of Allotment and actual allotment may occur on a date other than the Deemed Date of Allotment.

LETTER(S) OF ALLOTMENT/ BOND CERTIFICATE(S)/ REFUND ORDER(S) ISSUE OF LETTER(S) OF ALLOTMENT

The beneficiary account of the investor(s) with National Securities Depository Ltd. (NSDL)/Central Depository Services (India) Ltd. (CDSL)/ Depository Participant will be given initial CREDIT **within 2 working days** from the Deemed Date of Allotment. The initial CREDIT in the account will be akin to the Letter of Allotment. On completion of the all-statutory formalities, such CREDIT in the account will be akin to a Bond Certificate.

ISSUE OF BOND CERTIFICATE(S)

The Bonds since issued in electronic (dematerialized) form, will be governed as per the provisions of The Depository Act, 1997, Securities and Exchange Board of India (Depositories and Participants) Regulations, 1997, rules notified by NSDL/ CDSL/ Depository Participant from time to time and other applicable laws and rules notified in respect thereof. The Bonds shall be allotted in DEMAT form only.

MODE OF TRANSFER OF BONDS

Transfer of theses dematerialized bonds should be in accordance with the rules/procedures as prescribed by NSDL/CDSL/Depository participant of the transferor/transferee and all other applicable laws and rules notified in respect thereof.

PUT/ CALL OPTION

There is **NO** option for any Put or Call in the current issue.

DEPOSITORY ARRANGEMENTS

The Company has made depository arrangements with National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) for issue and holding of the Bonds in dematerialized form. As per the provisions of Depositories Act, 1996, the Bonds issued by The Company can be held in a dematerialized form, i.e. not in the form of physical certificates but be fungible and be represented by the statement issued through electronic mode. In this context, two Tripartite Agreements have been signed:

- Tripartite Agreement dated 18th June, 2002 between NEEPCO, NSDL and MCS Limited
- Tripartite Agreement dated 4th April, 2002 between NEEPCO, CDSL and MCS Limited

FICTITIOUS APPLICATIONS

Any person who:-
a) Makes, in a fictitious name, an application to a body corporate for acquiring or subscribing to, the bonds, or
b) Otherwise induces a body corporate to allot, or register any transfer of, bonds therein to them, or any other person in a fictitious name, shall be liable for legal consequences of such action.

MARKET LOT

The market lot will be one Bond ("Market Lot"). Since the Bonds are being issued only in dematerialised form, the odd lots will not arise either at the time of issuance or at the time of transfer of Bonds.

INTEREST ON APPLICATION MONEY

Interest at the Coupon Rate as per Termsheet (subject to deduction of income tax under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof, as applicable) will be paid to all the applicants on the application money for the Bonds.

Such interest shall be paid from and including the date of realisation of cheque(s)/demand draft(s)/ RTGS/ECS up to but excluding the Deemed Date of Allotment. Such interest would be paid on all valid application. The interest on application money will be computed on the basis of actual number of days elapsed in a year. For this purpose a year would comprise a period of 365 days. In the leap year the month of February shall be considered as of 29 days and the year would be of 366 days. Such interest would be paid on all the valid applications, including the refunds. Where the entire subscription amount has been refunded, the interest on application money will be paid along with the refund orders.

The interest on application money will be remitted through RTGS/ECS or interest cheque(s)/ demand draft(s) for interest on application money (along with Refund Orders, in case of refund of application money, if any) shall be dispatched by the NEEPCO **within 10 days** from the Deemed Date of Allotment and the relative interest warrant(s) along with the Refund Order(s), as the case may be, will be dispatched by registered post/courier/speed post to the sole/ first applicant, at the sole risk of the applicant.

INTEREST ON BONDS

The Bonds shall carry interest at the coupon rates as per term sheet (subject to deduction of tax at source at the rates prevailing from time to time under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof for which a certificate will be issued by NEEPCO) on the outstanding principal amount of Bonds till final redemption. Interest will be paid semi annually on **25th September** and **25th March** each year throughout the tenure of the Bonds till final redemption.

The first interest period shall be defined as actual number of days falling between the **Deemed Date of Allotment** to **25th September, 2015** including the first date but excluding the last date. The first interest payment would be made on **25th September, 2015**. This will be calculated by multiplying the nominal amount with the interest rate on an **"Actual / Actual"** day basis. The second and subsequent interest period is defined as the actual number of days between **25th September** and **25th March** and **25th March** & **25th September** including the first date but excluding the last date. This will be calculated by multiplying the nominal amount by the Interest Rate with the actual number of days divided by total number of days in the coupon period (as per SEBI's Circular No. CIR/IMD/DF/18/2013 dated October 29, 2013). The last Interest Payment would be made on the final redemption date, along with the redemption of principal amount. The last interest payment shall again be calculated on actual number of days i.e. from interest payment date to a day immediately preceding the date of redemption.

In case the Deemed Date of Allotment is revised (pre-poned/ postponed) then the Interest Payment Dates and Interest payment Schedule may also be revised accordingly by the Company at its sole & absolute discretion.

Interest on Bonds will cease from the date of final redemption in all events. If any interest payment date falls on a day which is not a Business Day ('Business Day' being a day on which Commercial Banks are open for Business in the city of **Shillong**) then payment of interest will be made on the next day that is a business day.

COMPUTATION OF INTEREST

The Bonds will carry interest rates as per the term sheet from the Deemed Date of Allotment. The interest will be paid from the Deemed Date of Allotment (subject to deduction of tax at source at the rates prevailing from time to time under the Income Tax Act, 1961 or any other statutory modification or re-enactment thereof) as per term sheet. The Interest shall be computed on **"Actual / Actual"** day count basis (refer SEBI's Circular No. CIR/IMD/DF/18/2013 dated October 29, 2013).

RECORD DATE

The Record Date for all interest payments and repayment of the bond value upon redemption will be the day immediately preceding the period of **15 days prior to the interest payment or redemption date**, as the case may be. Such payment will be made to the bondholder as appearing in the records of the RTA as on the said date. In case the record date, as defined herein, falls on a holiday, the record date shall be the previous Working Day immediately preceding such date.

DEDUCTION OF TAX AT SOURCE

Tax applicable under the Income-Tax Act, 1961, or any other statutory modification or re-enactment thereof will be deducted at source. Tax exemption certificate/ document, under section 193/197/197A of the Income Tax Act, 1961, if any, must be lodged at the office of the Issuer, at least fifteen (15) days prior to the interest payment date. The applicants must submit tax exemption certificate, if applicable, in respect of the interest on application money, if any, along with the application form as required under the Income Tax Act, 1961. In case of tax deducted at source, the Company will send the

TDS certificate to the investors. Therefore, to ensure non-deduction/lower deduction of tax at source from interest on application money, the investors should submit Form 15H/15AA, authority letter from Assessing Officer for non-deduction of tax as may be applicable, with the Application Form, on or before the closure of the Issue.

Regarding deduction of tax at source and the requisite declaration forms to be submitted, prospective investor is advised to consult his tax advisor before investing in the Bonds to be issued by NEEPCO.

REDEMPTION

The Bonds will be redeemed in 5 (Five) equal annual instalments each amounting to 20% of the Face Value of each Bond at the end of 6th, 7th, 8th, 9th and 10th years respectively from the Deemed Date of Allotment. The Bonds, up to the extent of the Face Value/installment(s) already redeemed, will not carry any obligation, for interest or otherwise, after the date of redemption.

The Bonds held in the dematerialised form shall be taken as discharged on payment of the redemption amount by the Company on maturity to the registered Bondholders whose name appear in the Register of Bondholders on the record date. Such payment will be a legal discharge of the liability of the Company towards the Bondholders.

In case the principal redemption date falls on a day which is not a Business Day ('Business Day' being a day on which Commercial Banks are open for Business in **Shillong**), then the payment due shall be made on the next Business Day but without liability for making payment of interest for the intervening period.

PAYMENT ON REDEMPTION

Payment on redemption will be made by cheque(s)/warrants(s) /demand draft /credit through ECS/RTGS system in the name of the Bondholder(s) whose name appears on the List of Beneficial Owners given by Depository to NEEPCO as on the Record Date. The Issuer's liability to Bondholder(s) towards all their rights including payment of interest or otherwise shall cease and stand extinguished from the due date of redemption in all events. Further, the Issuer will not be liable to pay interest, income or compensation of any kind from the date of such redemption of the Bonds.

Each installment of the Bonds shall be taken as discharged upon payment of the redemption amount on the 6th, 7th, 8th and 9th anniversary dates. The Bonds shall be taken as fully discharged upon payment of the final redemption installment on the 10th anniversary date. Such payment will be a legal discharge of the all liability of the Company towards the Bondholders. On payment of each redemption installment, the Company will inform NSDL/CDSL and accordingly the account of the Bondholders with NSDL/CDSL will be adjusted.

The liability of the Company shall stand discharged on posting of redemption warrants by Registered Post and/or remitting the redemption proceeds through ECS/EFT/RTGS to the above said Beneficiaries. No claim, damages or penal interest in respect of delayed payment, etc. shall lie upon the Company in the event of non-receipt of the same by the addressee Bondholder.

RIGHTS OF BONDHOLDERS

Bondholder is not a shareholder. The Bondholders will not be entitled to any other rights and privilege of shareholders other than those available to them under statutory requirements. The Bond(s) shall not confer upon the holders the right to receive notice, or to attend and vote at the General Meeting of the Company. The principal amount and interest on the Bonds will be paid to the registered Bondholders only, and in case of Joint Holders, to the one whose name stands first. Besides the above, the Bonds shall be subject to the provisions of the Companies Act, 1956, the Articles of Association of NEEPCO, the terms of this bond issue and the other terms and conditions as may be incorporated in the Trust deed and other documents that may be executed in respect of these Bonds.

EFFECT OF HOLIDAYS

Should any of the dates defined anywhere in the present Information Memorandum, except the Deemed Date of Allotment, fall on a Sunday or a Holiday, the next working day shall be considered as the effective date. In case the date involves a payment, then the next working day on which Scheduled Commercial Banks in Shillong are open for business shall be considered as the effective date.

LIST OF BENEFICIAL OWNERS /REGISTER OF BENEFICIAL OWNERS

The Company shall request the RTA to provide a list of Beneficial Owners as at the end of the Record Date. This shall be the list, which shall be considered for payment of interest or repayment of principal amount, as the case may be. The RTA shall maintain a register and an index of Beneficial Owners in the manner as provided for, in compliances with various applicable regulations.

SUCCESSION

In the event of the demise of the sole/first holder of the Bond(s) or the last survivor, in case of joint holders for the time being, the Company shall recognize the executor or administrator of the deceased Bondholder, or the holder of succession certificate or other legal representative as having title to the Bond(s). The Company shall not be bound to recognize such executor or administrator, unless such executor or administrator obtains probate, wherever it is necessary, or letter of administration or such holder is the holder of succession certificate or other legal representation, as the case may be, from a Court in India having jurisdiction over the matter. The Company may, in its absolute discretion, where it thinks fit, dispense with production of probate or letter of administration or succession certificate or other legal representation, in order to recognize such holder as being entitled to the Bond(s) standing in the name of the deceased Bondholder on production of sufficient documentary proof or indemnity.

Where a non-resident Indian becomes entitled to the Bond by way of succession, the following steps have to be complied with:

a. Documentary evidence to be submitted to the Legacy Cell of the RBI to the effect that the Bond was acquired by the NRI as part of the legacy left by the deceased holder.

b. Proof that the NRI is an Indian National or is of Indian origin. Such holding by the NRI will be on a non-repatriation basis

FUTURE BORROWINGS

Company reserves the right to make further issues of Bonds or raise loans from any source it deems fit on the security or otherwise of its assets without the consent of the Trustees and without any approval from the bondholders of these present bonds. However, NOC from Debenture Holder (LIC) shall be required for creating pari-passu charge.

DECLARATION REGARDING NON-DEFAULT

Company has never defaulted in payment of interest or principal redemption on any of the Bonds issued by it nor has it defaulted in case of non-allotment of Bonds or payment of application money.

NOTICES

Any notice to the Bondholder required to be sent by Company shall be deemed to have been given if sent by registered post /courier to the holders appearing in the most recent records of the RTA.

All notices to be given by the Beneficial Owners of Bonds shall be sent by Registered Post or by Hand Delivery to the Company or such persons, at such address, as may be notified by the Company from time to time.

All communications from bondholders to NEEPCO shall be addressed to:

The General Manager (Finance), Funds Section, North Eastern Electric Power Corporation Limited, Brookland Compound, Lower New Colony, Shillong 793 003

TAX BENEFITS TO THE BONDHOLDERS OF THE COMPANY

The holder(s) of the Bonds are advised to consider in their own case, the tax implications in respect of subscription to the Bonds after consulting their own tax advisor/ counsel.

DISPUTES & GOVERNING LAWS AND JURISDICTION

The Bonds shall be construed to be governed in accordance with Indian laws and rules framed there under. Any dispute between NEEPCO and the bondholders will subject to the jurisdiction of the Shillong High Court.

In such a case, investors shall be intimated about the revised time schedule by the Company. The Company also reserves the right to keep multiple Deemed Date(s) of Allotment at its sole and absolute discretion without any notice.

XXII. SERVICING BEHAVIOR ON EXISTING DEBT SECURITIES AND OTHER BORROWINGS

The Company hereby confirms that:

a) The main constituents of the Company's borrowings have been in the form of borrowings from Financial Institutions, Bonds, etc. and Company has been servicing its principal and interest liabilities on time and there has been no instance of delay or default since inception.
b) The Company has neither defaulted in repayment/ redemption of any of its borrowings nor affected any kind of roll over against any of its borrowings in the past.

XXIII. UNDERTAKING REGARDING COMMON FORM OF TRANSFER

The Bonds shall be transferred subject to and in accordance with the rules/ procedures as prescribed by the NSDL/ CDSL/ Depository Participant of the transferor/ transferee and any other applicable laws and rules notified in respect thereof. The normal procedure followed for transfer of securities held in dematerialized form shall be followed for transfer of these Bonds held in electronic form. The seller should give delivery instructions containing details of the buyer's DP account to his depository participant.

The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. In the absence of the same, interest will be paid/ redemption will be made to the person, whose name appears in the records of the Depository. In such cases, claims, if any, by the transferee(s) would need to be settled with the transferor(s) and not with the Company.

The Company undertakes that it shall use a common form/ procedure for transfer of Bonds issued under terms of this Disclosure Document.

XXIV. MATERIAL EVENT, DEVELOPMENT OR CHANGE AT THE TIME OF ISSUE

The Company hereby declares that there has been no material event, development or change at the time of issue which may affect the issue or the investor's decision to invest/ continue to invest in the debt securities of the Company.

XXV. PERMISSION/ CONSENT FROM PRIOR CREDITORS

The Company hereby confirms that it is entitled to raise money through current issue of Bonds without the consent/ permission/ approval from the Bondholders/ Trustees/ Lenders/ other creditors of the Company. The Company hereby undertakes that it shall seek consent from the existing charge holders for creating of security for the Bonds on pari-passu basis. In future, the Debenture Holder (LIC) shall provide consent to create pari-passu charge subject to Company's complying with the requisite terms of the bond issue.

XXVI. MATERIAL CONTRACTS & DOCUMENTS

By the very nature of its business, NEEPCO is involved in a large number of transactions and therefore it may not be possible to furnish details of all material contracts and agreements involving financial obligations of NEEPCO. However, the contracts referred to below (not being contracts entered into in the ordinary course of the business carried on by NEEPCO) which are or may be deemed to be material have been entered into by NEEPCO. Copies of these contracts together with the copies of documents referred below may be inspected at the Head Office of NEEPCO between 10.00 a.m. and 2.00 p.m. on any working day until the issue closing date.

a) Copy of letter appointing Registrar and Transfer Agents.
b) Copy of letter appointing SBICAP Trustee Company Ltd. as Trustees to the Bondholders
c) Memorandum and Articles of Association of NEEPCO as amended from time to time.
d) Board Resolution dated **10th February, 2015** and Special EGM Resolution dated **10th March, 2015** authorizing issue of Bonds offered under terms of this PPOL.
e) Letter of consent from SBICAP Trustee Company Limited for acting as Trustees for and on behalf of the holder(s) of the Bonds.
f) Letter of consent from MCS Limited for acting as Registrars to the Issue.
g) In-principle approval from BSE for of listing of Bonds.
h) Letter from CARE Ltd. dated **29th January, 2015** conveying the Credit Rating for the Bonds of NEEPCO and the rating rationale dated **12th February, 2015**.
i) Tripartite Agreement between NEEPCO, NSDL & MCS Ltd. for issue of Bonds in Dematerialized form.
j) Tripartite Agreement between NEEPCO, CDSL and MCS Ltd. for issue of Bonds in Dematerialized form

DECLARATION

It is hereby declared that this Private Placement Offer Letter contains full disclosures in accordance with the Securities & Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LADNRO/GN/2008/13/127878 dated June 06, 2008 as well as the Companies (Prospectus & Allotment of Securities) Rules 2014.

IV. BRIEF SUMMARY OF THE BUSINESS/ACTIVITIES OF THE ISSUER AND ITS LINE OF BUSINESS

A. OVERVIEW

NEEPCO is a Schedule "A" Miniratna Government of India Enterprise under the Ministry of Power with a present Authorised Capital of Rs.5000 crores. Its primary goal is the integrated and efficient development of the Power Sector in the Region by planning, investigating and preparing preliminary feasibility and definite project reports followed by the actual construction, operation and maintenance of power stations and projects.

Since NEEPCO has been incorporated to operate primarily in the North Eastern Region, it would be pertinent to mention the immense potential of the region for generation of power. Additionally, the Region also has abundant resource of coal, oil and gas for thermal power generation. In spite of such huge potential the Region ranks lowest in the country in terms of per capita energy consumption. This has been mainly due to inhospitable climatic conditions, remote location and inaccessibility of geographical locations.

Hydro-electric Power: In terms of hydro power, the North Eastern Region has the potential of about 58971 MW, i.e. almost 40% of the country's total hydro potential. Of this huge hydro potential, less than 2% (1116 MW) has so far been harnessed as on 31.03.2010 and the remaining 98% is yet to be exploited.
Natural Gas: 151.68 billion cubic feet which is capable of generating 7500 mw for 10 years.
Coal: 864.78 Million tonnes against 186 Billion tones of reserves in the country. With the reserves in the N.E Region, approximately 240 MW/day can be generated for a period of 100 years.

However with continual improvement of infrastructure and communication facilities, the North East region stands to become the Power House of India by utilising its surplus power potential especially in the hydro sector.

MISSION STATEMENT

- To harness the vast hydro & thermal power potential of the region.
- To produce pollution free and inexhaustible power through planned development of power generation projects.
- To play a significant role in the integration and development of hydroelectric and thermal power in the Central Sector covering all aspects such as investigation, planning, designs, construction, operation and maintenance of hydroelectric and thermal projects which in turn would effectively promote the development of the nation as a whole.

CERTIFICATIONS RECEIVED

- ✓ ISO 9001-2000 Quality Management System
- ✓ ISO 14001-2004 Environmental Safeguards
- ✓ OHSAS 18001-1999 Occupational Health and Safety Standards

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Since its inception NEEPCO has always given top priority towards all round development of the people residing in and around its operational areas. As a responsible corporate citizen, NEEPCO has undertaken various community development activities particularly in the field of education, health, infrastructure development and other community needs. The Corporation is committed to discharge larger responsibilities towards the society in future.

NEEPCO'S CSR MISSION

- To execute and operate projects in a cost effective, environment friendly and socio-economically responsive manner with thrust on energy conservation.
- To be a responsible corporate entity for nurturing human values with concern for society.
- To contribute towards community development and help achieve a high level of human development in the field of education and health in particular as human development contributes to welfare by enhancing 'capabilities' of people thereby increasing their productivity, income and general wellbeing.

PRODUCTS/SERVICES

NEEPCO generates and supplies power primarily to the seven states of the North Eastern Region. The beneficiaries are:

- Assam Power Distribution Company Ltd.
- Meghalaya Energy Corporation Ltd.
- Tripura State Electricity Corporation Ltd.
- Department of Power, Govt. of Arunachal Pradesh
- Electricity Department, Govt. of Manipur
- Power & Electricity Department, Govt. of Mizoram
- Department of Power, Govt. of Nagaland

SUPPLY OF POWER

NEEPCO's generating stations feed power at their respective bus-bar into the Regional Grid. Power is transmitted to the Bulk Power Consumers through transmission systems of the Powergrid Corporation of India Ltd. (PGCIL) as well as the respective State Transmission Utilities (STU). Generation and transmission of power in the region is regulated by the North Eastern Regional Power Commission and the North Eastern Regional Load Despatch Centre which are the designated apex bodies for integrated operation and management of the Regional Power System (Regional Grid). Tariff for power from the various stations are fixed as per the Availability Based Tariff (ABT) by the Central Electricity Regulatory Authority (CERC). The ABT regime came into force in the North Eastern Region with effect from 01.11.2003. Presently, NEEPCO has the following generating power stations:

Sl.	Name of the Power Station	Installed Capacity	State
1	Khandong Power Station	50 MW	Assam
2	Kopili Power Station	200 MW	Assam
3	Kopili Hydro Electric Project – Stage II	25 MW	Assam
4	Doyang Hydro Electric Project	75 MW	Nagaland
5	Ranganadi Hydro Electric Project	405 MW	Arunachal Pradesh
	Sub-total (Hydro)	**755 MW**	
6	Assam Gas Based Power Project	291 MW	Assam
7	Agartala Gas Based Power Project	84 MW	Tripura
	Sub-total (Thermal)	**375 MW**	
	Grand Total	**1130 MW**	

BRIEF PROFILES OF THE GENERATING STATIONS

1. Khandong Power Station & 2. Kopili Power Station: They comprise the original Kopili Hydro Electric Project (100 MW) located on the River Kopili in the North Cachar Hills District of Assam which was the maiden venture of NEEPCO when it came into existence in 1976. The first stage of Kopili Hydro Electric Plant has two dam and dyke systems for creating two reservoirs, one on the Kopili River and the other on the Umrong stream, a tributary of the Kopili. Water from the Kopili reservoir is utilized in the Khandong power station through a 2852 metre long tunnel to generate 50 MW (2 X 25 MW) of power. The tail water from this powerhouse is led to the Umrong reservoir. The water from Umrong reservoir is taken through a 5473 metre long tunnel to the Kopili power station to generate 200 MW (4 X 50 MW) of power. Subsequently, the Stage I Extension (100 MW) of the project envisaged setting up two additional 50 MW units at Kopili Power Station, provisions for which were already kept during the first stage development of the project. The Units III and IV under this extension scheme were commissioned in March, 1997 and June, 1997 respectively. The total installed capacity of the Kopili Power Station thus went up to 200 MW and that of the project as whole to 250 MW. The raising of the Umrong reservoir by 7.6 m was taken up to meet the demand for more water for two additional 50 MW units of first stage extension.

3. Kopili Hydro Electric Project - Stage II: The second stage of the Kopili Hydro Electric Project involved construction of a powerhouse to generate additional 25 MW of power by utilizing water from the Kopili reservoir through a 480 m long water conductor system, provision of which was kept as a by-pass conduit from the surge shaft in the Khandong tunnel. The water from the second stage powerhouse goes to the Umrong reservoir for utilization in the Kopili power station

4. Doyang Hydro Electric Project: Situated on the River Doyang, a tributary of the River Brahmaputra, this Project with a capacity of 3 X 25 MW and an estimated annual generation of 227 Million Units was commissioned on the 2nd week of July'2000. The Project is located in Wokha District of Nagaland. It consists of three units of 25 MW each and has a Design Energy of 227 MU. The Dam is of Rock Fill type with a height of 87.50 m and length of 462 m. The steel lined HRT has double bifurcation, 5.92m in diameter and 427.86 m long and the Design Head is 67.0 m. The Evacuation System

comprises a 132 kV D/C Doyang-Dimapur lines of PGCIL and a 132 kV S/C Doyang-Kohima line and 132 KV S/C Doyang-Mokochung line of Govt. of Nagaland.

5. Ranganadi Hydro Electric Project: This run-of-the-river Project is located in the Lower Subansiri District of the State of Arunachal Pradesh in the Ranganadi basin and the adjoining Dikrong basin. . It consists of three units of 135 MW each and has a Design Energy of 1509.66 MU. The Dam is of Concrete Gravity type with a height of 68 m and length of 340 m. The HR Tunnel has a diameter of 6.8 m and is 10.13 km long while the dimensions of the Penstock are 5.8 m dia x 778 m long; 4.75 m dia x 137 m long; 3.35 m dia x 147 m long. The Design Head is 304.0 m. The Evacuation System comprises 400 kV Ranganadi-Balipara D/C Lines of PGCIL and 132 kV Ranganadi-Nirjuli S/C Line, 132 kV Ranganadi-Along S/C Line of the Govt. of Arunachal Pradesh.

6. Assam Gas Based Power Project: This Combined Cycle Gas Turbine Project is located in the Dibrugarh District of Assam. It has been partly financed by a loan of 37.272 Billion Yen under bilateral credit arrangement with the Overseas Economic Cooperation Fund of Japan. It utilizes natural gas available in the oil fields of Upper Assam. The power station comprises of 6 Gas Turbines with associated Waste Heat Recovery Boilers and 3 Steam Turbines, arranged in a modular fashion. A module comprises of 2 Gas Turbines with associated Waste Heat Recovery Boilers and 1 steam turbine.

7. Agartala Gas Based Power Project: This project is located in the West Tripura District of the state of Tripura near the capital town of Agartala .The project runs on an Open Cycle Mode and consists of 4 Gas Turbines of 21 MW each of European Gas Turbine make operating on natural gas obtained from the gas fields of M/S ONGC. The Project has been financed through the budgetary support of the Government of India and partially through external commercial borrowings from the Deutsche Bank, Germany. The Project has been completed at a cost of Rs 322.55 Crores with a 50:50 debt equity ratio. The Project was completed in 1997-98.

OFFICES

NEEPCO's registered office is in the picturesque hill city of Shillong. It also has liaison offices in New Delhi, Kolkata, Guwahati and Itanagar.

D. BRIEF NOTE ON THE ON-GOING PROJECTS OF THE CORPORATION:

a. ON-GOING POWER PROJECTS

NEEPCO is presently constructing five more projects which will add another 922 MW to its Installed capacity. All the on-going projects have been allotted to NEEPCO by the Government of India in agreement with the respective State Governments. A summary of these projects is as follows:

Sl.	Name of the Project	Installed Capacity	State	Estimated Cost (*Rs. in crore*)
(i)	Tuirial Hydro Electric Project	60 MW	Mizoram	913.63
(ii)	Kameng Hydro Electric Project	600 MW	Arunachal Pradesh	4653.95
(iii)	Tripura Gas Based Project	101 MW	Tripura	623.44
(iv)	Pare Hydro Electric Project	110 MW	Arunachal Pradesh	573.99
(v)	Agartala Gas Turbine Project - Extension	51 MW	Tripura	296.87
(vi)	Grid Interactive Solar Power Plant at the Tripura Gas Based Project Site	5 MW	Tripura	42.89
Total		**927 MW**		

(i) Kameng Hydro Electric Project (600 MW):

A run-of-the-river (ROR) scheme in the West Kameng District of Arunachal Pradesh, this project comprises of 4 units of 150 MW turbine-generators each with total design energy of 3,353 MU. The project was approved for construction on 2nd December, 2004 at a cost of Rs.2496.90 crore including IDC of Rs.249.09 crore at March, 2004 price levels and is presently in advanced stages of construction. PPAs have been signed with the Governments of Assam and Arunachal Pradesh for 300 MW each.

The approved funding pattern of this project is with a debt-equity ratio of 70:30 and the equity to be fully funded by the Govt. of India. The debt component is presently being funded by a loan from PFC. A revised cost estimate (RCE) of Rs.4653.95 crore including IDC of Rs.1187.67 crore has been submitted to the Ministry of Power after obtaining

recommendation by the CEA and is presently awaiting approval. The project commissioning date proposed in the RCE is June, 2016 and accordingly the IDC and the tariff were worked out by the CEA. The tariff is Rs.3.51/kwh for the first year and Rs.3.07/kwh as levellised tariff based on the recommended RCE of CEA.

The source-wise expenditure for this project as on 31st August, 2014 is as follows:

Sources of funds	Expenditure in Rs. crore
Equity from Govt. of India	749.07
PFC Loan	1782.79
PSU Bonds	11.00
Internal Resources	636.46
Total	**3179.32**

(ii) Pare Hydro Electric Project (110 MW):

A concrete gravity dam scheme on the Dikrong river in the Papumpare District of Arunachal Pradesh, the project is comprised of 2 units of 55 MW turbine-generators with a total design energy of 506.42 MU. The project was approved for construction on 4th December, 2008 at a cost of Rs.573.99 crore including IDC of Rs.67.66 crore at June, 2007 price levels and is presently in advanced stages of construction. PPAs have been signed with all the seven states of the NER for supply of power from this project.

The approved funding pattern of this project is with a debt-equity ratio of 70:30 and the equity to be fully funded by the Govt. of India. The debt component is being funded by a loan from KfW, Germany covered by the Indo-German Bilateral Development Cooperation Programme under an agreement signed between the Government of India and the Government of the Federal Republic of Germany on 21st May, 2008.

A revised cost estimate (RCE) of Rs.1128.38 crore including IDC of Rs.80.64 crore has been submitted to the Ministry of Power on 26th June, 2013 and is presently awaiting approval. The project commissioning date proposed in the RCE is September, 2014 and accordingly the IDC and the tariff have been worked out. The tariff is Rs.4.40/kwh for the first year and levellised tariff is Rs.4.30/kwh.

The source-wise expenditure for this project as on 31st August, 2014 is as follows:

Sources of funds	Expenditure in Rs. Crore
Equity from Govt. of India	172.20
KfW Loan	532.84
Internal Resources	204.36
Total	**909.40**

(iii) Tuirial H Hydro Electric Project (60 MW):

A medium head storage scheme in the Aizawl District of Mizoram, the project comprises 2 units of 30 MW turbine-generators with total design energy of 250.63 MU. CCEA clearance was obtained on 7th July, 1998. After the award of major packages, work on the project began from 2001 as per the drawn up plan. However, the project work came to total stop w.e.f. 9th June, 2004 on account of agitation launched by Tuirial Crop Compensation Claimant Association claiming payment of crop compensation for the standing crops in the riverine reserve forest. As on June, 2004 prior to stoppage of work, 30% of the project work and 95% of Design & Engineering work had been completed.

In order to revive the project, various efforts were made by the Ministry of Power, NEEPCO and the Govt. of Mizoram. Subsequently, a PIB recommendation for revival of the project at a RCE of Rs.913.63 crore at March, 2010 PL was placed before the CCEA for investment decision. The CCEA clearance was issued on 14th January, 2011 with approval for a debt-equity ratio of 85:15, commissioning schedule of December, 2015 and the following funding pattern:

Source of funds	Amount in Rs. crore
1. Equity from Govt. of India	137.04
2. Subordinate Loan from Govt. of India	291.96
3. Grant from NLCPR of DoNER	300.00
4. Loan from domestic FI/PFC	184.63
Total	**913.63**

The rate of interest on the Subordinate Loan is 1% p.a. to be paid w.e.f. the date of commercial operation and loan repayments will start from the 16th year from commissioning up to the 30th year.

Presently, a RCE is under preparation by NEEPCO and will be submitted to the MoP for necessary approval.

The source-wise expenditure for this project as on 31st July, 2014 is as follows:

Sources of funds	Expenditure in Rs. Crore
1. Equity from Govt. of India	136.97
2. Subordinate Loan from Govt. of India	290.96
3. Grant from NLCPR of DoNER	97.94
4. Internal Resources	121.32
Total	**647.19**

(iv) Tripura Gas Based Power Project (101 MW):

A Gas Based Combined Cycle Project of nominal capacity 101 MW, this project is located in Monarchak, Sonamura Sub-Division, West Tripura District. Investment approval was conveyed by the Ministry of Power on 14th July, 2009 for a cost of Rs.421.01 crore at December, 2008 PL and a debt-equity ratio of 70:30 with the equity to be fully funded by NEEPCO from its internal accruals.

A tender for the EPC Contract for Main Plant Package was invited through the ICB route in April, 2008. However, only one bid was received and the lone bidder did not fulfill the qualifying requirements for the EPC Contract as stipulated in the Tender Documents including other shortfall in Technical offer. Accordingly, the bid was rejected. As there was inadequate response against ICB, it was felt that re-tendering would not yield any better result and instead cause delay in the process of award. Accordingly, in order to expedite implementation of the project, it was decided to award the EPC Contract for Main Plant Package to BHEL on offer basis through negotiation with assistance from the Central Electricity Authority (CEA). A Negotiation Committee was constituted with Member (Thermal) CEA and senior officers of NEEPCO to finalize the scope, terms and conditions and prices for the EPC Contract. Upon finalization of the EPC cost with BHEL and as reviewed by the Negotiation Committee, the original approved project cost was revised at November, 2009 PL to Rs.623.44 crore including IDC of Rs.51.09 crore. The investment approval for this RCE-I was conveyed by the Ministry of Power on 23rd February, 2011.

Now, as more than 50% of the approved RCE-I has been incurred, the cost estimate has been revised again at December, 2012 PL and the same is presently awaiting the approval. The RCE-II submitted is for Rs.951.47 crore including IDC of Rs.66.52 crore with tariff of Rs.4.09/kwh for the first year and levellised tariff of Rs.4.20/kwh.

A fuel supply agreement (FSA) for this project was signed with ONGC on 5th June, 2008. A PPA was signed on 19th March, 2008 with the State Govt. of Tripura which will be the sole beneficiary of this project.

The source-wise expenditure (provisional) for this project as on 31st July, 2014 is as follows:

Source of funds	Expenditure in Rs. Crore
NEEPCO PSU Bonds (Rs.52.30 crore redeemed)	284.80
ECB from SBI, Singapore	392.00
Internal resources	134.61
Total	**811.41**

(v) Agartala Gas Turbine Project - Extension

The 84 MW Agartala Gas Turbine Plant (AGTP) in Agartala, Tripura consisting of 4 (four) European-make Gas Turbine Units of 21 MW each is presently operating in open cycle mode utilizing 0.75 MMSCUD of natural gas. This plant is proposed to be converted into a Combined Cycle Power Plant by installing 2 (two) Steam Turbine Generating units of 23 MW with Plant configuration of 2 modules, each module comprising of 2 Gas Turbines (existing) + 2 Heat Recovery Steam Generators (new) + 1 Steam Turbine with Air Cooled Condensing System (new). Air Cooled Condensing System is envisaged in order to minimize the water requirement. The CC extension project is accordingly proposed within the premises of the existing Plant as there is adequate space to accommodate the Combined Cycle Extension Project. With the addition of the extension plant, the tariff of the entire Agartala project will come down from Rs 3.13 per unit to Rs 2.64 per unit. PPAs have been concluded with all the seven states of the NER for supply of power from this project.

The financing pattern of this project is with a Debt-Equity ratio of 70:30. The debt component of the Project Cost is being met from the proceeds of the ECB from SBI, Singapore while equity is being met from internal accruals of NEEPCO.

The main plant works (EPC) are beng executed by M/s Thermax Limited, Pune while the Transformer & Switchyard are being set up by M/s Bharat Bijiee Limited, Mumbai. The project is expected to be commissioned in March, 2015.

The source-wise expenditure for this project as on 31st August, 2014 is as follows:

Sources of funds	Expenditure in Rs. crore
ECB from SBI, Singapore	211.07
Internal Resources	49.81
Total	**260.88**

(vi) 5 MWp Grid Interactive Solar Power Plant at TGBP Site, Tripura

As a maiden venture, a 5 MWp Grid Interactive Solar PV Power Project is being setup at Monarchak within the premises of the 101 MW Tripura Gas Based Power Project at an estimated cost of Rs. 42.89 Cr. (including IDC), with the levellised tariff being Rs. 9.46/unit.

The EPC contract for execution of the project has been awarded to M/s Bharat Heavy Electricals Limited (BHEL) on 9th October, 2013. The project is scheduled for completion within 12 months from award, i.e., within October, 2014. During the year, design & enginering works and site civil were taken up. The supply of the PV Module has also commenced.

The power generated from the project shall be evacuated through a 33 KV Double – Circuit Line to the Rabindranagar Sub-Station of Tripura State Electricity Corporation Limited (TSECL). The infrastructure for evacuation of power shall be carried out by TSECL on "Deposit Work Basis". Letter of comfort from TSECL for purchase of entire quantum of power has been received.

The cumulative expenditure incurred in the project up to 31st March 2014 was ` 4.37 Crore, out of which an amount of ` 4.26 crore was spent during 2013-14.

b. RENEWABLE ENERGY INITIATIVES:

The Corporation has ventured into the Renewable Energy Sector in the form of Solar and Wind Energy Projects and envisages a capacity addition of 1000 MW in Joint Venture Model by 2018-19 with 700 MW in Wind Energy and 300 MW in Solar. Apart from the already ongoing Solar PV project at Monarchak, other projects have been proposed which are as under:

(i) Grid Interactive Solar Power Project (2 MW), Lanka, Assam: A detailed project report prepared through a consultant M/s STEAG Energy Services (India) Pvt. Ltd., Noida and obtaining of clearances from State Pollution Control Board are in process.

(ii) Grid interactive Solar Power Project (5 MW), Surjyamonigar, Tripura: An NIT for preparation of DPR was floated on 9th October, 2013.2013. Evaluation of the same is completed. A draft MOU with the Govt. of Tripura is under finalization. Preparation of DPR for the project will be carried out on conclusion of the MOU with Govt. of Tripura.

(iii) Grid Interactive Wind Power Project, at Kopili HEP, Assam: Detailed investigations for feasibility of setting up wind power project is being carried out through the Centre for Wind Energy Technology (C-WET), Chennai which are scheduled to be completed in December, 2014.

c. RAJIV GANDHI GRAMIN VIDYUTKARAN YOJNA (RGGVY)

The Corporation has been entrusted by the Government of Tripura for implementation of Rural Electricity Infrastructure & Household Electrification Scheme under 12th Plan Grameen Vidyutikaran Yojana in two Districts viz. Sepahijala and South Tripura. The financing for the project shall be made by Rural Electrification Corporation (REC) through the Government of Tripura. While 90% of the project shall be financed by REC, the remaining 10% shall be contributed by the Government of Tripura from their own resources. The objective of the project is to achieve 100% electrification of villages/households with special dispensation for all rural below poverty level (BPL) households and also to have suitable back stream infrastructure and connectivity to provide sustainable electricity in the rural areas.

