

STATUS REPORT

Vol-VIII

Activities being undertaken by
NEEPCO in respect of COVID-19 Outbreak

North Eastern Electric Power Corporation Limited

#IndiaFightsCorona Covid-19

The Corporation continued strict measures for prevention of COVID-19 in all Offices Establishments, Township Colonies. Entry of people, goods and vehicles are strictly monitored with thermal scanning, hand sanitization of persons entering the gate. All vehicles, goods entering the office premises are thoroughly sanitized.

With coming back of employees and other outsourced workers to the workplaces, strict measures as per protocols in the Quarantine Facilities become the priority in all township colonies. Additional Quarantine Centers were opened for Kameng HE Project, Arunachal Pradesh, Doyang HE Plant, Nagaland.

Routine health monitoring of people under Quarantine by the Corporation's Health & Medical Staff are carried out on daily basis and deep cleaning & sanitization of Quarantine Centers were undertaken in all Quarantine Centers. One lone case of COVID positive patient of AGTCCP, Agartala recovered and released after successful completion of Quarantine period.

How should I wash fruit and vegetables in the time of COVID-19?

Wash them the same way you would in any other circumstance.

Before handling them, wash your hands with soap and water.

Then, wash fruit and vegetables thoroughly with clean water, especially if you eat them raw.

17 April 2020

How can I grocery shop safely in the time of COVID-19?

When grocery shopping, keep at least 1-metre distance from others and avoid touching your eyes, mouth and nose. If possible, sanitize the handles of shopping trolleys or baskets before shopping. Once home, wash your hands thoroughly and also after handling and storing your purchased products. There is currently no confirmed case of COVID-19 transmitted through food or food packaging.

#COVID19

17 April 2020

Can COVID-19 be spread through coins and banknotes?

There is currently no evidence to confirm or disprove that COVID-19 virus can be transmitted through coins or banknotes.

However, respiratory droplets expelled from an infected person can contaminate and persist on surfaces.

Wash your hands regularly and thoroughly after touching any frequently-touched surface or object, including coins or banknotes. Avoid touching your eyes, mouth and nose, if your hands are not cleaned.

17 April 2020

Can shoes spread the COVID-19 virus?

The likelihood of COVID-19 being spread on shoes and infecting individuals is very low.

As a precautionary measure, particularly in homes where infants and small children crawl or play on floors, consider leaving your shoes at the entrance of your home. This will help prevent contact with dirt or any waste that could be carried on the soles of shoes.
