NEEPCO Fights COVID-19 Pandemic

Our priority is ensuring the health and safety of all our employees, apart from sanitization of office spaces and infrastructure also to the local community residing around the projects apart from District Administration.

We continue to monitor the status of health of our employees and other workers through regular scanning and temperature checks and their status in Aarogya App across our operations.

We are providing free masks and food relief to the communities around our projects while also reaching out to them to spread awareness while our medical teams continue to be on high alert for any emergencies to assist and provide relief to local people. Sanitization of community infrastructure is also being carried out in collaboration with local authorities.

In anticipation of partial opening up of offices, an SoP has been prepared and issued to all offices for strict compliance for the workplace safety and creating awareness for employees and their family members.
