Vol- II

Activities being undertaken
by NEEPCO in Respect of
COVID-19 Outbreak

North Eastern Electric Power Corporation Ltd.

#IndiaFightsCorona Covid-19

As the nation enters the third week of lockdown, more challenges are emerging in terms of relief efforts and preventive measures to control the spread of the virus.

Despite the difficult terrain and climatic conditions, inaccessible locations, lack of transport connectivity and constant network interruptions, NEEPCO has been tirelessly working to enforce stringent precautionary actions in all its Projects and Offices.

All work areas and installations are being sanitized while personnel are subjected to regular thermal scanning to identify potential infections and data is being compiled daily for reference and trend observations.

As proactive measures, awareness campaigns and medical checkups were carried out to benefit the local people, while also preparing isolation beds around all its locations and also while ensuring essential supplies reach the needy despite transportation challenges.

In the wake of COVID-19 Lockdown, we could see innovations like making our own PPEs, Hand sanitizers, etc. for consumption by its health workers and employees. Even some children went out to donate something to the frontrunners in fight against Corona COVID-19 Outbreak.

GLIMPSES OF ACTIVITIES AS ON 9th APRIL 2020

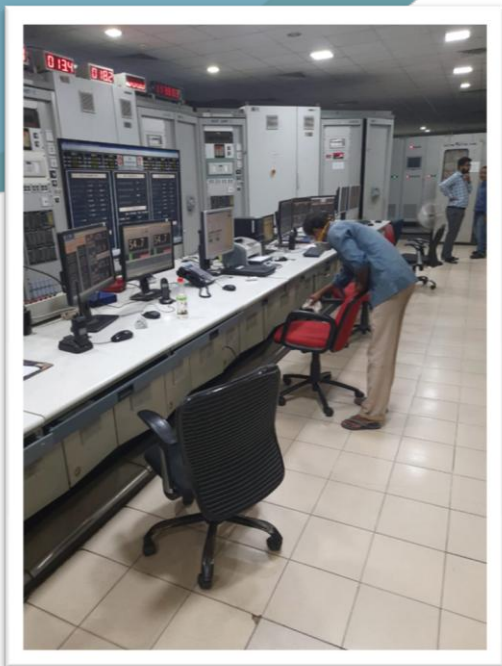

Sanitization Works:

All indoor areas such as entrance lobbies, corridors and staircases, elevators, security guard booths, office rooms, meeting rooms have been sanitized. High contact surfaces such as elevator buttons, handrails / handles and call buttons, escalator handrails, public counters, intercom systems, equipment like telephone, printers/scanners, and other office machines have been thoroughly cleaned and sanitized. Hand sanitizing stations have been installed at entry points.
