

PREFACE

Today, in the age of competition, an organization's ability to take swift decisions plays a vital role in its survival and success. Effective delegation of power plays an important role in quick and effective decision making in an organization which leads to efficient functioning and expeditious execution of various works. With this objectives in mind, the Board of Directors in its 191st Meeting held on 20.11.2012 reviewed and revised the "Powers Delegated to the Chairman & Managing Director". Subsequent to this, the "Works and Procurement Powers"- (Section –I), "the Personnel Powers" (Section-II) and "Administrative Powers"- (Section –III) have also been revised.

The Revised Delegation of Powers of the Corporation (2012) is being issued with the objective that the decision making process in the Corporation shall be expedited which in turn shall translate to faster execution of works, while ensuring prudence and propriety. I am sure that the revised DOP shall further help its users in discharging their duties more effectively.

The 27th December, 2012