Sepahijala and South Tripura Districts have 117 and 140 numbers respectively of inhabited census/revenue villages as per 2011 census. Under the scheme, 63 KVA and 25 KVA sub-stations along with 11 KV 3 phase, 415 V three phase and 415 V Single Phase lines would be constructed.

Detailed Project Reports (DPRs) for the works were prepared in the month of November, 2013 and the same have been approved by REC in January, 2014. Subsequently, tenders for the works have been invited on 10th February, 2014. The works are scheduled for completion within two years from the date of placement of order.

d. JOINT VENTURE PROJECTS

With a view to enhance generation capacity, NEEPCO is planning to pool resources with other CPSUs and undertake various projects through Joint Ventures. Further the Corporation is planning to form JVs with Private developers for executing projects which are already allotted to these developers. The following projects are being taken up:

A. HYDRO

i. Dibbin Hydro Electric Project (120 MW), Arunachal Pradesh: A Memorandum of Understanding between M/s KSK Energy Ventures Ltd. was concluded on 28th March, 2014 for implementation of the project in JV with NEEPCO's equity share of 30%.

ii. Siang Upper Stage-II Hydro Electric Project (3750 MW), Arunachal Pradesh: A MOA was signed with the State Govt. of Arunachal Pradesh (GoAP) on 28th May, 2013 for implementation in joint venture between NEEPCO, NHPC and the GoAP. The preparation of DPR and comprehensive environmental studies are under process. As desired by the MOEF, GOI, a new PFR is under preparation for approval of term of reference (TOR). A draft Shareholders' Agreement between NEEPCO and NHPC is under finalization.

iii. Siang Upper Stage-I Hydro Electric Project (6000 MW), Arunachal Pradesh: The GoAP conveyed its approval on 29th January, 2014 for development of the project in JV between NHPC, NEEPCO and the GoAP. NHPC has also given some observations on the terms and conditions communicated by GOAP, decisions on which are awaited.

NEEPCO has requested the Ministry of Power to include both the Siang Upper Stage I & II Hydro Electric Projects in the category of National Projects for fast tracking their implementation.

iv. Tipaimukh Hydro Electric Project (1500 MW), Manipur: On 10th December, 2012 the MoP conveyed its decision to induct NEEPCO as a partner in the aforesaid JV in lieu of SJVNL. Finalization of the Draft Promoters' Agreement is in process between NEEPCO & NHPC. Meanwhile, the MOEF recommended exploring the feasibility of smaller dams involving smaller forest area. NHPC explored the feasibility of the project with reduction in FRL from 175m to 155m that would result in 26% reduction of forest area. The MoP desired NHPC to explore the techno-commercial aspect of the proposal. On 24th January, 2014, NEEPCO had suggested to NHPC to explore the feasibility of the project with FRL below 155m keeping reservoir submergence to the minimum corresponding to power generation capacity only.

v. Gumti SHP (15 MW), Tripura: A JV Company between NEEPCO and TSECL is proposed for renovation of this project. NEEPCO has prepared a draft report on the project. A Draft MOU is being finalized for signing between NEEPCO and TSECL, which is expected shortly.

B. THERMAL

vi. UMPP (4000 MW), Odisha in JV between BHEL, NHPC and NEEPCO: A consortium of NHPC (40%), BHEL (34%) and NEEPCO (26%) is to participate in the bidding for the 4000 MW UMPP in Sundargarh, Odisha. Finalization of the MOU to be drawn amongst the consortium members is in progress.

vii. 35 MW Rokhia Gas Based CC Project in JV with Tripura State Electricity Corporation: The Government of Tripura has agreed in principle for formation of a JV between NEEPCO and TSECL for conversion of the Rokhia (63 MW) & Baramura (42 MW) Gas based Power Plants into Combined Cycle configuration by adding 35 MW & 26 MW steam turbines respectively. The NIB for preparation of DPRs for Rokhia and Baramura was floated on 5th December, 2013. Evaluations have been completed and the Corporation is in the final stages for award of the work. A draft MOU/ JV agreement for the above projects with the Government of Tripura is under finalization.

viii. 26 MW Baramura Gas Based CC Project in JV with the Tripura State Electricity Corporation.

C. RENEWABLE ENERGY PROJECTS

ix. *50 MW Solar Power Project of SECI* in Madhya Pradesh: The Share Holder Agreement between M/s WAAREE Energies Ltd. was concluded on 28th March, 2014 for implementation of the project in JV with NEEPCO's Equity Participation of 40%.

x. 100 MW Wind Power Project, Gujarat: The MOU with ECI Engineering & Construction Co. Ltd. was signed on 28th March, 2014 for implementation of 100 MW Wind Power Project, Gujarat in JV with NEEPCO's Equity Participation of 40%.

V. A BRIEF HISTORY OF THE ISSUER SINCE ITS INCORPORATION GIVING DETAILS OF ITS ACTIVITIES

The North Eastern Electric Power Corporation Ltd. (NEEPCO Ltd.) was incorporated on 2nd April, 1976 under the Companies Act, 1956 with an Authorised Capital of Rs.75 crores. NEEPCO is a Schedule "A" Government of India Enterprise under the Ministry of Power. Its primary goal is the integrated and efficient development of the Power Sector in the Region by planning, investigating and preparing preliminary feasibility and definite project reports followed by the actual construction, operation and maintenance of power stations and projects.

A. DETAILS OF SHARE CAPITAL AS ON LAST QUARTER END (31.03.2014)

NEEPCO is a fully owned Government of India Enterprise and its entire share capital is held by the Central Government. Presently, its authorized share capital is Rs.5000 crore. The paid up share capital of the Corporation was Rs.3362.92 crore.

The investment by the Government of India in the Corporation has steadily risen since its incorporation with the infusion of additional Equity for every new project undertaken by the NEEPCO. Thus, the Authorized Capital of NEEPCO had to be gradually increased from the initial amount of Rs.75.00 crores to the present Rs.5000.00 crores.

CAPITAL STRUCTURE (as on 31.03.2014)	**Amount (*Rs. in lakh*)**
AUTHORISED CAPITAL 5,00,00,00,000 (Previous year 5,00,00,00,000) equity shares of Rs.10/- each	**500000.00**
ISSUED, SUBSCRIBED AND PAID-UP CAPITAL 3,36,29,15,400 (Previous year 3,31,46,40,400) equity shares of Rs.10/- each	**336291.54**
SHARE CAPITAL PENDING ALLOTMENT 2,21,70,000 (Previous year 81,05,000) equity shares of Rs.10/- each	**2217.00**

B. CHANGES IN CAPITAL STRUCTURE AS ON LAST QUARTER END, FOR THE LAST FIVE YEARS

Date of Change (AGM)	Rupees	Particulars
10th July, 2009	1500,00,00,000/-	Increase in AUTHORISED SHARE CAPITAL from **Rs.3500,00,00,000/-** divided into 350,00,00,000 equity shares of Rs.10/- each to **Rs.5000,00,00,000/-** divided into 500,00,00,000 equity shares of Rs.10/- each.

C. EQUITY SHARE CAPITAL HISTORY OF THE COMPANY AS ON LAST QUARTER END, FOR THE LAST FIVE YEARS

Date of Allotment	No. of Equity Shares	Face Value Rs.	Issue Price Rs.	Consideration (Cash, other than cash, etc)	Cumulative	
					No. of Equity Shares	Equity Share Capital (*Rs. in lakhs*)
20-02-2009	1,38,20,000	10.00	10.00	-	319,27,48,800	3192,74.88
26-08-2009	1,16,60,000	10.00	10.00	-	320,44,08,800	3204,40.88
25-11-2009	2,33,40,000	10.00	10.00	-	322,77,48,800	3227,74.88
23-03-2010	41,81,600	10.00	10.00	Book adjustment by Govt. of India	323,19,30,400	3231,93.04
20-05-2011	4,50,00,000	10.00	10.00	-	327,69,30,400	3276,93.04
02-03-2012	1,53,00,000	10.00	10.00	Book adjustment by Govt. of India	329,22,30,400	3292,23.04
20-11-2012	1,44,10,000	10.00	10.00	-	330,66,40,400	330664.04
05-02-2013	80,00,000	10.00	10.00	-	331,46,40,400	331464.04
05-12-2013	2,80,00,000	10.00	10.00	-	334,26,40,400	334264.04
14-05-2013	81,00,000	10.00	10.00	-	335,07,40,400	335074.04
26-03-2014	1,21,75,000	10.00	10.00	-	336,29,15,400	336291.54

None.

I. DETAILS OF ANY OUTSTANDING BORROWINGS TAKEN/ DEBT SECURITIES ISSUED WHERE TAKEN / ISSUED (I) FOR CONSIDERATION OTHER THAN CASH, WHETHER IN WHOLE OR PART, (II) AT A PREMIUM OR DISCOUNT, OR (III) IN PURSUANCE OF AN OPTION.

None.

J. MANAGEMENT'S PERCEPTION OF RISK FACTORS:

Prospective investors should carefully consider all the information in this Private Placement Offer Letter, including the risks and uncertainties described below, before making an investment in the Bonds. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business prospects, results of operations and financial condition. If any of the following or any other risks actually occur, our business prospects, results of operations and financial condition could be adversely affected and the price of, and the value of your investment in the Bonds could decline and you may lose all or part of your redemption amounts and/ or interest amounts.

(i) RISKS RELATING TO OUR BUSINESS AND INDUSTRY

1. With the power sector industry becoming increasingly competitive, the Corporation's growth will depend largely on its ability to minimize costs and maximize revenues.
2. Our revenues are largely dependent on the ability of our power stations to perform at optimal levels. The performance of our hydro stations at optimum levels depends upon the water levels of the rivers and reservoirs which in turn depend upon rainfall conditions. A decline in rainfall levels may results in lower levels of generation by the hydro stations which would in turn result in lower revenues for the Corporation.
3. Significant shortages in the supply of natural gas could adversely affect our thermal stations which would adversely affect our financial condition and results of operations
4. Power sector CPSUs are required to adhere to certain norms as approved by the Government of India through the Ministry of Power and other authorities as well as the Central Electricity Regulatory Commission (CERC). Changes in the regulatory regime by the CERC with respect to tariff regulations may adversely affect our financial condition and results of operations. The Corporation may also be vulnerable to the introduction of rules, regulations and norms of operation by the Government of India from time to time.
5. The Corporation enjoys certain tax benefits which may be withdrawn thereby adversely affecting our business, financial condition and results of operations.
6. We have borrowed in foreign currency and are likely to continue to do so in the future which exposes us to fluctuations in foreign exchange rates thereby adversely affecting our financial condition and results of operations.
7. The construction, maintenance and operation of power projects carry certain risks which to the extent they materialize could adversely affect our business and financial performance
8. Negative trends in the Indian power sector or the Indian economy could adversely affect our business and financial performance.
9. As the Corporation uses IT in many of its work processes there are possible risks of IT frauds.

(ii) RISKS RELATING TO THE INDIAN ECONOMY

10. A slowdown in the economic growth in India could adversely impact our business.
11. The growth of the power sector in India is dependent on the continued growth of the Indian economy and regulatory developments in India. Any adverse change in policy implementation / industry demand may adversely affect us.
12. Our ability to raise foreign currency borrowings may be constrained by regulatory, statutory and legal conditions in the country.
13. Any downgrading of India's sovereign rating by a credit rating agency could have a negative impact on our business

(iii) RISKS RELATING TO THE BONDS

14. There is no guarantee that the Bonds issued pursuant to this Issue will be listed on BSE in a timely manner.

15. Any downgrading in credit rating of our Bonds may affect the trading price of our Bonds and our ability to raise funds.
16. Payments made on the Bonds will be subordinated to certain tax and other liabilities preferred by law.

X. DETAILS OF PROMOTERS OF THE COMPANY

None.

XVIII. NAMES OF ALL THE RECOGNISED STOCK EXCHANGES WHERE THE DEBT SECURITIES ARE PROPOSED TO BE LISTED CLEARLY INDICATING THE DESIGNATED STOCK EXCHANGE.

The Secured Non-Convertible Redeemable Bonds in the nature of Debentures) are proposed to be listed on the Wholesale Debt Market (WDM) Segment of the **Bombay Stock Exchange of India Ltd. ("BSE").** The Company has obtained an in-principle approval from the BSE for listing of said Bonds on its Wholesale Debt Market (WDM) Segment. The Company shall make an application to the BSE to list the Bonds to be issued and allotted under this Disclosure Document and complete all the formalities relating to listing of the Bonds **within 20 days from the deemed date of allotment of the bonds.** If such permission is not granted **within 20 days** from the from the deemed date of allotment of the bonds or where such permission is refused before the expiry of the 20 days from the closure of the Issue, the Company shall forthwith repay without interest, all monies received from the applicants in pursuance of the Disclosure Document, and if such money is not repaid within the stipulated time after the Company becomes liable to repay it (i.e. from the date of refusal or 20 days from the date of closing of the subscription list, whichever is earlier), then the Company and every director of the Company who is an officer in default shall be jointly and severally liable to repay the money, with interest at the rate of 15 per cent per annum on application money, or as prescribed by the relevant rules and regulations.

In connection with listing of Bonds with BSE, the Company hereby undertakes that:

(a) It shall comply with conditions of listing of Bonds as may be specified in the Listing Agreement with BSE.
(b) Ratings obtained by the Company shall be periodically reviewed by the credit rating agencies and any revision in the rating shall be promptly disclosed by the Company to BSE.
(c) Any change in rating shall be promptly disseminated to the holder(s) of the Bonds in such manner as BSE may determine from time to time.
(d) The Company, the Trustees and BSE shall disseminate all information and reports on Bonds including compliance reports filed by the Company and the Trustees regarding the Bonds to the holder(s) of Bonds and the general public by placing them on their websites.
(e) Trustees shall disclose the information to the holder(s) of the Bonds and the general public by issuing a press release in any of the following events:
  (i) default by the Company to pay interest on Bonds or redemption amount;
  (ii) revision of rating assigned to the Bonds;
(f) The information referred to in para (e) above shall also be placed on the websites of the Trustees, Company & BSE.

XIX. OTHER DETAILS:

A. DRR CREATION - RELEVANT REGULATIONS AND APPLICABILITY

The Company shall create a Bond/Debenture Redemption Reserve in accordance with Section 18(7)(b) of the Companies (Share Capital & Debentures) Rules, 2014.

B. ISSUE/INSTRUMENT SPECIFIC REGULATIONS - RELEVANT DETAILS (COMPANIES ACT, RBI GUIDELINES, ETC)

1. Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide circular no. LAD-NRO/GN/2008/13/127878 dated June 06, 2008, as amended and Securities and Exchange Board of India (Issue and Listing of Debt Securities) (Amendment) Regulations, 2012 issued vide circular no. LAD-NRO/GN/2012-13/19/5392 dated October 12, 2012).

2. The Companies Act, 2013.

C. APPLICATION PROCESS:

PROCEDURE FOR APPLYING FOR DEMAT FACILITY

1. The applicant must have at least one beneficiary account with any of the Depository Participants (DPs) of NSDL or CDSL prior to making the application.
2. The applicant must necessarily fill in the details (including the beneficiary account number and Depository Participant's ID) appearing in the Application Form under the heading 'Details for Issue of Bonds in Electronic/ Dematerialised Form'.
3. Bonds allotted to an applicant will be credited directly to the applicant's respective Beneficiary Account(s) with the DP.
4. For subscribing the bonds, names in the application form should be identical to those appearing in the account details in the depository. In case of joint holders, the names should necessarily be in the same sequence as they appear in the account details in the depository.
5. Non-transferable allotment advice/refund orders will be directly sent to the applicant by the Registrars to the Issue.
6. If incomplete/incorrect details are given under the heading 'Details for Issue of Bonds in Electronic/ Dematerialised Form' in the application form, it will be deemed to be an incomplete application and the same may be held liable for rejection at the sole discretion of the Company.
7. For allotment of Bonds, the address, nomination details and other details of the applicant as registered with DP shall be used for all correspondence with the applicant. The Applicant is therefore responsible for the correctness of its demographic details given in the application form vis-à-vis those with their DP. In case the information is incorrect or insufficient, the Issuer would not be liable for losses, if any.
8. It may be noted that Bonds being issued in electronic form, the same can be traded only on the Stock Exchanges having electronic connectivity with NSDL or CDSL. Bombay Stock Exchange Limited., where the Bonds of the Company are proposed to be listed has connectivity with NSDL and CDSL.
9. Interest or other benefits would be paid to those Bondholders whose names appear on the list of beneficial owners given by the Depositories to the Company as on Record Date/ Book Closure Date. In case of those Bonds for which the beneficial owner is not identified by the Depository as on the Record Date/ Book Closure Date, the Company would keep in abeyance the payment of interest or other benefits, till such time that the beneficial owner is identified by the Depository and conveyed to the Company, whereupon the interest or benefits will be paid to the beneficiaries, as identified, **within a period of 15 days.**

HOW TO APPLY:

This being a private placement offer, investors who are established/ resident in India and who have been addressed through this communication directly only are eligible to apply. Application shall be for a minimum number of 5 (five) Bonds and multiples of 1 (one) Bond thereafter.

Applicants may remit their application money by way of electronic transfer of funds through RTGS mechanism or through Core Banking Solution (CBS) for credit in the account of in favour of the "**North Eastern Electric Power Corporation Ltd.**" for crediting the amount to the following bank account:

Beneficiary Name	**North Eastern Electric Power Corporation Ltd.**
Account No.	**32061917621**
Bank	**State Bank of India**
Branch	**SBI Main Branch**
Location	**Kachari Road, Shillong – 793001**
Account Type	**Current**
IFSC Code	**SBIN0000181**

All Application Forms duly completed (along with all necessary documents as detailed in this Disclosure Document) must be delivered before the closing of the issue to the Arranger to the Issue. While forwarding the application form, applicants must ensure that the relevant UTR number/ or any other evidence of having remitted the application money is obtained. Detailed instructions for filling up the application form are provided elsewhere in this Disclosure Document.

Applications for the Bonds must be in the prescribed form (enclosed) and completed in BLOCK LETTERS in English and as per the instructions contained therein. Applications not completed in the prescribed manner are liable to be rejected. The name of the applicant's bank, type of account and account number must be filled in the Application Form. This is required for the applicant's own safety and these details will be printed on the refund orders and interest/ redemption warrants.

The applicant or in the case of an application in joint names, each of the applicant, should mention his/her Permanent Account Number (PAN) allotted under the Income-Tax Act, 1961 or where the same has not been allotted, the GIR No. and the Income tax Circle/Ward/District. As per the provision of Section 139A (5A) of the Income Tax Act, PAN/GIR No.

needs to be mentioned on the TDS certificates. Hence, the investor should mention his PAN/GIR No. if the investor does not submit Form 15G/15AA/other evidence, as the case may be for non-deduction of tax at source. In case neither the PAN nor the GIR Number has been allotted, the applicant shall mention "Applied for" and in case the applicant is not assessed to income tax, the applicant shall mention 'Not Applicable' (stating reasons for non applicability) in the appropriate box provided for the purpose. Application Forms without this information will be considered incomplete and are liable to be rejected.

Applications may be made in single or joint names (not exceeding three). In the case of joint applications, all payments will be made out in favour of the first applicant. All communications will be addressed to the first named applicant whose name appears in the Application Form at the address mentioned therein.

All applicants are requested to tick the relevant column "Category of Investor" in the Application Form. Public/ Private/ Religious/ Charitable Trusts, Provident Funds and Other Superannuation Trusts and other investors requiring "approved security" status for making investments.

No separate receipts shall be issued for the application money. However, Arranger to the Issue at their Designated Branch (es) receiving the duly completed Application Forms will acknowledge the receipt of the applications by stamping and returning the acknowledgment slip to the applicant. Applications shall be deemed to have been received by the Issuer Company only when submitted to Arranger to the Issue at their designated branches or on receipt by the Registrar as detailed above and not otherwise.

For further instructions, please read Application Form carefully.

As per Section 109(A) of the Companies Act, 1956, only individuals applying as sole applicant/Joint Applicant can nominate, in the prescribed manner, a person to whom his Bonds shall vest in the event of his death. Non individuals including holders of Power of Attorney cannot nominate.

MODIFICATION OF RIGHTS

The rights, privileges, terms and conditions attached to the Bonds may be varied, modified or abrogated with the consent, in writing, of those holders of the Bonds who hold at least three fourth of the outstanding amount of the Bonds or with the sanction accorded pursuant to a resolution passed at a meeting of the Bondholders, provided that nothing in such consent or resolution shall be operative against the Company where such consent or resolution modifies or varies the terms and conditions of the Bonds, if the same are not acceptable to the Company.

XX. ISSUE DETAILS

ISSUE SIZE

The issuer proposes to issue 25000 bonds of face value of Rs.10,00,000/- each aggregating to Rs.1900 crore with right to retain Green Shoe option of Rs.600 crore aggregating upto Rs.2500 crore.

AUTHORITY FOR THE ISSUE

The issue is being made in pursuance of the Board Resolution dated **17th September, 2014** and AGM Special Resolution dated **17th September, 2014.**

REGISTRATION AND GOVERNMENT APPROVALS

The Company can undertake the activities proposed by it in view of the present approvals and no further approval from any government authority(ies) is required by it to undertake the proposed activities and except those approvals which may be required to be taken in the normal course of business from time to time.

OBJECTS OF THE ISSUE

The funds will be utilized for prepayment of existing high cost borrowings and to finance the construction of various on-going hydro and thermal projects in the NER.

UTILISATION OF ISSUE PROCEEDS

The Company is managed by professionals under the supervision of its Board of Directors. Further, the Company is subject to a number of regulatory checks and balances as stipulated in its regulatory environment. Therefore, the management shall ensure that the funds raised via this private placement shall be utilized only towards satisfactory fulfillment of the objects of the issue. The Company further confirms that the proceeds of the current issue of Bonds shall not be used for providing loan to or acquisition of shares of any person who is part of the same group or who is under the same management.

MINIMUM SUBSCRIPTION

As the current issue of Bonds is being made on private placement basis, the requirement of minimum subscription shall not be applicable and therefore the Company shall not be liable to refund the issue subscription(s)/ proceed(s) in the event of the total issue collection falling short of issue size or certain percentage of issue size.

NATURE OF THE BOND

The bonds are Secured, Redeemable, Non-Convertible Taxable and in the nature of Debentures.

SECURITY

The Bonds together with interest costs and all other monies and amounts payable in respect of these Bonds will be fully secured by first pari-passu charge on identified Fixed Assets of the company with a minimum asset cover of 100% throughout the tenure of Bonds in favour of a Trustee.

The said security shall be created in favour of the Trustees within the stipulated regulatory period from the Deemed Date of Allotment or such extended period as may be permitted by the relevant authority(ies). The Security will be created by the Company, as aforesaid, in favour of the Trustee on such of the assets for which the Company obtains, after all due diligence and efforts, the requisite consents and permissions applicable under law or in accordance with the contractual conditions of holding of such assets for creating the above-mentioned charge. The creation of such security shall be sufficient compliance of the Company's obligation to create security.

TERMS OF PAYMENT

The full face value of the Bonds applied for is to be paid along with the application form. Investor(s) need to send in the application form and the Cheque/Demand Draft/ RTGS/ECS for the full face value of the Bonds applied for.

Issue Price of the Bond	Minimum Application for	Amount Payable on Application per Bond
Rs.10 lakhs	5 Bonds and in multiples of 1 Bond thereafter	Full Issue Price i.e. Rs.10 lakhs

PAY-IN-DATE & DEEMED DATE OF ALLOTMENT

Pay-in Date shall be the date on which application money has to be paid in favour of **"North Eastern Electric Power Corporation Ltd."** by a Cheque/Demand draft. The funds can also be remitted through RTGS. Details of the Account of the Company are given in the Application form of this document. The Company reserves the right to shift the Pay-in Date and/or the Deemed Date of Allotment to any other date or allot the Bonds on multiple dates without giving any reason or any prior notice. The Company may at its sole discretion accept the subscription amount after the Pay-in Date. All benefits available to the investors shall be from the Deemed Date of Allotment and actual allotment may occur on a date other than the Deemed Date of Allotment.

LETTER(S) OF ALLOTMENT/ BOND CERTIFICATE(S)/ REFUND ORDER(S) ISSUE OF LETTER(S) OF ALLOTMENT

The beneficiary account of the investor(s) with National Securities Depository Ltd. (NSDL)/Central Depository Services (India) Ltd. (CDSL)/ Depository Participant will be given initial CREDIT **within 2 working days** from the Deemed Date of Allotment. The initial CREDIT in the account will be akin to the Letter of Allotment. On completion of the all-statutory formalities, such CREDIT in the account will be akin to a Bond Certificate.

ISSUE OF BOND CERTIFICATE(S)

The Bonds since issued in electronic (dematerialized) form, will be governed as per the provisions of The Depository Act, 1997, Securities and Exchange Board of India (Depositories and Participants) Regulations, 1997, rules notified by NSDL/ CDSL/ Depository Participant from time to time and other applicable laws and rules notified in respect thereof. The Bonds shall be allotted in DEMAT form only.

MODE OF TRANSFER OF BONDS

Transfer of theses dematerialized bonds should be in accordance with the rules/procedures as prescribed by NSDL/CDSL/Depository participant of the transferor/transferee and all other applicable laws and rules notified in respect thereof.

PUT/ CALL OPTION

There is **NO** option for any Put or Call in the current issue.

DEPOSITORY ARRANGEMENTS

The Company has made depository arrangements with National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) for issue and holding of the Bonds in dematerialized form. As per the provisions of Depositories Act, 1996, the Bonds issued by The Company can be held in a dematerialized form, i.e. not in the form of physical certificates but be fungible and be represented by the statement issued through electronic mode. In this context, two Tripartite Agreements have been signed:

- Tripartite Agreement dated 18th June, 2002 between NEEPCO, NSDL and MCS Limited
- Tripartite Agreement dated 4th April, 2002 between NEEPCO, CDSL and MCS Limited

FICTITIOUS APPLICATIONS

Any person who:-
a) Makes, in a fictitious name, an application to a body corporate for acquiring or subscribing to, the bonds, or
b) Otherwise induces a body corporate to allot, or register any transfer of, bonds therein to them, or any other person in a fictitious name, shall be liable for legal consequences of such action.

MARKET LOT

The market lot will be one Bond ("Market Lot"). Since the Bonds are being issued only in dematerialised form, the odd lots will not arise either at the time of issuance or at the time of transfer of Bonds.

INTEREST ON APPLICATION MONEY

Interest at the Coupon Rate as per Termsheet (subject to deduction of income tax under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof, as applicable) will be paid to all the applicants on the application money for the Bonds.

Such interest shall be paid from and including the date of realisation of cheque(s)/demand draft(s)/ RTGS/ECS up to but excluding the Deemed Date of Allotment. Such interest would be paid on all valid application. The interest on application money will be computed on the basis of actual number of days elapsed in a year. For this purpose a year would comprise a period of 365 days. In the leap year the month of February shall be considered as of 29 days and the year would be of 366 days. Such interest would be paid on all the valid applications, including the refunds. Where the entire subscription amount has been refunded, the interest on application money will be paid along with the refund orders.

The interest on application money will be remitted through RTGS/ECS or interest cheque(s)/ demand draft(s) for interest on application money (along with Refund Orders, in case of refund of application money, if any) shall be dispatched by the NEEPCO **within 10 days** from the Deemed Date of Allotment and the relative interest warrant(s) along with the Refund Order(s), as the case may be, will be dispatched by registered post/courier/speed post to the sole/ first applicant, at the sole risk of the applicant.

INTEREST ON BONDS

The Bonds shall carry interest at the coupon rates as per term sheet (subject to deduction of tax at source at the rates prevailing from time to time under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof for which a certificate will be issued by NEEPCO) on the outstanding principal amount of Bonds till final redemption. Interest will be paid semi annually on **1st April** and **1st October** each year throughout the tenure of the Bonds till final redemption.

The first interest period shall be defined as actual number of days falling between the **Deemed Date of Allotment** to **1st April, 2015** including the first date but excluding the last date. The first interest payment would be made on **1st April, 2014.** This will be calculated by multiplying the nominal amount with the interest rate on an "**Actual / Actual**" day basis. The second and subsequent interest period is defined as the actual number of days between **1st April** and **1st October** and **1st October** & **1st April** including the first date but excluding the last date. This will be calculated by multiplying the nominal amount by the Interest Rate with the actual number of days divided by total number of days in the coupon period (as per SEBI's Circular No. CIR/IMD/DF/18/2013 dated October 29, 2013). The last Interest Payment would be made on the final redemption date, along with the redemption of principal amount. The last interest payment shall again be calculated on actual number of days i.e. from interest payment date to a day immediately preceding the date of redemption. (*Bond Cash Flows are given at Page 22.*)

In case the Deemed Date of Allotment is revised (pre-poned/ postponed) then the Interest Payment Dates and Interest payment Schedule may also be revised accordingly by the Company at its sole & absolute discretion.

Interest on Bonds will cease from the date of final redemption in all events. If any interest payment date falls on a day which is not a Business Day ('Business Day' being a day on which Commercial Banks are open for Business in the city of **Shillong**) then payment of interest will be made on the next day that is a business day.

COMPUTATION OF INTEREST

The Bonds will carry interest rates as per the term sheet from the Deemed Date of Allotment. The interest will be paid from the Deemed Date of Allotment (subject to deduction of tax at source at the rates prevailing from time to time under the Income Tax Act, 1961 or any other statutory modification or re-enactment thereof) as per term sheet. The Interest shall be computed on "**Actual / Actual**" day count basis (refer SEBI's Circular No. CIR/IMD/DF/18/2013 dated October 29, 2013).

RECORD DATE

The Record Date for all interest payments and repayment of the bond value upon redemption will be the day immediately pre-ceding the period of **15 days prior to the interest payment or redemption date**, as the case may be. Such payment will be made to the bondholder as appearing in the records of the RTA as on the said date. In case the Record Date/payment date falls on a Sunday or a Bank Holiday, the next working day following the Sunday or Bank Holiday will be considered as the Record Date/payment date.

DEDUCTION OF TAX AT SOURCE

Tax applicable under the Income-Tax Act, 1961, or any other statutory modification or re-enactment thereof will be deducted at source. Tax exemption certificate/ document, under section 193/197/197A of the Income Tax Act, 1961, if any, must be lodged at the office of the Issuer, at least fifteen (15) days prior to the interest payment date. The applicants must

submit tax exemption certificate, if applicable, in respect of the interest on application money, if any, along with the application form as required under the Income Tax Act, 1961. In case of tax deducted at source, the Company will send the TDS certificate to the investors. Therefore, to ensure non-deduction/lower deduction of tax at source from interest on application money, the investors should submit Form 15H/15AA, authority letter from Assessing Officer for non-deduction of tax as may be applicable, with the Application Form, on or before the closure of the Issue.

Regarding deduction of tax at source and the requisite declaration forms to be submitted, prospective investor is advised to consult his tax advisor before investing in the Bonds to be issued by NEEPCO.

REDEMPTION

The Bonds will be redeemed in 5 (Five) equal annual instalments each amounting to 20% of the Face Value of each Bond at the end of 6th, 7th, 8th, 9th and 10th years respectively from the Deemed Date of Allotment. The Bonds, up to the extent of the Face Value/installment(s) already redeemed, will not carry any obligation, for interest or otherwise, after the date of redemption.

The Bonds held in the dematerialised form shall be taken as discharged on payment of the redemption amount by the Company on maturity to the registered Bondholders whose name appear in the Register of Bondholders on the record date. Such payment will be a legal discharge of the liability of the Company towards the Bondholders.

In case the principal redemption date falls on a day which is not a Business Day ('Business Day' being a day on which Commercial Banks are open for Business), then the payment due shall be made on the next Business Day but without liability for making payment of interest for the intervening period.

PAYMENT ON REDEMPTION

Payment on redemption will be made by cheque(s)/warrants(s) /demand draft /credit through ECS/RTGS system in the name of the Bondholder(s) whose name appears on the List of Beneficial Owners given by Depository to NEEPCO as on the Record Date. The Issuer's liability to Bondholder(s) towards all their rights including payment of interest or otherwise shall cease and stand extinguished from the due date of redemption in all events. Further, the Issuer will not be liable to pay interest, income or compensation of any kind from the date of such redemption of the Bonds.

Each installment of the Bonds shall be taken as discharged upon payment of the redemption amount on the 6th, 7th, 8th and 9th anniversary dates. The Bonds shall be taken as fully discharged upon payment of the final redemption installment on the 10th anniversary date. Such payment will be a legal discharge of the all liability of the Company towards the Bondholders. On payment of each redemption installment, the Company will inform NSDL/CDSL and accordingly the account of the Bondholders with NSDL/CDSL will be adjusted.

The liability of the Company shall stand discharged on posting of redemption warrants by Registered Post and/or remitting the redemption proceeds through ECS/EFT/RTGS to the above said Beneficiaries. No claim, damages or penal interest in respect of delayed payment, etc. shall lie upon the Company in the event of non-receipt of the same by the addressee Bondholder.

RIGHTS OF BONDHOLDERS

Bondholder is not a shareholder. The Bondholders will not be entitled to any other rights and privilege of shareholders other than those available to them under statutory requirements. The Bond(s) shall not confer upon the holders the right to receive notice, or to attend and vote at the General Meeting of the Company. The principal amount and interest on the Bonds will be paid to the registered Bondholders only, and in case of Joint Holders, to the one whose name stands first. Besides the above, the Bonds shall be subject to the provisions of the Companies Act, 1956, the Articles of Association of NEEPCO, the terms of this bond issue and the other terms and conditions as may be incorporated in the Trust deed and other documents that may be executed in respect of these Bonds.

EFFECT OF HOLIDAYS

Should any of the dates defined anywhere in the present Information Memorandum, except the Deemed Date of Allotment, fall on a Sunday or a Holiday, the next working day shall be considered as the effective date. In case the date involves a payment, then the next working day on which Scheduled Commercial Banks in Shillong are open for business shall be considered as the effective date.

LIST OF BENEFICIAL OWNERS /REGISTER OF BENEFICIAL OWNERS

The Company shall request the RTA to provide a list of Beneficial Owners as at the end of the Record Date. This shall be the list, which shall be considered for payment of interest or repayment of principal amount, as the case may be. The RTA shall maintain a register and an index of Beneficial Owners in the manner as provided for, in compliences with various applicable regulations.

SUCCESSION

In the event of the demise of the sole/first holder of the Bond(s) or the last survivor, in case of joint holders for the time being, the Company shall recognize the executor or administrator of the deceased Bondholder, or the holder of succession certificate or other legal representative as having title to the Bond(s). The Company shall not be bound to recognize such executor or administrator, unless such executor or administrator obtains probate, wherever it is necessary, or letter of administration or such holder is the holder of succession certificate or other legal representation, as the case may be, from a Court in India having jurisdiction over the matter. The Company may, in its absolute discretion, where it thinks fit, dispense with production of probate or letter of administration or succession certificate or other legal representation, in order to recognize such holder as being entitled to the Bond(s) standing in the name of the deceased Bondholder on production of sufficient documentary proof or indemnity.

Where a non-resident Indian becomes entitled to the Bond by way of succession, the following steps have to be complied with:

a. Documentary evidence to be submitted to the Legacy Cell of the RBI to the effect that the Bond was acquired by the NRI as part of the legacy left by the deceased holder.

b. Proof that the NRI is an Indian National or is of Indian origin. Such holding by the NRI will be on a non-repatriation basis

FUTURE BORROWINGS

Company reserves the right to make further issues of Bonds or raise loans from any source it deems fit on the security or otherwise of its assets without the consent of the Trustees and without any approval from the bondholders of these present bonds.

DECLARATION REGARDING NON-DEFAULT

Company has never defaulted in payment of interest or principal redemption on any of the Bonds issued by it nor has it defaulted in case of non-allotment of Bonds or payment of application money.

NOTICES

Any notice to the Bondholder required to be sent by Company shall be deemed to have been given if sent by registered post /courier to the holders appearing in the most recent records of the RTA.

All notices to be given by the Beneficial Owners of Bonds shall be sent by Registered Post or by Hand Delivery to the Company or such persons, at such address, as may be notified by the Company from time to time.

All communications from bondholders to NEEPCO shall be addressed to:

The Executive Director (Finance), Funds Section, North Eastern Electric Power Corporation Limited, Brookland Compound, Lower New Colony, Shillong 793 003

TAX BENEFITS TO THE BONDHOLDERS OF THE COMPANY

The holder(s) of the Bonds are advised to consider in their own case, the tax implications in respect of subscription to the Bonds after consulting their own tax advisor/ counsel.

DISPUTES & GOVERNING LAWS AND JURISDICTION

The Bonds shall be construed to be governed in accordance with Indian laws and rules framed there under. Any dispute between NEEPCO and the bondholders will subject to the jurisdiction of the Shillong High Court.

The Company also reserves the right to keep multiple Deemed Date(s) of Allotment at its sole and absolute discretion without any notice.

XXII. SERVICING BEHAVIOR ON EXISTING DEBT SECURITIES AND OTHER BORROWINGS

The Company hereby confirms that:

a) The main constituents of the Company's borrowings have been in the form of borrowings from Financial Institutions, Bonds, etc. and Company has been servicing its principal and interest liabilities on time and there has been no instance of delay or default since inception.
b) The Company has neither defaulted in repayment/ redemption of any of its borrowings nor affected any kind of roll over against any of its borrowings in the past.

XXIII. UNDERTAKING REGARDING COMMON FORM OF TRANSFER

The Bonds shall be transferred subject to and in accordance with the rules/ procedures as prescribed by the NSDL/ CDSL/ Depository Participant of the transferor/ transferee and any other applicable laws and rules notified in respect thereof. The normal procedure followed for transfer of securities held in dematerialized form shall be followed for transfer of these Bonds held in electronic form. The seller should give delivery instructions containing details of the buyer's DP account to his depository participant.

The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. In the absence of the same, interest will be paid/ redemption will be made to the person, whose name appears in the records of the Depository. In such cases, claims, if any, by the transferee(s) would need to be settled with the transferor(s) and not with the Company.

