

### Pre-bid Clarifications No. 5

| S No | Query/Concern                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | NEEPCO's reply                                                                                                                                                              |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1    | Further, we also request that as per the Corrigendum, Annexure 3 there is a requirement of the Joint Deed to be signed by CSP & MSP with NEEPCO, as we explained in pre bid most of the Global CSP can not enter into any Deed. The Authorized MSP can enter in to this agreement who has the backend long term Agreement with CSP for providing Services & SLA. <b>This Clause was not there in the other Similar tenders prepared by NTPC Consulting for SAP Services (attached the tender document for the NTPC Tamilnadu Energy Company &amp; Aravali Power Company &amp; Meja Urja Power).</b> Why this specific clause for NEEPCO Tender | Already clarified under Sl. No. 5 of Corrigendum No. 2 dtd. 22/04/2021 and Sl. No. 1 of Pre-bid clarifications No. 3 published alongwith Corrigendum No. 3 dtd. 05/05/2021. |
| 2    | Tender calls for the "The bidder should be certified by SAP to provide SAP operations." - There is no such certification. Can you help us exact Certification that you are looking for the bidder, also is it required from bidder or CSP.                                                                                                                                                                                                                                                                                                                                                                                                     | Already clarified under Sl. No. 2 of Pre-bid clarifications No. 3 published alongwith Corrigendum No. 3 dtd. 05/05/2021.                                                    |
| 3    | As per the NTPC Consultancy Tender (refer page 15 of SOW) for SAP also tender called for the <b>"The SAP system should be deployed on SAP certified Virtual Machines(VMs) on cloud infrastructure. Requisite evidence to be provided along with the bid"</b> we request since the scope is same for the this tender, it should be must have criteria.                                                                                                                                                                                                                                                                                          | Already clarified under Sl. No. 112 and Sl. No. 115 of Pre-bid clarifications published alongwith Corrigendum No. 2 dtd. 22/04/2021.                                        |
