OR

ii) Two similar completed works costing not less than the amount equal to 50% of the estimated cost.

OR

iii) One similar completed work costing not less than the amount equal to 80% of the estimated cost.

Note: Similar works for (i), (ii) & (iii) above means lawn maintenance works.

Copy of Bidders PAN Card, GST Registration, EPF registration & Labour Licence are to be submitted along with the application.

Application requesting for purchase of tender documents should invariably accompany the documentary evidence satisfying the condition as listed at Sl. 9 (i), (ii) & (iii) above and requisite fee for tender documents.

10. Special Condition :

- (i) The intending bidders are requested to visit the worksite to assess the requirement of the work before submission of their tenders.
- (ii) Adequate number of Agriculture/ Horticulture workers/ Malis at the site of the work shall have to be made available to attend the job who will work for a period of 4(four) hours a day. In addition to this, any kind of emergency duty shall have to be attended immediately, if asked to do so.
- (iii) The payment will be made on monthly basis from the date of commencement of the work. Bill for any broken period of months shall be paid proportionately on the basis of time and area of work.
- (iv) The contractor has to arrange for watering the area regularly as and when required to keep the lawn green and uniform looking. The water points at specific locations will be made available by the department.
- (v) The good earth necessary for maintenance of flower beds will have to be mixed with the manure before being used for flower beds.
- (vi) No store material is involved in this work.
- (vii) If the performance of the contractor is not found up to the mark or confirming to the requirement, then NEEPCO reserves the right to cancel the work order with prior 1(One) month of notice.

11. Scope of work : The scope of the work includes regular weeding, trimming, watering, manuring etc. or all other activities which are not specifically mentioned but required to keep the grass green and uniform looking. The various activities involved in the work are as follows :

- (i) **Watering :** Adequate watering of Broad leaf grasses, trees, hedges, shrubs, flower beds ... etc. with hose pipe or sprinkler system in different areas should be done regularly to maintain the ' GREEN CARPET ' appearance of the lawn. Care must be taken to avoid insufficient or excessive watering, wastage of water and damage to the tender plants and flower beds.
- (ii) **Hoeing, Weeding :** The soil near the plants should be loosened by breaking the clods, removing unwanted vegetation, dressing up the areas to the required slope and shapes. Further, all the unwanted plants/ weeds and wild growth should be removed along with their roots. In addition to this, all the weeds hidden under the grass or otherwise shall also have to be removed.
- (iii) **Lawn mowing :** Lawn mowing to take place at a regular interval of 10 days or as per the direction of the Engineer-in-charge.].
- (iv) **Maintenance of Flower Beds :** The contractor shall execute the planting of approved seasonal flower beds and maintenance of the same to boost maximum bloom. The beds shall be replanted after the season for old plant is over or as directed by the Engineer-in-charge. The flower beds should be prepared by excavating appropriate depth of the soil, adding Good Earth, Cow Dung, Manure, Fertilizers...etc. and finally planting of saplings/ seedlings prepared in a Nursery in a pattern as directed by the Engineer-in-charge. The flower beds shall be kept clean and free of stones, woods, plastic and other undesirable matter.

The flower beds should be bifurcated from the rest of the lawn by placing bricks in various patterns and designs. Further, the bricks should be painted with white wash. The bricks required for the same shall be supplied by NEEPCO. Further, the trunks of the trees must also be painted with white wash. The white washing of the bricks and tree trunks shall be carried out **two times in a year** or as directed by the Engineer-in-charge.

- (v) **Maintenance of Hedges :** The hedges should be trimmed properly so that the top and the sides of the hedges are in a good shape. The hedges shall be maintained by regular watering, raking of soil, pruning, manuring, weeding and applying pesticide/insecticide/ fungicide whenever required or as per the direction of the Engineer-in-charge.
- (vi) **Applying pesticides like insecticide, fungicides ...etc. :** The contractor should carry out periodic check of various plants and trees of the lawn to get information regarding presence of any pests and diseases. In the event of infestation, the contractor shall apply pesticides like insecticides, fungicides as per the doses required to keep them free from pests, diseases and any sudden outbreak of epidemic.