The Company undertakes that it shall use a common form/ procedure for transfer of Bonds issued under terms of this Disclosure Document.

XXIV. MATERIAL EVENT, DEVELOPMENT OR CHANGE AT THE TIME OF ISSUE

The Company hereby declares that there has been no material event, development or change at the time of issue which may affect the issue or the investor's decision to invest/ continue to invest in the debt securities of the Company.

XXV. PERMISSION/ CONSENT FROM PRIOR CREDITORS

The Company hereby confirms that it is entitled to raise money through current issue of Bonds without the consent/ permission/ approval from the Bondholders/ Trustees/ Lenders/ other creditors of the Company. The Company hereby undertakes that it shall seek consent from the existing charge holders for creating of security for the Bonds on pari-passu basis. In future, the Trustees shall provide consent to create pari-passu charge subject to Company's complying with the requisite terms of the Bonds issued.

XXVI. MATERIAL CONTRACTS & DOCUMENTS

By the very nature of its business, NEEPCO is involved in a large number of transactions and therefore it may not be possible to furnish details of all material contracts and agreements involving financial obligations of NEEPCO. However, the contracts referred to below (not being contracts entered into in the ordinary course of the business carried on by NEEPCO) which are or may be deemed to be material have been entered into by NEEPCO. Copies of these contracts together with the copies of documents referred below may be inspected at the Head Office of NEEPCO between 10.00 a.m. and 2.00 p.m. on any working day until the issue closing date.

a) Copy of letters appointing Lead Arranger and other Arrangers to the Issue.

A.	Details of Secured Loan Facilities
B.	Details of Unsecured Loan Facilities
C.	Details of NCDs
D.	List of Top 10 Debenture Holders as on the latest quarter end (30.09.2017)
E	The amount of corporate guarantee issued by the Issuer along with name of the counterparty (like name of the subsidiary, JV entity, group company, etc) on behalf of whom it has been issued.
F.	Details of Commercial Paper
G.	Details of rest of the borrowing (if any including hybrid debt like FCCB, Optionally Convertible Debentures / Preference Shares).

H.	Details of all default/s and/or delay in payments of interest and principal of any kind of term loans, debt securities and other financial indebtedness including corporate guarantee issued by the Company, in the past 5 years.
I.	Details of any outstanding borrowings taken/ debt securities issued where taken / issued (i) for consideration other than cash, whether in whole or part, (ii) at a premium or discount, or (iii) in pursuance of an option.
J.	Management's perception of risk factors
X.	Details of promoters of the company
XI.	Abridged version of audited consolidated (wherever available) and standalone financial information (like profit & loss statement, balance sheet and cash flow statement) for at least last three years and auditor qualifications , if any
XII.	Abridged version of latest audited / limited review half yearly consolidated (wherever available) and standalone financial information (like profit & loss statement and balance sheet) and auditors qualifications, if any
XIII.	Any material event/ development or change at the time of issue or subsequent to the issue which may affect the issue or the investor's decision to invest/ continue to invest in the debt securities
XIV.	The names of the debenture trustee(s) shall be mentioned with statement to the effect that debenture trustee(s) has given his consent to the issuer for his appointment under regulation 4 (4) and in all the subsequent periodical communications sent to the holders of debt securities.
XV.	The detailed rating rationale (s) adopted (not older than one year on the date of opening of the issue)/ credit rating letter issued (not older than one month on the date of opening of the issue) by the rating agencies shall be disclosed
XVI.	If the security is backed by a guarantee or letter of comfort or any other document / letter with similar intent, a copy of the same shall be disclosed. In case such document does not contain detailed payment structure (procedure of invocation of guarantee and receipt of payment by the investor along with timelines); the same shall be disclosed in the offer document.
XVII.	Copy of consent letter from the debenture trustee "SBICAP Trustee Company Ltd." dated _____ conveying their consent to act as trustee for the current issue of bonds is enclosed elsewhere in this disclosure document.
XVIII.	Names of all the recognized stock exchanges where the debt securities are proposed to be listed clearly indicating the designated stock exchange.
XIX.	Other details
A.	DRR creation – relevant regulations and applicability
B.	Issue/instrument specific regulations - relevant details (Companies Act, RBI guidelines, etc).
C.	Application process
XX.	Issue Details
XXI.	Summary Term Sheet
XXII.	Servicing behavior on existing debt securities and other borrowings
XXIII.	Undertaking regarding common form of transfer
XXIV.	Material event, development or change at the time of issue
XXV.	Permission / Consent from prior creditors
XXVI.	Material contracts & agreements involving financial obligations of the issuer
	Declaration
ANNEXURES:	
A.	Credit Rating letters from Rating Agencies (ICRA Ltd. and CARE Ltd.)
B.	Consent letter from SBICAP Trustee Company Ltd.
C.	Consent letter from Registrar & Transfer Agent – Karvy Computershare Pvt. Limited
D.	Consent letter from State Bank of India to act as Bankers to the Issue
E.	In-principle Approval from Bombay Stock Exchange
F.	Application Form & Instructions

I. DEFINITIONS/ABBREVIATIONS

Articles	Articles of Association of the Company
AY	Assessment Year
Board/ Board of Directors	The Board of Directors of NEEPCO Ltd.
Bonds	XVIIIth Series Secured Redeemable Non-Convertible Taxable Bonds in the nature of Debentures of ₹10,00,000/- each offered through private placement route
Bondholder/Debenture holder	The holder of the Bonds
Book Closure / Record Date	The date of closure of register of Bonds for payment of interest and repayment of principal
BSE	BSE (erstwhile (Bombay Stock Exchange Ltd.)
CARE	Credit Analysis and Research Ltd.
CDSL	Central Depository Services (India) Ltd.
CMD	Chairman and Managing Director of NEEPCO
Depository(ies)	A Depository registered with SEBI under the SEBI (Depositories and Participant) Regulations, 1996, as amended from time to time
Depositories Act	The Depositories Act, 1996, as amended from time to time
Depository Participant	A Depository participant as defined under Depositories Act
Designated Stock Exchange	BSE Limited.
Deemed Date of Allotment	Date as specified in the summary term sheet
DER	Debt Equity Ratio
DP	Depository Participant
DRR	Debenture Redemption Reserve
FIs	Financial Institutions
Fiscal	Period of 12 months period ending March 31st, of that particular year unless otherwise stated
FY	Financial Year
Government/GOI	Government of India
ITSL/Trustee	SBICAP Trustee Company Limited
Issuer/ NEEPCO/ Corporation/Company	North Eastern Electric Power Corporation Limited
I.T. Act	The Income Tax Act, 1961, as amended from time to time
Memorandum	Memorandum of Association of the Company
MF	Mutual Fund
NSDL	National Securities Depository Limited
PAN	Permanent Account Number
PPOL/Private Placement Offer Letter	PPOL dated 9th November, 2017 for Private Placement of 7.68% p.a. payable semi annually XVIIIth Secured Redeemable Non-Convertible Taxable Bonds Series in the nature of Debentures of ₹ 10,00,000/- each for cash at par.
₹ / INR	Indian Rupee
RTGS	Real Time Gross Settlement
Registrar	Karvy Computershare Pvt. Limited
RBI	The Reserve Bank of India
SEBI	The Securities and Exchange Board of India, constituted under the SEBI Act, 1992.
SEBI Act	Securities and Exchange Board of India Act, 1992, as amended from time to time
SEBI Regulations	Securities & Exchange Board of India (Issue & Listing of Debt Securities) Regulations, 2008 issued vide circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended and Securities & Exchange Board of India (Issue & Listing of Debt Securities) (Amendment) Regulations, 2012 issued vide circular no. LAD-NRO/GN/2012-13/19/5392 dated October 12, 2012.
TDS	Tax Deducted at Source
The Companies Act/ the Act	The Companies Act, 2013 as amended from time to time.
The Issue/ The Offer/ Private Placement	Private Placement of 7.68% p.a. payable semi annually XVIIIth Secured Redeemable Non-Convertible Taxable Bonds Series in the nature of Debentures of ₹10,00,000/- each for cash at par for an amount aggregating ₹500 crore.

II. DISCLAIMERS

DISCLAIMER OF THE ISSUER

This Private Placement Offer Letter is neither a Prospectus nor a Statement in Lieu of Prospectus and is prepared in conformity with Form PAS-4 prescribed under section 42 and rule 14(1) of Companies (Prospectus and Allotment of Securities) Rules, 2014, Securities and Exchange Board of India (Issue and Listing of Debt Securities) (Amendment) Regulations, 2012 issued vide circular no. LAD-NRO/GN/2012-13/19/5392 dated October 12, 2012, as amended from time to time. This Private Placement Offer Letter does not constitute an offer to the public generally to subscribe for or otherwise acquire the Bonds to be issued by (the "Issuer"/ the "North Eastern Electric Power Corporation Limited (NEEPCO)"/ ("the Company"). The document is for the exclusive use of the Institutions to whom it is addressed and it should not be circulated or distributed to third party (ies). The Company certifies that the disclosures made in this Private Placement Offer Letter are generally adequate and are in conformity with the Companies Act 2013 & relevant SEBI Regulations. This requirement is to facilitate investors to take an informed decision for making investment in the proposed issue.

The issuer confirms that the information contained in this Private Placement Offer Letter is true and correct in all material respects and is not misleading in any material respect. All information considered adequate and relevant about the issue and the Company has been made available in this Private Placement Offer Letter for the use and perusal of the potential investors and no selective or additional information would be available for a section of investors in any manner whatsoever. The Company accepts no responsibility for statements made otherwise than in this Private Placement Offer Letter or any other material issued by or at the instance of the Company and anyone placing reliance on any anyone placing reliance on any other source of information would be doing so at his / her / their own risk.

In pursuance of sub-section (8) of section 42 of The Companies Act, 2013, the Issuer shall not release any public advertisements and shall not utilize any media, marketing or distribution channels or agents to inform the public at large about such an offer, where the term 'public advertisements' shall include notices, brochures, pamphlets, circulars, show cards, catalogues, hoardings, placards, posters, insertions in newspapers, pictures, films, or any other print medium, radio, television programme through any electronic medium, mass communications or e-mails, internet websites including social networking websites, publicity through telephone or mobile etc..

b. DISCLAIMER OF THE SECURITIES & EXCHANGE BOARD OF INDIA

Pursuant to rule 14 (3) of The Companies (Prospectus and Allotment of Securities) Rules, 2014, a copy of this Private Placement Offer Letter shall be filed with the Registrar of Companies, Shillong along with fee as provided in The Companies (Registration Offices & Fees) Rules, 2014 and since the Bonds/Debentures of the Company are listed (as per section 2(52) read with section 2(81) of the Companies Act, 2013), the same shall also be filed with the Securities & Exchange Board of India ("SEBI") along with fee as provided in Securities & Exchange Board of India (Payment of Fees)(Amendment) Regulations, 2014 dated May 23, 2014, within a period of thirty days of circulation of this Private Placement Offer Letter. The Bonds have not been recommended or approved by SEBI nor does SEBI guarantee the accuracy or adequacy of this Private Placement Offer Letter. It is to be distinctly understood that this Private Placement Offer Letter should not, in any way, be deemed or construed that the same has been cleared or vetted by SEBI. SEBI does not take any responsibility either for the financial soundness of any scheme or the project for which the Issue is proposed to be made, or for the correctness of the statements made or opinions expressed in this Private Placement Offer Letter. However SEBI reserves the right to take up at any point of time, with the Issuer, any irregularities or lapses in this Private Placement Offer Letter.

c. DISCLAIMER OF THE STOCK EXCHANGE

As required, a copy of this Document has been submitted to BSE for hosting the same on its website. It is to be distinctly understood that such submission of the Document with BSE or hosting the same on its website should not in any way be deemed or construed that the document has been cleared or approved by BSE ; or does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Document; nor does it warrant that this Issuer's securities will be listed or continue to be listed on the Exchange; nor does it take responsibility for the financial or other soundness of this issuer, its promoters, its management or any scheme or project of NEEPCO. Every person who desires to apply for or otherwise acquire any securities of this Issuer may do so pursuant to independent inquiry, investigation and analysis and shall not have any claim against the Exchange whatsoever by reason of any loss which may be suffered by such person consequent to or in connection with such subscription / acquisition whether by reason of anything stated or omitted to be stated herein or any other reason whatsoever.

d. DISCLAIMER IN RESPECT OF JURISDICTION

The private placement of Bonds is made in India to Companies, Corporate Bodies, Trusts registered under the Indian Trusts Act, 1882, Societies registered under the Societies Registration Act, 1860 or any other applicable laws, provided that such Trust/ Society is authorized under constitution/ rules/ byelaws to hold bonds in a Company, Indian Mutual Funds registered with SEBI, Indian Financial Institutions, Insurance Companies, Commercial Banks including Regional Rural Banks and

Cooperative Banks, Provident, Pension, Gratuity, Superannuation Funds as defined under Indian laws. The Disclosure document does not, however, constitute an offer to sell or an invitation to subscribe to securities offered hereby in any other jurisdiction to any person to whom it is unlawful to make an offer or invitation in such jurisdiction. Any person into whose possession this Document comes is required to inform about and to observe any such restrictions. Any disputes arising out of this issue will be subject to the exclusive jurisdiction of the courts **at Shillong.** All information considered adequate and relevant about the Issuer has been made available in this Document for the use and perusal of the potential investors and no selective or additional information would be available for a section of investors in any manner whatsoever.

e. DISCLAIMER IN RESPECT OF ARRANGER

The Issuer is solely responsible for the truth, accuracy and completeness of all the information provided in this Information Memorandum. Neither is the Arranger responsible for preparing, clearing, approving, scrutinizing or vetting this Information Memorandum, nor is the Arranger responsible for doing any due diligence for verification of the truth, correctness or completeness of the contents of this Information Memorandum. The Arranger shall be entitled to rely on the truth, correctness and completeness of this Information Memorandum. It is to be distinctly understood that the aforesaid use of this Information Memorandum by the Arranger should not in any way be deemed or construed to mean that the Information Memorandum has been prepared, cleared, approved, scrutinized or vetted by the Arranger. Nor should the contents of this Information Memorandum in any manner be deemed to have been warranted, certified or endorsed by the Arranger as to the truth, correctness or completeness thereof. Each recipient must satisfy itself as to the accuracy, reliability, adequacy, reasonableness or completeness of the Information Memorandum.

The Arranger has not conducted any due diligence review on behalf or for the benefit of the Debenture Trustee or any of the Debenture Holder. Each of the Debenture Holder should conduct such due diligence on the Issuer, the Debentures and the Security, as it deems appropriate and make its own independent assessment thereof.

Distribution of this Information Memorandum does not constitute a representation or warranty, express or implied by the Arranger that the information and opinions herein will be updated at any time after the date of this Information Memorandum. The Arranger does not undertake to notify any recipient of any information coming to the attention of the Arranger after the date of this Information Memorandum. No responsibility or liability or duty of care is or will be accepted by the Arranger for updating or supplementing this Information Memorandum nor for providing access to any additional information as further information becomes available.

Neither the Arranger nor any of their respective directors, employees, officers or agents shall be liable for any direct, indirect or consequential loss or damage suffered by any person as a result of relying on any statement in or omission from this Information Memorandum or in any other information or communications made in connection with the Debentures.

The Arranger is acting for the Company in relation to the Issue of the Debentures and not on behalf of the recipients of this Information Memorandum. The receipt of this Information Memorandum by any recipient is not to be constituted as the giving of investment advice by the Arranger to that recipient, nor to constitute such a recipient a customer of the Arranger. The Arranger is not responsible to any other person for providing the protection afforded to the customers of the Arranger nor for providing advice in relation to the Debentures.

Each recipient of this Information Memorandum acknowledges that:

(a) each recipient has been afforded an opportunity to request and to review and has received all additional information considered by the recipient to be necessary to verify the accuracy of or to supplement the information contained herein; and

(b) such recipient has not relied on the Sole Arranger in connection with its investigation of the accuracy of such information or its investment decision.

III. ISSUER INFORMATION:

A.NAME AND ADDRESS OF THE REGISTERED / CORPORATE OFFICE OF THE ISSUER:

Name of the Issuer	North Eastern Electric Power Corporation Limited (NEEPCO)
Registered Office	Brookland Compound, Lower New Colony, Shillong - 793 003, Meghalaya, India.
Telephone Number	0364 – 2228652 / 2223051
Fax Number	0364 – 2228652 / 2228542 / 2505776
Website	www.neepco.co.in
E-mail	chiranjeeb@neepco.co.in ; cranee@neepco.co.in

B. COMPLIANCE OFFICER OF THE ISSUE:

Mr. Chiranjeeb Sharma
Company Secretary, NEEPCO Limited
Brookland Compound, Lower New Colony,
Shillong - 793 003, Meghalaya, India
Tel.: 0364-2228652
Fax: 0364-2228542/2505776
E-mail: chiranjeeb@neepco.co.in

C. CHIEF FINANCE OFFICER:

Mr. Shiva Shunmuganathan
Director (Finance), NEEPCO Limited
Brookland Compound, Lower New Colony,
Shillong - 793 003, Meghalaya, India
Tel.: 0364-2223176
Fax: 0364-2228542/2505776
E-mail: director.finance@neepco.co.in

Guwahati – 781 024

IV. BRIEF SUMMARY OF THE BUSINESS/ACTIVITIES OF THE ISSUER AND ITS LINE OF BUSINESS

A. OVERVIEW

NEEPCO is a Schedule "A" Miniratna Government of India Enterprise under the Ministry of Power with a present Authorised Capital of ₹5000 crore. Its primary goal is the integrated and efficient development of the Power Sector in the Region by planning, investigating and preparing preliminary feasibility and definite project reports followed by the actual construction, operation and maintenance of power stations and projects.

Since NEEPCO has been incorporated to operate primarily in the North Eastern Region, it would be pertinent to mention the immense potential of the region for generation of power. Additionally, the Region also has abundant resource of coal, oil and gas for thermal power generation. In spite of such huge potential the Region ranks lowest in the country in terms of per capita energy consumption. This has been mainly due to inhospitable climatic conditions, remote location and inaccessibility of geographical locations.

Hydro-electric Power: In terms of hydro power, the North Eastern Region has the potential of about 58971 MW, i.e. almost 40% of the country's total hydro potential. Of this huge hydro potential around 2% has so far been harnessed and the remaining 98% is yet to be exploited.

Natural Gas: 151.68 billion cubic feet - enough to generate 7500 MW for 10 years.
Coal: 864.78 Million tonnes against 186 Billion tones of reserves in the country. With the reserves in the N.E Region, approximately 240 MW/day can be generated for a period of 100 years.

However with continual improvement of infrastructure and communication facilities, the North East region stands to become the Power House of India by utilising its surplus power potential especially in the hydro sector.

MISSION STATEMENT

- To harness the vast hydro & thermal power potential of the region.
- To produce pollution free and inexhaustible power through planned development of power generation projects.
- To play a significant role in the integration and development of hydroelectric and thermal power in the Central Sector covering all aspects such as investigation, planning, designs, construction, operation and maintenance of hydroelectric and thermal projects which in turn would effectively promote the development of the nation as a whole.

CERTIFICATIONS RECEIVED

- ✓ ISO 9001-2000 Quality Management System
- ✓ ISO 14001-2004 Environmental Safeguards
- ✓ OHSAS 18001-1999 Occupational Health and Safety Standards

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Since its inception NEEPCO has always given top priority towards all round development of the people residing in and around its operational areas. As a responsible corporate citizen, NEEPCO has undertaken various community development activities particularly in the field of education, health, infrastructure development and other community needs. The Corporation is committed to discharge larger responsibilities towards the society in future.

NEEPCO'S CSR MISSION

- To execute and operate projects in a cost effective, environment friendly and socio-economically responsive manner with thrust on energy conservation.
- To be a responsible corporate entity for nurturing human values with concern for society.
- To contribute towards community development and help achieve a high level of human development in the field of education and health in particular as human development contributes to welfare by enhancing 'capabilities' of people thereby increasing their productivity, income and general wellbeing.

PRODUCTS/SERVICES

NEEPCO generates and supplies power to the seven states of the North Eastern Region. The primary beneficiaries are:

- Assam Power Distribution Company Ltd.
- Meghalaya Energy Corporation Ltd.
- Tripura State Electricity Corporation Ltd.
- Department of Power, Govt. of Arunachal Pradesh
- Electricity Department, Govt. of Manipur
- Power & Electricity Department, Govt. of Mizoram
- Department of Power, Govt. of Nagaland

SUPPLY OF POWER

NEEPCO's generating stations feed power at their respective bus-bar into the Regional Grid. Power is transmitted to the Bulk Power Consumers through transmission systems of the PowerGrid Corporation of India Ltd. (PGCIL) as well as the respective State Transmission Utilities (STU). Generation and transmission of power in the region is regulated by the North Eastern Regional Power Commission and the North Eastern Regional Load Despatch Centre which are the designated apex bodies for integrated operation and management of the Regional Power System (Regional Grid). Tariff for power from the various stations are fixed as per the Availability Based Tariff (ABT) by the Central Electricity Regulatory Authority (CERC). The ABT regime came into force in the North Eastern Region with effect from 01.11.2003. NEEPCO has commissioned/synchronized the following generating power stations:

Sl.	Name of the Power Station	Installed Capacity	State
1	Khandong Power Station	50 MW	Assam
2	Kopili Power Station	200 MW	Assam
3	Kopili Hydro Electric Project – Stage II	25 MW	Assam
4	Doyang Hydro Electric Project	75 MW	Nagaland

5	Ranganadi Hydro Electric Project	405 MW	Arunachal Pradesh
	Sub-total (Hydro)	**755 MW**	
6	Assam Gas Based Power Project	291 MW	Assam
7	Agartala Gas Based Power Project (84 MW + 51 MW)	135 MW	Tripura
8	Tripura Gas Based Power Project	101 MW	Tripura
	Sub-total (Thermal)	**527 MW**	
Grid Interactive Solar Power Plant at TGBPP Site, Tripura **(Renewable)**		**5 MW**	Tripura
	Grand Total	**1287 MW**	

B. BRIEF PROFILES OF THE GENERATING STATIONS

1. Khandong Power Station & 2. Kopili Power Station (KHEP): They comprise the original Kopili Hydro Electric Project (100 MW) located on the River Kopili in the North Cachar Hills District of Assam which was the maiden venture of NEEPCO when it came into existence in 1976. The first stage of Kopili Hydro Electric Plant has two dam and dyke systems for creating two reservoirs, one on the Kopili River and the other on the Umrong stream, a tributary of the Kopili. Water from the Kopili reservoir is utilized in the Khandong power station through a 2852 metre long tunnel to generate 50 MW (2 X 25 MW) of power. The tail water from this powerhouse is led to the Umrong reservoir. The water from Umrong reservoir is taken through a 5473 metre long tunnel to the Kopili power station to generate 200 MW (4 X 50 MW) of power. Subsequently, the Stage I Extension (100 MW) of the project envisaged setting up two additional 50 MW units at Kopili Power Station, provisions for which were already kept during the first stage development of the project. The Units III and IV under this extension scheme were commissioned in March, 1997 and June, 1997 respectively. The total installed capacity of the Kopili Power Station thus went up to 200 MW and that of the project as whole to 250 MW. The raising of the Umrong reservoir by 7.6 m was taken up to meet the demand for more water for two additional 50 MW units of first stage extension.

3. Kopili Hydro Electric Project - Stage II (KHEP-II): The second stage of the Kopili Hydro Electric Project involved construction of a powerhouse to generate additional 25 MW of power by utilizing water from the Kopili reservoir through a 480 m long water conductor system, provision of which was kept as a by-pass conduit from the surge shaft in the Khandong tunnel. The water from the second stage powerhouse goes to the Umrong reservoir for utilization in the Kopili power station

4. Doyang Hydro Electric Project (DHEP): Situated on the River Doyang, a tributary of the River Brahmaputra, this Project with a capacity of 3 X 25 MW and an estimated annual generation of 227 Million Units was commissioned on the 2nd week of July'2000. The Project is located in Wokha District of Nagaland. It consists of three units of 25 MW each and has a Design Energy of 227 MU. The Dam is of Rock Fill type with a height of 87.50 m and length of 462 m. The steel lined HRT has double bifurcation, 5.92m in diameter and 427.86 m long and the Design Head is 67.0 m. The Evacuation System comprises a 132 kV D/C Doyang-Dimapur lines of PGCIL and a 132 kV S/C Doyang-Kohima line and 132 KV S/C Doyang-Mokochung line of Govt. of Nagaland.

5. Ranganadi Hydro Electric Project (RHEP): This run-of-the-river Project is located in the Lower Subansiri District of the State of Arunachal Pradesh in the Ranganadi basin and the adjoining Dikrong basin. . It consists of three units of 135 MW each and has a Design Energy of 1509.66 MU. The Dam is of Concrete Gravity type with a height of 68 m and length of 340 m. The HR Tunnel has a diameter of 6.8 m and is 10.13 km long while the dimensions of the Penstock are 5.8 m dia x 778 m long; 4.75 m dia x 137 m long; 3.35 m dia x 147 m long. The Design Head is 304.0 m. The Evacuation System comprises 400 kV Ranganadi-Balipara D/C Lines of PGCIL and 132 kV Ranganadi-Nirjuli S/C Line, 132 kV Ranganadi-Along S/C Line of the Govt. of Arunachal Pradesh.

6. Assam Gas Based Power Project (AGBPP): This Combined Cycle Gas Turbine Project is located in the Dibrugarh District of Assam. It has been partly financed by a loan of 37.272 Billion Yen under bilateral credit arrangement with the Overseas Economic Cooperation Fund of Japan. It utilizes natural gas available in the oil fields of Upper Assam. The power station comprises of 6 Gas Turbines with associated Waste Heat Recovery Boilers and 3 Steam Turbines, arranged in a modular fashion. A module comprises of 2 Gas Turbines with associated Waste Heat Recovery Boilers and 1 steam turbine.

7. Agartala Gas Based Power Project (AGTP): This project is located in the West Tripura District of the state of Tripura near the capital town of Agartala .The project was run on an Open Cycle Mode with 4 Gas Turbines of 21 MW each of European Gas Turbine make operating on natural gas obtained from the gas fields of M/S ONGC. The Project has been financed through the budgetary support of the Government of India and partially through external commercial borrowings from the Deutsche Bank, Germany. The Project was completed in 1997-98. at a cost of Rs 322.55 Crores with a 50:50 debt equity ratio. Subsequently, the AGTP-Extension was commissioned in August, 2015 thereby transforming the project into a Combined Cycle plant with 2 (two) Steam Turbine Generating units of 25.5 MW each and a total installed capacity of 135 MW. The financing pattern of this extension project was with a Debt-Equity ratio of 70:30. The debt component of the cost was met from the proceeds of the USD 100 million ECB from SBI, Singapore while equity was funded from internal accruals of NEEPCO.

8. 5 MWp Grid Interactive Solar Power Plant: As a maiden venture, a 5 MWp Grid Interactive Solar PV Power Project is being setup at Monarchak within the premises of the 101 MW Tripura Gas Based Power Project at an estimated cost of ₹42.89 Cr. (including IDC), with the levellised tariff being ₹9.46/unit. The project was commissioned on 15th February, 2015. The power generated from the project is being evacuated through a 33 KV Double – Circuit Line to the Rabindranagar Sub-Station of Tripura State Electricity Corporation Limited (TSECL). The infrastructure for evacuation of power was carried out by TSECL on "Deposit Work Basis".

9. Tripura Gas Based Power Project (TGBPP): A Gas Based Combined Cycle Project of nominal capacity 101 MW, this project is located in Monarchak, Tripura. Like the AGTP-Extension, this project was approved with a debt-equity ratio of 70:30 with the equity to be fully funded by NEEPCO from its internal accruals while the debt was financed from the proceeds of the USD 100 million ECB from SBI, Singapore as well as PSU Bonds raised from time to time. A fuel supply agreement (FSA) for this project was signed with ONGC on 5th June, 2008. A PPA was signed on 19th March, 2008 with the State Govt. of Tripura which is the sole beneficiary of this project. The project was successfully commissioned on 31st March, 2017.

C. BRIEF NOTE ON THE PROJECTS OF THE CORPORATION:

a. ON-GOING POWER PROJECTS

NEEPCO is presently constructing three more projects which will add another 770 MW to its Installed capacity. All the on-going projects have been allotted to NEEPCO by the Government of India in agreement with the respective State Governments. A summary of these projects is as follows:

Sl.	Name of the Project	Installed Capacity	State	Estimated Cost as vetted by CEA (*₹ in crore*)
(i)	Kameng Hydro Electric Project	600 MW	Arunachal Pradesh	6179.96 at Mar., 2015 price levels
(ii)	Pare Hydro Electric Project	110 MW	Arunachal Pradesh	1337.76 at Jan, 2016 price levels
(iii)	Tuirial Hydro Electric Project	60 MW	Mizoram	1329.43 at Dec., 2015 price levels
Total		**770 MW**		

(i) Kameng Hydro Electric Project (600 MW):

A run-of-the-river (ROR) scheme in the West Kameng District of Arunachal Pradesh, this project comprises of 4 units of 150 MW turbine-generators each with total design energy of 3,353 MU. The project was approved for construction on 2nd December, 2004 at a cost of ₹2496.90 crore including IDC of ₹249.09 crore at March, 2004 price levels and is presently in advanced stages of construction.

The approved funding pattern of this project is with a debt-equity ratio of 70:30 and the equity to be fully funded by the Govt. of India. The debt component is presently being funded by a loan from PFC. A revised cost estimate (RCE) of ₹6476.34 crore has been submitted to the Ministry of Power and is presently awaiting approval. The expected date of commissioning is March, 2018.

The Ministry of Power has allocated the energy from this project to the NE Region (50%), the Western Region (25%) and the Northern Region (25%).

The source-wise expenditure (provisional) for this project as on 30th September, 2017 is as follows:

Sources of funds	Expenditure in ₹ crore
Equity from Govt. of India	775.70
PSU Bonds	3738.63
Internal Resources	1457.55
Total	**5971.88**

(ii) Pare Hydro Electric Project (110 MW):

A concrete gravity dam scheme on the Dikrong river in the Papumpare District of Arunachal Pradesh, the project is comprised of 2 units of 55 MW turbine-generators with a total design energy of 506.42 MU. The project was approved for construction on 4th December, 2008 at a cost of ₹573.99 crore including IDC of ₹67.66 crore at June, 2007 price levels and is presently in advanced stages of construction. PPAs have been signed with all the seven states of the NER for supply of power from this project.

The approved funding pattern of this project is with a debt-equity ratio of 70:30 and the equity to be fully funded by the Govt. of India. The debt component is being funded by a loan from KfW, Germany covered by the Indo-German Bilateral Development Cooperation Programme under an agreement signed between the Government of India and the Government of the Federal Republic of Germany on 21st May, 2008.

The source-wise expenditure (provisional) for this project as on 30th September, 2017 is as follows:

Sources of funds	Expenditure in ₹ Crore
Equity from Govt. of India	172.20
KfW Loan	596.67
Bonds	300.00
Internal Resources	430.92
Total	**1499.79**

(iii) Tuirial Hydro Electric Project (60 MW):

A medium head storage scheme in the Aizawl District of Mizoram, the project comprises 2 units of 30 MW turbine-generators with total design energy of 250.63 MU. CCEA clearance was obtained on 7th July, 1998. After the award of major packages, work on the project began from 2001 as per the drawn up plan. However, the project work came to total stop w.e.f. 9th June, 2004 on account of agitation launched by Tuirial Crop Compensation Claimant Association claiming payment of crop compensation for the standing crops in the riverine reserve forest. As on June, 2004 prior to stoppage of work, 30% of the project work and 95% of Design & Engineering work had been completed.

In order to revive the project, various efforts were made by the Ministry of Power, NEEPCO and the Govt. of Mizoram. Subsequently, a PIB recommendation for revival of the project at a RCE of ₹913.63 crore at March, 2010 PL was placed before the CCEA for investment decision. The CCEA clearance was issued on 14th January, 2011 with approval for a debt-equity ratio of 85:15, commissioning schedule of December, 2015 and the following funding pattern:

Source of funds	Amount in ₹ crore
1. Equity from Govt. of India	137.04
2. Subordinate Loan from Govt. of India	291.96
3. Grant from NLCPR of DoNER	300.00
4. Loan from domestic FI/PFC	184.63
Total	**913.63**

The rate of interest on the Subordinate Loan is 1% p.a. to be paid w.e.f. the date of commercial operation and loan repayments will start from the 16th year from commissioning up to the 30th year.

The source-wise expenditure (provisional) for this project as on 30th September, 2017 is as follows:

Sources of funds	Expenditure in ₹ Crore
1. Equity from Govt. of India	137.04
2. Subordinate Loan from Govt. of India	291.96
3. Grant from NLCPR of DoNER	300.00
4. Bonds	184.63
5. Internal Resources	365..02
Total	**1278.65**

Unit-I (30 MW) of the project was synchronised on 14.08.2017 and full load test was carried out on 25.08.2017. The assembly of Stator and Rotor of Unit II are progress. The project is expected to be fully commissioned by November, 2017.

b. FUTURE PROJECTS IN OWNERSHIP BASIS

HYDRO:

Sl. No.	Name of The Project	State	Status	Commissioning Schedule (Tentative from Investment approval)
1	Mawphu HEP Stage-II (85 MW)	Meghalaya	• DPR revised for an installed capacity of 85 MW is in process for re-submission to CEA for accordance of TEC. • Comprehensive environmental studies completed and environment and forest clearances are in process. Public hearings conducted. • Approval on the proposal for pre-investment activities obtained from MoP on 05.06.2017. • Pre-construction activities are to be initiated shortly.	5 years
2	Tuivai HEP	Mizoram	• NEEPCO signed MOA with Govt. of Mizoram on 10.02.2015 for execution of the project.	5 years

	(210 MW)		• Updated cost and tariff of DPR were found to be on higher side. • Alternative study conducted with fresh hydrology which also reflected high project cost and tariff. • Matter was intimated to the State Govt. A grant of about Rs. 1800.00 crore is required to contain the tariff within Rs. 6.00 per unit. Response of State Govt. is awaited.	

THERMAL:

Sl. No.	Name of The Project	State	Status	Commissioning Schedule (Tentative from Investment approval)
1	Garo Hills Thermal Power Project (500MW)	Meghalaya	• MOA was signed with State Govt. on 17.03.2011. • The Project site was identified near Darugiri, East Garo Hills District of Meghalaya. • Coal linkage is yet to be established.	3 years

RENEWABLE:

Sl. No.	Name of The Project	State	Status	Commissioning Schedule (Tentative from Investment approval)
1	Solar PV Project (200MW)	Odisha	• DPR is under preparation	2 years

c. DEEN DAYAL UPADHYAYA GRAM JYOTI YOJANA (DDUGJY):

NEEPCO is implementing Rural Electricity Infrastructure including Household electrification scheme under the 12th Plan of Deen Dayal Upadhyaya Gram Jyoti Yojana (erstwhile RGGVY) in two Districts of the State of Tripura, viz. South Tripura and Sepahijala. The cost of the projects are ₹46.87 crore and ₹40.84 crore respectively.. Against the scheme, in both the districts, electricity connections shall be provided to 10220 and 7462 BPL households respectively. Works are still in progress and shall be completed soon.

d. JOINT VENTURE PROJECTS

NEEPCO has taken up some projects on Joint Venture mode over the past few years. However, a decision has been taken to sell its stake in M/s WAANEEP Solar Pvt. Ltd.

For the sake of information, the projects in various stages of development in joint venture basis are as follows:

1. COMPLETED:

RENEWABLE ENERGY

Sl No	Name of the Project	State	Details	Status
1	50 MW Grid Interactive Solar Power Plant at Icchawar, Madhya Pradesh	Madhya Pradesh	Joint Venture Company, viz., M/s WAANEEP Solar Pvt. Ltd., incorporated on 28.03.2014 between NEEPCO and M/s. WAAREE Energies Ltd., Mumbai. The Project was implemented under the JNNSM, Phase-II, Batch-I.	Commissioned on 15th June 2015
2	25 MW Grid Interactive Solar Power Plant at Gurramkonda, Andhra Pradesh	Andhra Pradesh	The Project was implemented by M/s. WAANEEP Solar Pvt. Ltd. against RfS No. APSPDCL/02/ LTSPP/2014, dated 06.09.2014 of Government of Andhra Pradesh	Commissioned on 29th September 2016

2. ONGOING:

RENEWABLE ENERGY

Sl No	Name of the Project	State	Details	Status

1	25 MW Grid Interactive Solar Power Plant at Nagari, Andhra Pradesh	Andhra Pradesh	The Project is being implemented by M/s. WAANEEP Solar Pvt. Ltd. The Project is being implemented against RfS No. APSPDCL/02/LTSPP/2014, dated 06.09.2014 of Government of Andhra Pradesh	Project is under Construction

Note: NEEPCO has decided to sell off its entire stake in M/s WAANEEP Solar Pvt. Ltd. For which the Share Purchase agreement is under finalisation.

V. A BRIEF HISTORY OF THE ISSUER SINCE ITS INCORPORATION GIVING DETAILS OF ITS ACTIVITIES

The North Eastern Electric Power Corporation Ltd. (NEEPCO Ltd.) was incorporated on 2nd April, 1976 under the Companies Act, 1956 with an Authorised Capital of Rs.75 crore. NEEPCO is a Schedule "A" Government of India Enterprise under the Ministry of Power. Its primary goal is the integrated and efficient development of the Power Sector in the Region by planning, investigating and preparing preliminary feasibility and definite project reports followed by the actual construction, operation and maintenance of power stations and projects.

A. DETAILS OF SHARE CAPITAL AS ON LAST QUARTER END (30.09.2017)

NEEPCO is a fully owned Government of India Enterprise and its entire share capital is held by the Central Government. Presently, its authorized share capital is ₹5000 crore and its paid-up share capital is ₹3452.81 crore.

The investment by the Government of India in the Corporation has steadily risen since its incorporation with the infusion of additional Equity for every new project undertaken by the NEEPCO. Thus, the Authorized Capital of NEEPCO had to be gradually increased from the initial amount of ₹75.00 crore to the present ₹5000.00 crore.

