

Pre-bid Clarification No. 01 Dated 20.02.2025 to Queris/Representation on stipulations of Bid Document/ATC against GEM Bid No. GEM/2025/B/5940706 Dated 12.02.2025 for "Geophysical Investigation in Downstream Face of Doyang Dam at Doyang Hydro Power Station, Nagaland"

(This Pre-bid Clarification shall supersede the corresponding stipulations of the Bid Document/ATC, wherever these are at variance)

Sl. No.	Reference to Bid Document/ATC Clause	Provision of Bid document/ATC	Query/Representation of Bidder/Seller	NEEPCO's Clarifications
1	2 nd Para of Cl. 1.5.2 of Instruction to Bidders	"Similar nature of works" means Geophysical investigation of rockfill dam for ascertaining weak zone or suspected cavity, geo-mechanical attributes of the materials of dam body and ascertaining seepage etc as per scope of work indicated above.	We would like to draw your attention to clause 1.5.2 Technical Qualifying Requirement at page 6 of 88 wherein similar nature of works has been defined. The clause is reproduced below: "Similar nature of works" means Geophysical investigation of rockfill dam for ascertaining weak zone or suspected cavity, geo-mechanical attributes of the materials of dam body and ascertaining seepage etc as per scope of work indicated above." We request you to amend the clause to permit experience of working on earthen dam in addition to rockfill dam because the field work, geophysical techniques (ie ERT, SP and MASW) and methodology is same for rockfill and earthen dams.	The Bid Stipulations under 2 nd Para, Cl. No. 1.5.2, Instruction to Bidders of Bid Document/ATC is modified as below: <i>"Similar nature of works" means Geophysical investigation of rockfill dam or earthen dam for ascertaining weak zone or suspected cavity, geo-mechanical attributes of the materials of dam body and ascertaining seepage etc as per scope of work indicated above.</i> Please refer Corrigendum No. 01 Dtd. 20.02.2025.
