

**NIB for Design, Engineering, Supply, Installation and Commissioning of IP Video
Surveillance System at its Corporate Office in Shillong, Meghalaya
NOB No. 86 dated 29.11.2013**

Bid document Cl. reference	Prospective bidder's query	NIB Terms and Conditions	NEEPCO's Comment
Scope of work-Sl. No. 2 at Page-2, Section-IV of bid document	In the page no 2, section no IV for technical condition you have asked for recording and 30 days storage for the videos, but you have not mentioned the technical specifications for the storage requirement. Hence we request you to please look into the same and help us regarding details of technical compliance in regards of storage devices for the above mentioned.	The system should be able to provide adequate alerts and alarms including auto recording and 30 days storage for post event analysis.	The storage device presently available in Storage server of the Purchaser will be utilized for storing video stream if it exceeds the capacity of the video management server of 1 TBx2 hard drive or higher as mentioned in the Technical Specification of Video Management Server Hardware in Data Sheet 4.