CAPITAL STRUCTURE (as on 30.09.2017)	Amount (₹ *in lakh*)
AUTHORISED CAPITAL 5,00,00,00,000 equity shares of ₹10/- each	**500000.00**
ISSUED, SUBSCRIBED AND PAID-UP CAPITAL 345,28,10,400 equity shares of ₹10/- each	**345281.04**

B. CHANGES IN CAPITAL STRUCTURE AS ON LAST QUARTER END, FOR THE LAST FIVE YEARS

None.

C. EQUITY SHARE CAPITAL HISTORY OF THE COMPANY AS ON LAST QUARTER END, FOR THE LAST FIVE YEARS

None.

J. MANAGEMENT'S PERCEPTION OF RISK FACTORS:

Prospective investors should carefully consider all the information in this Private Placement Offer Letter, including the risks and uncertainties described below, before making an investment in the Bonds. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business prospects, results of operations and financial condition. If any of the following or any other risks actually occur, our business prospects, results of operations and financial condition could be adversely affected and the price of, and the value of your investment in the Bonds could decline and you may lose all or part of your redemption amounts and/ or interest amounts.

(i) RISKS RELATING TO OUR BUSINESS AND INDUSTRY

1. With the power sector industry becoming increasingly competitive, the Corporation's growth will depend largely on its ability to minimize costs and maximize revenues.
2. Our revenues are largely dependent on the ability of our power stations to perform at optimal levels. The performance of our hydro stations at optimum levels depends upon the water levels of the rivers and reservoirs which in turn depend upon rainfall conditions. A decline in rainfall levels may results in lower levels of generation by the hydro stations which would in turn result in lower revenues for the Corporation.
3. Significant shortages in the supply of natural gas could adversely affect our thermal stations which would adversely affect our financial condition and results of operations
4. Power sector CPSUs are required to adhere to certain norms as approved by the Government of India through the Ministry of Power and other authorities as well as the Central Electricity Regulatory Commission (CERC). Changes in the regulatory regime by the CERC with respect to tariff regulations may adversely affect our financial condition and results of operations. The Corporation may also be vulnerable to the introduction of rules, regulations and norms of operation by the Government of India from time to time.
5. The Corporation enjoys certain tax benefits which may be withdrawn thereby adversely affecting our business, financial condition and results of operations.
6. We have borrowed in foreign currency and are likely to continue to do so in the future which exposes us to fluctuations in foreign exchange rates thereby adversely affecting our financial condition and results of operations.
7. The construction, maintenance and operation of power projects carry certain risks which to the extent they materialize could adversely affect our business and financial performance
8. Negative trends in the Indian power sector or the Indian economy could adversely affect our business and financial performance.
9. As the Corporation uses IT in many of its work processes there are possible risks of IT frauds.

(ii) RISKS RELATING TO THE INDIAN ECONOMY

10. A slowdown in the economic growth in India could adversely impact our business.
11. The growth of the power sector in India is dependent on the continued growth of the Indian economy and regulatory developments in India. Any adverse change in policy implementation / industry demand may adversely affect us.
12. Our ability to raise foreign currency borrowings may be constrained by regulatory, statutory and legal conditions in the country.
13. Any downgrading of India's sovereign rating by a credit rating agency could have a negative impact on our business

(iii) RISKS RELATING TO THE BONDS

14. There is no guarantee that the Bonds issued pursuant to this Issue will be listed on BSE in a timely manner.
15. Any downgrading in credit rating of our Bonds may affect the trading price of our Bonds and our ability to raise funds.
16. Payments made on the Bonds will be subordinated to certain tax and other liabilities preferred by law.

X. DETAILS OF PROMOTERS OF THE COMPANY

None. (*NEEPCO Ltd. fully owned by the Government of India*)

XII. ABRIDGED VERSION OF LATEST AUDITED / LIMITED REVIEW HALF YEARLY CONSOLIDATED (WHEREVER AVAILABLE) AND STANDALONE FINANCIAL INFORMATION (LIKE PROFIT & LOSS STATEMENT AND BALANCE SHEET) AND AUDITORS QUALIFICATIONS, IF ANY

Nil.

XIII. ANY MATERIAL EVENT/ DEVELOPMENT OR CHANGE AT THE TIME OF ISSUE OR SUBSEQUENT TO THE ISSUE WHICH MAY AFFECT THE ISSUE OR THE INVESTOR'S DECISION TO INVEST/ CONTINUE TO INVEST IN THE DEBT SECURITIES

Nil.

XIV. THE NAMES OF THE DEBENTURE TRUSTEE(S) SHALL BE MENTIONED WITH STATEMENT TO THE EFFECT THAT DEBENTURE TRUSTEE(S) HAS GIVEN HIS CONSENT TO THE ISSUER FOR HIS APPOINTMENT UNDER REGULATION 4 (4) AND IN ALL THE SUBSEQUENT PERIODICAL COMMUNICATIONS SENT TO THE HOLDERS OF DEBT SECURITIES.

In accordance with the provisions of (i) Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide circular no. LAD-NRO/GN/2008/13/127878 dated June 06, 2008, as amended, (ii) Securities and Exchange Board of India (Issue and Listing of Debt Securities) (Amendment) Regulations, 2012 issued vide circular no. LAD-NRO/GN/2012-13/19/5392 dated October 12, 2012, as amended, (iii) the Companies Act, 2013 and (iv) Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993, the Issuer has appointed SBICAP Trustee Company Ltd. to act as Trustees ("Trustees") for and on behalf of the holder(s) of the Bonds. The address and contact details of the Trustees are as under:

SBICAP Trustee Company Ltd.
Apeejay House, 6th Floor, 3 Dinshaw Waccha Road,
Churchgate, Mumbai 400 020
Tel.:- 022 4302 5555; Fax: 022-22040465
Email:- corporate@sbicaptrustee.com

A copy of the letter from SBICAP Trustee Company Ltd. conveying their consent to act as Trustee for the current issue of Bonds is enclosed elsewhere in this Disclosure Document.

NEEPCO and the Trustees shall enter into a Trustee Agreement specifying, inter alia, the powers, authorities and obligations of the Trustees and NEEPCO. By applying for the Bonds, the Bondholders shall without further action or deed, be deemed to have irrevocably given their consent to and authorised the Trustees or any of their agents or authorized officials to do, inter alia, all acts, deeds, matters and things in respect of or relating to the security to be created for securing the Bonds being offered in terms of this Document including the right to substitute or release any property charged in their favour and/or to create a charge on additional properties in their favour including the right of the Trustees to release, and/or substitute relevant title deeds in respect thereof. All the rights and remedies of the Bondholders shall vest in and shall be exercised by the Trustees without reference to the Bondholders. Any payment made by NEEPCO to the Trustees on behalf of the Bondholders shall discharge NEEPCO any liability to the Bondholders. No Bondholder shall be entitled to proceed directly against NEEPCO unless the Trustees, having become so bound to proceed, fail to do so.

XV. THE DETAILED RATING RATIONALE (S) ADOPTED (NOT OLDER THAN ONE YEAR ON THE DATE OF OPENING OF THE ISSUE)/ CREDIT RATING LETTER ISSUED (NOT OLDER THAN ONE MONTH ON THE DATE OF OPENING OF THE ISSUE) BY THE RATING AGENCIES SHALL BE DISCLOSED

The company has obtained a rating of **ICRA "AA"; Stable and CARE "AA"; Stable** for the proposed Bond Issue vide letters dated **9th October, 2017** and **7th November, 2017** respectively. Instruments with this rating are considered to have very low credit risk.

The above ratings are not recommendations to buy, sell or hold securities and investors should take their own decision. The rating may be subject to revision or withdrawal at any time by the assigning rating agencies and should be evaluated independently of any other rating. The rating obtained is subject to revision at any point of time in the future. The rating agencies have the right to suspend, withdraw the rating at any time on the basis of new information etc.

XVI. IF THE SECURITY IS BACKED BY A GUARANTEE OR LETTER OF COMFORT OR ANY OTHER DOCUMENT / LETTER WITH SIMILAR INTENT, A COPY OF THE SAME SHALL BE DISCLOSED. IN CASE SUCH DOCUMENT DOES NOT CONTAIN DETAILED PAYMENT STRUCTURE (PROCEDURE OF INVOCATION OF GUARANTEE AND RECEIPT OF PAYMENT BY THE INVESTOR ALONG WITH TIMELINES); THE SAME SHALL BE DISCLOSED IN THE OFFER DOCUMENT.

Nil.

XVII. COPY OF CONSENT LETTER FROM THE DEBENTURE TRUSTEE "SBICAP TRUSTEE COMPANY LTD." DATED 24th OCTOBER, 2017 CONVEYING THEIR CONSENT TO ACT AS TRUSTEE FOR THE CURRENT ISSUE OF BONDS IS ENCLOSED ELSEWHERE IN THIS DISCLOSURE DOCUMENT.

XVIII. NAMES OF ALL THE RECOGNISED STOCK EXCHANGES WHERE THE DEBT SECURITIES ARE PROPOSED TO BE LISTED CLEARLY INDICATING THE DESIGNATED STOCK EXCHANGE.

The Secured Non-Convertible Redeemable Bonds in the nature of Debentures) are proposed to be listed on the Wholesale Debt Market (WDM) Segment of the **BSE.** The Company has obtained an in-principle approval from the BSE for listing of said Bonds on its Wholesale Debt Market (WDM) Segment. The Company shall make an application to the BSE to list the Bonds to be issued and allotted under this Disclosure Document and complete all the formalities relating to listing of the Bonds **within 15 days from the deemed date of allotment of the bonds.** If such permission is not granted **within 20 days** from the from the deemed date of allotment of the bonds or where such permission is refused before the expiry of the 20 days from the closure of the Issue, the Company shall forthwith repay without interest, all monies received from the applicants in pursuance of the Disclosure Document, and if such money is not repaid within the stipulated time after the Company becomes liable to repay it (i.e. from the date of refusal or 20 days from the date of closing of the subscription list, whichever is earlier), then the Company and every director of the Company who is an officer in default shall be jointly and severally liable to repay the money, with interest at the rate of 15 per cent per annum on application money, or as prescribed by the relevant rules and regulations.

In connection with listing of Bonds with BSE, the Company hereby undertakes that:

(a) It shall comply with conditions of listing of Bonds as may be specified in the Listing Agreement with BSE.
(b) Ratings obtained by the Company shall be periodically reviewed by the credit rating agencies and any revision in the rating shall be promptly disclosed by the Company to BSE.
(c) Any change in rating shall be promptly disseminated to the holder(s) of the Bonds in such manner as BSE may determine from time to time.

(d) The Company, the Trustees and BSE shall disseminate all information and reports on Bonds including compliance reports filed by the Company and the Trustees regarding the Bonds to the holder(s) of Bonds and the general public by placing them on their websites.

(e) Trustees shall disclose the information to the holder(s) of the Bonds and the general public by issuing a press release in any of the following events:

(i) default by the Company to pay interest on Bonds or redemption amount;

(ii) revision of rating assigned to the Bonds;

(f) The information referred to in para (e) above shall also be placed on the websites of the Trustees, Company & BSE.

XIX. OTHER DETAILS:

A. DRR CREATION - RELEVANT REGULATIONS AND APPLICABILITY

The Company shall create a Bond/Debenture Redemption Reserve in accordance with Section 18(7)(b) of the Companies (Share Capital & Debentures) Rules, 2014.

C. APPLICATION PROCESS:

PROCEDURE FOR APPLYING FOR DEMAT FACILITY

1. The applicant must have at least one beneficiary account with any of the Depository Participants (DPs) of NSDL or CDSL prior to making the application.
2. The applicant must necessarily fill in the details (including the beneficiary account number and Depository Participant's ID) appearing in the Application Form under the heading 'Details for Issue of Bonds in Electronic/ Dematerialised Form'.
3. Bonds allotted to an applicant will be credited directly to the applicant's respective Beneficiary Account(s) with the DP.
4. For subscribing the bonds, names in the application form should be identical to those appearing in the account details in the depository. In case of joint holders, the names should necessarily be in the same sequence as they appear in the account details in the depository.
5. Non-transferable allotment advice/refund orders will be directly sent to the applicant by the Registrars to the Issue.
6. If incomplete/incorrect details are given under the heading 'Details for Issue of Bonds in Electronic/ Dematerialised Form' in the application form, it will be deemed to be an incomplete application and the same may be held liable for rejection at the sole discretion of the Company.
7. For allotment of Bonds, the address, nomination details and other details of the applicant as registered with DP shall be used for all correspondence with the applicant. The Applicant is therefore responsible for the correctness of its demographic details given in the application form vis-à-vis those with their DP. In case the information is incorrect or insufficient, the Issuer would not be liable for losses, if any.
8. It may be noted that Bonds being issued in electronic form, the same can be traded only on the Stock Exchanges having electronic connectivity with NSDL or CDSL. Bombay Stock Exchange Limited., where the Bonds of the Company are proposed to be listed has connectivity with NSDL and CDSL.
9. Interest or other benefits would be paid to those Bondholders whose names appear on the list of beneficial owners given by the Depositories to the Company as on Record Date/ Book Closure Date. In case of those Bonds for which the beneficial owner is not identified by the Depository as on the Record Date/ Book Closure Date, the Company would keep in abeyance the payment of interest or other benefits, till such time that the beneficial owner is identified by the Depository and conveyed to the Company, whereupon the interest or benefits will be paid to the beneficiaries, as identified, **within a period of 15 days.**

HOW TO APPLY:

This being a private placement offer, investors who are established/ resident in India and who have been addressed through this communication directly only are eligible to apply. Application shall be for a minimum number of 5 (five) Bonds and multiples of 1 (one) Bond thereafter.

Applicants may remit their application money by way of electronic transfer of funds through RTGS mechanism or through Core Banking Solution (CBS) for credit in the account of in favour of the "**North Eastern Electric Power Corporation Ltd.**" for crediting the amount to the following bank accounts:

Beneficiary Name	North Eastern Electric Power Corporation Ltd.
Account No.	32061917621
Bank	State Bank of India
Branch	SBI Main Branch
Location	Kachari Road, Shillong – 793001
Account Type	Current
IFSC Code	SBIN0000181

All Application Forms duly completed (along with all necessary documents as detailed in this Disclosure Document) must be delivered before the closing of the issue to the Issuer. While forwarding the application form, applicants must ensure that the relevant UTR number/ or any other evidence of having remitted the application money is obtained. Detailed instructions for filling up the application form are provided elsewhere in this Disclosure Document.

Applications for the Bonds must be in the prescribed form (enclosed) and completed in BLOCK LETTERS in English and as per the instructions contained therein. Applications not completed in the prescribed manner are liable to be rejected. The name of the applicant's bank, type of account and account number must be filled in the Application Form. This is required for the applicant's own safety and these details will be printed on the refund orders and interest/ redemption warrants.

The applicant or in the case of an application in joint names, each of the applicant, should mention his/her Permanent Account Number (PAN) allotted under the Income-Tax Act, 1961 or where the same has not been allotted, the GIR No. and the Income tax Circle/Ward/District. As per the provision of Section 139A (5A) of the Income Tax Act, PAN/GIR No. needs to be mentioned on the TDS certificates. Hence, the investor should mention his PAN/GIR No. if the investor does not submit Form 15G/15AA/other evidence, as the case may be for non-deduction of tax at source. In case neither the PAN nor the GIR Number has been allotted, the applicant shall mention "Applied for" and in case the applicant is not assessed to income tax, the applicant shall mention 'Not Applicable' (stating reasons for non applicability) in the appropriate box provided for the purpose. Application Forms without this information will be considered incomplete and are liable to be rejected.

Applications may be made in single or joint names (not exceeding three). In the case of joint applications, all payments will be made out in favour of the first applicant. All communications will be addressed to the first named applicant whose name appears in the Application Form at the address mentioned therein.

All applicants are requested to tick the relevant column "Category of Investor" in the Application Form. Public/ Private/ Religious/ Charitable Trusts, Provident Funds and Other Superannuation Trusts and other investors requiring "approved security" status for making investments.

No separate receipts shall be issued for the application money. However, the Issuer will acknowledge the receipt of the applications by stamping and returning the acknowledgment slip to the applicant. Applications shall be deemed to have been received by the Issuer Company when submitted at their designated branch.

For further instructions, please read Application Form carefully.

FORCE MAJEURE

The Company reserves the right to withdraw the issue prior to the closing date in the event of any unforeseen development adversely affecting the economic and regulatory environment. The Company reserves the right to change the Issue Schedule.

RIGHT TO PURCHASE / REISSUE

Company may purchase the bonds in the open market through market makers or otherwise. Company shall retain the right or power to cancel, hold, resell or reissue these bonds or reissue other bonds in lieu thereof.

RIGHT TO ACCEPT OR REJECT APPLICATIONS

The Company reserves it's full, unqualified and absolute right to accept or reject any application, in part or in full, without assigning any reason thereof. The rejected applicants will be intimated along with the refund warrant, if applicable, to be sent. Interest on application money will be paid from the date of realisation of the cheque(s)/ demand drafts(s) till one day prior to the date of refund. The application forms that are not complete in all respects are liable to be rejected and would not be paid any interest on the application money.

Application would be liable to be rejected on one or more technical grounds, including but not restricted to:

a. Number of bonds applied for is less than the minimum application size;

b. Applications exceeding the issue size;
c. Bank account details not given;
d. Details for issue of bonds in electronic/ dematerialised form not given; PAN/GIR and IT Circle/Ward/District not given;
e. In case of applications under Power of Attorney by limited companies, corporate bodies, trusts, etc. relevant documents not submitted;

In the event that any Bond(s) applied for is/are not allotted in full, the excess application monies of such Bonds will be refunded, as may be permitted.

PAN/GIR NUMBER

All applicants must mention their Permanent Account Number or the GIR Number allotted under Income Tax Act, 1961 and the Income Tax Circle/ Ward/ District. In case where neither the PAN nor the GIR Number has been allotted, the fact of such a non-allotment should be mentioned in the Application Form in the space provided

SIGNATURES

Signatures should be made in English or in any of the Indian Languages. Thumb impressions must be attested by an authorized official of a Bank or by a Magistrate/ Notary Public under his/her official seal.

NOMINATION FACILITY

As per Section 72 of the Companies Act, 2013, only individuals applying as sole applicant/Joint Applicant can nominate, in the prescribed manner, a person to whom his Bonds shall vest in the event of his death. Non individuals including holders of Power of Attorney cannot nominate.

MODIFICATION OF RIGHTS

The rights, privileges, terms and conditions attached to the Bonds may be varied, modified or abrogated with the consent, in writing, of those holders of the Bonds who hold at least three fourth of the outstanding amount of the Bonds or with the sanction accorded pursuant to a resolution passed at a meeting of the Bondholders, provided that nothing in such consent or resolution shall be operative against the Company where such consent or resolution modifies or varies the terms and conditions of the Bonds, if the same are not acceptable to the Company.

XX. ISSUE DETAILS

ISSUE SIZE

The issuer proposes to issue 5000 bonds of face value of ₹10,00,000/- each aggregating to ₹500 crore.

AUTHORITY FOR THE ISSUE

The issue is being made in pursuance of the Board Resolution dated **8th May, 2017** and AGM Special Resolution dated **22nd September, 2017.**

REGISTRATION AND GOVERNMENT APPROVALS

The Company can undertake the activities proposed by it in view of the present approvals and no further approval from any government authority(ies) is required by it to undertake the proposed activities and except those approvals which may be required to be taken in the normal course of business from time to time.

OBJECTS OF THE ISSUE

The funds will be utilized to finance the construction of various on-going hydro projects in the NER.

UTILISATION OF ISSUE PROCEEDS

The Company is managed by professionals under the supervision of its Board of Directors. Further, the Company is subject to a number of regulatory checks and balances as stipulated in its regulatory environment. Therefore, the management shall ensure that the funds raised via this private placement shall be utilized only towards satisfactory fulfillment of the objects of the issue. The Company further confirms that the proceeds of the current issue of Bonds shall not be used for providing loan to or acquisition of shares of any person who is part of the same group or who is under the same management.

MINIMUM SUBSCRIPTION

As the current issue of Bonds is being made on private placement basis, the requirement of minimum subscription shall not be applicable and therefore the Company shall not be liable to refund the issue subscription(s)/ proceed(s) in the event of the

total issue collection falling short of issue size or certain percentage of issue size.

NATURE OF THE BOND

The bonds are Secured, Redeemable, Non-Convertible Taxable and in the nature of Debentures.

SECURITY

The Bonds together with interest costs and all other monies and amounts payable in respect of these Bonds will be fully secured by first pari-passu charge on identified Fixed Assets of the company with a minimum asset cover of 100% throughout the tenure of Bonds in favour of a Trustee.

The said security shall be created in favour of the Trustees within the stipulated regulatory period from the Deemed Date of Allotment or such extended period as may be permitted by the relevant authority(ies). The Security will be created by the Company, as aforesaid, in favour of the Trustee on such of the assets for which the Company obtains, after all due diligence and efforts, the requisite consents and permissions applicable under law or in accordance with the contractual conditions of holding of such assets for creating the above-mentioned charge. The creation of such security shall be sufficient compliance of the Company's obligation to create security.

TERMS OF PAYMENT

The full face value of the Bonds applied for is to be paid along with the application form. Investor(s) need to send in the application form and the Cheque/Demand Draft/ RTGS/ECS for the full face value of the Bonds applied for.

Issue Price of the Bond	Minimum Application for	Amount Payable on Application per Bond
₹10 lakhs	5 Bonds and in multiples of 1 Bond thereafter	Full Issue Price i.e. ₹10 lakhs

PAY-IN-DATE & DEEMED DATE OF ALLOTMENT

Pay-in Date shall be the date on which application money has to be paid in favour of **"North Eastern Electric Power Corporation Ltd."** by a Cheque/Demand draft. The funds can also be remitted through RTGS. Details of the Account of the Company are given in the Application form of this document. The Company reserves the right to shift the Pay-in Date and/or the Deemed Date of Allotment to any other date or allot the Bonds on multiple dates without giving any reason or any prior notice. The Company may at its sole discretion accept the subscription amount after the Pay-in Date. All benefits available to the investors shall be from the Deemed Date of Allotment and actual allotment may occur on a date other than the Deemed Date of Allotment.

LETTER(S) OF ALLOTMENT/ BOND CERTIFICATE(S)/ REFUND ORDER(S) ISSUE OF LETTER(S) OF ALLOTMENT

The beneficiary account of the investor(s) with National Securities Depository Ltd. (NSDL)/Central Depository Services (India) Ltd. (CDSL)/ Depository Participant will be given initial CREDIT **within 2 working days** from the Deemed Date of Allotment. The initial CREDIT in the account will be akin to the Letter of Allotment. On completion of the all-statutory formalities, such CREDIT in the account will be akin to a Bond Certificate.

ISSUE OF BOND CERTIFICATE(S)

The Bonds since issued in electronic (dematerialized) form, will be governed as per the provisions of The Depository Act, 1997, Securities and Exchange Board of India (Depositories and Participants) Regulations, 1997, rules notified by NSDL/ CDSL/ Depository Participant from time to time and other applicable laws and rules notified in respect thereof. The Bonds shall be allotted in DEMAT form only.

MODE OF TRANSFER OF BONDS

Transfer of theses dematerialized bonds should be in accordance with the rules/procedures as prescribed by NSDL/CDSL/Depository participant of the transferor/transferee and all other applicable laws and rules notified in respect thereof.

CALL OPTION

NEEPCO shall also have the right to "Call" the whole or any part of the Bond, i.e. redeem them at par on or after the 5th anniversary from the Deemed Date of Allotment. Such date on which NEEPCO decides to exercise the option shall be deemed the 'Option Date'. Notice for exercising the option shall be submitted in writing by NEEPCO to the Trustee at **least 21 days** before the Option Date. The Call Option, which is discretionary, may be exercised on the 5th anniversary date from the Deemed Date of Allotment or on any Coupon Payment Date thereafter. The Record Date for exercise of such option shall be 15 days prior to the Option Date.

DEPOSITORY ARRANGEMENTS

The Company has made depository arrangements with National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) for issue and holding of the Bonds in dematerialized form. As per the provisions of Depositories Act, 1996, the Bonds issued by The Company can be held in a dematerialized form, i.e. not in the form of physical certificates but be fungible and be represented by the statement issued through electronic mode. In this context, two Tripartite Agreements have been signed:

- Tripartite Agreement between NEEPCO, NSDL and Karvy Computershare Pvt. Ltd.
- Tripartite Agreement between NEEPCO, CDSL and Karvy Computershare Pvt. Ltd.

FICTITIOUS APPLICATIONS

Any person who:-
a) Makes, in a fictitious name, an application to a body corporate for acquiring or subscribing to, the bonds, or
b) Otherwise induces a body corporate to allot, or register any transfer of, bonds therein to them, or any other person in a fictitious name, shall be liable for legal consequences of such action.

MARKET LOT

The market lot will be one Bond ("Market Lot"). Since the Bonds are being issued only in dematerialised form, the odd lots will not arise either at the time of issuance or at the time of transfer of Bonds.

INTEREST ON APPLICATION MONEY

Interest at the Coupon Rate as per Termsheet (subject to deduction of income tax under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof, as applicable) will be paid to all the applicants on the application money for the Bonds.

Such interest shall be paid from and including the date of realisation of cheque(s)/demand draft(s)/ RTGS/ECS up to but excluding the Deemed Date of Allotment. Such interest would be paid on all valid application. The interest on application money will be computed on the basis of actual number of days elapsed in a year. For this purpose a year would comprise a period of 365 days. In the leap year the month of February shall be considered as of 29 days and the year would be of 366 days. Such interest would be paid on all the valid applications, including the refunds. Where the entire subscription amount has been refunded, the interest on application money will be paid along with the refund orders.

The interest on application money will be remitted through RTGS/ECS or interest cheque(s)/ demand draft(s) for interest on application money (along with Refund Orders, in case of refund of application money, if any) shall be dispatched by the NEEPCO **within 10 days** from the Deemed Date of Allotment and the relative interest warrant(s) along with the Refund Order(s), as the case may be, will be dispatched by registered post/courier/speed post to the sole/ first applicant, at the sole risk of the applicant.

INTEREST ON BONDS

The Bonds shall carry interest at the coupon rates as per term sheet (subject to deduction of tax at source at the rates prevailing from time to time under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof for which a certificate will be issued by NEEPCO) on the outstanding principal amount of Bonds till final redemption. Interest will be paid semi annually on **15th May** and **15th November** each year throughout the tenure of the Bonds till final redemption.

The first interest period shall be defined as actual number of days falling between the **Deemed Date of Allotment** to **15th May, 2018** including the first date but excluding the last date. The first interest payment would be made on **15th May, 2018.** This will be calculated by multiplying the nominal amount with the interest rate on an "**Actual / Actual**" day basis. The second and subsequent interest period is defined as the actual number of days between **15th May** and **15th November** and **15th November** and **15th May** including the first date but excluding the last date. This will be calculated by multiplying the nominal amount by the Interest Rate with the actual number of days divided by total number of days in the year (as per SEBI's Circular No. CIR/IMD/DF-1/122/2016 dated November 11, 2016). The last Interest Payment would be made on the final redemption date along with the redemption of principal amount.

In case the Deemed Date of Allotment is revised (pre-poned/postponed) then the Interest Payment Dates and Interest payment Schedule may also be revised accordingly by the Company at its sole & absolute discretion.

Interest on Bonds will cease from the date of final redemption in all events. If any interest payment date falls on a day which is not a Business Day ('Business Day' being a day on which the money market is functioning in Mumbai *and* when

Commercial Banks are open for business in the city of Shillong) then payment of interest will be made on the **next** day that is a business day.

COMPUTATION OF INTEREST

The Bonds will carry interest rates as per the term sheet from the Deemed Date of Allotment. The interest will be paid from the Deemed Date of Allotment (subject to deduction of tax at source at the rates prevailing from time to time under the Income Tax Act, 1961 or any other statutory modification or re-enactment thereof) as per term sheet. The Interest shall be computed on "**Actual / Actual**" day count basis (refer SEBI's Circular No. CIR/IMD/DF-1/122/2016 dated November 11, 2016).

RECORD DATE

The Record Date for all interest payments and repayment of the bond value upon redemption will be the day immediately preceding the period of **15 days prior to the interest payment or redemption date**, as the case may be. Such payment will be made to the bondholder as appearing in the records of the RTA as on the said date. In case the record date, as defined herein, falls on a holiday, the record date shall be the previous Working Day immediately preceding such date.

DEDUCTION OF TAX AT SOURCE

Tax applicable under the Income-Tax Act, 1961, or any other statutory modification or re-enactment thereof will be deducted at source. Tax exemption certificate/ document, under section 193/197/197A of the Income Tax Act, 1961, if any, must be lodged at the office of the Issuer, at least fifteen (15) days prior to the interest payment date. The applicants must submit tax exemption certificate, if applicable, in respect of the interest on application money, if any, along with the application form as required under the Income Tax Act, 1961. In case of tax deducted at source, the Company will send the TDS certificate to the investors. Therefore, to ensure non-deduction/lower deduction of tax at source from interest on application money, the investors should submit Form 15H/15AA, authority letter from Assessing Officer for non-deduction of tax as may be applicable, with the Application Form, on or before the closure of the Issue.

Regarding deduction of tax at source and the requisite declaration forms to be submitted, prospective investor is advised to consult his tax advisor before investing in the Bonds to be issued by NEEPCO.

REDEMPTION

The Face Value of the Bonds will be redeemed in two equal instalments in the **8th year on 15th May, 2025 and 15th November, 2025.**

The Bonds held in the dematerialised form shall be taken as discharged on payment of the redemption amount by the Company on maturity to the registered Bondholders whose name appear in the Register of Bondholders on the record date. Such payment will be a legal discharge of the liability of the Company towards the Bondholders.

In case the principal redemption date falls on a day which is not a Business Day ('Business Day' being a day on which the money market is functioning in Mumbai and when Commercial Banks are open for business in the city of Shillong), then the payment due shall be made on the **previous** Business Day along with accrued interest.

PAYMENT ON REDEMPTION

Payment on redemption will be made by credit through ECS/RTGS system in the name of the Bondholder(s) whose name appears on the List of Beneficial Owners given by Depository to NEEPCO as on the Record Date. The Issuer's liability to Bondholder(s) towards all their rights including payment of interest or otherwise shall cease and stand extinguished from the due date of redemption in all events. Further, the Issuer will not be liable to pay interest, income or compensation of any kind from the date of such redemption of the Bonds.

The Bonds shall be taken as discharged upon payment of the redemption amount the redemption date. Such payment will be a legal discharge of the all liability of the Company towards the Bondholders. On payment of the redemption amount, the Company will inform NSDL/CDSL and accordingly the account of the Bondholders with NSDL/CDSL will be adjusted.

The liability of the Company shall stand discharged on remitting the redemption proceeds through ECS/EFT/RTGS to the above said Beneficiaries. No claim, damages or penal interest in respect of delayed payment, etc. shall lie upon the Company in the event of non-receipt of the same by the addressee Bondholder.

RIGHTS OF BONDHOLDERS

Bondholder is not a shareholder. The Bondholders will not be entitled to any other rights and privilege of shareholders other than those available to them under statutory requirements. The Bond(s) shall not confer upon the holders the right to receive notice, or to attend and vote at the General Meeting of the Company. The principal amount and interest on the Bonds will be paid to the registered Bondholders only, and in case of Joint Holders, to the one whose name stands first. Besides the above, the Bonds shall be subject to the provisions of the Companies Act, 2013, the Articles of Association of NEEPCO, the terms

of this bond issue and the other terms and conditions as may be incorporated in the Trust deed and other documents that may be executed in respect of these Bonds.

EFFECT OF HOLIDAYS

Should any of the dates defined anywhere in the present Information Memorandum, except the Deemed Date of Allotment, fall on a Sunday or a Holiday, the next working day shall be considered as the effective date.

LIST OF BENEFICIAL OWNERS /REGISTER OF BENEFICIAL OWNERS

The Company shall request the RTA to provide a list of Beneficial Owners as at the end of the Record Date. This shall be the list, which shall be considered for payment of interest or repayment of principal amount, as the case may be. The RTA shall maintain a register and an index of Beneficial Owners in the manner as provided for, in compliances with various applicable regulations.

SUCCESSION

In the event of the demise of the sole/first holder of the Bond(s) or the last survivor, in case of joint holders for the time being, the Company shall recognize the executor or administrator of the deceased Bondholder, or the holder of succession certificate or other legal representative as having title to the Bond(s). The Company shall not be bound to recognize such executor or administrator, unless such executor or administrator obtains probate, wherever it is necessary, or letter of administration or such holder is the holder of succession certificate or other legal representation, as the case may be, from a Court in India having jurisdiction over the matter. The Company may, in its absolute discretion, where it thinks fit, dispense with production of probate or letter of administration or succession certificate or other legal representation, in order to recognize such holder as being entitled to the Bond(s) standing in the name of the deceased Bondholder on production of sufficient documentary proof or indemnity. However, where nomination has been made by a Bondholder the company shall recognise the nominee so registered by the Bondholder.

Where a non-resident Indian becomes entitled to the Bond by way of succession, the following steps have to be complied with:

a. Documentary evidence to be submitted to the Legacy Cell of the RBI to the effect that the Bond was acquired by the NRI as part of the legacy left by the deceased holder.

b. Proof that the NRI is an Indian National or is of Indian origin. Such holding by the NRI will be on a non-repatriation basis

FUTURE BORROWINGS

Company reserves the right to make further issues of Bonds or raise loans from any source it deems fit on the security or otherwise of its assets without the consent of the Trustees and without any approval from the bondholders of these present bonds.

DECLARATION REGARDING NON-DEFAULT

Company has never defaulted in payment of interest or principal redemption on any of the Bonds issued by it nor has it defaulted in case of non-allotment of Bonds or payment of application money.

NOTICES

Any notice to the Bondholder required to be sent by Company shall be deemed to have been given if sent by registered post /courier to the holders appearing in the most recent records of the RTA.

All notices to be given by the Beneficial Owners of Bonds shall be sent by Registered Post or by Hand Delivery to the Company or such persons, at such address, as may be notified by the Company from time to time.

All communications from bondholders to NEEPCO shall be addressed to:

The Compliance Officer/Company Secretary, North Eastern Electric Power Corporation Limited, Brookland Compound, Lower New Colony, Shillong 793 003

TAX BENEFITS TO THE BONDHOLDERS OF THE COMPANY

The holder(s) of the Bonds are advised to consider in their own case, the tax implications in respect of subscription to the Bonds after consulting their own tax advisor/ counsel.

DISPUTES & GOVERNING LAWS AND JURISDICTION

The Bonds shall be construed to be governed in accordance with Indian laws and rules framed there under. Any dispute between NEEPCO and the bondholders will subject to the jurisdiction of the Shillong High Court.

*** The Company reserves its sole and absolute right to modify (pre-pone/ postpone) the issue opening/ closing/ pay-in date(s) without giving any reasons or prior notice. In such a case, investors shall be intimated about the revised time schedule by the Company. The Company also reserves the right to keep multiple Deemed Date(s) of Allotment at its sole and absolute discretion without any notice.

XXII. SERVICING BEHAVIOR ON EXISTING DEBT SECURITIES AND OTHER BORROWINGS

The Company hereby confirms that:

a) The main constituents of the Company's borrowings have been in the form of borrowings from Financial Institutions, Bonds, etc. and Company has been servicing its principal and interest liabilities on time and there has been no instance of delay or default since inception.
b) The Company has neither defaulted in repayment/ redemption of any of its borrowings nor affected any kind of roll over against any of its borrowings in the past.

XXIII. UNDERTAKING REGARDING COMMON FORM OF TRANSFER

The Bonds shall be transferred subject to and in accordance with the rules/ procedures as prescribed by the NSDL/ CDSL/ Depository Participant of the transferor/ transferee and any other applicable laws and rules notified in respect thereof. The normal procedure followed for transfer of securities held in dematerialized form shall be followed for transfer of these Bonds held in electronic form. The seller should give delivery instructions containing details of the buyer's DP account to his depository participant.

The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. In the absence of the same, interest will be paid/ redemption will be made to the person, whose name appears in the records of the Depository. In such cases, claims, if any, by the transferee(s) would need to be settled with the transferor(s) and not with the Company.

The Company undertakes that it shall use a common form/ procedure for transfer of Bonds issued under terms of this Disclosure Document.

XXIV. MATERIAL EVENT, DEVELOPMENT OR CHANGE AT THE TIME OF ISSUE

The Company hereby declares that there has been no material event, development or change at the time of issue which may affect the issue or the investor's decision to invest/ continue to invest in the debt securities of the Company.

XXV. PERMISSION/ CONSENT FROM PRIOR CREDITORS

The Company hereby confirms that it is entitled to raise money through current issue of Bonds without the consent/ permission/ approval from the Bondholders/ Trustees/ Lenders/ other creditors of the Company. The Company hereby undertakes that it shall seek consent from the existing charge holders for creating of security for the Bonds on pari-passu basis. In future, the Debenture Holder shall provide consent to create pari-passu charge subject to Company's complying with the requisite terms of the bond issue.

XXVI. MATERIAL CONTRACTS & DOCUMENTS

By the very nature of its business, NEEPCO is involved in a large number of transactions and therefore it may not be possible to furnish details of all material contracts and agreements involving financial obligations of NEEPCO. However, the contracts referred to below (not being contracts entered into in the ordinary course of the business carried on by NEEPCO) which are or may be deemed to be material have been entered into by NEEPCO. Copies of these contracts together with the copies of documents referred below may be inspected at the Head Office of NEEPCO between 10.00 a.m. and 2.00 p.m. on any working day until the issue closing date.

a) Copy of consent letter of Karvy Computershare Pvt. Ltd. for acting as Registrars to the Issue.
b) Copy of consent letter from SBICAP Trustee Company Ltd. to act as Trustees to the Bondholders
c) Memorandum and Articles of Association of NEEPCO as amended from time to time.
d) Board Resolution dated **8th May, 2017** and Special AGM Resolution dated **22nd September, 2017** authorizing issue of Bonds offered under terms of this PPOL.
e) In-principle approval from BSE for of listing of Bonds.
f) Letters from ICRA Ltd. dated **9th October, 2017** and CARE Ltd. dated **7th November, 2017** conveying the Credit Rating for the Bonds of NEEPCO along with the corresponding Rating Rationales
g) Tripartite Agreement between NEEPCO, NSDL & Karvy Computershare Pvt. Ltd. for issue of Bonds in Dematerialized form.
h) Tripartite Agreement between NEEPCO, CDSL and Karvy Computershare Pvt. Ltd. for issue of Bonds in Dematerialized form

DECLARATION

It is hereby declared that this Private Placement Offer Letter contains full disclosures in accordance with the Securities & Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LADNRO/GN/2008/13/127878 dated June 06, 2008 as well as the Companies (Prospectus & Allotment of Securities) Rules 2014.

POWER SUPPLY AGREEMENT
BETWEEN
NORTH EASTERN ELECTRIC POWER CORPORATION LIMITED
AND
MEGHALAYA POWER DISTRIBUTION CORPORATION LIMITED,

THIS POWER PURCHASE AGREEMENT is entered into on this **24th** day of **October Two Thousand Eighteen (24-10-2018)** between **North Eastern Electric Power Corporation Limited** , a Company incorporated under the Companies Act, 1956, having there registered office at Brookland Compound, Lower New Colony, Shillong-793003 (hereinafter referred to as **"NEEPCO",** which expression shall unless repugnant to the context or meaning thereof include their successors and assigns) as party of the first part and **Meghalaya Power Distribution Corporation Limited, Meghalaya** represented through the **Director (Distribution)** (hereinafter referred to as **"Bulk Power Customer",** which expressions shall unless repugnant to the context shall include their respective successors and assigns) as party of the second part.

WHEREAS NEEPCO is the Generating Company of Government of India and shall own and operate the **Kameng Hydro Electric Project (600 MW)** and the Bulk Power Customer shall off-take the power as allocated by the Ministry of Power, Government of India from the Kameng Hydro Electric Project.

Now, therefore, in consideration of the premises and mutual covenant and conditions set forth herein, it is hereby agreed by the parties hereto as follows:

24-10-2018

1.0 DEFINITIONS:

The words/expressions used in this Agreement, unless repugnant to the context, shall have the same meanings, as respectively assigned to them by the Electricity Act, 2003, as amended from time to time. The words/expressions mentioned below shall have the same meanings as respectively assigned to them hereunder:

a.	Month	:	Means English calendar month.
b.	Year	:	Means financial year commencing on 1st April and ending on 31st March.
c.	Project	:	Means Kameng Hydro Electric Project in the District of West Kameng, in the State of Arunachal Pradesh, owned & to be operated by NEEPCO.
d.	Energy	:	Means the Electrical Energy.
e.	Power	:	Means the Electrical Power.
f.	REA	:	Means a monthly statement prepared by the North Eastern Regional Power Committee (NERPC), showing Regional Energy Accounting for each State of North Eastern Region for the purpose of billing.
g.	LC	:	Means Letter of Credit.
h.	CERC	:	Means Central Electricity Regulatory Commission.
i.	GOI	:	Means Government of India
j.	IEGC	:	Means Indian Electricity Grid Code.
k.	MOP	:	Means Ministry of Power.
l.	Outage	:	Means the State of component of the Project, when it is not available to perform its intended function due to some event directly associated with that component.
m.	NERPC	:	Means North Eastern Regional Power Committee.
n.	NERLDC	:	Means North Eastern Regional Load Despatch Centre.
o.	DPR	:	Detailed Project Report as submitted to MOP at ***March, 2015 Price level***.

2.0 INSTALLED CAPACITY & ALLOCATION OF POWER:

2.1 The installed capacity of Kameng Hydro Electric Project shall be 600 MW. The installed capacity is, however, subject to de-rating/up-rating, as determined from time to time by CEA or any other agency authorised to do so.

2.2 The allocation of power from the project among the Bulk Power Customers shall be in accordance with the instructions regarding allocation of power issued/or to be issued by the MOP, Govt. of India from time to time which shall form an integral part of this Agreement.

2.3 The Generating Units will be declared commercially operative by NEEPCO in accordance with the guidelines specified/to be specified by GOI/CEA/CERC. The date of commercial operation of the each of the units of Kameng Hydro Electric project will be an integral part of this Agreement.

3.0 GENERAL OBLIGATIONS:

3.1 NEEPCO is a Generating Company, as defined under Section 2(28) of the Electricity Act,2003 and shall perform duties, as defined under section 10 of the Electricity Act,2003 for supply of Electricity to the Bulk Power Customer.

3.2 The energy to be supplied under this agreement shall be in the form of 3- Phase, 50 Hertz, Alternating Current, at a Voltage of 400 KV or as the case may be. The frequency and voltage of energy shall be subject to fluctuations as per provisions contained in IEGC and as amended from time to time except for the reasons and circumstances beyond the reasonable control of NEEPCO. The supply of energy to Bulk Power Customer is subject to outages as may be necessary on account of shutdown of the generating units of the project and associated transmission system for inspection, maintenance or repair or any other reason beyond the reasonable control of NEEPCO. The periodicity and duration of such outages shall be such as may be determined by NEEPCO in consultation with NERPC/NERLDC.

4.0 DELIVERY POINT / EVACUATION OF POWER FROM NEEPCO STATION.

400 kV Bus bar or any other point designated at the Project shall be the delivery point for supply of energy to the Bulk Power Customer. Evacuation of power from the delivery point of the project shall be through the transmission system of POWER GRID or any other agency as the case may be. The Bulk Power Customer shall make arrangements separately with the concerned agency for evacuation of power & payments of evacuation charges etc. and NEEPCO shall not be responsible for the same in any manner.

5.0 METERING ARRANGEMENTS:

Metering arrangements, including its installation, testing, maintenance of and collection, transmission and processing of data required for energy accounting shall be governed as per the notification/directives issued by CERC from time to time and as per relevant provisions contained in IEGC, as amended from time to time.

6.0 ACCOUNTING OF ENERGY:

The quantum of energy sold to the Bulk Power Customer out of the energy available for sale shall be the energy as indicated in the REA issued by NERPC. The REA, including amendments, if any, as issued by NERPC shall form the basis for billing and shall be binding on both the parties.

7.0 TARIFF:

7.1 The tariff to be charged and its associated terms and conditions for the energy to be supplied by NEEPCO from the Project shall be determined by CERC and NEEPCO shall file tariff petition before CERC within 6 (six) month from the Date of Commercial Operation of the Project.

7.2 Till such time the tariff is determined by CERC, NEEPCO shall work out the provisional tariff on the basis of estimated completion cost of the Project and as per

the CERC (Terms & Conditions of Tariff) Regulations, as applicable from time to time. NEEPCO shall inform the Bulk Power Customer of such provisional tariff and both the parties shall mutually agree to the provisional tariff for the purpose of billing on provisional basis, subject to adjustment, as soon as the final tariff is determined by CERC.

7.3 In addition to the energy tariff, the Bulk Power Customer shall also be liable to pay to NEEPCO, in accordance with any law in force, all payments payable by it on account of,taxes, duties, cess, levy, fees etc., levied or to be levied in future by the GOI or any other statutory authority, in respect of generation, transmission and supply of energy including, activities incidental and ancillary thereto.

8.0 BILLING:

8.1 NEEPCO shall prepare bills for the energy supplied to the Bulk Power Customer on the basis of REA issued by NERPC ***and as per prevailing CERC Tariff Regulations,*** and the Bulk Power Customer shall accept these bills for payment.

8.2 In case the Bulk Power Customer has any objection as to the accuracy of any bill(s), it shall lodge a written objection with NEEPCO within 15 (fifteen) days of presentation of such bill(s). On such objection being upheld by NEEPCO, the same shall be rectified within a period of 30 (thirty) days from the date of receipt of written objection and necessary effect to the same shall be given in the subsequent bill(s). However, payment of the bills originally submitted by NEEPCO should not be kept withheld by the Bulk Power Customer.

The settlement of all disputed dues shall be governed as per the directives of CERC/GOI as issued from time to time and the same shall form an integral part of this agreement.

9.0 PAYMENT:

9.1 For the 1st 12 (twelve) months of operation, NEEPCO shall raise the bills as per clause-7.2 & 8.1 of this Agreement against energy supplied and the Bulk Power Customer shall pay the bill within 30 (thirty) days from the date of the billing every month. After the 1st 12 (twelve) months of operation, the Bulk Power Customer shall establish a confirmed, revolving, irrevocable Letter of Credit in favour of NEEPCO for an amount equivalent to 105 percent of their average monthly billing of preceding 12 (twelve) months with appropriate bank, ***negotiating Bank at Shillong*** as mutually acceptable to the parties. All the bank charges towards establishment of the LC shall be borne by the Bulk Power Customer.

9.2 NEEPCO shall present the bill(s) to the ***negotiating Bank*** with a copy to the Bulk Power Customer. The bill(s), so presented by NEEPCO, shall be paid by the Bank immediately on presentation.

9.3 Notwithstanding what is contained above, if the bill(s) are not paid by Bulk Power Customer to NEEPCO within 60 (sixty) days from the date of billing, NEEPCO shall

have the liberty to regulate the supply to the Bulk Power Customer in accordance with the directives/guidelines issued by CERC/GOI from time to time.

10.0 SURCHARGE ON LATE PAYMENT AND REBATE:

10.1 The provision for levy of surcharge shall be governed as per the notification/directives/guidelines issued/to be issued by CERC/GOI from time to time as per prevailing statutes and same shall form an integral part of this agreement.

10.2 The provision for allowing rebate shall be regulated as per notification/directives/guidelines issued by CERC/GOI from time to time and the same shall form an integral part of this agreement.

11.0 ARBITRATION:

11.1 All questions, differences or disputes between the parties arising out of or in connection with this Agreement save and except as provided under Clause-6.0 of this Agreement to the extent of power vested with NERPC, shall be settled through arbitration in accordance with the provision of Arbitration and Conciliations Act, 1996 and amendment thereof issued from time to time. However, before referring the matter to arbitration, efforts shall be made by the parties to settle the disputes through mutual discussion and conciliation within a period of 90 days.

In the event the parties are unable to resolve any dispute, controversy or claim relating to or arising under this agreement as stated above, which are falling under provisions of Electricity Act'2003, the same shall be dealt in accordance with the provisions under section 79(f) and 158 of the said Act.

11.2 Notwithstanding the existence of any question, disputes and differences referred to arbitration, the parties hereto shall continue to perform their respective obligations under this Agreement.

12.0 FORCE MAJEURE:

Both the parties shall ensure compliance of the terms of this agreement. However, no party shall be liable for any loss or damage whatsoever arising out of failure to carry out the terms of this Agreement to the extent that such failure is due to Force Majeure events, such as rebellion, mutiny, civil commotion, riot, strike, lock out, epidemic, plague, fire, explosion, flood, drought, cyclone, lightening, earthquake, war or other forces, accident, landslide, sabotage, communal violence, terrorism, malicious act of kidnapping or act of God. But, any party claiming the benefit of this clause shall satisfy the other party of the existence of such an event(s).

13.0 DURATION OF AGREEMENT:

This Agreement shall come into force from the date of signing and shall remain in force for 35(thirty-five) years from the Date of Commercial Operation of the last unit of the Project, provided that this Agreement may be mutually extended, renewed or replaced by another Agreement on such terms and for such further period of time, as the parties may mutually agree to. However, the provisions of this Agreement shall

continue to operate till this Agreement is formally renewed, extended or replaced, in case the Bulk Power Customer continues to get power from the Project even after expiry of this Agreement without further renewal or formal extension thereof.

14.0 NOTICES:

All notices required or referred to under this Agreement shall be in writing and signed by the authorities mentioned herein below, unless otherwise notified by the respective parties. Each such notice shall be deemed to have been duly served by any of the parties, if the same is delivered or sent by Registered Mail / Speed Post to the other party.

POWER SUPPLY AGREEMENT
BETWEEN
NORTH EASTERN ELECTRIC POWER CORPORATION LIMITED
AND
U.P. POWER CORPORATION LIMITED

THIS POWER PURCHASE AGREEMENT is entered into on this 24th day of July Two Thousand Seventeen between **North Eastern Electric Power Corporation Limited**, a Company incorporated under the Companies Act, 1956, having their registered office at Brookland Compound, Lower New Colony, Shillong-793003 (hereinafter referred to as **"NEEPCO"**, which expression shall unless repugnant to the context or meaning thereof include their successors and assigns) as party of the first part and **U.P. Power Corporation Limited, 14-Ashok Marg, Lucknow, Uttar Pradesh** (hereinafter referred to as **"Bulk Power Customer"**, which expressions shall unless repugnant to the context shall include their respective successors and assigns) as party of the second part.

WHEREAS NEEPCO is the Generating Company of Government of India and shall own and operate the **Kameng Hydro Electric Project (600 MW)** and the Bulk Power Customer shall off-take the power as allocated by the Ministry of Power, Government of India from the Kameng Hydro Electric Project.

Now, therefore, in consideration of the premises and mutual covenant and conditions set forth herein, it is hereby agreed by the parties hereto as follows:

1.0 DEFINITIONS:

The words/expressions used in this Agreement, unless repugnant to the context, shall have the same meanings, as respectively assigned to them by the Electricity Act, 2003, as

amended from time to time. The words/expressions mentioned below shall have the same meanings as respectively assigned to them hereunder:

a.	Month	:	Means English calendar month.
b.	Year	:	Means financial year commencing on 1st April and ending on 31st March.
c.	Project	:	Means Kameng Hydro Electric Project in the District of West Kameng, in the State of Arunachal Pradesh, owned & to be operated by NEEPCO.
d.	Energy	:	Means the Electrical Energy.
e.	Power	:	Means the Electrical Power.
f.	REA	:	Means a monthly statement prepared by the North Eastern Regional Power Committee (NERPC), showing Regional Energy Accounting for each State of North Eastern Region for the purpose of billing.
g.	LC	:	Means Letter of Credit.
h.	CERC	:	Means Central Electricity Regulatory Commission.
i.	GOI	:	Means Government of India
j.	IEGC	:	Means Indian Electricity Grid Code.
k.	MOP	:	Means Ministry of Power.
l.	Outage	:	Means the State of component of the Project, when it is not available to perform its intended function due to some event directly associated with that component.
m.	NERPC	:	Means North Eastern Regional Power Committee.
n.	NERLDC	:	Means North Eastern Regional Load Despatch Centre.
o.	DPR	:	Detailed Project Report as submitted to MOP at March, 2015 Price level.

2.0 INSTALLED CAPACITY & ALLOCATION OF POWER:

2.1 The installed capacity of Kameng Hydro Electric Project shall be 600 MW. The installed capacity is, however, subject to de-rating/up-rating, as determined from time to time by CEA or any other agency authorised to do so.

2.2 The allocation of power from the project among the Bulk Power Customers shall be in accordance with the instructions regarding allocation of power issued/or to be issued by the MOP, Govt. of India from time to time which shall form an integral part of this Agreement.

2.3 The Generating Units will be declared commercially operative by NEEPCO in accordance with the guidelines specified/to be specified by GOI/CEA/CERC. The date of commercial operation of the each of the units of Kameng Hydro Electric project will be an integral part of this Agreement.

3.0 GENERAL OBLIGATIONS:

3.1 NEEPCO is a Generating Company, as defined under Section 2(28) of the Electricity Act,2003 and shall perform duties, as defined under section 10 of the Electricity Act,2003 for supply of Electricity to the Bulk Power Customer.

3.2 The energy to be supplied under this agreement shall be in the form of 3- Phase, 50 Hertz, Alternating Current, at a voltage of 400 KV or as the case may be. The frequency and voltage of energy shall be subject to fluctuations as per provisions contained in IEGC and as amended from time to time except for the reasons and circumstances beyond the reasonable control of NEEPCO. The supply of energy to Bulk Power Customer is subject to outages as may be necessary on account of shutdown of the generating units of the project and associated transmission system for inspection, maintenance or repair or any other reason beyond the reasonable control of NEEPCO. The periodicity and duration of such outages shall be such as may be determined by NEEPCO in consultation with NERPC/NERLDC.

4.0 DELIVERY POINT / EVACUATION OF POWER FROM NEEPCO STATION.

400 kV Bus bar or any other point designated at the Project shall be the delivery point for supply of energy to the Bulk Power Customer. Evacuation of power from the delivery point of the project shall be through the transmission system of POWER GRID or any other agency as the case may be. The Bulk Power Customer shall make arrangements separately with the concerned agency for evacuation of power & payments of evacuation charges etc. and NEEPCO shall not be responsible for the same in any manner.

5.0 METERING ARRANGEMENTS:

Metering arrangements, including its installation, testing, maintenance of and collection, transmission and processing of data required for energy accounting shall be governed as per the notification/directives issued by CERC from time to time and as per relevant provisions contained in IEGC, as amended from time to time.

6.0 ACCOUNTING OF ENERGY:

The quantum of energy sold to the Bulk Power Customer out of the energy available for sale shall be the energy as indicated in the REA issued by NERPC. The REA, including amendments, if any, as issued by NERPC shall form the basis for billing and shall be binding on both the parties.

7.0 TARIFF:

7.1 The tariff to be charged and its associated terms and conditions for the energy to be supplied by NEEPCO from the Project shall be determined by CERC and NEEPCO shall file tariff petition before CERC within 6 (six) month from the Date of Commercial Operation of the Project.

7.2 Till such time the tariff is determined by CERC, NEEPCO shall work out the provisional tariff on the basis of estimated completion cost of the Project and as per the CERC (Terms & Conditions of Tariff) Regulations, as applicable from time to time. NEEPCO shall inform the Bulk Power Customer of such provisional tariff

and both the parties shall mutually agree to the provisional tariff for the purpose of billing on provisional basis, subject to adjustment, as soon as the final tariff is determined by CERC.

7.3 In addition to the energy tariff, the Bulk Power Customer shall also be liable to pay to NEEPCO, in accordance with any law in force, all payments payable by it on account of taxes, duties, cess, levy, fees etc., levied or to be levied in future by the GOI or any other statutory authority, in respect of generation, transmission and supply of energy including, activities incidental and ancillary thereto.

8.0 BILLING:

8.1 NEEPCO shall prepare bills for the energy supplied to the Bulk Power Customer on the basis of REA issued by NERPC ***and as per prevailing CERC Tariff Regulations***, and the Bulk Power Customer shall accept these bills for payment.

8.2 In case the Bulk Power Customer has any objection as to the accuracy of any bill(s), it shall lodge a written objection with NEEPCO within 15 (fifteen) days of presentation of such bill(s). On such objection being upheld by NEEPCO, the same shall be rectified within a period of 30 (thirty) days from the date of receipt of written objection and necessary effect to the same shall be given in the subsequent bill(s). However, payment of the bills originally submitted by NEEPCO should not be kept withheld by the Bulk Power Customer.

The settlement of all disputed dues shall be governed as per the directives of CERC/GOI as issued from time to time and the same shall form an integral part of this agreement.

9.0 PAYMENT:

9.1 For the 1st 12 (twelve) months of operation, NEEPCO shall raise the bills as per clause-7.2 & 8.1 of this Agreement against energy supplied and the Bulk Power Customer shall pay the bill within 30 (thirty) days from the date of the billing every month. After the 1st 12 (twelve) months of operation, the Bulk Power Customer shall establish a confirmed, revolving, irrevocable Letter of Credit in favour of NEEPCO for an amount equivalent to 105 percent of their average monthly billing of preceding 12 (twelve) months with appropriate bank, ***negotiating Bank at Shillong*** as mutually acceptable to the parties. All the bank charges towards establishment of the LC shall be borne by the Bulk Power Customer.

9.2 NEEPCO shall present the bill(s) to the ***negotiating Bank*** with a copy to the Bulk Power Customer. The bill(s), so presented by NEEPCO, shall be paid by the Bank immediately on presentation.

9.3 Notwithstanding what is contained above, if the bill(s) are not paid by Bulk Power Customer to NEEPCO within 60 (sixty) days from the date of billing, NEEPCO shall have the liberty to regulate the supply to the Bulk Power Customer in accordance with the directives/guidelines issued by CERC/GOI from time to time.

7

10.0 SURCHARGE ON LATE PAYMENT AND REBATE:

10.1 The provision for levy of surcharge shall be governed as per the notification/directives/guidelines issued/to be issued by CERC/GOI from time to time as per prevailing statutes and same shall form an integral part of this agreement.

10.2 The provision for allowing rebate shall be regulated as per notification/directives/guidelines issued by CERC/GOI from time to time and the same shall form an integral part of this agreement.

11.0 ARBITRATION:

11.1 All questions, differences or disputes between the parties arising out of or in connection with this Agreement save and except as provided under Clause-6.0 of this Agreement to the extent of power vested with NERPC, shall be settled through arbitration in accordance with the provision of Arbitration and Conciliations Act, 1996 and amendment thereof issued from time to time. However, before referring the matter to arbitration, efforts shall be made by the parties to settle the disputes through mutual discussion and conciliation within a period of 90 days.

In the event the parties are unable to resolve any dispute, controversy or claim relating to or arising under this agreement as stated above, which are falling under provisions of Electricity Act'2003, the same shall be dealt in accordance with the provisions under section 79(f) and 158 of the said Act.

11.2 Notwithstanding the existence of any question, disputes and differences referred to arbitration, the parties hereto shall continue to perform their respective obligations under this Agreement.

12.0 FORCE MAJEURE:

Both the parties shall ensure compliance of the terms of this agreement. However, no party shall be liable for any loss or damage whatsoever arising out of failure to carry out the terms of this Agreement to the extent that such failure is due to Force Majeure events, such as rebellion, mutiny, civil commotion, riot, strike, lock out, epidemic, plague, fire, explosion, flood, drought, cyclone, lightening, earthquake, war or other forces, accident, landslide, sabotage, communal violence, terrorism, malicious act of kidnapping or act of God. But, any party claiming the benefit of this clause shall satisfy the other party of the existence of such an event(s).

13.0 DURATION OF AGREEMENT:

This Agreement shall come into force from the date of signing and shall remain in force for 35(thirty five) years from the Date of Commercial Operation of the last unit of the Project,provided that this Agreement may be mutually extended, renewed or replaced by another Agreement on such terms and for such further period of time, as the parties may mutually agree to. However, the provisions of

this Agreement shall continue to operate till this Agreement is formally renewed, extended or replaced, in case the Bulk Power Customer continues to get power from the Project even after expiry of this Agreement without further renewal or formal extension thereof.

14.0 NOTICES:

All notices required or referred to under this Agreement shall be in writing and signed by the authorities mentioned herein below, unless otherwise notified by the respective parties. Each such notice shall be deemed to have been duly served by any of the parties, if the same is delivered or sent by Registered Mail / Speed Post to the other party.

Bulk Power Customer is subject to outages as may be necessary on account of shutdown of the generating units of the project and associated transmission system for inspection, maintenance or repair or any other reason beyond the reasonable control of NEEPCO. The periodicity and duration of such outages shall be such as may be determined by NEEPCO in consultation with NERPC/NERLDC.

4.0 DELIVERY POINT / EVACUATION OF POWER FROM NEEPCO STATION.

400 kV Bus bar or any other point designated at the Project shall be the delivery point for supply of energy to the Bulk Power Customer. Evacuation of power from the delivery point of the project shall be through the transmission system of POWER GRID or any other agency as the case may be. The Bulk Power Customer shall make arrangements separately with the concerned agency for evacuation of power & payments of evacuation charges etc. and NEEPCO shall not be responsible for the same in any manner.

5.0 METERING ARRANGEMENTS:

Metering arrangements, including its installation, testing, maintenance of and collection, transmission and processing of data required for energy accounting shall be governed as per the notification/directives issued by CERC from time to time and as per relevant provisions contained in IEGC, as amended from time to time.

6.0 ACCOUNTING OF ENERGY:

The quantum of energy sold to the Bulk Power Customer out of the energy available for sale shall be the energy as indicated in the REA issued by NERPC. The REA, including amendments, if any, as issued by NERPC shall form the basis for billing and shall be binding on both the parties.

7.0 TARIFF:

7.1 The tariff to be charged and its associated terms and conditions for the energy to be supplied by NEEPCO from the Project shall be determined by CERC and NEEPCO shall file tariff petition before CERC within 6 (six) month from the Date of Commercial Operation of the Project.

7.2 Till such time the tariff is determined by CERC, NEEPCO shall work out the provisional tariff on the basis of estimated completion cost of the Project and as per the CERC (Terms & Conditions of Tariff) Regulations, as applicable from time to time. NEEPCO shall inform the Bulk Power Customer of such provisional tariff and both the parties shall mutually agree to the provisional tariff for the purpose of billing on provisional basis, subject to adjustment, as soon as the final tariff is determined by CERC.

7.3 In addition to the energy tariff, the Bulk Power Customer shall also be liable to pay to NEEPCO, in accordance with any law in force, all payments payable by it on account

of taxes, duties, cess, levy, fees etc., levied or to be levied in future by the GOI or any other statutory authority, in respect of generation, transmission and supply of energy including, activities incidental and ancillary thereto.

8.0 BILLING:

8.1 NEEPCO shall prepare bills for the energy supplied to the Bulk Power Customer on the basis of REA issued by NERPC ***and as per prevailing CERC Tariff Regulations***, and the Bulk Power Customer shall accept these bills for payment.

8.2 In case the Bulk Power Customer has any objection as to the accuracy of any bill(s), it shall lodge a written objection with NEEPCO within 15 (fifteen) days of presentation of such bill(s). On such objection being upheld by NEEPCO, the same shall be rectified within a period of 30 (thirty) days from the date of receipt of written objection and necessary effect to the same shall be given in the subsequent bill(s). However, payment of the bills originally submitted by NEEPCO should not be kept withheld by the Bulk Power Customer.

The settlement of all disputed dues shall be governed as per the directives of CERC/GOI as issued from time to time and the same shall form an integral part of this agreement.

9.0 PAYMENT:

9.1 For the 1st 12 (twelve) months of operation, NEEPCO shall raise the bills as per clause-7.2 & 8.1 of this Agreement against energy supplied and the Bulk Power Customer shall pay the bill within 30 (thirty) days from the date of the billing every month. After the 1st 12 (twelve) months of operation, the Bulk Power Customer shall establish a confirmed, revolving, irrevocable Letter of Credit in favour of NEEPCO for an amount equivalent to 105 percent of their average monthly billing of preceding 12 (twelve) months with appropriate bank, ***negotiating Bank at Shillong*** as mutually acceptable to the parties. All the bank charges towards establishment of the LC shall be borne by the Bulk Power Customer.

9.2 NEEPCO shall present the bill(s) to the ***negotiating Bank*** with a copy to the Bulk Power Customer. The bill(s), so presented by NEEPCO, shall be paid by the Bank immediately on presentation.

9.3 Notwithstanding what is contained above, if the bill(s) are not paid by Bulk Power Customer to NEEPCO within 60 (sixty) days from the date of billing, NEEPCO shall have the liberty to regulate the supply to the Bulk Power Customer in accordance with the directives/guidelines issued by CERC/GOI from time to time.

10.1 The provision for levy of surcharge shall be governed as per the notification/directives/guidelines issued/to be issued by CERC/GOI from time to time as per prevailing statutes and same shall form an integral part of this agreement.

10.2 The provision for allowing rebate shall be regulated as per notification/directives/guidelines issued by CERC/GOI from time to time and the same shall form an integral part of this agreement.

11.0 ARBITRATION:

11.1 All questions, differences or disputes between the parties arising out of or in connection with this Agreement save and except as provided under Clause-6.0 of this Agreement to the extent of power vested with NERPC, shall be settled through arbitration in accordance with the provision of Arbitration and Conciliations Act, 1996 and amendment thereof issued from time to time. However, before referring the matter to arbitration, efforts shall be made by the parties to settle the disputes through mutual discussion and conciliation within a period of 90 days.

In the event the parties are unable to resolve any dispute, controversy or claim relating to or arising under this agreement as stated above, which are falling under provisions of Electricity Act'2003, the same shall be dealt in accordance with the provisions under section 79(f) and 158 of the said Act.

11.2 Notwithstanding the existence of any question, disputes and differences referred to arbitration, the parties hereto shall continue to perform their respective obligations under this Agreement.

12.0 FORCE MAJEURE:

Both the parties shall ensure compliance of the terms of this agreement. However, no party shall be liable for any loss or damage whatsoever arising out of failure to carry out the terms of this Agreement to the extent that such failure is due to Force Majeure events, such as rebellion, mutiny, civil commotion, riot, strike, lock out, epidemic, plague, fire, explosion, flood, drought, cyclone, lightening, earthquake, war or other forces, accident, landslide, sabotage, communal violence, terrorism, malicious act of kidnapping or act of God. But, any party claiming the benefit of this clause shall satisfy the other party of the existence of such an event(s).

13.0 DURATION OF AGREEMENT:

This Agreement shall come into force from the date of signing and shall remain in force for 35(thirty five) years from the Date of Commercial Operation of the last unit of the Project, provided that this Agreement may be mutually extended, renewed or replaced by another Agreement on such terms and for such further period of time, as the parties may mutually agree to. However, the provisions of this Agreement shall continue to operate till this Agreement is formally renewed, extended or replaced, in case the Bulk Power Customer continues to get power from the Project even after expiry of this Agreement without further renewal or formal extension thereof.

POWER PURCHASE AGREEMENT
BETWEEN
NORTH EASTERN ELECTRIC POWER CORPORATION LIMITED
AND
DEPARTMENT OF POWER, GOVERNMENT OF NAGALAND.

THIS POWER PURCHASE AGREEMENT is entered into on this **Sixteen day of November two thousand sixteen** between **North Eastern Electric Power Corporation Limited**, a company incorporated under the companies Act, 1956, having their registered office at Brookland Compound, Lower new colony, Shillong-793 003 (hereinafter referred to as **"NEEPCO"**, which expression shall unless repugnant to the context or meaning thereof include their successors and assigns) as party of the first part and the **DEPARTMENT OF POWER, GOVERNMENT OF NAGALAND** represented through the Executive Engineer (MIS) (hereinafter referred to as **"Bulk Power Customer'**, which expressions shall unless repugnant to the context shall include their respective successors and assigns) as party of the second part.

WHEREAS NEEPCO is the **Generating Company** of **Government of India** and shall [illegible] operate the **Kameng Hydro Electric Project (600 MW)** and the Bulk Power Customer shall [illegible] take the power as allocated by the Ministry of Power, Government of India from the Kameng Hydro Electric Project.

Now, therefore, in consideration of the premises and mutual covenant and conditions set forth herein, it is hereby agreed by the parties hereto as follows:

08 NOV 2016

1.0 DEFINITIONS:

The words/expressions used in this Agreement, unless repugnant to the context, shall have the same meanings, as respectively assigned to them by Electricity Act,2003, as amended from time to time. The words/ expressions mentioned below shall have the same meanings as respectively assigned to them hereunder:

A. Month : Means English calendar month.
B. Year : Means financial year commencing on 1st April and ending on 31st March.
C. Project : Means Kameng Hydro Electric Project in the District of West Kameng, in the state of Arunachal Pradesh, owned & to be operated by NEEPCO.
D. Energy : Means the Electrical Energy.
E. Power : Means the Electrical Power.
F. REA : Means a monthly statement prepared by the North Eastern Regional Power Committee (NERPC), showing Regional Energy Accounting for each state of North Eastern Region for the purposes of billing.
G. LC : Means Letter of Credit.
H. CERC : Means Central Electricity Regulatory Commission.
I. GOI : Means Government of India.
J. IEGC : Means Indian Electricity Grid Code.
K. MOP : Means Ministry of Power.
L. Outage: Means the state of component of the project, when it is not available to perform its intended function due to some event directly associated with the component.
M. NERPC : Means North Eastern Regional Power Committee.
N. NERLDC: Means North Eastern Regional Load Despatch Centre.
O. DPR : Detailed Project Report as submitted to MOP at ***March, 2010 price level.***

Executive Engineer (MIS)
Management Information System (MIS) Division
Department of Power
Dimapur : Nagaland

2.0 INSTALLED CAPACITY AND ALLOCATION OF POWER:

2.1 The installed capacity of Kameng Hydro Electric Project shall be **600 MW.** The installed capacity is, however, subject to de-rating/up-rating, as determined from time to time by CEA or any other agency authorised to do so.

2.2 The allocation of power from the project among the bulk customers shall be in accordance with the instructions regarding allocation of power issued/or to be issued by the MOP, Govt. of India from time to time which shall form an integral part of this Agreement.

2.3 The Generating Units will be declared commercially operative by NEEPCO in accordance with the guidelines specified/to be specified by GOI/CEA/CERC. The date of commercial operation of the each of the units of Kameng Hydro Electric Project will be an integral part of this Agreement.

3.0 GENERAL OBLIGATIONS:

3.1 NEEPCO is a Generating Company, as defined under the section 2(28) of the Electricity Act,2003 and shall perform duties, as defined under section 10 of the Electricity Act,2003 for supply of Electricity to the bulk Power Customer.

3.2 The energy to be supplied under this agreement shall be in the form of 3-phase, 50 Hertz, Alternating Current, at a voltage of 400 KV or as the case may be. The frequency and voltage of energy shall be subject to fluctuations as per provisions contained in IEGC and as amended from time to time except for reasons and circumstances beyond the reasonable control of NEEPCO. The supply of energy to Bulk Power Customer is subject to outages as may be necessary on account of shutdown of the generating units of the project and associated transmission system for inspection, maintenance or repair or any other reason beyond the reasonable control of NEEPCO. The periodicity and duration of such outages shall be such as may be determined by NEEPCO in consultation with NERPC/NERLDC.

Executive Engineer (MIS)
Management Information System (MIS) Division
Department of Power
Dimapur, Nagaland

4.0 DELIVERY POINT/EVACUATION OF POWER FROM NEEPCO STATION:

400 kV Bus-bar or any other point designated at the Project shall be the delivery point for supply of energy to the Bulk Power Customer. Evacuation of power from the delivery point of the project shall be through the transmission system of POWERGRID or any other agency as the case may be. The Bulk Power Customer shall make arrangements separately with the concerned agency for evacuation of power & payments of evacuation charges etc. and NEEPCO shall not be responsible for the same in any manner.

5.0 METERING ARRANGEMENTS:

Metering arrangements, including its installation, testing, maintenance of and collection, transmission and processing of data required for energy accounting shall be governed as per the notification/directives issued by CERC from time to time and as per relevant provisions contained in IEGC, as amended from time to time.

6.0 ACCOUNTING OF ENERGY:

The quantum of energy sold to the Bulk Power Customer out of the energy available for sale shall be the energy as indicated in the REA issued by NERPC. The REA, including amendments, if any, as issued by NERPC shall form the basis for billing and shall be binding on both the parties.

7.0 TARIFF:

7.1 The tariff to be charged and its associated terms and conditions for the energy to be supplied by NEEPCO from the Project shall be determined by CERC and NEEPCO shall file tariff petition before CERC within 6 (six) month from the Date of Commercial Operation of the Project.

7.2 Till such time the tariff is determined by CERC, NEEPCO shall work out the provisional tariff on the basis of estimated completion cost of the Project and as per the CERC (Terms & Conditions of Tariff) Regulations, as applicable from time to time. NEEPCO shall inform the Bulk Power Customer of such provisional tariff and both the parties shall mutually agree to the provisional tariff for the purpose of billing on provisional basis, subject to adjustment, as soon as the final tariff is determined by CERC.

7.3 In addition to the energy tariff, the Bulk Power Customer shall also be liable to pay to NEEPCO, in accordance with any law in force, all payments payable by it on account of taxes, duties, cess, levy, fees etc., levied or to be levied in future by the GOI or any other statutory authority, in respect of generation, transmission and supply of energy including, activities incidental and ancillary thereto.

Executive Engineer (MIS)
Management Information System (MIS) Division
Department of Power
Dimapur : Nagaland

8.0 BILLING:

8.1 NEEPCO shall prepare bills for the energy supplied to the Bulk Power Customer on the basis of REA issued by NERPC ***and as per prevailing CERC Tariff Regulations***, and the Bulk Power Customer shall accept these bills for payment.

8.2 In case the Bulk Power Customer has any objection as to the accuracy of any bill(s), it shall lodge a written objection with NEEPCO within 15 (fifteen) days of presentation of such bill(s). On such objection being upheld by NEEPCO, the same shall be rectified within a period of 30 (thirty) days from the date of receipt of written objection and necessary effect to the same shall be given in the subsequent bill(s). However, payment of the bills originally submitted by NEEPCO should not be kept withheld by the Bulk Power Customer.

The settlement of all disputed dues shall be governed as per the directives of CERC/GOI as issued from time to time and the same shall form an integral part of this agreement.

9.0 PAYMENT:

9.1 For the 1st 12 (twelve) months of operation, NEEPCO shall raise the bills as per clause-7.2 & 8.1 of this Agreement against energy supplied and the Bulk Power Customer shall pay the bill within 30 (thirty) days from the date of the billing every month. After the 1st 12 (twelve) months of operation, the Bulk Power Customer shall establish a confirmed, revolving, irrevocable Letter of Credit in favour of NEEPCO for an amount equivalent to 105 percent of their average monthly billing of preceding 12 (twelve) months with appropriate bank, ***negotiating Bank at Shillong*** as mutually acceptable to the parties. All the bank charges towards establishment of the LC shall be borne by the Bulk Power Customer.

9.2 NEEPCO shall present the bill(s) to the ***negotiating Bank*** with a copy to the Bulk Power Customer. The bill(s), so presented by NEEPCO, shall be paid by the Bank immediately on presentation.

9.3 Notwithstanding what is contained above, if the bill(s) are not paid by Bulk Power Customer to NEEPCO within 60 (sixty) days from the date of billing, NEEPCO shall have the liberty to regulate the supply to the Bulk Power Customer in accordance with the directives/guidelines issued by CERC/GOI from time to time.

10.0 SURCHARGE ON LATE PAYMENT AND REBATE:

10.1 The provision for levy of surcharge shall be governed as per the notification/directives/guidelines issued/to be issued by CERC/GOI from time to time as per prevailing statutes and same shall form an integral part of this agreement.

10.2 The provision for allowing rebate shall be regulated as per notification/directives/guidelines issued by CERC/GOI from time to time and the same shall form an integral part of this agreement.

11.0 ARBITRATION:

11.1 All questions, differences or disputes between the parties arising out of or in connection with this Agreement save and except as provided under Clause-6.0 of this Agreement to the extent of power vested with NERPC, shall be settled through arbitration in accordance with the provision of Arbitration and Conciliations Act, 1996 and amendment thereof issued from time to time. However, before referring the matter to arbitration, efforts shall be made by the parties to settle the disputes through mutual discussion and conciliation within a period of 90 days.
In the event the parties are unable to resolve any dispute, controversy or claim relating to or arising under this agreement as stated above, which are falling under provisions of Electricity Act'2003, the same shall be dealt in accordance with the provisions under section 79(f) and 158 of the said Act.

11.2 Notwithstanding the existence of any question, disputes and differences referred to arbitration, the parties hereto shall continue to perform their respective obligations under this Agreement.

12.0 FORCE MAJEURE:

Both the parties shall ensure compliance of the terms of this agreement. However, no party shall be liable for any loss or damage whatsoever arising out of failure to carry out the terms of this Agreement to the extent that such failure is due to Force Majeure events, such as rebellion, mutiny, civil commotion, riot, strike, lock out, epidemic, plague, fire, explosion, flood, drought, cyclone, lightening, earthquake, war or other forces, accident, landslide, sabotage, communal violence, terrorism, malicious act of

kidnapping or act of God. But, any party claiming the benefit of this clause shall satisfy the other party of the existence of such an event(s).

13.0 DURATION OF AGREEMENT :

This Agreement shall come into force from the date of signing and shall remain in force for **5(five) years from the Date of Commercial Operation of the last unit of the Project,** provided that this Agreement may be mutually extended, renewed or replaced by another Agreement on such terms and for such further period of time, as the parties may mutually agree to. However, the provisions of this Agreement shall continue to operate till this Agreement is formally renewed, extended or replaced, in case the Bulk Power Customer continues to get power from the Project even after expiry of this Agreement without further renewal or formal extension thereof.

14.0 NOTICES:

All notices required or referred to under this Agreement shall be in writing and signed by the authorities mentioned herein below, unless otherwise notified by the respective parties. Each such notice shall be deemed to have been duly served by any of the parties, if the same is delivered or sent by Registered Mail / Speed Post to the other party.

POWER PURCHASE AGREEMENT

BETWEEN

NORTH EASTERN ELECTRIC POWER CORPORATION LTD.

AND

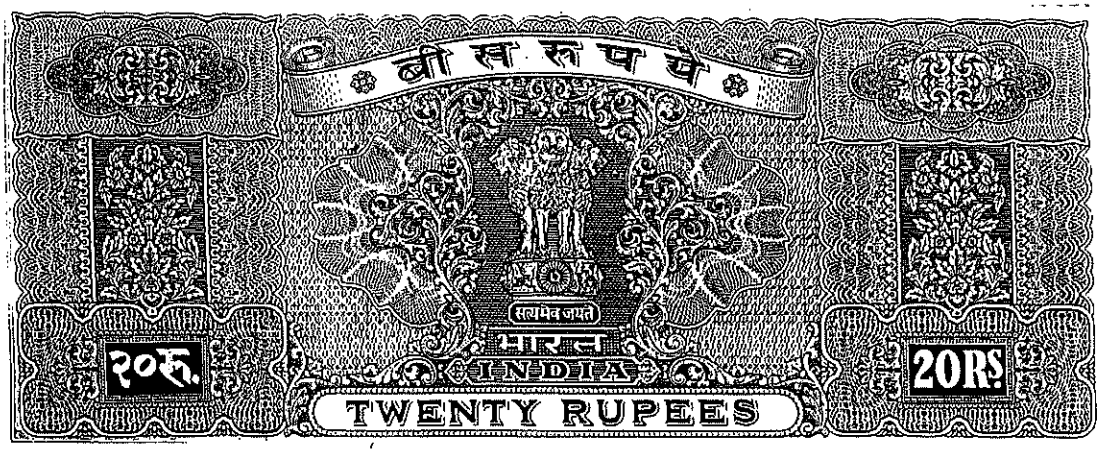
HARYANA VIDYUT PRASARAN NIGAM

THE POWER PURCHASE AGREEMENT is entered into on this 9th day of July, 2004 between North Eastern Electric Power Corporation Ltd., a Company incorporated under the Companies Act, 1956 having its registered office at Brookland Compound, Lower New Colony, Shillong-793003, Meghalaya (hereinafter called "NEEPCO" which expression shall unless repugnant to the context or meaning thereof include its successors and assigns) as party of the first part and Haryana Vidyut Prasaran Nigam (hereinafter referred to as "HVPN"), generally referred to as "Bulk Power Customer" which expressions shall unless repugnant to the context shall include their respective successors and assigns as party of the second part.

Whereas NEEPCO is a generating company of Central Government of India and the Bulk Power Customers shall be allocated power by Govt. of India from Kameng Hydro Electric Project (600 MW), West Kameng District, Arunachal Pradesh (hereinafter referred as "NEEPCO Station") owned and to be operated by NEEPCO.

And whereas HVPN is a Bulk Power Consumer operating in the State of Haryana and is willing to purchase 200 MW of power from Kameng HEP.

NEEPCO New Delhi North Eastern Electric Power Corporation



1.0 DEFINITIONS:

"The words/expressions used in this Agreement, unless repugnant to the context, shall have the same meanings as respectively assigned to them by the Electricity (Supply) Act, 1948, Central Electricity Regulatory Commission Act 1998 and The Electricity Act, 2003 as amended from time to time and Act that would come into force as a substitute or otherwise to the above stated Acts". The words/expressions mentioned below shall have the same meanings as respectively assigned to them hereunder:-

i)	Month	:	means English Calendar month.
ii)	Year	:	means financial year commencing on 1st April and ending on 31st March.
iii)	Energy	:	means the electrical energy.
iv)	Power	:	means the electrical power.
v)	LC	:	means Irrevocable revolving Letter(s) of credit.
vi)	CEA	:	means Central Electricity Authority
vii)	CERC	:	means Central Electricity Regulatory Commission
viii)	GOI	:	means Government of India
ix)	IEGC	:	means Indian Electricity Grid Code.
x)	MOP	:	means Ministry of Power
xi)	Outage	:	means the state of component when it is not available to perform its intended function due to some event directly associated with that component.

TEN RUPEES

xii) POWERGRID : means Power Grid Corporation of India Limited

xiii) NREB : means Northern Regional Electricity Board

xiv) NRLDC : means Northern Regional Load Dispatch Centre.

xv) REA : means periodic regional energy account including amendments thereof if any, prepared by the concerned REB showing exchange of energy among the various constituents of the REB.

xvi) NEREB : means North Eastern Regional Electricity Board.

xvii) NERLDC : means North Eastern Regional Load Despatch Centre

2.0 INSTALLED CAPACITY & ALLOCATION OF POWER:

2.1 The installed capacity of Kameng H.E. Project is 600 MW, the project consisting of four units, each of capacity 150 MW. The Annual Design Energy of the project is 3592 MU. The installed capacity is, however, subject to derating/uprating of the generating units as determined from time to time by CEA.

2.2 The allocation of power from the project amongst the Bulk Power Customers shall be in accordance with the instructions regarding allocation of power issued/or to be issued by the MOP, Govt. of India from time to time.

3.0 GENERAL OBLIGATIONS:

3.1 The energy to be supplied under this agreement shall be in the form of three phase, 50 hertz alternating current at a voltage of 400kV. The frequency and voltage shall be subject to fluctuations as per provisions contained in IEGC and as amended from time to time.

3.2 Evacuation of Power from NEEPCO Station:

Evacuation point shall be 400kV bus bar of Kameng HEP switchyard. Power will be evacuated by 400 kV D/C line to be constructed by POWERGRID from the station switchyard to the existing Balipara S/S of POWERGRID. Evacuation of power from Balipara S/S onward shall be through the existing transmission system of POWERGRID or any other agency as the case may be. The Bulk Power Customer shall make necessary arrangements separately with the concerned agency for evacuation of power & payments of evacuation charges etc. and NEEPCO shall not be responsible for the same in any manner.

3.3 Despatch of Power

Power will be scheduled and dispatched as per the norms stipulated in the relevant acts and directives such as IEGC etc.

3.4 Maintenance of Power Station

NEEPCO shall intimate at least three months in advance to HVPN on the planned major maintenance of the power station.

3.5 Provided that in case HVPN can not draw power from the project due to transmission constraints and/or any other constraint not attributable to HVPN or NEEPCO, the same will be covered under force majeure clause without any financial implications on either side.

4.0 METERING ARRANGEMENTS:

Metering arrangements including its installation, testing, maintenance and collection, transportation and processing of data required for energy exchange shall be governed as per the

notification/directives issued by CERC from time to time and as per relevant provisions contained in IEGC as amended from time to time.

5.0 ACCOUNTING OF ENERGY:

The quantum of energy sold to the Bulk Power Customer out of the energy available for sale shall be the energy as indicated in the REAs issued by NEREB/NREB. The REA including amendments, if any, as issued by NEREB/NREB shall form the basis for billing purposes and shall be binding on both the parties. HVPN shall be responsible for getting corrected any discrepancy in the REA issued by NREB while it will be NEEPCO's responsibility to get corrected any discrepancy in the REAs issued by NEREB and EREB.

6.0 TARIFF:

6.1 The tariff to be charged and its associated Terms and Conditions for the energy to be supplied by NEEPCO from the station shall be as per Tariff Notifications/orders/directions issued/to be issued by CERC from time to time.

6.2 In case a new tariff for the period beyond the period mentioned in the previous tariff notification/orders/direction of the Competent Authority is not finalized before that date, the beneficiary(ies) shall pay to NEEPCO for the power supplied from the project beyond this date on adhoc/provisional basis as per the directions/instructions/orders of CERC.

6.3 In addition to the energy tariff set out, the Bulk Power Customer shall also be liable to pay to NEEPCO in accordance with any law in force, all payments made for payable by it on account of taxes, duties, cess, levy, fees or other imposition etc. levied or to be levied in future as a new tax by the Government or other authority in respect of generation and supply of energy including activities incidental and ancillary thereto as per orders of CERC in this regard.

7.0 BILLING:

7.1 NEEPCO shall prepare bills for the energy supplied to each of the Bulk Power Customers on the basis of REAs issued by NEREB/NREB and Bulk Power Customer shall accept these bills for payment. The bill shall be the aggregate of charges as approved/notified by CERC/Government of India from time to time.

7.2 In case Bulk Power Customer has any objection as to the accuracy of any bill(s), it shall lodge a written objection with NEEPCO within 45 days on presentation of such bill(s). On such objection being upheld by NEEPCO, the same shall be rectified within a period of 30 days from the date of receipt of written objection and necessary effect of the same shall be given in the subsequent bill(s).

7.3 The settlement of all disputed current dues shall be governed as per the directives of CERC/GOI as issued from time to time.

8.0 PAYMENT:

8.1 Payment of bills for supply of power from the project shall be made by the Bulk Power Customer through a confirmed, revolving, irrevocable Letter of Credit to be established in favour of NEEPCO for an amount equivalent to 105 percent of their average monthly billing of preceding 12 months with appropriate bank as mutually acceptable to the parties. The LC shall be kept valid at all the time during the validity of this agreement or extended period. The amount of LC shall be reviewed after every six months. NEEPCO shall intimate the revised amount of LC one month in advance of start of the quarter. If the amount of energy supplied is more than the amount of LC, the payment of excess amount shall be made by the Bulk Power Customer directly on presentation of such bill(s). All the bank charges shall be borne by the Bulk Power Customers.

8.2 NEEPCO shall present bill(s) to the said Bankers with a copy to the Bulk Power Customer. The bill(s) so presented by NEEPCO to the said Bankers shall be promptly paid on their presentation.

8.3 Notwithstanding the above, the Bulk Power Customer who have not signed the Tripartite Agreement shall pursue to obtain guarantee from their respective State Governments as per mutually agreed draft to guarantee the performance of the obligations of Bulk Power Customer to make regular payments of the energy bill presented by NEEPCO for power supplied/to be supplied to Bulk Power Customer from the project.

9.0 SURCHARGE ON LATE PAYMENT AND REBATE:

9.1 The provision for levy of surcharge and rebate shall be governed as per notification/guidelines issued/to be issued by CERC/GOI from time to time.

9.2 Notwithstanding what is contained above, if the bill(s) are not paid by Bulk Power Customer to NEEPCO within 60 days from the date of billing, NEEPCO shall have the option to regulate the supply of energy to Bulk Power Customer in accordance with the directives/guidelines issued by CERC/GOI from time to time.

10.0 ARBITRATION:

10.1 All questions, differences or disputes between the parties arising out of or in connection with this Agreement save and except as provided under clause 5.0 of this agreement to the extent of power vested with NEREB/NREB shall be settled through arbitration in accordance with the provisions of Arbitration and Conciliations Act, 1996 and any statutory modifications thereto. However, before referring the matter of arbitration, efforts shall be made by the parties to settle the disputes through conciliation.

10.2 In the event of such questions, differences or disputes between the parties, any party may, by written notice of 30 days to the other party, request for appointment of a Sole Arbitrator to be decided mutually by the parties and in case of disagreement within 15 days thereafter to be decided by Chairman, Central Electricity Authority. The appointment of the Sole Arbitrator, either mutually agreed by the parties or decided by the Chairman, CEA, shall be made by Head of the Commercial Deptt. of either party. The reference of dispute shall be clearly mentioned in the appointment letter of the Sole Arbitrator. The decision of the

Arbitrator shall be final and binding on the parties. The venue of the arbitration proceedings shall be decided by the Arbitrator with the consent of parties. The High Courts of Guwahati/Shillong bench shall have exclusive jurisdiction in all matters arising under this Agreement.

10.3 The Arbitrator shall reasonably decide his fees. However, the Arbitrator's fees and cost of arbitration proceedings shall be borne equally by the parties. The arbitrator shall publish the award, within a reasonable time.

10.4 Notwithstanding the existence of any question, disputes and differences referred to arbitration, the parties hereto shall continue to perform their respective obligations

11.0 FORCE MAJEURE:

Both the parties shall ensure compliance of the terms of this agreement. However, no party shall be liable for any claim for any loss or damage whatsoever arising out of failure to carry out the terms of this Agreement to the extent that such failure is due to force majeure events such as rebellion, mutiny civil commotion, riot, strike, lock out,, fire, explosion, flood, drought, cyclone, lightning, earthquake, war or other forces, accident or act of God. But any party claiming the benefit of this clause shall satisfy the other party of the existence of such as event(s).

12.0 DURATION OF AGREEMENT:

This Agreement shall come into force from the date of signing of this Agreement and shall remain operative for 5 years from the commercial operation date of the last unit of project provided that this Agreement may be mutually extended, renewed or replaced by another agreement on such terms and for such further period of time as the parties may agreed to. However, the provision of this agreement shall continue to operate till this Agreement is formally renewed, extended or replaced, in case Bulk Power Customer continues to get power from the project even after expiry of this Agreement without further renewal or formal extension thereof.

Provided that in case of major policy change notified by Central Govt./State Govt. of the states through which power shall be transmitted including the state of location of the project and the state of Haryana/CERC/ SERC of the states involved in any way in the transaction of power, this agreement may be reviewed jointly by both the parties, taking care to minimize the losses or maximize the gains to both parties arising out of the policy change.

Provided further that if, at any point of time in future, NEEPCO makes a Bulk Power Purchase Agreement with any other beneficiary, which, in the opinion of HVPN is better than the one made with HVPN, HVPN shall have the right to opt for the better condition(s), by giving at least six months notice as per procedure detailed in Para 13 of this agreement.

13.0 NOTICES:

13.1 All notices required or referred to under this Agreement shall be in writing and signed by the authorities mentioned herein below unless otherwise notified. Each such notice shall be deemed to have been duly given if delivered, or sent by registered mail with an acknowledgement due to the other party.

POWER PURCHASE AGREEMENT

BETWEEN

NORTH EASTERN ELECTRIC POWER CORPORATION LTD

AND

ASSAM STATE ELECTRICITY BOARD

THIS POWER PURCHASE AGREEMENT hereinafter called "PPA " is entered into on the 8th (eighth) day of September Two Thousand Four between **North Eastern Electric Power Corporation Limited**, a Company incorporated under the Companies Act, 1956 having its registered office at Brookland Compound, Lower New Colony, Shillong –793003 (hereinafter called **NEEPCO**) which expression unless repugnant to the context or meaning thereof include its successors and assigns as **"First Party"** and **Assam State Electricity Board** (hereinafter referred to as **"ASEB"** or the **"Second Party"**) .

PREAMBLE

WHEREAS NEEPCO has been established by the Govt. India with an objective to construct, commission, own, operate and maintain Electrical Generating Stations.

AND WHEREAS NEEPCO has been entrusted by the Govt. of India to construct, commission, own, operate and maintain the 600 MW Kameng Hydro Electric Project located in West Kameng District of Arunachal Pradesh

AND WHEREAS the Second Party is agreeable to purchase 300 MW of power from Kameng Hydro Electric Project out of the total installed capacity of 600 MW.

Now, THEREFORE, in consideration of the premises and mutual agreements, covenants and conditions set forth herein, it is hereby agreed by the parties as follows: -

8/9/04

8/9/04

1.0 QUANTUM OF POWER

1.1 The Second Party shall be entitled to draw 300 MW out of the total installed capacity of 600 MW. However, entitlement on the real time shall be pro rata on the basis of available plant capacity.

1.2 Delivery point for the drawal of power shall be the ex- power plant bus.

1.3 Scheduling will be in accordance with Indian Electricity Grid Code.

2.0 TARIFF

2.1 Generation Tariff payable by the Second Party to NEEPCO for power generated from Kameng Hydro Electric Project shall be as approved by Central Electricity Regulatory Commission (CERC)) based on norms of operation prescribed under CERC Regulations applicable from time to time from the date of commercial operation of the Project. This however shall not preclude NEEPCO and ASEB from agreeing to improved norms of operation and in case improved norms are agreed to, such norms shall be applicable for determination of Tariff.

2.2 In addition to the Generation Tariff indicated at 2.1 above, the Second Party shall also be liable to pay applicable Charges for delivery of power to the Grid as approved by CERC.

2.3 In case of time and cost over-run of the Project, ASEB reserves the right to review/ revoke the agreement as and when the Project goes on commercial operation.

3.0 BILLING AND PAYMENT

3.1 Billing will be done on the basis of Regional Energy Accounts (REA) prepared by North Eastern Regional Electricity Board (NEREB) and as per prevailing CERC Tariff Regulation.

3.2 Payment shall be made by the Second Party as provided in the Terms and Conditions of Tariff Regulation of CERC as applicable in time of operation of the project

3.3 Rebate and Surcharge shall be in accordance with the Terms and Conditions of Tariff notified by CERC as applicable in time of operation of the project.

4.0 ARBITRATION

Dispute relating to matter or matters for which provision for arbitration is made in the Electricity Act, 2003 or for which any statutory provision exists, or is made or

8/9/04

8/9/04

may be made in the future by Competent Legislature shall be dealt with as provided under the relevant Act.

5.0 FORCE MAJEURE

All the parties shall ensure compliance with the terms of this agreement. However, no parties shall be liable for any claim, for any losses or damage(s) whatsoever arising out of failure to carry out the terms of this agreement to the extent that such failure is due to the force majeure on accounts of events such as rebellion, mutiny, civil commotion, riot, strike, lockout, fire, explosion, flood, drought, cyclone, lightning, earthquake, or other force, accident or act of God etc. But any party claiming the benefit of this clause shall satisfy the other party of the existence of such events.

6.0 DURATION OF AGREEMENT

This agreement shall come into force from the date of signing of this agreement and shall remain operative for a period of 5 (five) years from the date of commercial operation of the last unit of the project provided that this Agreement may be extended, amended, renewed or replaced by another agreement on such terms and for such future period of time as the parties may mutually agree. However, the provisions of this agreement shall continue to operate till this agreement is formally renewed, amended, extended, or replaced, in case the second party continue to get power from **NEEPCO** after expiry of this agreement without further renewal or formal extension thereof.

7.0 NOTICE

All notices required or referred to under this Agreement/ Acts shall be in writing and signed by the respective authorised signatories of the parties mentioned herein unless otherwise notified. Each such notice shall be deemed to have been duly given if delivered or sent by registered mail/speed post of Department of Post with an acknowledgement due, to the other party.

POWER PURCHASE AGREEMENT

BETWEEN

NORTH EASTERN ELECTRIC POWER CORPORATION LTD

AND

POWER DEPARTMENT, GOVT. OF ARUNACHAL PRADESH

THIS POWER PURCHASE AGREEMENT hereinafter called "PPA" is entered into on the 21st day of May Two Thousand Four between North Eastern Electric Power Corporation Limited, a Company incorporated under the Companies Act, 1956 having its registered office at Brookland Compound, Lower New Colony, Shillong-793003 (hereinafter called NEEPCO) which expression unless repugnant to the context or meaning thereof include its successors and assigns as " First Party" and Power Department, Govt. of Arunachal Pradesh(hereinafter referred to as "Power Department, AP" or the "Second Party")

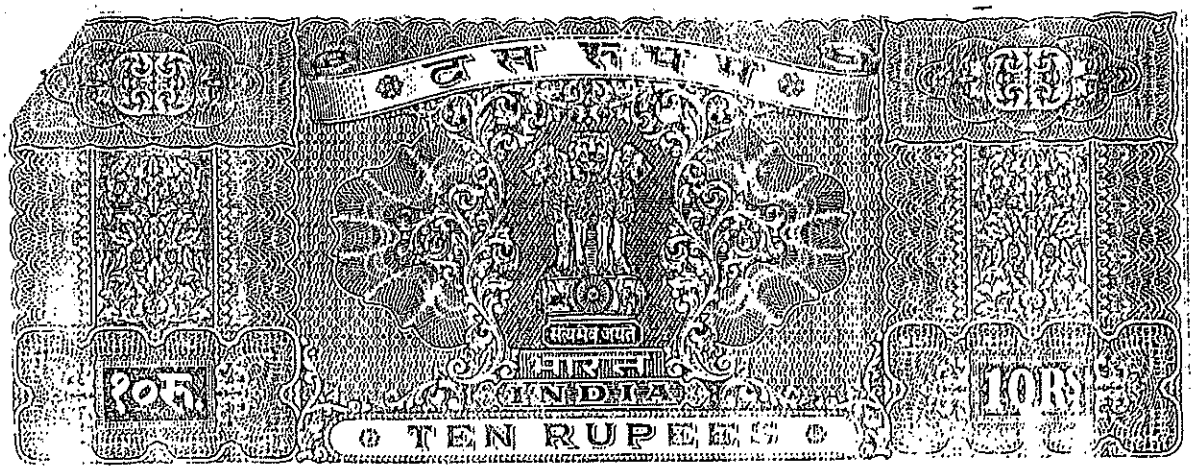
PREAMBLE

WHEREAS NEEPCO has been established by the Govt. of India with an objective to construct, commission, own, operate and maintain Electrical Generating Plant.

AND WHERAS NEEPCO has been entrusted by the Govt. of India to construct, commission, own, operate and maintain the 600MW Kameng Hydro Electric Project located in West Kameng District of Arunachal Pradesh.

AND WHERAS the Second Party is agreeable to purchase 50% (300MW) of power from Kameng Hydro Electric Project out of the total installed capacity of 600MW of which 12% of the total energy generation shall be supplied free of cost in lieu of over all distress caused to land, forest, river bed and other natural resources.

10 Rs.



Now, THEREFORE, in consideration of the premises and mutual agreements, covenants and conditions set forth herein, it is hereby agreed by the parties as follows:

1.0 QUANTUM OF POWER

1.1 The Second Party shall be entitled to draw not less than 10% (60MW) by scheduling at least one unit available round the clock and up to 50% (300 MW) during peak demand out of the total installed capacity of 600MW of which 12% of total energy generation shall be supplied free of cost subject to NERLDC regulations. However, entitlement on the real time shall be pro rata percentage basis of the available plant capacity.

. Delivery point for drawal of power shall be the ex-power plant bus.

1.3 Scheduling of power will be as per terms of this agreement.

1.4 India Grid Code and CERC guidelines shall govern in the event of any difficulty in interpretation of this agreement.

2.0 TARIFF

2.1 The estimated tariff at 2003 price level for the first year is 160 paise per unit at powerhouse bus bar. The first party shall make all efforts to contain the tariff within this level and this estimated tariff shall have a bearing on the tariff proposal to be submitted to the CERC.

2.2 The final tariff shall however be decided by the Central Electricity Regulatory Commission (CERC) on completion of the project.

2.3 Generation Tariff payable by the Second Party to the First Party for power generated from Kameng Hydro Electric Project shall be as approved by CERC.

2.4 In addition to the Generation Tariff indicated at 2.3 above, the Second Party shall also be liable to pay applicable Connectivity Charges for transmission of power from power plant bus to the Grid as approved by CERC.

3.0 BILLING AND PAYMENT

2.1 Billing will be done on the basis of Regional Energy Accounts (REA) prepared by North Eastern Regional Electricity Board (NEREB) and as per prevailing CERC Tariff Regulation.

3.2 Payment shall be made by the Second Party as provided in the Terms and Conditions of Tariff Regulation of CERC as applicable at the time of operation of the project.

3.3 Rebate and Surcharge shall be in accordance with the Terms and Conditions of Tariff notified by CERC as applicable at the time of operation of the Project.

4.0 ARBITRATION

Dispute relating to matter or matters for which provision for arbitration is made in the Electricity Act,2003 or for which any statutory provision exists, or is made or may be made in the future by Competent Legislature shall be dealt with as provided under the relevant Act.

5.0 FORCE MAJEURE

All the parties shall ensure compliance with the terms of this agreement. However, no parties shall be liable for any claim, for any losses or damage(s) whatsoever arising out of failure to carry out the terms of this agreement to the extent that such failure is due to the force majeure on account of events such as rebellion, mutiny, civil commotion, riot, strike, lockout, fire, explosion, flood, drought, cyclone, lighting, earthquake, or other force, accident or act of God etc. But any party claiming the benefit of this clause shall satisfy the other party of the existence of such events.

6.0 DURATION OF AGREEMENT

This agreement shall come into force from the date of signing of the same by the parties and shall remain operative for a period of 15(fifteen) years provided the Agreement may be extended, amended, renewed or replaced by another agreement on such terms and for such future period of time as the parties may mutually agree. However, the provisions of this agreement shall continue to operate till this agreement is formally renewed, amended, extended, or replaced, in case the second party continues to get power from NEEPCO after expiry of this agreement without further renewal or formal extension thereof.

21/5

21/5/04

7.0 NOTICE

All notices required or refereed to under this Agreement/Acts shall be in writing and signed by the respective authorized signatories of the parties mentioned herein unless otherwise notified. Each such notice shall be deemed to have been duly given if delivered or sent by registered mail/speed post of Department of Post with an acknowledgment due, to the other party.

In witness whereof the parties hereto have caused this Agreement to be executed hereunder by their duly authorized representative(s) at Itanagar on the day, month, and year mentioned above.

New Delhi.

(Fax No. 011-26188213)

Subject: Revised power potential study of Kameng HEP (600 MW)

Sir,

NEEPCO vide letter no. NEEPCO/ND/F-32/2011-12, dated 21.11.2011 have submitted revised Power Potential studies of Kameng HEP (600 MW) based on revised hydrology series for 13 years (1969-70 to 1981-82), approved by CWC on 09.11.2011. The revision in hydrology was necessitated because of changes made by M/s NEEPCO in planning/ layout of certain structures of project at preconstruction stage. There was change in catchment area of Bichom/Tenga dams.

2. At the time of TEC, power potential studies were carried out considering hydrology from 1969-70 to 1980-81 (12 years) with 90% dependable year assessed as 1976-77. The installed capacity fixed was 600 MW. The TG efficiency was considered as 87%. The annual energy generation in 90% year was assessed as 3591.67 GWh.

3. The Chapter of revised power potential chapter submitted by NEEPCO was framed based on approved hydrology and considering change in certain parameters viz. 90% dependable year, average TWL, net head, TG efficiency, etc. NEEPCO mentioned that the project is currently under construction and significant works had been completed (till 13th November, 2011) which include 10.124 km boring of HRT out of 14.47 KM, 100% boring of surge shaft, 70% of surge shaft lining, 80% boring of high pressure tunnel, 70% open excavation for surface penstock & valve house and 38 nos. of 6 m diameter steel liner for Tenga crossing ferrules for a length of 95m, etc. Besides, power house works are also under way. Keeping in view the progress of works, the installed capacity was kept unchanged since any change in IC would necessitate change in all the hydel, civil components.

4. The power potential has been examined and parameters adopted for revised studies/power potential finalized are as under:

NEEPCO
New Delhi
North Eastern Electric Power Corporation

Sl. No.	Item	As per TEC	As finalised
1.	Hydrology Series	1969-70 to 1980-81	1969-70 to 1981-82
2.	90% Dependable Year	1976-77	1981-82
7.	Aquatic Releases (cumec)	Nil *	Nil *
3.	Net Head (m)	500	492.75
5.	Average TWL (EL)	231.0	234.637
6.	Head Loss (m)	-	40.78
4.	Efficiency of TG Set	87%	92.98%
8.	Installed Capacity (MW)	600	600
11.	Firm Power (MW)	163.52	168.86
12.	Peaking (Hours)	6.54	6.75
9.	Annual Energy (MU)	3592	3431
10.	Design Energy (MU) at 95% m/c availability	-	3353
13.	Annual load factor (%)	68.33	65.1
14.	Lean period Load Factor (%)	-	35.0

* Not considered, since no stipulation in this regard is available in environment clearance for Kameng HEP.

The power potential studies have been vetted keeping in view the parameters, progress of construction work as indicated in para 3 above and installed capacity of the project has been kept unchanged as 600 MW with 4 units of 150 MW each. The design energy at 95% m/c availability works out to 3353 MU and the same was assessed without considering aquatic releases since currently, no stipulations of MoEF is available with regard to downstream releases for environment. NEEPCO may, however, get the energy benefits reviewed in case any stipulation is made in this regard by the appropriate authority, later.

The summary of finalised power potential studies indicating inflows, power and energy generation of Kameng HEP is attached at Annex-I.

Encl: as above

(A.K. Mittal)

Directors' Report
for the year 2020-21

Dear Members,

On behalf of the Board of Directors, it is my privilege to present the 45th Annual Report on the performance of your Corporation during the Financial year ended on 31st March 2021, along with the audited Statement of Accounts, Auditors Report and Review of the Accounts by the Comptroller & Auditor General India for the period.

FINANCIAL PERFORMANCE

The performance of the Corporation for the financial year ended 31st March 2021 and 31st March 2020 are summarized below:

PERFORMANCE AT A GLANCE

(₹ in lakhs)

Sl. No.	Items	2020-21	2019-20*
A	Revenue from Operation	228809.42	216576.28
B	Other Income	26634.86	4031.07

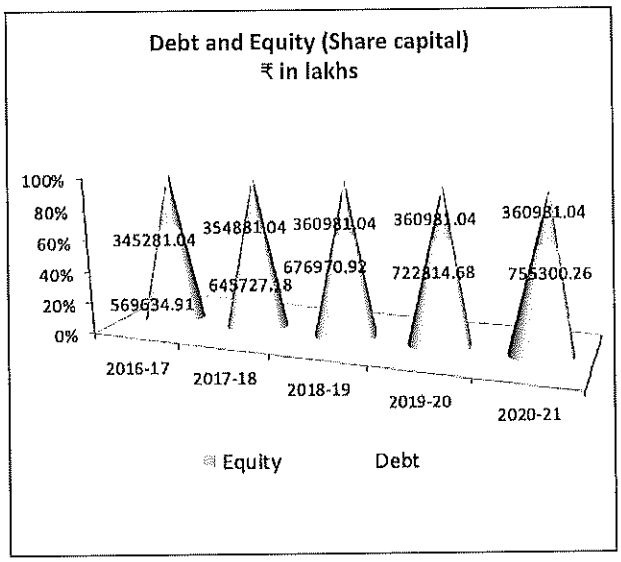
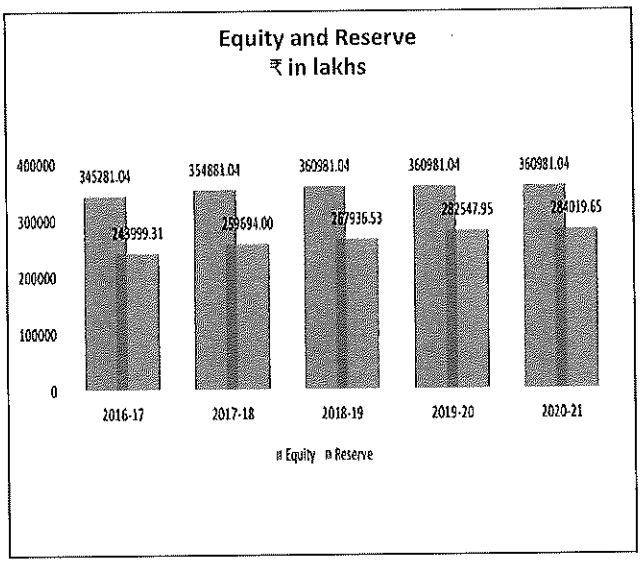
* Restated

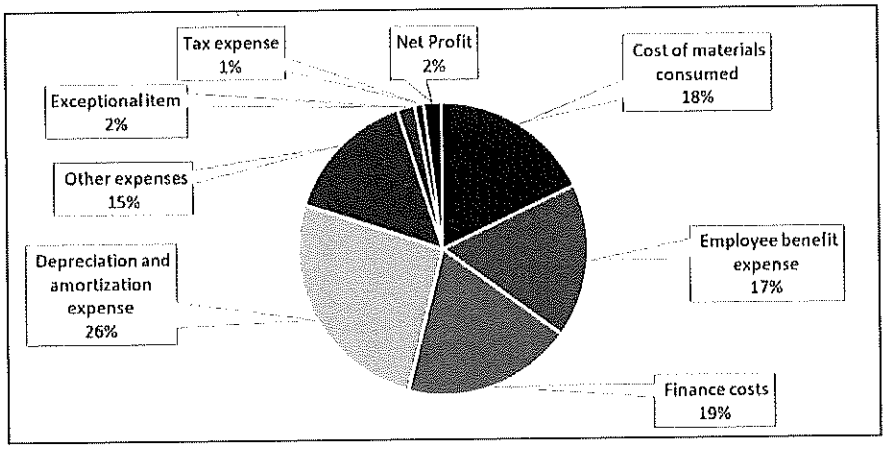




Income analysis

Total income of the Corporation for the year 2020-21 is ₹255444.28 lakh (previous year ₹220607.35 lakh).

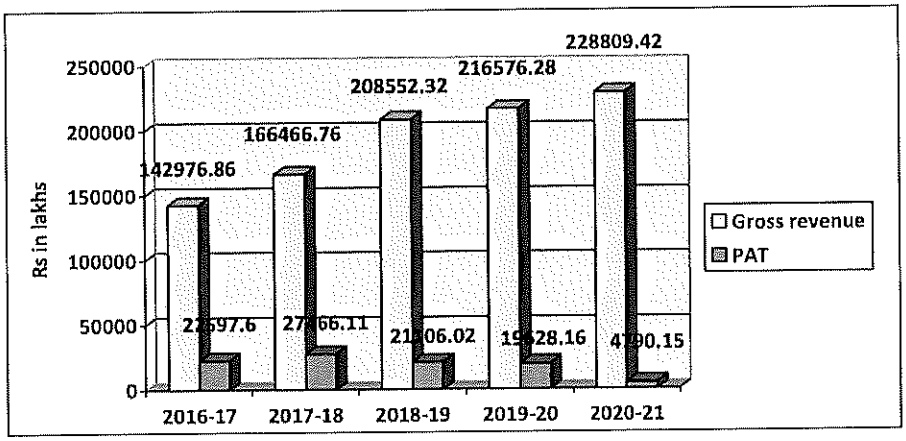
Analysis of Expenditure w.r.t. Total income



- The above analysis excludes Movement in Regulatory Deferral Accounts balance & Tax thereon

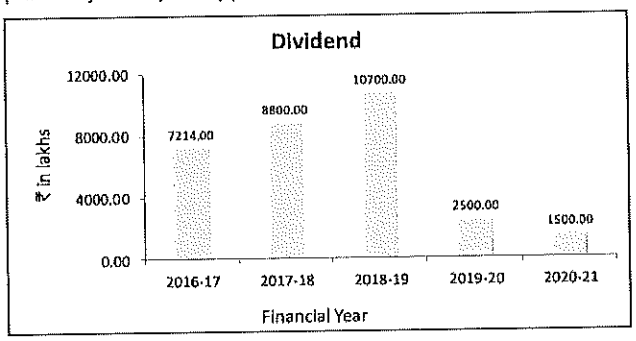
Profit before and after tax

The Corporation earned a profit before tax of ₹9090.50 lakh as against of ₹30331.07 lakh of previous year and the profit after tax amounts to ₹4790.15 lakh as against previous year figure of ₹19628.16 lakh.



Dividend

The Company has not paid any interim dividend for the financial year 2020-21. Your Directors have recommended a final dividend of ₹1500.00 lakh for the year 2020-21. The total dividend payout for the year amounts to ₹1500.00 lakh i.e. ₹0.04 per equity share. The dividend pay-out represents 31.31% of Profit after Tax (PAT). The final dividend shall be paid subject to your approval in the Annual General Meeting.



FINANCIAL REVIEW

A. CAPITAL STRUCTURE

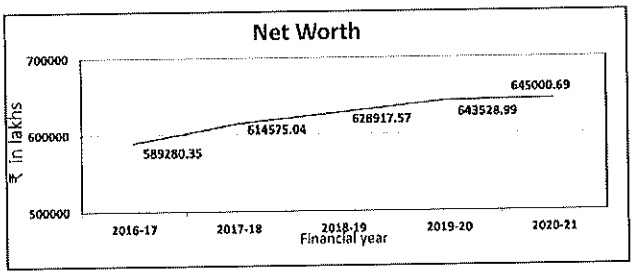
The Authorised Share Capital of the Corporation as on 31.03.2021 stood at ₹500000.00 lakh and the Paid up Capital was ₹360981.04 lakh (Previous year ₹360981.04 lakh).

B. BORROWINGS

The Corporation mobilised a loan of ₹170600.00 lakh from various domestic agencies during the financial year 2020-21.

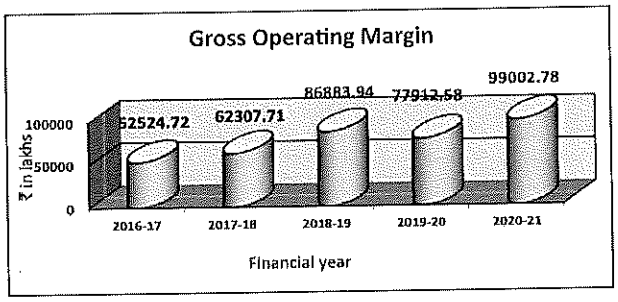
C. NET WORTH

The Net Worth of the Corporation excluding capital reserve as on 31st March, 2021 was ₹645000.69 lakh against ₹643528.99 lakh as on 31st March, 2020 representing a growth of 0.23%.



D. GROSS OPERATING MARGIN

The Gross Operating Margin of the Corporation as on 31st March, 2021 was ₹99002.78 lakh against ₹77912.58 lakh as on 31st March, 2020.



E. STATUTORY AUDITOR

L K Kejriwal & Co, Chartered Accountants, Guwahati was appointed as the Statutory Auditor of the Company, by the Comptroller & Auditor General of India for the financial year 2020-21.

F. MANAGEMENT COMMENTS ON STATUTORY AUDITOR'S REPORT

The Statutory Auditor of the company has submitted the report on the Financial Statements of the Company for the financial year 2020-21. The report of the Statutory Auditor dated the 10th June 2021 is given at **ANNEXURE-6A** (for Stand-alone Financial statements) and **ANNEXURE-6B** (for Consolidated Financial Statements). The Management's Reply to the "Emphasis of Matters" and "Internal Financial Control" in the Statutory Auditors Report is given in **ANNEXURE-6C**.

G. REVIEW OF ACCOUNTS BY COMPTROLLER & AUDITOR GENERAL OF INDIA

The Comptroller & Auditor General of India has conducted supplementary audit of the financial statements (Stand alone as well as Consolidated) of the Company for the FY 2020-21 under Section 143 (6) (a) of the Companies Act, 2013. Comments of the C&AG on the financial statements of your Company are given at **ANNEXURE-7** for Stand-alone Financial statements and for Consolidated Financial Statements.

H. COST AUDIT

As prescribed under the Companies (Cost Records and Audit) Rules, 2014, the Cost Accounting Records are being maintained by all operating stations of your Company. M/s. Bandyopadhyaya Bhaumik & Co, Guwahati was appointed under section 148 of the Companies Act, 2013 as Cost Auditor for the financial year 2020-21 for conducting cost audit of cost

accounting records of the Company. The Cost Audit for the year 2020-21 has been completed. The Cost Audit Report for the financial year ended March 31, 2021 shall be filed within the prescribed time under the Companies (Cost Records & Audit) Rules, 2014.

I. **SECRETARIAL AUDITOR**

M/s. Biman Debnath & Associates, Practicing Company Secretaries, Guwahati, was appointed as the Secretarial Auditor of the Company for conducting the secretarial audit for the year 2020-21. The Secretarial Audit Report in Form No.MR-3 for the financial year ended 31st March 2021 as audited by M/s. Biman Debnath & Associates, Practicing Company Secretaries is enclosed as **ANNEXURE -8**.

PLANTS IN OPERATION

POWER GENERATION

The total generation achieved during the year 2020-21 is 6869.86 MU against the MoU "Excellent" target of 6600 MU. Power generation achievement in FY 2020-21 vis-à-vis FY 2019-20 is given below:

Power Station	Generation Target (MU) FY 2020-21 for "Excellent" MOU rating	Actual Generation (MU) FY 2020-21	Actual Generation (MU) FY 2019-20	Actual Plant Availability Factor (%) FY 2020-21	Actual Plant Availability Factor (%) FY 2019-20
AGBPP (291 MW), Assam	1660	1570.19	1704.03	64.62	69.44

*** Cumulative generation and PAF of Kopili Power Station are up to 07.10.2019. The station is presently under Reconstruction, Renovation & Modernization**					

Achievement:

All 4 (four) units of 600 MW Kameng Hydro Electric Project have been declared for commercial operation during the year Financial Year 2020-21. Commercial operation dates (COD) of the Kameng HEP units are as shown: -

Unit # 1: 17/06/2020.
Unit # 2: 01/07/2020.
Unit # 3: 22/01/2021.
Unit # 4: 12/02/2021.

HYDRO ELECTRIC PLANTS

A) 275 MW Kopili Hydro Electric Plant (KHEP), Assam.

Kopili Hydro Electric Plant	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual Plant Availability Factor (APAF) (%) during 2020-21
Power Stations		Design Energy	MoU Target (Excellent)	Actual during 2020-21		
Kopili Power Station	200 (4 x 50 MW)	1186.14*	Reconstruction, Renovation & Modernization is in progress.			
Khandong Power Station	50 (2 x 25 MW)	277.65	34	67.84	67	34.87
Kopili Stage-II Power Station	25 (1 x 25 MW)	86.30	15	0.00	69	0.00
Total	**275**	**1550.09**	**49**	**67.84**	-	-

** The design energy of Kopili Power Station has since been revised to 993.80 MU as conveyed by CEA on 05.03.2021.*

a) 4 X 50 MW Kopili Power Station is under reconstruction, renovation & modernization. Schedule date of commissioning is December, 2022.

b) Unit - I & II of Khandong Power Station were under shutdown w.e.f. 17/02/2020 for inspection and repairing of water conductor system. The units were brought back to the grid on 05/11/2020 and 07/11/2020 respectively.

c) Kopili Stage - II unit is under shutdown w.e.f. 20/01/2020 for inspection and repairing of water conductor system.

Present Status of Renovation & Modernization of Kopili Power Station

- The rupture of penstock on 07.10.2019 led to massive flooding of the Power Station and switchyard. The power station was submerged in water with mud.
- Electro-mechanical equipment in the Power Station, Penstock and a part of 220 KV Switchyard were badly damaged. Major structures like Dam, Intake, Head Race Tunnel, surge shaft, power house building however, were not affected by the unprecedented event.
- Modalities for undertaking Emergency/Enabling and Reconstruction works, was taken up immediately. Restoration work commenced with cleaning and dismantling of the power station and switchyard equipment.
- Progress of work slowed down due to the COVID-19 pandemic, lockdown and strictures imposed by the local bodies affecting swift movement of men, machine and materials. Subsequently, when restrictions eased, contractors/vendors revisited their offers for the required supply, work and services. Progress of work also gradually picked up.
- Works at site were carried out duly conforming to Standard Operating Procedures (SOP) issued by the Government of India from time to time.

  Status of the works for the year are as under:

  - Dismantling work of Penstock – I and II is completed. Cutting of Anchor Blocks is in progress. Two Butterfly Valves have also been dismantled.
  - Dismantling of underwater parts of all the 4 units of the Power House is completed.
  - Cutting and dismantling of transformer Cooling Water pipes at turbine floor is in progress. Cutting and dismantling of Air Ducts & firefighting pipe lines is in progress.
  - Dismantling of Generator Transformers is completed.
  - Dismantling of damaged equipment of 220 kV Switchyard is in progress.
  - Restoration of 33 kV Switchyard is in progress.
  - New DG set has been put on service.
  - Installation of drainage and dewatering pumps, SSB, UAB, etc. is in progress.
  - Order placed for Design, Fabrication, Supply, Erection, Testing & Commissioning of Penstock and Steel In-Liners in Umrong System and for two Penstock protection butterfly valves.
  - Order placed for supply and supervision of complete Erection, Testing and Commissioning of 5(Five) 65 MVA, 11/220 KV, Three Phase Generator Step Up Transformers.
  - Order placed for supply and delivery of 3 (three) sets of Stainless Steel 1400 mm dia. Spherical Valves (MIV) with associated items and refurbishment of one MIV.
  - Order placed for Supply and Supervision of Complete Assembly, Erection, Testing and Commissioning at site of all Electro Mechanical Equipment to be installed in the Power House.

  Work order issued for Civil works pertaining to restoration/reconstruction of the Plant.

B) 75 MW Doyang Hydro Electric Plant (DHEP), Nagaland

Doyang Hydro Electric Plant	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual Plant Availability Factor (APAF) (%) during 2020-21
		Design Energy	MoU Target (Excellent)	Actual during 2020-21		
	75 (3x 25 MW)	227.24	168	203.87	70	60.32

APAF shortfall of DHEP was due to shutdown of Unit # 3 w.e.f. 08/03/2020 to 17/02/2021 due to Generator Transformer failure.

C) 405 MW Ranganadi Hydro Electric Plant (RHEP), Arunachal Pradesh

Ranganadi Hydro Electric Plant	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual Plant Availability Factor (APAF) (%) during 2020-21
		Design Energy	MoU Target (Excellent)	Actual during 2020-21		
	405 (3 x 135 MW)	1509.66	1275	1399.26	88	95.51

The design energy of RHEP has since been revised to 1293.73 MU as conveyed by CEA on 14.03.2021.

D) 60 MW Tuirial Hydro Electric Plant (TrHEP), Mizoram

Tuirial Hydro Electric Plant	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual Plant Availability Factor (APAF) (%) during 2020-21
		Design Energy	MoU Target (Excellent)	Actual during 2020-21		
	60 (2 x 30 MW)	250.63	210	158.83	85	74.27

Generation achievement and APAF shortfall from TrHEP is due to less availability of reservoir water, restriction imposed by SLDC, Mizoram & system constraints.

- The Revised Cost Estimate at November, 2017 price level was vetted by the Central Electricity Authority (CEA) on 08.03.2019 for ₹117535.00 Lakh. Further, the CEA vetted the IDC & FC of Tuirial HEP on 05.04.2019 for ₹6880.00 Lakh (₹6861.00 Lakh IDC + ₹19.00 Lakh FC). Indexed capital cost of the Project amounts to ₹124415.00 Lakh.
- As desired by Ministry of Power, Govt. of India vide letter dated 8th January 2021, the Revised Cost Estimate of the Project has been submitted to NTPC.
- Equity of ₹16404.00 Lakh is received. Balance equity of ₹2258.00 Lakh is yet to be received.

E) 110 MW Pare Hydro Electric Plant (PHEP), Arunachal Pradesh.

Pare Hydro Electric Plant	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual Plant Availability Factor (APAF) (%) during 2020-21
		Design Energy	MoU Target (Excellent)	Actual during 2020-21		
	110 (2x 55 MW)	506.42	465	522.30	85	90.53

- The CEA vetted cost for the project stands at ₹164031.00 Lakh, including IDC and FC of ₹23804.00 Lakh.
- As desired by Ministry of Power, Govt. of India vide letter dated 8th January 2021, the Revised Cost Estimate of the Project has been submitted to NTPC.
- Equity of ₹20620.00 Lakh is received. Balance equity of ₹28589.00 Lakh is yet to be received.

F) 600 MW Kameng Hydro Electric Plant (KaHEP), Arunachal Pradesh

Kameng Hydro Electric Plant	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual Plant Availability Factor (APAF) (%) during 2020-21
		Design Energy	MoU Target (Excellent)	Actual during 2020-21		
	600 (4x150 MW)	3353	1422	1529.57	Yet to be notified by CERC	86.09

- Revised Cost Estimate of the Project amounting to ₹792734.21 Lakh at Jun-2019 PL was submitted to the CEA on 30.08.2019. The last Unit of the Project was declared for commercial operation on 12.02.2021. The RCE at completion cost is being processed for submission and obtaining approval.
- Equity of ₹87170.00 Lakh is received. Balance equity of ₹150650.00 Lakh is yet to be received.

THERMAL PLANTS

A) 291 MW Assam Gas Based Power Plant (AGBPP), Assam

Assam Gas Based Power Plant (Combined cycle)	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual Plant Availability Factor (APAF) (%) during 2020-21
		Annual Energy	MoU Target (Excellent)	Actual during 2020-21		
	291 (6 x 33.5 MW + 3 x 30 MW)	1746	1660	1570.19	72	64.62

Generation achievement and APAF shortfall from AGBPP is due to less availability of Gas and low requisition by the beneficiaries.

Assam Gas Based Power Plant (Combined Cycle)	Gas Supplier	Contracted Quantity (MMSCMD)	Average Gas supply (MMSCMD)		
			2018-19	2019-20	2020-21
	M/s OIL	1.40	1.24	1.30	1.24

The Gas Sale and Purchase Agreement with M/s OIL is for supply of 1.40 MMSCMD of gas to the plant. Gas supply was restricted w. e. f. July, 2020 to an average of 0.82 MMSCMD. As communicated by M/s OIL, the reduced gas supply is due to the major fire incident that took place on 9th June, 2020 in one of the operating wells in Baghjan area of Tinsukia District in Assam and forced closure of nearby wells of M/s OIL by protesters of local NGOs. Quantum of gas increased w.e.f. October, 2020. Average Gas supply during 2020-21 was 1.24 MMSCMD.

B) 135 MW Agartala Gas Turbine Combined Cycle Power Plant (AGTCCPP), Tripura

Agartala Gas Turbine Combined Cycle Power Plant	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual Plant Availability Factor (APAF) (%) during 2020-21
		Annual Energy	MoU Target (Excellent)	Actual during 2020-21		
	135 (4 x 21 MW + 2 x 25.5 MW)	810	760	880.00	85	83.11

PAF achievement shortfall of AGTCCPP is due to less availability of Gas.

Agartala Gas Turbine Combined Cycle Power Plant	Gas Supplier	Contracted Quantity (MMSCMD)	Average Gas supply (MMSCMD)		
			2018-19	2019-20	2020-21
	M/s GAIL	0.75	0.50	0.62	0.69

The Gas Sales and Transportation Contract between NEEPCO and GAIL, is for supply of 0.75 MMSCMD of gas to the plant, to be supplied from the gas fields of M/s ONGC. Average Gas drawn during 2020-21 was 0.69 MMSCMD.

C) 101 MW Tripura Gas Based Power Plant (TGBPP), Tripura

Tripura Gas Based Power Plant (Combined Cycle)	Installed Capacity (MW)	Generation in Million Units			Normative Annual Plant Availability Factor (NAPAF) (%)	Actual Plant Availability Factor (APAF) (%) during 2020-21
		Annual Energy	MoU Target (Excellent)	Actual during 2020-21		
	101 (1 x 65.42 MW + 1 x 35.58 MW)	752.05	585	532.67	85	63.30

Generation achievement and APAF shortfall from TGBPP is due to very less availability of Gas.

Tripura Gas Based Power Plant (Combined Cycle)	Gas Supplier	Contracted Quantity (MMSCMD)	Average Gas supply (MMSCMD)		
			2018-19	2019-20	2020-21
	M/s ONGC	0.50	0.43	0.42	0.37

NEEPCO signed an agreement with M/s ONGC for supply of 0.5 MMSCMD of gas (182.5 MMSCM annually) for the Plant. Average Gas supply during 2020-21 was 0.37 MMSCMD. Power Generation was also affected, due to restriction imposed by SLDC, Tripura.

RENEWABLE ENERGY PLANT

A) 5 MWp Grid Interactive Solar PV Power Plant at TGBPP Site, Tripura:

The energy generated from the plant during 2020-21 was 5.33 MU against MoU" Excellent" target of 6.00 MU with Capacity Utilization Factor (CUF) of 12.13 %. Energy Generation was as per solar irradiation.

ANALYSIS OF POWER GENERATION

Net Energy Generation achieved during the year 2020-21 was 6869.86 MU against 6387.29 MU achieved during FY 2019-20. Total energy generation in 2020-21 including loss due to system constraints, untraded amount, under requisition which are not attributable to NEEPCO is 7246.46 MU. Increase in energy generation with respect to the previous year is 7.55%. There was an increase in installed capacity in FY 2020-21 by 17.08% (2057 MW) w.r.t. installed capacity of FY 2019-20 (1757 MW). Total energy injected into the grid with respect to the total in NER was 37%.

Renewable Energy Initiative:

A) 200 MW Solar PV Power Project at Odisha:

In-principle approval of State Agencies of Odisha was obtained for setting up the project. In-principle approval of the MoP for start of project was also sought. However, considering the cost, availability of land, low irradiance factor, etc., the 200 MW Project was found unviable.

The Board of Directors in its 261st BOD meeting held on 30th October 2020 approved the closure of the Project at Dhenkanal, Odisha.

B) Ultra Mega Renewable Energy Power Park (UMREPP):

NEEPCO was allotted the state of Odisha for development of Solar Park of 1800 MW capacity under Ultra Mega Renewable Energy Power Park (UMREPP) Scheme of MNRE. A proposal was submitted to Govt of Odisha for formation of SPV/JV with Government of Odisha's nominated agency for development of UMREPP. Consultations/discussions were held with the Govt. of Odisha for their affirmation on the development of the Solar Park as JVC with NEEPCO.

However, in a meeting held on 12.06.2020 under the Chairmanship of Hon'ble Minister (I/C), Power & NRE at MNRE, New Delhi, it has been recorded that, the land in Odisha was not found suitable for setting up of UMREPP & accordingly, exemption from setting up of UMREPP was sought by NEEPCO.

C) Renewable energy initiatives:

Process is ongoing for identification of renewable energy projects. NEEPCO in association with Solar Energy Corporation of India Ltd. (SECI) is planning to initiate ground work for establishment of solar in the Solar rich Kargil and Leh Divisions. To start the activities, an office at Saspol, Leh District with manpower is established.

ONGOING PROJECT

600 MW Kameng H.E. Project (KaHEP), Arunachal Pradesh:

a. All major works required for commissioning of the project in March, 2018 were completed by the last week of February, 2018 and two hydro turbine - generator units of 150 MW each (Unit – I & Unit – II) were put on trial mechanical run on 08.03.2018 and 10.03.2018 respectively. However, multiple leakages in the penstocks were noticed on 12th March 2018 and as a result penstock rectification works had to be undertaken.

b. Rectification works of Penstock – I & II were completed on 09.10.2019 and 27.11.2020 respectively.

c. Rectification works of Penstock – II was hampered due to Covid-19 pandemic and subsequent nationwide "Lockdown". Moreover, strictures imposed by the local bodies restricted movement of Labour, equipment and manpower, etc. which adversely affected rectification activities.

d. Despite Covid-19 pandemic and restraint, all four units of 150 MW each were commissioned and commercial operation commenced after running the generating units for a continuous period of 12 hours in compliance to Clause 6.3 A.2 and 6.3 A.3 of the Central Electricity Regulatory Commission (India Electricity Grid Code) (Fourth Amendment), Regulation 2016. Date of commissioning and commercial operation dates (COD) for each unit are:

Sl. No.	Units	Commissioning (12 Hours Trial Run at Full Load)	COD
1	Unit-1	13-06-2020	17-06-2020 (00:00 hrs)
2	Unit-2	29-06-2020	01-07-2020 (00:00 hrs)
3	Unit-3	20-01-2021	22-01-2021 (00:00 hrs)
4	Unit-4	10-02-2021	12-02-2021 (00:00 hrs)

Cumulative expenditure incurred up to 31st March, 2021 was ₹822589.00 Lakh, out of which an amount of ₹27891.00 Lakh was spent during 2020-21.

OTHER PROJECTS

Pradhan Mantri Sahaj Bijli Har Ghar Yajona – SAUBHAGYA

NEEPCO was entrusted to carry out Rural Electrification works in the State of Tripura under the "Pradhan Mantri Sahaj Bijli Har Ghar Yojana – SAUBHAGYA" scheme on behalf of TSECL, Tripura. The sanction order by TSECL was issued to NEEPCO on 27.07.2018. NEEPCO in turn issued order to the Contractor on 27.07.2018 itself. The works were undertaken in the two Districts of Sepahijala and South Tripura.

However, scope of the work was reduced in South Tripura District as it was decided in a meeting with TSCEL in presence of REC, that TSCEL would cover 2 (two) blocks (Rajnagar and Hrishyamukh) out of 8(eight) blocks originally assigned to NEEPCO.

Subsequently, in a meeting held on 28-12-2020 chaired by Principal Secretary (Power), Govt. of Tripura, some additional work of service connections under SAUBHAGYA Scheme in Sepahijala & South Tripura Districts was allotted to NEEPCO.

NEEPCO has successfully provided 12639 service connections in South Tripura and Sepahijala Districts of Tripura under SAUBHAGYA scheme.

Handing over and taking over formalities of service connections has already been initiated with TSECL and is in progress.

District wise statement showing achievement of completion of service connections including additional connections as on 25.03.2021 is given below:

Sl. No.	Description	Unit	Sepahijala District			South Tripura District		
			Target		Achieved	Target		Achieved
			As per Scope	As per DI		As per Scope	As per DI	
1	Service Connection	Nos.	5529		5729	5289		6910
2	ACSR Conductor	Km.	98.65	183.6	183.6	141.56	226.81	220.878
3	AB Cable 1 Ph	Km.	432.95	432.00	432.00	572.817	488.067	492.316
4	AB Cable 3 Ph	Km.	22.52	21.70	21.70	76.9965	51.410	49.587

**Note: D.I. = Dispatch Instruction.*

UPCOMING PROJECTS

Under S&I SCHEME: (Ownership Basis)		
S.N.	Project	Status
		HYDRO
1.	Wah Umiam St-III HEP (85 MW), Meghalaya	▪ MoA was signed between NEEPCO & Govt. of Meghalaya (GoM) on 20th April 2012. ▪ MoEF&CC recommended Environmental Clearance and shall be issued after Forest Clearance Stage –I (FC-I). ▪ FC – I is in process with the Forest and Environment Dept., GoM. As the degraded forest land required for Compensatory Afforestation could not be identified by F&E Dept., GoM, the matter was taken up with Hon'ble Minister, Forest & Environment, GoM and Hon'ble Chief Minister, GoM. ▪ Land survey for acquisition of private land is in process through concerned department of GoM. ▪ Efforts were initiated for identification of beneficiaries and finalization of PPA including cross border trading for sale of power from the project. ▪ The Central Electricity Authority meeting was held on 25.01.2021 in which the Authority opined there was no issue with the project technically, however, desired that the financial calculations needs to be relooked. Financial calculations were reworked and submitted to the CEA in March 2021. The CEA in its letter dated 12.07.2021 informed that the Authority in its meeting held on 10-06-2021 have agreed to accord the appraisal to the project, subject to submission of "Updated DPR" by NEEPCO. The updated DPR, duly taking into consideration the minor observations/ suggestions of various appraising groups during the course of examination of the DPR and the accepted financial calculation is submitted to the CEA on 15.07.2021.
2.	Wah Umiam St – I HEP (50 MW), Meghalaya	▪ These projects are located on the upstream of the Wah Umiam Stage-III HEP indicated above and were allotted on 12.03.2019. Thus, the whole Umiew basin has now been allotted to NEEPCO for development. ▪ Draft MoA was received from the State Government. NEEPCO furnished its observations and requested for review and necessary modification. Final MoA from Govt. of Meghalaya is expected soon. ▪ Pre-Feasibility Report (PFR) shall be finalized and preparation of DPR shall be taken up after signing of the MoAs.
3.	Wah Umiam St – II HEP (100 MW), Meghalaya	

NEEPCO has recently been allotted/ nominated for development of the following projects:

- **Nafra HEP (120 MW), Arunachal Pradesh:**
  - Government of Arunachal Pradesh (GoAP) conveyed allotment of the Project on 17.02.2021 for development on ownership basis with binding on NEEPCO of the subsequent decision of the current court case or any new case including arbitration.
  - Draft MoA and Copies of the Court appeal/ replies/ rejoinders etc. has been requested from GoAP on 11.03.2021.
- **Ujh Multipurpose Project (196 MW), UT of Jammu and Kashmir:**
  - In response to the communication received from MoP in October 2020, NEEPCO submitted its interest for the Project on 15.10.2020 and 10.11.2020.
  - All Hydro PSUs made presentation to the MoP and finally NEEPCO was nominated to Ministry of Jal Shakti for development of the project on Build and Transfer basis.

JOINT VENTURES:		
S.N.	**Project**	**Status**
		HYDRO
1.	Dibbin HEP (120 MW), Arunachal Pradesh.	▪ Shareholders' Agreement (SHA) was signed with KSK Energy Ventures Ltd. (KSKEVL) and KSK Electricity Financing India Pvt. Ltd. (KSKEFIPL) on 12.06.2014. ▪ Consideration of e-flow as per post TEC Basin Study Report brings down the Design Energy from 371 MU to 295 MU and the installed capacity gets revised to 80 MW. ▪ Various alternatives are being worked out to assess the viability of the project against the revised parameters. ▪ Meanwhile, KSKEVL has been registered under NCLT for liquidation. ▪ Put Notice to KSKEVL and KSKEFIPL was issued in September 2020 and response of only KSKEVL was received. ▪ It is decided to take Legal recourse on the issue.
2.	Siang Upper Stage-II HE Project (3750 MW), Arunachal Pradesh.	▪ MoA with the Govt. of Arunachal Pradesh was signed on 28th May, 2013 for development of the Project in Joint Venture between NEEPCO, NHPC and the State Govt. ▪ NEEPCO prepared the PFR and started the DPR activities involving M/s RusHydro International (India) Pvt. Ltd. However, all activities on the project are presently on hold as per the advice of MoP vide letters dated 18.11.2015 and 02.02.2016 and further studies on the installed capacity of the project is being worked out involving CEA, NEEPCO and other PSUs. ▪ As discussed with GoAP, survey for submergence area and land use pattern has been taken up involving NESAC.
3.	Kurung HEP (330 MW), Arunachal Pradesh	▪ MoA with the Govt. of Arunachal Pradesh was signed on 27th January, 2015 for development of the Project in Joint Venture. ▪ ToR clearance obtained and PFR prepared. ▪ Pre-investment approval is on hold as per DIB meeting on 18.01.2018. As directed, revisit of certain MoA clauses was taken up with GoAP. Matter was again taken up with Chief Secretary, GoAP on 17.03.2021, it is expected that the issue will be resolved at the earliest.

RESEARCH & DEVELOPMENT (R&D)

The following R&D Project was undertaken during the year 2019-20 and project is in progress during the year 2020-21.

"Design of an automatic communication system through Cloud computing using sensor based automated input for efficient operation of Ranganadi HEP with due emphasis on downstream concerns up to confluence with Subansiri River".

Expenditure incurred on Research & Development for the year 2020-21 is Nil.

E-GOVERNANCE / IT INITIATIVES

The ERP-SAP implementation works is in the Realization / Pilot Go Live Phase. The File Life Cycle Management (FLM) module and part of the Employee Self Services (ESS) module has been rolled-out in all locations. Activities related to Pilot Go-Live for 3 locations (Shillong, Guwahati and AGBPP) is in progress. The Enterprise wide Go Live is expected to be achieved during FY 2021-22.

In preparation for readiness of robust network connectivity for the ongoing ERP-SAP implementation, the Internet Bandwidth Pool from PGCIL has been increased to 200 Mbps from the existing 100 Mbps which is being centrally managed for distribution from the Central (Shillong) Head Quarter Hub except for Tuirial and TGBP which are presently on BSNL Point to Point Lease Line connectivity. A 10 Mbps Radio Frequency (RF) internet link from Airtel at Kimi under Kameng HEP and another 10 Mbps link from Jio Communication Ltd., for Tuirial HEP has also been commissioned during the period for better connectivity.

For control and authentication of IT Services, the Active Directory (AD) Services has been implemented in the Head Quarter Shillong in the first phase which is being extended to all other project/plant locations and offices.

In its endeavor for continuous improvement of services rendered and in response to the working and travelling challenges posed during Covid-19 pandemic situation, the IT department facilitated remote video Conferencing Solutions via Microsoft Teams and enabled various meetings, trainings, collaborations of official matters on this platform. Also, purchase and issuance of laptops, provisioning of Network Attached Storage Devices (NAS) and securing connectivity via VPN (Virtual Private Networks) were taken up. As a security measure, use of external storage devices like pen drives, external hard disks etc. has been disabled and stopped.

Ongoing IT initiatives like upgradation of the Network equipment and Consolidation of Servers have also been taken up. With the approved IT Policy in place, it is expected that the usage of IT Systems will be strengthened and will be consistent with the business goals of the Corporation.

Public Procurement Policy for Micro & Small Enterprises (MSEs)

The total value of goods and services procured from MSEs (including MSEs owned by SC/ST and women entrepreneurs) are as shown below:

Sl. No.	Description	2018-19	2019-20	2020-21
1	Total procurement in ₹ Lakh	18406.00	21856.59	71116.11
2	Total procurement from MSEs in ₹ Lakh	1302.00	943.56	4613.32
3	Total procurement from MSEs owned by SC/ST entrepreneurs in ₹ Lakh	63.00	295.71	551.59
4	Total procurement from MSEs owned by women entrepreneurs in ₹ Lakh	20.00	20.18	66.62
5	Percentage of procurement from MSEs out of total procurement	7.08%	4.32%	6.49 %
6	Percentage of procurement from MSEs owned by SC/ST entrepreneurs out of total procurement	0.34%	1.35%	0.78 %
7	Percentage of procurement from MSEs owned by women entrepreneurs out of total procurement	0.11%	0.09%	0.09 %

RIGHT TO INFORMATION (RTI)

The Right to Information Act, 2005, is implemented to promote accountability, transparency and efficiency. Apart from receiving off-line RTI applications, NEEPCO is also linked to the online system of RTI request & Appeal Management Information Systems, "RTIMIS" portal. Through this portal, on-line RTI applications are processed. Details of First Appellate Authority, Nodal officer, Public Information Officer (PIO) and Central Public Information Officers (CPIOs), are uploaded in the corporate website. Further, as per directive of the Central Information Commission (CIC) and in compliance to Section 4 of RTI Act, NEEPCO engaged the Indian Institute of Public Administration (IIPA), New Delhi for third party audit of proactive disclosure of information. The Institute has submitted its audit report for 2019-20, which is uploaded in CIC and in NEEPCO's website.

RTI Applications received & disposed during FY 2020-21 are shown hereunder:

Compliance of the RTI Act, during the year 2020-2021	
Number of applications/appeals received	101
Number of applications/appeals disposed	81

RISK MANAGEMENT POLICY

The Risk Management Policy (RMP), is effective from February, 2016. Thereafter, based on the recommendation of the Audit Committee, the Board of Directors (BOD) in its Meeting held on 10.05.2019 approved its amendment in regard to the methodology of computation of Risk Exposure as well as the minimum period for review of the RMP. The amended RMP was issued in May, 2019.

The Policy establishes a structured and disciplined approach to Risk Management, including development of Risk Register to guide and prioritize decisions on risk related issues. Various risks faced by the projects, plants and offices are being identified with their mitigation measures and are continuously monitored by the Corporate QSHE & Risk Cell. To ensure proper monitoring, the heads of projects/plants/offices submits quarterly status report on identified risks and mitigation measures to the Chief Risk Officer (CRO), who is the Nodal Officer of all risk related matters, for reporting it to the Risk Review Committee (RRC). The RRC annually apprise the same, after scrutiny, to the Audit Committee (AC) on the key risks faced by the Corporation and the mitigation measures undertaken/proposed. The AC presents the relevant findings to the Board of Directors for approval/guidance/advice.

Meetings of Risk Review Committee comprising of the 3(three) functional Directors are held annually to highlight and prioritize key risks and their mitigation measures.

HUMAN RESOURCE DEVELOPMENT (HRD)

Training and development can contribute enormously towards employee's performance, productivity and motivation for overall organizational growth. Training is an indispensable function, which is needed to learn, maintain and upgrade knowledge and skills throughout employees' working life. As such, HRD Department has been working towards facilitating the employees with quality training opportunities so as to help them acquire new skills, sharpen existing ones, help them to discharge present job responsibilities and also prepare them for future job roles. Apart from honing functional competencies, emphasis has also been laid to facilitate the employees with behavioural and management development programmes.

Owing to the outbreak of COVID pandemic and necessity of maintaining social distancing, online training has been imparted during the year.

- **HRD Highlights:**
  - **Details of training imparted to employees during the year:**
    (Total numbers of employees participating in training)

Grade Wise	Type of training		Total
	In-house training	External Training (Within India)	
Executive	103	205	308
Supervisor	62	1	63
Workman	85	5	90
Total	250	211	461

Category of Employees	Type of training		Total
	In-house training	External Training (Within India)	
➢ Employees of ST Category	72	40	112
➢ Employees of SC Category	22	29	51
➢ Employees of OBC Category	42	54	96

➢ Representation of women employees in training during the year:

Women Employees participated in training during the year	In-house	82
	External (within India)	06
	Total	88

➢ Training Man-days:

Total Training Man-days	In-house	655
	External (within India)	3375
	Total	4030

ANNEXURE – 3

REPORT OF CORPORATE GOVERNANCE

Corporate Governance deals with laws, practices and implicit rules that determine a company's ability to take informed managerial decision vis-a-vis its Stakeholders – in particular, its shareholders, creditors, customers, the State and employees. NEEPCO management tries to act in the best interest of all its stakeholders at all times and has adopted good Corporate Governance practices to benefit the greatest number of Stakeholders.

PHILOSOPHY ON CODE OF GOVERNANCE

(i) To have adequate control system in operation and provide information to the Board on a timely basis in a transparent manner so as to enable the Board to monitor the performance and ensure accountability of the Management.

(ii) To increase the efficiency of Business Enterprise for creation of wealth of the Enterprise and Country as a whole.

(iii) To ensure that Employees and Board subscribe to the corporate values and apply them in their conduct.

b) Any difficulties encountered during audit work including any restrictions on the scope of activities or access to required information.

16) Government audit- To review the follow up action on the audit observations of the C&AG audit.

17) Reviewing the findings of any internal investigations by the internal auditors/statutory auditors/other agencies into matters where there is suspected fraud or irregularity or a failure of internal control systems of a material nature and reporting the matter to the Board.

18) To look into the reasons for substantial defaults in the payment to the depositors, debenture holders, shareholders (in case of non-payment of declared dividends) and creditors.

19) To review the functioning of the Whistle Blower Mechanism.

20) To review the follow-up action taken on the recommendations of committee on public undertakings (COPU) of the Parliament.

21) Review and pre-approve all related party transactions in our Company. For this purpose, the Audit Committee may designate a member who shall be responsible for pre-approving related party transactions.

22) Review the Company's financial policies, commercial policies and risk management policies.
23) Evaluation of internal financial controls and risk management system.
24) Reviewing with the management, the statement of uses/application of funds raised through an issue (public issue, right issue, preferential issue etc.), the statement of funds utilized for purposes other than those stated in the offer document/ prospectus/notice, and the report submitted by the monitoring agency monitoring the utilization of proceeds of a public or right issue, and making appropriate recommendations to the Board to take up steps in this matter.
25) Scrutiny of inter-corporate loans and investments.
26) Valuation of undertakings or assets of the Company, wherever it is necessary.
27) Approval or any subsequent modification of transactions of the Company with related parties.
28) Review the following information:
    a) The management discussion and analysis of financial condition and results of operations;
    b) Statement of significant related party transactions (as defined by the Audit Committee), submitted by the management;
    c) Management letter / letters of internal control weaknesses issued by the statutory auditors;
    d) Internal audit reports relating to internal control weaknesses;
    e) The appointment, removal and terms of remuneration of internal auditors/chief internal auditor; and
    f) Certification / declaration of financial statements by the chief executive/chief finance officer.
29) To call for comments of the auditors about internal control systems, the scope of audit, including the observations of the auditors and review of financial statement before their submission to the Board and to discuss any related issue with the internal and statutory auditors and the management of the Company.
30) Review of the quarterly statement for deviation including report of monitoring agency, if applicable submitted to Stock Exchanges.
31) Appointment of the registered valuer and prescribing the terms and conditions as per section 247 of the Companies Act, 2013
32) Advise and evaluate on maintaining a proper system for storage, retrieval, display or printout of the electronic records.
33) Consult with the Internal Auditor for formulation of the scope, functioning, periodicity and methodology for conducting the internal audit.
34) The Audit Committee shall give the auditors of the company and the key managerial personnel a right to be heard in the meetings of the Audit Committee when it considers the auditor's report.
35) The Audit Committee shall oversee the vigil mechanism established for the directors and employees for reporting genuine concerns or grievances and shall provide for adequate safeguards against victimisation of employees and directors who use such mechanism. The Chairperson of the Audit Committee shall be directly accessible in appropriate and exceptional cases. In case of repeated frivolous complaints being filed by a director or an employee, the audit committee may take suitable action against the concerned director or employee including reprimand. Review contracts awarded on nomination / offer basis in terms of guidelines issued by the CVC / DPE/ other authorities, from time to time.
36) Carrying out such other functions as may be specifically referred to the Committee by the Company's Board of Directors and/or other Committees of Directors.

6. NOMINATION & REMUNERATION COMMITTEE

The Nomination & Remuneration Committee has been constituted in terms of DPE OM No. 2(70)/08-DPE(WC)-GL-XVI/08 dated 26th November, 2008. Further, in terms of Department of Public Enterprises (DPE) OM on Pay Revision and Section 178 of the Companies Act, 2013 applicable to a Government Company, the Terms of reference of the Nomination & Remuneration Committee are as under:

i) To decide the annual bonus / variable pay pool Performance Related Pay (PRP) and policy for its distribution across the executives (including Board Level executives) and non-unionized supervisors within the prescribed limits for each financial year.

ii) Identifying persons who may be appointed in senior management in accordance with the criteria laid down, and recommend to the board of directors their appointment and removal.

iii) Approval for any new appointments to be made by the Corporation.

The constitution of Nomination & Remuneration Committee as on 31st March, 2021 are as follows:

Sl. No.	Name	Chairman/ Member	Category (Independent/ Executive / Non-Executive)
1	Smt. Mala Sinha	Chairperson	Independent
2	Shri Saikhom Tikendra Singh #	Member	Independent
3	Shri Anil Kumar Gautam	Member	Non-Executive

Ceased from Directorship after reconstitution of the Committee.

The payments of remuneration to the employees of the Corporation are guided by the relevant Guidelines as issued by the Department of Public Enterprises.

During the year 2020-21 there was no Meeting of the Nomination & Remuneration Committee. The Company Secretary acts as the Secretary to the Committee.

7. CORPORATE SOCIAL RESPONSIBILITY COMMITTEE

The constitution of Corporate Social Responsibility Committee as on 31st March, 2021 are as follows:

Sl. No.	Name of the Director	Chairman/ Member	Category (Independent/ Executive / Non-Executive)
1	Shri Vinod Kumar Singh	Chairman	Executive
2	Smt. Mala Sinha	Member	Independent Director
3	Shri Saikhom Tikendra Singh #	Member	Independent Director
4	Shri Ujjwal Kanti Bhattacharya	Member	Non-Executive
5	Shri Anil Kumar	Member	Executive
6	Shri Hemanta Kumar Deka	Member	Executive

Ceased from Directorship after reconstitution of the Committee.

The Corporate Social Responsibility Committee met 3 (three) times during the year. The Company Secretary acts as the Secretary to the Committee.

Sl. No.	Name of the Director	Category (Independent/ Executive / Non-Executive)	Meetings held during respective tenure of members	Meetings attended
1	Shri Vinod Kumar Singh	Executive	3	3
2	Shri Anil Kumar	Executive	3	3
3	Dr. Hari Narayan Borkataky #	Independent	1	1
4	Shri Saikhom Tikendra Singh #	Independent	3	3
5	Shri Anil Kumar Gautam $#	Non-Executive	3	3
6	Shri Ujjwal Kanti Bhattacharya $	Non-Executive	Nil	Nil
7	Shri Hemanta Kumar Deka $	Executive	3	3
8	Smt. Mala Sinha $	Independent	Nil	Nil

$ Nominated as a member of the CSR Committee during the year.

Ceased to be a member of the CSR Committee during the year.

The detailed disclosure on Corporate Social Responsibility is enclosed as **ANNEXURE–10**.

8. DIRECTORS REMUNERATION

Our company being a Central Public Sector Undertaking, the appointment, tenure and remuneration of Directors are decided by the President of India. Hence, the Board does not decide remuneration of the Directors. Independent Directors are paid only sitting fees at rate fixed by the Board for attending the Board Meetings as well as Committee Meetings.

Details of remuneration of Functional Directors of the Company during the year 2020-21 are given below:

Amount in ₹

No.	Name	Designation	Salary & Allowances	Cont. to PF & Other Funds	Other Benefits	Total
1	Shri Vinod Kumar Singh	Chairman & Managing Director	48,69,127	4,22,779	17,77,354	70,69,260
2	Shri Anil Kumar	Director (Personnel)	46,03,880	3,64,718	13,23,608	62,92,206
3	Shri Hemanta Kumar Deka $	Director (Technical)	35,42,234	2,80,561	3,84,420	42,07,215
Total			**1,30,15,241**	**10,68,058**	**34,85,382**	**1,75,68,681**

$Appointed during the year.

9. DISCLOSURES:

There were no transactions of material nature with the Directors or the Management etc. which have potential conflict with the interest of the Company at large. As per requirement of Section 188(2) of the Companies Act, 2013 and Rule 8 of the Companies (Accounts) Rules, 2014, particulars of contracts and arrangements, during the financial year 2020-21, with related parties referred to in Section 188 (1) of the Companies Act, 2013 in Form No.AOC-2 is given in **ANNEXURE-2B.** The details of the Related Party Disclosure are included in notes forming part of the Accounts. The Company has been particular in adhering to the provisions of the laws and guidelines of regulatory authorities.

10. GENERAL BODY MEETING

The date, time and location where the last three Annual General Meeting were held are as under:

Financial Year	AGM No.	Date	Time	Location
2017-18	42nd AGM	24.09.2018	04.00 PM	New Delhi
2018-19	43rd AGM	24.09.2019	05.00 PM	New Delhi
2019-20	44th AGM	22.09.2020	03:00 PM	Through Video Conference

The details of the Special Resolution passed by the Company in its last three Annual General Meetings (AGM) are as under:

AGM No.	Date of AGM	Special Resolution passed
42nd AGM	24.09.2018	Nil
43rd AGM	24.09.2019	To create security by way of mortgage and / or hypothecation of the assets of the corporation for long term borrowings of ₹1,75,000.00 Lakh during 2020-21
44th AGM	22.09.2020	To create security by way of mortgage and/or hypothecation of the assets of the corporation for long term borrowings of ₹100,000.00 Lakh during 2021-22

11. SHAREHOLDERS INFORMATION

Since inception NEEPCO was a Wholly Owned Government of India Enterprise and the President of India and its nominees held 100% (Hundred Percent) equity shares of the Company. However, pursuant to the decision of the Government of India, a Share Purchase Agreement was signed between the President of India (Seller) and NTPC Limited (Buyer) on 25-03-2020. In pursuance to the Share Purchase Agreement dated 25-03-2020, the entire shares of NEEPCO held in the name of President of India (i.e. Government of India) and its nominee shareholders, were transferred to NTPC Limited and its nominee shareholders on 27-03-2020. NTPC Limited along with 6 other shareholders jointly holds 100% shares of NEEPCO w.e.f. 27-03-2020.

12. NAME OF DEBENTURE TRUSTEES WITH CONTACT DETAILS

Axis Trustee Services Ltd. 2nd Floor, Axis House, Bombay Dyeing Mills Compound Pandurang Budhkar Marg, Worli, Mumbai 400 025 Tele No: 022-24252525 / 43252525 Email: **debenturetrustee@axistrustee.in**	SBICAP Trustee Company Ltd. 202, Maker Tower 'E', Cuffe Parade Mumbai 400 005, Tele No:022-4302 5555 Fax No:022-4302 5500 Email: **helpdesk@sbicaptrustee.com**

For and on behalf of the Board of Directors

(Vinod Kumar Singh)
Chairman & Managing Director
DIN: 07471291

Dated: 26-08-2021
Place: New Delhi

ANNEXURE – 4

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENTS

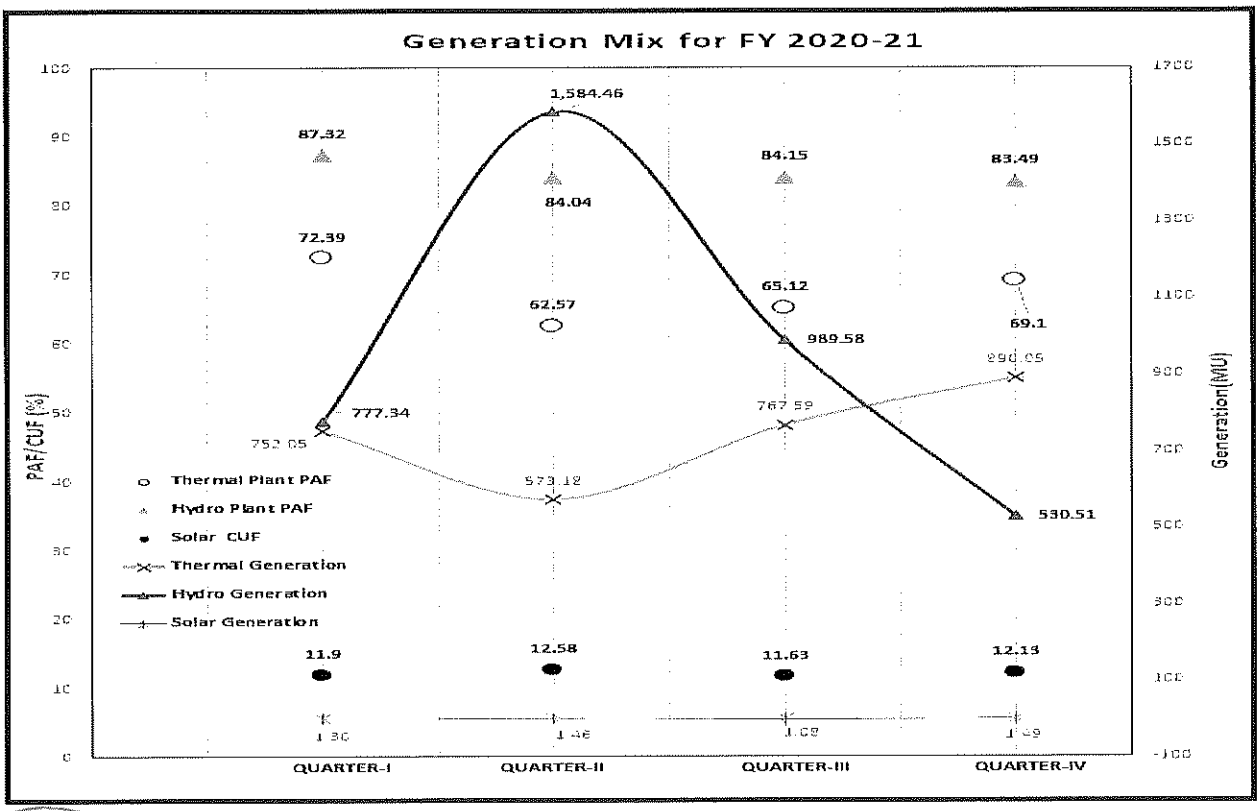
Electricity is one of the key enablers for sustaining the socio-economic growth of the country. Policies and schemes such as Make in India and Power for all, economic and population growth rate are likely to increase electrical energy requirement creating opportunities for the power sector companies for capacity addition.

As of 31st March 2021, the total installed capacity of India stood at 382.73 GW. Capacity addition from the Thermal and Hydro sectors during the financial year 2020-21 stood at 5436 MW, against the target of 11101 MW, which is 23.1% less as compared to the 7065 MW capacity added in the year 2019-20. Out of 5436 MW of capacity added during the year 2020-21, 4926 MW is thermal power and 510 MW is hydro power. [*Data source: CEA Executive Summary, March 2021*]

The electricity generation *(from conventional sources including hydro as conventional)* in the country in 2020-21 was 1234.44 BU registering a decline of 1.31% over 1250.78 BU electricity generated during the previous year. In terms of Power Supply Position (Demand/Availability) in the country, the deficit was 0.4% during 2020-21, while the shortfall in the NE Region was 4.3% during the same period. In terms of Peak Demand/Peak Met, the deficit in the country in 2020-21 was 0.4%, while that in the NE Region was 5.7%. [*Data source: CEA Executive Summary, March 2021*]

NEEPCO is keen to develop new power projects in a cost-effective manner with minimal impact on the environment. The successful implementation of 600 MW Kameng HE Project in Arunachal Pradesh during the year, the highest capacity addition, has enhanced its total installed capacity to 2057 MW registering an increase by 41%.

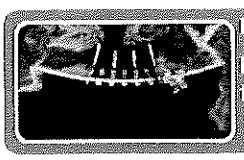
As on 31st March 2021, NEEPCO has a share of 42 % in terms of Installed Capacity in the NER. The Installed Hydro-Thermal Mix as on 31-03-2021 is at 74:26. The complementarity nature of energy generation from its gas and hydro based power installed capacities for the FY 2020-21 is shown in the plot below.



During FY 2020-21, NEEPCO recorded net electricity generation of 6869.86 MU, exceeding the MoU "Excellent" Target of 6600 MU. In terms of energy generation in FY 2020-21, the contribution to the NER grid is 37%. Other notable achievement during the year was providing electricity connections to 12639 households in Sepahijala and South Tripura districts of Tripura, thereby completing the target entrusted to NEEPCO under the SAUBHAGYA scheme.

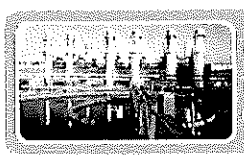
➢ **Overview of the Indian Energy Sector**

- Sources of Power with share in total Capacity of 382.73 GW:



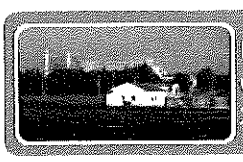
HYDRO (46.21 GW)

India has a huge Hydro power potential with present contribution of 12.07% of the total installed capacity (IC).



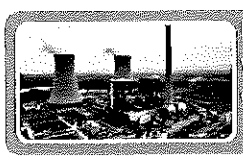
THERMAL (234.73GW)

Total installed thermal based capacity in India stands at 234.73 GW, with contribution of 61.33% of the total IC.



RES (95.01 GW)

Wind and solar energy constitute a major portion of India's renewable sector with 24.82% of the total IC.



NUCLEAR (6.78 GW)

With one of the largest reserves of thorium, India has a huge potential in nuclear energy, contributing 1.77 % of the total IC.

*RES includes Small Hydro Power, Bio Power, U&I, Solar and Wind Energy

- **Electricity Generation (BU)**

Particulars	Year	Thermal	Hydro	Nuclear	Renewable	Bhutan Import	All India
Electricity Generation (BU)	2019-20	1042.75	155.77	46.47	127.02	5.79	1377.80
	2020-21	1032.51	150.29	43.02	147.24	8.76	1381.82

- **Generating Capacity Addition (MW)**

Particulars	Year	Thermal	Hydro	Nuclear	All India
Capacity Addition (MW)	2019-20	6765	300	0	7065
	2020-21	4926	510	0	5436

[Data source: NPP &CEA Executive Summary]

SWOT MATRIX

INTERNAL

Strength

1. Premier power generating company with established presence especially in the North Eastern Region of the country.
2. In-house knowledge bank created through design, execution and operation of hydro, thermal and renewable projects in the region.
3. Pool of skilled manpower from the region are well versed with the topography and socio-economic conditions of the region.
4. Long term relation with Original Equipment Manufacturers aids in getting assistance on priority.

Weakness

1. Geographical isolation and difficult terrain.
2. Environment & Forest clearances require constant persuasions.
3. The Young Himalayan Geology is a major challenge.
4. Land Acquisition / Resettlement & Rehabilitation problems.
5. Lack of experienced contractors in the NER.
6. Unstable tele-connectivity. Fast track technology adoption is a challenge.
7. Contract implementation & settlement of disputes with contractors leading to many arbitration proceedings.

EXTERNAL

Threats

1. Social, Political and law & order issues.
2. Susceptibility of Hydro projects to opposition from various local groups.
3. Poor surface communication infrastructure and communication bottlenecks.
4. Shorter working season in the NER due to prolonged Monsoons.
5. High initial tariffs of hydro projects and financing issues.
6. Non-payment of dues by the beneficiaries against sale of power (Outstanding dues).
7. Dishonoring/ non-signing of PPAs by DISCOMS.
8. Non-availability of adequate quantity of gas for thermal power plants.

Opportunities

1. Hydro power shall play a vital role in grid stability with increasing use of variable form of generation from solar and wind energy.
2. NEEPCO is best suited for harnessing the untapped Hydro Potential of the country and is also geared up for hydro power development in neighboring countries as well.
3. Green funding of hydro projects on declaration of all hydro power projects as Renewable Energy.
4. Introduction of Hydro Purchase Obligation (HPO) will boost the saleability of hydropower.
5. Multipurpose utilization of the Hydro projects as flood moderation component in severely hit flood prone areas.
6. Huge potential of renewable power development in the country especially solar energy.
7. Increased emphasis on the Pumped Storage Plants (PSPs).

RISKS AND CONCERNS

- Termination of projects with dismal progress already allotted to private developers and re-allotment of such projects to CPSUs with the condition of binding the legal outcomes of these projects on the respective new allottee CPSUs particularly in Arunachal Pradesh.
- Finalization of MoAs of hydro projects as per the National Hydro Policy is a time-consuming process
- Land acquisition procedure for initiation & implementation of hydro plants is a cumbersome process.
- Commercial viability of hydro power projects is severely impacted due to prevailing norms regarding release of environmental flow (e-flow), payment of Net Present Value (NPV) towards diversion of forest land etc.
- Poor financial health of DISCOMs delays realization of outstanding dues.
- Contractual disputes leading to prolonged Arbitration proceedings.
- Lack of infrastructure and communication facilities at project sites along with subterranean geological surprises leads to time and cost overrun in implementation of hydro projects.
- Heavy and extended monsoons accompanied with frequent flash floods in NE region reduces the working period.
- Natural calamities like earthquakes and landslides are an added risk in the Young Himalayan geology.
- Non-availability of contracted quantity of gas for the Gas Based Thermal Plants result in reduced generation and Plant Availability Factor (PAF).
- Law and order issues.
- Unscientific extraction of coal in the catchment area of Kopili Hydro Electric Plant has been identified by Geological Survey of India as the primary reason for acidity of the reservoir water of the Plant since 2006, which is detrimental to the health of vital under water components, cooling water pipes, penstocks, etc.

KEY GROWTH DRIVERS

- To take advantage of India's Intended Nationally Determined Contribution (INDC) for climate change, for which Hydro Power of 65000 MW has to be developed by the year 2030.
- To take advantage of the following measures approved by the Government to promote Hydro Power Sector:
  - Declaring Large Hydro Power Projects (>25MW) as Renewable Energy source.
  - Hydro Power Purchase Obligation (HPO) as a separate entity within non-solar Renewable Purchase Obligation to cover large Hydro Projects commissioned after notification of these measures.
  - Tariff rationalization measures including providing flexibility to the developers to determine tariff by back loading of tariff after increasing project life to 40 years, increasing debt repayment period to 18 years and introducing escalating tariff of 2%.
  - Budgetary support for funding flood moderation component for storage hydropower projects on case to case basis.
  - Budgetary support to cost of enabling infrastructure, i.e. roads / bridges. The grant will be limited to ₹1.5 Cr per MW for projects up to 200 MW and ₹1.0 Cr. per MW for projects for above 200 MW.
  - Govt. of Arunachal Pradesh is in process of terminating a number of private sector projects in Arunachal Pradesh and their re-allotment to CPSUs.
  - Consistent persuasion by the Ministry of Power, for re-allotment of the major private sector projects with stalled/ dismal/ no progress.

STRATEGY

- Acquisition of both Greenfield & Brown field stalled projects for earliest capacity addition.
- Basin-wise development of hydro power projects in order to develop the basin in a cost-effective manner.
- To explore and develop hydro project in other parts of the country in addition to the NE Region.
- Study and develop Solar plants in the solar-rich regions of the country especially Ladakh.
- Possibility of acquisition / setting up of Pumped Storage Plants to be explored.
- Financial engineering as per the policy framework to contain the tariff of hydro projects within the threshold limit.
- Better contract management through incorporation of Geo-technical baseline report in the contract and selection of competent vendors for execution of contract.

North Eastern Electric Power Corporation New Delhi NEEPCO

- Effective project management after implementation of ERP system shall help to arrest hindrances and slippages.
- To explore the prospects of cross-border trading of electricity to the neighboring countries.
- Infuse investment in hydro projects in NE Region with the State Government taking the responsibility for security and infrastructure issues.
- Engage local community as stakeholders to address R&R issues.

OUTLOOK FOR THE FUTURE

Having already achieved an installed capacity of 2057 Megawatt, NEEPCO is geared up to undertake new power projects in hydro and in other renewable segment to bring about socio-economic development by implementing Power Projects in a planned and sustainable manner both within and outside the country. The matter is being pursued with the State Governments, Ministry of Power, and NTPC, its holding company, for allotment and development of power projects on ownership basis and also in collaboration.

The Govt. of Meghalaya has allotted the entire Wah Umiam Basin envisaging three hydel projects viz. the Wah Umiam Stage-I, II & III HEPs with a total installed capacity of 235 MW. Proposals for modification of certain clauses in the draft MoAs for 50 MW Wah Umiam Stage - I and 100 MW Wah Umiam Stage - II HEPs are under consideration by the State Govt., and the MoAs are expected to be signed shortly. The technical aspects of the DPR of 85 MW Wah Umiam Stage - III HEP has been agreed by the CEA and TEC is expected soon.

In addition to the already allotted 330 MW Kurung and 3750 MW Siang Upper Stage - II HEPs, basin wise development of hydro power projects in the State of Arunachal Pradesh is also on the agenda and accordingly two basins i.e. the Bichom Basin and Siang Basin has been identified. The Government of Arunachal Pradesh is constantly being pursued for allotment of the proposed projects in these basins, free from all encumbrances. Allotment of the 120 MW Nafra HEP in the Bichom basin has since recently been conveyed by the Govt. of Arunachal Pradesh and the draft MoA is being examined.

The Govt. of India is also considering implementation of the single stage Siang Upper Multipurpose Project of about 10000 MW combining the Stage-I & II HEPs and NEEPCO is expecting its association in development of the proposed project. Further, acquisition of some hydro projects in the state of Sikkim is being explored and persuasion is ongoing.

In an effort to expand its geographical reach and to reinforce its prominence in the development of clean energy, identification of renewable energy projects (hydro and solar) outside the NE Region of the country is being explored. Efforts are also being made for development of Pumped Storage Projects (PSPs). In the process, Ministry of Power (MoP) was requested for allotment of 196 MW Ujh Multi-Purpose Project in the UT of J&K. MoP has nominated NEEPCO for development of the project on Build and Transfer basis and has communicated the same to Ministry of Jal Shakti. Communication on allotment from Ministry of Jal Shakti is awaited. Also, NEEPCO in association with Solar Energy Corporation of India Ltd. (SECI) is planning to take up the ground work for establishment of solar and pumped storage plants in Ladakh in the Solar rich Kargil and Leh Divisions. To start the activities, an office at Saspol, Leh District with manpower is established.

Further, request has also been made to the MoP to nominate NEEPCO for execution of HEPs in Nepal and Bhutan etc., under the International Cooperation Program. Participation in various national and international bids for development of power projects as well as for providing consultancy services for power projects apart from acquisition of stressed projects through NCLT is also being considered.

Considering the above, future expansion plan is assuring and the Corporation is ready to utilize the opportunities for development of power projects and emerge as a major power project developer to realize the country's objective of Power for all, Make in India, energy security and socio-economic growth.

ENVIRONMENTAL CONSERVATION, RENEWABLE ENERGY USE AND R&D DEVELOPMENTS

Sustainable development of natural resources in the North Eastern Region of India to preserve the fragile ecological balance for future generations is of vital importance. The NE Region has vast power potential resources, which needs to be planned for development by giving special consideration to the unique natural environment and its preservation to maintain the ecological balance.

Possible impact on environment and ecology is taken into consideration and accordingly, suitable measures to negate any adverse effect on environment and ecology are adopted during the execution and operation & maintenance of its projects. Every care is taken to implement and abide by the laws of the land in respect of environment and ecological safeguards.

Being a Central Public Sector Enterprise under the Ministry of Power, Govt. of India, NEEPCO strictly follows and adheres to all policies and guidelines of the Ministry of Environment, Forest and Climate Change (MoEF&CC), Govt. of India (GoI) with

regard to identification and mitigation of Environmental impact of power projects, with due consideration to the distinctive environmental condition of the North East. In order to achieve the objective of sustainable development, Environmental Impact Assessment (EIA) is carried out for each project. All environmental aspects are looked into and suitably addressed in the Environment Impact Assessment & Environment Management Plan reports which are appraised by the Ministry of Environment, Forest and Climate Change (MoEF&CC), Govt. of India (GoI) while according Environment Clearance to a project.

Plant / Project	Environmental Works/Initiatives
PHEP Papum Pare District, Arunachal Pradesh.	• Catchment Area Treatment (CAT) is being taken up by the State Forest Department, Arunachal Pradesh, in Sagalee Forest in Papum Pare District. • Precautionary measures undertaken to control mosquito borne diseases. • Release of adequate water to sustain aquatic life & ecology in the downstream river even in lean season by embedded e-flow pipes of 40 cm dia. in the dam. • ₹45 lakhs released to State Forest Department in September 2019 to afforest an area of 1 ha @ 1600 tree/ha with Lagestroemia minuticarpa a rare plant species. Work is in progress. • Around ₹61.00 Lakh released to the State Forest Department during December, 2019 for development of Green Belt around various project appurtenances. Work is in progress.
KaHEP, West Kameng District, Arunachal Pradesh.	• Study on biodiversity and the habitat conservation with reference to the submerged area undertaken to obtain information on micro flora and fauna. Identification of migratory routes for wildlife has already been done. • Full cooperation and support extended to the State Government for implementation of Catchment Area Treatment (CAT) plan. ₹12930.00 Lakh was deposited with the Adhoc CAMPA Fund during 2017 for the said programme which shall continue for 10 (ten) years. • Green belt corridor is being implemented by establishing nursery in consultation/assistance of the Range & Horticulture Deptt. Nafra. • All physical & biological steps taken/initiated for checking soil erosion and degradation of land. • Establishment of a botanical garden covering an area of 1 sq. km to rehabilitate rare, endangered and medicinal flora species is in process. • It is proposed to utilize the reservoirs for the purpose of propagation and production of fish varieties suitable for the region. • Full cooperation and support extended to the State Government for proper protection of wildlife along the project site.
TrHEP, Mizoram	• Full cooperation and support extended to the State Government for implementation of Catchment Area Treatment (CAT) including creation of green belt. • Compensatory afforestation was executed by the Dept. of Forest, Govt. of Mizoram. • Anti-poaching scheme was implemented for conservation/ protection of fauna and flora of the catchment area. • Prevention of malaria by spreading of DDT and immunization was carried out in association with health Authorities of the Govt. • Survey of flora and fauna in the area with the help of Mizoram University is completed. • Areas which have potential threat to landslide have been stabilized by construction of road side drains, retaining walls, breast wall. • A Multi-disciplinary committee by the State Govt. constituted to monitor progress of environmental safeguards. • 50 tree saplings were planted during 2020-21 with a survival rate of 100%.
RHEP, Lower Subansiri District, Arunachal Pradesh.	• Catchment Area Treatment has been carried out as per approved plan. • Compensatory afforestation (CA) has been carried out as per approved plan. • Six monthly monitoring of air & water quality is being done by an authorized firm of pollution control board, Assam. • The 'Consent to operate" authorization issued by the State Govt. declares that there no hazardous waste generated from the plant. • Waste management of Domestic, Industrial and E-waste is implemented. • 265 tree saplings were planted during 2020-21 with a survival rate 98.11%.

Plant / Project	Environmental Works/Initiatives
DHEP, Nagaland	• Implementation of CAT is completed. • Engineering measures like construction of 300 nos. of check dams and gully plugging executed through department of forest, Govt. of Nagaland. • Nurseries in 20 villages, executed through department of forest. • Cooperation for up-gradation of tissue culture lab of the forest department including maintenance and running cost of the same for 3 years. • Green belt is being maintained departmentally. • Waste management of Domestic, Industrial and E-waste is implemented.
KHEP, Assam	• Catchment Area Treatment (CAT) of area lying in Assam was executed through N.C. Hills Autonomous District Council. CAT plan in Meghalaya has been taken up with Soil conservation department, Govt. of Meghalaya. • Plant Resource Center (Botanical garden) and Green Park is regularly being maintained. • Submission of six-monthly report to MoEF & CC is being done. • Six monthly monitoring of air & water is being done by an authorized firm of pollution control board, Assam. • Waste management of Domestic, Industrial and E-waste has been implemented. • 104 tree saplings were planted during 2020-21 with a survival rate of 84.62%.
AGBPP, Assam	• Two green parks (6600 m^2 of area) are being maintained inside the colony. To maintain the green parks, a nursery cum botanical garden with vermicomposting centre has been developed. • Waste management of Domestic, Industrial and E-waste has been implemented. • Water Management and Water Harvesting are in place. • Online monitoring system of stack emission for measuring NO_x, SO_x, SPM and discharge effluent is in operation and it is linked with CPCB & ASPCB server. • Noise level of various location of plant area is being measured quarterly. • 77 tree saplings were planted during 2020-21 with a survival rate of 98.70%.
AGTCCPP, Tripura	• Continuous Emission Monitoring System (CEMS) for continuous monitoring of NOx, SO_x, CO_2, CO, Suspended Particulate Matter (SPM) and discharge effluent is in operation. Remote Calibration Device and SPM analyzer devise in CEMS panel successfully installed. The Central Pollution Control Board (CPCB) and State Pollution Control Board (SPCB) can view the emission data in real time. • Liquid effluent generated is discharged after proper treatment. It is planned to recycle the treated effluent water. • Quality of water is being monitored at regular intervals. • A green belt with average width of 100 meters around the Power Station including office and colony complex with plantation of 45081 plants are being maintained. • 55 tree saplings were planted during 2020-21 with a survival rate of 98%.
TGBPP, Tripura	• Disposal of effluent after treatment is done through 3.0 KM pipeline into the Gumti River. • Development of green belt, control of air pollution and rain water harvesting are in place. • Dry low NO_x (DLN) burners are incorporated in the gas turbines for limiting NO_x emissions. • Online monitoring system of stack emission for measuring NO_x, SO_x particulate matter and discharge effluent is in place. • Noise level of various location of plant is being measured quarterly. • 100 tree saplings were planted during 2020-21 with a survival rate of 100%.

REHABILITATION AND RESETTLEMENT ASPECTS

Resettlement and Rehabilitation (R&R) Plan forms a part of the Environmental Impact Assessment and Management Plan Reports (EIA and EMP) and is assessed and approved by the Expert Appraisal Committee (EAC) of Ministry of Environment, Forest and Climate Change (MoEF&CC) for according Environmental Clearance to the project. The R&R Plan for project affected families for ongoing projects has been prepared based on National Policy for Rehabilitation and Resettlement, 2003 and as per National Rehabilitation and Resettlement Policy, 2007 (NRRP-2007). For new and upcoming projects, the provisions of the R&R Plan would be according to the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 and its amendments which come from time to time. The R&R Plan is implemented in association with the concerned State Government, representatives from project affected families and other stakeholders

in the area. Considering the plight of those who have sacrificed their resources for the larger benefit of the society, ways and means has to be explored and implemented to protect their rights in general and the rights of vulnerable sections in particular, as an attempt towards sustainable developments. In the process, NEEPCO explores various viable alternatives and select the one causing least displacement or adverse impacts. Therefore, a detailed socio-economic survey is conducted before formulation of R&R Plan for the project affected families (PAFs) so as to assess the socio-economic and socio-cultural set-up of the affected families and local people. In future, in addition to Socio-economic aspects, a separate chapter on socio-cultural aspects based on study on Ethnography of the area will be included. For effective implementation & monitoring of R&R Plan of a project, NEEPCO in consultation with the concerned State Government forms a Project R&R Committee headed by Administrator for R&R (rank of District Collector of the concerned State Government) and Head of the Project being the Member Secretary of the Committee.

Plant / Project	R&R Works/Initiatives
PHEP Papum Pare District, Arunachal Pradesh	• Full compensation to all 277 affected families. • All 35 PAFs have been Resettled and Rehabilitated. • 32 nos. of local tribal people against the C&D category jobs have been recruited. • Another 50 Project Affected People were imparted ITI training for two years and 48 out of 50 have been absorbed in different categories in NEEPCO. • Offering scholarships to the eligible candidates from the project affected families. • Conducting capacity building training programmes for unemployed educated youths. • Cluster development livelihood programme on mushroom cultivation for 50 numbers of families residing in the vicinity of the project has been implemented.
KaHEP West Kameng District, Arunachal Pradesh	• Full compensation to all 98 affected families. • All 98 PAFs have been Resettled and Rehabilitated. • 88 persons from local ST people of Arunachal Pradesh have been recruited in NEEPCO. • Other initiatives and works include construction of village infrastructure, economic rehabilitation through agriculture, horticulture, dairying, poultry etc. and training farmers on agricultural activities.
RHEP Lower Subansiri District, Arunachal Pradesh	• Employment to 108 nos. land effected people. • Shifting of 27 families residing in Chun & Rub village to Potin duly developing the new rehabilitation site with water supply, approach road, school building, teacher's quarters and construction of hutments. • Construction of water storage tank and supply line at Rub Village under CSR-CD scheme is in progress.
DHEP, Nagaland	• Imparted training in 20 modules in 20 villages. • Imparted knowledge in development of micro enterprises for economic opportunities through a system of revolving fund in 20 villages.

FINANCIAL DISCUSSION AND ANALYSIS REPORT

A detailed discussion and analysis on financial statements of North Eastern Electric Power Corporation Ltd (NEEPCO/the Company) is furnished below.

The following paragraphs are with reference to "Notes to the Stand-alone Financial statement" of NEEPCO for the year ended 31.03.2021.

Restatement of Financial Statements for the year ended 31.03.2020 and as on 01.04.2019.

During the Financial Year 2020-21, NEEPCO has restated its Financial Statements for the FY 2019-20 and earlier years retrospectively in Compliance to "Ind AS 8 - Accounting Policies, Changes in Accounting Estimates & Errors". The said restatement was carried due to reason as stated below:

During the FY 2020-21, the Company modified/changed its Accounting Policy on "Revenue from operations - Revenue from sale of power" as follows:

"Sale of Power is accounted for based on tariff approved by the Central Electricity Regulatory Commission (CERC). In case of power stations where final tariff is yet to be approved by CERC, the sale of energy is provided for on the basis of provisional rate considering the Annual Fixed Cost submitted before the CERC through Tariff Petition as per the principles enunciated in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations 2019. For projects for which neither CERC approved tariff is available nor petition pending with the CERC, sale of energy is accounted for on the basis of tariff as agreed by the beneficiaries".

Accordingly, the Company has presented a third balance sheet at the beginning of the preceding period (i.e., as on 01.04.2019) in compliance to "Ind AS 1 - Presentation of Financial statements" for comparative information due to retrospective restatement in addition to the Balance sheet, Statement of Profit and loss, Cash flow and Statement of Changes in Equity and related notes for the year ended 31.03.2020 and 31.03.2021.

FINANCIAL POSITION

The Balance Sheet items are as discussed under:

1. Property, Plant & Equipment (PPE), Capital Work-in- Progress, Intangible assets and Intangible assets under development

The PPE, Intangible assets, Capital work-in-progress and Intangible assets under development of the Company are detailed as under:

(₹ in lakhs)

Particulars	As at March 31		% Change
	2021	2020	
Gross block of Property, Plant & Equipment (PPE) (Note-2)	18,06,020.08	10,02,265.61	80.19%
Net block of Property, Plant & Equipment (PPE), (Note-2)	1349807.25	609778.57	121.36%
Capital work-in-progress (CWIP) (Note-3)	16896.60	774042.04	(97.82%)
Net block of Intangible assets (Note-4A)	8842.39	8599.63	2.82%
Intangible assets under development (Note-4)	649.91	501.44	29.61%

During the year, increase in gross block of PPE is ₹8,03,754.47 lakhs (i.e., increase by 80.19%) and in net block is ₹7,40,028.68 lakhs (i.e., increase by 121.36%) over the previous year. The major reason for significant increase in gross block and net block of PPE during the year is declaration of commercial operation of all the generating units of Kameng Hydro Power Project (600 MW) of the Company during the period of June 2020 to February 2021 and accordingly, capitalization of all plant assets of the power station during the current financial year. With capitalization of Kameng Hydro Power Project assets lying under CWIP during the current financial year, CWIP balance has been significantly decreased by ₹757145.44 lakh (97.82%) over the previous year.

In addition, Intangible assets under development increased by ₹148.47 lakh (29.61%) and Intangible assets increased by ₹242.76 lakhs (2.82%) over the previous year.

2.Investment in subsidiary &jointventure companies (Note-5)

(₹ in lakhs)

Particulars	As at March 31	
	2021	2020
Investment in Joint ventures	2793.00	2793.00
Less: Provision	2793.00	-
Total	**Nil**	**2793.00**

Investment in the joint venture companies as on 31.03.2021 is as under:

(₹ in lakhs)

Name of Company	Amount
KSK Dibbin Hydro Power Pvt Ltd	2793.00
Less: Provision	2793.00
Net	**Nil**

The Company invested an amount of ₹2793.00 lakhs, being 30% shareholding of NEEPCO in the JV Company as per agreement. NEEPCO is under the process of exploring various scopes & opportunities for ensuring viability of M/s KSK Dibbin hydro Power Pvt Ltd, the Joint Venture Company, including engagement of legal expert to protect the Company's (NEEPCO) interest for the investment made. However, considering commercial non viability of the project in its present form as observed by inter-disciplinary committee of the Company, provision of equivalent amount has been made in books of NEEPCO during the current financial year.

3.Non-current financial assets (Note-6 and Note-8)

Non-current financial assets mainly comprise of loans &advance to employees, advance tax refundable, capital advances etc.

(₹ in lakhs)

Particulars	As at March 31		% Change
	2021	2020	
Loan to Employees (Note-6)	28.30	58.69	(51.78%)
Other non-current assets (Note-8)	18667.86	22797.56	(18.11%)
total	**18696.16**	**22856.25**	(18.20%)

(₹ in lakhs)

Particulars	Regulatory deferral Accounts Debit Balances	
	As on 31.03.2021	As on 31.03.2020
A. Opening balance as on 1 April	79861.53	69229.44
B. Addition during the year	5944.15	13572.42
C. Amount realized/adjustment during the year	(1421.60)	(2940.33)
A. Closing balance as on 31 march 2020 (A+B+C+D)	**84384.08**	**79861.53**

6. Total Equity (Note- 16 & 17)

The total equity of the Corporation as on 31st March 2021 & as on 31st March 2020 amounts to ₹645000.69 lakhs and ₹643528.99 lakh respectively.

(₹ in lakhs)

Particulars	As on 31.03.2021	As on 31.03.2020
Opening balance as on 1 April	643528.99	628917.57
Profit for the year	4790.15	19628.16
Other comprehensive income	(818.45)	(315.08)
Dividend and Dividend Tax paid	(2500.00)	(4701.66)
Balance as on 31 March 2021	**645000.69**	**643528.99**

a) Equity Share Capital (Note 16)

Equity Share Capital of the Corporation as on 31st March 2021 is ₹360981.04 lakhs, which is same as on 31st March 2020.

b) Other Equity (Note 17)

NEEPCO's other equity consists of General reserve, Retained earnings and Bond redemption reserve. The other equity as on 31st March, 2021 was ₹284019.65 lakhs as compared to ₹282547.95 lakh as on 31st March, 2020. Category-wise break-up as follows:

(₹ in lakhs)

Particulars	As on 31st March, 2021	As on 31st March, 2020
General Reserve	197691.68	197691.68
Retained Earnings	21273.80	19802.10
Bond Redemption Reserve	65054.17	65054.17
Total	**284019.65**	**282547.95**

7. Non-current and current liabilities

Long term borrowings (Note 18)

Long term borrowing (Principal amount) as at 31 March 2021 and as at 31st March 2020 are ₹755433.34 lakhs and ₹723006.61 lakhs respectively. Current maturities out of long-term borrowings have been shown under current liabilities. Details of the total long term borrowings (Principal amount) are as under:

(₹ in lakhs)

Particulars	As at march 31	
	2021	2020
Non-current borrowings	659230.20	574163.87
Current maturities (in one year or less) of non-current borrowings	96203.14	148842.74
Total long term borrowings	**755433.34**	**723006.61**

A summary of long term borrowing (Principal amount) outstanding are given below:

(₹ in lakhs)

particulars	non-current financial liabilities (note-19)		other current financial liabilities (note-23)		Total borrowings		%
	2021	2020	2021	2020	2021	2020	Change
Secured borrowings							
Bonds	454850	474700	69850	95850	524700	570550	-8.04%
